

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 669

"Principal Liang, are you relieved now?" Nie Mi put his hand on the man's shoulder.

He wasn't surprised by Qiao Nian's choice. He knew that this was what she would say. That was why he had stopped Principal Liang when he was anxious to go to First High School to see her.

Because there was no need.

Qiao Nian wasn't the type to be swayed by the outside world.

Principal Liang slowly came back to his senses and nodded in joy. He smiled at Nie Mi. "Don't worry. I'm completely relieved."

"But."

The girl suddenly looked up at him and added slowly, "I still want to take the college entrance examination."

"Well, if you don't plan to change schools, why..." Principal Liang's heart, which had just relaxed, rose again. He asked with 120% spirit, "Is it about the overseas study quota..."

He thought that Qiao Nian did not understand how rare it was for the Medical Association to recommend someone.

"It's fine if you want to study abroad."

"It's not about studying abroad."

Qiao Nian's cold jawline was smooth as she replied coldly, "My classmates and teachers treat me very well. I want to score for them."

This reason...

President Liang was envious...

Meeting a genius student and being remembered by her was probably every educator's dream.

Her eyes were filled with arrogance as she asked, "Principal Liang, if I choose to go to Qing University, can I still take the college entrance examination this year?"

Principal Liang returned to his senses immediately. "Of course! What's wrong with that? As long as you only want to participate for your schoolmates and teachers, I have no objections. However, after the college entrance examination results are out, other schools will definitely look for you. You..."

The national college entrance examination champion was almost confirmed to be Qiao Nian.

At that time, schools like Nanjing University would definitely think of ways to poach her. When Principal Liang thought of this, he wished he could immediately mention Qiao Nian's file to their school, but it did not conform to the rules.

No matter how anxious he was, he had to wait until after the college entrance examination to confirm that she was going to Qing University.

Three months...

It was the first time he felt that time was too long.

Qiao Nian knew what he meant. Without waiting for him to finish, she nodded and said calmly, "I know. I'll only take the college entrance examination. I won't fill in my application."

In this way, only Qing University could bring her file away.

Principal Liang relaxed and let out a long sigh of relief. "That's good. If you don't fill in the college entrance examination application, you can take the college entrance examination as you wish. The school has no objections."

"Okay." Qiao Nian knew what to do.

Nie Mi listened by the side for a long time. When he saw that they had finally finished, he rubbed his eyebrows and said, "Are you done talking?"

"We're done. I'm relieved. Thank you, Master Nie. Otherwise, I don't know when I'd be able to stop and talk to her." Principal Liang chuckled and patted his stomach happily.

Nie Mi looked at his overjoyed expression and wanted to laugh. However, on second thought, he was the same. Back when Qiao Nian had agreed to learn from him, he had been so happy that he had been stunned and couldn't sleep all night.

He originally had a bellyful of teasing words, but he swallowed them silently.

Forget it, it was Qiao Nian!

Nie Mi glanced at him, raised his hand, and said leisurely, "Since the conversation is over, I'm relieved. Can we go eat? The breakfast on the plane didn't taste good.. I didn't eat much, so I'm a little hungry."
