Chapter 1621

However, he had nothing to say because the Zhou family was a first-rate hidden family, the same level as the Lin family. They were much stronger than the Hsing family, which was a third-rate hidden family.

Hearing this, Zeger glanced at the members of the Hsing family and immediately said to Fade, "Mr. Chen, you must be joking. In the arena, casualties are unavoidable. As a hidden family, the Lin family has long understood this rule. We know how to deal with them."

"Of course, even if that was not the case, the Zhou family is not afraid of anyone in the hidden family. As long as you are willing to be our guest, I can guarantee that no one can hurt you, Mr. Chen."

Zeger's words were forceful and firm, expressing his sincerity. Of course, from another perspective, he had once again mercilessly slapped the Hsing family right in the face.

Hearing this, Fade smiled slightly and immediately said, "Thank you for your kindness, Mr. Zhou. However, I have promised to be a guest of the Zhu family. I should keep my word. Thus, I must apologize."

Zeger seemed to have expected this. He smiled and said, "Mr. Chen, you are dignified and admirable. It's a great pity that we can't work together this time. Of course, the door of the Zhou family home will always be open to you."

"Thank you for your kindness, Zhou family!" Fade cupped one hand with the other before his chest and thanked him.

18:33

"I'll take my leave now." Zeger clasped his hands in farewell.

Immediately after, Fade's gaze swept across the members of the Hsing family. He also turned around and left.

In an instant, the only ones left there were the dumbfounded members of the Hsing family. There were also people around them who were whispering and pointing at them, covering their mouths.

After a while, the Hsing family came to their senses and turned around to leave with terrible expressions on their faces.

After returning to the Zhu family, Keeran was very happy. He set up a table at home and invited Fade to dinner.

At the table, Keeran was very excited. He poured glass after glass of wine into his mouth. Finally, he swayed about, as he was a little drunk.

Seeing this, Fade could not help but stop him, who wanted to continue drinking and said, "Keeran, don't drink anymore. Tomorrow is the big day for the election of the new president. You have to be prepared."

Keeran waved his hand and said with a self-deprecating smile, "Mr. Chen, you must be kidding. The president's election is for the several big families. Small families like mine will not succeed. We are just going to join in on the fun. Hence, it doesn't matter whether I am drunk or not."

Harmon could not help but nod his head at this moment. He agreed. After all, the chairman's election could be said to be monopolized by a couple of first-rate families behind hidden doors. It did not have much relation to these lower-level hidden families.

Even if there was an accident, the chairman's lowest standard would be a second-rate hidden family. Even the Hsing family was not qualified to be a member of the council.

18:33

Since that was the case, Fade did not continue to persuade Keeran. He let him drink to his heart's content. In the end, he got really drunk.

.....

The next day, the hidden family became lively again. Everyone gathered at the arena square.

Compared to the liveliness from the day before, the central square was decorated even more majestically, displaying a vast and grand atmosphere everywhere.

At ten o'clock in the morning, the grand event officially began. First, the host made a simple introduction. Then, as everyone watched, an elder stepped onto the stage and started to talk loudly.

Listening to the old man's words and Romeo's introduction, Fade had a general understanding of the situation.

The elder's name was Napoleon Wang, and he was the reigning chairman of the Elders Council of the hidden family. This time, he was going to step down and once again, the next chairman would be selected.

Master Wang's speech was brief, and it was soon over. The general content of his speech was simple, such as what had he done before, and how now it was time for him to step down. He hoped that a fair competition would be held, and the hidden family would continue to move forward under the leadership of the next chairman.

After a round of applause, they saw Master Wang off the stage. Then, everyone's eyes lit up, and the atmosphere gradually became enthusiastic. That was because everyone knew that the real highlight was coming.

Then, the host came to the stage and introduced the rules and regulations of the election in detail. Finally, he announced that the election of the new chairman had officially started.

18:33

In actuality, the rules of the election were simple. Everyone from the noble families of the hidden family had the right to sign up as a candidate. The restrictions were even more relaxed than the duels of the younger generation the day before.

Of course, it was fine to sign up, but whether or not they could be selected was another matter. After all, everyone knew that it was valuable to become the head of the Elders Council with huge backing and power.

Therefore, the people from the small families didn't sign up. They all knew that this wasn't for them. It could even be said that this stage was for first-rate and a few second-rate hidden families.

As expected, the ones who stepped onto the stage were from the first rate hidden families, as well as the Chiang family, a powerful second rate hidden family. Needless to say, they had the family background, and everyone was well aware of it. The next matches would naturally depend on their own martial arts abilities. To a certain degree, this election was also a continuation of the previous day's arena battle.

However, after the participants all came out, the host checked the list and looked at the crowd. Finally, he confirmed, "Is there anyone else who wants to sign up? This is your last chance. Last chance. Any candidate who wants to sign up, please come forward!"

Off the stage, no one moved. After all, those who were keen had already gone on stage, and the rest of the people who had not gone up knew that they had no chance, so they did not bother to make a fool of themselves.

However, there was a special case that day.

That was Fade, who had won the championship in the battle arena the day before, and the Zhu family whom he represented.

If it was the past, the people and families who won the championship in the ring the day before would definitely participate in the

18:33 

election the next day.

Fade's strength the day before was extraordinary. After defeating Eliff, who was in the early stage of the Heaven Level, it could be seen that his strength was probably at least at the early stage of the Heaven Level. With such strength, he was not much weaker than some of the seniors on the field.

Therefore, the Zhu family and Fade did not respond at all, which immediately aroused the discussion of the crowd.

Of course, Keeran did not have the ability to participate in the selection, and Fade was not interested. After all, this was not his objective for coming to the hidden family.

Therefore, although the host and a lot of the audience's eyes were on them, Fade still had no intention of stepping onto the stage.

The host was about to announce the end of the registration with regret on his face.

Among the members of the Chiang family who had already signed up, Hambrick sneered and said without hiding his sarcasm, "Wasn't someone very arrogant yesterday? Why did he become a coward today?"

Of course, Fade knew that Hambrick was talking about him. He couldn't help but look at him with a dark gaze. 30

18:33 

Chapter 1622

Hambrick was rude and said coldly, "What are you looking at? If you're not convinced, come up and try. I'll let you know what real martial arts is."

The previous day, Fade had seriously injured Finley, Hambrick's son, which made Hambrick hate him. That was why he was sneering at Fade rudely.

Hearing this, Fade's face darkened. He looked at the proud and arrogant Chiang family members and couldn't help but frown.

Suddenly, he thought of something and stood up.

Seeing this, the host paused and did not announce the end of the registration but looked directly at Fade.

He went onto the stage to sign up. He said, "I have a question."

"Mr. Chen, please ask," the host said with a smile.

Fade said, "The position of chairman of this election committee is related to the development of the entire hidden family. It is a position of utmost importance."

"Of course!" The host nodded with a smile.

Fade continued, "Since that's the case, I want to know if a person has the right to participate in the election if the said person is vicious, uses his power to bully others, and slaughters the innocent?"

18:33 

"Ah, of course not..." The host almost instinctively opened her mouth, but then she thought of something. Instead of continuing, she turned her attention to the current chairman, Napoleon, who was sitting on the platform with his eyes closed. "Master Wang, you are still the reigning chairman. Therefore, may I request that you answer Mr. Chen's question?"

Hearing this, Master Wang opened his eyes slightly and said, "Villains can't participate in the Elders Council of the hidden family."

"In that case, Master Wang, I would like to tell you something," Fade said.

