

Martial Arts 1101

Chapter 1101: Hmph, Scumbag! (1)

After sending Dan Taixuan off, Wang Teng thought for a moment and went to look for Lin Chuhan.

She must be terrified along with the Wang family.

After confirming their relationship, he didn't spend much quality time with her and even made her suffer.

Lin Chuhan was cultivating in the cultivation room. What happened this time was a huge blow to her. She felt useless. When danger came, there was nothing she could do.

She didn't want to experience this sense of helplessness again. Thus, she worked hard in her cultivation whenever she had the time.

Wang Teng crept into the cultivation room silently without disturbing her. He observed her cultivation process from the side.

With his current cultivation, he immediately saw the problem with her cultivation.

Fortunately, Lin Chuhan's foundation was strong so there wasn't an issue with that. Looking at the Force in her body, she was already at the 11-star general stage. Her speed was amazing!

She was one of the top-notch talents on Earth.

Of course, if Wang Teng didn't give her all the advanced-rank scripture and other cultivation resources, she wouldn't be able to achieve this speed.

You could say that her current condition was much better than Wang Teng's in the past.

After some time, Lin Chuhan opened her eyes and saw Wang Teng. A smile appeared on her beautiful face.

"Why are you here?"

"I came to watch you cultivate and guide you," Wang Teng walked forward and replied with a smile.

"Continue boasting." Lin Chuhan rolled her eyes. She was caught between laughter and tears. "You're already a celestial-stage martial warrior. Why are you still so immature?"

"What else? I don't want to be a wise old man." Wang Teng shook his head.

"Right, right, you're right." Lin Chuhan laughed.

"You're at the general stage now. You can start converting your Force into constellation Force." Wang Teng changed the topic.

"Yes, I'm planning to start the process soon and prepare myself for the advancement to the planetary stage." Lin Chuhan nodded.

“You should change your scripture. Your current cultivation speed is too slow,” Wang Teng touched his chin and said.

“This is still slow?” Lin Chuhan was speechless.

“Of course, Look, you’re only at the 11-star general stage. It’s still a long distance away from the planetary stage. You need to work harder,” Wang Teng said earnestly.

Lin Chuhan: ...

She worked so hard to get here, but Wang Teng said that it wasn’t enough.

This was infuriating!

He was the perverted one!

Seriously, talk was cheap.

“Come, prepare yourself.” Wang Teng tapped Lin Chuhan’s forehead and passed some scriptures and battle techniques to her.

Lin Chuhan was stunned. She felt a few scriptures and battle techniques appearing in her mind and was astounded.

She looked through the information briefly and learned that these were powerful and rare scriptures and battle techniques. Ordinary people wouldn’t be able to get them.

Yet, Wang Teng gave them to her.

She felt touched.

If she knew that he just gave two scriptures to Dan Taixuan, would she still be grateful towards him?

Hmph, scumbag!

“Don’t disappoint me, my dear,” Wang Teng patted her shoulder and said.

“Who’s your dear? Are you looking for a beating?” Lin Chuhan regained her senses and slapped his arm while complaining sweetly.

“Hahaha, if you’re not my dear, what are you? My wife?” Wang Teng didn’t dodge. He laughed instead.

“What are you saying?” Lin Chuhan blushed.

“Why are you embarrassed? Our parents have started preparing our engagement party. You’ll be mine soon.” Wang Teng smiled.

“Hmph, we’re not engaged yet. Aren’t you worried that I’ll regret it?”

“That’s not up to you. You can’t run away after entering my family,” Wang Teng teased her.

“You’re becoming more and more shameless.” Lin Chuhan was speechless.

“Thank you for your compliment,” Wang Teng replied indifferently.

Lin Chuhan: ...

Suddenly, Wang Teng leaned towards her, his nose almost touching hers. His scorching breath landed on her pretty little face.

Lin Chuhan was shocked. Her face turned red instantly, but she didn't dodge Wang Teng's gaze. She just closed her eyes silently.

However, after some time, what she expected didn't happen.

Lin Chuhan couldn't help but part her eyes slightly. She was embarrassed and furious when she saw Wang Teng chuckling.

He finally leaned forward and pecked her lips.

Lin Chuhan widened her eyes in surprise.

...

Their lips separated after some time.

Lin Chuhan was blushing and panting slightly. Her gaze was extremely gentle when she looked at Wang Teng.

"Sister, Brother Wang Teng, what are you doing?" A voice was heard outside the door. At the same time, a small head popped in and stared at them with a smile.

It was Lin Chuxia.

Lin Chuhan started to feel embarrassed. Her face turned redder, and she evaded Lin Chuxia's gaze. She started combing her long hair floating in front of her as if nothing had happened.

"I'm discussing some serious things with your sister." Wang Teng was different. He had thick skin, so he found some random excuse and replied to Lin Chuxia.

Lin Chuhan: →_→

Chapter 1102: Hmph, Scumbag! (2)

"Cough, you little girl, what do you know about adult matters?" Wang Teng felt uncomfortable under her gaze.

"I'm not a little girl anymore," Lin Chuxia straightened her back and complained unhappily.

Lin Chuhan had regained her composure by now. She walked forward and patted her sister's head.

"Why aren't you cultivating? Why did you come and look for me?"

"I'm not looking for you. I'm looking for Brother Wang Teng," Lin Chuxia replied instantly.

"... Ungrateful fellow," Lin Chuhan said.

"Hahaha." Wang Teng burst out laughing. "Why are you looking for me?"

“I haven’t seen you in a while. I want you to play with me,” Lin Chuxia said happily.

Lin Chuhan glared at her. “Wang Teng doesn’t have the time to play with you.”

“Nothing will happen if he plays with me for a while,” Lin Chuxia refuted.

“Alright, I haven’t accompanied her for a long time. I’ll make an exception for you today.” Wang Teng stopped their argument quickly.

“You’re pampering her. You’re going to spoil her like this,” Lin Chuhan said angrily.

“It’s alright to pamper a lady. That way, she won’t be fooled easily in the future,” Wang Teng replied.

“That’s right,” Lin Chuxia agreed.

“This is bullshit. What are you even saying?” Lin Chuhan got furious.

“Brother Wang Teng, where are we going?” Lin Chuxia stuck out her tongue at her sister and turned to ask Wang Teng.

“Let me bring y’all to the virtual universe today.” Wang Teng contemplated for some time before he thought of this idea.

“The virtual universe?!” The two of them were stunned.

“What’s that?” Lin Chuhan asked.

“It’s like a virtual world,” Wang Teng explained simply.

The two ladies were surprised, finding it unbelievable. They didn’t think that such amazing technology existed in the universe.

Wang Teng brought them into the universe-level spacecraft. He was a baron of the Great Qian Empire. It was easy for him to settle the citizenship for a few people.

Round Ball did some work and Lin Chuxia and Lin Chuhan possessed citizenship of the Great Qian Empire.

The virtual universe.

Inside the Great Qian Empire’s territory.

The three of them logged in using their Great Qian Empire’s citizenship, so naturally, they appeared within the boundaries of the Great Qian Empire.

There was a huge plaza filled with people packed like sardines in a can. There was no end to it.

Different races from the universe strolled through the plaza. It was an extraordinary scene. Two eyes weren’t enough to capture all the scenery.

The two ladies were stunned when they saw this grand view.

“Wow!” Lin Chuxia exclaimed. “This place is huge and lively!”

“The virtual universe is the same as the real world.” Lin Chuhan pinched her arm and scanned her surroundings again, carefully observing everything here. She was flabbergasted.

“Everything in the virtual universe is the same as the real world. There’s no difference,” Wang Teng replied with a smile.

“This is amazing.” Lin Chuhan took a deep breath to calm herself down.

“There’re many races here. They all look powerful.” Lin Chuxia didn’t know where to look. She was awestruck.

“The universe is boundless and the number of races is countless. Some races are born at the planetary stage, some at the celestial stage, or even the cosmos stage. They’re very powerful,” Wang Teng replied.

“They’re born at the celestial stage or the cosmos stage!” The two ladies were dumbstruck. “Does that mean they don’t have to cultivate?”

“You’re wrong. In the universe, there are numerous martial warriors at the cosmos stage and below. They’re nothing in front of powerful factions though. Only heaven-stage martial warriors have some power and status. Although these powerful races have a further starting point, the path ahead is still long,” Wang Teng explained.

“But, in the Olant Federation, a cosmos-stage martial warrior is the guardian of a galaxy, right? Aren’t they considered powerful?” Lin Chuhan asked.

“The Olant Federation is just a low-tier civilization, a small faction in the universe. Let’s take the Great Qian Empire as an example. It has a few hundred thousand low-tier civilizations under it,” Wang Teng lamented.

He wasn’t looking down on the Olant Federation. He was just telling the truth. After entering the Great Qian Empire, he realized that low-tier civilizations like the Olant Federation were pitifully small.

“A few hundred thousand!” The two ladies widened their eyes in surprise with their mouths agape. They looked quite cute.

“Hahaha.” Wang Teng laughed involuntarily. “Of course, to Earth, the Olant Federation is already a powerful presence.”

“I almost got scared to death.” Lin Chuhan rolled her eyes at Wang Teng, finally regaining her composure.

“Let’s go. I’ll bring you around so that you can get familiar with this place. It will make it easier for you to integrate into the universe,” Wang Teng said.

The two ladies went towards the streets outside the plaza under Wang Teng’s lead.

Shopping!

Shopping in the virtual universe was a whole new experience.

Wang Teng explained the situation in the universe while accompanying them to tour the various malls.

“This is the Rune Treasure Pavilion. There’re many unique and special weapons, dans, spiritual herbs, etc. You can buy anything here.

“This is Universe Bank, the greatest bank and one of the giants in the universe. It has branches in all the powerful factions in the universe.

“This is the Secondary Career Alliance. Do you know what the Secondary Career Alliance is? It’s an alliance formed by runemasters, blacksmiths, alchemists, and other professionals. It’s also one of the giants in the universe. I’m a part of them.”

