

17:14 

Chapter 1511

"But—" They still had some complaints.

Mandell replied, "It's not that big of a deal. This Forest Bar is pretty nice, my uncle mentioned it to me before. He also told me that the owner of this bar is a beautiful and nice girl. We can go have a look when we're there."

At the mention of beautiful women, the boys suddenly got excited.

"A beautiful boss, sounds good!"

"Just looking wouldn't be enough. It's Mr. Mandell's 20th birthday today. The boss has to accompany Mr. Mandell no matter what!"

"Accompany Mr. Mandell? Isn't that just a piece of cake? When Mr. Mandell reveals his identity, I bet many beautiful girls would come to him voluntarily."

"Alright, stop joking around. Let's go in. It's my birthday today, so we won't stop till we drop." Mandell waved his hand and led everyone into the Forest Bar.

.....

At Zobery District of Long City, in just three days, the Chai family had completely left. The Moo family quickly took over the Chai family's territory, and rapidly rose to be at the top among all in Zobery District of Long City.

17:14 

Fade, Joey and Moore had almost finished touring Long City, and they were ready to leave.

Originally, Fade wanted to return to the Capital City, but Moore said that he had something to do, and wanted to go to Southzobe City. Joey chose to follow her father, so Fade followed along as well.

At noon, Fade and the other two went to the Moo family. They were ready to bid farewell to both Taufeeq and Clara.

However, the moment they entered the main hall, they heard Clara's loud voice before they could even start talking. "How did this happen? How's Hailey's injury?"

Then, Fade heard the voices of discussion coming from inside, and Clara sounded worried.

After a while, Clara and Taufeeq walked out anxiously. When they saw the three of them in the main hall, they paused. "Brother Chen, what brings you here?"

"Mr. Moo, Clara, we've been here for a long time. We're here to say goodbye to you before we leave."

"What? Brother Chen, you guys are leaving?" Clara exclaimed.

Fade nodded and answered, "Clara, did something happen? Just now, you—"

At the mention of this, Clara could not help but looked worried. "Brother Chen, someone has hurt my cousin. It seems that her situation is not good. I'm worried, so I want to go take a look."

"What! Where is she? How is she? Is it serious?" Fade asked.

"My cousin is at Southzobe City. I'm not sure yet, but I heard that the injury is quite serious. So, I'm going to Southzobe City to see her now," Clara replied.

17:14

Taufeeq added, "I can't leave Long City for the time being. I'll get Oscar to accompany you. How dare someone hurt a member of the Moo family."

Taufeeq's tone was domineering as he spoke. After all, the Moo family had become the most prestigious family in Long City, thus they should be more confident and strong.

When he heard this, Fade was a little surprised. "Clara, your cousin is in Southzobe City?"

Clara nodded. "Yes, my cousin is Hailey Choo. She and her family are all from Southzobe City. Brother Chen, is anything wrong?"

"What a coincidence. The place we are going to after leaving Long City is also Southzobe City."

"Oh, Brother Chen, you're going to Southzobe City as well!" Clara remarked in surprise. "Why don't we head over there together!"

Taufeeq turned to Fade expectantly. "If it's convenient for you, Mr. Chen, Clara—"

Fade naturally understood Taufeeq's intentions. With both him and Clara going together, Taufeeq wouldn't need to worry about Clara's safety.

Anyway, Fade liked Clara very much. Since they were going to the same place, it would not be a problem to go to Southzobe City together. So Fade nodded and agreed, "In that case, let's go together! Clara, when will you be leaving?"

"I'm very worried about my cousin. I can leave now," Clara responded.

Fade nodded. "In that case, let's get ready. We'll leave in an hour."

"Alright. Thank you, Brother Chen!"

.....

17:14 

An hour later, Fade, Joey, Moore, Clara and Oscar rode in a seven-seater jeep and headed off to Southzobe City.

Three hours later, they arrived at Southzobe City in the afternoon.

They did not waste any time and went straight to Clara's cousin's house.

Her cousin's name was Hailey Choo, and she was the daughter of Clara's mother's eldest sister. She was twenty-eight years old. Although she was ten years older than Clara, the two of them had been close ever since they were young, and had a deep connection with each other.

That was why Clara was so anxious when she found out that her cousin had been injured, and rushed over immediately.

The group of people reached the Choo Mansion. It was a high-end villa in Southzobe City, it was three-stories, and a thousand square meters.

The Choo and Moo family were in-laws. Adding to that, the Choo family had their own business, and their background was not bad. They were considered a rich family in Southzobe City.

They parked the car in the Choo family's garage, then Fade and the others got out of the car. Clara had already notified the Choo family, so they came out to welcome them.

When Fade got out of the car, he saw more than a dozen people standing in front of him. They greeted him respectfully, "Hello, Mr. Chen!"

Obviously, the Choo family knew about Fade from the Moo family. They knew that Fade was the reason why the Moo family was able to defeat the Chai family, and become the most prestigious family in Long City. Therefore, they were behaving extremely respectfully towards Fade.

17:14 

Fade waved his hand and answered, "Hello everyone. Let's go see the injured girl first!"

Clara also walked up to a middle-aged couple and asked, "Uncle, aunt, where's Hailey? How is she? Take us to her!"

Clara's uncle and aunt's faces fell at the mention of their daughter. They sighed as they replied, "Hailey is inside. Go in and have a look."

They came to the bedroom on the first floor. In the spacious room, a woman with shoulder-length hair was lying on the bed. At first glance, they noticed that the woman was tall and slim. She was a beautiful lady.

However, at this moment, her arms were wrapped in bandages, and fixed to the two sides of the bed. She was unable to move at all.

"Hailey, what happened?" Clara asked, tears welling up in her eyes. She quickly rushed over to the bed.

However, Fade grabbed onto Clara instantly and reminded her, "Her arm is broken, you can't just touch it. Let me do it!"

17:14 

Chapter 1512

Fade walked over as he spoke, looking as if he was going to treat Hailey's injury.

The doctor that the Choo family had hired couldn't help but frown as he stepped forward, trying to stop Fade.

Before Fade could say anything, both Clara's uncle and aunt immediately spoke, "Dr. Wang, let Mr. Chen examine Hailey!"

They'd long since known from Taufeeq that Fade was a Martial Arts Master. The couple would naturally choose to believe in a master of his level.

Although Dr. Wang was puzzled, his employer had already spoken directly. He had to step back as he stood aside with a grim expression. He pursed his lips and watched Fade's movements.

Fade walked over to the bed, looked at the silent girl, and asked, "May I take your pulse?"

Hailey seemed to be in low spirits as she remained silent, not answering Fade's question.

Clara's uncle and aunt quickly answered on her behalf, "Mr. Chen, please go ahead and have a look. Hailey is fortunate that she is able to receive your treatment."

When he heard this, Fade nodded, and then gently put his finger on Hailey's right wrist that was covered in bandages, and felt for her pulse.

A few seconds later, Fade loosened his grip and remarked, "The injury is quite serious. Not only is her arm broken, but her

17:14 

internal organs have also been badly damaged."

Upon hearing this, Clara grew even more anxious.

Just then, Fade lifted the blanket off Hailey's body, revealing her casually-dressed body. Immediately, everyone saw patches of bruises that were red and purple on her neck and stomach.

When Fade lifted her clothes slightly, they could immediately see the large patches of bruises on Hailey's body. It was obvious that she had been beaten up.

