

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 593

Qin Si and the Wei family were distant relatives. The two families had been moving around, so he did not rush over after getting off the plane.

However, he wasn't very interested in this matter. The elder was old and not in good health. It was normal for him to be sick.

The Qin family did not want to reap any benefits from this mess, and they did not bother to stand with the others. Naturally, they were not friendly.

However, since Zhang Yang wanted to ask Jiang Xianrou about the situation, he didn't mind listening. After all, they were elders, and it was not as if he did not care.

Not long after Jiang Xianrou arrived with Liang Lu, she was about to head to the inner courtyard when Zhang Yang stopped her.

When she saw Zhang Yang and Qin Si, she reluctantly stopped and roughly revealed the situation inside.

"Old Master Wei's condition isn't very good. He showed signs of being unconscious half an hour ago. Now that others are calling out to him, he doesn't have much of a reaction. He only answers occasionally and is clearly not conscious..."

The Wei family had kept Old Master Wei's condition a secret, and not many people knew about it. Hearing her serious tone, Zhang Yang was stunned. "It's that serious?"

Jiang Xianrou had followed Liang Lu's team over and was now considered one of the most anticipated members. She nodded. The person who had asked her was clearly Zhang Yang, but she looked up at Qin Si and said, "Anyway, Old Master Wei's condition this time is very dangerous. I'm afraid it's a stroke that will cause cerebral hemorrhage and blood clots in his skull. He has to undergo surgery immediately."

Qin Si hadn't woken up yet, and his eyelids were almost glued together. After hearing this, he woke up, frowned, and asked her softly, "How confident are you?"

Jiang Xianrou knew that he was asking about her confidence in the surgery. After some thought, she raised three fingers. "30%."

"So low?" Qin Si couldn't help but look surprised.

She pursed her lips and her eyes were arrogant. She said softly, "We still have to undergo the surgery immediately. My mentor said that there is a 30% chance that the patient might have hemiplegia. At this time, Young Master Wei insisted against the surgery. He said that the surgery is too risky and that the Old Master is too old. He's afraid that he wouldn't be able to hold on and insisted on waiting for someone to come. He insisted that that person might have a way to treat the patient even without surgery."

At this point, Jiang Xianrou's tone was filled with disdain. She said disapprovingly, "A stroke has always been solved by surgery. I've never heard of a way to treat it without surgery. He's just a layman. Don't be deceived by others! There isn't an expert in the field of neurosurgery in the country who is better than my mentor. If he continues to drag this on, it will only delay Old Master Wei's treatment and worsen the situation!"

Zhang Yang nodded and said confidently, "Indeed, there's no doctor in the country who is more professional than Professional Liang in the field of neurosurgery..."

As one of Liang Lu's personal disciples, Jiang Xianrou did not say anything. She pursed her lips, but her expression was filled with arrogance.

Qin Si glanced at her and did not retort.

Liang Lu was indeed very good in the field of neurosurgery. There were not many people in the country who could compare to her. Mr. Huang might be able to compare, but he had stopped doing so long ago. Another reason was... Mr. Huang was a master of Traditional Chinese Medicine, after all. No matter how good he was, he was still a Traditional Chinese Medicine practitioner. When a person's life was at stake, he couldn't compare to Western Medicine!

He heard that Wei Ying had paid a huge price to hire Liang Lu this time. He had agreed to help Liang Lu with her research project this year.

In the past, Cheng Feng Corporation had always been the one making money on the projects Liang Lu was working on. For some reason, Cheng Feng Corporation suddenly rejected Liang Lu's team's proposal this year and chose another project related to medical research. It even caused quite a stir in the medical world.

If Liang Lu didn't lack money, she probably wouldn't have dared to take over Old Master Wei's tricky operation. After all, ruining it would ruin her own reputation!
