

Martial Arts 211

Chapter 211: The Talent Technique Of The Gale Mantis King: Wave Invisibility

The speed of the Gale Mantis was hard to deal with, but in front of absolute power, it wasn't able to cause any harm.

Lin Zhan was a 4-star soldier-level martial warrior now. He didn't even need to use his full strength. He flung his battle axes out and chopped off the sickle-shaped limbs that were giving off a metallic glint.

Only this pair of sickle-shaped limbs that possessed attacking power was as hard as metal. Except for this, the other parts of the Gale Mantis were extremely soft. Lin Zhan slashed his battle axes again, and the sharp blades split the Gale Mantis into two.

When the green blood spurted out, he dodged out of the way.

Yan Jinming and his sister didn't have an easy and casual fight like Lin Zhan's, but they didn't have a problem handling a Gale Mantis. Very soon, they killed their Gale Mantis.

Ni Ya and the other dwarves exchanged glances with one another when they saw this. They were flabbergasted.

So powerful!

Lin Zhan's strength exceeded their expectation.

The next moment, Ni Ya was elated. The stronger Lin Zhan and his team were, the higher their chances of clearing the Gale Mantis.

"Leader, be careful of where you are chopping. The front limbs of the Gale Mantis are precious smithery ingredients. Don't destroy them," Liu Yan reminded him from behind.

Lin Zhan looked at the front limbs of the Gale Mantis that had been chopped into half. He laughed awkwardly and said, "Haha, I didn't notice it. I will keep them safe and sound next time."

"These are all money. Don't waste it." Liu Yan was still worried.

"Alright, alright."

When they charged into the field, they had already alerted the other ten Gale Mantis deeper in the field. They all flapped their wings and flew into the air, launching a combined assault.

A single or two Gale Mantis weren't hard to deal with. However, there were too many of them now. They were fast, and their sickle-shaped front limbs added an extra threat. If they stabbed the vital spots on their bodies, they would get a severe injury and might even die.

In an instant, Yan Jinming, his sister, and the dwarves felt pressurized.

Only Lin Zhan remained invincible. He waved his giant axes to the right and left, and many Gale Mantis corpses piled up below his feet.

Liu Yan focused on covering up Yan Jinming and his sister. She would fire a shot occasionally to force away the Gale Mantis that was attacking the two of them. Of course, she didn't forget to take care of

the dwarves. Even though there was some unhappiness between them a moment ago, this wasn't the time to settle the scores. The mission was the most important thing.

"Why aren't you moving?" As she pulled the trigger, she asked Wang Teng, who was still standing beside her.

"I want to wait and see," Wang Teng replied calmly.

Lin Zhan and the others were able to handle the situation for now. There were no dangers, so he focused his attention on finding the Gale Mantis King.

Liu Yan shrugged. She didn't continue talking. She believed that Wang Teng had his own plan.

As time passed, more and more Gale Mantis were killed by Lin Zhan and the others...

"Oh no, it's the Gale Mantis King!" On the other side, Ni Ya and Wa Ke suddenly screamed in astonishment while fighting with a Gale Mantis.

A Gale Mantis shot out from the depths of the weed-covered field. Its body was two times bigger than the normal Gale Mantis. It slashed its thicker and bigger sickle-shaped front limbs down on Ni Ya's head.

Ni Ya was small and dainty, so she was quick on her feet too. However, she was entangled in a fight with another Gale Mantis when this Gale Mantis King launched a surprise attack. It had caught her off guard, so she was unable to dodge.

"Ni Ya!" Wa Ke was so angry that his eyes popped out. He shouted loudly, but he was unable to free himself to save her.

You were hiding there? Why didn't I see you with my Spiritual Sight?

This question flashed across Wang Teng's mind. He held his sword in one hand and stabbed it out.

But... I have been waiting for you for a long time!

The sword glow slashed through the air. Although Wang Teng acted later, his attack arrived first. He cut the Gale Mantis King directly and killed it in one move. Its green blood spurted on Ni Ya and Wa Ke's faces.

Liu Yan turned her head to look at Wang Teng. Her face was filled with astonishment.

"This power... 4-star soldier level?!"

She was confused. Wasn't Wang Teng a 1-star soldier-level martial warrior? Although he had killed a 2-star soldier-level martial warrior before, that was a coincidence. But, just now, he slew a 3-star Gale Mantis King directly. When did he become so powerful?

Wang Teng smiled. He didn't explain himself. Instead, he looked at the corpse of the Gale Mantis King.

Ni Ya and Wa Ke were still in shock. They thought that they were doomed this time. They didn't expect Wang Teng to kill the Gale Mantis King with a single sword attack and save Ni Ya.

The other Gale Mantis was stunned by Wang Teng's sword glow. However, it reacted in time and started attacking Ni Ya and Wa Ke again.

“Bang!”

At this moment, a bullet penetrated its skull, and its head dropped from mid-air.

“Do you want to die?” Liu Yan shouted angrily.

Ni Ya and Wa Ke regained their senses immediately. When they looked at the corpse of the Gale Mantis that was less than half a step away from them, a thin layer of cold sweat appeared on their backs.

Wang Teng ignored the complex gazes of these two dwarves. His attention was attracted by the two attribute bubbles that the Gale Mantis King had dropped.

Wind Force*36

Wave Invisibility*1

He used his spiritual power to pull them over without any hesitation.

Instantly, his wind Force increased by 36 points.

Wang Teng shuddered. There seemed to be a faint sound of glass breaking coming from inside his body. It sounded as though he had broken a certain bottleneck, and the wind Force surged out of his first Force nucleus. It entered the second Force nucleus and slowly circled inside.

Wang Teng looked at his attributes panel.

At first, he had 85 points of wind Force. Now, he had broken through the 100 points 1-star limit and reached the 2-star level.

Wind Force: 21/500 (2-star)

Wind element 2-star soldier level!

Wang Teng’s gaze continued scanning down. In his battle techniques column, he saw the second gain from the Gale Mantis King.

Wave Invisibility: (1/100 foundation)

After receiving this skill, he finally understood why he wasn’t able to find the Gale Mantis King with his Spiritual Sight.

That was because of this concealing talent skill.

However, after Wang Teng picked it up, it didn’t become Wang Teng’s talent. Instead, it existed as a form of battle technique.

Even so, Wang Teng was elated. This was a good skill. Since it was able to hide from the inspection of his Spiritual Sight, this showed how powerful the skill was.

At this moment, Lin Zhan and the others had cleared the rest of the Gale Mantis. They walked over.

“Let’s clear the corpses of the Gale Mantis. We can go back then.” Lin Zhan’s battle-axes were covered with the blood of the Gale Mantis. It hadn’t dried yet. He wiped it on the weeds at the side and then placed them on his back.

Ni Ya and the other three dwarves came over too. They all thanked Wang Teng.

Wa Ke, who was standing beside Ni Ya, had a complicated expression. He said in a low and muffled voice, "Martial warrior of the human race, thank you for saving Ni Ya. I apologize for my impoliteness just now."

"There's no need to thank me. We had a mission, so this is what I should be doing," Wang Teng said.

"Wang Teng, you're improving very quickly. You can even kill a Gale Mantis King with a single slash," Lin Zhan exclaimed.

"Yes. It has only been a short time, but you have reached this stage already." Yan Jinming was also shocked.

"I thought that I won't be the one dragging everyone down anymore after Wang Teng joined us. In the end, I'm still unable to get rid of this title," Yan Jinyue said with a sad face.

"Hahaha..." Lin Zhan and the others burst out laughing.

Chapter 212: A Dragon Doesn't Live With A Snake

Although Yan Jinyue was joking, this was the truth.

In the Tiger Warrior team, her ability had always been at the bottom. She managed to climb up a rank after Wang Teng joined them, but she could only enjoy this feeling for a few days before being pushed down again.

They knew how powerful the Gale Mantis were and how astonishing their speed was. It was impossible to guard against their attacks. Also, as a 3-star star beast, the Gale Mantis King must be harder to deal with than the other Gale Mantis.

However, Wang Teng was able to kill the Gale Mantis King with a single sword attack. Just based on this, Liu Yan and Yan Jinming might not be his match.

"In the past, I often heard that there are geniuses who can cultivate very quickly. One month of their cultivation might be one year, or even three years, of other people's cultivation. In the past, I didn't believe it, but now, I do," Lin Zhan looked at Wang Teng and couldn't help but lament. "When I see you, I can imagine that there really are super talented people in this world.

"Geniuses like you will really frustrate normal martial warriors like us to death."

Actually, Lin Zhan was talented, too, since he was able to become a 4-star soldier-level martial warrior in his twenties. But, when compared to a super genius, the difference was huge. Also, Wang Teng was more than a super genius.

He couldn't be predicted based on logic.

"That's right. You're really a monster," Liu Yan said.

"In that case, the overall ability of our team has increased again. In the past, Leader didn't have the confidence to deal with 4-star star beasts because he just broke through to the 4-star soldier level. Now, with the addition of Wang Teng, Leader, we can take on the challenge," Yan Jinming said excitedly.

“Hmm, you’re right. With Wang Teng’s ability, it shouldn’t be a problem for us to hunt for a 4-star star beast as long as we are careful,” Lin Zhan nodded and replied.

“That’s great. This means that we can start hunting 4-star star beasts earlier. You might think that there’s only a one-level difference between 3-star and 4-star, but the amount of money we can earn is much more than hunting 3-star star beasts. From now on, our team’s ability will enter a rapid upgrading period,” Yan Jinyue said longingly.

She might look weak and gentle, but her desire to become stronger wasn’t weaker than any of her teammates.

In fact, because she was weak, her desire to become more powerful was much stronger.

