

Martial Arts 1151

Chapter 1151: How Dare He?

The Origin Of Soul of the Devouring Nihility Beast was enormous. Wang Teng seemed exceptionally small beside it.

By right, he should have failed due to the vast difference in strength and size.

However, he succeeded. The main reason was that this Devouring Nihility Beast was still a baby. It was too naive.

That was why it attempted to play with its prey.

There was a little advantage when an adult soul attempted to steal an infant soul.

The second reason was that Wang Teng was a bug. He forcefully replenished his Origin Of Soul using his blank attributes when it was consumed and won the marathon.

To make an inappropriate analogy, Wang Teng was like a tough needle that couldn't be bent. He penetrated the Devouring Nihility Beast's Origin Of Soul slowly but surely.

Even a small hole allowed him to succeed in his Thieve skill.

Now, all of Wang Teng's blank attributes were gone. Not a single point was left.

Honestly, he almost died. If he had slightly fewer points, he wouldn't have succeeded.

Wang Teng still had lingering fears when he recalled the entire Thieve process.

Either way, he succeeded in the end.

This was the first time Wang Teng had executed this skill. This was his last resort. He didn't think he would succeed.

Now, he was sharing a soul with the Devouring Nihility Beast. But they had different bodies.

The Origin Of Soul of the Devouring Nihility Beast was now a part of his Origin Of Soul.

Wang Teng sat cross-legged in front of the Devouring Nihility Beast's Origin Of Soul. It started shrinking immediately and turned into another Wang Teng after some time.

This new Wang Teng was dressed in a purple-black gown. Even his hair was purple-black. It was extremely different from the real Wang Teng.

"Sit!" Wang Teng said.

The Devouring Nihility Beast smiled and sat down in front of him.

Two Wang Tengs sat opposite each other. This was a strange sight.

Fortunately, Wang Teng had executed his cloning skill before so he was used to this feeling.

Then, Wang Teng closed his eyes and started counting his gains.

The risk of the Thief skill was huge. He would be doomed eternally if any accidents happened, but the gains were tremendous too. It was a pleasant surprise.

Wang Teng's mind was in a whirl. He couldn't absorb the legacy of the Devouring Nihilism Beast within such a short time.

That was right. As the most mysterious universe behemoth, the Devouring Nihilism Beast had a legacy.

These powerful universe behemoths had an unimaginably queer way of passing on their legacy. There were only a few of them, so when they were at the end of their lives, they would compile all their Origin Of Life into an egg. Their main body would disappear.

The egg would be left on a planet with strong vitality. It would be incubated there for millions or even billions of years.

The legacy of the race would be passed down through spiritual marks.

Also, the Devouring Nihilism Beast could consume other living creatures, so it could easily obtain the secret legacies of other races.

This method was similar to how he picked up attribute bubbles, but it wasn't as direct.

After absorbing the knowledge, they had to digest it slowly by themselves.

These memories were passed down from generation to generation. It was an accumulation of knowledge over billions and billions of years. The vastness of this knowledge and legacy was unimaginable.

Now, it was in Wang Teng's hands.

In front of the Devouring Nihilism Beast's legacy, Nangong Yue and the Flaming River Universe Lord's legacies were nothing. There was no comparison.

This vast amount of knowledge almost blasted Wang Teng's mind apart.

Fortunately, after stealing the Devouring Nihilism Beast, his Origin Of Soul became many times more powerful than before.

Actually, the Devouring Nihilism Beast was only at the peak of the cosmos stage. But its Origin Of Soul and Origin Of Life were more powerful than any normal martial warriors at the same stage.

Time flew. Three days later, he finally managed to seal all the legacy memories of the Devouring Nihilism Beast.

Yes, sealed, not absorbed.

The memories were too messy and chaotic. They encompassed the introduction of thousands of races in the universe, including humans, orcs, fairies, mecha race, metallic race, plant race...

There was information about other universe behemoths too. They were all mysterious and powerful. Ordinary martial warriors would rarely meet them.

For instance, the Kunwu Beast of the Great Qian Empire and the Blazing Giant Dragon, which the Parkers Family had met before. Information of all these legendary beasts was within the Devouring Nihilism Beast's memory.

They were other small secret skills too.

Wang Teng would need numerous years to absorb all of them. But he didn't have the luxury to do that right away.

Besides, most of this knowledge was useless. He didn't have to learn them.

Even the Devouring Nihilism Beast wouldn't digest all the knowledge. It would be a waste of time and effort to learn all this useless and messy information.

These memories could be used to enrich himself.

Anyway, these memories were his now. They wouldn't disappear. He had ample time to digest them slowly in the future. If he needed something, he could search for the information he needed in this memory reserve.

"It's time to go out," Wang Teng muttered to himself.

The next second, his Origin Of Soul surged out of this dark Devour Space and returned to his body.

In the Space Fragment, Wang Teng slowly opened his eyes. A deep and dark glow flashed in them.

"Wang Teng, you're awake!" Round Ball exclaimed in surprise.

"Yes!" Wang Teng nodded. Then, he looked at Round Ball.

Round Ball froze in mid-air. It seemed to have suffered a mental stimulation and started retreating in fear.

"You!" It shouted in astonishment as if it saw something frightening.

"What's wrong with me?" Wang Teng was confused.

"You're not Wang Teng. Who are you?" Round Ball was flabbergasted. It shifted away from Wang Teng grimly.

The antman queen floated away sternly, staring intently at Wang Teng.

"Hahaha..."

Wang Teng finally realized what happened. He burst out laughing.

"I am Wang Teng."

"No, impossible. Wang Teng wouldn't give me such spiritual pressure." Round Ball gritted its teeth and shook its head. There was sorrow on its face.

"I consumed the Devouring Nihilism Beast," Wang Teng replied.

"Consumed!" Round Ball froze on the spot as if it had heard something unbelievable. It was in a daze.

The antman queen was in shock too. There was astonishment in her eyes.

This was crazy!

A human devoured a Devouring Nihilism Beast? Where did he get his guts from?

Chapter 1152: Bloodline!

Wang Teng's words shocked Round Ball and the antman queen to their cores. They didn't return to their senses for a long time.

After some time, Round Ball took a deep breath. Its voice was filled with doubts. "How can you prove that you're Wang Teng?"

"..." Wang Teng was stunned.

This was a serious question.

How could he prove his identity?

Wang Teng didn't expect that he would be faced with such a strange problem.

This is bad!

"If you can't prove it, we can't confirm if Wang Teng devoured the Devouring Nihilism Beast or the other way round." Round Ball remained calm.

"The Devouring Nihilism Beast is so powerful, I'm afraid..." The antman queen didn't continue. It didn't have that much confidence in Wang Teng.

The gap between the Devouring Nihilism Beast and Wang Teng was so great. It couldn't imagine how he could successfully consume the Devouring Nihilism Beast's soul.

That was too unrealistic.

"Alright, alright. Let me think about how to prove it." Wang Teng rubbed his chin and thought about it. Suddenly, his eyes lit up.

"That's it!"

He broke up the Devouring Nihilism Beast's Origin Of Soul and showed it to them.

The huge Devouring Nihilism Beast's body shrank multiple times, but its body was still shrouded by the purple-dark light, making it difficult to see its true appearance.

When Round Ball and the antman queen saw the Devouring Nihilism Beast's body, they immediately confirmed its identity.

The overwhelming presence that stemmed from the bloodline could never be faked.

Round Ball and the antman queen didn't believe that Wang Teng was who he was because they felt that overwhelming pressure coming from his soul when they looked into his eyes.

“Look carefully. See how I’m going to prove it to you,” Wang Teng said with a little hesitation.

Round Ball and the antman queen were suspicious. It seemed a little hard to tell by looking at his appearance.

“Come on, bark like a dog,” Wang Teng suddenly said.

Round Ball: ...

The antman queen: ...

They were dazed. They couldn’t believe that this was Wang Teng’s great idea.

Was he for real?

“Woof woof.” The Devouring Nihility Beast’s Origin Of Soul let out a bark.

“???”

The duo didn’t expect it to actually bark.

Both of them almost believed that the Devouring Nihility Beast’s soul had been taken by Wang Teng. Only he would do such a heartless thing.

The Devouring Nihility Beast was from a noble bloodline and would never do anything like that. It wouldn’t even bother to learn how other races communicated, let alone a dog’s barking.

This was a pride that stemmed from its bloodline. It was something everyone knew.

Almost every Universe Behemoth was prideful and noble. They would rather die than do something humiliating.

Once, someone wanted to enslave a Universe Behemoth, but it self-destructed instead. It would rather die than serve someone.

And that Universe Behemoth’s bloodline wasn’t even as noble as the Devouring Nihility Beast’s.

Besides, it wouldn’t do any good for the Devouring Nihility Beast to pretend that its soul had been obtained by Wang Teng.

It had no need to do so.

There was only one possibility: Wang Teng had obtained its soul.

Round Ball and the antman queen looked at Wang Teng in deep shock.

“Cough, this should be enough.” Wang Teng cleared his throat.

Now, the Devouring Nihility Beast was him. He made himself bark. Wasn’t he resolute enough?

“Okay.” Round Ball had a weird expression. It floated around Wang Teng in disbelief. “So you wanted to take its soul.”

