

Chapter 1641

Fade's attitude enraged Narvel. "Don't push it, Mr. Chen. Do you really think I'm afraid of you? I've been in the martial arts world for dozens of years, and I've never been afraid of anyone."

"Do you want to fight?" Fade raised his eyebrows and took a step forward fearlessly. "If you are willing to fight with me, I don't mind playing with you."

"You... You're too arrogant..." Narvel was really furious. At this time, he had no time to care about the guardian's warning. The positive energy aura on his body burst out, and he was ready to fight with Fade.

Fade was not polite with him either. His aura was surging, and he was about to start a fight with Narvel.

When Tarmon saw this, he was puzzled. He did not expect Fade to be so bold as to even provoke Narvel and start a fight with him.

Just as the two of them were about to fight, the ringing of a mobile phone broke the silence of the scene.

Narvel, who was full of anger, couldn't help but be taken aback. He then took out his cell phone, glanced at the number, and his expression changed. He didn't care about Fade, and directly picked up the phone. "Master Zou, I..."

On the other end of the phone, Master Kinsley Zou said in a steady voice, "Mr. Xu, don't fight with Fade. If he has any requirements, just satisfy him."

18:38 

Narvel didn't expect the guardian to call at this moment and say such a thing. He couldn't help feeling a little wronged and resentful. "Master Zou, I have already done what you said, but Fade has gone too far. He killed Ceylon in front of me, and now he is interrogating me about Chrystal's incident."

Hearing this, the person on the other end of the phone could not help but fall silent.

Narvel thought that the guardian was also furious, thus he continued, "Master Zou, we can't retreat again and again in the face of such an arrogant person. Otherwise, Wushuang Tower would just be bullied by him. If word gets out, our reputation will be ruined! Master Zou..."

However, what Narvel did not expect was that, on the other end of the phone, Kinsley did not seem to be enraged at all. Instead, he said calmly, "If he wants to know about what happened to Chrystal, you can tell him."

"Master Zou, that's the secret of our clan. How could we..." Narvel was puzzled.

"It is indeed a secret of our clan but it's not something that we can't afford to tell him. Furthermore, it happened so many years ago, so it doesn't really matter to us anymore."

"But... Master Zou, I still don't understand. Why do you want to back down? Even if that kid is powerful, I won't lose to him. We are the Heaven Level Wushuang Tower. How can we..." He was filled with anger and confusion.

On the other end of the line, Kinsley fell silent again. Then, he lowered his voice and said, "Mr. Xu, there is something that I don't want to tell you, but now, I don't think I can keep you in the dark anymore."

"What is it?"

"Mr. Chen is the disciple of that master."

18:38 

"Who's that person you are referring to?" Narvel didn't come to his senses for a moment.

"The one in the legend."

Hearing this, Narvel's expression changed. "That person, the one ranked first on the Divine Dragon List, the one who broke through the Heaven Level. How could he..."

"That's the truth. Now, do you know the reason behind my actions? Tell him the whole story. Don't hide anything, and don't start any conflicts."

After that, Kinsley hung up the phone, and Narvel also put away the phone silently. Then, his positive energy dissipated, and he seemed to be a little depressed. He stared at Fade and said, "I can tell you what you want to know."

Fade nodded as he withdrew his positive energy. Then, he turned to Tarmon and said, "Master Lin, please prepare a guest room."

Tarmon was dumbfounded for a moment. Soon after, he regained his senses and nodded his head hastily, "Yes, yes, I will go prepare it immediately."

Just now, he seemed to have faintly heard something about the number one on the Divine Dragon List and breaking through beyond the Heaven Level. These words were definitely shocking to him.

He did not expect that Fade would be related to such a big shot. Meanwhile, his heart was ice-cold and he was extremely terrified. At the very same time, he was glad that he was not the person fighting Fade. Otherwise, his Lin family would have been in ruins now.

Soon, the guest room was ready, and Fade and Narvel entered.

18:38 

Narvel looked at Fade with complicated emotions in his eyes, and then he said slowly, "The Chrystal you mentioned is indeed a disciple of our Wushuang Tower. Back then..."

Following Narvel's explanation, Fade imagined what happened back then.

Chrystal was an orphan. She was found by a disciple of Wushuang Tower. Back then she was just a kid, thus they brought her back and raised her. Later, they found out that she was talented in martial arts, and they put in a lot of effort to train her.

When she was 20 years old, Chrystal had quite a reputation among Wushuang Tower's disciples. Her strength was quite promising, and she was trained to be the future leader of the clan.

However, in the following few years, she traveled and became acquainted with Daniel. They traveled around together and fell in love with each other quickly. Soon, they began to discuss their marriage.

After learning about this matter, Wushuang Tower opposed their marriage even though Daniel was from the hidden Lin family and he was considered to have quite a good family background.

However, he didn't have much talent in martial arts, and even within the Lin family, he was not considered the best candidate. As for Chrystal, she was a genius in Wushuang Tower. Besides, the Lin family and Wushuang Tower had quite a huge gap.

Therefore, Wushuang Tower strongly opposed their marriage and they wanted Chrystal to return to the clan. However, she refused firmly and vowed to be with Daniel.

The clan was furious. They almost wanted to send people after her and bring her back.

Perhaps it was due to the fact that Chrystal was traveling alone and she was nowhere to be found. Thus, they could only delay the matter.

18:38 

Two months later, when Chrystal returned, her martial arts had improved a lot. She had broken through the Earth level and reached Heaven Level, and she was officially a Martial Arts Master.

Back then, Chrystal was only 23 years old when all of this happened. At such a young age, she had reached Heaven Level, thus naturally, she attracted people's attention. This made Wushuang Tower oppose the marriage even more, and they wanted to bring her back to the clan.

However, just when the clan was just about to act, someone suddenly broke into Wushuang Tower and strongly demanded that they mustn't bring Chrystal in. At the same time, they also asked for her whereabouts.

Such a rude request was naturally opposed by #Wushuang Tower. They started a fight, but the other side's strength was out of their expectation, and he successively defeated more than a dozen masters of Wushuang Tower.

In the end, the guardian, Kinsley, came forward and fought with the man. The two fought fiercely for a whole day, and finally, they both ended up injured. Then, the man left, and Kinsley announced that he would expel Chrystal from Wushuang Tower. From then on, she was no longer in Wushuang Tower's care.

Chapter 1642

When he made this decision, everyone in Wushuang Tower was shocked; even the elders opposed this decision. Back then, Narvel, the deputy guardian went to look for Kinsley and requested him to withdraw this order.

After all, Chrystal had become a Martial Arts Master at such a young age. She had a bright future ahead of her and no one was willing to give up on her so easily.

On the other hand, if word spread out, Wushuang Tower's reputation would suffer a huge blow. An anonymous man just came marching into their clan and had defeated a dozen of their disciples. It would not look good for them if rumors were to spread out.

Although everyone was opposed to this decision, Kingsley was determined, and he insisted on not withdrawing his decision.

After this incident, the Lin family was also threatened. It must have been the same group of people who opposed Daniel and Chrystal's marriage.

Then, the two fled from Capital City and they started their own family in a small rural town.

It was only until sixteen years later when Quin grew up, that Daniel suddenly died and Chrystal suddenly disappeared.

