

Martial Arts 1121

Chapter 1121: Fk This Young Man Is Unsporting!**

In the real world, Olant Planet, main city!

The leader of martial arts and the heads of the nations were overjoyed when they learned that Wang Teng had successfully become the owner of the Milky Way.

This was great!

Wang Teng was a resident of Earth and the owner of the Milky Way. The entire galaxy was under his control.

Earth was part of the galaxy, so it was undoubtedly safer. This was like a level of protection. The Milky Way was the outer shell. If other aliens wanted to invade Earth, they had to break through this outer shell first.

The people from the Olant Federation felt bitter when they saw how happy the leader of martial arts and the others were. They wore complex expressions on their faces.

The Olant Federation had one less galaxy under its control. Their hearts were bleeding.

They started to feel a tinge of regret. They shouldn't have offended Wang Teng for the benefits Cao Hongtu promised them. They were shooting themselves in the foot.

Not just that, but the bullet was also huge. It was extremely painful.

"Wang Teng, we have given you the Milky Way. Can you let us go now?" Tu Jin asked.

"No problem. I mean what I say." Wang Teng nodded.

Tu Jin and Bartlet looked at each other. There was happiness in their eyes. Wang Teng wasn't planning to eat his words!

Honestly, they were worried that Wang Teng would go back on his promise. There was nothing binding their agreement. It was just a verbal deal.

But they didn't have a choice. Their lives were in Wang Teng's hands. He told them that they only had two choices.

They could either agree or die!

Thus, they had to take the risk for the sake of their lives.

Fortunately, their gamble paid off.

"You can leave now." Wang Teng ordered someone to open their seal so that they could leave.

Tu Jin and Bartlet were overjoyed. They used whatever Force they had left and flew out of the door with their injured bodies.

They didn't want to stay here any longer. They wanted to leave this place as soon as possible and come back only after Wang Teng left.

Sheng Luo's expression was hideous. He watched them leave in dejection, feeling abandoned.

Tu Jin and Bartlet rushed out of the place. When they could no longer see Wang Teng, they revealed a sinister expression. Their eyes were filled with hatred.

"Hmph, we will take revenge one day." Tu Jin turned back and spat angrily.

"That's right. I won't be able to rest in peace if I don't take revenge." Bartlet's gaze was filled with hatred and bitterness. He felt humiliated.

"Let's leave the Olant Planet and return after recuperating." Tu Jin flew into the sky.

Bartlet followed closely behind him.

Right then, they felt a sense of danger. A chill zapped down their spines, and their heads went numb. They turned around in bewilderment.

Boom! Boom!

Two Force attacks shot toward them from the universe-level spacecraft.

"No!"

"Why?"

Their pupils constricted into needles as they screamed in anger. There was only one thought left in their minds.

*Didn't he agree to let us go? F**k, this young man is devious!*

They were too careless!

There was no way to dodge the attack now. They got swallowed by the light and were killed!

...

Everyone was stunned when they heard the loud explosion.

"What happened?" The leader of martial arts was puzzled.

"Let's go and take a look." Wang Teng led the way out.

Two large and deep holes had appeared on the ground with smoke coming out of them. Broken pieces of armor were scattered everywhere.

"Aren't these the armor of the two heaven lords?" Dan Taixuan recognized the style of the armor. She stared at Wang Teng strangely.

"Really?" Wang Teng was surprised. He looked around. "Was there an accident?"

"Cough." The leader of martial arts and the others weren't stupid. They immediately understood what happened and started coughing awkwardly.

Act!

Continue acting!

Sheng Luo stared at the holes with a sorrowful expression. Then, he suddenly smirked. His emotions were complex.

“Master, the Flaming River accidentally launched an attack and shot the two heaven lords to death,” Bertha walked over and reported with an odd expression and a flickering gaze.

“Look at what you’ve done. How can you be so careless? I’ve already let them go, but they still died. You’re making things difficult for me,” Wang Teng said angrily.

Everyone: ...

Sheng Luo: ...

How could he be so shameless?

“It’s my fault. I didn’t train them properly. Please punish me.” Bertha lowered her head and admitted her mistake.

“It’s alright. The person is dead. What’s the point of punishing you?” Wang Teng shook his head with a sigh.

Everyone was speechless. They were complaining in their hearts.

This drama king!

He acted the entire scene alone. They couldn’t even interrupt him.

Some people felt that Wang Teng was cold-blooded and ruthless too. However, most of them were relieved. After all, they didn’t feel at ease letting two heaven lords go.

Only a dead person posed no threat!

“Not bad. You’re a sly person. You fooled the two heaven lords. You got the Milky Way and killed them. There’s no better solution,” Round Ball commented in his mind.

“What are you saying? I don’t understand.” Wang Teng pretended to be confused.

“Tsk.” Round Ball rolled its eyes in contempt and ignored Wang Teng.

The corners of Wang Teng’s lips lifted up slightly. He looked in front and saw a few attribute bubbles floating there.

Constellation Force (Metal)*6000

Metal Domain*3000

Celestial Realm Spirit*1500

Cosmos Realm Enlightenment*1100

...

Constellation Force (Water)*5600

Water Domain*2400

Celestial Realm Spirit*1200

Cosmos Realm Enlightenment*1000

Advanced Stage Disguise Talent*500

...

Wang Teng was delighted after absorbing these attribute bubbles.

There was nothing to say about the constellation metal Force and water Force. Both increased by a few thousand points, but it wasn't enough for a breakthrough.

Then, there were the domain attributes.

There were 3000 points of Metal Domain!

Wang Teng was elated that these 3000 points allowed his Metal Domain to advance to the fourth rank.

Metal Domain: 1250/4000 (fourth rank)

Fourth-rank domain was much more powerful than the third-rank domain.

Moreover, he received a new domain: Water Domain!

Wang Teng had just tamed the Water Of Netherworld and was trying to comprehend the Water Domain. He didn't expect it to arrive at his doorstep voluntarily.

After absorbing the Water Domain attribute, he felt knowledge surging into his mind.

Water had no form!

Great kindness is like water. Everything comes from the heart.

Water can both be weak and strong!

...

The enlightenment merged into Wang Teng's memory and became a part of him. He got the Water Domain just like that, even raising it to the second rank.

Water Domain: 1400/2000 (second rank)

When he opened his eyes, there was a blue fluctuation, which disappeared within a split second. It looked extremely divine.

Next were the spirit and the enlightenment attributes. Both of them rose greatly, allowing him to reach a new height.

Finally, the attribute he cared about the most and that made him the happiest was the last one.

Advanced stage disguise talent!

This was a special talent attribute bubble!

Wang Teng hadn't received a talent attribute bubble in a long time. Finally, he saw one again, and it was a useful one at that.

He suddenly remembered what Round Ball said in the past. It mentioned that the heaven lord with green skin might be a Luke.

Lukes were known for their disguise talent!

Obviously, its guess was right.

After this attribute bubble merged into his body. Wang Teng noticed a strange transformation happening inside him. He felt that he could change his physical body as he wished.

This transformation was more powerful than the Morph talent he had.

He received the Morph talent from the strange jelly-like creature in the Xingwu Continent, so there was a huge limit to its use.

A powerful martial warrior would be able to see through his disguise easily by looking at his aura.

However, this advanced stage disguise talent was different. Besides changing his physical form, it possessed certain disguise traits too.

That meant that once he activated this talent, Wang Teng could disguise himself right from the core. No one would notice anything.

This was an amazing talent!

Indeed, it was the right choice to kill these two heaven lords. If not, he wouldn't be able to receive so many attribute bubbles. Wang Teng gave himself a thumbs-up for making a smart decision.

There was one more. He should take care of him now.

With this thought in mind, he turned and gave Sheng Luo a dangerous glare. There were no expressions on his face as he said, "Sheng Luo, it's time for you to die."

Bang!

Sheng Luo had predicted this result. His Force suddenly exploded and his face turned red. Veins popped out of his skin like crawling snakes.

Splurt!

He vomited a mouthful of blood.

Using a secret skill, he forcefully extracted himself from Wang Teng's seal.

With his aura surging, Force erupted. Sheng Luo stepped on the ground, turned into a beam of light, and dashed toward the horizon.

This was the only chance.

He would be able to escape once he got out of the universe-level spacecraft's attacking range.

"Futile struggle!" A cold glint shot out of Wang Teng's eyes. He snorted and soared into the sky too.

An Lan's expression change slightly. He turned into a beam of light and chased after Sheng Luo.

The other people finally reacted. They were appalled.

"Quick, activate the spacecraft and chase after them." Hardy and Bertha charged toward the spacecraft.

Round Ball had already activated the Flaming River. It shot into the sky.

Boom! Boom! Boom!

Force attacks shot out continuously, aimed straight at Sheng Luo.

An Lan waved his hand. The Thousand Armaments Vessel turned into a black ray of light and cut through space, appearing a few hundred meters behind Sheng Luo. Sword aura exploded as he slashed at him.

At the same time, a universe-level sword appeared in Wang Teng's hand. He was traveling at a high speed too.

The Godslayer Sword Scripture!

Slaying God!

A sword glow with space conscious cut through space and slashed out in front of Sheng Luo.

Sheng Luo was attacked from the front and rear!

He fell in despair.

Roar!

Sheng Luo bellowed like a cornered wild beast. He tried his best to resist. However, it was all in vain.

Soon, a figure fell from the sky and crashed into the ground with a loud bang.

Chapter 1122: A Dead End For The Olant Federation. Taming The Water Of Netherworld!

The battle ended within a few minutes!

Sheng Luo was unwilling to accept death, so he took one last shot. Unfortunately, he still lost.

Losing meant death.

