

Martial Arts 1131

Chapter 1131: Kill!

In the end, Wang Teng departed alone.

He left An Lan on the Yuming Planet because he was worried about Lin Chuhan and the others. They would be safer with a heaven-stage martial warrior protecting them.

However, An Lan would be hiding in the dark. He wouldn't appear unless absolutely necessary. This was Wang Teng's special arrangement. It was the only way Lin Chuhan and the others could grow up quickly.

At the same time, Wang Teng left a clone beside Lin Chuhan. That way, he would be able to know immediately if she was in any danger.

He even gave Lin Chuhan and Dan Taixuan many items that could save their lives, such as darts, battle armor, weapons, etc.

He felt more at ease after planning layers and layers of protection.

At this moment, within the Flaming River spacecraft, Round Ball appeared in front of Wang Teng and started laughing.

"Are you done?" Wang Teng asked angrily with a black face.

"Wait, let me laugh for another three minutes. Hahaha..." Round Ball clutched its tummy and rolled around in mid-air, laughing uncontrollably.

"Is it very funny?" Wang Teng asked helplessly.

"I didn't know that you had this side. You're like an old father sending his daughter away from home," Round Ball finally stopped and teased Wang Teng.

"Hmph, I'm doing this because the universe is very dangerous." Wang Teng snorted.

"Alright, I won't laugh at you anymore. You're right, the universe is very dangerous. It's better to be careful." Round Ball paused for a moment. "But I'm surprised that you left An Lan there. Having a powerful subordinate beside you all the time isn't a good thing."

"I know." Wang Teng nodded.

An Lan was powerful. Once he started fighting, Wang Teng wouldn't have to do anything. This wasn't good for his martial arts path!

Although he could upgrade himself by picking up attributes, he had to rely on himself during a battle.

It would be better if he had real combat experience. As a result, Wang Teng left An Lan behind.

"I'm glad you know." Round Ball nodded. It realized that Wang Teng was more mature than it thought. Other people might love to have a formidable warrior beside them since it was safer.

"How far away are we from the No. 29 Defense Planet?" Wang Teng looked out into space.

“We’ll most likely arrive in two days.” Round Ball looked at the star chart and smiled. “Luckily, we’re in the Great Qian Empire. We can go to the nearest galaxy through the teleportation array on Yuming Planet before heading to the No. 29 Defense Planet. This shortened our trip. If not, we’d need half a month.”

“The League of Talents will be held half a year later. Our time is tight.” Wang Teng nodded.

This time, he decided to head to the No. 29 Defense Planet.

There were 136 defense planets in the Great Qian Empire. They were all used to fight against dark apparitions.

They were ranked based on their numbers. The greater the number, the more dangerous the planet.

The No. 29 Defense Planet they were heading to was many times more dangerous than the No. 4 Defense Planet Wang Teng stayed in.

Why did he choose to go there?

One reason was that he wanted to raise his ability. After all, the battlefield had the most attribute bubbles.

The second reason was that he wanted to gain some military exploits to raise his influence in the Great Qian Empire. This would help him in the future when he tackled the Parkers.

Boom!

Suddenly, the spacecraft trembled violently. A loud explosion was heard outside.

“Alert! Alert! Defense shield has shattered! Defense shield has shattered!”

“What? The defense shield has shattered?” Wang Teng was shocked.

The defense shield wasn’t damaged. It had shattered!

“What’s going on?” Wang Teng was shocked and furious.

“Enemy attack!” Round Ball’s expression changed slightly as it activated the panoramic simulation mode.

Some distance ahead, a giant figure was standing on a meteorite floating in the darkness. He looked like a deity and had an ice-blue Force glow shimmering around his body. A chill spread out from him, freezing the meteorite.

“Universe-stage martial warrior!” Wang Teng and Round Ball exclaimed at the same time.

This was a terrifying universe-stage martial warrior!

“Damn it. I didn’t expect a universe-stage martial warrior to attack us in the Great Qian Empire’s territory.” Round Ball frowned. There was panic in its eyes.

“Don’t waste time. Run!” Wang Teng interrupted it.

Round Ball increased the speed of the spacecraft and hurried away in the opposite direction.

“Hmph!”

A snort rang out like a thunderclap, echoing in space. Then, an ice-blue blade glow cut the darkness, heading straight for them. He didn't use any battle techniques. It was just a simple blade glow.

However, the chill in the blade glow was astonishing. All matter was sealed in ice before it was disintegrated by the powerful Force.

“Wang Teng, we don't have any time left. Abandon the ship, quick!” Round Ball started shouting. It was in a panic.

Wang Teng saw the blade glow and knew that the QY-E63 couldn't evade it. He had started moving before Round Ball's reminder.

“Let's go!”

The space in front of him distorted, and he merged with it, disappearing on the spot.

Space Flash!

This was an innate skill of the Shadow Assassin Clan. Wang Teng got it from Hardy.

Hardy felt frustrated. He got tormented without knowing what Wang Teng wanted.

Just as its name suggested, the skill allowed one to hide in space to evade an attack.

It was different from the space shift Wang Teng used in the past. Space Flash was more direct and faster. A short teleportation could be achieved in the blink of an eye.

Boom!

Almost at the same moment Wang Teng used his Space Flash, the blade glow landed on the QY-E63 spacecraft.

The spacecraft froze. Then, it shattered into pieces. This was how powerful a universe-stage martial warrior's attack was!

Wang Teng appeared a thousand meters away with a black face.

Round Ball was cursing furiously too.

The QY-E63 spacecraft had been left behind by Nangong Yue. Yet, it was destroyed in a single blade attack. The poor thing had suffered a lot ever since it followed Wang Teng.

It got damaged again and again, and now, there was nothing left, not even a shard of it. It couldn't be repaired anymore.

Wang Teng didn't stop for long. He took out the Flaming River spacecraft and asked Round Ball to activate it. Then, they escaped into the distance.

The time it took was extremely short. Wang Teng had already asked Round Ball to activate the spacecraft before he took it out, so it could move the moment it came out.

This was the advantage of having an intelligent lifeform. He couldn't do it without Round Ball's help.

Boom!

The Flaming River turned into a beam of light and disappeared with a loud bang.

“Huh?” The universe-stage martial warrior was surprised. He looked in the direction of the spacecraft. Then, he disappeared too.

Chapter 1132: Restricted Land, Sinister Gray Mist!

Wang Teng and Round Ball had solemn expressions as they stood in the Flaming River spacecraft. They had activated the panoramic simulation mode.

An ice-blue Force glow as bright as the sun was plummeting toward them at a high speed. The frightening pressure destroyed all the meteorites around him.

The Flaming River escaped frantically at the fastest speed possible.

“Damn it, why is there a universe-stage martial warrior hunting us down?” Round Ball shouted in anger.

“Even the leader of martial arts and Chuhan don’t know that I’m heading to the No. 29 Defense Planet. The only possibility is that someone got this piece of news from the higher authorities in the Great Qian Empire. They waited here to ambush us,” Wang Teng said grimly.

Wang Teng had to gain permission from the Great Qian Empire before going to the No. 29 Defense Planet. Thus, he informed the official departments before his trip. That was the only place the problem could happen.

“It must be the Parkers!” Round Ball bellowed.

“They’re like mad dogs chasing after me.” Wang Teng took a deep breath and forced himself to calm down.

Getting angry at this time wouldn’t do him any good. He should focus on escaping from the universe-stage martial warrior.

“What should we do now? We can’t escape, and our path to the No. 29 Defense Planet is also blocked,” Round Ball said helplessly.

“We can only take one step at a time.” Wang Teng blinked. “Are there any life planets nearby? We can go there. The universe-stage martial warrior won’t dare to attack when there are many people around.”

“No, we’re near the No. 29 Defense Planet, so there are no life planets around. Even if there is one, it would be barren. The universe-stage martial warrior has nothing to be fearful of and no one will stop him.” Round Ball shook its head.

“Are there any dangerous places that universe-stage martial warriors are afraid of?” Wang Teng’s mind worked furiously.

“Let me check.” Round Ball understood Wang Teng’s plan. Its eyes lit up as it replied to him in a hurry.

It immediately took out the star chart and checked the situation of the planetary sectors around it. Planets flashed one after another; the images were impossible to capture using one's eyes. Only an intelligent lifeform like Round Ball could check through them so quickly.

