

Martial Arts 1231

Chapter 1231 Good Impression +1+1+1+1...

Wang Teng followed Peggy to the infirmary. He couldn't see her expression, but he knew that she must be uneasy.

However, as a martial warrior stationed on the battlefield, she wasn't greatly affected.

Along the way, when other martial warriors saw Wang Teng, they stopped and saluted him, sending him off with their eyes.

Discussions were heard occasionally. They were all about Wang Teng.

Many people didn't know Wang Teng's identity, so they kept guessing.

Some people even asked Wang Teng's team members for information. The martial warriors with higher authority searched the military website directly. They got some brief information about Wang Teng.

For instance, he was a baron of the empire and was at the celestial stage.

These were all public information. Anyone could find it.

This caused quite a huge commotion.

He became a baron at such a young age and came to the battlefield to fight with the dark apparitions! He was different from the young nobles who only knew how to hide behind their families and enjoy their lives.

Most importantly, his talent was astonishing. He possessed such ability before he turned 20 and even managed to ambush Devil Emperor Jarrocks successfully.

This wasn't something a normal person could achieve.

God's child!

He was a genius of the empire!

His identity, ability, and performance on the battlefield... all these factors bred respect in their hearts. His reputation in the military started to climb.

Before this, General Cameron was afraid that Wang Teng's reputation wasn't high enough. However, one war was enough for him to overtake other people who had worked for many years.

Wang Teng saw the three seriously injured personnel after he arrived at the infirmary. They were lying on beds. Dark Force floated above their wounds, seeping into the body slowly.

They had injured their organs. If the attacks went deeper by an inch, they would have lost their lives.

Actually, only martial warriors were able to withstand such injuries. An ordinary person without a strong physique would have already perished.

Wang Teng glanced at them and acted directly. He executed the Bestow Of The Goddess. Light Force turned into rain and sprinkled on the three injured personnel.

The dark Force around their wounds dispersed. It turned into black smoke and floated away. At the same time, the wounds started to heal rapidly.

The painful expression on the injured softened. They stopped frowning.

The effects were amazing!

“Light Force treatment!”

Arwen and the others widened their eyes in surprise. They knew that Wang Teng was a light-element martial warrior, but they didn’t know he had this skill.

There were only a few people in the universe who knew any light Force treatment. They were precious.

They felt that their leader was an all-rounder. He knew everything and would always give them surprises.

There was added insurance to their lives since their leader knew light Force treatment. They had never felt this safe.

The sense of security was real!

Peggy stared at Wang Teng’s back. Her gaze was filled with emotions.

Di Qi wasn’t surprised. He knew that Wang Teng had the light Force treatment skill, so he already had a hunch about what Wang Teng wanted to do when he came over.

After executing the Bestow Of The Goddess, Wang Teng took out a jade bottle and said, “There are three pills inside. Take them.”

The soldiers took the bottles and poured the pills out. A fragrance spread out instantly.

“Master-level pills!”

They were elated and shocked when they saw the quality of the pills.

“What? Master-level pills?” The wounded martial warrior looked over in astonishment.

“Smell the fragrance. This is really a master-level dan medicine!”

“Oh my god, this reception is amazing. They received light Force treatment and master-level pills.”

“Which team is that? I want to join them. Don’t stop me.”

“It’s Major Wang Teng!”

“Leader, goodbye. You can’t afford to raise me. I’m going to Major Wang Teng’s side.”

...

The injured personnel were all envious when they smelled the fragrance. They almost betrayed their teams and rushed over to join Wang Teng.

Their team leaders turned green in anger.

They had promptly come to show concern to their team members, but all the limelight was stolen by Wang Teng. Their team members didn't appreciate their efforts and even wanted to leave.

This was too much!

They were heartbroken.

They betrayed them for a single master-level pill. What happened to their friendship on the battlefield?

Wang Teng chuckled slyly in his heart when he felt the bitter gazes around him. Three master-level pills were enough to trigger this effect. It was worth it.

He had numerous master-level pills, too many for him to use alone. Normally, he used grandmaster-level pills, so these master-level pills were perfect for rewarding his teammates.

"Boss, this is too precious. We..." A team member looked at the pill in his hand and exclaimed.

"Eat it. It's just a pill. Your life is more important," Wang Teng replied calmly.

`(+_+)'

The three team members felt touched. They almost cried.

Look!

Look at what he's saying!

Their boss treated their lives dearly too. This was touching.

Good impression +1+1+1+1...

Wang Teng gained another round of good impressions. Everyone wished they could join his team.

The three team members swallowed the pills after seeing Wang Teng's firm attitude.

They instantly felt the miraculous effect of the pill. A warm stream flowed through their bodies and gathered around their wounds, alleviating the pain. They knew that their wounds were healing.

Their injuries started recuperating at an incredible speed due to the combined effect of the light Force treatment and the pills.

By right, they would need half a month to recover, but now, they only needed three to five days.

The martial warriors around them were flabbergasted when they saw the effects. Their eyes glowed brightly.

What pill is this?

The effect is amazing!

A master-level pill would not have this effect unless it was a high-quality and rare type of healing pill.

Not all healing pills were the same. The type of spiritual herbs and their combination had great influence over its effect.

There were a few thousand types of master-level healing dans in the market. The ones with the best effects were all in the hands of grandmaster-level alchemists. They were hard to find.

They couldn't sit still anymore and gathered over enthusiastically.

"Major Wang Teng, do you have more pills? Can you sell them to us?"

"That's right. All of us fought the dark apparitions together. Major Wang Teng, please help us. My team members are in a poor state. Look, he's on his last breaths. He needs a pill to save his life."

"Major Wang Teng, don't worry, we won't take them for free. We're willing to pay any price for them."

"If you don't have them, you can execute a light Force treatment first!"

...

The team leaders spoke one after another as they gathered closely around Wang Teng. They almost drowned him with their saliva.

Chapter 1232 Give A Plum In Return For A Peach!

When General Darte walked into the infirmary, he saw Wang Teng getting surrounded by people. He was stunned.

"What are y'all doing?"

"General Darte!"

"General, you're here!"

"General, please help us..."

...

Everyone clamored around General Darte and started talking at once.

General Darte took some time to understand what happened. He stared at Wang Teng strangely and asked, "You know light Force treatment?"

"A little," Wang Teng replied calmly.

"Hurry up and treat them. It's hard to eradicate the dark Force from their wounds. If they don't get treated in time, it will affect their cultivation in the future. Please help them," General Darte requested earnestly.

"I want to, but I can't execute it when they're surrounding me," Wang Teng replied innocently.

(#~#)

The corners of everyone's lips twitched.

This fellow was a little shameless.

He wasn't this easy to talk to just now. Why did he change his attitude the moment General Darte came?

And he was still acting innocent.

How shameless.

But no one voiced their thoughts. What if Major Wang Teng bore grudges? They still needed him.

“Why aren’t y’all moving? Didn’t you hear what Major Wang Teng said? Spread out.” General Darté felt helpless.

Insensitive fellows.

“Yes, yes!”

Everyone hurriedly took a few steps back.

Good lord!

The older, the wiser!

Wang Teng glanced at General Darté and smiled at him. Then, he executed a large-scale Bestow Of The Goddess without any hesitation.

Light rain splattered down the infirmary. All the injured were taken care of. No one was left out.

The wounded felt much better after bathing in the rain. They thanked Wang Teng profusely.