“This is the only way. I had to do this,” Wang Teng said calmly as if he had done something ordinary.

“No wonder you didn’t tell me about it. If I knew that you were going to use Thieve, I would have stopped you.” Round Ball shook its head.

“I could only do this by myself. It was useless for me to tell you.”

“You’re really... insane!” Round Ball looked at him as if he were a ghost.

“The most important thing is that you succeeded.” The antman queen carefully looked at Wang Teng and the Devouring Nihility Beast’s Origin Of Soul.

Round Ball also surrounded the Devouring Nihility Beast in curiosity. It wanted to see what it really looked like.

This was the Devouring Nihility Beast.

No one had seen its true appearance, and it was now in front of them. It felt magical.

“You should have gained a lot of benefits after your Thieve succeeded on the Devouring Nihility Beast,” Round Ball said.

“Of course.” Wang Teng nodded with a smile.

“You’re so lucky. I don’t even know how you managed to succeed.” Round Ball shook its head and then said with great excitement. “With the Devouring Nihility Beast’s body and bloodline, you can definitely advance to the universe stage. There shouldn’t be anything hindering you in the process.”

“It’s true. Some known Universe Behemoth can reach the universe stage by just growing and maturing. This Devouring Nihility Beast is much more powerful and mysterious than them. Advancing to the universe stage is not a problem at all.” The antman queen agreed.

This is because only a few people had any information about the Devouring Nihility Beast. They could only speculate.

Even so, it was absolutely certain that the Devouring Nihility Beast could reach the universe stage.

Wang Teng nodded, and a smile appeared on his face.

The Devouring Nihility Beast had a powerful bloodline, satisfying him greatly.

The Devouring Nihility Beast grew by devouring. As long as it received enough resources, it could reach the universe stage or even more. It would definitely be a great aid to him.

Wang Teng was naturally delighted.

As for himself, he wasn’t worried at all. As long as he could collect attributes, he wasn’t afraid of not reaching the universe stage.

In fact, the universe stage was just the beginning.

Round Ball and the others didn’t know anything about this. They were still worried about his inferior bloodline and whether his talent was enough for him to achieve great things.

“Alright, we should leave this place.” Wang Teng kept the Devouring Nihility Beast’s Origin Of Soul.

“That’s right. We wasted so much time here. We still have to rush back to No. 29 Defense Planet.” Round Ball suddenly remembered something and asked, “That universe-stage martial warrior was also devoured by the Devouring Nihilism Beast. Is he dead?”

“Not yet, but he’s now in my hands. I’ll deal with him.” There was a hint of coldness in Wang Teng’s eyes as he sneered.

“Hehe, that bastard definitely didn’t expect you to tame the Devouring Nihilism Beast.” Round Ball chuckled.

Wang Teng didn’t say anything and comforted the floral fairies. He then disappeared from the Space Fragment.

In the next moment, he appeared in the outside world.

This was the planet’s core but had been sucked dry. Only a huge dark purple ball of light was entrenched there.

It was the Devouring Nihilism Beast!

“Keep!” Wang Teng said in a low voice.

The purple-black ball of light disappeared and was taken into the Devour Space.

Chapter 1153: Massacre Before Leaving!

In the decaying and grayish planet, a pitch-black universe spacecraft suddenly appeared. It shot out silently from the atmospheric layer at the speed of light.

Round Ball was in full control of the Devil Slayer spacecraft. It activated the panoramic simulation mode.

Wang Teng felt a little complicated as he stared at the planet disappearing behind him.

This was the end of the planet. It survived till now because the Devouring Nihilism Beast had been acting as the core of the planet.

Now that Wang Teng kept the Devouring Nihilism Beast’s body, this planet would collapse.

The moment this thought appeared in his mind, a loud explosion occurred behind him.

The entire planet shattered without any warning. A third of the planet separated from the main body and exploded, turning into small asteroids that floated in the universe.

Then, the other two-thirds of the planet broke into countless asteroids, scattering in the universe.

This was the first time Wang Teng witnessed the destruction of a planet. It gave him the jitters, and he was unable to calm down for some time.

The Origin Of Soul of the antman queen floated out of Wang Teng’s body. They didn’t have to worry about the Devouring Nihilism Beast, so Wang Teng wore the Soul Crystal on him.

The antman queen was in deep sorrow as it stared at the planet behind them.

Her race had bred and thrived on this planet in the past. It used to be a prosperous place, but now, it was all part of history. The planet no longer existed in the universe.

Wang Teng and Round Ball remained quiet. They didn't disturb the antman queen.

This was a grievous and sorrowful situation. Although they weren't in the antman queen's shoes, they understood her.

"Let's go." After some time, the antman queen retracted her gaze and stared into the emptiness ahead.

"Round Ball, depart!" Wang Teng nodded.

"Alright! Devil Slayer, depart. Our destination is the No. 29 Defense Planet!"

Round Ball chuckled. Its tone turned lighthearted as it piloted the Devil Slayer spacecraft into the gray mist.

They possessed an intact universe-level spacecraft that hadn't been damaged, so passing through the gray mist was an easy feat.

"Intelligent lifeforms are indeed powerful. My clansmen had to study for a long time before we managed to control this spacecraft. We also needed many of us to cooperate together," the antman queen looked at Round Ball and commented.

"Haha, of course. Intelligent lifeforms like me are rare." Round Ball raised its eyebrows at Wang Teng proudly.

Wang Teng smiled. Surprisingly, he didn't refute Round Ball this time. He had to admit that it had been a great help to him along the way.

"Master, my soul can't hold for long. I need to proceed with rebirth immediately," the antman queen spoke to Wang Teng with respect.

In the past, she might have had other thoughts. But after learning that Wang Teng stole the Devouring Nihilism Beast, all these thoughts disappeared. She started to treat him with respect and reverence. She didn't dare to show any signs of unhappiness.

"You need a powerful star beast with great vitality for your rebirth, right? You need to place this Soul Crystal in that star beast," Wang Teng said.

"It looks like Master already knows." The antman queen was surprised. Then, she remembered something and nodded.

"I'll prepare the star beast as soon as I can." Wang Teng nodded.

He knew this from the knowledge he had received from the Devouring Nihilism Beast.

"Sorry to trouble you," the antman queen replied respectfully.

"No worries. I'm anticipating the loyalty of the antman race too."

After stealing the Devouring Nihilism Beast, the antman queen was no longer a threat to him. He could order it around without any worry, so her rebirth was put on the agenda.

The spacecraft had entered the gray mist zone. There was a group of Toxic Mirage Beasts ahead.

“Round Ball, kill them,” Wang Teng said calmly with a sharp gaze.

“These bastards chased us relentlessly in the past. It’s time to make them pay the price. I can use this chance to test the weapons on this Devil Slayer too.” Round Ball rubbed its hands in anticipation.

“Don’t let any of them escape,” Wang Teng said.

“No one will get away,” Round Ball promised. It activated the Force cannon of the Devil Slayer.

The Force cannon was made from Bloodlust Stones. Hence, its Force attacks carried bloodlust conscious in it. It could be used to intimidate their opponent.

Boom! Boom! Boom!

Force cannons with strings of black Bloodlust conscious slammed into the Toxic Mirage Beasts.

Under Round Ball’s control, the cannons shot through the air with agility. No one panicked even though Toxic Mirage Beasts were surrounding them from all corners.

This situation was completely different from the time when they had just entered the gray mist. At that time, the Flaming River spacecraft was damaged, and there was a universe-stage martial warrior hot on their tails. They had no time to care about these Toxic Mirage Beasts.

Now, it was a one-sided massacre. After all, the Devil Slayer was extremely powerful.

The Toxic Mirage Beasts were intimidated by the bloodlust conscious. Before they could react, the Force cannon struck them, reducing them to minced meat.

Wang Teng sat in the host’s seat on the spacecraft and collected the attribute bubbles outside indifferently.

Constellation Force (Poison)*1200

Constellation Force (Poison)*800

Toxic Mirage*150

Blank Attribute*3000

Constellation Force (Poison)*1500

Toxic Mirage*120

Blank Attribute*2500

...

A large number of attribute bubbles floated toward Wang Teng. He needed to replenish his blank attributes pool urgently. This was also a good time to raise his poison Force.

Thus, Wang Teng planned to kill all these poisonous beasts. He would annihilate them.

“These Toxic Mirage Beasts got attracted by the Devouring Nihilism Beast. They formed a gray mist around the planet so that outsiders wouldn’t be able to get in. The people inside will find it tough to get out too,” the antman queen explained.

Wang Teng nodded. No one knew the methods of the Devouring Nihilism Beast better than him. It wasn’t hard for it to control star beasts with a weaker bloodline.

Using his powerful spiritual power, Wang Teng spent half a day clearing all the Toxic Mirage Beasts in the gray mist. Not a single beast managed to escape.

Wang Teng received a large number of attribute bubbles.

Constellation Poison Force: 32800/90000 (planetary stage ninth level)

Blank Attribute: 75600

Toxic Mirage: 2500/5000 (big achievement)

His poison Force had reached the ninth level of the planetary stage.

He collected more than 70 thousand blank attributes too. This was a small windfall.

