

Martial Arts 111

Chapter 111: Moving Mountain Blade Skill

Wang Teng felt helpless. He could only buy a set of 1-star high-class flying daggers from Master Lu first.

He spent 1.5 million so easily.

Then, he bought a backpack and all kinds of necessities, such as treatment medications and antidotes for poison. He spent around 3 million on these items.

Following Leader Lin's introduction, he didn't forget to buy a 2-star shield that cost 6 million.

He also bought the battle sword he saw at first and the heavy style bow.

Within a short time, he was only left with 58 million out of his 100 million cultivation fund.

If Wang Shengguo knew that Wang Teng was spending money so lavishly, he would probably have a headache for a long time.

What a wastrel!

...

Wang Teng looked at his balance and felt frustrated for a moment.

What should I do if I can't finish spending the money?

This is very urgent! I need an answer immediately.

Oh right, there are still scriptures and battle techniques!

Wang Teng suddenly remembered. He only had the scriptures and battle techniques for the fire element, ice element, and earth element. He didn't have anything for his wood, water, and poison elements.

Especially the poison attribute. This was a rare element.

He looked through the scripture chamber of Jixin Martial House and didn't manage to find any scriptures related to the poison element.

Wang Teng shook his head. He had to give up.

Just as he was going to look at the wood and water element scriptures, he had a sudden thought.

He tried to utilize his wood and water elements, but he realized that these two elements just stayed in his body. They didn't listen to his command.

As expected, I can't use these elements if I don't get the corresponding physique talent. Even if I buy secret scriptures for wood and water elements now, I can't cultivate them.

Wang Teng gave a bitter smile and stopped what he planned to do.

I still lack an earth element attacking battle technique.

He had his Earth Loess skill, but it consisted of a defensive shield.

All he lacked was an earth element attacking battle technique.

Wang Teng entered the battle techniques hall. All kinds of battle techniques were laid out in front of the buyer, split into different grades.

Scriptures and battle techniques were divided into four different ranks: sky, earth, dark, yellow. Each rank was then split into the low, middle, high, and elite classes.

The Red Flame Scripture and the Deep Ice Scripture were both yellow-rank high-class scriptures. As for the Earth Loess Skill, it was a yellow-rank elite-class technique.

The Fire Kirin Sword and the Phantom Ice Fist were yellow-rank high-class Force battle techniques.

These scriptures and battle techniques were available on the website too. They weren't cheap.

Earth Loess Skill and Deep Ice Scripture cost 80 million.

Red Flame Scripture cost 70 million.

Fire Kirin Sword was 30 million.

Phantom Ice Fist was tagged at 20 million.

Wang Teng was shocked and surprised when he saw the prices.

Oh my god, I am already a billionaire!

He didn't expect these Force skill scriptures and battle techniques to be so expensive. No wonder martial warriors were all wealthy people.

No wonder it was so difficult to become a martial warrior!

Normal people wouldn't be able to afford these prices even if they sold all their assets.

The barrier of entry was too high!

Those powerful wealthy families could fork out the money without any pressure. A normal person, on the other hand, would feel hopeless just thinking about the large sum.

The martial arts exam was a path to success. What they said was right. Wang Teng pondered to himself.

If a student managed to get into the martial arts course, the school would provide them with skill scriptures. Even if it wasn't free, it wouldn't be too expensive. If not, how were the students able to become martial warriors?

Wang Teng shook his head. If he didn't have his bug, the system, he might be worrying over his scriptures and battle techniques too. This was... really difficult.

He gathered his thoughts and started scrolling through the earth Force battle techniques.

'Mountain Shattering Strength', yellow-rank low-class—5 million.

'Rock Breaking Punch', yellow-rank middle-class—10 million.

...

'Mountain Rock Smash', yellow-rank elite-class—200 million.

...

'Moving Mountain Blade Skill', dark-level low-class—500 million.

When they reached the dark level, the prices of the Force battle techniques surged exponentially. After glancing at his remaining money, Wang Teng decided to buy the dark-level low-class Moving Mountain Blade Skill.

He was going to the Xingwu Continent soon. He didn't know what dangers were over there, so it was better to grasp a powerful battle technique!

This dark-level low-class Moving Mountain Blade skill was definitely more powerful than the yellow-rank Fire Kirin Sword skill and Phantom Ice Fist.

...

Since he was practicing a blade skill, he would need a blade.

He had 80 million left. Wang Teng decided to buy a 2-star high-class battle blade.

Wang Teng had officially spent all the cultivation funds he was given for this period.

As for cultivation resources like energy stones and dan pills, he didn't buy them because they weren't as good as attribute bubbles.

He needed to spend money on things that he didn't have.

To other people, increasing their ability was the most important thing. Hence, they would probably buy all kinds of cultivation resources first.

But, to Wang Teng, weapons and battle techniques were what he lacked.

Also, whether it was dan pills or energy stones, they contained a certain amount of impurities. If he absorbed the Force in them, the impurities would be assimilated into his body too.

As time went by, the impurities would accumulate in his body. It would affect his martial warrior's realm.

Thus, he mustn't use too many of them.

He knew the details of the items. As a cheater with a system, Wang Teng scorned the thought of using these cheap goods.

He didn't touch the ice element energy stone and the ice element dan Principal Yu gave him. He planned to use them in other areas or sell them away to earn some small cash.

...

The next day, the items that Wang Teng bought arrived.

The delivery person was a man wearing a black suit and black sunglasses. It made him look a little mysterious.

Under his command, the staff carried the boxes down the car one by one.

“Are you Mr. Wang Teng? Please use your account number to open the boxes and check the items inside,” the man in black said.

Wang Teng nodded. He used his wristwatch to scan an area at the side of the boxes. The boxes opened automatically.

He counted the items. They were all delivered.

“Mr. Wang Teng, if there’s no problem, please sign here.”

The man in black passed the invoice over. When he saw the items in the boxes from the corner of his eyes, he was secretly dumbstruck...

How wealthy!

After Wang Teng signed and acknowledged the delivery, the man left with his staff.

Wang Teng carried the boxes up the stairs and tidied them up. He placed them at the side and then plugged a USB into his computer.

Moving Mountain Blade!

A row of words entered his vision...

Time passed quickly. Soon, it was time to gather and meet the other members of the Tiger Warrior team.

Wang Teng had an enriching two days. He prepared everything he should prepare, and he had already started practicing the Moving Mountain Blade skill.

He looked at his attributes panel.

Moving Mountain Blade skill (foundation 5/100)

It was just at the foundation stage, and his proficiency was very low. Wang Teng did have 35 blank attributes left, but he wasn’t in a hurry to use them.

In the morning, Wang Teng ate breakfast with his family.

Wang Shengguo and Li Xiumei wanted to speak but had no idea what to say. Understandably, they were both concerned. However, they didn’t dare to show it.

“Dad, I have a right to purchase form for the Deer Garden. If you have time, you can take a look and buy a bigger house there. Try to move there as soon as possible,” Wang Teng said.

“Okay, leave it to me. Don’t worry about it.” Wang Shengguo nodded.

“I’ll be leaving!” Wang Teng finished his breakfast, wiped his mouth, and got up.

Wang Shengguo and Li Xiumei sent him to the door. They hesitated for a moment. In the end, all their worries and emotions congregated into a single sentence.

“Take care, and come back safely!”

Chapter 112: Entering Xingwu Continent And Space Talent

Jixin Martial House.

Wang Teng met the other five people from the Tiger Warrior team.

Wang Teng was wearing his battle uniform and battle boots. He had a backpack on his back and the weapon carrier casket on his shoulder.

All his weapons were placed inside his weapon carrier casket. Even his heavy bow was able to fit inside.

He had to admit that the design of the weapon carrier casket was amazing. Although it wasn't big, it utilized all the space inside to its maximum potential.

All he needed to carry in his hand was the shield.

As for the flying daggers, he placed them in his clothes. That way, he would be able to launch a deadly attack with just a move of his thoughts.

As compared to Lin Zhan and the other members, his equipment was considered relatively simple.

The other five members had many bags on them, some even sporting luggage bags. When Wang Teng asked them about it, he learned that they were filled with ammunition.

He moved his eyes around and saw the heavy rune machine gun Liu Yan was carrying on her back.

Who said that only men were allowed to use guns?

Guns and beauties.

1

They were a match made in heaven.

Liu Yan wore a tight-fitting battle uniform, showcasing her figure. Along with the rough-looking heavy machine gun, she exuded a wild and fierce kind of charm.

Wang Teng shifted his gaze and looked at the two large-sized battleaxes in Lin Zhan's hands... He could only exclaim in his heart, *That's a real man!*

Yang Fei was using a mace, while Yan Jinming and Yan Jinyue used a blade and a sword, respectively. When they stood together, they gave off a capable and mature aura.

“Alright, since everyone is here, let's set off.”

With a wave of Lin Zhan's hand, everyone grabbed their luggage. They boarded the car and headed in a direction.

Half an hour later, the car drove into a military camp.

“This military camp was erected after the dimensional rift leading to Xingwu Continent appeared. It’s heavily guarded, and there are many martial warriors hidden in the surroundings to prevent any accidents from happening,” Lin Zhan explained.

Their car was stopped at a checkpoint. The five members took out their martial warrior credentials and passed them to the guard.

Wang Teng saw their actions and followed their example, taking out his martial warrior credential too.

The guard was holding a scanning device. He scanned the martial warrior credentials one by one before scanning everyone’s faces. After confirming that there were no errors, he let them in.

Lin Zhan explained as he drove into the military camp, “You won’t be able to enter this place if you don’t have your martial warrior credential on you.”

Along the way, they could see a huge number of patrols in the camp.

They parked the car in the parking lot and locked it. Then, they came to a plaza.

