

Martial Arts 1171

Chapter 1171 Oh My God, This Human Is Scary!

The dark apparitions some distance away were shocked by the scream. They hurriedly used their spiritual power to block the cry.

Even dark apparitions would get affected by the chaotic spiritual fluctuation of the devil ovum. This was the natural oppression of the being of a higher tier.

After all, the devil ovum was formed from the power of origin of a devil titan. In terms of level, it was much higher than a devil emperor.

Then, the dark apparitions started to smirk. They felt that this human was naive and reckless. How dared he attack the devil ovum?

If he didn't lose his mind after getting hit by the terrifying spiritual attack of the devil ovum at such a close distance, they would swallow the ovum while hanging upside-down.

Also, this human had been holding the devil ovum quite for some time now, so he probably couldn't withstand it anymore. If not, he wouldn't have stopped and waited for them to catch up with him.

The devil emperors realized the truth and stared coldly at Wang Teng. They waited for him to get contaminated by the devil ovum.

Wang Teng frowned. He was receiving waves of stimulation in his consciousness. The powerful chaotic spirit wanted to stain his soul and contaminate his spirit.

"Hmph!"

Wang Teng snorted. The spiritual power erupted in his mind, and he forced the chaotic presence down forcefully with his celestial realm spiritual power.

That wasn't all.

Deep in his consciousness, within an area enclosed by purple-black mist, a terrifying behemoth opened its eyes. There was a reflection in its deep and elegant purple-black eyes. The frightening power of spirit swept through his consciousness.

Boom!

The chaotic spiritual attack from the devil ovum disintegrated.

"You should stay obedient," Wang Teng coldly said to the devil ovum below his feet. Then, he pulled out his sword and stabbed it in again.

Splat!

A piercing scream came from the devil ovum again. It sounded like countless voices mixed together. There were the low murmurs of devils and the whispers from the undead. The sound was even more frightening than before. Any human would get lost in the noises.

However...

Wang Teng showed no reaction, not even flinching. His gaze remained clear and sharp.

The chaotic spirit couldn't influence him when he was caught off guard earlier, so he wouldn't be affected now that he was prepared.

"Try screaming again." Wang Teng pulled out the long sword and stabbed it once more.

Devil ovum: ...

F**k, there's something wrong with this human!

Why didn't he get affected by the spiritual attack?

The devil ovum had its own consciousness. It didn't understand what was going on.

The other dark apparitions were stunned too.

"???"

What was going on?

The human suffered two rounds of spiritual attacks from the devil ovum at such a close distance, yet he was still fine. He even gave two more stabs to the devil ovum.

This was implausible. Why wasn't this human affected?

Things were going against their understanding. At the same time, they felt their hearts trembling.

That was the devil ovum! How could this bastard treat the devil ovum like this!

"Human, let go of the devil ovum," the two devil emperors finally reacted and shouted at Wang Teng.

"Why should I listen to you? Who do you think you are?" Wang Teng raised his head and replied indifferently.

"You're tempting fate!" Flames of fury almost shot out of the devil emperor's eyes.

Who did he think he was?

They were devil emperors, but they were belittled by a celestial-stage martial warrior. This was unbearable.

"Come and snatch it if you want it so much." Wang Teng ignored the death glares from the two devil emperors and even hooked his fingers at them. His gaze was filled with disdain.

The dark Forces in the devil emperors exploded without any restraint. This bastard was unbridled!

"Kill him!"

"Get the devil ovum back!"

The two devil emperors were fuming. They waved their hands while bellowing in rage.

The dark apparitions behind them launched their attacks immediately. All of them charged toward Wang Teng as if they had a boost of adrenaline.

“Come to your death.” Wang Teng snorted. A strange fluctuation was released from his body and started spreading out like ripples.

Meteorite Shower Domain, activate!

Magnetic Domain, activate!

The sky changed. The entire space turned dark yellow with giant rocks floating in the air. Even the ground transformed into a huge rock hovering in mid-air.

Boom! Boom! Boom!

An immense pressure pressed down on the dark apparitions. The dark apparitions clashed into a repelling force and plummeted to the ground, slamming on the giant rock fiercely.

The power of the two domains was amazing.

This wasn't just a simple $1+1=2$ equation. The combined effects were definitely greater than 2.

When Wang Teng stole the Devouring Nihilism Beast's soul, he didn't leave the planet in a hurry. Instead, he stayed there and collected all the attribute bubbles he could.

There were Magnetic Domain and Bloodlust Ultima attributes on that decaying planet. Wang Teng only left after getting all the benefits.

This was how his Magnetic Domain and Bloodlust Ultima reached the third and eighth levels, respectively.

The expressions of the two devil emperors changed again. They couldn't move due to the pressure.

“Domain!

Domain again!

This human martial warrior was just at the celestial stage. How could he grasp the domain only heaven-stage martial warriors had?

Moreover, he had more than one domain.

Genius!

This human must be a genius among the geniuses.

The two devil emperors glanced at each other. Killing intent welled up in their eyes. Either way, they must kill him.

They couldn't let him mature any longer. He had grasped the skill of domains at the celestial stage. How powerful would he be if he reached heaven stage?

The more powerful a martial warrior was, the greater his influence. Once this genius reached the heaven stage, he would be a catastrophe for the dark faction.

Boom!

The two devil emperors forcefully resisted the massive pressure. They stomped their feet on the ground and shot into the sky, flying straight at Wang Teng.

“Are you trying to kill me?” Wang Teng sneered. He had noticed the exchange of gaze between the two devil emperors. He raised his finger.

“Go!”

The gigantic rocks around him suddenly started moving, charging at the two devil emperors. These rocks were like cannons under the influence of the Magnetic Domain.

The giant rocks gave off a powerful Force fluctuation. It wasn't just a simple attack.

The expressions of the two devil emperors changed. They separated, each to one side, to dodge the countless rock cannons.

Boom, boom, boom!

Unfortunately, they underestimated the power of this move. Numerous giant rocks had filled up the space all of a sudden. They had nowhere to hide.

They wanted to shuttle through the gaps between the giant rocks, but there was another rock hurling over from behind.

The hideous expressions on the devil emperors' faces froze. The shadows of the giant rocks covered their bodies, and they were hit with a loud bang.

They had no time to think, so they could only form a defense shield with their dark Force.

Boom!

The giant rocks busted, and the two devil emperors were thrown back. Their bodies tossed and turned in the air. Even their devil armor cracked a little. They looked miserable.

They tried their best to resist the pressure looming over them. After stabilizing, they furrowed their brows violently. Before they could do anything, more rocks came at them.

Boom, boom, boom!

The devil emperors squinted. They got hit again before they could react.

Wang Teng floated in mid-air and raised his finger. More giant rocks plummeted down. The two devil emperors were like puppets getting thrown around by Wang Teng. Their efforts to resist were futile.

Roar!

Roar!

They kept bellowing in anger like injured wild beasts, but it was useless. This was the first time they had experienced such a situation in their lives.

Devil armor dark apparitions were extremely powerful. Normally, they were the ones torturing others. This was their first time being on the receiving end.

The dark apparitions who remained motionless below due to the pressure were stunned. They couldn't control their expressions. All of them were staring at this scene with their eyes wide open.

Their devil emperors were getting beaten up so badly.

This...

All the devil armor dark apparitions, who were known for their ruthlessness, felt a chill up their spines.

Oh my god, this human is scary!

Chapter 1172 Sir, Look Over There!

On this barren piece of land, a dark yellow light shield formed from yellow Force covered the ground like a bowl turned upside-down.

This was Wang Teng's Meteorite Shower Domain.

Explosions occurred without a stop within the domain. The dark apparitions below were in a daze. The two devil emperors were confused by all the hits. Their minds were in a whirl.

Anyone would be confused and lost after getting hit by numerous large rocks.

The devil armor of the Devil Armor Race was sturdy and tough. Ordinary martial warriors couldn't penetrate it. That was just because they weren't powerful enough. As long as one had the strength, they could break anything!

Thus, Wang Teng didn't attack their weak points. To him, the devil armor dark apparitions were full of weaknesses. He would use brute force to defeat them.

Wang Teng stood on a giant rock and looked down at the other party silently. He showed no signs of stopping. He had never lost to anyone in a game of attrition.

He had ample rocks in his Meteorite Shower Domain and could create new ones continuously. He didn't have to worry about not having enough rocks.

He never planned to make things easy for the dark apparitions below either.

When he glanced at the dark apparitions, they shuddered in fear. They felt their hair standing.

An evil smile appeared at the edge of Wang Teng's lips. With a point of his finger, numerous giant rocks started moving, aiming at the dark apparitions below.

Σ(°△°|||)_

All the dark apparitions took a step back in unplanned unison when they saw his smile.

Boom! Boom! Boom!

A loud explosion echoed in the air. The giant rocks had started their downward journey. It looked like a meteorite shower.

“Run!” one of the dark apparitions shouted. He gave up on the devil ovum and escaped without any hesitation.

All the dark apparitions went crazy. They frantically resisted the pressure around them while escaping in all directions.

One couldn't blame them for being too timid. The two devil emperors were a warning to them. Their condition was miserable.

Even the devil emperors couldn't resist this human's attacks. What could they do?

