Chapter 1551

At this moment, there came the sound of footsteps, followed by the voice of a young man, "Yankee, so this is the company where you work! It's quite luxurious; not bad!"

Hearing the sound, several people in the cafeteria couldn't help but look over.

Fade immediately saw a young man who was less than 20 years old holding a woman who was also around his age. They were carefree and walked over with smiles on their faces.

When Emilia saw the two of them, she hurriedly went up to them and asked with concern, "Fabio, you're here. Did you eat? How is Jennie?"

Apparently, the two people who came in were Yankee's younger brother, Fabio, and his girlfriend, Jennie.

Gerald smiled and walked over, helping his son carry the things in his hands. He pointed at the cafeteria's dining table and said, "Fabio, Jennie, if you haven't eaten anything yet, then just eat here. The food here is very good. Your mother and I just ate two bowls of rice."

Hearing that, Jennie glanced at the food on the table and snorted. She said in a disdainful tone, "Hmph, what delicious food can there be in a cafeteria?"

Fabio also said, "Dad, Mom. Don't worry about it. Jennie and I had our meal outside in a restaurant called Pizza Hut. It cost us

14:37 🔋

hundreds, but it was a good meal."

"After we finished eating, we went shopping and bought some things. It's great being in Capital City. It's much better than our town. There are all kinds of shopping malls, which dazzled us. However, in terms of price, it's a little expensive."

Hearing the price being brought up, Jennie, who was standing beside him, twitched her mouth immediately. She seemed to be a little dissatisfied.

Hearing that, Fabio hurriedly coaxed his girlfriend and said, "It's not expensive at all. No matter how expensive it is, I won't be stingy if you want it. I'll definitely buy it for her!"

"That's more like it," she glanced at him.

Gerald, who was listening at the side, had a strange look on his face. He looked at the bag in his hand and said, "If you spend a few hundred yuan for a meal, then these things must have cost thousands."

At this point, Emilia seemed to realize something and quickly winked at Fabio, telling him not to speak anymore.

However, Jennie sneered and said, "Thousands? Are you kidding? These are all famous brands. One piece of clothing costs more than 2,000 yuan! We bought six items of clothing and spent a total of 13,000 yuan. It's not bad at all!"

"What, 13,000 yuan? Just for a few pieces of clothing!" Gerald suddenly felt as if the bag in his hand had become heavier. It was as if it was not filled with clothes but gold bars.

Even Emilia looked a little surprised and distressed at this moment.

Fabio scratched his head and explained to his parents, "Mom and Dad, this is a big city, not a small one like ours. It's normal for

14:37 

things to be more expensive. Besides, it's not easy for Jennie to come to Capital City, so I can't let her suffer. It's not a big deal to buy some clothes. It's just money and it was meant to be spent. It's useless to save it."

His words were very casual and he thought he made a lot of sense.

However, by the side, Yankee and Fade's faces were completely dark.

This was especially the case for Yankee. She originally looked at her family in disappointment, but now, her gaze had turned into one of rage.

While studying, she worked very hard part time. She started working as a manual laborer lifting heavy boxes, and now, she even worked overtime to deal with documents. In half a year, she gave all the 20,000 yuan she had saved to her family.

In the end, her brother spent it all on his girlfriend.

What was more, her brother spent the money without any guilt. As for her parents, in order to protect him, they made up all kinds of lies to deceive her from the very beginning.

They said that had come to Capital City for a hospital examination. They spent money because they wanted to give the baby a check-up.

Thinking of this, and thinking of her frugal and hard-working life, Yankee couldn't help feeling angry. She shouted, "My money has been used by you like this? Did you go to the hospital for an examination?!"

"Yankee, w-we..." Gerald came back to his senses and thought of the lie earlier. He couldn't help feeling a little guilty and flustered.

14:37 

After a moment of panic, Emilia began to explain for her son, "Yankee, you misunderstood him. They said they were going for a check-up, but they are still young! Maybe they got excited, so they went shopping and bought some things. It's not a big deal."

"Not a big deal? Do you know how I earned that money? What did I use for food and accommodation? You took my hard-earned money and squandered it in Capital City. How could you?" She really felt wronged and angry.

Her parents still wanted to explain further, but her younger brother, Fabio, didn't care. He looked at Yankee and said, "Yankee, why are you so angry? You're my sister, and I'm the only boy in the Meng family. Isn't it natural for you to give me the money you earned?"

"If you really can't bear it, I'll ask Jennie to give you a dress. There's one she doesn't like anyway," he said and looked at his girlfriend. "Jennie, didn't you say that you didn't like the color of the dress? Give it to my sister then."

She pouted reluctantly and said, "That dress cost 2,500 yuan. Although I don't like the color, I still like the style."

"Hush, I'll buy you another one later, in the color you like," Fabio comforted her.

Jennie reluctantly took the dress and handed it to Yankee. "There you go. You're so stingy. You even want things from your sister-in-law."

Yankee didn't want the dress at all. Seeing her brother and sister-in-law's reactions, her anger turned into disappointment. She waved her hand and said, "Take them away. You two should leave. All of you, leave."

"Yankee, we're just..." Emilia wanted to explain further, but Yankee didn't want to listen to her anymore. She shouted, "Get out. All of you, go!"

"Let's go. Let's go." When her mother saw this, she got up and left.

14:37

However, Fabio was still a little worried. He asked his mother, "Mom, why are we leaving now? What about the betrothal gift?"

His mother patted the bag in her hand and said, "I've got it. 150,000!"

"150,000! That's so much! How did you get it?" He was somewhat astonished.

Emilia replied, "Your sister borrowed it from her colleague in her company. Don't ask so much."

Gerald added, "The colleague next to her."

Fabio and Jennie turned their heads and looked, and only then did they notice Fade next to them.

14:37 

Chapter 1552

Fabio looked at Fade and didn't care too much about him. He just had some doubts. "Is that colleague a rich heir? Is he that rich? What is the relationship between him and Yankee? Why did he agree to lend her 150,000 yuan?"

As for Jennie, she frowned slightly and looked as if she was thinking. She seemed to have thought of something and looked at Fade for a while.

Seeing this, Fabio was a little jealous. He said discontentedly, "What are you looking at? He has ordinary height and looks. Isn't he just a little rich?"

She rolled her eyes at him and said, "What are you thinking about? Do you think I have a crush on him? It's just that he looks a little familiar."

"Familiar? How is that possible? This is the first time we are in Capital City. How would you have seen him? Do you really have a crush on him?" He asked unhappily.

She frowned for a moment, then her eyes lit up. She clapped her hands and exclaimed, "I remember. I remember."

"What did you remember?" He asked.

Jennie answered, "I remember that man. I saw him there."

"Where?"

14:37

"Just now, on the commercial street!"

"The commercial street? No way, why don't I remember it? There were so many people on the commercial street, so how did you notice him?"

"Not in person, but the advertisement. He was in the advertisement of Fei Enterprises Holdings Inc."

At this point, Fabio thought of something. "Fei Enterprise Holdings Inc's advertisement. Is it the advertisement for cosmetics and Life Elixir Wine? I even looked at the price; tens of thousands of yuan per bottle. We said it was so expensive. Who would buy it?"