There weren’t many people here. The most conspicuous thing was the gigantic door frame made of steel right in the middle of the plaza.

It was at least 30 meters tall, around 20 meters wide, and was shaped like a circular arc.

In the middle of the door frame was a pitch-black, deep, and long whirlpool. Once you glanced at the whirlpool, your gaze would be attracted by it unconsciously.

Honestly, anyone who saw the dimensional rift for the first time would get a shock.

Wang Teng was no exception. At this moment, he was standing in front of the enormous door frame, unable to speak for a long time.

“What do you think? Are you blown away?” Lin Zhan smiled and asked.

The other four members looked at Wang Teng with smiles on their faces. In the past, they had a similar expression when they saw the dimensional rifts for the first time.

Wang Teng nodded.

“Let’s go. When you reach Xingwu Continent, you will be even more flabbergasted,” Lin Zhan smiled and continued. He was the first to walk towards the door.

There were many large machines placed at the side of the gigantic door. Wang Teng didn’t know whether they were used to stabilize the dimensional rift or to monitor something. There were also staff operating the machines, keeping a vigilant eye on things.

These staff members ignored Wang Teng and the team members.

Wang Teng glanced at them and then followed his team members. He walked forward.

Lin Zhan and the rest passed through the dimensional rift without stopping.

Wang Teng took a deep breath and then followed them closely. He stepped through the door.

It felt like an instant, yet at the same time, it felt like a long time had passed. His world was spinning and his vision had turned pitch black...

Suddenly, he felt solid ground under his feet. Wang Teng opened his eyes. Lin Zhan and the rest of them were standing not far away.

They had already recovered from the teleportation. When they saw Wang Teng recovering so quickly, they were surprised.

When they passed through the dimensional rift the first time, they had retched for a long time, and their heads hurt terribly. They had to rest for half a day before they could move normally.

This fellow is not ordinary! They exchanged glances with one another. This thought appeared in their minds in unplanned unison.

Wang Teng had no idea what they were thinking. At this moment, his gaze was attracted by the attribute bubbles beside those people.

There was a bubble below his feet too.

Where did these bubbles come from? Wang Teng was puzzled.

Space*0.1

Space*0.1

...

Space attribute!

They were space attributes!

Wang Teng's eyes lit up. He never imagined that these bubbles would actually be space attributes!

Could they be from the dimensional rift?

While pondering, he didn't forget to pick up the bubbles.

Ever since getting spiritual power, he had tried many experiments. Now, he was able to use his spiritual power to pull the attribute bubbles towards him. He didn't have to walk around and pick them up anymore.

If not, other people would always look at him as if he were an idiot when he ran around everywhere.

In the past, he could barely stand the glances thrown at him. However, for the sake of picking up attributes, he became an idiot again and again.

Finally, he was freed from that torture!

He didn't have to be an idiot anymore!

He pulled all the bubbles beside his team members toward him and collected them.

Space*0.8

His space attribute increased by 0.8 points. Wang Teng's gaze landed on his attributes panel. He finally saw a change in his talent row.

Space (0.8/1000)

It's a talent attribute!

Wang Teng's heart was filled with ecstasy. This was a gift from heaven!

The moment he entered Xingwu Continent, he was given such a huge surprise!

It looked like Xingwu Continent was very friendly towards him.

Although he didn't know the exact use of this space talent, he had some idea of what it entailed.

In those game novels, they always boasted about how fantastic space talent was. Hence, this space talent wouldn't be too shabby!

Just as Wang Teng was thinking about this, Lin Zhan opened his mouth with a smile. "Welcome to the Xingwu Continent!"

Wang Teng regained his senses.

Xingwu Continent!

Oh right, he had come to the Xingwu Continent!

He scanned his surroundings. This seemed to be a giant hall. There was a huge circular arc door frame behind him that looked similar to the one on the other end of the dimensional rift. The whirlpool in the depth of the door was spinning slowly.

"Let's go out and take a look," Lin Zhan said and walked out.

The other followed him closely.

When they walked through the door and reached outside, Wang Teng realized that they were in a tall tower just now.

At the moment, they were standing at the bottom of the tower.

"This is the Force tower! It's situated in the middle of the city. The entire city's energy is supplied by this tower," said Lin Zhan.

Wang Teng raised his head and noticed that the tower was a few hundred meters tall. Its entire structure was made of steel, and it pierced into the clouds like a steep and dangerous peak.

There were countless occult runes carved on the building.

At the bottom of the tower was a plaza. Unknown black rocks paved its floor, and they were carved with runes, too, exuding a mysterious aura.

Wang Teng felt a vast and powerful pressure pushing him down from the sky. He was dumbfounded.

He couldn't help but take a deep breath.

"This is the product of the Xingwu Continent's civilization. Do you find it a little unbelievable?" asked Lin Zhan.

"This Xingwu Continent is indeed a little different from my imagination!" Wang Teng breathed out loud as he replied.

Chapter 113: I Saw A Back View!

Xingwu Continent was the name of the main continent in this Otherworld.

A vast city was magnificently situated in the south of the Xingwu Continent.

At this moment, in the center of the city, in an enormous palace, a young man was sitting cross-legged in the middle of the hall. There was an ancient-style tortoiseshell laid in front of him. It was the size of his palm.

He knocked the tortoiseshell slowly and gently. It gave off a clear and loud knocking sound.

Stars were shimmering in his eyes as if there was a universe hidden in them. Suddenly, the stars spun, and the vacant space around him started retreating.

...

The next second, the young man abruptly closed his eyes as two lines of blood left a long trail on his cheeks. His black hair turned snow-white in a split second.

It was as if all his vitality had been sucked away.

"What's wrong with you?" A stern and slightly agitated voice rang out in the dark.

The young man waved his hand. After some time, he mocked, "I'm someone at the brink of death. What can happen to me?"

"You..."

The man in the dark took a deep breath. His voice turned back to being stern and indifferent. He then asked, "What did you see? Tell me truthfully!"

"I see a back view."

"A back view? That's all?"

"A back view, a sword that can kill immortals and devils, a blade that can cut the Milky Way, a fist that can destroy the sun..."

"Bullshit!"

"Hmph, you just don't want to believe it. Our world... that person might be our last hope."

"How can he do it alone?"

"Let me give you a piece of sincere advice. Can you let me go?"

The person in the dark turned silent.

“Hmph, I’m about to die. I can’t do anything anymore.” The young man scoffed.

“You’re still my younger brother. If you go outside, you won’t be able to survive with your weak body. I can’t let you go out to die.”

“I’m already no different from a dead person. It doesn’t matter if you let me leave or not. Why can’t you allow me to have one last look at the world before I die? It’s about to...”

“Enough!” the man in the dark shouted in a low voice. Then, he sighed and said, “Forget it. You can leave. You can come back anytime you want to. This place will always be your home.”

“That person, don’t have any interactions with him!” The young man dropped this sentence and kept the tortoiseshell on the ground. He had nothing else he needed to pack. He staggered his way out of the hall...

He wouldn’t be coming back!

...

“Let’s go,” Lin Zhan said as they stood at the bottom of the tall tower.

There were long staircases in all four directions of the tall tower. They climbed down the stairs and walked for a distance.

They soon passed through a door. The next instant, a whole new world entered Wang Teng’s vision. The prosperous street with an exotic aura welcomed him to a new adventure.

This was a giant city made of steel. The entire city seemed to be in the Middle Ages, but there weren’t any steam products.

The buildings in the city had a foreign style, but hints of Earth architecture could also be found. The integration of two different styles had resulted in a unique design.

The people on the streets were all dressed distinctively, and their dressing was completely different from humans on Earth. However, you were able to see some people in battle uniforms occasionally.

“Why does that lady...” Wang Teng was stunned when he saw the ears of a lady that walked past.

“This is a young lady from the rabbit tribe of the orc race. Old Brother Wang, it looks like we are the same kind. You noticed her at one glance.” Yan Jinming placed his arm on Wang Teng’s shoulder and sniggered.

“Brother, don’t lead Wang Teng astray.” Yan Jinyue was displeased.

“That won’t happen. I’m discussing life philosophy with him,” replied Yan Jinming.

Wang Teng was speechless for a few moments. He then asked, “There are other races in the Xingwu Continent?”

“That’s right. This place is very different from Earth. When you visit the Jixin Martial House branch in this city, you will be able to learn some basic knowledge of the Xingwu Continent.”

Lin Zhan drove a car out of the parking lot after he finished speaking. Then, he brought everyone to the Jixin Martial House branch in this city.

In the car, the other five team members could tell that Wang Teng had many questions in his mind. They started explaining to him without stopping.

For instance, the races in the Xingwu Continent, the language here...

There were many races in the Xingwu Continent, not only the orc. There were the dwarf race, the giant race, the mermen race, and many others.

With so many races, there were naturally many languages. It was quite complicated.

Of course, there was a commonly used language in the continent too. It was the human language.

Wang Teng stuck his tongue out in astonishment.

Orc? Dwarf? Giant? These only exist in novels, right?

There were so many races in the Xingwu Continent!

“You must be shocked. When I first came here, I suspected that we had transmigrated into a novel,” said Liu Yan.

“What if we can’t speak to the people here properly?” Wang Teng asked.

“Don’t worry about that. There’s a way to solve it.” Liu Yan kept him in suspense.

“I have another question. Since we have peaceful ties with the Xingwu Continent, why can we enter the Xingwu Continent, but the people here can’t come to Earth?”

This question had been bothering him for a long time.

“That’s because the people here can’t pass through the dimensional rifts. A powerful person from the Xingwu Continent once tried to force his way through, but he didn’t succeed. Instead, he received a strong backlash and almost lost his life,” Lin Zhan jumped in on the conversation.