"Well... Tell me!" Master Wang paused for a moment and then said to him.

Fade nodded and began to explain, "Master Wang, some time ago, Faxon, a member of the Chiang family in Capital City..."

Fade continued to talk about how he defeated Faxon, and the Chiang family held a grudge against him. In the Dragon Mausoleum, they sent people to kill him and Moore, and in Capital City, they maliciously took revenge on the Luo family and sent killers to assassinate Joey. Fade told him all these things.

In the end, Fade said loudly, "Master Wang, my point is that the Chiang family's participation should be cancelled, and they should be strictly punished according to the regulations!"

As soon as he finished speaking, the audience burst into an uproar.

The crowd didn't expect him to suddenly reveal the Chiang family's crimes. For a moment, they discussed amongst themselves, and everyone started to point fingers at them.

On the Chiang family's side, everyone's expressions changed and they immediately shouted angrily.

18:33

"Kid, what nonsense are you spouting? You're slandering the Chiang family! You must take responsibility for what you've said."

"Master Wang, what he said just now was pure nonsense. You must not believe him."

"The Chiang family has always been decent. We won't do such evil things."

.....

Hearing this, Fade sneered, and then directly presented a bunch of evidence he had collected, including the video recording of the killers and the video of the Chiang family. "Nonsense? Chiang family, how do you explain these?"

As soon as the evidence was presented, the whole venue suddenly became more enthusiastic and the discussion became louder. The expressions of the Chiang family members became more and more ugly. If looks could kill, Fade would be dead.

At this time, he looked at Master Wang and said, "Master Wang, the evidence is conclusive. How should we deal with this matter?"

At this time, Master Wang was in a dilemma. He looked at the Chiang family and then at Fade. After thinking it through, he said, "As for the authenticity of this information, we will await confirmation. The elders will carry out strict verification and inspection. Then, we will give you the truth."

"However, the election for the new president is a big event. Let's get down to business first!" After that, he waved his hand and motioned for the host to announce the start of the election.

It was obvious that Master Wang's attitude was so because he didn't want to offend the Chiang family. After all, he was about to retire. There was no need to make an enemy for his family at this last moment.

18:33 

What was more, the hidden family's dealings with the secular world wasn't a big deal to them. Almost every hidden noble family with branch families in the secular world had done such a thing. It was just a matter of bullying a few mortals. To these powerful practitioners, it wasn't anything worth looking deeply into.

Master Wang's attitude immediately made everyone in the Chiang family arrogant. Each and every one of them looked smugly at Fade, as if he couldn't do anything to them.

"Mr. Chen, you're slandering the Chiang family. We'll keep it in mind."

"Don't think you're something just because you won the championship yesterday. In our eyes, you're nothing."

"Didn't someone say that he didn't take the Chiang family seriously yesterday? But now... Haha!"

.....

There was gloating laughter and arrogant expressions all around.

Fade saw it all, which made his face sink even more.

Just as the host was about to announce the end of the registration, Fade suddenly took a step forward and said loudly, "I'm going to participate in the election."

"Uh..." The host was stunned, and then quickly confirmed it. She quickly ran through the formalities for Fade and confirmed his participation. "Mr. Chen, please step onto the stage."

Fade walked up to the platform and when his gaze swept across the Chiang family members. He said in a clear and unceremonious voice, "Since the rules of the Council of Elders don't work on you, then I'll personally take care of it and punish

18:33 

you properly."

Upon hearing this, the people of the Chiang family couldn't help but fly into a rage and shout.

"What an arrogant fellow. How dare he!"

"Personally take care of it. Why don't you give it a try!"

.....

Jariah, the Old Master of the Chiang family, took a step forward and looked at Fade. His eyes darkened and he said coldly, "It's a good thing for young people to have spirit, but if they don't know how to restrain themselves, then they're looking for death."

"It won't be long before we find out who is courting death," Fade snorted.

Seeing this, Hambrick was really angry. He glanced at the Old Master and said, "Dad, that kid is too arrogant. I have to teach him a lesson."

Jariah was also burning with anger. Hearing this, he nodded and then told Hambrick, "Be careful."

"Dad, don't worry. He's just a small kid. No matter how powerful he is, what can he do?" Hambrick snorted coldly. He then stood up, pointed at Fade, and said in a clear voice, "I want to challenge you. Are you daring enough to accept it?"

The selection of the chairman was different from the previous day's draw. It was a challenge. Each person had a chance to challenge others or reject them. However, they had to accept the challenge after their rights were used. Otherwise, they would lose the right to participate and be eliminated.

Hambrick immediately challenged Fade as soon as he came up. Even if he used his right to refuse, Fairoze was still there. He

18:33 

could continue to challenge Fade, so he had nowhere to run to.

The Chiang family was obviously targeting Fade. 

18:33 

Chapter 1623

The other candidates were also happy. After all, it was also a good thing that they wasted their energy first. Then, the rest would come out later to take advantage of the situation.

Hence, the group of people looked at Fade like they were having fun, waiting for his response.

Just when everyone thought that Fade would reject Hambrick's challenge, his expression became indifferent and he hooked his finger at Hambrick. He said coldly, "Since you've taken the initiative to court death, then don't waste any more time. Come on."

"Arrogant sh*t, you will regret what you've said soon," Hambrick shouted with a ferocious face and jumped up in an instant.

He seemed to have transformed into a fierce tiger. With the momentum of a roaring mountain lion, he pounced fiercely towards Fade.

It had to be said that as a second-rate hidden family, Hambrick's strength was not ordinary. With his cultivation at the early stage of the Heaven Level and his incomparably solid foundation, he was able to evoke quite a few gasps and looks of surprise from the spectators the moment he started fighting.

On the other hand, the competitors who had signed up for the election were all paying attention to his skills.

Many people's expressions changed instantly when they saw Hambrick's attack. Their faces darkened, and they looked downcast. This was because the strength that he displayed was not something they could fight against.

18:33

For a moment, many of the contestants secretly shook their heads, and internally gave up on the idea of fighting. However, at this moment, faced with Hambrick's fierce attacks, Fade's face was so calm that it was even a little indifferent. With a cold expression on his face, Fade's anger burned even stronger. These so-called hidden families and martial arts masters treated the people of the mortal world as non-entities. As long as they were strong, they could humiliate them as they wished. Even though he had provided evidence, no one was willing to hold them accountable because of their powerful background. Since that was the case, he decided that he would fight violence with violence. He would use his strength to show them how ridiculous and pathetic they were.

Therefore, as Hambrick attacked, Fade didn't have any intention of dragging on with him. He narrowed his eyes slightly and raised his right hand. In the meridians in his body, his positive energy was like a surging river, crashing to the ground. A strand of positive energy finally condensed into a shape in the center of his palm, following Fade's movements. Then, he sent his palm forward.

The majestic aura of positive energy condensed into a huge palm in the air and slammed out with a rumble. Hambrick expected that Fade would fight back, so he made up his mind. He was prepared to fight back. However, at this moment, when he saw Fade's attack, he was completely dumbfounded. This was because the terrifying positive energy palm had completely exceeded his expectations. That majestic and oppressive aura, and that enormous palm, was something that he didn't know how to block at all.

He could only run the aura of his positive energy with all his might. He threw his arms out to resist the huge palm print that

18:34 

descended from the sky.

However, facing the strike of the handprint, Hambrick's counterattack was useless. Without any defense, he was directly slapped to the ground with a boom, and his body sprawled on the ground, unable to move at all.

