Chapter 1131

Sonia, who was dragging Momo, warned her, "Momo, you can't talk nonsense at such an occasion. It's really bad to provoke these martial artists."

Momo pursed her lips in displeasure, "I wasn't talking nonsense. Master Chen is indeed my brother-in-law. He..."

Before she could finish, Harper and Abell shook their heads and laughed with mocking expressions on their faces.

"Momo, no offense, but when Master Chen came out, you said that he looked like your brother-in-law, and now you are saying that he is your brother-in-law. I think you're overawed by Master Chen!"

"Momo, your brother-in-law couldn't even take two moves from me when I fought with him. However, Master Chen just killed Song Khan, who was at the later stage of the Earth Level. Do you really think that they are the same person given that there is such a big gap in strength?"

.....

Seeing that they didn't believe her at all, Momo flushed angrily. She didn't bother to explain to them anymore. Instead, she only waved her hand and said, "You can choose to not believe me, but you'll know when you see Master Chen again!"

After she finished that sentence, Momo took the lead and ran down the mountain.

.....

19:45 

As for Fade, after handling the aftermath, he asked Leonardo and Falcon to take the Stealth Team back.

Then, Fade and Lucas went to the Government House, settling the matters with the Chief Executive and Sergeant Xu.

After Fade finished dealing with all these matters, he was finally able to relax. He changed into his casual clothes from his Stealth Team's uniform and returned to the hotel.

As soon as he returned and pushed the door open, Fade saw Momo sitting on the sofa with her arms crossed over her chest. She was staring at him with a sulky expression.

Upon seeing this, Fade hurriedly walked over and laughed, "Momo, what's the matter? You look unhappy."

"You have the nerve to ask me!" Momo snorted and glared at Fade, "I finally came to Jade City to visit you but you left me alone and went to do your thing. And now you are asking me why I am not happy?"

"Momo, I was caught up by something important. I wasn't playing around," Fade immediately explained.

But unexpectedly, his words triggered Momo, "I hate you! Am I not important? After all, I helped you to cover up those things in the beginning. I'm not going to keep that a secret anymore. I'm telling Quin! "

After she finished, Momo took out her cell phone angrily and she looked like she was about to make the call.

Fade rushed over, held Momo's hand, and said, "Momo, I'm sorry. I shouldn't have left you alone. I'm so sorry, okay?"

Momo said shrewdly, "It's not enough to just say sorry."

"Then what do you want from me?" Fade looked at Momo powerlessly.

Momo tilted her head and thought for a while. Her eyes suddenly lit up, and she said to Fade, "I want you to promise me one

19:45 

thing."

Fade was defeated when it came to promises. He still remembered that he had already promised her another two things, "Momo, just tell me what you want from me."

Momo seemed to be a little hesitant. After thinking for a while, she didn't say anything. She only held onto Fade's arm and shook him, "Fade, can't you just promise me? If you don't, I'll tell Quin everything about you spying on me when I was taking shower. Oh, and also that time when you peeked at my chest, and..."

These words made Fade's hair stand on end. He quickly raised his hand in surrender, "Stop. Alright. Okay, I promise you. Say no more, Momo."

"Thank you! You are the best!" After receiving Fade's affirmative reply, Momo suddenly had a sweet mouth. She was still holding Fade's arm and she leaned on his shoulder. The position they were in was intimate.

After she acted coquettishly with Fade, she suddenly thought of something and said, "Oh yeah, Fade, there's one more thing I need you to help me with."

"One more thing!" Fade started to have a headache.

"It's not a promise! Just a small favor from you," Momo explained hastily. "I have a lunch date tomorrow at noon. Come with me!"

"Lunch? I..." Fade was about to say something, but he noticed that Momo was pleading for him to go, so he just nodded and agreed, "Okay, I will accompany you to lunch tomorrow."

"Great! You are always the best!" Momo was so happy that she hugged Fade without any scruples and she kissed him on his cheek.

19:45 

Right at this moment, someone opened the door. It was Quin, who had returned from her work, and she saw the scene.

All three of them were stupefied.

Fade gritted his teeth and felt as though he was going to implode in embarrassment. He quickly explained, "Quin, I... Momo and I are just..."

Momo also explained hastily, "Sis, I was just fooling around with Fade! Don't get me wrong, we were just..."

Quin glared at both of them and walked towards her room. At the same time, she beckoned to Momo and said, "Momo, come in with me."

"Sis, I..." Momo nervously followed behind Quin. Before she entered the room, she gave Fade a bitter look.

Fade knitted his brows when he received the glare, and he muttered, "Momo, don't look at me like that! This will make things worse!"

Then, Quin and Momo entered the room.

.....

For the next half an hour, Fade felt as though it was the rest of his life. He was restless. Finally, the door was opened, and both Quin and Momo came out.

Fade rushed to them immediately and said with a smile, "Quin, you must be tired. What would you like to have for dinner? I'll make it for you."

Fade thought that he was about to receive his wife's cold shoulder, but instead, Quin smiled faintly at him and replied, "I will just

19:45 

have the food you made last time. It's delicious and it's good for my health."

"Uh," Seeing that Quin wasn't angry, it somehow made Fade more nervous and confused. He answered when he finally came back to his senses, "Well, okay. I'll make it right away."

"Thank you," said Quin. It made Fade even more agitated.

However, he still went to the kitchen and got busy preparing dinner.

Spotting an opportunity, Fade pulled Momo into the kitchen with him and asked, "Momo, what did you two talk about in the room just now?"

However, Momo was keeping her secret well at this moment, "Quin said that that's girls' talk. I shouldn't let you know."

"Momo, I'm your brother-in-law! Just tell me a little bit. I won't let Quin know that you told me," Fade cajoled with a smile.

19:45 

Chapter 1132

"Fade, only my cousin and I know about this. Do you think she won't know even if you didn't tell her?" Momo rolled her eyes and told him, "Stop guessing. It's not something serious. Please focus on cooking our dinner. I'm starving."

"Even if it's not a very serious matter, it doesn't mean that it's not serious enough. I..." Fade started to be paranoid but Momo was unusually good at keeping the secret right then no matter what he said.

To no avail, Fade went to cook the dinner.

In the evening, Quin and Momo were even more chatty than usual at the dining table. On the contrary, Fade didn't enjoy his dinner because he was very nervous.

The next day, Quin went to work as usual.

When it was almost noon, Momo dragged Fade out to fulfill the promise he made the day before - accompanying her for lunch.

They went by car and they arrived at the only six-star hotel in the center of Jade City at around eleven.

Momo led Fade in and walked towards the dining table in the restaurant.

Several people were already sitting at the table. They were Abell, Sonia and Harper, all whom Fade had met before.

Fade was surprised. He looked at Momo and asked, "Momo, you are going to have lunch with them?"

19:45 

After all, they didn't have a close relationship. Fade didn't expect Momo to have a meal with them.

Momo winked at Fade, and holding onto his arm, she said, "I'll explain to you later, Fade. Now, let's sit down."

Both of them sat down, but Abell and the others were looking at them with disdain.

Abell, in particular, mocked without hesitation, "Momo, I can't believe you really brought this cowardly man with you."

Momo glared at Abell angrily and said, "Abell, I told you he isn't a coward. He really is a master!"

Abell laughed arrogantly.