"Yes, yes, that's it!" Jennie said, "After that, I checked the Internet and found that the man was incredible. His name is Fade if I'm not wrong, and he is not even 25 years old. However, he already has several companies under his name, and his assets are worth more than 10 billion."

"What? Ten billion in assets! Incredible!" When Yankee's parents heard this number, they were shocked.

Fabio was even more surprised and said, "You mean, this guy is the Fade in the advertisements?"

"They look similar so it should be him," Jennie nodded and answered.

"It's impossible. He's a big boss worth tens of billions of yuan. How could he be my sister's colleague?" Fabio was skeptical.

At this time, Emilia came over and said, "It seems to be true. When we came in just now, this company was called Fei Enterprise Holdings Inc, and the young man's name is Fade."

"When we went upstairs, the employees of the company treated him with respect when they saw him. At first, I thought that they respected Yankee, but now I know that they respected him!"

14:37 

Fabio didn't pay attention to these things. After hearing his mother's words, he wanted to turn his head and look at Fade a few more times.

Jennie also spoke up from the side, "Moreover, only when he is the boss can he take out so much money so easily."

"Hmm, that's true. Thinking about it this way, it makes more sense." He nodded, and then sighed heavily, "I didn't expect Yankee to be so lucky as to have a big boss as a colleague."

Gerald nodded and said, "We should be thankful to the boss. He's willing to lend us the money."

"We've got the money. Let's go." Fabio was happy to get the money and was ready to leave.

However, Jennie and Emilia stopped at the entrance of the cafeteria. They didn't want to leave. Instead, their eyes kept shifting to the side and they looked at each other as if they were communicating about something.

"Mom, Jennie, what are you doing? Let's go," urged Fabio.

"Don't be in such a hurry!" Jennie glared at him and immediately said, "Don't you think it's weird? Use your brain to think about it?"

"Is there anything wrong?" He scratched his head and said.

Gerald nodded at the side.

"You idiot, what do you know?" Emilia glared at her husband, and then lowered her voice. "If our guess is correct and Fade is really the boss of the company, then he is Yankee's superior. As such, it's a bit strange for him to lend her money."

"Yeah. One is a big boss of a company with tens of billions of yuan, while the other is just an employee of the company. There

14:37 🔋

should be no intersection between them. Even if they know each other, they are just nodding acquaintances at most."

"But what about Fade? He not only drove to pick you up, but also accompanied you to have a meal, and then took out 150,000 yuan to lend her. Even if he has money, he can't be so good to all his employees, can he?"

Hearing Jennie's words, Fabio thought of something and said, "You mean, the relationship between the boss and Yankee is not simple. It's even possible that the boss has a crush on her. They are in love, and that's why he is so generous."

"It's probably this." Jennie nodded, but she immediately paused and lowered her voice, "But it may also not be a love relationship!"

"Why? Fade is a few years older than my sister. It's normal for him to fall in love with someone," he answered.

Jennie rolled her eyes at him and said, "Are you stupid? He's such a big boss. If he wants a woman, he can wave for one and many women would jump at the initiative to get close to him. Does he need to spend so much time dating your sister?"

"This..."

"Besides, if they are dating, why didn't she tell your parents about it? They even hid their identities! If this isn't something shady, then why do they have to hide it?" She questioned.

Hearing that, Fabio felt that something was wrong. "So what you're saying is..."

She lowered her voice and said, "If I'm not mistaken, the relationship between that Fade and your sister may not be as close as a lover. Maybe he just wants to play with her, or simply, wants to have a try."

Hearing this, his face turned pale, and then he said, "Do you mean that my sister is a mistress, or that guy's secret lover?"

14:38

"It is very possible." She nodded with a serious look on her face.

When Gerald heard this, he immediately became anxious. "How can this be? Being a mistress is not a good thing. Yankee, how can she..."

Jennie rolled her eyes at him and said, "Dad, can you change your old mindset? Nowadays, there are so many mistresses and it's not a big deal. Besides, he is a rich boss worth tens of billions. How many people want to be his mistresses? It's lucky for her to be his mistress."

"But if such a thing was to come out, it would be disgraceful. Yankee, how will others think of her in the future? I..." Gerald couldn't help but worry.

Jennie said coldly, "What disgrace? Besides, it's better than letting her give birth to a child for the middle-aged boss in our county!"

14:38 

Chapter 1553

When this matter was brought up, Gerald couldn't help but freeze. He lowered his head and didn't say anything.

Jennie blinked and continued, "Anyway, she's escorting a man. Better this big boss, than those country bumpkins. Moreover, this boss can take out 150,000 yuan freely. His financial power is much better than the one in the county!"

At this point, Emilia's eyes became brighter, as if she thought of something. She looked at Jennie and said, "Jennie, your meaning is, this Fade..."

Jennie didn't hide anything. She said directly, "Mom, there aren't many opportunities to meet such a big boss! Who knows when he will get tired of Yankee? He'll change to someone else when the time comes."

"Thus, while he's still interested in Yankee, we can take advantage of this opportunity to make him bleed a little."

Hearing this, Gerald frowned and said, "Th-That's not good. He just lent us 150,000 yuan, and we are asking for money again. I'm afraid that..."

"What's wrong?" Emilia said, "My daughter was defiled by him. 150,000 yuan is nothing. That's what he should be paying. I still think it's too little! He is such a big boss and yet he's so stingy."

Jennie, who was standing at her side, also said, "Yeah, Yankee is a top student at Capital City University no matter what. Besides, she does have a good figure and appearance."

14:38

"Many of the models I saw online are not as good-looking as Yankee. They get tens of thousands of yuan when they accompany their big boss every night. As for this Fade, Yankee has to stay with him for at least several months. Relatively speaking, 150,000 yuan is too little!"

"Yes, yes. It's indeed too little." Emilia nodded.

Fabio's eyes lit up as well, "Then why don't we go ask for more? How much do we want?"

.....

The family discussed excitedly. In their words, they treated Yankee as a woman who was selling her body. However, they did not feel that it was inappropriate at all. Instead, they became more and more excited, and their eyes were eager to have a try.

As for Gerald, who felt a little guilty, he was still honest. On such an occasion, he had no chance to speak at all.

After the discussion, the few of them looked at each other and then nodded. The corners of their mouths curled into a smile and they turned around. They returned to the cafeteria once again.

Meanwhile, Fade patted Yankee's shoulder gently and comforted her softly.

As for the four, when they saw what was happening, they were able to confirm what they were thinking. They looked at each other, and the smiles on their faces grew even wider.

Hearing the footsteps, Fade and Yankee raised their heads, and they saw her family coming back.

Suddenly, Fade could not help frowning and said coldly, "Why did you come back?"

After knowing his identity, they seemed to be a little flattering and respectful in front of him.

14:38

"President Chen, we have something to talk to my sister about!" Fabio said.

"Yankee, come here for a moment!" Emilia gestured to her.

Yankee wiped the tears from the corner of her eyes, looked at her mother and said coldly, "What's the matter? Just say it here!"

"Th-This might be a little inconvenient," said Emilia.

"There's nothing inconvenient about it. Either you say it now, or you leave," she said coldly.

Emilia hesitated for a moment. As she thought of money, she suddenly felt motivated. She stamped her feet, looked at Fabio and Yankee, and said, "Yankee, we already know about the relationship between you and President Chen. We want an explanation for this!"

