

08:45

Chapter 1061

The boy held back his anger and said, "Sir, my girlfriend is sick. Many people have seen it just now."

"Sick? Haha, how do I know if what you said is true or false." The man said coldly, "Besides, even if your girlfriend is sick, then what about it! To give up your seat for an elderly, is something you should do."

"Get up, hurry up!" As the man spoke, he started to move the girl.

When the boy saw this, he became really furious. He stretched out his hand and slapped the man's hand away. He shouted angrily, "Don't you touch my girlfriend."

The man saw that the boy dared to lay his fingers on him. His face suddenly became emotionless and he glared at the boy. "If you dare to lay your fingers on me again, then I will make up my mind to sit here."

With that said, the man even ignored the girl in the seat and sat on the girl's lap. He just directly sat on the girl and said, "Not giving up your seat, right? Then I'll just sit like this."

The girl hadn't expected this at all. The boy was also taken aback as he tried to stop the man, but the man pushed him away.

At the same time, the man's eyes flickered when looking at the girl, and he looked at her obscenely. His hands hung beside him, as using the guise of adjusting his clothes, he started caressing the girl's thighs.

"Ah!" The girl yelled out in shock when she felt this.

08:45 

The boy was even angrier, his eyes almost bursting with fire. "You old b*stard, how dare you to touch my girlfriend, I'm going to kill you."

The man chuckled, ignoring the boy's anger at all, and instead pretended to be confused. "What are you talking about, I'm just sitting on a seat. It is the two of you who did not give up the seat as to show respect to the old and care for the young. You guys asked for this."

While talking, the man was about to sit down, and his hands were already touching the girl's thighs.

Seeing that the man was about to succeed, Fade, who was standing on one side, suddenly took action and grabbed the man by the collar and lifted him up.

The man was shocked as he turned to look at Fade, and shouted, "What are you doing? Let me go."

Fade snorted coldly, and with his arm's strength, he lifted the man up, and then threw him onto the aisle of the bus.

"Ah, someone has hit me and is about to kill me. Call the police quickly!" The man yelled.

Fade then stepped on his face and said coldly, "If you speak another word again, I will end you with one kick."

Feeling the tremendous strength from Fade's foot, the old man felt a little scared, so he didn't dare to speak any more. He could only mutter and beg for mercy. "I was wrong. I know that I was wrong. Stop hitting me."

Immediately, Fade stopped the movement of his feet and kicked the old man to the bus door.

Soon, the next stop arrived. The moment the bus door opened, he frantically escaped out of the bus.

As soon as he got out of the bus, he stared at Fade with a fierce look, and said cruelly, "You brat, I will remember you. I'm telling

08:46

you, my son is from the Tiger Gang, and when the time comes, I will ask my son to make you die."
Hearing this, many passengers on the bus suddenly became nervous.

Someone spoke out to persuade Fade.

"Boy, let's just call the police! This kind of old hooligan will be very troublesome to deal with once you encounter one."

"The Tiger Gang are not people to mess around with, young man, please be more careful in the future."

"Hey, this old hooligan actually turned out to have some background. No wonder he was so arrogant."

.....

The people on the bus sighed, and the young couple suddenly became worried for Fade. They looked guilty as they stared at Fade.

"Sir, I'm sorry, we are to be blamed for it, if it wasn't for..."

Fade smiled and said, "It's okay, it was just an old hooligan, he wouldn't dare to do anything to me alright?"

"But, Tiger Gang, they..." The boy was still worried.

At this moment, Fade smiled and shouted to the old hooligan who was taking pictures of him on the bus to remember his face, "Old fellow, stop taking my pictures. My name is Fade and I live in Sincere Medicine Center. You go back to the Tiger Gang to tell Habib about this, see if he dares to touch me?"

After Fade finished speaking, the bus immediately started to move.

The people on the bus were stunned when they heard Fade's words, and then someone took out their mobile phone to check

08:46

about Fade, and then a cry of surprise filled the whole bus.

"Fade, you are Dr. Fade Chen!"

"The genius Dr. Chen from Sincere Medicine Center, you are the genius doctor."

"Sincere Medicine Center, Life Elixir Wine, Dr. Chen, is it really you?"

.....

Seeing that everyone had started to recognize him, Fade did not hide anything. He nodded and said, "I am Fade from Sincere Medicine Center."

After confirmation, the bus was filled with a complete sense of joy.

"It turned out to be Dr. Chen, no wonder his medical skills are so amazing!"

"If it's Dr. Chen, then he doesn't have to worry about an old hooligan; it's not even worth mentioning."

"Dr. Chen, you are such a well-known figure, yet you are so close to the people like us who take the bus."

.....

The young couple also came back to their senses at this moment. They finally understood Fade's identity. They felt both shocked and joyful. Looking at Fade, they were a little speechless from being excited.

"Mr. Chen, I, we... don't know how to thank you anymore, I..."

Fade smiled and patted the boy on the shoulder, and said, "You don't need to thank me, boy. From now on, if you continue to treat your girlfriend so attentively like this for the rest of your life then that's the best way to thank me."

08:46

The boy nodded resolutely and said, "Dr. Chen, you can rest assured, I will definitely treat Eunice with love and care forever." The boy said those words as he held her hand tightly with a firm expression.

The girl lowered her head shyly and her cheeks flushed.

There was a burst of laughter in the carriage.

At the same time, the old hooligan who got out of the car felt that Fade's name seemed a bit familiar, but he couldn't remember who it was for a while. So, he sent the photo he had just taken to his son in the Tiger Gang, and mentioned what had happened.

As a result, his son called after a while.

As soon as the phone call was answered, an angry voice came from the other end of the phone, "Old man, you are looking for trouble by yourself, don't get me into trouble."

"Son, I just provoked a young kid. Why are you so agitated..." The old hooligan was still puzzled.

The son on the other end of the phone was about to explode in anger, "Young kid? Do you know who he is? He is Fade, Dr. Chen."

"What Fade, what Dr. Chen?" The old gangster still couldn't remember anything yet.

The son then shouted angrily, "Fade, the one from Sincere Medicine Center who made Life Elixir Wine, you know him now!"

"Yes, it's him. How could it be?" The old hooligan was shocked.

The son shouted, "Why not? I'm telling you, you'd better not go and offend Dr. Chen. Some time ago, Master Habib, the Guardian of our Tiger Gang was even scolded by Fade. If you provoke him, I'll die!"

"Son, I don't know, I just..." The old hooligan was really frightened and froze for a while, staring blankly at the back of the moving

08:46 

bus.

08:46

Chapter 1062

After taking the bus back to the hotel, Fade went back to the room to rest after washing up himself.

After all, the business of Sincere Medicine Center had successfully risen again by relying on Life Elixir Wine. It had completely suppressed The Li's Hospital.

If this continued, in less than a month's time, The Li's Hospital would definitely not be able to bear the losses incurred and would eventually go bankrupt.

In this matter, Fade was full of confidence.

When Fade was taking a rest, the landline in the guest room rang.

"Hello!" Fade answered the phone, a little surprised.

On the other end of the phone, a sweet voice from the hotel receptionist can be heard, "Hello Mr. Chen. There's a person looking for you at the hotel entrance now."

"Someone is looking for me? What's the name and age, is it a male or a female?" Fade inquired.

The lady at the front desk answered, "The other party said his name is Eden, and he wants to talk to Mr. Chen with regards to an urgent matter. He hopes that you can come down to meet him."

"Eden!" Fade remembered something when he heard that name.

08:46

Wasn't this guy an offspring of the Li family's who had lost to Fade while they were on a cruise ship. Currently, he still had not paid him the 1 billion yuan that he owed!