“Thank you, Major Wang Teng!”

“Major Wang Teng is a good man!”

“Major Wang Teng, do you still need team members? I’m willing to join.”

“Major Wang Teng, I’m an experienced jungle martial warrior. I’m good at fighting creeps. Please choose me.”

“Major Wang Teng, please choose me. I can warm your bed.”

...

Wang Teng didn’t expect these military martial warriors to be so funny.

Jungle-style martial warrior? Are you serious?

Do you play mobile legend?

Also, warm my bed? I’m a righteous man. I won’t be distracted by a person’s look.

Are you prettier than my adjutant? Do you have a better figure than her?

If you don’t, shut up.

General Darté was at a loss for words. He was embarrassed by his subordinates!

Where’s your dignity? You can throw yours away, but I still want mine.

Wendell stood in the corner with a black face. “Scoundrel realizing his ambition!”

The team member lying on the bed didn't dare to speak. After all, he had just accepted Wang Teng's light Force treatment.

"Major Wang Teng, thank you. Let me thank you on behalf of all the wounded!" General Darte was surprised when he saw everyone's condition improving. However, he didn't forget to thank Wang Teng.

"Please don't do that. It's nothing." Wang Teng waved his hand.

"This isn't nothing. No one else can do it." General Darte shook his head with a smile. "You made a great contribution this time. Either way, you'll get what you deserve. I remember that the captain of the Tiger Strike Force is getting promoted. They need a powerful officer to take over his position. I'll vote for you. With General Cameron's help, you have a high chance."

"The Tiger Strike Force?" Wang Teng was puzzled.

Peggy, Di Qi, and the others were astounded. They had some insider information.

"F**k, I've been in the military for so many years, but I don't have the right to fight for it. It looks like you're getting real power soon," Di Qi shouted instantly. He was envious.

He used to be the garrison commander of the No. 4 Defense Planet, so he had some military influence there. He was like the local tyrant of the defense planet.

However, it was nothing on the No. 29 Defense Planet.

Every single team leader here was a cosmos-stage martial warrior. There was nothing to compare.

"Does the Tiger Strike Force have a lot of power?" Wang Teng asked.

"You don't know?" General Darte was surprised.

"I came just recently. How would I know?" Wang Teng felt speechless.

General Darte was stunned. Then, he shook his head bitterly. He had forgotten that Wang Teng was a newbie. His performance during his missions and the war was just too astonishing.

He explained, "The Tiger Strike Force is a thousand-man squad. They have 5000 martial warriors, all at the celestial stage and above. The deputy regimental commanders are cosmos-stage martial warriors. On the No. 29 Defense Planet, the Tiger Strike Force is one of our top squads.

"If you can become the regimental commander of the Tiger Strike Force, you will have real power. You won't just be a martial warrior with a normal military rank."

Wang Teng's eyes lit up.

The Tiger Strike Force seemed awesome.

If he could become its commander, he would have a certain amount of influence and speaking power in the military.

Many thoughts went through his mind. Wang Teng nodded and smiled. "Thank you, General."

“There’s no need to thank me. You won it with your ability and contribution. I didn’t help you.” General Darté waved his hand and smiled.

Wang Teng chatted with General Darté for some time before leaving.

No one spoke about the pills again. They knew that such effective pills meant an extra life on the battlefield. They wouldn’t give it away if they had one either.

However, they didn’t know that when Wang Teng left, he secretly gave General Darté a bottle of pills. There were 20 master-level healing pills inside.

General Darté said that Wang Teng earned everything himself and he didn’t help him, but Wang Teng wasn’t a

naive.

Standing by his side was the greatest help to him.

No one would help others for no reason, especially these bosses of the military. They wouldn’t take sides easily either.

Thus, Wang Teng accepted his kind favor. The pills were his way of showing his appreciation.

How would he use them?

That was General Darté’s own business. It had nothing to do with him.

Also, 20 master-level pills didn’t matter much to him. He could make them easily with a few furnaces.

He was a grandmaster alchemist. He had the confidence to do this!

The war had just ended, so General Darté had many things to deal with. After staying for some time in the infirmary, he also left.

Wendell furrowed his brows as he stood in the corner. He gritted his teeth, and his gaze turned sharp.

Wang Teng, it’s you again!

Wendell screamed in his heart. He forcefully suppressed the urge to kill Wang Teng now. Then, he operated his wristwatch and sent a message.

There was only one word in the message: Kill!

Chapter 1233 I’m Too Charismatic! (1)

In the center of the main base of the No. 29 Defense Planet, there was a hall in a metal building. Martial warriors who were at least major generals were gathered there in their uniforms.

They were of various ages, including males and females. All of them were calm without any emotion on their faces.

These people were the important figures of the No. 29 Defense Planet.

“Everyone!”

A voice was suddenly heard from the main seat. General Cameron was seated there as his gaze swept around indifferently.

Everyone's attention was on him.

"The dark apparitions' invasion came very suddenly. Although we were prepared for it, the result is still... not optimistic." General Cameron paused a little before continuing, "The 9th, 13th, and 17th frontlines have fallen!"

The listeners' expressions underwent a huge change.

After getting the status of each frontline, the results were made known to General Cameron firsthand. But the others didn't know it yet. The shock in their hearts was indescribable when they heard such bad news.

Having three frontlines fall at once was something that had never happened since a decade ago. Was an all-out war going to break out again?

Whenever such a situation occurred, it was a premonition of an all-out war.

Everyone's expression was grave, and the atmosphere of the command hall became solemn.

"Besides that, six frontlines suffered severe damage and heavy losses." General Cameron threw another bomb at them.

They had already prepared for the worst, but they were still shocked by the news.

"What is happening?"

"Are these dark apparitions crazy?"

"Are all the frontline commanders useless? We suffered such a huge loss."

"We have to mobilize troops to recover the fallen frontlines. We cannot let the dark apparitions occupy those three areas. Otherwise, it will be a huge threat to us."

...

They couldn't sit still. They were startled and angry, and a heated discussion broke out.

Knock, knock!

General Cameron frowned and knocked on the table. Everyone slowly quietened down.

"The frontlines must be recovered, but how do we do it? Who do we send?" General Cameron asked.

"If it were up to me, I'd send the strongest squads and recover the frontlines with the force of a thunderbolt. It can also serve as a deterrent and boost everyone's morale," a middle-aged lieutenant general said.

"I agree with General Qi Yuanju. We shouldn't go easy on these dark apparitions, or they will think we are easy to bully."

"Yes, that's how it should be. Give the dark apparitions a blow!"

“Not bad, I agree too.”

...

General Qi Yuanju’s words were affirmed by everyone. None of these generals were cowards, and all of them were unyielding. If the dark apparitions attacked them, they would strike back.

“Alright, let’s choose three squads that are the most suitable,” General Cameron said.

“It goes without saying that the Red Scorpion, Tiger Strike Force, and Raging Bear squads should go,” General Qi Yuanju said.

“Okay.” General Cameron pondered for a moment and nodded.

“But the commander of the Tiger Strike Force is going to be promoted and the new commander has not been decided. It doesn’t seem like a good time to send the Tiger Strike Force when things are changing.” An elder had doubts.

“If you want to be the Tiger Strike Force’s commander, you need to have a certain strength and ability. Recovering the frontlines is just the right experience.” A female major general laughed.