“What is that so?” Wang Teng got even more puzzled.

“This answer is not something we have the right to know.” Lin Zhan gave a bitter smile.

“So, this is the reason why these two worlds can be at peace?” Wang Teng asked again. He was like a curious child with endless questions about the world.

“It’s not that simple. There are other reasons too,” Lin Zhan replied. He then thought of something, and his expression turned a little ugly. He didn’t explain further.

The waters of the Xingwu Continent run deep.

Wang Teng sighed secretly and stopped probing. He just gazed at the scenery outside the car.

The entire Xingwu Continent’s civilization seemed to be still in the Iron Age. Whether it was the environment, the buildings, or the atmosphere, it wasn’t as advanced as Earth. However, because of the

presence of Force and runes, man-made structures that seemed ahead of the times could be seen occasionally.

For instance, the steel cars speeding along the roads, the Force airship flying towards the horizon in the air, and the steel figurines moving freely along the streets with a cracking sound...

The exotic feel and the modern feel were both very strong!

Oh my god, that must be a beauty from the foxmen race. Her figure is so good. She looks so sexy...

Before the car stopped, Wang Teng recognized the branch of Jixin Martial House.

Hmph, that unexpected building!

Everyone got out of the car and walked into the martial arts academy. Lin Zhan directly led Wang Teng to the main building.

The main building of the martial arts academy was different from the one on Earth. Here, it looked more like a distribution center. There were many martial warriors from Jixin Martial House gathered here. They were resting, playing, accepting missions, and some were even selling their spoils of war.

The arrival of Lin Zhan and his team attracted the attention of the people in the hall.

They were all martial warriors from Jixin Martial House, so they always saw each other and were naturally familiar. Someone opened his mouth.

“Hey, Lin Zhan, did you bring a newbie?”

“This newbie looks a little young. Did he become a martial warrior at such a young age?”

“Could he be a young master from some wealthy family?”

...

Voices came from all directions. with a hint of disdain and mocking in their tones. They didn't care about Wang Teng's feelings at all.

“Don't listen to them. They are all like this. They don't have any evil intentions!” Lin Zhan spoke to Wang Teng. Then, he shouted at those people, “Come on, what do you know? This is the top scholar of the martial arts exam in Donghai this year. Our principal personally told me to bring him along.”

Chapter 114: Dark Mist Forest

“Wow, the top scholar of Donghai's martial arts exam? Are you serious?”

“The top scholar of the martial arts exam this year is so impressive. He's already a martial warrior.”

“Looks like he's a genius!”

“Even if he's a genius, he's still a newbie. Do you know what kind of place Xingwu Continent is? Death can happen anytime. It's not easy to guide a newbie here.”

...

Lin Zhan's words caused everyone to immerse in a discussion. Many people were shocked.

"Alright, I'm not chatting with you anymore." Lin Zhan ignored them and led Wang Teng to the middle of the hall.

The hall was very spacious. After passing through many activity areas, they finally reached the center.

There was a circular platform in the middle with a stone placed on it. Complex runes were carved on the surface of the stone. An elder was sitting at the side and dozing off.

"Uncle Hei!" Lin Zhan called him respectfully.

The elder called Uncle Hei opened his eyes and glanced at Lin Zhan. "Oh, it's you. Why are you here?"

"I brought a new person." Lin Zhan moved his body to allow Wang Teng to come forward.

"Another new person!" Uncle Hei looked at Wang Teng. He couldn't help but exclaim curiously. "This fellow is a little hard to read."

Lin Zhan and the other members were stunned.

Uncle Hei guarded this legacy stone all year round. He had seen his fair share of newbies, but he had never given them any comments. This time, he actually made an exception for Wang Teng.

And he commented that Wang Teng was hard to read.

Wang Teng didn't know what the other team members were thinking. When he heard Uncle Hei's words, his heart skipped a beat.

Why are this old man's eyes so sharp?

"Uncle Hei!" He followed Lin Zhan's example and called the elder respectfully.

Uncle Hei nodded. He didn't probe further and said calmly, "Place your hands on this legacy stone."

Legacy stone?

Wang Teng looked at the other team members. When he saw them nodding, he walked forward and placed his hands on the stone.

He didn't see Uncle Hei doing anything, but the runes on the legacy stone suddenly shone brightly.

Just now, that was... spiritual power! Wang Teng thought to himself.

The next second, he felt a series of information entering his mind.

"What is this?"

Although he could guess what the legacy stone was for from its name, he was still flabbergasted when he truly experienced its power.

Within a few seconds, Wang Teng felt that he had learned a new language.

“#¥¥%¥&*%...” (Language can be passed down?)

He opened his mouth and realized that he was speaking in an entirely foreign language. His pronunciation was a little strange too. He had a Chinese accent.

Then, he heard Lin Zhan speaking in the same foreign language, “Not bad. When the pioneers came to this world, they realized the existence of this kind of legacy stone. They were able to let people learn the basics of a language within a short time.

“We know how difficult it is to learn a new language, especially in the Xingwu Continent, which has a completely different culture from ours. This makes learning even more difficult. Many people went through hardships, but they were unable to fully grasp the languages of the Xingwu Continent.

“Later on, the powerful factions had no choice but to buy this stone from the Xingwu Continent at a high price to pass down the common language of Xingwu Continent to newcomers.”

Wang Teng didn’t expect this to happen. He asked, “Does this mean that other knowledge can be passed down through this method too?”

“It’s not that simple. It’s really difficult to operate the legacy stone. If you want to pass down slightly complicated knowledge, you will need a considerable amount of manpower, wealth, and time. You will also need a profound runemaster before you can attempt to carry out the operation.

“The basic knowledge is easy to learn, so putting it in the legacy stone is useless. It’s not worth the effort.

“There are many races in the Xingwu Continent, and their languages are extremely complicated. That was why this common language legacy stone was born.

“The procedure matured gradually over hundreds and thousands of years.

“Until now, the most common and widely used legacy stones in the Xingwu Continent is this kind of common language legacy stones.”

Lin Zhan explained everything at length.

Wang Teng nodded to show his understanding. If an item that could affect your memory could be created so easily, no one would need to use their brains to study anymore.

Everything could be passed down through the legacy stone. No one had to tire their brains out, and it would be easy to cultivate laziness. There was a high chance that civilization would come to a standstill. There would be no progress.

1

It was frightening just thinking about the consequences.

...

After completing the language passing down, Uncle Hei closed his eyes and took a short break. Lin Zhan and the others knew that they should take their leave.

“Give me a cup of spiritual grape wheat beer!”

There were many entertainment facilities in the hall. Lin Zhan didn't seem to be in a hurry to go out. He brought his team to a bar and shouted at the bartender standing behind the counter.

The spiritual grape wheat beer was a specialty of the Xingwu Continent. It didn't have a high alcohol content and the taste was excellent. Many martial warriors loved it.

Lin Zhan took a small booklet from below the bar counter and threw it to Wang Teng. “The things that you want to know are all inside. You can take a look.”

Liu Yan and the other team members gathered around the side of the bar counter and ordered some drinks or fruit cocktails that were low in alcohol content. They waited at the side and chatted casually with their friends.

Wang Teng nodded. He opened the small booklet and started reading.

The booklet was a compilation of all the common knowledge one should know about the Xingwu Continent. It wasn't very detailed, but it was extensive.

Time passed quickly. Lin Zhan only called the other team members and got ready to leave after Wang Teng finished reading the booklet.

The time in the Xingwu Continent was around the same as the Earth.

It was around 3 pm now.

Lin Zhan drove a heavy armor vehicle out of the parking lot of the martial arts academy and called everyone to get in.

The wheels of this vehicle were as tall as a human. The car was covered in heavy armor all around, and it looked like a giant steel beast.

The heavy armor vehicle drove out of Yong City.

Yong City was this important city that was connected to Donghai's dimensional rift. When the dimensional rift appeared, the people from Earth had started building this city.

It managed to reach this scale after many years of development.

In the Xingwu Continent, many technological products from Earth were rendered useless. Only Force products could be used.

For instance, the Force tower in the middle of the city and the Force heavy armor vehicle they were in.

This seemed to be the limitation of this world.

Wang Teng had learned all these pieces of information from the small booklet. He was slowly starting to accept the things in the Xingwu Continent.

The front and back seats of the heavy armor vehicle were connected. Although Wang Teng sat at the back, he was able to see the dashboard in the front. This kind of Force vehicle relied on the runes to absorb the Force in the air and changed it to its energy supply. This was quite environmentally friendly.

They went out of the city and drove for more than ten miles. Then, they left the main road and entered the wilderness.

Their surroundings were desolate, with low bushes and tussocks visible. Occasionally, they would alert one or two wild beasts.

The wilderness was endless, and natural ravines existed everywhere. There was no path, but this wasn't a problem for the huge tires of this heavy armor vehicle.

"Our destination this time is the Dark Mist Forest," Lin Zhan shouted against the howl of the wind.

Wang Teng immediately knew what he was talking about. There was an introduction in the booklet.

The Dark Mist Forest was an area that humans were currently exploring, and it was enormous. There were many restricted zones inside with large and powerful star beasts entrenched there. Many strong martial warriors had lost their lives in this place. Even until today, humans had not explored the forest entirely.

Two hours later, when the sun was about to set, a vast forest entered everyone's vision.

Lin Zhan drove the vehicle to the edge of the forest. Then, he stepped on the brakes, drifting the huge car sideways. The tires plowed the ground and formed a mark in the shape of an arc.

Chapter 115: Sneak Attack

A camp was built by humans outside the Dark Mist Forest. It was like a transfer station.

Lin Zhan parked the car at the camping ground. Then, everyone carried their luggage bags and headed towards the Dark Mist Forest.