After the attack, Fade didn't even look at Hambrick. He glanced at everyone and said in a cold voice, "Next!"

As soon as he said that, the place fell into silence. Everyone looked at him with astonishment and shock, not knowing what to say for a moment.

At this time, Fairoze, who just came to his senses, ran over and picked up his younger brother, Hambrick, and quickly checked on him.

In an instant, his face sank, and he looked at Fade with shock and resentment. He gnashed his teeth and said, "You destroyed him and his martial arts. How could you do that? You actually..."

Upon hearing this, the crowd was even more shocked.

They never thought that Fade would be so powerful that he could defeat Hambrick with a single palm attack. Moreover, he had destroyed his opponent's cultivation with a single move.

"I-I didn't expect this. This actually happened."

"This Fade is too powerful. How strong is he?"

"However, he's a bit too ruthless. He crippled Hambrick, and the Chiang family will probably want to kill him."

"They'd want to do more than just kill him. Look at the expressions of Jariah and Fairoze. They can't wait to swallow him alive!"

18:34 

.....

At this moment, Jariah and Fairoze really wanted to do that.

That was because Fade disabled Hambrick, on top of killing Harold and Raleigh. Faxon was also disabled by him in the same way that Finley was defeated.

Almost half of the Chiang family's mid-generation and the younger-generation masters had fallen in Fade's hands. It could be said that half of the strength of the Chiang family had been destroyed by him alone.

For the Chiang family, who wanted to advance into a first-rate hidden family, this was a huge blow.

For a moment, Fairoze gnashed his teeth in hatred, glared at Fade and said, "The Chiang family will never reconcile with you."

Old Master Jariah also stood up at this moment. He first checked Hambrick, and his expression became even more gloomy. He looked at Fade and said in a low voice, "Young man, you've gone too far."

"Too far?" Fade sneered. He looked at Jariah and said in a low voice, "Did you ever think that you went too far when the Chiang family bullied the people of the secular world?"

"In your eyes, they are just people of the secular world, and their strength is not as good as yours. You think that they are no different from ants. Hence, you can bully them as you please." Fade's eyes sank and he said, "In that case, in my eyes, you all are just like ants. I can also bully you as I please."

"If you don't accept it, then do something about it!" He crossed his arms in front of his chest and refused to budge for the Chiang family.

18:34

Upon hearing this, Jariah's expression became even gloomier. He gritted his teeth and said, "Young man, you're too arrogant."

"You want to fight?" Fade raised his eyebrows and was not afraid at all. He pointed his finger at Jariah and said, "Go ahead, but don't break your old bones."

For Jariah to be so disdainful, it was an extremely rare thing in the hidden family. The crowd couldn't help but be shocked. 1

"That kid, he seems to have crossed the line. How can he insult the master? That's Master Chiang!"

"Master Chiang is a Heaven Level martial artist, and he is very strong. I'm afraid that kid is looking for his own death."

"It's really too much. This is an election, not a life-and-death battle. There's no need for things to be so tense."

"I don't think so. I quite appreciate Fade's character. He has no fear and dares to move forward. I support that he continues to fight." 36

..... 6

18:34 

Chapter 1624

Although Fade's performance had aroused the dissatisfaction of many large hidden families, there were also some people from the bottom of these families who admired him. After all, in their view, this courageous action of challenging those in power was worthy of encouragement.

However, just as they were admiring and appreciating the scene, a sneer came from the side. "What a joke!"

Then, a young man in a long robe stood out with his hands behind his back.

Seeing this, many people who supported Fade didn't look good at the moment. They looked at the young man and said discontentedly.

"Why is Fade a joke? I think that he is a good representative for small families like us."

"That's right, there should be such a person who isn't afraid of challenges. Otherwise, us smaller families will always be ruled by the great families. We'll never have the chance to change our fate."

"What right do you have to talk about him? I think you're not as good as him!"

"Even if Fade loses, the strength he has shown is already powerful enough. It is in no way a joke!"

.....

Hearing the retorts from the crowd, the young man laughed coldly. Shaking his head, he said, "All of you flatter him so that he

18:34

can continue fighting. One sentence may sound simple, but I can say for sure that if he continues on like this, death is certain for him."

"Even if he can defeat the Chiang family, there will still be greater hidden families, such as the Zhou family and the Lin family. In the end, I can only say that his fate was already preordained when he stepped onto the stage."

Hearing this, the expressions of the audience who admired Fade could not help but change drastically. Their mouths moved a little as they tried to retort. However, in the end, they could only shake their heads and sigh. There was nothing else they could say.

Someone looked at the young man and asked curiously, "Who are you? Why don't I remember you from our hidden family?"

The young man did not reply. He only flicked his sleeve, revealing the symbol of the twin pagodas. Then, he began to leave.

Seeing this symbol, the faces of the people around changed, and their eyes were full of surprise.

"That's, that's the symbol of Wushuang Tower. He is under one of the Heaven Level families of Wushuang Tower!"

"No wonder you're so arrogant. It turns out that you're a member of one of the four Heaven Level families."

"Even someone from Wushuang Tower has said so. It seems that Fade is really in danger."

"Alas, what a pity. It wasn't easy finding such an incredible talent, but in the end..."

.....

Fade did not pay attention to what was happening in the audience.

At this moment, he was looking at Jariah on the other side, who was condensing his positive energy and was about to make a

18:34 

move on him. His expression was indifferent, and the corners of his mouth were slightly raised, even carrying a hint of a disdainful smile.

"Hmph!" Jariah shouted. He moved like a tiger, striding towards Fade with a gust of wind behind him.

This aura alone was a level higher than Hambrick's. He was worthy of being an experienced Heaven Level master. Whether it was the degree of power of positive energy or his fighting experience, Jariah was very experienced. The moment he made his move, he carried a deadly killing blow that made it impossible for Fade to dodge.

And at this moment, he didn't intend to avoid it at all.

In the face of Jariah's move that was as fierce as a tiger, Fade did not try to avoid it. He directly huffed out his chest and rushed towards the attack.

Just when the crowd was surprised at what Fade was going to do, his body shook, and a whirlwind suddenly rose around him.

The others felt a little strange about this sudden whirlwind, but Jariah, who was about to attack Fade, clearly felt at this moment that the whirlwind around him was actually formed by the aura of positive energy spreading from Fade's body.

The aura was several meters away from Jariah's body, spinning without dissipating. On the contrary, a great force of absorption caused by the rotation had disturbed his positive energy aura.

"This..." For a moment, he actually felt that his aura had been thrown into disorder and was a little out of control. He was greatly surprised. "You..."

Without waiting for him to finish his words, Fade directly stepped forward and punched out at Jariah.

18:34 

Then, everyone saw that Jariah, who had just launched an aggressive attack, flew out directly at this moment. His body flew for more than ten meters in the air, before it finally fell to the ground. A mouthful of blood spurted out of his mouth.

No one had expected such a result.

Jariah, the master of the Chiang family and a warrior at the middle stage of Heaven Level, had actually been defeated by Fade's punch.

For a moment, the entire place was silent. Everyone stared at Fade silently, and their eyes were filled with shock.

Fairoze was the first to come to his senses. He hurriedly helped his father up to make sure that his father's life was not in danger.

He raised his head and looked at Fade, gnashing his teeth. "Fade, you've gone too far. You've hurt so many people in my family. The Chiang family is at odds with you."

Fade didn't care about this threat at all. He said coldly, "If you want to take revenge, you can do it now."