Yankee was confused. She frowned and asked, "What relationship?"

Fabio said, "Yankee, stop pretending. This colleague of yours is the boss of Fei Enterprises Holdings Inc. He is Fabio, the president of the company and is worth tens of billions."

"How did you know?" She was slightly surprised.

He replied, "You don't have to be curious about this. It's just that we all guessed what happened between you and him."

Emilia turned her eyes to Fabio and said, "President Chen, you have to give us an explanation for my daughter, don't you?"

"What explanation?" He asked with a frown.

She replied, "President Chen, although I'm from the countryside, I'm still very clear about the happenings in the city."

14:38

Jennie also said loudly, "President Chen, we know about what happened between you and Yankee. Stop pretending."

"What do you mean?" He frowned even more.

Fabio was a little impatient and said directly, "President Chen, you're forcing us to spell it out! Then I'll say it."

"If you want my sister to be your mistress, you should give us something!" He rubbed his fingers and winked at Fade, implying that he was asking for money.

Emilia added, "It was not easy for us to raise our daughter. She can't sleep with you for nothing. You have to take responsibility."

Before Fade could make a sound, Yankee heard their words and immediately exploded.

"What are you talking about? I have nothing to do with President Chen. How can you talk nonsense?" She exclaimed emotionally.

Fabio curled his lip and said, "Yankee, it's not a big deal. Don't deny it. We won't blame you. It's okay."

Jennie added, "Yankee, it's not easy for you to be President Chen's mistress. You are really capable."

Emilia said, "But it's not a good thing after all. President Chen, you should compensate us!"

.....

At this moment, Fade completely understood.

This group of people, thinking that they were smart, made up a special relationship between Yankee and himself, and then threatened him and asked for money. They were really shameless.

As for Yankee, the way she looked at these so-called "family members" had changed completely. Deep anger, disappointment,

14:38

and even despair could be seen in her eyes.

She wasn't angry, but her gaze was cold. She shook her head and said faintly, "Your fantasy is not true. As for asking for money, that's even more impossible. You can leave now!"

"Yankee, I'm not blaming you. Don't deny it," Emilia said.

Fade shouted coldly, "Get out of here, or I'll call security!"

While speaking, he picked up his mobile phone and called the security guards to come up directly.

Seeing this, Fabio was a little anxious and said, "President Chen, you're the big boss. We just want you to give us a small sum of money, just 500,000 yuan. After that, we promise to keep it a secret and never talk about it again."

"If you drive us out, I will find reporters to expose this matter. The impact will be huge. At that time, it will affect the business of Fei Enterprises Holdings Inc, which will not be tens of thousands of yuan, but hundreds of thousands of yuan, or even hundreds of millions of yuan."

"President Chen, you don't have to do this for such a small amount of money." Fabio thought that his analysis was quite reasonable.

14:38

Chapter 1554

However, his shameless words only made Fade angrier. He shouted angrily, "Get out of here!"

At this time, the security guards arrived upstairs. They surrounded the family and glared at them, intending to drive them away.

Given the situation, Fabio and the others knew that they were no match for him, so they dared not say anything more. They turned around and prepared to leave with indignation in their hearts.

However, just as they were about to leave, Fade suddenly thought of something and shouted in a cold voice, "Wait a minute!"

"What's the matter, President Chen?" Fabio turned around with a smile on his face.

Fade looked coldly at the bag in Emilia's hand and said in a cold voice, "Leave the 150,000 in the bag here. You cannot take it."

As soon as she heard that she had to leave her money, Emilia suddenly became agitated. She held the bag tightly and refused to let go. "This is our money. You can't take it away."

"That's my money. Leave it here!" Fade shouted coldly.

"You lent this money to Yankee. She gave it to us, not you," Emilia responded.

Fade looked at Yankee. At this moment, she had a serious expression. Her gaze was ice-cold as she frostily said, "I am not willing to give you this money now, so hand over the money."

14:38

"Yankee, you can't do that. I'm your mother, we..." Emilia said emotionally.

Yankee remained unmoved and coldly said, "I refuse to acknowledge a mother like you. As for our relationship, I will sever our ties and break away from the family."

"No, you can't. I'm the one who gave birth to you. You can't..." Emilia shouted agitatedly.

At this time, Yankee had turned around and was completely unmoved. All the things that had happened earlier had completely broken her heart. She knew that no matter how she thought for the family, it was useless. They just regarded her as a tool to ask for money. As long as she could still make money, they would use her by any means.

This kind of family completely broke the last ties of affection in her heart. It made her soft heart become cold, and she made the decision to sever their relationship.

However, in the face of the crying and yelling of Fabio and the others, Fade was not moved at all. He waved his hand and said, "Leave the money here and throw them out."

"Yes!" The security guards surrounded them.

Emilia suddenly became agitated. She held her luggage bag tightly and laid prone on the ground. She shouted and struggled, "My money, this is my money. Get out of here. You are robbers; don't rob my money."

In the face of such a shrew, the tall and sturdy security guards could not find a good time to move in.

Seeing this, Fade's eyes turned cold and he said, "Keep them here and then call the police. Tell them that someone has entered our company to rob money. It's a large amount. Let the police deal with it."

14:38 

Hearing this, Fabio and Jennie suddenly became a little nervous. They were young people, and they knew it was a serious crime to rob others. If they were convicted, they would be sentenced to decades of imprisonment.

Furthermore, with Fade's identity and background, if he really used his relationship and accused them of robbery, that would be their end.

Thinking of this, they could not help but feel timid. They persuaded Emilia to give up.

However, she regarded the money as her life. She held the luggage bag tightly and was unwilling to let go.

Soon, the police arrived. They heard that it was a robbery case with a huge amount of money, so many police officers came. They were all armed with guns at their waists, and rushed over wearing bulletproof vests.

Seeing the policemen's posture, Emilia began to realize that things were getting serious. She said, "I didn't rob them. The money is mine."

The policemen would not listen to her explanation. They took out handcuffs and arrested them. "Whether it was robbery or not, go back with us pending investigation."

Seeing that her son and daughter-in-law had been handcuffed, Emilia was really scared. She handed over the luggage bag with the money and quickly said, "I'll give the money back to you. It's yours now. Let my son go. Let him go, now."

The policemen were unmoved and were going to handcuff her as well.

When the cold handcuffs were handcuffed over her skin, Emilia was so scared that her legs went limp and she almost fell to the ground.

14:38 🔋

At this point, she looked at Yankee, crying and begging, "Yankee, I was wrong. I'm wrong. I'll give you the money. Tell the police to stop. Don't arrest your brother. I beg you."

Seeing this, Yankee's body trembled a few times, but in the end, she shook her head hard and did not move. She turned around coldly and turned her head away.

"Yankee, Yankee..." As Emilia shouted, they were taken away by the police.

Yankee couldn't hold it in any longer. Tears rolled down her face and she returned to the office.

Fade followed her to the office, but Yankee closed the office door before he could enter. He knocked on the door, but there was no response. He could only hear her sobbing.

Therefore, he did not continue to knock on the door, but just waited outside.

He knew that when faced with this kind of situation, and given that the people targeting her were her own family, Yankee must be very upset. She needed time to release her emotions.

As for Emilia, although Fade said it as if it was serious, he would not press charges. They would be accused of making trouble and be detained. This incident would be a lesson for unreasonable people like them.