Lin Zhan glanced at Wang Teng unconsciously. He opened his mouth, but he couldn’t bear to destroy everyone’s excitement. In the end, he still didn’t say some things.

He could see things clearer than the others.

Based on the talent Wang Teng displayed, he would only become stronger and stronger in the future. The time wouldn’t be on their side at all. When Wang Teng’s ability was too far ahead of them, it would be time for him to leave the Tiger Warrior team.

A dragon wouldn’t live with a snake!

And they were the bunch of stupid snakes!

Wang Teng’s future was further and brighter. One day, he would have to fly away.

Lin Zhan sighed in his heart. He didn’t say anything and just asked everyone to clear up the corpses of the Gale Mantis.

Ni Ya, Wa Ke, and the dwarves came to help them. Powerful warriors would be respected wherever they went. It was obvious that Lin Zhan and his teammates had won the respect of these dwarves.

Based on the instructions of the mission, the Gale Mantis killed by Lin Zhan and his team belonged to them. The materials on these star beasts could be sold for quite a lot of money. They mustn’t waste it.

Wang Teng glanced at Lin Zhan’s back view in deep thought. Then, he turned his gaze to the attribute bubbles dropped by the other Gale Mantis.

One look, and he could see more than twenty attribute bubbles floating in the weed field.

Wind Force*8

Blank Attribute*6

Wind Force*10

Wind Force*4

Blank Attribute*15

...

Wang Teng picked up everything. He gained a total of 76 blank attributes and 84 wind Force attributes. His wind Force had just broken through to the 2-star soldier level, and it immediately shot up again.

Wind Force: 105/500 (2-star)

His ability increased exponentially. Unfortunately, wind element star beasts were rare, much less wind element star beasts that came in packs. If not, his ability could skyrocket all the way.

At the same time, he had a sizable number of blank attributes after the recent accumulation.

The gains for this mission were huge!

After he picked the attribute bubbles, Wang Teng didn't rest. He went over and cleared up the bodies of the Gale Mantis.

There were more than 20 Gale Mantis, including the Gale Mantis King. But, they didn't find any star core or star bone. The team was disappointed. Fortunately, the materials on the Gale Mantis could be sold for some money.

Adding the rewards from the mission, they could earn a lot from this trip.

The group transported the corpses of the Gale Mantis back to the living quarters of the dwarves. Leader Ao Mu had been waiting for them for a long time.

Ni Ya went up and briefly explained what happened. Leader Ao Mu was delighted. "This is great! After clearing the Gale Mantis, we can finally resume farming on that huge field."

The dwarves around them had already seen the huge number of Gale Mantis corpses and were discussing in hushed voices. When they heard what their leader said, they were thrilled. They couldn't help but cheer loudly.

"That damn group of Gale Mantis is finally dead!"

"Hahaha, this is a happy thing! We need to have a bonfire banquet tonight!"

"Yes, yes. We need to have a banquet. Call all the guests over too. We have wine and meat..."

Leader Ao Mu walked forward under the accompaniment of Ni Ya. Suddenly, he bowed to Lin Zhan and his team members. "Powerful martial warriors of the human race, thank you very much."

"Leader, there's no need to do this." Lin Zhan and his team members were shocked.

This leader was an elder. How could they receive such a bow from him?

"No, this isn't enough to express our gratitude. We will be preparing a bonfire party tonight. It's getting late, so why don't you stay back and join us? Let us welcome you with our best wine and meat," Leader Ao Mu smiled and said.

Lin Zhan and his teammates were moved. The wines of the dwarf race were extremely famous, and every tribe had its special wine. It was tempting.

The two young men, Lin Zhan and Yan Jinming, couldn't help swallowing their saliva. They asked the others for their opinion, "What do you think?"

"Look at the two of you. If you don't drink the wine, you probably won't leave this place. Why are you still asking us for our opinion?" Liu Yan rolled her eyes and retorted.

Yan Jinyue covered her mouth and smiled.

Wang Teng became curious about the dwarf race's wine when he saw their reaction.

Thinking about it, in his past life, after the Wang family collapsed, he often drowned his sorrow in wine. After all, wine and cigarettes had always been the best buddies. When there was one of them, the other had to be there too.

"We are happy to stay," Lin Zhan rubbed his hands and chuckled as he spoke to Leader Ao Mu.

"Hahaha, don't worry, there will definitely be enough wine!" Although Leader Ao Mu was old, his heart wasn't. He was even a little naughty. He winked at Lin Zhan like a child.

Leader Ao Mu was a busy person. He asked Ni Ya to lead them around the tribe while he directed the dwarves to prepare for the banquet.

Chapter 213: Picking Up The Smithery Skills Of The Dwarf Race

Ni Ya brought Wang Teng and his teammates around the dwarf tribe. But, they didn't see what they wanted to see.

Wang Teng asked, "I heard that the dwarf race specializes in smithery. Can you take us there to take a look?"

"The leader guessed that you would ask about this. He informed me to bring you guys over if you ask for it. Follow me," Ni Ya said.

She brought everyone to a stone fortress that was linked to the peak of the hill. They walked all the way in, passing through a long corridor and walking down a flight of stone staircases...

After some time, the scene inside the fortress was laid out in front of Wang Teng and his teammates.

The middle of the hill had been emptied. There were many stone rooms inside the hill, and they were linked by all kinds of strange machinery. It gave people the feeling of a science fiction movie.

A red light was emitting out of the different stone rooms. At the same time, the sound of metal clanging against each other was heard continuously. It echoed in the heart of the hill like a symphony.

Lin Zhan exchanged glances with his team members. They were in awe.

"I finally widened my vision of the world!" Yan Jinming exclaimed.

"Our dwarf race relies on smithery for living. It has continued for a few thousand years already," Ni Ya said proudly.

"Every race has its way of survival. Since they are able to persevere for a few thousand years, they have probably developed this skill to a stage we can't even imagine," Lin Zhan said.

Wang Teng was attracted by the countless number of attribute bubbles below him. He couldn't shift his gaze away.

There were so many of them!

All the big and small bubbles were floating in the surroundings. It was a magnificent sight!

The edge of Wang Teng's lips curled up uncontrollably.

He picked them up.

Smithery*3

Smithery*5

Smithery*1

...

The smithery attributes merged into Wang Teng's body. In an instant, smithery knowledge started popping up in his mind.

Even his body started to have some reaction. There seemed to be some muscle memories instilled in his body. Not only was his theory getting completed, but his practical ability was also getting more and more advanced too.

Smithery: 60/100 (small achievement)

This was his original number. Now though, his attribute kept surging all the way until it exceeded 500. His smithery changed from 'small achievement' to 'big achievement'!

Smithery: 125/1000 (big achievement)

The most important thing was, this was the smithery skills of the dwarf race.

The smithery skills on Earth were brought over from the Xingwu Continent. In the Xingwu Continent, the smithery skills of the dwarf race were the best of the best.

This meant that Wang Teng had learned the essence of the smithery skill in the Xingwu Continent. Although this was just one of the many dwarf tribes, compared to the smithery skills on Earth, it was more profound, and the details were more perfected.

The attribute bubbles below had disappeared. They were all picked up by Wang Teng.

"Sigh~"

Wang Teng couldn't help but sigh. He was extremely elated... This was a huge gain for him.

No one knew that Wang Teng had profited immensely. Ni Ya briefly introduced the situation in the hill to them. They knew that she was holding back and only let them see what was on the surface. Naturally, she wouldn't show them the details. Lin Zhan and his team members were sensible people, so they didn't probe further either.

...

At night.

The bonfire burned furiously on the hill where the dwarves lived. It lit up the entire place.

A bonfire banquet was in progress.

The empty ground was exceptionally lively, and the air was rife with peals of laughter.

The special music of the dwarf tribe, accompanied by rough singing, drum beats, and the various unknown ancient musical instruments, cranked up the atmosphere.

The ladies of the dwarf race presented all kinds of fruits and vegetables, meat, and wine to them. Lin Zhan and his team were dazzled by the variety, and their mouths kept salivating.

“Oh my god, this smells so good!”

Lin Zhan hurriedly pulled a barbecued pig throttle down and started eating it in large bites.

His other hand didn't remain idle. He was holding a large-sized cup with delicious wine inside. He sniffed it slightly and closed his eyes to relish the feeling. He took a huge swig of the wine.

“Ha~ Good wine!”

“F**k, Leader, you're really fast.” Yan Jinming didn't want to lose out. He wolfed down the meat and drank the wine in large gulps. His entire mouth was covered with oil. The feeling was amazing.

Liu Yan and Yan Jinyue were more elegant. They weren't slow either, but they didn't act like they hadn't eaten something as good as this.

Wang Teng smiled and shook his head. He released the little crow and tore a huge piece of barbecued meat to let it eat by itself. Then, he poured a glass of wine and enjoyed the delicious wine while eating the barbecued meat. He looked up at the sky filled with stars and suddenly felt that this kind of life was rather enjoyable.

“How is it? I didn't lie to you, right? The wines of the dwarf race are really good.” Yan Jinming placed his hand on Wang Teng's shoulder and smiled.

“This is indeed good wine.” Wang Teng raised his cup and cheered with him. The two of them finished their wine in a single gulp.

“Are you satisfied with the wine and food prepared by us?” Ni Ya walked over. The dwarf called Wa Ke followed behind her.

Wang Teng had realized that this fellow liked Ni Ya. That was why he felt unhappy when he saw Ni Ya chatting with him at the start and hurled abrasive remarks at him.

But, after he witnessed Wang Teng's ability, he became more obedient. He didn't dare to offend him anymore. He had probably also noticed that Wang Teng had no thoughts towards Ni Ya.