“That’s not a bad idea.” The elder nodded.

“Then who do we choose as the new commander?” General Qi Yuanju asked.

“This is why I called you here today,” General Cameron said. “Now, based on the recommendations, there are three suitable candidates. Take a look.”

As soon as he finished speaking, a screen emerged above the long table. There were three portraits on the screen, and their detailed resumes could be seen as well.

“Wendell, he has executed 3,678 missions with a success rate of over 85%. Be it experience or reputation, he has both.

“And there’s Tiger Strike Force’s vice-commander Huo Qiya, who has executed 3,423 missions with a success rate of over 85%. On top of that, he cooperated well with the commander and is very familiar with the Tiger Strike Force during his time as its vice commander.

“We are not surprised by the first two candidates, but the last one...”

After everyone read all the information, they frowned as their eyes landed on the last candidate.

This was a newcomer!

Moreover, there were only three missions on his resume, with little to no detail about them!

How could such a person appear on the list of candidates for the Tiger Strike Force’s commander? Was he someone who got in through the back door?

Amongst the people present, a cold light flashed in an elder’s eyes when he saw Wang Teng’s portrait.

This was the Parkers family representative for the No. 29 Defense Planet— Crofts, a heaven-stage martial warrior.

He was the person behind recommending Wendell for the position.

He wanted Wendell to be Tiger Strike Force's commander so that he could increase the family's influence on the No. 29 Defense Planet.

Chapter 1234 I'm Too Charismatic! (2)

He didn't expect to see Wang Teng's name here as Wendell's competitor.

This brat arrived at the No. 29 Defense Planet not long ago and only completed a few missions. What right did he have to compete for the commander position? Who recommended him?

Fortunately, everyone was questioning his ability. He heaved a sigh of relief.

There was no point in recommending him if no one felt that he was qualified for the position. He would be filtered out in the end.

To him, Wang Teng's appearance was just for show. A cold smile appeared at the edge of Crofts's lips.

"Nonsense!" General Qi Yuanju shouted, "This is nonsense. He has only executed three missions. How can he be the commander of the Tiger Strike Force? You're putting the Tiger Strike Force in danger."

"That's right, this is unreasonable."

"He's incompetent!"

"How can a newbie be the commander of the Tiger Strike Force? Which idiot recommended him?"

...

"I did!" General Cameron's face turned black. He had anticipated their intense reaction, but he didn't expect them to scold him.

"Erm..."

The noises stopped abruptly. Everyone stared at General Cameron in a daze. Their minds couldn't react in time.

General Cameron was the idiot?

Pfft, how was he an idiot? There must be some misunderstanding.

Crofts was flabbergasted as well. His pupils constricted. This was out of his imagination. Was there a relationship between the two?

Why did General Cameron recommend a newbie for no reason? As an experienced general, this wasn't his way of doing things.

Many thoughts flashed through his mind. He had an ominous feeling.

General Cameron was the commanding general of the No. 29 Defense Planet. With his recommendation, Wang Teng's odds would increase tremendously.

“General Cameron, I’m not talking about you. Please listen to my excuse—I mean, my explanation.” The major general’s face turned green. He looked at General Cameron carefully and tried to reclaim himself.

The other people gloated as they watched him.

Why did you have to be so straightforward? Look, you’re suffering the implications now.

General Qi Yuanju continued in embarrassment, “Erm... General Cameron, why did you choose Wang Teng?”

“Please take a look at the results of the three missions.” General Cameron shook his head and tapped the screen in front of him lightly.

More information about Wang Teng appeared below his profile picture. The details of his missions were revealed too.

It wasn’t appropriate to release these details, but he had to show some real battle exploits to convince the rest. That was why he released the information.

“Brought back the devil ovum!”

“Captured a devil mind dark apparition!”

“Killed a mid-tier devil emperor and saved the third frontline with minimum cost.”

...

Everyone’s expression changed as they read the new information. They were astounded and found it a little hard to believe.

The results of the missions were written clearly. He brought back a devil ovum on his first mission!

A devil ovum!

Did they see it correctly?

Everyone knew what a devil ovum was. Its appearance meant a life-or-death crisis for the entire planet. Yet Wang Teng managed to silently solve this catastrophe.

The problem was, how did he bring the devil ovum back? Didn’t he get enchanted or corrupted?

As for the devil mind dark apparition, it was stated that this was a strange and mysterious dark apparition race. They could take over the minds of various living creatures and had been haunting humans for a long time. Nonetheless, Wang Teng captured one, and research was being carried out.

This was undoubtedly a huge military contribution.

Finally, he helped General Darte of the third frontline to kill a mid-tier devil emperor, protecting the frontline with only a small price paid.

It was unbelievable that a celestial-stage martial warrior could kill a mid-tier devil emperor!

They had to admit that after these three missions, Wang Teng had enough reputation in the military. There was no doubt about his capabilities.

“General Cameron, is this true?” General Qi Yuanju asked in disbelief.

The others looked over simultaneously. They couldn’t believe that one person had all these achievements under his belt.

“I won’t ruin my reputation by making these up,” General Cameron replied calmly.

General Qi Yuanju took a deep breath and rubbed his forehead. “This is unimaginable.”

Crofts’s face turned black. Wang Teng exceeded his expectations again. Things were moving in a direction he couldn’t control.

This infuriated him.

He thought that he could control Wang Teng easily once he came to the defense planet because he was just a celestial-stage martial warrior with no background. Who would have thought that he already made so many great achievements secretly?

But he managed to conceal his emotions well. “General Cameron, I have a question. Can you help to clear my doubt?”

General Cameron glanced at him with a sharp gaze. He nodded and said, “Please say it.”

“How did Wang Teng bring the devil ovum back? Based on what I know, an ordinary person can’t resist its enchantment,” Crofts said with a smile. “I have no other intention. I just want to be safe.”

Chapter 1235 I’m Too Charismatic! (3)

Everyone present was smart. They knew that he didn’t want Wang Teng to be the regiment commander.

They knew that Croft belonged to the Parkers, just like Wendell. It seemed like he wanted to help Wendell.

However, pulling Wang Teng out of the picture for Wendell’s sake wasn’t his only intention. The majority of the people present didn’t know about the feud between Wang Teng and the Parkers. They never thought that Croft’s real intention was to end Wang Teng’s military journey.

General Cameron glanced at him again and replied indifferently, “I was concerned too, so I brought him to Mr. Veblen for inspection the moment he came back. There’s no problem with him.”

“Mr. Veblen inspected him?”

“Looks like we were worried for nothing!”

Everyone was stunned. No one had any more concerns upon learning that Mr. Veblen had completed an inspection of Wang Teng. They nodded in deep thought.

General Cameron continued, “As for how he brought it back, he has his own methods. I can’t reveal them.

“However, I can tell you that Major Wang Teng is a light-element martial warrior. I heard that he knows a light Force treatment too. General Darte received a lot of help from him and is full of praise for him.”

A smile appeared on General Cameron's face as he spoke. He was delighted with Wang Teng's performance. If not, he wouldn't have recommended him for the regimental commander's position.

"Light element martial warrior!"

"He knows light Force treatment?"

"Darte is lucky. No wonder he praised Wang Teng so much. So that's the reason."

"Good riddance, I think Major Wang Teng is extremely suitable to be the commander of the Tiger Strike Force!"

...