"The Dark Mist Forest is very dangerous at night. Nonetheless, you will have to experience it sooner or later. Since we're already here, we might as well go into the Dark Mist Forest now."

Lin Zhan was leading the pack. He had to turn his head to speak to Wang Teng.

Wang Teng was walking in the middle. This was their deliberate arrangement. Yang Fei and Yan Jinming were at the back, while Yan Jinyue and Liu Yan were flanking Wang Teng.

Wang Teng smiled bitterly in his heart. *I'm being taken care of like a chick.*

This was the first time he was entering the forest, and it was at night too. Lin Zhan and the other members were well-experienced, no doubt, but they didn't dare to let down their guards.

As the sun set, the light gradually disappeared. The forest turned completely dark.

"Wear your infrared night vision glasses. Everyone be careful!" Lin Zhan shouted.

Wang Teng took out a pair of black-rimmed infrared night vision glasses from his bag. This was one of the necessary items that Lin Zhan had mentioned before.

This kind of battle-style infrared goggles was light and convenient to carry around. It even had runes to enhance its functions. Its firmness, flexibility, and fitting were all perfect. It wouldn't affect one's fighting ability.

Wang Teng had Spiritual Sight, but there was no need for him to stand out. Also, Spiritual Sight consumed a lot of his spiritual power.

It was better to use these battle-style infrared glasses first. He would save his Spiritual Sight for emergency needs.

"Wait!"

Just as everyone was about to head deeper into the forest, Lin Zhan raised his hand and stopped them in a low voice.

The team members walking behind him immediately raised their vigilance. Looking at their stance, they seemed to be prepared to attack or defend at a moment's notice.

Wang Teng followed the others and squatted down. He held his battle sword tightly in his hand and scanned his surroundings.

"It's a gale wolf!"

Lin Zhan squatted below a tree and called the rest of his team members over.

After everyone gathered together, they focused on an object on the ground. It was a pile... of shit.

1

A few handsome men and pretty ladies squatted together in the middle of the night to look at a pile of shit.

This scene was so interesting.

Wang Teng wanted to complain, but when he saw Lin Zhan and the other team members' solemn expressions, he decided against it. They didn't seem to be fooling around.

"This shape, this color, and... this smell." Yan Jinming pinched his nose and nodded as he continued, "This is indeed a gale wolf."

"Wang Teng, observe and learn," Liu Yan reminded him.

1

Wang Teng nodded. He memorized the characteristics they mentioned just now in his heart.

"Everyone, be careful. These feces seem very fresh, so it must have left just a moment ago. Gale wolves move in a pack. If we meet them, it will be a little troublesome," said Lin Zhan.

The group continued walking.

As they headed deeper, they noticed more and more traces of gale wolves. Based on Lin Zhan's guess, there were at least seven to eight gale wolves hunting together in this area.

“The claws and teeth of gale wolves are good materials for forging weapons. If we meet them, let’s try to take them down,” Liu Yan carried her machine gun and said nonchalantly.

“Don’t act rashly. We have Wang Teng in our team now. We need time to learn to work with one another.” Lin Zhan was more cautious.

“Leader, what level are the gale wolves?” asked Wang Teng.

“They are at most 1-star high-level. If it is a wolf king, it might be 2-star,” Lin Zhan said.

“If we really meet them, you don’t have to take special care of me. I think I can handle a 1-star star beast,” said Wang Teng. He didn’t want to be a burden to them.

“Are you sure?” Lin Zhan was surprised.

“Wang Teng, the star beasts in the Xingwu Continent live among other star beasts from birth. They are very experienced in fights, and they are fiercer and harder to handle than the star beasts on Earth. You don’t have to push yourself too hard,” Liu Yan frowned and said.

“Liu Yan is right. The star beasts in the Xingwu Continent are hard to handle, especially wind element mutated star beasts like the gale wolves. They are really fast, and it’s troublesome to fight with one, much less a whole pack. These animals know how to cooperate. Even we need to spend some time and effort to get rid of them,” another team member, Yang Fei, chimed in.

Wang Teng gave a bitter smile. It seemed that everyone thought that he was puffing himself up at his own cost. He just nodded and replied, “Alright, I won’t push myself.”

The team continued moving forward while keeping aware of the traces of the gale wolves.

Suddenly, Yan Jinming slashed his blade in the air.

A three-meter-long black snake was cut in half. The two pieces dropped down from the tree.

“Are you alright?” Lin Zhan turned around and asked.

“I’m fine. It’s just a poisonous snake, not a star beast,” Yan Jinming said indifferently.

Lin Zhan nodded. Just as he was about to continue walking, he saw something from the corner of his eyes. His expression changed abruptly as he yelled, “6 o’clock, waist, claw attack!”

At the same time, he stomped on the ground and dodged to his right. The battleax in his hand formed a semicircle in the air as he swung it up and smashed it behind him.

Yan Jinming’s expression changed slightly when he heard the warning. He quickly twisted his body.

Slash!

A green flash of light grazed his waist, almost chopping it into two.

The flash of light went past and cut through the enormous trees in front. The two large trees growing next to each other were chopped into half, and they fell to the ground with a loud collision.

Howl!

The next moment, the howls of wolves broke the tranquility of the night.

Swoosh, swoosh, swoosh.

Many figures were shuttling back and forth through the bushes. The sound of their bodies rubbing against the leaves made the team members remain on full alert. Next, green lights started appearing in the forest. Seven to eight shadows dashed out in a split second and pounced on the members of the Tiger Warrior team.

“Kill them!”

The humble-looking Yang Fei roared in anger. His eyes widened, and he charged out first. The battle mace in his hand was dancing around him like a piece of stick.

Boom!

The battle mace smashed a gale wolf and sent it flying a long distance. It died instantaneously.

Yan Jinyue held a battle sword in her hand. Her speed of attacking was really fast. After blocking a wolf's claw, she thrust her green blade out, stabbing it into the eyes of the wolf.

The tip of the sword gave off a cold and sharp glint. Blood splattered everywhere. The gale wolf had died.

Yan Jinming chopped the head of the gale wolf that had sneaked an attack on him just now with a single strike. Then, he welcomed the second gale wolf without losing his composure.

Liu Yan leaped onto a huge tree. The heavy machine gun was still behind her back, and she was now holding a rune pistol in her hands.

Single shots!

A gale wolf below the tree evaded the incoming bullets at an astonishing speed. The bullets had red flames at the end, marking a path in the air. Liu Yan had to use three bullets to get rid of the gale wolf.

Then, everyone's gaze landed on Wang Teng.

Their formation was destroyed, so everyone solved their trouble at the fastest speed before turning their heads and looking for Wang Teng.

It was natural that they were more concerned about a newbie.

Only the people who had encountered the Xingwu Continent's star beasts would know how dangerous they were.

But, when everyone finally found Wang Teng, they saw him flying at a speed no slower than the gale wolf. He brushed past the gale wolf, swinging his sword at the same time and forming an icy blue light in the air. The stomach of the gale wolf was cut open easily.

Fast, accurate, ruthless!

There was no hesitation at all.

Boom!

On the other side, Lin Zhan smashed the 2-star gale wolf king into a pile of minced meat with his ax. Then, he twirled the other ax in his hand and chopped the bodies of the two 1-star gale wolves charging towards him. He also ended his battle quickly.

Then, he kept his battleaxes into the casings behind his back and walked forward without looking back at the gale wolves he killed. Instead, he looked at the gale wolf lying under Wang Teng's feet with its stomach cut open. He was slightly shocked.

In the end, he smiled and said, "It looks like we managed to get a treasure in our team!"

Chapter 116: Steps Of Gale

Wang Teng panted slightly as he looked at the gale wolf beside his feet.

That attack just now looked easy, but he had unleashed all his power in that burst of movement.

Fortunately, his speed wasn't slower than the gale wolf. His basic footwork was at the presence enlightenment stage, and his overall battle power was close to the peak of a one-star soldier-level martial warrior. The combination of these two allowed him to kill the gale wolf renowned for its speed.

Also, the gale wolf that Wang Teng killed hadn't reached 1-star high-level. Judging from its ability, it was only at 1-star middle-level.

In front of Lin Zhan's compliment, Wang Teng appeared indifferent. He didn't belittle himself, nor did he feel too proud.

"Not bad, Little Brother Wang. Your ability and battle skills are not weak at all." Liu Yan jumped down from the tree and patted Wang Teng's shoulder in surprise.

"It looks like we have misjudged you. As the top scholar of the martial arts exam and a martial warrior at such a young age, you are definitely not weak," Yan Jinming smiled and said.

Everyone couldn't help but remember their first time meeting a star beast. They weren't as relaxed as Wang Teng. In fact, they were a little disheveled.

They couldn't be compared to Wang Teng at all.

They thought about what Wang Teng said a few moments ago. He had told them that they didn't need to babysit him. At first, they thought he didn't want to accept their help because of his ego, but now...

They were obviously thinking too much!

Damn it, were newbies all so powerful nowadays?

"Alright, let's tidy up and leave quickly. The smell of blood will lure other star beasts over," Lin Zhan commanded.

The team members didn't refute him. They immediately took care of the corpses of the gale wolves, mainly their claws and their teeth. Then, they checked if there were any star cores.

As for the other parts of their bodies, like the skin and the meat, they were indeed worth some money, but it wasn't much. There were too many of them, which would take up too much space. No one would waste the effort to keep them.

Wang Teng followed their actions and cut off the sharp claws of the gale wolves and their teeth. At the same time, he secretly activated his spiritual power and sucked all the attribute bubbles around him.

Wind Force*1

Wind Force*1

Blank Attribute*4

...

Wind Force!

There were 11 points of wind Force in total!

Wang Teng was elated. He had another Force element now, and it was even the mutated wind Force.