But in this domain, no matter how hard they tried to escape, they were still within the attacking range of the giant rocks.

The giant rocks smashed into their bodies and pushed them to the ground. Cracks appeared on their devil armor.

Roar!

Roar!

Roar!

Cries of agony rang on the battlefield continuously.

The devil armor dark apparitions were like pieces of meat being prepared for a meal. They were hammered a few times to make their meat softer before getting seasoned.

Yes, this method is not bad.

Wang Teng touched his chin. He felt that his Force Chef mastery had risen a little.

The simpler the method, the more delicious it was.

“Don't run. You can't run away. You have to break the domain!”

“This human is just a celestial-stage martial warrior. Even if he has grasped the power of domain, it won't be able to encompass a large area.”

“Let's work together to break the domain!”

Some dark apparitions weren't willing to give up and shouted angrily.

They weren't stupid. They knew that they could only escape the giant rocks by destroying the domain.

A domain's area of influence would be linked with its level. The higher the level, the wider the range, the stronger the power, and the harder it was to break it.

The dark apparitions were certain that this domain wasn't hard to break since Wang Teng was only a celestial-stage martial warrior.

They struggled to crawl up. Some dark apparitions helped to resist the large rocks while the remaining ones rushed toward the edge of the domain.

The dark apparitions had a strong desire to live in the face of death. They tried all methods to attack the domain, and surprisingly, the Meteorite Shower Domain started trembling.

“Yes!”

“Let’s continue!”

The dark apparitions were overjoyed. They worked even harder.

Wang Teng squinted, and a cold smile appeared on his face. “Since you’re in a hurry to go to hell, don’t blame me for being merciless.”

He continued controlling the shower of rocks to prevent the dark apparitions from damaging his domain further. This would buy him more time. Simultaneously, he pointed at the sky.

Countless giant rocks gathered in a single spot, colliding with one another and forming a gigantic ball in the sky.

This ball was as large as a small-sized asteroid!

The dark apparitions below looked up. The smiles on their faces froze, and their heads went numb.

“What’s that?”

The bunch of dark apparitions shivered in fear. They gulped uncontrollably and looked as though they had seen a ghost. Of course, that was if their faces covered by devil armor had any expressions.

However, one could tell their fear and astonishment through their eyes.

Wang Teng suddenly stopped the attack of the giant rocks.

The two devil emperors staggered their way out. Many parts of their armor were damaged, and they were in a tragic state.

“Brat, you can’t kill us.”

Gabatross wiped the black blood dripping down the edge of his lips. He sounded exhausted and furious.

“You’re just a celestial-stage martial warrior. You must be running out of juice now.”

“Do you think you can defeat us with a single domain? Don’t you know there’s a chasm between devil emperors and celestial-stage martial warriors?”

Gadbaw bore the excruciating pain on his body and stared at Wang Teng in resentment.

All their attention was on Wang Teng. They wished they could tear him into pieces, so they didn’t see the giant asteroid that was growing some distance away.

The dark apparitions below wanted to remind them, but Gabatross spoke again before they could say anything, “Human, we can settle our accounts now. I won’t let you die an easy death.”

Wang Teng’s expression turned strange.

Did the rocks knock the sense out of them?

Can't they see that asteroid? Why are they still threatening me?

The dark apparitions below couldn't stand it anymore.

"Sir!" finally, a devil king shouted uncontrollably.

"What?" Gadbaw retorted impatiently. These useless low-level peers weren't of any help and were still creating trouble.

"Sir, look over there." The devil king swallowed a mouthful of saliva and pointed at the sky.

"Look your head!" Gadbaw was enraged. However, he still turned his head and looked over.

An enormous ball of rocks the size of a small asteroid was being created at a high speed. It was floating to the left above their heads.

The two devil emperors: ...

"Go!" A cold shout escaped Wang Teng's mouth.

The two devil emperors felt their hearts skipping a beat. They had a bad feeling.

The next instant, the small asteroid fell to the ground without targeting the dark apparitions below. Instead, it was aimed at the two astounded devil emperors.

Boom!

The small asteroid zoomed over from the sky. The space around it started cracking as if it couldn't withstand the pressure.

The devil emperors stared at the asteroid until their eyes almost popped out. They were flabbergasted.

How could a celestial-stage martial warrior release such a powerful attack?

But they didn't have the time to ponder. Although the asteroid was huge, it was coming down at a fast speed. It didn't give them much time to react.

"Devil transformation!"

The two devil emperors sensed the huge momentum of this enormous rock, so they didn't dare to act carelessly. Both of them activated their devil transformation.

Glaring black light shot out from their bodies. Two evil and chaotic auras climbed exponentially. The two devil emperors were like small black suns.

The giant rock finally dawned on them, colliding violently with the two

Boom!

There was a terrifying explosion.

A frightening Force pushed the two black suns down toward the ground. Then, the dark apparitions below were caught in the attack too.

Boom!

The Meteorite Shower Domain turned silent following an earth-shattering explosion.

...

Outside the domain, a battlecraft flew over at high speed and finally landed at the edge of the domain.

Before the battlecraft landed officially, a group of martial warriors leaped down. Peggy was among them.

General Darte from the third frontline base was in the group too. Peggy and the others had rushed back and reported the discovery of the devil ovum.

General Darte couldn't sit still any longer. He hurried over personally.

Peggy and the others remembered where Wang Teng went. The violent Force fluctuations also help them to find the location quickly.

General Darte led the way. He stared at the dark yellow light shield covering up the ground.

"Domain!"

He was astounded, not expecting to see a domain here.

Chapter 1173 I Was A Little Too Excited!

"Why is there a domain here?"

Peggy and the others frowned as they walked over. They stared at the domain in front.

They knew that some talents could comprehend the power of domain before reaching the heaven stage, but it was extremely rare. Only one in a hundred thousand martial warriors might be able to do that.

Looking at the power of this domain, there wasn't just one domain. They couldn't believe that Wang Teng had executed it.

"Maybe Major Wang Teng isn't here," Peggy said after some hesitation.

"Interesting." General Darte smiled.

He had contacted General Cameron from the main base and got some information about Wang Teng. Hence, he knew that this baron from Great Qian Planet wasn't a simple guy and had exceptional talent.

If it was him, he might be able to grasp the power of the domain.

However, similar to Peggy, he also felt that the domain was too powerful. Some martial warriors who just entered the heaven stage wouldn't be able to reach this level either.

"We'll know once we go in and take a look," General Darte said.

He had to be extremely vigilant since this was about the devil ovum. With a wave of his hand, a strange fluctuation exuded out of his body. It was the power of the domain.

Normally, he wouldn't barge into someone's domain recklessly because it was too dangerous. No one knew who was inside.

Also, if he entered the domain of a formidable warrior, the other party might view it as a provocation. If they had a good temper, they might demand an answer from him. However, if he met someone irascible, a battle was inevitable.

But they didn't find any signs of Wang Teng along the way, so this was the only place he could be.

They had to enter.

Wang Teng was facing numerous dark apparitions alone and had the devil ovum. He was in extreme danger. General Darte had no time to hesitate.

Fortunately, they were at the No. 29 Defense Planet. There were only dark apparitions and military martial warriors from the empire here, so there was room for discussion. He believed that the other party would understand.

The domain power spread out of General Darte's body, enclosing Peggy and the others inside. Then, General Darte's power of domain opened a little crack in the dark yellow domain, and everyone crossed the boundary.

This was the permeation of the domain!

Only martial warriors with domain could do it, and their power of domain needed to be stronger than the other party's.

Hence, one could tell that General Darte's domain was more powerful than Wang Teng's. If not, he would have to break the domain to enter it.

General Darte and the others looked around them. They were thunderstruck.

Devil armor dark apparitions were pasted all over the ground, lying in all different directions. Their devil armor was badly damaged, and some had already fainted. The rest were groaning in pain.

Groaning?

Dark apparitions groaning?

Peggy and the others were stunned. This was entirely different from what they had imagined.

Even General Darte was in a daze, especially when he saw the two devil emperors on the ground.

Did Wang Teng do this?

He looked above him in search of Wang Teng's figure.

"General Darte, why are you here?"

When they entered his domain, Wang Teng had already sensed their presence. He didn't think that the commander of the third frontline base would come personally.

"It is the devil ovum!" General Darte noticed the devil ovum beside Wang Teng's feet instantly and squinted.

"How can I not come when the devil ovum has appeared?" he replied with a shake of his head.

“The devil ovum isn’t an issue. It’s still at the baby stage, so it isn’t dangerous,” Wang Teng answered with a smile.

General Darte: ...

Not an issue?

How could this fellow say such a thing?

“Either way, it’s still the devil ovum, so we mustn’t underestimate it. It might cause a catastrophe if we don’t handle it carefully,” General Darte said in a low voice.

Wang Teng nodded. He didn’t deny it because the devil ovum was indeed dangerous.

They were lucky that they had him. He had the confidence to deal with it.

Other martial warriors would die if they had come. They wouldn’t be able to spread the news of this devil ovum either.

General Darte knew this, so he felt fortunate.

They were lucky that they sent Wang Teng. He possessed the light Force that could curb the devil ovum, achieving this result.