To the outsiders who didn't know much about it, they assumed that it was just a coincidence. However, the people of Wushuang Tower knew that someone must be behind all of this.

18:38 

A few months after Chrystal's disappearance, she suddenly returned to the Wushuang Tower with severe injuries one day. Although she had long since been expelled from Wushuang Tower, back then, a lot of people were still confused. In addition, she had reached the Heaven Level already and was not one to be meddled with.

Therefore, Wushuang Tower secretly brought her in and treated her wounds.

After Chrystal's body had recovered, the elders of the clan came and asked what actually happened.

She was injured at that time, and coupled with her husband's death, she was filled with rage. She didn't want to mention it, and she simply just said that she had offended a master and they wanted her dead.

Now, she wanted to ask for the clan's help to avenge her husband's death, and she was willing to bear the responsibility.

After receiving the news, many of the higher-ups of Wushuang Tower still supported Chrystal. They wanted her to return to the clan and they decided to help her with her revenge. To them, this was nothing hard because Wushuang Tower was still a Heaven Level clan. Thus, it wasn't something hard for them to defeat the enemy.

However, just as everyone was discussing if they should take Chrystal in. The guardian, Kinsley appeared, and he was determined to drive her away. At that time, many pleaded for mercy, but the guardian still insisted on driving her away.

At the last moment, Chrystal handed a pill over to the guardian. She said that she was willing to exchange this pill for her to be accepted in the clan, and that she wanted help with her revenge.

Initially, the higher-ups didn't think that there was anything unique with this pill, but upon further inspection, it was actually the Nine-blood Pill. This was a peak stage Heaven Level pill.

18:38 

The properties of this Nine-blood Pill were astonishing. It contained a rich amount of positive energy and vitality, and this could actually help a Heaven Level martial artist to break through to the legendary Lord Level.

With such a precious pill, even Kinsley, who was determined to drive her away, changed his stance, and his tense expression seemed a little relaxed.

After all, he had been stuck at the peak stage of Heaven Level for a decade now. He was eager to improve himself and reach the legendary Lord Level.

However, after giving it some thought, he wanted Chrystal to explain what had actually happened before he could accept her request.

Back then, she was still severely injured and she was eager to avenge her husband. Thus she had no other choice but to explain it to Kinsley.

Later, Kinsley and Narvel, as well as a few of the higher-ups of Wushuang Tower, learned the entire story from her.

When she went out to travel before she got married, she passed an isolated island and found that there were some evildoers carrying out a blood-drawing ceremony on the island. Chrystal, who was enraged, acted rashly and killed every one of the evildoers.

After she destroyed the blood-drawing ceremony, she stumbled upon a small box on the blood-drawing altar containing three pills inside the box.

Back then, she had already reached the peak of Earth Level. Although she did not know what these pills were, she could feel the boundless positive energy and vitality in them, and she knew that these things were rare items.

18:38 

Therefore, she left with three pills.

However, before she returned to Capital City, she was hunted down by a huge group of evildoers and this time, they were stronger than the last group. In the end, a Heaven Level master appeared.

It was only after this matter that Chrystal realized that she had offended some sort of organization and disrupted their blood-drawing ceremony. That was why she was being pursued to this extent.

In the process of fleeing, she took a pill, and her injuries quickly recovered. Concurrently, her strength skyrocketed and she broke through Heaven Level. With this, she successfully returned back to the country.

The people going after Chrystal seemed to be afraid of entering the country. After they reached the border, they didn't dare to enter the country rashly to kill her. As for Capital City, it was the capital of the country, thus it was impossible for them to just come in brashly.

That was the reason why Chrystal's strength had skyrocketed so drastically.

However, even though the other party didn't dare to hunt her down publicly, they secretly did some tricks in the dark. They constantly pressured the people around her and this was the reason why the Lin family and Wushuang Tower were targeted.

Then, Chrystal and Daniel left Capital City and fled to a rural place after their marriage.

After the wedding, she started to put more emphasis on her life and she slowed down on her martial arts. However, that pill's effect was promising, and thus, she had reached the peak level of Heaven Level.

More than a decade had passed, and Chrystal had also secretly investigated the people who had tried to hunt her down. However, without the support of Wushuang Tower, and coupled with the fact that she was unwilling to contact any of her friends,

18:38 

it was hard for her to get any information on them.

Since she couldn't find any news about them and no one was hunting them down, she thought that this thing was over.

However, she didn't expect that when Quin was sixteen years old, they came looking for them again and they killed her husband; they even tried to catch her.

Chrystal escaped in the nick of time and she fled back to Wushuang Tower.

Later, Kinsley also told her that the other party had broken into Wushuang Tower and defeated a dozen of their disciples. He was naturally displeased with this and thus, he wanted to teach them a lesson.

However, after the fight, Kinsley was surprised to find that the other party's strength was on par with his. They were both at the peak of the Heaven Level.

As such, he wasn't afraid of the other party. After all, the grand Wushuang Tower had so many disciples who were not afraid of their threats. However, at the last moment, the other party revealed that they had someone named Dark Dragon and he had reached the Half-lord Level.

The so-called Half-lord Level was the level between the peak of the Heaven Level and the Lord Level.

Chapter 1643

It was extremely difficult to reach the Lord Level. Many people had been stuck at the peak stage of Heaven Level for most of their lives, and they died before even reaching Lord Level.

Therefore, for hundreds of years, countless Heaven Level martial artists tried different methods to break through into the Lord Level. Some tried to enhance their absorption of positive energy, some tried to train their body to their limits, and some even cultivated their souls and detached themselves from worldly matters.

Under various attempts, there were indeed some who were capable of improving their combat abilities and breaking through the peak stage of the Heaven Level. However, they were still far from reaching the Lord Level and thus, these people were called Half-Lord Level experts.

Although a Half-Lord Level expert could not be compared to a true Lord Level master, those who were able to reach this stage were incredibly powerful. They could crush peak stage Heaven Level masters with ease.

Meanwhile, Chrystal had stolen three Nine-blood Pills away from the island. These pills were originally prepared for this Dark Dragon, for him to break through into the Lord Level, and these pills had been meticulously prepared for decades.

However, she took away his pills and she also took one for herself. This naturally provoked Dark Dragon and it enraged him. Thus, they hunted her down.

Back then, it was due to Dark Dragon's threat that Kinsley disregarded the entire clan's commotion and insisted on expelling

18:39 

Chrystal out of the clan.

After all, when facing a Half-Lord Level expert, Wushuang Tower was no match for him.

However, sixteen years had passed and Chrystal returned once again. Kinsley's strength had improved by leaps and bounds, and he had a deeper understanding of the Half-Lord Level. Even though he was still worried, he wasn't as worried as he used to be.

Furthermore, the other reason was the Nine-blood Pill that Chrystal possessed.

Back then, she had stolen three Nine-Blood Pills and she had taken one for herself. Now, there were two left.

These Nine-blood Pills were prepared for a Half-lord Level expert for decades. How could Kinsley not be intrigued?

Therefore, when he heard that Chrystal was willing to hand over the Nine-blood Pills for their protection, and for them to help her with her revenge, Kinsley naturally wouldn't oppose this.

Therefore, she took out a Nine-blood Pill and gave it to him. She stayed in Wushuang Tower to recover while asking someone to investigate Dark Dragon and his organization.