"Ask him to wait, I'll be down in a while." Thinking of this, Fade didn't hesitate, and he immediately agreed. He then hung up the phone.

A few minutes later, Fade came down to the lobby on the first floor of the hotel. The front desk staff immediately led Fade to the side of the restaurant, "Mr. Chen, Mr. Li is already waiting for you inside."

Fade nodded and walked into the restaurant.

Then, he saw Eden with a smiling face who greeted him, "Mr. Chen, you are here."

Regarding Eden's enthusiasm, Fade said with vigilance, "Mr. Li, you're looking for me, are you here to pay me back the 1 billion yuan that you owe me?"

Hearing this, Eden was taken aback for a moment, but then he drew out a check and handed it to Fade, "Mr. Chen, I have already prepared that 1 billion yuan for some time and I just never had the chance to send it over to you. Please accept it."

Fade took the check, glanced at the series of zeros on it, then kept the check away. He was about to leave so he said, "Since you have paid the money, then I'll be leaving now."

"Ah... No, Mr. Chen, please stay. I still have something else that I want to talk about with you." Eden didn't expect Fade to come out like this, so he hurriedly chased after him.

Fade stopped, turned to look at Eden, and asked, "Apart from the debt, is there anything else to discuss between us?"

08:46 

"Mr. Chen, I really have something important to discuss with you. Please give me five minutes, I..." Eden hurriedly said. Fade waved his hand and said, "There's no need, I am not interested in the important things that you're about to mention." After speaking, Fade turned around and walked away.

Eden didn't expect such a result at all, so he was stunned and stood frozen in place, not knowing what to do at that moment.

At this moment, a crisp and young woman's voice rang, "Mr. Chen, please stay."

When Fade heard this voice, the corners of his mouth could not help but raise slightly, and he whispered to himself, "Finally can't sit still anymore? But, if I do as you say, then it'll be humiliating for me."

Immediately, Fade acted as if he hadn't heard a single thing and strode forward.

At this time, the woman behind him couldn't help it anymore. She sped up her pace, and chased after him. "Fade, I'm Sasha. I have something about your Sincere Medicine Center that I want to talk to you about."

Hearing this, Fade turned his head in a surprised look, looked at Sasha who was chasing behind him, and said, "Oh, Miss Li is here, what a precious guest!"

In fact, as soon as Fade entered the restaurant, he had already noticed Sasha in the corner. He had guessed it in his heart that this time it was not Eden who wanted to look for him to discuss something, but it was Sasha.

Therefore, Fade deliberately acted like that just now, in order to disrupt Sasha's momentum to take over the initiative of negotiation in his own hands.

Now, looking at Sasha who had a dark face and gloomy expression on, obviously, Fade's goal was achieved.

08:46 

Sasha refrained from becoming angry, and said to Fade, "Fade, I have something to talk to you about. Let's sit down." Fade raised his eyebrows and said, "To discuss with you, Miss Li, I will have to worry about my own life! After all, I was being held at a gunpoint during our last discussion."

Sasha knew that Fade was upset about what happened last time and explained, "What happened last time was a misunderstanding. I sincerely want to talk to you this time, Mr. Chen. Moreover, this matter will bring you benefits too."

"Benefits!" Hearing these words, Fade hesitated, but he finally nodded and said, "Miss Li, then you can say it now."

Sasha found a seat nearby. After sitting down, she stared at Fade for a few seconds, then took a deep breath and said, "The reason I'm talking with you this time, Fade, is because I want to do business with you."

"What business?" Fade asked aloud in surprise.

Sasha said, "Big business that is worth a few billions."

"A few billions of yuan! That's really big business!" Fade said, staring at Sasha, "Miss Li, you don't need to beat around the bushes anymore, just say it directly."

Sasha took a breath and said, "I want to buy the formula of Life Elixir Wine from your Sincere Medicine Center."

"The formula of Life Elixir Wine?" Fade couldn't help but narrow his eyes when he heard those words. He stared at Sasha, and said, "Miss Li, do you think that's possible?"

Sasha directly stretched out her right hand, showing it in front of Fade, "I'll pay 5 billion yuan. 5 billion yuan to buy the formula of your Life Elixir Wine."

08:46

This price was definitely considered a sky-high price for Sasha. She felt that she was very sincere already. However, after Fade heard the price, he laughed and shook his head, "Miss Li, you want to buy the formula of my Life Elixir Wine for 5 billion yuan. This, this is really, I don't even know what to say anymore."

"If you think that the money is little, I can increase it again, 5.5 billion." Sasha increased the price.

Fade shook his head and said to Sasha, "Miss Li, it seems that you still look down on me!"

"Uh, I didn't..." Sasha frowned, trying to explain.

But at this time, Fade said, "If you, Miss Li, do not look down on me, then how could you quote me such an outrageous price!"

"Outrageous. You mean, my price of 5 billion yuan is still considered low?" Sasha said as she frowned. "Fade, although your Life Elixir Wine sells very well in Jade City, the price of 5 billion yuan is already not cheap. Am I not sincere enough already?"

"Sincere?" Fade felt a little ridiculous, shook his head, and said, "Miss Li, if you are sincere then you should go to the market in the mainland to investigate the sales of my Life Elixir Wine's now."

08:46

Chapter 1063

"Let's just talk about Bay City and Dragonville, the place where I started. My Fei's Life Elixir Wine makes a revenue of approximately 10 billion yuan in a year. If you include international sales, the Life Elixir Wine makes about 100 billion yuan in a year."

"Let me remind you, this is only last year's data. The sales of the Life Elixir Wine this year will be even higher."

"Five billion yuan for a formula which makes ten billion annually. Now, Miss Li, do you still think that five billion yuan is very high?"

Fade looked at Sasha with a mocking expression.

Sasha stood frozen in place for a moment. She hadn't thought that far. She had been blinded by her goals that she thought 5 billion yuan was high enough.

Seeing how dazed Sasha was, Fade said, "I'm leaving now, Miss Sasha."

Sasha was shocked to hear those words. It disrupted her state of sluggishness, and she hurriedly shouted, "Don't go! I am willing to increase the price."

"Increase the price? How far are you willing to go? Ten billion? Twenty billion? Or more?" Fade asked. "It doesn't matter if you can get that much money. Even if you can, I can't assure you that I'll sell my formula to you."

08:46

Sasha's face sank again when she heard those words, and her expression became more distressed. She had invited Fade out for a negotiation to buy Fade's Life Elixir Wine formula. She was doing so in the hopes that she could turn the Li's Hospital losses into profit. After all, she wanted to leave a good impression on her father.

Due to the hospital's huge losses, the money that she could use was very limited.

The five billion yuan she had offered was obtained from other sources through her father's name. If Fade really wanted twenty billion, it would be impossible for her to come up with that amount of money.

For a moment, Sasha was at a loss for words.

Upon seeing that, Fade shook his head and got up to leave.

However, an idea sprung into Sasha's mind. Her eyes lit up, and she suddenly called, "Wait a minute, Fade."

"Uh..." Fade looked at Sasha.

Sasha said, "Fade, I admit that I underestimated the value of your Life Elixir Wine formula. However, I am earnest in this negotiation."

"Now, how about 5 billion yuan for the right to use the formula of your Life Elixir Wine in Jade City. Does this sound good to you?" Sasha looked at Fade. "You can think about it! I'll only use it in Jade City only. Five billion yuan to use your formula in such a small place. It's as good a price you can get!"

Fade nodded when he heard her words, saying, "That's true."

"Then Fade, you..." Sasha smiled upon hearing that.