"Wang Teng, I found it. 600 lights years away, there's an area regarded as restricted ground. Even universe-stage martial warriors have to be careful there," Round Ball said.

"Do you know why?" Wang Teng frowned.

"I'm... not sure." Round Ball investigated but found no relevant information. It only knew that this was a restricted ground.

"Any other place?"

"No, they're all far away."

Right after Round Ball finished speaking, the spacecraft trembled. The alarm started blaring. "Alert! Alert! Defense shield is 20% damaged!"

The two of them were appalled. It was obvious that the universe-stage martial warrior behind them had started attacking.

"Nevermind, let's head to that restricted area," Wang Teng said with an ugly expression. He didn't dare to hesitate anymore.

No matter what, they need to break free from this universe-stage martial warrior first!

A universe-level spacecraft could resist the attack from a universe-stage martial warrior but not for long.

Once the other party destroyed their defense shield, they would have no chance of escaping. It was like catching turtles in a jar.

"Okay!" Round Ball knew that this was an emergency. They had no choice. This was their only way out.

It hurriedly controlled the Flaming River spacecraft and headed in another direction.

"Huh?"

The universe-stage martial warrior chasing them exclaimed again. Without stopping, he slashed out with his blade. The attack cut through space and landed on the Flaming River.

Unfortunately, this was a universe-level spacecraft; he couldn't destroy it easily. He had to continue chasing and damaging its defense shield.

"Alert! Alert! Defense shield is 35% damaged!"

"Alert! Alert! Defense shield is 40% damaged!"

"Alert! Alert! Defense shield is 50% damaged!"

...

Alarms rang through the spacecraft continuously. It was head-splitting.

Wang Teng and Round Ball were agitated. Their expressions couldn't be gloomier.

Quick! Quick! Quick!

They prayed in their hearts, wishing that they could reach the restricted area in the next second.

They did put up some resistance. The Flaming River Universe Lord kept firing Force attacks in an attempt to delay the universe-stage martial warrior.

However, the other party arrived too quickly. It was impossible to cause any damage to him. They could only drag his speed down a little.

"Alert! Alert! Defense shield is 80% damaged!"

"Alert! Alert! Defense shield is 95% damaged!"

...

The defense shield was on the verge of collapsing.

"Quick!" Round Ball shouted before smiling. "We're here! Wang Teng, do you see that gray misty area ahead? We're here!"

Wang Teng was invigorated. He hurriedly looked in front.

An eerie patch of gray mist floated silently in the emptiness ahead. It was spread out, so no one could see behind it. There was only the faint outline of a meteorite barely visible.

"Here!" The universe-stage martial warrior was shocked when he saw the gray mist. He finally realized Wang Teng's destination.

Wang Teng stared at the gray mist. Honestly, he was afraid because the path in front was unknown. Also, the gray mist was thick and sinister. He didn't know what dangers there were behind it.

But at this crucial moment, he didn't have a choice. He had to take the risk. Finding an escape in death!

"Quick, let's go in!" Wang Teng ordered.

"Stay back!" A cold bellow came from behind them.

The Flaming River seemed to be blocked by an invisible wall. Its speed decreased tremendously as if they were numerous strings dragging it down.

The gray mist was only an inch away, but it seemed as far as the horizon. They couldn't get any closer.

"The universe-stage martial warrior has linked the small world in his body to the real world and formed a wall in front of us," Round Ball said seriously.

"You're really putting in a lot of effort to catch me!" Wang Teng furrowed his brows. Many thoughts went through his mind.

The next instant, an idea popped up in his mind, and he said in a low voice, "Round Ball, open the cabin door!"

“You can’t go out. A universe-stage martial warrior isn’t like a heaven-stage martial warrior. You’ll die if you step out,” Round Ball said hurriedly.

“Don’t worry, I’m not going out. I just want to see if I can break the restrictions of the small world.”

Looking at Wang Teng’s expression, Round Ball knew that he was confident. It opened the cabin without another word.

Wang Teng appeared at the cabin door, holding a universe-level sword in his hand. The power of origin surged in his body as he slashed his sword out.

Origin of Flame!

Origin of Metal!

Origin of Wind!

Three origins were merged into the Godslayer Sword Scripture. They were hurled out with the beam of sword glow.

Boom!

A violent explosion occurred.

Then, the power of the small world started cracking, and the Flaming River was free again. It shot out and dashed into the gray mist.

“How’s that possible?” The universe-stage martial warrior was in disbelief.

He stared at the spacecraft with a sharp gaze. Anyone would be frightened if they saw him. However, he could only watch the spacecraft as it entered the gray mist, unable to stop it.

“Hmph, do you think you’re safe just because you escaped inside?” The universe-stage martial warrior snorted. Then, he entered the gray mist too.

Everything was gray in this area. The visibility range was only a few hundred meters.

“Fortunately, the Flaming River is a universe-level spacecraft. Otherwise, the meteorites floating around would have been enough to smash it down.

“Fly inside,” Wang Teng said.

“Are you afraid that the universe-stage martial warrior will continue chasing us?” Round Ball asked.

“I’m not worried. It’s definite.”

Round Ball gritted its teeth and controlled the spacecraft to fly deeper in. The meteorites crashed into the defense shield before shattering into pieces. No damage was done to the spacecraft.

“Wang Teng, the gray mist seems to be corrosive,” Round Ball said suddenly.

“Corrosive!” Wang Teng was stunned.

“Yes, corrosive. This seems to be a poisonous mist.” Round Ball stared at the data in front of it.

“Poison mist? Can our spacecraft withstand it?” Wang Teng asked with a frown.

“There’s no problem for now. However, I can’t promise anything once we get closer to the core.”

“Wait and see. If we can’t handle it, we’ll retreat.” While speaking, Wang Teng was surprised. He saw attribute bubbles in front.

2

Chapter 1133: Savage Giant Beast, Toxic Mirage!

Constellation Force (Poison)*100

Constellation Force (Poison)*150

Constellation Force (Poison)*120

...

Wang Teng stood in front of the Flaming River’s control station and released his spiritual power silently. He started collecting the attribute bubbles.

When he saw the constellation poison Force, his eyes lit up. There were poison attribute bubbles here.

Wang Teng didn’t know if he was lucky or unlucky.

He got chased by a universe-stage martial warrior and had to escape to a forbidden zone. Yet, he managed to get benefits.

Suddenly, his expression changed.

“Round Ball, continue heading in. The universe-stage martial warrior is here.”

Round Ball’s artificial heart skipped a beep. It didn’t dare to waste any time and controlled the spacecraft to head deeper.

Not long after they left, a huge figure appeared on the spot where the Flaming River was. It was the universe-stage martial warrior.

There were layers of ice surrounding his body like battle armor, helping him withstand the corrosion from the gray mist.

A beam of holy light shot out of his eyes as he scanned his surroundings. He muttered to himself, “They seem to be here?”

The lofty figure hesitated for a moment before he stepped forward again.

The Flaming River traveled in the gray mist for half an hour. The mist was starting to get thicker.

Constellation Force (Poison)*500

Constellation Force (Poison)*420

Constellation Force (Poison)*600

...

Wang Teng realized that there were more bubbles here with higher values. They were larger than the ones in the outskirts.

“Round Ball, circle the area,” Wang Teng said with a frown after he picked up all the attribute bubbles.

They were already deep inside the mist. It was so thick here that he couldn’t survey the environment with his spiritual power either. Wang Teng didn’t dare to go further.

Round Ball nodded grimly.

Under its control, the Flaming River lowered its speed and started circling in the gray mist.

Wang Teng released his spiritual power, observing the universe-stage martial warrior to see if he had caught up while picking up attributes.

Within half an hour, his poison Force rose exponentially, going from the third level of the planetary stage to the fifth.

Wang Teng was elated. This was a surprise gain. Then, he turned serious.

This place was strange and eerie. The visibility was practically nil. It was corrosive too. If they weren’t piloting a universe-level spacecraft, they might have been stranded here.

“We need to leave after three hours or the spacecraft will be corroded by the gray mist,” Round Ball hesitated before saying.

“Three hours! The universe-stage martial warrior might not leave so easily.” Wang Teng shook his head with a frown.

“Can we go out from the other side of the mist?” he thought of something and asked again.