Of course, for their safety, the matter regarding Chrystal returning to Wushuang Tower was kept a secret.

Several years later, she had recovered from her injuries. After taking the Nine-blood Pill, Kinsley's combat power had improved even more. He was faintly considered a Half-Lord Level expert.

Under these circumstances, he naturally found it hard to suppress the eagerness in his heart that he wanted to push his boundaries. As a result, he had his sights fixed on the last Nine-blood Pill.

Meanwhile, Chrystal also knew that this last Nine-blood Pill was the last thing that she could use to negotiate. In addition, over

18:39 

the years, she had indeed gained some information about that Half-Lord Level expert, Dark Dragon.

Therefore, she asked the clan to help her with her revenge and she promised Kinsley that she would hand over the last Nine-blood Pill if they had successfully defeated Dark Dragon.

On the surface, Kinsley agreed, but since he still had a gap before he could reach the Half-Lord Level and Dark Dragon had always been a Half-lord Level expert for so many decades, he was unwilling to take the risk.

Therefore, instead of trying to defeat Dark Dragon, Kinsley tried to force Chrystal to hand over the last Nine-blood Pill.

She naturally did not agree. This went on for more than a year. She realized that the guardian had no intention of helping her with her revenge. He just wanted to get a hold of the last Nine-blood Pill. Thus, she pretended to agree and she took the opportunity of saying that she would go and take the last Nine-blood Pill to flee Wushuang Tower, disappearing forever.

Kinsley was naturally unwilling to give up. Thus, he ordered everyone in Wushuang Tower to look for Chrystal and look for anything that was related to the Nine-blood Pill.

However, this matter was related to a Half-Lord Level expert, hence Wushuang Tower didn't dare to make a big fuss about it. They could only carry it out secretly. However, Chrystal was a bright person. After recovering her strength, she was so close to becoming a peak stage Heaven Level expert, and her strength was formidable. Therefore, Wushuang Tower had no luck in finding her.

Therefore, after many years of searching, they still came home empty-handed.

After hearing this, Fade couldn't help but be silent and sigh. He didn't expect that his mother-in-law would be involved in so many thrilling events.

18:39 

He suddenly thought of something. He glanced at Narvel and asked, "So Wushuang Tower changed their token and sent Santos to Dragonville to investigate Quin. The reason you brought her in this time was because of Chrystal, or can I say, for the Nine-blood Pill."

Narvel's expression changed. He immediately nodded and said. "That's true. The reason why we changed the token back then and took the old one back was precisely to search for clues. That's because back then, Chrystal did indeed use the token to leave behind some clues."

"This time, the reason we brought Quin in was to lure Chrystal out."

Hearing this, Fade's face changed, and he had a bad impression of Wushuang Tower and Kinsley.

Suddenly, he thought of something and immediately asked, "Was it you or Dark Dragon who planted the Ice Lotus in Quin's body when she was 18?"

Looking at Fade's increasingly gloomy face, Narvel hastily waved his hand and explained, "We definitely wouldn't do such a thing. No matter how outrageous our Wushuang Tower is, Chrystal is still our disciple. We would never do such a thing."

"Back then, we sent people to secretly keep an eye on Quin. We were supposed to protect her, but when she was 18 years old, a Heaven Level expert suddenly appeared and attacked her. We couldn't stop him in time, thus, this is the reason why that happened."

"Is it because you couldn't stop it in time or you deliberately let it happen so that you could use this to lure Chrystal out?" Fade uttered with a cold snort. Seeing what Wushuang Tower had done up until that moment, he couldn't help but expect the worst of them.

18:39 

Narvel quickly waved his hand. "No, no, it's not like that. We definitely didn't do it on purpose. It was because we didn't have enough manpower back then. We really didn't expect the other side to send a Heaven Level expert."

"According to our later investigations and speculations, Dark Dragon should be responsible for this. After all, when Chrystal took the Nine-blood Pill, her daughter's bloodline might still be effective. That's why he sent people to plant the Ice Lotus to absorb the power of the bloodline. Of course, these are only our guesses. We don't have concrete evidence yet."

When Fade heard this, his face was gloomy, but he also nodded slightly. Narvel's assumptions were very likely to be true. That person was most likely sent by Dark Dragon and the Skull Mob who had been appearing countless times. This matter was definitely related to Dark Dragon.

Thinking of this, his face couldn't help but sink, and his expression became more and more gloomy.

Concurrently, Narvel felt the horrible pressure and aura emanating from Fade's body, and he couldn't help but tremble. His strength was stronger than he had expected.

After a moment of silence, Fade finally got up. He stared at Narvel and uttered indifferently, "You can go!"

Hearing that, Narvel breathed a sigh of relief. He wiped the sweat from his forehead, got up in a hurry, and left.

Just as he was about to walk out, Fade shouted, "Go back and tell your guardian, I'll remember what happened. When I'm free, I'll go to Wushuang Tower to figure it out!"

Narvel didn't dare to say much. He could only nod his head and leave in a hurry.

Chapter 1644

The sun had completely set, but Narvel didn't want to stay any longer. He left in the middle of the night with Eirian.

Eirian initially thought that with the arrival of the deputy guardian, they would be victorious. He thought that he could have his revenge on Fade and teach him a lesson.

As a result, when Narvel finally returned, he received the news that his grandfather had been killed by Fade, and Wushuang Tower had handed Quin back to him.

This was not the outcome he had expected.

When they were about to leave the hidden family, he finally couldn't hold it in and asked Narvel, "Master Xu, my grandad was killed by Fade and he also took away our hostage. Is our Wushuang Tower really that weak?"

Narvel glared at him and uttered coldly, "I said don't bother about these things. Now, let's go back to the clan and we can talk about it later."

Eirian felt both aggrieved and furious. His grandfather's death, as well as his own injuries, made him burst into a rage. "Master Xu, you're the deputy guardian of Wushuang Tower. Now, one of the masters of the external clan has been killed and you let him escape. Do you and Fade have some secret relationship?"

He didn't care about anything else and he asked these questions boldly.

18:39 

Hearing this, Narvel's face darkened and his expression turned livid. His anger surged, and he almost couldn't help but slap Eirian. However, at the thought of Ceylon who had just died, he suppressed his anger.

Then, he stared at Eirian angrily and said, "Things turned out to be more complicated than I thought. Don't overthink and just follow me."

Meanwhile, Eirian also had a stubborn temper. He was rooted in place and did not move. "If you don't explain why you let Fade go, I won't go back with you. Otherwise, my grandfather will die without getting justice."

"You..." Narvel suppressed the rage in his heart and glared at him, saying, "I can tell you that this is the guardian's order."

"The guardian's orders? No, it's impossible. My grandfather was a master of the clan and had devoted his life to the clan for so many years. How can the guardian be indifferent to his death?" Eirian still didn't believe it.

Narvel was a little frustrated. He uttered angrily, "Do you think I really care about you? It's just that you are Master Sun's grandson. Or else I would have left you to Fade and you would be long dead by now. Don't be ungrateful."

"You..." Eirian still had things to say.

Narvel frowned and interrupted him, giving him no chance to say anything. "That's it. If you want revenge, you can go back by yourself. However, let me warn you first, the clan is not going to help you."

After that, he continued to stride forward without waiting for Eirian's response. In the blink of an eye, he had walked ten meters ahead.