Wang Teng and An Lan flew down from the sky and stood at the edge of the deep hole.

Sheng Luo was lying in the center with his arms and legs spread out. His battle armor was broken with two terrifying sword slashes forming an 'X' in front of his chest. Fresh blood gushed out. The ground below him cracked like a spiderweb.

He used his last ounce of strength to raise his head and look at Wang Teng. The bitterness in his eyes was intense.

Wang Teng looked back into his eyes indifferently. No sounds were heard.

“Hahaha...” After some time, Sheng Luo laughed. He continued laughing like a maniac even though he was coughing blood. He sounded like a revengeful spirit.

“I’ll be waiting for you in hell!” his laughter died down, and he spoke in a calm voice.

Wang Teng raised his sword and the president of the Saint Star Pagoda perished.

“What is hell?” Wang Teng muttered to himself.

He didn’t take Sheng Luo’s words to heart. He kept his sword and picked up the attribute bubbles around him happily.

Constellation Force (Earth)*8000

Meteorite Shower Domain*3400

Celestial Realm Spirit*1600

Cosmos Realm Enlightenment*1500

...

What a good guy. He left me some good attribute bubbles at the end. Wang Teng’s eyes lit up in elation.

These attribute bubbles were better than the ones Tu Jin and Bartlet dropped before their death. What a pleasant surprise.

He knew that Sheng Luo must have released all his power, resulting in these attribute bubbles.

Wang Teng suddenly remembered the catfish effect on Earth.

Fishermen kept some ferocious catfish in a tank of tightly-packed sardines. This would allow the sardines to continue moving to keep them alive longer and fresher.

Live fish tasted better.

It wasn’t hard to understand, right?

If Sheng Luo knew that Wang Teng was comparing him to a sardine, would he crawl out from the ground and fight with him?

Wang Teng’s attributes rose again as these bubbles merged into his body.

The main attribute was the Meteorite Shower Domain. 3400 points of Meteorite Shower Domain allowed this attribute to advance to the third level.

Meteorite Shower Domain: 1900/3000 (third level)

Good. My Planetary Devastation is ready. Wang Teng touched his chin and thought to himself happily.

The leader of martial arts and the others inched forward while feeling emotional.

All three heaven-stage martial warriors in the Olant Federation had been tricked and killed by Wang Teng. They died an unwilling death.

They wouldn't have believed it if they didn't witness it personally. These were heaven-stage martial warriors, not some random passer-by on the street. It felt incredible that they died this way.

"Everything here is settled. Let's go back," Wang Teng said.

"You're right. Quick, inform everyone about this piece of good news," the leader of martial arts said. He felt refreshed.

Three heaven lords were dead. They took their revenge and the Olant Federation wasn't a threat anymore. This was great news for Earth.

No one lagged behind. They boarded the Flaming River and headed straight into the universe.

...

"They've finally left!"

The people from the Olant Federation raised their heads and heaved a sigh of relief when they saw the giant spacecraft leaving. They could finally breathe properly.

Nehemiah came out of the great hall and watched the scene with a complicated expression. Sorrow was welling up in his heart.

All three heaven lords were dead. The Olant Federation was only an empty title.

The other party was ruthless, giving them no chances.

Hatred bubbled in Nehemiah's heart. He clenched his fists in frustration.

"Look, what's that?" A sudden exclamation broke his train of thought.

Nehemiah raised his head and saw a beam of light plummeting down at high speed. Nothing could be seen in his pupils except the glaring light.

Boom!

...

In the universe, the leader of martial arts and the others stared at the scene below using the panoramic simulation mode of the spacecraft.

They got fooled by Wang Teng again!

At the last moment, he still gave the Olant Federation a blow when the higher authorities were all gathered in front of the great hall.

The Olant Federation would probably have to break up now.

"Perfect!"

Wang Teng ignored everyone's reaction. He returned to the cultivation room in the spacecraft to count his gains.

As he sat down cross-legged in the cultivation room, a warm stream appeared in his body and started flowing around his body and mind.

These were the attribute bubbles his clone had collected, which he left on the Olant Planet.

The cannon attack just now resulted in many attribute bubbles. Naturally, Wang Teng wouldn't let them go. He didn't pick them up personally, leaving this job to his clone.

Wang Teng closed his eyes and carefully felt the changes and improvements in his body. He sat for a total of three days!

His ability increased tremendously.

Constellation Metal Force: 21000/60000 (celestial stage sixth level)

Constellation Wood Force: 18000/50000 (celestial stage fifth level)

Constellation Water Force: 16800/50000 (celestial stage fifth level)

Constellation Fire Force: 34500/80000 (celestial stage eighth level)

Constellation Earth Force: 7800/50000 (celestial stage fifth level)

Besides his fire Force, his other four Forces increased by a level, improving his overall ability. His constellation wind and lightning Force rose too.

Constellation Lightning Force: 8500/80000 (planetary stage eighth level)

Constellation Wind Force: 14500/90000 (planetary stage ninth level)

Although both the Forces were still in the planetary realm, they were at the last few levels. He wasn't far from his next breakthrough.

His spirit and enlightenment increased a little, but they were still far from advancing, so Wang Teng didn't care.

Besides the gains in his attributes, his assets increased too. He got treasures, battle techniques, and UC after almost emptying the entire OFC.

The higher authorities were able to give him 500 billion because they collated all the assets of their families from the various planets in the Olant Federation.

If not, based on their current wealth, they wouldn't be able to give him so much money at such short notice.

After Wang Teng took all these assets, the net wealth of the Olant Federation became close to zero. They might need a few hundred years to accumulate resources again.

Both their military force and their economy suffered a heavy blow.

In summary, Wang Teng took his revenge and gained ample benefits from this Olant Federation excursion. It was a worthy trip.

Wang Teng stretched his back lazily in a good mood.

He walked out of the cultivation room and circled the spacecraft. Everyone was cultivating, and there was no one to talk to him. He went back to his room.

He had a sudden thought. He took out the Water Of Netherworld.

“Are you planning to refine the Water Of Netherworld?” Round Ball’s voice suddenly rang in his head.

“Yes.” Wang Teng nodded. “This is good stuff. I’m not as stupid as Sheng Luo. I won’t let it rot in a corner.”

“Well, he’s not stupid. He just didn’t have a way to tame it.”

“He can’t blame me then.”

“He’s unlucky. He collected so many good things, but they all belong to you now.” Round Ball shook its head.

Wang Teng smiled. This was the good thing about having many skills. No one knew when they could be put to use.

Keeping quiet, he opened the wooden bucket containing the Water Of Netherworld.

“Huh?” Wang Teng squinted. He suddenly noticed signs of corrosion on the inner walls of the bucket.

“The wooden bucket can’t hold the water much longer,” Round Ball said. “The Water Of Netherworld is indeed powerful. Sheng Luo probably changes its container regularly. Normal containers won’t be able to store this Water Of Netherworld.”

“Indeed, it should be refined as soon as possible.” Wang Teng shook his head. He stopped wasting time and placed his hands over the Water Of Netherworld.

A ball of emerald flame appeared instantly.

Bang!

The wooden bucket shattered and the Water Of Netherworld floated out. It was wrapped by the Emerald Glazed Flame.

The flame burned violently. Scorching heat invaded the Water Of Netherworld.

As the master of the Emerald Glazed Flame, Wang Teng could sense the Water Of Netherworld through the flames. He felt a strange chill.

It wasn’t bone-piercing like the Nether Frost. Instead, it felt like an endless string of coldness.

Wang Teng faltered. This chill was more frightening than the chill in the Nether Frost. It could seep into his body and even his soul without stopping, numbing him and corroding him without his realization.

However, the Water Of Netherworld was suppressed by the intense heat of the Emerald Glazed Flame.

Nothing ventured, nothing gained!

Let's go!

Wang Teng gritted his teeth, and a wisp of spirit came out of his forehead. It pounced right into the Water Of Netherworld.

“Gasp!”

Even with the Emerald Glazed Flame protecting him, Wang Teng still felt a chill invading his consciousness. It was slowly devouring his spirit.

Boom!

Wang Teng didn't hesitate. He immediately released the Holy Flame and the Soul Of Thousand Beasts Flame simultaneously to suppress the Water Of Netherworld.

The temperature in the cultivation room shot up.

Without the protective shield, the metallic walls of the cultivation room would melt within a few seconds.

With three divine flames acting, no matter how unruly this Water Of Netherworld was, it had to lower its head.

Wang Teng's spirit seeped into the Water Of Netherworld continuously, attempting to leave his spiritual mark inside.

The Water Of Netherworld corroded his spirit without stopping either.

They were in a tug of war.

...

Time flew. A day passed in the blink of an eye.

Wang Teng's face turned a little pale. He seemed to have expended a lot of his energy. Suddenly, he opened his eyes. His gaze was sharp.

He kept the three divine flames.

The Water Of Netherworld started crackling. It started shrinking and turned into a small droplet of water.

At the same time, its color grew darker. It was azure blue at the start, but now, it was almost black.

Swoosh!

The condensed droplet of Water Of Netherworld flew over and smashed into Wang Teng's forehead.

“Finally!” A smile appeared on Wang Teng's face.

He had three divine flames, so success was definite. However, the process required patience and precision.

The risk involved shouldn't be underestimated. A single mistake and he would be seriously injured.

Wang Teng heaved a sigh of relief now that he had succeeded.

"Wang Teng, quick! Look at your notifications!" Round Ball's agitated voice appeared in his mind. It had been waiting for him all this while.

"What's the matter?" Wang Teng frowned.

"Cut the crap and look at it quickly."

Round Ball got impatient. It brought out the screen of the wristwatch, and a notification appeared in front of Wang Teng.

"The Great Qian Empire's League Of Talents!"

