

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 760

Her light words were like a heavy bomb thrown into the calm lake.

The meeting room exploded.

“Lizard Tail virus? Could it be the legendary trojan horse virus?”

“I’ve heard of this virus before. It’s said to be one of the trojan horses that the Red Alliance created back then. This trojan horse virus will infect the system library documents, replace system documents, and even inject the system process and steal user information.”

Someone explained as if he knew everything. “At that time, this trojan horse virus caused a huge commotion the moment it was released. However, for some reason, the Red Alliance cleaned up this virus later on and did not let it spread widely. This is a virus unique to the Red Alliance, right? I heard that no one has been able to resolve it yet.”

“This kind of trojan horse program seems to be very well-hidden. Many computers that are infected can’t detect it. They think there’s a problem with the program.”

“I think so. I didn’t expect to see a solution today.”

...

This was the first time Bo Jingxing had heard of the name Lizard Tail. Seeing the reactions of the experts from the various fields around him, he more or less had an idea when he heard about the Red Alliance. He frowned and said to the man beside him in a serious tone, “Lizard Tail virus? Why is there such a virus in the USB?”

Previously, Luo Qing had sent someone to tell him the rough situation. He only knew that there was a problem with the USB flash drive and that Luo Qing couldn’t resolve it, so he had gotten someone else to replace him.

From the looks of it, someone had implanted a virus in the USB. Luo Qing and Liao Xu couldn’t resolve it, so they got Qiao Nian to solve it.

“This belongs to the Red Alliance?” Bo Jingxing’s handsome face couldn’t hide his worry. He looked at the girl on the stage and asked, “Can Sister Qiao do it?”

He didn’t know anything about the Lizard Tail virus, but according to the experts, there was no way to resolve it.

“Why don’t...” His gaze turned to the man in a rare suit, and he was about to say something.

Ye Wangchuan’s eyes were as deep as the ocean as he interrupted him. “Wait a little longer.”

“...” Bo Jingxing didn’t understand what he was waiting for.

The smile on Ye Wangchuan's lips became even more unrestrained and his eyes deepened. "Others can't resolve the Lizard Tail virus, but maybe she can."

Bo Jingxing didn't understand what he meant. "If others can't, are you sure Sister Qiao can?"

"Because..." Ye Wangchuan suddenly stopped talking.

His gaze landed on the girl on the stage with a faint smile.

He was quite lazy and extremely protective.

He realized that Qiao Nian seemed to know everything in the Red Alliance and was very familiar with it.

Since this virus was developed by the Red Alliance, it was very likely that Qiao Nian knew about it. If she said she could resolve it, then she could.

If Qiao Nian could resolve the trojan horse virus in this Lizard Tail, the answer he had been guessing but could not confirm would be confirmed.

Ye Wangchuan couldn't help but smile when he thought about how he seemed to have discovered another secret of hers.

When Bo Jingxing saw that he could still laugh under such circumstances, he retracted his gaze gloomily and did not want to look at him. He turned his head and locked his gaze on the girl on the stage. His heart was suspended in midair, and his back became tense...

Other than the virus from the Red Alliance that came out of nowhere, he was also worried about something else. Luo Qing's speech was very complicated.

He had helped him read it before.. There were at least ten pages of content, and there was no lack of obscure words. Could Qiao Nian really replace Luo Qing at the last minute?