“Let me see.” Round Ball started searching for information about the gray mist again. After some time, it shook its head.

“How is it?” Wang Teng’s heart sank, but he still had to ask.

“The situation doesn’t look good. The black mist is constantly spreading, changing, and moving. No one knows how big it is. What’s more, you can’t tell the directions in the mist, so you won’t know where to exit from.”

“No one has ever entered this restricted zone and left safely?” Wang Teng took a deep breath.

“Even if someone did, he must be a powerful martial warrior. No one would share this kind of news,” Round Ball said helplessly.

Wang Teng felt like cursing.

“Oh right, you can put up a mission in the virtual universe and see if anyone knows about it.” Round Ball thought of an idea, its eyes lighting up.

“Alright, let’s do that,” Wang Teng said. Suddenly, he paused, and his eyes shimmered. “Wait, I’ll use the Secondary Career Alliance to send the mission. If the person is able to provide relevant information, I can make grandmaster-level dans or weapons for him.”

He didn’t mind putting in a heavy reward for this mission. Either way, his life was the most important.

“Alright.” Round Ball didn’t say much. It immediately sent out a mission using the Secondary Career Alliance’s name.

Boom!

At this moment, a loud explosion was heard, and the spacecraft suddenly trembled.

“Has he caught up with us?” Round Ball’s expression changed.

“I don’t think so. It looks like a star beast.” Wang Teng squinted. “I saw a giant black shadow just now.”

He activated his Spiritual Sight and Eyes of Essence and looked into the gray mist.

Oh my god!

Gray balls of light had appeared around the Flaming River silently.

“F**k!” Wang Teng got a fright and cursed involuntarily.

“Let’s leave!” he shouted at Round Ball. There was no time for an explanation.

Round Ball was in a daze. Anything could happen in this eerie gray mist. Looking at Wang Teng’s expression, this wasn’t a small matter.

“Head where?” It had no choice but to control the spacecraft and ask Wang Teng loudly.

“There.” Wang Teng pointed to the left. There were fewer balls of light there. “Shoot a cannon there first.”

“Okay!” Round Ball had a good trait. It would follow Wang Teng’s order without a question.

The Force cannon shifted to the left and fired a shot.

Boom!

Along with a loud explosion, the frightening Force pushed the gray mist away and cleared a path.

Finally, Wang Teng and Round Ball could see what was ahead of them. There were numerous black and savage-looking giant beasts. Their bodies were covered with thorns and hooks, and they had two gills on their cheeks like a fish. As they breathed, a gray mist came out from their gills.

But they only managed to get one look before the Force cannon landed on these hideous creatures and smashed them into minced meat.

Back-green blood splattered everywhere.

Screech! Screech! Screech!

Ear-piercing cries shot out from the gray mist around them. These cries sounded furious.

Round Ball didn't need Wang Teng to speak again. It piloted the spacecraft and charged toward the path that it had cleared.

Gray mist surged toward them like towering waves. The ferocious giant beasts chased after the Flaming River.

As they escaped, Wang Teng scanned the back and saw some attribute bubbles dropped by the hideous star beasts when they died. He collected them.

Constellation Force (Poison)*1500

Constellation Force (Poison)*1800

Toxic Mirage*100

...

Three attribute bubbles entered Wang Teng's body. He was stunned.

Two of them were constellation poison Force, but the last one was a special technique.

Toxic Mirage!

Toxic Mirage was a kind of gas. In fact, it was the gray mist around the spacecraft. It was extremely poisonous. The thicker it was, the greater its toxic level.

Chapter 1134: Decaying Planet!

After absorbing this attribute bubble, the execution method of this Toxic Mirage appeared in Wang Teng's mind.

These hideous giant beasts released Toxic Mirage through their gills. They would gather the poison Force in their bodies and transform them using a special method before releasing it.

If Wang Teng executed it the same way, it would be quite a strange scene.

Fortunately, he only received the execution method of Toxic Mirage. He could gather Toxic Mirage in his body by following the method and transforming his poison Force.

Speaking of the Toxic Mirage, Wang Teng remembered the Lazy Mist. Both were gaseous battle techniques.

One was of the poison element while the other was of the dark element. But they were similar. The effects would be amazing if he could merge them. If he could form a domain with them, that would be even better!

Ideas kept appearing in Wang Teng's mind as the edge of his lips lifted up uncontrollably. The number of his strange skills had increased again!

"Wang Teng, how can you smile at this time?" Round Ball felt speechless.

Wang Teng coughed awkwardly as he regained his composure. The situation wasn't right. There were a bunch of savage giant beasts chasing him.

However, he felt more confident since he knew the attacking skill of these ferocious giant beasts now.

"Don't worry. Watch me."

"... Can you stop boasting?" Round Ball didn't know what to say.

Silence.

Wang Teng didn't waste a second. He asked Round Ball to open the cabin door and flew out.

He decided to slaughter these hideous giant beasts. When there were attribute bubbles to gain, he should get them.

These hideous giant beasts were good stuff. All of them were tools that could give him poison attributes.

The instant he appeared in the mist, a layer of poison Force shot off his body and covered him entirely.

The poison Force released by the Demon Lotus Poison Body was more potent than the normal poison Force. Hence, the gray mist wasn't a huge threat to him.

Wang Teng heaved a sigh of relief when he noticed this.

Screech! Screech! Screech!

The hideous giant beast noticed him and screeched in anger. They started charging at him.

"Hmph!" Wang Teng snorted. A longbow appeared in his hand.

This was one of the weapons left by the Flaming River Universe Lord. It was at the universe level too.

The Forces in his body churned and formed a long arrow on the bow.

The bow was stretched to its maximum while light arrows appeared on the bow. There were 12 of them.

Aurora Holy Arrow!

Swoosh, swoosh, swoosh...

The 12 arrows shot out instantly, soaring towards the first 12 giant beasts in front.

The light arrows were made using light Force, so they could restrain the poison element star beasts.

Boom! Boom! Boom!

These hideous giant beasts couldn't dodge in time and got hit by the arrows. They penetrated right through their heads, killing them on the spot.

Attribute bubbles dropped from the corpses of these giant beasts.

Wang Teng smiled. He collected the attribute bubbles while firing more arrows, shooting the savage giant beasts charging at him.

These giant beasts were mostly at the emperor level or the low-tier imperial level. They didn't have the ability to stop him.

Sometime later, all the ferocious giant beasts nearby were killed. This was a staggering scene.

Not a single star beast was able to get within a thousand meters of Wang Teng. They were shot to death the moment they crossed this invisible boundary.

Round Ball's jaws dropped upon seeing this scene from the spacecraft.

The giant beasts further away seemed frightened too. They didn't dare to get closer and even started retreating.

Wang Teng didn't chase after them. He returned to the Flaming River and hurried away.

He had caused quite a huge commotion, so the universe-stage martial warrior would definitely be attracted. They needed to leave quickly.

The process of killing the giant beasts seemed long, but it happened within one minute.

After they left, the lofty figure of the universe-stage martial warrior stepped out from the gray mist. He glanced at the corpses around him and frowned. The anger on his face was apparent.

"He escaped again!"

A small martial warrior who wasn't even at the cosmos stage had slipped away from his hands again and again. The exasperation made him uncomfortable.

However, this mist was too strange. He couldn't even execute 0.1% of his power here. On the other hand, Wang Teng seemed like a fish in water.

The difference resulted in the current situation and made him helpless.

"I don't believe that I can't catch you." The universe-stage martial warrior had a cold expression on his face and killing intent in his eyes. He added another layer of frost around him before he continued heading into the mist.

If the Parkers hadn't promised him so many great benefits, he wouldn't be chasing a celestial-stage martial warrior.

Since he had acted, he mustn't return empty-handed. If not, others would laugh at him.

A universe-stage martial warrior couldn't catch a celestial-stage martial warrior!

What a joke.

...

Time flew. Another two hours had passed.

Wang Teng and the universe-stage martial warrior seemed to be playing hide-and-seek. They ran around aimlessly.

Along the way, the Flaming River met another group of giant beasts.

There were mid-tier imperial-level wild beasts among them. This was the same as cosmos-stage martial warriors. The duo had to spend a lot of time and effort to escape from these giant beasts.

Wang Teng received another round of attribute bubbles too. As such, his constellation poison Force had reached the seventh level.