When Clara saw her cousin in this state, she could no longer control herself. Tears fell down her cheeks as she cried, "Hailey, what happened to you? Uncle, aunt, what's going on? How did Hailey become like this?"

"Well, this—" The couple sighed as their faces fell.

At that moment, Fade spoke gently, "Clara, calm down. Let's talk about this later. Now, let me treat Hailey's injuries first!"

"You're treating her now?" Clara's uncle and aunt were both surprised.

Just then, Dr. Wang spoke up, "I have administered medicine to Miss Choo. What she needs the most now is rest. Don't act recklessly, otherwise, Miss Choo's injuries might worsen."

Fade ignored Dr. Wang's words and said, "Trust me."

Clara's uncle and aunt naturally chose to believe Fade, a Martial Arts Master. "Thank you very much, Mr. Chen."

Fade nodded, and placed his hand on Hailey's broken arm. Through a layer of bandage, he immediately used his positive energy and passed it through Hailey's arm, causing the broken bones to heal.

17:14 

About five minutes later, Fade withdrew his hand and nodded, "The right arm is fine now. The bandage can be removed."

"Are you kidding me? The bones have been broken, and she'll have to rest for at least two to three months. You only did that for a few minutes. How could it be—" Dr. Wang did not believe it.

However, at that moment, with a flick of his finger, the bandage was immediately torn apart as it fell off Hailey's arm.

Then, everyone was surprised to see that Hailey's arm had recovered. She tried to move her arm several times, and to her surprise, it was fine.

In an instant, everyone in the room turned to Fade in disbelief.

Dr. Wang's jaw dropped to the ground as he fell speechless.

Fade remained silent as he used the same method to heal Hailey's left arm.

After that, he took out a bottle of ointment and applied it onto her neck. He then used his positive energy with his palm to spread out the ointment. A moment later, Hailey's originally bruised neck had recovered. Her skin had recovered, not a single trace of injury could be seen at all.

Everyone fell into shock once again.

Fade then handed the ointment to Clara's aunt as he instructed, "Apply this ointment on the injured skin, and she will recover in about a week."

Clara's aunt quickly accepted the ointment as she bowed to thank him. "Thank you, Mr. Chen."

Clara, however, looked puzzled at this moment. She asked, "Brother Chen, didn't you just cure her in a few minutes? Why would

17:14

she need another week?"

Fade glanced at Hailey, who was lying on the bed. He cleared his throat and replied, "Clara, I was using the positive energy with my palm to catalyze the medicinal effects, so she would heal much quicker. Without doing that, it would take a longer time for the medicine to work."

Clara then nodded. "Then, Brother Chen, please help my cousin again. I can't bear to see her suffer for another week."

For a moment, Fade did not know how to answer. "Clara, to accelerate the medicine's effects, I'll need to touch her physically. Uh, I don't think that it's very appropriate."

"So what?" Clara still did not understand the meaning behind his words. But when she noticed the look in both her aunt and uncle's eyes, she finally got it.

Earlier, Fade had used his palm to touch and treat the wound on Hailey's neck. That was why the medicine had worked so quickly.

The injuries on Hailey's body were almost all over her body. If Fade wanted to accelerate the medicinal effects, Hailey would most probably need to strip naked in front of Fade. This wasn't very suitable for a girl who wasn't married yet.

Therefore, Fade chose to hand the medicine over to her parents, so that they could apply it for her.

"Oh, I see. I—" Clara finally understood. Her face flushed red from embarrassment, but she also had an inner conflict. She did not want to see Hailey suffer for another week.

Clara's uncle and aunt's expressions fell, they didn't know what to do.

17:14 

Just as they were hesitating, Hailey, who had remained silent on the bed, spoke up on her own. "I'm fine with that."

"Oh!" Everyone was a little surprised as they turned to look at Hailey.

"Hailey, what are you talking about?" Her mother leaned closer to her.

She then continued, "I said, I don't mind Mr. Chen treating my injuries."

"But, Hailey, in that case, you will..." Her mother was slightly hesitant.

Hailey said, "I know how it works, but I don't want to continue suffering. I hope to recover as soon as possible."

"But..." Her mother was still unable to make the decision.

On the other hand, her father nodded and agreed, "We'll do what Hailey says!"

Immediately, the couple looked at Fade and asked, "Mr. Chen, I don't know if you will be fine with that..."

Fade nodded and agreed, "Since you have decided, I have no problem."

"Thank you very much, Mr. Chen." Clara's uncle and aunt thanked him again. Then, everyone left the bedroom, leaving only Fade and Hailey in the room.

17:14 

Chapter 1513

Fade checked the room's windows and door. After confirming that they were tightly shut, he walked over to the bed and looked at Hailey. "I'm going to start!"

"Okay!" Hailey nodded. Although her tone was calm, there was still an obvious hesitation in her eyes.

Especially when Fade's hand touched her body, and he began to unbutton her pajamas, Hailey's breathing grew hectic. Her face was flushed red.

At that moment, Fade's heart was beating faster as well.

He immediately suppressed the nervousness in his heart, and told himself not to overthink. After removing her clothes, he looked at Hailey's injuries, and then applied the ointment around her wound.

There was almost sixty percent of the skin on Hailey's body that was bruised. This showed just how badly she had been beaten.

Seeing these injuries, Fade didn't have any thoughts in his mind. With a serious expression on his face, he placed his palm on Hailey's injured skin, and used his positive energy as he began to treat her wounds.

About an hour later, Fade retrieved his right hand, took a deep breath and said, "It's done."

During the treatment, Hailey had remained silent with her eyes closed the entire time. After hearing Fade's voice, she opened her eyes, and looked at her own body.

17:14 

A look of pleasant surprise immediately appeared on Hailey's face. "My skin! It's healed, it's all healed."

She caressed her own skin with her hands as she remarked in disbelief, "It's all healed, and my skin is even better than before I got injured. This is amazing."

Hailey was so excited, that she jumped up and down on the bed and cheered.

Although it was a beautiful scene to witness, Fade turned away and cleared his throat. "Miss Choo, you can get dressed now."

"Oh!" Upon hearing Fade's words, Hailey finally realized something. Her cheeks turned red as she let out a cry of shock. She quickly sat down and slipped down into the blanket. "Thank you very much, Mr. Chen."

Without looking back, Fade walked over to the door and said, "Okay, I'm heading out. Get some rest!"

After that, he left the room.

Everyone else was waiting outside the room anxiously. When they saw Fade exiting the room, they immediately surrounded him.

"Brother Chen, is Hailey all right?"

"Mr. Chen, Hailey..."

.....

"Don't worry, Hailey's fine. She's completely healed," Fade replied with a small smile.

Upon hearing this, Clara and the rest of them could not help but let out a sigh of relief.

A few minutes later, the door opened, and Hailey, who had changed into a new set of clothes, walked out of the room. She was

17:14 

tall and slim, and her long hair draped over her shoulders. The skin on her face was soft, and her eyes had a natural hint of seduction.

She did not look like she had been injured at all, and her skin looked even better than before.

Everyone was stunned, and then they surrounded her as they showered her with concern.

Fade allowed them some time on their own as he retreated away. Dr. Wang, who previously had some doubts about Fade, now respected him a lot when he saw that Hailey had completely recovered.

He walked to Fade and bowed to apologize. Then, he bade them goodbye and left.

.....