After saying this, he seemed to have thought of something. His gaze swept across the Pei family, the Hsing family, and the others standing near the Chiang Family. He said, "That's right, you guys are the same. If you want revenge, then do it now. I don't have the time to hang out with you guys. Let's do it together. It'll also be convenient for me to take care of it all at once."

As soon as these words were said, the faces of the people in the Pei family and Hsing family couldn't help but fall. Their eyes were full of anger, and they couldn't wait to rush out and fight.

However, when they were about to lift their feet, they saw the heavily injured Hambrick and Jariah, who was vomiting blood. The anger in their hearts seemed to have been poured with a basin of cold water, and it cooled down immediately.

18:34 

Hambrick was an early-stage Heaven Level martial artist, while Jariah was a middle-stage Heaven Level martial artist. They were also second-rate hidden family martial artists, much stronger than these third-rate and even low-class hidden families.

They were all defeated by Fade. The people of the Pei and Hsing families, how could they dare to attack at this moment?

Jariah was defeated by Fade's single punch. If they fought back, they would probably be killed by his punch. No matter how angry and vengeful they were, in the face of death, they were still not worth a mention.

Therefore, the people who had ridiculed and felt arrogant towards Fade before the election, lowered their heads one after another and remained silent, as if they had not heard his words. They did not dare to step forward to challenge him.

Seeing this, Fade sneered and then turned around. He looked at the remaining members of the first-rate hidden family and said, "I want to be the chairman."

"If you don't agree, just stand up!" As he said this, Fade hooked his fingers at them, as if he didn't care about them. It was as if these first-class hidden families were not worth mentioning.

Such an action immediately caused the eyes of a few first-rate hidden family members to fill with anger. The flames in their eyes flickered as they glared fiercely at him.²¹

18:34 

Chapter 1625

However, those who were a part of the first-rate hidden family were not impulsive people. Although they were angry, they didn't make any rash moves. After all, Fade had defeated Hambrick and Jariah in succession, and the strength he had displayed was indeed quite astonishing.

Everyone looked at each other for a moment, but no one made a move. No one had thought that such a scene would occur.

Upon seeing this, Fade said, "If no one dares to make a move, then I shall be the head of this hidden Elders Council."

After that, he looked directly at Master Wang and the others in the VIP seats, as if he wanted them to announce the result immediately.

Seeing this, no matter how calm the first-rate hidden family members were, they could not sit still at this moment.

A strong man stepped forward and said to Fade, "Young man, you want to be the advocate of the hidden family? I'm afraid that you're thinking too much. Let's see you go through me first!"

While he was talking, the strong man stepped out and his fist collided on his chest. He said, "My name is Madesh, I'm from the first-class hidden family, the Lei family..."

Fade waved his hand and interrupted Madesh's introduction directly. "I'm not interested in knowing who you are. If you want to fight, just do it!"

18:34 

"You..." As a first-rate hidden family's master, Madesh's Heaven Level cultivation was considered a formidable existence in the entire hidden family. He had never been looked down upon like this before.

Fade's attitude suddenly made his face sink. He gritted his teeth, glared at him, and said in a sharp voice, "Arrogant boy, let me see your strength."

As he spoke, Madesh charged forward fiercely. His physique was sturdy, and his personal fighting style was also extremely fierce. His entire body was like a roaring great beast as he charged forward with heavy footsteps.

Fade narrowed his eyes and stood in the distance. He raised his arm and resisted Madesh's attack.

Under the huge impact, his body slid back more than a meter. Then, Fade waved his hand and said, "You're really strong, much stronger than the old guy, Jariah. It seems that you do have some strength. I'm going to take you seriously."

Fade sighed with emotion, while Madesh, on the opposite side, was full of surprise. He looked at Fade with astonishment in his eyes. One should know that he had used about 80% of his strength in the move just now. The strength of this punch was able to smash through a thick wall, but even though it hit Fade's body, it didn't cause much damage.

"How did you..." Madesh was still astonished by Fade's strength. At this time, Fade had already rushed out to unleash a punch.

Madesh saw this and quickly raised his arms to resist. However, with a loud boom, his strong body flew out and fell to the ground. He struggled a few times, but he couldn't stand up.

When the rest of the Lei family saw this, they rushed over hurriedly and helped him to his feet. At the same time, they glared at Fade, "You actually..."

Fade snorted coldly, looked at them and said, "If you don't accept it, you can also come and challenge me."

18:34

When those words were spoken, the Lei family members shut their mouths immediately and left the arena with Madesh in their arms.

There were only a few first-rate hidden families. Now that the Lei family had withdrawn, the remaining people were even fewer. When Fade's gaze fell on them again, many people lowered their heads directly and didn't want to look at him at all.

In this case, it was Zeger, the head of the Zhou family, who came out.

Fade couldn't help but feel a little surprised. However, Zeger immediately smiled and said, "Mr. Chen, after watching your fight, I can tell that you are quite powerful. I don't think I have much of a chance. However, my father asked me to give it a try. Therefore, I would like to invite you to spar with me."

Fade understood Zeger's thoughts. Hearing this, he nodded and said to him, "Mr. Zhou, please."

"Mr. Chen, I'm sorry if I offend you." Zeger was very polite and immediately made a gesture in front of everyone. The Qi strength of the middle stage of the Heaven Level broke out and he was about to attack Fade.

However, at this time, Fade took a step forward and his body shook slightly.

In an instant, Zeger's face darkened, and his expression became serious.

Fade kept walking towards him without stopping. As he approached step by step, Zeger's expression became worse, and finally, his face even became distorted in a ferocious way.

The crowd didn't know why Zeger was like this. Only he himself could feel the tremendous pressure from Fade. With every step he took closer to him, the aura of his positive energy became more and more horrible. It was a kind of presence that Zeger couldn't resist.

18:34 

In the end, after Fade had taken five steps forward and was five meters away from Zeger, Zeger could no longer bear his pressure. He gritted his teeth and said, "Mr. Chen, I have lost."

Upon hearing this, Fade's body trembled slightly, and he released the pressure of the aura of positive energy. He said to Zeger, "Mr. Zhou, I'm sorry."

Zeger smiled wryly and said, "Mr. Chen, you're too kind. It was your mercy that made me retreat safe and sound. I should thank you, Mr. Chen."

After saying that, he cupped one hand in the other before his chest and bowed to Fade. Then, he led the rest of the Zhou family out of the ring on his own accord.

Seeing this, the expressions of the other participants on the ring became even more grave. After all, Zeger was a popular candidate for the chairman's election, second only to the Lin Family's Moon Lin.

Legend had it that his strength was only slightly weaker than Moon's. If they fought, there was even a 40% chance that he would win. At first, everyone had expected that he would be able to defeat Moon and win the chairman's position.

However, no one expected that Zeger would be defeated by Fade, the dark horse. Moreover, he lost in such an incredible way. He didn't even make a move and was directly defeated.

All of a sudden, there was a heated discussion.

"The head of the Zhou family also lost. Is Fade really so powerful?"

"He defeated two middle-stage Heaven Level contestants in a row. Could it be that he's also reached the middle-stage Heaven Level, or maybe even higher?"

18:34 

"It can't be possible at all to be less than thirty years old and be at the late stage of the Heaven Level. There aren't even many masters amongst the four great Heaven Level families!"

"I think it's possible. You know, he just defeated Zeger Zhou, an expert from a well-known family in the hidden family. He's on par with Moon Lin!"

"Well, well, perhaps... there's something else!"

.....