Chapter 1123: League Of Talents, Right To Enter The Uncharted!

"The Great Qian Empire's League Of Talents!"

Wang Teng was stunned. His gaze turned brighter as he read the content of the message. He was left dumbfounded at the end.

"This involves all the talented martial warriors in the Great Qian Empire!"

"You can participate as long as you're a celestial-stage martial warrior!"

"Oh my god! This is a huge event!"

...

"Of course!" Round Ball appeared in front of Wang Teng. It seemed a little excited. "The League Of Talents encompasses the entire Great Qian Empire. Do you know what that means?"

"There are multiple galaxies in the Great Qian Empire. Even if there are only one or two talents per galaxy, that's already a few hundred million."

"What a sight it will be to see so many talents displaying their power on the same stage. This is a great chance! You mustn't miss it!"

Wang Teng took in a sharp breath of air. Honestly, he was starting to get excited too. His gaze turned intense as he mumbled, "Interesting!"

With so many talents, he would be able to pick numerous attribute bubbles. He was worried that he wasn't advancing fast enough and then the League Of Talents appeared.

1

This was a gathering of talents. All types of martial warriors would be present to showcase their skills. He would be able to improve all his Forces. An all-rounded development was the key!

Wang Teng didn't want to advance to the cosmos stage haphazardly. He wanted to take a special path.

He had an idea when his enlightenment reached the cosmos stage. The brief outline was present, and the details were becoming clearer. He just needed to put it into action.

“Hey, your gaze seems a little strange,” Round Ball looked at him and commented uncontrollably.

“Really?” Wang Teng coughed awkwardly. He changed the topic and said, “Don’t care about these useless things. Quick, tell me about this competition.”

Round Ball’s attention was brought back to the League Of Talents quickly.

“The League Of Talents is held every 3000 years, with numerous celestial-stage martial warriors participating in this competition.

“These talents normally roam around the universe to enhance their cultivation, so it’s hard to find them normally.

“Mind you, there are many powerful races with great talents. They’re born strong, and they have instructors guiding them. Some even have universe-stage martial warriors or eternal-stage martial warriors teaching them personally.

“In summary, be it talent, enlightenment, or hard work, they’re among the top.”

“How am I compared to them?” Wang Teng asked.

“You’re strong, but you’re still some distance away from a real universe talent,” Round Ball contemplated before replying.

1

“As a celestial-stage martial warrior, I can fight with a cosmos-stage martial warrior and injure a heaven-stage martial warrior seriously with one move. Can they do the same?” Wang Teng asked curiously.

He wasn’t praising himself. He was just stating the truth and using it to judge the abilities of other universe talents.

“Yes, a real universe talent can do it.” Round Ball nodded its head firmly. “Do you know the different grades of talents in the universe?”

“What grades?”

“There are planet grade, galaxy grade, planetary grade, and universe grade, etc,” Round Ball explained.

1

Wang Teng went into deep thought. He could tell that the grades were based on different territories.

A planet-grade talent was the top talent of a planet. A galaxy-grade talent was the top talent of the galaxy. A planetary-grade talent was the top talent of the planetary sector... and a universe talent was the top talent of a high-tier civilization.

This was a scary concept!

The population of high-tier universe civilizations was huge. It was extremely difficult to emerge above everyone.

Wang Teng didn't doubt this.

"A planet-grade talent can jump one or two small levels. A galaxy-grade talent can jump four to five small levels. A planetary-grade talent can jump a stage, so do you think a universe-stage talent can injure a martial warrior more powerful than them?" Round Ball questioned.

"They're just like you. You might not have the ability to fight equally with someone more powerful, but you have an ultimate move.

"There are many restrictions for these moves. One can't execute them recklessly. Even if they do it forcefully, it will be a great burden to their bodies. No one will use it unless absolutely needed.

"Those that become the disciples of the universe-stage or eternal-stage martial warriors are taught these moves to save themselves. These are secret moves created by the big shots. How weak can they be?"

"This is great!" Wang Teng's eyes lit up.

"... What the hell?!" Round Ball was startled.

It wanted to douse Wang Teng's arrogance so that he wouldn't look down on these universe talents. To it, Wang Teng was still a native who had just stepped out of Earth. He didn't understand how powerful a universe talent was.

The ones he met were just ordinary martial warriors.

But looking at him, he seemed quite excited. What was he thinking?

"Shouldn't I be happy to fight with all these talents?" Wang Teng asked.

"Yes, you should." Round Ball nodded in a daze. Then, it asked carefully, "Don't you have any other thoughts after knowing that there are so many talents like you?"

"What thoughts?" Wang Teng looked at it strangely.

"Aren't you afraid of losing?" Round Ball stared at him.

"What's so scary about losing? Haven't you heard that failure is the mother of success? Failing a few times is good for success," Wang Teng replied calmly.

Silence.

What do you mean by failure is the mother of success?

Why don't you say that it's the father of success?

Round Ball complained helplessly.

It felt that it always lost to Wang Teng. Every time it wanted to stimulate him, it would receive a punch instead.

“Since any celestial-stage martial warrior can participate, this means that old people can join in too, right?” Wang Teng asked in surprise.

“In the universe, celestial-stage martial warriors a few hundred years old aren’t considered old. Also, some talents have their own considerations. Some want to build a strong foundation while others want to walk a different path... Either way, they have their own plans for not advancing to the cosmos stage.

“As for those that can’t advance even after reaching old age, it’s useless for them to go anyway. Their enlightenment is too low; they have no chance of winning,” Round Ball explained.

“I see.” Wang Teng nodded.

“You’re too young. If you cultivate for another ten years, I dare to say that you will be one of the top ten talents of the Great Qian Empire,” Round Ball said with pity.

“Another ten years? Top ten?” Wang Teng shook his head. He didn’t know if he should laugh or cry.

If that were true, his bug would be useless. The system would slap him to death and change the host.

“I’m not lying. You’ll know once you start fighting with them,” Round Ball said.

“Alright, I’ll work hard to climb higher.” Wang Teng didn’t refute. He nodded seriously.

Some things couldn’t be explained. There was no point fighting over such a small matter.

“Heh, there are rewards for this competition too,” Wang Teng exclaimed in surprise as he saw the end of the notification.

“What’s strange about that? There will obviously be rewards since it’s a competition. If not, who would participate?”

“The top 1000 can get 300 billion to a trillion UC and there are weapons, battle armor, dans, and many more items to be won. How extravagant. Not only that, the top ten will have the right to enter the Uncharted.”

Wang Teng was stunned. As he read the message, he realized something. “What’s Uncharted? Is it a small world?”

“It’s not a small world, but it’s similar.” Round Ball shook its head. “The Uncharted is a natural hyperspace in the universe. It’s a special place and might possess numerous treasures. There might be unexpected gains too.

“Someone once received the origin of the universe from Uncharted and used it to advance to the cosmos stage. He became ten or more times more powerful than an ordinary cosmos-stage martial warrior. After that, he managed to reach the eternal stage smoothly.”

“The origin of the universe!” Wang Teng was stunned. He frowned and asked, “Isn’t that the power a universe-stage martial warrior grasps after reaching that stage?”

“You’re wrong. A universe-stage martial warrior grasps the power of the rule of the origin. It’s an enlightenment while the origin of the universe is an instantiation. It’s different.”

“Is it?” Wang Teng was in deep thought.

“So, Uncharted is the most precious reward. It will be great if you can get it. Unfortunately, getting into the top ten is too difficult!” Round Ball shook its head.

“How will you know without trying?” Wang Teng smiled. “A man can’t say he can’t do it.”

1

“You can give it a shot. I look forward to your performance.” Round Ball sniggered.

Wang Teng also smiled. He was already thinking about how to get more benefits out of the League Of Talents.

“The League Of Talents will commence in half a year. You should prepare for it.” Round Ball disappeared after it finished speaking.

Half a year? It looks like I need to raise my ability. It’ll be embarrassing if I lose terribly. Wang Teng felt a sense of urgency when he recalled how Round Ball described the participating talents.

Greater ability meant more attribute bubbles. He wouldn’t be able to get the bubbles if he wasn’t powerful enough. He would get trampled instead.

...

When Wang Teng received the news, all the celestial-stage martial warriors in the Great Qian Empire received it too.

The entire empire was excited!

The once-in-a-3000-year League Of Talents was back!

This was definitely a grand occasion for the Great Qian Empire. Numerous talents would start gathering, and the splendor of the occasion would surpass anything heretofore seen.

The rewards were attractive too. Besides the large pool of monetary rewards, there were all kinds of weapons and battle armor well-liked by everyone, much less the right to enter Uncharted.

Many people looked in the direction of a planet in the Great Qian Empire.

That was where the League Of Talents would be held—Battle Planet!

This was a giant, dangerous, and terrifying planet.

People from all over the universe received the message. Some were training on a primary planet, some were fighting with dark apparitions on the battlefield, some were within a small world, while some were traveling alone in the universe, measuring the universe with their feet...

Chapter 1124: We’re Not Suitable. I Don’t Deserve You!

After getting the notification about the League Of Talents, Wang Teng started thinking of ways to raise his ability.

First, he looked at his Forces. His poison, ice, and light Forces had not reached the planetary stage. He could start with them.

After thinking for a moment, he asked Bertha to bring the light element martial warrior, Qing Lun, from the Olant Federation over.

The three heaven lords from the Olant Federation were killed, but Kloet, Manka, Qing Lun, and the other cosmos-stage martial warriors, as well as the planetary-stage martial warriors like Argus and Loggins, were still alive.

He instilled a biochip in them, so he wasn't worried that they would create trouble. He decided to keep them as manual labor.