Lin Zhan and Yan Jinming raised their thumbs when they heard the question. Unfortunately, their mouths were stuffed with food, so they couldn't say anything.

Ni Ya and Wa Ke burst out laughing when they saw their appearance. There was no better proof than their actions.

“Eat more...”

Before Ni Ya could finish her sentence, a loud drumming sound was heard. It drowned out all the other noises.

The surroundings immediately turned quiet!

“What happened?” Wang Teng and his teammates’ expressions changed slightly as they stood up.

“Enemy attack!”

Ni Ya’s expression changed entirely. She turned and rushed down the hill. Wa Ke followed closely behind her.

The entire place was in a mess.

“Quick, quick, hide in the stone fortress!” Leader Ao Mu’s voice sounded and echoed throughout the area.

The bonfire was destroyed by all the kicking. The food and the wine spilled on the ground, but the dwarves couldn’t care less about this. They quickly rushed towards the stone fortress.

“Let’s go.”

As Lin Zhan spoke, he dashed towards Leader Ao Mu. Liu Yan and the other team members quickly caught up with him.

“Leader Ao Mu, what on earth happened?” Lin Zhan took the chance and asked.

“Bandits!” Leader Ao Mu said with a serious face.

“Bandits?” Lin Zhan and his teammates were surprised. They were puzzled as they asked, “Why are there bandits here?”

“I don’t know either. It has been many years since bandits appeared in this area,” Leader Ao Mu replied.

“I wonder how powerful those bandits are,” Lin Zhan said.

Leader Ao Mu looked worried. He hesitated before saying, “If my tribesmen can’t defend themselves, may I ask for your help...”

Lin Zhan and his team members exchanged glances before replying to him. “Don’t worry. Since we’ve encountered them, we won’t sit back and do nothing.”

After he finished speaking, more than ten figures charged out from the dark.

“Kill, kill everyone! Snatch their money!”

Ruthless peals of laughter rang out from all around. These people killed whoever they saw.

Ni Ya and her friends were a few steps behind them. When they saw their tribesmen getting killed, their eyes turned red, and they pounced on the bandits with an angry cry.

Lin Zhan, Wang Teng, and their friends couldn't bear to see the dwarves getting killed. Hence, they joined the battle. The longer they waited, the more harmless dwarves might get killed.

The few of them were like tigers entering a flock of sheep. Immediately, seven to eight bandits got killed.

Wang Teng killed a 1-star soldier level bandit with his fist. Suddenly, he felt a strong wind attacking him from the back.

He saw a vicious-looking man with brown hair standing not far away. The man slashed his blade at him. The blade gave off a scorching heat as it appeared in front of him in an instant.

Steps of Gale!

Wang Teng executed his footwork and turned into a series of lingering shadows. He tilted his body to dodge the attack.

The brown-haired man's expression changed slightly when he saw Wang Teng dodging his attack successfully.

3-star soldier level!

Wang Teng gauged the other party's ability after glancing at him with his Spiritual Sight.

Then, upon evading his opponent's attack, he stomped on the ground forcefully without wasting a single second. The impact formed shock waves as he shot towards the brown-haired man.

"Idiot!" When he saw Wang Teng charging over empty-handed, the brown-haired man smiled coldly. He welcomed Wang Teng's attack without dodging.

Wang Teng's body suddenly disappeared in front of him. By the time he appeared again, he was behind the brown-haired man and was holding a gold brick in his hand. His expression was holy as he smashed the brick down.

Bang!

The brown-haired man felt excruciating pain on the back of his head. His vision turned black, and he fell forward uncontrollably. This was a perfect 'wild goose descending on the sandbank' move.

Before he lost his consciousness, he heard this sentence.

"You are the idiot!"

Chapter 214: Attacking The Black Wind Bandits At Night

Bang!

The brown-haired man was slammed on the ground and lost his consciousness.

Wang Teng squatted down and smashed the brick on his head a few more times.

As expected, attribute bubbles emerged from his head. Wang Teng smiled.

Spirit*1

Enlightenment*3

Fire Force*12

Spirit*2

Enlightenment*2

Fire Force*16

...

Wang Teng picked them all up. In total, he received 12 points of Spirit and 14 points of Enlightenment.

Enlightenment: Spiritual realm (32.4/100)

Spirit: Spirit (20.6/100)

Based on the ratio, his Enlightenment and Spirit increased by 1.4 and 1.2 points, respectively.

Also, he gained 28 points of fire Force. Wang Teng's fire Force increased once again.

Wang Teng got up and swung the brick behind his back to keep it. He was preparing to kill the next bandit.

Suddenly, he saw the young dwarf called Wa Ke standing not far away. He was looking at him with fear all over his face, which was covered with a mustache and a beard.

When he met Wang Teng's gaze, he turned his head hurriedly and pretended that he didn't see anything.

"What is this big guy doing?" Wang Teng felt speechless. He shook his head, ignored Wa Ke, and ran towards another bandit.

Wa Ke heaved a sigh of relief when he noticed Wang Teng ignoring him. He patted his chest to calm his small heart, which was palpitating furiously.

"This is so scary, too scary. I'm lucky that I didn't offend him."

...

Around ten minutes later, all the bandits had been taken care of.

Lin Zhan and his team had joined the battle in time, so there weren't many casualties on the dwarves' side. But, there were still a few dwarves who got killed.

The dwarves hiding in the stone fortress came out under the lead of Leader Ao Mu when they learned that the battle had ended. Seeing their dead tribesmen, they were overwhelmed with sadness. Faint sobs could be heard all around.

The people who got killed had dropped many attribute bubbles. Wang Teng picked up all of them.

Wood Force*8

Earth Force*6

Blank Attribute*12

Water Force*5

Smithery*32

...

His various elements of Force increased, and he also gained 38 blank attributes, as well as 56 points of smithery.

These attribute bubbles weren't just dropped by the bandits. Some of them came from the dwarves who got killed.

Wang Teng could only express his pity.

Leader Ao Mu was grieving. He walked over with Ni Ya holding him and thanked Lin Zhan and his team. "Once again, thank you for your help. This time, if it wasn't for you, our Red Leaves Tribe might have suffered serious losses."

Wa Ke followed behind them. His gaze flickered when he looked at Wang Teng.

"You're welcome, Leader Ao Mu. Please accept my condolences," Lin Zhan sighed as he said.

Wang Teng kicked the brown-haired man and said, "I kept someone alive. Do you want to question him?"

"Yes. The bandits appeared without any warning. We should question him. If there are other bandits, we will be in trouble." Leader Ao Mu nodded seriously.

"This fellow is a 3-star soldier-level martial warrior. He probably has some status among the bandits. I hope that you can get some information out of him," Wang Teng said.

"Wa Ke, bring this bandit down and question him in detail," Leader Ao Mu commanded.

"Yes!"

Wa Ke nodded. He flipped the brown-haired man over.

Wang Teng: ...

Everyone finally saw the badly swollen face of the brown-haired man. It looked like a pig's head. Their lips twitched as they looked at Wang Teng with strange gazes.

"Cough!" Wang Teng coughed awkwardly as he said, "I hit him a little harder in case he wakes up."

Wa Ke remained silent as he dragged the brown-haired man down.

Leader Ao Mu brought Wang Teng and his teammates inside the stone fortress while they waited for the result. More than an hour later, Ni Ya and Wa Ke finished the questioning and came back.

Leader Ao Mu noticed their grave expressions, so he asked, "How is it?"

"They come from a bandit gang called the Black Wind Bandits. Three days ago, they were entrenched on a mountain more than ten kilometers away and laid their eyes on us at that time. They only acted today after they settled down," Ni Ya said.

"Do you know how many people they have? What about their ability?" Leader Ao Mu probed further.

"Besides the ones we killed just now, there are around 30 to 40 bandits left. He said that the strongest bandit is the head of the Black Wind Bandits. He is a 4-star soldier-level martial warrior. Below him, there are two more 3-star soldier-level and around four 2-star soldier-level martial warriors. The rest are 1-star soldier-level martial warriors or martial disciples," Ni Ya replied.

"This... What is this powerful bandit gang doing in our area?" Leader Ao Mu stamped his stick on the ground as he sighed helplessly.

"Leader, we need to take immediate actions. If we wait until they react, we will be dead," Ni Ya said agitatedly.

"They have 4-star and 3-star soldier-level martial warriors among them. Our tribe is not their match at all." Wa Ke felt hopeless.

Leader Ao Mu hesitated for a moment. He seemed to have made a decision. He turned and said to Lin Zhan, "Martial warriors of the human race, can you help us one more time? If you're able to destroy the gang of bandits and help us survive this life-or-death crisis, we will definitely give you a satisfying reward. Also, you will gain our friendship. If you want to forge weapons in the future, our Red Leaves Tribe will not reject you. We will spare no effort to forge the best weapons for you."

Lin Zhan and his team members' eyes lit up.

The friendship of the dwarf race and the promise of forging weapons, honestly, they were moved.

However, Lin Zhan still hesitated for a while. He said, "We need to discuss for a moment."

"Yes, of course." Leader Ao Mu nodded. He led Ni Ya and Wa Ke out of the room to give them some space.

Outside the room, Ni Ya glanced at the closed door and asked impatiently, "Leader, do you think they will agree?"

"I don't know. I hope they will agree. If not..."

Leader Ao Mu frowned and sighed. He didn't complete his sentence.

If not... what?

There was no need to continue. Ni Ya and Wa Ke could already imagine the consequences. They could only pray that Lin Zhan and his team would stay and not leave for good.

If they left, their tribe would most probably become history. After all, it was too late to send another mission to gather other martial warriors.

...

In the room, Lin Zhan and his team members were discussing this issue.