"Yesterday, I saw that Hoffman, Zeger and Fade were very close. It seemed like they wanted to rope him in. Perhaps, Zeger had deliberately let down the match just now in order to rope Fade in."

"It's really possible! After all, the possibility of Zeger defeating Moon Lin is not high. It's better to do Fade a favor and invite him into the Zhou family. That'll be a great harvest!"

"It should be true. That could explain Zeger's bizarre defeat. After all, he didn't even make a move and immediately admitted defeat. It's impossible."

.....

18:34 

Chapter 1626

It seemed like they had found a good reason, and many people believed it without much thought. After all, for things that were difficult to understand, finding an excuse that they believed to be reasonable was undoubtedly the most instinctive method for many people.

The discussion among the audience became more and more widespread. It became the most reasonable explanation that was approved by the majority of the audience.

In the seats of the Zhu family, when Leena heard the surrounding discussion, her round face swelled with anger, and her face was full of dissatisfaction. "These people are too much. They don't have enough strength. They just say that Brother Chen's victory was due to someone's carelessness. It's simply abominable."

Romeo also had a dissatisfied expression and said coldly, "They are used to thinking that they are right. Seeing a genius expert like Fade, naturally they would not be able to understand."

Harmon looked at the two juniors and said, "There's nothing to be angry about. When Mr. Chen becomes the chairman of the Elder Council, they will know what it feels like to be slapped in the face."

.....

At this point, there weren't many competitors left in the ring. There were only the most popular Lin Family and the other two first-rate hidden families. However, these two first-rate hidden families were not as strong as the Zhou Family, and their abilities were

18:34

on par with Jariah's. They didn't have any confidence in facing Fade, who had just won consecutive matches.

However, if they were to give up this opportunity directly and step down, they felt that it was a huge pity. After all, the explanation that they were all talking about might be true. They might still have a chance to win.

These emotions were intertwined in their minds, making them unable to make a decision for a while. Should they fight with Fade?

Just as the crowd was getting impatient, Moon took a step forward. He looked at the two players who were hesitating, and coldly said, "Either step forward or step down. Don't waste any more time here."

When the two families heard this, their faces suddenly turned pale. After a brief pause, they lowered their heads and left the stage in a dejected manner. This also meant that they had given up their chances of challenging.

After all, whether it was Fade, the dark horse, or Moon, the most popular person on the stage, they were not able to deal with them.

As the two families stepped down, Moon also asked the Lin family to step down. In the ring, there were only him and Fade left.

Moon looked at Fade with no expression and said in a calm tone, "You can defeat my son, Eliff, and even Jariah. Your strength is really good."

He didn't mention Zeger because he understood his intentions. Zeger admitting defeat was not only because of the fact that he was not strong enough, but there must have been some other reason.

As for Fade, no matter how strong he was, he was at most on par with Zeger. He should be slightly inferior to him.

18:34

Therefore, even if Fade's underdog momentum was fierce, Moon wasn't too worried. After all, he had already entered the middle stage of the Heaven Level for more than ten years, and he had almost reached perfection in this small realm. He believed that very few people in the same realm could defeat him.

With a confident expression, he looked at Fade and said, "I don't mind that you hurt Eliff. I can even promise you that as long as you join our family, you can ask me to do anything you want. You can think about it!"

Obviously, he also believed that Zeger's reason for admitting defeat was to draw Fade over to his side. Thus, he set a condition for him to draw Fade over to his side.

However, in Fade's view, his confident appearance was ridiculous.

He snorted coldly and said disdainfully, "Anything I want? Then I want you, Moon Lin, to immediately destroy your own cultivation and kneel down to apologize to me. Will you consider it?"

Upon hearing this, Moon, who originally looked indifferent, suddenly had a change of expression and said in a low voice, "I tried showing you mercy, but you've wasted it, so don't blame me for being rude."

"Show mercy!" Fade laughed coldly. "These two words coming out of your mouth. Don't you think it's ridiculous?"

"You..." Moon didn't understand. He had no grudges with him; why was Fade so malicious to him?

However, he didn't think too much about it. He'd already given such an egotistical person a chance. Since he couldn't rope him in, then he should be ready to die.

Then, Moon stepped forward and said loudly, "I'm here to challenge you."

18:34 

Fade narrowed his eyes and looked at him without saying anything.

Seeing that the challenge was accepted, Moon's whole body immediately trembled. In an instant, a visible burst of positive energy shot up into the sky, forming a blast of positive energy aura in the arena. It was a shocking sight.

It was just one move, but it instantly shocked everyone.

With such a powerful aura, even some late stage Heaven Level martial artists would find it difficult to reach Moon's level.

For a moment, almost everyone thought that he would definitely win.

After all, this powerful strength was so shocking that it exceeded everyone's expectation of him. Even Zeger, who had been knocked out of the arena, looked a little serious at this moment.

Seeing his father's expression, Hoffman couldn't help but say, "Dad, Moon's strength is beyond our expectation. Will Fade lose?"

Hearing that, Zeger shook his head and said with a serious look, "Although Moon is very powerful, I still think Fade will win!"

Hearing his father's resolute words, Hoffman was a little surprised, "But Dad, no matter how strong Fade is, he is only less than thirty years old. Now, Moon is..."

"I know what you mean. Even I couldn't understand Fade's strength before I stepped onto the stage, let alone you." Zeger directly interrupted his son's words and said seriously, "But when I stood in the ring opposite Fade and met his aura, I understood immediately."

"Fade's strength is far more powerful than we thought. It's a kind of strength that completely crushed me, so I think it's possible for him to defeat Moon."

18:34 

Hoffman didn't expect his father's evaluation of Fade's strength to be so high. He couldn't help but widen his eyes. "To crush you? Then, doesn't that mean that he has reached the late stage of the Heaven Level? He's less than 30 years old, but he's at that level. This, this is too scary!"

Zeger sighed with emotion and said, "In this world, there will always be a few geniuses that we can't understand."

.....

While they were talking, the fight between the two people on the stage had already begun.

After Moon's breath surged, he instantly launched an attack.

What was different from Jariah and Zeger was that hi's attack was extremely fast. He seemed to have turned into a flying sword, moving back and forth on the arena with incomparable Qi. 

18:34 

Chapter 1627

His speed was so fast that some of the weaker warriors couldn't even comprehend his movements, let alone defend and counterattack against them.

This move could be said to be the decision made by Moon after thinking about it.

He had watched all of Fade's fights carefully. These fights were almost all the same. Fade would fight casually, which could make a crushing effect on his opponent, and then defeat them within a few moves.

The opponents in these battles also had one thing in common; they all had great strength, but they were not fast. Each time, they always fought head-on against Fade, and got crushed by him.

Since that was the case, Moon thought that he had seen through Fade's martial arts skills. He may appear weak on the outside, but he was a warrior of the power type.

Therefore, he chose agile and quick attacks to restrain Fade's power in order to target this kind of power-type warrior.

Moon's considerations were very comprehensive and very correct.

His quick and agile attacks were dazzling. If he was to fight against a clumsy strength-type opponent, it would really have a miraculous effect.

However, unfortunately, he had misjudged Fade's characteristics. He was not a strength-type contestant. He was an all-round

18:34 

fighter.

Therefore, after seeing Moon's flexible movements, Fade quickly saw through his intention. He suddenly raised the corners of his mouth and whispered to himself, "Playing with me in terms of speed? In that case, I'll show you what real speed and dexterity looks like."

Before his voice had died away, Fade, who had been standing where he was, disappeared in a flash. He turned into a shadow and rushed out.