A huge number of the slaves he bought were dead. These martial warriors from the Olant Federation could fill up the empty slots.

Soon, Bertha brought Qing Lun to the cultivation room and bowed. "Master, she's here."

"Alright, she can stay. You can leave first." Wang Teng nodded.

Bertha left immediately.

Before leaving, she sized up this beautiful woman who looked around 30 years old. Her gaze was ambiguous.

Does Master have some strange fetish?

Qing Lun was nervous. She didn't know why Wang Teng was looking for her.

Unless...

A bad feeling crawled into her heart. If that wasn't the case, why did Wang Teng look for her and not someone else?

Also, he asked her to come alone.

The more she thought about it, the more anxious she felt. No way... she was quite old...

She didn't dare to think further.

Wang Teng didn't know what the other party was thinking. He got up and walked over.

"Do you know why I called you over?" he asked.

"No, I don't." Qing Lun took a step back. There was nervousness on her face.

As a cosmos-stage martial warrior with a high position in the Olant Federation, she hadn't had such emotions for many years.

Wang Teng: ???

He felt that there was something strange about this woman. She was looking at him as if he was a pervert.

“Don’t act rashly. I’ve given birth before. We’re not suitable. I don’t deserve you.” Qing Lun thought that he was unhappy, so she plucked up her courage to turn him down.

Wang Teng: ???

To hell with not being suitable!

He finally understood what this woman was thinking and cursed in his mind. Her imagination was quite strong. How did she manage to think so far ahead?

Wang Teng felt wronged. He was being serious, but the other party misunderstood him. Was this his image in other people’s eyes?

“Really, I’m a few thousand years old,” Qing Lun continued hurriedly. She was afraid that Wang Teng wouldn’t believe him.

Wang Teng’s face turned darker. In the end, he decided to play along and sniggered. “It’s alright. I like ripe, old ones!”

He walked forward and grabbed Qing Lun’s chin, looking at her with greed and evilness.

Honestly, even though she was a few thousand years old, as a martial warrior, her appearance didn’t change. Her beauty remained, and she showed no signs of aging.

Someone who didn’t care about age might do something to her.

Qing Lun was shocked. Her face turned pale, but she couldn’t resist. She closed her eyes in despair.

“Alright, you can pass me your light element scripture,” Wang Teng released his grip and said calmly.

“Huh?” Qing Lun opened her eyes and stared at him absentmindedly.

“Didn’t you hear what I said?” Wang Teng asked.

“Yes, yes.” Qing Lun reacted upon seeing his firm gaze. She was thinking too much. She wished she could bury herself out of embarrassment.

She knew that she couldn’t resist. Although the light scripture was the foundation of her race, she was in Wang Teng’s hands now, who had total control of her. Her only choice was to give it to him.

She used a spirit skill to pass the light scripture to Wang Teng.

Wang Teng scrolled through the scripture that appeared in his mind. He blinked and waved his hand in disdain. “Alright, you can leave now. Don’t think too much. I’m not that thirsty.”

Qing Lun: o(∩_∩)o

Her face was all scrunched up. Then, she felt a little angry. *Brat, what’s with that contemptuous look?*

She didn’t want to have a May–December romance with Wang Teng, but she felt unhappy to be given the cold shoulder.

Well, she was still a beauty!

This was infuriating!

“Wait, sit down first,” Wang Teng suddenly said.

“What do you want now?” Qing Lun took a step back again and asked.

Was he lying earlier? Did he still want to...

“Cultivate.” Wang Teng took a deep breath. He found it tiring to speak to this lady.

Women were an obstacle in cultivation.

“Cultivate?” Qing Lun was stunned. She didn’t expect Wang Teng to ask her to cultivate here.

Wait!

He didn’t trust her!

Never mind, everything was fine as long as he didn’t have other thoughts toward her.

She kept quiet and sat cross-legged on the ground. She started to cultivate using the Light Scripture.

Wang Teng silently observed her from the side. He didn’t ask her to stop, so she continued cultivation as normal.

She cultivated until...

Bang!

A dull thud echoed in the quiet cultivation room.

Qing Lun felt an excruciating pain in her head. Before she fainted, she heard a faint sentence.

“I wanted to hit you for a long time.” Wang Teng let out a long sigh. He felt refreshed. He kept the Lightning Slap as if nothing had happened.

Collect!

Light Scripture*500

Light Scripture*300

Celestial Realm Spirit*800

...

“800 points. Well, it’s alright,” Wang Teng muttered as he looked at the attributes panel.

Light Scripture: 300/1000 (well-versed)

Wang Teng didn’t want to hit her. He did it for the attribute bubbles.

Although she didn’t drop many attributes, it allowed him to reach the well-versed stage, saving him precious time.

He was being honest. Hitting women wasn't a good thing. He wasn't that kind of person. He knew how to protect the fairer sex.

...

After some time, Qing Lun opened her eyes. She was lying on a bed.

"Where am I? What happened? Why did I faint?" She asked three questions at once in her confusion.

"You're awake!" A calm voice came from the side.

Qing Lun turned her head and squinted. She remembered that she was knocked unconscious by this bastard.

Well, she did misunderstand him, but how could he hit a weak lady like her?

Narrow-minded!

Qing Lun felt bitter.

"You can leave now," Wang Teng closed his eyes and said indifferently.

Qing Lun took a deep breath.

This was the tone. This tone was infuriating.

This young man was destined to remain single.

"Why? Are you unwilling to leave? I don't mind talking about life and ambition with you," Wang Teng raised his eyebrows and opened his eyes as he teased her.

"Farewell!" Qing Lun ran away.

"Tsk, idiot." Wang Teng pouted in disdain.

"Your taste is strong. You even tease such an old lady," Round Ball said softly.

Wang Teng's face turned black. He replied angrily, "Go away!"

"Caw, caw, caw..."

The door of the room was locked, and no one came to interrupt him again. Wang Teng sat cross-legged on the ground. The Light Scripture appeared in his mind, and he started cultivating.

At the same time, he focused on his poison and ice Forces too.

He found the celestial-stage scriptures for these two Forces in the Saint Star Pagoda.

He had to admit that as an academy, the Saint Star Pagoda had a wide range of scriptures for every element. It even had some for poison and ice Forces.

While practicing, Wang Teng entered the virtual universe to kill star beasts for attribute points. Time passed slowly.

More than ten days later, the Flaming River finally entered the Solar System and headed for Earth.

Wang Teng ended his closed-door meditation.

He had improved greatly over these few days. His light, poison, and ice Forces had all reached the planetary stage.

Constellation Light Force: 8000/20000 (second level)

Constellation Poison Force: 3500/30000 (third level)

Constellation Ice Force: 5800/30000 (third level)

His constellation light Force reached the seventh level of the planetary stage while his poison and ice Forces reached the third level.

2

This was mainly because light-element star beasts were hard to find, so he didn't get many attribute bubbles. That was why it was in last place.

As such, all of Wang Teng's forces had advanced to the planetary stage.

This was unbelievable. Other people would find it hard to achieve one breakthrough, but all his 11 Forces were at the planetary stage and above. This was frightening.

Besides building his Forces, Wang Teng also spent time studying domains.

With the help of his idea and a series of trials, he finally merged the divine flames and the Water Of Netherworld into their respective domains.

With the help of the Water Of Netherworld, the power of his water Force increased by at least ten times. Once he used it, his enemies would be terribly irritated.

He also instilled the divine flames into his fire Force, making it hotter. There were also other transformations that allowed his fire domain to become more powerful.

Mind you, it was hard to get rid of a divine flame or the Water Of Netherworld once you got stained. There would be life danger too.

This was a nightmare for his enemies.

At first, Wang Teng wanted to try merging the different domains too, but he found it a little difficult. Based on his current enlightenment and his understanding of domains, achieving this was still hard. He had to give up for now.

However, he was already at the doorstep. All he needed to do was to push it open.

Once that door was opened, it wouldn't just be the merger of two domains. It would be the simultaneous merger of all domains.

Wang Teng got excited just thinking about it.

"Wang Teng, we're landing." Round Ball's voice appeared in Wang Teng's mind.

"Alright, I'll come out," Wang Teng replied and strode out of the cultivation room.

Chapter 1125: Engagement Banquet

On Earth!

The news about the ending of the Olant Federation spread on Earth while Wang Teng was on his return journey.

There were even pictures as evidence.

It was invigorating!

Especially to those people whose city was destroyed. They cried and laughed in joy, venting their anger and hatred.

Then, another piece of news spread.

“What? Wang Teng became the owner of the Milky Way?”

“How’s that possible? That’s the entire Milky Way. The territory is huge and there’re many life planets in it like Earth. Even a cosmos-stage martial warrior might not have a galaxy. How did Wang Teng get it?”

This was unbelievable to Earthlings.

As the heads of the nations came back, all the citizens in the different countries received the news. There was a huge uproar on the entire planet.

At the same time, the countries made a decision. They must follow Wang Teng’s footsteps closely and not fall behind.

The heads of the nations widened their perspectives after visiting the Olant Federation with Wang Teng. They knew how tiny they were in front of powerful universe factions. They had to follow him closely if they wanted to find their spot in the universe.

The different nations hated the fact that Wang Teng wasn’t their citizen. That was why things were so troublesome. They wished they could do nothing and gain benefits!

At this moment, their jealousy toward Country Xia couldn’t be described in words.

“Hahaha, Wang Teng managed to become the owner of the Milky Way! He’s making us and Country Xia proud!”

“Great. Wang Teng is from Country Xia. This is a good thing for us.”

“Quick, prepare some gifts. I want to visit the Wang family.”

“That’s right. Let’s head to the Wang family. We must maintain a good relationship with them. This is our chance to rise.”

