

Martial Arts 1071

Chapter 1071 Universe-stage Battle!

As Borla's voice resounded in the residence, the Parkers felt bitter and embarrassed. The muscles on the Flaming Phoenix Universe Lord's face started to tremble.

His appearance had stabilized the situation for the Parkers, but Borla's sudden interference caused him to be at a disadvantage. The Parkers' plan was jumbled up.

This was infuriating!

The Furious Flaming Universe Lord felt extremely frustrated. His emotions were like a rollercoaster. They had used all their trump cards, but in the end, they still couldn't touch that little brat.

There was always someone standing up for him!

He didn't understand why these grand duke families were willing to help a small planetary-stage martial warrior who just came to the Great Qian Empire and had no foundation.

This didn't make sense!

Valteru, Sinclamon, and the others felt the same way. They were waiting for their elders to take Wang Teng down so that they could vent their anger. Yet, even after two universe-stage martial warriors appeared, they couldn't touch him.

No one spoke out loud, but everyone was conversing through voice transmission. They were astounded.

Some were gloating. They were laughing at the Parkers for biting a hard and smelly piece of rock. Their teeth probably got cracked from biting too hard.

The Flaming Phoenix Universe Lord took a deep breath and said in a low voice, "This matter has nothing to do with the Cavendish family. Are you sure you want to interfere?"

"That's right, Borla. You really want to go against us for his small baron? The Parkers will not take things lying down if someone ruins our plan. You better be prepared to withstand the Parkers' wrath," the Furious Flaming Universe Lord said with a stern expression.

Boom!

Boom!

After he spoke, the two universe-stage martial warriors looked at each other and released their universe-stage aura. They were using their force of presence to pressure Borla. They wanted him to beat a retreat before the impossible.

This was a fight to see whose aura was stronger. The weaker one would be at a disadvantage!

Borla's expression changed. With his ability, it was still hard for him to withstand the powerful aura of two universe-stage martial warriors. Their combined strength was terrifying, especially when one of them was at the peak of the universe stage. The pressure they gave was immense.

A normal universe-stage martial warrior might shrink back in the face of such difficulties. After all, they didn't have any background to rely on.

However, Borla was different. He had the Cavendish family supporting him. Their foundation was no weaker than the Parkers family. Hence, he wasn't afraid.

He couldn't win against them, but he didn't back down either.

Damn it, these two ancient relics are shameless! Borla cursed in his heart.

Wang Teng was in the center of these two Forces and was withstanding massive pressure. With his ability, staying in the center was akin to a small boat floating on the surface of the ocean. He would capsize at any moment.

Wang Teng frowned. The spiritual constellation in his consciousness spun furiously, giving off a shimmering glow that stabilized his body like a pillar holding up the sky so that he wouldn't get crushed by the pressure.

The nobles around him also felt the pressure. Many of them turned pale and were unable to withstand it.

This was like hell!

Duke Situ was a universe-stage martial warrior and the pressure wasn't targeted at him, so he didn't get affected.

However, Situ Wan'er and the other young members of the Situ Family were all pale in the face. Large drops of sweat poured down their foreheads, and they were on the verge of collapsing

Duke Situ turned serious. A powerful force of presence swarmed out of his body and surrounded his family members like a shield.

Situ Wan'er and the others could finally breathe properly.

Most of the youngsters were in the same state. However, the elders in their families were busy looking after themselves. They didn't have the time and effort to care about them. As a result, the youngsters could only shiver in fear under the overwhelming pressure. Some of them almost cried.

Situ Wan'er, Jiang Chenxi, and Jiang Weisheng glanced at Wang Teng involuntarily. He was in the middle of this battle of aura, but he could withstand their pressures with his own ability. They were amazed.

"This guy!"

They felt a little dejected. They had no choice but to admit that Wang Teng was indeed extraordinary.

Boom!

At this moment, Universe Lord Ji Xia released his powerful aura too.

"Old brats, are you trying to win in numbers and force him back using your auras?" Universe Lord Ji Xia said with disdain.

Borla laughed and released his aura too. The pressure around him climbed higher.

“He called me uncle. How can I let him be bullied by others?”

Wang Teng glanced at him gratefully.

Borla helped him because he called him uncle. This was even more precious than the Ji family helping him because of his favor.

Also, there must be a reason why Borla hid his real strength. Yet, he revealed it because of him.

Mind you, Wang Teng’s only interaction with the Cavendish family was through Di Qi. Yet, they supported him greatly. This wasn’t something a normal person could do.

The combined aura of Universe Lord Ji Xia and Borla wasn’t any weaker than the two flaming universe lords. They started a fight of strength.

Both sides were at a standstill for some time. No one managed to gain any advantage.

“Alright, since you want to interfere in this matter, we’ll have to fight!” The Flaming Phoenix Universe Lord bellowed as his face turned red.

He was infuriated. As his anger boiled, Force surged out of his body like gigantic waves.

Bang!

Bang!

Bang!

The flower vases and the decorations in the room shattered from the impact of the Force. Flowers and plants were damaged, and broken shards of glass flew everywhere.

“Great, let a junior like me experience the power of the seniors from the Parkers family.” Borla wasn’t frightened. He rolled up his sleeves and got ready for a fight. His rough behavior was a huge contrast to his handsome appearance.

The Force in his body erupted and crashed towards the Force of the Flaming Phoenix Universe Lord.

Bang!

The two Forces collided in mid-air and set off a terrifying explosion.

Boom!

The Furious Flaming Universe Lord took a step out when he saw this. Force swept through the residence like a tsunami.

“Hahaha, count me in!” Universe Lord Ji Xia laughed and joined in. Immense Force flowed out from that ancient body.

Boom! Boom! Boom!

Explosions were heard all around them. The Force collision of four universe-stage martial warriors was exceptionally terrifying. The space around them started to collapse from the pressure, and pitch-black dimensional rifts appeared.

“Retreat!” The martial warriors around them were appalled. They quickly fell back as far away as they could from the center of the collision.

Even a heaven-stage martial warrior would be heavily injured if they got sucked into the dimensional rifts.

Boom!

In the next second, the four martial warriors shot into the sky. An intense battle erupted in the pitch-black night sky.

Chapter 1072 They Look Like A Bunch Of Dogs!

Boom! Boom! Boom!

In the dark night, frightening explosions broke the tranquility. The entire Great Qian City was in shock.

Several powerful martial warriors rushed out of their residences to check out the situation. They saw four extremely dense balls of Force in the night sky.

They were like four huge stars that were constantly colliding against each other, shaking the surrounding space. The power of origin faintly emanated from them.

“Four universe-stage martial warriors are fighting!” someone exclaimed with a tone full of disbelief.

“What is going on? Why are they suddenly fighting?”

“This is Great Qian City, who dares to cause trouble here?”

“Oh my god, they are actually using the power of origin. This is insane!”

Countless astonished voices were heard all around. Exclamations came one after another.

In the baron’s residence, everyone was stunned.

The four universe-stage martial warriors started fighting just like that. No one even had the time to react, and they were already up in the sky.

Why are they so reckless?

Can’t everyone just sit down and have a good chat?

Most people wouldn’t dare to be presumptuous in Great Qian City. No one would have thought that the Furious Flaming Universe Lord and the others would actually do it.

Wang Teng was also astounded. He knew very well that universe-stage martial warriors wouldn’t fight unless they had no other choice. At the very most, they would only use their words.

However, Borla and the others actually fought.

This...

Wang Teng's eyes were solemn as he looked up into the sky.

A fight between universe-stage martial warriors had too many implications. It might lead to unforeseen circumstances!

At that moment, Wang Teng suddenly felt the warning signs as his heartbeat suddenly accelerated. The hairs on his back stood up, and his scalp went numb.

Danger!

Boom!

Without hesitation, Wang Teng used the power of space and punched forward.

The imprisoned space suddenly made a screeching sound and loosened. Wang Teng's figure blurred for a while before disappearing from his spot.

Swoosh!

A figure appeared in the spot where he was previously. It was a grim-looking Valteru.

Wang Teng retreated and was full of shock and rage. He didn't expect Valteru and the others to attack him after the four universe-stage martial warriors had left.

However, he didn't have time to think about it as the space around him was imprisoned again. Another figure emerged from behind and tried to grab him.

"Little bitch, die." Sinclamon's malevolent voice sounded beside his ear.

"Go away!"

Wang Teng suddenly turned as though he had eyes on his back. Leaving behind an afterimage, he swung his hand, and a peculiar sword glow slashed out.

Plop.

Sinclamon's face was full of disdain as he sneered and grabbed the sword glow with his hand.

Boom!

However, in the next moment, Sinclamon's face went stiff in disbelief. He caught the sword glow, but he wasn't able to crush it. Instead, extremely strange energy burst out from the sword glow and slashed against his body.

Sinclamon retreated a dozen meters back with a frown. The hand that had caught the sword glow was lowered, and it seemed like it was trembling slightly.

Suddenly, a drop of dark red blood fell from his arm.

Plop.

A long and narrow sword mark appeared on Sinclamon's sturdy arm, and blood spurted out.

This all happened in a flash. Not even a minute had passed from the moment Valteru and Sinclamon attacked Wang Teng till the moment Sinclamon was repelled.

Everyone regained their senses. They were astounded and stared at Valteru and Sinclamon.

Two heaven-stage martial warriors were attacking a planetary-stage martial warrior, and they even ambushed him. This was really shameless.