He waited for Yankee outside the office. He was waiting for her to feel better, and wanted to take her out to have a good meal before letting her go home to rest.

During the half an hour that he had been waiting, more than ten staff members came to find Yankee one after another. It was all about work, and she, the manager's secretary, needed to deal with them.

14:38

Seeing this, Fade couldn't help sighing. Yankee's working ability had exceeded his expectations. She was now an important pillar of the company.

Of course, although there was a lot to do, he still sent all of them back. After all, no matter how important her work was, it was not as important as herself.

After waiting for another 15 minutes, Yankee still didn't come out. This time, he couldn't help but worry. He came to the door and listened with his ear to the door, trying to figure out what was going on inside.

However, there was silence in the office. He did not notice any sound, nor any crying.

Suddenly, he became nervous. "Did anything happen to Yankee?" He thought.

Worried, he knocked on the door again and said, "Yankee, are you there? Open the door for me."

There was still no response.

He pushed the door and said, "Yankee, I'm coming in. Are you alright?"

There was still no response.

His eyebrows couldn't help but furrow, and his expression became serious. Then his right hand pushed slightly, and with a bang, the door was pushed open.

14:38 

Chapter 1555

Fade strode in and saw Yankee lying on the sofa at his first glance.

"Is she asleep?" Seeing this, he let out a slight sigh of relief. He walked over, took off his coat, and was going to cover her with it.

However, when he got closer, he noticed that something was wrong. He leaned forward to have a closer look, and his face suddenly changed. "Fainted."

It turned out that Yankee hadn't falled asleep, but had fainted.

He immediately moved. He held her wrist and began to check her pulse while injecting his positive energy into her body.

After a long while, she woke up and saw Fade standing in front of her. She rubbed her eyes in embarrassment and said, "Brother Chen, you're here? Sorry, I fell asleep."

"What time is it? I think it's not time to get off work yet. There are still a lot of things to do in the company. I have to take care of them." As she spoke, Yankee got up and was about to go to work.

Fade pressed her down and said with a serious face, "Sit down and have a good rest. Do you know that you fainted just now?"

"Ah, I fainted?" She had a look of shock on her face.

He said with a serious face, "Just now, I examined your pulse. You fainted because you are exhausted both physically and mentally, and your body has reached its limit."

14:38

There was also another reason he did not mention, which was, Yankee's body was extremely exhausted. Coupled with what happened that day with her parents and her younger brother, the impact on her heart made her unable to hold on any longer. That caused her to be exhausted both mentally and physically, and she fainted.

"No, it can't be. I'm feeling okay right now!" She smiled.

"What do you mean 'okay'? I am a doctor, and I know your physical condition better than you do. Now, go home immediately and have a good rest," he said seriously. "Let's go, I will take you back to rest."

"Brother Chen, I'm fine," Yankee asserted.

Fade was determined. He directly took her hand and was about to pull her away.

She said, "Brother Chen, I-I'll go with you. Wait for me for a while. There are still some urgent documents in the company that have to be dealt with, so let me handle them first. It will take half an hour at most. When they're done, I'll go back with you."

"You don't have to worry about your work. Go back with me now," he said forcefully.

"But..." She was still looking for an excuse.

As a result, he took a step forward, looked at Yankee and said, "If you still don't leave, I will carry you out. Do you want me to do this?"

After that, he stretched out his arms and was about to pick her up.

When she saw this, she was startled and her cheeks heated up. She could imagine what kind of impact it would have if Fade carried her out of the company.

14:38

She shook her head and said, "Brother Chen, don't mess around. I-I'll go back with you."

"That's more like it!" He smiled and said, "Let's go now."

Yankee could only leave the workplace with regret and left early with Fade.

He drove her back. In the car, she seemed to be in a bad mood.

He said, "Are you angry with me? Then I'll apologize to you now."

"No, it's not like that. Brother Chen, I'm not angry with you. I'm just..." As she spoke, she couldn't help but sigh.

Fade said in a low voice, "Is it about your parents? Don't worry. They won't really be sentenced for robbery. They will only be detained for a period of time so that they will wake up."

Yankee nodded and said, "I know. Thank you, Brother Chen. I've figured it out now. If they don't treat me as their family, I won't need to treat them as my family either. Later, I'll go through some formalities and officially sever my relationship with them."

"It's best if you can think it through," Fade said. Then, when he saw her sad face, he could not help but ask, "Why do you still look dull? Are you unhappy?"

She replied, "No, I'm worried about my work."

"As far as work is concerned, there are so many employees that can handle this. There is nothing to worry about," he said.

She shook her head and said, "Brother Chen, don't you know? The company has encountered a lot of trouble recently. Everyone is deeply troubled, and that's why they are so busy during this period of time."

"What trouble?" As the boss of the company, Fade basically laid aside the company and did not care about it at all. Only now,

14:38

from Yankee, did he know that the company was in trouble.

"Brother Chen, you are the boss of the company, and you don't even know the situation of your own company. I..." She looked at him with a speechless look and then said, "The company has violated several large overseas orders recently, so its reputation has been greatly affected. Besides, they plan to sue us."

"Violated the contract! How could this be?" He was a little surprised.

She explained, "Fei Enterprise Holdings Inc's main product is cosmetics. Other than the domestic market, the foreign market has also expanded very well, especially in our neighboring countries."

"Among them, the Bay City head office is mainly responsible for supplying the goods within the country. Our Capital City branch office, besides supplying Capital City and the northeast, the biggest clients are Jopeno and South Korland."

"The sales situation has always been good. Gradually, we've built a firm foothold in their markets, and we are growing stronger and stronger. However, in the past month, our goods kept suffering from problems during the transportation process, causing the quality and quantity of the goods to drop, resulting in a breach of contract in the overseas market. The impact is very serious!"

"How could this be?" Even if Fade was an idiot at business, he still knew how troublesome a contract violation in business was and the impact of it, especially the damage to their reputation.

Yankee continued, "The goods shipped from Capital City to foreign countries are by sea. It used to be alright, until several logistics accidents happened recently."

"In the beginning, the goods were flooded with water which affected the quality of our products. Later, a small boat overturned

14:38

and all our goods fell into the sea."

"These few things happened one after another. Because of that, we were unable to deliver the goods on time, leading to the breach of contract," she continued.

Hearing this, Fade immediately frowned and said, "It has been fine before, but something happened in succession within just a month. Is this a coincidence?"

She said, "We also suspect that there is something wrong. We asked for compensation from the transport company, but they keep shirking off the responsibilities by saying it's not their responsibility. Now, our company is still in talks with them, and it's very likely that we will have a lawsuit against them."

"But the lawsuit will definitely take a few months. Adding to the execution of the trial, a year may pass. Even if we win in the end, I'm afraid that there'll be no way to remedy the losses in the overseas market."

14:38

Chapter 1556

Fade couldn't help frowning and said, "Is someone playing tricks? Is it the shipping company or our competitor?"

"Both are possible. We're investigating it and trying to think of a solution. That's why the company is busier so I..." Yankee said.

Hearing her words, he thought of something. He waved his hand and said, "I was going to send you back home to rest. It's my fault for talking about work. Let's not talk about this. You should have a good rest and leave the rest of it to the company."

"But without me, there are a lot of things in the company..." She was still worried.