At the same time, he received a lot of Toxic Mirage attributes, allowing his skill to jump to the big achievement stage. He could release a massive amount of Toxic Mirage to cover a certain area. This was a good technique.

Chapter 1154: Guess!

After the Toxic Mirage Beasts died, the gray mist finally dissipated. The Devil Slayer spacecraft left the gray mist zone and returned to outer space.

Round Ball locked in on No. 29 Defense Planet. It exclaimed in shock, “We have gone extremely off course. We’ll need two to three days more to complete our journey.”

“Increase the speed to maximum,” Wang Teng said.

“No problem. Anyway, I didn’t expect this Devil Slayer to be so powerful. Its speed is around two times faster than the Flaming River,” Round Ball commented.

“My race paid a huge price to build this Devil Slayer. We place special emphasis on speed and destructive power,” the antman queen explained softly.

“It’s indeed powerful. We just hit the asteroids gently with the Devil Slayer, and the sharp wings cut them into two. Even a heaven-stage martial warrior can get heavily injured by this spacecraft,” Round Ball said.

Then, the spacecraft entered the dark Universe and rushed towards the No. 29 Defense Planet.

“Wang Teng, you have a message,” Round Ball suddenly reminded him.

“Who is it?” Wang Teng was surprised.

“Di Qi.”

“Connect me to the virtual universe,” Wang Teng said hurriedly with a frown.

“Alright!” Round Ball nodded. It immediately connected Wang Teng to the virtual universe.

...

The virtual universe.

In the Great Qian Mainland, within the castle of the Cavendish family, Di Qi was sitting behind a table in an extravagant study room and waiting patiently.

Suddenly, Wang Teng’s figure appeared in the study.

“You’re finally here.” Di Qi’s eyes lit up. He smiled and said happily, “I couldn’t contact you for some time. What happened?”

“Sigh, I was being hunted by a universe-stage martial warrior.” Wang Teng sat down on the real leather sofa and poured himself a cup of fruit juice. He downed it in a single gulp.

The delicacies in the virtual universe were amazing.

This kind of fruit juice extracted from the Emerald Honey Fruit was a high-class drink rarely seen in the universe. One could only find it on a large planet like Great Qian Planet.

Wang Teng could only drink it when he was at Di Qi’s place.

“What?” Di Qi sprung up from his seat in astonishment. “Why did you offend a universe-stage martial warrior again?”

“What do you mean by I offended a universe-stage martial warrior?” Wang Teng rolled his eyes uncontrollably.

“If you didn’t provoke him, why would he chase you?” Di Qi sat down beside him.

“Who knows? He chased me for no reason.” Wang Teng blinked. Then, he scoffed, “Besides the Parkers, I can’t think of another family with such capabilities.”

“Are you saying that the Parkers asked someone to kill you?” Di Qi frowned. “Do you have evidence?”

“I think so. Evidence? I’ll know after I ask that universe-stage martial warrior.”

“Ask the universe-stage martial warrior?” Di Qi was stunned. “Did you convince the martial warrior to switch sides?”

“No, I captured him.” Wang Teng poured himself another glass of fruit juice and savored it happily. “Not bad, get some real stuff for me next time.”

Di Qi was speechless. “Why are you still thinking of this fruit juice? Did you say that you’ve captured the universe-stage martial warrior? Are you kidding?”

“Why would I lie to you?”

“Come on, that’s a universe-stage martial warrior. Don’t make it sound so simple.” Di Qi didn’t know how to express his emotions. He felt exasperated. “So, how did you capture him?”

“It’s a long story...”

Wang Teng wouldn’t tell Di Qi that he stole a Devouring Nihilism Beast.

The Devouring Nihilism Beast was extremely mysterious. If others knew that he had one, it wouldn’t just be the universe-stage martial warriors chasing him. The implications were huge.

Thus, he just told Di Qi that he accidentally entered a restricted zone and found a way to turn the tables. Of course, the entire process was dangerous. He almost couldn’t come back.

He mixed some lies with the truth, so the reliability was quite high. He had a good relationship with Di Qi. He wouldn’t lie to him entirely.

Di Qi believed him too.

“You’re so lucky,” Di Qi lamented.

Wang Teng made it sound simple, but he could tell how precarious the situation was.

If he were to face a universe-stage martial warrior, he could only bring out his ancestor to save himself. He couldn’t think of any other ways.

In this aspect, he respected Wang Teng. This fellow was fated to be a protagonist.

“Lucky? I’m risking my life here.” Wang Teng shook his head.

“Judging from what you’ve said, it’s probably the Parkers family. You might not know, but the Law of Cause and Effect is instilled in Grand Duke Chongshan’s order. Once any martial warrior from the Parkers family attacks you, they’ll be found out. Hence, they can only ask outsiders to do the work for them,” Di Qi said after some contemplation.

“The Law of Cause and Effect!” Wang Teng was stunned.

This sounds high-class!

Even the cause and effect is being used.

“Haha, you probably don’t understand how powerful Grand Duke Chongshan is.” Di Qi shook his head and sighed. “Honestly, I’m surprised that he spoke up for you.”

Wang Teng blinked. He thought of something. Did the Grand Duke know that he had the Godslayer Sword Scripture?

If not, why would someone from the imperial family of the Great Qian Empire speak up for a small baron like him? It was unrealistic.

“Forget it, let’s not talk about this.” Wang Teng shook his head and asked, “Have you reached the No. 29 Defense Planet?”

“Yes, I got there more than a month ago and am waiting for you,” Di Qi replied. “But I forgive you since you were being chased by a universe-stage martial warrior.”

“Hahaha, you’ll have to wait for a few more days. I’m on my way.” Wang Teng smiled.

“Alright, hurry up. You’re the only one left.” Di Qi punched him. “If we work together, we’ll be able to make a name for ourselves on this No. 29 Defense Planet.”

When Wang Teng left the Great Qian Planet, Di Qi invited him to roam the No. 29 Defense Planet together and gain military exploits.

To the martial warriors in the Great Qian Empire, fighting with the dark apparitions on defense planets was the best way to train themselves.

Those martial warriors that fought dark apparitions in battles were all renowned figures.

Wang Teng also wanted to see how powerful a devil emperor was. At the same time, he could get some attribute bubbles, so he agreed to Di Qi’s suggestion.

Wang Teng and Di Qi returned to the real world after the small chat.

Just as he was about to go back for cultivation, he remembered something. He hadn’t dealt with Cao Jiaojiao and Cao Hongtu.

Swoosh!

He waved his hand and brought Cao Hongtu and Cao Jiaojiao out of his Space Fragment.

Cao Hongtu was heavily injured. He lay on the ground like a dead dog.

As for Cao Jiaojiao, she stood at the side with a complicated expression. She couldn’t bear to see her father in this state, but she felt extremely disappointed too.

Chapter 1155: Don’t Get Angry. Remember, You’re A Prisoner!

“Long time no see, Senior Brother Cao!” Wang Teng sat in the main control seat and looked down at Cao Hongtu. His tone was calm.

The antman race might have a special fetish. This seat was designed like a throne. It was entirely black and gave off a ferocious aura like the king of all star beasts.

Anyone standing in front of this seat would suffer a great stimulation in his heart.

Cao Hongtu raised his head. He seemed exceptionally lifeless after his serious injury. His spirit was also injured, so it made him lethargic and weary. This was an entirely different person from the first time Wang Teng saw him.

“What do you want?” Cao Hongtu asked in a hoarse voice.

Cao Jiaojiao looked at Wang Teng too. This was the question she wanted to ask.

She was caught by Wang Teng in the Flaming River World and locked up until now. She was getting depressed.

“I’ll give you one choice. Only one of you can stay alive. The one who wants to live can kill the other one,” Wang Teng looked back and forth between the two people as he spoke indifferently.

Cao Jiaojiao widened her eyes in shock. She stared at Wang Teng as if he were a ghost. Cao Hongtu squinted too. He didn't expect him to give them such a choice.

A fight between a father and daughter!

This bastard was inhumane!

Round Ball and the antman queen stared at Wang Teng in astonishment. This fellow's heart was probably black. How could he ask the father and daughter to make such a decision!

"Don't even think about it," Cao Jiaojiao stared at Wang Teng with hatred and said in a cold voice.

"Oh, is that your choice?" Wang Teng looked at her with interest. Then, he ignored her and turned to Cao Hongtu. "Senior Brother Cao, what about you?"

Cao Hongtu turned silent.

Cao Jiaojiao stared intently at her father. She still bore some hope in her even though he had abandoned her once.

Since she was a child, Cao Hongtu gave her hope and love. Among her siblings, she was undoubtedly doted on the most. Even Cao Wu, who was as talented as her, didn't receive such treatment.

But after Wang Teng's appearance, Cao Hongtu changed. He would do anything to get the baron's title, even if that meant forsaking his daughter.

So, at this last moment, what would he choose?

Wang Teng stared at Cao Hongtu calmly.

"I..." Cao Hongtu was in a dilemma. In the end, he looked at Cao Jiaojiao and said, "Jiaojiao..."

He didn't complete his sentence, but Cao Jiaojiao understood his intention from his gaze. Her face turned pale, and she took a step back involuntarily.