08:46 

However, Fade interrupted her abruptly and said, "Even so, it has nothing to do with me. Why would I want to sell it? I don't need that five billion yuan."

Hearing that, Sasha stunned for a moment. She opened her mouth as she tried to speak. However, no words came to her.

Upon seeing that, Fade shook his head, and said, "Miss Li, excuse me but I must leave now."

Seeing Fade about to leave, Sasha grew extremely anxious. After all, her hopes for a major comeback of her Chinese medicine hospital all relied on the formula of Life Elixir Wine. It was a huge matter that concerned her status in the family.

Therefore, Sasha slammed her palm on the table. Standing up with a sigh, she shouted to Fade, "Fade, don't forget. You are in Jade City, the domain of my family. I have expressed enough sincerity. Don't force me to use other means to deal with you."

Fade, who had been amicable just a moment before, turned to look at Sasha, and said coldly, "Miss Li, are you threatening me?"

"What were the consequences the last time you threatened me? Haven't you forgotten?" Fade said coldly.

His stony words sent shivers down Sasha's spine, and her body trembled fiercely. She recalled the horrible sight of Fade catching the bullet with one hand in her villa, "I, I didn't..."

"Shush!"

A strong gust of wind whipped through the air. All Sasha saw was Fade's palm moving lightly, then the wind whistled in her ears.

Following that, heat rushed to her cheeks. She stretched out her hand to touch it, and a bright red spot appeared on her delicate palm "Ah, blood..."

Fade said stonily, "Miss Li, you are too arrogant. You must remember that even if you are the daughter of the Li family, you are

08:46

not omnipotent even in Jade City."
With that, Fade turned and left.

Sasha stood on the spot blankly with her face covered in blood.

Returning to the room, Fade took a long sigh to calm himself down, releasing the anger induced by Sasha. Then, he went to his wife's room.

Quin was still lying on the bed. Her pretty cheeks had turned pale from being bedridden for so long. Her elegant brows quivered slightly from time to time, causing Fade to feel distressed, "My wife, I will definitely cure you."

Fade reached out his hand to stroke Quin's forehead gently as he whispered.

At that moment, the phone rang. Fade looked at the screen to see that it was Momo who was calling. He was surprised, "Momo, why did you call?"

Momo's lively voice rang through the phone, "My dear brother-in-law, what are you talking about? Can't I call at all? Have you forgotten me just because we haven't met for a while? Do you miss me?"

Listening to the words on the phone, Fade could already imagine Momo pouting and sulking on the other end of the line.

He quickly apologized and said, "Momo, of course I didn't mean that. I was just surprised that you called at this time."

"Okay, okay, you don't need to explain. I know you are very busy in Jade City," Momo said. Then, her tone turned heavy and solemn, "I am just calling to ask about my sister's condition. How is she?"

Fade couldn't help but take a deep breath when that was brought up. He said seriously, "I have been monitoring her medical

08:46

condition, but the key medicine has not been found yet. Right now, your sister is still lying unconscious on the bed." Momo was silent for a few seconds before she asked, "Are you beside my sister now, Fade?"

"Yes, what's the matter?" Fade said.

Momo explained, "Today is my sister's birthday. Please turn on the speaker on your phone, I want to sing a birthday song to my sister and make a wish for her to wake up soon."

Hearing that, Fade was stunned. He suddenly remembered it was indeed his wife's birthday. He had been too busy in Jade City recently, and he was very worried about his wife's condition. Therefore, he had forgotten about it.

Suddenly, Fade was filled with shame as he rebuked himself in his heart.

08:46

Chapter 1064

At that moment, Momo's soft voice rang from the phone.

"Happy birthday to you..."

.....

Fade began humming softly to Momo's singing, "Happy birthday to you..."

The soothing singing brought back to Fade all the bits and pieces of memories he shared with Quin. He recalled her last birthday.

Fade still clearly remembered that birthday.

Quin's last birthday had been celebrated at a karaoke centre. Because he was late, he had to use a bouquet of choy sum as flowers in the end. Of course, he had also enjoyed the "beautiful" singing of his wife.

As they sang, the scenes of their time together played in Fade's mind, and he teared up a little.

When the song ended, Fade gently stroked Quin's cheek, and said softly but firmly, "My dear wife, please believe in me. I will definitely cure your illness."

On the other side of the phone, Momo heard Fade speak. She comforted him, saying, "I believe that my sister will get better too."

08:46

"Yes, definitely!" Fade said firmly.

"Please spend more time with my sister," said Momo before she hung up.

Fade put the phone away and wiped the tears from his eyes. After that, he took a deep breath and put a look of determination on his face.

At that moment, Fade's cell phone rang again.

Fade thought it was Momo who called again, but when he took out his mobile phone, the caller ID showed that it was Franklin.

Suddenly, Fade's heart skipped a beat and he hurriedly answered the call, "Guardian Chang, is there news about the herbal medicine?"

Over the phone, Franklin sounded quite excited too. He said, "Mr. Chen, I have looked into the last herbal medicine you're looking for, the Fire Blame Plant. I've got some news about it."

"What? That's great! Where is it? Do you have it now?" Fade was extremely excited.

After all, Fire Blame Plant was the final and the most critical medicinal ingredient he needed to cure his wife's cold syndrome.

It had been almost two months since he had asked Franklin to locate that herbal medicine. There was finally some news about it. There was no way he could suppress his excitement.

On the other end of the line, Franklin said, "Mr. Chen, we only got a clue about who has the Fire Blame Plant but we haven't gotten it yet."

"Then, you'd better get it quickly. It doesn't matter how much it is. If we need to sell them our herbal medicines or kung fu skills,

08:46 

as long as the other party agrees to sell it, you don't have to be stingy. You must get it quickly," Fade said excitedly. Franklin informed, "Mr. Chen, I'm sorry but I am afraid you will have to do it yourself."

"Do it myself? Have you encountered some trouble over there? The other party won't sell it?" Fade asked in confusion.

Franklin explained, "No, Mr. Chen. We discovered that the Fire Blame Plant was recently sold at an auction house in Earlington."

"Someone at the auction site spent a high price of twenty billion Micovia dollars to buy the herbal medicine. It's just that the auctioneer was anonymous so we could not find out anything about him."

"Later on, after thoroughly investigating, I found out that it was bought by the richest man from the Li family. The Li family bought this herbal medicine in order to treat the Old Master, Fenrir."

"However, it seems that the Fire Blame Plant had no effect on the Old Master's condition. Therefore, the herbal medicine remained in the Li's house."

Hearing that, Fade was suddenly startled, "The richest man in China, Li Family, Fenrir. Are you talking about the Li family in Jade City?"

Franklin said, "Yes, the Li family in Jade City. That's why you'll need to do this yourself."

"Okay, I got it. I will personally talk to the Li family about the herbal medicine," Fade said. "Guardian, thanks for your hard work."

"It is my honor to help you, Mr. Chen," Franklin quickly complimented.

Fade said, "Don't worry, I will remember what you've done for me. I won't take it for granted."

"Thank you, Mr. Chen!" Franklin was a little touched.

08:46

Immediately, Fade hung up the phone.

He looked at Quin, who was lying on the hospital bed, excitedly. Holding her slender hand, he said, "Quin, I finally found the Fire Blame Plant. I found it! I'll go bring the herbal medicine back and treat you immediately."

"Wait a little while more! I will cure you immediately," Fade was extremely excited.

Not wanting to delay any further, Fade immediately called Lily to return and told her what had happened. Then he drove to the Li family's house by himself.

In the car, Fade took a few deep breaths to calm himself down.

