

# A Man Like None Other

## Novel

### Chapter 2534

But in order to stabilize Yun'er and Ali's hearts, David didn't say what he analyzed!

"Can I join you? If not, I hope you don't reveal my identity!"

Hu Zhuang looked at David expectantly, because he also saw that David was the leader of these four people!

"I agree with you to join us. If there is any danger, I hope we can help each other!"

David looked at Hu Zhuang and said!

Seeing that David agreed, Hu Zhuang immediately showed a smile on his face, and the eyes he looked at David and the others began to become resolute and trusting!

When Hu Zhuang joined David and the others, no one paid attention. At this time, everyone had already started to slowly enter the depths of the mountains!

The aura of monsters around is also getting stronger and stronger. Many people have already taken out their weapons and looked around very vigilantly!

Some were timid, even cold sweat broke out on their foreheads!

However, Zhang Biao and Wu Feiyu still looked very relaxed, and they were not nervous because they went deep into the mountains.

Looking at the expressions of Zhang Biao and Wu Feiyu, David knew that the strength of these two people would not be too bad!

"Aw..."

Suddenly, there was a roar of a monster, which made everyone stop in an instant, and then they saw a wolf with the shape of a yak galloping towards them!

Judging by the size of this monster wolf, its strength is definitely not low, otherwise it wouldn't dare to rush towards so many people alone!

Seeing a demon wolf rushing over, Ali and the others also showed their weapons nervously!

But just when the demon wolf rushed in front of everyone, Wu Feiyu waved his right hand, and a white light flashed out!

Immediately afterwards, the demon wolf screamed, rolled twice on the ground in an instant, and died immediately!

Seeing that Wu Feiyu could kill a monster wolf with a random wave of his hand, everyone was shocked!

And David looked at the corpse of the demon wolf, and found that on the head of the demon wolf, a shiny silver dart was inserted into it!

Being able to kill such a big monster wolf with a single dart, David felt that Wu Feiyu's strength must be above the Aperture Realm!

"Okay, don't even look at it, keep going..."

Zhang Biao shouted!

Everyone began to continue to follow behind Zhang Biao and Wu Feiyu, but many people kept looking back at the corpse of the demon wolf. You must know that such a big demon wolf is very valuable, but they have no way to take this demon wolf away now. Corpse!

"Brother David, such a big demon wolf corpse can definitely be sold for a good price, why don't you put this demon wolf corpse in a storage ring?"

Zhu Zi looked at the demon wolf corpse as a pity, so he said to David!

But David shook his head slightly, and then whispered to Zhuzi, "Zhuzi, I have something about the storage ring, don't say it easily, so as not to cause unnecessary trouble!"

"If I put the corpse of the demon wolf in the storage ring, Then these people will know, do you think they will not be tempted when they see such a treasure as the storage ring?"

Zhuzi is still young, so he still knows too little about human nature, and he is somewhat naive.

"Zhuzi, what David said is right. Don't expose your strength and hole cards outside easily. If these people know that David has a storage ring on him, they might attack us.

"He and his senior brother also want the storage ring, but if we attack us, do you think we are the opponents for that target?"

Ali also took the opportunity to educate the pillars!

Zhu Zi nodded after hearing this, "I see..."

Just after everyone left, a man with hair all over his body slowly walked up to the body of the demon wolf that had just been killed!

Slowly squatting down, pulled the dart off the wolf's head!

"Aw..."

Immediately afterwards, from the man's mouth, there was a wolf howl, and then hundreds of demon wolves gathered from all directions!

This man took hundreds of demon wolves and headed towards David and the others!