And the problem was that they failed!

Sinclamon was even injured a little.

Everyone stared at Wang Teng in astonishment and was unable to think straight.

Was he really just a planetary-stage martial warrior?!

“Shameless!”

“Despicable!”

The expressions of the grandmasters of the Secondary Career Alliance changed, and they shouted in rage.

Duke Situ and some other nobles stood up abruptly. They were shocked by the behavior of the Parkers family. They felt that the Parkers were embarrassing the nobles.

“Valteru, this is too much!” Duke Situ lambasted.

Valteru and Sinclamon didn’t utter a word, and their faces turned gloomy. Exchanging glances with each other, they threw themselves at Wang Teng again despite the crowd’s disapproval.

“You dare to ruin my business!” A loud roar came from the skies.

An Lan finally rushed over. His Thousand Armaments Vessel turned into a streak of icy cold light and rushed toward Sinclamon while he personally clashed with Valteru.

Boom! Boom! Boom!

“Move!”

Valteru roared and terrifying flames condensed in his fists. He then threw out punches in a bid to repel An Lan.

There was not much time. He only wanted to catch Wang Teng and not get stuck with someone else.

However, An Lan wouldn’t let him do whatever he wanted and bogged him down. He was at the peak of his strength as he faced two heaven-stage martial warriors all by himself.

Valteru was very powerful, and his body was wrapped in flames. The surroundings turned into a domain of flames, pulling An Lan in.

It was chaotic.

There were four universe-stage martial warriors fighting in the sky, while three heaven-stage martial warriors were fighting to the death here. The surroundings had turned into a pandemonium.

Wang Teng was expressionless, but he was just suppressing the endless rage in his heart. He was staring intently with a chill in his eyes.

The Parkers family!

One day, I, Wang Teng, will make you pay for what happened today!

He clenched his fists tightly, and his knuckles were turning white.

“Enough!”

Suddenly, a calm voice resounded.

At the same time, Wang Teng realized that the surrounding space seemed to slow down and freeze gradually as if there was a force trying to lock the world.

The fight between the three heaven-stage martial warriors was stopped, not because they didn't want to fight but because the domain was destroyed out of the blue and they were 'thrown' out of it. Their faces were full of astonishment.

Even the battle between the four universe-stage martial warriors couldn't continue. Their Force attacks vanished into space as if they had been grabbed by an invisible hand and squashed. There was no sign of any damage.

The faces of the four universe-stage martial warriors twitched as they bowed in the direction of the Great Qian Palace.

“Gathering a crowd and fighting, disregarding the laws of the empire, you guys are very capable!” The voice came from space.

“I wouldn't dare!” the Furious Flaming Universe Lord replied frantically.

“Go back to sleep if that's the case. The Parkers family will be fined 30% of the resources, and the Cavendish and Ji families will be fined 10% each.

“Are you dissatisfied?”

“No,” the four said quickly.

“Alright, if that's the case, disperse.” The voice then paused for a while, “By the way, the matters of the young ones will be settled by them. You old people shouldn't be shameless and interfere. If word gets out, you will be a laughing stock.”

“Yes!” The Furious Flaming Universe Lord and the Flaming Phoenix Universe Lord's mouths twitched. They were aggrieved, but they could only nod helplessly.

There was dead silence. The voice didn't sound again as if it had never appeared to begin with.

“Furious Flame, Flaming Phoenix, you tried to steal a chicken, only to end up losing the rice.” Ji Xia laughed heartily. Borla was also gloating as he looked at them.

“Hmph!”

Furious Flaming Universe Lord and Flaming Phoenix Universe Lord both looked gloomy and snorted before leaving.

Valteru and Sinclamon’s had dark and gloomy expressions. They looked like bruised fruits.

“Wang Teng, you’re lucky today!” Valteru said with a cold voice.

“The two divine flames shall be yours for the time being. We will get them sooner or later,” Sinclamon declared.

“Scram!” Wang Teng shouted coldly.

“Hmph, let’s go!” Valteru and Sinclamon were furious and full of hate. But when they thought of the voice just now, they couldn’t say anything else. They then brought the other members of the Parkers family and left the baron residence.

Everyone looked at them leaving with complicated expressions. The strong and domineering Parkers family had suffered such a big loss in the hands of a baron today. It was truly unexpected.

“They look like a bunch of dogs!” Wang Teng suddenly exclaimed.

Everyone: ...?

Chapter 1073 Do Or Die!

Valteru and the others hadn’t gone far. They turned around abruptly when they heard Wang Teng’s words.

“Wang Teng!” Valteru glared at him.

The other members of the Parkers family eyed him furiously too. They looked as if they wanted to skin him alive.

Wang Teng wasn’t afraid of offending the Parkers family, especially after the imperial family had interfered. He continued cursing, “What are you looking at? Dogs like you will bite any bones you see. Will you eat shit if you see it? A grand duke family? You’re just shameless scumbags. Do you really think you’re something? Come on. I’m not moving. Attack me if you have the guts to do so.”

There was dead silence.

Everyone stared at Wang Teng with a complicated expression. They were filled with astonishment and confusion. At the same time, they admired him.

Impressive!

Amazing!

He dared to call the Parkers family dogs and cursed them. Wang Teng was definitely one-of-a-kind.

Bite any bones they saw?

Would they eat shit if they saw it?

Look at what he said...

No one found his vulgarities crude and coarse. Instead, they felt a little... refreshed!

The Parkers family always used their grand duke status to abuse their power. They never looked the small nobles straight in the eye. Many noble families were their victims. Today, Wang Teng vented their frustrations.

Especially after seeing the Parkers family's furious but helpless expression, they felt invigorated like downing a bottle of ice-cold coke in summer.

The youngsters were dumbfounded. They couldn't believe that Wang Teng dared to curse the Parkers family.

Even the always-composed Situ Wan'er widened her beautiful eyes.

"Hahaha!" Borla floated down from the sky and burst out laughing. He didn't care about the Parkers family's feelings at all. Universe Lord Ji Xia didn't mock the Parkers family openly, but he couldn't hide the smile on his face either. He gave Wang Teng a look of approval as if telling him that his curses were amazing.

Many people felt the same way. Although they didn't laugh, they were all gloating in their hearts.

"Little brat, you're looking for death!"

Valteru and Sinclamon almost went crazy. They started screaming in anger.

If the imperial family member hadn't opened his mouth, they might have killed Wang Teng without caring about the consequences.

But they didn't dare to.

The imperial family had spoken. Who dared to resist?

Even the grand duke families would be exterminated if they provoked the imperial family. That would be the end of them.

This was the first time the Parkers family felt helpless and frustrated ever since their rise to fame. They didn't understand why the high and mighty imperial family member would speak up for Wang Teng.

Their faces turned as black as the bottom of a pot as these questions spun in their minds. Flames of anger were shooting out of their eyes. If looks could kill, Wang Teng would have died multiple times.

"You're right. I'm looking for death. From now on, either I die or your family dies. Do or die!" Wang Teng's gaze was cold and sharp. His voice gave off a bone-penetrating chill.

Everyone's expression changed. Even Borla and Universe Lord Ji Xia were appalled.

His voice wasn't loud, but it seemed to come right from hell. It was like the whisper of an evil spirit seeking revenge from the living.

Everyone could hear Wang Teng's determination. Besides resolve, they also detected a hint of madness.

Do or die!

He was sending a life-or-death challenge letter to the Parkers family.

He was challenging the entire Parkers family alone! How crazy was he!

An ant trying to destroy a big tree!

Everyone was dumbfounded. No words could describe their emotions now.

The Parkers family members were shocked too. Waves of astonishment crashed into their hearts.

This bastard!

This bastard!

How dare he!

They didn't think that Wang Teng had the ability to topple their powerful family, but when they heard his eerie voice, they felt a chill running up their spine.

No one knew what to say.

Wang Teng smiled. "So, try your best to kill me. If you don't, I'll wipe all traces of the Parkers family in the universe."

Was

His smile was calm but hideous. Since there was no room for discussion, he didn't mind going to the extreme.

Many younger generations of the Parkers family took a step back. They were frightened by Wang Teng.

Andrais was standing among the Parkers group too. He trembled unconsciously when he saw Wang Teng's expression. The hair stood up on his back. He felt as if he was targeted by a dangerous predator.

Although Wang Teng wasn't eyeing him, he still felt this way for some reason.

"Hmph, a nobody like you won't be able to do anything!" The Flaming Phoenix Universe Lord's contemptuous snort broke the atmosphere.

Wang Teng didn't say much. All the coldness on his face disappeared, and he resumed his composure. He said indifferently, "Get out of my residence. In the future, dogs and the Parkers family will not be allowed to enter here.

"Annie, remember to put a sign on the entrance!"

The Parkers family members' expressions turned distorted. They were greatly humiliated, but they couldn't kill the other party. It was infuriating.

"Oh..."

Annie couldn't retain her composure and stood there in a daze. The series of events that occurred frightened her until she lost her words. She shrunk in a corner with the rest of the servants. After hearing Wang Teng's command, she nodded hurriedly before she managed to regain her senses.

"Hmph, remember your words. The Parkers family will let you know what regret is." The Flaming Phoenix Universe Lord floated over again. His voice echoed in the air along with his roaring anger.