Eirian turned his head and looked at the well-lit hidden family valley behind him. He gritted his teeth and his eyes sank. Finally, he caught up with Narvel.

18:39 

No matter how dissatisfied or furious he was, logically speaking, he knew that Master Xu was forced to retreat. Fade was not someone whom he could defeat.

Therefore, he'd made up his mind to wait until he returned to the clan and recover from his injuries. He would find a way to report this matter and have his revenge.

However, what he didn't think of was that when he returned to Wushuang Tower, it would be even more impossible to get his revenge on Fade.

.....

Meanwhile, after Narvel left, Fade sat alone in the room for more than half an hour and he started recalling the entire scene in his head.

Just as he was deep in thought, there was a knock on the door. Tarmon's voice rang out from outside the door, "Mr. Chen!"

"What's the matter?"

Tarmon respectfully replied, "Mr. Chen, President Lin has woken up. I thought..."

Without waiting for him to finish his sentence, Fade was extremely excited upon hearing this news. In the blink of an eye, he stood up from his seat, rushed to the door and opened it. "Quin has woken up?"

"She just woke up. The servants are currently taking care of her," Tarmon bowed to her and answered.

"I'll go and have a look!" Fade immediately rushed out.

Soon, they arrived at the guest room. Fade, who was extremely excited, slowed down and he silently entered the room.

18:39 

A young maid who was just done serving Quin saw him enter. She was shocked as she greeted, "Mr. Chen..."

He quickly made a shushing gesture and then motioned for her to leave the room. Then, he gradually walked to the bedside.

At this very moment, Quin had just finished drinking the water and was lying on the bed with her eyes closed. Perhaps it was due to the effect of the poison, but her face was still slightly pale and she was frowning.

Seeing this, Fade felt a strange heartache. He stood by the bed for a moment and did not dare to get close to her.

Quin, who was lying on the bed, seemed to have sensed the movement in the room. She opened her eyes and turned her head to look over.

Thus, she saw Fade standing by the bed at a glance, and countless thoughts instantly flooded her mind. For a time, countless emotions were surging, and she seemed to have thousands of words in her mind. However, she was stuttering, and she found herself speechless. "This..."

Seeing this, Fade rushed over and sat by the side of the bed. He said with concern, "Quin, rest first. Don't move if you're not feeling well."

Feeling a familiar warmth and embrace, Quin couldn't help but feel her eyes tearing up. Then, she burst into tears.

At the sight of her tears, his heart ached. "Quin, I've let you suffer. It's all my fault. I didn't come looking for you earlier, I..."

She shook her head and chuckled. "No, it's my fault. I didn't say goodbye. I'm sorry."

"No, it's my fault. I care too much about you and that is the only reason why the Lin family was able to take you away."

"You can't be blamed. It was my fault, I..."

18:40 

Seeing this, Fade couldn't help but chuckle. "If we continue this, it's not going to end. It's no one's fault. Everything is back to normal now."

Quin was touched hearing his words. She smirked as she buried her head in his embrace and lightly murmured, "It's alright, everything is fine now."

"By the way, Quin, do you find anything wrong with your body?" Thinking of this, he could not help but feel worried. He quickly checked her pulse.

Fortunately, after a thorough examination, other than her body being slightly weak, there was nothing else wrong with her body.

Chapter 1645

Lying in Fade's embrace, Quin asked, "Fade, why are you here? I never thought that you would come here. I thought that we would never see each other again."

Hearing this, he grabbed hold of her slender hand, stared into her eyes, and said firmly, "You're my wife and always will be. It's impossible for us to not see each other."

Immediately, he explained to her how he discovered everything, how he came to the hidden family, and how he saved her from Wushuang Tower.

Although he lightly explained his journey here and the fights he was involved in, she could imagine the hardships and dangers he encountered along the way.

Her face was gloomy the moment she thought of this. With a hint of guilt on her face, she whispered, "I'm sorry, it's all my fault. I've put you in danger."

"You're my wife, so why are you apologizing to me?" Fade put his finger on Quin's lips and immediately changed the topic, "By the way, Honey, tell me what happened back then. Why did you suddenly leave?"

At the mention of this, her expression turned gloomy and she started to explain.

In fact, ever since she was sixteen, with the death of her father and the disappearance of her mother, she had never given up on

18:40 

finding news about her parents. However, she couldn't seem to find any information.

Later, with Fade by her side and with the expanding of the company's business, she was more focused on her work.

However, back then, after he cured her illness in Jade City and she returned to Dragonville, unexpectedly, someone claimed to be her uncle.

In the beginning, she didn't believe him and thought that it was just a scam. However, later on, the person revealed more information and more evidence, proving that he was her uncle. She had no other choice but to believe him and that person was actually her uncle, Moon Lin.

After confirming his identity, Moon asked Quin to return to the hidden Lin family but she didn't want to give up what she had. Thus, she refused.

She thought that the matter had come to an end, but what she hadn't expected was that after her uncle, Moon, failed to persuade her, he forced her back to the Lin family.

Meanwhile, when all of this was happening, Quin finally figured out how powerful the hidden family was and the Lin family's true strength.

Therefore, when Moon finally threatened her with Fade's life, she had no choice but to give in. She agreed to return to the Lin family. After all, back then, she knew that his strength was formidable but it was still not on par with the hidden family.

In order to keep him from danger, she left a letter on New Year's Eve and she left Dragonville. She came to Capital City and the Lin family.

After arriving at the Lin family, her life had been boring. She was practically quarantined in the Lin family manor and she couldn't

18:40 

do anything. She wanted to know more about her parents, but the family kept it a secret and didn't want to talk about it at all.

That was until recently when people from Wushuang Tower came to negotiate with the Lin family. Quin was unaware of this until she was sent to Wushuang Tower as a negotiation item.

She initially thought that the Lin family would provide her with a home, but she was now extremely sorrowful. She wanted to kill herself, but she was stopped at the last minute and was sent to Wushuang Tower.

Then, Fade found his way into the hidden family.

After hearing this, Fade couldn't help but frown and sigh with emotion. He held Quin's hand and said, "Honey, your husband is the best martial artist in this world, so no one can harm me. Next time don't ever do this kind of dumb thing."

She nodded. Then, as if she thought of something, she asked, "Does Wushuang Tower want me because of my mother?"

When she asked this question, he couldn't help but be taken aback.

Originally, he was reluctant to tell her about Chrystal. After all, it involved a lot of the best martial artists in the country and even the entire world. Thus, he was afraid that his wife would be in danger.

However, on second thought, he had to tell Quin these things sooner or later. After all, this involved her parents, so keeping her in the dark was not the best way to protect her.

Thus, after sighing, he told her everything that happened to her parents twenty years ago.

The more she listened, the more frightened she was, and the more gloomy her expression became.

In the end, when Fade was done explaining it to her, she fell into complete silence. The muscles on her face trembled slightly.

18:40 

She had all kinds of emotions written on her face. There was shock, anger, lament, and countless more.

Fade saw this and gently hugged her. He said softly with a firm tone, "Honey, trust me. I will definitely avenge my father-in-law and I will look for my mother-in-law. I'm going to figure out who that Dark Dragon and his organization is."

She nodded. She looked at him and said in a firm tone too, "I believe in you."

At this point, a gust of night breeze blew in, and then, it started to drizzle. Gusts of cold air rushed in through the window.