The relationship between him and the Li family was not good, and the Li family had spent twenty billion Micovia dollars, which was a price higher than 10 billions yuan to buy the Fire Blame Plant. It would not be an easy task to obtain the Fire Blame Plant from the Li Family.

Sure enough, when Fade arrived at the door of the Li family's villa and mentioned that he wanted to talk to the master of the house, the other party immediately rejected his request.

Fade was hindered at the door.

Fade looked at the unfriendly security guard at the door who drove him away. Frowning, he muttered coldly, "Do I really have to break in by force?"

Suddenly, an idea sprung in his head. His eyes lit up at the thought, he hurriedly took out his mobile phone to call Sasha.

At that moment, Sasha was sitting in her father's study room. She wore a sorrowful expression as the complaints flowed out in an endless stream from her mouth.

08:46 

When she saw the caller ID turned out to be Fade calling, she was surprised. She didn't want to answer the phone because she knew that Fade must be up to no good.

However, Martin caught a glimpse of the name on his daughter's phone. His eyes flashed as he said, "Sasha, answer the phone. Maybe, there is something special."

Sasha pouted and answered the phone unhappily, "Hello!"

"Miss Li, this is Fade, and I have something to talk to you." Because he was about to ask for a favour, Fade tried his best to speak amicably.

"What's the matter? I don't want to hear your taunts," Sasha retorted in displeasure.

Fade quickly explained, "It's not a ridicule, I truly have something to discuss with you, Miss Sasha."

"What do you need to discuss?!" Sasha frowned, feeling a little strange. "What are you trying to do? Fade, let me tell you, it's not wise to provoke the Li family."

Fade took a deep breath and said, "Ms. Sasha, I want to talk to you about the formula of Life Elixir Wine. Now, I am willing to sell the formula..."

Hearing that, Sasha was shocked, she immediately looked at her father in joy.

Martin was also a little surprised. Nevertheless, he was mature and prudent. He winked at his daughter, calmed her down, and spoke into the phone, saying, "Mr. Chen, you just rejected my proposal to buy the formula just a few hours ago. And now, you're calling me to say you're willing to sell it. Are you playing a joke?"

08:46

Chapter 1065

Fade took a breath and solemnly said, "Miss Li, I really want to talk to you about the formula. I'm not kidding."

Fade did not seem to be joking. Sasha looked at her father, and paused to think about it. Then, she finally said, "If that's the case, then fine."

Soon, the security guard at the door of the Li family's villa was informed to allow Fade to enter the villa.

When Fade entered the living room, Sasha was already waiting for Fade on the main seat.

"Miss Li!" Fade greeted her with a smile, trying to make his face look gentle.

Sasha sternly looked at Fade, and said, "Mr. Chen, are you willing to sell me the formula of Life Elixir Wine?"

Fade nodded and said, "Yes, if you are willing to purchase it, I can even sign the contract now."

Sasha was surprised to see Fade so anxious about that. A strange look flashed across Sasha's face, before she questioned, "Your attitude has changed completely in just a few hours. It's truly astonishing!"

"How can I be sure that I can trust you?" Sasha looked at Fade.

Fade knew that it would not be easy to negotiate with the Li family. However, due to the urgency of his wife's health condition, he didn't want to delay any further. Therefore, he said directly, "Miss Li, I won't beat around the bush. The reason why I am willing to sell you the formula of Life Elixir wine is because I have something I want from the Li family."

08:46

"Oh, you have some demands? What are they?" Sasha asked.

Fade was solemn. With both his hands on the table, he leaned forward slightly, looking at Sasha, and said, "I need the Li family to provide me with a particular medicinal material."

"A medicinal material? What kind of medicinal materials?" Sasha asked.

With a stoic expression, Fade said, "The Fire Blame Plant."

Sasha's face changed instantly at those words. She cried, "Impossible!"

"My family bought the Fire Blame Plant at a high price of 20 billion Micovian dollars and that's only the value that we bought it for! If you consider the price appreciation, it is impossible for us to sell you the Fire Blame Plant."

"Moreover, no matter how expensive the formula of Life Elixir Wine is, it cannot be worth as much as twenty billion dollars! I'm afraid I cannot agree to this deal," Sasha said.

Fade looked at Sasha and said, "I know that the Fire Blame Plant is very precious. So, besides the formula of Life Elixir Wine, I have something else."

"Something else? What is it?" Sasha looked at Fade in disbelief. "Are you going to talk about your Sincere Medicine Center or Fei Enterprises Holdings Inc? With these two companies combined together, their market value is still doable. "

"However, our family does not need another two companies. Besides, you don't own all the shares of Fei Enterprises Holdings Inc."

Fade shook his head and said, "My bargaining chip is not the company."

08:46 

"Then what is it? I have asked someone to investigate you. The most valuable thing you own, Fade, are those two companies," Sasha said. "Please don't tell me you're going to pay us with your service? Although your skills are excellent, there is no shortage of thugs in the Li family. We don't need such an expensive thug!"

Fade continued to shake his head and said, "That's not what I want to offer either."

"My bargaining chip is... I can cure Fenrir's illness."

"What? What did you say!" After saying that, Sasha was stunned for a while. When she came back to her senses, her eyes widened as she looked straight at Fade. Standing up, she asked, "Did you just say you can cure my grandfather's illness? You're not kidding, right?"

Fade solemnly said, "I won't joke about such a thing. As long as the Li family gives me the Fire Blame Plant, then I am willing to transfer the formula of Life Elixir Wine to the Li family for free, and at the same time cure Master Li's illness."

At that moment, Sasha looked at Fade with piercing eyes. Her eyes darted as the gears in her mind started churning.

Finally, she beckoned a servant over and whispered in their ear.

After the servant left, it didn't take long for a middle-aged man dressed in a suit and shoes to walk in. He was none other than Martin, Sasha's father, the current master of the Li family.

After Martin entered, Sasha immediately leaned towards him and quickly whispered in a low voice.

He was silent for a few seconds. Then, he looked at Fade and asked aloud, "Is all that you said true?"

Fade nodded and said, "It's all true. Regarding the Life Elixir Wine formula and the treatment of Master Li, I will do it. I only need

08:46

the Fire Blame Plant."

Martin was silent for a while, and then said, "How can I believe that you have this ability?"

Fade said, "My medical skills have been proven many times in Sincere Medicine Center before. Of course, if you are not assured, then you can test me on the spot. After trying, the results will be the answer."

Martin glanced at his daughter, and there was another moment of silence.

Of course, Martin and his daughter hoped that the Old Master could be cured. After all, Fenrir would be very fond of Martin and Sasha if they could restore his health.

Apart from that, Sasha would garner a lot of support in the Li's family. Hanson and the others would never question Sasha like they had done just a few days ago.

Thinking of that, the father and daughter duo were a little excited.

However, after all, Martin was a businessman, He did not immediately agree to it. Instead, he said, "This matter is of great importance. I need to discuss with the Li family's seniors first."

Fade said, "I can wait."

Martin nodded, and walked out with Sasha. He ordered the servant, "Take Mr. Chen to the guest room and serve him well."

Fade stayed in the Li family's guest room for two hours before Sasha walked in and said to Fade, "We had a meeting and we agree to the terms of our exchange."

"However, you need to prove your ability first," Sasha looked at Fade.

08:46

Without hesitation, Fade nodded and said, "Okay, I can do it anytime."

"Then, follow me!" Sasha said.

Later, Sasha brought Fade into a luxurious room.

In the center of the room, there was a huge hospital bed, luxuriously decorated and surrounded by various state-of-art equipment. Lying on the bed was an old gray-haired man. He was obviously Fenrir.