Silence.

A grand and magnificent map of the different factions in the universe appeared before the ladies’ eyes following Wang Teng’s introduction. They felt a longing for this world.

You had to admit that shopping was a woman’s nature.

Even though Lin Chuxia and Lin Chuhan were unfamiliar with virtual reality, once they entered the malls, they seemed to have stepped foot in their own territory and were extremely familiar with everything.

Wang Teng wondered if they had come here before.

However, Earth wasn’t registered, so they couldn’t use the universe delivery system. In the end, the ladies’ shopping desires weren’t satisfied.

Wang Teng had to promise them that he would fulfill their wish again after bringing them to the Great Qian Empire.

The two ladies finally let him go.

Happy moments passed quickly. The three of them threw all matters to the back of their minds and played in the virtual universe for an entire day. They felt much more relaxed.

After the fun, Wang Teng gave some cultivation resources to the sisters.

These low-rank resources were useless to him and he wouldn’t be able to sell them for much money in the universe either. They would be put to better use if he gave them out for their cultivation.

Especially Lin Chuxia. Her Demon Lotus Poison Body was an extremely powerful poison physique that was rare even in the universe. Wang Teng had high hopes for her future.

However, the poison element resources she needed were huge too. She was like a bottomless well.

Lin Chuxia wouldn’t be able to feed herself. She could only rely on her brother-in-law!

However, Wang Teng didn’t receive any poison-element planetary-stage scripture, so he had nothing to give to Lin Chuxia.

He could buy one though. Anything could be bought with money.

But, his five elements were already at the celestial stage. He wasn’t in a hurry to raise his poison Force. Moreover, he wanted to see if he could get some poison element attributes out of anyone.

Free things were always better!

As for Lin Chuxia, she was only at the 9-star soldier level. She still had some distance to go before breaking through the planetary stage, so there was no rush.

“Work hard on your cultivation. Once I settle the things in the Olant Federation, I’ll bring you to my territory,” Wang Teng patted Lin Chuxia’s head and said.

“Your territory?” Lin Chuhan asked.

“Oh, I forgot to tell you that I have a galaxy in the Great Qian Empire as my territory,” Wang Teng replied casually.

Lin Chuhan: ...

Lin Chuxia: ...

This brat put on a really good show!

A galaxy as his territory!

The two ladies didn’t dare to think further.

Unfortunately, before they could ask him anything, Wang Teng waved his hands and left.

Leaving immediately after boasting was the coolest move.

Chapter 1103: Departure and Preparations

Two days later!

A huge group of people gathered in front of the Global Union Building. The leader of martial arts and the heads of the nations were all present.

Today was the day that Wang Teng would depart for Olant Federation to seek justice. He wanted to let them know that Earth was not to be bullied. No one can trample on his planet.

“You have to be careful when you go to the Olant Federation.”

“I really wanted to go with you guys, but Earth can’t be left unprotected.” The three great commanders smiled bitterly.

“Don’t worry. Be prepared to watch a fireworks broadcast. I promise it will be spectacular.” Wang Teng smiled.

“Fireworks broadcast?” Everyone was slightly taken aback.

“You will know when the time comes.” Wang Teng snickered.

The crowd couldn’t help but take a moment of silence for the Olant Federation. They always felt he wouldn’t do anything humane.

“Let’s go.” Wang Teng didn’t say much and brought everyone on the universe-level spacecraft.

...

The universe-level spacecraft departed from Earth and headed to Olant Planet.

Everyone below watched as the spacecraft disappeared before leaving with complicated feelings.

There were many people who went on the spacecraft. Among them were the leader of martial arts, Dan Taixuan, Ye Jixin, and the heads of the nations. Country Xia brought the most people.

The heads of the nations were envious of it.

They couldn't do anything about it though. After all, Wang Teng was from Country Xia. No one would dare to say anything if he was biased.

The people from Country Xia included members of the Wang family, Lin Chuhan and her sister, and some of Wang Teng's friends, such as Xu Jie, Bai Wei, Baili Qingfeng, Lu Shu, Song Shuhang, Hou Pingliang, Han Zhu, Wan Baiqiu, and others.

There were even presidents of Huanghai University, Peng Yuanshan, and Tong Hu. As his alma mater, Wang Teng didn't forget about them.

They had advanced to the peak of the 13-star general stage at a rapid pace and possessed constellation Force. They were now trying to reach the planetary stage.

There were also the presidents of Jinlin University and The First University and Old Han from the Huanghai Military Academy. They were now planetary-stage martial warriors, and they would be the first batch of people to step into the universe in the future.

The state of these pioneers was extremely peculiar. Although they were not young, they had reached their peak during the harsh environments of the past. They were all talented people.

Now that the opportunity was presented to them, their growth was uncontrollable and extraordinary compared to ordinary people.

Wang Teng was astonished when he saw these three elders. He felt that they could reach greater heights in the future. It was not impossible for them to reach the cosmos stage.

The appearance of multiple cosmos-stage martial warriors on an underdeveloped planet was something incredible.

However, Wang Teng felt that it was highly possible. It wasn't an exaggeration.

Everyone gathered together in the spacecraft. The panorama mode was activated, and the universe was presented to everyone.

The spectators were amazed when they saw what was in front of their eyes.

Dead silence!

Only the sound of breathing could be heard.

Ever since humans had thoughts, they had been looking up at the stars. Many people had struggled for countless years in order to step foot into this unknown field.

That dream was now fulfilled.

Although various countries had carried out experiments on spaceships, only a few astronauts had entered space. There were further limitations and restrictions to their activities in space.

It wasn't like how they were able to move freely in the spacecraft and embark on long voyages and travel to unfamiliar parts of the universe that were hundreds of thousands of light years away.

Everything felt like a dream.

It was too unreal!

After a long time, Old Han said with a complicated expression, "I can finally set foot in this universe. I have no regrets after waiting for so long!"

The leader of martial arts and Yu Xiuxian heard that and nodded in agreement. Even the heads of the nations were full of amazement and felt that this trip was worthwhile.

Wang Teng understood their feelings. He was the same when he left Earth for the first time. He smiled. "This is just the beginning."

"Hahaha, that's right. This is just the beginning. I can still go further." Jinlin University's president laughed.

"That's right, that's right. It's still too early to say anything about regrets." Old Han smiled as he brushed his beard.

The First University's Yu Xiuxian didn't say anything. However, that smile on his face and the glow in his eyes showed that he was full of emotions as well.

After appreciating the vast space, the spacecraft entered the Dark Universe. A long time later, their excitement died down. Everyone stopped gazing outside and went back to cultivate and rest.

As for the people of Country Xia, they gathered together to chat and learn more about some things in the universe from Wang Teng.

The few presidents talked about the current situation in Country Xia and Earth. Among the topics, the one that they were most concerned about was the cultivation of the next generation of martial warriors.

"Wang Teng, you can't be biased and only look after Huanghai Military Academy. The First University is at its tipping point." Yu Xiuxian suddenly smiled bitterly.

Now, Huanghai Military Academy was the best military academy in Country Xia. Its reputation was even greater than The First University and was renowned globally. Many talented martial warriors enrolled in the academy once the admission cycle started.

Everyone knew that this was the academy that Wang Teng was from. Whether it was the academy's qualification or its future resources, it would be unmatched by the other institutions.

There was also news that Wang Teng would fund his alma mater and there was no need to worry about resources.

Huanghai Military Academy also added a lot of faculties for international martial warriors.

Now that the entire globe was cooperating, it wasn't necessarily a bad thing for martial warriors from various countries to be assimilated in Country Xia.

"Jinlin University as well. There's an increase in the number of martial warriors. We don't have enough resources." The old president of Jinlin University also asked for help.

"Ah?" Wang Teng was slightly taken aback. He didn't know why he was suddenly involved.

The two of them were not young and were actually crying for his help. He was caught between laughter and tears.

"Hahaha, you guys are jealous. Wang Teng's from Huanghai Military Academy. It isn't wrong for him to take care of his alma mater." Old Han smiled with pride.

"You can't say that. Nurturing martial warriors is the top priority. Every institution is trying its best and working hard. This is just preferential treatment." Yu Xiuxian shook his head.

"We don't need much. Just distributing half of the resources to us would be enough." Jinlin University's president chimed in.

"Haha, you will have to find the leader of martial arts for that. It's no use talking to me." Old Han rolled his eyes and smiled.

The leader of martial arts suddenly had a headache. He was now implicated in this matter.

He had no solution either. Martial arts was now on a resurgence, and the number of martial warriors on Earth would definitely surge. The resources on Earth alone were not enough at all.

That was why everything depended on Wang Teng.

"Don't worry, everyone. I have a galaxy territory in the Great Qian Empire. There are sufficient resources." Wang Teng had no choice but to speak up.

He had told this to Lin Chuhan and her sister, but he hadn't had the chance to inform the leader of martial arts and the others yet. Now, he had to reassure them.

These people were heartbroken for Earth and Wang Teng couldn't bear to let them continue to have wild thoughts.

Everyone: ...

A galaxy territory?!

They doubted their ears and looked at Wang Teng in astonishment.

"You mean a galaxy?" the leader of martial arts gulped and asked.

"That's right. I obtained a galaxy after inheriting the baron title in the Great Qian Empire." Wang Teng nodded.

Goodness!

Everyone gasped when they heard the definite answer. They couldn't take it. Their minds were blown as if they had been struck by lightning.

"Cough, is everyone okay?" Wang Teng cleared his throat and asked carefully.

Sure enough, it wasn't a good thing to be this agitated when they were old. When he looked at them, he felt that Lin Chuhan and Lin Chuxia were better at accepting the news.

But he didn't know that the concept of a galaxy was too impactful for a country's leader.

Lin Chuhan and Lin Chuxia just thought that it was enormous and didn't think about it too much.

