

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 927

When Qi Lanyin saw Jiang Xianrou's ugly expression, she did not forget to add arrogantly.

"Tsk, tsk. The first from the bottom can be considered the first, right?"

With that, she went on stage.

Jiang Xianrou looked at the time on her watch. There were still five minutes. Her face was cold as she suppressed the anger in her eyes and followed her onto the stage.

At 9:27, the medical competition this year would begin in three minutes.

At the comments section at the front desk, Ye Maoshan, Nie Mi, Mr. Huang, and Master Carlos, who was the representative from overseas, sat in a row. Liang Lu, Shen Yugui, and the others sat on either side.

As the participating students went on stage and found their respective positions, they prepared to take the test.

Shen Yugui looked around the stage anxiously, but he couldn't see the figure he wanted to see. He suppressed the anxiousness in his eyes and whispered to Mr. Huang, "Mr. Huang, I think the students are almost here. Why isn't Qiao Nian here yet? Don't tell me..."

He was afraid that she wouldn't be able to withstand the pressure and run away.

Unexpectedly, before he could finish speaking, he saw the girl walking slowly to the empty seat. The black long-sleeved T-shirt on her looked inexplicably valiant. She pressed down on the brim of her hat and covered her overly exquisite face. She looked ordinary, but she was eye-catching.

Qiao Nian was on stage!

Shen Yugui's heart fell and he sat back down.

...

The rules of the medical competition were very simple. It was divided into three parts. One part was the individual points system, which was to release a set of papers. The participating students would answer questions on the computer provided by the venue. The computer would directly give or deduct points according to the standard answer backstage. With this score, a huge LED screen above the venue would update the rankings in real-time.

The second part was the answering section. The questions had been prepared by the Medical Association a long time ago. It was a real-time question to see who would answer first. If the person answered correctly, they would receive bonus points. If the person answered incorrectly, they would get deducted points. If the person answered incorrectly three times, they would lose their right to participate in this round.

The last part was for the judges to give marks. This part was mainly because the judges gave a comprehensive score based on the students' performance. It was about ten marks, and it was also to give face to these authorities in the medical world.

A comprehensive score + an individual's accumulated score was the competition ranking.

Qiao Nian came back up in the last three minutes. The reporter first gave a close-up of the popular candidates for this competition: Jiang Xianrou and Qi Lanyin.

Then, he silently sent her a huge special message.

The top scorer of this year's college entrance examination was very likely to be the last in this medical competition. No matter what, she deserved a close-up.

The big screen in the stadium showed a close-up of the girl's face.

Perhaps it was because the camera was filming her face, but the girl acutely noticed the camera's location. She looked up and glanced at it.

With just one glance, everyone in the venue could clearly see her extremely eye-catching facial features hidden by her cap.

Beautiful!

Too beautiful!

Even though the girl was dressed casually and even a little neutral, it couldn't hide her good looks at 360 degrees.

The moment Qiao Nian's face was zoomed in on the big screen, it immediately caused a commotion in the stadium.

Qin Si tsked and was not surprised. He glanced at a certain someone and stretched his long legs to the front row. "I'm not bragging about Sister Qiao's looks, but she'll definitely beat everyone in the entertainment industry. She's really good-looking!"

Ye Wangchuan also saw the frown on the girl's face on the LED screen as she pulled down her cap and avoided the camera. He smiled deeply. "She won't enter the entertainment industry."