“You... took care of all these dark apparitions?” General Darte scanned the surroundings. He was at a loss for words.

These dark apparitions looked quite miserable!

They looked as if they just got tormented. How did he do it?

General Darte didn’t understand.

Peggy and the others were puzzled too. Did Wang Teng honestly take care of all these dark apparitions?

But what kind of method would torture these dark apparitions to this state?

“Cough, I was a little too excited.” Wang Teng noticed everyone’s strange gaze and coughed awkwardly.

General Darte was dumbstruck when he received a confirmation from Wang Teng.

This celestial-stage martial warrior did beat this bunch of powerful devil armor dark apparitions so badly. This was unthinkable.

What was more incredible was, there were two devil emperors.

This was a battle with someone of a higher tier. Yet he managed to beat them until they couldn’t resist.

One could tell that the dark apparitions didn’t manage to harm Wang Teng. This was a one-sided battle.

God’s child!

Wang Teng was definitely a rare genius in the universe!

Indeed, he wasn’t simple. No wonder General Cameron sent him here.

Well, General Cameron probably didn't know how scary Wang Teng was either.

General Darte suddenly remembered that day when he contacted General Cameron. The other party sounded a little doubtful of Major Wang Teng's ability.

A smile appeared at the edge of his lips. Things were getting more and more interesting.

What would General Cameron's expression be like upon knowing Wang Teng's performance?

General Darte wasn't the only one astounded. Peggy and the others gasped in shock too. They found it hard to calm down.

They never suspected Wang Teng's reply.

He was the only one present, so it couldn't be others. Also, he didn't need to lie to them.

They would know whether the military exploit was real or not through the military system. Lying was unnecessary.

Monster.

Peggy and the others lamented in their hearts.

He killed numerous dark apparitions alone. This wasn't something a normal person could achieve.

Wang Teng didn't care about their feelings. He hadn't collected the attribute bubbles dropped by the dead dark apparitions yet.

Collect!

He released his spiritual power and pulled the attribute bubbles over.

Constellation Force (Dark)*1500

Celestial Realm Spirit*300

Constellation Force (Dark)*5000

Celestial Realm Spirit*1200

Devil Armor*300

Devil Transformation*600

Constellation Force (Dark)*6000

Celestial Realm Spirit*1350

Devil Transformation*500

Devil Armor*400

...

Wang Teng's eyes lit up.

Not bad!

He gained many dark element attribute bubbles in this round. His efforts to kill the dark apparitions didn't go to waste.

Mind you, it wasn't easy killing the devil emperors.

He received more than ten thousand constellation dark Force in total. It didn't help him to reach the breakthrough limit. His dark Force was still at the planetary-stage seventh level, but it had increased greatly.

Constellation Dark Force: 61000/70000 (planetary stage seventh level)

As for the Celestial Realm Spirit, he received 5300 points. There were many more spirit attributes compared to the previous time, so Wang Teng could clearly feel his spirit getting purer.

He was certain that these spirit attributes didn't go to waste.

However, he still felt a little loose even though his spirit had gotten purer. It wasn't coagulated enough.

It was like a piece of imperial jade. The purity was good enough, but there was just a small broken piece. Naturally, it wasn't as valuable as an entire block of jade.

Wang Teng contemplated for some time but couldn't come up with a better idea. He put it aside.

Next, he had 3500 points of Devil Armor attribute.

Devil Armor: 1700/5000 (specialized)

His Devil Armor skill rose from the well-versed to the specialized stage. Wang Teng felt that he had a greater proficiency in this skill.

Lastly, he had 3200 points of devil transformation.

At the last crucial moment, all the dark apparitions chose to activate their devil transformation, but they still failed to resist Wang Teng's frightening domain. Instead, Wang Teng gained from their efforts.

The harder they struggled, the more attribute bubbles they dropped.

Devil Transformation: 5300/10000 (big achievement)

Chapter 1174 This Is An Excellent Way Of Boasting

Wang Teng had never used the devil transformation, mainly because he didn't have the chance.

Once he activated this skill, his ability would rise by a few levels, but the pressure would be immense too. He wouldn't use it unless absolutely necessary.

Besides, this was a skill of the dark apparitions. He couldn't use it randomly. If not, others might think he was a dark apparition.

Wang Teng shook his head and stopped thinking about it.

Either way, he got good gains in this round.

“We should leave.” Wang Teng waved his hand, and the Meteorite Shower Domain dispersed gradually, revealing the sky outside.

“Major Wang Teng, don’t worry. Your efforts will be reported to the empire. No one can snatch the merits from you. You can leave peacefully,” Darté glanced at Wang Teng in pity and said in a low voice.

So what if he was a talent? He was still contaminated by the devil ovum.

Darté sighed in his heart.

They got the devil ovum but lost a genius. He wondered if this was a good or bad thing.

Peggy and the others looked at Wang Teng in sorrow as if he was going to pass away soon.

“Major Wang Teng, you’re our hero!” Peggy said.

“To our hero!” General Darté saluted Wang Teng.

The others followed suit and saluted him in unison.

Wang Teng: ...

This was the first time he enjoyed the treatment of a hero.

But, he wasn’t happy.

Hero your head!

What do you mean by I can leave peacefully?

Did they think that he was about to die?

Wang Teng rolled his eyes.

“Major Wang Teng...”

General Darté wanted to say something, but Wang Teng interrupted him. “Wait, General Darté, did you misunderstand something?”

“Major Wang Teng, we understand. You’re an amazing talent, so you must be unwilling to leave like this. Sigh...” General Darté shook his head.

Wang Teng: I...

What do you know? You guys are the ones who don’t understand the situation.

Wang Teng was so frustrated that he wanted to vomit blood. He didn’t dare to let them continue the conversation, so he said hurriedly, “General Darté, do you think that I got infected by the devil ovum?”

Everyone was stunned.

“Aren’t you?” General Darté asked after some hesitation.

“Do I look infected?” Wang Teng rolled his eyes angrily.

“Erm...” General Darté sized up Wang Teng carefully. He realized that there was something wrong. Wang Teng didn’t look infected at all.

Peggy and the others were astounded. An incredible thought floated into their minds: Wang Teng wasn’t infected.

He managed to resist the contamination and enchantment of the devil ovum successfully.

“Alright, don’t look at me like that. I’m fine,” Wang Teng waved his hands and said.

He felt uncomfortable by their gazes.

“Are you sure you managed to resist the enchantment of the devil ovum?” General Darté asked in bewilderment.

“Can’t I?” Wang Teng asked him back.

General Darté didn’t know how to reply to him. He said a little awkwardly, “I’m not doubting you, but it’s just unbelievable. No one has ever resisted the enchantment of the devil ovum at such a close distance and without any warning or defense.”

“Please don’t judge me based on common sense,” Wang Teng replied calmly.

General Darté: ...

Peggy and the others: ...

This was an excellent way of boasting.

“Major Wang Teng, this is an important matter. Even if you’re not infected, you’ll need to undergo rounds of inspection when you go back,” General Darté took a deep breath and said.

“Yes, I’ll cooperate.”

He was certain that his dark Force wouldn’t get discovered unless he revealed it.

General Darté started to believe him a little more when he saw his confident expression.

“What should we do with the devil ovum?” Wang Teng asked.

General Darté coughed awkwardly.

“You don’t have a plan yet?” Wang Teng widened his eyes and asked in surprise.

“We came in a hurry, so we haven’t had a chance to come up with a plan,” General Darté said in embarrassment.

Wang Teng felt speechless. “What should we do now?”

“We’ll head back to the main base and seal it.” General Darté said, “Fortunately, this devil ovum is still at the infant stage, so we won’t get infected if we stay far away.”

“That’s the only way.” Wang Teng nodded. He asked again, “How did you guys deal with it in the past?”

“We haven’t found many devil ovums in the history of the Great Qian Empire. Most of the time, formidable martial warriors destroy them instantly. These martial warriors have to be at the eternal stage or above,” General Darte said.

“Eternal-stage martial warriors!” Wang Teng exclaimed.

“Yes, the devil ovum is made by devil titans, so only eternal-stage martial warriors can destroy it,” General Darte explained.

Wang Teng nodded. He stopped asking and carried the devil ovum out.

“Erm... don’t get too close. I don’t want to be infected by the devil ovum.” General Darte took a few steps back hurriedly.

Wang Teng: ...

F**k, I’m being discriminated against!

As a heaven-stage martial warrior, can you be less timid?

“There’s only one spacecraft. How am I supposed to return?” Wang Teng asked helplessly.

“Don’t worry. I have prepared a spacecraft. You can fly back alone.” General Darte took out another spacecraft from his space ring.

Wang Teng placed the devil ovum in the trunk of the spacecraft quietly.

The trunk was able to isolate the devil ovum to a certain extent. General Darte and the others heaved a sigh of relief.

Then, they cleared up the battlefield and placed the corpses of the dark apparitions in their space equipment before boarding the spacecraft.

The two spacecraft flew toward the main base together.

They didn’t head back to the third frontline. Instead, they went straight to the main base.

Only the main base had the facilities to seal the devil ovum.

...

Half an hour later, they reached the main base successfully. The spacecraft gradually landed in the parking space.