Harper joined in with Abell. He laughed and mocked, "Of course he is a master. Like what Momo said before, Fade is Master Chen and Master Chen is truly a master!"

Hearing that, Abell and Sonia shook their heads and laughed in mockery. They obviously didn't believe Momo.

On the other hand, Fade was calm. He said, "Momo didn't lie. I am indeed the Master Chen from Jade City."

The three of them stunned, then they burst into laughter a moment later.

"Did you hear what he said? The Master Chen, he said! Oh, this is so ridiculous."

"We were joking! I can't believe you took it seriously. I don't know what to say about you anymore."

"Mr. Chen, I know Master Chen is the hero for everyone in Jade City now, but you don't have to make up such nonsense!"

.....

Fade picked up his tea cup and took a sip of the tea. He shook his head and said, "I'm not lying, I am indeed Master Chen."

19:46 

"Someone here is really into acting," Abell said with his scorn evident on his face.

"Momo, as your cousin, I feel obliged to tell you this. Stay away from such people," Harper chided Momo.

Momo opened her mouth to explain.

However, Sonia waved her hand and interrupted Momo, "Okay, let's put this aside and talk about something important."

When it came to serious issues, they became solemn.

Sonia said, "I have made an appointment with Eden, a middle-level manager of the Li family. He should be here soon. We should list out the things that we are going to discuss later so that we can have the upper-hand at the negotiation."

"Eden Li!" Harper repeated surprisingly. "Sonia, didn't you say that you will contact Hanson, the head of the Li family, and someone from the Smith Group? Why are we meeting with a mid-level manager from the Li family?"

Sonia sighed and explained, "Hanson has become history. I sent someone to ask around, and apparently, something big had happened in the Li family just before we came here."

"Hanson and the Smith Group no longer run the Li family. They were kicked out by Sasha and now she's the head of the Li family and has most of the shares."

"How did Sasha defeat Hanson and the Smiths by herself?" Harper was surprised.

Abell frowned, "Didn't you say before that Sasha was disfigured and kept herself out of sight completely?"

Sonia sighed, "The rumors were true, but then things had changed. Sasha somehow obtained the support of Master Chen, and with that, she managed to retract the properties and took control of the Li family on behalf of him."

19:46 

"Therefore, we have to change our original plan. We need to talk to Sasha but she's now different from who she used to be. I can't make an appointment with her within such a short time, so I made an appointment with a middle-level manager, who is Eden. We'll settle our business proposition with him first, then we'll make our way to Sasha."

"The Li family now has Master Chen as their support so although Eden is only a middle-level manager, we must be mindful and treat him with respect. After all, if we have a good relationship with the Li family, we are indirectly connected to Master Chen, which will be beneficial for us. Does everyone understand?" Sonia explained.

"Yes!" They nodded and started to prepare their documents.

Fade was surprised to see that Momo, too, was preparing the documents, so he asked, "Momo, are you going to join the business meeting too?"

Momo nodded and earnestly said, "Fade, I'm not here to have fun. I want to put some effort into our family business and make a good business deal with the Li family."

Listening to her reply, Fade was dumbfounded. He looked at Momo and said, "Momo, you can just tell me if you want to talk to the Li family about business. I can arrange it for you. There's no need to make such a big fuss."

Momo pouted, "That won't do. If I take advantage and rely on you, I won't be able to improve myself."

Her reason was understandable so Fade nodded, "Well then, I won't interfere. You can talk to Eden all you want."

Harper and the others, who were sitting at the same table as them, heard Fade. They shook their heads and made fun of him.

"Oh please! Wake up and stop impersonating Master Chen!"

19:46

"I can arrange it for you,' he said. Do you really think that you can make arrangements with the Li family that easily?"

.....

Momo wanted to defend Fade, but Sonia frowned and said, "Momo, we're going to have a business discussion. I don't think Fade should be here. I'll book him another table. He can have his meal there."

"But..." Momo still wanted to say something.

19:46 

Chapter 1133

However, at that moment, even Harper took Sonia's side, "Sonia's right. If he keeps on bragging when we discuss business later, it might upset Eden. We wouldn't want that to happen."

Abell added in a cold voice, "Don't worry, you don't have to pay. We'll pay for you."

"You..." Momo flushed in anger. She wanted to remonstrate with them.

However, Fade smiled in indifference. He stopped Momo, "It's okay. I don't mind sitting on the other table since it's so crowded here."

Then, Fade got up and went to another table.

Sonia and the others continued to discuss the business negotiations that were about to begin. Right when they were discussing vigorously, they saw two figures walking into the restaurant. Sonia was surprised, and she couldn't help but yelp, "Why are they here?"

"What's wrong?" Harper asked curiously.

Sonia pointed to two middle-aged men who were at the door and said, "That's Hanson and Tommy."

"What? Hanson and Tommy? Hanson, the richest man from the Li family and Tommy from the Smith Group of Micovia?" Harper asked in surprise.

19:46 

Sonia nodded, "That's right."

"Why are they here? Sonia, didn't you say that we weren't going to negotiate with them?" Said Harper.

Sonia frowned lightly, "I did send a notice saying that the negotiation has been canceled, but I don't know why they came."

"Look, they're walking towards us!" Abell said, "Should we greet them?"

Sonia thought for a moment, then nodded, "Although Hanson is now absolutely worthless, Smith isn't. He's still one of the members of the Smith Group from Micovia. It'll benefit us if we built a good rapport with him."

Speaking of it, Sonia and the others stood up and walked towards Hanson and Smith with smiles on their faces.

"Hello, Mr. Smith! We are..."

Yet, as Sonia took the lead to greet them, Tommy and Hanson, who seemed to be walking towards them, only took a quick glance at them before walking past them and straight towards the table next to theirs.

"Um..." The group was embarrassed.

Sonia faked a light cough and explained, trying to convince herself, "Perhaps Mr. Smith is caught up with something else."

At that moment, Harper let out a cry in surprise, "How is it possible? Look!"

The others were shocked, and they turned to look in the direction that Harper had pointed.

Immediately, they saw that Tommy and Hanson had gone to the table where Fade was seated.

Both of them stood humble and reverent in front of Fade. It looked like they were trying to ingratiate themselves with him.

19:46 

"Mr. Chen, we are sorry!"

"We would like to apologize to you. Please spare us."

.....

Fade was about to have his lunch when the both of them seemingly appeared out of nowhere to apologize. He was a little surprised, "What are you doing? Why do you need to apologize to me?"

Tommy and Hanson were shocked and their expressions looked a little strange.

Only a day before, they were waiting at home for the end of the Martial Arts Convention at Sunset Mountain. It was when Phyton would assassinate Fade to avenge them as they had ordered.

However, Phyton hurried back in panic in the evening and reproached them saying that Master Chen's strength was far beyond what they had described. They were sending him on a suicide mission when they asked him to kill Master Chen.

Following that, Phyton described what had occurred at the Martial Arts Convention at Sunset Mountain. Listening to the recount, Tommy and Hanson were appalled.

They knew that Fade was a master of martial arts, and they knew that he was very powerful, but they didn't expect that he was that powerful. His strength level of martial arts was far exceeding that of Phyton's whom they thought was already very strong.

After telling them the story, Phyton left Jade City overnight and swore to never set foot in the place again.

Hence, after a sleepless night, the unsettled Tommy and Hanson finally decided to take the initiative to apologize to Fade and beg for his forgiveness.