He had personally experienced the speed of the gale wolves. They were able to travel so quickly thanks to this wind Force. Now that he had it, too, his speed would definitely increase in the future.

Looking at all the martial arts in the world, only speed could never be defeated.

Swoosh, swoosh, swoosh... does it sound frightening to you?

The only regret was that he had the Force but not the compatible talent. Hence, he couldn't use the Force for now.

That felt a little awkward.

Wang Teng shook his head and continued collecting the bubbles.

Earth Force*1

Fire Force*1

Fire Force*1

Blank Attribute*2

Water Force*1

...

Besides water Force, the other attributes were all dropped by his teammates. He collected 2 points of earth Force, 2 points of fire Force, and 3 points of water Force.

Unfortunately, there wasn't any metal Force!

It seemed like Lin Zhan had solely relied on his physical strength to kill that 2-star gale wolf king and the two 1-star gale wolves during the battle just now. He didn't employ any Force at all.

This was a powerful person!

Wang Teng shook his head. He placed the claws and teeth of the gale wolf in the interlayer of his backpack to isolate the stench of blood.

As for the star core, there was no sign of it. He wondered if other people had found any.

Very soon, he picked up the last bubble.

Steps Of Gale*1

Wang Teng was stunned.

What is this? His gaze immediately landed on the attributes panel. He scanned down and finally paused at the battle techniques row.

Steps Of Gale (foundation 1/100)

It's a battle technique!

Wang Teng was excited and surprised at the same time. He didn't expect the gale wolf to drop a battle technique.

Steps Of Gale!

Was it a form of footwork?

If it was really footwork, this would be a pleasant surprise.

He had seen the prices of footwork techniques on the internal Jixin Martial House web. They were more costly than the offensive battle techniques, and the price would increase exponentially as its class got higher.

Wang Teng wanted to buy some footwork skills. With his current wealth, if he wanted a good footwork battle technique, he would need to spend a significant portion of his cultivation fund. That meant that he wouldn't be able to buy other things.

This is good stuff!

This Steps Of Gale might not appear often, but since he had collected it, he could use his blank attributes to raise its level in the future.

Wang Teng started counting the number of blank attributes he got just now. There were 16. Including the ones he saved during his actual combat assessment, he had a total of 51 blank attributes.

At this moment, the rest of the team members had finished clearing up the scene too.

There were nine gale wolves but not a single star core. Even the gale wolf kind didn't have one.

Wang Teng was stunned. It looked like he had been extremely lucky when he managed to get a star core from the volcano salamander.

Lin Zhan gathered everyone before they continued their exploration.

The night was gloomy. In the Dark Mist Forest, the roars of beasts never went quiet.

Roar~

Howl~

Screech...

You could even hear the shrill cries of birds!

Wang Teng noticed that as time went by, a mist started to form around them gradually. The forest became even more dangerous. This was how the Dark Mist Forest got its name.

"It's getting misty. Leader?" Liu Yan frowned.

"Find a place to rest. We will call it a day," Lin Zhan stopped and said.

No one had any objections. Wang Teng was the same.

A newbie didn't have the right to express his opinion!

He was a newbie among the newbies.

...

The next morning, everyone woke up on a tree.

All the members had chosen a branch and rested on it. They took turns to keep watch at night to prevent star beasts from attacking them.

"You're awake. Yawn~ It's such a torture to watch all of you sleeping." Yan Jinming jumped down from the highest tree branch and yawned. His tone was quite envious.

He was the last person that kept watch at night.

"I will be the last one next time." Yang Fei smiled.

"Eat something. We will head to the Wind Valley to hunt single-horn denglong¹!" Lin Zhan said.

"Single-horn denglong!"

"Leader, don't you think that it's a little too early for us to hunt a single-horn denglong?" Yan Jinming hesitated and asked.

"At first, I planned to hunt the single-horn denglong after Wang Teng had gotten used to the environment here. I thought that he would need a few days, but after seeing his performance last night, I feel that I can push my plan forward," Lin Zhan said.

"Leader, although Wang Teng's performance yesterday is not bad, that is still a 3-star star beast, and it's a gifted creature at that. It's one of the hardest 3-star star beasts to hunt. Even if we work together, we might not be able to take it out. What's more, we have Wang Teng with us. If we are not careful, we might lose our lives," Liu Yan frowned and said.

“That’s right, leader. I feel that Liu Yan’s words make sense. The single-horn denglong is too dangerous.” Yang Fei also supported her opinion.

Yan Jinyue looked back and forth between her team members and chose to keep quiet. She decided to continue being invisible. In the team, this was always her position.

“Wang Teng, what do you think?” Lin Zhan smiled and asked him.

“I don’t have any thoughts.” Wang Teng was speechless. *Yuan Fang didn’t give his opinion either. How can I give mine?*¹

When he saw Lin Zhan’s awkward expression, he continued, “I don’t mind taking a look at the single-horn denglong you mentioned. However, since it’s a 3-star star beast, I won’t be of much use. I will at most provide cover for you at the side.”

He knew his limitations. This was a 3-star star beast that was close to 4-stars. Even if he was a bug, he didn’t have such a powerful ability. *I can’t do it~*

Chapter 117: Heart of Martial Arts

The vast Dark Mist Forest was divided into five huge sections by the explorers.

Starting from the outside, it was partitioned into the outer circle, middle circle, and inner circle. There were also the forbidden death zone and the forbidden mysterious zone.

The outer circle typically consisted of 1-star to 3-star star beasts.

Star beasts had a hierarchy too!

The higher-level star beasts wouldn’t want to lower their status, so they rarely came to the outer circle.

The middle circle consisted of 4-star to 6-star star beasts. As for the inner circle, that was where 7-star to 9-star star beasts lived.

Similarly, the star beasts from the inner circle wouldn’t run out to the middle circle.

The environment in the forbidden death zone was extraordinarily harsh and perilous. There were many lord-level frightening star beasts hidden in that area.

Lord-level star beasts were equivalent to general-stage martial warriors. They could be considered the overlords among the star beasts.

Not talking about martial warriors below the general stage, even if general-stage martial warriors entered the forbidden death zone alone, they would have a slim chance of surviving.

As for the forbidden mysterious zone, even general-stage martial warriors wouldn’t be able to escape after they entered. Well, at least until today, no one had heard of a general-stage martial warrior who was able to return safely after venturing into that zone.

Wang Teng and his teammates were at the outer circle.

With the Tiger Warrior team's ability, they were considered one of the most powerful teams in the outer circle.

Normal 1-star or 2-star star beasts wouldn't pose any threat to them.

That was why they were able to kill the nine gale wolves so easily last night. After all, the difference in level was evident.

Had it been a normal martial warrior team, there was a high possibility that they might have died in that encounter.

Lin Zhan and his teammates said that they would need some time and effort to deal with the gale wolves. However, after Wang Teng saw their combat prowess yesterday, he felt like sniggering.

Pretentious~!

The group finally decided to head to Wind Valley.

The team had discovered a 3-star single-horn denglong in the Wind Valley during their previous trip to the Dark Mist Forest. However, they had used up all their resources back then and had made no adequate preparations. They weren't confident of killing it. That was why they had dragged it until now.

If it wasn't for the star beast, they would have rested for half a month before they returned to the Xingwu Continent. They rarely rushed back after only three days.

Based on Lin Zhan's introduction, the single-horn denglong was extremely intelligent. There was a high chance that it had given birth to a star bone.

If they could kill it, they would make a huge profit.

Since they had acknowledged Wang Teng's ability, they didn't have to worry about taking care of him. That meant that they could focus on dealing with the single-horn denglong.

Things might change if they dragged too long, though.

They had already lost four days. If they continued wasting any more time, the single-horn denglong might be found by other teams.

...

"Wang Teng, can you take care of the 1-star earth armor pig?"

Lin Zhan stopped in his tracks and pointed with his chin at a huge star beast eating in front of them. Then, he leaned casually against the trunk of a tree and took out his water bottle from his bag. He started taking sips of water without a care in the world.

The other team members stopped when they saw his actions. Some sat on the ground while others leaped up a tree. They took out their dried goods and water and started eating.

Their gazes at Wang Teng seemed as though they were waiting for a good show.

The large earth armor pig had noticed them too. It raised its head and glared at them with its big and round red eyes.

Its body was covered with thick and sturdy scales, just like an armored vehicle. It gave people an oppressive feeling.

Star beast had a common trait—they were big!

You could even say that they were gigantic!

The gale wolves they met yesterday were not small either. They were almost 1.5 meters up to their shoulders. One bite and they could snap a person into two.

But, as compared to this earth armor pig, the wolves were like nothing.

Wang Teng instantly felt speechless when he saw his teammates sitting around without any worry. He lifted his battle sword and walked forward.

Huff, puff...

The earth armor pig was panting heavily and looked extremely irritated. It stepped on the ground with its hind legs, digging up the soil with its movement. It seemed ready to attack at any moment.

At first, the earth armor pig was 200 meters away from them. As Wang Teng got nearer, the earth armor pig suddenly kicked up a cloud of dust when their distance was less than a hundred meters.

“Squeal! Squeal!”

The pig grunted as it dashed towards Wang Teng.

Wang Teng’s pupils were fixed on the pig. This earth armor pig was not only huge and fierce, but it was also agile and fast. When it stepped on the ground, it gave off loud stomping sounds...

“Do you think Wang Teng can kill the earth armor pig?” Yan Jinyue asked.

“He displayed his skills yesterday night, so it shouldn’t be a problem. Rather than worrying whether he could kill the earth armor pig or not, why don’t we guess how long he will take to take care of this star beast? Are you interested in having a bet?” Lin Zhan smiled and asked.

“What are we betting?” Liu Yan licked her sexy red lips and asked. Her interest was piqued without a doubt.