"I feel that we can't leave just like this. The dwarf tribe will be fraught with grim possibilities," Liu Yan said.

"But, we mustn't underestimate the ability of the Black Wind Bandits. Their head is a 4-star soldier-level martial warrior. We don't know if he is at the early stage, the middle stage, or the advanced stage. Leader might not be able to win. They also have other martial warriors," Yan Jinming analyzed logically.

"The dwarves will be in a sad plight if we leave." Yan Jinyue was a little emotional. She couldn't bear to leave the dwarves alone.

"Wang Teng, what do you think?" Lin Zhan looked at Wang Teng, who hadn't opened his mouth yet.

"I can deal with the 4-star soldier level martial warrior," Wang Teng said calmly.

His words were always astonishing!

The jaws of his team members dropped immediately. They were stunned for a long time and didn't know what to say.

"Are you sure?" Lin Zhan hesitated before asking. He trusted Wang Teng, but he just found it a little unbelievable.

They were already dumbfounded when he reached 3-star soldier level. Now, Wang Teng was telling them that his ability was on par with a 4-star soldier-level martial warrior!

Brother, are you trying to ascend to heaven!

"I will not fool around with my life," Wang Teng replied.

"Good!" Lin Zhan instantly made his decision. He understood Wang Teng's intention. He had agreed to fight. Lin Zhan stopped hesitating and said, "We will help the dwarves!"

"Also, we don't have to fight with them head-on. If we sneak there now, we can catch the Black Wind Bandits off guard," Wang Teng suggested.

"Good idea!" Everyone's eyes lit up.

"You are indeed a sly person!" Lin Zhan patted Wang Teng's shoulder and praised him.

Wang Teng: ...

After discussing the issue, Wang Teng and his teammates walked out of the room.

"Everyone, what did you decide?" Leader Ao Mu hurriedly came forward and asked.

"Leader Ao Mu, we can help," Lin Zhan said, "But."

Ao Mu had just heaved a sigh of relief when his heart tensed up again. "But?"

"I need to say some things first. If things get out of control, we will retreat strategically," Lin Zhan said.

“How can you do that?” Ni Ya immediately replied angrily.

Wa Ke wasn't happy either. He wanted to say something.

Leader Ao Mu waved his hand at them and smiled bitterly. “Of course!”

“Don't worry. We are talking about the worst-case scenarios.” Lin Zhan finally smiled. He consoled them, “We just discussed and realized that our chances of winning are high.”

Then, he told them about their plan to sneak an attack on the bandits.

“In that case, we do have a high chance of winning.” Ni Ya was elated.

“Let's not delay matters anymore. We will prepare and leave instantly!” Lin Zhan said.

“Okay!” Leader Ao Mu nodded his head firmly.

...

Everyone prepared at the fastest speed possible. They brought along the brown-haired man, who was knocked unconscious by Wang Teng. While the sky was dark, they hurried to the mountain that was taken over by the Black Wind Bandits.

“You better release me. If not, my boss will not let you off.” The brown-haired man was tied up using a tailored strong rope. He was being carried by Wa Ke, and his face was covered with bruises. However, he remained fierce and ruthless as he threatened them in a muffled voice.

“Do you want to have another taste of this brick on your head?” Wang Teng silently took out the gold brick calmly.

The brown-haired man: ...

To hell with the brick on my head!

Are you a devil?

Wa Ke's face twitched. He secretly moved further away.

Lin Zhan and the others felt their lips twitching. They also looked at Wang Teng with weird gazes. What did he mean by 'in case he wakes up'? He had clearly done it on purpose just now, right?

But, the effects were extremely good. The brown-haired man felt the back of his head and his face hurting again, so he shut his mouth obediently.

Half an hour later, everyone arrived at the mountain where the Black Wind Bandits were.

“Lead the way!” Wa Ke put the brown-haired man down and said coldly.

“Are you attempting to sneak an attack on them?” The brown-haired man finally understood what they wanted to do. He was flabbergasted.

“Shut up! Do what we ask you to do. If we don't ask you to speak, keep quiet.” Wang Teng glanced at him from the corner of his eyes.

“You!” The brown-haired man was furious. But, because of Wang Teng’s strength and threat, he didn’t talk back. He could only shut his mouth and lead the way.

Sometime later, they came to the area where the Black Wind Bandits had set up their base. Mind you, the speed of the martial warriors was swift. In just three short days, they had already set up a camp on this barren mountain peak. Normal people would not be able to build this base in half a month.

Wang Teng and the others hid in the dark. From afar, the Black Wind Camp was brightly lit. The noise and clamor floated out from within, including all kinds of vulgar and coarse words.

“They haven’t rested yet. It’s not a good time to act,” Lin Zhan whispered.

“Let’s give them some additional ingredients.” Wang Teng played with an ordinary-looking plant in his hand as he smiled.

“You have an idea? Stop hiding it and tell us quickly,” Lin Zhan asked immediately.

“Hehe, see the plant in my hand?” Wang Teng asked.

Lin Zhan and the others finally noticed the plant in his hand.

“What is this?”

“This is Sleepy Herb. I picked it up along the way. Its juice is colorless and odorless, and it has a powerful illusion effect. It’s one of the most important herbs in making knockout potions. Although its effect isn’t as good as the pills, it’s enough to let those bandits suffer,” Wang Teng explained.

“You’re really sly!” Lin Zhan and the others looked at one another and stuck out their thumbs.

Wang Teng: ...

Are you complimenting or slandering me?

“This idea is not bad. But, how are we going to put them into the bandits’ food?” Lin Zhan asked.

“Leave it to me. I’ll settle it,” Wang Teng said.

Lin Zhan hesitated for a moment before replying to him. “Be careful.”

“Yes.”

Wang Teng nodded and moved his body. He disappeared in the dark, silently sneaking towards the camp.

Wave Invisibility!

The skill he just received was put to use now.

Wang Teng had added 100 blank attributes to his Wave Invisibility. Instantly, this skill moved from foundation to small achievement stage.

Wave Invisibility: 1/500 (small achievement)

The next moment, Wang Teng merged with the wind.

At the same time, he used the beginner stage dark talent he received from the dark Force to cover his body with dark Force.

Double security!

The dark Force allowed him to merge with the darkness around him. Wave Invisibility skill allowed him to hide the fluctuations of his Force.

Even if a general-stage martial warrior came now, he wouldn't be able to discover Wang Teng's presence.

He sneaked all the way into the Black Wind Camp. No one noticed him along the way.

Some bandits were gathered on the empty ground in front of the camp. They were gambling, with a few jars of wine in a corner not far away from them. Wang Teng silently floated over and exerted strength on his finger. He crushed the Sleepy Herb into powder and dissolved it in the wine. Then, he retreated safely.

...

Lin Zhan and the others waited anxiously. Suddenly, Wang Teng walked out of the dark.

"Sigh... it's good that you're alright!" Lin Zhan heaved a sigh of relief. He was afraid that Wang Teng would fail and accidentally get caught by the bandits.

"Everything went smoothly. Let's wait for the herb to take effect," Wang Teng smiled gently and said.

"Good fellow. You're amazing!" Lin Zhan and the others smiled and praised him.

However, Wang Teng and his teammates didn't know that there was another bunch of people lying in ambush and waiting to attack!

Chapter 215: A Final Desperate Fight

As time passed slowly, the noise in the camp dwindled gradually.

Wang Teng exchanged glances with the others. He said, "The herb must be taking effect. Let's act quickly. If not, those that haven't fainted will definitely notice something amiss."

"Alright."

Lin Zhan and the others were delighted. They nodded and sneaked into the camp.

"Finally, we can take revenge for our dead tribesmen." Hatred flashed past Ni Ya's eyes. She clutched the dagger in her hand and followed them closely.

This time, the Red Leaves Tribe had sent almost all of their battle power. Only one martial warrior was left to guard the tribe. They had made up their mind to destroy the Black Wind Bandits.

They knew that if the Black Wind Bandits didn't die, they would be annihilated.

...

At the entrance of the camp, two bandits were on sentry duty. However, they were obviously in a bad mood. They kept complaining.

“Damn it, they are having good food and drinks inside, but we have to guard the camp.”

“What can we do? We were unlucky and lost when we were drawing lots. Let’s guard the camp properly tonight.”

How unlucky!

“Huh? They became quiet so early today...”

One of them noticed something amiss. Before he could finish speaking, a cold breeze blew past.

“Oh my god, the wind tonight is a little cold!” One of the guards complained. He sniggered and said, “Who knows? Maybe they got weak.”

At this moment, a black figure suddenly dashed into the sentry post. The sharp and cold light slashed the throats of the two bandits at the speed of lightning.

Who are you?!

The two bandits didn’t even have the time to voice their thoughts. They clutched their necks and fell to the ground. After twitching a few times, they lost their breaths.

The black figure checked their pulse and heartbeat and confirmed that they were dead before he finally stood up.

The torch at the side shone on her face and revealed her appearance. It was Ni Ya.

She waved to the people outside. A few black figures shot in and appeared in the sentry post. They gathered around Ni Ya and entered the camp silently.

In the empty ground within the camp, the bandits who were gambling in high spirits a moment ago were all lying unconscious in various positions on the ground.

When he saw this scene, Wang Teng was slightly shocked and a little surprised.

The effect of the Sleepy Herb was so strong? Did it knock everyone out?

In that case, they were able to capture all the bandits in one go without any effort.

Lin Zhan and the others were stunned too.

At the start, they imagined that the difficulty of this mission would be really high. Yet, now, before they acted, all the bandits were down. It felt unreal.

“Let’s act quickly. Changes might happen if we act too late.” Ni Ya held her dagger and walked forward impatiently.