Half an hour later, in the living room of the Choo family, they strongly insisted that Fade should sit in the host's seat, while the rest of them were seated on both sides.

The Choo family expressed their gratitude towards Fade again. Then, Clara asked the question she was most concerned about, "Hailey, what happened? How did you get hurt?"

When this matter was brought up, the Choo family members all looked upset. Hailey looked down as well, her expression slightly angry and helpless.

Seeing that they were silent, Clara grew anxious as she pressed on, "Hailey, uncle, aunt, what's going on? Tell us. What happened? Why aren't you talking?"

"Well..." Clara's uncle stuttered. Finally, he let out a sigh and answered, "Hailey was beaten by someone."

17:14 

"What? Beaten by someone? Who?" Clara asked furiously.

"Well, we—" They stammered again, looking as if they were at a loss for words.

Clara asked anxiously, "Uncle, aunt, what's wrong? Why aren't you telling me? Hailey was seriously injured. We can't just let it go like this!"

"But—" Her uncle and aunt were both speechless.

At that time, Oscar, who was next to Clara piped up, "Mr. Choo, when I came here, Old Master told me that no matter what happens to the Choo Family, just let us know. The Moo family doesn't bully others, but we can't be bullied as well. We will definitely pursue this matter no matter what."

These words were very domineering, and this was the reason why the Moo family was called the most prestigious family in Long City.

Upon hearing this, the expression in their eyes changed. After a while, Clara's uncle finally let out a long sigh and said, "The person who hit Hailey was someone who had a surname of Xu!"

"The surname is Xu, how about the first name? Who and where is he? We—"

As for Oscar, after thinking for a while, he seemed to have recalled something. His expression fell as he asked, "Is it the Xu family that I'm thinking about?"

Clara's uncle nodded helplessly and said, "Yes, it is. It's because that it's them, that we have no other choice!"

"What Xu family? What are you talking about?" Clara still didn't get it.

17:14 

At that moment, Hailey spoke out, "Clara, that Xu family is the one that has a high position in the government of the Southzobe City."

"You're talking about Pascha Xu, the one who had just retired?" Clara finally understood.

Hailey nodded and whispered, "It's them."

"So what if it's the Xu family? They are indeed powerful, but how can they not take the responsibility after hitting someone? This matter must be investigated no matter what. We can't let Hailey suffer for no reason," Clara remarked furiously.

Just then, Oscar reminded her, "Miss Clara, the Xu family is not easy to deal with, and Pascha is also not someone whom we can mess with. We should refrain from making rash decisions, and instead come up with a plan."

Although Oscar did not explicitly point it out, it was obvious that the Moo family might not be able to take on the Xu family. After all, the Moo family had only just risen to the top of Long City recently, and they weren't that strong yet. On top of that, they were currently in Southzobe City, and Pascha had a strong network of connections there. If the two families were to start a feud, the Moo family might very well lose.

Clara was still dissatisfied as she opened her mouth to speak further.

Just then, Fade stopped her and said, "Miss Choo, please tell us how the event unfolded!"

17:15 

Chapter 1514

"Yes, that's right. Hailey, tell me what happened," Clara urged as she looked at Hailey.

Hailey frowned before she started in a low voice, "It happened a few days ago. Back then, I was doing business at the bar..."

After listening to Hailey's description of what had went down, they understood what had happened.

It turned out that Hailey had opened a bar called "Forest Bar" in Southzobe City. The decorations looked fresh, the quality of the bar was great, and there was also a beautiful boss like Hailey.

The Forest Bar was quite famous in Southzobe City. Usually, beautiful girls, internet celebrities, influencers, and even some low-profile stars would occasionally visit the Forest Bar to have some drinks and let loose.

In addition to that, Hailey would also invite some folk singers and campus bands to perform at the bar from time to time. Forest Bar was also a well-known bar in the literary circle of Southzobe City.

Moreover, because of her family background, Hailey didn't have to worry about the bar being profitable at all. It was just a good place for people to have fun and socialize.

Several days ago, a group of customers suddenly visited the bar. They were all extravagantly dressed, and talked lavishly. It was obvious that they were from rich families.

Originally, Hailey didn't like serving people from rich families like them. However, when she saw that the person who led them in

17:15 

was Young Master Mandell from the Xu family, she knew that she couldn't afford to offend him. Thus, she welcomed them into the bar.

In the beginning, Mandell and his friends ate, drank and played. Although they were a little noisy, they were still restrained. However, when they had too much to drink, they grew too noisy.

At first, they wanted girls to accompany them, but Hailey kept explaining that her bar didn't have this service. In the end, they started making a fuss about it, and said that if there weren't any girls, then Hailey as the boss should personally come accompany them and drink with them.

Although she was reluctant, Hailey was still afraid of Mandell, so she went over and had three rounds of drinks with them.

She had thought that she would be able to escape after drinking with them, but what she didn't expect was that this group of people kept asking for more. After drinking with them, they pulled Hailey and requested for her to chat with them. Besides, they were constantly touching her. It was obvious that they wanted to take advantage of her.

This had already crossed Hailey's bottom line. Of course, she wouldn't agree to it. She rejected Mandell and the others' requests with a righteous tone.

As a result, Mandell got upset. After a series of temptations and threats, Hailey still refused to obey. Immediately, Mandell, who was angry from the embarrassment, started to attack Hailey.

Although there was a team of professional security guards in the Forest Bar, they dared not do anything to Mandell.

Thus, Hailey was beaten up badly by Mandell and the others, and then they just left.

After listening to the whole story, everyone's expressions were grim, and it was obvious that they were very angry.

17:15 

Clara could not help but stand up as she exclaimed, "They've gone too far. That's ridiculous. Even if he's Mandell Xu, he can't just bully others like that. You must seek justice for this matter. You must teach him a lesson."

Joey was also enraged as she agreed with a frown, "She's right. He has gone too far, he must be taught a lesson."

Moore nodded to Joey's words as well, supporting his daughter's opinion.

On the other hand, Fade remarked, "It was Mandell who was in the wrong. He should apologize and take responsibility for it."

However, both Hailey and her parents were worried. "But he's from the Xu family, we..."

"Uncle, aunt, Hailey, don't worry. Even if they are from the Xu family, we must seek justice. We must make Mandell pay for his actions," Clara stated furiously. "If it doesn't work, I will ask my father to come personally. The Xu family shouldn't be able to do as they please in Southzobe City."

Before they could even respond, Oscar quickly pulled Clara and reminded her, "Miss, don't act irrationally. It's better to come up with a plan."

"What's there to discuss? Hailey had been beaten up so badly! We're sure that the culprit is Mandell. There's no need to hesitate," Clara answered, displaying the fiery temper coming from a martial arts family background.

"Miss, t-this is a serious matter and you can't simply go about it," Oscar hurriedly persuaded her, and at the same time, he exchanged a look with Clara's uncle and aunt.

When the two of them saw this, they naturally understood Oscar's hint.

Although the Moo family was now known as the most powerful family in Long City, it was still hard to say who would win during

17:15 

a confrontation with the Xu family, especially when the Xu family had an experienced officer like Pascha.

Therefore, the two people sighed and bowed their heads.

"Clara, Hailey. This is a serious matter. Let's think about it before doing anything!"

"That's right. Furthermore, Hailey's injuries has just recovered. Her health is the most important thing now. Let's check her body condition first!"

.....

"But—" Clara still wanted to say something, but she couldn't refute her uncle and aunt's words.