Wang Teng ignored him and just stood there calmly. He shifted his gaze away from the Parkers family, afraid of dirtying his eyes.

Valteru and the others glared at Wang Teng one more time before leaving for real. This place gave them a taste of humiliation and frustration. They didn't want to stay any longer.

After the Parkers family left, the atmosphere finally relaxed a little. Everyone heaved a sigh of relief.

"Everyone, I'm really sorry that you had to experience all that today," Wang Teng glanced around him and said apologetically.

"You're too polite. You didn't wish for this to happen either."

"That's right, please don't take it to heart."

"Baron Wang Teng, you need to tidy up your residence. We won't stay here and disturb you. We'll make a move first."

"That's right, we'll leave first. Let's gather again another day."

Everyone got up and left.

They felt complicated. Some sympathized with him, others felt pity for him, some respected him, some kept their distance, and some treated him with disdain...

"Baron Wang Teng, we'll be leaving too." Jiang Hanfeng and the other members of the Jiang family walked over and bid farewell to Wang Teng. They seemed a little distant.

Jiang Chenxi and Jiang Weisheng stared at Wang Teng from the back with complex expressions. But they didn't say anything. Wang Teng knew what they were thinking. The Jiang family didn't want to be part of his conflict with the Parkers family.

They came to the banquet today because they saw Wang Teng's high potential and wanted to pull him to their side. But he offended the Parkers family and even sent them a letter of challenge. He was overestimating himself and tempting fate.

They gave up the thought of recruiting him after knowing that he was someone who didn't know his limits.

Wang Teng didn't mind. He didn't think that the Jiang family would help him to resist the Parkers family. Since he had no hope, he didn't feel any disappointment or resentment. He kept quiet and sent the Jiang family personally to the entrance.

"Baron Wang Teng, you surprised me with your courage!" Duke Situ walked over with Situ Wan'er. He laughed as he spoke.

“Duke Situ, you’re overpraising me. I was just forced to do that,” Wang Teng replied with a bitter smile.

“Hahaha, it doesn’t matter if you were forced or not. You’re the only person who has ever done such a thing.” Duke Situ chuckled.

Wang Teng shook his head.

“Alright, you have many things to settle, so I won’t disturb you. You youngsters can interact more in the future,” Duke Situ continued.

Situ Wan’er looked at Wang Teng with her beautiful eyes and nodded at him. Honestly, what happened today gave this arrogant young lady a huge boost.

Wang Teng left a deep impression on her mind. Whether it was his own ability or his triple-field grandmaster identity, he showed how extraordinary he was. Hence, she didn’t mind befriending him.

Wang Teng sent them off.

He was a little surprised by Duke Situ’s attitude. He didn’t think that they would still be willing to make friends with him after everything that had happened. “Grandmaster Wang Teng.” Grandmaster Alfred and the other grandmasters walked over.

“Thank you for helping today,” Wang Teng said gratefully.

“You’re the triple-field grandmaster of the Secondary Career Alliance. We won’t allow others to bully you. However, we do apologize that we couldn’t offer much help.” Grandmaster Alfred and the other grandmasters felt a little apologetic as they spoke.

“Please don’t say that. What y’all did is enough. The Parkers family is just too crazy. It’s not your fault.” Wang Teng shook his head.

“I didn’t know that you were a triple-field grandmaster.” Borla walked over with Di Qi. He sounded quite surprised.

“Hahaha, Grandmaster Wang Teng saved my life with his Nine Essence Soul Congealing Pill.” Universe Lord Ji Xia smiled.

“Oh, so this is how y’all met. No wonder you’re willing to help him.” Borla was enlightened.

“No matter what the reason is, I’m extremely grateful for your help.” Wang Teng cupped his fists and thanked the two martial warriors sincerely.

“No problem. You’re Di Qi’s friend and you called me uncle. If I let others bully you, I won’t be able to hold my head up anymore,” Borla waved his hands and replied nonchalantly.

“You saved my life. All I did was help you. It’s nothing.” Universe Lord Ji Xia waved his hands too.

“If you ever need me in the future, please find me. I will do my best to repay your kindness,” Wang Teng said.

Chapter 1074 The Good News Among The Bad News (1)

Wang Teng casually chatted with them.

Borla put on a mysterious expression and asked, "Wang Teng, do you know who stopped us just now?"

"I think it's Grand Duke Chongshan, right?" Wang Teng replied.

"Huh? You could tell?" Borla was surprised.

The other party's voice traveled through space and he spoke in a stern and domineering tone. It was different from the grand duke's voice he heard that day.

"It's just my guess." Wang Teng recalled the day he met Grand Duke Chongshan.

"Anyway, I'm surprised that he's willing to stand up for you," Universe Lord Ji Xia stroked his beard and said.

"Isn't it because the commotion was too huge?" Wang Teng was puzzled. He detected the meaning behind their words.

"No matter how big a commotion, the imperial family will not interfere in such small matters," Universe Lord Ji Xia replied.

"Small matters!" Wang Teng was shocked. "Do you think you can gain the empire's protection after becoming a baron?" Borla asked with a smile.

"I used to think so." Wang Teng shook his head. "But now..."

"To other small factions or low-tier civilizations, a baron of the empire is a powerful character and the Parkers Family is a formidable faction. But to the imperial family, you're nothing. They won't bother about you," Borla explained.

"You're just like two children fighting." Universe Lord Ji Xia added, "Of course, the killing of nobles isn't allowed in the empire. The Parkers family will have to pay a huge price if they break this rule." "So this is the empire?" Wang Teng muttered to himself.

"Wang Teng, you need to understand that the universe is huge and it's ruthless. Only your own power can protect you. You will only be able to roam around freely and do whatever you want if you're strong enough," Universe Lord Ji Xia said in an earnest tone.

Wang Teng nodded. His thoughts started to float away.

He understood the principle, but he had just come to this empire, so there were many things he couldn't do. Even if he was a bug, he couldn't jump levels and catch up with a formidable faction like the Parkers in a few days.

Truthfully, if it wasn't for Earth, he wouldn't have rushed to the Great Qian Empire. That way, he wouldn't harm the interest of the Parkers and their representatives.

Cao Hongtu was just a piece of chess under them!

But since he touched the chess piece, he would have to face the Parkers. This was something he never expected when he came.

“That’s why we’re surprised that Grand Duke Chongshan appeared,” Universe Lord Ji Xia said.

“I don’t know either,” Wang Teng shook his head and replied.

Universe Lord Ji Xia and Borla exchanged glances with each other. They stopped probing since Wang Teng honestly didn’t know the reason.

“The imperial family has spoken, so those old fellows from the Parkers family won’t find you again as long as you’re in the empire. You don’t have to worry too much,” Borla patted his shoulder and consoled him.

“They might try to harm you in secret though. The imperial family won’t be able to say anything if they’re not discovered,” Universe Lord Ji Xia said.

Then, Borla, Universe Lord Ji Xia, and the grandmasters from the Secondary Career Alliance left.

The baron residence finally resumed its peace and quiet. However, the courtyard was a mess. Everything was badly damaged. Wang Teng scanned his surroundings with a sharp gaze. No emotions could be seen on his face.

Annie and the other servants walked over and stood quietly behind him. They didn’t dare to disturb him.

They felt that their master was extremely scary. Violent undercurrents seemed to be surging under that calm face.

The divine spirit master, Bertha, led the guards over and stood some distance away from Wang Teng. She looked at his back with mixed emotions. She couldn’t calm down even after a long time.

What happened today gave them a huge stimulation. The threat of the Parkers family, the help from the other grand dukes, the triple-field grandmaster title, the appearance of the imperial family... They couldn’t believe that all these things had happened to one guy.

ance

They finally knew that their master was an extraordinary presence.

“Tidy the place,” Wang Teng said calmly.

“Yes!” Annie bowed.

Wang Teng didn’t speak again. He turned and returned to his room. Sitting cross-legged on his bed, he closed his eyes.

Round Ball appeared and said, “Wang Teng, why don’t we run away?”

“You can run away if you want. I still have to fight against them!” Wang Teng replied without opening his eyes.

“But that’s a grand duke family. You offended them and said that you will exterminate them. They definitely hate you to the core. How can you beat them? Why don’t we run away?” Round Ball said agitatedly.

“I’m not afraid of death,” Wang Teng replied.

“You... sigh... I shouldn’t have persuaded you to come to the Great Qian Empire.” Round Ball was filled with regret.

Wang Teng ignored it. He was focusing on his attributes panel.

Many attribute bubbles had dropped during the battle between the universe-stage and heaven-stage martial warriors. Wang Teng picked them up silently after his guests left.

These were attribute bubbles dropped by powerful figures. Wang Teng was filled with anticipation.

One by one, the attribute bubbles were absorbed by Wang Teng. His body kept shaking. His mind cleared up, and he was ecstatic.

Good lord!

There was a lot of good stuff!

There were a total of 31,000 points of constellation fire Force, 17,500 points of constellation metal Force, and 11,800 points of constellation wind Force.

With the influx of constellation Force, his fire, metal, and wind elements advanced greatly.

Wang Teng's body suddenly shook. His constellation metal Force had already reached its peak and it was about to advance to the next stage now.

Massive amounts of constellation metal Force circulated in his body, spreading and flowing through his limbs and bones.

Wang Teng's expression changed slightly. He immediately followed the steps that he took when he was advancing his constellation fire Force. He perfected the celestial-stage Celestial Metal Scripture first.