The dwarves hated these bandits to the core. They couldn’t wait to kill all of them. This was such a good opportunity, so what were they waiting for?

“Be careful. They might be tricking us,” Wang Teng frowned and reminded her.

“Don’t worry.” Ni Ya waved her hand nonchalantly.

However, she wasn’t stupid. She remained vigilant in her heart as she quickly came in front of a bandit. She slashed the bandit with the dagger. A cold glint of Force glow flashed past.

The bandit died peacefully in his sleep.

“It looks like we overestimated the intelligence of the bandits!” Wang Teng and the others were guarding against any sudden changes. When they noticed that no accidents happened, they sighed softly and went forward together. They started reaping the lives of the bandits mercilessly.

These bandits were evil people whose hands were stained with the blood of many innocent lives. Thus, they felt no pressure when killing them.

However, when Lin Zhan was preparing to kill a middle-aged bandit, the other party suddenly pounced up. A cold glint of light that looked like a poisonous snake sticking out its tongue stabbed towards his heart viciously.

Lin Zhan was still on his guard, but he didn’t expect someone to pretend to faint while seeking an opportunity to retaliate. He was in a flurry for an instant.

Fortunately, he was a 4-star soldier-level martial warrior. His speed and reaction speed were both great. His gaze froze, and he reacted within a split second.

He knew that the distance was too close, so he couldn’t dodge the attack. Thus, he just tilted his body slightly and moved his vital points away.

Slash!

The dagger stabbed into his body.

The bandit gave a hideous smile.

However, Lin Zhan didn’t back down. He held his battleaxe with the other hand and slammed it down ferociously.

“No!” The hideous smile on the bandit’s face froze. He gave an angry and regretful roar. The effects of the herb remained in his body. He was a 3-star soldier-level martial warrior, so he didn’t lose his consciousness immediately like the other bandits. But, he was still affected. His actions were slow, and he couldn’t evade the attack.

Bang!

His head was smashed into a pile of minced meat!

Lin Zhan was indignant when he attacked, so he didn’t show any mercy. In fact, he couldn’t. He needed to kill the bandit in one move.

This accident happened within a few breaths, and everyone’s expression changed tremendously. However, they could only watch Lin Zhan getting hurt.

“Leader!”

“Leader!”

Yan Jinming and Liu Yan exclaimed in shock.

At this moment, another bandit leaped up and charged towards Yan Jinyue, who was closest to him.

“Die!”

The bandit’s expression was savage. He looked like an evil wolf lunging at its prey. He was extremely ferocious.

Yan Jinyue’s beautiful face turned pale.

“Get off!” Wang Teng reacted the fastest. He pulled Yan Jinyue back and punched the bandit with his fist.

Blue ice Force erupted from his fist. The power of his punch shot forward and flung the bandit a few meters back. Fresh blood kept flowing out of the bandit’s mouth. He was dumbstruck.

This script wasn’t right!?

He wanted to take Yan Jinyue as his hostage when his comrade jumped up, ambushed them, and attracted their attention. He wanted to use her to force Wang Teng and the others to listen to them.

His plan was great, and Yan Jinyue also got frightened by him. She wasn’t able to react in time and was about to land in his hands. Once he got hold of her, he could do anything to them.

However, Wang Teng, who was at the side, reacted instantly and defeated him in a split second with his punch.

He was unwilling to admit defeat. His face turned red from frustration. Before he took his last breath, he shouted two words.

“Enemy attack!”

Suddenly, noises were heard from the other end of the camp.

The camp wasn’t very big. Some bandits who were resting inside took their weapons and dashed out.

“Who is it?”

“What is happening?”

When they saw the situation outside, their expressions changed entirely, and they shouted furiously, “Enemy attack, enemy attack!”

The remaining bandits charged towards them together.

Things had already reached this state, so Wang Teng and the others knew that they couldn’t continue their ambush plan anymore.

Lin Zhan ignored the injury on his body and yelled in his deep voice, “Kill!”

No one hesitated. They executed their skills and shot towards the bandits.

The two bandits who tried to ambush them were the 3-star soldier-level martial warriors. They were already dead, so the remaining bandits were only 1-star or 2-star soldier-level martial warriors. Some of them were even martial disciples. They weren't Wang Teng and his teammates' match.

In the blink of an eye, they killed seven to eight bandits. Cries of agony and shouts intertwined in the air.

Ni Ya and the dwarves were held back by a few 2-star soldier-level bandits. They couldn't kill them for some time.

Wang Teng waved his sword, and his sword glow flashed a few times. He helped the dwarves kill the bandits...

Boom!

Suddenly, the door of a house in the middle exploded. A black figure charged out with a powerful aura.

Chapter 216: Your Team Has Been Enlisted

"Oh no, it's the head of the Black Wind Bandits!"

Their expression changed when they saw the black figure flying towards them with a massive force of presence.

"Quickly kill the other bandits. Leave this person to me."

Lin Zhan chopped a 1-star soldier-level bandit and turned around to fight with the head of the Black Wind Bandits.

The guy was a muscular man around 30 years old. His hair was brown and curly, and his face was covered with different colored mustaches. He was extremely rough-looking.

The current situation outside made him enraged. He pounced on Lin Zhan without any hesitation.

"Die!"

"Die!"

"Die!"

This person's weapon was a huge battle blade. It slashed towards Lin Zhan with an invincible yellow Force. At the same time, the man kept shouting furiously again and again.

He shouted three times continuously!

His ferocious aura was extremely frightening!

Lin Zhan's expression changed. He threw out his Two-Handed Axe to block the huge blade that kept chopping towards him.

His battle techniques, along with his battleaxes, were fierce and unyielding. But, he had met his match today.

The blade skill of the head of the Black Wind Bandits was fierce and unyielding too. He smashed his blade down repeatedly, forcing Lin Zhan to retreat.

Lin Zhan was at a disadvantage!

When everyone saw this scene, their expressions turned somber. If Lin Zhan couldn't beat the head of the Black Wind Bandits, they would... run away.

However, it hadn't reached that stage yet. The most important thing now was to kill the scattered bandits around them and help Lin Zhan fight with the head of the Black Wind Bandits afterward.

A group versus a person, there was nothing wrong with it!

Liu Yan was on full throttle. The alloy bullets spilled out as though they weren't worth anything. It took the lives of many bandits.

The Yan siblings combined their sword and blade skills and cooperated very well. Their speed of killing was astonishingly fast. Very soon, many bandits had died under their blade and sword.

Ni Ya and the other dwarves went berserk from all the killing. Many low-rank martial warriors got killed by them.

After a few minutes, all the bandits had gone to hell.

Everyone finally had the time and effort to surround the head of the Black Wind Bandits and lighten the pressure on Lin Zhan.

"Dwarves!"

The head of the Black Wind Bandits stood in the middle and looked around him. His gaze paused on Ni Ya and the other dwarves. He said in contempt, "I didn't go and look for you personally. How dare you come and find me?"

"You have done many evil things. What's wrong with killing you?" Ni Ya shouted angrily.

"Hahaha, kill me?" The head of the Black Wind Bandits laughed. He glanced at them scornfully and said, "With just the few of you? Kill me?"

"You will know after you try!" Wang Teng said calmly.

"He who knows not fears not!" The head of the Black Wind Bandits shook his head. He stared at them with his tiger eyes, and his aura increased exponentially until it reached the peak of 4-star soldier level.

"Kill!"

When his aura reached its maximum, he roared and stomped on the ground. He looked like a crazy wild bear charging at them.

"Boom!"

The ground around him was unable to bear the huge pressure. It caved in, and cracks that looked like spider webs appeared. They spread out toward the team.

"4-star soldier level peak!"

Everyone's expression changed. They felt unprecedented pressure.

Could they beat this head of the Black Wind Bandits?

However, the arrow was already in the air. They had to remain tough and fight with him no matter how hard it was.

Wang Teng also turned serious. He didn't hesitate and rushed forward together with the others.

Boom, boom, boom!

The glints of weapons and Forces collided, creating huge explosions. The powerful wind swept the dust into the sky, and sand and stones flew around them. This was evidence of how heated the battle was.

The head of the Black Wind Bandits was honestly powerful. Despite fighting with so many people, he didn't show any signs of weakness.

Bang!

The dwarves were still weaker. He grabbed an opportunity and swept his legs at them, kicking them a few meters back. They laid on the ground and couldn't get up for a long time. It looked like they were seriously injured.

The Yan siblings attacked his back when he was distracted.

Two lines of blood instantly appeared on the bandit's back. He turned around abruptly and swung his sword at them with a hideous face. He forced the Yan siblings back.

At this moment, a ray of gold ax glow struck him from his left. The sharpness of the attack caused the bandit's expression to change. He didn't dare to block it, so he could only dodge to the side.

At the same time, Wang Teng moved.

He had been waiting for this chance. When the head of the Black Wind Bandits dodged, a fiery red sword glow appeared on his path of escape.

Fire Kirin Sword Skill!

Half-formed sword presence!

Wang Teng didn't hold back any of his power in this attack. Also, the attack hit the head of the Black Wind Bandits directly. These frightening scorching flames engulfed the entire body of this man.

The head of the Black Wind Bandits screamed in agony!

"We succeeded!?" Lin Zhan and the others were delighted. They increased the power of their attacks and started hurling all kinds of Force battle techniques at the bandit.

Kill him while he was sick!

They had finally injured him, so they must pursue their victory. They couldn't give him any chances of turning the tides.

A few moments later, the head of the Black Wind Bandits crashed into the ground. His body was burnt, and there were many wounds on it. He was dead.

“Sigh!”

Everyone couldn't help but sigh.