The area had been cleared. There was no one besides a few reception personnel.

General Darte had informed the main base before they arrived and asked them to make the necessary preparations.

Wang Teng was stunned when he carried the devil ovum down.

“General Cameron!”

He didn’t expect the commanding general of the base to welcome him personally.

“You did well,” General Cameron praised him. He walked over and patted Wang Teng’s shoulder.

There were many thoughts and feelings in his mind. This young man came to the No. 29 Defense Planet recently and had already achieved such merits. Even he made a mistake this time.

“It’s nothing,” Wang Teng replied.

General Cameron was stunned, not expecting such a reply from Wang Teng.

This fellow made it sound so simple. People who didn’t know might think that he just solved a small matter.

General Darte and Peggy put on weird expressions.

General Cameron sized up the devil ovum. He was only half a meter from the devil ovum, but he wasn’t affected. This proved how powerful he was.

“Follow me.”

General Cameron turned and led the way.

“You can leave first. I’ll take care of this,” Wang Teng said to Peggy and the others before turning to leave with General Cameron.

The team felt a little worried as they looked at Wang Teng’s back.

That was the devil ovum!

Would Major Wang Teng be alright?

They weren’t sure. They could only pray for him in their hearts.

They had only been on one mission with Wang Teng, but he took good care of them. Without him, none of them might be able to return alive.

Yet, all of them were back now.

Although some were injured, the injuries weren’t life-threatening.

They felt grateful to Wang Teng, so they hoped that he would remain safe.

But for some reason, when they saw Major Wang Teng carrying the devil ovum lightheartedly, they found it a little funny.

Wang Teng didn’t know what his team was thinking. He followed General Cameron and came to a location that was heavily guarded. He could faintly sense the powerful aura hidden around him.

They entered a metallic building and went to the elevator to basement 10.

That was right. There were ten floors below the ground in this building.

Wang Teng went directly to the lowest floor.

The moment he walked out of the elevator, he saw sturdy and strong metallic walls around him. They shimmered in white light and were exuding a thick light Force.

This was an underground space forged using a large number of light energy stones.

Wang Teng felt the devil ovum getting agitated and anxious. The light Force around was affecting it.

1175 Do You Think I'm Stupid?

Chapter 1175 Do You Think I'm Stupid?

The devil ovum started to get agitated and nervous after entering basement 10. It probably sensed that the Force around it was a threat.

General Cameron noticed it too. A cold glint flashed in his eyes as he explained, "This place is specially used to lock up powerful dark apparitions that can't be killed instantly. It's the best place to seal this devil ovum."

"I see." Wang Teng nodded.

No wonder there was an underground space built of light energy stone.

Mind you, light energy stones were rarer than other types of energy stones. With the size of this underground space, it definitely needed countless light energy stones. The military wouldn't have the power to construct it.

But it made sense if it was to lock up dark apparitions.

There was a long corridor in front with rooms sealed along the sides. Wang Teng could sense that they were empty. There was nothing inside.

General Cameron noticed Wang Teng's gaze and explained, "I asked my men to remove all the dark apparitions here so that no accidents will happen to the devil ovum."

"The military captures dark apparitions for research?" Wang Teng looked at the research devices and asked.

"Yes, we want to know their weakness." General Cameron nodded.

Wang Teng had no sympathy toward dark apparitions, so he didn't find it inappropriate.

At this moment, the devil ovum he was carrying on his shoulder suddenly trembled violently and gave off a shrill cry. Chaotic spiritual fluctuations surged out.

This time, the spirit attack wasn't aimed at Wang Teng. Instead, it was directed at General Cameron.

"Be careful!" Wang Teng reminded him quickly.

Even though General Cameron was a universe-stage martial warrior, the spiritual attack of the devil ovum was unpredictable and mysterious. It was almost impossible to guard against it, so it would be troublesome if General Cameron got affected.

The devil ovum had been obedient all this while, so Wang Teng thought that it wouldn't cause any trouble. He didn't expect it to launch its Enchantment attack now.

Since it couldn't get anything from Wang Teng, it changed its target to General Cameron.

Not everyone was as perverted as Wang Teng. No matter how powerful they were, there would be loopholes in their spirit.

General Cameron was more powerful than Wang Teng, so if he was enchanted, he could take care of Wang Teng easily.

This was a good chance.

“Hmph!”

General Cameron snorted. An oppressive spirit shot out from his forehead, bringing along a terrifying killing intent with it. It shattered the devil ovum’s chaotic spirit attack.

Wang Teng felt relieved.

“Do you think an infant devil ovum can enchant me?” General Cameron scoffed.

“Why are you still struggling?” Wang Teng took out his sword and stabbed the devil ovum.

Splash!

The sword penetrated the devil ovum.

General Cameron: ...

Devil ovum: ...

This was sudden.

General Cameron was caught off guard.

The devil ovum felt depressed. Despite trying its best, it failed to enchant the human martial warrior at the side. It even angered this evil guy and suffered a sword stab.

What a loss!

“Be obedient!” Wang Teng pulled out his sword and scoffed. “I’ll chop you into pieces if you cause trouble again.”

Devil ovum: ...

General Cameron was speechless. He felt a little astounded and asked, “Aren’t you affected by the devil ovum?”

“No, it’s just a devil ovum. How can it affect me?” Wang Teng kept his sword and said casually.

“Do you have a way to destroy this devil ovum?” General Cameron asked with a tinge of hope.

“This... is hard to say.” Wang Teng touched his chin and pondered. “When I stab it, it heals immediately. It will be hard to destroy it for now.”

“Does it mean that you have a way?” General Cameron caught the hint in his sentence and asked.

“Cough... I didn’t say that.” Wang Teng coughed awkwardly.

Why would he do something that wouldn't net him any benefits?

"Major Wang Teng, you should understand that if we want to destroy this devil ovum, we will need to invite an eternal-stage martial warrior. However, eternal-stage martial warriors shouldn't be activated easily. They have a great influence," General Cameron softened his tone and tried to convince Wang Teng.

"General Cameron, you yourself said that only eternal-stage martial warriors can solve this issue. What can a celestial-stage martial warrior like me do?" Wang Teng wouldn't admit that he had a way out.

This little brat! General Cameron glanced at him and felt helpless. "How about this? I won't ask you to work for free. If you can destroy this devil ovum, I'll reward you with 30,000 more military contributions," General Cameron suggested.

"How many military contributions will I get for getting this devil ovum back?" Wang Teng asked. He wasn't in a hurry to accept the offer.

General Cameron's expression froze. He hesitated for some time before replying unwillingly, "100,000."

"I get 100,000 military contributions for getting the devil ovum back and only 30,000 for destroying it?" Wang Teng widened his eyes in disbelief. Does he think I'm stupid?

"You can't say that. Since the devil ovum is in our hands, we'll take care of it sooner or later," General Cameron said without any changes in his expression.

"Oh, in that case, you can get an eternal-stage martial warrior to take care of it. I can't handle it," Wang Teng replied.

"Major Wang Teng, you're a little insensitive," General Cameron said in a meaningful tone. The muscles on his face twitched a little.

"I came for the experience. Why do I need to be sensitive? If you think I'm not capable, I can go to another defense planet. I believe that someone will be willing to accept me with my ability," Wang Teng replied calmly.

General Cameron realized how hard Wang Teng was to deal with.

When he first saw him, he had high hopes for him. Now, he just wanted to rub him against the floor.

What an evil heart!

He was bold too!

He didn't give any face to him, a universe-stage martial warrior and the commander of the main base. This was his first time meeting such a celestial-stage martial warrior.

He suspected that this lad wasn't a celestial-stage martial warrior. If not, where did he get his confidence to reject him?

"I heard that you have a grudge against the Parkers." General Cameron warned himself not to get angry. He needed to employ a soft approach when facing such tough people and convince them with reasons.

This young man was right. A capable person was welcomed anywhere.

Wang Teng made such a huge contribution the moment he came to the No. 29 Defense Planet. Not everyone could replicate his performance.

It was impossible for General Cameron to give up this budding young martial warrior.

Since he was sent here, there was no reason to force him away.

"It's not just a grudge. It's many many grudges," Wang Teng answered calmly.

General Cameron choked.

What was wrong with this young man's mind?

Was this of any concern?

He only cared if there was a grudge, not the intensity or number of grudges.

"Do you want to take revenge for me?" Wang Teng asked with a smile.

"Don't even think about it." General Cameron rolled his eyes.

"Sigh, I thought you wanted to help me clear my path because I'm so pitiful," Wang Teng said sadly.

"No one can help you since you created this trouble yourself. But..." General Cameron kept Wang Teng in suspense.

"But what?" Wang Teng smiled. He didn't mind.

"However, if you are able to climb to a high position in our military and gain the recognition of the 18 military lords, the Parkers will have to bow down to you too," General Cameron continued.

"The 18 military lords!" Wang Teng's eyes shimmered.

"Wang Teng, he's right. The military lords hold exceptional influence. Every one of them controls a formidable army and has numerous powerful martial warriors below them. They aren't weaker than the Parkers," Round Ball suddenly spoke in Wang Teng's mind.

"Oh, they're so powerful?"