Fade raised his head and glanced at the darkness outside. He gently waved his hand, closed the window, and then gently pressed Quin down. He said in a soft voice, "Honey, it's late. It's time to rest."

She nodded her head. Then, she noticed that Fade had laid down beside her as if he was going to sleep beside her.

All of a sudden, she glared at him with her beautiful and big bright eyes. "What are you doing?"

He pretended not to hear her, pulled the quilt, and continued to slide into the bed. "Sleep! Honey, it's getting late. It's time to go to bed."

"Don't mess around." She firmly covered her body with the quilt and stared at him with a slightly nervous look.

"I'm not messing around. I'm going to sleep. Don't mess around!" He chortled and said hurriedly as he crawled into the bed.

However, it didn't take long for Fade's hand to reach out and feel for Quin's body.

"What are you doing?"

He cheekily said, "Honey, you've suffered a lot during this period of time. I'll check your body and see if you're hurt."

18:40 

"Wasn't I checked just now?"

His big hand continued to reach deeper into the quilt. "Just now, the diagnosis was not very accurate. Now, I have to feel it up close. I need another accurate diagnosis."

As he spoke, his hand came into close contact with her body.

Concurrently, Quin's face was flushed red and she was not able to speak properly. Her whimper was accompanied by the sound of drizzling outside the room.

Chapter 1646

The next day at noon, Fade and Quin reluctantly got up from their warm and comfortable bed.

After the two of them washed up, they ate breakfast with the Lin family. Soon after, Tarmon respectfully came over and reported that there was a group of people at the entrance wanting to meet him.

Fade glanced at the door and found that all of them were representatives of the hidden family.

Among them, a few, who were standing in the front, were particularly eye-catching.

This was because each and every one of them was naked from the waist up. There were thorns tied to their backs, and their backs were stained with blood. It turned out to be a roleplay; they were begging for forgiveness.

Moreover, these people were all people he was familiar with. They were from the Pei, Hsing, Chiang and Lei hidden families.

"What are you doing?" Fade stared at them and asked indifferently.

The leader of the Lei family suddenly knelt on the ground and hurriedly said, "Mr. Chen, the Lei family was blind to offend you. We know we've made a mistake. Mr. Chen, please forgive us."

Following the Lei family, everyone else quickly knelt down and began to apologize and admit their mistakes.

"The Pei family was wrong. Please punish us."

18:40 

"The Hsing family was also at fault. Please, we beg for forgiveness.!"

"The Chiang family has realized their mistakes. Mr. Chen, you have to punish us!"

.....

Seeing them on their knees, Fade thought about it and immediately knew what had happened.

It was likely that news had spread that Narvel of Wushuang Tower had failed in taking down Fade. This group of people had their hopes on Narvel to defeat him.

However, they didn't expect even Narvel to retreat. They realized how serious this was and they knew that they weren't a match for Fade.

Therefore, they came to the Lin family's entrance early in the morning, begging for his forgiveness.

As for the other hidden families who didn't offend him, they also rushed over to curry favor with him.

After all, it could be seen how terrifying Fade was if Narvel was forced to retreat. On top of that, he was the chairman of the Elder Council of the hidden family. Naturally, they had to come over and congratulate him.

As for these things, Fade was well aware of them.

Now that his wife was back safely and the two had had a fun night, he was in a good mood. He didn't want to hold grudges against them. After all, it was instinct to avoid making enemies. He could understand their motives; as long as they were not being unreasonable, he would close an eye to this.

Of course, because they had come to him themselves, he had to put up an act and show them his attitude.

18:40 

Fade swept his gaze over the crowd below, then cleared his throat and said in a clear voice, "I've witnessed your intentions. All of these, I will keep in mind."

"As the new chairman of the Elder Council, I can assure you that if you abide by the rules, all of you will develop better than before."

"Of course, if you go against the rules and play those tricks of yours, I'll definitely punish you severely. As for my strength, I'm sure all of you have witnessed it yourselves, so I don't have to elaborate on that anymore."

Upon hearing this, many people started having flashbacks on how Fade slowly but surely defeated anyone who stood in his way. They shivered the moment this thought flooded their minds, and they shook their heads, indicating that they would not try any of their tricks ever again.

Seeing this, Fade nodded his head and said, "In that case, let's work together and expand the Elder Council. If we work together, the hidden family might actually become the fifth Heaven Level clan."

Speaking of this, his expression was determined and proud, giving one the impression of inexplicable confidence; it suddenly made everyone very pleased.

"We believe in you, Mr. Chen!"

"Long live Mr. Chen!"

"The almighty Mr. Chen."

.....

18:40 

The scene was very lively as everyone cheered.

Soon, Fade asked them to leave.

After that, he went to the Elder Council and dealt with some of the matters. After all, it was impossible for him to continue staying in this hidden family and continue being the chairman.

He had to find someone to replace him as the acting chairman.

He had quite a good relationship with the Zhu family but Keeran was too weak, and he wasn't suitable to be his replacement. The Hsing family was another candidate that he had in mind, but back then, Shergius was myopic, and he drove Fade and Harmon out. Thus, he did not want them as his replacement. 2

Therefore, after some consideration, it seemed like the Lin family was the only one suitable for this position.

Even though they were not pleased with Fade before, Quin's mother was part of the Lin family. They were also completely intimidated by his strength and background, hence they no longer dared to play any of their little tricks. Furthermore, Tarmon was considered powerful enough to be his replacement. Hence it was only appropriate for Fade to hand over his position to him. 2

In the end, Tarmon was puzzled and he was confused the moment Fade asked him to become the acting chairman. He had mixed emotions when Fade handed him the position.

After all, the Lin family had spent a ton of effort just to compete for this position. However, unexpectedly, they handed Quin over to Wushuang Tower and they offended Fade. This action nearly caused their family to collapse.

Despite this, who would have thought that after everything that happened, the acting chairman position fell back to the Lin family. This gave Tarmon indescribable feelings.

18:40 

In the end, after everything was dealt with, Fade took Quin back to Capital City.

During the journey back, the two of them weren't in a rush. They gradually took their time there.

There were times when they took the train, sometimes they rented a car and drove themselves, and when they found a relaxing spot, they would just rest there for a day or two.

The journey back to Capital City had become their reunion. They enjoyed the scenery on their way back, as well as admiring the people they met there.

In the end, it took the two of them more than ten days to return to Capital City.

With Quin by his side, it was inappropriate to stay in the university's dormitory. Thus, when Fade was on the way back, he asked someone to buy a villa in Capital City.

Meanwhile, he also specially invited Housekeeper Wong from Dragonville to Capital City to decorate the villa as much as possible to make it look like the house in Dragonville City.

Therefore, the moment Quin stepped into this new house, seeing that it looked identical to their old house, she was moved and she started to tear up.

After staying in the new home for a day, she got used to this familiar yet unfamiliar new house, and recovered from the fatigue of the trip.

The next day, Fade and Quin held a small banquet. They invited their close friends and relatives to join them to celebrate her return.

Chapter 1647

Quin's friends were also present at the banquet - Lily, Yuri and Melanie. On the other hand, Fade also invited friends he met in Capital City such as Joey, Moore, Joey's dormitory friends, Yankee, one of Fade's disciples, Jasmine, and many more.