Constellation Poison Force: 4800/70000 (planetary stage seventh level)

Toxic Mirage: 10000/10000 (perfected)

The Toxic Mirage skill reached the perfected stage too. His harvest was great.

If the universe-stage martial warrior knew that Wang Teng earned a huge round of gains while escaping from him, he might vomit blood in anger.

“Wang Teng, we don’t have much time left,” Round Ball said grimly as it stared at the data of the spacecraft.

“We have less than 40 minutes, and we can’t find the original path anymore,” Round Ball added.

“No way. Didn’t I ask you to record our path?” Wang Teng glared at it.

“It’s impossible to record it in this situation,” Round Ball replied with a bitter smile.

Wang Teng sighed. He didn’t expect this restricted zone to be so strange. They were in a dire situation.

“We can go out if we have enough time to let the shield complete its automatic restoration,” Round Ball said.

“Is it?” Wang Teng was in deep thought. Many thoughts went through his mind.

Boom!

At that moment, the spacecraft knocked into something and caused a violent tremor.

Wang Teng and Round Ball regained their senses. They looked out and saw a large patch of asteroids around them. The Flaming River was surrounded by them.

“Asteroid belt!” Round Ball’s expression changed. “This is an asteroid belt!”

“Can we go past it?” Wang Teng asked.

“We can, but it’ll be troublesome. If we don’t want to use the Force cannons, we can only use the spacecraft to force our way through,” Round Ball said.

“Let’s not use the Force cannon first,” Wang Teng thought for a moment and replied.

The Force cannon would create a huge commotion and attract the universe-stage martial warrior. He didn’t want to meet the opponent again after ditching him.

Escaping was harder now that they were in an asteroid belt.

“Alright!” Round Ball nodded. He used the stupidest method and inched the spacecraft forward gradually.

Half an hour later, the asteroids disappeared. They had finally left the belt.

The two of them heaved a sigh of relief. To the universe-level spacecraft, it wasn't very dangerous, but it was troublesome. Getting out of the asteroid belt almost wore off all their patience.

Just when they were preparing to leave this place, they got shocked. There was dead silence in the spacecraft.

The two of them widened their eyes in surprise as they stared at the planet that had suddenly appeared in front of them. They glanced at each other.

That was right!

It was a planet!

After passing through the heavy mist, they saw a planet amid the gray mist!

It was an extremely special planet.

It was gray in color and seemed lifeless. It was shriveled up and barren. The mountain ranges intertwined on the surface of the planet looked like scars.

Wang Teng activated his Spiritual Sight and realized that this was a life planet. However, its vitality was diminishing.

There was a glaring purple-black glow on this planet, entrenched on it like a small sun.

"What!" Wang Teng gasped in astonishment. He was startled.

Chapter 1135: Strange Magnetic Field!

The decaying planet was too astonishing. Even Wang Teng was flabbergasted as revealed on his face.

Round Ball rarely saw him like this. Its heart sank, and it asked involuntarily, "What is it?"

"It's extremely terrifying!" Wang Teng gulped. Dumbstruck, he said in a low voice, "This planet is scary!"

"Extremely terrifying!" Round Ball thought through these two words. It was in disbelief.

What could be considered extremely terrifying?

In its memory, even in front of a universe-stage martial warrior, Wang Teng had never revealed such an expression. But now, before he reached the planet, he had already lost his calm.

"Did you see something?" Round Ball asked.

It didn't ask Wang Teng how. It knew that he had his ways to see through the situation on the planet.

"That's right."

"Let's leave through the asteroid belt," Round Ball said in a low voice.

Wang Teng didn't speak as he was in deep thought. He was curious about the presence on this decaying planet.

In his Spiritual Sight, he saw the vitality of the planet shrinking, but the vitality of that presence got more and more powerful. It was obvious that this presence was sucking away the planet.

What on earth was that?

Wang Teng had never seen this situation before. He found it mysterious and interesting, hence his curiosity.

However, he knew that curiosity killed the cat. He didn't want to be the stupid cat.

"Let's leave." Wang Teng took a deep breath.

Round Ball nodded. It was about to drive the spacecraft away.

"Alert! Alert! The spacecraft is heavily damaged. Please repair it immediately."

A deafening alert rang in the spacecraft. Round Ball and Wang Teng's expressions changed slightly.

They forgot that the Flaming River had already reached its limit after forcing its way in brutally. In addition, the gray mist was corrosive. If they continued traveling, it might break down in the gray mist.

Their expressions turned gloomy.

Boom! Boom! Boom!

At this moment, an explosion came from behind them. Someone seemed to be destroying the asteroids.

The noise got closer and closer. It was heading for them.

"Damn it!"

They knew that the universe-stage martial warrior had caught up with them. Besides them, the universe-stage martial warrior was the only person in the gray mist. It couldn't be anyone else.

"He's like a ghost haunting us." Wang Teng snorted.

"What should we do?" Round Ball asked agitatedly.

"There's danger ahead and behind us. Let's take a gamble," Wang Teng said with a flickering gaze.

"Alright!" Round Ball gritted its teeth and nodded firmly.

Boom!

The spacecraft started rushing toward the planet at an astonishing speed.

The gray mist automatically dispersed when they got close to the planet. There seemed to be a vacuum. The Flaming River passed through the gray mist and charged at the decaying planet furiously.

However, when they got close to the atmospheric layer, a powerful resistance appeared in their way. It was like an invisible large hand dragging the spacecraft back, lowering the speed of the spacecraft tremendously.

“What’s happening?” Wang Teng’s expression changed.

“The magnetic field on this planet is strange. The resistance is very strong. It’s at least a thousand times that of a normal planet,” Round Ball exclaimed in bewilderment.

Wang Teng’s brows scrunched up. He didn’t expect this accident to happen at the last moment.

The universe was vast. All kinds of planets could exist. The strange magnetic field around this planet was quite normal.

“I finally found you!” A cold voice sounded, passing through the walls of the Flaming River and straight into their ears. It was like a ghost was whispering in their ears.

Wang Teng and Round Ball squinted. They looked behind the Flaming River.

The tall and lofty figure was coming for them at a high speed. He looked a little haggard. The frost armor around his body was slightly damaged, but he didn’t seem to mind. His eyes were focused on the Flaming River.

“That’s fast.” Wang Teng’s face turned ugly. “Round Ball, can we influence the magnetic field on this planet and lower the resistance?”

“I’m trying,” Round Ball said without turning.

Normally, there were magnetic field disturbance devices on spacecraft. However, this magnetic field was extremely powerful, so Round Ball needed some time to figure out a way.

“Magnetic field!” Wang Teng glanced at the universe-stage martial warrior closing in on them. His mind worked at full throttle as he thought of an escape plan.

Wait, magnetic field! Heart Of Magnetic Essence! Wang Teng’s eyes lit up.

His Heart Of Magnetic Essence talent could affect magnetic fields.

He felt like slapping himself. His brain wasn’t working hard enough. Why didn’t he think of this earlier?

Wang Teng activated his Heart Of Magnetic Essence. A magnetic field surged out of his body and started spreading around the spacecraft at a visible speed.

Boom!

Instantly, the spacecraft trembled as if it had broken free from the resistance, regaining its speed.

“Wang Teng, what did you do? It seems to work.” Round Ball was elated.

However, this only lasted for an instant. After the vibration, the spacecraft turned sluggish again and slowed down.

Bang!

The universe-stage martial warrior noticed that something was amiss, so he acted immediately. His domain got closer to the Flaming River.

My magnetic field is not powerful enough.

Wang Teng's ability was limited. He was only at the celestial stage, so the magnetic field he could produce was limited too. It wasn't enough to influence the field around this planet.

He looked at his attributes panel.

Heart Of Magnetic Essence: 1000/100000 (first rank)

The only way was to raise the rank of his Heart Of Magnetic Essence. Wang Teng added blank attributes to the Heart Of Magnetic Essence without any hesitation.

During a normal battle, the first-rank Heart Of Magnetic Essence was enough. Hence, he never felt the need to raise it, but he had no choice now.

The reserve of blank attributes decreased continuously while the points of his Heart Of Magnetic Essence increased.

Within a split second, he used close to a hundred thousand blank attributes. The Heart Of Magnetic Essence finally reached the second rank.

