

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 752

As the number of acupuncture treatments increased, Master Cheng's migraine symptoms were not as serious as before. After helping with an acupuncture treatment, coupled with the effects of the small pill, Master Cheng could basically enter a shallow sleep at night. However, he didn't sleep for long. He only slept for four to five hours a night.

It didn't seem like much. However, For Master Cheng, who had been sleeping with the help of sleeping pills for a long time, it was already very effective.

It was the last acupuncture session today. Qiao Nian woke up early in the morning to write the prescription. Many balls of paper could be seen on the ground.

When Gu San came in, he saw her sitting on the chair in deep thought with a pen in her mouth. He walked in anxiously and stood beside the girl.

Qiao Nian had just listed a few herbs and was still thinking about how to use them. From the corner of her eye, she saw him coming over and thought that he was looking for her to perform acupuncture on Master Cheng. She leaned back against the chair casually and turned the pen in her beautiful hand. She casually narrowed her eyes and said, "There's still a while. I'm still writing the prescription."

Gu San looked at her leisurely appearance. His lips moved, but he didn't know how to speak. He said in a deep voice, "No, Miss Qiao. I'm not urging you about Master Cheng."

Qiao Nian could hear the anxiousness in his voice. She put down the pen and turned to look at him. Her dark eyes were beautiful and devilish. "Huh? Is something the matter?"

She was so smart. She could tell at a glance that he was looking for her. It wasn't appropriate for Gu San to speak. However, the situation was urgent, and he couldn't care less about being pretentious. He lowered his voice and said, "Miss Qiao, something happened."

"About the public visitation day?" Qiao Nian's voice was quite hoarse. She narrowed her eyes and asked calmly.

She remembered that it was the public visitation day of the Ninth Branch. Ye Wangchuan and Bo Jingxing had gone to receive the guests. It seemed like many overseas people were coming.

Gu San had found her at this time not because of Master Cheng, but because of the public visitation day.

Gu San was stunned for a moment and did not seem to react. His face was wooden, and he was in a daze. His eyes were filled with shock. "M-Miss Qiao, how did you know that there's a public visitation today? I haven't said anything..."

"I guessed."

Qiao Nian guessed that she wouldn't be able to write the prescription in peace, so she simply closed the lid of the pen and stuck it in the pen holder. She crossed her arms in the posture of a big boss before turning around to face him. "Tell me, what's the matter?"

Gu San had never seen such a smart person. His mouth was agape, and his chin almost fell off.

He returned to his senses after a few seconds. Anxiety covered his face again as he said impatiently, "It's the USB. There's a problem with the programming you gave Leader Luo..."

"Impossible." Qiao Nian narrowed her eyes. This was her first reaction.

Seeing that Gu San did not speak, she explained slowly, "I've checked it. There's no problem."

She usually didn't check her programming, but this time was an exception. After all, she was helping them. She had especially read it after she finished writing the programming the other day.

She would believe anything Gu San said. However, there couldn't be any problems with the programming.

"It's true, Miss Qiao." Of course, Gu San believed her. It was just that the situation was urgent, and he could only shorten the story on Luo Qing's end. "I don't know why the USB drive you gave Luo Qing suddenly stopped halfway through the procedures, and there was even a mess of codes. Leader Luo and the members of Team 1 have tried many times.. It's always like this. It becomes a mess halfway through..."