There was a group of people surrounding the hospital bed. After a rough glance, Fade guessed that they were the senior members of the Li family.

After Sasha brought Fade in, Martin immediately introduced him to everyone, "This is Dr. Fade Chen. He said that he has a way to cure father. So, I took him here to try."

As soon as he said that, Hanson immediately stood up and retorted, "Brother, don't you think you are too rash. How could you simply invite a doctor from outside and say that he can cure our father's sickness? This is too unbelievable!"

08:46

Chapter 1066

"Hanson, Dr. Chen is the owner of Sincere Medicine Center. He is a famous Chinese medicine doctor. His medical skills are worthy of trust," Martin solemnly said.

Hanson immediately snorted coldly, "Martin, I don't know how famous he actually is. But what I do know is that all the doctors who have treated our father over the years were world-renowned doctors. Despite that, all of them could do nothing about his condition."

"Now, you brought such a young kid over, and you're telling me that he can cure our father's sickness. It's hard for me to believe it!" Hanson said as he shook his head. "Besides, you also said to let him try first."

"What do you mean by that? Is our father to be an experiment subject for this young kid's training?" Hanson fired directly.

Martin was at a loss for words. His expression turned gloomy.

Hanson continued, "Besides, this kid wants the Li family's Fire Blame Plant as a reward. That is just too expensive. I do not agree."

With that, Hanson scanned the room as he tried to win over some allies.

Most of them looked elsewhere. None of them stood out to make a statement.

The expression on Martin's face changed again before he said, "Hanson, you're right that the Fire Blame Plant is very precious.

08:46

"But isn't our father more precious? Do you think that his health is less valuable than the Fire Blame Plant? Don't you want Father to recover?"

Hearing his words of rebuke, Hanson's face sank instantly, and he immediately retorted sharply, "Martin, what are you talking about? What is the identity and status of Father? Even ten of the Fire Blame Plants can never beat our father. Besides, I'm his son. How could I not want my father's health to recover?"

"I just don't want to put my father's body at risk," he continued. "Therefore, I firmly oppose this matter. I don't trust his medical skills and I don't believe that he can cure a disease that none of the world's famous doctors can't."

With that, Hanson looked at everyone around him once again.

This time, many people echoed his stance.

"Indeed, the Old Master's health is important. Therefore, we can't just experiment with his body?"

"I know Dr. Chen's pretty popular in Jade City recently, but what about his medical skills? I still think it's better to be cautious about this."

"I agree. After all, we cannot be casual and sloppy about medical treatments. If the experiment fails, then there is no chance to recover..."

"Yes, the Fire Blame Plant is secondary to our father's health, but the main issue here is his medical skills."

.....

Faced with increasing opposition, distress began to appear in the faces of Martin and Sasha. Their eyes immediately shifted to

08:47

Fade.

Fade knew it was time for him to step forward. He looked at Hanson and his party, and said, "Mr. Hanson, you don't believe in my medical skills?"

Hanson cast a glance at Fade before he said with little disdain, "I personally have never seen a Chinese doctor."

Instead of refuting him, Fade stared at Hanson for a few seconds before he shook his head and sighed.

After that, Fade's gaze shifted. He shook his head at the others and sighed.

His behavior put frowns on Hanson and the others.

Finally, Hanson couldn't help it. He snorted coldly, and shouted to Fade, "Are you trying to deceive us? Let me tell you, don't play your tricks on us. We will not be fooled by you."

Fade shook his head and said, "Mr. Hanson, I am not trying to deceive you, nor do I mean to lie to you."

"Then why did you shake your head and sigh just now?" Hanson asked.

Fade said, "I'm sighing because you have a health problem but you're still unaware about it. I am feeling worried for you!"

"What? A health problem?" Hanson was surprised to hear those words. Nevertheless, the shock on his face was quickly replaced by a sneer. He warned, "Young kid, don't try to scare me. I undergo a physical body examination every year. I know very well that my body is very healthy."

Fade shook his head and said, "Mr. Hanson, your body's issue is hidden. If it is not specifically investigated, then it will not be detected."

08:47

"You..." Hanson wanted to refute him. However, Fade interjected, "If you don't believe me, try pressing your lower abdomen. You will feel a tingling sensation."

With that, Fade pressed his own lower abdomen to indicate the position.

Hanson gloomily watched before he pressed the corresponding position on his own body.

Upon doing that, he cried out in pain after following Fade's instruction. A sheen of sweat covered his forehead, and he squatted on the ground in pain, unable to stand up at all.

Everyone present was completely shocked.

Fade continued to look at the people around Hanson, and said to them one by one.

"Your liver is not in a good condition, but it's not too serious now. You should get it treated as soon as possible. If you don't believe me, you can try and press this acupoint."

"Your kidneys have been severely damaged, so you still need to pay more attention with regards to that aspect."

"As for you, don't drink too much of those complex medicinal wines. They do not work and they will even hurt your body too."

.....

Fade quickly pointed out all the health problems of the people.

Many of them had turned ghastly pale. They were wearing painful and worried expressions on their faces.

At that moment, Fade returned to his original position and asked, "Mr. Hanson, do you trust my medical skills now?"

08:47 

Hanson gritted his teeth and clutched his hurting abdomen. Looking at Fade, he said, "Even so, I still don't trust you."
"Hanson, Dr. Chen has already proven his medical skills. You are being an annoying troublemaker now. Don't you want our father to get well soon?" Martin said.

Hanson replied, "Martin, of course I hope that our father's illness can be cured. However, Fade's medical skills can't simply be proven by doing that. After all, our father's condition is not some minor illness. I don't believe that he can cure it when so many of the world's famous doctors are not optimistic about Father's condition."

Hanson's words still won the support of some people.

For a while, the atmosphere in the ward became tense.

Fade rolled his eyes before his gaze shifted. Then, he walked quickly towards the Old Master's hospital bed.

Upon seeing that, Hanson and his clique began to shout hurriedly in shock.

"What are you doing?"

"Get back here now, kid!"

"Come here! Stop him!"

.....

The room erupted in commotion. At that moment, Fade turned to Martin, and said, "Mr. Li, I can cure Master Li."

Martin's eyes lit up when he heard those words. Then, he shouted to the Li family security guards who were about to rush over, "Everyone, stop! No one is allowed to approach Dr. Chen."

08:47

Chapter 1067

Hanson glared at Martin gloomily. Hearing his words, Hanson asked, "What are you doing, Martin?"

"I'm curing our father's illness," Martin said.

Hanson snorted coldly, "Cure? You are gambling with our father's life!"

Martin's face sank but still he sternly said, "If something goes wrong, I will bear full responsibility."

"You, how dare you..." Hanson was very angry.

At that moment, Fade quickly pierced Fenrir's body with a dozen silver needles.

The Old Master, Fenrir, who had been unconscious, suddenly woke up. He spat out a mouthful of blood.

Taking in the sight, everyone's gaze shifted.

Hanson excitedly said, "Father has vomited blood. Martin, do you still believe in this kid? Hurry up and chase this liar out."

Martin was also nervous at the moment. His eyes were fixed on Old Master and Fade.

Just as the security guards rushed over to remove Fade, Fade pulled out the silver needles from Old Master and asked, "Old Master, how do you feel?"

Old Master wiped away the blood from the corner of his mouth. Then, taking a long breath, he said, "I feel so much better."

08:47

"Seize him!" At that moment, Hanson commanded the security guard to capture Fade. However, before Martin could respond, the bedridden Old Master shouted, "What are you all doing?"

"Father, you..." Hanson was shocked to see his unconscious father wide awake.

Martin and Sasha also hurriedly gathered around the old master. They greeted him.