At that moment, the phone suddenly rang. Clara's uncle took out the phone from his pocket, and then picked it up. "Hello, what's the matter?"

"What! Who did it?" Clara's uncle suddenly became furious.

As the voice on the other end of the phone went on, his expression grew grim. Finally, he answered, "You need to control the situation at hand. Don't be impulsive, don't resist them. Wait for me and I'll think of a way. I'll call you back."

After finishing his words, Clara's uncle hung up the phone. His expression was morbid.

After seeing this, everyone on the spot knew that something had happened. They all looked at Clara's uncle with questioning eyes.

Hailey couldn't help but ask, "Dad, what happened?"

"Uh... Uh... It's nothing. Hailey, go back to your room and get some rest!" Clara's uncle squeezed out a smile and said to his

17:15 

daughter.

However, even a fool could tell that there was something wrong with his smile, which looked even worse than a crying face.

"Dad, tell me, what happened?" Hailey urged.

Clara, who was standing beside him, hurriedly asked, "Uncle, what happened? Just tell us! We are all here, and we can help you find a way."

Clara's uncle kept silent for a while. The expression on his face kept changing. Finally, he sighed and said, "Something happened at the bar again."

"What, something happened again!" Everyone cried out in surprise.

Hailey immediately asked, "What happened? Is Heinz alright?"

"The Forest Bar has been smashed again. They've surrounded Heinz in the bar. He should be fine for the time being!" Clara's uncle sighed.

17:15 

Chapter 1515

"What? Who did that?" Hailey asked, gritting her teeth. She was both surprised and angry at the same time.

Heinz was her cousin. After she was injured, he took over her position and went to the Forest Bar to help manage the bar.

Clara's uncle fell silent for a while before replying, "Mandell brought some people and did it."

"What! Him again!" Everyone was enraged at the mention of Mandell's name.

"That day, it was Mandell's 20th birthday. He was unhappy because he didn't enjoy his time there. So today, he brought people to the bar to cause trouble, and insisted on seeing Hailey. Heinz tried to reason with them, but Mandell immediately asked his men to mess around in the bar. Heinz didn't dare to offend Mandell, so he could only bring some people to keep the situation in check."

"What? Mandell isn't happy? We are the ones who should be angry." Clara became agitated, "No, I can't hold it in anymore. I'm going to teach him a lesson."

As they were talking, Clara rushed out, and Oscar could not pull her back.

Hailey's expression was grim as she followed her out. Her parents tried to persuade her, but they couldn't stop her.

Joey turned around and followed, and so did Moore.

In the end, Fade was the only one left. He glanced at Oscar and the Moo family members, nodded slowly and said, "I will follow

17:15 

them. With me there, everything will be fine."

When they heard Fade's words, they felt a little relieved. After all, Fade was a Martial Arts Master, and the title he held was a prestigious one.

Although Oscar felt slightly relieved, he couldn't help but worry at the thought of the Xu family and Pascha, who was backing Mandell up.

After all, although Fade's martial arts skills were strong and he was already at a high level, the Xu family was a different case. They were a family with real power and influence. In terms of martial arts, they were no match for Fade at all. However, if they abused their power and used it to their advantage, it could be a force that could crush Fade.

Therefore, even though Fade was a Martial Arts Master, if he were to confront the Xu family and fight, Oscar wasn't sure if he would win.

As he thought of this, Oscar sighed and took out his phone. He called Taufeeq and told him about what had happened in detail.

.....

On the other side, Fade and the others arrived at the Forest Bar, filled with anger.

When they just got out of the car and had not yet entered the bar, they saw that the originally fresh and modern decorated door had been smashed, and there were sounds of things smashing onto the ground that came from inside.

Instantly, they sped up and rushed straight into the bar.

As soon as they entered the bar, they were shocked by the scene before them.

17:15 

Although she had mentally prepared herself, Hailey was still hurt by the sight of the bar being totally trashed. After all, she was the one who had built this place up, down to the smallest decorations.

But now, Mandell had completely trashed all of her efforts.

Just as Hailey and the others were in a daze, they suddenly heard a scream from the private room, followed by a burst of laughter.

Upon hearing the voice, Hailey's expression quickly fell. Her face turned pale as she dashed towards the private room. "It's Heinz's voice. He's inside."

Fade immediately rushed to Hailey's side and said, "I'll be in front."

When they came to the private room's door, Fade kicked the door open. The thick door immediately fell off and slammed heavily on the ground, making a loud bang.

The people in the room were shocked as they turned to look towards the door.

Fade and the others, who were standing at the door, also looked inside the room.

Mandell was sitting in the middle of the sofa facing the door, with several young men and women sitting next to him. Hailey recognized them at first glance. They were his evil friends who had come to the bar with Mandell a few days ago.

On the table in front of Mandell that was originally used to place fruits and wine, a man in his early thirties was lying there. It was Hailey's cousin, Heinz.

At that moment, Heinz was in a mess. His clothes had been ripped off, and his head, face, and neck were stained with alcohol

17:15 

and some unknown liquid. The worst part was his left leg, which was hanging at a strange angle. There was a wound, and his bone could be seen through his skin.

Obviously, Mandell had broken Heinz's leg. The scream that Fade and the others heard earlier was from Heinz when they broke his leg.

At the sight of such a cruel scene, everyone's gaze was filled with anger as they glared at Mandell. If looks could kill, Mandell would be a dead man.

Hailey was filled with rage. She gritted her teeth as she said, "Mandell, you've gone too far. My cousin did nothing to you, how could you be so cruel..."

Upon hearing the voice, Mandell raised his head. Surprise was written all over his face as he asked, "Hailey? How come you've recovered so fast?"

"It's also a good thing that you've recovered. A few days ago, you didn't serve me well enough. Now, I'll give you another chance to serve me. If I'm happy with your services, I'll let you go. Otherwise..."

Mandell snorted coldly and spread his legs apart. He pointed between his legs and said to Hailey in a domineering tone, "Come here and start."

Seeing this, the people beside Mandell started to cheer. They took out their phones, and started recording the scene.

"Mr. Mandell, you're so cool."

"Such a memorable scene, I must record it."

17:15 

"You didn't do well the last time, you should do better this time."

.....

Hailey's expression fell at his words. She clenched her fists tightly, anger evident on her face.

Mandell snorted coldly when he saw this. He warned her, "It's best if you stay put, and don't even think of moving. Otherwise, I won't go easy on you this time. By then, I'll just beat you to death."

As he spoke, a group of black-clothed bodyguards surrounded him with serious expressions. Their aura was extraordinary, and it seemed like they were at least at the Black Level in martial arts which could be considered as a very strong position.

However, it was a pity that they had met Fade and the others.

Not waiting for Fade to make a move, the hot-tempered Joey couldn't bear it anymore. Her face was extremely red because of her anger. She clenched her fists and rushed towards them.

"Well, don't blame me for being rude since you were the ones who refused to listen to my warning," Mandell huffed. When he noticed how beautiful Joey was, a sinister grin spread across his lips. "Well, well, if it isn't a beauty who wants to fight me. Not bad, not bad at all!" 

17:15 

Chapter 1516

"Oh? There's another one," Mandell remarked as he caught sight of Clara. Lust was evident in his eyes as he regarded her, and he licked his lips as he said, "Three beauties at one go. I'll be able to enjoy myself thoroughly today. It's fine that I didn't get to enjoy on my birthday. Look at this scrumptious feast I'm about to have today."

