

Martial Arts 1091

Chapter 1091: Planet Annihilation Cannon. The Dawn Of Destruction! (2)

“How can you do this?” Grandpa Wang stared at Sheng Luo in disbelief.

He was an old man who had lived for many years, but he was unable to suppress the anger in his heart when he saw Sheng Luo’s shamelessness.

“I didn’t say that I wouldn’t destroy Earth,” President Sheng Luo replied calmly with no changes in his expression.

“You...” Grandpa Wang didn’t know what to say.

You couldn’t judge a shameless person using the standards of a human.

President Sheng Luo disregarded Grandpa Wang. He frowned slightly when he saw the cosmos-stage martial warriors standing in their original positions absentmindedly. “Didn’t you hear me?”

“Yes!” The cosmos-stage martial warriors regained their composure.

President Sheng Luo was one of the three heaven-stage martial warriors of the Olant Federation. They couldn’t disobey him.

The cosmos-stage martial warriors gave a sinister smile as they glanced at the earthlings. Then, they returned to the battlecraft.

A considerable amount of energy was needed to destroy a planet. Thus, the cosmos-stage martial warriors had to activate the Planet Annihilation Cannon onboard the battlecraft to achieve this.

The Planet Annihilation Cannon was a weapon that could raze an entire planet!

Among all the cosmos-stage martial warriors, only Qing Lun showed signs of unwillingness and sorrow. However, she had to obey orders.

If she disobeyed President Sheng Luo, her race would be put on Saint Star Pagoda’s blacklist and the younger generations could forget about entering the institution.

The Saint Star Pagoda was a powerful faction in the Olant Federation. She couldn’t offend them. Hence, after a slight moment of hesitation, she followed Manka and the others back to the battlecraft.

President Sheng Luo looked at Hardy and said, “I can give you one more chance. Come with me to Saint Star Pagoda or get exterminated along with Earth.”

“Not interested.” Hardy scoffed impolitely.

He looked at Sheng Luo as if he were a dead man. He knew that these people would have to pay a huge price for using this method to threaten his master.

Did they think that a baron of a high-tier civilization was so easy to bully?

“Stubborn.” President Sheng Luo felt infuriated for some reason when he saw Hardy’s gaze. He snorted.

Despite inviting the other party earnestly, he got rejected. As a heaven-stage martial warrior, he had never suffered this treatment before. He ignored Hardy and disappeared on the spot.

...

All the battlecraft started flying out of Earth.

“Stop them! Stop them quickly!” The leaders of the nations hurriedly gave their orders. They were agitated.

The most powerful fighter jets on Earth soared into the sky and started attacking the battlecraft from the Olant Federation.

Boom! Boom! Boom!

Force attacks slammed on the battlecraft, creating balls and balls of dazzling lights.

Unfortunately, it was useless. Compared to the Olant Federation, the technology on Earth was too lacking. These attacks wouldn't do much damage to the defense shield of the battlecraft, much less harm their main body.

Even if they did manage to break the defense shield, these attacks, which were less powerful than planetary-stage attacks, couldn't affect the body of the battlecraft at all.

Swoosh!

Beams of light shot out from the universe battlecraft.

The fighter jets from Earth dodged frantically, but they couldn't catch up with the speed of the light beams. In an instant, they were struck down.

Boom! Boom! Boom!

The fighter jets exploded and turned into balls of fire as they plummeted to the ground.

However, numerous fighter jets continued soaring into the sky, flying towards the universe battlecraft and using their lives to stop them.

“The alien invaders will be leaving the planet soon. Activate the Space Shift Array,” the head of the White Eagle Nation said grimly.

“I agree!”

“I agree!”

...

None of the heads hesitated. All of them made the same decision.

There was no path of retreat. Activating the Space Shift Array and wandering in the universe was the only solution.

If the aliens didn't leave Earth, they wouldn't have the chance to activate this array. However, they had the opportunity now.

“Alright, activate the Space Shift Array.” The leader of martial arts nodded.

“We must stop the alien invaders and buy some time,” the head of the White Eagle Nation said.

Orders were handed down. The entire world started moving.

All the martial warriors were giving it their all for Earth’s last chance of survival, even if it meant sacrificing their lives.

Fighter jets flew into the sky, advancing waves upon waves to block the universe battlecraft, buying time for the activation of the Space Shift Array.

Countless fighter jets exploded like fireworks, dazzling people’s eyes for a second before falling into darkness.

This was a beautiful yet tragic scene.

Runemasters rushed toward the location of the Space Shift Array, hastening the speed of its activation.

They had already made preparations before this, but the array covered the entire planet. It was difficult to activate it. They needed a long preparation time.

Also, after activating the array, it needed time to gather space energy before it could start working.

All this needed time!

Time passed slowly. Numerous fighter jets and martial warriors from Earth had perished by now. However, they were still unable to stop the battlecraft from the Olant Federation.

After some time, all the battlecraft left Earth and floated in the universe.

The azure blue planet in front of them spun slowly. This was Earth.

In the huge battlecraft that looked like a battle fortress, the cosmos-stage martial warriors stood beside President Sheng Luo and admired the planet ahead of them.

Chapter 1092 Planet Annihilation Cannon. The Dawn Of Destruction! (3)

“What a beautiful planet,” Oliver said with a smile.

“Unfortunately, it’s going to turn into dust soon.” Claude from the Black Scale Race sniggered.

“To think that these earthlings attempted to stop us. They’re so naive,” Manka snorted in disdain.

“They’re just natives of a backward planet. There are many other planets like this in the universe. There’s no reason to feel pity for destroying it. It isn’t worth much,” President Sheng Luo said. “Let’s start.”

The cosmos-stage martial warriors started instilling Force into the energy storage device in front of them.

Buzz~

A blinding glow lit up on the battlecraft. Lines of light covered the giant battlecraft like electricity wires.

A terrifying energy fluctuation emitted out of the battlecraft.

“Come and have a look. See how your mother planet gets exterminated. This is your last chance to look at it.” Sheng Luo clenched his fist. The Wang family, who was some distance away, flew over uncontrollably and landed beside him.

They stared at the azure blue planet in front of them with misery in their eyes.

Lin Chuhan’s face was white. There was a hint of helplessness on her beautiful face as a familiar figure appeared in her mind. She muttered to herself, Why aren’t you back?

Son! Wang Shengguo and Li Xiumei were panicking too. They called for their son in their hearts.

So were Grandpa Wang, Wang Yanan, Wang Yalong, and many other members of the Wang family.

Wang Teng was their only hope.

It was agonizing to watch their planet getting destroyed right in front of them!

They wished that Wang Teng could appear and save this planet on the verge of annihilation.

Earth, Donghai.

The scene in outer space got picked up by the satellites and was shown on screens all over the world. This was majestic but sad.

The universe battlecraft floated in space, consolidating energy. The scary Force glow instilled fear in everyone’s heart.

“How much longer?” All the heads of the nations were burning with anxiety. They kept asking about the progress of the Space Shift Array.

“We still need five more minutes,” the leader of martial arts replied grimly.

“Five minutes is too long. Can they be faster?” the head of the White Eagle Nation asked.

“The alien invaders won’t give us so much time.” The head of Country Star sighed helplessly.

“We don’t have a choice. This is the fastest they can go.” The leader of martial arts couldn’t do anything either. “The runemasters have tried their best. It’s all up to fate.”

The other heads kept quiet. They knew that everyone was giving their best. The people on Earth were working hard to buy any time they could. A second of difference meant a different outcome.

Escape or exterminate!

What would be their ending?

No one knew!

The QY-E63 spacecraft parked in the plaza in front of the Global Union Building rose into the air and dashed into outer space at the speed of light.

QY-E63 was a cosmos-level spacecraft, the only one that could cause damage to the Olant Federation's battlecraft. Hardy was piloting it, working hard to earn more time for Earth.

In space, the QY-E63 spacecraft broke through the atmospheric layer around Earth and started launching its attack.

Boom!

A terrifying Force attack smashed directly toward the giant battlecraft that looked like a battle fortress.

The Olant Federation never expected this. They endured the full force of the attack. The defense shield vibrated violently. Then, a clear breaking sound was heard.

The attack managed to break a small part of the defense shield. The Olant Federation's battlecraft started shaking furiously. A blaring siren rang immediately.

"Beep! Beep! Beep! Defense shield 30% damaged!"

"Beep! Beep! Beep! Defense shield 30% damaged!"

"Beep! Beep! Beep! Defense shield 30% damaged!"

Everyone's expressions changed slightly.

"That's a cosmos-level spacecraft!" Kloet explained quickly.

"A cosmos-level spacecraft! Why didn't you say that earlier?" President Sheng Luo bellowed.

Their battlecraft was also at the cosmos level. Hence, it couldn't withstand a direct hit from another cosmos-level spacecraft.

"I..." Kloet didn't know what to say.

"Quick, repair the defense shield and shoot down that spacecraft," President Sheng Luo gave an order instantly.

Boom! Boom! Boom!

Force attacks shot out from the battlecraft one after another.