"Father, how do you feel?"

"Grandfather, are you all right?"

.....

Overwhelmed by their concern, Old Master smiled and said, "I feel so much better. I have never felt so comfortable in the past few years ever since I fell ill."

With that, Old Master turned his gaze to Fade with a curious expression on his face. He began to ask, "This is..."

Sasha hurriedly explained, "Grandfather, this is Fade, Dr. Chen. It was my father and I who specially invited him to see you."

"Dr. Chen, what a young and promising man! At such a young age, you have already mastered such superb medical skills, that's great!" Commended the Old Master with a smile. He was in good spirits.

Fade struck the iron while it was hot and said, "Master Li, I can guarantee that I can cure your illness. As long as..."

Speaking of that, Fade looked at Martin and Sasha.

The two of them understood his intention. They explained to the Old Master that what Fade needed in exchange was the Fire Blame Plant.

08:47 

After hearing that, the Old Master was silent for a few seconds. Then, he looked at Fade, and said, "As long as you can cure my disease, be it the Fire Blame Plant or half of our Li family's assets, I am willing to hand it over."

Fade nodded and said, "Master Li, you are too generous. I need the Fire Blame Plant urgently so it's a bit abrupt."

"No, not at all. It's fine. You pulled me back to life; the Fire Blame Plant is worth it", said the Old Master.

When Martin and Sasha heard those words, there was a smile on their faces. They looked at Fade, and asked, "Dr. Chen, when can my father's disease be cured?"

Fade said, "As long as Master Li is ready, I can do it anytime."

Martin was taken aback by those words. He looked at his father before his gaze returned to Fade, "What about this? As my father has just woken up, he needs some rest. Let's make an appointment for tomorrow afternoon, is that alright?"

"Yes!" Fade nodded.

Old Master also nodded in agreement.

Martin and Sasha were extremely elated.

Only Hanson was wearing a strange expression at the moment. He reminded him aloud, "Father, this guy he..."

Martin's expression sank when he heard that. He interjected, saying, "Hanson, what else do you have to say now? Don't you want father to recover?"

Hanson quickly denied the accusation, "Martin, I don't mean anything like that. I'm just trying to be cautious. After all, Father's body is very precious. It cannot be compared to those of ordinary people."

08:47

The two were about to quarrel.

Seeing his two sons, Old Master waved his hand and said, "Don't argue anymore. I know my own body condition very well. After Dr. Chen treated me just now, I felt so much more comfortable. I believe in his medical skills."

Since Old Master had said that, Hanson couldn't say anything more.

The matter about treatment was settled, and Old Master was a little tired so he needed to rest. Therefore, everyone left the ward one after another.

Fade did not leave the Li family's house immediately, but went to the study room with Martin and Sasha.

Martin handed the contract to Fade. He told him, "Dr. Chen, this is the contract we have written according to the terms we have agreed to previously. Please take a look at it and sign it if there are no issues with it."

Fade knew that the Li family was a business-orientated family. Therefore, they would sign contracts for any agreement.

Fade was happy to do so. After all, oral agreements could easily cause misunderstandings and entanglements.

Therefore, Fade studied the contract carefully.

The contents of the contract were not a lot, and were exactly just about the agreed terms they had previously agreed to, like the Life Elixir Wine formula, the treatment of Fenrir, and the Fire Blame Plant.

Fade did not find any problem with it. However, he was iffy about the time required to acquire the Fire Blame Plant. He pointed it out and asked, "Mr. Li, this statement says that you promise to deliver the Fire Blame Plant to me within a week after Master Li's illness has been cured.."

08:47

"Why must it take a week? Can't it be delivered right away? I urgently need the Fire Blame Plant," Fade enquired. Martin explained, "Dr. Chen, the thing is we bought the Fire Blame Plant at an auction in Earlington earlier on. At that time, my father was also in Earlington and was treated by the royal doctors there."

"Therefore, after the Fire Blame Plant became our possession, it has always remained in our Li family's home in Earlington.

"Several formal procedures have to be undertaken in order to transport the Fire Blame Plant back from Earlington. Therefore, I have estimated that it will require a week."

"After all, that is a treasured herbal medicine worth twenty billion U.S. dollars. It is not easy to get it through the customs. Maybe there will be some delays too."

Fade couldn't help but frown when he heard that. Obviously, he wanted to get his hands on the Fire Blame Plant immediately. However, given that the herbal medicine was not in Jade City, there wasn't much that he could do. He could only nod and agree, "I understand, I will sign this contract. However, I hope that the Li family can take action as soon as possible. I need the Fire Blame Plant for urgent use."

Martin patted his chest and promised, "Don't worry about it, Dr. Chen. I'll give a call to someone in Earlington immediately to get them to start with the transport process. Our family will bring back the Fire Blame Plant as soon as possible. Then, we'll give it to you, Dr. Chen."

08:47

Chapter 1068

Sasha also added, "Dr. Chen, please don't worry that we will delay fulfilling our terms. After all, although the Fire Blame Plant is precious. It is just worth a hundred billion yuan at most. The assets of our family are far above that, so that's nothing to us. "

Fade said, "I don't care about the money, what I want is the Fire Blame Plant."

"We understand. As long as Master Li can be cured, we will definitely not let you down," Martin and Sasha guaranteed.

Fade nodded, then he took the pen, and signed the contract. After that, he gave the formula of Life Elixir Wine to them as a form of deposit.

After signing the contract, Fade went home immediately.

After returning home, Fade told Lily what had happened, He also looked into the business errands of Sincere Medicine Center for Life Elixir Wine. After all, the Life Elixir Wine formula had been given to the Li family, and it would not take long for them to start the mass production of it. It would surely impact the Life Elixir Wine sales of the Sincere Medicine Center.

Although it would cost him a huge loss, it was nothing to Fade if he could bring his wife back.

The next day, Fade went to the Li family's house again.

The Li family treated Fade with respect. They welcomed Fade all the way to the ward.

The world's top doctors have conducted various examinations for Fenrir to ensure that his physical condition was kept in the

08:47

best possible state. At the same time, all kinds of first-aid facilities were also on standby, ready to be activated at any time to prevent accidents.

Despite the tense atmosphere, Fade was quite relaxed. He took out a silver needle and a medicinal solution he had prepared. Then, he approached Master Li's bed.

"Dr. Chen, I'm entrusting you with my body," Master Li was in good spirits and he smiled as he spoke to Fade.

Fade nodded and said, "Don't worry, Mr. Li. I can do it for sure. Nothing bad will happen."

Immediately, Master Li laid down and Fade jumped into action.

The silver needle fluttered and pierced into Master Li's body quickly. At the same time, Fade channeled some positive energy through the silver needle into the meridians of Master Li. It nourished the exhausted organs of Master Li, and his health was gradually restored.

Just like that, the whole recuperation process took more than two hours, and Fade was sweating profusely by the end of it. On the other hand, Master Li who was lying on the hospital bed became healthy at such a speed that it was visible to the spectators.

His skin, which had been pale and chalky, turned rosy. His pair of bleary eyes also seemed to have become a bit more quick-witted.

On top of that, those legs of his, on which he had hardly been able to stand, were now full of strength.

Finally, Fade let out a soft grunt and patted Master Li's shoulder with both his hands. Suddenly, all the silver needles popped off from Master Li's body at the same time.

08:47

Immediately, with a wave of his hand, Fade pocketed all the silver needles. Finally, Master Li drank the medicinal liquid Fade had prepared.

"Okay, my treatment is over," said Fade with a sigh of relief.

When they heard that , all the members of the Li family rushed over to the Old Master's bed.

"Father, how do you feel?"