All of them had suffered injuries on their bodies. When they relaxed, they felt their wounds, and their faces turned pale.

The price was a little high, but at least they had won this battle.

They were unable to hide the happiness on their faces. Just when they were planning to sit down and have a rest, the sound of clapping was suddenly heard outside the camp.

“You did well!”

More than ten people walked into the camp. A few of them were wearing military uniforms. They looked like soldiers.

Lin Zhan and the others tensed up, but they immediately relaxed again.

But why are there military people here? They wondered at the same time.

“Leader Lin, we are fated.” A voice suddenly came from the crowd.

“It's you!” Lin Zhan shifted his gaze and realized that the person who spoke was the young master from the Yao family. He was the one who wanted to join their team before they departed.

Lin Zhan felt his head hurt. They had just accepted this mission casually, yet they still met this guy again.

This wasn't fate. It was a tragedy!

“Yes, it's me. Aren't you surprised?” Young Master Yao asked with an ambiguous smile. He glanced at Wang Teng. Then, his gaze landed on Lin Zhan.

“I am a little surprised,” Lin Zhan replied.

“Lin Zhan.” At this moment, a man with long hair standing beside Young Master Yao called him.

“Chong Liang, it's you.” Lin Zhan looked at the man. He then understood what happened. “So this Young Master Yao must have joined your Wolf Fang team.”

“That's right. Speaking about it, I have to thank you for sending Yao Jun to our Wolf Fang team. He really is strong,” Chong Liang laughed as he said.

“Hmph, congratulations,” Lin Zhan said indifferently.

Yao Jun was furious when he saw Lin Zhan's nonchalant attitude. He turned around and secretly looked at the man in a military uniform who was in the lead.

The man in a military uniform coughed awkwardly and said, “Cough, you're Lin Zhan, right?”

“That's me. You are?” Lin Zhan asked cautiously.

"I'm one of the squad leaders in the 'Crimson Tiger' troop. We are on a mission now. This is a special situation. I'm giving you an emergency notice. Your team has been enlisted," the man in a military uniform said.

Chapter 217: Revealing His Identity

"Enlisted?!"

Lin Zhan was slightly shocked. Then, he thought of something, and a sense of uneasiness soared into his heart.

It was uncommon to see the military suddenly enlisting martial warriors who weren't in the army. But, if anyone met this situation, it was definitely a bad thing.

Some of these missions were death missions. One could imagine how dangerous they were.

But, the military couldn't just enlist non-army martial warriors as they wanted. They could only force the martial warriors to enlist if it was an emergency, and the military had no choice but to borrow outside forces.

Also, after the mission ended, they needed to report the situation and prove that there was indeed a need for enlistment.

If they abused their authority, they would need to bear the responsibility.

"That's right. This is a special situation, so we need your help," Liu Huaixin, the man in the uniform, said.

The hope in Lin Zhan's heart turned into disappointment. He exchanged glances with his team members and gritted his teeth as he replied, "Even if it's the military, you can't enlist us for no reason. We need to know the reason."

"I'm sorry. That is classified. I can't tell you," Liu Huaixin shook his head and said.

"We have the right to know." Lin Zhan looked at him directly in the eye without backing down.

Liu Huaixin frowned.

"Leader Lin, there's definitely a reason for the military to enlist us. We just need to cooperate with them. Why are you asking so many questions?" The leader of the Wolf Fang team, Chong Liang, interrupted them.

"The mission of the military is the most important thing. Leader Lin, don't bring your own interest first," Yao Jun pretended to persuade him out of kindness.

"Please cooperate with us!" Liu Huaixin glanced at Lin Zhan and his team members with an indifferent expression.

The next moment, the military martial warriors he brought along raised the guns in their hands and aimed them at Lin Zhan and his team.

Lin Zhan, Liu Yan, and everyone's expression became ugly. No one would be in a good mood when they had more than ten guns pointing at them.

The corner of Yao Jun's lips curled up, and a sinister gaze flashed past his eyes.

He was rejected by Lin Zhan many times in the past, so he felt extremely frustrated. His heart was filled with hatred. This time, since he met them coincidentally, he wouldn't throw this good opportunity away.

A tinge of mockery flashed past Chong Liang's eyes.

Lin Zhan and he were both members of the Jixin Martial House. His Wolf Fang team was a famous elite martial warriors team too. However, he always got pushed down by Lin Zhan's Tiger Warrior team.

While executing missions, the two teams often met. He had suffered many losses because of the Tiger Warrior team, so the two teams weren't as peaceful as they seemed on the surface.

When he saw Lin Zhan and his teammates being forced into a corner, he was delighted.

He had heard from others that Lin Zhan had rejected Yao Jun. Also, he knew that this enlistment was Yao Jun's doing. He hated Lin Zhan and his team. There was something fishy about this enlistment. The Tiger Warrior team would probably suffer a huge setback this time.

Lin Zhan, Lin Zhan, you are seeking your own death. Why didn't you accept Yao Jun, who has a powerful background, when he came to look for you personally? Why are you holding on to a martial arts exam top scholar who doesn't have any background? You are really stupid. Look at you now. Yao Jun has connections everywhere. He just needs to play a few tricks, and you will have to suffer terribly. Chong Liang laughed at their plight.

He knew clearly that Lin Zhan had no chance of rejecting the enlistment. The drafting was mandatory, and self-taught martial warriors like them had a lower status than military martial warriors. Even if their ability was stronger than the military martial warriors, it was useless unless their power allowed them to ignore all rules.

Obviously, Lin Zhan and his team members didn't possess this skill.

Wang Teng watched the progress of the situation quietly. He had a thoughtful expression on his face. When he saw the military martial warriors pointing their gun barrels at them, he stood up and said, "This is my martial warrior credential. Take a look at it and decide if you should continue aiming your guns at us."

As he spoke, he threw his martial warrior credential at Liu Huaixin.

Liu Huaixin frowned uncontrollably. He glanced at Wang Teng before catching his martial warrior credentials. He opened it and took a look.

"Tsk, why are you acting so arrogantly? You're just a student from Huanghai Military Academy. Do you think I don't know your identity? There are so many students in Huanghai Military Academy. Do you really think you're special?" Yao Jun scoffed.

He was speaking to Liu Huaixin, too, in case he wavered.

Wang Teng didn't even glance at him. He remained silent and waited for Liu Huaixin to finish reading.

Lin Zhan and the others were anxious and puzzled. They wondered what Wang Teng was doing.

Could it be like what Yao Jun said? Was he planning to suppress Liu Huaixin with his status as a student of Huanghai Military Academy?

But, this was obviously not enough!

Yao Jun was right. There were many students in Huanghai Military Academy. In the future, they would have different achievements. No one would make an exception for a freshman.

Unless this freshman had some background or he was so outstanding that others couldn't look down on him.

Wang Teng didn't have any background, though. He was outstanding, but he had only started university not long ago. If he wanted to become prominent, he needed more time.

At this moment, Liu Huaixin said in astonishment, "You have been awarded the 'sergeant' rank?"

"That's right, I know that this fellow... what?" Yao Jun wanted to say something, but he suddenly got shocked. "Sergeant rank?!"

"Sergeant, sergeant rank!" Lin Zhan and the other people were dumbfounded too.

It felt like how you knew someone was rich, but suddenly, you realized that his wealth wasn't just a few million or tens of millions. It was a few billion.

The difference between them was enough to make one dizzy!

The military martial warriors pointing their guns at Wang Teng looked at each other. They didn't know if they should lower their guns.

Mind you, their squad leader, Liu Huaixin, had been in the military for a long time and had completed many missions, yet he was only awarded the 'sergeant' rank recently.

Even so, he was considered very outstanding. There weren't many people in their troop who were given a 'sergeant' rank at his age.

How old was this young man in front of them? He was actually at the same rank as their squad leader!

"Put down your guns," Liu Huaixin said.

The military martial warriors heaved a sigh of relief. They hurriedly put down their guns. They were afraid that if they aimed it at him a second longer, he would remember them in his heart.

"That's impossible!"

Yao Jun couldn't believe it. He started questioning, "He's just a freshman. How can he have a military title!"

"How can the martial warrior credential be fake?" Wang Teng laughed. He replied to Yao Jun calmly.

"You..." Yao Jun got angered by his tone. He snorted and turned around. "Squad leader Liu, is there any problem with his martial warrior credential?"

"No." Liu Huaixin shook his head.

"It's real!" Yao Jun's face turned green and red in anger. His expression was fascinating. He felt embarrassed and jealous at the same time. *I don't even have a military rank! How did this fellow have one!*

Actually, Liu Huaixin felt unfair too.

Wang Teng was at least ten years younger than him. But, the two of them were standing on the same starting line. How could he not be jealous?

However, he didn't display his emotions. He wore a smile on his face as he passed the martial warrior credential back to Wang Teng. He said, "As expected of an outstanding student from the Huanghai Military Academy. You received a 'sergeant' rank at such a young age. You will definitely have a bright future. I apologize for what happened just now. Please don't take it to heart."

Chapter 218: The Dark Apparition Appeared Again

Wang Teng remained composed and calm when he saw Liu Huaixin changing his attitude. He asked, "Squad leader Liu, now, can you tell us why you want to enlist us?"

"At first, I was worried that saying it out would shake everyone's morale, but now... never mind. Since we are already in this situation, I'll tell you the reason. We discovered a bunch of... dark apparitions!" Liu Huaixin said.

"A bunch of dark apparitions!"

Lin Zhan and his team members turned pale in shock when they heard this. It was hard enough to deal with one or two dark apparitions, much less a bunch of them.

Wang Teng couldn't help but remember the last time he met a dark apparition. He furrowed his brows slightly. If there were really a bunch, this number of people wasn't enough.

