Chapter 2446 – 2448

Chapter 2446

“Master, what’s wrong with you?”

David asked cautiously!

But the old monk ignored David at all, and continued to cry on his own, which made David a little speechless!

After David and Hu Mazi watched the old monk cry for more than ten minutes, the old monk stopped crying!

“Master, you...”

David was about to ask, when the old monk spoke!

“The Fire Fenzong I mentioned is in the Heavenly Human Realm, that’s why you haven’t heard of it. Unexpectedly, in the blink of an eye, I have been away from the Celestial Human Realm for more than ten years...” The

old monk said with a sad face.

David and Hu Mazi were stunned by the words of the old monk.

"Master, you... are you from the celestial world?"

David was full of disbelief. He didn't expect that there were people from the celestial world in this secular world!

The old monk nodded, "For so many years, I have always thought that I am living in the world of heaven and man, but I don't want to have left the world of heaven and man for many years."

"Master, don't you come to the world of heaven and man? Are you suppressed by the laws of heaven and earth?"

David was very surprised, is this old monk the same as himself, not afraid of the suppression of laws of heaven and earth?

"How can I not be suppressed by the law of heaven and earth, but in order to survive, I can only do so. Now more than ten years have passed, and under the suppression of the law of heaven and earth, my strength has regressed a lot!"

"But my refining method It has not been suppressed, so it is easy to repair the weapon." The

old monk said lightly.

"Master, what happened? It made you come from the world of heaven and man to the secular world despite being suppressed by the laws of heaven and earth?"

David was very curious, why did this old monk leave the world of heaven and man!

You must know that in the eyes of these monks in the secular world, the world of heaven and man is heaven, a dream place!

"Hey, it's

a long story..." The old monk sighed, and then he continued!

David and Hu Mazi listened quietly, and only then did they understand what was going on!

The old monk was not a monk originally, but a master craftsman of the Craftsmanship Sect, named Iron Hammer.

Because the Artifact Refining Sect is the most famous for creating magical weapons, it was targeted by the Fire Fenzong!

The Fire Fenzong asked the Weapon Refining Sect to help build weapons, but because the Fire Fenzong was an evil cultivator, the Weapon Refining Sect refused, so they were exterminated, and the master of the Weapon Refining Sect was also arrested!

Master Iron Hammer fled with the weapon refining secrets of the Artifact Refining Sect, and was hunted down by members of the Fire Sect!

In desperation, Master Iron Hammer could only tear apart time and space, and fled to the secular world. He would rather be suppressed by the laws of heaven and earth than be caught by the people of Huo Fen Sect!

And the people of Huo Fenzong were afraid of the laws of heaven and earth, so they didn't pursue them, which allowed Master Hammer to escape!

However, Master Iron Hammer could only wander in the secular world, and later became a monk in Lingyin Temple. Later, because of the dilapidation of Lingyin Temple, he lived a life of no fixed place!

But he never gave up on saving his suzerain, which is why David and the others came to find Master Hammer, and the condition proposed by Master Hammer was to save people!

David listened to Master Iron Hammer's narration, and now he realized that the world of heaven and man is not a fairyland on earth at all, and it is full of intrigues and fights everywhere!

From this point of view, this Hammer Master is also quite pitiful. He has been wandering in the secular world for so many years all alone!

After David and Hu Mazi listened, they didn't speak for a long time!

Master Iron Hammer also fell into sadness. After a while, Master Iron Hammer let out a long breath, and then squeezed out a smile and said, "Look at you two listening to me so seriously, I don't want any conditions." Now, with your ability, there is no way to save people from Huomianzong."

"Whatever weapon you want to repair, just take it out, I will repair it for you, and you have to leave this place."

Chapter 2447

"Master Iron Hammer, I have another crack in my sword, please help to see if it can be repaired..."

After David finished speaking, he grabbed it with his right hand, and the Dragon Slaying Sword appeared in his hand!

The moment the dragon-slaying sword appeared, Master Hammer was stunned, his eyes widened, and he stared at the dragon-slaying sword in David's hand!

"Dragon Slaying Sword?" Master Iron Hammer said after looking at it for a while!

"Master, how do you know this is the Dragon Slaying Sword?"

David was very surprised!

“This dragon-slaying sword is originally a spiritual sword forged by my weapon refining sect. Back then, our suzerain relied on this dragon-slaying sword to kill three demon kings. It disappeared!”

“I didn’t expect the Dragon Slaying Sword to fall into the secular world, and it’s still in your hands, but you can follow the Dragon Slaying Sword and become one with the human sword, which means that you and this Dragon Slaying Sword are indeed destined. ”

Master Hammer said!

When David heard this, he didn’t expect that the Dragon Slaying Sword that followed him to fight in the north and south was actually a spirit sword forged by the Artifact Refining School!

Being able to forge a spiritual sword like the Dragon Slaying Sword shows that the strength of this Artifact Refining Sect cannot be underestimated!

“Master, then, take a quick look, this Dragon Slaying Sword has begun to crack for some reason, and it seems to be in conflict with me.”

David handed the Dragon Slaying Sword to Master Iron Hammer.

“Normally, it shouldn’t be. Even if the sword spirit of the Dragon Slaying Sword is damaged, the blade is extremely hard and there should be no cracks.”

Master Iron Hammer took the Dragon Slaying Sword and observed it carefully!

Soon, Master Hammer discovered the crux of the problem!