Everyone's attitude changed when they heard that Wang Teng was a light-element martial warrior. They wished they could befriend him immediately.

They didn't care who the regimental commander of the Tiger Strike Force was as long as he had the capabilities. Looking at Wang Teng's portfolio, he was quite powerful.

Wendell and Huo Qiya might not have been able to assist General Darte in killing a mid-tier devil emperor.

General Cameron felt speechless.

Their attitudes changed like the flip of a book!

Crofts was dumbfounded. He felt that he just dug a hole for himself. His aim was to pull Wang Teng down, but he helped him instead. He felt like vomiting blood out of frustration.

"Since no one has any objections, Wang Teng will be the next commander of the Tiger Strike Force," General Cameron said.

"Wait!" Crofts shouted hurriedly.

"What is it? Do you have any questions?"

"We haven't witnessed Wang Teng's strength personally. Why don't we let the three of them have a battle after he comes back?"

"Why? Major Wang Teng can kill a mid-tier devil emperor. We have no doubts about his ability," General Qi Yuanju said.

The others agreed.

Crofts was exasperated. F**k, this isn't what y'all said just now.

"That's a good suggestion." General Cameron gave him an ambiguous gaze and nodded. "Let them have a battle."

Crofts remained expressionless, but he was smirking in his heart. If that brat didn't come back, there wouldn't be a need for a battle.

...

Wang Teng didn't know what was happening in the main base. He was on his way back.

Everyone was in a good mood. They were still immersed in the happiness of winning the war.

"Boss, you've made many contributions this time. You will be promoted to colonel soon, right?" Arwen looked at Wang Teng, who was beside him, and asked.

"Who knows?"

"Our boss is so powerful. He'll definitely be promoted. It will be a waste of talent if he isn't," Xiong Daqi said honestly.

"If Boss is promoted, will our team be disbanded?" Arwen asked suddenly.

Everyone turned quiet.

This was an apparent question. If Wang Teng was promoted, he would have other subordinates. The team would be disbanded and distributed to different teams.

Even if Wang Teng treasured their relationship, he could only keep a few of them. He wouldn't keep the entire team.

Peggy's expression changed.

She had ignored this question completely. Wang Teng was accumulating military contributions at an amazing speed, and this time, his achievement was even more impressive. He would most likely be promoted, but their team couldn't catch up with his speed.

Her gaze turned dim. She lowered her head so that others couldn't see her expression.

"Don't think too much. Nothing is confirmed yet. I'm still a newbie, so I might not be promoted." Wang Teng broke the silence.

He didn't imagine that his subordinates would miss him.

Indeed, I'm too charismatic!

Di Qi glanced at Wang Teng silently.

He knew that separation was inevitable.

Every martial warrior hoped to follow a leader like Wang Teng because they could gain many benefits under him. However, they had to be worthy too.

People with no value wouldn't get the opportunity even if it was laid right in front of them.

"Major Wang Teng is right; let's not think too much. Who knows what will happen in the future?" Peggy was enlightened after hearing Wang Teng's words. Her sorrow disappeared instantly.

She didn't know what would happen to the others, but she was Wang Teng's adjutant. There was a high chance he would bring her along.

Chapter 1236 I'm Too Charismatic! (4)

Brothers, I'm sorry!

Women are selfish.

Peggy consoled herself.

Boom!

Just when the others wanted to speak, the battlecraft suddenly trembled.

"What happened?" Peggy's expression changed. Everyone shot to their feet and took out their weapons.

Was it a dark apparitions attack?

"Round Ball, what's the matter?" Wang Teng asked in his mind. He frowned.

"Someone's attacking us."

"Not dark apparitions?" Wang Teng raised his eyebrows.

"Yes, not dark Force. It should be human martial warriors."

"Hmph." Wang Teng snorted. He stood up without any expression on his face and said, "Let's see who on this No. 29 Defense Planet can't wait to kill me."

He asked Round Ball to open the cabin door and flew out.

Peggy and the others couldn't just sit and watch, so they hurriedly followed him.

Outside, a group of martial warriors in battle armor was blocking their path. There were around 40 to 50 people.

They were in the wilderness with nothing around them. Without a soul in sight, this was a perfect place for an ambush.

These martial warriors weren't wearing mass-produced battle armor, so their faces were hidden.

"Who are you?" Wang Teng activated his Eyes of Essence to see their faces, but they were all strangers. He didn't recognize any of them.

"Someone who will kill you," a martial warrior replied coldly.

"How dare you!"

Arwen and the others were infuriated. These people popped out of nowhere and said they wanted to kill Wang Teng. Were they looking down on them?

"Attack!"

The other party wasted no time. The leader waved his hand and released his cultivation power at the peak of the cosmos stage. He charged toward Wang Teng.

"Kill!"

His subordinates also released a sharp killing intent and followed him closely.

The majority of the martial warriors were at the peak of the celestial stage. Besides the leader who was at the peak of the cosmos stage, there were two other cosmos-stage martial warriors hiding in the crowd.

“Three martial warriors at the peak of the cosmos stage. Thanks for thinking so highly of me!” Wang Teng scoffed.

It looked like these people had an accurate grasp of his combat prowess!

Although he could kill a heaven-stage martial warrior, he relied on external forces. For instance, someone else would beat the heaven-stage martial warrior up badly before he sneaked an attack and finished him.

In summary, he had some difficulty when dealing with heaven-stage martial warriors.

That also meant that he didn't have the ability to kill a heaven-stage martial warrior personally.

The ability of three martial warriors at the peak of the cosmos stage was extremely close to that of a heaven-stage martial warrior. They should be enough to deal with Wang Teng.

Boom!

The leader arrived in front of Wang Teng within a split second. He held his blade and slashed it down. The blade glow came slamming down with the fire element ultima.

Boom!

Wang Teng remained calm. There was no fear on his face. A sword appeared in his hand, and he released his water element ultima.

Swoosh!

The sound of water rose behind Wang Teng. Numerous towering waves tossed and turned behind him while blue sword glows intertwined and crashed towards the blade glow.

Ultima·Thousand Crashing Ripples!

Eighth-level!

Wang Teng had collected many ultima attributes in the battle, so his water ultima rose to the eighth level. It was many times more powerful than before.

Boom!

Both parties collided, creating a loud explosion.

The waves powered up the blue sword glow, and it crashed into the blade glow again and again as if there was no end to it.

Suddenly, the blade glow, which contained the fire ultima, shattered. It was destroyed by the sword glow.

“How is that possible?” The leader's expression changed. He was appalled.

He realized that his opponent could curb his fire ultima. Mind you, his fire ultima was at the seventh level. It was powerful even among the cosmos-stage martial warriors.

Was his opponent's water ultima stronger than his fire ultima?

Come on, this fellow was just a celestial-stage martial warrior.

"Tell me who sent you and I will let you die a quicker death," Wang Teng said indifferently. He raised his sword and pointed at his enemy.

"What did you say!" The leader was enraged.

Chapter 1237 Shameless!

"What did you say!" The leader was enraged. His gaze turned sharp.

Let him die a quicker death?

He was just a celestial-stage martial warrior. Where did he get the courage to say such words?

He was belittling them. Every cosmos-stage martial warrior had their own pride, including him. Wang Teng might be a powerful and talented martial warrior, but he wasn't afraid.

"Looks like I'll have to capture you to question you." Wang Teng shook his head.

"You're looking for death!"