"Grandfather, does your body feel better?"

"That's it? Is it true?"

"Old Master really looks better, it should be effective."

.....

Amidst the noisy sound, the Old Master sat up on the hospital bed with a smile on his face. He said, "Don't worry, I'm much better. Now, I feel like my body is full of energy, as if I am twenty years younger. "

Having said that, the Old Master actually got out of the hospital bed and took a few steps; everyone was amazed.

Although he trembled a little, he could walk on his own.

Taking in the scene, the whole Li family was overjoyed. They clapped and applauded and their level of excitement was beyond words.

Fade was not interested in watching their celebration. He simply said, "My treatment is complete. Master Li, you need to rest for a period of time before you can fully recover."

08:47

Upon hearing that, the members of the Li family rushed to Fade.

Martin said, "Mr. Chen, thank you very much for helping my father's condition this time."

Sasha also thanked him, "Mr. Chen, thank you very much."

At that moment, Fenrir walked over. Smiling, he said to Fade, "At such an age, you have mastered such medical skills. You are really amazing. May I know where you work? Our Li family lacks a top-notch level doctor, if Dr. Chen is willing, we..."

Old Master had the intention to recruit Fade to work for the Li family.

Even if one was to look past the sour relationship between Fade and the Li family, based on Fade's current status and identity, it was impossible for him to just be a private doctor for the Li family.

However, the Old Master had been bedridden for quite some time. Therefore, he was unaware that Fade and the Li family had a bad relationship. Therefore, to him, Fade was just a random doctor they had employed.

Martin and Sasha knew that Fade could not agree to that request. Therefore, they hurriedly moved to the father's side and explained.

"Father, Dr. Chen has his own business."

"Grandfather, Dr. Chen runs a company and a pharmacy by himself, and his value is not cheap."

.....

"Oh, that's the case. I was too forward then," Old Master smiled. Then, he said, "Anyway, you saved my life. Our family will always be grateful for this to you. May I know what you want?"

08:47 

Fade said, "Master Li, you are being too polite. There's no need to thank me. I have signed a contract with Mr. Li. I want the Fire Blame Plant in exchange for my Life Elixir Wine formula and your treatment."

"Now, I have fulfilled all my terms. The only thing I need is the Fire Blame Plant."

Master Li didn't expect Fade to be so cold and indifferent. He was taken aback for a moment before he nodded, "If that is the case, then we must deliver the Fire Blame Plant to Mr. Chen as soon as possible."

"Yes!" Fade nodded, then turned to bid farewell.

Martin and Sasha sent Fade out of the Li family's villa, and then immediately returned to the villa with excitement.

After all, Old Master had just recovered, they should seize the opportunity to gain the Old Master's favor.

Fade quickly returned to the hotel. He stood beside Quin's bed, channeling the positive energy of the "Nine Sun Flaming Skill" in his body to alleviate his wife's pain.

At the same time, the Li family was joyous.

The whole Li family was overwhelmed with happiness that day. The celebration lasted until the evening, and there seemed to be no end to it.

In the study room, the refreshed and energetic Master Li, after listening to Martin and Sasha's narration, sighed and said with a pity, "Hey, Fade's medical skills are so amazing. If he can come and work for the Li family, that would help us a lot! I didn't know your relationship with him is so awful."

Chapter 1069

Martin explained, "Dad, we didn't expect this to happen. Therefore, our relationship with Fade was a little bit bad."

Sasha also said, "Grandpa, it's all my fault. I started the Li's Hospital and was competing with Fade's business. That's why our relationship ended up like this."

Old Master felt sorry for his granddaughter. After hearing Sasha's words, he changed his stance and waved his hand, "Sasha, don't say that. I didn't actually mean that. Fade is just a doctor, no matter how good his medical skills are. With the power of our Li family, we can get any kind of amazing doctors from all over the world."

"Yes. It's just a coincidence that this time, Fade happened to be the one who was able to cure your illness", Sasha said quickly.

Old Master gently rubbed Sasha's head and said, "You can't say it like that. You didn't have a good relationship before. But with this incident, it can be seen as an opportunity, so you can try to be on good terms."

"Father, you mean we should take the initiative to express our gratitude to Fade?" Martin asked.

Old Master shook his head, and said, "That's not necessary. However, we should show him our kindness. For example, the agreement you signed with him. Please get him the Fire Blame Plant as soon as possible. I can see that Fade values this Fire Blame Plant very much."

Martin said, "Father, I have arranged our staff in Earlington to initiate the transfer procedures for the Fire Blame Plant. It should

08:47

be shipped back to Jade City within two days."

"Well, when it's shipped back, please deliver it to him", said Old Master.

Martin nodded.

On the contrary, Sasha rolled her eyes and said, "But Grandpa, we bought the Fire Blame Plant for twenty billion Micovia dollars. Do you really want to give it to Fade just like that?"

Martin and Fenrir understood Sasha's intentions. They were quiet for a while.

The Old Master immediately shook his head and said, "Twenty billion Micovia dollars may seem like a lot, but it actually isn't. There is no need to cause a scene as a contract has already been signed."

Martin shot Sasha a look.

Sasha hurriedly explained, "Grandpa, I'm not saying that we should breach the contract. After all, the reputation of our Li family is more important than anything. I just think that twenty billion Micovia dollars are a little too much."

Martin also explained on her behalf, "Father, Sasha recently suffered a loss while managing the business of The Li's Hospital. That's why she is a little sensitive when it comes to money."

Hearing that, Old Master waved his big hand and said, "That amount of money? Our family can afford to lose that amount. Cultivating Sasha's capability is the most important thing. With regards to the Chinese Medicine Hospital, just go ahead and do whatever you can, Sasha. If anything happens, you have my support."

"Thank you, Grandpa! I will work hard to develop and expand the Chinese Medicine Hospital." Sasha was extremely excited.

08:47

The three chatted for a while. Then, the Old Master got tired and he retired to his room to rest. The father-and-daughter duo were extremely excited. Their recent endeavor was fruitful.

Not only had they cured the Old Master's illness, but they also managed to gain his favor. Moreover, they even obtained the formula for the Life Elixir Wine.

As soon as the production line was set up, the Li's Hospital can produce Life Elixir Wine on a large scale. When that happened, they would definitely be able to overcome the Sincere Medicine Center and revitalize the Li's Hospital.

In that way, Sasha would not only be loved by the Old Master, but at the same also prove her own ability. Her position as the successor to the Li family would be secure.

Thinking of that, they couldn't help but feel extremely excited.

When they were revelling in their excitement, a person came in to announce, "Mr. Li, a guest wants to meet you. He says that there is something important he needs to discuss with you."

"It's so late already. Who is this guest?" Martin frowned.

The servant answered, "He is from Titan Studio. He is here on behalf of Master Chiu."

Martin and Sasha were shocked to hear the words "Titan Studio" and the name of Master Chiu.

After recovering from their shock, Martin hurriedly said, "Precious guests from Titan Studio, please come in quickly."

Immediately, Martin rushed out to meet the precious guests in excitement.

.....

08:47 

Fade ignored all other matters for the next few days. He stayed in the hotel, his heart set on his wife. He stayed by her bed and exhausted all his strength to relieve the pain caused by cold syndrome as he awaited the arrival of the Fire Blame Plant.

On that day, Fade was taking a nap after he finally managed to relieve Quin's pain.

Lily walked in with a solemn expression.

"Lily, what's the matter?" Fade asked when he saw her.

Lily handed a stack of documents to Fade. Simultaneously, she clicked on the video on the tablet and explained to Fade while it was playing. "Ever since you cured Master Li, the Li family's activities have been abundant in the past four days."