Heart Of Magnetic Essence: 1/200000 (second rank)

The magnetic field around Wang Teng grew more than ten times more powerful.

Boom!

The spacecraft shook violently. The magnetic field released by the planet was finally affected. Even the domain released by the universe-stage martial warrior behind got influenced. It stopped moving too.

"We're moving. A little more!" Round Ball shouted. It was overjoyed.

"This isn't enough!" Wang Teng gave a bitter smile. He had to continue using his blank attributes!

Chapter 1136: Force Landing! Magnetic Domain!

To a miser like Wang Teng, he felt uncomfortable exhausting the blank attributes he had accumulated for such a long time so quickly.

But thinking about it, he kept these blank attributes for a rainy day, right?

Currently, he needed these blank attributes.

Life or blank attributes? There was no need to choose.

Wang Teng only hesitated for a split second before he decided to use his blank attributes to raise his Heart Of Magnetic Essence again.

The attribute rose quickly.

As his Heart Of Magnetic Essence got stronger, the magnetic field Wang Teng created got increasingly powerful.

The magnetic field of the planet was finally affected!

Everything happened within a few seconds.

Boom!

The Flaming River resumed its speed and passed through the atmospheric layer, heading for the planet below.

Boom!

A loud bang came from above the Flaming River.

Outside, the universe-stage martial warrior had already caught up. He landed on the Flaming River. The loud noise was caused by him stepping on the spacecraft.

“You can’t run away!” A cold voice came out of his mouth and echoed in Wang Teng and Round Ball’s ears.

“Hmph!” Wang Teng snorted. A sharp gaze shot out of his eyes.

The magnetic power in his body erupted again and gathered at one point. He threw it at the universe-stage martial warrior.

The magnetic power was invisible. The universe-stage martial warrior was preparing to punch the spacecraft, so he didn’t notice the powerful force surging toward him. Before he could react, he was thrown off his feet.

He spun in mid-air.

The universe-stage martial warrior was in a daze.

What was this?

Why did he get thrown away?

Many questions appeared in his mind.

“Hahaha...” Round Ball burst into laughter when he saw the other party’s expression. At the same time, it felt relieved.

This was exhilarating!

They were furious when the other party chased them to capture them.

So what if he was a universe-stage martial warrior? He was still thrown away miserably.

The universe-stage martial warrior regained his composure and got angry and embarrassed. With a roar, a blade appeared in his hand. Ice Force congregated on the blade, and he slashed it at the Flaming River.

Unfortunately, he forgot about the magnetic field of the planet. The blade glow’s speed slowed down tremendously.

“Run! This person has gone crazy!” Round Ball shouted.

Wang Teng continued increasing the magnitude of his magnetic field to resist that of the planet.

“Goodbye, old fellow!”

The Flaming River soared toward the planet, disappearing from the universe-stage martial warrior’s vision.

“Ah! I will kill you one day!” The universe-stage martial warrior gritted his teeth in anger and bellowed in rage.

He really wanted to enter the planet, but he realized how scary the magnetic field around this planet was. Even as a universe-stage martial warrior, his speed was greatly suppressed.

He felt helpless. He wore a black face and released his domain power to resist the magnetic field.

Even so, he only managed to increase his speed to the heaven stage. He couldn’t catch up with the Flaming River.

Actually, with his universe-stage power, he could destroy this planet forcefully. But he didn’t dare to act recklessly because of how strange this place was.

As a universe-stage martial warrior, he had been through many experiences.

He knew that some restricted areas in the universe were extremely scary. Even a universe-stage martial warrior had to be careful or his life would be threatened.

The universe-stage martial warrior blinked. He landed on the ground and scanned his surroundings. A frown appeared on his face.

“What a weird planet. It’s a life planet, but all its vitality is lost. It’s greatly decayed,” he muttered to himself.

The next instant, he waved his hand, and a bunch of figures appeared in front of him.

These were martial warriors from different races in the universe. There were 50 martial warriors from the cosmos stage and celestial stage in total.

Every universe-stage martial warrior had a small world. Normally, they could place people in it.

“Sir!”

The martial warriors knelt down when they saw the universe-stage martial warrior and greeted him with respect.

“Search the planet and find him,” the universe-stage martial warrior gave his order in a stern voice.

“Yes!”

Everyone replied in unplanned unison. The 50 martial warriors turned into lingering shadows as their spread out in all directions.

...

On the other side, Wang Teng and Round Ball landed on the surface of the planet and hid in a large mountain.

“Let’s check the air on this planet to see if it’s poisonous,” Round Ball said.

Wang Teng didn’t object. His focus was on his attributes panel.

Heart Of Magnetic Essence: 1/300000 (third rank)

The frantic use of his blank attribute had raised his Heart Of Magnetic Essence to the third rank. He used another 200 thousand blank attributes for this.

Wang Teng’s lips trembled. His heart was aching.

He had spent 300 thousand blank attributes in total!

300 thousand!

His heart was bleeding.

Although the third-rank Heart Of Magnetic Essence was so powerful that it was able to catch a universe-stage martial warrior off guard and throw him back, it was expensive.

If he hadn’t accumulated so many blank attributes, he wouldn’t be able to afford this expenditure.

He glanced at the end of his attributes panel where the blank attribute was.

Blank Attribute: 586500

Good, good!

He had 500 thousand more points.

He was also relieved that he managed to absorb many attribute bubbles when he resisted the magnetic field of the planet.

Magnetic Domain*100

Magnetic Domain*150

Magnetic Domain*80

...

Domain!

Without a doubt, this was a domain power!

Wang Teng was stunned when he collected the attribute bubble. He didn’t think that the planet’s magnetic field was a domain power.

But, this domain power was his now!

Magnetic Domain: 450/1000 (first rank)

He received 450 points for Magnetic Domain in total and successfully entered the first rank.

He didn't raise his Heart Of Magnetic Essence for nothing. If there was resistance between them, he wouldn't be able to get the Magnetic Domain attribute.

Blessings and misfortune came together. It was hard to predict.

"It's okay, this planet is not poisonous." Round Ball's voice broke his train of thought.

"Keep the Flaming River. It's too big and will get discovered easily." Wang Teng said, "I'll leave the repair of the spacecraft to you."

"Don't worry. I promise that I'll fix it for you." Round Ball patted its chest firmly. At the same time, it felt fortunate. "We're lucky we prepared some materials and engineering robots. If not, it will be troublesome."

Wang Teng nodded. He was fortunate that he got money. Before he left, he listened to Round Ball's advice and bought a large number of resources. They were put to use now.

Wang Teng alighted the spacecraft and kept the Flaming River.

He sized up the surroundings with surprise and seriousness.

The soil was gray-brown in color. It looked like gravel, dead and lifeless. There were also some rotten wood and bones of animals buried in the gravel, making this planet seem even more barren and lonely.

A gust of wind blew, throwing stones in the air...

Chapter 1137: Hunt!

Wang Teng stood on the ground and sensed the empty and desolate atmosphere here. He found it absurd.

It was unbelievable how a life planet had ended up in this state. As someone who just came out of Earth, this was a huge stimulation.

What if Earth became like this? He didn't dare to imagine.

"Wang Teng, this planet is so strange. It's in ruins. I wonder what happened here." Round Ball's voice appeared in his mind.

"Let me walk around and see," Wang Teng said.

"Alright, be careful. Don't get discovered by others. The universe-stage martial warrior has probably arrived on this planet too." Round Ball disappeared. It had gone to repair the spacecraft.

Wang Teng activated his disguise talent and the Shadow Merging Secret Skill of the dark apparitions. He transformed into a shadow as he roamed the planet.

The entire planet was gray-brown. There were no signs of life. Wang Teng passed through many places. Some used to be forests, but only dead trees were left. Some used to be rivers, but they had all dried up. The bones of fish were buried in the mud.

He even saw bones of giant star beasts. They were buried in the gravel.

Based on the hardness of these bones, he knew that they were at least at the planetary stage or the celestial stage.

Wang Teng couldn't sense any Force fluctuation on these bones. This meant that all the star cores and star bones had been sucked away.

Wang Teng stopped in the boundless plain and looked in a certain direction.

That was where the purple-black glow was at. He didn't dare to go closer. He just looked at it from afar.