At the same time, the battlecraft around them gathered together and defended the giant battlecraft while attacking the QY-E63 spacecraft.

Hardy's face turned gloomy. He had to deal with these small battlecraft first.

An intense pursuit started in outer space. A cosmos-level spacecraft was indeed extraordinary. Those normal battlecraft were unable to strike it down.

However, besides escaping, Hardy also had to deal with the occasional attacks from the giant battle fortress-like battlecraft.

Boom!

Suddenly, the QY-E63 took a hit on the side.

The QY-E63 spacecraft started shaking violently. The battlecraft around it grabbed the chance and threw countless Force cannons at the defense shield.

Crack...!

The shield cracked under the onslaught. All the Force attacks landed on the main body of the QY-E63 spacecraft.

Fortunately, this was a cosmos-level spacecraft, so normal attacks couldn't harm it.

Hardy grabbed the opportunity to escape from the encirclement.

Chapter 1093 Planet Annihilation Cannon. The Dawn Of Destruction! (4)

Time passed slowly. Cold sweat appeared on the foreheads of all the leaders of the world. Their palms and backs were drenched in sweat too. They paid attention to what was happening in the universe while keeping a close watch on the countdown of the array displayed on the screen. They were extremely nervous.

The preparations for the Space Shift Array were done. They only needed to give it time to finish consolidating space energy.

Five minutes!

Four minutes!

Three minutes!

Two minutes!

One minute...

At the last minute, the Planet Annihilation Cannon on the Olant Federation's battlecraft had gathered enough energy.

The lines of light on the surface of the battlecraft gathered on one spot. The fortress-like battlecraft split open from the center, and the mouth of a cannon, almost half the width of the battlecraft, revealed itself.

Silver light dotted the mouth of the cannon as it aimed at Earth. Immense and terrifying energy spread out.

We're dead!

The leaders of the nations felt their hearts sinking. Their world turned gray, and they were filled with despair.

A little!

Just a little!

Why?

What just happened?

A little more and they would be able to escape from this deadly situation. Why wouldn't God give them this chance? Was Earth going to be destroyed just like that?

Countless people shouted and screamed, venting the anger and fear in their hearts. No one wanted to die. They didn't want to disappear from the universe.

The human race had been exploring the universe for millions of years, always hoping that one day, they could step out of Earth and proceed to a bigger stage.

When the martial era arrived, they saw hope.

Then, Wang Teng came out of nowhere and became the most powerful martial warrior on the planet. He even flew out of Earth and became the first human to enter the universe.

Hope was right in front of them!

But why? Why did they have to be exterminated at the dawn of their hope?

Could Wang Teng come back in time?

The same thought appeared in the hearts of numerous earthlings.

Wang Teng!

Dan Taixuan gritted her teeth as she floated in front of the Global Union Building, repeating Wang Teng's name again and again in her heart.

The leader of martial arts and the others felt helpless and depressed as they stared at the image sent back by satellite.

They wished that Wang Teng could save this planet from destruction just like how he always did in the past.

But there wasn't enough time.

Even at this moment, there was no sign of Wang Teng. How could he save the planet?

Everything was too late...

Boom!

Powerful energy burst out from the mouth of the cannon. The light was blinding. It was impossible to open one's eyes and look at it.

The people on Earth only saw the entire sky turning silver-white like the apocalypse. Everything seemed to have lost its color. They were devoured by this beam of silver-white light.

Boom!

At this moment, another loud explosion was heard.

A powerful beam of Force glow erupted from another side of outer space, aimed right at the Olant Federation's battlecraft.

The attack was extremely close. It seemed to have traveled through space and arrived in the blink of an eye even though it was released after the Planet Annihilation Cannon. It slammed into the Olant Federation's battlecraft.

Bang!

The defense shield broke, and the attack made contact with the main body of the battlecraft.

Instantly, the battlecraft shifted a little due to the impact and the aim of the cannon deviated.

Everything happened in the blink of an eye.

The energy from the Planet Annihilation Cannon was finally released. It scraped past the surface of Earth.

Boom!

A small planet in the distance was destroyed by the cannon. It exploded from the overwhelming force and turned into dust floating in the universe.

A small planet was gone within a split second!

Silence!

There was dead silence on Earth.

Cold sweat dripped down everyone's forehead, but no one noticed it. They stared absentmindedly at the sky.

They hadn't regained their senses yet. They felt lucky that they had survived this disaster.

"We're... safe?!" someone exclaimed in disbelief.

"Yes, we're still alive!" someone shouted in excitement.

The people on Earth were overjoyed. Some even started cheering.

The leaders of the various nations woke up from their daze. They stared at the small planet that was hit with lingering fears in their hearts.

What a terrifying attack!

A small planet was destroyed so easily. If that attack had landed on Earth, they might have exploded in a similar way.

The various leaders shivered in fear when they thought of this possibility.

"What happened just now?" the leader of the White Eagle Nation suddenly asked.

Everyone was stunned. This was a good question. They turned their heads and looked at the scene in space. In the Olant Federation battlecraft, Sheng Luo and the other martial warriors didn't expect this to happen either. A little more and they could have destroyed this planet. Their plan failed at the last step.

Anyone would feel unhappy when confronted with such a scenario.

You finally reached the last step to achieving your goal after spending this much time and effort. However, someone put a banana peel on the step and you slipped and fell.

Wasn't it infuriating?

President Sheng Luo's expression turned grim. He looked in the direction of the attack.

The Wang family also followed his gaze...

The space there started vibrating as airwaves were formed. Then, a cut appeared gradually and started expanding. It became bigger and bigger.

d

The tip of a universe spacecraft peeked out from the space behind it. Its sharp metallic edge gave off a cold and harsh glimmer. As the cut became bigger, more parts of the spacecraft were revealed.

Within a few seconds, an enormous spacecraft emerged from the emptiness and appeared in front of everyone. What kind of presence did it have?

It was ferocious, humongous, majestic, frightening... In front of this spacecraft, the battlecraft from the Olant Federation was just a puny little toy.

Chapter 1094 All Of Them!

A savage and giant spacecraft emerged from the emptiness and appeared in front of the Olant Federation's battlecraft. It entered the earthlings' vision too.

"What is this?" President Sheng Luo squinted. He felt a tremor in his heart.

As for Manka, Qing Lun, Alston, and the other cosmos-stage martial warriors, they were appalled too.

Based on the size of this spacecraft, the sharp and harsh glimmer of its metallic surface, and its domineering force of presence, they could tell that this was anything but ordinary.

"Could it be?" The Wang family clenched their fists. There was excitement and anticipation on their faces.

Is Wang Teng back? The thought appeared in their mind.

They did have some doubts. Was Wang Teng really piloting this enormous and exceptionally frightening spacecraft?

Earth.

The leaders of the nations were stunned. They stared at the spacecraft that appeared out of the blue in astonishment with an unbelievable thought in their mind.

“Is Wang Teng back?”

The leader of martial arts and the three great commanders clenched their fists tightly. They were a little agitated and excited.

Beep! Beep! Beep!

The alert of the countdown suddenly sounded in the Global Union Building.

Ten!

Nine!

Eight!

The Space Shift Array was at its last ten seconds of countdown. The people in the building woke up from their stupor.

The Space Shift Array was about to be activated. For a moment, there was a dilemma on all their faces.

They weren't sure if the spacecraft belonged to Wang Teng. Also, if he couldn't stop the Olant Federation, it would be a huge waste.

The Space Shift Array had a long cooling period if it was interrupted. They would need even more time to reactivate it.

However, after a second of hesitation, the leader of martial arts still ordered his men to deactivate the Space Shift Array.

The activation was stopped three seconds before the launch.

Everyone heaved a sigh of relief.

None of the other leaders objected to it. After all, none of them wanted to roam aimlessly in the universe. They would have to face many unknown dangers at that time.

All their hopes were placed on the gigantic spacecraft that just appeared.

The network of the Global Union Building got hacked. The same thing happened all around the world. No one could control it.

The screens on people's computers, phones, and walls of malls became blurry. Then, the image changed, and the figure of a young man appeared. Wang Teng! The person on the screen was Wang Teng!

“I'm sorry I came late!” A solemn voice sounded from his throat. Everyone standing in front of a screen heard him.

Their eyes turned red. Some even wept in joy.

He returned!

Wang Teng was finally back!

Earth was safe!

They believed in Wang Teng just like how they did in the past. They believed that once he was back, Earth would be saved.

nce

“This guy!”

Dan Taixuan, Ye Jixin, and some others were standing on top of a high-rise building. Dan Taixuan felt tears welling up in her eyes when she heard Wang Teng’s voice. “It’s good that you’re back,” Ye Jixin lamented. There was happiness shimmering in his eyes too.

In the Global Union Building, the leaders were elated upon seeing Wang Teng’s face. Indeed, that spacecraft belonged to him.

“Hahaha, he’s back!” Commander Hong laughed uncontrollably.

“He’s finally back.” The leader of martial arts shook his head. His emotions just went on a rollercoaster ride. It was finally back on land.

“Earth is saved!” Commander Yong let out a long sigh. A smile appeared on his face.