19:46 

After all, with Fade's strength, it was just as easy as a piece of cake to kill both of them if he was mad at them.

Therefore, there was such a scene at that moment.

Fade didn't know that they had asked Phyton to assassinate him, but as soon as he saw the guilt on their faces, he immediately realized that they were hiding something. He snorted and said, "Tell me, what have you done behind my back?"

Both of them groaned and regretted their decision immediately, yet they had no choice but to speak. They anxiously came clean about their plan to hire Phyton to assassinate him.

Hearing this, Fade snorted. He slammed his hand on the table and said in a deep voice, "To kill me! Tell me. What should I do about this?"

"W-We..." Both of them stuttered in fear and they were sweating profusely. In the end, they knelt in front of Fade, bowing to beg for mercy. "We're sorry. We know that we've done wrong. Please, Mr. Chen! Spare our lives!"

Fade only looked at them coldly, and said in a deep voice, "Alright. Since you admitted your faults, I will spare your lives."

"Thank you, Mr. Chen. Thank you!" Both of them quickly thanked him in relief.

However, Fade turned around and said, "I won't kill you, but there will be severe consequences. Why don't you each lose one of your arms?"

In a blink of an eye, Fade broke one of their arms each.

Hanson and Tommy cried out in pain and they were drenched in sweat. Yet, holding their broken arms, they were still grateful towards Fade, "Thank you, Mr. Chen!"

19:46 

Fade waved his hand and said, "Now, get lost."

As though they had received a pardon, both of them rushed to leave.

.....

Sonia and the others were confused by what they had seen. They frowned in disbelief.

"What is going on? Why did Tommy and Hanson apologize to him?"

"Could it be that he was indeed Master Chen?"

Momo snorted, "That's what I said earlier. I said my brother-in-law, Fade, is Master Chen, but none of you believed me. How about now?"

The trio hesitated but they still shook their heads after that.

"He's just dealing with a shabby Hanson. It's nothing," said Sonia.

Abell also replied, "It's not a big deal to break the arms of two ordinary people. Even a martial artist at Yellow Level can do that."

"Knock it off, Momo. Don't you think that we don't know who he really is?" Harper snickered.

"But..." Frustrated, Momo wanted to defend Fade.

However, at that moment, another middle-aged man walked into the restaurant. Sonia saw him, and she immediately pointed out that man in surprise, "Eden... Mr. Li is here! Let's greet him. Get ready!"

Then, she led the group to meet and greet Eden with a wide smile.

19:46 

"Thank you for coming, Mr. Li!"

"We are honored to have you here, Mr. Li!"

"Mr. Li, please have a seat!"

...

Looking coldly at their acclamation, Momo curled her lips, but she had no choice but to follow them.

19:46 

Chapter 1134

"This way, Mr. Li," Sonia, who was smiling, stood at the front, and she welcomed Eden with great enthusiasm.

She unbuttoned the first two buttons of her blouse when the others weren't looking, blatantly revealing her snow-white skin under her clothes while she walked towards Eden.

Eden didn't seem to expect that Sonia would behave in this way. When his eyes glided over her, they couldn't help but stayed at the exposed skin for a few seconds more.

Upon seeing this, Sonia smirked in confidence.

Sonia was from the Yao family of South Bay City, which was a well-known business family. She grew up under the influence of her family. As a businessperson, she knew what she needed to do if she wanted to achieve her goals.

If she could win over Eden, it would be exceptionally worthwhile for her to show a bit of her body.

However, Momo and Abell, and even Harper did not share her intentions. They were shocked and amazed to see Sonia's little maneuver.

As they were still in shock, Sonia had already gone to Eden and brought him to their table. She even pulled out the chair for him.

Upon seeing this, Harper didn't want to fall behind. Thus, he handed over the menu almost immediately, and he greeted, "Mr. Li, let me know if there's anything you want."

19:46 

"Mr. Li, it's our honor to have you here." Even Abell, who had always been indifferent, plastered on a smile at this moment and flattered Eden.

Naturally, as a sophisticated businessperson, Eden saw through their intentions. His eyes flickered and he looked at each of them from head to toe.

Eventually, his gaze fell on Momo.

After all, Momo was gorgeous. Even Sonia, who had exposed a little bit of her body on purpose, couldn't compare to Momo's beauty.

Momo immediately caught Eden's eyes and he couldn't stop himself from asking aloud, "You are?"

Upon hearing this, Sonia couldn't help but pull a long face. However, she was slick, so she was quick to introduce Momo, "Mr. Li, this is Miss Momo Soo of the Soo family in South Bay City."

"I see. The Soo family is also one of the big families in South Bay City!" Eden sighed. His gaze was almost fixed on Momo.

Sonia continued, "Yes. The Soo family and us, the Yao family, are both centennial families in South Bay City. We are going to merge into one family as my cousin, Hector, is engaged to Momo. So, Mr. Li, please look after our families in the future."

Sonia noticed Eden's preference towards Momo. Hence, she mentioned Momo's engagement with Hector in the hope that Eden would see both of their families as one.

However, Momo's face fell when she heard Sonia talking about her engagement. Although she hadn't been speaking much, she pouted, "Sonia, I didn't agree to the engagement. Don't simply spread this rumor."

19:46 

Sonia didn't appreciate the fact that Momo had refuted and directly confronted her in front of Eden. Sonia's face fell and she said, "Momo, the elders in our families have decided your engagement with Hector. Everyone in South Bay City knows about this."

With that, Sonia looked at Harper and Abell.

The two nodded and agreed.

Seeing their responses, Momo flushed in anger and wanted to say something.

However, Sonia didn't give her the chance. She changed the subject, "Momo, let's drop this for now. We have a guest today and we should be polite. You should apologize to Mr. Li with a glass of wine for the lack of manners earlier."

The corner of Eden's lips lifted when he heard Sonia. He obviously wouldn't mind having a beauty like Momo toast to him.

Momo was exasperated and she was reluctant, "I don't drink."

Upon seeing this, Sonia couldn't help but say, "Momo, Mr. Li is our important guest from the Li family. Couldn't you at least pay him some respect?"

At that stage, even Eden felt disrespected. His face darkened and he said, "It looks like I'm not worthy of Miss Soo's time!"

"I..." Momo thought they were going to talk about business. She didn't have much experience with such a situation, so she had no idea what to do when she faced it.

Seeing that Momo was in a predicament, Fade, who was at the table next to the group, coughed, "Eden, I haven't seen you for some time. It seems like you're doing quite well."

19:46 

Fade's unfriendly tone had immediately caught their attention.

Sonia pulled a long face and she cautioned, "What are you talking about?"

Harper also bellowed, "Just shut up and eat your lunch."

Abell chimed in as well, "Get lost if you're done eating. This isn't somewhere you should be."

.....

Sonia was about to beckon the waiter to chase Fade out when she saw that he had no intention of leaving even after they had handed him his hat.

However, at that moment, Eden looked over and he was surprised to see Fade. He exclaimed in shock, "M-Mr. Chen!"

With that, Eden could no longer sit still in his seat. He got up and walked over to Fade and greeted him respectfully, "Mr. Chen, what a surprise to see you here. I..."

Beside him, Sonia and the others were dumbstruck by what they had seen. They didn't know what was going on, but they were curious to find out.