"Let us calm down." Yu Xiuxian waved his hand.

"Yes, let us calm down. My heart can't take it." Old Han clutched his chest.

Wang Teng was afraid that these elders would pass away and that he would become a sinner just like that.

After a while, the leader of martial arts and the others finally accepted this fact with complicated expressions on their faces.

"My plan is to use my territory as a transfer station in the future to let martial warriors from Earth transit in the universe," Wang Teng saw that and continued speaking.

"How do we transit?" The leader of martial arts pondered.

"By using a space array."

"That's a valid solution." Yu Xiuxian nodded.

"We can only use space arrays. Otherwise, the distance would be too great, and it would take up a lot of time." Wang Teng shook his head.

"Will this expose Earth's location?" Jinlin University's president hesitated.

"Yes, this would expose Earth's location. It's extremely dangerous. We're still too weak in front of the major forces in the universe." Old Han said.

"That's why we need to obtain ownership of the Milky Way," Wang Teng's eyes flashed as he replied.

"Milky Way!" Everyone was stunned.

"That's right. This is my other objective of heading to the Olant Federation," Wang Teng responded.

"With the Milky Way, I can set the teleportation arrays on other planets instead of placing them directly on Earth. That would reduce the risk greatly."

"I see." Everyone was enlightened.

"But we're talking about a galaxy. The Olant Federation wouldn't just hand it to us so easily." The leader of martial arts smiled bitterly.

He felt that Wang Teng was too ambitious. He was talking about owning a galaxy. Was this the confidence of a noble from a high-tier civilization?

Compared to him, they were just country bumpkins!

How hurtful!

“That depends on how we execute things.” Wang Teng’s eyes twinkled.

The leader of martial arts and the others exchanged glances, wondering what he had up his sleeves.

“Hahaha, don’t worry. Just leave it to me.” Wang Teng smiled.

No one probed further. They could only pin their hopes on Wang Teng and go back to their cultivation.

Chapter 1104: Law Of Cause And Effect!

The virtual universe.

There was a huge city in the middle of the Great Qian Mainland, known as Great Qian Sacred City. It was majestic and grand.

This was called the sacred city to differentiate it from Great Qian City in the real world. Almost all the powerful factions had bought properties here.

Yes, they bought it even though it was in the virtual world.

It was better not to look down on these virtual properties. They weren’t cheap. Normal people couldn’t afford them. Also, they might not have the right to buy them.

Of course, with Wang Teng’s noble status, he could buy a property here.

Why did he buy one?

This was a face value issue.

Imagine a noble having to start from the initial entrance every time he entered the virtual universe. He wouldn’t have a place to hold a meeting if he needed to. Wasn’t that awkward?

In Great Qian Sacred City, there was a huge patch of land covered by castle-like structures.

This was the land of the Parkers family!

A few familiar faces were present in a hall within these castle-like structures.

Two elderly figures sat at the front of the hall. They were the Furious Flaming Universe Lord and the Flaming Phoenix Universe Lord.

Andrais, Sinclamon, Valteru, and many others were standing below them. They didn’t make a peep.

After some time, a lofty figure abruptly appeared in the hall.

Cao Hongtu!

The person who appeared was Cao Hongtu!

“Universe lords.” Cao Hongtu immediately bowed and greeted the two universe lords above respectfully.

The Flaming Phoenix Universe Lord nodded.

“How is it?” the Furious Flaming Universe Lord asked.

“I have formed a collaboration with the Olant Federation. They will send a heaven-stage martial warrior to capture Wang Teng’s family members. They should be back soon. We have set up a trap with the other two heaven-stage martial warriors from the Olant Federation. Wang Teng won’t be able to escape,” Cao Hongtu replied. A sinister gaze flashed past his eyes.

“Four heaven-stage martial warriors. It should be enough. Since that brat has left Earth, the Cavendish and the Ji families won’t be able to help him,” the Furious Flaming Universe Lord said.

Valteru and Sinclamon were elated.

“That brat thinks that he can fight with us just because he’s a triple-field grandmaster of the Secondary Career Alliance. How naive.” Sinclamon snorted.

“We must use his blood to wash the humiliation the Parkers suffered,” Valteru said coldly.

“The Parkers will give you what you deserve once this issue is settled. We might be able to help you get back your baron’s status,” the Flaming Phoenix Universe Lord said.

“Yes!” Cao Hongtu was beaming with joy. He quickly bowed. Then, he hesitated.

“What’s the matter?” the Flaming Phoenix Universe Lord asked.

“The three heaven-stage martial warriors from the Olant Federation have a request,” Cao Hongtu said.

“What request?” the Furious Flaming Universe Lord asked.

“They want some cultivation resources,” Cao Hongtu briefly explained their request to the other party.

“That’s easy. It’s just some resources. We can give them.” The Furious Flaming Universe Lord shook his head and closed his eyes. He was too lazy to bother about this issue.

“As expected of a low-tier civilization. They’re so petty. Do they think that the Parkers will lie to them?” Sinclamon said contemptuously.

“Tell them that they will get their share after the issue is settled,” Valteru said.

“Go ahead.” The Flaming Phoenix Universe Lord closed his eyes and ordered Cao Hongtu to leave.

“I’ll make a move first.” Cao Hongtu nodded and left.

“Cao Hongtu is desperate.” Sinclamon smiled as he stared at Cao Hongtu’s back.

“He’s willing to do anything for the baron status. His daughter is still in Wang Teng’s hands. but he doesn’t care anymore.” Valteru smiled with disdain. “He’s just a dog of us Parkers.”

“On the other hand, Wang Teng has been jumping around for too long.” Sinclamon’s expression turned ugly when he mentioned the name.

“Hmph, if Grand Duke Chongshan hadn’t carved the Law of Cause and Effect on that brat so that the elders in our family can’t touch him, things wouldn’t be so troublesome,” Valteru said helplessly.

The people in the hall turned silent. They seemed a little fearful. No sounds were heard thereafter.

...

The Olant Planet.

Cao Hongtu opened his eyes in a large hall. A sharp glint flashed in his eyes.

In front of the hall, two heaven-stage martial warriors with powerful auras were sitting on their thrones. Their gazes were sharp too as they blinked and opened their eyes.

One of them was muscular and lofty. He was three meters tall, and his limbs were exceptionally bulky and thick. There were two sharp horns growing on his head, giving him a scary appearance.

The other was only slightly taller than a normal Earthling. He had pale green skin and slightly sharp ears. His face was filled with wrinkles, but they didn’t seem to be a sign of aging. He was born like that.

“Brother Caso.” A loud voice came from the heaven-stage martial warrior with horns on his head.

“Thanks for waiting so long.” Cao Hongtu smiled and continued, “I’ve already contacted the two universe-stage martial warriors. They have agreed to give you enough resources once you complete the task.”

Joy appeared in their eyes. It was almost unnoticeable. They exchanged glances with each other and silently shifted their gazes away.

“Hahaha, you’re too kind.” The other heaven-stage martial warrior with green skin said, “The Earthling has to pay the price since he dares to offend the Olant Federation.”

“We must teach this impudent fellow a lesson,” Cao Hongtu smiled as he spoke. However, in his heart, he was cursing.

The heaven-stage martial warriors in the Olant Federation would not give their commitment until they were certain of their success. He had promised many benefits to get them to cooperate with him.

“We will lay in ambush and wait for Sheng Luo to come back,” the heaven-stage martial warrior with green skin said with ease.

“We’ll make sure he can’t escape once he lands in the Olant Federation.” The heaven-stage martial warrior with horns scoffed.

“I’ll have to trouble you at that time. The mecha heaven-stage martial warrior beside him is very strong. You need to be careful,” Cao Hongtu said.

“The mecha heaven-stage martial warrior? I met one once. They’re indeed powerful, but don’t worry. The three of us made a name for ourselves in the universe and have gained the rank of a three-star mercenary. It’s enough to deal with a mecha heaven-stage martial warrior,” the martial warrior with green skin said proudly.

“Three-star mercenary!”

Cao Hongtu was surprised. He didn’t think that the other party possessed such strength. He nodded, and his doubts were cleared.

“Come, cheers to our successful collaboration,” the heaven-stage martial warrior with sharp horns raised the wine glass in his hand and shouted.

“Alright, cheers!” Cao Hongtu smiled when he saw how confident they were.

“Hahaha, cheers!”

Peals of laughter resounded in the hall. They seemed confident of their success.

...

Universe-level spacecraft—Flaming River!

Flaming River universe-level spacecraft zoomed through space at a high speed.

The space coordinates of the Olant Federation weren’t a secret. Hence, hyperspace travel could be executed. This would shorten the traveling time greatly.

With the current speed of the spacecraft, they would arrive around ten days later.

Universe cruising was boring. Fortunately, Wang Teng was able to enter the virtual universe to hunt for star beasts and pick up attributes for his cultivation.

Besides taking out some time to guide Lin Chuhan and her sister, meeting up with Baili Qingfeng and his friends, and teaching the rest how to use the virtual universe, he spent the rest of his time in the virtual universe.

Everyone on Earth had the citizenship of the Great Qian Empire and was familiar with the virtual universe now.

They were slowly integrating into the universe. Wang Teng didn’t need to worry about anything.

Today, Wang Teng was cultivating in his room—scratch that, picking up attribute bubbles!

Space and time attribute bubbles could be found randomly in the Dark Universe.

These two attribute bubbles were precious, so every time Wang Teng entered the Dark Universe, he would release his spiritual power and void mayflies to check his surroundings. Once he found any attribute bubbles, he would pick them up immediately.

As for the virtual universe, he allowed his clones to enter. He created two clones, one as an unregistered resident and one as a normal resident. This was how he achieved double cultivation speed.

Doing two things simultaneously so that none was affected.

Space*10

Space*12

...

Wang Teng released his spiritual power out like fishing nets and swept them through the Dark Universe as if he was fishing.

Very soon, two more attribute bubbles flew over. They gave him 22 points of space attributes.