“Yes, we’re safe.” The leader of martial arts nodded.

No matter how powerful their opponent was, the leader of martial arts also had inexplicable confidence in Wang Teng.

“Who are you?” A voice came from within the Olant Federation’s battlecraft.

“Olant Federation, you deserve to die!” was the reply from the gigantic spacecraft. The anger in the voice was apparent.

If he came a second later, Earth would have been razed. His family and friends would vanish along with it.

The Olant Federation must die!

“Wang Teng!” President Sheng Luo said coldly. He recognized who this person was.

“That’s right. It’s me. Aren’t you looking for me? I’m back now.” Wang Teng’s voice was eerie and icy like a spirit that crawled out from hell. He gave his order instantly, “Attack and destroy all battlecraft of the Olant Federation. All of them!”

Boom! Boom! Boom!

Terrifying attacks shot out from the spacecraft immediately, raining down on the Olant Federation’s battlecraft.

Wang Teng's spacecraft was a universe-level spacecraft. Not only was its defense ability exceptional, but the weapons on it were also powerful. Ordinary weapons were nothing in front of the power and speed of these weapons.

The weapons all spat fire at Wang Teng's order, encompassing the enemy like a net.

Boom! Boom! Boom!

The battlecraft exploded and turned into balls of flame, reduced to cosmic dust

Within a few seconds, all the universe battlecraft sent by the Olant Federation were wiped out. Only the battle fortress managed to escape from destruction. However, it had become a general without an army.

Before Sheng Luo could react, this was the scene left for the invaders. They widened their eyes in shock. All of them were flabbergasted.

"Wang Teng!" The roar of an injured wild beast escaped President Sheng Luo's mouth.

Kloet, Manka, and the other martial warriors were trembling in fear. Their pupils constricted. They were honestly scared.

This fierce-looking giant spacecraft was terrifying!

In an instant, it destroyed their army of battlecraft. The planetary-stage and celestial-stage martial warriors in them were killed too.

What would have happened if those attacks landed on this spacecraft? Would they be able to escape death?

The martial warriors from the Olant Federation stood in dead silence. They finally experienced the despair the people on Earth had some time ago.

This despair came from their inability to resist. Their fate was entirely in the other party's hands.

On Earth, the leader of martial arts felt invigorated. His frustration was vented. The alien invaders deserved it!

He remembered how arrogant and haughty they were in the past. They killed the people on Earth as if they were ants!

The entire planet almost got annihilated!

How evil and ruthless!

Now, it was finally their turn!

The Olant Federation's battlecraft had no chance of resisting in front of Wang Teng's enormous spacecraft. Powerful attacks hammered down like bolts of heavenly lightning

Chapter 1095 Kill Them!

Dead silence. There was not a peep inside the battlecraft.

Sheng Luo's face was as dark as the clouds before a thunderstorm. Wang Teng's oppressiveness exceeded his expectations. So did the spacecraft. If he was right, this must be a heaven-level or above spacecraft. It might even be a universe-level spacecraft.

But how was that possible!

Wang Teng was just a native martial warrior from this backward planet. Even if he became the baron of the Great Qian Empire, he wouldn't be able to afford a thing like that.

Besides, according to the information he received, there was no mention of a universe-level spacecraft!

He felt like killing this young man.

One mistake and the entire plan failed!

His informant told him that they had the ability to deal with this young brat. Yet, the result was different from his expectations.

Even as a heaven-stage martial warrior, the universe-level spacecraft alone was enough to give him second thoughts about targeting Wang Teng

"President Sheng Luo, what should we do?" Kloet gulped.

He knew that it wouldn't be easy dealing with Wang Teng. One extremely powerful spacecraft was enough to put them in a dire situation.

How were they supposed to fight?

The cosmos-stage martial warriors would be smashed into pieces once they stepped out.

Sheng Luo took a deep breath and said with a sharp gaze, "Wang Teng, do you think you'll win?"

"Still stubborn at the brink of death." Wang Teng scoffed.

"Hmph, take a look. What are they?" Sheng Luo brought the Wang family out into space.

"Dad, Mom, Grandpa!" Wang Teng's expression changed. A boundless killing intent surged out from his heart.

That idiot Hardy allowed his family to land in the hands of the Olant Federation. What on earth was he doing?

Rage was bubbling in him like a volcano about to erupt.

Wang Teng and An Lan dashed out from the spacecraft. They stared into Sheng Luo's eyes.

"A heaven-stage martial warrior!" Sheng Luo squinted when he saw An Lan. He was in disbelief.

Wang Teng had a heaven-stage martial warrior under his wing! "Little Teng!" "Son!"

Grandpa Wang, Wang Shengguo, and Li Xiumei were surprised and elated when they saw Wang Teng. They called his name subconsciously.

“Dad, Mom, Grandpa, don’t worry. I’ll save you.” Wang Teng got worried when he saw his family. His gaze flickered a little.

“Save? How are you going to save them?” Sheng Luo mocked.

“Who are you?” Wang Teng took a deep breath and asked with a cold face.

“President of Saint Star Pagoda, Sheng Luo!” Sheng Luo replied.

“Are you taking revenge?”

“That’s right. You killed the instructors from my academy and interrupted our trial. The reputation of Saint Star Pagoda will be ruined if I don’t kill you.”

“You came to Earth and treated this place as your trial ground, killing anyone you want. Did you seek our permission beforehand?” Wang Teng shouted back. He was trying to control his anger.

“It’s your honor to be chosen as the trial ground,” Sheng Luo said indifferently.

“An honor? I think you’re just used to being all high and mighty. Once someone steps on you, you start barking like a mad dog,” Wang Teng said.

“Impudent!” Sheng Luo was enraged.

He was the president of Saint Star Pagoda, the person at the top of the pyramid in the Saint Olant Federation. He couldn’t tolerate being called a mad dog.

“Me? Impudent? You’re the one that’s impudent.” Wang Teng remained calm. He looked at Sheng Luo with disdain, “Right now, I can kill you as easily as an ant.”

Sheng Luo’s expression turned ugly. He knew that Wang Teng was right. The spacecraft behind him had already landed them in a precarious situation, much less other things.

He couldn’t treat this brat as a native earthling.

But he was unwilling to give up. He was a heaven-stage martial warrior, the president of Saint Star Pagoda, and a well-respected member of the Olant Federation. How could an earthling rise above him?

“Release my family or I’ll flatten Saint Star Pagoda!” Wang Teng said in a cold voice.

“How dare you!” Sheng Luo flared up like a cat that got stepped on its tail. A formidable aura erupted around him as he glared at Wang Teng.

Actually, he was scared of Wang Teng too, afraid that he would come back from the Great Qian Empire to create trouble for them. That was why he acted first and captured his family, wanting to force him to surrender.

However, Wang Teng was much more powerful than he expected. “Do you think I won’t dare?” Wang Teng sneered.

“Your family is in my hands...” Sheng Luo threatened him.

“Little Teng, don’t care about us. We can’t be your obstacle every time,” Grandpa Wang shouted.

“That’s right. We’re not scared of death. Don’t think about using us,” Wang Shengguo said with resolution.

“Shut up!” Sheng Luo’s expression changed. He was furious and shocked.

Without the Wang family, he wouldn’t be able to threaten Wang Teng. This was a situation he was most worried about.

Suddenly, while Sheng Luo was distracted, a figure abruptly appeared behind him and slashed out his sword, aiming straight for his heart.

The Godslayer Sword Scripture!

Sheng Luo’s expression changed. He felt a tinge of danger from the sword glow. He would get seriously injured if he didn’t dodge.

Boom!

At the same time, An Lan also moved. A black light shot out from his palm and charged at Sheng Luo.

This was the opposite direction of where the Wang family was at.

The two attacks were launched simultaneously, one from the back and one from the left. Sheng Luo was in a difficult position.

He had to choose between the Wang family and getting hit by the beam of black light and the sword glow.

He needed to make a choice.

Sheng Luo was a vicious character. He knew that if he lost the Wang family, he wouldn’t have any advantage in front of Wang Teng. Hence, he chose not to retreat.

A sword appeared in his hand. The sword glow exploded and collided with the beam of black light. At the same time, he punched his fist in the other direction.

Boom!

Powerful shock waves impact swept through the sky. The Wang family was nearby, so the impact was strong enough to injure them.

But at this moment, another figure stepped out from the emptiness and created a Force light shield around the Wang family with a wave of his hand.

This was another Wang Teng.

“How’s this possible?” Sheng Luo’s expression changed. Then, he understood.

“Clone!” he exclaimed.

Indeed, this was Wang Teng’s clone. The one who attacked Sheng Luo from the back was another clone. The real Wang Teng distracted Sheng Luo while his clone attacked him along with An Lan. When he was busy handling the two attacks, the second clone appeared to save the Wang family.

Wang Teng's clone snorted and moved his lips slightly, mouthing the word 'idiot.' Then, he pulled the Wang family back.

"Where are you going?" Sheng Luo slashed at the clone with an ugly expression.