They all had mutual friends, and everyone soon became familiar with each other. Then, as they dined, they talked about the journey Fade went through in Capital City while Quin was not by his side.

He had a smile on his face as everyone talked about his achievement.

This meal lasted for three whole hours and afterward, everyone reluctantly took their leave.

After the meal, Fade initially planned to have a chat with his wife. Unexpectedly, she followed Lily and Yankee to the Capital City branch of Fei Enterprises Holdings Inc.

Concurrently, he sighed upon seeing that his wife was still a workaholic. She had been gone for half a year but the moment she came back, the only thing on her mind was work.

He didn't stop her. This was her hobby, so he was going to support her.

Thus, he drove to the company and waited for his wife downstairs.

After two hours, Quin came out of the company. Seeing this, Fade hurriedly drove the car over and said, "Honey, you are done. Get in the car!"

18:40 

"Why are you here?" She was a little dumbfounded. "Don't tell me you've been waiting downstairs all this time?"

He got out of the car and opened the door for his wife. He smirked and answered, "Of course, I'll wait for my wife. Honey, quickly get into the car."

She was touched the moment she got into the car.

He chatted with her while he drove the car, "Honey, I can understand why you want to go back to work right away and I don't oppose this. However, your body needs to rest. You can't work like before and not care about your own health. This is straining your body."

"Yes, I understand. I won't work like before." She nodded.

He was a little taken aback by how obedient his wife was. He couldn't help but be puzzled, but then he was worried that his wife was perfunctory. After all, when he advised her before, she had promised him many times.

Therefore, Fade continued, "Honey, I'm serious. Now, the company's business has developed by leaps and bounds, and many things have been handed over to the staff. You can't be as occupied as before. From now on, I will keep a close eye on you. If you don't get off work on time, I'm going to march into the company and take you away by force."

Quin turned her head and stared at her serious expression. She had a smile on her face.

Then, she nodded seriously and said, "Don't worry, I'm not going to be that way anymore."

"Really?" He turned to stare at her.

"Absolutely. Not only will I not be a workaholic like before, but I won't even go into the company in the future."

18:40 

"What!" This time, he was dumbfounded. "You don't want to work in the company? Honey, what do you mean by this?"

"What I mean is, I'm not going to be the chairman of Fei Enterprises Holdings Inc. You can continue to be the chairman."

"Before I left, I was worried that things would go south without me, but looking at it now, you are much more capable than I expected. The company has been developing well and you have expanded the businesses overseas and came up with the Fei Shipping Company. This is really impressive."

Hearing this, Fade still didn't believe it. "Honey, you also clearly know that I'm just holding the title of chairman, but in actuality I'm useless. It's still better that you become the chairman."

Upon hearing his words, Quin could not help but roll her eyes at him. "You asked me to have a good rest just now, but now you are forcing me to work for you. What do you mean by that?"

He hurriedly explained, "Honey, of course, I'm not telling you not to rest but I just can't comprehend why you don't want to be the chairman. You always liked doing business and if you don't become the chairman then what are you going to do?"

Upon hearing this, her expression became serious. After a moment of silence, she said, "I'm going to practice martial arts."

"What!" Fade stepped on the brakes and his head nearly slammed against the windshield. "Honey, what are you talking about? I misheard you."

"Pay attention to the road!" Quin glared at him, and then seriously repeated what she just said, "I said, I'm going to start practicing martial arts."

"Practicing martial arts! Honey, are you trying to practice martial arts and become a martial artist?" He turned his head to look at her in shock.

18:40 

She nodded seriously and said, "Yes, I want to be a martial artist."

"Th-This..." For a moment, Fade was really at a loss for words. He had imagined a lot of things but he didn't imagine his wife to ever want to be a martial artist. "Honey, are you serious?"

"I'm dead serious." Quin was determined and she glared at him. "Why can't I practice martial arts?"

"No, no. Of course that is not what I meant. It's just that I don't understand why you would suddenly want to practice martial arts. You were not interested in these things at all before."

She felt a little emotional and said, "Indeed, back then when I was still in business, I didn't have any interest in fighting and killing people. I thought that modern society is civilized and orderly and has detailed and civilized rules. As long as you abide by the rules, you can achieve anything sooner or later, that fighting and killing are only for savage civilizations, and will be obsolete by the civilized society sooner or later."

"However, ever since I went to the hidden Lin family, I gradually came in contact with martial arts. During that period of time, I witnessed a lot of battles, and I also understood the disputes and causes behind them."

"It turned out that the fighting and killing that I disregarded before had such a huge impact. It has a huge influence on civilized society."

"The rules of the civilized society were just like a thin piece of paper; it could be shredded at any moment. They're not worth mentioning at all."

"I only realized that all these fighting and killing are not the acts of a savage society, but martial arts is the foundation of this world. The strong will be victorious and the weak will be defeated. This is just how nature works."

18:40 

Hearing this, Fade was silent. Indeed, his wife gradually understood the nature of this world. 

Chapter 1648

Fade turned his head and stared at Quin. He was slightly worried. He was worried that his wife's mindset had changed too drastically and she had become too extreme. She was someone who believed in civilized modern society, but now, she believed that the strong would defeat the weak.

She seemed to have sensed that he was worried about her. She smirked and added, "Don't worry, I won't become a weak barbarian."

"Another reason why I want to practice martial arts is because I want to look for my mother and avenge my father."

At the mention of this, his heart jolted.

She continued, "That night, when you told me about my parents, I thought that if my parents were strong enough, their marriage wouldn't have been opposed by the Lin family and Wushuang Tower. If they were strong enough, my mother wouldn't have been hunted down by Dark Dragon, and wouldn't have been forced to beg for shelter from Wushuang Tower. If she was strong enough, she might have avenged herself and didn't have to hide anymore. She could come out and meet her daughter."

At the end of her sentence, she was holding back her tears.

Hearing this, Fade stopped the car and gently held Quin in his arms. He comforted her softly, "Honey, don't worry. I'm here, everything will be fine."

18:40

After comforting her, he said, "My dear wife, I promise to teach you martial arts. I'll teach you when we get back."

Hearing his words, she blinked her eyes. Then, she stared at him with a strange expression. "To learn from you? Are you sure you are up for the task?"

Seeing this, he immediately patted his chest and said, "Honey, I'm fine if you doubt anything else about me, but if I'm not good at martial arts then no one on this planet is good at it."

"Really? Why do I feel like you're bragging!" She glanced at him with a skeptical expression.

He immediately uttered with pride, "Honey, I'm not boasting. I tell you, I, your husband, am a master that has reached the peak stage of the Heaven Level. I am considered one of the best martial artists in this entire world."

"Moreover, your husband's master, Old Fogey, was even more impressive. He is ranked number one on the Divine Dragon List and legend has it that he has broken through the Heaven Level. This type of existence is considered extremely rare."

"With me as your master, you still dare to doubt me!"

Seeing how Fade patted his chest, Quin couldn't help patting him. She smiled and said, "Alright, stop bragging. Drive carefully. I'll learn from you."

When he saw his wife's reaction, he knew that the truth he just told was a lie in his wife's eyes. However, he did not continue to explain. He just smirked and continued to drive. Meanwhile, he joked, "Honey, after I teach you martial arts, you have to call me master in the future."

"Why don't you call me that right now?" His eyes rolled as he glanced at her.