"Of course. They're all formidable warriors who walked out of countless battlefields and have guarded defense planets for many generations. How can they not be powerful?" Round Ball said.

Chapter 1176 Why Don't You Lend Me This Fellow To Play For A Few Days?

"The military and the elite families are two different systems. Elite families have people in the military, but they won't be in high positions. This is a rule of the empire. Even the eight grand dukes can't break this rule," Round Ball further explained.

"The military transcends all others," Wang Teng commented.

"Of course. They have to resist the dark apparitions. If they get controlled by other forces, things will get complicated. Thus, they are given much power," Round Ball replied.

After Round Ball's introduction, Wang Teng finally understood how powerful the military lords were.

"So what if they are powerful? Can they help me?" Wang Teng shook his head.

"They won't help you, but if you have a high position in the military, the Parkers will think twice about touching you," Round Ball said. Then, it kept quiet and let Wang Teng make the final decision.

Wang Teng thought for a moment and looked at General Cameron. He smiled. "General, what do you mean?"

General Cameron knew that there was hope after seeing his expression. He chuckled in his heart and said, "If you can destroy this devil ovum, I can help you ask for a position from the military lords."

"Oh, that sounds good," Wang Teng touched his chin, feeling moved.

"What do you think?" General Cameron smiled.

Everything could be solved as long as the benefits were good enough.

"What about the 30,000 military contributions?" Wang Teng asked.

"I'm already personally going to ask for your position, yet you still want the military contributions?" General Cameron was speechless.

"Destroying the devil ovum is a tough job. I'll have to pay a high price," Wang Teng complained.

"... Do you think I'll believe you?" The corners of General Cameron's eyelids trembled. "Alright, I'll get you the military contributions too."

"Thank you, General. I'll abide by your orders," Wang Teng agreed immediately with a huge grin.

General Cameron: ...

He accepted the deal easily!

Why do I feel that I got fooled by this fellow?

General Cameron felt exasperated, but he couldn't say anything.

They arrived at the end of the corridor. General Cameron opened the last door with his personal account and said, "Place the devil ovum inside."

"Will it be safe?" Wang Teng asked worriedly.

"From today onwards, besides you and me, no one else will come here. This is to ensure no accidents happen," General Cameron said. "How long will you need to destroy the devil ovum?"

"At least half a month," Wang Teng said a time casually.

"Place the devil ovum inside. I'll bring you for a check-up."

"Alright." Wang Teng swung his hand and threw the devil ovum inside.

Splat! The devil ovum hit on the ground like a ball of meat and stopped after bouncing a few times.

Devil ovum: ...

Silence.

General Cameron closed the door silently.

“Let’s go.”

Wang Teng followed General Cameron to basement 3. There were all sorts of devices here, and many staff in white gowns were busy with work.

“General Cameron, what brings you here today?” An old man with white hair smiled as he walked over.

This elder had special features. His head and eyes were huge, and he had deep eye sockets. However, his body was thin and frail. His head seemed heavier than his body. Wang Teng was worried that he might stumble while walking.

“Veblen, this young man was in contact with the devil ovum. Please inspect him.” General Cameron went straight to the point.

“What? Devil ovum?!” Veblen’s eyes widened in shock. He looked at Cameron and Wang Teng. Suddenly, his gaze turned sharp. “Do you have the devil ovum? Did you get the devil ovum? Quick, tell me. Where is it?”

He guessed it. Wang Teng glanced at him.

“No. The devil ovum is a rare object. How can we have it?” General Cameron replied calmly.

“Hmph, you’re lying to me. I know that you’ve been in contact with the devil ovum for a long time just from your smell. What’s more, you touched it recently.” Veblen sneered in disdain.

Wang Teng was surprised.

“Young lad, tell me. Did you bring the devil ovum back?” Veblen turned his head and stared at Wang Teng.

“You must be kidding. I’d run away as far as I can if I had the devil ovum. How can I bring it back?” Wang Teng spouted nonsense. He was a professional at this.

“General Cameron lied to me. You’re lying to me too.” Veblen didn’t believe him.

“I can’t help it if you don’t believe me.” Wang Teng shrugged.

“Alright, Veblen. Hurry up and inspect him.” General Cameron frowned.

“Hmph, if you don’t let me see the devil ovum, I won’t inspect him.” Veblen snorted like a kid and turned his head away.

“Veblen, this isn’t a small matter. Stop being unreasonable,” General Cameron said in a cold voice.

“What do you mean? If you give me the devil ovum, I might be able to find a method to deal with the dark apparitions. That’s the big matter,” Veblen replied.

“Don’t bullshit. If it was so easy to find a way to deal with dark apparitions, we won’t need to fight with them for such a long time,” General Cameron said. He felt his head hurt.

“We should try at least.”

“You can’t get too close to the devil ovum. No one can bear the responsibility if you get enchanted.”

“So you do have the devil ovum. If I’m right, this fellow brought it back. The smell around him is the strongest.” Veblen walked toward Wang Teng and smelled him. He looked as if he guessed the result and pulled him into the room. “Come, let’s do an inspection. You’re a strange fellow. You don’t seem infected.”

Wang Teng was confused.

What the hell?

He wasn’t willing to give him an inspection a second ago and now, he seemed quite eager.

There was something wrong with this fellow.

General Cameron shook his head. He expected Veblen’s behavior, so he didn’t find it strange.

“Stand on the device.” Veblen brought Wang Teng in front of a huge device and pushed him forward with his shriveled palms.

Wang Teng was shocked. This old fellow looked fragile and weak, but he had some strength.

He looked at the device. It was a cylindrical glass cabin that was five meters tall. There were numerous metallic pipes linked to it. He didn’t know what they were for.

Wang Teng stepped forward without any hesitation.

Veblen raised his eyebrows and said to the staff beside him, “Activate, scan!”

“Yes!” The staff nodded and started operating the device.

The door of the cylindrical cabin closed. Rays of white light appeared around the glass cabin, covering Wang Teng up.

The white light scanned him from head to toe ten times.

In the end, the staff stopped the scan and shook his head at Veblen.

“Oh, nothing?” Veblen pulled Wang Teng out and stuffed him into another device. “Continue.”

A few moments later.

“Nothing again? Continue!”

“Continue!”

“Continue!”

...

Wang Teng got pushed around by Veblen for an hour. He went through numerous inspections and tried all the devices at least once.

In the end, nothing was detected.

“Tsk, tsk. You’re an interesting young lad.” Veblen circled Wang Teng and sized him up carefully as if he was looking at a perfect research subject.

Wang Teng shivered under his gaze and took a step back uncontrollably.

This old man is like a crazy scientist. Would he cut him up for research?

“General Cameron, why don’t you lend me this fellow to play for a few days?” Veblen turned and asked General Cameron.

“Play?” Wang Teng felt nauseous.

This old man was indeed a pervert. He wanted to play with him.

General Cameron glanced at Wang Teng in astonishment. He was surprised that he didn’t get affected by the devil ovum.

This fellow had many secrets. Should I let Veblen study him?

Wang Teng: ...

F**k, what’s with that gaze?

I trusted you, but you want to throw me to a scientist.

Wang Teng could tell what General Cameron was thinking at once.

“General Cameron, remember your promise,” Wang Teng squinted and threatened him.

“Cough, you misunderstood me.” Cameron coughed to cover up his guilt.

Chapter 1177 Intelligence Nativity Clan! People With Great Wisdom!

Wang Teng stared at General Cameron intently. He didn’t trust him.

That gaze had said it all. He definitely wanted to give him to Veblen for research.

What an evil old fellow.

“Young lad, you just have to cooperate with my research. Why are you so nervous? I won’t eat you.” Veblen snorted and continued angrily, “Other people will die to have this chance, yet you don’t cherish it.”

“Other people will die to have this chance? Are you kidding me?” Wang Teng glanced at the old man from the corner of his eyes.

This evil old fellow!

He was a pervert who wanted to trick him. No way!

“Hmph, you better believe me.” Veblen was furious when he saw Wang Teng’s expression. “Do you know what I do?”

“What?” Wang Teng asked.

“Veblen is the most famous researcher in the Great Qian Empire in the field of Force and life. He has a great reputation in the research industry in the universe,” General Cameron chimed in.

“That sounds quite amazing.” Wang Teng stared at Veblen in surprise.

This scrawny elder with a huge head had such great achievements.

Veblen raised his chin when he heard their conversation. He seemed proud of himself and gave an “I’m amazing, right?” look.

“Wang Teng, Veblen is from the Intelligence Nativity Clan!” Round Ball’s voice echoed in Wang Teng’s mind.

“Intelligence Nativity Clan?” Wang Teng immediately started searching for information about the Intelligence Nativity Clan in his memory.

“The Intelligence Nativity Clan is a rare high-intelligence clan in the universe. They possess unparalleled intelligence,” Round Ball explained at the same time.

Wang Teng found the relevant information and nodded. Astonishment flashed in his eyes.

Intelligence Nativity Clansmen were rare, but every one of them was a treasure.

They had high intelligence and a natural thirst for knowledge. They spent their entire life learning.

This was the typical 99% talent plus 99% hard work. There was no reason they wouldn’t succeed.

They had many people with great wisdom.