Unfortunately, the space behind the clone turned distorted, and he disappeared. Sheng Luo's sword glow hit nothing.

"Damn it!" Sheng Luo's face turned black. He didn't think that he would be tricked as a heaven-stage martial warrior.

Some distance away, Wang Teng's clone stepped out of the emptiness with the Wang family and smiled at Wang Teng, "I've completed the task."

"Thank you." Wang Teng heaved a sigh of relief. He could finally feel at ease.

He took less than three minutes from the time he learned his family was captured to come up with this plan.

Then, he started distracting Sheng Luo while giving An Lan the details through voice transmission. He had already sent his two clones into space when he stepped out of his universe spacecraft.

He chatted with Sheng Luo to distract him and to buy himself more time. He could only execute his plan once that old codger was focused on him.

It was a risky plan. A single mistake could provoke Sheng Luo and place the Wang family in extreme danger. But the act of surprise was the reason why he was able to save the Wang family from Sheng Luo.

Of course, Wang Teng's space talent played a huge role. Without it, he wouldn't be able to execute this plan smoothly.

Everything went according to plan, and he succeeded in the end!

The Wang family finally reacted and realized that they were saved. They felt fortunate that they managed to survive this ordeal.

"Dad, Mom, Grandpa, have some rest in the spacecraft. I'll be back after settling the matters here," Wang Teng smiled and said to them.

"Be careful."

Wang Shengguo and Li Xiumei had many words to say to Wang Teng, but they knew that this wasn't the right time. Thus, they reminded him to be careful before entering the spacecraft behind them.

On the other side, Sheng Luo was glaring at him grimly. Then, he retreated at a fast speed without any hesitation. He wanted to escape.

Kloet and the other martial warriors in the Olant Federation's battlecraft were dumbstruck when they saw Wang Teng saving his family.

"Quick! Run!"

"Start the engine and leave as quickly as we can. If not, it will be too late."

There was a flurry in the battlecraft. This bunch of high and mighty cosmos-stage martial warriors was filled with fear. They felt a chill climbing up their spines.

Boom!

The battlecraft from the Olant Federation increased its speed in a bid to escape.

“Kill them!” Wang Teng raised his finger and pointed at the battlecraft. A cold, ruthless command echoed in outer space.

It sounded like the voice of Hades calling one’s death!

Terrifying beams of light lit up on the universe-level spacecraft behind him.

Boom! Boom! Boom!

Attacks were fired continuously at the Olant Federation’s battlecraft and Sheng Luo.

“No!”

The other cosmos-stage martial warriors screamed in anguish and terror when they saw the balls of white light ahead of them. They released all the Forces in their bodies to resist the frightening onslaught.

Sheng Luo squinted and released all his Force too to withstand the attack.

Boom!

Loud explosions resounded in space. The battlecraft from the Olant Federation exploded like fireworks.

As for Sheng Luo, he was submerged by all the attacks, and there was no sign of him.

After some time, the residual impact disappeared and many figures flew out. They were Sheng Luo and the cosmos-stage martial warriors in a miserable state.

They weren’t dead. Martial warriors at the cosmos stage and above had strong vitality. They wouldn’t die so easily.

However, they had suffered grievous injuries and were on their last breath. They looked like beggars now. The pride and arrogance in them had disappeared.

The people on Earth cheered. Wang Teng took revenge for all of them. They felt invigorated.

Chapter 1096: I Don’t Only Know How To Use My Mouth, I Also Know Some Pretty Neat Techniques

People all over the globe were cheering. The alien invaders had been eradicated!

It was an overwhelming scene. They initially thought that even if Wang Teng had returned, it would be a tough battle. However, it turned out to be a one-sided slaughter.

The powerful alien invaders were just weaklings in front of Wang Teng. He was beyond everyone's expectations.

Earth's leaders were surprised and delighted. Their hearts were surging with emotions.

He was so powerful!

When Wang Teng left Earth, he wasn't this strong and was just a planetary-stage martial warrior. Now, he had the power to destroy the alien invaders.

There were celestial-stage and cosmos-stage martial warriors among the alien invaders. There were even heaven-stage martial warriors!

The stark contrast made everyone feel like they were in a dream. It was unreal. To them, Wang Teng wasn't a human. He was something else.

Was he an alien that was adopted by the Wang family?

Hmm, it was highly possible!

Otherwise, how was an Earthling so powerful?

This didn't make sense!

There must be something wrong with his genetics.

...

In space, the cosmos-stage martial warriors from the Olant Federation were heavily injured and bleeding. They looked at Wang Teng with eyes of horror and a face full of disbelief.

"Split up and run!" Kloet shouted and escaped without any hesitation. The others had the same idea as well and fled by themselves.

In times of danger, it was every man for himself.

Wang Teng scoffed and waved his hand.

Suddenly, cosmos-stage martial warriors rushed out of the spacecraft behind him and surrounded the escapees.

The cosmos-stage martial warriors from the Olant Federation turned pale and panicked. There were more than ten cosmos-stage martial warriors on the enemy's side. They were outnumbered.

They couldn't possibly defeat them with their heavy injuries.

It didn't feel good!

Cosmos-stage martial warriors like them had always been superior in the Olant Federation and had never been put in such a precarious position. And now, they were about to be ruined.

"Run and I'll break three of your legs," Wang Teng warned.

The people from the Olant Federation were stunned.

What did he mean by three legs?

The men's faces turned dark, and they subconsciously tightened their thighs as they felt the chills in their crotch.

As for the female martial warrior Qing Lun, she felt insulted. She didn't have three legs!

1

Three legs? I didn't expect this young man to be a hooligan!

Either way, they didn't dare to move anymore.

Over at the other side, An Lan suddenly made a move. The Thousand Armaments Vessel transformed into a flash of black light and sliced across the space, forcing someone out.

It was Sheng Luo!

An Lan looked at him and scoffed. It was like a cat chasing a mouse.

"Old thing, go on and run!" Wang Teng looked at Sheng Luo and mocked him.

"Wang Teng, what do you want?" Sheng Luo got a direct hit from the universe-level spacecraft and suffered a serious blow. He initially wanted to escape while Wang Teng's attention was on Kloet and the others. However, he was forced into a corner by the heaven-stage martial warrior by Wang Teng's side.

"I realized that killing you like this is going too easy on you." Wang Teng rubbed his chin and said, "I'll let the people from Earth judge you for the sins you committed.

"How about having a heaven-stage martial warrior, the president of Saint Star Pagoda parade the streets? What do you think? Isn't it great?"

Sheng Luo's expression turned ugly.

Parade the streets!

A heaven-stage martial warrior was going to be paraded on this planet's streets!

This was bullshit!

This Wang Teng was vicious!

Just imagining that scene made him shudder.

Kloet and the others were stunned as well and had shivers all over their bodies. They didn't feel well at all.

Ordinary people wouldn't have been able to think of such a vicious idea.

Wang Teng was a devil!

"You wish!" Sheng Luo snarled with a gloomy face.

"Heh, grab him," Wang Teng squinted his eyes and shouted.

It was time to farm!

The loot from a heaven-stage martial warrior was rare.

He had to get stronger, so he wouldn't give up on obtaining attributes from a heaven-stage martial warrior.

Rage clouded his mind and made him want to kill him immediately. But now, he felt that farming attributes was the right way to make the most out of this.

"Haha, how about you let me experience the strength of a heaven-stage martial warrior from Olant Federation?" An Lan snickered. The Thousand Armaments Vessel flew out and rushed toward Sheng Luo.

"Damn you. A heaven-stage martial warrior like yourself has fallen and succumbed to a celestial-stage martial warrior." Sheng Luo's expression changed as he dodged the attacks.

"I'm happy and satisfied. Why do you even care?" An Lan was unmoved and responded with a smile.

In the next moment, his body vanished, and he rushed over in a streak of light.

An Lan was powerful and was considered amongst the best of the heaven-stage martial warriors. Back then, Sinclamon and Cao Hongtu weren't even his match even though he was alone. Someone from a low-tier civilization was nothing to him.

"Kill them!"

Sheng Luo was aggrieved. He was unwilling to die here and roared. He then exerted all of his strength and didn't hold back.

Suddenly, a strange power spread out from his body.

The surroundings changed and were no longer pitch-black like what space looked like. It seemed to be in a world of its own as it was filled with yellow light.

In the area shrouded by yellow light, boulders of different sizes were floating and resembled meteorites. People could feel a threat coming from it.

"Domain!" Wang Teng's expression changed.

Heaven-stage martial warriors could comprehend the power of the domain, and this was Sheng Luo's domain.

An earth-element domain!

"So far, no one has forced me to use my domain to this extent. I will let you have a taste of it." Sheng Luo's voice echoed, but no one could quite catch it. They didn't know where he was.

Wang Teng suddenly became vigilant and scanned his surroundings.

This was his first time entering someone's domain. However, he possessed a domain as well and knew that he was inside one. Everything was under the control of the domain user and everything was a potential means of attack. It was extremely dangerous.

“Be careful!” An Lan had a serious expression and suddenly appeared beside Wang Teng. “This is a seventh-rank domain!”