Actually, Wang Teng didn't know if the other party realized that they had stepped on this planet.

But based on how powerful it was, it probably had discovered them.

He could only hope that his disguise talent could confuse it and that it wouldn't be able to find him temporarily.

Anyway, the universe-stage martial warrior was powerful and had a stronger vitality. He would be more easily discovered.

A smirk appeared at the corner of Wang Teng's lips.

He moved his feet and disappeared on the spot, heading into the distance.

He walked for more than an hour but saw no signs of any civilization. He wondered if any civilizations ever existed on this planet.

If there was, he might get some gains from them.

He released his spiritual power while rushing along his journey, inching closer to the center of this piece of land.

"Huh?"

Half an hour later, he suddenly stopped. He heard some noises around him.

Swoosh!

He instantly disappeared on the spot and hid among the shadows at the side, disappearing into the darkness.

The concealing skill of the dark apparitions was extremely useful in this environment.

Very soon, a few figures rushed over from afar and stopped ten meters away from where Wang Teng was hiding.

At this distance, Wang Teng could hear what they were saying using his spiritual power.

There Are people here? Wang Teng frowned. He was surprised.

However, most of them were at the celestial stage. There was only one at the cosmos stage. They possessed no threat.

If he used all his power and ambushed them, he could finish them off quickly.

He heaved a sigh of relief when he thought about this.

“Mister Berlin, this planet is scary. Do we continue ahead?” a celestial-stage martial warrior asked the human celestial-stage martial warrior.

“Let’s go further. We need to abide by our master’s order and find Wang Teng quickly,” Berlin said firmly.

“Yes!” the others replied in a serious tone.

“Hmph, does he think he can run away after offending our master?” Berlin scoffed.

Indeed, they came for me. Their master is probably the universe-stage martial warrior. Wang Teng wondered to himself.

A few thoughts floated through his mind while killing intent churned in Wang Teng’s heart.

Since they came to kill him, he should return the favor.

A small dot appeared on his hand. He threw it out, which landed on the cosmos-stage martial warrior’s forehead.

This was a void mayfly!

The void mayfly had Spiritual Illusion instilled in it.

Activate! Wang Teng shouted in his heart. The Spiritual Illusion in the void mayfly was activated.

The cosmos-stage martial warrior got hit without realizing it.

His gaze turned misty. Wang Teng controlled a flying dagger and instilled poison Force and space power in it. The flying dagger flew out and disappeared in mid-air.

It appeared behind his enemy’s back and stabbed right through his throat.

Splurt!

The cosmos-stage martial warrior died without knowing what happened. Both his soul and physical body were destroyed.

“An enemy attack!” someone shouted while the other celestial-stage martial warriors were still in a daze.

Swoosh, swoosh, swoosh...

A beam of gold light shone and chopped the heads of these martial warriors down.

Fresh blood spurted out.

Only one celestial-stage martial warrior was left. His face turned white. He was obviously frightened.

Wang Teng appeared in front of him and landed a punch. The other party was in a daze, so he was hit right in the face.

Bang!

Wang Teng didn't use all his force. If not, the enemy's head would have been smashed.

The celestial-stage martial warrior felt dizzy. His vision turned black.

A crimson glow appeared in Wang Teng's eyes, stabbing right into his enemy's gaze. Wang Teng was using the Bewitch skill.

The enemy lost consciousness and answered whatever Wang Teng asked. Very soon, he got all the information he wanted.

"50 martial warriors!"

Wang Teng blinked and waved his hand. A sword glow flashed and penetrated the celestial-stage martial warrior's forehead.

Bang!

The lifeless body crashed onto the ground. By then, Wang Teng had disappeared.

Constellation Force (Earth)*3000

Constellation Force (Fire)*1800

Constellation Force (Water)*1600

Celestial Realm Spirit*200

...

"These are the slaves of the universe-stage martial warriors, so their talents are limited. It's a pity that they're no special attribute bubbles."

Wang Teng shook his head as he flew away.

Then, he continued exploring the planet. He met another two teams of martial warriors along the way.

Since they had split up to search for Wang Teng, there were only five martial warriors in each group. Dealing with them was a piece of cake.

At the same time, the universe-stage martial warrior noticed something amiss. He was in a rage.

He hurried over personally only to find the dead bodies of the martial warriors. He was always a step behind Wang Teng.

Wang Teng's slyness exceeded his expectations. Even a universe-stage martial warrior like him felt helpless.

He finally understood why the Parkers specifically asked for universe-stage martial warriors to hunt Wang Teng.

Chapter 1138: Antman Race, Bloodlust Ultima!

“Saiba, you’re good at tracking. Find that brat for me.”

The universe-stage martial warrior looked indifferent as he said coldly with killing intent in his eyes while he stood on a hill.

“Yes, Father!”

Behind him, an equally tall young man with silver-white scales on his face bowed in response.

“Don’t fight with him head-on. That brat does not have a high cultivation level, but he has many tricks and is quite strong. Notify me immediately when you find him,” the universe-stage martial warrior instructed him.

“I understand!”

A cold light flashed in the tall and young Saiba’s eyes. He held a long spear in his hand and nodded.

“Go!” The universe-stage martial warrior disappeared.

“I do want to see how his strength compares to mine.” Saiba was unconvinced and took a step.

Boom!

The ground cracked, and his body rose straight into the air in a streak of icy blue light as he flew into the distance.

As the son of a universe-stage martial warrior, he was extremely talented and capable. Only a few in the same stage could rival him. He could even kill cosmos-stage martial warriors.

He could have advanced to the cosmos stage, but he didn’t do so, all in hopes of getting a rare opportunity to become even stronger and have a stronger foundation before his advancement.

This way, he could become a universe-stage martial warrior like his father. He might even be better than him.

Of course, this was what he had kept hidden in his heart.

Younger generations would surpass the older generations, leaving no path for them. If the universe-stage martial warrior knew what his son was thinking, he might just smack him to death.

...

Wang Teng was traveling in the wilderness when he suddenly narrowed his eyes.

Buildings!

He saw the silhouette of a building over in the distance, towering straight in the wilderness. If it wasn’t for his amazing eyesight, he might not have discovered it.

There were indeed traces of civilization on this planet.

Wang Teng became more cautious and combined his disguise talent and Shadow Merging Secret Skill, trying his best to conceal himself. He then cautiously headed toward the buildings.

A celestial-stage martial warrior was fast. In a few minutes, he had reached the buildings.

Wang Teng hid in the shadows and glanced at the buildings in front of him. He was surprised.

The buildings were very peculiar. The whole structure was made of some kind of metal. He had not seen any such style. It looked just like a giant nest.

“This is a building from the antman race!” Round Ball’s voice suddenly appeared in Wang Teng’s mind.

“Antman race!” Wang Teng was stunned and asked, “What race is that? Is it a race of half-ants and half-humans?”

“See for yourself.” Round Ball sent the introduction to Wang Teng’s mind. It was accompanied by pictures and explanations of the antman race.

Members of the antman race had some characteristics of ants. They looked ferocious and were tall and slender. Their bodies were black and covered with armor.

The antmen had great strength and loved massacres. It was an extremely savage race.

In the universe, the antman race was the public enemy, and everyone feared them.

Many powerful martial warriors were reluctant to provoke the martial warriors of the antman race.

The race’s combat power was ranked amongst the top fifty in the universe.

“The members of the antman race are a bit too ugly.” Wang Teng browsed through quickly and commented.

Round Ball thought that Wang Teng would be amazed by their strength, but as it turned out, he was more concerned about their appearance.

Seriously!

“They are a bit ugly.” Round Ball cleared its throat and said, “However, they are a really strong race, and they love killing. That is why many of their members have Bloodlust Ultima, Bloodlust Domain. They are notorious in the universe.”

“Bloodlust Ultima, Bloodlust Domain!” Wang Teng’s eyes lit up instantly.

“What’s with that delighted expression on your face?” Round Ball had no energy to criticize him.

“Cough, I didn’t expect such a race to exist in the universe. I’m excited about new prey.” Wang Teng coughed awkwardly.

“Tsk, what’s the point of being excited? Based on the planet’s situation, all of them are probably dead.” Round Ball pouted.

Wang Teng’s smile froze. He was too excited and forgot about that. There was a look of disappointment on his face.

Damn, there are no attribute bubbles to collect.