These people of high intelligence passed down their knowledge through each generation, so naturally, they left a colorful chapter in the book of the universe.

That was why everyone treated them with respect.

Many powerful factions treated the Intelligence Nativity Clan as important guests. They probably wished they could worship the people from this race.

These people were a great asset to anyone in the universe.

Wang Teng glanced at Veblen strangely after looking through his memories.

No wonder his head was huge.

This was a special race.

Anyway, if he knocked that big head a few times with his Lightning Slap, would he drop intelligence attributes?

This was a good question.

He wondered if intelligence had any relationship with enlightenment.

Wang Teng's enlightenment was at the cosmos stage, so he wasn't stupid.

But having some intelligence attributes was good too. He could collect some to nourish his brain.

"Young brat, what's with that look?" Veblen noticed Wang Teng's strange gaze and started shouting in rage.

"Cough, I'm looking up to you. I didn't know that you were so famous. You have my respect," Wang Teng came up with some random excuse.

"Bullshit, that wasn't what your gaze meant. Do you think I'm stupid?" Veblen didn't believe Wang Teng. He rolled his eyes and continued, "You're full of nonsense."

Wang Teng: ...

What happened to the trust between them?

"Alright, I'm not going to waste time on you. Have you made your decision? If you cooperate with my research, I can create a special cultivation plan just for you. It will increase the speed of your cultivation by three times," Veblen said.

"Three times faster than my current speed?" Wang Teng's expression turned strange.

Could anything be faster than picking up attributes?

The old man wouldn't be as confident if he knew how he raised his ability.

Veblen was infuriated once again when he saw Wang Teng's gaze. He felt offended.

Wang Teng didn't make any obvious expression, but the casual change in his look was more frustrating and infuriating.

This young lad looked down on him.

How could he? What right did he have?

"Wang Teng, Veblen might appear a little unreliable, but he won't joke around in his field. You don't have to worry about this. Many martial warriors want a personalized cultivation plan from him, but they were unable to convince him," General Cameron explained.

He spoke up because Wang Teng had amazing potential.

He was worried that Wang Teng would miss this opportunity because of his stubbornness. It would be too late to regret his decision in the future.

Wang Teng was stunned when General Cameron opened his mouth.

This was a little awkward.

General Cameron had spoken. If he turned them down again, they might think that he didn't appreciate their favors. But...

Wang Teng hesitated before he made his decision.

“Erm, I think it’s fine. I feel that my cultivation speed is good enough.”

He didn’t have the hobby of being a guinea pig.

Also, he had many secrets. He was worried that some of his core secrets would get discovered. Even if they weren’t, it was inevitable a thing or two would be leaked.

Wang Teng didn’t dare to underestimate the intelligence of the Intelligence Nativity Clan. After all, based on the Devouring Nihilism Beast’s memories, there were many praises directed at them.

“Are you sure?” General Cameron didn’t expect Wang Teng to reject.

“Yes.” Wang Teng nodded.

“Yong man, you’re looking down on me. Are you looking down on me?” Veblen was infuriated. He rushed forward and glared at Wang Teng as if he wanted to fight with him. His saliva landed on the other party’s face.

“Erm, don’t misunderstand. I don’t mean it this way. Why would I look down on you? My respect for you is immense.” Wang Teng immediately bootlicked the old man.

Either way, he mustn’t offend the other party.

“Hmph, I understand. You’re not willing to help me with my research because you have some secrets.” Veblen scoffed as he glared at Wang Teng.

“How is that possible? My conscious is clear. Why would I have any secrets?” Wang Teng wouldn’t admit it.

Secret.

What secret?

He didn’t have any secrets.

Veblen: ...

General Cameron: ...

This fellow was shameless. He was lying through his teeth.

Round Ball said calmly, “Do you believe what you’ve said?”

“I don’t care if they believe me. I believe it,” Wang Teng replied.

“Alright, since you’re not willing to do it, let’s go.” General Cameron shook his head and turned to leave.

Everyone had their secrets. This was normal. Wang Teng must have his own considerations for not participating in Veblen’s research. There was no need to force him.

“Wait, wait,” Veblen shouted unwillingly.

“What now?” Wang Teng had a headache.

Veblen pulled Wang Teng and put on a different expression. Smiling, he said, "Why don't you reconsider it?"

The more Wang Teng rejected him, the more curious he was and the more he wanted to investigate him.

One would always think about what they couldn't get.

Wang Teng: ...

When would this old man stop?

He couldn't hit or scold him. He was frustrated.

If he could, he would have knocked him unconscious with his brick. That way, he wouldn't be able to disturb him.

Wang Teng could only seek help from General Cameron. He looked at the general and hoped that he could take care of this old man.

However, General Cameron looked at the ground and pretended not to see anything.

"Erm, my stomach is hurting. Oh my, it's painful. I need to go to the toilet or I'll poop in my pants," Wang Teng clutched his stomach and said hurriedly.

Veblen was speechless. "Your acting is quite fake. How can a martial warrior not control his bladder?"

"Hurry up and let go. If not, I'll answer nature's call here." Wang Teng didn't care.

"Can you be a little more shameless?" Veblen's face turned black.

"Shameless? What's that? Can we eat it?" Wang Teng asked. "If you don't let go, I'll do it in my pants."

"Go away." Veblen felt disgusted. He released his grip and said angrily, "Young lad, wait for me. Our business hasn't ended yet. You will lie obediently in front of me one day."

"Lie in front of you?" Wang Teng said with disdain, "I'm sorry, but I'm not interested in men. I might have given it a thought if you were a beautiful lady."

Veblen: ...

Chapter 1178 Wang Teng, Go To Hell!

Wang Teng heaved a sigh of relief when he walked out of Veblen's laboratory.

This old man was tiring to deal with. If he wasn't smart enough, he wouldn't have been able to escape.

"I'll never come to this stupid place again." Wang Teng turned back. He still had lingering fears.

"Haha, you shouldn't say such things." General Cameron chuckled.

"... What do you mean?" Wang Teng's heart skipped a beat. He had an ominous feeling.

"You'll know in the future." General Cameron didn't answer him. Instead, he changed the topic and said, "I have given you the right to the room in basement 10. I'll leave the devil ovum to you."

“Remember to get a position for me after I destroy it,” Wang Teng nodded and reminded him.

“You’re unwilling to suffer any losses,” General Cameron said helplessly.

“Look at what you’re saying. I’m just taking what I deserve.” Wang Teng smiled.

“Don’t worry. You’ll get your fair share.” General Cameron waved his hand.

“Oh right, I’ve reported the weakness of the devil armor dark apparitions. You can check that report. Don’t miss my contributions for that,” Wang Teng said.

“The weakness of the Devil Armor Race?” General Cameron was shocked.

He didn’t know about this.

Actually, his adjutant had gotten the report, but he was dealing with other important matters and the devil ovum, so the adjutant didn’t have the time to inform him.

General Cameron had many things to attend to. If his adjutant didn’t remind him about important matters, they would get pushed to the back.

“Are you kidding?” General Cameron stared at Wang Teng in disbelief.

“I don’t have to joke with you about this.” Wang Teng rolled his eyes. “We brought many devil armor dark apparitions back. Some are still alive, so you can study them.”

“Alright, once this matter is confirmed, you’ll get the contribution.” General Cameron nodded firmly.

They had studied the weakness of the Devil Armor Race for a long time to no avail. It would be a great piece of good news if Wang Teng had succeeded.

Even General Cameron felt a little excited when he heard this good news.

When they went back to ground level, General Cameron left in a hurry. He wanted to test the weakness of the Devil Armor Race.

Wang Teng went to look for his team.

They hadn’t left yet. They were taking a break in a resting area. Seeing Wang Teng walk over, they got up to welcome him.

“Major Wang Teng, are you alright?” Peggy asked hurriedly.

“It’s alright. Nothing will happen to me. I’ve completed all the inspections and passed,” Wang Teng replied with a smile.

“That’s great.” Peggy heaved a sigh of relief.

“Are you worried about me?” Wang Teng looked at the white wolf lady and winked at her.

Peggy kept a straight face and regained her distant demeanor. She said indifferently, “As your subordinate, it’s my job to be concerned about you.”

“Is it?” Wang Teng nodded. He stopped teasing her and turned to look at everyone. “Come, I’ll treat you guys tonight. Let’s eat together.”

“Hahaha, alright!”

“Major Wang Teng is treating, so we must go.”

“Boss, what are we eating?”

Everyone laughed, and the atmosphere lightened.

It was extremely easy to form friendships on the battlefield. Everyone went through life and death together, so naturally, they got closer.

Peggy looked at this scene and gave a gentle smile.

Having a good leader was extremely important for martial warriors like them.

Night came.

The entire base got livelier.

Many martial warriors came back from their missions and gathered in this base. They dueled and enjoyed delicious food. This was the military’s tradition.

There was a reason for this.

One was to disperse the darkness and build faith in the martial warriors so that they wouldn’t be afraid of death.

The other was to disperse the anxiousness and bloodthirst from the battlefield. If not, they might suffer from some psychological illness.

Not everyone could withstand the massacre on the battlefield.

Wang Teng and his team gathered in a small corner of the field. He sat down and prepared to order delicious food for them.