As he finished his words, Mandell and others burst out laughing.

By then, Joey had already rushed over to Mandell.

Upon seeing this, Mandell's bodyguard's faces fell. They rushed to Joey, trying to stop her from attacking.

However, before they could get even close to Joey, Moore, who was eager to protect his daughter, jumped up and knocked down the bodyguard who rushed to Joey.

Instantly, Joey was already standing right before Mandell.

Mandell didn't expect Joey to be able to attack him. He was surprised as he waved his hand and shouted, "Hurry! Stop her! Hurry up!"

The rest of the bodyguards heard his cries and were about to take action, but Fade turned his head and looked at them. The strong aura of positive energy was released, stopping the bodyguards from moving.

Just like that, in a short while, more than ten bodyguards that were around Mandell had lost their fighting abilities in an instant.

17:15 

Such a scene not only stunned Mandell, but also his evil friends. They were all flabbergasted.

When they were surprised, Joey was already standing in front of Mandell. Even though Mandell saw that Joey was just a delicate little girl, he still tried to defend himself.

However, when Joey's fist landed on his chest, Mandell suddenly felt as if his chest had been smashed by a big hammer. He suddenly spat out a mouthful of blood.

"What, how...?" Mandell was shocked.

Joey's eyes were filled with anger. Without hesitating, she lifted her right leg and viciously kicked between Mandell's legs.

In an instant, a crack echoed in the room. Mandell's wails came shortly after, loud and shrill.

Mandell's face was red as the veins popped out on his forehead. He covered his crotch with both hands as he fell onto the ground in pain. His body was twitching in agony.

Mandell's evil friends, who stood at the side, were all scared when they saw this scene. All of them turned pale as they slid down from the sofa.

Joey's strong kick had probably already stopped him from having children in the future, but she was still angry. So, she rushed up, proceeding to punch and kick him again.

Mandell cried out in pain. As he screamed, he shouted, "Stop! Stop! I'll give you whatever you want."

"I want you to die!" Joey was so angry, that her face was flushed red. She kicked at Mandell's crotch again, and he almost fainted from the pain.

17:15 

"I- I am Mandell, I am Pascha Xu's grandson. My father is Felix Xu. You did this to me, the Xu family will not let you go." Seeing that there was no hope to ask for forgiveness, Mandell immediately gritted his teeth as he threatened in anger.

Several evil friends woke up from their daze, and began to threaten them with their backgrounds.

"My father is the director of the Social Security Bureau. You should consider the consequences of hurting us."

"Hailey, your family is doing business. You know that my uncle works in the Trade and Commercial Bureau, and he is in charge of your Choo family's business."

"My mother is in the Education Bureau. Since the Choo family has treated me this way, my mother will not let it go easily."

.....

"You dare to threaten us? I see that you all want to end up like Mandell!" Joey glared at them.

In an instant, several males squeezed their legs together as they retreated, afraid that they would end up like Mandell if they followed in his footsteps.

After a series of punches and kicks, Joey finally calmed down a little. She walked over to Hailey and Clara as she asked, "Hailey, what do you think we should do with him?"

Hailey looked at Mandell, who was in great pain with had a bloody nose and a swollen face. She thought back to the scene where she had been injured, and then looked at her cousin, Heinz, who had been beaten up miserably. Her gazed turned cold as she gritted her teeth and replied, "I want him to pay for his actions!"

Upon hearing the cold tone of Hailey's words, Mandell couldn't help but tremble. He hurriedly said, "Hailey, y-you should know

17:15 

that my grandfather is Pascha Xu. Don't act recklessly, or else—"

Before Mandell could even finish, Hailey replied coldly, "Mandell broke both my arms and cousin's left leg. So, I want to break both of his arms and legs."

Joey immediately rolled up her sleeves and was about to attack.

However, Fade stepped out to stop Joey and said, "Let me do it!"

Then, Fade walked in front of Mandell and looked down at him coldly. He raised his hand, and there was a layer of positive energy in it.

Although Mandell did not know Fade, nor did he know that he was a Martial Arts Master, just by getting close to Fade, he could feel a different kind of pressure and power, a force that made others tremble.

Mandell looked at Fade as his entire body trembled. "No, don't hurt me, don't do it. My grandfather is the retired deputy minister, my parents are both directors. As long as you let me go, my family will definitely offer you a lot of benefits."

Fade remained unmoved. With a thud, his right hand landed on Mandell's left arm.

Suddenly, with a crack, Mandell's left arm was broken, and he screamed loudly.

"Y-you actually dared to touch me. The Xu family will not let you go, I—" Mandell screamed in pain.

"Shut up!"

Fade then proceeded to punch down on Mandell. In an instant, Mandell's arms and legs were all broken, and he passed out from the pain.

17:15 

After that, Fade turned around and looked at Hailey. He asked, "His limbs have all been broken. Is there anyone else whom you want to teach a lesson?"

Upon hearing these words, Hailey's gaze turned to Mandell's friends. They were all instantly frightened as they curled up in fear. They didn't dare to look into Hailey's eyes.

In the end, Hailey shook her head. She looked away and replied, "Mandell is the one who started this. Now that he has been taught a lesson, it's enough. The most important thing now is to treat Heinz's injury!"

As she spoke, Hailey looked at Heinz with a worried expression. Then, she looked at Fade with pleading eyes.

Fade understood what she meant. She wanted him to treat Heinz.

However, when Fade saw Heinz's white bone poking through his skin, he frowned and replied with a sigh, "His injury is much worse than yours. It will not be easy to treat him."

"Mr. Chen, is there really no other way?" Upon hearing Fade's words, Hailey's expression immediately grew anxious. She looked at Fade with pleading eyes.

17:15 

Chapter 1517

Fade waved his hand as he said, "It's not that I can't help him, it's just that it's not that easy to treat him. It's still possible, but it's not a conducive environment here for treatment. It's better to go to the hospital."

"Alright, I'll contact the hospital right away." Hailey was about to make the call.

Just then, Moore stood up and piped up, "Let me contact the hospital."

"Well..." Hailey looked at Moore with an odd expression. After all, the Moo family would be more familiar with the hospital and the doctors of Southzobe City.

As Moore dialed a number, he explained, "I know Dr. Qin of Southzobe City."

"Huh, which Dr. Qin?" Hailey asked.

"Yulia Qin, of course. She's the director of the Department of Orthopedics of the Genuine Hospital in Southzobe City," Moore replied.

Hailey couldn't help but cry out in shock, "What! You know Yulia Qin? Really?"

"Of course. We can't waste anymore time. Let's head there first!"

The others nodded in agreement, and then rushed over to the Genuine Hospital of Southzobe City with Heinz.

17:15 

In the car, after Hailey's introduction, Fade and the others finally understood how powerful Yulia Qin was.

Yulia Qin, otherwise known as Dr. Qin, was a doctor from the Department of Orthopedics who worked at the Genuine Hospital of Southzobe City. She had returned from studying abroad five years ago, and entered the Genuine Hospital. After that, she quickly became the director of the Department of Orthopedics in those five years.

She had broken the record for being the youngest director in all departments of the hospitals of Southzobe City as she was below forty years old.

The reason why Yulia was able to make such rapid progress was not because of her background or connections, but purely because of her exquisite medical skills in orthopedics.