Just like that, he consumed 20,000 blank attributes.

However, he didn't feel sorry at all. He continued to focus on controlling the circulation of metal Force in his body before sending it into his sea of nihility.

Amid a tremor, a golden bridge condensed by constellation metal Force slowly emerged.

Boom!

All the metal Force surged above the sea of nihility and merged into the constellation.

Hum...

The constellation metal Force began to shake violently. It then rushed out toward the center.

Boom!

Along with a loud noise, a terrifying wave of Force swept out. The collision of the constellations formed a golden vortex. Countless golden crystals decorated it, presenting a dazzling scene. It was like one was looking at the countless stars in the universe.

This scene was similar to when he was advancing his constellation fire Force.

Wang Teng was familiar with what was happening. He then focused on the vortex, only to see it collapsing inwards and slowly converging at one point.

Another transformation had started!

Time passed. No one knew how long it took.

The golden vortex had disappeared, turning into a golden sphere. It was several times larger than the nine constellations. It seemed like it was entirely made of golden crystals!

Celestial stage!

Wang Teng's metal Force had reached the celestial stage!

There was a strong force of life that gushed out from the constellation Force. It then merged into Wang Teng's limbs and bones.

His body was once again subjected to a transformation from a planetary-stage body to a celestial-stage body. Be it bones, blood, muscles... or his cells, they were all undergoing a transformation.

However, he had already transformed once. This was just a process of strengthening his body. With this, his body would be twice as strong as an ordinary celestial-stage martial warrior, or maybe even stronger.

This was because his Force was obtained from the system and was extremely pure. It was way above what ordinary martial warriors could obtain.

The process of advancement seemed slow, but in reality, it was incredibly fast. It was done in just a short while.

"Huff!" Wang Teng exhaled slowly and opened his eyes. A dazzling golden light flashed in his pupils.

"You advanced!" Round Ball was startled.

"That's right." Wang Teng nodded.

"Were you angered by the Parkers family to the point that you advanced?" Round Ball said with a weird expression.

"Go away!" Wang Teng grunted angrily and closed his eyes once again. He then looked at the attributes panel.

Constellation Metal Force: 8500/10000 (celestial-stage first-level)

Constellation Fire Force: 39500/70000 (celestial-stage seventh-level)

Constellation Wind Force: 38400/70000 (celestial-stage seventh-level)

His constellation fire Force and constellation wind Fire Force didn't advance, but they improved greatly.

As he continued looking down, he was surprised.

500 points of Origin of Flame!

250 points of Origin of Metal!

200 points of Origin of Wind!

Three powers of origin!

He actually managed to obtain three powers of origin. It was unbelievable.

Only universe-stage martial warriors could master powers of origin. But now, Wang Teng obtained three of them.

He tried to understand the powers of origin and felt like he was in a world of fire, metal, and wind. There was nothing around, only these three pure sources of power.

They weren't flames, metal, or wind. They were just the most basic source of power, the very beginning of these powers.

Three balls of powers of origin finally became still and stopped.

Wang Teng felt that he could use them in his attacks. The resulting power would be extraordinary.

He took a deep breath and continued looking.

Furious Scorching Beast!

Star Phoenix Flame!

Ocean Whale Flame!

Three strange flames!

After getting these three flames, he knew that they were beast flames. They had peculiar powers and were different from ordinary flames.

These three flames were from the Parkers family.

The Ocean Whale Flame was from Valteru and Sinclamon, which Wang Teng had already obtained.

The Star Phoenix Flame came from the Flaming Phoenix Universe Lord, while the Scorching Beast Flame was from the Furious Flaming Universe Lord.

Although the three flames were not as powerful as divine flames, Wang Teng still welcomed them.

It was funny how the Parkers wanted to snatch his divine flames but didn't know that their flames were all obtained by him. He even had their special physique... Dragon Blood Battle Physique!

As the Dragon Blood Battle Physique attribute bubbles merged into his body, a surge of heat spread in his limbs, causing his body to undergo interesting changes.

Wang Teng felt that he was about to become a giant fire behemoth, possessing the ability to control all kinds of flames.

It was... a Blazing Giant Dragon!

The ability was different from his usual use of flames. It was able to integrate the power of flames into his body and strengthen it. The stronger the flames, the stronger the Dragon Blood Battle Physique.

No wonder the Parkers wanted his divine flames so badly.

If beast flames could bring out multiple times the power of Dragon Blood Battle Physique, then a divine flame would be able to bring out at least a dozen times more power. They couldn't be compared.

At the same time, this Dragon Blood Battle Physique could control different flames concurrently. The more flames, the stronger it was as well.

This was a great thing for Wang Teng.

He had many flames, a total of seven different flames-four divine flames and three beast flames that he had just obtained.

If he used them all at the same time, how powerful would this Dragon Blood Battle Physique be?

The more he thought about it, the more he wanted to try and test it.

It was a pity...

Dragon Blood Battle Physique: 200/10000 (first rank)

He had just obtained Dragon Blood Battle Physique and there were very few attributes. The physique was not extremely weak, but he wouldn't be able to unleash its full potential.

As for the Parkers family, there were very few people who could control more than two different flames.

They had a special method of absorbing flames, but it was only limited to one flame. The difficulty would be multiplied when it came to the second flame, and it was almost impossible for them to succeed. If they were not careful, they would be consumed instead.

Wang Teng sneered in his heart.

If the Parkers family knew that he had acquired the Dragon Blood Battle Physique that they were so proud of, they would vomit liters of blood on the spot.

Besides that, Wang Teng also obtained two domains.

Blazing Domain!

Metal Domain!

Wang Teng had previously acquired the Tempest Domain. Now, he obtained the Blazing Domain and Metal Domain. He was just a celestial-stage martial warrior, yet he possessed three domains. No one would believe it if word got out.

The Blazing Domain was Valteru and Sinclamon's ability. They dropped 350 attribute points.

Metal Domain was An Lan's. There were 250 points of that.

Blazing Domain: 350/1000 (first-rank, 35 meters)

Metal Domain: 250/1000 (first-rank, 25 meters)

Wang Teng nodded and looked at the celestial realm stats.

An Lan was after all a cosmos-stage divine spirit master. He dropped a total of 800 points of Celestial Realm Spirit, which greatly improved Wang Teng's spirit.

After taking a look at his loot, Wang Teng realized that he had gained a lot. This was good news amongst the other bad ones.

Chapter 1076 The Decision Of The Olant Federation (1)

The feud between Wang Teng and the Parkers family spread throughout the city like wildfire even before the day ended. Many people couldn't understand his actions. They felt fearful.

Discussions were abundant in all corners of the city.

"Is Baron Wang Teng crazy?"

"What a joke. How dare a baron challenge the Parkers."

"I must ask my descendants to stay away from Baron Wang Teng in case they offend the Parkers."

"Wang Teng is tempting fate. The Parkers family is not a faction he can deal with. I don't think he can live for long. The Parkers will not allow someone who dares to challenge them to live."

"He's dead!"

"But I have to admit that Baron Wang Teng has got some balls. If he can overcome this ordeal, his future accomplishments will be immeasurable!"

Everyone had their own view. But overall, most people thought that Wang Teng would win and mocked him secretly.

Only a small portion found him extraordinary. If he could rise even in this dangerous situation, he would become a greater and more powerful presence than the Parkers family in the future.

This was exceptionally high praise!

But there weren't many people who thought this way.

Over the next few days, many people came to check the situation in the baron residence, only to realize that there were only unimportant servants left there. Their master had disappeared without a trace.

Many people wondered if Wang Teng had secretly run away due to fright.

A pitch-black universe spacecraft was traveling at high speed. Everywhere was dark. They had entered the boundless space.

This was the universe-level spacecraft left behind by the Flaming River Universe Lord!

Wang Teng gave the QY-E63 spacecraft to Hardy so that he could fly to Earth first. Thus, Wang Teng could only use the universe-level spacecraft left behind by the Flaming River Universe Lord now.

Also, the speed of this universe-level spacecraft was much higher than the QY-E63 spacecraft. Wang Teng was in a hurry to get back to Earth, so this spacecraft was the best choice.

He didn't care if he would catch the attention of other formidable warriors. He was already facing many troubles. He didn't mind adding one more!

"Round Ball, where are we?" Wang Teng opened his eyes and asked.

Round Ball waved its hand, and the outdoor simulation mode of the spacecraft was activated immediately.

“We are 30 thousand light years away from the Great Qian Planet,” Round Ball looked at the star chart and replied.

“What about Bertha?” Wang Teng nodded.

He had brought half the guards with him for this trip, only leaving 20 in the residence.

The baron residence was located on the Great Qian Planet. The Parkers family wouldn't dare to cause trouble there since the imperial family had spoken. Hence, Wang Teng wasn't worried.

“They're in the training room.” Round Ball smiled and changed the image displayed to the scene inside the training room.

Bertha was training the other celestial-stage martial warriors. The team had only been formed a few days ago, but they were already well-disciplined and had great teamwork.

“Bertha did well.” Wang Teng was surprised.

“I think she has relevant experience in the past. This fairy divine spirit master isn't an ordinary cosmos-stage martial warrior,” Round Ball touched its chin and guessed.

Wang Teng nodded in deep thought.

“You're really lucky.” Round Ball said, “That mecha heaven-stage martial warrior is willing to continue helping you. I mean, you've offended the Parkers!”