He held her down and said in a joking tone, "Yankee, you're not that important yet. My company will still run without you. Didn't my company run well before you joined?"

"Also, I'll contact Sister Lily about this issue. You don't have to worry about it," he reassured her.

Yankee knew that he deliberately said this out of the concern for her and she felt warm in her heart. She nodded and said, "Brother Chen, I'll listen to you. I'll have a good rest. But you must solve this problem."

"Don't worry, nothing can stump me," Fade said with a smile.

He then sent her back and called Lily, who was in Dragonville, to explain the situation here.

She said that she had already known about the situation of the branch office in Capital City. She had booked a ticket and would arrive the next morning to deal with the problem.

14:38

He said he would pick her up at the airport the following day.

The next day, Fade drove to the Capital City airport early in the morning.

At 10:30 in the morning, he picked Lily up at the airport.

She was dressed in a business suit and a long windbreaker. Walking with the wind, she looked very natural and professional. She gave one the impression of an elite professional woman. Coupled with her pretty face, she attracted the attention of many passersby as soon as she walked out of the arrival hall.

Some even mistook her for a celebrity and picked up their phones to take pictures of her.

When Fade saw her, he smiled and went up to her. "Sister Lily, you're finally here. Long time no see. I missed you so much."

As he spoke, he was going to give her a warm hug.

However, she took a step back shyly. She glanced at him and whispered, "Don't be reckless. I came with someone."

"Who's with you?" He was a little confused.

Lily turned her head, waved to the person behind her, and said, "Mr. Han, over here."

Fade looked over and found that she was calling a man in his 40s who was wearing a suit and tie, who. He looked fresh and cool.

The man had a smile on his handsome face. Coupled with his obviously expensive clothes, he immediately attracted the attention of quite a few people, especially the younger girls. Their eyes were shining, and they kept calling him "Uncle, Uncle" or things like that.

14:38

Seeing this, Fade could not help curling his lips and snorting, "Who is it? Why are you with him? He looks so fancy."

Lily rolled her eyes at him and said, "He is only wearing a suit. Why is it fancy? Are you jealous?"

He hummed a few times, patted his chest and said, "Are you kidding me? Who am I? My charm is incomparable to that of an old man. Why should I be jealous, humph!"

Looking at him, Lily was sure that he was a little jealous, and she couldn't help but smile. She then explained to him solemnly, "His name is Elvin Han, and he is the deputy general manager of Central Cloud Shipping. I came with him because of the company's business."

Hearing this, Fade smiled and nodded. "No wonder. Just as I said, how could a great beauty like you fall in love with that kind of old man?"

She rolled her eyes at her, then turned around and met Elvin who was walking over with a smile. She gently shook hands with him and said, "Mr. Han, let me introduce. This is Fade Chen, the president of Fei Enterprise Holdings Inc."

"President Fade, this is the deputy general manager of Central Cloud Shipping, Elvin Han," she introduced him to Fade.

Elvin sized up Fade, who was wearing a casual suit, and was slightly shocked. Then, he reached out his hand and said with a smile, "I have heard of your name, President Chen, for a long time. You are very famous!"

Fade also complimented with a smile, "Mr. Han, I have also heard your name. Nice to meet you."

They chatted for a while, then they left the airport together and went to the Capital City branch office of Fei Enterprise Holdings Inc.

14:38

In the car, Fade drove and Lily was about to sit in the front seat, but when Elvin said that he wanted to discuss work with her, she had to sit in the back with him.

Along the way, they took out all kinds of documents and kept chatting. Not knowing whether it was intentional or not, he leaned slightly towards her from time to time, almost sticking to her.

As for Lily, she flipped through the files and used the folder to block his tricks.

Fade saw this scene in the rearview mirror. His eyes turned cold, and he considered Elvin a bad person.

If it wasn't for the fact that he was worried about work, he would have dropped Elvin off by the road right away.

After arriving at the company, Lily called the employees of the branch and learned about the current situation in detail. Elvin talked with her for a while, and then went out in the afternoon, saying that he had something to do.

With a smile on Lily's face, she sent him out in person.

Upon seeing this, Fade's face darkened again. When Lily turned around and saw his reaction, she couldn't help but laugh. "Jealous again?"

"Nope, I just think that this guy is not a good guy. He deliberately approached you and came all the way here. He must be an old pervert," Fade said with some anger.

"You have thought too much," Lily said, "By the way, get ready tonight. We'll go out and meet a few bosses to discuss work."

"Business dinner? I'm not good at this kind of thing at all." He suddenly felt very troubled.

Lily glared at him. "Remember, you're the president of our company. How can we show our sincerity if you don't show up?"

14:38

Besides, it's really a bit troublesome this time. Without Elvin contacting those bosses, we can't even meet them!"

"Oh, okay!" Although Fade didn't like such a business dinner, Lily came to Capital City for it and she had done so many things. He would be ungrateful if he failed right there.

Therefore, he nodded and agreed at the end.

In the afternoon, Lily took him to a store. She styled his hair and changed his outfit into a proper business suit. Then, they drove to the five-star hotel.

They booked the highest-level king room in the hotel. Fade and Lily came relatively early. Elvin and the bosses had not arrived yet.

14:38

Chapter 1557

Lily also reminded Fade in advance, "The problem this time is mainly caused by the transportation. Reputation, compensation, and liquidated damages have to be solved, but the most urgent thing at the moment is the transportation means."

"No matter how the shipping of the previous goods went, the most important thing for us now is to ship the goods overseas so that the merchants and customers can get them. That's the most important thing to solve."

He nodded to show his understanding.

She continued, "Sea Eagle Shipping in Capital City used to ship our goods. Because of this incident, we're discussing with them and pressing a lawsuit, so we can't continue with them."

"As for other shipping companies in Capital City, the branch company here has contacted some, but they have their considerations and decided not to ship for us."

"This time, it was Elvin who made an appointment with the bosses of these companies through his connections, so we have the opportunity to come out and have a talk," Lily said. "When they come, you'd better take it easy and speak politely. After all, we need someone to help us."

Fade nodded and replied, "I know."

Then, there was the sound of footsteps at the door. Elvin knocked on the door and came in. Behind him were three middle-aged

14:39

men in their 40s or 50s. All of them were dressed in suits and they all had beer bellies. They walked with their heads slightly raised, looking arrogant.

Seeing them enter, Lily quickly got up and went to greet them, "Hello, Mr. Han, these bosses are..."

Elvin led the three bosses to their seats and sat down. Then, he introduced them one by one, "Manager Wei, This is Directory Huang from Sea Eagle Shipping, this is Director Xu from Sea Gull Shipping, this is Principal Liu, who runs Seal Shipping."

"Hello, Director Huang, Director Xu, and Director Liu. I've heard a lot about you!" Lily greeted them with a smile and complimented them a little.

Elvin immediately introduced her, "Bosses, this is the general manager of Fei Enterprises Holdings Inc, Lily Wei, Manager Wei."

After introducing her, Elvin glanced at Fade without any intention of introducing him.

Lily wanted to introduce Fade herself, but he pulled her and stopped her with his eyes. After all, in such a business meeting, his young age was sometimes a disadvantage.

Lily nodded slightly and did not introduce him.

However, the eyes of the three bosses fell on her, and they couldn't take their eyes off her for a moment.