It could even be said that in Southzobe City, Yulia was undoubtedly the best in orthopedics, and no one dared to question her.

On the other hand, her personality might've been the factor that hindered her from receiving a promotion.

Yulia was highly skilled in medicine, but she was very stubborn. She was very well-behaved, and hardly broke any rules.

With this personality, Yulia had gotten along well with others while she was abroad. However, in this country where everything depended on connections, Yulia's temperament seemed to stand out in a bad way.

Since she had become famous in the Department of Orthopedics in Southzobe City, many rich people had used their connections and came to her for treatment, either for themselves or their relatives and friends.

However, without exceptions, Yulia had rejected all of their requests, and there was no room for negotiation. For instance, the most famous incident was where the deputy mayor of Southzobe City brought his injured father-in-law to the hospital. He forced his way to cut in line and ordered Yulia treat his father-in-law. As a result, she refused his request.

17:15 

In a fit of anger, the deputy mayor even called the police to threaten Yulia, but she still did not change her mind. In the end, the matter got serious and the deputy mayor was demoted, effectively ending the matter.

Since then, there had been a saying in the Southzobe City. No matter how rich you were or how highly ranked you were, you are just an ordinary person in front of Yulia.

After listening to the stories about Yulia, Fade's respect for Dr. Qin grew.

After all, in a country where connections were everything, people who were not afraid of power needed to bear a lot of pressure, and also required great courage.

"Mr. Chen, how do you know Dr. Qin?" Hailey asked curiously as she turned to Moore.

Everyone was curious as well.

After all, Hailey had stated that Dr. Qin was stubborn and cold-hearted. Normally, such people wouldn't have many friends.

However, Moore, an outsider, was able to become friends with her. This naturally aroused some confusion.

Moore started hesitantly as he stole a glance at Joey. "In fact, it was a coincidence. One time when I was traveling, I helped Dr. Qin with a small favor, so I got to know her. She left me a phone number, and said that I could look for her if I ever needed anything!"

"A small favor? How could Dr. Qin have left her number with you if you had only helped her with a small favor? It was something big, wasn't it?"

Just when everyone was more confused and curious, the car arrived at the gate of the Genuine Hospital.

17:15 

The conversation stopped there, and Heinz was quickly brought into the hospital.

Arriving at the department of Orthopedics, Fade controlled Heinz's injury on the hospital bed with his positive energy. Moore stepped out, and was about to ask Yulia for help.

However, before he could get out of the ward, he heard the sound of footsteps coming.

Then, Fade saw a female doctor in a white coat with short hair entering the room.

The female doctor looked like she was about 34 or 35 years old. She had a good complexion, and looked very young. There were some blood streaks in her eyes, and she seemed to be very tired.

She was not tall, but as she walked confidently, she gave off a strong and oppressive aura, which made others easily succumb to her.

"Moore, you're here! Finally, you've called me. What's the matter?" She asked.

Dr. Qin, who had always been cold and distant, had taken the initiative to come forward. Fade and the others could not help but feel surprised. They turned to Moore in confusion.

Moore awkwardly smiled as he glanced at Joey, and then explained, "I've known Dr. Qin for a while now."

Then, he immediately got down to business. He pointed to Heinz, who was lying on the hospital bed, and said, "Yulia, this friend of mine, his leg is broken. It's very serious. I don't know if you can—"

Before Moore could even finish his sentence, Yulia walked up to him. She immediately saw the bones that were piercing through Heinz's skin. With a serious expression, she frowned and remarked, "His bones have been broken irregularly. He's in critical

17:15 

condition."

"Will you be able to treat him? Dr. Qin, please save my cousin," Hailey pleaded.

"I can try, but I can't guarantee that his legs will recover," Dr. Qin replied with a grim expression.

"Furthermore, I still have a patient who will need to undergo a minor surgery immediately. If you guys want me to treat him, you might have to wait for about one and a half hours or so," she continued.

After saying that, Yulia glanced at Moore and continued, "Of course, I will perform the operation faster. It should be over in an hour or so. Can you guys wait?"

If it was an ordinary doctor who said this, the family members of the patient would have already been furious.

However, it was Yulia, who was not easy to deal with. It was very understandable. Moreover, Yulia had taken the initiative to speed up her surgery in order to treat Heinz's injury.

17:15

Chapter 1518

Hailey and the others were confused as they glanced at Moore. They started to suspect that the relationship between the two was much more complicated than they thought.

Otherwise, Dr. Qin, a stubborn person, wouldn't have made this compromise.

Heinz was already fortunate enough to receive Yulia's treatment, and Hailey was just about to nod her head in agreement.

However, just then, Fade spoke out, "Dr. Qin, if it is not convenient for you to treat him now, can you lend us some of your orthopedics equipment? Also, if possible, can you bring over two nurses to help me?"

"You... you're a doctor?" Yulia looked at Fade in surprise.

"Yes, I am," he replied. "Heinz's injury is very serious. If it worsens, I'm afraid it will cause a irrevocable side effects. So, I want to treat him here, on the spot."

When it came to professional problems, Dr. Qin's expression became serious. She looked at Fade and said, "I know you are eager to save him, but an injury of this scale can't be cured in a hurry. If you don't treat him properly, or if you have insufficient experience, the operation will fail, and the result may be even more serious than the side effect."

"So, my suggestion is that you should wait for a moment. I'll do the operation myself."

For Dr. Qin, who had always been straightforward, it was obvious that she was dubious about Fade's medical skills.

17:15 

After speaking, Yulia turned to look at Hailey, who was the patient's family member, wanting to seek for her opinion.

However, she didn't expect Hailey to agree so easily to Fade's suggestion without a moment's hesitation. "Dr. Qin, I believe in Mr. Chen. Can you help with the equipment and nurses?"

When Yulia heard this, she narrowed her eyes and was about to say something. However, in the end, she still didn't say anything to persuade them.

After all, she was not the kind of person who would try to persuade others. Since they had made the decision, she just had to focus on her own priorities.

Yulia nodded and said, "I'll arrange for the equipment and nurses for you right away."

In less than ten minutes, Yulia prepared a top-rated operating room in the Department of Orthopedics for Heinz. At the same time, she also called for two doctors to help Fade.

After that, Yulia put on a white coat and entered the operating room to begin her surgery.

At the same time, Fade also began treating Heinz's injury.

The whole treatment process was when both the orthopedics doctors' attitude changed.

At the beginning, when they knew that they were there to help Fade, they were both extremely unwilling, and they even cursed at Fade in their hearts.

If it wasn't for Dr. Qin, the two of them would never have agreed to such a thing.

Then, the treatment began. When they saw that Fade did not use the equipment that was worth millions or tens of millions of

17:15 

yuan, but instead used his positive energy to treat Heinz, the two of them almost went crazy and wanted to drive Fade out of the operating room.

In their hearts, Fade was nothing more than a liar. To let such a person enter the Genuine Hospital to use their top equipment and to perform surgery with them, was an insult to the doctors.

However, half an hour later, they saw that the broken bones on Heinz's legs had begun to recover, and the wound was completely healed. When Heinz was able to stand up and take a few steps, the two doctors were shocked.

They felt that they had witnessed a miracle. After all, even Dr. Qin herself couldn't guarantee that she would succeed in the treatment.

Moreover, even if Fade had succeeded, it would take at least two months for Heinz to recover to his current state. However, it only took him about 40 minutes, and Heinz was already able to stand on his feet.