The people in Country Xia went crazy. Everyone felt proud.

Some families that were close to the Wang family got excited. They prepared great gifts and went to visit them. They would be struck by lightning if they missed this great chance.

Earth wasn't silent anymore. Many people felt a huge rise in their sense of security.

That was right, a sense of security!

In the past, when they were invaded by the Olant Federation, everyone realized how fragile and weak Earth was.

Even after driving away the Olant Federation, they didn't feel safe. They felt that the other factions in the universe would invade them in the future.

To the universe, Earth was honestly weak. Earthlings were like lambs waiting to be slaughtered. But they could finally feel at ease after knowing that Wang Teng had become the owner of the Milky Way.

With the entire Milky Way as its shield, Earth was definitely many times safer. Those universe factions would have a harder time if they wanted to attack them again.

...

"Sigh, another one has left." Wang Shengguo heaved a sigh of relief when he walked in.

He had welcomed many elders from different families over the past few days.

All of them came to visit the Wang family, hoping to have a relationship with them whether they were close or not.

The Wang family rejected everyone they could. They only welcomed those that they couldn't reject. Even so, it was a little tough.

1

Grandpa Wang, Wang Shengguo, and the others took turns welcoming the guests. It was like an unending stream.

"Dad, it must be tough for you." Wang Teng smiled as he walked out from the backyard.

"You threw the matter to us and went into hiding. We have to settle all these troublesome things," Wang Shengguo replied angrily.

It wasn't good to have a son who was too outstanding. He was exhausted.

"I need to cultivate." Wang Teng found an excuse and chuckled.

Wang Shengguo pointed at him in irritation.

"You can continue feeling proud. You seemed quite happy and delighted just now." Li Xiumei carried a cup of water over and rolled her eyes at Wang Shengguo, exposing him.

As Wang Teng's father, he was definitely proud and happy that Wang Teng had the ability to let the entire world flatter him. He was just putting on an act.

Wang Shengguo coughed awkwardly and said in embarrassment, "You should give me some face in front of our child."

"Hahaha." Wang Teng burst out laughing.

Everyone had someone they feared. Wang Shengguo was always helpless in front of Li Xiumei.

...

The outside world was noisy, but Wang Teng treasured the quiet time at home with his family, enjoying the happiness of a reunion.

Wang Teng and Lin Chuhan's engagement was put on the agenda too.

The parents from both sides had mentioned this many times, and finally, they were putting it into action.

Wang Teng and Lin Chuhan didn't reject the suggestion. Having walked so far, it was about time for an engagement to happen. Dragging it any longer would be inappropriate.

The Wang family discussed it with the Lin family and decided to hold the banquet three days later.

Grandpa Wang had found someone to find a good date. Three days later was a good day. It was suitable for engagement.

Invitations were sent out to the families that had a good relationship with the Wang family as well as some special figures.

Actually, with Wang Teng's current status, he was already many times higher in status compared to the others on Earth. However, people like the leader of martial arts were his elders and their relationship was good, so he must invite them.

Three days passed in the blink of an eye. At night, the Wang family decorated their home beautifully in red. Everything looked joyous and jubilant.

Expensive cars were parked outside their residence. The guests alighted and walked toward the residence with gifts in their hands.

The lobby was spacious and brightly lit.

Servants shuttled back and forth, attending to the guests. The delicious food and wine were specialties Wang Teng brought back from the universe. The whole experience was extravagant.

All the guests present were flabbergasted.

"This is majestic!"

The Zhou family was present too. Grandpa Zhou was in awe when he saw the decorations. Zhou Baiyun stood beside him, feeling frustrated.

In the end, she lost. She lost to Lin Chuhan.

Wang Teng didn't even consider her.

Zhou Baiyun suddenly felt regret. Had she known how extraordinary Wang Teng was back then and made the first move, she wouldn't have lost so terribly.

She believed that she would be able to mesmerize Wang Teng with her charm.

After all, Wang Teng was just a normal person at that time and the Zhou family was more powerful than the Wang family. If she had lowered her head, she might have captured Wang Teng's heart.

Unfortunately, everything was too late. One mistake and she lost the entire game. She had no chance anymore.

"Little Jun, you must control your emotions. You'll be the head of the Zhou family in the future," Grandpa Zhou reminded.

"Yes." Zhou Baiyun got a shock. She quickly hid the unwillingness in her eyes and followed her grandpa into the lobby.

Chapter 1126: Finally, I Can Hold Your Hand

Wang family.

In the lobby, more and more guests arrived. The place started to get lively.

Wang Teng's childhood friends entered the lobby with their fathers.

"You can play with the young ones yourself," Father Xu smiled and said.

"Alright, we won't hover around old people like you," Xu Jie teased.

He had started practicing martial arts and wasn't as frivolous and useless as he was in the past. As a result, his status in his family improved. He didn't fear his father anymore and even teased him occasionally.

"Young brat," Father Xu scolded as he kicked him.

Bai Wei and Yu Hao laughed at the side. The three youngsters went to look for their own circle of friends.

"Why do you seem a little absentminded?" Xu Jie noticed Bai Wei's abnormality and asked.

"Nothing." Bai Wei tidied her fringe and shook her head.

"Really? I can tell there's something wrong with you at a glance." Xu Jie rolled his eyes and observed his surroundings before whispering, "Do you like Brother Wang Teng?"

"No way!" Bai Wei blushed and shook her head in a flurry.

"You can't hide anything. We knew about it a long time ago," Xu Jie said.

"That's right." Yu Hao nodded.

He had some feelings for Bai Wei, but he bottled them after realizing that she fancied Wang Teng. He had a girlfriend now.

Bai Wei also stopped denying it. She shook her head dejectedly.

"You're too hesitant. How will Brother Wang Teng know if you don't dare to say it?" Xu Jie expressed disappointment.

Bai Wei sighed. She knew that she had missed many opportunities.

"It's not too late. I heard that martial warriors in the universe have a long lifespan. They normally have many wives. You might have a chance." Xu Jie chuckled and winked at Bai Wei.

"Ah!" Bai Wei was shocked, failing to react.

"It's up to you." Xu Jie sniggered. He didn't seem worried about making things more complicated.

"Hey, y'all are here." A voice was heard beside them.

Baili Qingfeng, Lu Shu, and some others walked over. They were Wang Teng's classmates at the Huanghai Military Academy. They were all youngsters, and with Wang Teng as the topic, they gradually got familiar with one another.

"Old Lu, when did you guys come?" Xu Jie walked forward and asked with a smile.

"We just got here," Lu Shu replied.

"We're still single, but Wang Teng is already getting engaged. This is unexpected." Baili Qingfeng shook his head.

"He silently left the singles club. So infuriating." Hou Pingliang bared his teeth.

"Erm, I'm getting engaged too," Song Shuhang suddenly said.

Everyone: ...

"F**k, really?" Hou Pingliang was the first to shout. He sounded as if he heard something incredible.

"We agreed to be single together, but you're leaving first," Baili Qingfeng said bitterly.

"Work harder." Song Shuhang patted Hou Pingliang's shoulder to encourage him.

"Go away!" Hou Pingliang slapped his hand and rolled his eyes in anger.

"I'm lucky that I have a sister." Lu Shu felt fortunate.

"What right do you have to speak, you sister fanatic?" Everyone looked at him with disdain.

Bai Wei and Xu Jie shook their heads and laughed when they saw them fooling around.

"What stage are you all at?" Xu Jie asked curiously.

"We're around the same, 9-star soldier level," Baili Qingfeng glanced at the others and said.

"9-star soldier level? You're quite fast. I'm only at the 7-star level." Xu Jie exclaimed.

"What can I do? I'm gifted." Song Shuhang shrugged.

"F**k!" Xu Jie cursed involuntarily when he saw Song Shuhang's irritating expression.

Guests started arriving while they were chatting. Suddenly, shouts were heard in front.

“Look, the leader of martial arts is here!”

“The three great commanders too!”

“Principal Ye Jixin from the Jixin Martial House is here!”

“Hey, those two are famous businessmen with the surname Ma, right? They came together? What a rare sight.”

...

All the important figures in Country Xia were here. This caused a commotion among the crowd.

Times had changed, but these characters were still influential figures on the planet. Ordinary families wouldn't be able to see them normally.

But they appeared simultaneously at the Wang family's engagement banquet. The Wang family was indeed powerful.

No, Wang Teng was the one who was powerful.

After these important figures arrived, they gathered together and conversed with one another. The atmosphere was harmonious.

The other families didn't dare to disturb them. They watched them from afar and paid attention to them.

The arrival of these important figures made them the limelight of the banquet. It was hard not to observe them.

“Thank you for coming to the banquet today. It's the Wang family's honor to have you,” Grandpa Wang came forward to welcome them. He was full of smiles. It was easy to tell how happy he was.

“Wang Teng's engagement party is a happy affair. We have to be present.” The leader of martial arts laughed.

“Wang Teng is getting engaged in the blink of an eye.” Commander Hong felt emotional. He had the strongest relationship with Wang Teng among the three great commanders.

“Thank you for taking care of him. Wang Teng wouldn't be who he is today without your help,” Grandpa Wang thanked them sincerely.

1

“Don't say that. We didn't help him much. He achieved everything himself.” Commander Hong waved his hand.

They chatted for some time. Soon, the hour arrived. The lobby dimmed, and a beam of light lit up on the platform in front.

A young man and a young lady walked out. They seemed perfect for each other.

The young man wore a black suit and was exceptionally handsome. He stood tall and straight, giving off an outstanding aura.

The lady wore a long red gown showing off her lean figure. She was pretty and charming. Tonight, she was the most beautiful here.

The couple caught everyone's attention once they came out. No one could shift their gaze away.