"Clap clap!"

The claps sounded exceptionally grating. Wang Teng got up from his seat and laughed.

Cao Jiaojiao glared at him in frustration and anger.

Human nature couldn't be tested. If this fellow didn't give them this inhumane choice, Cao Hongtu wouldn't act like this.

Ultimately, it was his fault.

Cao Hongtu looked at Wang Teng in humiliation. He thought that the other party was mocking and laughing at him.

But, he didn't care. As long as he could live, nothing else mattered. Revenge could only be taken if one stayed alive.

Cao Hongtu wasn't willing to die. He could do anything to remain alive, even if it meant going against his will.

“Don’t look at me like that. I’m just joking,” Wang Teng said with a smile.

Cao Jiaojiao: ...

Cao Hongtu: ...

Joking?!

The two of them felt a little stuffy. They felt like vomiting blood.

F**k, they were pondering their life and death here only to learn that he was joking?

Round Ball and the antman queen stared at him speechlessly. They were dumbstruck by his actions.

“Cough, I didn’t expect you to take it seriously. Do I have such an evil impression in your mind?” Wang Teng asked innocently.

“Hmph.” Round Ball snorted.

Cao Jiaojiao was panting. She was so angry that she didn’t know what to say.

This bastard was quite infuriating! Why did someone like him exist? Why hadn’t heaven killed him with a bolt of lightning?

Cao Hongtu was stunned too. He didn’t know what expression to give.

“But I still have two choices for you,” Wang Teng ignored their expressions and continued.

“Again?!” Cao Jiaojiao was furious. “What do you want? Are you playing with us?”

“Don’t get angry. Remember, you’re a prisoner.” Wang Teng sat back down.

Cao Jiaojiao felt speechless. It was normal to play with a prisoner. Nothing wrong with that. But for some reason, she felt extremely frustrated.

“Alright, let’s cut the bullshit.” Wang Teng glanced at Cao Jiaojiao and Cao Hongtu. “Submit to me or die.

“Choose.”

Cao Jiaojiao and Cao Hongtu were appalled. They stared at Wang Teng in disbelief. So this was his motive. He wanted them to submit to him.

“In your dreams. I’ll rather die than bow my head to you.” Cao Jiaojiao snorted.

“It’s alright, I can sell you to the slave market. A cosmos-stage martial warrior will fetch a good price. Some people fancy female martial warriors like you.” Wang Teng glanced at Cao Jiaojiao and sneered.

“You...” Cao Jiaojiao pointed at him with a red face. She shuddered in fear at the thought of being sold as a slave and getting bought by some people with weird fetishes.

“What about you?” Wang Teng disregarded her and turned to look at Cao Hongtu.

“I... submit to you!” Cao Hongtu agreed after a moment of hesitation.

He was unwilling to bow down to Wang Teng, but in the face of death, nothing was important. To him, staying alive was his main aim.

“Good.” Wang Teng nodded. He wasn’t surprised. “Come here.”

Cao Hongtu didn’t know what he wanted to do. He crawled up from the ground and stumbled in front of Wang Teng.

Wang Teng released his spiritual power and stabbed it into Cao Hongtu’s forehead.

“Ah!” Cao Hongtu let out a cry of pain.

“Wang Teng, what are you doing?” Cao Jiaojiao was dumbfounded. She screamed in anger and rushed forward to stop him.

Wang Teng waved his hand and formed an invisible wall with his spiritual power. Cao Jiaojiao was thrown off her feet.

Bang!

She slammed onto the metallic wall of the spacecraft.

Wang Teng took back the spiritual power he had stabbed into Cao Hongtu’s forehead.

“What is this?” Cao Hongtu was terrified. He took a few steps back to stay away from Wang Teng. He was in disbelief.

“Don’t worry. If you have no thoughts of rebelling, this mark won’t harm you,” Wang Teng explained calmly.

Chapter 1156: Baron Wang Teng, Welcome to the No. 29 Defense Planet!

“You left a spiritual mark on me!” Cao Hongtu shouted in disbelief.

Wang Teng was just a celestial-stage martial warrior while he was a heaven-stage martial warrior.

How was he able to leave his spiritual mark with this huge difference in strength?

This wasn’t right!

But...

He suddenly remembered the fear he felt when Wang Teng entered his spiritual core.

He didn’t know the reason, but the oppression of his spirit was real. How did Wang Teng’s spirit become this powerful and scary?

This wasn’t the ability a celestial-stage martial warrior should possess.

Cao Hongtu didn’t understand.

“What? Do you have an objection?” Wang Teng asked calmly.

Cao Hongtu’s expression changed. In the end, he submitted to fate and retreated silently to the side.

He thought that he could play the hypocrite with every semblance of sincerity and look for a chance to get rid of Wang Teng in the future.

He didn't expect this spiritual mark.

In the universe, there were many ways to control other people.

The biochip present in the slave market was one method. However, it was only suitable for cosmos-stage martial warriors and below.

After reaching the heaven stage, the martial warrior would be able to remove the biochip without harming his body.

In this situation, the biochip had no effect on them.

Another way was through the Origin Of Soul. Once someone controlled your Origin Of Soul, you wouldn't be able to resist and had to obey the other party.

The Origin Of Soul was the foundation of all martial warriors. Once it was injured, one's cultivation would be affected, and one might even suffer from the pain of their soul decaying.

However, an injury of the Origin Of Soul could be healed. For instance, the Nine Essence Soul Congealing Pill that Wang Teng made in the past could help. Some treasures were able to heal the soul too.

Thus, for martial warriors above the heaven stage, this wasn't the safest method.

If they were forced into a corner, they might bear the pain of injuring their Origin Of Soul to escape the control of others.

Only low-rank martial warriors could be enslaved with this method. Their Origin Of Soul was weak, so they couldn't withstand any injuries.

Any damage to the Origin Of Soul could cost them their lives.

They only had a chance of survival if they had a powerful background and could afford to buy dan medicines or treasures to heal their Origin Of Soul.

Another method was the spiritual slavery method. However, these techniques were rare.

These skills were normally a secret and only existed in ancient legacies.

Wang Teng didn't have it before. After inheriting the memories and legacies of the Devouring Nihilism Beast, he found a method that could be used to enslave someone's spirit.

This secret skill was called the Slave Spirit Mark!

Spiritual secret skills were mysterious and occult. They were hard to decipher too. If the slave attempted to remove it, the master would detect it immediately.

If the master ignited the spiritual mark, the person under control would explode and die.

There were no other possibilities.

Thus, once he was marked, Cao Hongtu had to say goodbye to freedom. That was why his expression had turned ugly.

Wang Teng looked at Cao Jiaojiao and said, "Are you done? Do you want to submit to me or should I sell you to the slave market?"

Cao Jiaojiao took a few deep breaths. She was in a dilemma, but she chose to submit to Wang Teng in the end.

Wang Teng left a spiritual mark on her using the same method.

Now, these two people were his slaves. They could never betray him.

"Come, call me master." Wang Teng lifted Cao Jiaojiao's chin and laughed.

Cao Jiaojiao was embarrassed and furious. However, she couldn't disobey him. She gritted her teeth and squeezed out the word from her mouth. "Master."

"You're not used to it. You should practice more." Wang Teng patted her face.

Oh, it's quite soft. It feels good.

Cao Jiaojiao: ...

To hell with practicing more. If she could disobey him, she would have kicked him. No man had ever dared to treat her with such impoliteness.

Now...

Sigh!

Cao Jiaojiao sighed in her heart. She was just Wang Teng's slave now. She had no right to complain.

"How long haven't you bathed? Go and wash up and change your clothes. Since you're my slave now, you mustn't embarrass me," Wang Teng sized up Cao Jiaojiao with a strange expression and said with disdain. He waved his hand.

Cao Jiaojiao gritted her teeth.

Wasn't he the one who caused her to be in this state?

He locked her up in the Space Fragment for a long time. What right did he have to complain?

Seriously.

But she had to admit that she couldn't stand herself either. She longed to take a bath and wash her bad luck away.

"Round Ball, prepare two rooms for them," Wang Teng said.

"Okay." Round Ball nodded. It prepared rooms for Cao Jiaojiao and Cao Hongtu.

After settling Cao Hongtu and Cao Jiaojiao, Wang Teng went back to the cultivation room. He left the piloting to Round Ball.

...

Many days later, Wang Teng finally arrived near the No. 29 Defense Planet.

He had changed the Devil Slayer to another ordinary celestial-level spacecraft. After all, the Devil Slayer was too eye-catching.

In a chaotic territory like a defense planet, traveling in a powerful universe-level spacecraft would attract unnecessary trouble.

Wang Teng didn't want to catch the attention of any universe-stage martial warrior again.

After flying for another hour, he finally saw a large grayish-brown planet in the distance.

There were giant battlecraft with the Great Qian Empire's symbol lined up around the planet, forming a strong line of defense.

A nervous atmosphere could be felt between the line of defense and the planet.

Every spacecraft that reached this area would have to undergo a round of inspection and enter the No. 29 Defense Planet through a fixed route.

If not, they would be mercilessly shot down.

"Round Ball, notify them," Wang Teng stood in front of the control station.