“How about ten energy stones?” Lin Zhan suggested.

“Alright!” Liu Yan agreed right away. She thought for a moment and said, “My guess is five minutes.”

“Wang Teng is very fast, but I’m not sure about his strength and guard ability. My guess is 10 minutes!” Yan Jinming said.

“In that case, I’ll guess 20 minutes,” Yang Fei said.

“Erm, I think, I think it will be 9 minutes.” Even the little transparent lady Yan Jinyue joined the bet excitedly.

“I guess within one minute,” Lin Zhan said with a smile.

“Seriously? Leader, even if you have high hopes for him, one minute is a little exaggerated.” Yan Jinming was shocked.

“Hehe, let’s wait and see. All of you will be giving me your energy stones later.” Lin Zhan smiled slyly.

Fortunately, Wang Teng didn’t know what his unscrupulous teammates were doing. If he knew, he might vomit blood in anger.

At this moment, he had already started fighting with the earth armor pig.

Boom!

The earth armor pig charged over at high speed and wanted to smash into Wang Teng. The frightening impact formed a powerful shockwave and surged towards Wang Teng’s body with a loud crash.

Wang Teng executed his footwork and evaded the attacks like an agile monkey. At the same time, he aimed his battle sword at the earth armor pig’s neck and slashed it down.

In the ‘Five Years of Martial Arts Exam, Three Years of Mock Papers,’ it was mentioned that whether you were fighting with a mutated beast or a star beast, you needed to find and target their weakness. Usually, the weaknesses of star beasts were the abdomen, the eyes, and the neck.

While dodging, Wang Teng swung his battle sword at the animal’s neck when he went past it.

The earth armor pig’s body was huge, so it couldn’t turn quickly. It wasn’t able to prevent the sword from hitting its body.

However, the result wasn’t satisfying.

Clang!

Wang Teng heard the sound, and his expression changed slightly. He looked at the spot he chopped just now. There was only a white line.

The scales of the earth armor pig covered its entire body. It was exceptionally tough, making it very hard to break this layer of defense.

Since Wang Teng had failed his attack, it gave the earth armor pig time to react. It swung its head and charged at Wang Teng with its two thick and dagger-like tusks.

If the tusks struck him, they would definitely pierce his body.

Wang Teng raised the shield in his left hand to block the attack. He used the force of the backlash to move away from the star beast and then made use of his speed to circle it. He then started searching for the earth armor pig’s weakness.

After the earth armor pig got played by Wang Teng, it got more and more irritated. It kept panting and growled in a hoarse voice.

Actually, the attacks of an earth armor pig were very simple. Its only distinguishing trait was its defensive ability.

If the other star beasts weren’t able to break their defense, the earth armor pig was invincible.

However, Wang Teng was able to suppress the earth armor pig with his speed. The earth armor pig went right and left, but it couldn't hurt Wang Teng.

After some time, Wang Teng finally found its weakness.

Chapter 118: Single-horn Denglong!

The heart of martial arts, even a god wouldn't be able to handle it, much less an earth armor pig.

When the long sword stabbed into its body, Force gushed out and directly froze its internal organs. The pig was killed in a single move!

Lin Zhan looked at the time and burst out laughing. "Less than a minute. Come, take out your energy stones!"

Yang Fei and Yan Jinming's expressions turned strange. They sighed secretly and accepted their defeat. While shaking their heads, they took out ten energy stones and gave them to Lin Zhan.

Liu Yan and Yan Jinyue clicked their tongues unhappily. They were beaten by Wang Teng's shamelessness.

How was he able to use this move? Where did his dignity go?

"This move might be a little shameless, but it's actually the most effective and energy saving." Lin Zhan smiled and stretched his hand out. "Give me the energy stones."

"Leader, you're jackals of the same lair!" The two ladies rolled their eyes. They took out their energy stones helplessly and gave them to him.

What a huge loss!

Wang Teng walked over and saw this scene. He was speechless. "Here I am fighting with my life, but all of you are just using me as your gambling material!"

"Cough, cough, the forest is so boring. This is to liven up the mood," Lin Zhan replied shamelessly.

"Wang Teng, why didn't you use Force to attack just now? Why did you use that move?" Yan Jinyue couldn't help but ask.

Most importantly, she wanted to listen to Wang Teng's thoughts. How sadistic was he to be able to think of that move?

"Save when you can. I'm just a 1-star soldier-level martial warrior. I have a limited amount of Force. If I can finish this battle using the simplest method, why should I waste my Force?" Wang Teng replied matter-of-factly.

"Look, Wang Teng understands it more than you. How can you call yourself seniors?" said Lin Zhan.

"There are many ways to save Force. He doesn't have to use this method." Liu Yan was unwilling to accept defeat.

"I feel that this method is excellent, and I find it easy to execute. I can try it again in the future. I've decided to call this move the Heart of Martial Arts—Thousand Years of Pain!" Wang Teng shamelessly used the name of a legendary move of a certain manga in his past life.

"Go away. Don't use this method in front of us. It hurts our eyes." The two ladies, Liu Yan and Yan Jinyue, immediately got annoyed.

The three men laughed uncontrollably. This Wang Teng was a weirdo!

He even gave his move a name after using it. Was he afraid that other people wouldn't know about his move if the name wasn't loud enough?

"Alright, take the tusks and scales of the earth armor pig, and we will leave," Lin Zhan said.

Yang Fei immediately walked over to take care of the earth armor pig's corpse. Wang Teng aided him at the side. The pig's scales were extremely tough and strong. If you wanted to skin it without proficient skills, it would be challenging.

When Yang Fei was taking off the scales, Lin Zhan and the others kept watch of their surroundings.

Yang Fei's actions were skilled. Very soon, he took off the armor of the earth armor pig and put it in his bag. His backpack immediately became full. He didn't take the whole scale armor of the earth armor pig, though. If he did, he wouldn't be able to stuff it in his bag.

"Huh?" Yang Fei suddenly made a sound. He had an elated expression as he said, "I think there's a star core!"

He used his knife to cut the abdomen of the earth armor pig. Then, he took out a yellowish-brown uneven round object.

"Hahaha, leader, come and take a look. There's a star core!" Yang Fei laughed loudly.

Lin Zhan and the other team members were shocked when they heard this. They immediately gathered around.

"F**k, Wang Teng, I have nothing to say about your luck!" Liu Yan exclaimed in surprise.

Wang Teng was stunned too. He had only killed three star beasts, and two of them gifted him with star cores. Was he really the son of Lady Luck?

He felt a little proud of himself.

"Keep it. Don't reveal your wealth," Lin Zhan reminded him. Then, he said, "See if there's a star bone."

Yang Fei threw the star core to Wang Teng and shook his head. "Nope. I've already inspected it."

The star core and star bone were both hidden in the star beast's body. They were like light lamps at night. You would be able to detect them immediately once you used your Force to scan the insides.

This was how they searched for star bones and star cores yesterday night with the corpses of the gale wolves.

Unfortunately, the gale wolves didn't have any star cores, much less star bones.

When humans killed more and more star beasts, they started to gain more experience.

Normally, only star beasts with star cores would have star bones. If the beast didn't have a star core, it shouldn't be able to give birth to a star bone.

That was why Lin Zhan asked Yang Fei if there was a star bone.

Wang Teng kept the star core. The gains by the team would be sold after they returned to Earth. The money would be split according to a certain percentage. That was how all teams worked.

Of course, the main things that Wang Teng received after killing the star beast were attribute bubbles.

Earth Force*4

Blank Attribute*6

The gains were not bad.

The team continued their journey to Wind Valley.

...

Around noon, Wang Teng and his teammates arrived outside a valley.

This valley was shaped like a gourd. The mouth of the gourd was the only entrance, as its sides were lined by unscalable cliffs.

A burst of strong wind gushed out of the valley. It sounded like the wails of ghosts and howls of wolves.

Lin Zhan stood outside the entrance and observed for some time. His expression changed slightly, "Someone has been here."

"Indeed, traces of people can be seen." Yan Jinming squatted down to take a look. He said with a worried expression, "Did we waste our trip?"

"Are we still going in?" Liu Yan asked.

"If the other party is inside and we meet them coincidentally, we might need to engage in a fierce fight. I wonder how strong they are?" Yang Fei said.

"Since we are here, we have to take a look. When has the Tiger Warrior team been scared of anyone?" Lin Zhan scoffed with a cold expression.

"Wang Teng, be careful!" He reminded Wang Teng before stepping into the valley first.

Wang Teng and the other teammates followed closely behind him.

The paths in the valley were difficult to walk. The biting cold wind blew hard against them, making it even more challenging to balance their bodies. Their faces hurt from the piercing cold.

Fortunately, they were all martial warriors, so they could barely handle it.

They walked cautiously for some distance, but they didn't see any humans.

"Could they have left already?" Yan Jinming frowned and asked.

“Let’s go further. Be prepared to fight anytime. Last time, we saw the single-horn denglong not far ahead. I wonder if it’s still there?” Lin Zhan replied.

The team members held their weapons in one hand and the shield in the other. They remained vigilant of their surroundings.

Swoosh!

Suddenly, a white figure stooped down from the cliff at the side. Its speed was astonishing. The air around it was torn apart, letting out a shrill and sharp screech.

“Be careful!”

Lin Zhan shouted.

Liu Yan’s expression changed. She felt that the white figure was targeting her. However, Liu Yan was caught off guard, so she wasn’t able to react in time.

Wang Teng was standing beside her. His expression abruptly changed, and he pushed her away. At the same time, he swung his battle sword out.

Boom!

A huge force crashed onto him. The green-colored Force collided with him and knocked him off his feet. Wang Teng didn’t have time to think. The Force in his body exploded as he neutralized the powerful and violent force of impact.