Killing intent shot out of the martial warrior's eyes. He remembered something and snorted.

"Brat, you took some effort to execute the tornado attack on the battlefield, right? With your current celestial-stage ability, one execution is your maximum. I'm sure that you've exhausted much of your power and you're just putting on a strong front."

He gave an "I see through you" expression.

Wang Teng's expression changed, but it only lasted for a split second before he resumed his composure.

"Hahaha... you're indeed a paper tiger." The martial warrior laughed.

"Looks like you did your research. That means that y'all were at the third frontline and saw everything. My only enemy there is Wendell. You must be a part of the Parkers family."

Wang Teng voiced out his guess expressionlessly.

"So what if you know? You're going to die anyway." The martial warrior stopped laughing abruptly. He didn't think that Wang Teng would guess everything correctly. He stared at him sharply.

"Aren't you afraid of getting found out? The military won't let you go if they learn that you attacked a military martial warrior who's just earned military exploits," Wang Teng said.

"Hmph, stop struggling. We made ample preparations to kill you. We placed signal disruption devices around this area, so no one will know what's happening here. After we kill you, we'll leave the No. 29 Defense Planet. No one will be able to find us." The leader sneered.

“As expected, you came prepared.” Wang Teng nodded in deep thought. Then, he suddenly asked, “Oh, have you heard of this sentence?”

“What?” The leader frowned.

“The antagonist dies from talking too much, you idiot.” Wang Teng laughed.

The leader’s face turned black. He felt humiliated. He finally knew that Wang Teng was playing with him.

“Die!”

The leader roared in anger and disappeared on the spot. He turned into a beam of light charging at Wang Teng.

Boom!

The crimson-red flames circled his body. Blade glow cut through the sky and the power of ultima exploded. He slashed the flaming blade glow at Wang Teng.

Wang Teng remained quiet. Streams of water twirled around his sword. He released his water ultima to its maximum and welcomed his opponent’s attack.

Boom, boom, boom...

Explosions resounded in the sky. The impact of the clash of Forces blasted holes of different sizes into the ground.

Di Qi, Peggy, and the other members of the team were held back. They couldn’t reinforce Wang Teng.

These martial warriors only wanted to kill Wang Teng. As for the rest, they just tried their best to hold them back. That would make things easier.

Di Qi was injured and had expended much of his energy on the battlefield. He could only release a small fraction of his true power. He wasn’t a bug like Wang Teng, so he couldn’t recover immediately.

“Move!”

Di Qi bellowed in anger. A green glow gathered on his sword as he tried to force his opponent back. However, the other party didn’t engage him head-on. He evaded all the lethal attacks and came back instantly to block him.

Di Qi wanted to help Wang Teng, but he couldn’t. The celestial-stage martial warriors held him back successfully.

Some distance away, behind a huge rock, Wendell was wearing armor and staring at the battle in the sky. There was a smirk at the edge of his lips. “Let me see how you escape this time.”

...

Wang Teng and the leader were having a heated battle in the sky. They turned into two balls of light, one blue and one red, and collided fervently, setting off loud explosions.

The longer they fought, the more flabbergasted the leader was. He only understood how powerful Wang Teng was after sharing blows with him. Despite being a celestial-stage martial warrior, his ability was astonishing. It was unbelievable.

He realized that he had underestimated Wang Teng. One shouldn't judge this fellow using common sense.

But he still didn't think that Wang Teng could defeat him. Besides, he was just a paper tiger now. He was probably forcing himself.

"Let's see how long you can last!" The leader shouted and increased the intensity of his attacks.

Wang Teng realized that he couldn't win against his opponent with his water element alone. A few hundred rounds were his maximum.

He needed to use other Forces.

Dragon Blood Battle Physique!

Boom!

Wang Teng bellowed in his heart. Three kinds of flame exploded inside him.

They weren't divine flames. They were the three beast flames from the Parkers.

Furious Scorching Beast!

Star Phoenix Flame!

Ocean Whale Flame!

The three flames of different colors spiraled around him, turning into different fire patterns. One looked like a raging beast in flames, the other was a crimson-red flame that looked like a peacock spreading its feathers, and the last one was a blue giant whale flame pattern.

He wanted to see how powerful he could be if he just used the beast flames.

The three different patterns appeared on his skin, strengthening his physique and making him appear divine.

The leader squinted.

Fire Force!

How many elements did he have?

He had used light Force and wind Force during the war. Now, he showed his fire Force and water Force. That was four Forces.

"What is this?"

Wendell intently stared at the flame patterns on Wang Teng's body.

They looked extremely familiar. He could recognize the execution of this battle technique and the three flame patterns. They were similar to his family's Dragon Blood Battle Physique!

"Come on!" Wang Teng shouted. He swung his fist and punched it out.

The flames turned into a fist mark. He secretly instilled some Strength of Ultima inside, so it wasn't just scorching. It was filled with strength too.

Bang!

One punch was enough for the leader to know how hard Wang Teng was to deal with. This attack was even more powerful than the water element ultima.

How unlucky of me!

The leader was thrown back by a single punch. His expression turned ugly.

"Is this all you have?" Wang Teng turned his wrist, making a cracking smile. Then, he gave his opponent a smirk.

"It's too early to be proud!" A cold glint flashed past the leader's eyes. He charged forward again.

Boom, boom, boom...

The two parties smashed into each other once more. The attacks went to and fro. No one seemed to be at an advantage.

How can he last so long? The leader was puzzled. He could feel his Forces depleting slowly. His expression turned hideous.

Wasn't he supposed to be exhausted?

He felt that he got... tricked!

Boom!

Boom!

At this moment, two loud explosions sounded behind Wang Teng. A powerful force smashed over, bringing with it the scorching heat of the fire element.

They were like two volcanoes.

"Be careful!" Di Qi's shout came a second after.

Wang Teng saw the sly smile on the martial warrior's face.

Although he was wearing armor that covered his face, Wang Teng could see the smile through his Eyes of Essence.

Boom!

The next instant, two terrifying attacks landed on Wang Teng. The fire Force turned into flames and ate him up.

“Wang Teng!”

Di Qi and Peggy squinted. They clenched their fists uncontrollably.

Wang Teng just came back from the battlefield, so he was at his weakest. If he got hit, the consequences would be unbearable.

Suddenly, two powerful auras shot into the sky within the group of celestial-stage martial warriors. They exceeded the limit of the celestial stage.

“Two martial warriors at the peak of the cosmos stage!” Di Qi’s expression changed. He was astounded.

Two more cosmos-stage martial warriors had suddenly appeared. They were hiding among the celestial-stage martial warriors so that they could ambush Wang Teng.

No one expected this change. How could cosmos-stage martial warriors be this shameless?

Why did they have to ambush a celestial-stage martial warrior? Shouldn’t they be ashamed of themselves?

Chapter 1238 This Fellow Is A Devil Dressed In Human Skin!

“Dragon Seventeen, you’re too weak. You can’t even handle a celestial-stage martial warrior.”

“You’re lucky we are here together this time. Otherwise, you wouldn’t be able to complete your mission.”

The two cosmos-stage martial warriors flew over from the crowd.

“Hmph!” The martial warrior known as ‘Dragon Seventeen’ scoffed and frowned, “If you’re so capable, go and fight with him alone. Being wise after the fact doesn’t make you capable.”