"I didn't expect there to be so many of them. Hence, I have no choice but to ask for your help," Liu Huaixin said.

Ask?

Lin Zhan and the others sniggered in their hearts.

You even raised your guns at us just now. Yet, you're saying that you were 'asking' us?

How interesting!

"Are the dark apparitions in this mountain?" Wang Teng asked.

"They are in one of the caves in this mountain. The Black Wind Bandits were covering up for them. I wanted to catch them and ask them about the situation, but I didn't expect you guys to kill all of them," Liu Huaixin said.

"The Black Wind Bandits were covering up for the dark apparitions?" Wang Teng was confused. "I met a dark apparition before. They have no awareness. How can there be someone doing things for them?"

“You’ve met one before!” Liu Huaixin was shocked. He didn’t dare to underestimate Wang Teng anymore.”The one you met was probably the lowest form of the dark apparitions. Their consciousness is in a mess, and they only know how to kill. High-level dark apparitions are intelligent, though, no different from normal humans. They know how to command people and can even win people’s support. The Black Wind Bandits must have received some benefits from them. They are a bunch of ‘human beasts’ without any bottom line.”

When he reached the end of the sentence, Liu Huaixin gritted his teeth furiously. He seemed to hate these ‘human beasts’ very much.

Wang Teng didn’t expect that the one he met in the past was only a low-level dark apparition. He also didn’t know that high-level dark apparitions had intelligence and could even win the hearts of humans.

The waters of this world ran really deep!

Wang Teng’s expression was gloomy. Low-level dark apparitions were hard enough to deal with, much less high-level dark apparitions. No matter how he thought of it, this mission was a trap!

When he thought about this, he felt resentment towards Liu Huaixin.

Liu Huaixin felt a chill down his spine for no reason. He scanned his surroundings, wondering whether the dark apparitions were hiding nearby and spying on them.

“If there are a bunch of them and there might be high-level dark apparitions inside, the few of us won’t be enough, right?” Wang Teng still voiced his doubt.

“Don’t worry. I won’t fight an uncertain battle. My soldiers are all strong people. They are experienced in dealing with dark apparitions. With the addition of your team, we have a high chance of winning,” Liu Huaixin replied.

Since he had already said this, Wang Teng couldn’t reject him anymore. He glanced at his teammates and sighed in his heart. He said helplessly, “Squad leader Liu, we will cooperate with you.”

“Thank you very much!” Liu Huaixin said happily.

The few of them got ready to head to the cave where the dark apparitions were hiding. Liu Huaixin ordered his subordinates to burn the corpses of the bandits to prevent them from getting contaminated by dark Force and turning into dark apparitions.

Wang Teng used the break to sweep up the attribute bubbles dropped by the Black Wind Bandits.

Earth Force*3

Fire Force*2

Enlightenment*3

Water Force*6

Spirit*2

...

After picking up a series of Force attributes, Wang Teng was inching closer to becoming a 4-star soldier-level martial warrior.

His Enlightenment and Spirit had increased too!

Enlightenment: Spiritual realm (34/100)

Spirit: Spiritual realm (22.2/100)

...

“Let’s go!” After clearing up the corpses, Liu Huaixin walked over and spoke to them.

Wang Teng nodded. He turned and said to the dwarves, “Ni Ya, you go back first. We will go to your tribe to look for you after our mission.”

“Okay.” Ni Ya said with gratitude, “Thank you for your help this time.”

“You’re welcome. Go back.”

“Be careful.”

After bidding farewell to Ni Ya and the dwarves, they started their journey.

Liu Huaixin led the way in front. He walked to the back of the camp.

Yao Jun and Chong Liang were walking in front too. As for Wang Teng and his teammates, they were slightly lagging behind. The military martial warriors were scattered around them, remaining on their guards the whole way.

“Wang Teng, you have fought with a dark apparition before. What special characteristics do they have?” Lin Zhan asked in a low voice.

They had heard that the dark apparitions were hard to deal with, but they had never fought with them personally. Hence, they felt a little lost since they were going to meet them soon.

“Their biggest trait is their ability to merge into the dark. It makes it hard for us to find them.” Wang Teng recalled the time when he met the dark apparition.

“They are able to merge into the dark!” Lin Zhan and the others were shocked.

“Dark apparitions have dark Force. When they are in a dark environment, they are like fish in water. There’s no way to defend against them,” Wang Teng said.

...

While Wang Teng was exchanging information with Lin Zhan and his teammates regarding the dark apparition, Yao Jun, who was walking in front, inched towards Liu Huaixin and pulled his Force into a thin thread. Then, he transmitted his voice through this Force thread and let it enter Liu Huaixin’s ear. “Squad Leader Liu, don’t forget our agreement.”

This method seemed like the voice transmission technique in martial arts movies. They had different approaches, but their results were the same. They were able to prevent others from hearing their conversation.

"I'm afraid... it's not appropriate." Liu Huaixin used the same method to reply to Yao Jun secretly.

"What do you mean by inappropriate? Did you get scared by him?" Yao Jun said with disdain.

"The status makes a huge difference. If I am found out, I will not be able to bear the consequences," Liu Huaixin frowned and said.

"As long as you cooperate well, no one will discover it." Yao Jun comforted him. Then, he stuck out a carrot. "Also, if you succeed, you will be able to get the things I promised you very soon. This is a rare chance. It will be gone if you don't grab it."

Liu Huaixin's expression kept changing. In the end, he gritted his teeth and said, "Okay, I will act according to the original plan. Remember your promise!"

"Don't worry!" Yao Jun smiled. His smile was a little arrogant and sinister. In his heart, he was looking down on Liu Huaixin.

...

After they finished discussing the dark apparition, Lin Zhan looked in front and used voice transmission to remind them. "I feel that we can't trust them entirely, especially Yao Jun and Chong Liang. We need to guard against the two of them."

This was the first time Wang Teng saw this voice transmission method. He was a little surprised, but he quickly got the hang of it. He nodded and replied using voice transmission, "We need to be aware of Liu Huaixin too. I suspect that he has an agreement with Yao Jun."

"Even Liu Huaixin?" Lin Zhan was astounded.

"I don't know what their plan is yet, but there's nothing wrong with being careful. It will prevent us from failing miserably," Wang Teng replied using voice transmission.

"You're right." Lin Zhan took a deep breath and turned around to remind Liu Yan and the other members.

After some time, Liu Huaixin stopped. He signaled everyone to hide and pointed to a narrow and long hole below the mountain wall in front of them. It looked like a crack. "This is it. Be careful, and prepare to enter the cave."

Chapter 219: Gaining Dark Force Again

Wang Teng, Liu Huaixin, and the group hid in the dark and observed the cave from outside for a long time.

They didn't notice any traces of the dark apparitions.

Yao Jun was already a little impatient. He said, "Squad Leader Liu, can we move?"

He had never seen a dark apparition before and only heard other people's descriptions of them. Many people told him that they were terrifying, but he remained indifferent.

He felt that these people were too weak, so they raised the danger level of the dark apparition to hide their uselessness.

However, he was also very curious about the dark apparitions. He was a little excited.

Liu Huaixin frowned, and a hint of unhappiness flashed past his eyes. This Yao Jun was really naive. Dark apparitions were a menacing presence. Even military martial warriors like him, who had fought with them many times throughout the year, didn't dare to let down their guards. On the other hand, Yao Jun didn't take it seriously at all.

He glanced at Wang Teng and his teammates. They were obviously on high alert. Before he spoke, they didn't say a single word and were silently regaining their stamina and healing their injuries for the battle later.

Honestly, if Yao Jun didn't have a strong background, Liu Huaixin wouldn't be willing to cooperate with him. But, humans had to give in sometimes.

It was even more so for someone like him who didn't have any background but felt that his talent and potential were not weak.

However, Liu Huaixin didn't discover any dangers. He nodded and said, "Okay, prepare to enter the cave."

Everyone's heart trembled. They knew that it was time for the real challenge. No one dared to relax. They followed Liu Huaixin into the cave carefully.

Wang Teng had already used his Spiritual Sight to look into the cave. There were no dangers near the cave, but he couldn't tell them that.

Everyone hid beside the entrance of the cave as Liu Huaixin went in to check the area. After confirming that there was no danger, he waved his hand.

Three of his subordinates walked out with heavy machine guns in their hands. They walked into the cave.

After some time, a voice echoed out.

"Leader, it's safe!"

"Let's go!" Liu Huaixin led the way into the cave. Everyone followed closely behind him.

The cave was extremely dark, and the visibility was low. Everyone took out their battle-style infrared glasses. This was a standard item for martial warriors. Before heading out on missions, the martial warriors would carry one or two with them.

After putting on the battle-style infrared red glasses, they could see the situation inside the cave. The group continued inching deeper.

The cave was bigger than what Wang Teng imagined. After more than ten steps, the cave became broader. There was enough space for five to six people to walk side by side.

“Do you smell it? There seems to be a stench?” Yao Jun couldn’t bear the smell.

“Indeed, it’s a little smelly. There might be other living creatures living in this cave. The smell was probably caused by the accumulation of their feces over the years,” Chong Liang analyzed.

Actually, there was no need for him to explain. Lin Zhan and the others had guessed the reason. In this kind of environment, it was either rats, snakes, or insects. After the purification of Force, the living creatures on Earth became more powerful and harder to control. The creatures on the Xingwu Continent were worse.

“The living creatures here might have been contaminated by the dark. Be careful,” Liu Huaixin said.

Everyone became even more cautious.

The contamination of the dark.

Wang Teng repeated this phrase in his heart. He couldn’t help but remember how a human martial warrior was assimilated by the dark apparition. This must be the dark contamination Liu Huaixin was referring to.