The two doctors were dumbfounded. After a long pause, the two doctors' attitudes had completely changed. They went up to Fade with great enthusiasm, and began to ask questions about medicine.

As for Dr. Qin, the surgery was not over yet. After they sent Heinz to the ward, they waited for Yulia's surgery to be over.

However, just as they were waiting, suddenly there was a disorderly sound of footsteps outside, as well as some extremely chaotic shouting voices. It was as if someone was quarreling.

When they heard the commotion, Fade and others couldn't help but walk out of the ward and went to the corridor.

At that moment, there were many people standing in the corridor. All of them looked anxious and nervous. Among them, there were also many doctors of the Genuine Hospital in white uniforms. All of them looked very anxious.

17:16

"What happened?" Fade and the others were puzzled.

At that time, Fade saw a gray-haired doctor in his sixties walking over.

At the sight of this elder, the other doctors immediately got out of the way respectfully and bowed, "Oldric!" He was Oldric Huang, the dean of the hospital.

Oldric walked to the closed operating room door with a serious face. When he saw the red indicator light on it, he frowned and asked, "Has Dr. Qin come out yet?"

"Oldric, Dr. Qin hasn't come out yet," a nurse replied.

"Then why didn't you inform her and ask her to come out quickly? Don't you know the severity of this matter?" Oldric shouted angrily.

The nurse's face was filled with panic as she quickly explained, "Oldric, we have already informed through the internal phone. However, Dr. Qin said that she is having an operation now and she'll deal with everything else after the operation."

"What? After the operation!" Oldric immediately frowned.

Behind this group of doctors, the group of anxious people also began to shout anxiously at that moment.

"Oldric, do you not know who the patient is this time?"

"She's even ignoring and being arrogant towards the Xu family. Does she want to die?"

"Making Mr. Mandell wait until the surgery is over, who does she think she is?"

.....

17:16 

Amidst the shouts, a middle-aged man who looked like a secretary walked over to Oldric and said in a low voice, "Oldric, the person who is injured this time is Director Xu's son, Mr. Mandell. You know Mr. Mandell's status in the Xu family."

"Now, Director Xu is very angry after knowing about this. As for Master Xu, he is also very angry. He gave a strict order that we must save Mr. Mandell."

"If we fail, we won't be able to face the consequences."

After listening to this, Oldric couldn't help but grow even more anxious. He quickly wiped his forehead as he nodded and said, "Secretary Liu, don't you worry. I will do as Director Xu and Master Xu has told me. I will definitely save Mr. Mandell."

"That would be best!" Secretary Liu nodded.

Oldric then furrowed his brows as he ordered, "Hand me the phone. I will tell Dr. Qin personally."

17:16 

Chapter 1519

Soon, the call went through. After a while, the call was connected.

Oldric scolded, "Dr. Qin, didn't you hear what I just said? Now, there is an emergency patient outside that needs your treatment. Come out quickly."

Yulia replied coldly, "Oldric, I'm performing an operation on a patient now. Do you think that it is appropriate for me to come out now?"

"I've checked the medical records, you are doing an operation on just an ordinary person. His illness is not complicated. Come out, I will replace you with someone else for the operation," Oldric ordered.

"He's my patient. I have to be responsible for him till the end," Dr. Qin insisted firmly.

Oldric was so furious that he almost threw the phone onto the ground. "Yulia, do you know which patient is waiting outside? It's Young Master Mandell from the Xu family. Now, the whole Xu family is watching us. If we don't treat Mandell, we will be doomed, and the Genuine Hospital will be done for as well."

When Yulia heard this, her tone was still as cold as ever. "No matter who it is, it doesn't make much of a difference to me. They have to wait in line for treatment according to the rules. I'll reject those who do not abide by the rules."

"You—" When Oldric heard this, he was about to explode with anger.

17:16 

However, before he could speak again, Yulia had already ended the call.

When Oldric called again, he couldn't get through anymore. It seemed that Yulia had unplugged the phone.

In an instant, Oldric sweated profusely, and his legs became weak. He almost fell to the ground.

Behind him, Secretary Liu's voice sounded, "Oldric, how is it going? Is Dr. Qin willing to come out?"

"W-well, Dr. Qin is having an operation, I really can't—" Oldric tried to explain.

However, Secretary Liu's face fell and he said coldly, "I don't want to hear excuses. If she doesn't want to come out, then all of you have to rush in and bring her out. I don't care what method you use, just bring her out. This is the Xu family's order, understand?"

"Uh, I, I..." Oldric was at a loss for what to do.

Secretary Liu shouted coldly, "Oldric, do you have any other opinions?"

"No, no, I don't." Oldric quickly shook his head and then ordered, "Hurry up, go and start the emergency plan. Open the door to the operation room."

"Oldric, t-this may affect the operation and cause the equipment power to shut down. It may be dangerous," someone reminded.

Oldric glanced at Secretary Liu's cold gaze and ignored the warning. He shouted, "Do as I asked. Hurry up."

The workers had no choice but to start the emergency plan, and were about to force open the operating room door from the outside.

Although they had slowed down as much as possible, and dawdled for nearly ten minutes before they finally got the emergency

17:16 

plan ready, in the end, they still had to take action and press the emergency button.

Immediately, a beeping alarm sounded. The entire corridor's lighting immediately went out, and then the dim emergency light began to flicker.

The closed door of the operation room finally opened slowly at that moment.

Inside the operation room, there was a flash of dim light. One could vaguely see a few figures moving around.

"Dr. Qin!" Oldric stood at the door of the operating room and shouted, wanting Yulia to come out.

However, there was no response from the inside, and no one came out.

Oldric frowned immediately, and shouted a few more times, but it was still the same.

Secretary Liu couldn't stand it anymore. He said coldly, "Oldric, since you can't call them out from here, then go in and bring them out."

"Okay, I will do it right away!" Oldric immediately led several doctors into the room.

However, just then, footsteps came from inside, and several people came out.

Among them, Yulia was leading the way. She was wearing a mask, and her forehead was covered with sweat.

When he saw Yulia, Oldric immediately said, "Dr. Qin, you're finally out. Come with me. Mr. Mandell has—"

"Oldric, was it you who gave the orders to start the emergency plan just now?" Before Oldric could finish his words, Yulia had started to question him. Her firm gaze made Oldric falter.

17:16 

"Dr. Qin, t-this is an urgent situation, and it is of great importance. I am also—" Oldric explained.

"Urgent situation? Oldric, did you know that I was performing a surgery on a patient? You had suddenly started the emergency plan, causing the power and equipment in the operating room to stop suddenly, very likely endangering the patient's life. Do you want to see this happen, Oldric?"

"Of course not. It's just that Mr. Mandell—" Oldric tried to explain.

However, Yulia interrupted him in a cold voice, "No matter what the reason was, you had forcibly interrupted my operation, and almost caused the patient to be in danger. This is a serious medical incident. I will report this to the upper management."

"Dr. Qin, I—" Oldric knew Yulia's personality, and knew that she was not joking. His expression immediately became anxious.

There were also some family members of the patient who were on the side, and they asked worriedly, "Dr. Qin, is my husband alright?"

Yulia calmed down as she nodded and answered, "Fortunately, the operation was already over when the power was cut off. It didn't have too much of an effect. Your husband will be fully recovered after two more months of recuperation."

"That's great. Thank you, Dr. Qin. Thank you so much!" The family members thanked her.