There were fewer time attributes compared to space attributes. He had to rely on luck to find one.

Normally, he would find one time attribute bubble after collecting six to seven space attribute bubbles. This was God's gift.

"Huh?"

Wang Teng suddenly exclaimed.

He saw a huge space-time vortex on the left in the Dark Universe. There were many attribute bubbles floating inside the vortex.

He just buttered up God and the reward came in the next second.

Looks like I have to compliment God more. Wang Teng thought to himself secretly.

Collect!

He acted quickly and released his spiritual power, picking up all the attribute bubbles.

Time*40

Time*25

...

"I'm so lucky!" Wang Teng's eyes lit up when he saw the contents of the attribute bubbles. He felt that he was extremely lucky.

More than ten attribute bubbles were found, and all of them had a sizable amount of attributes. There were even time attributes.

This round of gains made his wait today worth it. No, it made up for all these days of waiting.

Space Physique: 16300/300000 (third rank)

Time: 530/10000

Wang Teng nodded in satisfaction after looking through his attributes panel.

The progress was a little slow but many a little make a mickle, especially for the time attribute. He collected a little every time, but there were already 530 in total.

Wang Teng had a deeper understanding of time, and he could almost feel himself getting closer to touching that mysterious and occult power. He could faintly sense the passing of time.

He closed his eyes and felt it carefully. It was faint, but he knew it was there.

“I’ll be amazing if I can execute a battle technique using the power of time,” Wang Teng opened his eyes and touched his chin as he muttered to himself. There was a sharp glint in his pitch-black eyes.

While he was in deep thought, Round Ball’s voice suddenly resounded.

“Wang Teng, we have reached the Olant Planet!”

Chapter 1105: This Beautiful Scenery Is Suitable For A Reunion!

They had reached the Olant Federation!

Wang Teng’s gaze turned sharp, and he jumped to his feet. “Come, let’s give the Olant Federation a big present!”

He strode out of the cultivation room.

The leader of martial arts and the others received the news too and gathered in the main control room.

A huge planet appeared in front of everyone through panorama mode. It was at least two times the size of Earth.

“Is that the Olant Planet?” The leader of martial arts stared at the blue-green planet in awe.

“That’s right, this is the main planet of the Olant Federation, the Olant Planet!” Wang Teng stepped in and answered them.

“Wang Teng, you’re here.” Everyone regained their senses and turned back.

“Haha, we have reached our enemy’s doors. It’s definitely time for me to come out,” Wang Teng smiled and replied.

“Alert! Alert! A large universe fleet is detected ahead!” An alert echoed in the room.

“They’re here to welcome us.” Wang Teng smiled.

No one else felt as calm as him. They started to tense up.

“Wang Teng, will it be alright?” Lin Chuhan whispered uncontrollably.

“Don’t worry.” Wang Teng patted her hand and stood in front of the main control station. He squinted slightly as he stared at the universe fleet flying toward them. A dangerous gaze shimmered in his pupils.

To him, this universe fleet was countless attribute bubbles.

The fleet gradually came to a stop in front of the spacecraft, blocking the path ahead.

At a single glance, there were tens of thousands of battlecraft in this fleet. They parked on the outskirts of the Olant Planet, forming a majestic line of defense.

The size of this fleet was enough to force a heaven-stage martial warrior to turn back.

“Please stop where you are. No spacecraft are allowed to enter the Olant Planet. Please head to the satellite dock for parking.

“Repeat. No spacecraft are allowed to enter the Olant Planet. Please head to the satellite dock for parking.

“Anyone that resists will be viewed as an invader and be shot down!”

A voice came out from the Olant Federation’s universe fleet, ringing through the air like thunder. The threat in the announcement was clear.

“Round Ball, attack them,” Wang Teng smirked and said in his mind.

“Watch me. These are just planetary- and celestial-level universe spacecraft. Although they can threaten a heaven-stage martial warrior with their numbers, they won’t be able to harm this universe-level spacecraft.” Round Ball chuckled, sounding excited.

Under its control, the weapons on the Flaming River spacecraft lit up and spat fire. Before the universe fleet from the Olant Federation could react, numerous Force shots had landed in their fleet.

Boom! Boom! Boom!

The battlecraft turned into fireballs and plummeted down. Numerous broken metal fragments were thrown into space.

As for the people in the battlecraft, they disappeared in the explosions before they had the time to scream. The planetary- and celestial-stage martial warriors died in masses.

The leader of martial arts and the others were appalled.

They had seen Wang Teng destroying the Olant Federation’s battlecraft when they were on Earth, but at that time, the fleet was much smaller. Moreover, they saw the scene through a screen. Thus, the impact wasn’t huge.

Now, these battlecraft turned into fireballs right in front of them and became part of the space dust. This image stimulated their hearts.

Lin Chuhan grabbed Wang Teng’s hand tightly and frowned. She was a little nervous.

At the same time, the martial warriors in the Olant Federation’s battlecraft were in chaos.

“Enemy attack!”

“Enemy attack!”

“Quick, retaliate!”

“All spacecraft, activate your Force cannons and strike down that spacecraft!”

...

Although Wang Teng had caught them off guard, they were a professional fleet, so they managed to react at once.

The spacecraft started to gather energy and hurled attacks at the Flaming River spacecraft.

Boom, boom, boom...

The Force cannons struck the Flaming River's defense shield, but it wasn't broken. It didn't even cause any damage.

"How is that possible?" a cosmos-stage martial warrior on a cosmos-level spacecraft shouted in disbelief. He was flabbergasted.

"General Rick, their spacecraft is powerful. It's probably a heaven-level or a universe-level spacecraft. We can't break its defense," a ninth-level celestial-stage martial warrior turned and said with a pale face.

1

"Damn it!

"Why is there such a powerful invader?"

General Rick's expression turned ugly. He almost bellowed his order, "Activate the Planet Annihilation Cannon. Only the Planet Annihilation Cannon can deal with it.

"Ask the other battlecraft to hold it back. Do everything to buy us time!

"It mustn't get closer to the Olant Planet!"

"Yes!" the martial warriors below replied loudly.

Boom!

A loud explosion shook their eardrums. A cosmos-level battlecraft was hit the moment it activated its Planet Annihilation Cannon, shattering into pieces with a loud bang.

General Rick's expression froze. A drop of cold sweat fell down his forehead.

F**k!

A cosmos-level battlecraft couldn't withstand one hit from their enemy. How were they supposed to fight?

"Retreat! Retreat!

"Get out of the enemy's attacking range. Ask the cosmos-level spacecraft in front to move forward and block the enemy!

"We must buy time for the main battlecraft!" A hoarse and exhausted angry roar came out of General Rick's throat. He was using this method to hide the fear in his heart.

The cosmos-level battlecraft started flying forward one after another.

Boom! Boom! Boom!

Wang Teng stood in front of the main control station and enjoyed the scene. "How beautiful. Record it and let the people on Earth admire it."

The leader of martial arts and the others were perspiring profusely.

Are you sure it's beautiful?

Why do we find it horrifying?

They almost couldn't withstand the impact this image gave them.

"Oh right, bring out the martial warriors from the Olant Federation. Let them savor this scene too," Wang Teng turned and spoke to Bertha.

"Yes!" Bertha was stunned for a moment. She had a deeper understanding of her master's evil heart.

The leader of martial arts exchanged glances with the other people. They felt that the martial warriors from the Olant Federation might break down if they saw this scene.

Wang Teng was a little ruthless!

After some time, Sheng Luo, Kloet, and the other martial warriors were brought forward.

This bunch of martial warriors from the Olant Federation was already paraded through the streets when they were on Earth. They were covered in eggs and rotten cabbages, so they smelled sour and horrible.

When had they ever suffered such humiliation? They almost died from embarrassment.

However, as cosmos-stage or above martial warriors, they had a strong desire to live. No one was willing to die.

Thus, they bore with it!

They bore with the humiliation...

Wang Teng covered his nose when he saw them, exclaiming in surprise, "Didn't you guys bathe? Bertha, they're cosmos-stage and above martial warriors. Even if they're our prisoners, we need to treat them properly. We don't lack water. Please change them in the future."

"... Yes!" Bertha was speechless.

The leader of martial arts and the others were at a loss for words too.

This young man was heartless!

The other party was in such a miserable state, but he didn't want to let them go. He even rubbed salt in their wounds.

But no one took pity on them. These guys had asked for it.

Everyone had to bear the consequences of their actions.

Sheng Luo and the others were dying from anger and embarrassment. They glared at Wang Teng, hoping that they could skin him alive and tear him into pieces.

“Don’t look at me like that. I’m a kind person. You’re prisoners, but I still prepared a firework show for you,” Wang Teng pointed in front of him and said with a smile.

Sheng Luo and the others looked in the direction he was pointing and squinted.

Boom! Boom! Boom!

Flames blossomed like beautiful flowers in the pitch-black space ahead. Behind the flames, they could see the familiar Olant Planet.

“Isn’t it beautiful?” Wang Teng’s voice rang beside their ears.

“You!” Sheng Luo couldn’t believe that Wang Teng honestly dared to come to the Olant Planet.

Where did he get his guts from?

This fellow’s balls were bigger than his wildest expectations!

“This beautiful scenery is suitable for a reunion,” Wang Teng touched his chin and said.

Everyone felt confused. What did he mean?

Wang Teng waved his hand, and a few figures appeared in front of everyone. They stumbled and fell to the ground.

Their faces were pale, and they appeared listless. They opened their eyes slowly, unaware of what had happened.

“Wang Teng!” A young man with golden hair gritted his teeth and bellowed as he glared at Wang Teng with hatred.

He was the talent of the Blue Wolf Galaxy from the Olant Federation. Yet, he got locked up by this Earthling for such a long time. This was a huge humiliation.

Kathu, Pulin, Loggins, and the others regained their senses and glared at Wang Teng in anger. These were the talents sent by the Olant Federation to Earth for the trial.