"This is Momo's friend, Fade. He's here to mooch food. Mr. Li, if you don't like it, we will kick him out immediately."

"Mr. Li, why are you..."

.....

"Shut up! What nonsense are you all talking about? He is Mr. Chen!" Eden turned his head and shouted at the trio. He then turned to look at Fade respectfully, "Mr. Chen, I..."

19:46 

Fade stopped him and spoke nonchalantly, "I'm just having my meal here. Don't mind me. You can do your thing."

"I..." For a moment there, Eden had no idea what to do next. He wasn't even sure if Fade was being truthful or he was sarcastic.

Then, Fade glanced sideways at Momo and he said, "By the way, Momo is my cousin. You need to be careful."

Hearing this, Eden was shocked and frightened and he broke into a cold sweat.

After all, Eden was going to make a move on Momo when he didn't know who she was. Fortunately, he didn't act on his thoughts because otherwise, he would be dead by then.

Eden wiped the cold sweat from his forehead, and hurriedly expounded, "Mr. Chen, I will definitely look after Miss Momo. I'll agree to whatever Miss Momo proposes and..."

Fade waved his hand dismissively and said, "That's not necessary. Just follow the standard procedure. Momo will need to improve her skills on her own."

"Yes, yes. Of course! I will follow the procedure as usual!" Eden nodded.

"Well then, go back to your table and carry on with the business meeting. I'd like to continue my meal," Fade waved his hand again and said softly. 

19:46 

Chapter 1135

Eden turned to leave but he suddenly thought of something so he went back to Fade and asked, "Mr. Chen, Miss Sasha is in the hotel and dealing with the financial affairs. Would you like me to ask her to come over?"

"Sasha is here too?" Fade was a little surprised, but then he waved his hand, "It's fine. No need to trouble her. You go ahead with your meeting."

"Sure!" Eden bowed respectfully before returning to his table a few steps away.

All through Eden's exchange with Fade, Sonia and the others were looking over in amazement, curiosity, and suspicions.

"Mr. Li, do you know him?" asked Sonia.

Eden's face fell and he said, "Of course I do! That's Mr. Chen!"

"Mr. Chen?"

Sonia and the others couldn't help but wonder what Fade's true identity was because even though Eden was senior to Fade, he had addressed Fade so respectfully.

Tommy and Hanson were deferential to Fade earlier. They didn't even make a scene when he broke their arms.

Then, Eden appeared to be complacent in front of Fade too.

19:46 

The group was very inquisitive and they gingerly asked, "Mr. Li, is Mr. Chen some kind of big shot? Why are you..."

"Of course he is..." Eden caught himself mid-sentence, recalling Fade's low-profile behavior from earlier. He swallowed what he was planning to say, and changed the subject instead. In a deep voice he said, "Stop asking about Mr. Chen anymore. Let's get straight to the point, shall we?"

"Uh, of course! Let us begin from our proposals then." Sonia and the others immediately abided.

Then, the group began to discuss their possible deal whole-heartedly. They didn't even bother to eat the food they had ordered.

After the conversation with Fade, Eden dared not to view Momo as any other identity than Fade's cousin. He didn't even dare to look at her anymore.

After a long and thoughtful discussion, they had finally sealed some business deals. Amongst them, Momo, who performed the worst at the negotiation, signed the most rewarding contract with the Li family. Sonia and the others were understandably puzzled and envious of her success.

Meanwhile, Fade eavesdropped on their conversation in silence while enjoying his meal.

Truth be told, Fade could have easily made an arrangement for Momo if she really wanted to make a deal with the Li family. After all, he was now the principal shareholder of the family.

However, what Momo and the others had discussed with Eden were only some small trades. Momo didn't really want to make a deal. She was there to train herself.

Therefore, Fade didn't intervene and he let them be.

19:46 

Meanwhile, although Sonia and the others tried to keep Eden for some more time, he had no intention of staying any longer. He wanted to leave as soon as possible as they had already come to agreement.

Sonia and the others got up and prepared to see Eden out of the hotel.

They were already at the main door of the hotel when, all of a sudden, a siren pierced through their ears. The fireproof doors dropped down at once, locking everyone in the hotel.

It terrified those who were enjoying their food a moment ago.

"What's going on? What happened?"

"The doors are closed. Is there a fire?"

"Waiter! Are there any other exits? We have to leave."

"Let us out!"

"Argh! Stop pushing! My shoes!"

.....

The sudden sirens caused a commotion in the restaurant.

Sonia and the others had felt the intense fear too. They were carried by the crowd and were almost pushed into the corner.

Seeing the state they were in, Fade raced over to help Momo out from the agitated crowd. Abell seized the opportunity and used the passage opened by Fade to escape bringing Sonia and the others with him too.

19:46 

They reassembled at a corner with fewer people and they were shaken up by the unexpected event. "What's going on? What happened?"

At this point, a panting waiter came down from the stairwell and said, "Miss Sasha was held hostage by some guys! We are evacuating everyone!"

The group was appalled by the news, especially Fade.

Fade remembered what Eden had told him earlier and his eyes turned dark. He immediately turned to Eden and asked, "Where is Sasha?"

Eden replied instantly, "In her office at the top of the hotel. The 18th floor!"

Upon hearing the information, Fade looked at Momo and reminded her, "Momo, stay put with everyone else. Don't run around and keep yourself safe."

Following that, Fade rushed to the stairwell and ran to the top floor.

Eden followed the waiter from earlier to help organize the staff to keep the order in the hall.

Momo and the others were safe at the moment since they were hiding in the corner.

Yet, Sonia's eyes lit up as she thought of something. She then stepped out of the corner.

Seeing her action, Harper yelled at her, "Sonia, what are you doing? Come back here!"

Sonia exclaimed, "Did you hear that? Miss Sasha was held hostage by some people."

"Yes, we know! That's why we have to stay here and keep ourselves safe!" Harper said.

19:46 

Momo also snapped at Sonia, "Fade also asked us not to run around."

Sonia didn't listen to them, and she seemed rather excited, "Think about it! Miss Sasha is in danger. If we can save her, wouldn't it be..."

At this stage, Harper and the others knew what Sonia was planning to do.

However, Harper was still worried, "But it's too dangerous. If the enemy is very powerful, not only will we not be able to help, but it'll put us in danger too."

Momo also said hastily, "Don't mess around, Fade..."

Before Momo could finish, Sonia interrupted, looking at Abell directly, "Abell, Fade dared to go to Miss Sasha all by himself, but you've defeated him. If we go together, we will do better than him."

Originally, Abell didn't want to get involved with these matters. However, after listening to Sonia, he started to have a second thought, "I..."

"Or do you think you are no match to Fade?" Sonia tried to provoke him again.

Abell took the bait and was furious that Sonia even suggested that. He snorted, "Are you kidding me? He fled before our match just a few days ago. What made you think that I won't be better than him?"

"Of course I'm coming. After all, I'm a martial artist at the pinnacle of the Yellow Level. I'm afraid of nothing!" Abell stood up.

Then, Sonia and Abell left the rest of the group for Sasha.

Harper, who was hesitant, bit the bullet and followed them. Seeing that her interception was to no avail, Momo had no choice but

19:46 

to go after them. After all, Harper was her cousin.

.....

At the same time, Fade had arrived at the top floor of the hotel.