"Thanks everyone for coming to our engagement." Wang Teng looked around and smiled. "I'm actually a little nervous to have so many people as my witness."

The crowd laughed out of courtesy.

After the laughter subsided, Wang Teng opened his mouth again.

"I'm very happy today because the lady I love dearly is going to become my fiancée."

He looked at the girl beside him with love and care. His voice had never been so gentle. A ring appeared in his hand.

What ring was that?

A crystal shimmering as bright as a star was etched on it. It gave off a dazzling glimmer.

This was the longest-lasting crystal in the universe. It was multiple times more precious than a diamond.

Everyone stared at the crystal, especially the ladies. They ogled the divine crystal in envy.

Bai Wei and Zhou Baiyun wished that they were the ones wearing this ring.

In a corner, one more person was staring at this scene absentmindedly. Her expression was complicated.

2

"Finally, I can hold your hand." Wang Teng gradually slid the ring into Lin Chuhan's finger.

Lin Chuhan started to tear up a little when she heard his whisper. She stared at the young man in a daze. No one else could enter her eyes anymore.

Chapter 1127: One Of The Six Main Planets Of The Olant Federation: Silver Ash Planet!

Wang Teng's engagement banquet became a hot topic among elite families, especially the engagement ring that contained the eternal crystal.

That eternal crystal was extremely beautiful!

None of the crystals or gemstones on Earth could be compared to it.

The ladies couldn't forget about the eternal crystal after seeing it. Many people started to search for avenues to find the crystals.

Soon, a piece of news was released from the Wang family. It was said that the eternal crystal was worth as much as a life planet.

No one looked for it anymore.

An entire life planet!

A crystal had the same price as a planet. This was outrageous. No one dared to think about it. Only the owner of the Milky Way, Wang Teng, would have this much wealth.

After a round of astonishment and disappointment, the ladies started to envy Lin Chuhan. She was the owner of the eternal crystal now!

She must be the happiest lady in the world.

...

Three days later, the Wang family.

Wang Teng bid farewell to his family.

"Dad, Mom, we're leaving."

"You have only been home for a few days. Why are you leaving already?" Li Xiumei wiped the tears at the edge of her red eyes.

"Mom, I don't have a choice. How can I protect you if I don't become stronger?" Wang Teng hugged Li Xiumei and tried his best to appear lighthearted.

"Sigh, just protect Chuhan. She's leaving with you. Don't let her get injured," Li Xiumei patted his hand and said angrily.

"Yes, yes, don't worry. She's my wife. I won't let her be harmed." Wang Teng glanced at Lin Chuhan and hurriedly promised his mom.

Lin Chuhan smiled, feeling warm.

"Alright, leave quickly. Stop being an eyesore." Wang Shengguo waved his hand and chased him away.

"Dad, you're too heartless. I'm your son," Wang Teng said helplessly.

"I should give you a younger sibling soon. You're too wild. No one can find you at home," Wang Shengguo replied.

"What are you talking about at this age? How shameless." Li Xiumei blushed.

"Hahaha." Wang Teng burst out laughing.

The others laughed too.

"Grandpa, I'm leaving." Wang Teng waved his hand.

"Be careful. Protect yourself and Chuhan," Grandpa Wang said worriedly.

"Okay!" Wang Teng nodded.

“Brother, can you bring Doudou with you next time?” A small figure asked sweetly as she ran over and hugged Wang Teng’s legs.

“I’ll bring you along next time.” Wang Teng bent down and carried the little girl up. He tapped her nose. “Stay at home and cultivate properly.”

“Yes, yes, Doudou will cultivate properly.” Doudou nodded firmly.

Wang Teng put her down and looked around. He felt a little guilty when he saw their reluctant expression. He said in a helpless tone, “Don’t be like this. I taught you guys how to use the virtual universe, right? We can meet each other there. If you want, we can meet once every day.”

“Have a safe trip.” Wang Shengguo waved his hand.

Wang Teng didn’t reply to him. He took a closer look at everyone before boarding the Flaming River with Lin Chuhan.

The spacecraft floated up and disappeared into the horizon like a beam of light. Their destination was one of the six main planets of the Olant Federation, the Silver Ash Planet.

This time, Wang Teng was heading to the Silver Ash Planet to carve a Space Shift Array that would be linked directly to the Yulan Galaxy.

The Yulan Galaxy was where the Great Qian Empire was.

Creating a Space Shift Array was the same as connecting these two galaxies. If the people on Earth wanted to head to the Great Qian Empire in the future, they could go to the Silver Ash Planet.

There were numerous planets in the Milky Way, but he chose the Silver Ash Planet because it was closest to Earth. By spacecraft, the journey would only take five to six days.

A universe-level spacecraft was faster. Three days were enough.

...

Silver Ash Planet!

As one of the six main planets, the Silver Ash Planet was bustling. It couldn’t be compared to the Olant Planet, but it was still a powerful planet under the Olant Federation. There were many martial warriors there.

It was obvious that this planet was wealthy. Hence, the ‘governor’ that was sent here was someone with a powerful background.

However, the Olant Federation had collapsed, and all the elite families in the federation had crumbled. No one knew if Sir Kloet, the governor of the Milky Way, was still alive.

There was even news that the owner of the Milky Way had changed. It was startling.

The governor of the Silver Ash Planet felt as if he was treading on ice. He was afraid that something unexpected would happen.

Three days ago, he received a message. The new owner of the Milky Way, the person who caused the collapse of the Olant Federation, would arrive soon.

The governor became even more worried and anxious.

Today was the day. He woke up bright and early and prepared to welcome the new owner with the higher authorities of the Silver Ash Planet.

A spacecraft appeared within the vicinity of the Silver Ash Planet. There was a universe fleet behind him.

More than ten people sat in a meeting room. The atmosphere was tense.

“Governor, we have been waiting for three hours. Is the overlord coming?” a muscular human martial warrior frowned and asked.

“That’s right. We don’t have to be so serious, right? Why do we have to come to outer space to wait for them?”

“Where did this overlord come from? He seems quite arrogant.”

...

Once someone took the lead, the others followed and complained one after another.

These people came from wealthy backgrounds, so they were used to living comfortable life. They didn’t have a good impression of this overlord whom they had never met.

The governor of the Silver Ash Planet glanced at them and snorted. If these people know that the new overlord had destroyed the entire Olant Federation, would they still dare to say this?

“Even if we have to wait for three or thirty days, we will do so,” he said coldly.

“Governor, where is the overlord from? Why are you treating him with such respect?” a martial warrior asked.

The governor hesitated for some time and finally decided to reveal some information in case these people created trouble.

“The collapse of the federation is his doing,” he answered calmly.

“What?!” Everyone was dumbstruck.

“No way! The new owner of the Milky Way is him?!”

“No wonder the Milky Way landed in his hands.”

...

Everyone was flabbergasted. Waves of astonishment crashed into their hearts. No one dared relax anymore. They turned serious and waited obediently.

Since they were able to climb to this position, they weren’t stupid. They knew that there were some people they couldn’t offend.

Another two hours passed as they waited. Finally, a spacecraft flew over from the universe and appeared in front of them.

Chapter 1128: No Permission Is Needed. My Approval Is Enough!

“He’s here!” The governor trembled and shot to his feet.

The other higher authorities from the Silver Ash Planet stood up nervously as if they were facing a powerful enemy.

This was someone with a notorious reputation. No one knew what kind of person he was. What if he was a hot-tempered man who was hard to interact with?

“That spacecraft... is it cosmos level? No, it’s a heaven-level spacecraft, right?” someone exclaimed in astonishment.

“That’s a heaven-level spacecraft! Scary!”

“What background does our new overlord have? How did he get this heaven-level spacecraft?”

“His background must be frightening since he’s able to destroy the Olant Federation single-handedly.”

...

To the people here, the most powerful spacecraft they could think of was the heaven-level spacecraft. As for a universe-level spacecraft, they didn’t even dare to think about it.

It was hard to tell from the spacecraft’s appearance. One would only know its level after it displayed its strength.

The image of the Olant Planet getting damaged by the Flaming River didn’t spread. This was viewed as a humiliation, and the Flaming River became taboo. No one dared to mention it.

Hence, people outside the Olant Planet didn’t know about its existence.

“Incoming call. Do you want to answer the call?” A robotic voice was heard in the spacecraft.

“Answer it,” the governor gulped and replied hurriedly.

“Gitters, I’m here.” Wang Teng’s figure appeared on the screen.

The people were surprised when they saw Wang Teng. He was too young!

The overlord of the Milky Way was insanely young.

“My dear overlord, welcome to the Silver Ash Planet.” The governor of the planet got up and bowed with respect.

Wang Teng nodded. “Where should I park my spacecraft?”

“You’re the overlord of the Milky Way, so you do not need to stop at the docks. You can enter the Silver Ash Planet directly.”

“Lead the way.” Wang Teng didn’t say much.

“Yes!”

The governor of the Silver Ash Planet was very respectful. He showed no signs of impatience and ordered his spacecraft to lead the way.

Two spacecraft, one big and one small, flew toward the Silver Ash Planet one after another.

The Silver Ash City!

This was the main city of the Silver Ash Planet. It was also the most prosperous place.

At this moment, countless citizens in Silver Ash City looked up and saw two spacecraft landing at high speed. Soon, they were above the city.

The majority of the people recognized the governor’s spacecraft. But whose giant spacecraft was that behind it?

No one knew.

There was a commotion. The crowd started guessing the identity of this spacecraft’s owner.

It could enter the Silver Ash Planet directly with the governor’s spacecraft guiding it, so the person’s identity wouldn’t be simple.

After the spacecraft parked, a group of people alighted and entered the governor’s residence.