“Do you think everyone is as timid as you?” Wang Teng glanced at it in contempt.

“Me? Timid?” Round Ball pointed at itself. Its eyes widened in anger. “How am I timid? Explain yourself.”

Wang Teng sniggered.

“This is infuriating. You don't seem to understand the severity of the issue. Am I timid? I'm just worried about your life. You don't understand my concerns!” Round Ball was furious.

“Alright, I'm not going to argue with you. Things have already happened, so it's useless to say anything now.” Wang Teng waved his hand.

“Sigh!” Round Ball was stunned for a moment. Then, it lowered its head like a deflated balloon and sighed dejectedly.

“Instead of complaining, why don't we think about how to deal with the Parkers' revenge?” Wang Teng said.

“What plans can there be? Hide while you can. Find a good spot after you settle the matters on Earth and cultivate properly. Work hard to gain the strength to challenge them. The universe is huge. The Parkers family's influence might not be able to reach every part of it,” Round Ball said.

Wang Teng rolled his eyes. However, he had to admit that this was the best plan. What could you do if you couldn't win? Stay low.

Wang Teng shook his head and closed his eyes. Round Ball continued to pilot the spacecraft.

The spacecraft rushed forward at high speed, flying towards Earth without stopping.

Olant Federation.

The Olant Planet.

As the capital, the Olant Planet was the most prosperous place in the Olant Federation. Its economy, technology, and culture had reached an astonishing level. It had a huge population, and there were many powerful martial warriors here.

The majority of the powerful martial warriors and factions were gathered on this planet.

Based on the development of this planet, the Olant Federation did have the right to be called a universe civilization.

Even though it was only a low-tier civilization, it was still a universe civilization. It held some sway in the universe.

Chapter 1077 The Decision Of The Olant Federation (2)

In comparison, Earth was an inconspicuous piece of gravel in the ocean.

At this moment, there was a meeting going on in the middle of a big city in Olant Federation.

The city was called Saint Star City, which was where Saint Star Pagoda, the largest academy in Olant Federation, was located. It could be said that the entire city was owned by Saint Star Pagoda. That was why it was named after

it.

Saint Star Pagoda had an extraordinary status in the Olant Federation. It had groomed numerous formidable warriors of various fields for the federation.

There was no force that could threaten the Saint Star Pagoda in the Olant Federation. Even the higher authorities were cautious of them.

In the meeting room, the virtual network was connected. Powerful figures appeared on both sides of a long table.

These figures represented various races. Some had fine scales on their faces while some looked like ordinary humans. There were people from the fairy race, orc race, etc...

The atmosphere was tense. No one was speaking as if they were afraid of something.

But it didn't take long before someone shouted, "How will this matter be resolved? Come up with a solution. No one even knows if Kathu of the Blood Moon Race is dead or alive. Are you all just going to let me wait like this?"

This was a ferocious-looking sturdy middle-aged man with a blood-red mutated beast totem on his upper body.

If Wang Teng were here, he would be able to tell that this person was from the same race as the alien candidate who came to Earth for the trial. They were from the elite Blood Moon Race from Olant Federation's Crimson Moon Galaxy.

"Manka, it's not just the Blood Moon Race that is in this predicament. The other races do not know the status of our talents either," another man with short stature and fine scales on his face said.

"That's why we shouldn't hesitate anymore. We should just head to Earth and demand an explanation," Manka suggested.

"It's easy for you to say. Kloet said that the martial warrior from Earth has gone to the Great Qian Empire and might have even obtained their protection. Do you dare to demand for someone from the Great Qian Empire?" a golden-haired man said.

"This... sigh!" Manka was speechless and aggrieved. He could only sigh helplessly.

Kloet, the majestic old man with gray robes, was at the meeting as well. He opened his eyes and looked in a direction. "Lady Qing Lun, during the previous trial, only Biluo from the Emerald Abyss Galaxy returned, and she even brought someone from Earth with her. You have to give us an explanation."

Everyone's gaze landed on the same seats.

There were two people sitting over there—a green-haired lady in her thirties and a young woman with long green curly hair.

Kloet's gaze stayed on the young woman for a while, which seemed particularly meaningful.

This young woman was Biluo who had survived Earth!

Qing Lun frowned and said, "I have already given an explanation. Biluo only cooperated with that Earthling once and didn't become an enemy of his. This was why he allowed Biluo to leave. It's reasonable to cooperate with the natives during the trials. If you want to find faults, then the Emerald Abyss Galaxy won't be easily bullied."

Everyone frowned. Their descendants were now in the hands of that Earthling, and only Biluo came back without a scratch. They found it unfair.

But Qing Lun made sense. They couldn't possibly blame Biluo. Moreover, the Emerald Abyss Galaxy was as powerful as them, and it wasn't that easy to deal with them.

If they didn't let go of this matter, it won't do anyone good.

"We can take Biluo's matter as it is, but you have to hand over the Earthling that she brought back." Kloet had no intentions to deal with Biluo and put up his next demand.

"Impossible. That child possesses the rare Light Physique and has been taken in by me. I can't hand her over to you." Qing Lun refused without hesitation.

“Lady Qing Lun, you have to think carefully. We require an explanation,” Kloet said coldly with a grim expression.

“That’s right, Qing Lun, hand her over.” The scaled man echoed.

The others spoke in succession and agreed with the decision.

They weren’t fond of Earthlings. Now that they had no leads, they could only go for the person that Biluo brought back.

It was Alais!

Biluo sat beside Qing Lun and was clenching her fists and teeth tightly. She brought Alais back. If anything happened to her, she would feel guilty.

Moreover, Alais and Wang Teng had a close relationship. If he came back and saw that something had happened to her, what would he think?

She wanted to say something, but it wasn’t her place to speak. She was filled with helplessness.

“Hmph, this matter is not negotiable. I’ll not hand her over to you. If you have the guts, you might as well send an army to Earth,” Qing Lun said solemnly.

Biluo heaved a sigh of relief. However, when she heard what followed next, she was startled and went pale.

Send an army to Earth!

This was not a small matter!

She didn’t think that her mother would suggest something like this. If they really sent an army to Earth, things would get out of hand.

Earth would definitely not be able to defend against the Olant Federation. By then, it would become hell for humans, and they would not be spared.

If this had happened in the past, she wouldn’t have bothered about an underdeveloped planet. She wouldn’t even care.

However, Earth was Wang Teng’s home. If they touched Earth, they would have a deadly feud with him. With her understanding of him, he wouldn’t just let it go like this.

And Wang Teng, who had inherited the title of a baron, had the ability to do so.

Although he was just a baron, he was a baron from a high-tier civilization. He should not be underestimated. If he returned, he might have the ability to overturn the Olant Federation.

Biluo didn’t want anything like that to happen.

Kloet’s face darkened slightly. He wanted to send an army to Earth as well, but he was afraid and didn’t want to go that far. Qing Lun’s words forced him into a corner, making him embarrassed.

The meeting fell into an eerie silence. No one could make a choice when it came to sending an army.

With their strength, dealing with a planet without planetary-stage martial warriors was a piece of cake. The problem lay with Wang Teng, who had gone to the Great Qian Empire. They didn't dare to act rashly without any definite news.

"Let's send an army!" just at this moment, an old man spoke.

He was the president of Saint Star Pagoda, one of the three heaven-stage martial warriors of the Olant Federation!

"President Sheng Luo!"

Everyone turned pale in shock when they heard the words. They looked at the old man in astonishment.

Even Qing Lun who gave the suggestion was speechless. Her mouth was wide open, and her heart was in shock.

"The dignity of the Saint Star Pagoda shall not be violated. If the one who killed our instructors is not removed, no one would be convinced by Saint Star Pagoda," President Sheng Luo said calmly.

"But..."

"No buts. This decision was jointly made by the three of us. The federation's dignity shall be protected," President Sheng Luo said. Everyone stopped talking. The prestige of the federation had to be protected.

No one could refute that. Not to mention, the decision was jointly made by the three heaven-stage martial warriors. They couldn't possibly reject them.

In the Olant Federation, the three heaven-stage martial warriors were like their guardians. Without them, there would be no Olant Federation. No one could deny their decision.

"If there are no questions, go back and prepare. We will take down Earth." President Sheng Luo's voice was extremely calm. He slowly disappeared after speaking.

Everyone was silent for a moment before leaving, each with their own thoughts.

Chapter 1078 The Dawn Of Danger!

Many days later, in the training room of the universe-level spacecraft, two figures flashed around the room quickly, colliding occasionally and giving off a loud explosion. Force waves swept through the place.

Powerful attacks landed on the walls and ground, igniting sparks that ricocheted off. No marks were left behind.

A universe-level spacecraft could resist the attack of a universe-stage martial warrior, so its defense ability was definitely strong.

The training room had other special defense measures too. The attacks of these two people couldn't even damage the shield, let alone hurt the body of the spacecraft.

Actually, even if marks were left behind, the metal would mend the wounds quickly based on its memory as long as it wasn't a destructive attack.

Boom!

The two parties finally retreated and stopped more than 10 meters away from each other after a collision.

"Again!" Wang Teng panted slightly and shouted. He charged forward again.

While he was still halfway through, Emerald Glazed Flame surged out of his body and engulfed him.

Is he planning to use his divine flame? Hmm, this isn't right... An Lan, who was fighting with him, pondered to himself.