Moon, who was extremely fast, was about to launch an attack, but his target suddenly disappeared. He was shocked, and his eyes were full of astonishment.

Then, he heard a sound of wind behind him. He couldn't help but turn around and he found that Fade was rushing towards him from behind.

"How could it be..." Moon couldn't help but be stunned, and then his figure flashed quickly, trying to avoid Fade's attack.

However, just as he moved, Fade's figure followed him as if he had teleported. Moon couldn't get rid of him. He could only watch as Fade moved closer to him.

As Fade caught up with him, a powerful aura of positive energy burst out from his fist. Moon's face fell as he gritted his teeth and stood still. With a loud shout, the aura of positive energy in his body became violent, and he raised his arms to resist Fade's attack.

Boom!

With a muffled sound, Fade's fist hit Moon's arms.

18:34

In an instant, Moon felt a huge force coming upon him. That kind of oppressive force smashed his defenses easily.

Then, he felt that his chest seemed to have been hit by a heavy hammer, and his body flew up from the ground. He spat out a mouthful of blood and flew backward.

Bang! He hit the ground heavily and it felt like his internal organs were broken. He felt a gut-wrenching pain, like porcelain that was full of cracks. He felt like if he moved, he would break.

At this moment, Fade stepped forward and stood in front of Moon from a high position. He said in a cold voice, "You lost!"

Moon's face darkened, and his eyes were full of unwillingness.

Seeing this, Fade's eyes turned cold and he said, "You don't admit defeat? Well, then I'll continue."

Following that, he was about to continue to attack him.

Seeing this, Moon was startled. He quickly closed his eyes and with difficulty, he muttered, "I admit defeat."

Upon hearing this, Fade glanced at the referee. After the referee announced Fade's victory, he immediately left.

Then, the anxious Lin family members rushed to the arena and started to treat Moon's injuries in a hurry.

At this time, Fade looked at Napoleon's group and said, "I won. Am I the chairman of the Elder Council?"

Everyone could not help but be stunned when they heard this. They faced each other.

The audience below had already burst into an uproar. They didn't expect this result at all.

"Moon Lin lost as well. It's incredible."

18:34 

"The power of this black horse is a little too much."

"Is Fade really going to be the chairman of the Elder Council?"

.....

In the midst of the discussion, an older judge stood up and said, "If there isn't any other challenger, Fade will obtain the final victory. He is indeed qualified to be elected as the chairman of the Elder Council."

Upon hearing this, Fade glanced at the audience and said loudly, "Is there anyone else who wants to challenge me? Anyone who wants to challenge me, please come up now."

The entire place fell into silence. No one dared to reply.

What a joke; even a top-tier middle stage Heavenly realm warrior like Moon had been defeated. Who else would dare to challenge Fade next? Wouldn't that be seeking their own deaths?

"No one wants to challenge me!" Fade looked at the elder judge.

The judge coughed and announced, "I announce that the final winner of this year's competition will be Fade Chen from the Zhu Family."

Following the judge's announcement of the result, on the Zhu Family's side, Keeran, Harmon, and the others rejoiced and began to celebrate excitedly.

As for the other places, it was completely silent. No one made a sound. Especially in the area where the Pei, Hsing and Chiang families sat. Everyone's faces were as pale as death, and their expressions were ugly.

18:34 

Fade didn't care at all.

He looked over at the Chiang family and said, "Now that I'm the chairman, I can deal with the Chiang family who bullies the weak and hurts people!"

"Come on, let me..."

When the Chiang family members heard this, their faces couldn't help but turn pale, and their expressions were nervous and unsightly.

Napoleon stood up and quickly said to Fade, "Mr. Chen, one moment please."

"Master Wang, do you still want to stop me?" Fade raised his eyebrow. Previously, when Fade exposed the evil deeds of the Chiang family and asked the elders to deal with it, Master Wang had found an excuse to delay it. Therefore, Fade would not be nice to him.

Napoleon understood Fade's dissatisfaction with him, but he didn't dare to say anything. After all, his strength was not as powerful as Moon's, and he didn't dare to fight with Fade.

He forced himself to smile, and he said, "Mr. Chen, I'm not here to stop you."

"I'm here to remind you," he continued

"Remind me of what?" Fade asked.

Napoleon replied, "Mr. Chen, even though you're now the champion, it doesn't mean that you're now the head of the Elder Council. According to regulations, your right to be the new head requires our Elder Council's joint signature to be submitted for

18:34 

review. After receiving approval from the official committee, then you'll officially be recognized, and be able to exercise the right of the chairman of the Elder Council."

"If you arrest people now, I'm afraid they will give us a hard time. And then..." He didn't have to go on. Fade already understood what he meant.

18:34 

Chapter 1628

Fade asked, "When can we get the approval for the interrogation ready?"

Napoleon said, "We are preparing to write our approval. If we send it out today, we should be able to get it done in about three days."

"Three days." Fade narrowed his eyes and didn't want to wait. But when he thought about how there was an official force behind the Council of Elders, he decided to follow the rules and go through the procedures. After he officially became the chairman of the Council of Elders, he would deal with the Chiang family.

After that, Fade did not hesitate at all. He turned around and left. Keeran, Harmon, and the others immediately followed him and left together.

Everyone was silent and their eyes were fixed on Fade as he walked away. After his figure disappeared, everyone began to talk about it excitedly.

"This, this result, am I dreaming? I really didn't expect this!"

"Then Fade has really won the championship. He's going to be the Chairman of the Council of Elders of the hidden families."

"The Zhu family has profited a lot this time. They were originally one of the weakest small families, but now they're really going to take off."

18:35

"On the contrary, the Hsing family suffered a great loss. I heard that Fade was originally planning to go to them but he was driven out by them instead. Who would've thought that it would actually turn out like this—"

...

"Can Fade really become the chairman? Are all the first-class secret families willing to do this?"

"I think the Zhou family will support Fade. After all, Zeger and Hoffman's attitude toward Fade had been good from the beginning."

"However, the Lin family will definitely not support him."

"Of course. The Lin family has been preparing for nearly half a year for the new chairman's position. They've spent a lot of resources before and after this. Moon Lin was almost certain that he'll become the new chairman, but now the position has been taken away. How can the Lin family be willing to let this happen?"

"However, after all, Moon lost. According to the rules, he can't be the chairman, so there's nothing he can do!"

...

At this moment, a young man wearing a long robe let out a sneer and said, "Pfft, do you really think that with so many of us from hidden families, the powerful chairman can be decided through just a single match?"

If someone took a closer look, they would find that there was a pattern embroidered with a double tower on the man's sleeve. It was the man who was not very optimistic about Fade before the competition.

"Well, do you mean..." Hearing the words, the people who were discussing aside suddenly thought of something and their faces

18:35

changed.

Upon hearing this, the young man immediately laughed. With an arrogant expression, he gave an analysis as he said, "Previously, everyone had always believed that Moon Lin would definitely become the head of the Lin family based on the fact that he was the strongest faction within the Lin family. With the support of the Lin family itself and the overwhelming strength of Moon, he was able to secure the position of the head of the Lin family."

"Now, Fade has only defeated Moon. The Zhu family behind him is almost negligible. In this situation, let alone the Lin family, even a second-rate hidden family like the Chiang family will not be willing to accept it."

"However, Fade defeated so many experts in succession. Even Moon Lin was defeated, so his own strength must be very strong. He has reached at least the middle stage of the Heaven Level. Fade's strength is his greatest asset!" Someone still argued for Fade.