“If it was up to us, we wouldn’t need you.” One of them chuckled.

“Dragon Fifteen, this brat is shockingly strong. You really think you can handle him alone? How naive,” Dragon Seventeen said coldly.

“He’s just a celestial-stage martial warrior. You are taking him too seriously.” Dragon Fifteen shook his head disdainfully and looked at the other person beside him. “Dragon Fourteen, if it was you, only a few moves would have sealed the deal.”

“Around ten moves. He’s still a bit strong.” Dragon Fourteen was proud of himself.

“See, Dragon Fourteen agrees with me.” Dragon Fifteen chuckled and squeezed him. “It means you’re really lousy.”

“You!” Dragon Seventeen was furious.

If he had known earlier, he would have let them go first. Now that the fight was over, they were here being sarcastic.

In the end, they only wanted to squeeze him out so that they could share the credit among themselves.

Wang Teng was considered a great bounty in the Parkers family. Even the Furious Flaming Universe Lord and Flaming Phoenix Universe Lord said it themselves that anyone who could kill him would be greatly rewarded.

Otherwise, they wouldn't have taken the risk to come to the No. 29 Defense Planet to cooperate with Crofts and kill Wang Teng.

Now that Wang Teng had died, they decided to share the spoils.

Dragon Fourteen and Dragon Fifteen had apparently reached a consensus to reduce Dragon Seventeen's contribution in the mission. This way, the two of them could get a greater portion of the reward.

The three of them didn't care about the surroundings when they were talking. Peggy and the others heard their conversation. They wanted to rush up and fight them to death.

However, there were many celestial-stage martial warriors around them that held them back. They couldn't get away from them.

"Dragon Fourteen, Dragon Fifteen, Dragon Seventeen!" Di Qi frowned. His mind spun quickly. He seemed to have heard such a title somewhere before.

Oh right!

The Parkers family!

They had a mysterious and powerful martial warrior squad, which seemed to be named after dragons.

Every squad member was powerful and had seen their fair share of blood. They were definitely not to be compared with ordinary martial warriors.

As a descendant of the Cavendish family, he had naturally heard of some inside stories. In fact, every family had a similar squad that would usually do some secretive things in the dark.

Di Qi's expression was grim. The Parkers family was too shameless. They even sent someone to kill him after he arrived at the No. 29 Defense Planet.

Generally speaking, no matter what hatred or grievance, they wouldn't be brought to the defense planets. They were a place to fight against dark apparitions. All grievances would be resolved after leaving the defense planet.

However, the Parkers didn't care about that at all. They did whatever they wanted to and didn't take such unspoken rules seriously.

Swoosh!

At this moment, a strange energy suddenly radiated into the surroundings and enveloped everyone in it. The sky and the earth disappeared, replaced by a strange dark yellow area.

Boulders were floating in the sky and even the ground was made of floating boulders, like a small piece of land.

"This is... a domain!!"

Dragon Fourteen and Dragon Fifteen looked like they had seen a ghost. Their voices raised by an octave involuntarily. It was like they had been castrated.

They couldn't care less about competing for rewards and looked around quickly.

Why was there suddenly a domain??

Did a heaven-stage martial warrior arrive?

If that were the case, their plan would fail, and their lives might even be in danger. The martial warriors from the military would never spare them.

Dragon Seventeen's face was also full of horror. He felt uncomfortable, and an ominous premonition emerged in his heart.

Few people had seen Wang Teng using his domain, which was why there wasn't any description of it in the Parkers family's report.

The three of them never imagined that Wang Teng, a celestial-stage martial warrior, could master a domain.

But Peggy and the others recognized this domain. When Wang Teng snatched the devil ovum, he used it to stop the dark apparitions.

So they knew that this was Wang Teng's domain!

Boom!

Just when all kinds of thoughts were appearing in everyone's minds, huge boulders fell from the sky with terrifying force, smashing fiercely at Dragon Fourteen and the others.

Their pupils shrank as they tried their best to resist and launch attacks repeatedly, trying to smash the boulders into pieces.

But there were too many boulders. They smashed a few of them, but the boulders on the sides had already reached them. They couldn't react in time.

Boom! Boom! Boom!

The boulders struck the martial warriors who were wearing armor. Even Dragon Fourteen and the others couldn't avoid it and were constantly hit.

On the other hand, Peggy and the others stood there without moving. The boulders seemed to have eyes and avoided them.

They heaved a sigh of relief. Although they knew that this was Wang Teng's domain, there were so many boulders raining down. Even people with firm minds like them would feel a tingle in their scalps.

It looked like an indiscriminate attack. What if it struck them?

Their small bodies couldn't stand such an impact. Fortunately, that didn't happen and the boulders avoided them.

It seemed like the wonders of the domain were beyond their imagination. It was impossible to understand the mysteries of the domain without truly mastering it.

Di Qi looked at their expressions and couldn't help but ask, "You guys don't seem to be worried at all?"

"This is Major Wang Teng's domain. Don't you know?" Peggy asked.

"I know... My foot!" Di Qi was a little dazed. Wang Teng had never told him about any domains.

Wait!

Damn, he actually comprehended a domain!

Di Qi reacted abruptly. His mind was in shambles and a mess. Was this fellow even a celestial-stage martial warrior?

A celestial-stage martial warrior with an enlightened domain. Are you kidding me?

"I don't know which senior is here. Is there a misunderstanding?" Dragon Fifteen couldn't fight back against the barrage of boulders. He was in a pitiful state and hurriedly shouted.

The person controlling the domain hadn't appeared. They didn't know who was attacking them.

Dragon Fifteen was helpless. If he kept silent, he felt that they would be crushed to death.

The one facing them was a heaven-stage martial warrior. Now that they were trapped in the domain, they were like sitting ducks. Escaping here was very, very difficult.

If they didn't admit it, they would probably die.

"Misunderstanding?" A voice came from above with a hint of mockery. "You wanted to kill me just now. This shouldn't be a misunderstanding!"

Why was this voice so familiar?

Dragon Fifteen was stunned.

It felt like something bad was going to happen.

Dragon Fourteen and Dragon Seventeen looked up one after another only to see a figure gradually emerging from a boulder. It was indeed Wang Teng.

"You! You! You!"

Dragon Fifteen's eyes widened as if he had seen something unbelievable. He couldn't say anything else except for 'you.'

This bastard wasn't dead!

He even used his domain and trapped them here.

"Impossible!" Dragon Fourteen couldn't believe his eyes.

He earlier claimed that he could deal with Wang Teng in ten moves. Now, he appeared in front of him like this.

It was full of drama.

“Did you say that you could finish me off with ten moves?” Wang Teng looked at Dragon Fourteen.

Dragon Fourteen’s expression froze.

Slap!

His face was slapped randomly.

The face hurt a bit.

Ten moves?

Damn it. If he knew Wang Teng had a domain, he wouldn’t have boasted. He couldn’t win against a martial warrior who used a domain. Not even with a thousand moves.

“How is it possible for you to have a domain?” Dragon Fourteen stared at Wang Teng, trying to see flaws in his expression.

“I’m sorry. I really have it. It won’t do you any good if you don’t believe it,” Wang Teng said calmly.

“I...” Dragon Fourteen wanted to swear.

“Oh right, I went to catch someone just now. Let’s see who it is.”

Wang Teng stretched out his hand. A figure flew from behind and landed in front of them.