Round Ball immediately notified the Great Qian Empire's army that was stationed on this No. 29 Defense Planet.

After some time, a light screen appeared in front of Wang Teng.

"Baron Wang Teng, welcome to the No. 29 Defense Planet. I'm the second lieutenant in charge of guiding you. My name is Fei Hai," a middle-aged man with brown hair said.

"Nice to meet you, Second Lieutenant Fei Hai." Wang Teng nodded in reply.

"I'll send you the spacecraft route in a moment. Please follow this route to enter the No. 29 Defense Planet," Fei Hai reminded, "Do not leave the route or you'll be shot down."

"I understand." Wang Teng nodded.

Round Ball received the route instantly. They followed it and entered the No. 29 Defense Planet successfully. The spacecraft was parked in the dock.

Di Qi was already waiting for them.

Chapter 1157: Situation On The Defense Planet!

The ordinary mass-produced celestial-level spacecraft landed gradually. The cabin door opened, and Wang Teng alighted.

"Hahaha, you're finally here!" Peals of laughter welcomed his arrival. Di Qi strode over and gave him a big hug.

“Do you have to be so enthusiastic? I don’t like men.” Wang Teng patted his back and moved away.

“Seriously!” Di Qi laughed as he complained. This fellow was as playful as always.

“Baron Wang Teng, nice to meet you. Welcome to the No. 29 Defense Planet.” A second lieutenant wearing the Great Qian Empire’s military uniform walked over and saluted Wang Teng. He seemed respectful.

By right, Wang Teng was just a baron and didn’t have a military position, so he didn’t have to care.

However, since Wang Teng came to the frontline of the No. 29 Defense Planet for battle, the higher authorities had already arranged an adequate position for him.

As his guide, Fei Hai had heard some news. However, Wang Teng didn’t know anything about it.

“Second Lieutenant Fei Hai, nice to meet you.” Wang Teng returned the salute.

“Come on, let’s head to the military base for reporting.” Di Qi led the way. Then, he turned and looked at the celestial-level spacecraft and asked, “Where’s your cosmos-level spacecraft? Why did you change it?”

“It got destroyed by the universe-stage martial warrior,” Wang Teng said sadly.

“Erm... alright. Pretend I didn’t say anything.” Di Qi gave a bitter smile after a moment of silence.

Get destroyed by a universe-stage martial warrior?

He couldn’t complain even if he wanted to.

The QY-E63 was an ancient spacecraft model, and it was expensive. He wanted to buy it from Wang Teng in the past but was rejected. He didn’t expect it to get destroyed by a universe-stage martial warrior.

Di Qi felt his heart aching. However, he couldn’t take revenge on the universe-stage martial warrior, right?

“Nevermind, out with the old, in with the new. It’s time to change to a better spacecraft,” Wang Teng said nonchalantly.

After the QY-E63 cosmos-level spacecraft was destroyed, he received the Devil Slayer, a universe-level spacecraft. This was a great bargain.

If Di Qi knew, he wouldn’t find it a pity anymore. He might even get jealous.

That was a universe-level spacecraft!

Moreover, it was a special spacecraft customized by the powerful Antman Race.

The Devil Slayer was a top-notch spacecraft be it as a collectible or based on its ability and functions.

Di Qi was speechless. This fellow sounded lighthearted. He felt as if he was speaking to a wealthy fellow.

Second Lieutenant Fei Hai was astounded. He felt a little overwhelmed.

A cosmos-level spacecraft was destroyed by a universe-stage martial warrior?

There was too much information in this sentence. He couldn't react in time.

Did Baron Wang Teng offend a universe-stage martial warrior and got his spacecraft destroyed?

Then?

He was still standing here.

It was unbelievable. This baron wasn't a simple person.

He suddenly felt fortunate that he had shown enough respect to Wang Teng. He might be in trouble if he offended this young man.

He was just a small second lieutenant. He was nothing in front of all these big figures.

Wang Teng sat on a heavy military truck and drove out of the dock. He sized up his surroundings through the window.

Di Qi had been here for a month, so he was familiar with this place. He started introducing the planet to Wang Teng.

"Colonel Di Qi, you're snatching my job," Second Lieutenant Fei Hai said with a bitter smile.

"Hahaha, I'm helping you with your work. Isn't that a good thing?" Di Qi laughed.

"Brother Di Qi, you're a colonel already?" Wang Teng asked in surprise. He remembered his military rank when he was still on Earth. At that time, he was a major general.

Of course, if he had continued climbing the ladder, he could become a general. The three great commanders even wanted to give him the commander position.

However, Wang Teng turned them down.

With his current ability and stage, any position on Earth was useless.

Mind you, he was the overlord of the Milky Way.

Earth was just a planet in the Milky Way. Hence, there was no use fighting for the commander's position. He would rather give this opportunity to those who needed it.

There were a bunch of people who wanted that rank and had worked hard for many years. Why did he have to be the evil one and snatch their chance?

"I have been in the military for a long time. Being a colonel isn't surprising," Di Qi said with a smile.

"Looks like I'll need you to take care of me now," Wang Teng teased.

"You entered the defense planet as a baron, so your rank won't be low either."

"Huh?" Wang Teng was stunned.

He was a new citizen of the empire. What rank could the military give him?

“You’ll know when the time comes.” Di Qi smiled.

As they laughed and chatted, the heavy truck entered an enormous military base.

This base was gigantic, many times bigger than the battle fortress on the No. 4 Defense Planet. It could be a city on its own.

All types of military vehicles were traveling on clean, orderly, and spacious roads. Soldiers with weapons on them were patrolling beside the roads. Large-sized weapons could be seen on the metallic buildings at the side, making this city appear even more heavily guarded.

This was a sturdy and tough metallic battle fortress.

“There’re many cosmos-level weapons here,” Wang Teng commented.

“You have good eyesight. There will be a cosmos-level weapon every 50 meters,” Second Lieutenant Fei Hai explained after a moment of surprise.

“Is the situation here so serious?” Wang Teng asked.

“You’ll know soon.” Fei Hai smiled.

Wang Teng didn’t know what he meant. He felt even more puzzled when he saw the mysterious smile on Di Qi’s face.

Beep, beep, beep...

A few minutes later, a head-splitting siren blared in the base.

“Look.” Fei Hai pointed at the sky.

Wang Teng was astounded. However, he calmed down when he saw Fei Hai and Di Qi’s composed expressions and looked up in the direction he was pointing at.

A few black shadows were flying in the sky in the distance, escaping to the west of the city.

With his eyesight, Wang Teng could tell that these were dark apparitions.

There was no way to hide their thick dark Force.

Also, these weren’t normal dark apparitions. They were devil kings.

Boom, boom, boom...

The weapons on the ground started firing. Glaring beams of Force glow shot into the sky.

Roar!

Roar!

The devil kings bellowed in anger before they got blown into pieces.

These powerful devil kings died without a trace. What a miserable death.

Normally, this scene was a huge stimulation to the new martial warriors who came to this planet.

Fei Hai stared at Wang Teng's face, wanting to see the emotions a newbie should have.

Unfortunately, he was disappointed.

There were no traces of anxiousness at all.

Besides a second of astonishment in his eyes at the start, he remained calm throughout the entire process as if it wasn't any big deal.

Honestly, Wang Teng was surprised by himself. It might be because he had experienced too many things, so such matters couldn't affect him anymore.

"We frequently discover signs of dark apparitions here. Devil kings and low-tier devil emperors can enter our attacking range. We don't show any mercy and kill them the moment we see them," Fei Hai explained.

"Are these dark apparitions... stupid?" Wang Teng couldn't help but ask.

"Erm..." Fei Hai was stunned for a moment. Then, he smiled and explained, "The space on this planet is unstable. Dimensional rifts can appear anywhere and at anytime. Thus, besides the military base, dark apparitions can be found everywhere."

"Of course, the area within a 30 miles radius of the military base is safe. Any dark apparitions will be killed by heavy weapons the moment they appear. Some weaker dark apparitions get killed by the patrolling martial warriors," Di Qi added.

"It looks like the No. 29 Defense Planet is more interesting than I thought," Wang Teng said.

"Interesting?" Di Qi and Fei Hai looked at him with strange expressions. They felt that Wang Teng's mind was different from a normal person's.

Wang Teng smiled. He released his spiritual power and picked up the attribute bubbles in the air.

Constellation Force (Dark)*1500

Celestial Realm Spirit*100

Constellation Force (Dark)*1800

Celestial Realm Spirit*120

Constellation Force (Dark)*2200

Celestial Realm Spirit*115

...

By right, one shouldn't use spiritual power in the military base. He would be suspected of spying on the military's secrets. The consequences would be dire if he was found out.

However, Wang Teng only released a small string of spiritual power to collect the attribute bubbles.

This small string wouldn't be discovered as long as it didn't enter the range of the spiritual power detection devices.

The attribute bubbles were all outside the military base. He didn't need to enter the restricted zones.

Besides, his spirit was powerful, so he wasn't worried.

The military's heavy truck drove ahead and soon reached the center of the military base.

The war room, meeting rooms, and administrative rooms were in the central region. The lodgings of the higher authorities were here too.