They wanted to pounce and fight with Wang Teng, but the struggle in the spiritual labyrinth had exhausted all their energy. They didn’t go into hibernation because Wang Teng freed them. He didn’t want them to sleep forever.

Wang Teng did this on purpose because he wanted these talents to see how inferior and weak their Olant Federation, which they were proud of in the past, was now.

Not an ounce of Force was left in their bodies. There was no way they could fight with Wang Teng.

No chance at all!

Hence, they could only be tortured by their anger.

The leader of martial arts and the others had a strange expression upon seeing Wang Teng releasing the talents from the Olant Federation.

This was... evil!

“Hello, long time no see!” Wang Teng waved his hand and smiled at them.

Everyone: ...

Wang Teng was a devil!

They finally knew his intentions. He wanted to break the last line of defense in these young people’s hearts and trample their confidence.

Unfortunately, the young talents didn’t know.

What a bunch of poor little kids!

“Wang Teng, how dare you imprison us? The Olant Federation will not let you go. Saint Star Pagoda will not let you go either. Earth will be destroyed because of you,” Loggins said bitterly.

Sheng Luo: ...

Kloet: ...

Chapter 1106: Did You Misunderstand Something?

“Earthlings who don’t know their place are courting death!”

“The Olant Federation is not an organization that an Earthling can provoke.”

“Bastard! Be careful out there. Let us go right now.”

...

Argus and Loggins were the most prideful and were locked up for the longest. After being released, they started shouting and venting their anger.

Although Kathu and Pulin were furious as well, they didn’t make a ruckus. They were observing their surroundings, searching for an opportunity to escape.

However, they realized the atmosphere was strange!

And they noticed a few familiar faces among the crowd.

President Sheng Luo, Kloet, Manka, Qing Lun, Alston, Oliver, Claude... These were all leaders of the Olant Federation, and some of them were their seniors...

Kathu and Pulin widened their eyes, their jaws slowly dropping.

They suspected that Wang Teng was casting a Spiritual Illusion on them. They saw the ones that they wanted to see the most.

However, these leaders and seniors looked a bit... disheveled?

No, they were very disheveled. It was like they were just fished out from a pool of dung.

It was inappropriate to talk about their leaders and seniors like that, but it was a fitting description.

And their pale faces were filled with rage and even shame... All of these emotions were vividly displayed on their faces.

It was very realistic!

Even their emotions felt real. This bastard's Spiritual Illusion was truly terrifying!

Kathu and Pulin exchanged glances with their hearts full of fear.

They then looked at Wang Teng and smiled bitterly. "Wang Teng, stop fooling around. We know this is fake. Release your Spiritual Illusion. Isn't admitting defeat enough for you?"

"What? Spiritual Illusion?" Argus and Loggins were confused.

Sheng Luo and the others: ...

They wanted to open their mouths, but it was too awkward and humiliating. Even seniors like them were captured. If the juniors knew about this, they would be ashamed!

They wanted to find a hole and bury themselves in it. They were secretly chanting in their hearts, *They can't see me! They can't see me!*

But it was useless. They had already seen them.

But they were treated as a Spiritual Illusion... They didn't know whether to feel happy or depressed.

"Kathu, are you sure this is a Spiritual Illusion?" Loggins didn't feel good. He then stared at Kathu with bloodshot eyes. He was going crazy.

"Look at who that is?" Kathu pointed towards the few people on the side.

Sheng Luo and the others: ...

They were targeted for no good reason!

They had tried their best to diminish their presence, but this brat still recognized them. At this moment, they badly wanted to smack Kathu to death.

"President Sheng Luo, Kloet..." Loggins read out the names one by one. His face was full of disbelief. He was even more shocked when he saw Claude. "Father!"

"Father! Uncle!" Argus also cried out.

Sheng Luo and the others knew that they couldn't hide it any longer and were about to speak...

Argus and Loggins suddenly looked at each other and nodded. "It really is fake!"

-_-||

Sheng Luo and the others were stunned and almost vomited blood.

This wasn't what they had expected. These juniors couldn't even recognize them after so long?

They're blind!

"Wang Teng, I didn't expect your Spiritual Illusion to reach such a level where you can extract our memories," Argus said.

They thought that Wang Teng must have never seen Sheng Luo and the others before. For him to reproduce such illusions, their memories must have been tapped on.

"Wang Teng, how long are you going to humiliate us?" Loggins's eyes were getting redder by the moment as he roared.

Sheng Luo and the others looked at him and frowned.

This brat's spirit was going to collapse!

"Pfft!" Lin Chuxia couldn't hold it in any longer and burst out laughing.

Baili Qingfeng, Han Zhu, and the others had strange expressions as well.

This group of fools was about to have their brains fried!

They glanced at Wang Teng and felt that he was really black-hearted. A talent was played around like this.

"What are you laughing at!" Loggins felt humiliated and roared at Lin Chuxia.

"So scary." Lin Chuxia retreated behind Wang Teng and patted her chest, looking frightened. In reality, she was just mocking him.

Bang!

Wang Teng swung his hand and slapped Loggins on his head.

With a muffled sound, Loggins struck the floor before he could even react.

"Wang! Teng!" Loggins's head was buzzing, and he was bleeding from his mouth. He struggled to get up from the floor and glared at Wang Teng with his red eyes.

"A prisoner should know their place. Why are you shouting? Do you want to die?" Wang Teng looked at him calmly.

Loggins felt chills in his body under his calm stare. He closed his mouth subconsciously. However, he got angry from embarrassment, and his face became red like a tomato.

"Anyway, aren't you guys misunderstanding something?" Wang Teng ignored him and smiled.

"What do you mean?" Argus, Kathu, and the others frowned and sensed something strange in his smile. People around them were looking at them like they were idiots.

"Who said this was an illusion?"

"If it's not an illusion, why are President Sheng Luo and the others here?" Argus said coldly, "You're still lying to us. Do you take us for fools?"

"Hahaha..." Wang Teng sat on the chair behind him and laughed heartily.

These guys are so funny. At this point, they still think that this is an illusion!

Their brains are really fried!

They can't differentiate between reality and fantasy.

"What are you laughing at?" Argus held back his anger.

"Sheng Luo, Kloet, tell them. Is this real?" Wang Teng smiled at Sheng Luo and the others.

"Hmph!" Sheng Luo snorted with a bruised face.

Kloet and the others had ugly expressions and didn't open their mouths. It was difficult for them to say something.

Argus, Kathu, and the others saw that and gradually turned pale. An ominous premonition emerged in their hearts.

"No, this is all fake. You are lying to us." Loggins was full of disbelief.

"That's right. Stop humiliating us like this," Argus said coldly.

"Enough!" Sheng Luo couldn't take it anymore and bellowed. He interrupted Argus and Kathu, preventing them from embarrassing themselves in front of others.

"You're just an illusion. How dare you yell at me." Argus didn't back off and retorted.

"..." Sheng Luo's face turned dark.

This brat is asking for death!

Kloet and the others were rendered speechless. They didn't know how to describe what they were feeling.

They were treated as illusions!

What was this!

"Hahaha..." Lin Chuxia burst into laughter, and tears were about to flow down her eyes. She then held on to Wang Teng and said, "I'm sorry. I can't take it any longer. You guys can go on. Go on. Don't mind me."

Silence.

When Argus and the others saw her like this, their hearts wavered.

Sheng Luo and the others were extremely embarrassed but helpless. They wanted to vomit blood.

Lin Chuhan was caught between laughter and tears. She then patted Lin Chuxia on her head and told her to restrain herself.

The leader of martial arts and the others were enjoying the show. They had to admit that seeing the mighty people from the Olant Federation make a fool of themselves was extremely satisfying.

“What do you want?” Sheng Luo glared at Wang Teng.

“Oh right. Let’s get down to business. Let’s watch the fireworks together!” Wang Teng pointed outside and chuckled.

Argus and the others followed his finger and were stunned. Their brains couldn’t process things properly.

Why is that planet so familiar?

Olant Planet!?

What’s going on? Why is Olant Planet appearing in front of my eyes?

And what’s with that explosion?

They couldn’t be blamed. Anyone who had been locked up for such a long time and suffered all kinds of mental torture would probably be dazed and feel that nothing was real. Especially when they saw something that was almost impossible.

“Isn’t it spectacular?” Wang Teng asked.

“This is your illusion as well, right?” Argus’s face was pale as he asked in disbelief.

He was still reluctant to accept reality. But everything in front of his eyes was telling him that this could all be real.

Otherwise, President Sheng Luo and the others wouldn’t be this aggrieved and angry and those Earthlings wouldn’t look at them like they were clowns.

Loggins, Kathu, Pulin, and the others looked at Sheng Luo and Wang Teng. Their faces were full of disbelief. It showed how much of a blow it was to them.

Their spirits were about to collapse!

“If you think so, then it is,” Wang Teng replied.

Argus, Loggins, and the others turned pale and stepped back. They were stumbling and almost unable to support their bodies.

They stared at the scene in front of them as if they were trying to find some flaws in it to prove that it was fake.

But only disappointment greeted them in the end!

Despair slowly rose in their hearts and could not be suppressed!

Why is it like that?

The Olant Federation that they were so proud of was collapsing in front of this Earthling!

This was unbelievable!

In space, battlecraft fell one after another, and the scene was too tragic to be described.

In the blink of an eye, the entire fleet was reduced to a few spacecraft, which scattered around and fled in panic. They lost the courage to confront Flaming River.

Several spacecraft couldn't even fire their Planet Annihilation Cannons and were now reduced to scraps.

And all of this happened in just a few minutes. The leaders of the Olant Federation didn't even have the time to react.

Wang Teng didn't bother about the people from Olant Federation and used his spiritual power to pick up attribute bubbles.

Constellation Force (Water)*1500

Constellation Force (Wood)*2000

Celestial Realm Spirit*200

...