“Hmph!”

A cold snort suddenly caught their attention.

Wang Teng turned and saw Wendell from the Parkers looking at him. He was sitting with another bunch of martial warriors.

Their gazes collided in mid-air. Wendell smirked. “So many injuries on your first mission. As expected of a newbie.”

“Hmph.” Wang Teng snorted uncontrollably too.

Peggy and the others were infuriated. They glared in Wendell’s direction.

They knew clearly what had happened during this mission. An ordinary person wouldn't be able to return after touching the devil ovum. However, all of them came back alive because of Wang Teng. They only paid the price of some minor injuries.

Yet, someone called him a newbie. They couldn't bear it.

"Raging Wolf Wendell!" Peggy frowned and glared at Wendell.

"White Wolf Peggy!" Wendell finally noticed Peggy. He sprung up and said with an ugly expression, "I invited you many times, but you rejected me. Now, you're following a newbie."

"White Wolf!"

"That's White Wolf!"

The military martial warriors around them recognized Peggy and were surprised.

She seemed quite famous among celestial-stage and cosmos-stage martial warriors.

"I'm free to choose which team I want to join," Peggy said.

"You're abandoning yourself." Wendell stared at her with rage. "You can only release your potential if you work with powerful martial warriors like me."

Everyone realized something through his sentence.

The White Wolf rejected Wendell but joined the team of a newbie major. Moreover, there were many injuries during their first mission.

That was interesting.

Did White Wolf choose the major because he was handsome?

White Wolf was a lady, so it was understandable why she chose the handsome one.

Their gazes were filled with anticipation. There was a good show to watch!

Wendell wasn't someone who backed down easily, so he would definitely try to gain the upper hand.

They wondered how the newbie would react.

"Pfft!"

At this moment, someone laughed.

"Why are you laughing?" Wendell turned and glared at Wang Teng.

"I'm laughing at how naive you are, idiot." Wang Teng smirked nonchalantly.

"What did you say?" Wendell was furious.

"Idiot! You're not just stupid, you're deaf too," Wang Teng said. "She can only release her potential if she's with you? Why don't you take a mirror and look at yourself? Who gave you the courage to say that?"

“You...” Wendell’s expression turned hideous. He was fuming.

“What about me? If you’re stupid, don’t come out and embarrass yourself!” Wang Teng didn’t give him any chance to refute.

Wendell’s face turned purple from anger.

The people around them stared at Wendell strangely. They wanted to laugh but they didn’t dare.

“Hahaha.”

Of course, there were some that weren’t afraid of him and burst out laughing.

“Lu Binghong!” Wendell almost turned crazy. He glared at the person who laughed. “This has nothing to do with you.”

“I’m just laughing. Why are you bothered by it?” Lu Binghong was a tall and muscular young human. The muscles on his body bulged out like granite. He wasn’t afraid of Wendell at all.

“Hmph.” Wendell snorted and disregarded him. He looked at Peggy and sneered, “I’ll give you one more chance to come to my team. After this, you won’t have any more chances.”

Peggy’s expression didn’t change. She wanted to speak.

“Peggy, sit down.” Wang Teng opened his mouth.

An unnoticeable smile appeared at the edge of her lips. She ignored Wendell and sat down. She knew that Wendell was shifting the pressure away from her so she felt grateful.

Silence.

Wendell’s expression froze. His face turned a little pale.

Peggy ignored her but he listened to that newbie Wang Teng.

Wendell felt that he was a clone.

He was embarrassed and furious. He wanted to rage but he couldn’t. In the end, he glared at Wang Teng and left.

This was the second time!

The second time he suffered in Wang Teng’s hands.

Wang Teng, go to hell!

Wang Teng shook his head. He was too lazy to care about the other party. This fellow was asking for it.

Chapter 1179 Mmm, This Is Delicious!

Wang Teng didn’t take Wendell’s provocation to heart.

If it were the entire Parkers Family, he might have been afraid, but this Wendell was just a cosmos-stage martial warrior of the family.

He wasn't being arrogant. He had many ways to deal with a cosmos-stage martial warrior.

Of course, he wouldn't let down his guard. A lion would still fight a rabbit vigilantly!

After all, Wang Teng was just a small and weak celestial-stage martial warrior. He needed all his efforts to deal with a cosmos-stage martial warrior.

"Major Wang Teng, sorry to create trouble for you," Peggy played with her hair as she said apologetically.

"This has got nothing to do with you. I'm not on good terms with Wendell anyway." Wang Teng smiled and briefly explained their feud.

Peggy was just a spark. His grudge against Wendell still existed with or without her.

Peggy and the others knew about the Parkers, so they were flabbergasted when they learned that Wang Teng had grudges against them. They felt that their brains couldn't spin in time.

Their superior seemed quite impressive!

He had the balls to offend the Parkers. They finally understood why Wang Teng dared to talk back to the fierce Wendell. Compared to the whole family, one Wendell was nothing.

At this moment, a figure walked in. It was Lu Binghong, the martial warrior who had laughed at Wendell just now.

He had long black hair and was rough-looking. With a smile, he said, "You're the first person that managed to shut the Raging Wolf up."

"It's nothing," Wang Teng replied calmly.

"Interesting." Lu Binghong chuckled. "My name is Lu Binghong. Nice to meet you."

"Wang Teng," Wang Teng raised his head and glanced at the person while replying casually.

None of them said much. This was their first meeting, so it wasn't appropriate to speak too deeply. They made a simple introduction and got to know each other.

"Sir, Lu Binghong is as famous as Wendell. They're both colonels and are known for their ruthlessness on the battlefield. They have killed countless dark apparitions, but Lu Binghong is quite friendly and straightforward. His reputation is not bad. He's not sinister like Wendell."

Peggy whispered to Wang Teng after Lu Binghong left.

With a nod, he noted down this information. Who could predict the future? They might get closer.

Suddenly, there was a commotion in the distance.

"Wow, delicacy!"

"Long live Colonel Wendell! We're going to have a feast tonight."

"Hahaha, this smells great."

The members of Wendell's team were staring at the food Wendell took out like a pack of hungry wolves. Their eyes shimmered as they cheered.

"Eat all you want. Since you're on my team, I'll make sure you enjoy special treatments others can't. These delicacies are shipped from the Great Qian Planet by my family. Some of them are made personally by Force chef masters." Wendell waved his hand proudly.

It was understandable why the martial warriors made such a commotion.

They stayed on the No. 29 Defense Planet all year round, and there were limited resources here. Although they never got hungry, there wasn't much delicious food either.

Only Wendell, who came from an elite family, could afford to be luxurious.

After all, just shipping items to the No. 29 Defense Planet required a lot of money. Ordinary martial warriors didn't have the wealth to squander like that.

The martial warriors around them smelled the fragrance and started swallowing their salivas. They were distracted.

Good food was a luxury on defense planets.

Wendell looked in Wang Teng's direction and recovered some of his pride.

Wang Teng looked at him strangely. Was he really from the Parkers family?

It was just food. What was there to be proud of?

He shook his head and took out some food from his space ring. He wanted to take it out before, but Wendell interrupted him and pushed his plans back.

Many different kinds of delicacies suddenly appeared in front of the team. They were stunned.

They got attracted by Wendell's food a second ago, but now, they didn't care. Their focus was on the delicacies. They looked even more delicious than the ones prepared by Wendell.

The fragrance alone was enough for them to make this judgment.

The aroma of Wang Teng's food overpowered Wendell's. They weren't at the same level.

Wang Teng's food was all made by the Force chef grandmasters. He had prepared a huge amount. This was just the tip of the iceberg.

"Grandmaster-level Force dishes!"

Many people exclaimed in shock. They could differentiate the level of these delicacies from the smell alone.

Normal people couldn't afford to eat Force dishes prepared by Force chef grandmasters. Even cosmos-stage martial warriors could at most enjoy it twice.

But first, they needed to be wealthy. This meant that none of the martial warriors on No. 29 Defense Planet could afford them.

Yet, Wang Teng took out numerous grandmaster-level Force dishes at once. This was...

This was too much!

The pride on Wendell's face froze. He glanced at the food in front of him. It didn't look appetizing anymore.

Only a small portion of this food came from Force chef grandmasters. Most of it was just ordinary Force dishes.

By right, to the martial warriors on the No. 29 Defense Planet, these dishes were a luxury. It was enough to show how much he cared for his subordinates.

However...

He was a level lower compared to Wang Teng. He put on an act for nothing.

Wendell felt embarrassed. His face was burning, and he wished he could bury himself in a hole.

F**k, this bastard didn't go by the book.

Did he have to use grandmaster-level Force dishes to reward his subordinates? Did he have too much money?

All these grandmaster-level Force dishes must cost a fortune. Even as a member of the Parkers, he didn't dare to burn money like this. Wang Teng was just a baron. Where did he get his wealth?

Arwen and the others were stunned. They swallowed their salivas when they caught the fragrance, but no one moved.

What if Major Wang Teng asked them to pay after they ate?

Grandmaster-level Force dishes were tempting, but they were expensive as well. Poor martial warriors like them had no right to enjoy them.

Even Peggy controlled the urge to wolf them down and asked, "Major Wang Teng, these Force dishes..."