The heavy truck stopped outside a building after rounds of inspection. Second Lieutenant Fei Hai led Wang Teng in.

The space inside this building was vast. The thick metallic walls were a sign of its strong defense. Normal attacks wouldn't be able to damage this place.

After some time, the three of them came in front of a huge door. There was a soldier wearing a lieutenant uniform behind it.

"Adjutant Song, please inform General Cameron that Baron Wang Teng is here," Second Lieutenant Fei Hai went forward and said.

The lieutenant glanced at Wang Teng curiously and nodded. "Please wait for a moment."

He knocked on the door and entered the room. After some time, he walked out and raised his hand to invite Wang Teng in.

"Baron Wang Teng, please come in. General Cameron has been waiting for you."

Chapter 1158: Test And Major!

Wang Teng entered General Cameron's office alone.

He saw a stern-looking man with white hair sitting behind the office table and writing furiously. He seemed to be busy.

He didn't even raise his head when Wang Teng came in.

Wang Teng didn't disturb him either. He stood at the side and waited while looking around the room.

This was a simple office.

Yes, the word 'simple' was the best way to describe it.

Wang Teng had seen many offices in the Great Qian Empire. The majority of them were extravagant. This was the first time he saw such a simple one.

It looked like this general wasn't a fan of enjoyment.

Only someone like him could guard a defense planet for a long time. After all, it wasn't an easy task dealing with the dark apparitions on a defense planet.

Most importantly, General Cameron was a powerful universe-stage martial warrior. This was why Wang Teng didn't dare to be impolite.

After some time, General Cameron raised his head and looked at Wang Teng. He was sizing him up.

“Baron Wang Teng, you came from a backward planet, but you caused a huge uproar in the Great Qian Planet. I have long heard of your name,” General Cameron said indifferently.

Wang Teng didn’t give any expressions. He didn’t know what this general meant. Was this praise or criticism?

Thus, he remained quiet and waited for the general to continue.

“The empire has given you a major title,” General Cameron continued.

Wang Teng was surprised.

A major right away?

Was the empire always so generous?

Mind you, he hadn’t made any military exploits. Would others have any objections to his title?

Many thoughts flashed through Wang Teng’s mind.

“You’re entering the battlefield as a major. You’re not a simple soldier anymore.” General Cameron gave him a meaningful gaze and continued, “It looks like the empire has high hopes for you.”

Wang Teng was enlightened. More thoughts went through his mind.

Did someone put him in a high position so that he could fall harder?

Or did they hope that he could gain more experience on the battlefield and achieve more military contributions?

The first group was probably the Parkers. The second group would be the imperial family.

“As your direct superior, I have the right to reject such requests.” General Cameron paused. No emotions could be seen on his face.

Wang Teng looked back at Cameron calmly.

General Cameron was a universe-stage martial warrior so the pressure he gave was immense. In addition, he was a real warrior who fought with dark apparitions all year round on the battlefield so his aura seemed to contain numerous souls of the deceased screaming and howling in agony.

Massive killing intent congregated around him. His calm eyes suddenly turned sharp as if there were mountains of corpses ingrained inside.

All the pressure was locked on Wang Teng.

However, Wang Teng wasn’t affected. He stood there firmly without any fluctuations in his eyes.

He was extremely familiar with such powerful killing intent.

Hence, this amount of pressure couldn’t frighten him.

There was finally a sign of astonishment on General Cameron's face. A smile appeared at the edge of his lips. He appeared satisfied with Wang Teng's performance.

"You're the first celestial-stage martial warrior that can remain composed under my pressure."

"The military recorded your performance on the No. 4 Defense Planet. I saw videos of your fight."

"You're not bad!"

"You're speaking too highly of me." Wang Teng remained respectful and calm. Bowing slightly, he said, "Have I passed your test?"

"Oh, you knew that I was testing you?"

"Yes. After all, there's no need for a universe-stage martial warrior like you to have such a long conversation with me."

"Very good. Brute force isn't enough to survive on the battlefield. You need intelligence too."

"I have sent the appointment letter to your account. Go back and take a look.

"Fei Hai will bring you to collect your military uniform and battle resources. Someone else will send you your mission later.

"I hope you won't disappoint me." He waved his hand, asking Wang Teng to leave.

Wang Teng bowed and turned to leave the office quietly. Di Qi and Fei Hai gathered around him outside the door.

"How was it? What did that fuddy-duddy say to you?" Di Qi asked directly.

He was a little worried since Wang Teng was inside for half an hour. Other newbies wouldn't need to meet General Cameron for such a long time.

Even though Wang Teng was a baron, he shouldn't receive any special treatment from General Cameron. Well, unless the general viewed him differently.

Fei Hai's eyelids twitched in fear.

Colonel Di Qi was too bold. They were just outside General Cameron's office. Wasn't he worried that the general would hear him?

Adjutant Song felt the corner of his mouth twitching. He pretended he didn't hear anything.

"Fuddy-duddy!" Wang Teng gave a strange expression. This description suited the general. He smiled and replied, "Nothing, he gave me some words of encouragement. General Cameron is nice to interact with."

"Nice to interact with?" Fei Hai glanced at Wang Teng curiously.

He highly suspected that General Cameron Wang Teng mentioned was different from General Cameron he knew.

General Cameron was famous on the No. 29 Defense Planet for being strict and old-fashioned. Everyone was afraid of him. Although Di Qi dared to talk behind his back, he was afraid to speak up to his face.

"Are you kidding?" Di Qi stared at Wang Teng weirdly. He felt that Wang Teng was trying to brush him off.

"I'm fine, right? General Cameron didn't eat me." Wang Teng laughed.

Honestly, he felt fine. He wasn't affected by the words General Cameron said or the test he gave him.

"Alright, you're amazing." Di Qi felt that he was worried for nothing. He gave Wang Teng a thumbs up.

Wang Teng smiled. He said to Fei Hai, "Second Lieutenant Fei Hai, General Cameron asked you to bring me to collect my military uniform and battle resources."

"Alright, follow me," Fei Hai said hurriedly.

The three of them left General Cameron's office and walked out of the administrative building. They drove toward the logistics department.

"Wang Teng, what rank did the military give you?" Di Qi asked curiously.

"Major."

"F**k, you're already a major? Seriously?" Di Qi widened his eyes in shock.

Fei Hai's jaws dropped in surprise too. He knew that Wang Teng would get a rank, but he didn't know what it was. He couldn't calm down for quite a while.

"Is a major very high?" Wang Teng asked.

"You're asking for a beating." Di Qi glanced at him from the corner of his eyes.

Fei Hai was speechless too. As a second lieutenant, he had no right to speak.

I'm sorry, I shouldn't disturb you!

"Do you know how long it took me to become a major?" Di Qi asked.

"One year?" Wang Teng touched his chin and guessed.

Di Qi coughed awkwardly, feeling offended. He replied angrily, "One year? In your dreams. I took three entire years and I was at the celestial stage, just like you. I was only given the major rank because of my outstanding performance during team combat."

"You were quite weak at that time." Wang Teng looked down on him.

"I..." Di Qi felt like cursing. He was frustrated.

However, when he remembered Wang Teng's achievements, he kept quiet.

"It's too early to be sad. With me beside you, you'll soon realize that you're weaker than you think," Wang Teng consoled him.

Di Qi: ...

Was this consolation?

Do you have some misunderstanding of what consolation is?

Fei Hai: ...

"I thought that they'd make you a lieutenant. I didn't expect them to give you a major title," Di Qi lamented.

One could see that reaching the major rank in the Great Qian Empire wasn't easy. It was vastly different from the major title on Earth.

At that time, Wang Teng managed to get the rank easily with some military achievements. If he wanted to reach the same height here, he would have a much longer path to walk.

Soon, the three of them arrived at the logistics department. The building was around four times bigger than the administrative department.

Wang Teng had an easier time with Fei Hai leading the way. He didn't have to worry about encountering any trouble.

The logistics department was huge. Fei Hai led Wang Teng through a long corridor before arriving in a spacious room.

"Second Lieutenant Jeff, I came to take the military uniform and resources for an officer."

Fei Hai changed the way he addressed Wang Teng after learning his rank. He was speaking to an old soldier in the room.

Second Lieutenant Jeff got up from his seat and looked at the party of three. He said seriously, "Please show me your appointment letter to verify your identity."

Wang Teng tapped his wristwatch, displaying an official appointment letter from the empire. He sent it to the screen on the wall.

Beep.

A notification of identity confirmation appeared on the screen.

Second Lieutenant Jeff nodded. There was no problem with the appointment letter, but when he saw Wang Teng's rank, he hurriedly put on a respectful expression and saluted. "Major Wang Teng, nice to meet you."

"You're too polite." Wang Teng saluted too.

He noticed that this Second Lieutenant Jeff had lost an arm and a leg. Mechanical limbs were used to replace them. He was obviously an old soldier who had retired from the battlefield.

Wang Teng would give such people his respect.

Second Lieutenant Jeff walked into the warehouse behind him and entered the identification information. He carried a box out.

“Major Wang Teng, these are your military uniform and battle resources. It includes one cosmos-level battle armor, one cosmos-level Force gun, and one cosmos-level healing medicine.