Chapter 1107: Aren't You Looking For Me? I'm Here!

Constellation Force (Metal)*1800

Celestial Realm Spirit*600

Celestial Realm Enlightenment*1200

Emperor-Level Metal Talent*500

Constellation Force (Fire)*1600

Emperor-Level Fire Talent*700

Emperor-Level Sword Talent*1000

Constellation Force (Wood)*2200

Celestial Realm Spirit*280

Constellation Force (Wood)*600

Constellation Force (Earth)*2500

Constellation Force (Wind)*3200

...

The attribute bubbles flew toward Wang Teng. He was too busy to look at all of them carefully.

There were too many!

This was a huge harvest.

Thousands of universe battlecraft were bombarded with numerous martial warriors inside them. All of them were at the planetary stage and above, so there would definitely be many attribute bubbles.

Wang Teng was overjoyed. He quickly sensed what was inside the attribute bubbles while digesting them.

A vast amount of Force flowed through his body and gathered within his Force constellations.

Boom!

Boom!

Boom!

...

The next instant, a loud explosion rang in his body.

He had achieved a breakthrough!

It wasn't just a breakthrough in one element. It was a five-element breakthrough!

Constellation Metal Force: 8000/50000 (celestial stage fifth level)

Constellation Wood Force: 700/40000 (celestial stage fourth level)

Constellation Water Force: 1800/40000 (celestial stage fourth level)

Constellation Fire Force: 1200/80000 (celestial stage eighth level)

Constellation Earth Force: 23000/30000 (celestial stage third level)

He just had a breakthrough for his wood, water, and earth Forces recently, but it was happening again.

His wood and water Forces had both reached the fourth level. His earth Force had also entered the third level and would reach the fourth level soon.

As for his metal and fire Forces, both rose tremendously. His metal Force jumped from the second level to the fifth level. His fire Force progressed the fastest, already at the eighth level!

His fire Force had reached the last few levels, so the progression speed started to slow down. Although it entered the eighth level, it was only at the doorstep.

Besides increases in his Force, his spirit and enlightenment transformed too.

Boom!

Wang Teng's mind suddenly trembled along with his advancement. An unprecedented refreshed and clear feeling flowed into his mind.

His enlightenment had achieved a breakthrough!

It jumped one level and rose from the celestial realm to the cosmos realm.

Wang Teng was pleasantly surprised!

Spirit: 32500/50000 (celestial realm)

Enlightenment: 3000/100000 (cosmos realm)

Wang Teng never expected this huge rise in his enlightenment attribute.

His enlightenment soared exponentially. Streams of knowledge and comprehension rushed into his mind like a cosmic explosion.

Some things, which he found hazy in the past, started to become clearer. The enlightenment flashed through his mind like shooting stars. Wang Teng stretched out his hand to grab them.

His pupils moved left and right as he started to gain a deeper understanding of various ideas and skills.

Five-element fist!

Scripture amalgamation!

Force amalgamation!

Domain amalgamation!

...

Wang Teng grabbed hold of these ideas tightly, clenching them firmly in his hands. He wouldn't let them go no matter what happened.

These ideas would become Wang Teng's greatest assets in the future. He wasn't able to completely formulate them at the moment, but the accumulation and understanding from now on would turn these ideas into realities soon.

Wang Teng didn't know that when formidable martial warriors reached the universe stage or the eternal stage, they would choose to amalgamate all their learnings and create a new unique scripture most suitable for themselves.

He was walking on this path.

Moreover, he was just at the celestial stage. It was unbelievable.

During an advancement, the physical body, enlightenment, and spirit of a martial warrior would get transformed and upgraded to a certain extent. Thus, by theory, the higher the martial warrior's level, the higher his enlightenment and spirit.

This was why universe-stage and eternal-stage martial warriors were able to create their own scriptures.

Without enough enlightenment, everything was bullshit!

Wang Teng's enlightenment was in the cosmos realm, close to the universe realm. He might not be able to create a complete unique scripture, but he could make some semi-finished products.

For instance, in the past, his five-element fist could only defeat planetary-stage and below martial warriors.

With his current enlightenment, he could optimize and improve this skill, making it a cosmos-stage battle technique.

Wang Teng's mind worked furiously. He looked at his spirit attribute.

The rise in his spirit wasn't as astonishing as his enlightenment. It reached more than 30 thousand and it was still in the celestial realm.

Wang Teng continued looking down.

Talent attributes!

There was a complete upgrade of all his talents, especially the five basic elements.

Imperial-Level Metal Talent: 2500/25000

Imperial-Level Wood Talent: 3000/25000

Imperial-Level Water Talent: 1400/25000

Imperial-Level Fire Talent: 1800/25000

Imperial-Level Earth Talent: 2600/25000

The talent for his five basic elements advanced and reached the imperial level. Wang Teng was more sensitive to the five element Forces around him.

Until this point, all of Wang Teng's talents were at the imperial level and above besides his lightning talent.

The improvement in his battle technique talents was humongous too.

Imperial-Level Sword Talent: 1200/25000

Imperial-Level Blade Talent: 2000/25000

Imperial-Level Ax Talent: 1080/25000

Imperial-Level Arrow Talent: 1500/25000

Imperial-Level Gun Talent: 2200/25000

Wang Teng scrolled through and noticed that all his emperor-level talents had advanced to the imperial level. He even had an additional imperial-level gun talent.

Talents for battle techniques were common. You would get one for every martial warrior killed. That was why Wang Teng's battle technique talents managed to rise so quickly to the imperial level.

He had picked up many talent attributes when he destroyed the Olant Federation fleet that attacked Earth. But it wasn't enough to achieve a breakthrough.

After reaching the imperial level, Wang Teng felt that he could handle any weapon with proficiency and there were no obstacles in understanding any battle techniques. He could learn cosmos-stage and below battle techniques with a single look.

Higher battle techniques would take longer, but it wasn't a huge problem.

Wang Teng felt invigorated when he saw the rows of imperial-level talents. This feeling came from the depth of his heart.

He didn't have an obsessive-compulsive disorder, but it did look amazing.

Within a few seconds, Wang Teng collected all the attribute bubbles and underwent a major transformation.

But the people outside didn't know.

The leader of martial arts and the others had complex feelings when they saw the crippled Olant Federation fleet. They shook their heads.

It was hard to imagine that such a powerful universe civilization would end up in such a state.

It was unexpected!

Yet, they felt comfortable. It was worth the trip here.

This was the only way they could vent their hatred after everything the Olant Federation had done to Earth.

On the other hand, Sheng Luo and the others had hideous expressions on their faces. Their skin turned white.

They regretted provoking Wang Teng!

If they didn't provoke him, they wouldn't be in this state.

Argus and the young people widened their eyes in terror and shivered uncontrollably. They couldn't accept this reality.

The Olant Federation that they felt proud of...

They looked at Wang Teng as if he were a ghost.

Wang Teng disregarded them and continued staring at the beautiful planet in front of him. There was a hint of ruthlessness in his eyes.

Boom! Boom! Boom!

At this moment, three powerful auras erupted from the Olant Planet.

"They're finally here!" A smile appeared at the edge of Wang Teng's lips.

Three beams of light charged out of the planet at the speed of light. They came ferociously like three terrifying giant beasts.

"Who is this!"

"Who dares to invade the Olant Federation!"

Their angry roars were already heard before the people arrived. One could hear their rage.

Sheng Luo and the others smiled when they heard the voices.

Wang Teng snorted. He waved his hands, and three powerful Force attacks shot out.

Boom! Boom! Boom!

The three beams of light were attacked the instant they came out of the planet. They resisted in haste, but they were still thrown back a few thousand meters.

Three figures appeared in the air, looking a little miserable. They glared at the giant spacecraft in front.

“A universe-level spacecraft!” one of them exclaimed in shock.

The other two were equally dumbstruck. Their faces turned green. No one had expected a universe-level spacecraft to attack the Olant Federation.

“Who? Who are you?”

“Since you dare to attack the Olant Federation, you should have the guts to come out! Why are you hiding?” an angry bellow came out of the mouth of the martial warrior with horns on his head.

“Aren’t you looking for me? I’m here!” A voice floated out from the spacecraft.

“Wang Teng!” The figure who spoke first exclaimed in astonishment.

“What? Wang Teng?!” The other two figures were in disbelief.

Wasn’t Wang Teng that Earthling? Where did he get this universe-level spacecraft?

Was this a joke!

“Senior Brother Cao, I didn’t expect to see you here!” Wang Teng squinted upon noticing Cao Hongtu’s figure.

“It’s you!” Cao Hongtu took a deep breath and replied in a bitter voice.

He felt that things were getting troublesome.

Wang Teng had a universe-level spacecraft. This was an indomitable presence. If he wanted to leave, three heaven-stage martial warriors couldn’t stop him.

“Are you surprised?” Wang Teng asked.

“Yes, I’m surprised. But do you think you can kill us with that spacecraft?” Cao Hongtu blinked. He wanted to lure Wang Teng out of the spacecraft.

“Even if I can’t kill you, I can destroy the Olant Planet.” Wang Teng sniggered.

“Bastard, how dare you think of destroying the Olant Planet.” The other two heaven-stage martial warriors were infuriated. They wished they could charge into the spacecraft to kill Wang Teng.

“What a joke. You can kill me and destroy Earth so why can’t I destroy your planet?” Wang Teng asked calmly.

The two heaven-stage martial warriors' faces turned distorted. They didn't know what to say. They never thought that an Earthling would have a universe-level spacecraft. This put them at a disadvantage.

"Brother Cao, let's break the defense shield of the spacecraft together and find a chance to infiltrate. This brat is just a celestial-stage martial warrior. Once we enter the spacecraft, it will be ours," the heaven-stage martial warrior with horns on his head said. The greed on his face was apparent.

"Alright, let's fight our way in!" Cao Hongtu's gaze turned sharp. At this point, he had no other choices. He could only grit

Chapter 1108: It Felt A Little Offensive!