The person looked miserable with a bruised nose and swollen face. It was like he had just been tortured.

“Wendell!”

“It’s him!”

Although the face was swollen, Peggy and the others could still recognize him. That person turned out to be Wendell.

When Dragon Fourteen and the others saw Wendell, their expressions changed.

Damn it!

Wasn’t Wendell hiding in the distance? How was he caught?

“Are you surprised? Are you shocked?” Wang Teng looked at them with a smile.

This person was indeed Wendell. He was hiding in the distance and thought that Wang Teng didn’t see him. In the end, he was sneaked upon and captured.

Wendell was clearly not as powerful as the three martial warriors who were at the peak of the cosmos stage. Besides, he never expected Wang Teng to find him and even have the time to deal with him. That was why he was caught easily without any precautions.

Dragon Fourteen and the others: Surprised? Shocked?

Why was this brat’s personality so vile?

When they looked at his face, they didn't know why but they wanted to hit him badly.

"Wang Teng, let me go!" Wendell had not fainted yet. Getting stepped on by Wang Teng, he felt extremely humiliated and struggled desperately.

"You were caught by me, someone with poor strength. Why should I let you go?"

Wendell was taken aback. Then, he reacted immediately.

What do you mean by that?

This bastard basically called him a piece of trash.

Di Qi, Peggy, and the others laughed uncontrollably. Wang Teng was such a prankster. He never missed a chance to humiliate Wendell.

"Hahaha, Wendell, you're really capable." Di Qi laughed loudly.

Wendell's entire face darkened as he roared angrily. "Wang Teng, I want you to die."

Wang Teng had a warm smile on his face, but a cold light flashed in his eyes. He then stomped down hard on Wendell's face.

Bang!

A huge force slammed down on Wendell's head, deforming it. The boulder below shattered open with his head inside.

"Ah~" Wendell let out a painful howl.

"You should be obedient after getting caught. Let me teach you a little lesson."

Dragon Fourteen and the others' mouths were twitching.

This fellow is so ruthless!

He just stomped on him when he didn't see eye to eye with him. He didn't take Wendell seriously at all.

They were after all members of the Parkers family. Did this guy really have no qualms about treating Wendell in such a manner?

"Wang! Teng!" Wendell wasn't a coward either. Being trampled on, the shame in his heart was about to explode. He had never been treated like this before. His eyes were red, and he growled like a wounded beast.

"Looks like you haven't understood the situation." Wang Teng lifted his feet and stomped fiercely.

Bang!

Just as Wendell was trying to break free, he was squashed into the hole again.

But Wang Teng didn't stop. He raised his foot again, then stomped him. Again, and again, and again... After repeating this more than ten times, he finally stopped.

"I finally feel better." Wang Teng let out a breath slowly and looked down at the unrecognizable Wendell. "By the way, what were you trying to say just now? You can continue."

Everyone: ...

This fellow is a devil dressed in human skin!

Chapter 1239 Battle Of Ultima!

Within the Meteorite Shower Domain, Wang Teng stood on top of a rock. There was a strange human-looking thing beside him.

The thing's head was buried in the rock while its arms were trembling. It seemed to be struggling frantically, trying to pluck its head out of the rock.

However... the head was buried quite deep. This person seemed heavily injured, so he couldn't pull his head out.

Everyone felt the muscles on their face twitching when they saw this scene.

Especially Di Qi and Peggy. They felt their blood turning a little cold and their heads a little numb.

This was... vicious!

No human would be so ruthless.

They felt this way even though they were Wang Teng's companions. One could imagine what Dragon Fourteen and the others were thinking.

They felt like the victims instead. To hell with an assassination!

Who was the one being assassinated here?

Weren't they supposed to be the assassins? Why did they have to suffer such inhuman treatment?

Also, Wendell was useless. He got caught without any warning. If Wang Teng didn't take him out to tease them, they wouldn't even know he was captured.

Crack!

A clear sound was heard suddenly. Wendell finally pulled his head out of the hole.

His face had gotten more swollen. There was only a line left for his eyes.

He raised his head and looked at Wang Teng. His body was trembling, in fear or anger, as he stuttered. "Let, let me go!"

"Why should I?"

"You'll die if you kill me," Wendell swallowed the humiliation and replied.

"Are you saying I can't resist? You can kill me, but I can't do the same?" Wang Teng snorted in anger. He stared at Wendell indifferently.

"I—" Wendell wanted to retort.

“Alright, stay where you are. I’ll take care of you later.” Wang Teng didn’t give Wendell any chance to speak. He stepped Wendell’s head into the stone crack again.

He then looked at the assassins below and asked calmly, “Are y’all going to surrender or do you want me to beat you until you surrender?”

Dragon Fourteen and the others frowned. They felt humiliated by Wang Teng’s words.

Surrender or beat them until they surrender?

Was there a difference?

This fellow was looking down on them.

The three of them exchanged glances with one another. They threw away their disagreements and reached a consensus.

“Let’s break the domain together!”

“I don’t believe that the domain of a celestial-stage martial warrior will be that strong.”

Dragon Fourteen shouted in anger and darted into the sky. He released all the fire Force in his body and gathered it around his long spear.

This was Wang Teng’s Meteorite Shower Domain, so all the fire Force was blocked outside. He couldn’t use it. He could only use his own Force.

Dragon Seventeen and Dragon Fifteen acted simultaneously without any hesitation. Their survival was on the line, so they wouldn’t create trouble.

They were both fire-element martial warriors, so they released all their fire Force. It flowed relentlessly out of their bodies.

The three Forces gathered together and congregated on Dragon Fourteen’s long spear.

Wang Teng frowned slightly. They’re launching a joint attack!

The outline of a giant flaming lion formed around the long spear. It looked magnificent.

Roar!

The fire lion appeared life-like and real. It raised its head and roared into the sky.

“What is this?” Di Qi’s expression changed slightly. A tinge of astonishment flashed in his eyes as he noticed something. “Is this an ultima battle technique?”

“An ultima battle technique!” Wang Teng hurriedly searched through the memories of the Devouring Nihilism Beast and found relevant information.

Just as its name suggested, an ultima battle technique merged the power of the ultima inside.

Different from normal battle techniques, ultima battle techniques could only be executed after merging an ultima inside. It wasn’t as simple as how they instilled some of their ultima in their skills in the past. This was a real merger, the kind that could trigger a change in quality.

In summary, an ultima battle technique was a powerful skill born to release the full potential of an ultima.

This was Wang Teng's first time encountering an ultima battle technique.

Ultima battle techniques were rare. They were considered a type of secret skill, so there weren't many available on the market. They were only present in ancient legacies.

Besides, their execution was difficult. One needed long hours of practice and a deep understanding of their ultima to learn the ultima battle techniques.

It was hard to believe that his three opponents had grasped an ultima battle technique. But they were martial warriors from the Parkers, so it was reasonable that they had one.

Boom!

The Forces in their bodies merged into the gigantic flaming lion. Then, Dragon Fourteen merged the fire ultima into the lion and executed the real ultima battle technique.

In fact, Only Dragon Fourteen had learned the ultima battle technique, but it required a large volume of Force. Thus, the three of them had to cooperate.

Wang Teng looked down at his opponents grimly.

This ultima battle technique was indeed formidable. He felt a sense of threat from its powerful fluctuations.

Well... let's see if their ultima is stronger than my domain.