He snuck through the corridor to the office door and he saw that several security guards and staff members were already there. They were standing by the office door and they were shouting to communicate with the people inside.

"Tell us what you want but please let go of Miss Sasha!"

"Don't hurt Miss Sasha."

.....

19:46 

Chapter 1136

Fade peeked into the office through the gap between the people.

In the office, a young tanned man in his twenties pointed a sharp knife at Sasha's throat.

That man looked fierce, and Fade could see his veins on his forehead from afar. "Back off! All of you, back off!" the man shouted, but he sounded weird.

Hearing his accent, Fade frowned and whispered to himself, "He's not local, but if he's a foreigner, why is he here?"

Fade was deep in his own thoughts. Meanwhile, Sasha, who was being threatened, was calm even though her face was red from the anxiety and she was sweating profusely. She spoke to the man as calmly as she could, "Tell me what do you want? I can give you anything as long as my family can afford it. Everything can be negotiated if you don't hurt me."

However, the man seemed to be upset. He doubted the authenticity of Sasha's word and he said, "You and the whole Li family are all liars! I won't believe you."

His expression became more gloomy and he pressed the knife harder against Sasha's neck. Her blood started to ooze out.

The man said furiously, "I gave you a chance just now, but you lied to me and triggered the alarm. Do you think I will still believe you?"

Sasha's eyes flickered and she quickly explained, "It was just an accident. I didn't mean to trigger the alarm. I can give you what

19:46 

you want."

"Do you think I would still believe in your nonsense?" the man snorted. Then, he shouted ferociously, "I only want you to die! I don't want anything else!"

As he spoke, he pressed the knife deeper into Sasha's neck. She cried out in pain as her blood trickled down.

The security and staff at the door were terrified and had no choice but to back off.

Fade knew that he couldn't wait any longer, so he stood up and was ready to rescue Sasha.

Just as Fade was about to take action, someone came from behind and shouted, "You! Let go of Miss Sasha! Or else you're going to regret it!"

The shout caught everyone's attention immediately.

Fade was one of them. He turned to find Momo and the others up at the top floor with Abell taking the lead. He was the one who shouted.

"What are you doing up here? Get back down at once!" Fade frowned and sternly demanded.

Sonia glanced sideways at Fade and scoffed, "You're not the only one trying to impress Miss Sasha by saving the day."

Harper said, "Everyone wants to please Miss Sasha so stop being a pot calling the kettle black."

Fade was infuriated as he heard it. He bellowed in his deep voice, "Nonsense! This is a matter of life and death. It's not a playground for you to fool around. Leave here now."

Instead of listening to Fade, Abell stood out and yelled to the man, "I'm a martial artist! You'd better let go of Miss Sasha.

19:46 

Otherwise, you're going to die!"

The man was taken aback by Abell and his friends. He then looked at Sasha and asked, "Did you call these people for help?"

"No, I didn't!" Sasha shook her head while hinting at Abell and his people to leave.

However, they didn't take the hint. Instead, they thought this was the perfect opportunity to impress Sasha.

"Miss Sasha, I am Sonia from the Yao family in South Bay City. We have just signed a contract with Mr. Li. We are partners now and we will not abandon you."

"Miss Sasha, I'm Harper from the Soo family in South Bay City. I'm here to rescue you too. Don't worry, we're here to save you."

Abell, on the other hand, slightly showed off his positive energy while he declared, "My name is Abell, a member of the Stealth Team in South Bay City and a martial artist. Don't worry, Miss Sasha, I'll save you."

Then, Abell looked at the man and said, "Release Miss Sasha immediately! Otherwise, I will kill you."

As he spoke, the energy in his palm surged as he prepared to attack.

The man's face darkened. He looked at the energy in Abell's palm and he sneered, "Miss Sasha, are they your bodyguards? It's ridiculous that they only have this level of strength."

"Take this, you arrogant b*stard!" Abell blasted his energy towards the man.

He was very confident that he could kill the gangster with this one move. After which, he would become the man who rescued Sasha, and the Li family would owe him big time. With this, the relationship between his family and the Li family would be much more closer.

19:46 

Moreover, Sasha might fall in love with him and they might start a wonderful and romantic relationship. After all, Sasha was a great beauty and Abell admired beautiful things.

Just when Abell was imagining his bright future of being the hero who rescued the damsel in distress, the man simply broke Abell's energy with a slap. Then, the man's energy charged towards Abell. He had begun to counterattack.

Abell didn't expect that his move would be neutralized so easily or that the man could fight back. He was shocked and he only barely dodged the man's energy in a hurry.

When he saw that the man's energy made a hole in the ground in front of him, Abell's blinded self-confidence was shattered completely. He was astounded and he looked at the man, "I am at the pinnacle of the Yellow Level. How could you neutralize my attack so easily? Who are you?"

The man sneered, "Only a pinnacle of Yellow Level and you dared to attack me? Do you think you can attack me, Borzoi, just with your current strength? You are hilarious."

"Borzoi!" Abell was surprised when he heard the name, "How is it possible? How could Borzoi be here?"

Harper was confused, and he asked, "Who is Borzoi? Is he famous?"

Sonia replied gravely, "Did you not pay attention to what those people at the Martial Arts Convention on Sunset Mountain talked about yesterday? Borzoi is an infamous fugitive from Southeast Asia who had taken dozens of lives. He's at the middle stage of the Black Level, which means that he's even stronger than Phytton."

"What? The middle stage of the Black Level? And he's stronger than Phytton? He..." Harper was horrified by the man's identity. He took a step back and wanted to leave.

19:46 

Abell was also dumbstruck. He initially thought that he could easily fight off some hooligans with his current strength at the peak of the Yellow Level.

However, he didn't expect that the man who had Sasha hostage turned out to be the notorious criminal Borzoi. Abell knew he definitely couldn't defeat such a person like him with his current strength.

In the end, not only he couldn't save the damsel in distress, but he had also put himself in danger.

19:46 

Chapter 1137

Abell couldn't hide his fear as he thought of that and he soon tried to retreat, hoping to leave the place.

Sonia and Harper also had turned pale and they too slowly stepped backwards.

However, at this moment, Borzoi tensed his left hand and an invisible energy drew Abell towards him.

Abell couldn't avoid it but was forced to send himself directly into the hand of Borzoi. Borzoi put his hand on Abell's throat and strangled him, turning him into another hostage. He warned Abell, "Don't move, otherwise, you'll die."

Abell, Harper and Sonia were dumbfounded. They initially wanted to show off and tried to please Sasha. Instead, they got into this mess.

They had no idea what to do next.

On the other hand, Fade was looking into Borzoi's eyes. Then, his eyes flickered as he noticed something. He took a step forward, still looking at Borzoi, and said coldly, "Let them go. You are no match to me."

Upon hearing that, Borzoi turned to gaze at Fade.

At this point, Fade quivered and released a strong energy. Borzoi couldn't help but shudder. He took a few steps backwards and he tightened his grip around Abell's neck.

Abell was terrified but he managed to yell at Fade at such a stage, "Stop messing around and step back!"

19:46 

Harper and Sonia also shouted at Fade.

"You'd better not interfere. Even Abell is no match to Borzoi."

"I know you want to impress Miss Sasha, but now, Abell is in danger so don't provoke Borzoi anymore."

.....