“The sword spirit of the dragon-slaying sword has improved a lot in your hands, but as your strength continues to increase, the sword spirit of the dragon-slaying sword has not strengthened, so when you use the dragon-slaying sword, It’s hard for Zhanlongjian to bear the aura you exude!”

"Besides, the Dragon Slaying Sword can't show your full strength now, you have to upgrade the Dragon Slaying Sword again."

Master Iron Hammer said to David!

When David heard this, he immediately understood that he had been paying attention to the growth of his own strength, but ignored the growth of the Dragon Slaying Sword and Sword Spirit. To scare you, his strength exploded so much all of a sudden. When he injected the power of the dragon into When Zhanlongjian, Zhanlongjian is very difficult to bear, that's why there is a humming trembling!

"Master, is there any way you can help me restore the Dragon Slaying Sword? Or upgrade the Dragon Slaying Sword?"

David hurriedly asked Master Hammer.

Master Iron Hammer shook his head, "If it's an ordinary weapon, I can repair it for you, but with my current strength, there is no way to repair and upgrade this Dragon Slaying Sword." When

David heard this, he was immediately frustrated, "Could it be Have you just watched the Dragon Slaying Sword become useless garbage?"

"Master Iron Hammer, since this Dragon Slaying Sword was forged by your Artifact Sect, why can't you restore it?"

Hu Mazi asked puzzled.

"Spiritual swords like the Dragon Slaying Sword, if you want to repair or upgrade them, you can't rely on a refiner alone. You don't know how to refine weapons, so you don't know the steps!

" Can it be created by forging? Can you imagine how the sword spirit in this spirit sword is produced?"

Master Hammer said!

“How did it happen?” David and Hu Mazi asked in unison.

Both of them are very curious. After all, they don't know anything about refining, and there are very few refining masters in the secular world or in the secret world!

The magical weapons used by some people are obtained by exploring some ruins or digging for treasures, and they are not forged by others!

So no one thought about how these weapons were forged, and how did the sword spirit in the spirit sword come about?

Chapter 2448

“In our Weapon Refining Sect, there is a sacred lake called Xijian Lake. The swords that are forged must pass through the Xijian Lake, nourished by the spiritual energy in the pool, and slowly form sword spirits in the Xijian Lake. !”

“However, not all swords can produce sword spirits. After some swords are forged, they will be damaged if they are placed in the Sword Washing Pool. This is a useless sword.”

“Like your sword If you want to repair or upgrade the Dragon Sword, you need to soak it in the Sword Cleansing Pond, and add my refining technique.”

Master Hammer said!

“Then let's go to Xijiantan and repair my dragon-slaying sword?”

David asked.

Master Iron Hammer looked at David like a fool, “This is the secular world, and Xijiantan is in the world of heaven and man, how do we get there? I have been

here for so many years, and my strength has already been suppressed a lot. There is no way to tear apart time and space.” , The channel from the secular world to the celestial world has been opened...”

“Going to the celestial world, I’m afraid it will be very difficult...”

Hu Mazi also said!

David was silent. After a moment of contemplation, he said to Master Iron Hammer, “Master, if I can open the passage from the secular world to the world of heaven and man, can you take us to the Sword Washing Pool?”

“Can you Open the passage from the secular world to the celestial and human world?” Master Hammer looked at David in disbelief, “Don’t be kidding, although your strength is not weak, but if you want to open the passage from the secular world to the celestial and human world, you have to Impossible...”

Master Iron Hammer didn’t believe what David said at all!

“Master Hammer, you just said that if I opened the passage, can you take us there?”

David asked seriously.

“Of course. After so many years, I want to go back and have a look. If I can really return to the world of heaven and man, I will never leave again. Even if I am caught by the fire sect, I will not leave... ”

Master Hammer nodded and said!”

“David, can you really open the passage to the world of heaven and man? Don’t be kidding, if you are not strong enough and want to forcibly open the passage to the world of heaven and man, I’m afraid you will be backlashed.”

Hu Mazi said to David warned.

"Let me try it, it should work..."

After David finished speaking, he took out the God King Bow!

When the piece of God King Bow was taken out, Master Hammer was dumbfounded!

"This... this... this is the bow of the god king, the most precious weapon in the world of heaven and man, why is it in your hands?"

"I heard that the bow of the god king was sealed in the valley of death, and many people want it It's all in vain to get the God King Bow."

"Why is this God King Bow in your hands? What's going on? Who are you?"

Master Hammer said when he saw the God King Bow. For a moment, I was stupefied. It is obviously unscientific that such a treasured weapon from the celestial world should appear in the secular world!

"I also got it by accident." David didn't know how to explain it!

I saw David grabbing the bowstring, and then all the power of Dao pattern in his body burst out!

The bow of the god king was pulled, and the lights in the sky and the earth began to converge towards the bow of the god king!

The God King Bow exudes a huge suction force, as if absorbing all the surrounding forces.

The rays of light condensed and soon turned into a dazzling arrow feather. The bright golden light illuminated the entire sky dazzlingly!

Soon, the golden light of the arrow feathers became weaker and weaker and gradually turned into a transparent crystal jade shape.

The aura emanating from the arrow feathers filled Hu Mazi and Master Hammer's eyes with horror. They had never felt such a terrifying aura before!

David gritted his teeth, and firmly grasped the bowstring. The cold sweat on his forehead kept falling down!

Both of David's legs began to tremble, but David did not let go of the bowstring and still persisted, because he didn't know whether his own arrow could open the passage to the world of heaven and man, so he had to fight hard. Do your best!