"First, The Li's Hospital launched a large-scale sale of Life Elixir Wine. The price is 20% lower than ours and their stocks are sufficient. It attracted a large number of customers and brought the Li's Hospital back to life from the verge of bankruptcy. Now that it has been revitalized, their daily profit has exceeded two million."

"Our Sincere Medicine Center, as well as the business of Otto Clinic and other Chinese medicine centers, have all been affected. Our customer count has dropped by at least 40%. This has affected the medical reform plan of the Jade City Pharmaceutical industry. The Chief Executive sent someone over to inquire."

Fade said plainly, "These are the results that I've already expected when I gave the Life Elixir Wine formula to the Li family. I will find a way to correct the situation. As for the Chief Executive, I will call him later to explain."

Lily nodded and said, "In addition to the pharmaceutical industry, our Fei Enterprises Holdings Inc branch is also competing with the cosmetics companies under the Li family. Recently, they have developed vigorously and have seized 20% of our customers. Their actions are getting larger in scale."

08:47

Fade's greatest wish at the moment was to cure his wife's cold syndrome. He didn't care much about business anymore. He couldn't help but felt a little impatient, and waved his hand, "Don't worry about this, for now, just let the loss go on first. At worst, the company will just close down."

"As long as Quin gets better, I do not care about the rest."

Lily sensed Fade's annoyance. She decided not to continue. Putting away the materials, she prepared to leave, "I got it, I will deal with business-related matters. Please accompany Quin well."

With that, Lily turned around and walked towards the door with the data and tablet computer in hand.

Although her words seemed resolute, Lily's heart and eyes were sore. Tears trickled silently from the corners of her eyes.

08:47

Chapter 1070

She sniffled and said to herself in her heart, "Lily, you silly girl. Quin is his wife. They are married by law. Being able to stay beside him is the best thing you can get. You shouldn't have any other thoughts."

With that thought in mind, Lily raised her hand to gently wipe away the tears from the corner of her eyes.

Fade sensed Lily's movements, and his heart trembled. He suddenly understood something. He couldn't help but feel guilty towards Lily, and said, "Lily, I'm sorry, I..."

After saying the words "I'm sorry", he didn't know what else to say.

Lily trembled slightly at Fade's voice. Then, she waved her hand and said, "Fade, you don't have to say sorry to me. I understand. I'm fine."

With that, Lily strode out.

Watching her retreating figure, Fade sighed and whispered, "Lily, I am sorry. Thank you for your hard work. After Quin is cured, I will definitely compensate you well."

Fade spent another day with Quin in the hotel.

His business was worsening each day as the pressure from the competing Li family grew.

However, Fade was not in the mood to care for that. What he was most concerned about was the Fire Blame Plant.

08:47 

Five days had passed since Fenrir had been cured. Although it had yet to be one week, as specified in the contract, Fade was beginning to feel a little impatient.

For the past few days, he had called Martin and Sasha several times, asking about the Fire Blame Plant.

However, they always said it was still going through the mandatory transfer procedures on Earlington's side. They assured Fade that he should not be worried. After the formality procedures were completed, the Fire Blame Plant would be delivered immediately.

On that day, Fade called Sasha again to ask about the Fire Blame Plant. Her response was similar.

Fade really couldn't wait any longer. He put on a coat and headed out.

An hour later, Fade arrived at the entrance of The Li's Hospital.

Looking at the crowd of people at the entrance door, Fade's gaze was stony.

He released a small burst of his positive energy, he shook the crowd away, and walked into the hospital quickly.

"Sir, if you want to see a doctor, you need to queue up to register. I..." When the reception counter staff saw Fade walk straight into the hospital, they stopped him and reminded him.

Fade said coldly, "I don't want to see a doctor. I am looking for your director, Sasha."

"Miss Li?" The front desk was taken aback. Then, she asked, "Are you looking for Miss Li? Do you have an appointment with her, sir?"

Fade frowned and said, "I didn't make an appointment with her. Go tell Miss Li that Fade is here to see her."

08:47

"Sir, this is impossible. Miss Li is very busy. It is impossible for someone to see Miss Li without an appointment. If you..." They said as they beckoned the security guard to come over.

Fade glanced at the burly security guards who were approaching, and said coldly, "You go up and inform her. She will come to see me."

When the leader of the security guards heard those words, he snorted coldly and said with disdain, "Kid, who do you think you are? Do you think our director will see you once we inform her? Do you know who our director is? Don't joke around, quickly get out now."

Having said that, the security guards reached out and were about to push Fade away.

Fade furrowed his eyebrows and said coldly, "You'd better not touch me or you will regret it."

"You dare to threaten me, little boy. I'll let you know right away that this is the domain of the Li family, and no one can trespass it." The leader of the security guards drew a stick, slapped it in his hand, as he prepared to attack Fade.

Upon seeing that, Fade grunted coldly but he did not respond. Instead, he launched into action.

In an instant, all those security guards could see was an afterimage flashing in front of them. They couldn't see what was happening at all. Their vision was filled with darkness, and they fell to the ground with a snap, passing out instantly.

In less than a minute, Fade dealt with all the security guards easily and then strode upstairs.

When he arrived at the Director's office on the top floor, Fade was greeted by a closed office door. He walked over with a solemn expression.

08:47 

Initially, he wanted to knock on the door to enquire about the situation before entering. However, as he neared the door, he overheard the conversation inside.

"Sasha, the performance of the Chinese Medicine Hospital has skyrocketed recently! You turned losses into profits instantly!" Said the voice of a young man.

"Haha, that Life Elixir Wine is really good. It has brought our hospital back to life," came Sasha's excited voice. "I really didn't expect that Fade would be so silly. He really gave us the formula of Life Elixir Wine to us so easily."

"Sasha, Fade made a lot of losses this time. In just a few days, the cosmetics business of his Fei Enterprises Holdings Inc branch dropped by 30%. The business of the Sincere Medicine Center has also declined by more than half. I heard that the Chief Executive is a little dissatisfied and unhappy about it," the young man continued.

Sasha smiled and said, "It's great that the Chief Executive is dissatisfied. It'll be even better if they revoke the Sincere Medicine Center's merits right away. It would be better if the medical reform plan of the pharmaceutical industry cooperates directly with our Chinese Medicine Hospital."

"If this continues, that might be possible. After all, Fade is really over. I haven't seen him go to the pharmacy to deal with the business recently," the man said.

Sasha curled her lips in disdain, and said, "I heard that the guy's wife is sick, and he has been spending time with her in the hotel. Hehe, Fade's a big man who doesn't do big important things but stays indoor all day just for a woman. He is really useless."

"Compared to you, Sasha, Fade is obviously useless," the man complimented. "Perhaps Fade wants the Fire Blame Plant for his wife."

08:47

Sasha said in a disdainful tone, "I don't care who he wants it for! The Fire Blame Plant, he'd better not even think about getting it anymore."

The man was taken aback, and then he was surprised. He asked, "Sister Sasha, what do you mean by that! Do you mean that you are not going to give Fade the Fire Blame Plant? But, the contract..."

Sasha said, "We acquired the Fire Blame Plant at the price of 20 billion Micovia dollars. 20 billion Micovia dollars; that is more than 100 billion yuan. That's a lot of money, even if we give it to him, would he dare to take it?"

"But, if Fade finds out about this, I'm afraid he won't let this go," the man said in concern.

Sasha said in a nonchalant tone, "He won't let this go? What can he do if he doesn't let this go? Does he really dare to confront my family?"

"That's true, Sasha. You are the daughter of the Li family. Who would dare fight against you!" The young man said, laughing.
