## Chapter 2463

### Chapter 2463

Standing in the center of the formation, David could clearly feel that the power of the formation was very weak, as if the formation had not been fully activated.

I don't know if it's because of the long history and the excessive energy consumption of the formation, or because these sword puppets have caused damage to the formation!

But even if the power of the formation is weakened, it can still stop those sword puppets and prevent them from approaching!

"Perhaps if this formation can be fully activated, the Dragon Slaying Sword can be repaired without the help of the old sword..."

David looked at the huge formation, and then gently pressed his hand on a piece of bluestone!

As the spiritual power in David's body continued to pour into the bluestone, ripples appeared in the formation soon, and then a talisman lit up in the formation, and the brilliance began to bloom!

Seeing this, David was overjoyed immediately, and hurriedly poured spiritual power into the other bluestones again, making the talismans in the formation start to become incomparably brighter!

Soon, the entire bottom of the pool was radiant, and the brilliance was connected together, forming an incomparably pure aura, and the criss-crossing sword aura in the pool, after this aura, gathered towards the bottom of the pool one after another !

Those sword puppets seemed to be threatened, and all of them became terrified, and they all stayed away from the surroundings of the formation!

And at this moment, Hu Mazi and the others on Xijiantan seem to feel the changes in Xijiantan!

The pool water, which was originally extremely clear and filled with sword aura, has now become a little muddy, and the sharp sword aura in the pool water has also disappeared!

“What... what’s going on here?”

Jian Lao frowned when he saw the changes in Xijiantan!

He hurriedly pinched the formula, wanting to see what happened!

But he tried several times in a row, and he could no longer see David at the bottom of the pool, so he didn’t know what happened at the bottom of the pool!

Hu Mazi felt the change in the pool water, and hurried forward, inserting his hands into the pool water. This time, Hu Mazi was not in any danger other than feeling the coldness of the pool water.

In other words, this pool of water has become an ordinary pool of water, without the sword energy to swim around, it will not cause harm to people!

Jian Lao seemed to feel something, his whole body disappeared in an instant, and then went straight to the bottom of the pool!

Hu Mazi also wanted to jump into the pool, but was held back by Master Iron Hammer

. , as the formation was continuously activated by David, the originally quiet bottom of the pool became extremely turbulent at this moment, and the raging sword energy was continuously absorbed by the formation!

The dragon-slaying sword in David's body seemed to be summoned, and it instantly left David's body, and then inserted straight into the middle of the formation!

Just when the Zhanlong Sword was inserted into the formation, all the rays of light around the formation moved towards the Dragon Zhanjian. Countless rays of light followed the Dragon Zhanjian to connect together, and countless sword qi also moved towards the Dragon Zhanjian. Rush away!

Looking at all this, David's eyes were full of surprise. Now that the Dragon Slaying Sword was inserted into the formation, the power of the formation instantly increased a lot!

Those sword puppets who fled one after another, under the impact of the formation's aura, turned into sword auras one after another, and were absorbed by the formation!

Booming...

With countless sword qi swarming in, the light curtain that originally isolated the pool collapsed at this moment, and a large amount of pool water rushed towards David in an instant!

Feeling the impact of the pool water, David stood motionless like a sharp sword, despite the impact of the pool water, the raging sword energy around him also continuously hit David!

David's eyes became hot, such a pure sword energy, and the impact of this pool of water, is the best time to temper his body!

Moreover, the sword energy absorbed by the formation is also a good resource for cultivation!

# Chapter 2464

“You can’t let such a good opportunity go to waste...”

David sat cross-legged, directly into the formation.

At this moment, David merged with the Dragon Slaying Sword, constantly absorbing the sword energy swarming around him!

The sword energy from all directions was absorbed by the formation, and then swarmed into David’s body!

After Jian Lao reached the bottom of the pool, he was stunned for an instant, only to see that the huge formation was emitting a bright light, and a huge suction force was constantly absorbing the sword energy in the pool of Xijian!

And Jian Lao is also a sword spirit formed by the condensed sword energy. His whole body trembles violently uncontrollably, and is also constantly sucked into the formation by the huge suction force of the formation!

Jian Lao panicked, desperately resisting the suction force of the formation. If he was sucked in by this formation, Jian Lao would dissipate in an instant, and would turn into countless sword qi and be sucked into David’s body!

With all his strength, Jian Lao escaped from the huge suction force of the formation. Seeing countless sword qi being sucked away in Xijiantan, Jian Lao felt distressed. You must know that these sword qi are the foundation of his survival. Without these sword qi, if Xijiantan no longer refines the sword, Jian Lao’s spiritual body will slowly dissipate!

At this time, David closed his eyes slightly, he didn’t know what Jian Lao was thinking at all, he was just desperately absorbing a large amount of sword energy in Xijiantan!

And the dragon-slaying sword started to make a buzzing sound in the middle of the formation, and the blade was shaking violently!

Accompanied by a burst of light in the center of the formation, a group of golden rays as dazzling as the sun soared into the sky!

This group of rays of light broke through the pond water, went straight into the sky, and then fell rapidly from above the sky!

Boom...

Under this blow, all the water in Xijian Lake shot up into the sky, and in the formation at the bottom of the pool, a ray of light slowly flew up, towards the outside of Xijian Lake Gone!

David suddenly opened his eyes, looking at the fragment of the scroll, he knew it must be left by the person who set up the circle, so he jumped up and grabbed the scroll directly!

"Forging fragments..."

