

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 746

At least, Ye Wangchuan was attracted to her. His deep eyes were filled with love that could drown a person. His thin lips curled up and he chuckled as he looked at the girl standing there.

Bo Jingxing looked at him a few times.

Master Cheng was stunned. He looked at Qiao Nian carefully and saw that she probably did not want to say anything. He didn't ask further. He turned his head and said as if he had thought of something at the last minute, "By the way, does the young lady know about bioengineering?"

"Huh?" Qiao Nian put her hands in her pocket and looked at him silently with her dark eyes. Her red lips parted and she replied politely, "I know a little."

"Bioengineering is actually a very broad concept. For example, iris technology. When you came in yesterday, you should have noticed nine access systems. They're not fingerprint systems outside. They're identified by scanning the eyes of a person. This is also considered a type of bioengineering. It has to be included in the field of biological engineering..."

Qiao Nian listened to him quietly. Her fair side profile looked quite obedient. "Okay."

Seeing that she had listened, Master Cheng smiled and said without hiding anything, "I heard from Jingxing yesterday that you have good grades. You came in first in Qing University's examinations and scored full marks in all the subjects. Are you interested in studying bioengineering? I see that you have a calm personality and are very suitable for this."

He liked her.

She wasn't as particular about things as others.

He could those who were straightforward.

"If you're interested, I can take the time to introduce you to bioengineering while you're at the Ninth Branch."

However, this sentence still shocked the entire laboratory.

Bo Jingxing's fingers couldn't help but tremble. He temporarily hid the surging emotions in his heart and turned to look at the girl standing beside Master Cheng. A hint of surprise flashed across his eyes. He didn't understand why Master Cheng liked Qiao Nian so much.

Yesterday, when he thought that Qiao Nian was a new member of the Ninth Branch, he had invited her to his laboratory to do odd jobs.

After finding out that Qiao Nian was an outsider and a high school student today, he invited her to work on the student resource project.

One had to know that the Ninth Branch wasn't an ordinary place. Top students from major universities would fight tooth and nail for a spot, let alone the spot beside a master.

Qiao Nian... was overreaching.

"Tsk." Ye Wangchuan laughed again. His eyes were unrestrained and lazy, looking extraordinarily noble. He narrowed his eyes slightly, and he placed his hand in his pocket. His long legs leaned against the experiment table in a very charming manner. He looked at the girl's profile and did not say anything.

"How is it? Are you interested?" Master Cheng still didn't feel that he had dropped a huge bomb. He looked more interested than Qiao Nian herself and asked her again.

The girl hesitated for only a second before looking at him. The hoodie contrasted with her milky-white skin. Her eyes were extremely dark, and their shape was very beautiful. It was the kind of eyes that curled up slightly and looked lazy and handsome when they were raised.

"I'm sorry, I might not have time."

Not to mention Bo Jingxing and the others, even Gu San was stunned.

Was Miss Qiao rejecting Master Cheng?

The corners of Gu San's mouth twitched. He was in a daze and did not know how to feel.

Perhaps only Miss Qiao would reject Master Cheng's invitation.

Qiao Nian said politely, "I've already agreed to learn two techniques from two other people. I have limited energy. If I learn another technique, I might not have time."

Chinese Medicine and music were temporarily two courses she had to learn.

Actually, she was quite interested in bioengineering.. However, if one were to really talk about it, she really did not have the time.