They still had more to say, but they were silenced by Fade, who had turned and glared at them. Fade shouted, "All of you, shut up!"

Then, Fade strode towards Borzoi.

Abell panicked when he saw this. Harper and Sonia were even more anxious and they had no choice other than only yelling at Momo, "Momo, please ask him to come back!"

Momo said confidently, "I trust him. Fade will definitely be able to settle this."

"Momo, why are you..." Sonia and Harper almost cried from worry.

At that moment, Fade had got himself near Borzoi. They were only four or five meters apart. For a martial artist, it was already close enough.

Borzoi hissed as he saw this, "Stop there! Or else I'll kill them."

The knife that was on Sasha's neck pressed harder against her and the left hand that was strangling Abell had an even tighter grip.

Fade stopped in his tracks. He looked at Borzoi and said, "Borzoi, if I'm not mistaken, you are suffering from serious internal

19:47 

injuries to your vital organs due to martial arts training."

"If you continue like this, you will be dead in three months."

"How did you know?" Borzoi replied instinctively. He was astonished by Fade's knowledge, but then, he realized something. He shook his head and said, "I have done what I have to do so it doesn't matter what will happen next."

Fade asked, "Why? Don't you want to survive?"

"Survive?" Borzoi's eyes lit up, but the emotion they carried was complicated.

Fade continued, "I know a way to heal internal injuries."

"What? You have a way to heal..." Borzoi looked surprised and excited, but then he shook his head and said distrustfully, "I know what you're saying that as a lie. I have prepared to die before coming to Jade City. I'd rather die here than fail my task."

Fade looked at Borzoi and said, "I'm not lying. Ask around, then you'll know that I'm truly a well-known doctor in Jade City. I can treat your injuries."

"If you don't believe me, you can follow my words and concentrate your energy. Then, you should be able to feel some relief from your injuries." Fade immediately told Borzoi the method and sequence of the concentration.

Borzoi was skeptical of Fade's method and he still didn't trust him.

Borzoi tried Fade's method of concentrating his internal energy in secret. Seconds later, he was surprised by the effect of it, but he immediately hid his excitement.

However, Fade had already noticed Borzoi's micro-expression and he continued, "You should have felt the effect. What I said is

19:47 

true. As long as you release them, I'll treat you immediately."

Borzoi looked hesitant when he considered Fade's suggestion.

However, at that moment, Borzoi seemed to hear something that changed his mind. He shook his head and said, "It doesn't matter whether it is true or false; I have to get my things done. I will kill her and I will have my revenge."

Borzoi glared at Sasha as if she had done something malicious to him.

Fade noticed Borzoi's movements and without further hesitation, he moved forward and charged towards Borzoi.

Fade was so fast that Borzoi didn't even have time to react at all. He could only feel a shadow come close to him before he was knocked away.

With that, Fade quickly rescued Sasha and Abell.

Everything happened so quickly that the crowd only started to understand what had happened after it had ended. People were flabbergasted; they could move their lips, but they couldn't form a coherent sentence.

Borzoi was the first to register the things that had happened. As he regained his senses, he tried to escape.

However, Fade managed to stop Borzoi from escaping. He grabbed Borzoi with his right hand and he snorted, "You want to leave? Do you think you can escape now?"

Borzoi's attempt to escape had failed as he felt an invisible force grabbing onto him, dragging him to Fade's hand.

Fade got his hand on Borzoi, and he was about to interrogate him.

Yet at the same time, Abell, who had just regained his senses, glared at Fade and shouted, "What were you doing just now?"

19:47 

Hearing Abell's word, Fade turned to look at Abell, and he scowled at him, "Do you know what you are talking about?"

Momo yelled in displeasure, "Abell, what are you doing? Fade had just saved you, but now you're shouting at him. You're so ungrateful!"

Abell snorted, "Saved me? I was held hostage! Yet he still provoked Borzoi. Can you face the consequences if he had killed me?"

"Did you know that you were risking my life?" Abell glared angrily at Fade.

Fade's face fell while he stared back at Abell.

Meanwhile, Harper and Sonia joined Abell in condemning Fade.

"Fade, what you did just now was too much. It was too risky! You've disregarded Young Master Abell's safety!" said Harper.

Sonia also said, "I know that you wanted to impress Miss Sasha, but you've gone too far by risking Young Master Abell's life." 

19:47 

Chapter 1138

Listening to what they said, Momo had had enough before Fade could say anything. She rushed over and scolded while pointing at them, "Are you all blind to the facts? Where is your conscience?"

"Fade saved you, Abell, but you are blaming him. Does it even make sense?"

"Besides, if you hadn't rushed to make trouble, Fade would have already rescued Miss Sasha!"

The trio's faces fell as Momo questioned. However, they had a different opinion of what she had said.

"Momo, you can't say that. We came with a good intention."

"True. Who would have thought that the bad guy turned out to be Borzoi the internationally notorious criminal? Abell was taken hostage only because he was caught off guard."

.....

Momo flushed angrily when she heard them and she wanted to refute them.

However, at that moment, Fade stopped her and shook his head. Then, he looked at the three of them and said in a deep voice, "At first, I thought you were just some spoiled brats, but now it seems you all are self-seekers who can't tell the difference between right and wrong."

"In that case, I don't mind teaching you some lessons."

19:47 

Hearing Fade's words, the three of them were drained of color and they took a few steps back. Sonia and Harper turned to look at Abell.

Obviously, they wanted to ask if Abell could stop him if Fade was to attack them.

Abell was speechless, but the expression on his face was ugly.

In fact, the result was self-evident. He wanted to be the hero to rescue the damsel in distress earlier, but instead, he was captured by the villain. It was Fade who had defeated Borzoi in only one move and rescued them.

Needless to say, the gap of the strength between them was clear.

Seeing Abell's long face, Sonia and Harper looked a little uneasy. They were really afraid that Fade would beat them up violently.

At that moment, the sound of clomping footsteps was approaching fast.

Everyone turned their heads to look and saw a group of uniformed personnel rushing in quickly. Abell and Fade recognized them at a glance. It was the Stealth Team, led by Falcon, whom both of them knew.

Unable to do anything else, Abell saw Falcon. He couldn't help but smile, and he immediately called for attention, "Falcon, Falcon! Come here."

Falcon heard his name being called and looked over to see that it was Abell. Falcon was surprised, "Abell, why are you here?"

"I'll explain it to you later. Falcon, you came right in time. Do me a favor and arrest him," Abell said to Falcon and he pointed at Fade.

Sonia and Harper, who were initially disheartened, couldn't help but breathe a sigh of relief. They finally were able to put a smile

19:47 

on their faces at this point.

"Falcon is here. We don't have to worry anymore."

"Falcon is a member of the Stealth Team, and he's bringing so many members with him, Abell should be safe now."

Meanwhile, Falcon looked in the direction that Abell had pointed and he found that the person who was to be arrested turned out to be Fade. He was shocked, "Instru-"

Abell cut him short and gushed, "Yes, him right there! He dared to risk my life just now, and he even threatened me with words. Falcon, you should arrest him immediately and teach him a good lesson."

Abell then looked at Fade and said triumphantly, "I'll see if you're still able to be so arrogant and threaten me. Now that the Stealth Team is here, you..."

Before Abell could finish his sentence, Falcon brought the Stealth Team members to Fade, and they saluted him in unison, "Instructor Chen!"