18:40 

She immediately raised her slender hands and slapped him. "Hmph, you're bullying me. When we go back, I'll make you kneel."

He immediately cried loudly, "The apprentice is beating the master. How disrespectful!"

The couple, or the master and apprentice, quarreled the whole journey back home. When they reached the villa, Quin went to rest and Fade was occupied as he called his martial art friends to make preparations for his wife to learn martial arts.

After all, although his martial arts skills were impressive, he didn't have much experience with teaching. In addition, his wife wanted to start at this age, She was considered old for a beginner.

Therefore, he asked a lot of his martial arts friends for advice. Meanwhile, he also had to prepare medicinal materials in advance.

After all, his wife was starting martial arts late. If she wanted to improve by leaps and bounds, he had to prepare tons of herbs and medicine for her.

After some work, he immediately thought of something. He took out his cell phone and dialed a phone number. "Hello Old Fogey, are you asleep?"

"Wow, you're calling your master after so long!" Aldred answered the phone and then went on to say, "Kid, what have you been doing recently? I have to help you clean up the mess, and you have offended someone in Wushuang Tower. If it wasn't for me, you would have been killed by the people in Wushuang Tower and..."

"Okay, okay. Old Fogey, Master, let's not talk about these things. I have something important to tell you."

"What's the matter? Why do I have a bad hunch?"

18:41

"Old Fogey, don't worry. It's a good thing. It must be a good thing." Fade said, "Old Fogey, you have a grandkid apprentice."

"A grandkid apprentice?" Aldred was dumbfounded for a moment before he raised his voice by several octaves. "You've accepted a disciple, kid. How dare you accept a disciple with your lowly skills? Don't you dare tarnish my reputation. You little brat, I'm going to teach you a lesson when I descend from the mountain. You little fella..."

Fade hurriedly interrupted, "Old Fogey, don't be impulsive. The apprentice I mentioned is an exception. She is not just your grandkid apprentice but also your apprentice's wife."

"Apprentice's wife? What the hell..." Aldred was taken aback for a moment before he came back to his senses. "Kid, what do you mean? The apprentice you mentioned is your wife?"

"Yes, that's it. Old Fogey, now you know! Your apprentice's wife wants to learn martial arts. Master, regardless, you should make a statement!" Fade took the opportunity to make a request.

"You brat! I knew you were up to no good when you called me." Aldred scolded him furiously, but still asked, "Tell me, what do you need?"

"I don't need anything, just some top-level cultivation methods, Heaven Level pills, Heaven Level weapons and..."

"That's enough, that's enough. You brat, do you think I'm a treasure chest, that I have everything? Raising an unfilial apprentice like you cost me all of my assets." Aldred was furious.

"Master, Master, don't be mad. I'm just joking with you," Fade quickly said. "In fact, I don't really need much, I just need some cultivation methods. Do you have anything suitable for me?"

The cultivation method was the foundation of fighting and it was also to determine the limit of the martial artist. The more

18:41 

cultivation methods one possessed, the more powerful they were compared to people of their same tier.

Of course, a martial artist's physique had to be able to cope with the cultivation method. Otherwise, no matter how many cultivation methods one possessed, it would still be useless if one's body does not keep up.

For example, the "The Kong Fu of Jiu Yang" that Fade cultivated was considered one of the best cultivation methods. In terms of property, it was suited to his fire attribute. It could be said that they complemented each other, which was the reason why he could improve so drastically.

Chapter 1649

Now, Quin was a little old to start martial arts. Thus, Fade wanted to make sure that she chose the most suitable and the best cultivation method for her.

Although Aldred showed that he was still dissatisfied, he said that he would send Fade the cultivation methods the next day and that he could choose the one he felt was best for Quin.

After he hung up the call, Fade went to wash up and then he snuck his way into his wife's room again. He said that he needed to familiarize himself with his apprentice and thus only then could they continue their training.

That night, the two of them were once again at it.

It was around eleven in the morning when Fade was woken up by a call from the delivery man.

He went to take the parcel and headed back into the room. His wife got dressed and strode out. When she saw the parcel on the table with the instant noodle advertisement on it, a few veins popped out of her forehead as she asked, "What is this? Did you buy this online?"

He smirked and answered, "Honey, don't judge a book by its cover. Everything inside this parcel is extremely valuable to the martial arts world."

Upon finishing his words, he opened the parcel under her disbelieving gaze. As expected, there were tons of old books inside the

18:41

parcel, and it seemed like they were all antiques. 

Immediately, he took out these books and put them on the table. After giving it a glance, he discovered that there were approximately seventeen books.

Meanwhile, Quin stared at all these strange names written on these books. Her face was full of incomprehension. "Xuan-flaming Skill, Nine-dragon Skill, Nine Froze Skill, Neon Rainbow Skill..."

"What are these?" She asked in confusion.

"These are all cultivation methods, the foundation of learning martial arts. Later, I'll inspect your body and I'll choose a suitable one for you."

She did not really understand what all of these were. However, since she had spent some time in the Lin family, she had heard of cultivation methods, so she naturally understood a thing or two.

Hence, Fade didn't waste any more time and directly inspected her body.

Quin's body was more towards the dark and cold, and was suitable to be cultivated with flexible, soft, or icy cultivation methods. They were completely opposite of Fade's.

Of course, he had already expected this outcome. After all, when Dark Dragon sent someone to plant the Ice Lotus in Quin's body, it was because he was interested in her icy-cold attribute, and that was also partly the reason why the Ice Lotus could germinate.

On the other hand, it might also be due to Chrystal who had taken a Nine-blood Pill, which had an icy-cold attribute, herself, and it had been passed down to Quin.

18:41 

Since her attribute had been determined, he now had to find a suitable cultivation method for her.

Cultivation methods such as the fire attribute which was opposite of the cold attribute were naturally excluded. Cultivation methods such as brute force were also not suitable for her, thus they were also ruled out.

In the end, there were only three cultivation methods left that suited Quin's cultivation. They were all of the icy-cold attributes, and all of these were more towards feminine and light spiritual attributes.

Fade flipped through these cultivation methods and told her about the general characteristics of each cultivation method, allowing her to make her own decision.

Finally, after giving it some thought, Quin chose a cultivation method called Nine Froze Skill. This particular cultivation method was the most icy cold out of the three, and it was the complete opposite of Fade's The Kong Fu of Jiu Yang.

From a certain point of view, these two methods complemented each other. It would help them facilitate their practice.

After choosing the cultivation method, he took out the Nine Froze Skill and casually placed everything else back in the carton and threw it into the store room.

Fade and Quin didn't think there was anything wrong with this.

However, if anyone else from the martial arts world saw this, they would be extremely furious.

After all, everything sent over by Aldred were Heaven Level cultivation methods.

It must be known that among the four Heaven Level Clans, they wouldn't just simply take out a Heaven Level cultivation method and show it to anyone else. If this was to happen, a huge bloody fight might break out.

18:41 

But now, Aldred sent over so many Heaven Level cultivation methods in the old scruffy carton, and Fade just casually threw them into the store room.

Such reckless behavior could result in Fade and Quin getting vicious scolding.

Of course, Quin didn't know how precious these cultivation methods were. Fade, on the other hand, had seen a lot of them, so he had long since grown accustomed to them.