The young man sneered again. "Haha, strength is definitely a great asset, but have you ever thought that no matter how strong he is, what's the use? A family like the Chiang family can easily send out seven or eight Martial Arts Masters. When Fade is attacked from all corners, can he win?"

"Furthermore, within the Lin family, there is still a Heaven Level master like Old Master Tarmon who did not make an appearance. If they really fell out with him, Master Lin would step forward, then would Fade really be able to become the new chairman?"

Hearing the other side's explanation, those who supported Fade couldn't help but turn pale. Their expressions became a bit ugly, and they couldn't say a word for a while.

Seeing this, the young man, who analyzed the situation, put his hands behind his back, chuckled, and then turned away. The

18:35 

direction he left was in the direction in which the Lin family left together.

On the other side, Fade and his team returned to the Zhu family.

Keeran was still a little confused. He did not expect this result at all. After all, two days ago, he had been worried that his Zhu family would be expelled from the hidden family because of their poor grades.

But now, after two days of competition, Fade, on behalf of the Zhu Family, had won the championship of the younger generation and also became the champion of the chairman's election. This was definitely a huge leap.

Even if Fade didn't have much to do with the Zhu family, with his support, the Zhu Family didn't have to worry about being expelled from the hidden family.

Leena was even more excited. She held Fade's hand and kept asking questions.

On the other hand, after Harmon's excitement subsided, his expression gradually turned serious. He pulled Keeran over and they looked for Fade together. "Mr. Chen, we would like to have a chat with you."

Fade nodded with a smile and then went to the conference room with the two of them.

Keeran closed the door of the conference room. Together with Harmon, he sat on the opposite side of Fade.

Looking at the serious faces of the two people, Fade couldn't help but chuckle and said, "Are you serious? I won the championship, but you are not happy. Don't you want me to be the chairman?"

"Of course we do." Harmon shook his head. Immediately after, he said in a low voice. "Mr. Chen, we are only worried for you."

"Worried? What are you worried about?" Fade asked.

18:35 

Harmon said. "Mr. Chen, although you've now obtained the title, according to the rules, you should be able to become the Chairman of the Council of Elders of the hidden family. However, you're not a member of our hidden family. Your foundation is weak. Furthermore, the Lin family has prepared for this position for a long time. I'm afraid that they won't just let this matter rest."

Keeran added, "Also, Mr. Chen, you've been fighting on the arena. You've offended quite a few families. If the Pei family, Hsing family, Chiang family and the others join forces to oppose you, I'm afraid—"

Fade knew what they were worried about, but he did not take it seriously. He smiled and said, "I understand what you mean. Three days later, when the official statement comes out, whether they admit it or not, I will be the chairman of the Elders Council."

"As for if you're worried that they'll object, that's even simpler. Those who are against me, I can just get rid of them. I'll only spare those who are in favor of me."

"This..." Harmon appeared a little worried about Fade's simple and crude method. "However, if we were to do this, I'm afraid that it would create an even greater conflict. If they were to directly attack, I'm afraid that—"

Keeran was also worried and added, "Besides, if there are too many people against it, all of them will be expelled. At that time, I'm afraid that the entire hidden family will fall apart, and the Elders Council will be meaningless."

18:35 

Chapter 1629

Fade nodded his head and understood what they were thinking about.

He explained in a low voice, "Mr. Zhu, I understand your thoughts. You want me to take my time to win over the support of the hidden family. You want me to soften my attitude and get along with the opposing families. Then, I will slowly take control of the entire hidden family."

When Keeran and Harmon heard this, they couldn't help but nod their heads. This was the best idea they could think of right now, for Fade to slowly win over the support of the hidden families.

However, Fade immediately changed his tone and said, "To tell you the truth, I'm not interested in the position of the chairman of this hidden family's Council of Elders. My purpose of coming to the hidden family is not this either. I'm just seeking justice for my friends. I'm also looking for someone else."

"This..." Upon hearing this, the two of them could not help but feel a little surprised.

Fade continued, "And, I can tell you that even if the entire hidden family unites and becomes the fifth Heaven Level power, I wouldn't care about it at all."

"The four Heaven Level forces are nothing more than this. I don't really care about them!"

When Harmon and Keeran heard this, their eyes were full of shock. They were speechless and couldn't understand Fade's

18:35 

thoughts.

The Lin family had spent a lot of time, energy and money to become the chairman of the Elders Council. They wanted to integrate the hidden family and become the fifth Heaven Level power.

But now, Fade told them that he didn't care about the Heaven Level forces at all. This was beyond the scope of Harmon and Keeran's understanding. They really couldn't understand why Fade was so arrogant. Was it purely arrogance, or did Fade have a hidden card?

Seeing the two people's surprised and hesitant expressions, Fade understood what they were thinking. However, he didn't want to explain anything. He got up and said, "Harmon, Master Zhu, you don't have to think so much. You can rest assured that no matter what tricks the Lin family wants to play, it will have no effect on me."

After that, Fade left the conference room. As for Harmon and Keeran, they looked at each other. After a moment of silence, they stood up and nodded to each other. "All we can do now is to trust Mr. Chen."

...

Soon, three days had passed. The official document that Napoleon prepared had been approved by the government, and they had officially replied.

In the afternoon, Master Wang would announce the official result of the documents at the headquarters of the Council of Elders.

Fade and his party came to the headquarters of the Council of Elders early. The headquarters was a three-storey tall building. It was not generally majestic and tall, but it represented the power center of the entire hidden family.

On the scene, in addition to Napoleon, there were also the representatives of the elders of the Council of Elders who had all

18:35 

arrived. These elders were almost all from the first and second rate hidden families. Naturally, the people from the Chiang family, the Lin family, and the Zhou family were also amongst them.

There were also many people from other families on the scene. Although no one in their family had served in the Council of Elders, the appointment of the chairman was related to the development of the entire hidden family, so they were naturally very concerned and came to the scene.

Everyone gathered together. The atmosphere was a bit serious and tense. Everyone's faces were rigid. Some people kept making eye contact with each other.

Only Fade looked relaxed. He looked at Napoleon and said, "Master Wang, the document is here. You can announce it now!"

Master Wang glanced at the official document on the table and didn't reach out his hand to take it. Instead, he looked around and said, "The election of the new chairman of the Elders Council is of great importance. For this, the representatives of the elders of the council suggest holding a group meeting and vote together to reconsider it."

"Have a meeting and reconsider?" Fade raised his eyebrows and said, "Master Wang, are you going to go back on your word? You don't want me to be the chairman, do you?"

Master Wang didn't say anything, but a young man next to him stood up and said in a deep voice, "Mr. Chen, you're thinking too much. We just want to discuss about it. After all, the position of chairman of the Elders Council is of great importance, so we must be careful. Moreover, this is not my own opinion, but the idea of all the elders."

"Who are you? Are you speaking on behalf of all the elders?" Fade looked at the young man.

The young man was stumped and said in a deep voice, "My name is Yves Lin, I'm a disciple of the Lin family. I have come here

18:35

on behalf of my uncle Moon Lin, and I have conveyed my uncle's opinion. All elders, don't you agree?"

As Yves's gaze fell on them, many elders started to speak.

"I support Elder Moon Lin's idea. It's indeed a matter of great importance. We should give it further thought before making a decision."

"I'm also in favor. There are some things that we should investigate clearly in the meeting. It's what we should do."

"Mr. Chen, you're still young and not experienced enough, so you should be more mature."

...