“You will live in Zone 2 House 0155. Your lodging rights have been activated. You can use your account to gain access.”

“Alright, thank you.” Wang Teng took the box and kept it in his space ring without a second look.

Second Lieutenant Jeff didn’t know what to say after seeing his casual attitude.

The three of them left the logistics department after collecting the resources.

Jeff shook his head. He guessed that this must be a descendant of some elite family who came to the defense planet for training and experience. He wondered how long he could stay.

Chapter 1159: Have You Heard Of The Story Of The Humane And The Inhumane?

Wang Teng and the others left the logistics department and drove to the residential area.

“I can guarantee that Second Lieutenant Jeff treated you as a noble.” Di Qi glanced back and smiled.

“Why?” Wang Teng asked curiously.

“Because all your equipment is at the cosmos level, which is beyond your rank and stage. However, you look like you don’t care. Of course he would think that you are a noble. Only nobles would be so proud.” Di Qi joked.

“That’s true. I’m a baron after all.” Wang Teng shook his head and laughed.

After some time, they arrived at the residential area. The houses were all arranged in neat rows.

The ranked field officers and above lived in Zone B. They were not to live with others, which was why everyone had their individual houses.

Under Second Lieutenant Fei Hai’s guidance, Wang Teng arrived at House 0155. He then turned on his wristwatch, and the door opened automatically.

The house wasn’t big. Besides a simple bedroom, small guest room, bathroom, and training room, there was nothing else.

“Major Wang Teng, this is the end of my mission. Higher-ups should have arranged for someone to coordinate with you. But feel free to contact me if there’s anything.” Second Lieutenant Fei Hai bade farewell.

After Wang Teng sent Fei Hai off, he entered the room with Di Qi.

He realized that although the house was well-equipped, it was very simple. There weren’t any items for entertainment or enjoyment.

“The dormitories here are all the same. I live in Zone B House 0123, not far from you,” Di Qi said.

“A direct descendant of the dignified Cavendish family is staying at the same place as me?” Wang Teng was surprised.

“On the defense planet, any status or background is useless. Everyone will be heading to the battlefield and striving for glory with their lives on the line.” Di Qi shook his head and sighed.

But in the next moment, a bottle of juice and two tall glasses appeared in his hand. He then poured out two glasses of golden and fragrant juice and snickered. “But we still have to enjoy ourselves.”

Wang Teng was caught between laughter and tears. This was really Di Qi’s way of doing things.

He wouldn’t forget to enjoy life wherever he went.

He was the same as well. He had prepared a lot of items in his space equipment. Even if the outside world ran out of food for ten years, he could still live well.

Both of them sat opposite each other on the guest room’s sofa. They then clinked their glasses, making a crisp sound.

“We can’t drink in the military. We’ll replace it with juice instead.” Di Qi smiled.

“A little wine wouldn’t mean a thing to a martial warrior,” Wang Teng said in surprise.

“It might not mean a thing, but one can never be too careful. Without this rule, people would relax. After all, this is a defense planet; we can’t be sloppy,” Di Qi explained.

Wang Teng nodded. “What mission do we have next?”

“Don’t know. I was previously assigned a few small missions here to wipe out the nearby dark apparitions. It wasn’t too difficult. Maybe you will start with something similar.”

“Looking at General Cameron, I don’t think he’s planning any simple tasks for me.”

“Oh?” Di Qi’s eyes flashed, and he rubbed his chin. He then became excited. “Seems like we will have something big.”

“Very well, I’ve been waiting impatiently.” He was already rubbing his palms.

Wang Teng glanced at him speechlessly. He didn’t realize previously that Di Qi was so battle-hungry.

When they first met, Di Qi still carried the arrogance of a cosmos-stage martial warrior, but now, he had changed.

After chatting for some time, Di Qi got up and left.

Wang Teng closed the door and opened up the box that he had picked up from the logistics department.

The box was rather heavy, but it was nothing for a martial warrior.

After verifying the electronic message, the box opened, and the items inside were presented to Wang Teng one by one.

First was the military uniform. There were three sets in total, which included helmets, clothes, and boots.

As far as the style was concerned, it was sleek and fitting. They were black, and the collar, sleeves, and hem had red stripes on them. The emblem of the Great Qian Empire, Kunwu Beast, was also embroidered on the chest!

Wang Teng tried them on. It fit him just right and made him look stunning. It also exuded the aura of a soldier.

He then kept the uniform away.

The uniform was not usually worn, only used for some formal occasions. The armor was the thing they wore on the battlefield.

Wang Teng was provided with a set of cosmos-level battle armor. This was extremely expensive in the market. Ordinary warriors would spend a lot of money to acquire a set. However, the Great Qian Empire just provided him with one.

Others wouldn't even dare to think about this treatment.

However, Wang Teng already had a set of universe-level battle armor. He didn't find it unusual.

There was also a cosmos-level Force gun. He took it out from one of the compartments and examined it carefully.

This was the first time that he obtained a cosmos-level Force gun.

The Force gun was not huge. It was only a little larger than ordinary guns. It was probably forged using some precious and rare metals, which was why it was heavier.

After all, the more advanced the Force gun, the higher the material requirements.

There were many complicated runes on the Force gun. With Wang Teng's mastery of runes, it wasn't difficult for him to understand them.

After examining it for a while, he roughly understood the capabilities of the Force gun and kept it.

Force guns were useful in certain situations, especially for people with extremely advanced gun skills.

Wang Teng's Gun Kungfu was at the master level. With this cosmos-level Force gun, he was a threat to even cosmos-stage martial warriors.

As for the bottle of cosmos-stage healing dan, it wasn't of much use to Wang Teng. For a grandmaster alchemist, the dan wasn't what he wanted.

While Wang Teng made preparations for the defense planet, he refined a lot of healing dans. All of them were of great quality and were much better than the ones the military provided him with.

Cosmos-stage dan was actually grandmaster first-rank to third-rank dans. With Wang Teng's capabilities, refining them was not difficult.

However, these items were already very good. Wang Teng felt that the military was generous.

Although, this was possibly due to the fact that he was a baron of the empire. If it was someone else, they wouldn't possibly receive these even if they were majors as well.

Wang Teng didn't have any plans of going out. He went into the bedroom, sat on his bed, and started multitasking. He entered the virtual universe to cultivate while digesting the memories and legacies of the Devouring Nihilism Beast.

Before he knew it, night fell.

Di Qi came over to find Wang Teng for dinner.

It wasn't a big deal to miss a few meals for martial warriors, but Di Qi and Wang Teng were not ones to treat themselves badly. They would eat whenever they could.

Moreover, they didn't go to the cafeteria to eat. They set up a small stove in the room.

It wasn't difficult for those who possessed space equipment to prepare delicious food.

Placing freshly prepared food into the space ring could keep the food in the best condition. It was like they came out fresh from the grill.

After filling themselves, Di Qi leisurely returned to his room.

With Wang Teng's arrival, Di Qi had let himself go. At least there was someone with him. He was no longer eating alone by himself, which was boring.

Shortly after Di Qi left, Wang Teng sat and rested on the sofa. He then released Cao Jiaojiao from the space fragment and got her to massage his back.

Cao Jiaojiao stood behind Wang Teng reluctantly and gritted her teeth. She wished she could slap him.

It was simply too much for a cosmos-stage martial warrior to do something lowly like this.

At this time, the intelligence system of the house prompted that someone was here to visit.

"Who's looking for me at such a time?" Wang Teng was puzzled. He then put the resentful Cao Jiaojiao away in the Space Fragment and opened the door.

A sneaky figure stood outside the door. A smile appeared on his face when he saw Wang Teng opening the door.

"Who are you?" Wang Teng asked curiously. He didn't know who this was.

"It's me?" He acted like he was familiar with him and whispered, "Let me in first."

He then snuck under Wang Teng's armpit and entered.

Wang Teng was even more puzzled. He then grabbed his collar and pulled him up, "Who the hell are you? If you don't identify yourself, don't blame me for being rude. I have the right to kill you for breaking into someone's house on the defense planet."

"Don't, don't." The person was startled, and his face suddenly changed from a young man to a charming girl. She was a familiar face.

"Olivia!" Wang Teng looked at her with surprise.

This girl was Di Qi's cousin who he met on the No. 4 Defense Planet.

He wasn't too surprised by the disguise. As a direct descendant of the Cavendish family, changing her appearance was nothing.

"Hehe, it's me." Olivia snickered and shook her body. "Put me down first."

Wang Teng felt a headache coming. He asked helplessly, "Did you run away from home again?"

"How do you know?" Olivia scurried into the room and asked with her eyes wide.

Silence.

There is something wrong with this girl's head!

"Isn't it obvious?" Wang Teng was speechless.

"Close the door quickly. It won't be good if my cousin saw me." Olivia didn't care about Wang Teng's complaints and hurried over to close the door.

"Isn't it inappropriate for a boy and girl to be in the same room alone?" Wang Teng crossed his arms and leaned against the door.

"Gah... We're friends. You wouldn't do anything to me, right?" Olivia was stunned and smiled in embarrassment.

"That's not necessarily true. Have you heard of the story of the humane and the inhumane?" Wang Teng decided to frighten her. She might really think it was fun outside if she ran around all day like this.