“Seventh-rank domain!” Wang Teng was astonished.

So powerful!

Would they fail?

However, he calmed down after thinking about the universe-level spacecraft behind him. If things went south, he could just give him another blast.

“That’s right. I didn’t expect a heaven-stage martial warrior from a low-tier civilization to have mastered the domain to such an extent,” An Lan said solemnly.

“Hmph, I’m not just the president of Saint Star Pagoda. I’m also a three-star mercenary of the Mercenaries Alliance. Do you really think you can kill me as you wish?” Sheng Luo appeared on top of a giant rock and looked down on them with killing intent in his eyes.

“A mercenary from the Mercenaries Alliance!” An Lan’s face darkened. “No wonder!”

The Mercenaries Alliance was a giant organization like the Universe Bank and the Secondary Career Alliance. It had great influence and had a presence all over the entire universe.

It was a relatively free and loose organization like the Secondary Career Alliance.

However, it wasn’t easy to become a member. You had to be extremely powerful and had to pass the assessment.

Generally speaking, the weakest one-star mercenaries were cosmos-stage martial warriors!

The martial warriors in the universe took pride in their statuses in the Mercenaries Alliance, even more so for the mercenaries with more stars. They would be respected by the other martial warriors wherever they went.

This was the prestige and benefit that came with being a mercenary in the universe. Many talents would choose to become a mercenary and increase their reputation!

Besides that, a mercenary could take part in various missions and gain an abundance of rewards.

Those rewards include scriptures, battle techniques, and all kinds of rare treasures. This was why martial warriors would flock over to them.

Wang Teng heard Round Ball’s explanation and understood the significance behind the rank of a three-star mercenary.

“Three-star mercenary!” He revealed a shocked expression and stared at Sheng Luo with wide eyes as if he was in disbelief. He then suddenly said with disgust, “After so many years of living, you’re still just a three-star mercenary? Have you lived your whole life as a dog?”

“???” Stunned, Sheng Luo’s face turned green.

Since when was a three-star mercenary despised to such an extent?

An Lan's eyes twitched. He felt that Wang Teng was asking for it. He wondered how many three-star mercenaries would come after him if word spread.

That would be...

Just the thought of it sent shivers in An Lan's body. He then took a few steps away from Wang Teng, for fear of being implicated in this.

Three-star mercenaries were mostly heaven-stage martial warriors who were powerful and terrifying. He didn't want to mess with them.

"How arrogant." Sheng Luo took a deep breath and calmed himself down. He then glared at Wang Teng. "Do you only know how to use your mouth?"

"I don't only know how to use my mouth, but I also know some pretty neat techniques. If you have a wife or a daughter, I can let them experience it for free." Wang Teng raised his eyebrows.

"Cough, cough." An Lan almost spat his saliva. He had a strange expression.

Damn it. Why did I understand that immediately?

Can I still be saved?

No, this is Wang Teng's fault. I've been influenced after spending such a long time with him. I have to stay away from him.

One by one, thoughts drifted in An Lan's head. He became more and more determined to stay away from Wang Teng.

Sheng Luo was enraged after being stunned for a moment.

"You're looking for death!"

His face was flushed red, and he almost vomited blood. He stopped talking nonsense with Wang Teng and pointed forward.

Boom!

The rocks that floated in the air spun at high speeds and then smashed down toward Wang Teng.

"OMG, so scary!" Wang Teng jumped back and shouted, "An Lan, he's yours. Go!"

Chapter 1097: Planetary Devastation! (1)

An Lan's face darkened, and he felt something was off. He couldn't react in time and saw countless rocks smashing down with unparalleled power. He became solemn.

"You bastard!" An Lan roared and didn't care about anything else. Channeling his spiritual power, he transformed his Thousand Armaments Vessel into a streak of light that circled around the surroundings.

In an instant, a black sphere appeared in space as if it isolated the world from itself!

Domain!

This was An Lan's domain!

Wang Teng stood within the domain. He realized that his surroundings had turned into a black and golden domain, which blocked Sheng Luo's earth-element domain outside.

Boom! Boom! Boom!

The next moment, the black and golden domain shook violently, and a huge noise came from outside.

"An Lan, can you handle it?" Wang Teng shouted. "Let me know if you can't. I'll shoot him with the spacecraft."

"Shut up!" An Lan rolled his eyes angrily. "In this domain, your signal can't be transmitted."

"Wang Teng, he's right. I can't communicate with the outside world," Round Ball said in a solemn voice.

"It's okay. I can contact my clone," Wang Teng replied calmly.

An Lan was speechless.

He realized that he didn't need to worry about Wang Teng. He always had a backup plan to save himself.

Round Ball also kept silent. Well, it didn't see that coming!

"My domain is only at the sixth rank. In terms of domain, I'm weaker than him," An Lan took a deep breath and explained, "However, my domain is a product of combining spiritual power and the metal element. It's much stronger than an ordinary domain.

"I do want to see if it's stronger than a seventh-rank domain."

A hint of competitiveness appeared on his face. He then released his domain to the extreme, pushing it to greater heights.

"Hybrid domain!" Wang Teng's heart skipped a beat.

An Lan didn't use his hybrid domain when he was dealing with Sinclamon and Cao Hongtu. He didn't expect him to use something like that to deal with Sheng Luo.

"Very good. All the best. I'm rooting for you!" Wang Teng cheered for him.

An Lan couldn't maintain his expression. The serious and tense atmosphere was completely shattered.

He ignored Wang Teng and focused on dealing with Sheng Luo.

In an instant, An Lan and Sheng Luo were caught up in the clash of their domains.

A yellow earth-element domain and a black gold metal-element domain were like two balls colliding in space.

The earth-element domain was extremely heavy and possessed great power. It had extraordinary destructive prowess.

On the other hand, An Lan's black and gold domain was sharp. The entire domain seemed to have grown invisible spikes as they shattered all the rocks that came crashing down.

"Hmm?" Sheng Luo's expression changed slightly.

He didn't expect the mecha heaven stage's sixth-rank domain could withstand his seventh-rank domain.

Domains were extremely hard to master, which was why their power would multiply whenever it advanced to the next rank.

The higher the rank, the greater the difference in power.

Moreover, the gap between the sixth and seventh ranks wasn't just a rank. There was also a difference between the middle stage and the advanced stage.

A seventh-rank domain was considered the advanced stage, which was much more powerful than a middle-stage domain. That was why Sheng Luo was so surprised.

His eyes became cold and he channeled more power into his domain. Countless rocks gathered together and formed a giant ball.

The ball continued growing like a small meteorite as it floated above his head. But he didn't stop just yet. He was still channeling power into his domain. More rocks gathered over...

"Damn, that's Planetary Devastation!" Wang Teng exclaimed.

2

"What's Planetary Devastation?" An Lan was initially startled, but when he heard Wang Teng's words, his thoughts suddenly went astray.

He couldn't be blamed. Wang Teng was too spontaneous.

"It's nothing. You don't understand the world of anime," Wang Teng said disdainfully.

1

"I %&@#¥..." An Lan.

Why was he despised for no reason!

However, An Lan didn't dare to waste time after seeing the power of Sheng Luo's attack.

He directed power into his domain, and countless black and golden light gathered above his head and condensed into a terrifying sword glow.

Countless sword consciences rose into the sky, exuding an unparalleled sharpness.

This time, Sheng Luo was already at his limit. His face was flushed red and the veins on his forehead were about to burst. He looked hideous. He gave it his all to survive.

"Go!" Sheng Luo roared.

A giant ball of rock that resembled a meteorite smashed downward!

The horrifying power might be enough to destroy a planet like Earth!

Boom!

There was a loud bang outside of the domain.

Before the giant rock landed, An Lan's domain shook violently under the pressure of the giant rock as if it would crack immediately.

An Lan's eyes were filled with astonishment as he narrowed his eyes.

"Go!" With a yell, the sword above his head slashed out.

The sword glow struck outward!

It spanned a hundred meters as it slashed across.

Boom!

The sword glow clashed with the giant rock, and the impact caused an explosion.

Crack!

Web-like cracks appeared on the giant rock and spread all around.

An Lan was elated!

Right then, cracks formed on the black and golden sword glow, spanning the entire thing.

Chapter 1098: Planetary Devastation! (2)

The two parties were at a standstill for some time. Then, a huge explosion occurred.

Boom!

The sword glow shattered while the giant rock exploded. Terrifying Force residuals swept through space. Nothing could be seen in the blinding light.

"This is bad!" An Lan squinted as he stared at the center of the explosion. His expression changed suddenly.

A giant black shadow sprinted out from the glaring light and plummeted toward them. The sword glow only managed to cut the giant rock into two. It didn't smash it completely.

"Die!" Sheng Luo's icy and furious voice came from above.

"Retreat!" An Lan shouted hurriedly.

"Don't panic. Let me try." Wang Teng blinked. No signs of anxiousness could be seen on his face.

An Lan: ...

The next instant, a universe-stage sword appeared in Wang Teng's hand. The sword conscious erupted, and the space around him started to fluctuate.