After all, they knew that Fei Enterprise Holdings Inc had developed so well in just one or two years. As the general manager of the group, Lily was so beautiful and young, so naturally they would be interested in her.

Hence, the three bosses greeted her with smiles.

"I have also heard a lot about you, Manager Wei!" Director Huang said.

14:39

"I didn't expect you to be so young, Manager Wei. I'm really ashamed of myself as an old man!" Director Xu said with a smile.

"Mr. Xu, Manager Wei is not only young, but also beautiful. You are not inferior to those stars at all. Today, we are lucky to meet you," Principal Liu joked.

Then, the three bosses laughed together and sized Lily up, unable to conceal their lust.

She didn't like their looks, so she pulled her collar up and wrapped herself tightly in her coat. She bit her lip gently and held back her anger. She squeezed out a smile, took a look at Elvin and said, "Manager Han, regarding the sea shipping business of Fei Enterprise Holdings Inc, I..."

Without waiting for her to finish, Elvin waved his hand, interrupted her, and said, "Manager Wei, the three bosses came over with empty stomachs. Let's order first."

"Oh, yes, let's order. It's all my fault that I didn't make the arrangements," she said.

Then, she called a waiter over and ordered a table full of dishes. She didn't care about the prices. After all, all of the guests here were worth hundreds of millions of yuan, or even billions.

After ordering the dishes, Elvin waved his big hand and asked the waiter to serve a box of Maotai Wine.

Seeing that Lily's gaze was a little strange, Elvin explained to her in a low voice, "Manager Wei, Director Huang and the other two have always liked to drink wine and they like Maotai Wine very much. If they're happy, the business will be much easier."

She nodded to show her understanding.

After the dishes and wine were served, the atmosphere gradually became more lively. Lily took the initiative to toast to them, and

14:39 

then picked up the food to eat.

Although she wasn't unfamiliar with this kind of wine dinner, when Quin was in charge of the company, she didn't like this kind of dinner style very much. Therefore, Lily didn't take part in too many wine dinners, and her drinking capacity was only average.

Now, she had to compete with these big and experienced bosses. She felt a little frightened and ate in advance to cushion her stomach.

After taking the initiative to toast, it was their turn to toast. The three bosses took turns and said a few polite words. Lily felt that her stomach was fiery hot and began to feel a little uncomfortable.

After eating a few bites, she felt that it was about time to bring up the matter of the business, so she said, "Director Huang, Director Xu, and Principal Liu, Fei Enterprise Holdings Inc has met with some problems with cargo recently. We want to..."

Without waiting for her to finish, Principal Liu picked up his glass and interrupted her, "Manager Wei, you're a heroine in the business circle. Come, I'd like to toast to you."

She had no choice but to raise her head and empty her glass.

"Manager Wei, you're good at drinking. I'm so impressed!" Director Huang also stood up, picked up a glass of wine and said, "Manager Wei, let me toast to you as well."

"Director Huang, I-I can't drink anymore." Lily felt she was going to vomit and couldn't drink any more. She explained with a forced smile.

Suddenly, Director Huang's face fell, and he said coldly, "Can't drink anymore? Why? You just drank well with Director Liu, but now you can't drink with me anymore? It seems that I'm not as good as Director Liu!"

14:39

"Director Huang, that's not what I mean. I just..." She wanted to explain.

However, before she could finish, Elvin poured a glassful of wine for Lily and persuaded, "Manager Wei, this is Director Huang. You have to give him face. Just drink this!"

Lily looked like she was in a difficult situation, but she still picked up her glass and drained it in one gulp.

"Well, Manager Wei, I felt your appreciation." Principal Liu smiled and sat down.

Then, Director Xu stood up and picked up his glass. "Manager Wei, you drank with both of them. You can't miss out on me, can you?"

Although she felt a little uncomfortable, she thought that she had already drunk so much so what was one more glass. Hence, she picked up a glass of wine and toasted, "Director Xu, you are a giant in the sea shipping industry. Fei Enterprise Holdings Inc will definitely need your help in the future. Let me toast to you."

After that, she took the initiative to empty the glass.

14:39 

Chapter 1558

Seeing this, Director Xu smiled and said, "Manager Wei, you are indeed a heroine. I've seen it today."

As she drank with the three of them, Lily's body swayed and she almost fell to the ground.

However, she stabilized herself and said, "Director Xu, Director Huang, and Principal Liu, I asked Manager Han to invite the three of you here because I want to talk about shipping our supplies in the fall. Recently..."

She once again took the initiative to bring up business, but this time, before she could finish, Director Huang on the opposite side picked up his glass again and said, "Manager Wei, I know about the sea transportation issues. It's no big deal. Come on, let's drink first and then we'll talk business."

"Director Huang, I-I can't drink anymore..." She really felt nauseous.

He immediately said in a deep voice, "Manager Wei, you are a heroine in business. Yet you can't even drink this little wine? You're not respecting me!"

Director Xu also said, "Manager Wei, you have to drink three glasses. Just now was the first glass. Do you want to break the rules at the beginning of the second round?"

Principal Liu immediately said, "Manager Wei, if you don't drink this wine, we don't have interest in the business!"

Lily's face turned pale. She didn't expect things to turn out like this. She couldn't help looking at Elvin who was beside her, as if

14:39

asking for help, wanting him to say something for her.

However, not only did he not help her, he persuaded her instead. He whispered, "Manager Wei, as the saying goes, the dinner table is a business place. If you don't drink with them to make them happy, I'm afraid that we can't continue on the shipping matter!"

"But..." Lily said with a look of difficulty on her face.

Elvin said, "Manager Wei, it's just a little wine. It's no big deal. You can vomit after this."

While speaking, he once again filled her glass and brought it in front of her.

The three bosses also looked at her with a smile and an encouraging look.

In a daze, she picked up her glass and was about to drink up.

However, a large hand reached out and snatched the glass from Lily's hand. "Sister Lily, you can't drink anymore," he said in a low voice.

"Fade, you..." Seeing that it was Fade who stopped her, she wanted to speak.

However, when the three bosses on the opposite side saw this, their eyes became cold.

"What are you doing? Get lost!"

"Who do you think you are? Manager Wei is here to toast this wine to us. Do you think you can touch it?"

"Manager Wei, who did you bring with you? He doesn't know the rules at all."

14:39

.....

Earlier, Elvin didn't introduce Fade. They thought he was Lily's secretary and directly shouted at this moment.

Because of their shouting, she looked a little anxious and wanted to explain some things.

However, at this time, Fade took Lily's hand and shook his head. He then looked at the three bosses and said coldly, "My name is Fade Chen, the president of Fei Enterprises Holdings Inc. Now, do you know who I am?"

When the three of them heard this, they couldn't help but be stunned.

Elvin's face fell slightly, but he still said, "Bosses, Mr. Chen is indeed the president of Fei Enterprises Holdings Inc. I heard that he inherited the position from his missing wife. Mr. Chen himself is still teaching in the school, and he does not care much about business."

Hearing Elvin's words, the three bosses immediately understood. This so-called president only had the title, but had no real power. He was just a powerless president.

Suddenly, the three people's expressions became disdainful.

"This Mr. Chen, President Chen, do you know what we are going to talk about?"

"It seems that your company is asking us for help with sea shipping. You must understand your position right now."