Cao Hongtu and the other two heaven-stage martial warriors from the Olant Federation didn't hide their conversation. They spoke openly.

Even if Wang Teng had a universe-level spacecraft, they still looked down on him.

Let's give a slightly inappropriate example.

It was like a little kid holding a gun. He might be able to kill other kids, but if he was facing adults, they would have ways to deal with him even though he posed some threat.

Moreover, these adults had bulletproof vests.

The three heaven-stage martial warriors finished their discussion and split up, heading to three different parts of the spacecraft.

That way, Flaming River wouldn't be able to focus its firepower in one spot.

They could also find a chance to damage the defense shield of the spacecraft while the other two martial warriors were distracting it.

"Wang Teng, they're going to attack the spacecraft," Round Ball said grimly.

"Hmph, how high is your success rate against three heaven-stage martial warriors?" Sheng Luo snorted. "Two of them are three-star mercenaries like me. When I made a name for myself in the universe, you weren't even a cell."

"Another three-star mercenary!" An Lan frowned.

Dealing with Sheng Luo was enough to give him a headache. Now, there were two three-star mercenaries and Cao Hongtu. This was getting troublesome.

Mind you, the abilities of Sheng Luo and the other two heaven-stage martial warriors shouldn't be underestimated since they were able to build a universe civilization, even if it was just low tier.

Cao Hongtu was just a two-star mercenary. He was still some distance away from the other party.

Cao Hongtu wasn't weak. He grew up in the Great Qian Empire, so his background was more powerful than ordinary martial warriors.

However, martial warriors like Sheng Luo, who climbed up from the grassroots, had their extraordinary points.

This was the difference between a genius born in a civilian family and one born in an elite family. Sheng Luo and the two other heaven-stage martial warriors were geniuses born in ordinary families.

“How do you still have the face to speak after getting captured by me at this old age?” Wang Teng slapped Sheng Luo’s head.

“You!” Sheng Luo staggered and glared at Wang Teng.

He was a heaven-stage martial warrior, much older than Wang Teng’s grandfather’s grandfather. Yet, he got slapped in the head.

He couldn’t bear it.

It was infuriating!

The other people were shocked, especially Kloet and the cosmos-stage martial warriors. They wanted to say something at first, but all of them remained quiet.

It would be embarrassing if they got slapped by Wang Teng on the head. Actually, there wasn’t much dignity left in them at this stage.

As for Argus and the youngsters, nothing much could be said. They were still doubting themselves and feeling that their world had collapsed.

On the other hand, Loggins felt a little better after seeing President Sheng Luo getting slapped.

Comparisons were scary!

The beating he received from Wang Teng in the past was nothing. Well, even President Sheng Luo had suffered in that bastard’s hands.

“Wang Teng, that’s the Giant Horn Race. They’re born with metal Force and have great talent. They’re extremely sensitive to metal Force and will reach the celestial stage once they become an adult,” Round Ball suddenly said.

“Giant Horn race!” Wang Teng was stunned.

Races that had their own names were all powerful. The other party must possess something special for Round Ball to warn him like this.

“The last one isn’t simple either. He seems to be a Luke!” Round Ball frowned as it looked at the other heaven-stage martial warrior with green skin. It was a little uncertain.

“Luke?” Wang Teng furrowed his brows again. He was a little puzzled, “Is there anything special about this Luke?”

He guessed that the Lukes weren’t a simple race either.

“Lukes possess a powerful disguise and transforming talent. They’re sly and hard to deal with. Think about it, they can turn into the faces of familiar people and lurk around you without you knowing. Isn’t that dangerous?” Round Ball explained hurriedly.

“Disguise talent!” Wang Teng’s eyes lit up.

This special talent is great!

It will be great to get this attribute from him!

As for the danger, he wasn’t worried. He had previous experiences of putting on a disguise and sneaking attacks on people. He was well-versed in it.

Besides, they were on guard, so the other party wouldn’t be able to sneak their way in.

Round Ball felt that it was playing the lute to a cow. Wang Teng looked strange. Why did he seem excited?

“I’m not sure. This heaven-stage martial warrior looks a little different from a normal Luke. He looks similar yet different. Is he a half-breed?” Round Ball hesitated again.

“You’re not sure?” Wang Teng felt disappointed instantly. He was happy for nothing.

Round Ball: ...

It was reminding Wang Teng that his opponents were difficult to deal with, so he should be careful!

Yet, he looked disappointed when he heard that the other party might not be a Luke. Did he think that his opponent was too weak?

It felt that it couldn’t understand what Wang Teng was thinking.

Boom! Boom! Boom!

The spacecraft trembled. The three heaven-stage martial warriors had started attacking Flaming River.

Force attacks slammed on the Flaming River one after another. It created some impact on the defense shield of the spacecraft.

Alert! Defense shield is 0.1% damaged!

Alert! Defense shield is 0.11% damaged!

Alert! Defense shield is 0.12% damaged!

The alert echoed in the main control room of the spacecraft.

However, no one panicked. Instead, all of them wore strange expressions on their faces.

Sheng Luo and company’s faces turned black. What kind of spacecraft was this?

Three heaven-stage martial warriors were hurling attacks at it, but they only caused 0.1% damage to the shield.

That wasn’t all. What was with that 0.01% of damage at the end?

Chapter 1109: This Bastard Has A Black Heart!

“Tu Jin lost!”

Sheng Luo’s pupils constricted. His features all scrunched up when he saw the person who lost.

Everyone from the Olant Federation was appalled. They were filled with disbelief.

Between Heaven Lord Tu Jin, Heaven Lord Bartlet, and President Sheng Luo, Heaven Lord Tu Jin was the strongest, followed by President Sheng Luo and then Heaven Lord Bartlet.

But now, President Sheng Luo was captured and Heaven Lord Tu Jin lost!

Their hopes were slowly wiped out by this bunch of Earthlings.

“How’s this possible?” Argus and the other young ones turned pale, their minds going black. They couldn’t accept this result.

Wang Teng looked at their expression and gave a cold smile. Then, he scanned the battlefield outside and picked up all the attribute bubbles.

Constellation Force (Metal)*9000

Constellation Force (Metal)*10000

Celestial Realm Spirit*1200

Celestial Realm Spirit*2400

Metal Domain*4000

Black Metal Domain*6000

Metal Ultima*6000

Metal Gash Blade Skill*3000

...

As expected of the attribute bubbles from heaven-stage martial warriors! Wang Teng was thrilled. He sucked in the bubbles happily.

He received 19000 points of metal Force in total. Although this wasn’t enough for a breakthrough, his metal Force rose greatly.

Then, there were 3600 points of Celestial Realm Spirit.

This was a sizable gain. His spirit had reached 36100 points.

Spirit: 36100/50000 (celestial realm)

This powerful spirit caused his spiritual power to strengthen tremendously. It was at the seventh level of the celestial realm.

With his Spiritual Kinesis, which was at the small achievement stage, he could use multiple spiritual weapons at once. One Golden Crescent Blade wasn't enough for him to showcase his full potential.

He also received 4000 points of Metal Domain and 6000 points of Black Metal Domain.

Both of them were powerful domains, especially the Black Metal Domain. It was many times stronger than the normal Metal Domain.

The giant got defeated because his domain was weaker than An Lan's.

Metal Domain: 1250/3000 (third rank)

Black Metal Domain: 2000/4000 (fourth rank)

A large amount of knowledge and enlightenment regarding the domains swarmed into Wang Teng's mind. There were many similarities between the Metal Domain and the Black Metal Domain. After all, the Black Metal Domain was a combination of the Metal Domain and spiritual power.

He closed his eyes to absorb and digest this knowledge.

Within a few seconds, his Metal Domain rose from the first rank to the third rank while his Black Metal Domain jumped from the second rank to the fourth rank.

Wang Teng opened his eyes. A golden glimmer flashed past them.

Sheng Luo, who had been observing him all this while, noticed the change immediately. There was a tinge of astonishment on his face.

Domain!

Wang Teng had grasped the domain!

This was unbelievable!

What was even unbelievable was that he grasped the idea after watching a fight between two heaven-stage martial warriors.

Grasping a domain was extremely difficult. Even heaven-stage martial warriors had to spend a lot of time and effort to understand it. Yet Wang Teng got it after watching a single fight!

How could there be someone like him?

Was he the unparalleled genius that only existed in legends?

Yes, he must be!

This must be why a high-tier civilization like the Great Qian Empire allowed this Earthling to inherit the baron title.

Sheng Luo felt that he had found the crux of the issue!

Unfortunately, it was too late!

Suddenly, bitterness surged into his heart without control.

If a talent like him entered his Saint Star Pagoda, they might be able to get amazing benefits in the future!

Unfortunately, he destroyed this possibility with his own hands!

The golden glow in Wang Teng's eyes disappeared quickly. Feeling delighted, he let out a small sigh. The increase in the strength of these two domains was huge.

Most importantly, he was at the celestial stage, but he had already grasped the power of domain and they were at the third and fourth rank. Even a talent from a high-tier civilization might not possess such powerful domains.

Lastly, Wang Teng had two surprise gains.

One was the Metal Ultima and the other was a battle technique called the Metal Gash Blade Skill!

Wang Teng didn't have the Metal Ultima, but he had it now!

Knowledge about this ultima floated in his mind. He absorbed them quickly.

Metal Ultima: 1200/5000 (fifth level)

6000 points of Metal Ultima pushed this attribute to the fifth level directly. This was quite scary.

Finally, Wang Teng looked at the Metal Gash Blade Skill.

The outline of a person appeared in his mind. This figure was practicing a powerful blade technique.

This was a... heaven-stage battle technique!

Wang Teng was ecstatic. He thought that it would be a cosmos-stage technique, but it was a level higher.

This was his first heaven-stage battle technique!

There were many powerful battle techniques left by Flaming River Universe Lord. Some of them were even in the universe stage, but Wang Teng was only at the celestial stage. He couldn't use them. Heaven-stage battle techniques were his limit.