In this way, the extremely extravagant couple, who were master and apprentice, chose the Nine Froze Skill and immediately began to cultivate it.

Fade started teaching her the basics of martial arts. From feeling the Universe energy to absorbing the spiritual energy then turning it into vital energy and finally cultivating it into positive energy. He patiently explained all of these to his wife.

Although Quin started martial arts late in life, she was an incredibly fast learner. After her first day learning martial arts, she had already reached the early stage of Yellow Level. 

Judging from this, it could be seen that she was talented at martial arts. After all, she was the daughter of the genius of Wushuang Tower, Chrystal, who had also taken a Nine-blood Pill herself. Thus, it was not weird that she had such talents for martial arts.

In order to teach his wife martial arts, Fade resigned from Capital University. He concentrated on teaching his wife martial arts at home and guided her day by day. Sometimes, he even summoned one of his apprentices, Jasmine, to spar with his wife.

Jasmine was puzzled when she was asked to face Quin, who was both her junior and her Master's wife. However, Quin was gentle, and soon became close with her. The two of them were as close as sisters and they threw Fade aside, neglecting him.

18:41 

A week later, Quin's strength had advanced to the mid-stage of the Yellow Level. Given how talented she was, she was on par with Jasmine's Green Wood Spirit.

His wife's martial arts had embarked on the right path, and Fade did not have to stay home everyday. As for teaching at the school, he quit his job, and he did not know much about the company's affairs. Therefore, for a time, he was a little idle.

Fade received a call during this period. It was from Yuri. "Brother Chen, have you been in contact with Susie recently?"

"What, Susie? I've not been in contact with her recently. Yuri, what's wrong?"

"Actually, it's nothing. Susie has not attended school for more than half a month, and I can't get in touch with her through the phone, so I'm a little worried and decided to call you to ask."

"Well, I'll go to Susie's home later. Don't worry. You study hard at school," he told her and then hung up the phone.

Chapter 1650

After hanging up the phone, Fade could not help frowning. Then he recalled that he had not been able to get in touch with Susie since he came back.

During the banquet previously, he invited Susie over, but to his surprise, she was nowhere to be found. He thought that she was a celebrity and was busy, therefore she was not able to make it.

Now, he was worried upon hearing that she had been absent from school for over half a month.

Then, he called Dante from Dante Entertainment and asked about her. Dante stuttered as he explained that she had not come to the company and she might have encountered some problems.

He wanted to ask in detail, but Dante was also not sure about what was actually going on.

This made Fade a little more worried and suspicious. Hence, after he hung up the phone, he headed straight to Susie's neighborhood.

As he had come here before, he was familiar with the route to her house. He arrived in the blink of an eye.

He pressed on the doorbell, and there was clamoring coming from inside the house. After a moment, Susie's voice rang out, "Who is it?"

Fade was a little puzzled to hear that she was at home. He immediately said, "Susie, it's me, Fade. You're at home. Can you let

18:41 

me in?"

Susie, who was inside the house, seemed hesitant. She did not open the door but asked, "Fade, what's the matter?"

"Susie, Yuri said that she couldn't seem to get in touch with you for some time now and she asked me to come over to check on you. Besides, we have not met since I came back to Capital City."

She was silent for a moment. She seemed hesitant and she said, "Fade, I-I'm not feeling well right now. It's not convenient for me to meet you. If I have time in the future, I'll go and look for you."

Usually, when Fade heard this, he would just turn around and leave.

However, at this moment Susie seemed to be acting weird and her tone was also somewhat hesitant. This made him a little suspicious.

He rolled his eyes and an idea flashed in his mind, but he obliged. "How about this? Susie, since you're not feeling well, then have a good rest. I'll come again when you're much better."

"Yes, thank you. Also, be careful on your way back."

"Sure!" He responded and then turned around. He deliberately stomped his feet and headed into the elevator.

However, the elevator only went down a floor and he took the stairs and went back up to Susie's floor.

Hiding by the side, he glanced sharply at the door.

A moment later, the faint sound of a man and a woman conversing could be heard from inside the room.

"Has he left yet?"

18:41 

"He left. The elevator should have already gone down."

"It's good that he's gone. At this moment, we don't want to cause any other complications."

"Forget it. I better go out and check."

As they were talking, the door opened, and a man in his mid-twenties named Pixel walked out of the room, peeking out first. A woman was standing behind him.

Pixel strode out of the room and headed to the elevator. Seeing that there was no one in the elevator, he was about to turn around and head back in.

At this very moment, Fade, who was hiding by one side, rushed out and grabbed him by his throat.

Pixel's reaction was quick. He turned his back to Fade and felt the movement behind him. He even leaned his body forward to avoid his attack, and Fade's hand landed on his shoulder.

Although this was not something Fade expected, he immediately responded by pressing Pixel to the ground.

Pixel tried to fight back. He gritted his teeth and broke out with a lot of strength. It was obvious that he had reached the peak of the Black Level, which was quite formidable for a man of his age.

However, to Fade, it was nothing. He used a little of his force and pressed against Pixel. With a thud, Pixel's knees slammed to the ground.

He cried out in pain, but he was determined. He reached out his hands and wanted to attack Fade.

Seeing this, Fade's eyes turned cold. His left hand condensed a burst of positive energy and he was about to shoot it straight at

18:42 

Pixel's neck.

At this crucial moment, the young woman, Olivia, inside the house noticed the commotion and rushed out. Seeing this scene, she couldn't help being taken aback and shouted in a hurry, "Mr. Chen, stop!"

However, Fade did not listen to her. He reacted out with the Qi-blade in his hand and was about to slash the man's throat.

She hurriedly shouted, "Mr. Chen, no, we are from the military."

Hearing this, Fade could not help but be dumbfounded. He paused, but the energy in his hand had not dissipated. He turned his head and looked suspiciously at her.

Olivia took out her military credentials and said, "We are from the military, Security Team 2, and we are here to perform our mission."

Fade was not certain what Security Team 2's mission was. Thus, he still had a skeptical look on his face.

At this moment, the door creaked and Susie came out.

She was dressed in casual clothes, without any makeup on, and her hair was messy. Although her face was still beautiful and gentle, compared to how puzzled she looked, she looked terrible.

Her face was a little pale. She rushed out and saw what was happening. She was taken aback and immediately said, "Fade, no."

"Susie, they are..." Fade looked at her with a puzzled look.

"They're indeed from the military. They are not trying to harm me. Let them go!"

After hearing Susie's words, Fade dispersed the Qi-blade in his palm and loosened his grip on Pixel. Then, he walked over to her

18:42 

and asked, "Susie, what the hell is going on? You couldn't be contacted for some time now and these people, why are they..."

"Fade, come in!" Susie urged him.

Fade nodded and entered the house with Susie. Then, Olivia supported Pixel in. The two stood beside Susie and did not look like they were avoiding him at all. Instead, they took out a recording device and started recording them.

Given the situation, Fade could not help but raise his eyebrows. He looked at the two people and uttered coldly, "What are you doing?"

Olivia replied, "Mr. Chen, this is our mission. Please forgive us."

"What mission requires you to videotape us?" Fade said coldly.

"Mr. Chen, we can't reveal the contents of our mission."

"You..." Just as Fade was about to lose his temper, Susie tugged on his sleeve, shook her head, and said, "It's okay, I'm used to it."