Wang Teng didn't use the flame as an attacking move. Instead, he sucked it back into his body using an unknown method.

Well, he didn't exactly suck it back. The divine flame merged with his body. Flame patterns appeared on his skin like runes, making him look mysterious and uniquely beautiful.

"What's this?" An Lan frowned. He was surprised.

"Be careful!" Wang Teng warned in a soft voice.

Boom!

In the next instant, powerful energy shot out from his body while his aura climbed continuously. He seemed to have turned into a frightening giant flame beast as he hurled himself forward.

"Interesting." An Lan smiled. He was extremely interested.

Wang Teng wouldn't be able to beat him. However, the young man's current state made him extremely interested in him.

Boom!

Wang Teng appeared in front of An Lan in an instant. There were flames burning around his fists as he smashed them out.

In the blink of an eye, both of them clashed again. This time, the collision was more violent than before.

Both parties went back and forth countless times, flashing through the training room until only lingering shadows could be seen. Scorching heat erupted from the center of their collision, raising the temperature numerous times.

Bertha and the other celestial-stage martial warriors were dumbfounded.

Wang Teng's ability was only at the celestial stage. Bertha had learned this recently. She always thought that he was at the planetary stage. Despite the difference in their ability, Wang Teng could still have an intense battle with the mecha heaven-stage martial warrior. It was unbelievable.

Although the mecha heaven-stage martial warrior didn't use all his power, Wang Teng's ability couldn't be compared with a normal celestial-stage martial warrior. His strength was enough to threaten a cosmos-stage martial warrior.

Bertha turned serious. She felt that she might not be able to defeat Wang Teng easily if she fought with him. She might even lose to him if she made a mistake.

After some time, they separated, and Wang Teng suddenly pointed in front. A beam of golden light appeared, cutting through the air and causing a sonic boom.

An Lan's gaze turned sharp. A beam of black light shot out from his hand and turned into a flying dagger. It crashed into the beam of golden light.

Clang!

A clear metallic tremor was heard. The black and golden beams of light separated and clashed in the air.

"Divine spirit master!" Bertha took a deep breath. Her mouth parted slightly, and she was shocked, "Master is a divine spirit master

too!"

Suddenly, she felt that her chances of success were getting lower.

What kind of pervert was he!

One shouldn't compare sometimes.

She was already quite powerful. She could beat all other martial warriors at her level, but upon seeing Wang Teng, she started doubting her strength.

"I'm not fighting anymore!"

Half an hour later, Wang Teng stopped. He kept his Golden Crescent Blade and waved his hands at An Lan.

An Lan kept the Thousand Armaments Vessel. He stared at Wang Teng strangely and said, "I only realized your strength after fighting with you. You have gotten stronger since Flaming River World."

"I did make some improvements." Wang Teng nodded, not denying it. However, he felt a little regretful. "But I'm still too weak."

Everyone was speechless. Especially Bertha. She felt that she was being humiliated!

If he was weak, what was she?

She felt sad for some reason.

"You must be stimulated!" An Lan chuckled and nudged him.

Wang Teng: ...

You just stabbed my heart! Do you know that you don't have to expose some things!

“Don’t give up. Your enemy is the Parkers family. You can boast for ten days and nights about this in the universe,” An Lan consoled him.

Wang Teng waved his hand. He lost interest in speaking

After absorbing the attribute bubbles of a few heaven-stage and universe-stage martial warriors, he felt that his ability had increased. Hence, he came to find An Lan for a duel. He wanted to test his power.

In the end, he realized that with his current ability, he had no problem dealing with martial warriors at the third-level cosmos stage and below with his Dragon Blood Battle Physique.

If combined with his spiritual power and domain, he could handle martial warriors at the fourth to the sixth level of the cosmos stage.

As for the power of origin and the Godslayer Sword Scripture, they could be used to kill martial warriors at the peak of the cosmos stage.

He might even be able to harm heaven-stage martial warriors if he caught them off guard. That was how he managed to wound Sinclamon’s arm.

“Wang Teng, did you use...” Round Ball suddenly asked him in his mind.

“What did I use?” Wang Teng asked even though he knew the answer.

“The skill you used seemed similar to the Parkers family’s physique,” Round Ball asked angrily.

“It’s just similar. I came up with it myself to provoke them in the future,” Wang Teng came up with an excuse.

“... Do you think I’d believe you?” Round Ball said speechlessly.

“Where are we now?”

“We’ve left the Great Qian Empire.”

Wang Teng nodded and went back to his cultivation. Suddenly, he thought of something and asked, “Oh right, An Lan, how many cosmos-stage martial warriors do you have?”

“13!” An Lan replied after a moment of surprise.

“They should be enough. Why don’t I see them?” Wang Teng asked curiously.

“They’re hibernating in the universe spacecraft,” An Lan explained. “Are you worried that something will happen to your mother planet?”

“Just to be safe.” Wang Teng nodded.

“Don’t worry. 13 cosmos-stage martial warriors and the two martial warriors beside you are enough for us to rule a low-tier civilization,” An Lan said.

Wang Teng calmed down a little and returned to his room for cultivation.

At the same time, in the Olant Federation, numerous battlecraft had just left the Olant Planet and were rushing towards the Milky

Way.

There were many martial warriors in the battlecraft, including planetary-stage, celestial-stage, and cosmos-stage martial warriors... This frightening army was enough to destroy any planet in the Olant Federation.

Now, they were heading for a faraway planet in the Milky Way. More than ten days later, the fleet arrived outside the Milky Way.

A spacecraft flew out from the Milky Way and landed on a large battlecraft that looked like a battle fortress.

Kloet walked out and entered the huge battlecraft. He met up with a bunch of cosmos-stage martial warriors.

"Kloet, we were waiting for you, but you didn't want to come. If the higher authorities didn't give an order, would you have run away?" The rough voice of Manka, the martial warrior from the Crimson Moon Galaxy, echoed in the room.

"I had matters to attend to. Since the superiors gave me an order, I'll cooperate," Kloet replied calmly without any changes to his expression.

"That's good. It's just a remote planet. I heard that there isn't even a planetary-stage martial warrior on it. What's there to be afraid of?" a middle-aged man with long golden hair said.

Kloet ignored him, sighing helplessly in his heart. He didn't want to participate in this mission because he had a bad feeling. However, his superiors asked him to join in, so he couldn't reject it. He had no choice.

He remembered the earthling that escaped the other day and felt the corners of his eyes twitching. Hatred raged in his heart, but he felt a little fearful too.

On the other side of the Milky Way, the QY-E63 spacecraft was traveling in a wormhole. Its destination was also Earth.

The QY-E63 spacecraft got chased by Kloet when Wang Teng was heading to the Great Qian Empire, so he had to overload the spacecraft and increase its speed. It inflicted great damage to the spacecraft.

Fortunately, after arriving at the Great Qian Empire, Wang Teng didn't need to use it, giving Round Ball plenty of time to repair it.

Then, he earned a huge sum of money from rock gambling and started buying various different parts for his spacecraft. This allowed the QY-E63 to be restored to its original state.

Now, Hardy was piloting this spacecraft and heading for Earth.

In the control room, the exterior simulation had been enabled. Hardy stood in front of the control panel and asked in his hoarse voice, "How long more?"

The celestial-stage martial warriors were the ones piloting the spacecraft. When Wang Teng bought these slaves, he had taken this into consideration. There were a few martial warriors that could pilot spacecraft.

One of the pilots looked at the star chart and said, "We have entered the Milky Way and will reach Earth's vicinity in five days."

"Okay, proceed at maximum speed. Ensure that we arrive as soon as possible and not delay what Master's orders," Hardy said emotionlessly.

"Yes!" Everyone turned serious. No one dared to waste any time and quickly raised the speed of the spacecraft based on Hardy's order.

Outside, in the pitch-black space, the spacecraft suddenly increased its speed and disappeared on the spot. It stretched forward like a blurred black line until it disappeared at the other end of the darkness.

Chapter 1079 I Came On Master Wang Teng's Order!

Earth.

This beautiful planet was floating quietly in the universe and had its current appearance after billions of years of evolution and reproduction.

Countless lives had been nurtured on this planet. No matter how many devastating catastrophes it had been through, life returned, surviving and reproducing tenaciously.

Humans were the rulers of this planet!

Country Xia, Donghai!

A distinctive building was located here.

The building was just constructed. It was several hundred meters in height, and its design had influences from various countries. Now, it was the tallest building on Earth.

Global Union Building!

After the Global Union was formed, the leaders of the countries proposed to have a headquarters for the union's activities.

Although each country had its own plans and would seek its own interests first, they were still united in the face of a new and upcoming era.

The Global Union Building was the link for the countries!

As for why it was constructed in Donghai, it was because of the hero—Wang Teng!

Today, Wang Teng's influence on Earth was out of this world. Although he had already left the planet, the people still remembered him as their hero.

Moreover, Donghai wasn't any country's capital. Having the building there was the most suitable.

Today was the weekly Global Union Conference.

Outside of the Global Union Building, aircraft landed in the square one after another. The leaders of each country got off their planes and greeted each other before walking toward the building

Reaching the front of the building, they would pause in front of a statue before entering the gates. Some even took off their hats.

The statue was a tall, young man standing up straight with an outstanding temperament. His eyes were looking at the sky as if he was gazing into the universe.