Moreover, he got it by picking up attributes, so the understanding process was easier. He didn't need to spend too much time.

That was good.

Metal Gash Blade Skill: 2000/3000 (well-versed)

Wang Teng looked out of the spacecraft after counting his gains.

Cao Hongtu and the other heaven-stage martial warrior had given up attacking the Flaming River and rushed to the giant horn race martial warrior.

"How are you?" Cao Hongtu asked. He was in a bad mood.

He lost after all the boasting he did!

What the hell was this!

Tu Jin felt worse when he detected the change in Cao Hongtu's voice. He spat out a mouth of blood and said, "Damn it, that mecha heaven-stage martial warrior is very powerful!"

"What should we do now? We can't enter the spacecraft and can't win against the mecha heaven-stage martial warrior. We don't have a chance." Bartlet furrowed his brows.

Just when they were in a dilemma, Wang Teng's voice floated out of Flaming River.

"Hey, I can give you a chance."

The three heaven-stage martial warriors felt uncomfortable. Three of them needed a chance from a celestial-stage martial warrior.

Unfortunately, they couldn't beat the circumstances. Heaven Lord Bartlet opened his mouth first. "What do you want?"

"Give me Cao Hongtu and I'll let the Olant Federation go. What do you think?" Wang Teng said calmly.

Cao Hongtu's heart sank. He almost fumed in anger.

This brat was a bastard. How could he come up with such an evil plan?

He felt even more anxious when he saw Tu Jin and Bartlet's gazes.

"Don't listen to him. He wants to break us up," Cao Hongtu warned.

"Think about it. If you don't do this, I can just spend a little more time destroying your planet. Do you think you can win?" Wang Teng continued.

Tu Jin and Bartlet's expressions changed. They started to hesitate. They had to admit that Wang Teng was telling the truth.

Tu Jin was defeated. They had no chance of success.

Well, if Wang Teng came out of the spacecraft, they might be able to take him down with their combined efforts.

"You guys are his enemies. He came with the purpose of destroying the Olant Planet. Do you think he'll give up so easily?" Cao Hongtu shouted in a hurry.

He had a strong desire to live.

Tu Jin and Bartlet reacted in time. Their faces turned green.

F**k, they were almost fooled!

"Sigh, you didn't fall for the trap," Wang Teng said in exasperation when he realized that his plan didn't work.

Tu Jin: ...

Bartlet: ...

F**k you!

This bastard had a black heart!

The leader of martial arts and the other people in the spacecraft were speechless too. They almost believed him because of his resolute tone!

“Well, there’s no other choice.” Wang Teng’s tone changed from lighthearted to cold and icy. “I can only kill you!”

“How arrogant!” The two heaven lords were infuriated.

They almost got fooled by this young brat, and now, he was looking down on them. Did he really think that he could kill them?

Wang Teng flew out of the spacecraft and appeared in space.

His opponents were elated.

“Young brat, I might not have been able to kill you if you had stayed in the spacecraft, but you decided to come out. It’s time for you to die!”

“Kill him!”

Tu Jin and Bartlet dashed toward Wang Teng with sinister smiles.

Boom! Boom! Boom!

The Flaming River behind Wang Teng fired multiple shots. They flew toward the enemies like a flaming net.

The two heaven lords were astounded. They executed their battle techniques to block the attacks.

“An Lan, hold them back,” Wang Teng said in a low voice.

An Lan’s face turned black. This young man was thinking too highly of him. He wanted him to hold three enemies back at once.

However, he knew that Wang Teng probably had a plan. “How long?”

“Five minutes!”

“Okay, I can do that.” An Lan nodded.

He darted toward the three opponents.

The three heaven-stage martial warriors escaped from the cannon attacks and were just in time to welcome An Lan.

They heard their conversation too. Cao Hongtu scoffed. “Do you think that a celestial-stage martial warrior can defeat us? What a joke.”

An Lan kept quiet. With a sweep of his hand, the Thousand Armaments Vessel split into multiple parts. There was a golden shine on all of them.

He placed his domain power on the Thousand Armaments Vessel in the form of black thin threads as he floated toward his enemies.

“Hmph, a divine spirit master might be powerful, but it’s stupid of you to divide your spiritual weapon just to stop us.”

Tu Jin had fought with An Lan before so he knew how powerful the Thousand Armaments Vessel was. But that was when it was in one piece. When it was split up, the power would be divided, and it would become much weaker.

Boom! Boom! Boom!

An intense battle between four heaven-stage martial warriors erupted in space.

It was fortunate that Tu Jin was heavily injured. He could only execute 30% of his normal strength. If not, An Lan would have a harder time.

Wang Teng acted immediately. He activated his Space Physique, and the space power in his body spread to the emptiness around him.

This was the first time he had used his space power after his Space Physique reached the third rank.

Let Olant Federation taste the power of my Space Physique!

Chapter 1110: Feel The Pain! (1)

In outer space.

Wang Teng floated in mid-air. His thick black hair was dancing furiously as if it was blown by an invisible force.

Thick space power intertwined around him and seeped into his surroundings.

However, this fluctuation only occurred within half a meter of him. Other people couldn’t detect anything.

In the spacecraft, the leader of martial arts and the others stared at him curiously.

“What’s Wang Teng planning to do?” the old president of Jinlin University asked curiously.

“I don’t know. It’s dangerous for him to go out like this.” The leader of martial arts shook his head helplessly.

“He asked the mecha heaven-stage martial warrior to hold back the opponents so he should have some plans up his sleeve,” Dan Taixuan contemplated before speaking. She stared at Wang Teng with her beautiful eyes.

“However, his opponents are three heaven-stage martial warriors. Wang Teng is only at the celestial stage,” the leader of martial arts replied with a bitter smile.

“That fellow will never put himself in danger. Don’t think too much.” Round Ball rolled its eyes.

It didn't follow Wang Teng out. Instead, it stayed back to control the spacecraft.

The universe-level spacecraft was powerful, but its operation was complex too. It needed a powerful intelligent lifeform like Round Ball that was good in calculation.

"You're right. He's a smart person. He won't put himself in danger." The leader of martial arts gave a bitter smile.

Sheng Luo and the others frowned.

Wang Teng was an abnormality!

He wouldn't rush out for nothing. Tu Jin and Bartlet must defeat the mecha heaven-stage martial warrior or accidents might happen.

"He's looking for death. How dare he run out to interfere in Lord Tu Jin's battle with his ability?" Loggins snorted when he heard the Earthlings' discussion.

"He's just lucky to get this powerful spacecraft. He'll be fine if he hides in the spacecraft. Why did he have to go out and seek his own death? Does he really think he's somebody?" Argus said in contempt.

The Earthlings were furious at their comments. They glared at Argus and Loggins coldly.

At this moment, a figure suddenly walked out and arrived in front of them.

"What do you want?" Loggins stared at the person and scoffed.

Slap!

A loud and clear sound echoed in the spacecraft.

One slap per person.

Argus and Loggins were stunned. They didn't know what was happening.

Everyone was dumbfounded. They stared at the small figure in a daze.

She had to tiptoe to slap the two young men, and she looked like someone easy to bully. However, her actions were sharp and precise.

"Chuxia!" Lin Chuhan exclaimed in shock, staring at her sister in disbelief.

Although these two were irritating, she didn't expect Lin Chuxia to slap them directly. This was out of her expectations!

"It doesn't feel that good," Lin Chuxia glanced at their swollen faces and commented in disappointment.

Everyone: ...

Was this young lady a devil?

She slapped them until their faces swelled up, but she still scorned them. Wasn't this a little too much?

"Pfft!" Dan Taixuan chuckled. She looked at the young lady with interest. "This young lady learns well from Wang Teng."

The leader of martial arts was caught between laughter and tears. However, he had to admit that Dan Taixuan was right. He saw signs of Wang Teng on this lady.

Argus and Loggins regained their senses. They held their handsome faces and shouted in anger and embarrassment with bloodshot eyes, "How dare you hit us!"

Lin Chuxia gave them a reserved smile and took out two Force guns. She pasted it against their foreheads and said innocently, "Not only do I dare to slap you, but I also dare to kill you.

Argus: ...

Loggins: ...

A drop of cold sweat dripped down their forehead, their gazes flickering. They were furious, but they didn't dare to speak.

Although this young girl looked cute and pretty, her heart was as black as that bastard Wang Teng.

They weren't the only ones surprised. Even Lin Chuhan, who was close to Lin Chuxia, found her cold-blooded sister a little unfamiliar.

She wasn't like this normally!

"That's right. A prisoner should act like one. If you dare to talk bad about Brother Wang Teng again, I'll shoot you." Lin Chuxia kept her guns after she noticed that these two young men were too afraid to speak. She gave a sweet smile.

Sweet... your head!

Argus and Loggins were screaming angrily in their hearts.

Lin Chuhan stared at her sister with a complicated expression. Suddenly, she wondered if she should learn from her sister.

This was a useful method to deal with bad guys!

Yes, she should learn from her sister.

Wang Teng didn't know that Lin Chuhan had started to go astray...

Outside, the spatial fluctuation around Wang Teng became increasingly violent. It had formed visible fluctuations in the air as it spread out.

The fluctuations slowly spread to one meter, two meters, three meters...

Cracking sounds were heard continuously. There seemed to be an invisible hand clenching the space. The space around him couldn't withstand the pressure and started cracking. It sounded nerve-wracking.

"What's happening?"

Some distance away, the heaven-stage martial warriors who were fighting finally noticed something amiss. They glanced over.

"Why is there such a powerful spatial fluctuation?" Bartlet asked in a serious tone.

“What other trump cards does he have?!” Cao Hongtu’s expression changed. He had an ominous feeling.

“Space power? This fluctuation... seems more powerful than the skill he used to defeat Sheng Luo.” An Lan was astounded. He was filled with anticipation.