Wang Teng activated his Spiritual Sight and looked toward the buildings. Sure enough, there were no signs of life.

But he was still unconvinced. He was here at the doorstep. He had to go in and take a look.

“You really want to go in?” Round Ball understood Wang Teng too well. It knew what he was planning when it saw his eagerness.

“Yeah, I’ll go in and have a look. I haven’t seen any members of the antman race. If I can’t see their bodies, at least I’ll have a look at their building.”

“Who knows what you’re trying to do? But if you’re interested, it’s okay to have a look. Maybe there will be something left behind,” Round Ball muttered.

“Hehe, I’ll go then.” Wang Teng’s body flashed, and he leaped into another shadow.

He moved around like this, leaping from shadow to shadow, with extreme caution. After a while, he reached the entrance. It was round and tightly closed. There was a metal door blocking his path.

Without a word, Wang Teng took out the Golden Crescent Blade and slashed open a way that would allow a person to enter.

Wang Teng then stepped in and found a long metal passage with no end in sight.

Buildings of the antman race were just like an ant’s nest. The upper portion was exposed while the lower portion was buried in the ground. There were many passages in it that extended in all directions. Intruders would easily get lost if they ventured inside.

Wang Teng had to release his spiritual power and sense his surroundings.

Vigilant, he walked deeper as he investigated his surroundings. He did things slowly, for fear of an accident.

Crack!

Suddenly, he seemed to have stepped on something. There was a crisp sound in the silent passageway.

Wang Teng lowered his head and discovered a black skeleton. Based on its skull and bones, it was someone from the antman race.

He squatted down and inspected the skeleton. He realized that it was very similar to those of the star beasts outside, both of which had been drained of life and Force. Otherwise, the bones wouldn’t have been crushed when he stepped on them.

“What is this? It’s so terrifying.” Wang Teng looked solemn. He then got up and continued to move toward the inner parts of the nest.

After a few minutes, he finally saw the first room. The doors were open, and there was a skeleton that lay on the ground in a terrifying fashion.

It seemed like it wanted to escape from the room and then fell onto the ground. It then struggled to crawl forward, but it was too late. Its body was sucked dry, reducing it into a skeleton.

Wang Teng could imagine the unwillingness and struggle before its death. He suddenly felt his scalp tingling.

“Round Ball, when will the Flaming River be fully repaired?” Wang Teng gulped.

“At least three days.” Round Ball also saw the room and became silent for a while.

“Three days, it’s a bit long.” Wang Teng’s face turned bitter.

Who knew what would happen in three days?

“I’ll try to get it done as soon as possible.”

“Okay, just do your best.” Wang Teng didn’t demand anything.

He knew that Round Ball must have been trying its best to repair it. It would be going too far to demand more from it.

Round Ball didn’t say anything else. Wang Teng entered the room. He then scanned around and raised his eyebrows slightly.

The room was just a simple residence with nothing special about it. However, there were a few black stones lying on the ground.

There were attribute bubbles floating above the black stones. Wang Teng was surprised and immediately collected them.

Bloodlust Ultima*1

Bloodlust Ultima*1

Bloodlust Ultima*1

...

“It’s the Bloodlust Ultima. The antman had died, but there’s still Bloodlust Ultima attribute bubbles on the black stone.” Wang Teng’s thoughts were running around in his mind while he was in disbelief.

Wang Teng stretched out his hand. The black stone flew and landed on his palm. He then started studying it.

Chapter 1139: This Is Not An Ant?

Wang Teng weighed the black stone in his hand. He felt strings of Bloodlust in it. This wasn’t an ordinary stone.

“Round Ball, do you know what it is?” Wang Teng asked.

“This should be the Bloodlust Stone of the antman race,” Round Ball appeared and said after looking at the stone.

“Bloodlust Stone with Bloodlust inside. Do you know where it’s from?”

“This stone normally appears where the antman race lives. It’s probably formed by the Bloodlust they absorbed.”

“It’s not formed naturally?” Wang Teng was surprised.

“You can say it’s half-natural.”

“Alright, you can go back to continue repairing the spacecraft.” Wang Teng chased Round Ball away unhappily.

He kept the Bloodlust Stone in his space ring. Although he couldn’t absorb the Bloodlust inside, it was good material for forging weapons.

Also, he could get more Bloodlust Ultima attributes from this stone. It wasn’t a loss.

The Bloodlust Stone he had gave him ten points of Bloodlust Ultima. If he collected more Bloodlust Stones...

Wang Teng started delving deeper into the ant nest with anticipation.

A few minutes later, he arrived in another room and found a few more Bloodlust Stones. He gained 16 more points of Bloodlust Ultima along the way.

Soon, half an hour passed. Wang Teng accumulated more than 300 points of Bloodlust Ultima. His Bloodlust Ultima reached the second level.

Bloodlust Ultima: 225/500 (second level)

While Wang Teng was feeling the effects of the Bloodlust, a sharp gaze flashed in his eyes. Strings of Bloodlust intertwined in his mind as if he had taken numerous lives.

Normally, the only way to enlighten the Bloodlust Ultima was to kill and experience the ultimate sensation of destroying lives.

However, Wang Teng took another path and relied on picking up attributes to achieve his Bloodlust Ultima. He even managed to reach the second level easily.

Others would be burning with jealousy if they learned about this.

The Bloodlust Ultima was a high-class ultima that was hard to understand. One might get affected by the Bloodlust Ultima without knowing and become a killing machine. They might lose themselves and get controlled by the urge to kill instead of controlling it.

The majority of the antman race got controlled by the desire to kill, so they were known to be bloodthirsty.

When Wang Teng was still on Earth, he had gotten the Bloodlust attribute, but it couldn’t be compared to this Bloodlust Ultima.

If he had to make a comparison, the Bloodlust was like a small child while the Bloodlust Ultima was an adult. The impact was different.

Wang Teng could control the Bloodlust Ultima smoothly because his spirit was strong enough, and he had a complete grasp of the Bloodlust Ultima. Since there were no loopholes in his enlightenment, there wouldn't be loopholes in his mentality either.

Those that got controlled by the Bloodlust Ultima were ones who had psychological deficiencies. That was how the Bloodlust Ultima got the chance to control them.

Tap!

Wang Teng suddenly stopped in his tracks. He squinted as he looked at the scene in front.

Black bones lay on the ground in front of him. The bones were scattered all around the path, and broken weapons were thrown everywhere too. They had lost their power.

One could see how chaotic and tragic the situation was.

What astounded Wang Teng was that there were pitch-black holes on the metallic walls of the passageway. They seemed to split open forcefully by some force from the outside.

Wang Teng went to the edge of the walls and looked into the pitch-black hole. He even activated his Spiritual Sight but didn't see anything. He only knew that this hole led to the bottom of the nest.

That was where the terrifying presence was resting.

"Even these powerful antmen were annihilated. How powerful is that presence?" Wang Teng let out a long sigh. He felt a chill down his spine.

He hesitated for a moment before deciding to head deeper into the ant nest. He had already come this far. It would be a pity if he gave up.

...

Just when Wang Teng was exploring the nest, a figure landed from the sky outside the antman race's nest. This was the tall and lofty young man, Saiba.

"Antman race's nest!" He stared at the structure in front of him in surprise and bewilderment.

"The presence disappears here. He's either inside or has left." Saiba contemplated for a moment before dashing into the antmen's nest.

It was obvious that he had a secret skill that allowed him to sense other people's presence. Even though Wang Teng hid well, he still left a hint of 'presence' behind, which got detected.

Of course, there were many restrictions on his secret skill. One was that the person had to stay for a while at one location. That way, he would have a stronger presence, and it wouldn't disappear as quickly. The second restriction was that he needed some time to feel the presence. During a battle, this skill couldn't be put to use.

The situation on the battlefield changed every single second. Many people's presences were mixed together, so he wouldn't be able to sense anything.

Saiba went deeper into the nest. He knew that if the antmen had left anything behind, it would be at the deepest part of the nest. That would be where Wang Teng was.

Thus, he headed right inside without any hesitation.

...

Wang Teng ran all the way and finally reached his destination—the nest of the ant queen.

This was a huge underground space. Many passageways were linked to this space. Wang Teng stood in one of them and looked down.