“These people are powerful. I think I saw a cosmos-stage martial warrior!”

“Not just one. There were a few formidable martial warriors as powerful as Kloet!”

“These cosmos-stage martial warriors are all following that young man.”

“Even the governor seems to be treating him with respect?!”

“Oh my god, the governor welcomed him personally. Just who is he?”

“Something big is going to happen to our planet.”

...

After entering the governor’s residence, the higher authorities of the Silver Ash Planet were shocked. The cosmos-stage martial warriors behind Wang Teng made them apprehensive.

The higher authorities felt fortunate.

Phew!

They were lucky they didn’t offend this new overlord. If not, they might die without knowing.

“Sir Kloet, I didn’t know that you were coming too,” an official of the planet saw Kloet behind Wang Teng and greeted him respectfully.

“Don’t call me sir. I’m a slave now,” Kloet replied expressionlessly.

“What?”

“Sir Kloet is a slave of the new overlord?!”

Everyone was flabbergasted. They started to fear and respect Wang Teng more. They lowered their heads as low as they could.

Soon, they arrived at a hall in the governor’s residence.

“Have a seat,” Wang Teng sat down without any qualms and said calmly as he glanced around him.

“Thank you, Overlord!”

Then, they sat down.

Wang Teng went directly to the point. “I came here because I want to build a teleportation array on Silver Ash Planet.”

“Teleportation array!” Everyone was stunned.

They had thought of many possibilities and prepared for the worst, but none of them expected the new overlord to want to build a Space Shift Array.

“May I know where you want this teleportation array to lead to?” Governor Gitters asked carefully.

This could be a good or bad thing. If it was linked to a dangerous place, the Silver Ash Planet would be in danger. But if linked to a prosperous planet, it was a great piece of news for them.

All kinds of trades and exchanges could promote the development of the Silver Ash Planet.

All the higher authorities present, including Governor Gitters, were closely linked to the Silver Ash Planet. Thus, they were all ears when they heard this piece of news.

“It will be linked to one of the planets in the Great Qian Empire’s Yulan Galaxy,” Wang Teng opened his mouth and said.

“Great Qian Empire! Yulan Galaxy!” Governor Gitters widened his eyes in disbelief.

This teleportation array was going to be linked to the Great Qian Empire?

Seriously?

That was a high-tier civilization. The difference between them was like a chasm. What right did they have to link to this galaxy?

They didn’t dare to think about this.

“Overlord, are you serious?” Gitters stuttered.

Everyone looked over with doubt and a tinge of anticipation.

“I won’t joke with you about this,” Wang Teng replied calmly.

“Sigh~”

Everyone breathed out, feeling overjoyed. They couldn't control their happiness, and it showed on their faces.

They felt as if they were struck in the head by happiness.

"Overlord, I don't know what to say." Gitters was extremely excited.

"Yes, Overlord. This is unbelievable. How did you gain the approval of the Great Qian Empire? Why did they allow us to build this teleportation array?" a woman with golden hair asked with anticipation shining in her eyes.

"No permission is needed. My approval is enough," Wang Teng said with a strange expression.

"Your... approval is enough?" Gitters was stunned. He didn't know what Wang Teng meant.

"The Yulan Galaxy is my territory too," Wang Teng replied.

"What?!" The higher authorities from the Silver Ash Planet were dumbfounded. They stared at him in a daze.

"If there are no more questions, please make the necessary arrangements. Gather your runemasters to make the teleportation belt," Wang Teng got up and said.

He wouldn't have spoken so much to these people if he didn't want to pacify and instill some fear in them so that the people on Earth could come here easily in the future.

"Yes, we'll arrange it immediately," Gitters regained his senses and replied hurriedly.

This event was extremely important. This would affect the future development of the planet, so he didn't dare to treat it haphazardly.

Orders were sent out from the governor's residence. Every runemaster in the Silver Ash Planet was called over.

Within half a day, these runemasters appeared in front of Wang Teng.

"Overlord, they're the best runemasters on our planet. Are they enough? If not, I can go to other planets to ask for assistance, but that will take some time," Gitters said carefully.

The runemasters looked at Wang Teng. They didn't expect him to be the overlord praised by Gitters.

"It's enough." Wang Teng glanced at them and nodded.

"Overlord, pardon me for being direct. We don't have any rune grandmasters here, so it might be difficult to create a teleportation array between the planets." A runemaster stepped forward after some hesitation.

"Erm..." Gitters's heart jumped. He didn't expect this to happen. He looked at Wang Teng anxiously.

"Don't worry. I'm a rune grandmaster. I'll host the construction of the Space Shift Array," Wang Teng replied calmly.

"You're a rune grandmaster!" The runemasters stared at Wang Teng in astonishment and disbelief.

He was an overlord and a rune grandmaster. Who the hell was this guy?

Wang Teng started constructing the array with the runemasters. The process went smoothly, and a large-sized teleportation array was finished after two days.

Chapter 1129: The First Step Of Earth Into The Universe!

A complete space teleportation array appeared in a hall in Silver Ash City.

There were many halls here equipped with teleportation arrays that could teleport people to nearby planets. They were Silver Ash City's most important resources and were the basis for the mutual communication between the planets.

But today, these teleportation arrays were just appendages. The most important array was the one that had just been finished. It enabled teleportation to the Great Qian Empire's Yulan Galaxy.

Governor Gitters even sent an army to guard it in order to prevent any accidents.

After the array was completed, Wang Teng planned to leave Silver Ash Planet and head to Yuming Planet, a planet in the Yulan Galaxy.

Yuming Planet was prosperous, and there were a wide variety of races there. The overall atmosphere was relatively good. That was why Wang Teng chose it.

That way, when people from Earth come to Yuming Planet, they would be able to blend in easily with the crowd.

Humans from Earth had the same appearance as most human races in the universe. There was no need to worry about being discovered by others.

Wang Teng's only concern was that they would be targeted by the Parkers family.

He had to consider them as well.

"Sir, are you leaving? Stay for a few more days. We'll satisfy you as the hosts." Governor Gitters tried his best to keep Wang Teng here.

"Governor Gitters, do your job well. As long as you don't cross the line, I'll not change the planet's higher-ups," Wang Teng patted the governor's shoulder and said with a strange expression.

He ignored his request and returned to the Flaming River with An Lan and the others. They then left Silver Ash Planet.

"Huff!" The governor let out a long sigh, and a trace of joy flashed in his eyes.

He was under so much pressure in front of Wang Teng. Now that he had no plans to abolish the management, it was a great blessing to him.

However, when he thought about the words that the new overlord left for him, he didn't dare to neglect his duties. If he crossed his bottom line, it might not be as simple as being dismissed from his position. He might just lose his life.

“Did you hear what the overlord had just said?” Gitters turned and looked at the other big shots of Silver Ash Planet.

“Don’t worry, Governor. We won’t fool around with our lives.” Everyone expressed their opinions.

“That’s good. This new overlord is not easy to deal with!” Gitters nodded satisfactorily.

Everyone agreed.

...

In the Flaming River spacecraft, An Lan stood beside Wang Teng and smiled, “The management of Silver Ash Planet probably wouldn’t dare to do anything funny.”

“I can’t be bothered about these things.” Wang Teng shook his head and said to Bertha, who was standing quietly behind him, “Bertha, I’ll leave the affairs of these planets to you from now on.”

“Ah?” Bertha was stunned.

She never thought that Wang Teng would hand over the managing authority of a galaxy to her so easily.

She wasn’t belittling herself, but she was just a slave after all!

But she was overwhelmed upon getting such an important position. It seemed that Wang Teng wasn’t lying when he said that he would set her free when he reached the heaven stage.

“Don’t worry, I’ll get Round Ball to help you.” Wang Teng smiled when he saw her like this.

“Yes, yes.” Bertha felt pressure on her shoulders, but she could only agree with him.

She knew that Round Ball was an intelligent lifeform. With its help, it would be much easier.

...

Yuming Planet!

Ten days later, the QY-E63 spacecraft landed on the planet.

After entering the Great Qian Empire’s territory, he kept the Flaming River spacecraft.

The Great Qian Empire was unlike the Olant Federation. Universe-stage martial warriors could appear anywhere within the empire. It would be troublesome if he was targeted.

Wang Teng parked his spacecraft at the planet’s docks and didn’t disturb too many people. Only the higher authorities of Yuming Planet knew of his arrival.

Yuming Planet, the governor’s residence!

“Baron Wang Teng, you want to build a space teleportation array?” Yuming Planet’s governor, Zhuang Weize, was surprised when he learned Wang Teng’s purpose for coming here.

This person was a human martial warrior and was from the strongest family on the Yuming Planet—the Zhuang family!

He was a heaven-stage martial warrior!

He might not be of status as high as Wang Teng, but his strength and background were not inferior to his. That was why Wang Teng was more polite to him.

This was the difference between the Great Qian Empire and Olant Federation.

In the Great Qian Empire, it wasn't rare for a heaven-stage martial warrior to be part of the higher authorities of a prosperous planet.

But in the Olant Federation, a cosmos-stage martial warrior could be a guardian of a galaxy.

"That's right, the location has been selected. When the space teleportation array is activated, there will be martial warriors who will be teleported here. I'll have to trouble you to take care of them." Wang Teng nodded and smiled.

"Baron Wang Teng, you're too polite. If I may ask, who are these martial warriors?" Zhuang Weize shook his head and asked.

"They are martial warriors from my home planet. They want to enter the universe earlier, and I plan to fulfill their wishes."

"I see."

"Governor Zhuang, you have to keep it a secret for me. You should know the matters involving me and the Parkers," Wang Teng cautioned.

