

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 847

Other than Principal Yu and the others who were checking Qiao Nian's results backstage, many people from the first and second years also secretly checked. They wanted to see how high their school's highest score would be this year.

Who knew that the results would be the same as Shen Hui's-0 points!

When Qiao Nian confirmed that she would take the college entrance examination, almost everyone in First High School agreed that this year, the school would definitely have a big boss with more than 700 points.

The results they found were too different from what they had expected. It was like a chasm!

Someone had saved the screenshot when they found out the results and posted Qiao Nian's results on the school forum.

The post was very eye-catching.

(Senior Qiao Nian's results are out. Damn, none of you expected this result. Hurry up and see it!)

Many first and second years paid attention to the school forum. The news of Qiao Nian getting 0 points instantly spread throughout the entire school. "Senior Sister Qiao Nian got 0 marks? No way? Could they have gotten it wrong? Didn't she get full marks for the joint examination? How could she have gotten 0 marks for the college entrance examination?" "I heard that the results were 0 points. With the addition of Language and Science, the entire row was filled with 0 points. It couldn't be more orderly. After all, she had long been determined to go to Qing University. She might not have taken the college entrance examination seriously. It's just that... Even if she randomly guessed a multiple-choice question, she shouldn't have gotten 0 points, right?"

"Who knows? The joint examination is a private examination of the school, after all. There might be something we don't know. Otherwise, why did she get full marks in the beginning? It doesn't make sense."

The first and second years did not have a break. Only after the third year's college entrance examination was everyone on a break. Everyone in the school was talking about Qiao Nian's results.

Many people did not believe it after hearing this. They used the admission ticket announced on the school forum to check. 0 was 0.

No matter how many times they checked, it was still 0.

Everyone was checking their results at home. However, Xu Xu came to the school. She knew that she had performed badly.

She didn't manage to solve any of the last three major questions for the Science paper. When it was time to submit the paper, she hurriedly filled in the formulas she had memorized. She hoped that it was just a fluke and that she would be able to get some marks if she matched one or two formulas.

After the college entrance examination ended, everyone was comparing their answers, estimating their scores, and looking at the school. However, she ran out to have fun. When she returned, she was faced with the task of checking her results.

Everyone in the house was waiting for her results to be released to choose a school, but she did not have the courage to check it with everyone. Therefore, she lied and came to school.

Xu Xu entered her admission ticket and the screen refreshed.

Her name was Xu Xu.

Then, it was time for the results.

Chinese, 80. Mathematics, 75. English, 108. Science, 217. Total score, 480.

The moment she saw the results, her fingers trembled uncontrollably and her mind went blank. It was as if she had been struck by lightning. Tears fell unconsciously.

480 marks. It was worse than she had imagined

One had to know that in her first and second years, she had never scored below 550 points in her exams. Not to mention studying at Nanjing University or Qing University, she could easily enter a second-tier university. She didn't expect her results to drop so much in her third year.

Her college entrance examination results were only 480 points. She might not even be able to go to university! At this moment, her phone rang. It was a call from her family. Without a doubt, they were anxious to ask her about her results.