"Don't just stare at them. Have a bite. I said that I'm treating you guys." Wang Teng invited them to try the food. At the same time, he had already taken a huge bite of a piece of barbecued meat.

The barbecued meat was golden in color, crisp on the outside and tender inside. It gave off a thick fragrance that tempted the hungry worms in everyone's stomach.

Slurp!

Someone swallowed his saliva loudly.

"Major Wang Teng, can we really eat them?" Arwen asked worriedly.

"Cut the nonsense. Why would I take them out if I was not offering them to you?" Wang Teng rolled his eyes. "Hurry up. It's just some food. Don't be such bumpkins and embarrass me."

Peggy and the others: ...

Wendell: ...

Others: ...

They suddenly felt like country bumpkins.

To Wang Teng, grandmaster-level Force dishes were normal food, but to them, they were treasures. Yes, they were bumpkins.

Wang Teng shook his head and sighed in his heart when none of his team moved. There was sympathy in his gaze.

Look at what they've become.

They could be considered formidable warriors outside with their abilities, but they were locked up in his defense planet which erased all their confidence.

He grabbed a piece of golden-brown barbecued meat wrapped in a leaf and stuffed it in Peggy's hand.

"Eat!"

Peggy looked at the food and regained her composure. In the end, she gave up resisting and silently stuffed the meat in her mouth.

She wanted to be reserved, but this barbecued meat was too tasty.

Mmm, this is delicious!

"Have some too. Do you need me to feed you?" Wang Teng glanced at the rest of his team.

Arwen and the others stopped hesitating once Peggy took the lead. They turned into hungry wolves and pounced on the food in front of them.

"F**k, leave some barbecued fish for me."

"Hey, why did you snatch that huge piece of meat? Can you finish it?"

"Move, I can finish it in three bites. Don't snatch it from me."

"Let go. I got it first."

...

Wang Teng stared at the group of celestial-stage martial warriors and covered his eyes. He couldn't bear to look at them.

Chapter 1180 Killing Five Birds With One Stone!

While Wang Teng's team was having a ball of a time as the other martial warriors glared at them in envy.

F**k!

This is atrocious!

How could they enjoy such delicacies while they ate coarse food?

Everyone chewed their tasteless food while glancing at Wang Teng uncontrollably.

Wendell got angrier as time passed. He honestly wanted to throw his food on the ground.

But if he did that, what would his subordinates think of him?

In the end, his rationale won, and he finished his food obediently.

As for Wang Teng, no one from his team cared about Wendell. They were busy savoring the food. They started snatching the Force dishes as if they hadn't eaten for seven days.

One step later and the food would be gone.

No one even glanced at Wendell. Who was he? Could he be eaten?

Wang Teng contacted Di Qi to have a meal together, but he didn't reply to him. He was probably still on his mission.

Although Wang Teng's mission was difficult, he completed it quickly.

Speaking about it, Wang Teng was a bug. He carried the devil ovum back and gained huge military contributions. Mind you, most humans were afraid of the devil ovum.

Di Qi wanted to compete with him, but when he learned about his achievements, what would he think?

That night, Wang Teng's team felt extremely satisfied. Their minds were filled with delicacies. They couldn't think about anything else.

Everyone burped happily when they went back. They were still enjoying the aftertaste.

Wang Teng was satisfied too.

Good, the food helped his team to have a sense of belonging.

If one meal wasn't enough, they could have another one. He believed that no one could reject good food.

As for Wendell, he had Force dishes too, but the effects weren't as great. His teammates didn't feel much gratitude toward him.

Comparisons were infuriating!

There was no harm if there was no comparison.

Wendell was frustrated and enraged. His hatred toward Wang Teng deepened. He felt that Wang Teng was the cause of everything.

...

The next day, Wang Teng came to the place where the devil ovum was sealed.

He could finally get some attribute bubbles with no one disturbing him.

This devil ovum was a good thing.

Both the constellation dark Force and Enchantment were attributes Wang Teng sought.

Actually, he could get rid of this devil ovum immediately.

But he wouldn't be able to find another baby that would give him such good dark Force attributes.

It should be noted that this devil ovum was created by devil titans. It was rare.

He wouldn't have given it to General Cameron if he didn't need the military exploits. It was better to hide it and collect more attribute bubbles from it.

Fortunately, the situation now was good.

He got his military contributions and left an impression on General Cameron's heart.

After he got rid of this devil ovum, he would have a good reputation in the 18 military lords' hearts.

This devil ovum gave him two rounds of military contributions and good impressions.

Wang Teng gave himself a thumbs up.

What a smart decision.

How many birds did he kill with one stone?

One, two, three, four, five. He killed at least five birds.

However...

Wang Teng's good mood disappeared when he reached the devil ovum's location.

He saw someone he didn't wish to see.

Veblen!

Why was this old fellow here?

Wasn't he banned from seeing the devil ovum?

Oh right!

He suddenly remembered what General Cameron had said yesterday. He told him not to speak too soon. Indeed, he saw Veblen again.

He was too naive to believe General Cameron's words.

He didn't agree with Veblen at the start, but now, he had to relent even if he did not want to.

They had obviously reached some secret agreement.

Wang Teng's face turned black. He took a step back uncontrollably and wondered if he should find the devil ovum another day.

This old coot was too hard to deal with. He might pester him to do some research again.

Everyone was afraid of Dr. Frankenstein.

“Brat, why are you running away? Come over. How can you be so timid? What will you do when you grow older?” Veblen rolled his eyes and scolded.

“Mister, don’t pester me. We have no grudges, right?” Wang Teng said.

“Alright, I won’t talk to you about research today. Open the door quickly. I want to look at the devil ovum,” Veblen said impatiently.

“That’s impossible.” Wang Teng heaved a sigh of relief when he realized that Veblen’s attention was on the devil ovum. However, he shook his head and replied, “That’s too dangerous. I won’t be able to bear the responsibility if anything happens to you.”

Ever since he knew that this elder was someone with high wisdom from the Intelligence Nativity Clan, he knew that he would be troublesome. If anything happened to him, who would take the blame?

“Haha, don’t look down on me. Nothing happened to you, so why would anything happen to me?”

“I have my ways.”

“I have my ways too. Look carefully.” Veblen’s body started glowing, and a divine-looking armor appeared on him. It covered him up fully.

“F**k!”

Wang Teng cursed involuntarily. He took a huge step and came beside Veblen to study the armor.

“This armor is made from light-element materials!” Wang Teng widened his eyes in shock.

“Oh, you can tell?” Veblen was surprised.

“Of course. I’m a grandmaster blacksmith.”

“Grandmaster blacksmith? You’re already a grandmaster blacksmith at this age?” It was Veblen’s turn to be shocked. He sized up Wang Teng carefully. He didn’t know that this young man was a grandmaster blacksmith.

“Mister, where did you get this armor? This is luxurious,” Wang Teng knocked the armor and asked curiously.

“Hmph, someone gave it to me. What do you think? Are you amazed?” Veblen chuckled proudly.

“Rich man!” Wang Teng was extremely envious.

Light-element armor was as rare as light-element martial warriors. It was extremely tedious to gather all the materials to produce them.

It was extravagant enough to use light-element materials as the main with other materials as support.

However, this armor was made entirely out of light-element materials. If this wasn’t rich, what was?

The important issue was, this armor was a gift!

Gift!

Who gave him such a priceless gift?

Veblen was indeed impressive. Someone was willing to give him light-element armor as a present. Normal people couldn't achieve this feat.

"So, young man, can I go in?" Veblen sniggered and asked.

"No!" Wang Teng rejected him mercilessly.

Veblen's smile froze. He asked in exasperation, "Why?"

"The light armor can resist dark Force, but it can't withstand the spiritual attack of the devil ovum."

"I thought it was some kind of a huge problem. Don't you know that the spirit of the Intelligence Nativity Clan is very strong?" Veblen said proudly.

"How strong?" Wang Teng asked.

Veblen snorted and released his spirit. It spread out.

Wang Teng sensed the spirit and realized, to his astonishment, that it seemed to have exceeded the universe level.

Oh my god!

The eternal level?!

This ordinary-looking old man's spirit had reached the eternal level!

"The Intelligence Nativity Clan is known for its intelligence. Hence, their spirit is quite powerful," Round Ball explained to Wang Teng in his mind.

Wang Teng nodded. "In that case, you can enter. If anything happens, you must tell me."

"Yes, I understand. Why are you so naggy?" Veblen waved his hand impatiently.

Wang Teng gave a bitter smile.

Someone was complaining about him.

I'm naggy because I'm afraid that you'll get injured.

He didn't notice the hint of gentleness that flashed in Veblen's eyes when he spoke impatiently.

Wang Teng opened the door with his card.

Veblen squeezed in immediately and stared hard at the devil ovum. He circled it and touched his chin while clicking his tongue.

He looked as if he would bring a scalpel out and cut the devil ovum on the spot.

Wang Teng saw the devil ovum trembling. He was stunned.

Was it afraid?

Dr. Frankenstein was indeed scary.

Veblen didn't seem affected, so he didn't think too much. He glanced around the room.

Many attribute bubbles appeared after one day.