An Lan, who was standing beside him, detected something. A tinge of astonishment appeared in his heart.

What kind of sword skill is this? It's able to activate the space around them!

Moreover, this space power was able to influence his domain!

Crack...

It was as if an eggshell was broken. Dimensional rifts started to appear in the space around them. Cracks in the air even appeared in An Lan's black domain.

An invisible space power flowed out from the dimensional rifts and intertwined around Wang Teng's long sword.

Instantly, an invisible and occult sword glow was formed. It couldn't be seen or touched but one could sense the terrifying sword aura spinning around the sword. It sent chills down one's spine.

"What is this?" An Lan was flabbergasted. Even he felt threatened by the sword conscious.

The giant rock was only inches away from their heads.

Slaying God!

Wang Teng shouted in his heart. The sword conscious seemed to shoot out from his eyes as he finally slashed his sword down. The sword conscious slit through the air and landed on the giant rock.

This was one of the moves in the Godslayer Sword Scripture!

It was the first move!

There were nine moves in the Godslayer Sword Scripture. Every move was hard to execute. As the moves progressed, the difficulty increased by multiple folds. With Wang Teng's current grasp of the Godslayer Sword Scripture, he was only able to execute the first move.

This was the first time he used a move from the Godslayer Sword Scripture. The power was greater than simply using the Godslayer Sword Scripture.

Boom!

Amid a huge explosion, the invisible sword glow was exceptionally sharp. It cut the giant rock into two and continued toward Sheng Luo.

"How's this possible?!" Sheng Luo's pupils constricted. He was dumbstruck and found it unbelievable.

He didn't have any time to dodge the attack. Although he saw the attack coming, his body couldn't react in time. He could only release the remaining Force in him to form a defense shield.

Boom!

Instantly, the sword glow landed on Sheng Luo, shattering the Force shield around him and knocking him back ruthlessly.

Swoosh!

A thin and long sword wound appeared on Sheng Luo's chest. Fresh blood oozed out of it.

"Pfft!" He vomited a mouth of blood while he was still flying back. He became listless.

However, he was still a heaven-stage martial warrior, powerful with a strong vitality. The sword glow wasn't able to kill him.

Sheng Luo didn't expect Wang Teng to injure him so seriously. He was shocked.

Wang Teng was just a celestial-stage martial warrior. How did he do this?

Numerous doubts appeared in his mind. Sheng Luo received a huge blow in his heart. His face turned pale.

However, the desire to live pulled him back to reality. Riding on the inertia of the attack, he turned and escaped unwillingly.

"Trying to run away? Are you a rat? An Lan, stop him!" Wang Teng shouted.

"F**k, am I your manual labor?" An Lan regained his senses from Wang Teng's sword attack and glared at him bitterly.

However, he still chased after Sheng Luo.

Sheng Luo was seriously injured, so he was slower than An Lan. An Lan caught up with him in a few breaths.

"Move!" Sheng Luo roared. His hair was all over the place like a mad dog. He punched his fist at An Lan.

"Futile effort." An Lan smirked. The Thousand Armaments Vessel turned into a long sword and cut through the other party's fist aura.

Sheng Luo screamed in agony. His fist aura was destroyed.

A gruesome and bloody sword wound was left on his fist. It was so deep that his bones could be seen.

Boom!

An Lan charged out and enveloped Sheng Luo with his sharp sword glows...

After a few seconds, he pulled Sheng Luo, who looked like a dead dog, back to Wang Teng.

"Done. This old fellow put up quite a resistance," An Lan said with a smile.

"Sigh, poor little thing." Wang Teng scoffed when he saw Sheng Luo's current state.

Sheng Luo wanted to pretend to be unconscious, but upon hearing Wang Teng's words, he fumed in anger and raised his head. His face was drenched in blood as he glared at him with bitterness and hatred.

“This gaze is not bad. I respect your gaze, really.” A brick suddenly appeared in Wang Teng’s hand as he spoke... oh wait, it was a huge seal. Then, without any warning, he started hammering Sheng Luo’s head.

Bang!

Slash! Boom!

Sheng Luo: ???

His mind was in a whirl. His hair stood up, and he didn’t understand what happened.

What just happened?

Where am I?

Who am I?

“Your head is hard! As expected of a heaven-stage martial warrior!” Wang Teng exclaimed. He continued slamming the Lightning Slap on his head until only lingering shadows could be seen.

He had never lost to anyone when it came to hand speed.

2

Bang! Bang! Bang!

Slash! Boom!

Slash! Boom!

...

The Lightning Slap smashed the president’s head like a hammer striking a nail. Sparks flew without stopping.

A heaven-stage martial warrior wouldn’t be able to withstand the power of the Lightning Slap. Sheng Luo’s beard was burnt, and his entire face turned black. His eyes rolled to the back of his eyes from the electrocution while he was losing consciousness. It was a tragic sight.

“Wang Teng, Wang Teng...” An Lan was shocked. He stopped him hurriedly.

“What?” Wang Teng turned back to ask.

“Be a human,” An Lan said helplessly, “He’ll die if you continue hitting him.”

“Alright, I’ll let him go for now,” Wang Teng replied with pity while weighing the brick—no, the Lightning Slap in his hand.

An Lan was rendered speechless. He paid a silent tribute to Sheng Luo.

Why do you have to be Wang Teng’s enemy?

The other cosmos-stage martial warriors felt the muscles on their faces twitching when they saw this scene. They had an ominous feeling in their hearts.

Wang Teng was inhumane!

Even President Sheng Luo was beaten up so badly. Would they be saved?

“Is this your weapon?” An Lan looked at the Lightning Slap in Wang Teng’s hands and asked curiously.

“I made it myself. It’s not bad, right?” Wang Teng asked proudly.

An Lan couldn’t help but cough awkwardly.

Why are you looking so proud of yourself?

If this weapon didn’t have the power of lightning in it, he wouldn’t even look at it.

“The lightning power in this weapon seems extraordinary,” An Lan said.

“Oh, this? I added some calamity lightning inside,” Wang Teng replied casually.

“Calamity lightning!” An Lan widened his eyes in disbelief.

“Yes, I can make one for you if you want one. Honestly, it’s handy.” Wang Teng promoted his weapon like a salesman.

“Cough, sure, no problem.” An Lan coughed again.

He didn’t like this strange weapon, but the calamity lightning was a different thing. As expected, there were always surprise gains when he stayed with Wang Teng.

It was worth it!

An Lan gave himself a thumbs up for his foresight.

Then, Wang Teng rubbed his hands and scanned his surroundings. Chuckling in his heart, he picked up the attribute bubbles scattered around him.

Time to pick up attribute bubbles!

The bubbles floated toward Wang Teng one by one.

Constellation Force (Metal)*12000

Black Metal Domain*2000

Celestial Realm Spirit*1800

Celestial Realm Enlightenment*1500

Constellation Force (Earth)*10800

Meteorite Shower Domain*2500

Celestial Realm Spirit*1600

Celestial Realm Enlightenment*1300

Constellation Force (Fire)*2500

Constellation Force (Water)*1800

Constellation Force (Wood)*2000

...

Wow! Wang Teng was delighted. The corners of his lips lifted up unconsciously. His efforts didn't go to waste.

Chapter 1099: Trembling From Anger! When Will The Men In The Wang Family Stand Up?

Wang Teng felt extremely comfortable when the attribute bubbles merged into his body.

Different types of Force twirled around his body, swimming to his limbs and meridians before settling in his Force constellations.

Boom!

Wang Teng trembled. He was undergoing a breakthrough!

Along with a crisp sound, Wang Teng's metal Force constellation advanced from the first-level celestial stage to the second-level celestial stage!

Constellation Metal Force: 13000/20000 (celestial stage second level)

Boom!

Boom!

The commotion in his body hadn't stopped. Instead, it became more violent.

Above the sea of nihilism, 27 Force constellations flew out and spun furiously. It was a majestic sight. Unfortunately, it was in his body, so no one could see it.

The 27 constellations represented wood Force, earth Force, and water Force.

There were nine constellations for each Force, signifying the ninth-level planetary stage. After some time of accumulation, the three Forces had reached the peak of the planetary stage.

In addition, when Wang Teng destroyed the battlecraft from the Olant Federation, many martial warriors died, and all of them dropped attribute bubbles.

Things were just progressing normally after much accumulation.

Boom! Boom! Boom!

The three different types of constellations crashed into one another and formed three whirlpools. Different crystal matters spun and congregated within the whirlpools.

One was emerald green and full of vitality!

One was earth-brown, thick and sturdy!

One was azure blue, smooth and vast!

...

After some time, the three constellation whirlpools condensed into three celestial-stage constellations. They roamed freely above the sea of nihility, giving off a strong vitality that swarmed through Wang Teng's body.

Boom!

Wang Teng underwent three leaps in his status of life. He was moving toward perfection. His skin, muscles, bones, blood... everything was undergoing a transformation.

Wang Teng closed his eyes uncontrollably to savor this feeling.

It felt amazing!

Three transformations. No one could experience his happiness.