Fade nodded nonchalantly.

Falcon stepped forward and asked, "Instructor Chen, what is your order?"

Fade then pointed to Abell and said lightly, "If I remember correctly, he's also a Stealth Team member. Let's arrest him for now. I'll deal with him later when we are back."

"Yes!" Falcon turned around once he received Fade's order. He led the members towards Abell and intended to arrest him.

Abell was taken aback when he gauged the situation and he exclaimed, "Falcon, are you alright? I asked you to arrest him, not

19:47 

me. Are you confused?"

Harper and Sonia also spoke instantly at this moment.

"Captain Qi, it was Fade who threatened us just now. Go and arrest him!"

"Yes, yes!"

Falcon scowled at them, "I'm not confused. Instructor Chen has already given his order to arrest Abell. Arrest him!"

Immediately, several Stealth Team members got Abell under control.

Abell was startled and he started screaming at Falcon, "Falcon, what are you doing? How dare you do this to me? Don't you want to go back to South Bay City? My father will hear about this! And you will be in serious trouble."

Falcon remained undaunted. He looked coldly at Abell and said, "Abell, you are a member of the Stealth Team, but you have disrespected your superior officer. Do you still think that you are in the right?"

"Superior officer? Who?" Abell asked in confusion.

Falcon glanced at Fade and answered Abell, "Instructor Chen. He is the chief instructor for our current Stealth Team training."

"What?" Hearing that piece of information, Abell and the others were confused and they all looked at Fade in disbelief.

"H-How could he be the Stealth Team's instructor? This..."

"What the hell is going on? Didn't he lose to Abell? How could he be the Stealth Team's instructor?"

"It can't be!"

19:47 

They were still in doubt but Falcon continued, "Instructor Chen isn't only the chief instructor for our current Stealth Team training. At the same time, he is also a Special Instructor from the Stealth Team headquarters."

"Just a few days ago, Instructor Chen had defeated South Stream City's chief instructor, Garton, at the Stealth Team Training Base, and had him removed from the position," Falcon added.

Hearing this, Abell and the others were even more dumbfounded.

Even if Sonia and Harper didn't know what the Stealth Team headquarters' Special Instructor meant, they understood that the person who could defeat and depose Garton definitely wouldn't be a nobody.

For a while, all of them remained thunderstruck. When they finally looked at Fade again, they were still surprised and skeptical at the news.

Right then, Eden, who had settled the problem downstairs, came up. He was relieved to see that Sasha was safe and sound.

Then, both Eden and Sasha came in front of Fade to pay their respect and gratitude, "Mr. Chen, thank you so much. If it wasn't for you, we wouldn't have..."

Fade waved his hand in dismissal and said lightly, "It's nothing. After all, you are working for me. I won't let you get hurt."

"Thank you, Mr. Chen." The two bowed.

Under such circumstances, Abell and the others were once again confused. They asked, "Mr. Li, Miss Sasha, why are you..."

Eden looked at them and said, "Didn't you know? Mr. Chen is the major shareholder of the Li family and we report to him. Mr. Chen has the final say in all matters of the Li family."

19:47 

Sasha also nodded, "We are all working for Mr. Chen." 

19:47 

Chapter 1139

Upon hearing this, the three of them including Abell grew even more shocked.

"Is this true? Is he really the major shareholder of the Li family?"

The three of them paled when they thought of the fact that they had mocked Fade for having no money, and was slowing them down from business talks.

Just then, Sonia thought of something. She exclaimed in surprise, "Didn't you say that the Li family has been taken over by Master Chen? Now, he is the major shareholder of the Li family. Does it mean that he is Master Chen?"

When they heard the words "Master Chen", Abell and the others fell into shock and they felt numb.

"Master Chen, Stealth Team's chief instructor, President Chen!"

His titles and identities came to their minds one by one, leaving them completely astonished. At that moment, they hardly dared to look at Fade.

Finally, Harper swallowed, looked at Momo and said, "Momo, your brother-in-law is actually Master Chen. Previously, I..."

Momo curled her lips, crossed her arms over her chest as she said coldly, "I told you a long time ago that Fade is Master Chen. However, I couldn't really do anything if you guys didn't believe me!"

With Momo's confirmation, Abell and his friends didn't know what to say at that moment. Standing in front of Fade, they didn't

19:47 

dare to breathe.

After all, Master Chen was a big shot who was high and mighty. Spoiled brats like them were no match for him.

Fade glanced at them, who were frightened at that moment, and said calmly, "Bring them back."

The Stealth Team members immediately took them back and Fade added, "Don't go telling stories about my identity, understand?"

"Understood! We will never reveal your identity, Master Chen. We will keep our mouths shut. We will not..." Sonia and the others nodded repeatedly.

Fade waved his hand and cut them off. "Okay, got it. Take them away!"

Falcon ordered his men to take the three of them away.

After that, Fade turned to Sasha. He noticed that blood was still oozing out of her neck. Energy surged from his fingers as he gently pressed onto Sasha's wounds to stop the bleeding.

Sasha thanked him hurriedly, "Thank you, Mr. Chen!"

Fade waved his hand and replied, "No need."

After speaking, Fade turned his gaze back to Borzoi, and stared at him for a few seconds. "You take him back and lock him up first."

"Yes!" Falcon arrested the gangster.

After all, Borzoi was not an ordinary person, but a martial artist. Otherwise, the Stealth Team members would not have been

19:47 

dispatched, and it would've been the ordinary policemen instead.

Borzoi was taken away. Fade looked at Sasha and wanted to ask why she had been abducted. However, he felt that it was not the right time, so he waved his hand and said, "Go back and take a good rest."

"Yes!" Sasha nodded.

Immediately, Fade left together with Momo. Behind him, Sasha respectfully watched as Fade left.

Fade and Momo drove back to the hotel. In the car, Momo looked at Fade with excitement and said, "Fade, you really are Master Chen!"

Fade replied, "Didn't I tell you already? You didn't believe in your own brother-in-law!"

"I didn't," Momo said. "I just didn't expect that you would be so impressive. You are well-rounded and can even order the Stealth Team members around. You even control the shares of the Li family. You can indeed accomplish anything in Jade City."

"Hey, I am so awesome right!" Fade smiled.

"Yeah, you are so awesome!" Momo nodded, then thought of something. "Fade, you are not only awesome but also very attractive. I just saw that Miss Sasha's heart almost melted while she was looking at you, and looked like she almost wanted to be in your arms immediately."

"If my cousin knew that you were so attractive, what would she think?" Momo questioned.

"Ahem!" When Fade heard it, he almost spit out a mouthful of saliva. "Momo, Sasha and I are nothing. You better not to spout nonsense in front of Quin!"

19:47 

Momo stared at him. "Fade, I didn't say anything happened between you and Sasha. Why are you so nervous? Or could it be that the both of you are actually..."

Fade immediately denied her words. "There is really nothing between us."

"Oh, I see!" Seeing Fade's firm attitude, Momo sighed.

However, she thought of something again and said mischievously, "Fade, thinking about it, Sasha is indeed not bad! She is not very old, is in good shape and is beautiful. She is also the eldest daughter of the Li family and holds a high status. If I was a man, I would be tempted by such a fine woman. Aren't you?"