Chapter 1160: Bastard And "Raging Wolf" Wendell!

"The story of the humane and the inhumane? What story is that?" Olivia asked him curiously.

Wang Teng suddenly felt a little guilty.

His urge to pollute her innocence was doused when he saw the young lady's naive look.

"Cough..." Wang Teng coughed and shook his head. "Nothing. Oh right, why are you here?"

"I came to seek refuge." Olivia chuckled.

"Seek refuge? From me? For what?" Wang Teng asked in surprise.

"The defense planet is dangerous. If I don't find someone for help, I'll definitely be sent to the frontline. With my ability, I won't be able to come back," Olivia said.

"So you know that a defense planet is dangerous." Wang Teng glanced at her.

This lady finally said something intelligent.

"Of course." Olivia rolled her eyes and gave him an "I'm not stupid" look. "I don't want to stay at home, but I'm not planning to kill myself."

"You can look for your cousin. Why did you find me?" Wang Teng understood Olivia's thoughts.

Without a doubt, she had reached the rebellious phase of her life.

Rebellious kids acted the same way.

“I’ll be sent back if I go to him.” Olivia said helplessly, “I have seen your ability on No. 4 Defense Planet. You’re not weaker than him. You might even be stronger.

“Most importantly, you dared to offend the Parkers. Although many elite families say that you’re overestimating your ability, I can tell that they actually admire you.”

“Stop. Don’t compliment me.” Wang Teng raised his hand. “I don’t buy it.”

“Come on~” Olivia dragged her words and came over to hug Wang Teng’s arm, shaking it left and right. “Don’t be so heartless. We’re friends. You can do me a favor.”

Wang Teng felt goosebumps popping up on his skin. He took a deep breath.

Was this young lady so wild?

“Look at how pitiful I am. My family always treats me like a kid. Why can Cousin Di Qi go out while I can only grow up under the protection of my family? When I reach a certain age, I will be engaged to another member of an elite family. I don’t have my own life,” Olivia didn’t care about Wang Teng’s reaction and continued speaking.

“That’s your problem. It’s got nothing to do with me. If your family learns that I’m helping you, they’ll beat me to death.”

“No, I promise that they won’t find out about it.”

“What can you do?” Wang Teng said in disdain. “If you had the power, you wouldn’t be begging me here.”

“I...” Olivia didn’t know what to say. She placed her palms together and pleaded, “Please help me. I’m begging you. Please...”

Wang Teng didn’t know if he should laugh at her soft-spoken and humble attitude.

Olivia was the little princess of the Cavendish family. She was pampered since young and grew up with a golden spoon. It was hard to believe that she would do such things.

But...

“No!

“Rejected!

“Don’t even think about it.”

Wang Teng turned her down three times consecutively.

Without a doubt, the battlefield was dangerous. He didn’t have the time and effort to bring this burden along.

“Sob...” Olivia’s expression changed when she heard his heartless rejection. Tears welled up in her eyes, and she plonked on the ground and started wailing.

-_-||

Wang Teng didn't know how to react.

He felt helpless as he stared at the young lady bawling on the ground. It was as if he did something atrocious and bullied her.

Wang Teng almost agreed... as if!

Bang!

He shut the door, chasing Olivia out. She stared at the closed door in front of her absentmindedly.

What is this?

What happened?

Someone rejected the beautiful and charismatic Olivia?

Olivia turned red. She puffed up her cheeks in anger and circled twice outside the door.

"Bastard!" She kicked the door angrily.

Footsteps suddenly came from afar. Olivia didn't dare to stay any longer. She changed her appearance and left quickly.

Wang Teng shook his head as he stared at the scene happening outside his door through the surveillance camera.

At first, he wanted to inform Di Qi, but he decided not to be the evil one in the end.

This was their own issue. They should solve it themselves.

Olivia was the little princess of the Cavendish family. There might be powerful martial warriors protecting her.

A silent night.

Wang Teng woke up bright and early the next morning.

"Wang Teng, there's a new notification," Round Ball reminded him.

Wang Teng opened his wristwatch, and a message popped out. He was surprised after reading it

"That was fast!"

The doorbell rang at this moment.

Wang Teng smiled. He knew who it was. He walked to the door and opened it. As expected, Di Qi was outside.

For some reason, Wang Teng got reminded of the young lady who ran away from home yesterday.

"Your expression is a little strange." Di Qi was quite sensitive. He detected something immediately.

“Really? You must have seen wrong.” Wang Teng brushed him off.

“Oh right, did you see the message?” Di Qi didn’t probe further.

“Yes, I saw it. I’m heading over now.” Wang Teng nodded.

“Alright.”

They had received the same message. After some preparations, they headed to the big field within the military base together.

The field was in the east. It was huge and covered a great area.

When they arrived, a large number of military martial warriors were already gathered there. There were battlecraft in the parking areas along the sides of the field.

Wang Teng and Di Qi stood in an empty section and waited for the time to arrive.

It was 5.50 am on the No. 29 Defense Planet. The sky was just turning bright. More people started walking over.

“Di Qi!”

A hoarse and cold voice attracted their attention.

A tall figure walked over from afar and arrived in front of Wang Teng and Di Qi.

“Wendell, it’s you.” Di Qi was astounded. Then, he frowned.

Wang Teng sized up the other party. Seeing the flame symbol on his forehead, he knew that this was a member of the Parkers.

“You’ve gotten bolder. Why aren’t you staying at your No. 4 Defense Planet? Where did you get the courage to come to the No. 29 Defense Planet?” Wendell said with contempt.

Di Qi’s expression turned ugly as he glared at the other party.

“Hmph, No. 29 Defense Planet can’t be compared to the No. 4 Defense Planet. You might lose your life before completing your mission.” Wendell sneered.

Then, he turned to look at Wang Teng without waiting for Di Qi’s reply.

“You’re Wang Teng, right? Do you plan to lose your life here? Why did you come when you’re only at the celestial stage?”

There was killing intent and contempt when he looked at Wang Teng. He obviously knew about the conflict and grudges between Wang Teng and the Parkers.

However, he scoffed at the news sent back by his family. They mentioned that Wang Teng managed to injure a universe-stage martial warrior and even escaped a heaven lord’s pursuit. He believed that it was either an exaggeration or that Wang Teng had external help.

He wasn’t like a martial warrior on the battlefield. They could only rely on themselves to get their military exploits one step at a time.

This was the difference between military martial warriors and normal martial warriors.

Many members of the Parkers family had never been on the battlefield. They lived a comfortable and sheltered life, different from military martial warriors who fought on the battlefield all year round. They climbed their way up through piles of corpses and had their own pride and ruthlessness. Wendell was one of these martial warriors.

“Brother Di Qi, do the Parkers have some special fetish?” Wang Teng wasn’t someone easy to bully. He glanced at Wendell before turning to Di Qi.

“Special fetish?” Di Qi was stunned. This was quite a big change of topic. He didn’t manage to react in time.

“For instance, do they like to eat shit? Why are their mouths so smelly?” Wang Teng pinched his nose and said.

Di Qi felt enlightened and almost burst out laughing. He gave Wendell a strange look.

Wendell turned green with anger. He glared at Wang Teng as if he wanted to skin him alive. His voice was cold as it escaped his gritted teeth. “You’re looking for death!”

“How do you want me to die? Come, give it a try.” Wang Teng hooked his fingers at Wendell with a nonchalant expression. He didn’t take the threat to heart at all.

“Good! Very good!” Wendell clenched his fists tightly. Veins popped out of his forehead.

“Do you want to hit me? Come on, hit me. If I resist, I’m your son.” Wang Teng stuck his head out.

Di Qi gave a strange expression. He was having a hard time controlling his laughter.

If anyone dared to attack their comrade in the military base, they would get punished by the military court. Even the Parkers wouldn’t be able to save him.

These were the rules and regulations carried out by the Great Qian Empire’s military over the years. No one could break them easily.

Although the powerful families had their own factions in the military, they were all constrained in one area. The ones in high positions were powerful martial warriors with no background. They were the real giants of the military.

The empire would not allow elite families to have too much power in the military.

If Wendell dared to hit Wang Teng, he would leave a stain on his military career. This misconduct would affect his future promotions.

“Hmph!”

Wendell panted heavily with an ugly expression. In the end, he just snorted and turned to leave.

For Wang Teng, it wasn’t worth it.

“Coward.” Wang Teng scoffed.

Wendell stopped for a second. He heard the word, but he just hastened his pace and disappeared in the blink of an eye.

“This fellow is still as irritating as ever.” Di Qi shook his head.

“How much do you know about him?” Wang Teng asked.

“He has been on this defense planet for a long time. He directly came here after leaving his family. I have to admit that he’s a tough nut. He earned a small reputation over the years and a nickname. People call him Raging Wolf.”

“Raging Wolf?” Wang Teng repeated. He could see the other party’s personality and style through this nickname.

However, Wang Teng wasn’t afraid. He took a look at him just now and knew that this Raging Wolf was only at the sixth level of the cosmos stage.

If he dared to provoke him, he didn’t mind ignoring their relationship as comrades and killing him on the battlefield.

He was still confident in dealing with a sixth-level cosmos-stage martial warrior.