Inside the conference hall at the top level of the Global Union Building.

The leaders sat down one after another. Since the conference had not yet begun, they couldn't help but talk amongst themselves softly. They chatted about current affairs and expressed their opinions. Occasionally, one or two interesting scandals would be brought up, triggering some soft laughter.

Time passed slowly. The conference began after everyone had finally arrived at nine in the morning.

"As usual, let's speak freely." The leader of martial arts from Country Xia smiled.

"I have a piece of good news. The White Eagle Nation already has five people who have advanced to the planetary stage." The leader of White Eagle Nation started the ball rolling.

"Five!" Everyone was startled.

"I think you only had three previously. Now there are five of them?" The leader of Country Bat was in disbelief.

"Hahaha, we're just lucky, just lucky." The White Eagle Nation's leader laughed.

"Five is really good. However, our country is not lagging behind either. We have four now. Very soon, the number will be five," Country Boar's leader said.

"Another one from our Alliance has advanced. Now, we have three planetary-stage martial warriors," the leader of the Alliance said.

Everyone started by stating the number of people who had advanced in their countries as they competed with each other.

In the face of the great age of the universe, it was meaningless for them to hide anything.

Ever since the last time when Wang Teng left behind a planetary-stage scripture, martial warriors from various countries were able to advance to the planetary stage.

The number of people who broke through exceeded Wang Teng's expectations. Back then, he thought that it would be good if every country could have one or two who advanced to the planetary stage. It seemed as though he had underestimated these martial warriors.

Many people had been stuck at the peak of the general stage for many years. They didn't advance only because they didn't have these scriptures.

Now, all the countries were trying to surpass themselves and increase the number of planetary-stage martial warriors. In fact, they were planning to create a team of planetary-stage martial warriors. When Wang Teng returned, he could bring them along in the universe.

“Country Xia, how many planetary-stage martial warriors do you have now?” someone suddenly asked.

“Seven.” The leader of martial arts smiled.

“Seven!”

Everyone was astonished and full of disbelief. Their eyes were all on the leader of martial arts.

Previously, the White Eagle Nation and Country Xia stood side by side. Their forces were almost the same. But now, Country Xia had two more planetary-stage martial warriors than the White Eagle Nation.

While two might seem like a small number, these were planetary-stage martial warriors. Every single one of them was extremely powerful. Having two more was akin to having two more strategic weapons.

“Did Wang Teng leave more resources for Country Xia when he left?” Many people were secretly guessing.

Jealous!

So envious and jealous of them!

But they couldn't do anything about it. Wang Teng was from Country Xia. It was reasonable for him to take care of his own country. There was nothing wrong with it.

In fact, Wang Teng didn't leave anything extra for them. The people from Country Xia were impressive.

“Congratulations!”

“Congratulations!” “Congratulations, Country Xia!”

One after another, the leaders congratulated Country Xia while enduring the bitterness in their hearts.

“By the way, is there any news from Mister Wang Teng?” The White Eagle Nation's leader asked.

“There's no news for the time being.” There was a trace of worry in the leader of martial arts' eyes as he shook his head.

He was also one of the seven martial warriors who had advanced to the planetary stage, and he was the strongest. Even when he sparred against the other planetary-stage martial warriors from the other countries, no one could defeat him.

Besides Wang Teng, the leader of martial arts was the strongest person on Earth. That was why everyone respected him.

“Is that so? I wonder when Mister Wang Teng will return?” Everyone felt a little regretful and hoped for him to come back.

“We should enter the universe as soon as possible. We shouldn’t just solely rely on Mr. Wang Teng,” the leader of the White Eagle Nation suggested. “That’s right. We should work together and deal with the upcoming era.”

“What does everyone think of the planetary-stage expedition team?”

“It’s feasible. We’re just lacking a spacecraft that can travel through the universe. Unfortunately, the spacecraft that were left by the alien candidates cannot be used anymore.”

“Some of the parts were disassembled. Ee can’t restore them using the technology on Earth.”

“There’s also a problem with energy. Without enough energy, it is impossible to travel through the universe. I’m afraid we can’t even fly out of the Milky Way.”

The White Eagle Nation’s leader initiated the discussion, and everyone agreed. They were on the same page, wanting to enter the universe as soon as possible.

The leader of martial arts and the three great commanders exchanged glances, noticing a trace of helplessness in each other’s eyes.

They understood everyone’s ideas and thoughts, but they couldn’t make a decision.

The technology of spacecraft was not a problem they could tackle. Moreover, the external situation was unclear and the universe was full of dangers. If Earth entered the universe and anything went wrong, it might be destroyed.

So the best way was to wait for Wang Teng’s return.

Just when the leader of martial arts was about to appease the crowd, a harsh alarm rang in the conference hall. “What’s going on?” Everyone’s expression changed drastically.

The leader of martial arts looked solemn and opened an image that was sent from the universe.

A spacecraft that was flying towards the solar system was captured by the satellites. An image was transmitted back to Earth.

“It’s a spacecraft!” People suddenly exclaimed.

“Spacecraft! Are aliens coming to Earth again?”

“Quick, alert the world.”

In the conference hall, the leaders were anxious and panicking.

“No, why does this spacecraft look like the one that Mr. Wang Teng took when he left Earth?” someone suddenly asked.

“What? Mr. Wang Teng’s spacecraft?!” the White Eagle Nation’s leader exclaimed in surprise. Everyone got closer and looked at the spacecraft.

“It really looks like Wang Teng’s spacecraft.” The leader of martial arts was unsure.

“Quick, get the satellite to monitor in real-time and send us the clearest image,” the leader of the White Eagle Nation commanded.

After a while, a better image of the spacecraft was transmitted. Now, everyone could see it clearly, and they finally determined that the spacecraft was indeed the one that Wang Teng took when he left.

“Phew!” Everyone heaved a sigh of relief. A look of joy appeared on their faces.

“Mr. Wang Teng has returned!”

“That’s great. We’ve talked about it for so long. He’s finally back.”

“Hahaha, it’s good that he’s back. Our plan can be put on the agenda now.”

The crowd was elated and thought that Wang Teng had returned.

“Everyone!” The leader of martial arts opened his mouth and grabbed everyone’s attention.

“We have to put the whole globe on alert,” the leader of martial arts said. “Wang Teng instructed us before he left. No matter who comes, we must take precautions. There are many spacecraft of the same type in the universe. And there’s another possibility... If something happened to Wang Teng, Earth might be exposed!”

The hall went silent and the atmosphere tensed up.

“Alright. Sound the warning alarms.”

The crowd agreed and sent out a series of commands.

Machines went into operation, and armies, weapons, and martial warriors were all dispatched. The planet was on the highest level of alert.

Countless fighter planes took off and circled the skies, forming groups and protecting the cities. There were also fighter planes preparing to intercept the spacecraft.

If Wang Teng returned, there wouldn’t be a problem. However, if it was an alien invader, it would be a fight to the death.

Three or four hours passed as everyone waited anxiously.

The spacecraft was extremely fast and finally neared Earth. It entered the atmosphere and started landing

But before it landed, it was intercepted by a group of fighter planes. “Please stop!” The fighter planes were using the Common Universal Language.

The people on Earth were learning the Common Universal Language. Many linguists had almost mastered it and could communicate normally.

The identity of the person was unknown. Just in case, it was better for them to communicate using the Common Universal Language.

At the same time, the image here was also transmitted back by the fighter planes. The door of the spacecraft opened slowly, and a figure walked out. The powerful aura was strong and terrifying. Just standing there made people have the urge to surrender.

This was the natural reaction when the weak faced the strong.

“Alien!”

When the leaders saw the gray-robed man walking out, they immediately knew that he wasn't Wang Teng. Their expressions changed.

It was an alien!

Did something happen to Wang Teng? Or was this a spacecraft of the same model?

No matter what, this wasn't a good thing for Earth. The leaders didn't expect that they were living their worst nightmare.

Wang Teng didn't return.

An alien visitor came out of the spacecraft. Although they didn't know his identity, that overwhelming aura was enough to unsettle them.

He was too powerful. They could feel his domineering and terrifying presence even though they were across the screen.

The figure seemed to sense their gaze and looked in the direction of the camera as if he was looking directly at them.

That gaze was enough to send fear into the hearts of the leaders. They were about to kneel down.

Fortunately, they were strong-willed and weren't looking at him directly. Otherwise, they wouldn't be able to bear it and might even do something embarrassing.

“This alien is very strong!”

“Too powerful!”

“What is his purpose for coming to Earth?”

“If he wants to attack Earth, we can't resist him.”

The leaders panicked. They were in an uproar, and it was difficult for them to calm down.

“I came here on Master Wang Teng's order!”

A voice came from the gray-robed man. He was speaking Common Universal Language.

Chapter 1080 The Human On Earth Felt Inferior!

“I came here on Master Wang Teng's order!” The voice of the man in gray resounded in the air.

Everyone was stunned. They opened their eyes slightly and couldn't react in time.

“What is this?” Commander Long from Country Xia was so shocked that his accent came out.

“I can understand every word, but I don’t understand them when they’re in a sentence.” The commander and head of the White Eagle Nation exchanged glances with each other.

“Did we learn our Common Universal Language properly?” the head of Country Bat asked.

“Didn’t he mention Wang Teng? Did he say that Wang Teng was his master? Did I hear wrong?” the head of Country Boar wiped the cold sweat off his forehead as he asked with uncertainty.

