

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 726

“...”

Master Cheng was really shocked this time.

He had seen many doctors in the past, but none of them had explained why his migraine would be accompanied by nausea and vomiting.

Liang Lu and the others asked him to check his stomach, suspecting that there was something wrong with it.

Only Qiao Nian said that it was a migraine complication.

“Then I...”

“I’ll give you acupuncture.”

Qiao Nian didn’t say anything else. She opened the zipper of her shoulder bag and took out a small cloth bag. She then unfolded it and saw a row of silver needles used for acupuncture. She took one out and looked at the exhausted old man. “Your condition is not serious, but it has been delayed for too long. You have to receive acupuncture first and take medicine later. Do you want to try?”

Bo Jingxing asked worriedly when he saw her take out a long and thin silver needle, “Sister Qiao, where do you want to insert this needle?”

“Acupuncture points on the head and temples.”

With that, she met a large group of confused eyes and raised her hand to rub her forehead. Recalling that they didn’t know where the acupuncture points were, she thought so she might as well be more specific.

“It’s mainly done in the head and the back of the neck.”

The head and the back of the neck were some of the most fragile parts of the human body.

Bo Jingxing revealed a cautious expression as he looked at Master Cheng and said hesitantly, “Master Cheng, you...”

He wanted to ask, “Do you want to consider it again?”

Unexpectedly, the old man came back to his senses and was much calmer than him. He looked at the girl with a relaxed expression. “Give it a try. Why not?”

“What do you need me to do?”

Qiao Nian quite liked his calm and composed attitude. With a sharp gaze, she said, "Just sit down. You don't have to do anything. As long as you don't move when you get an injection."

"Okay. Do it, then. I won't move."

Zhou Wei's face was tense. She was even more nervous than Master Cheng. She looked at the girl and said with a hint of warning, "Qiao Nian, Master Cheng is the best biological master in the country. If you're not confident, it's best not to mess around."

Qiao Nian was quite annoyed by her nagging. Not saying anything else, she turned to the man beside her and requested, "Can you get rid of the unrelated people? I want a quiet environment to give Master Cheng acupuncture."

Seeing that Master Cheng had agreed to let Qiao Nian try, Bo Jingxing didn't hesitate any more and instructed Luo Qing, "Go out with Team Leader Zhou first. Chen Zhu and the others can stay."

Luo Qing originally wanted to stay and watch Qiao Nian perform acupuncture on Master Cheng. However, he didn't dare to disobey Bo Jingxing. He turned around with a regretful expression and said coldly to Zhou Wei, "Team Leader Zhou, let's go. We'll wait outside."

Zhou Wei's expression was extremely ugly.

However, when Bo Jingxing's cold gaze swept over, she didn't dare to speak nonsense and followed Luo Qing and the others out unwillingly.

...

Outside, the door to the waiting room outside the laboratory was closed.

Zhou Wei pulled a long face since she came out. She leaned against the wall and refused to sit down.

Luo Qing was with the nine others.

There was no response for more than half an hour. Someone couldn't help but whisper, "Team Leader Luo, do you think Miss Qiao can really treat Master Cheng's illness with acupuncture?"

"How should I know?" Luo Qing clasped his hands together with a restless expression. It could be seen that he was quite nervous. He frowned and did not dare to confirm. "I think Miss Qiao looked very confident just now.. She should be able to do it. The person Master Wang found must have some skills!"