Fade took a look and saw that almost seventy percent of the elders of the Council of Elders had voiced their support for the Lin family. Amongst them were the Pei, Hsing, Chiang, Lei, and other families that had bad relations with him. It was obvious that this meeting was the result of their discussion.

When other major families saw this, they couldn't help but talk about it.

"All the big families are really going to take action. For Fade to be the chairman, it's really not that simple."

"The young man was right about it. The situation has changed again."

"Seventy percent of the elders are against it. Fade is in trouble now."

"It's better for him to take the initiative to give up the position of chairman."

...

18:35 

Everyone was talking about it, and they were either eager or worried to see how Fade would settle this problem.

Fade glanced at the chairman of the Elders Council and grabbed the official document on the table in front of Napoleon.

Napoleon was stunned when he saw this. Then, he took action, trying to stop Fade.

Logically speaking, he was a Heaven Level martial artist, and he was much closer to the document than Fade, so he should have been faster. However, Fade's movements were extremely strange. His right hand appeared on the table almost instantly and he grabbed the document.

Napoleon still wanted to stop him, but when he collided with Fade's hand, he suddenly felt a huge force. He staggered and almost fell to the ground.

"You—" Napoleon's expression changed.

"The audacity you have to attack Master Wang!" The other elders gasped.

However, Fade didn't care about them. He tore open the envelope, took out the document inside, unfolded it in front of everyone, and read it directly, "After inspection, we officially approve Mr. Fade Chen, as the new chairman of the Elders Council, responsible for—" 

18:35 

Chapter 1630

The contents of the document were official and straightforward, which meant that Fade was going to be approved as the chairman of the Elders Council. In the end, the document was officially marked with a huge red stamp, announcing the official benefits and benefits of this document.

Fade showed the document to the crowd and then slammed it on the table. He looked at Napoleon and the opposed elders and said coldly, "Do you see that? I am now the chairman of the Elders Council of the hidden family."

"There is no need to hold this meeting. This is an order," Fade said directly.

The opposition didn't expect Fade to do this, and their faces darkened. Then, Yves took the lead and said, "This statement of yours is dictatorship. We don't want someone like you to be the chairman."

"Your objection is invalid!" Fade looked directly at Yves and said coldly, "If you don't want to, you can choose not to be an elder. I will choose someone else."

Yves's gaze darkened, and then he said in a deep voice, "No, no. The Lin family officially announces that we will withdraw from the Council of Elders of the hidden family. After that, Yves tore off the logo of the Council of Elders and threw it on the table with a proud look on his face."

The other elders who were against Fade immediately followed suit and began to move.

"I don't accept it either. My Chiang family will withdraw from the Council of Elders."

"If such an autocratic person becomes our leader, our Lei family won't accept it. We'll withdraw."

"Count me in. We'll withdraw as well."

...

In an instant, almost half of the elders had left. The situation seemed to be going out of control. After all, with so many people leaving in one go, even if Fade became the chairman, it would be nothing more than a title.

However, Fade's expression did not change. He swept his gaze over the people who had left and immediately nodded. "All of you can withdraw. Alright, very well, I'll remember all of this."

"Whatever!" Yves sneered and turned to leave.

"It's like a primary school student's trick, it's not worth mentioning." The Chiang family also wanted to leave. The others immediately turned around and were about to leave.

But at this time, Fade shouted, "Stop, who said you could go?"

Yves turned around, looked at Fade, and said coldly, "Mr. Chen, what do you mean by this? Can't we just quit the Council of Elders and leave?"

Fade sneered and stepped forward, "Leave? You haven't settled your debts yet, and you want to leave?"

"What debts?" Yves and the others could not help frowning.

Fade said coldly, "Chiang family, you sent assassins to kill people in the secular world and assassinate innocent people. Do you

18:35

really think that I won't pursue this matter?"

"According to the rules of the Council of Elders, the Chiang family's actions are vicious and have a bad influence. The main person in charge of the Chiang family has to bear the corresponding responsibility, be abolished of one level of their training, and receive a fine of one billion yuan."

"If you want to leave, deal with these things first!" Fade looked at the elder of the Chiang family.

At this moment, the Chiang family elder's expression instantly changed. "You don't have the right to punish my Chiang family. If you dare..."

Without waiting for the other party to finish speaking, Fade moved his body and slapped out. This Chiang family elder was completely caught off guard and was slapped on the Dantian in his lower abdomen by Fade's palm. With a loud slap sound, the Dantian shattered and the Chiang family elder fell to the ground in incomparable pain. "You, you've destroyed my Dantian—"

"Resist the law enforcement and you'll be punished severely," Fade said coldly, "It's still considered a light punishment to disable you. If you still dare to resist the law enforcement, you will die next time."

After that, Fade continued, "Besides the Chiang family, the violations of the law and discipline of all major families in recent years are all recorded here. Accept your punishment yourselves!"

While speaking, Fade threw out a document and showed it to everyone.

These documents recorded that these families had done all kinds of bad things in the recent years, such as forcibly robbing the businessmen in the mortal world, and beating the people who opposed their own work.

This kind of thing was already the norm for the Lin family. It was only that everyone had gotten used to these habits. Although

18:35

they were wrong, no one was there to punish them.

Therefore, they didn't take it seriously at all. It was just that every time they did things, they had to be more careful not to make things too serious, so that no one would care about these "trivial matters" in their eyes.

But now, Fade turned these trifles over one by one, as if he had to deal with them strictly according to the rules.

If they were really dealt with according to Fade's standards, these families would probably suffer a great deal, and their fine wouldn't be less than a hundred million. Adding on to the various methods of abolishing one's cultivation, the great families' muscles and bones were going to be damaged.

This was especially the case with the Lin family, who had been the leader of the first-rate hidden families. It was natural that they would take advantage of their power to bully others and take things by force.

In the document, the Lin family's crimes were listed for more than two pages. The final fine for punishment was more than ten billion yuan, without counting the other types of punishment.

At the sight of this, Yves would never agree to this punishment.

He directly threw the documents down and said coldly, "That's absurd. These things are meaningless. The Lin family will never accept any malicious slander."

The other clans also voiced out in succession.

"Fake, it's all fake. We are being framed."

"Even if you are the chairman, you can't frame us like this."

18:35 

"Our Lei family will definitely not allow ourselves to be captured for no reason."

...

Seeing that all the families were against it, Fade did not change his expression and continued to say, "It seems that you are not ready to accept the punishment obediently. In that case, I can only resort to violent means."

As he spoke, the True Energy in Fade's body exploded. A strong aura rose to the sky and enveloped everyone. They felt a huge pressure.

The faces of these shouting elders suddenly changed, and then they began to resist Fade's True Energy aura. At the same time, they kept making gestures. Obviously, they were calling for help.

As for the other people, their eyes were full of seriousness at the moment, and they started to talk about it.

"Now that things have come to this stage, there's nothing we can do!"

"This new chairman is still too inexperienced. He's too reckless in doing things. He can't just use such a tough method."

"That's right. Now that he's here, most of the people are against him. How is he going to carry on? If he's not careful, he's going to fight!"

"If we really fight, he'll definitely lose! So many families, if we fight together, he'll definitely lose."

...

In such a tense atmosphere, an imminent war was about to break out.

Faced with the pressure of the True Energy's aura, Fade was not afraid at all. He immediately launched an attack.

18:35 

In an instant, a series of crackling sounds were heard, and then screams soon followed. Under the attack of Fade, three or four people fell to the ground in a few seconds, howling in pain.