“If you heard him wrongly, we might have heard him wrongly too,” the head of Country Star said.

Everyone was in disbelief. The atmosphere turned a little awkward.

Hardy, who was floating in the sky, started to get impatient. He was a cosmos-stage martial warrior from the Shadow Assassin Clan. Yet, he received such a cold treatment when he came to this remote planet.

If Wang Teng didn’t give him this order, he wouldn’t want to speak to these people at all. He would have made a move to let them understand how they should respect a cosmos-stage martial warrior.

“Did you hear what I said?” Hardy asked indifferently again.

The crowd regained their composure.

“Cough, let’s ask the martial warrior directly.” The leader of martial arts coughed awkwardly. He seemed a little hesitant, but he still voiced his thoughts at the end.

“Yes, we should talk to him directly.” The other people nodded in agreement.

When facing such powerful martial warriors, it was always better to be friendly. Besides, based on his ability, the other party didn’t need to waste time with them. This meant that his words were most likely true.

CV

Everyone was astounded when they thought of this possibility. However, they had to suppress their amazement and converse with the other party.

“Sir, I’m the representative of the Global Union.” The leader of martial arts’ voice came from the broadcast system of the battlecraft. He introduced himself and hesitated for a second before asking, “Have you really been sent by Wang Teng?”.

Hardy immediately understood the other party’s concern. He was too powerful, so the earthlings found it hard to believe him.

He didn’t understand how his master managed to become a noble of the Great Qian Empire when he hailed from this backward planet that didn’t even have that many planetary-stage martial warriors.

He even spent a huge sum of money to buy him. Where did a martial warrior from a backward planet get so much money?

In summary, everything seemed weird.

Although Hardy was irritated, he couldn't disobey Wang Teng. He suppressed his impatience and said, "My master, Wang Teng, sent me here. If you don't believe me, you can enter the virtual universe and check with him."

The leader of martial arts and the others couldn't contain their astonishment. This insanely powerful martial warrior was sent by Wang Teng. And he called Wang Teng his master!

They couldn't imagine what Wang Teng went through in the few months after he left Earth. How did he manage to get such a powerful servant?

However, they felt relieved too. This powerful martial warrior wasn't an invader. This was a piece of good news. As for the virtual universe, they didn't know what it was. They would ask him later.

"Since Wang Teng sent you, please follow the battlecraft and land in Donghai. We'll be waiting for you there," the leader of martial arts replied politely.

Even though the other party was Wang Teng's servant, they didn't dare to treat a powerful martial warrior like him improperly. They would give him the respect he deserved.

Hardy nodded. He didn't speak anymore nor did he return to the universe spacecraft.

The battlecraft around him received an order and flew towards Donghai, guiding the way for Hardy.

Hardy and the QY-E63 spacecraft followed behind.

The leader of martial arts looked up to Hardy a little more when they saw him following their fleet with ease.

After some time, Hardy and the QY-E63 spacecraft landed in the plaza in front of the union building in Donghai.

Many people in Donghai saw the spacecraft, causing a huge commotion.

"Why is there a universe spacecraft on Earth?"

"No wonder Donghai went into alert mode. It looks like something big is about to happen."

"What? Donghai went into an alert mode? Why didn't I know?"

"Why would you know? Donghai isn't the only country on alert. My aunt's cousin is at the White Eagle Nation. He said that White Eagle Nation sounded the alarms too. The entire Earth might be on alert."

"Really? Is this an alien invasion?"

"I don't think so. That universe spacecraft won't be able to enter Donghai so easily if it was an alien invasion."

"Oh right, Wang Teng left an array around Donghai. Normal aliens won't be able to invade us easily."

"Hey, don't you think that this spacecraft looks a little familiar?"

The leader of martial arts and the others were waiting in the plaza. Hardy landed in front of the QY-E63 spacecraft. Then, a group of celestial-stage martial warriors alighted the spacecraft.

There were 50 people in total!

The leader of martial arts and the others widened their eyes in surprise. They were dumbstruck.

Oh my god!

What formation is this?!

All these martial warriors were wearing battle uniforms and giving off powerful auras. Every one of them was enough to wipe out the people here. All the martial warriors on Earth wouldn't be their match.

Extremely terrifying!

The heads of the countries lost their voices. They were in a daze.

Hardy frowned. "Who's the leader here?"

The Common Universal Language that sounded different from the earthen languages woke everyone up from their stupor. All the heads looked at the leader of martial arts.

Their intention was clear. Wang Teng is from Country Xia, you can do the honor.

The leader of martial arts felt helpless, but he had no choice. He walked forward and bowed at Hardy. Then, he said, "We're the representatives from the different countries on Earth. May I know why Wang Teng asked you to come..."

"My master is busy, but he's worried that someone will attack Earth, so he sent me here first to protect you," Hardy explained briefly.

The leader of martial arts and the others nodded. They knew that he was referring to the people from the Olant Federation.

"Is Wang Teng coming back?"

"He should be back within the next few days."

Everyone was elated. Wang Teng's servant was already so powerful. If he came back personally, he would probably have more good news. Earth would soon be able to enter the universe era.

"If you have anything to tell him, you can enter the virtual universe personally and speak to him," Hardy said.

"What's the virtual universe?" the head of the White Eagle Nation asked involuntarily.

Hardy was stunned. He didn't know what to think. As expected of a native. They didn't even know what the virtual universe was.

Why is Master so different from them even though they come from the same planet?

Hardy explained helplessly. The heads of the nations finally understood what the virtual universe was.

This was amazing!

How impressive!

There was a virtual universe segregated entirely from the reality in the universe!

They found it impossible to imagine it with the current technology on Earth. No, it wasn't just simple technology. There were many elements they couldn't comprehend.

"Nevermind, since you don't know about the virtual universe, you wouldn't have a virtual identity. You can't enter it." Hardy shook his head.

"It's alright. Wang Teng will be back soon, so we can talk to him directly," the leader of martial arts said.

"Yes." Hardy nodded.

"Please follow me. Let me arrange your lodgings." The leader of martial arts raised his hand to welcome them.

Hardy followed behind him and asked, "This place seems peaceful. There are no invaders."

"Yes, there are currently no invaders. How's Wang Teng?" the leader of martial arts asked.

"My master is a baron of a high-tier civilization. He's no longer an ordinary martial warrior," Hardy replied with a complicated expression.

Indeed, he was extraordinary. If not, why would a shadow assassin like him run errands for him? He had to admit that his master was impressive.

"A baron of a high-tier civilization. He did it." The leader of martial arts and the others were staggered. Their emotions turned complex too.

They knew that this was an arduous path and the success rate was extremely low. However, they didn't have a choice. Wang Teng had to take the risk.

Earth's future was placed on his shoulders!

Yet, to their surprise, he succeeded!

It had only been a few months since he left, but he was already a baron of a high-tier civilization. There were also many powerful martial warriors under his wing.

This was unbelievable.

None of them might be able to complete this task.

Amid their astonishment, everyone had the thought of keeping a close connection with Wang Teng, especially the heads of the different countries. They didn't have the Country Xia's advantage, so they must curry favor with Wang Teng. If not, they wouldn't be able to gain any benefits.

The leaders led Hardy and the other martial warriors to their accommodation, the VIP guest house in Donghai. They used their best service to welcome these foreign martial warriors. They didn't treat them impolitely just because they were Wang Teng's servants.

At the same time, the heads of the different countries tried to find out more about Wang Teng from Hardy.

“May I know what stage you’re at?” the head of the White Eagle Nation blinked and asked with a smile.

“The cosmos stage,” Hardy replied casually.

“Cosmos stage!”

“Gasp!”

Everyone was appalled. They gasped and thought they had heard wrong.

Cosmos-stage martial warrior!

They had some understanding of the level after the planetary stage. They knew that there was the celestial stage and the cosmos stage.

This person was a cosmos-stage martial warrior!

A real and living cosmos-stage martial warrior was in front of them. It felt like a legendary figure had walked out of the book!

Were they dreaming?! He was Wang Teng’s servant?

er

This was crazy. They almost started doubting their lives.

“What about them?” The head of the White Eagle Nation swallowed his saliva and looked at the martial warriors behind Hardy.

“They’re celestial-stage martial warriors!” Hardy frowned as he answered in an indifferent tone. He found this old man a little irritating.

The head of the White Eagle Nation was stunned once again. He felt a little nauseous. The other heads were in no better state. Nothing could describe their astonishment.

Before this, they were still proud of their countries for grooming a few planetary-stage martial warriors. However, Wang Teng sent a cosmos-stage martial warrior servant over.

This was incomparable!

The difference made them hopeless.

Not only that, besides this cosmos-stage martial warrior, there were another 50 celestial-stage martial warriors.

50 celestial-stage martial warriors!

The heads of the nations understood what an abyss felt like.

At the same time, they felt lucky that they didn’t offend Hardy and the others. Had they provoked this bunch of martial warriors, Earth would have been a goner. “This is nothing. The main army will arrive with Master.” Hardy couldn’t help but add this sentence when he saw their bewildered expressions.

It seemed quite fun to stimulate these natives.

“The main army...” The crowd’s expressions changed slightly. They stared at one another.

This person was just the frontline. There were many other martial warriors arriving soon.

The leaders couldn’t think properly. They felt that they had underestimated Wang Teng. This was terrifying!