"You don't even have enough experience. You don't know anything, so don't behave atrociously in front of us. You're just a joke."

.....

Elvin immediately looked at Lily and said, "Manager Wei, the three bosses are not happy. It's better to let President Chen back off

14:39

and let the professionals deal with them."

"This..." She felt a little dazed. She looked at Fade and said, "Fade, I-I'll..."

He shook his head, pulled Lily, and said, "Sister Lily, don't be fooled by them. They don't plan to discuss business with us."

"How could it be? I..." She was a little surprised.

He placed his palm on Lily's back. He circulated positive energy and injected it into her body, waking her up.

Upon hearing this, the faces of the three bosses opposite him changed slightly, and they shouted coldly.

"You brat, do you know what nonsense you're talking about?"

"Since you don't want to talk about business, we won't talk about it. We are not the one in trouble anyway."

"Since you're so insincere, then forget about it. Let's go!"

.....

As they spoke, they got up angrily and got ready to leave.

Elvin looked anxiously at Fade and Lily and said, "It was not easy for me to make an appointment with them. Do you know what you are doing? You..."

At this moment, Lily came to her senses. Looking at the situation in front of her, she felt a little anxious. "I'm not..."

However, at this moment, Fade looked at Elvin and said coldly, "You are one of them. Do you think that I don't know?"

"What are you talking about? I'm helping you out of good intentions..." He shouted angrily.

14:39

However, Fade ignored him and directly pushed him away. Then, he looked at the three bosses who walked to the door of the private room and said coldly, "You three, stop right there."

They stopped and turned to look at Fade with gloomy eyes. "What are you trying to do? Stop us from leaving?"

Fade stepped forward, stared at them, then said in a cold voice, "If you don't explain clearly what happened today, don't leave."

"What do you mean?"

"Are you trying to detain us? Do you know what you're doing?"

"Manager Wei, is this how your company negotiates?"

.....

They shouted angrily. Elvin, who was by the side, also looked anxious and said to Lily, "Manager Wei, if you don't stop him from messing around, our cooperation will be completely ruined. You know very well how much loss it will bring if that happens. At that time..."

He kept twittering behind him, and Fade did not turn around at all. He waved his hand directly and sent out a stream of energy.

"Shut up!"

The energy crackled and slapped Elvin's face, which directly made his cheek red and swollen.

He was stunned. He covered his cheek and dared not speak.

At this time, the three bosses looked at Fade who was approaching them. They also became nervous.

14:39

"I'm warning you, don't do anything stupid!"

"My bodyguard is right outside. If you want to mess around, you'll bring trouble to yourself."

"If you dare to attack us, we'll call the police immediately, and then..."

.....

14:39 

Chapter 1559

Without waiting for them to finish their words, Fade kicked three times, and knocked the three of them to the ground.

He said in a condescending cold voice, "Tell me, what's your objective today? Who ordered you?"

"Someone hit me..."

"Bodyguard, bodyguard!"

"Call the police. I want to call the police."

.....

Looking at three of them who shouted, Fade stepped on their arms and exerted his strength. The huge force made them feel a bone-piercing pain, as if their bones were about to break.

"Ah!" They screamed in pain.

At this time, Elvin, who was by the side, secretly climbed up and took out his mobile phone, wanting to call the police.

However, Fade casually waved his hand and caught him. He held Elvin in his hand and said in a cold voice, "If they don't want to talk, how about you talk?"

"I-I don't understand what you're talking about." Elvin defended himself and shouted to Lily, "Manager Wei, I'm here to help you. Is

14:39

this how you treat me? I..."

"This..." At this moment, she felt a little lost.

"Help?" Fade snorted. He took out a pack of things from Elvin's pocket and threw it on the ground. He asked coldly, "Do you want to use these things to help?"

Lily looked down and saw that the things scattered on the ground were some aphrodisiacs, drugs, and some s*x toys.

In an instant, she understood their intention and her face became angry.

Elvin, on the other hand, stuttered, "Th-This is just my personal hobby. I..."

"Hobby!" Fade snorted and picked up the drugs from the ground. He said to Elvin, "Since you like it so much, I will pour these into your mouth, and then throw you into a pig pen so that you can have fun."

As he said that, he pinched Elvin's chin and poured the drugs into his mouth.

Elvin coughed violently and his face turned red. "No, no, I'll tell you, I'll tell you everything..."

"Talk!" Fade threw him to the ground and shouted in a stern voice.

Elvin coughed violently a few times and immediately explained, "In fact, they contacted me for this and wanted my help acting with them."

He pointed to the three bosses on the ground and continued, "Half a month ago, they contacted me, telling me that if Fei Enterprise Holdings Inc asks for help from our Central Cloud Shipping, they wanted me to promise that I'd invite someone to Capital City to negotiate with them."

14:39

Upon hearing this, Lily's face sank.

"Why did they do that?" Fade asked.

Elvin shook his head and said, "I-I don't know. Central Cloud Shipping has not been doing very well in recent days, and we need help from their company, so I had to agree to their request."

"Were these things also requested by them?" Fade crushed the toys on the ground with his leg and asked coldly.

His face turned pale. He glanced at Lily, then bowed his head and said, "Th-This... After we met Manager Wei, we thought she was beautiful, so we wanted to get her drunk, and then..."

There was no need to talk about the rest of it. She immediately understood what was going on. Her expression became angry. "Shameless!"

Fade looked gloomy. He looked at the three people on the ground. He stepped on their arms and said coldly, "Tell me, why did you do this? What is your goal?"

Director Huang rolled his eyes and said, "You're hurting people on purpose. Do you know that you're going to jail..."

Without waiting for him to finish, Fade exerted some strength into his leg. Suddenly, there was a click, and Director Huang's arm broke. He let out a shrill scream. He was in so much pain that his face turned pale and he kept rolling on the ground.

Then, Fade turned his eyes to Director Liu and raised his right foot. "Are you going to talk?"

He was so scared that he was trembling. He quickly shook his head and said, "I'll talk, I'll talk!"

"Then talk!" Fade shouted.

14:39

"W-We were also ordered by someone else!" Principal Liu said.

Upon hearing this, Fade and Lily couldn't help but narrow their eyes and showed a bit of surprise. They had thought that these three were the masterminds. They never thought that there was someone behind them.

"Who was it?" Fade asked sharply.

Principal Liu was a little hesitant, but when he saw Fade's cold eyes, he did not dare to hide anything and said, "It's Young Master Ding. He asked us to do this."

"Young Master Ding? Which one?" Fade couldn't recall for a while.

Director Liu said, "Evan Ding, Young Master Ding of Ding Shipping Company."

Director Xu added, "Evan Ding, the son of Hensley Ding."

"It's him!" Lily apparently had heard the name before. "Why would he ask you to..."

Before the three people explained, Fade's face darkened. He thought of something and said coldly, "It seems that he has not learned his lesson. He wants revenge on me!"

"Fade, what's going on?" She asked with a puzzled look.

Then, Fade quickly told her about his feud with Evan.

The first time he had had a conflict with Evan was when he, Gentro, and Joey went to the concert together. They had a conflict because of Yuri. At that time, Gentro was there, so Evan had suffered a loss and retreated.

Since then, Evan bore a grudge and attacked Yankee once. As a result, he was beaten up by Fade, and Fade even taught a lesson

14:39 

to Lester, his bodyguard who was hired for a lot of money.