The wind energy formed by the green Force shot out in all directions like sharp blades. Wang Teng was right in the center. He felt as if there were hundreds of wind daggers slashing his body.

The plants around him were reduced to shreds. The wood splinters floated and danced in the air.

Bang!

Under the bombardment of the enormous force, Wang Teng was slammed heavily into the stone wall. His chest felt stuffy.

If he hadn’t defended himself in time just now using his Force or if he hadn’t worn this battle uniform, he might have been seriously injured.

Chapter 119: Explosion!

“Evil beast!”

Lin Zhan and the other team members instantly released their Force. Then, they simultaneously attacked the white figure.

However, the white shadow’s speed was astonishing. It ran across the cliff as if it were on flat ground. Finally, it stopped on a huge rock high on the cliff and revealed its identity.

“Single-horn denglong!” said Lin Zhan through gritted teeth.

“Are you alright?” Liu Yan came beside Wang Teng and asked in concern.

"I'm fine." Wang Teng shook his head. He stood up and looked at the snow-white star beast standing tall on the rock high up on the cliff.

"Thank you for helping me just now," said Liu Yan.

"This is not the time for this. Is that the single-horn denglong you were talking about?" Wang Teng asked with a strange expression.

The white star beast on the rock looked a little like a huge-sized... rabbit.

It was furry with long ears. Its eyes were red, and its body was white. Only the tip of its ears was black.

That was right, it looked like a giant rabbit!

However, there was a horn on its head, and its claws were sharp like knives. When it opened its mouth, you could see the row of razor-sharp teeth.

It looked... Its teeth looked healthy and strong.

"Yes, that's the single-horn denglong. I didn't expect the beast to sneak an attack on us." Liu Yan's expression was a little ugly.

"It's injured. Look at the left side of its back. There seem to be traces of blood," Yan Jinyue said.

Everyone followed her finger and looked in the direction she was pointing. Indeed, they saw a trace of red spreading out from the single-horn denglong's back. It was hard to notice it from the front.

"It might have been left by the first batch of people. It's malicious and cruel even when it's hurt. Let's take this opportunity to kill it and wrap up things," Lin Zhan said viciously.

The moment he finished speaking, he stamped on the ground, and his body shot out like a bullet. He climbed up the cliff and slashed out gold-colored Force out of his huge axes.

Roar!

The single-horn denglong roared at Lin Zhan. It sent out a big and powerful gale from its mouth.

The gold glow on the axes split the strong gale apart, forming a long and narrow crack in the middle. Lin Zhan appeared in front of the single-horn denglong in the blink of an eye.

He swept his battle axes horizontally in front of him.

Swoosh!

The single-horn denglong's figure disappeared from the rock. Only its lingering shadow was chopped into half by Lin Zhan's axes. Moments later, the lingering shadow also dissipated.

The next second, the body of the single-horn denglong appeared beside Lin Zhan. A whirlwind formed on its sharp claw as it attacked Lin Zhan.

Bang, bang, bang!

A few gunshots also joined the battle.

Below, Liu Yan carried her heavy machine gun and fired continuously while aiming at the single-horn denglong.

The alloy bullet dragged a fiery red flame along with it as it shot towards the single-horn denglong, aiming for its vital point.

The single-horn denglong had no choice but to dodge. Lin Zhan took the chance to pursue and keep the pressure on.

The two gigantic battle axes danced around in his hands. The gold glow pierced through the air and engulfed the single-horn denglong.

At that moment, Yang Fei and the other team members arrived.

Yan Jinming, Yan Jinyue, and Yang Fei executed their respective Force battle techniques and blocked the single-horn denglong's path of retreat. There was nowhere it could hide.

Boom!

The single-horn denglong was forced to take on Lin Zhan's gold ax glow. The sharp claws slammed into the axes along with the whirlwind on them. The collision resulted in a frightening explosion.

Lin Zhan couldn't control himself and took many steps back. The single-horn denglong saw an opportunity and wanted to escape the encirclement.

On the other side, Wang Teng stood at the high ground and took out the heavy bow from his weapon carrier casket. He nocked a rune arrow on the bow.

At this moment, Wang Teng could only turn from a warrior into a marksman hiding in the wild. He took cover behind the bushes and started shooting arrows at his target.

This was commonly known as... the bitch in the bushes.

The Force in Wang Teng's body erupted as he stretched the bow to its maximum.

He let loose an arrow!

Slash!

The arrow cut through the air. The ice Force at the tip formed an ice-blue shadow of the arrow as it charged towards the single-horn denglong.

Boom!

The single-horn denglong let out a loud roar. It turned its body forcefully and actually managed to evade this arrow.

However, Yan Jinming and the other two people's attacks had arrived.

Three attacks landed on the single-horn denglong's back at the same time.

The single-horn denglong roared in grief and pain. The sword and blade pierced through the wound that was already present on its body. They tore its back, and fresh blood spurted everywhere.

Bang, bang, bang...

Gunshots were heard once again. The bullets penetrated the single-horn denglong's body one by one, causing it to look up at the sky and roar. It suddenly went crazy.

It opened its huge mouth, and green lights started gathering around it from the sky and the earth. The green rays quickly congregated into a ball.

The ball of green light was expanding continuously.

"Hurry up and stop it!" Lin Zhan's expression changed as he dashed towards the single-horn denglong.

The other team members' expressions were solemn too. They executed Force battle techniques to their fullest potential.

Fire Force, water Force, earth Force, these three colors of light covered half the sky.

The rays of swords poured down like the rain. The glints of sharp blades flew everywhere. It looked like they could slash a mountain if it stood in their way.

Boom, boom, boom!

The single-horn denglong didn't dodge, allowing the attacks to land on its body. The green ball of light in its mouth grew bigger and stronger. The pressure was terrifying.

Bang, bang, bang...

The heavy machine gun in Liu Yan's hand kept vibrating. Alloy bullets shot out as though they were free.

"This beast wants to perish together with us!" Lin Zhan shouted, "Move! Let me handle it!"

He held the huge axes in his hand and swung them out powerfully. An enormous gold ax shadow flew down from the sky.

Metal Force battle technique—Heavy Mountain!

Boom!

The gold ax shadow in the air seemed to have turned into a tall and lofty mountain. It bore down from the sky.

The single-horn denglong finally stopped building its green ball of light. The viciousness and determination in its pair of red eyes seemed similar to the emotions of a human. It spurted the ball of green light out.

"Move!"

Lin Zhan's expression warped. He started flying back at high speed without any hesitation. At the same time, he shouted at his team members.

The other team members felt a powerful sense of danger and death. They raised their speed to the fastest, wishing they had an extra pair of legs.

Run!

Wang Teng and Liu Yan were further away. The moment they noticed something wrong, they fled and found a place to hide.

Boom!

The green ball of light exploded without any warning, kicking off a violent tornado at the center. It started sweeping everything away. Soil flew in the air and covered the entire sky. The protruding rocks and the vines and plants on the ground were all reduced to pieces by the overwhelming force.

Blades of wind mingled in the tornado as it engulfed the entire area they were in. The wind blades attacked anything in its path. It struck against the cliff and left lines and lines of deep cuts.

Lin Zhan and some of the team members couldn't evade in time. They were all thrown off their feet by the tornado.

The shockwave caused by the explosion swept the surroundings. The residual impact took a long time to subside.

The dust in the air gradually landed on the ground. The valley resumed its silence.

"Leader!"

"Yan Jinming!"

"Little Yue!"

"Yang Fei!"

Liu Yan and Wang Teng were a distance away, so they didn't get hurt. After coming out from their hiding spots, they immediately started looking for their teammates.

Liu Yan's face was pale, and there was fear in her expression.

She had been working with her teammates for many years. Although they weren't blood-related, they were like her family. If anything happened to them, she couldn't imagine what she would do.

"Cough, cough!"

Suddenly, they heard someone coughing not far away.

"It's our leader!" Liu Yan exclaimed in surprise. She ran over hurriedly.

Lin Zhan climbed out from below a pile of rocks. He wiped the trace of blood off the corner of his lips and cursed, "Damn it, this beast is really ruthless. It actually wanted to perish together."

"Leader, are you alright?" Liu Yan and Wang Teng hurriedly held him up.

"I'm fine. I'm just a little hurt." Lin Zhan waved his hand nonchalantly. "How are the others?"

"We haven't found them," said Liu Yan.

"Then, hurry up and look for them..."

"We're here!" At this moment, Yan Jinming's voice came out from below another pile of rocks.

“How are you?” Wang Teng asked.

“Alright. I’m not dying anytime soon.”

Chapter 120: Do You Want To Experience My Hammer Fist Of Love?

“F**k, I almost died!”

Yan Jinming and the other team members cursed furiously. They weren’t in a good mood.

“I didn’t expect the single-horn denglong to fight back in the face of death and attempt to drag us down to hell with it. We almost fell into its trap,” Yang Fei said with a bitter smile.

“When we meet another 3-star or above star beast, we need to be more careful. A star beast at this level has its own intellect. Yet, they still maintain their brutish nature, so they are unruly and ruthless. We can’t predict their actions using logic,” Lin Zhan said.

“Sigh, this is the first time we met such a vicious fellow after so many years of forming the team,” Liu Yan commented.

“Little Yue, are you alright?” Yan Jinming held onto his younger sister in concern.

The few of them had received the brunt of the explosion. Their organs were heavily impacted by the force and were injured. As a lady, Yan Jinyue’s defensive ability was weaker, so her injury was more severe than the men.

Her face was pale, and blood was seeping out of the corners of her lips. She seemed listless. Her body was about to collapse at any moment.

“Give her the medicine quickly,” Liu Yan said in a hurry.