"No, I don't think about it at all. I only love Quin," Fade replied firmly. He was extremely alert when it came to someone as mischievous as Momo.

"Ah, Fade, you really aren't tempted at all!" Momo lamented. She then leaned in and whispered, "Fade, is it because you have some problems... somewhere? Otherwise, how could you not be tempted at all! It's basic human instinct!"

Upon hearing her words, Fade swatted at her head in annoyance. "Stop spouting nonsense. I am very healthy and there are no problems with my body."

Momo touched her head as she glared at Fade and then changed the subject. "By the way, Fade. You have arrested Abell and the others. What will you do with them?"

Only then was he reminded of that matter. He inquired, "Momo, what do you want me to do with them?"

She replied, "Fade, I know that they are arrogant and have also offended you, but after all, Harper is my cousin. Sonia and Abell also have a close relationship with my family, so..."

19:47 

Fade understood what Momo was trying to say. He patted her head and said, "I know. Don't worry, I won't do anything to them. It's just that their bad attitudes need to be fixed."

"Yeah, thank you," Momo said sweetly.

Right after that, they chatted all the way back to the hotel.

.....

After having a day off, Fade received a call from Falcon the next day, saying that it was about Borzoi. They did not gather any valuable information. Falcon also asked Fade if he wanted to visit the Stealth Team.

Fade thought for a while and promised to go there. At the same time, he also contacted Sasha. Both of them then rushed over together.

When they arrived at the base of the Stealth Team in Jade City, Falcon greeted them and brought them inside. He briefed them on the situation, "After bringing Borzoi back here yesterday, we have interrogated him all night. However, he didn't say a word."

19:47 

Chapter 1140

Then, they came to a room with a heavy iron door.

Falcon ordered, "Open the door!"

The guards were a little worried and said, "Captain Qi, the guy inside is very violent and also dangerous. The person who delivered the food before was almost attacked by him."

Hearing this, Falcon couldn't help but frown.

However, at that moment, Fade insisted, "Open it. I'm here; there will be no problem."

The guards didn't know Fade and couldn't help but feel doubtful. However, Falcon immediately said, "This is Instructor Chen. Open the door!"

The guards had naturally heard the name of Chief Instructor Chen before. They were surprised and opened the heavy iron door immediately.

The iron gate rubbed against the floor with a creaking sound before being pushed aside.

Fade didn't have any worries and he entered the room.

There was only a wooden chair inside and nothing else.

19:47 

Borzoi was sitting on the wooden chair with a serious expression. When he heard the sound of the door being opened, he raised his head immediately and stood up in a posture that looked like he wanted to rush out at any time.

However, when he saw that the person who appeared in front of him was Fade, his gaze darkened. His tense muscles relaxed and he returned to his seat without a word.

Fade brought Sasha in front of Borzoi and asked aloud, "Let's talk about it. Why did you attack Sasha? Did someone send you?"

Borzoi was motionless, as if he had not heard what Fade said.

Fade continued to take a step forward and said, "I think you wouldn't want me to act upon you."

Upon hearing this, Borzoi couldn't help but tremble and fear flashed across his face. After all, he had seen Fade's strength before and he was not strong enough to resist him.

After the change in his eyes, Borzoi looked up at Fade and replied, "No one sent me here. I was going to kill Sasha myself."

Borzoi fell silent after that sentence.

When Sasha heard him, she appeared to be both doubtful and furious. "I don't even know you and I have had no grievances with you before. I don't understand why you were trying to kill me."

Upon hearing this, the expression on Borzoi's face fell. His face was filled with anger as he stood up suddenly and glared at Sasha. He gritted his teeth as he said, "No grievances? Your family is my greatest enemy. I wanted to kill you because it's my vendetta."

Sasha was taken aback by the sudden outburst of Borzoi. She couldn't help but take a few steps back before finally stabilizing

19:47 

herself. She suppressed the fear in her heart and stepped forward again. She looked at Borzoi, and said, "I don't understand why my family is your enemy. You are a foreigner and my family has nothing to do with you. Don't spout nonsense."

"Nonsense!" Borzoi's eyes turned red in anger. His expression was angry and sinister as he exclaimed, "My grandfather had been killed by your family and you still wanted to deny it!"

"Your grandfather?" Sasha was taken aback and asked, "Who is your grandfather?"

"My name is Chongrak and my grandfather is Sakda. We are from Torteland." Borzoi glared at Sasha.

"Sakda, Chongrak!" Sasha thought about it for a long time, but couldn't think of anyone. She could only shake her head and said, "I don't know anyone called Sakda."

"You..." Borzoi was enraged and there was evident anger in his eyes. He rushed over immediately and was about to hit Sasha.

Just then, Fade pressed Borzoi down by his shoulders.

Then, Fade said solemnly, "You said that your family and the Li family have grievances. Then, I will give you a chance to tell the truth. Don't try to do anything, otherwise, I can guarantee that you will definitely die."

Borzoi was pressed back to his seat by Fade. Fade's strong energy was suppressing him and the anger in his heart, before calming him down gradually.

Immediately, the Borzoi began to speak, "It was ten years ago when your grandfather Fenrir came to Torteland to invest and set up a factory. My family, the Yim family, was a local Chinese family and was also in business. Hence, we seized this opportunity and built a partnership with your family. My grandfather was fully responsible for setting up the factory."

19:47 

Sasha listened and recalled, "Ten years ago, I was only in my teens and was still studying. I don't really remember what happened back then. However, within that year, my family did have a lot of investments in Southeast Asia."

Borzoi continued, "At that time, my family worked very hard to set up the factory. My grandfather worked tirelessly and slept at the construction site practically every day just to build the factory as soon as possible."

"But what he never expected was that Fenrir was such a relentless and ruthless guy."

Sasha couldn't help but feel a little displeased when she heard Borzoi criticizing her grandfather. She frowned and wanted to refute, but she held back and decided to continue listening to Borzoi.

"At that time, as they were establishing the factory and digging the foundation, the workers dug up an antique from the ground. Fenrir had his eyes on the antique and wanted to take the antique away."

"However, my grandfather said that it was an antique found in our country and it must be handed over to the relevant national department for identification and processing. If Fenrir wanted it, he could then purchase it from the relevant department."

"As a result, your grandfather killed my grandfather for this antique and snatched it away. In the end, he managed to escape from Torteland."

"For so many years, I have been working hard to practice martial arts and was constantly looking for opportunities just to kill Fenrir to avenge my grandfather." Borzoi glared at Sasha. "But I didn't expect that by the time I reached Jade City, Fenrir was already dead. It is my biggest regret that I am not able to kill him."

"And you, Sasha, are Fenrir's granddaughter. If I can't kill him for vengeance, then naturally you would be the next." Borzoi glared at Sasha.

At that moment, Sasha frowned after listening to Borzoi, and said, "This is impossible! My grandfather would never do something like that."

"Impossible? My grandfather has been dead for ten years, and yet you still tell me that it is impossible? Perhaps I can send you to the underworld and you can ask your grandfather what he had done!" Borzoi grew agitated and was about to stand up before being suppressed by Fade once again.

Sasha was also feeling slightly angered. However, she remained calm as she looked at Borzoi and said, "It is impossible because it doesn't make sense."

"Doesn't make sense? Why doesn't it make sense? Do you really think that your grandfather was a good person?" Borzoi questioned her harshly.