For the second time, Fade broke Evan's leg and he went back home to recuperate. There was no sign of him for the past few months. Unexpectedly, he just recovered from his injury and he couldn't help but want to make trouble for Fade.

Upon hearing this, Lily's face darkened. She then looked at the three bosses and said, "During this period of time, the cargo of Fei Enterprise Holdings Inc had some problems. Was it because of Evan?"

Director Liu nodded and said, "That's actually Young Master Ding's arrangement."

"After the two previous conflicts, Evan had a grudge against Mr. Chen and he wanted to retaliate. However, he knew that Mr. Chen was excellent in martial arts, and he couldn't deal with you in a short time. Thus, he turned to focus on your business and began to attack Fei Enterprises Holdings Inc."

"Because Ding Shipping Company is the largest sea shipping company in the northeast and even the whole north region of our country, 70% of the sea shipping goods are shipped by them. This is also the case for the goods of the branch company of Fei Enterprise Holdings Inc."

"Therefore, they secretly created several problems with the cargo of Fei Enterprises Holdings Inc. At the same time, they dragged the lawsuit and collaborated with other sea shipping companies, telling them not to cooperate with you."

Lily remembered that she had contacted other sea shipping companies, but they all refused to cooperate without hesitation. However, when she thought of these three bosses, she asked, "Then how about you?"

Principal Liu said, "W-We are also companies under Ding Shipping Company. Our cooperation with you was arranged by the Ding family on purpose."

14:39

Chapter 1560

"They did it on purpose!" Upon hearing this, Lily could not help but be shocked. She then asked solemnly, "What does the Ding family want?"

Principal Liu paused for a moment and then said, "They want us to do this. First, they want to give your company a bit of hope for the fall. They want us to deliberately drag out time so that you won't find other companies to cooperate with."

Upon hearing this, Lily's face darkened and she became a little afraid.

Indeed, if she was held back by them in this negotiation, they could stall her for ten days to half a month. Then, they could go back on their word at the last moment, and Fei Enterprise Holdings Inc would probably suffer another huge loss and blow in the fall.

"And then?" Fade asked.

Principal Liu took a look at Lily and continued, "Besides, there is another thing. Evan wants us to get Manager Wei's naked photo to threaten her. Using this as a breakthrough, in addition to the sea shipping matter, he would be able to destroy Fei Enterprise Holdings Inc bit by bit."

Upon hearing this, Lily was even more shocked. She never thought that Evan would have such a dirty and vicious thought.

Fade's face turned dark. It seemed that the Ding family was being ruthless this time. They not only wanted to take revenge on

14:39

him, but also wanted to kill off his company.

"It seems that the Ding family still have not learnt from their lesson!" His expression became a little cold.

After that, they asked the three some more questions. However, the three of them did not know any more. After all, they were the bosses in name, but actually, they were just puppets controlled by the Ding family.

In the north region, the sea shipping business was under the Ding family's control.

Fade threw the three of them out after breaking their arms and legs. As for Elvin, Fade was even more relentless. He not only broke his legs and feet, but also destroyed the thing between his legs, before throwing him out.

Then, Fade and Lily returned to the company.

He was burning with anger. He wanted to rush straight to the Ding family and destroy them by force.

However, she stopped him and said, "Fade, you can't be so impulsive! I know that your martial arts strength is strong enough to destroy the Ding family, but you have to consider the consequences."

"What consequences?" He was really a little angry.

She explained patiently, "The Ding family is very powerful in the Northeast and even the whole north region. If you attack them, you're bound to make a loud noise. Until then, do you think the Stealth Team or the higher-level officials will sit by and do nothing?"

He was silent for a while. He was not afraid of the Stealth. They would turn a blind eye to his certain methods. However, it would be difficult to cover up if he directly destroyed a big family like the Ding family. The higher-ups might put pressure on him over

this matter.

Seeing him lost in thought, Lily continued, "Apart from that, there's another point. Even if you destroy the Ding family, and you can answer to the higher-ups, it still won't solve the biggest problem we're facing now."

"This..." He was confused.

She said, "I came to Capital City to solve the problem of not being able to transport our branch's goods abroad, because almost all the sea shipping companies here are under the Ding family's control. They won't cooperate with us, so we can't deliver goods. This will lead to a breach of contract and affect the overseas business."

"Even if we win and even take over the shipping company from the Ding family, all kinds of procedures and restructuring, personnel arrangements, and relationships need time to be re-established. When we get everything done, I'm afraid that the overseas business will be ruined."

"Then what should we do?" Fade really didn't know much about business.

She went silent for a while and then said, "For now, I've thought of two ways."

"What are the ways?" He immediately asked.

She answered, "The first one is to cooperate with other sea shipping companies in Capital City."

"But, the Ding Family..." He was puzzled.

She said, "I know the Ding family has a large market share in Capital City, but Principal Liu and the others just said that their market control is not 100%. That means there must be some sea shipping companies that are not under the control of the Ding

family. Even if it is small in scale, even if it has limited abilities, it can still solve our urgent needs. We need to get our goods sent abroad no matter what."

Fade nodded to show that her words made sense. He then continued to ask, "What about the second method?"

She looked at him and said, "The second way is Jade City."

"Jade City? What about Jade City?" He was a little confused.

She rolled her eyes at him and said, "The Li family in Jade City! The Li family in Jade City is involved in all kinds of businesses. In terms of shipping, the Li family also has a large scale company. You are the Li family's biggest shareholder. Everything will be solved by letting their sea shipping company ship our goods."

"You are right. Why didn't I think of this? Then why are you still hesitating? Call the Li family directly and ask them to send ships over!" Fade was so excited that he was about to get his phone.

She patted him on the hand and stopped him. "Calm down and let me finish speaking."

"Sister Lily, go on!" He said with a smile.

She replied, "The sea shipping company of the Li family is in Jade City, and they are responsible for shipping across the South Sea, basically heading south. Have you ever thought of how far they are from Capital City?"

"Ah, this..." He scratched his head.

"Besides, the Li family's shipping company has its own business. There aren't many available ships at the moment. Don't tell me that you want them to breach their contracts and come here to help? That's not worth it. In addition, the costs and expenses to

hire the Li family's sea shipping company will be much higher. If we split the costs of the goods, it'll affect the sales of our goods," Lily said.

"Then what should we do?" He did not expect to think of so many questions, and he was a little dumbfounded.

Lily thought for a moment and said, "I haven't come out with a perfect solution yet. For now, we can only contact the small sea shipping company near Capital City to see if we can work together. On the other hand, we should also contact the Li family in Jade City in advance to make some preparations in case of an emergency."

"Of course, on the other hand, we have to give the Ding family a shot to see if we can resolve the matter with them," she said.

"Resolve? That's impossible!" Fade said with a frown.

She replied, "When it comes to business, the priority is profit. Usually, with enough profit, nothing is impossible. We should give it a try."

"Well, I'll go with you tomorrow." What happened that day made him worried about her safety, so he volunteered himself to accompany her.

Lily, of course, knew about this, so she nodded in agreement.

In the evening, she found a good hotel near the company to stay. Fade was worried about her safety, so he sent his man, Black Lord, over to secretly protect her.

Then, he returned to the university on his own.