It was extremely deep. With his eyesight, if he didn't activate his Spiritual Sight, he wouldn't be able to see anything.

Wang Teng activated his Spiritual Sight to confirm that there was no danger below. Then, he leaped down. After some time, he finally reached the bottom of the nest. He squinted.

There was an enormous body lying at the bottom of the queen ant's nest. It was an appalling sight. However, it had been dead for a long time.

"What's this?" Wang Teng was stunned.

This gigantic body was snow-white and had many different segments. It looked a little swollen.

"This is probably the queen ant," Round Ball replied in Wang Teng's mind.

"Queen ant!" Wang Teng repeated the words.

"This is where antmen breed."

"How are they not ants? Even their breeding method is the same," Wang Teng complained.

Round Ball: ...

If those antmen warriors knew that Wang Teng called them ants, they might jump up in anger and fight with him to see who was the real ant.

"This queen ant has been sucked dry," Wang Teng noticed something and said.

Chapter 1140: Antman Queen!

Upon discovering the antman queen, Wang Teng landed on it. A sword appeared in his hand, and he sliced it lightly.

With his strength, it was surprising that he couldn't open the shell of the antman queen the first time.

He had a universe-level weapon in his hands. Just with its sharpness alone, it could cut through a heaven-stage martial warrior's body. Yet there was only a shallow cut on the antman queen.

From the outside, it seemed that there was only a thin layer of the shell. It looked crystal clear, and no one expected it to be this sturdy.

“The antman queen doesn’t have any combat power, but it has great defensive capabilities.” Round Ball appeared beside him and teased Wang Teng.

“Why didn’t you say so earlier?” Wang Teng frowned. Round Ball must have wanted him to make a fool of himself.

“You didn’t ask.”

Silence.

Wang Teng took a deep breath and ignored it. He then channeled his Force into the sword and slashed downward.

“Hey, the antman queen’s shell is an excellent smithing material. Don’t waste it.”

Wang Teng’s arm stopped. The sword was just a palm’s distance away from the antman queen’s shell.

“Cough, let me see if I can find other ways to breach its defenses.” He coughed awkwardly and kept his sword before flying down.

“Such greed. You’re hopeless.” Round Ball was caught between laughter and tears.

Wang Teng landed in front of the antman queen, which was where the mouth was, and hesitated.

“You want to go in from here?”

“It looks disgusting.” Wang Teng’s eyes twitched.

“Haha, it depends on your courage, young man.” Round Ball snickered.

“Scram,” Wang Teng replied angrily.

In the end, he still opened the antman queen’s mouth and flew in from there.

After scanning the entire body, the only places where he could enter were from the mouth and where the antman queen defecated. He couldn’t possibly enter from behind, right?

He entered the antman queen’s body, and sure enough, its insides were what Wang Teng had guessed. It was just an empty shell that had been sucked dry.

However, he was stunned when he reached the center of the antman queen’s body. There were white attribute bubbles floating in here.

“What is it?” Round Ball asked when it noticed something amiss with Wang Teng’s expression. It was also scanning the surroundings, but it couldn’t see the attribute bubbles.

“Cough, nothing.” Wang Teng cleared his throat to hide his loss of composure.

Unbelievable! There are attribute bubbles here.

But he still collected what he should collect without any hesitation by using his spiritual power.

Collect!

One by one, the attribute bubbles flew toward him and merged into his body.

Origin Of Life*20

Origin Of Life*30

Origin Of Life*15

...

“Damn, these are Origin Of Life!” Wang Teng was pleasantly surprised and cursed.

Origin Of Life was extremely precious!

Origin Of Life and Origin Of Soul were the most important energies in life. If one expended all of them, no one would be able to save them. They could only await death.

Moreover, using the power of time consumed Origin Of Life, which showed how important it was.

But... this wasn't right!

Why would there be Origin Of Life attribute bubbles in the antman queen's body?

Hadn't it been sucked dry?

Wang Teng was puzzled.

“Round Ball, is there anything special about the antman queen?”

“If there is, it would be its strong vitality. After all, it has to give birth to countless antmen,” Round Ball pondered for a while and said.

Strong vitality! No wonder! Wang Teng muttered in his heart with astonishment.

“By the way, the antman queen's spirit is extremely powerful as well. Once, a martial warrior broke into the antman's nest and saw the antman queen. He managed to escape with his life and provided the information.”

“Powerful spirit.” Wang Teng's eyes lit up.

The surrounding attribute bubbles had all been collected. He obtained 1250 points of Origin Of Life.

1250 points!

Origin Of Life was vital. A few hundred points were enough to save a life, let alone a thousand points.

This was a huge harvest for Wang Teng!

Origin Of Life: 31500

Wang Teng looked at the attributes panel. He had now amassed 31500 points, enough to catch up with cosmos-stage martial warriors.

Only a person like Wang Teng who had so many Force attributes could have so many Origin Of Life attributes. Every time he advanced, he would obtain some of it.

Wang Teng was satisfied. His eyes flickered, and he then headed toward the antman queen's heart.

The heart was where the Origin Of Life was the strongest.

In an instant, he reached the antman queen's heart. It was located in its ribcage, and the surrounding bones formed a closed circular space.

Wang Teng went in between the bones and discovered a lot of white attribute bubbles.

Origin Of Life*200

Origin Of Life*300

Origin Of Life*150

...

It was another wave of Origin Of Life attribute bubbles. There were much more of them than before.

In the blink of an eye, Wang Teng obtained 2300 points of Origin Of Life, which was almost twice what he had collected previously.

What a huge harvest!

Wang Teng was elated.

Round Ball was puzzled. It didn't know why he was so happy. There was nothing here. Could he have a screw loose in his head?

Wang Teng didn't know what it was thinking. He collected the attribute bubbles and wandered around for a while. The antman queen's body was enormous; he looked a little small inside.

Unfortunately, there were no attribute bubbles elsewhere. Wang Teng then flew toward the antman queen's brain.

Spirit!

Round Ball said that the antman queen had a powerful spirit. He wondered if he would gain anything there.

The brain was naturally located at the head. When Wang Teng entered the body, he was actually close to it. However, he didn't pay too much attention and passed by it. Now, he had to go back.

The brain was also surrounded by bones. Unlike the heart, where the circular area formed by the bones was almost hollow and easy to enter, the bones here were lumpy and sealed. There was only a narrow entrance at the back of the brain.

"So small!" Wang Teng felt helpless as he stood on a piece of bone and glanced at the small gap in front of him.

Fortunately, he had the Morph talent and could change the shape of his body.

Suddenly, his body underwent a change. His bones and muscles squirmed as if he had become a man made of paper with only a face printed on it.

"Pfft, hahaha. What is that weird skill? This is so funny." Round Ball burst into laughter.

“Go away, don’t disturb me.” Wang Teng frowned and snapped back.

This fellow’s tongue is too sharp. He didn’t think too much about it initially, but when Round Ball mocked him, he felt a little embarrassed.

He hurriedly went through the narrow gap and entered the brain before reverting to his original state.

It wasn’t as dark as Wang Teng had imagined. Instead, there was a soft white light, and the source of the glow was a crystal clear white crystal.

“Soul Crystal!” Round Ball shouted in disbelief when it saw the white crystal.

“Soul Crystal!” Wang Teng’s eyes lit up. He knew what this was when he heard the name.

This was good stuff. He didn’t come here for nothing!

Most importantly, there were many attribute bubbles floating around. Wang Teng collected them stealthily.

Origin Of Soul*80

Origin Of Soul*120

Origin Of Soul*150

Celestial Realm Spirit*2500

Celestial Realm Spirit*2800

Divine Sonicwave*100

...

Wang Teng was overjoyed. He had another huge harvest. There were not only large amounts of spirit attributes but Origin Of Soul attributes as well.

Origin Of Soul was equally important as Origin Of Life!

Just like that, he gained 1800 points of Origin Of Soul and 6200 points of Celestial Realm Spirit.

Origin Of Soul: 27600

Spirit: 43200/50000 (celestial realm)

Moreover, he obtained a special skill—Divine Sonicwave!

This was a spirit soundwave ability!

Wang Teng was stunned and in disbelief. What a fortune!

He felt that he was incredibly lucky to obtain a spirit skill. It was an extremely rare soundwave skill.

“Human.”

Just then, a gentle voice resounded.