Yan Jinming regained his composure and took out the healing medication from his backpack. He let Yan Jinyue swallow it.

“Execute your Force to hasten the absorption of the medicine.”

Yan Jinyue was already weak. She followed her brother’s instructions and sat down cross-legged on the ground. She started absorbing the medicine to heal her injuries.

Yang Fei and Lin Zhan also took out their medicine and swallowed them. Their injuries weren’t as serious as Yan Jinyue’s, but it still hurt. Their combat prowess had taken a hit.

“Is that single-horn denglong dead?” Wang Teng asked.

“The degree of the explosion is huge and it was at the center of the explosion. It must be dead,” Lin Zhan smiled and replied.

Wang Teng nodded. He scanned his surroundings. There were many attribute bubbles dropped around him.

He picked them up.

Metal Force*15

Fire Force*13

Earth Force*9

Water Force*8

Wind Force*25

Blank Attribute*33

...

A huge gain!

Not to mention the other attributes, he had gained a high number of fire, water, and earth Force attributes. It was enough to raise his ability by another level.

And the bonus of 25 wind Force!

As well as the metal Force that appeared for the first time. There were as many as 15 points.

Wang Teng received another Force element!

This time, there were many blank attributes too. He got 33 points of blank attributes, bringing his total to 90.

Wang Teng was secretly elated. He continued sucking over the other attribute bubbles from afar and collecting them.

Intermediate Stage Wind Talent*1

Wang Teng was stunned.

An intermediate stage wind talent! Ecstasy surged up his heart.

As expected of a 3-star star beast with a high intellect.

Even the talent it dropped was at the intermediate stage.

Mind you, all the talents he had for his earth element, fire element, and ice element were only at the beginner stage.

It was obvious that intermediate stage talents were more powerful than beginner stage talents.

Now, he would be able to make use of his wind Force. He could also unleash the full potential of his Steps of Gale and not just shelve it in his attribute row and let it rot there.

The gains of killing a 3-star star beast were so huge!

It was worth it!

In comparison, the minor injuries were nothing.

Very soon, Lin Zhan and the other teammates digested their healing medication and regained some of their health. Lin Zhan stood up and said, "Let's go over and take a look at the single-horn denglong.

We've wasted some time. We should clean up the scene and leave. The explosion just now will definitely attract the attention of the other star beasts in this region. It might even lure other martial warriors. We need to act quickly."

"That's right. Quickly take a look at the star beast. We spent so much effort trying to kill it. If there aren't any gains, it will be a huge loss for us," Yang Fei said.

They started searching their surroundings. They didn't know where the body of the single-horn denglong was sent flying after the explosion.

Yan Jinyue was still undergoing the healing process, and Liu Yan took care of her at the side. The young men searched for the body.

Wang Teng remembered the location of the talent attribute bubble and walked over to the spot. When he dug up the soil, his expression changed. He shouted at Lin Zhan and his other teammates, "It's here!"

"Oh, you found it!"

The others rushed over immediately.

"I can't feel its aura. It's probably dead."

"Old Yang, this is your show. Open the body and see if there's a star bone," Lin Zhan said with an intense gaze.

"No problem. Leave it to me."

Yang Fei sniggered and bent down. He pushed away the rocks at the side and pulled the single-horn denglong out of the debris. Then, he took out a dagger and started dealing with the corpse.

The single-horn denglong was dead. Its body was riddled with wounds, and it had lost a lot of blood.

"Brother Yang is like the butcher of the team," Wang Teng smiled and teased him.

"Hahaha, well, he indeed has the talent. He's suitable for this job." Lin Zhan laughed.

Yang Fei smiled. He seemed pretty proud.

A few moments later, he cut off the horn and claws of the single-horn denglong. Then, he skinned the entire corpse.

"What a pity. This skin is heavily damaged, so the price will be heavily discounted," Yang Fei said with regret.

"As compared to the star bone, this is just a small change. Stop wasting time. Look for the star bone first," Lin Zhan urged him.

Yang Fei nodded. He took a deep breath and placed his hand on the single-horn denglong's corpse. He felt the corpse for a few seconds before beaming a happy smile. "There's a star core!"

While speaking, he had already stabbed the dagger into the single-horn denglong's body. He lifted his dagger, and a green round ball rolled out. This was the wind element star core of the single-horn denglong.

The price of a 3-star star beast star core was much higher than a 1-star star core. Even more, this was a wind element star core.

Lin Zhan and the other team members were elated. Even without the star bone, this star core was enough to earn them a considerable amount of money.

But...

The next instant, Yang Fei shouted in surprise, "Star bone! There's really a star bone! Hahaha, leader, we're going to be rich!"

"Great! Quick, dig it out!" Lin Zhan gave a bright smile as he opened his eyes wide.

Yan Jinming and even Liu Yan and Yan Jinyue, who were a distance away, were ecstatic when they heard this piece of news.

A star bone!

They had guessed that there might be a star bone in this star beast, but the probability of finding it was really low. All they had was an ounce of hope.

However, there was really a star bone. They would definitely put this up for auction. It would fetch an amazing price.

On the other hand, Wang Teng was relatively calm. After all, he had a star bone already, and it belonged to him only. When he saw his teammates' exhilarated expressions, he couldn't help but ask them, "Leader, you are a 3-star elite martial warrior team. This is just a star bone. Do you have to be so excited?"

"It's just a..."

Everyone turned around and glared at Wang Teng with hidden bitterness.

"You brat, that's easy for you to say. This is the first star bone we have found after so many years, but you seem to be looking down on it.

"Don't you know the price of a star bone?"

"I do. I performed quite well during the martial arts exam, so the leader of the Ministry of Education of Donghai gave me one as my reward. I heard that it's very precious, that's all. Your reactions are too exaggerated," Wang Teng said calmly as he continued his acting.

...

The other people were speechless.

"F**k!"

Comparisons are odious!

Look at him. He doesn't need to risk his life to hunt and kill star beasts. He was able to get a star bone as his reward.

Look at us. Sigh, forget it... There's nothing worth comparing.

The other team members felt depressed. The gloomy aura hung over them as they turned their backs to Wang Teng and decided to ignore him in unplanned unison.

Wang Teng: ...

What did I do wrong?

Suddenly, Yang Fei exclaimed happily, "I found it. It's the leg bone."

He moved the dagger in his hand and slit the flesh of the beast. He then extracted a bone from the corpse of the single-horn denglong.

This piece of bone was white all over except for the center. There was a green-color crystal clear section in the bone.

There were thin lines on the green-color section of the bone. It looked mysterious and profound.

It felt cool and icy to the touch.

"Quick, let me touch it. Oh my god, I have been a martial warrior for so long and have only seen it once from afar. I have never touched a star bone before." Lin Zhan snatched the thigh bone from Yang Fei's hand. He caressed the green-color section of the bone gently with an enchanted expression. He really looked like...

Imagine a fierce-looking young man rubbing a white piece of bone as if he was caressing the leg of a beautiful lady.

Think of that scene!

Tsk, it was quite frightening!

Yang Fei and Yan Jinming wanted to touch the bone too, but when they saw their leader's expression, they suddenly shuddered and regained their senses.

"Cough, leader, you're salivating," Wang Teng couldn't help but remind him kindly.

"What?"

Lin Zhan was given a fright. He instinctively raised his hand to wipe the corners of his lips. Then, he regained his composure and his eyebrows started twitching.

He glanced at Wang Teng ominously from the corners of his eyes.

"You little brat, you're getting really bold. Do you want to experience the hammer fist of my love?"

"Hahaha, leader, you looked outstanding today. Your face is pinkish, so you must be extremely lucky and supremely fortunate... Erm, that sounded a little weird. Anyway, leader, you are really lucky today. No wonder the star bone appeared. It must be because the main protagonist's script you have started to take effect..." Wang Teng laughed awkwardly and immediately released his ultimate move—sucking up.

As for what the hammer fist of love was, he would leave that to the rest of his teammates. He didn't need this disgusting thing.

Liu Yan and Yan Jinyue had just returned after treating their wounds. Yan Jinming, Yang Fei, and the two ladies were shocked when they heard this.

They had never seen such a shameless person before!

How interesting!

"Hmph." Lin Zhan gave a forced smile. Then, he turned serious and said, "Since we have taken care of everything, let's leave. We will return to the martial arts academy..."

Before the team members could feel happy at the mention of returning to the martial arts academy, they heard him saying, "Oh, right. Old Yang, take a look at the other leg and see if there's another star bone."

Everyone: ...

Why didn't they see their leader's money-grubbing side in the past?

Even though they complained in their hearts, Yang Fei still executed his leader's order. He slit open the other leg of the single-horn denglong and took a look.

Nothing!

It was normal that there was nothing. You must be dreaming to think that there would be two star bones in a single star beast.

Finally, they could retreat in peace.

They didn't waste any more time and walked out of the valley.

"Leader, how much can you sell this star bone for?" Wang Teng asked curiously along the way.

"Most probably... seven to eight hundred million." Lin Zhan wasn't certain either. "I saw an auction of a star bone in the past. The buyer bought a 3-star star bone for this price. This star bone should be around the same. What's more, it's a wind element star bone. It is more precious and rarer than a normal element star bone."

"It's so expensive!" Wang Teng was really shocked this time.

The star bone Director He gave him came from a 1-star star beast. If a 3-star star bone cost seven to eight hundred million, that 1-star star bone should cost around one hundred million, right?

From the looks of it, Director He spent more than he expected!

"Seven to eight hundred million is the minimum price. It depends on the buyer. If we meet someone that really wants this piece of star bone, he might buy it for a few billion without batting his eyelids," Lin Zhan smiled and continued.

He seemed to be in a good mood. It was understandable. How could a person not be happy when he had a few billion in his pocket?