After some time, Wang Teng's water, wood, and earth Force advanced to the first-level celestial stage.

Constellation Wood Force: 1500/10000 (celestial stage first level)

Constellation Water Force: 2200/10000 (celestial stage first level)

Constellation Earth Force: 9600/10000 (celestial stage first level)

His earth Force saw the most improvement, touching the peak of the first-level celestial stage. He would be able to achieve another breakthrough soon.

He had to attribute this advancement to Sheng Luo. He got more than ten thousand points of constellation earth Force from him.

Impressive!

His fire Force also rose, but it didn't reach the breakthrough point. After all, it was already at the seventh-level celestial stage. More attribute points were needed to reach the breaking point, making it that much harder.

He received a special Force attribute too! It was the light Force attribute!

The female martial warrior from the Olant Federation called Qing Lun possessed the light Force. Hence, Wang Teng got many light Force attributes from her, a total of more than 6000 points.

The problem was, he didn't have any light Force scripture, so his light Force was still stuck at the 13-star general stage.

But his chance was here. Would there be a light Force cultivation scripture on this cosmos-stage martial warrior?

Wang Teng sniggered...

He glanced at the goddess-like and cold green-haired female martial warrior with a great figure. A peal of sinister laughter sounded in his heart.

Qing Lun: o((☉_☉))o

She shuddered. For some reason, she felt an evil intention floating around her. A chill welled up her heart.

Next was the Celestial Realm Spirit and Enlightenment. He received a total of 5200 Celestial Realm Spirit and 4500 Celestial Realm Enlightenment. It was a huge gain.

Spirit: 21500/50000 (celestial realm)

Enlightenment: 17200/50000 (celestial realm)

Wang Teng felt satisfied when he looked at his spirit and enlightenment on the attributes panel. These two attributes rose greatly!

The increase in his spiritual power allowed him to fight with ninth-level cosmos-stage martial warriors.

Indeed, the attribute bubbles from powerful martial warriors gave him more benefits. Look at who he got attributes from recently? They were all universe-stage, heaven-stage, and cosmos-stage martial warriors. How could his attributes not increase?

It was tiring since he had offended many formidable martial warriors and couldn't sleep properly at night, but it was worth it!

Wang Teng felt that he was running happily on the path leading to hell.

He shook his head with a bitter smile and looked at the two largest gains.

Black Metal Domain!

Meteorite Shower Domain!

One came from An Lan while the other was from Sheng Luo. Most importantly, these were both powerful domains!

The Black Metal Domain was a combination of metal and spiritual power. It was the advanced version of the metal domain and was more powerful than a normal domain.

If An Lan knew that Wang Teng sneakily learned his domain, would he still feel fortunate to stay with him?

His main skill had been stolen!

As for the Meteorite Shower Domain, Sheng Luo gifted it to him. It was also very powerful. Among all the domains, it could be considered one of the top.

Black Metal Domain: 1000/2000 (second level)

Meteorite Shower Domain: 1500/2000 (second level)

After careful counting, Wang Teng realized that he had five domains: Tempest Domain, Blazing Domain, Metal Domain, Black Metal Domain, and Meteorite Shower Domain...

This was heaven-defying!

Only a heaven-stage martial warrior could possess a domain. If an ordinary martial warrior was able to possess the power of a domain at the planetary stage or the celestial stage, he could be considered a genius among the geniuses.

But Wang Teng had five of them!

Even he felt that it was a little too much. But he couldn't help it. The heaven-stage martial warriors kept finding him. He couldn't control them either.

I think that Planetary Devastation Domain sounds better. Wang Teng touched his chin as he wondered to himself.

1

Silence.

The system didn't reply to him. Meteorite Shower was still Meteorite Shower.

Am I treating you too well?

Why are you thinking of changing names?

After picking up all the attributes, Wang Teng felt more refreshed. He flew back to the spacecraft with An Lan.

"Lock them up!" Wang Teng pointed to the martial warriors from the Olant Federation.

"Yes!" Bertha nodded.

The martial warriors from the Olant Federation turned pale, feeling humiliated. Their Force and spiritual power were sealed, and they were locked up like mortal prisoners. Their fate would be decided after returning to Earth.

Wang Teng returned to his spacecraft and met up with his family.

"Dad, Mom, Grandpa, are you alright?" Wang Teng asked worriedly.

"I'm fine. Your grandpa..." Wang Shengguo shook his head and told him what happened.

Wang Teng was indignant. However, the people from the Olant Federation were all in his hands, so he didn't need to worry about them escaping. They would pay the price sooner or later.

He looked at Grandpa Wang's face and took out a healing dan to feed him. He also executed a light Force treatment on him.

The color on Grandpa Wang's face returned at a visible speed. His condition was much better than before.

The Wang family was dumbfounded. They were in awe.

"Brother Wang Teng, my chest feels stuffy from the fright just now. Can I have some too?" Fang Qianwen asked.

The little girl whined involuntarily when she saw her handsome cousin returning.

“Alright.” Wang Teng smiled and executed his light Force treatment.

He also treated the other elders. They had been through the same situation, so they were all frightened. The light Force treatment could cure injuries and relax one’s mood. Naturally, he didn’t mind putting it to good use.

“Me too, me too! Brother Wang Teng, I was scared too. I need some consolation!” Wang Haoran shouted.

“Move! You’re a man. This fright is nothing,” Wang Teng scolded.

He purposely didn’t treat the young boys, but this little one came to ask him shamelessly.

Men shouldn’t be pampered. If not, they might back down when faced with different issues in the future.

“Idiot!” Wang Shengjun slapped Wang Haoran’s forehead with a black face. His son was embarrassing him!

Wang Haoran was in a daze. He felt wronged. This difference in treatment was too obvious.

Trembling in anger!

When would the men in the Wang family stand up?

“Hahaha...”

The Wang family couldn’t help but chuckle when they saw his expression. The atmosphere lightened up a little.

“Master!” Bertha came in with Hardy and called Wang Teng softly.

Wang Teng turned around. His expression became cold when he saw Hardy. If he didn’t come back in time, the Wang family might end up in a worse state.

“Please punish me.” Hardy half-kneeled on the ground and lowered his head before Wang Teng could open his mouth.

When Wang Teng bought him, he didn’t treat his new master with respect. However, after witnessing his strength, Hardy could no longer feel at ease anymore.

This was the pressure of someone more powerful than him!

“Hmph, is this how you carry out my orders?” Wang Teng shouted.

Bertha sympathized with Hardy and wanted to speak up for him, but she realized she didn’t have the right to open her mouth. Suddenly, she felt fortunate that Wang Teng didn’t send her. She might not have done any better than Hardy.

Wang Teng frowned. Although he was furious, he didn’t know how to punish Hardy. He couldn’t bear to kill him. It was rare to find a shadow assassin slave. If he groomed him properly, he would become a good subordinate.

“Wait.” Grandpa Wang suddenly opened his mouth.

“Grandpa?” Wang Teng turned around in surprise. He wondered what his grandpa wanted to say.

“He’s not to be blamed. He tried his best. I led everyone out of the spacecraft because I couldn’t see the people on Earth dying for us. That’s why the Olant Federation managed to capture us,” Grandpa Wang explained.

“Grandpa, how can you put yourself in danger?” Wang Teng asked helplessly.

“We can’t be the sinners of Earth.” Grandpa Wang shook his head stubbornly.

Wang Teng didn’t know what to say. He could only sigh. He couldn’t reprimand Grandpa Wang for what he did. Not everyone was heartless. If they abandoned Earth for their own survival, they might live in regret and agony for the rest of their lives.

They would rather take the risk.

Revenge was a dish best served cold anyway.

“Alright, this isn’t your fault. You can get up.” Wang Teng wasn’t an unreasonable person. After understanding what had happened, he didn’t push the blame on Hardy and even held him up personally.

Hardy was stunned. He didn’t expect the Wang family to speak up for him nor for Wang Teng to let him go so easily.

Other people might be unwilling to admit their mistakes. They might leave the mistake uncorrected and punish him anyway as a warning for the rest.

He was just a slave. Who would show mercy to him?

At this moment, Hardy suddenly felt that his master wasn’t as bad as he thought.

“Thank you, Master!” Hardy bowed. “But, all the celestial-stage martial warriors I brought along are dead!”

“All of them?” Wang Teng was stunned. He felt his heart aching a little. 50 ninth-level celestial-stage martial warriors weren’t cheap.

“They died to protect us,” Grandpa Wang said sorrowfully.

Wang Teng’s anger towards the Olant Federation reached new heights. He sighed and said in a low voice, “Bury them properly.”

“Yes!” Hardy received the order.

Then, he retreated to the side and stood beside Bertha.

“Return to Earth,” Wang Teng ordered.

Round Ball piloted the universe-level spacecraft and flew towards Donghai.

...

Chapter 1100: He Had Been Through Too Much!

Donghai!

The leader of martial arts and the others stood in the plaza in front of the Global Union Building and looked up at the spacecraft in the sky. It was getting bigger and bigger.

