

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 770

Didn't her third uncle say that no one in the country knew the Lizard Tail virus?

"It's all thanks to Miss Qiao's help this time. Otherwise, no one would have been able to resolve your mess."

Luo Qing spoke very slowly. He clenched his fists and looked at her silently, but his tone was not polite. "Zhou Wei, I don't know why you did this. I just want to ask if you've thought about it. Driverless technology is not yours alone. It's the result of the entire technical department's research day and night, as well as the effort of your team members."

No one in Team 2 spoke up for Zhou Wei because Luo Qing's words were also what they wanted to say in their hearts.

Zhou Wei had gone overboard this time.

"You secretly implanted the trojan horse in the USB stick. If not for Miss Qiao's help, the entire Ninth Branch would have lost face with you!"

Zhou Wei's fingertips trembled non-stop. Her expression was pale as she argued. "What nonsense are you talking about? When did I implant the trojan horse into the USB drive? You mean I did all of this? What right do you have to say that?"

It was as if she had been greatly wronged. Her proud eyes shone with tears. "I know you're close to Qiao Nian, but you can't malign me..."

At this point, her first reaction was still to argue. Luo Qing shook his head in disappointment. "...We all saw the surveillance video."

'We all saw the surveillance video!

This sentence crushed all of Zhou Wei's hopes.

Her eyes suddenly widened as she clenched her fists and quickly looked at the others.

She realized that everyone in Team 2 avoided her gaze.

How was this possible

She had clearly deliberately modified the data of the surveillance cameras.

At this moment, Bo Jingxing walked over and placed his hand on her shoulder. He said softly, "Everyone knows that your third uncle, Zhou Hengfeng, has an extraordinary relationship with the Red Alliance. He almost entered its ranks back then. That Lizard Tail belongs to the Red Alliance."

He didn't continue.

Zhou Wei opened her mouth and her eyes faded. She still wanted to deny it. "...I didn't know."

"Liao Xu, show her the surveillance video." Bo Jingxing had always been the type to make people understand. He was very fair. He put down his hand and instructed the others.

"Yes, Young Master Bo."

They had just seen the surveillance video, and Liao Xu hadn't turned off the video. Now, he moved the mouse and clicked on the "play" button.

In the video, Zhou Wei's face was captured very clearly.

How she stole the USB from Luo Qing's drawer, how she implanted a trojan horse.

In the face of absolute evidence, Zhou Wei's mind went blank. Her back was already drenched in a cold sweat as she sat on the ground with a pale expression.

'There was only one thought in her mind—It's over.

Seeing her sit on the ground, Bo Jingxing walked past her and asked Ye Wangchuan, "How are you going to handle Zhou Wei? Are you going to demote her?"

Being demoted in the Ninth Branch was an extremely serious punishment!

The blood on Zhou Wei's face disappeared completely. She was unwilling, but she didn't dare to say anything.

Unexpectedly, the man who hadn't spoken all this while swept his sharp eyes across her casually and said coldly, "There's no need to go through so much trouble. Just get rid of her."

"..." Zhou Wei didn't expect Ye Wangchuan to say that. Her face was pale, and her shoulders trembled. Her vision almost turned dark.

'The Ninth Branch was the top in the country. Those who were expelled from the Ninth Branch were equivalent to being expelled from the entire research institute. They would never be able to go higher in their lives.

In Beijing, the Zhou family and she would also be laughed at.

Bo Jingxing didn't expect his punishment to be so severe. Stunned, he subconsciously asked, "Isn't this punishment a little too heavy?"

"Since she dared to do this, she must have prepared for the consequences," Ye Wangchuan said simply. "I'll announce Zhou Wei's removal to the public. There's no need to discuss it further."

This sentence stopped Bo Jingxing from saying anything else..