When he saw this, Secretary Liu couldn't help frowning and waved his hand to drive the family away. He approached Yulia and said, "Dr. Qin, since the patient inside is alright, then you should prepare for the operation as soon as possible. Mr. Mandell is in critical condition, and has been waiting for a long time."

When she heard Secretary Liu's words, Yulia looked up and asked coldly, "Who are you? And who is Mr. Mandell?"

17:16 

Secretary Liu paused, and his gaze turned sharp. However, he suppressed his anger as he answered, "I am the secretary of Director Xu of the Industrial and Commercial Bureau of Southzobe City, and Mr. Mandell is Director Xu's son. Now, his legs are broken, and he is seriously injured. You should perform the operation for him as soon as possible."

After listening to his words, Yulia's expression did not change at all. Instead, she questioned him, "So, you are the one who ignored the rules of our hospital, and forced Oldric to start the emergency plan?"

Hearing this, Secretary Liu's brows furrowed deeper as he answered, "Dr. Qin, you have to know that it is Mr. Mandell who needs to be treated now. He is Director Xu's son, and also the grandson of Master Pascha Xu."

"So what? In my eyes, every patient is equal. Their status is no different from mine. If you want to be treated, then follow the rules of the hospital. If not, please leave," Yulia stated coldly.

17:16 

Chapter 1520

Upon hearing Yulia's words, Secretary Liu's eyes were filled with anger. He was on the verge of bursting into a fit of rage.

Just then, Oldric came over and advised, "Secretary Liu, Mr. Mandell's injury is of utmost importance. Let's treat him first!"

Upon hearing this, Secretary Liu gritted his teeth and took a deep breath. Then, he looked at Yulia and said, "We were indeed anxious about what happened just now. We were wrong. Please accept my sincere apologies, Dr. Qin."

"Now, we are willing to abide by the rules and queue up for your treatment. Dr. Qin, please treat Mr. Mandell," he continued.

After listening to his insincere apology, she replied coldly, "If you're queueing, then please keep waiting. I still have two patients waiting for me to perform their surgery."

"You—" When Secretary Liu heard this, he was enraged. He was Director Xu's secretary, and apologizing humbly was already a nice gesture that he was willing to offer. However, he didn't expect that this doctor would be so arrogant and refuse to accept his apology. She even wanted Mr. Mandell to wait for his turn.

When he saw this, Oldric immediately grew anxious. He quickly gave Yulia a look and advised in a low voice, "Dr. Qin, Mr. Mandell's injury is very serious. I know you have your rules, but some serious injuries just can't wait. They must be treated immediately. You have done this on similar cases previously. This time, you should do the same!"

"Some urgent cases do indeed have to be treated immediately. However, this time, they broke the rules first. I've already given

17:16 

them a chance by allowing them to wait in line for the treatment. If you still insist on cutting the line, then I'm sorry. Please leave!" Yulia replied firmly.

"Yulia Qin, do you know—" Secretary Liu was about to shout at her.

Just then, a flurry of footsteps sounded. A middle-aged man and woman walked in hurriedly. The man was dressed elegantly in a suit and leather shoes with gold-rimmed glasses. The woman was wearing heavy makeup, looking both anxious and fierce.

Seeing the arrival of these two people, Secretary Liu, who was about to lose his temper, immediately suppressed his anger, respectfully walked over and greeted, "Director Xu, Madam Han—"

"Cut the cr*p. How's Mandell? How's the operation going?" They were Mandell's parents.

Upon hearing the question, Secretary Liu's expression fell. "Director Xu, Madam Han, Mr. Mandell's operation hasn't started yet."

"What? The surgery hasn't started yet?" Adele was furious. She glared at Secretary Liu and questioned sternly, "It has been at least a few hours since the accident happened to Mandell. What are you doing? You're saying that the operation hasn't even started yet. Are you trying to kill my son?"

Felix, who had always been calm, adjusted his gold-rimmed glasses as he asked in an angry tone, "Secretary Liu, what's going on?"

With sweat all over his head, Secretary Liu lowered his head and quickly told Felix about what happened earlier. Of course, through his words, the main responsibility of the incident naturally fell on Yulia, who had deliberately made things difficult, and did not give Mandell any treatment.

Upon hearing this, Mandell's parents' expressions fell, and they turned to look at Yulia.

17:16 

His mother, Adele, couldn't help but rush over and yell at Yulia, "What's wrong with you? Why aren't you treating my son?"

Yulia was fearless as she replied coldly, "You've violated the rules and almost harmed the other patients. I, Yulia Qin, have the right to reject treatment for people like that."

"You're rejecting us? Do you know that's my son? That's the eldest grandson of the Xu family. Do you know what you are doing?" Adele pressed on.

Yulia remained unmoved. In a cold voice, she answered, "I don't care whose son he is. In my eyes, he's just a patient. Moreover, he's also a patient who violated the rules."

"You—" Adele was so furious that she was about to hit Yulia.

Just then, Felix grabbed hold of his wife and suppressed the anger in his heart as he stood before Yulia.

He had heard of Yulia's name and character. He knew that the more he argued with Yulia, the less effective things would be.

Therefore, for the sake of his son, Felix was willing to give in. He lowered his voice and said to Yulia, "Dr. Qin, it is true that we have been a little impatient when dealing with this matter. But please understand that as parents, we are so anxious and worried after hearing that our son was injured."

"We are willing to apologize for what happened earlier, and we are willing to make compensation with sincerity after the surgery. Now, Dr. Qin, please perform the surgery on Mandell. Just take it as the request of an ordinary patient's father!"

These words came from Felix in a very humble manner. It was almost impossible for anyone else to hear such words from the dignified Felix's mouth.

Oldric also quickly gave Yulia a look, asking her to agree immediately.

However, after thinking for a while, Yulia looked at Felix and answered, "Director Xu, I understand your feelings. It's okay for me to treat Mandell, but everything has to be done according to the rules. Please continue to queue for your turn as there are still two patients who needs surgery. After them, it will be your turn."

"This..." Felix's face fell, and he almost cursed. However, he managed to control himself and continued, "Dr. Qin, Mandell's condition is critical. Can't you make an exception for him?"

"I've already given in, and this is my limit. Otherwise, due to your unruly actions, I would have already blacklisted you and you would never get my treatment for the rest of your life," Yulia responded.

Hearing this, Felix's face fell. He didn't expect that he, the dignified Director Xu, had to humbly beg a doctor, but she still didn't accept his sincerity.

Felix was angry, but Adele, who was on the other side, was already furious at this moment. She could no longer contain the anger in her heart. She strode forward a few steps and slapped Yulia on the face. At the same time, she shouted angrily, "B*tch, how dare you be so arrogant? Now, I don't care what kind of rules or reasons you have, I order you to perform surgery on my son immediately."

"And, you have to ensure that my son's operation is successful. If anything happens to my son after the operation, you will be responsible," Adele stated in a commanding tone as she ordered Yulia condescendingly.

Felix didn't say anything when he saw this, but it was obvious that he agreed with his wife's actions.

On the other hand, Oldric, who was on the side, was startled. He thought that something bad was about to happen. After all, he

understood Yulia's character very well.

Yulia was a typical person who could be persuaded by reason, and not be cowed by force. If the Xu family continued to plead with her, there might've been a chance. However, Adele's arrogant attitude and actions just drove Yulia further away, and she would never treat him anymore.