Although they had seen the spacecraft through the screen, they were still awestruck when it appeared in front of them.

This spacecraft was powerful and terrifying!

Where did Wang Teng get it?

The spacecraft didn't land. It parked in mid-air because the plaza wasn't big enough to fit this gigantic universe-level spacecraft.

The cabin door opened. Wang Teng led everyone down the spacecraft.

"Everyone, long time no see!"

Wang Teng scanned his surroundings and saw many familiar faces. There were the leader of martial arts, the three great commanders, Dan Taixuan, Ye Jixin, and others.

It was fortunate that they were still alive.

This time, the Olant Federation came for the Wang family. Hardy and the 50 celestial-stage martial warriors bore the brunt of the attack, so they didn't die. However, they were injured. It must be from the recent battle.

"Wang Teng, please let me thank you on behalf of Earth." The leader of martial arts was emotional. He suddenly bowed at Wang Teng.

"Please don't do this." Wang Teng was shocked. He quickly held onto the leader and continued in a low tone, "I'm the one who owes everyone an apology."

He learned from the Wang family that the Olant Federation had destroyed two cities on Earth. Wang Teng felt ashamed when he thought about all those people.

No human was emotionless. The people in the two cities died because of him. He felt guilty.

"You don't have to blame yourself. The Olant Federation invaded Earth because they chose this planet as their trial ground. Without you, our situation would have been worse. Nothing can be prevented. Rather than saying that they were targeting you, it's more accurate to say that they were targeting our planet," the leader of martial arts said painfully.

"Mr. Wang Teng, this is not your fault. The Olant Federation is in the wrong. They caused everything."

"Yes, we understand."

"It's the fault of the Olant Federation."

...

The leaders of the different nations agreed in unison. They were outraged.

“Don’t worry. I’ll make sure the Olant Federation pays the price for everything,” Wang Teng took a deep breath and promised them.

“With our ability, we might not be able to...” the leader of martial arts said worriedly.

Although he didn’t finish the sentence, the intention was clear. They couldn’t win against the Olant Federation!

The other leaders of the nations were worried too!

They got frightened by the attacks from the Olant Federation.

One fleet was enough to annihilate them. They had no chance of resisting. Wouldn’t it be more dangerous if they went to the Olant Federation directly to find them?

They trusted Wang Teng’s ability, but the Olant Federation was still a universe civilization while Wang Teng was just one person.

He was resisting an entire civilization alone!

Anyone could tell that there wasn’t any comparison.

The Wang family looked at Wang Teng worriedly.

“We don’t have to take revenge so quickly. If you aren’t confident, we can wait,” Grandpa Wang persuaded him.

“It’s alright. I did my research. There are only three heaven-stage martial warriors in the Olant Federation. We caught one, so there are two left. The threat isn’t huge. We can deal with them,” Wang Teng smiled and explained.

“Really?” The leader of martial arts and the leaders of the nations were elated.

They hated Olant Federation to the core, so they would definitely take revenge if they could. They were just worried that they couldn’t beat them.

“Of course.” Wang Teng nodded.

He knew that humans needed to vent their anger or it would harm their cultivation. Besides, they were about to step into the universe. If they didn’t have enough confidence, they wouldn’t be able to hold their position.

They wouldn’t walk far without confidence.

Wang Teng wanted to use this situation to give confidence to the people on Earth.

“Prepare yourselves. I’ll lead you to demand an answer from them two days later,” Wang Teng said.

“Yes!”

The leader of martial arts and various nations clenched their fists and nodded firmly.

...

Wang Teng returned to the residence with his family. The other matters would be settled by the leaders.

Especially for the two cities that were destroyed. There were many things to settle over there.

The leader of martial arts had already sent people there for the rescue. They hoped that they could find some survivors since many of them had escaped into the underground shelters. They might have survived.

A few hours later, rescue efforts were in progress, and news started to come back.

Most of the people in these two cities survived. Only those that didn't enter the underground shelters in time lost their lives.

This was the good news among all the bad news.

Wang Teng and his family heaved a sigh of relief. The fewer people died, the lesser their guilt.

Even though many people told them that it wasn't their fault and the Olant Federation was to be blamed, Grandpa Wang and the others didn't think this way. They couldn't pretend that nothing had happened.

Fortunately, the situation was better than imagined.

"Thank you!"

Dan Taixuan personally came to deliver the news. Wang Teng sent her to the door and thanked her.

"Why are you thanking me? Have we gotten distant after not seeing each other for a few months?" Dan Taixuan rolled her eyes and replied casually.

"I don't dare to do that." Wang Teng smiled.

"Am I very fierce?" Dan Taixuan glared at him and asked. "You're a celestial-stage martial warrior. I can't beat you."

"Hahaha." Wang Teng burst out laughing when he saw her frustrated expression.

"How do you cultivate? You were still at the planetary stage when you left, but now, you're already at the celestial stage," Dan Taixuan sized up Wang Teng and asked in disbelief.

"Do you want to know?" Wang Teng asked in a mysterious tone.

"Do you have some bug that can help you increase your cultivation speed?" Dan Taixuan sniggered.

Wang Teng: →_→

Did all ladies have such an accurate sixth sense?

"Come, tell me what your bug is? Let me see if I can find it online and download it." Dan Taixuan thought that Wang Teng was stunned by her reply, so she smiled proudly and hooked her fingers at him.

“Cough, lean over. Let me tell you secretly,” Wang Teng coughed awkwardly and whispered to her while glancing around him.

Dan Taixuan cooperated with him and leaned over.

Wang Teng stared at the fair and smooth ear inches away from him. He could almost see the tiny hairs and capillaries on it. He had the sudden thought of pinching it.

Would she cry if he pinched it forcefully?

He wondered what she would look like if this evil lady cried.

Although Wang Teng was curious, he suppressed the urge. He didn't know if she would cry, but he would definitely be beaten to death. There was no doubt about it.

“My bug is” —Wang Teng raised his voice out of the blue— “my amazing talent! Hahaha!”

Dan Taixuan got a fright. Her heart almost skipped a beat. She was furious. “You little brat, how dare you trick me! Stop right there!”

She stretched out her hand and wanted to grab Wang Teng's ear. Unfortunately, he was prepared and dodged her hand. He stuck out his tongue at her.

The two of them ran around for some time before Dan Taixuan stopped. She panted and asked, “Are you really going to the Olant Federation a few days later?”

“Yes.” Wang Teng nodded.

“Let me come with you. I want to see the universe,” Dan Taixuan continued.

“Sure. You're almost at the planetary stage now, right?” Wang Teng looked at her and knew immediately that she wasn't far from her breakthrough.

“I'm not as perverted as you. I need another two to three months.” Dan Taixuan shook her head.

Wang Teng nodded. He contemplated for some time before saying, “Come over.”

“What? Are you trying to trick me again?” Dan Taixuan looked at him vigilantly.

“I'll give you one chance to reorganize your words. You won't receive my gift if you don't come over,” Wang Teng said.

“What gift?” Dan Taixuan detected something amiss from his sentence. She was puzzled, but she still went over.

Wang Teng didn't trick her this time. He lifted two fingers and tapped Dan Taixuan's forehead.

Dan Taixuan was stunned. She stopped the urge to step back and allowed his fingers to land on her forehead.

Boom!

The next instant, her mind trembled, and two streams of information gushed in.

“What is this?” Dan Taixuan widened her eyes in disbelief.

“Shh!” Wang Teng placed a finger on his lips and said mysteriously, “Go back and look through it.”

Wang Teng gave her two scriptures. One was the wind-element planetary-stage scripture, the Raging Gale Scripture, and the other was the metal-element celestial-stage scripture, the Celestial Metal Scripture.

Dan Taixuan had only converted her metal Force into constellation Force. Her wind Force didn’t advance because she didn’t have the relevant scripture.

The cultivation speed of a celestial-stage scripture was much faster than a planetary-stage scripture. That was why Wang Teng gave her a metal-element celestial-stage scripture.

Dan Taixuan’s cultivation speed would increase tremendously with these two scriptures in hand.

“This is too much,” Dan Taixuan said with a complicated expression.

“It’s nothing to me. You protected me in the past, so this is a small favor I can help you with. Advance quickly.” Wang Teng turned and waved his hand as he walked into the Wang family residence.

Dan Taixuan suddenly felt a little emotional when she saw his back. He had been through too much!

In the past, Wang Teng was still the young man she needed to protect. Now, he was able to stand in front of everyone and bear the hope of the planet on his shoulder.

She could imagine how heavy the pressure was. The figure might be tall and straight, but she could see the huge burden he carried on his shoulders.

“Are you touched?” Wang Teng suddenly turned and chuckled.

Dan Taixuan: o(∩_∩)o

Her beautiful face tensed up, and her emotions were hidden one by one.

“I’m leaving.” Dan Taixuan turned around and left.

“Women.” Wang Teng shook his head.

He didn’t see her firm gaze after she turned around and the unnoticeable smile at the edge of her lips.

Wang Teng, even if I can’t protect you anymore, I’ll work hard to catch up with you so that I can stand beside you.