Master Jian and Hammer shouted in surprise after seeing the fragments!

David didn't know what forging fragments were, but he reached out and grabbed the fragments in his hands!

David saw that this fragment was missing a part, but the other part recorded the forging method!

Xijiantan returned to calm, and the dragon-killing sword flew out of the formation and returned to David's hands!

David saw that there were no cracks on the sword body of the Dragon Slaying Sword, and the light of the Dragon Slaying Sword became more and more pure, and the quality seemed to have improved!

David held the Dragon Slaying Sword in his hand, and he could clearly feel surges of surging sword energy in the Dragon Slaying Sword!

"David, can you give me the incomplete forging medal in your hand?"

At this moment, Master Iron Hammer jumped up and came to David, his eyes were full of hotness and asked!

Jian Lao also arrived in front of David, looked at the fragmented scroll in David's hand excitedly and said, "I didn't expect that the forging fragments have been in Xijian Lake. I have been guarding Xijian Lake for so many years, but I have never found it. With this incomplete forging chapter, the Artifact Sect will be able to recreate its glory."

David looked at Master Hammer and Jian Lao in surprise, and asked puzzledly, "What is this incomplete forging chapter? The above is just an incomplete record. Is it that important?"

"David, you don't know that this forging fragment is the treasure of our Weapon Refining Sect. Our suzerain was taken away, and the other party just wants to get this forging fragment!"

Master Iron Hammer followed David about the origin and importance of forging incomplete chapters!

When David heard this, he threw the forging fragment to Master Iron Hammer and said, "Since this is the treasure of your Weapon Refining Sect, then give it back to you, it's useless for me to hold it in my hand..."

## Chapter 2465

David returned the broken forging badge to Master Hammer!

Master Iron Hammer held the broken forging badge, and was very grateful to David. You must know that this broken forging badge is a priceless treasure to many people, but David handed it over without the slightest greed!

At this time, Jian Lao looked at David with admiration. Thinking of his mockery of David at the beginning, Jian Lao felt a burning pain on his face!

Jian Lao has seen David's strength and mind before!

"Young man, I didn't expect you to hand over the broken forging badge so happily. It seems that the Dragon Slaying Sword is in your hands, and it can be regarded as making the best use of it. Since I promised you, as long as you take out the Dragon Slaying Sword, I will just help you repair and temper the Dragon Slaying Sword, now that you have done it, give it to me..."

Jian Lao said to David!

"Jian Lao, this Dragon Slaying Sword has been repaired, and its grade has been improved a lot, so I won't bother you."

David said with a slight smile!

Zhanlongjian has absorbed so much sword energy, it has already been completely repaired, and its rank has also been improved, so it doesn't need the help of Jian Lao at all!

Jian Lao smiled slightly, shook his head and said, "What you see is only the appearance, the sword spirit of the Dragon Slaying Sword is still not fully recovered, after I fully recover the sword spirit of the Dragon Slaying Sword, come and see..."

Jian After the old man finished speaking, he waved to David, and the dragon-slaying sword came out of David's body, and entered the hand of the old sword man!

I saw Jian Lao holding the Dragon Slaying Sword, and a ray of light shot out from his eyes, which swept across the Dragon Slaying Sword, causing the body of the Dragon Slaying Sword to tremble!

Soon, a large amount of sword energy surged from Jian Lao's body, rushing into the Dragon Zhanjian frantically!

Holding the dragon-slaying sword, Jian Lao suddenly jumped up high, and then plunged into the pool of Xijian!

After Jian Lao took the Dragon Slaying Sword and plunged into the Xijian Lake, the Xijian Lake quickly returned to calm, and nothing could be seen from the outside.

"David, don't worry. Since Master Jian said to help you refine the Dragon Slaying Sword and restore the sword spirit, he will definitely do it. We just wait quietly..."

Master Iron Hammer was afraid that David would be anxious , so he comforted David!

David nodded, and several people were waiting for Jian Lao to appear on Xijiantan, but this waited for several days, and there was no movement in Xijiantan!

And at this moment, in the secret realm of the Demon Heart Sect in the secular world!

The six purple-robed envoys were all waiting for Da Neng to appear in the main hall. They had stayed in the secret realm of the Demon Heart Sect for many days, but they had never seen their relatives. You must know that Da Neng had sent someone to invite them My loved ones, should have arrived by now!

Soon, accompanied by a wave of void, the main hall master sat on it, and the figure of Da Neng appeared.

"What do you six want me for?"

Da Neng looked at the six purple-robed emissaries and asked.

"Da Neng, so many days have passed, I think our relatives have arrived at the secret realm of the Demon Heart Sect, we just want to see our relatives..."

Yu Qian stepped forward and said to Da Neng!

"Your relatives are indeed here now, but you can't see each other for the time being. I have something I need you six to do..."

Da Neng said coldly!

"What's the matter?" Yu Qian asked.

"Now that the spirit energy recovery formation is about to start, and David's strength has exceeded our expectations, if no one can restrain David when the spirit energy recovery formation is activated, there may be an accident!"

" Now the only one who can check and balance David in the big formation is Ning Zhi who is a flame demon, but Ning Zhi's current strength is not at all the opponent of David."

“So I want to quickly improve Ning Zhi. Zhi’s strength, but to quickly improve Ning Zhi’s strength, someone must make sacrifices.”

Da Neng did not continue to speak, but looked at the six purple-robed envoys with cold eyes!

This time, the six purple-robed envoys were startled.