Wang Teng's eyes glistened. A fighting spirit burned in his heart.

He raised his finger.

Boom!

Numerous large rocks flew towards the center and started clumping together, turning into an enormous rock ball.

As its shadow cast on the ground, a terrifying pressure overwhelmed the surroundings and bore down on the people below.

Dragon Fourteen and his comrades paused involuntarily. Their pupils constricted.

This domain... seemed quite powerful!

It didn't look like the domain of a celestial-stage martial warrior.

How did this bastard manage to master it?

Their confidence wavered a little. Dragon Fourteen gritted his teeth, and his gaze turned ruthless.

This was a life-or-death situation. They had no other choice. They had to take the bet!

The three of them released their Forces even more frantically as if they wanted to exhaust all their energy. They wouldn't stop until they squeezed themselves dry.

Outside, their ultima battle technique would be even stronger.

But in this domain where the fire Force in their surroundings was blocked, they couldn't absorb more fire Force. As a result, they couldn't release the full potential of this technique.

This was the difference between a cosmos-stage martial warrior and a heaven-stage martial warrior. Just one domain was enough to suppress them.

Wang Teng might be a celestial-stage martial warrior, but with the domain, he was more powerful than any celestial-stage martial warrior.

Di Qi, Peggy, and the others felt the pressure from both parties' attacks and retreated uncontrollably.

They could sense that the battle techniques executed by the combatants were frightening. If they didn't withdraw, they might die or get heavily injured by the residual impact.

The martial warriors wearing armor retreated too. Many of them were injured by the large rocks and their armors were torn and tattered. They looked miserable. Only fear remained in their hearts as they stared at the gigantic rock above them.

Wang Teng was too powerful.

Why did they come to assassinate him? Would the three sirs be able to defeat him?

The giant rock in the sky grew larger and larger until it became a small planet. It gave off immense and terrifying pressure.

The flaming lion Dragon Fourteen and his comrades formed was expanding too. Fire crackled around the enormous lion. It was like the king of flames. An oppressive aura shot out from its lantern-sized eyes.

Dragon Fourteen and his comrades reached their limit. All the Forces in their bodies had been driven out. Their faces were pale and their gazes were resolute.

Roaring Flame Lion Spear!

Dragon Fourteen stabbed his spear out. The flaming lion roared as if it was alive and soared into the sky, shaking the heavens with its power.

The flaming giant lion bellowed. Scorching heat gushed towards Wang Teng as if attempting to burn everything.

Wang Teng's expression didn't change. He flung his hand down and the giant asteroid finally moved. It plummeted down with an oppressive momentum.

The enormous rock shot down like a small planet, leaving a long trail of yellow light behind it. It came fast and heavy. The air around it seemed to crack under the pressure too.

Boom!

The next instant, both parties collided.

Chapter 1240 The Loser Begs For Mercy. Wang Teng Came Up With An Amazing Scheme... (1)

Boom!

Explosions echoed in the entire domain.

The enormous flaming tiger slammed into the asteroid. A sharp spear glow could be seen faintly in the flaming lion.

Di Qi and the others looked up without blinking. They were extremely nervous.

The combined ultimate battle skill of the three martial warriors was frighteningly powerful. It was able to resist Wang Teng's domain power. This was unbelievable.

Crack!

A clear breaking sound broke the nervous atmosphere. Then, fissures started to appear on the asteroid like spiderwebs. They started to spread.

Di Qi's expression changed. He was flabbergasted.

Was it going to break?

Dragon Fourteen and his comrades were elated. They stared intently at the giant rock above.

"Smash it!" They screamed in anger.

This was their only hope. If they couldn't destroy Wang Teng's domain, they wouldn't be able to run away. Death would be their only option.

Roar!

The flaming lion received hope and anguish from the three martial warriors. It roared and released all its fire force. Then, it flung its head and threw itself at the enormous rock again.

The spear glow stabbed into the giant rock inch by inch. More cracks appeared one by one.

Bang!

The next instant, the asteroid burst apart and shattered into countless broken rocks. They flew in all directions.

"Hahaha, Wang Teng, die!"

Dragon Fourteen laughed when he saw this scene. He pushed his long spear out.

Boom!

Following the destruction of the giant rock, the glow around the flaming lion dimmed and its power decreased. However, it still hurled toward Wang Teng at the same speed.

Dragon Fifteen and Dragon Seventeen clenched their fists. They were overjoyed.

"Wang Teng!" Di Qi and the others were agitated. However, they couldn't do anything and could only watch as the flaming lion charged toward Wang Teng.

Wang Teng lowered his head and stared at the flaming lion indifferently. There was a strange glimmer in his eyes.

The ultima battle technique was indeed quite powerful.

The flaming lion bellowed angrily and swallowed Wang Teng and the giant rock below him in one gulp.

Boom!

This attack seemed to be its last task. The flaming lion exploded as the spear glow in it stabbed at Wang Teng who was in the center.

The domain around them started collapsing.

Dragon Fourteen and the others smiled in relief.

Bang!

In the end, the Meteorite Shower Domain couldn't withstand the pressure anymore and shattered, disappearing in a sky of twinkles.

"Hahaha..." Dragon Fourteen laughed.

However, at this moment, a dazzling blue glow started to spread out from the center of the eruption.

The blue ball of light pushed back the flames forcefully and expanded.

The flames hissed and extinguished the moment they touched the blue ball of light.

"Domain!"

Dragon Fourteen and the others stared at the expanding blue light ball as if they had seen a ghost. Their voices turned high-pitched.

This was another domain!

How was this possible?

They weren't the only ones. Di Qi and the others were in disbelief too. Their minds went blank.

They stared at the domain absent-mindedly.

Swoosh!

Before their minds started working again, the blue ball of light expanded and engulfed the flames formed by the explosion of the flaming tiger. Then, everyone was encased in the domain again.

The scene around them changed. This time, there were no giant rocks surrounding them. They were surrounded by a blue world made with "water."

Balls of water scattered around them, floating in the air and giving off a magical and mystical feel. Even the sky and the ground seemed to be made of water.

No matter where everyone looked, they saw water. They felt as if they were at the bottom of the ocean.

“Welcome to my water domain!” Wang Teng appeared in the air, unscathed. He looked down calmly at his opponents.

“???”

They got pulled into another domain the instant they saw the sky again. The feeling of getting thrown into despair right after seeing hope almost broke them down.

“Why... do you have two domains?!” Dragon Fourteen’s voice was hoarse and his face was pale. He couldn’t accept this reality.

It was already astonishing enough for a celestial-stage martial warrior to have one domain. But Wang Teng had two.

This didn’t make sense!

Dragon Seventeen and Dragon Fifteen’s faces turned white. He stared at Wang Teng in a daze.

“It’s only two domains. Why are you so surprised?” Wang Teng remained cool as a cucumber.

These people were kicking up a fuss over nothing. He only showed two domains, yet they were already scared stiff. Would they pass away if he executed all his domains?

Oh right, how many domains do I have...

Wait, let me count. One, two, three, four, five... Wang Teng counted in his heart as he looked through his attributes panel.

Everyone: ...

They felt that he was boasting.

Boasting!

He was outrightly boasting!

What did he mean by only two domains?

Di Qi widened his eyes in disbelief.

Was he really a talent?

Why was Wang Teng able to have two domains at the celestial stage, but he didn’t have any when he was at the cosmos stage.