Zhuang Weize was flustered and smiled bitterly. "Baron Wang Teng, you're really giving me a big problem!"

"Hahaha." Wang Teng burst out laughing.

The planet's governor would have to approve the construction of the space teleportation array in Yuming Planet. There was no point in hiding it from him.

This way, Zhuang Weize would help to hide the identities of the people from Earth. If this was exposed, he would be the first person to be suspected. Wang Teng would definitely find him.

Although he was a heaven-stage martial warrior and wasn't particularly afraid of Wang Teng, it was still Wang Teng's territory. Some things had to be compromised.

Moreover, his family was here. They couldn't leave just like that.

"Baron Wang Teng, everyone knows that you have come to Yuming Planet. We have prepared a feast for you. You must come tonight." Zhuang Weize invited him.

Sure enough, he wasn't angry with Wang Teng and was even full of smiles. He welcomed him here.

"Alright, I will be there on time." Wang Teng didn't refuse.

After reaching some agreements with the Zhuang family, they got along well as though they knew each other for decades.

"You people really like to beat around the bush. So troublesome." An Lan shook his head.

“There’s no choice. The Zhuang family is Yuming Planet’s overlord. If we don’t build a good relationship with them, it would become troublesome to carry our plan.” Wang Teng shook his head.

“There should be many planets in the Yulan Galaxy. Why don’t you choose other planets?”

“The factions on the other planets are much more complicated, unlike Yuming Planet, which only has the Zhuang family. I just need to handle them. Fortunately, Governor Zhuang is sensible. Otherwise, it wouldn’t be this easy.”

“Wang Teng, I thank you on behalf of the people of Earth,” the leader of martial arts said solemnly.

He was part of the first batch of humans from Earth that entered the universe!

The first step of the Earth into the universe, and it started with Yuming Planet...

Chapter 1130: Individual Paths

At night, Wang Teng brought Lin Chuhan to the dinner party on Yuming Planet. The location was in the central area of the main city, a huge manor near the governor’s residence.

“Hahaha, Baron Wang Teng, you are finally here.” Governor Zhuang Weize personally welcomed him.

“We’re not late, are we?” Wang Teng asked.

“You’re just in time.” Zhuang Weize smiled and looked at Lin Chuhan. “This is?”

“This is my fiancée, Lin Chuhan,” Wang Teng introduced her.

“I see, it’s Baron Wang Teng’s fiancée. Greetings Ms. Lin.” Zhuang Weize was very surprised and nodded at Lin Chuhan.

“Greetings!” Lin Chuhan seemed a little nervous attending such an occasion, but she had experienced a lot of things after all. She maintained her elegance and grace.

She was astonished and finally realized how respected and noble Wang Teng was in the Great Qian Empire.

A planet’s governor respected him, who was even a heaven-stage martial warrior. It was unbelievable.

She couldn’t imagine how Wang Teng went to the Great Qian Empire alone and finally became a Baron.

Wang Teng didn’t mention how he got there, but she could guess the difficulties that he would have faced.

“A lot of ladies are probably going to be disappointed tonight.” Zhuang Weize winked at Wang Teng.

“Governor, are you trying to get me kicked out by saying this in front of my fiancée?” Wang Teng glared at him.

“Hahaha.” Zhuang Weize laughed as if he was exacting his revenge.

Wang Teng immediately understood that Zhuang Weize was trying to get back at him for his plans just now.

But this revenge was rather harmless. Wang Teng laughed as well.

Lin Chuhan secretly pinched Wang Teng's waist and twisted her hand 360 degrees.

Wang Teng's eyes widened as he took a deep breath.

Zhuang Weize pretended not to see it and said with a smile, "Let's go, Baron Wang Teng, everyone is waiting for you."

The three of them walked into the manor.

The place looked like it was part of a palace. It was luxurious and spacious.

"What do you think? It's not bad, right?" Zhuang Weize asked.

"It's pretty good, much better than my mansion on Great Qian Planet." Wang Teng was surprised.

"Hahaha, as long as you like it. This is a gift that everyone has prepared for you."

"A gift for me!" Wang Teng was stunned for a moment.

He originally planned to buy a house in Yuming Planet after he had settled all the matters here. After all, this place would serve as his base camp in the Great Qian Empire.

He didn't expect that Zhuang Weize had already prepared one for him. And it was such a luxurious manor.

Lin Chuhan also looked around in shock. It was huge, luxurious, and well-located. They couldn't ask for anything more, and they gave it to Wang Teng.

"That's right, this is everyone's sincerity, Baron Wang Teng shouldn't refuse this."

Wang Teng shook his head, as if he was about to refuse, but suddenly said, "Then I shall accept it."

"..." Zhuang Weize.

The three of them then walked into the manor's hall. The guests inside greeted them one after another.

"Baron Wang Teng!"

"Baron Wang Teng is here!"

"Baron Wang Teng, I've heard many things about you."

...

Wang Teng became the focus of the whole banquet. Even Lin Chuhan attracted countless gazes.

The next day, Wang Teng began to set up the space teleportation array.

He had previously locked in the space coordinates of Silver Ash Planet and he only needed to connect the space coordinates now before the teleportation would be ready.

A day later, the array was completed.

The space coordinates of the two planets had been connected. From now on, people from Earth could travel to the Great Qian Empire.

Afterward, Wang Teng gathered the people from Earth together.

This time, there was the leader of martial arts, Old Han, Dan Taixuan, Lin Chuhan, and others, as well as some planetary-stage martial warriors from various countries.

“Everyone, you will have to depend on yourselves now.” Wang Teng looked around.

“You’ve done enough,” the leader of martial arts stood up and said with gratitude.

“Yes, that’s enough.” Old Han smiled.

“What are your plans next?” Wang Teng asked.

“We want to join the Mercenaries Alliance.” The leader of martial arts and Old Han exchanged glances with each other.

The planetary-stage martial warriors from various countries had a similar idea. Although it was dangerous, becoming a mercenary was the best way to get stronger in the universe.

“I will keep the cosmos-stage martial warriors from the Olant Federation. If you encounter any problems that cannot be resolved, you can find them,” Wang Teng said.

“Thank you.”

“Then, I wish everyone the best of luck. May martial arts flourish,” Wang Teng said solemnly.

“May martial arts flourish!” The leader of martial arts and the others nodded.

Wang Teng knew that if people from Earth wanted to enter the universe, they had to undergo all kinds of danger. He couldn’t protect them like their nanny. They had to depend on themselves.

That was why he didn’t say anything else and let them work hard and fight for it.

They started from nothing to what they were today, experiencing life and death. They were actually much stronger than he imagined!

He believed that these outstanding people from Earth would thrive in the universe!

...

After parting with the leader of martial arts and the others, Wang Teng and Lin Chuhan strolled around in the manor. He frowned. “Chuhan, are you really not going to stay with me?”

“No, I can’t always follow you,” Lin Chuhan brushed away her fringe and said with a hint of stubbornness in her eyes.

Wang Teng sighed in his heart. He knew that Lin Chuhan had her own pride and didn’t want to depend on him. He could only urge her. “Alright, you have to be careful. You must let me know if anything happens.”

“Okay, okay. When did you become an old mother?” Lin Chuhan joked.

“No way, what mother? I’m just worried about you. Is it wrong?”

Lin Chuhan suddenly stopped and hugged him, murmuring, “I know you’re worried about me. But I also hope that the next time something happens, I can help you instead of being just a pretty vase.”

Wang Teng’s heart shook, and he hugged her back tightly. A girl was willing to risk her life to improve herself in order to help him. That intention was enough to prove everything!

“Alright, I’m going back to rest.” Lin Chuhan smiled and separated from Wang Teng.

“Let’s go together!” Wang Teng shouted from behind.

Silence.

“You brat, are you in such a hurry?” A voice suddenly appeared behind Wang Teng.

“You scared me to death.” Wang Teng patted his chest and saw Dan Taixuan on the roof, “Sister Xuan, you’re spoiling things for me!”

“You can’t blame me if you don’t have the skills.”

“Why did you climb so high? Are you gazing at the stars?” Wang Teng rolled his eyes.

“Come and have a drink.” Dan Taixuan raised the wine bottle in her hand.

“Sigh, okay. I’ll accompany and drink with this old woman.” Wang Teng shook his head. He then jumped onto the roof and sat beside Dan Taixuan.

Dan Taixuan: ...

What do you mean by old woman!

It’s a blessing for you to be engaged to someone.

“The universe is so big!” Wang Teng didn’t look at her and gazed at the night sky.

“It’s big, so big that it makes people feel scared.” Dan Taixuan threw a bottle of wine at him.

“Now that we’ve said goodbye, I’m afraid we won’t be able to see each other for a while.” Wang Teng took a sip.

“We’re used to it. When we were on Earth, we used to go to Xingwu Continent. Sometimes, we stayed for a year.” Dan Taixuan shook her head and said, “But this time, we can’t just go back to Earth. It’s too far.”

1

“This is a completely unfamiliar starry sky.” She raised her hand and looked at the night sky through the gap between her fingers.

“Yeah, it’s too far.” Wang Teng raised his wine bottle. “Come, have a drink.”

“Bottoms up.” Dan Taixuan smiled slightly.

“Cheers.

“Take care of yourself, your life is the most important.” Wang Teng cautioned.

“I know it already. Do you think I’m dumb?” Dan Taixuan said.

“That’s not necessarily true. I still remember your fighting style. It’s quite crazy. You look like you want to throw your life away.” Wang Teng snickered.

“Hmph, that’s because I was fighting against weaklings. If it were someone stronger, I’d have run away long ago,” Dan Taixuan said slyly.

“I didn’t know you were like this.” Wang Teng was stunned.

“Hahaha...”