They kept moving deeper into the cave. It seemed to have gotten colder and more humid. Moss and lichen had also started appearing on the inside of the cave. They were giving off a faint glow.

Slash!

Two red lights suddenly lit up in the dark. A black figure pounced towards them violently. Its target was Yao Jun.

“F**k!” Yao Jun was frightened. He cursed while retreating and slashed the battle blade in his hand, cutting the black shadow into two. Black blood splattered on the ground.

They finally saw the corpse of the creature on the ground. It was a huge rat that was many times bigger than its normal counterpart. It was half the height of a human, and its body was covered with tough black fur. It had two teeth as sharp as a dagger, and its black and sharp claws gave off a metallic glint.

Yao Jun raised the battle blade in his hand and poked the rat’s corpse. “Tsk, is this a living creature that got contaminated by the dark apparition? That’s all?”

“This giant rat is only a 1-star star beast. However, rats normally come in a colony,” Liu Huaixin squatted down to inspect the rat as he spoke calmly.

“I will kill them even if a swarm of them comes!” Yao Jun said with disdain.

Wang Teng’s gaze landed above the corpse of the rat. Two attribute bubbles were floating there silently.

Dark Force*5

Spirit*6

He was surprised and picked up the bubbles silently.

“Let’s continue moving forward,” Liu Huaixin said.

After walking for a few hundred meters, another two giant rats appeared. They were easily killed by them. Wang Teng gained another 12 points of dark Force.

Dark Force: 26/100 (1-star)

He had received 9 points of dark Force when he met the dark apparition the last time. This time, he gained another 17 points, so he had 26 points of dark Force now.

He felt the dark Force that was hibernating quietly in his force nucleus. It felt extremely different from the other Forces. His eyes shimmered.

It had to be said that the uses of this dark Force were quite good. It could allow him to merge into the darkness. This was an excellent way to hide.

Would his body get invaded by the dark Force?

Wang Teng wasn’t too worried. It had been very obedient so far. It was obvious that the power of the system wasn’t something a human could guess.

Were there other uses for the dark Force? He would figure it out in the future.

Also, he gained 18 points of spirit.

It wasn’t difficult to tell that the living creatures that got invaded by the dark Force were a little berserk. Thus, they dropped more spirit attributes.

Spirit: Spiritual realm (24.6/100)

The increment of my spiritual power is a little slow. However, I can take more from the dark apparitions. Wang Teng wondered to himself as he felt his spirit attribute rising.

When his Spirit attribute increased, his spiritual power got stronger too. It would give him many benefits.

His spiritual power had always been one of his trump cards. He would only use it when he had no choice. It was what he relied on to kill his enemies and protect his life at crucial moments.

“Huh?” Suddenly, Wang Teng realized that the people in front had slowed down. There was a curve in front of them. Based on how cautious Liu Huaixin was, he wouldn’t move ahead rashly.

After a series of investigations, they finally went around the curve. Three paths appeared in front of them.

“It looks like we have to split up,” Liu Huaixin hesitated for a moment before he said slowly.

“Split up?” Lin Zhan frowned. He said, “Squad Leader Liu, this is not a good idea. We don’t know what’s going on in the cave. If we split up, it will only be more dangerous for us, and unnecessary casualties might appear.”

Lin Zhan didn't dare to underestimate the dark apparitions. The moment Liu Huaixin suggested splitting up, he felt that it wasn't a good idea. He didn't care about the life or death of the others, but this concerned the survival of his team members. He couldn't remain indifferent.

Chapter 220: Real-Jealous.JPG

"Lin Zhan, you're too timid. There are three paths in front of us. If we don't split up, how long are we going to search?" Chong Liang from the Wolf Fang team scorned. He didn't let go of any chance to crack down on Lin Zhan.

"Spending more time is better than losing our lives." Lin Zhan wasn't convinced.

"We have limited time. We need to clear the dark apparitions as soon as possible. If not, we wouldn't have enlisted you." Liu Huaixin glanced at Yao Jun secretly. He ordered with a stern expression, "Tiger Warrior Team, go to the left. Wolf Fang Team, go to the right. I will lead my subordinates down the middle."

Lin Zhan opened his mouth. He sighed in his heart and didn't say anything in the end.

He couldn't beat the circumstances!

He didn't have any background to offend the military.

Wang Teng glanced at Liu Huaixin, but he didn't open his mouth. Although he had the rank of a sergeant, he didn't have any real power. In a situation like this, he couldn't forcefully change anything if Liu Huaixin insisted on acting willfully.

Real power! His gaze flickered a little. He couldn't help but repeat these two words in his heart.

"Lin Zhan, Chong Liang, add my wristwatch account. We will maintain contact later and share any information we gather." Liu Huaixin raised his hand and tapped on his martial warrior wristwatch. He added Lin Zhan and Chong Liang as his friends.

The martial warrior wristwatch had many functions. It had a rune chip inside, so it could be used to communicate even in the Xingwu Continent. Of course, they needed to be in the same world. The technology now couldn't support inter-world connections yet.

Lin Zhan brought Liu Yan and his other team members to the path on the left. After walking for some distance, Liu Yan suddenly exclaimed in astonishment, "Wang Teng is gone!"

"What!" The Yan siblings were shocked. They searched for Wang Teng, but they couldn't see any signs of him.

"Don't make any commotion!" Lin Zhan said in a low voice. He looked at his team members and explained, "Don't worry. He just went to take a look at what plans Yao Jun and the rest have up their sleeves."

"You are saying?" Liu Yan and the Yan siblings felt confused and anxious.

"We will know if our guess is true when Wang Teng returns," Lin Zhan shook his head and said.

"Will Wang Teng get discovered if he goes back like this?" Yan Jinming asked worriedly.

"I don't know. However, he said that he's confident. I don't think he's joking. Let's wait and see," Lin Zhan replied.

Things had already happened, so it was useless to discuss any further. They could only wait patiently for Wang Teng to come back.

...

The moment Wang Teng entered the path on the left, he used voice transmission to communicate with Lin Zhan.

He stayed behind and used his dark Force to cover his body. At the same time, he activated his Wave Invisibility skill and hid in the dark to spy on Liu Huaixin and the others.

After the Tiger Warrior Team left, the others stayed on the spot and discussed in hushed voices.

Wang Teng hurriedly opened the recording function of his wristwatch.

"I have already sent someone to investigate the three paths. High-level dark apparitions are guarding the hole on the left. The Tiger Warrior Team's fate is grim. We will go and kill the dark apparitions after they exhaust the dark apparitions' power," Liu Huaixin said.

"Haha, the Tiger Warrior Team will become history after today." Yao Jun laughed and said, "Squad Leader Liu, I will remember your favor."

"Yes." Liu Huaixin nodded expressionlessly.

Chong Liang and the others knew what had happened between Yao Jun and the Tiger Warrior Team. When they heard their conversation, Chong Liang was elated.

Lin Zhan, don't blame me. You are the one who provoked someone you shouldn't. Chong Liang thought to himself.

"As for the hole on the right, there are low-level dark apparitions inside. With your ability, your team should be able to handle them."

"The hold in the middle should contain the target for your mission, right?" Yao Jun smiled and asked.

"You shouldn't ask what you shouldn't know," Liu Huaixin glanced at him and said indifferently.

"Okay, okay! You are so boring. You are so tight-lipped," Yao Jun shrugged and replied.

Liu Huaixin didn't reply. He led his subordinates into the path in the middle. Yao Jun watched his back as he left. He sneered, "Who does he think he is!"

"Young Master Yao, they are from the military." The corners of Chong Liang's lips twitched a little. He couldn't help but remind Yao Jun in a soft voice.

"Don't worry, I will just complain behind their backs." Yao Jun glanced at him. A smile of contempt appeared on his lips. He said, "Let's go too."

...

Wang Teng's figure emerged from the dark. There were no expressions on his face, but there was killing intent in his eyes.

After some time, he thought of something, and a mocking smile appeared at the corner of his lips.

He went back and caught up with Lin Zhan and the rest. Everyone heaved a sigh of relief when they saw Wang Teng coming back.

"How was it?" Lin Zhan couldn't help but ask.

Wang Teng repeated the conversation he heard between Yao Jun and Liu Huaixin. Their expressions turned extremely ugly.

"That bastard Yao Jun, how dare he trick us," Liu Yan exploded in anger directly and cursed.

"And that Liu Huaixin actually colluded with Yao Jun to harm us," Yan Jinming said with a cold voice. His expression was grave.

"Yao Jun probably gave him some benefits. If not, he won't create trouble for us for no reason," Lin Zhan said.

"What should we do now? We aren't able to deal with the high-level dark apparition alone. However, Liu Huaixin is from the military. He gave an order, so we have to complete it." Yan Jinyue was distressed.

"We will put on a show for them." Wang Teng smiled mysteriously.

"Put on a show?" Lin Zhan and the others looked at him unconsciously. They were confused and curious.

"Stop leaving us hanging. Hurry up and say it." Liu Yan rolled her eyes.

"We will do this this this, and that that that..." Wang Teng signaled them to come closer before whispering his plan to them.

After some time, they exchanged glances with one another and started chuckling.

"What a good idea. We will make a fool out of them!" Liu Yan said excitedly to Wang Teng.

Lin Zhan's gaze was a little strange. He coughed awkwardly and said, "I think that your plan is workable. However, is your hiding skill really able to fool high-level dark apparitions?"

"My master taught me. It shouldn't be a problem." Wang Teng found an excuse casually.

"You have a master?" Everyone was shocked.

"That's right. My master is a real boss!" Wang Teng continued talking nonsense.

"No wonder you improved so quickly. You have a master and your master is also a boss," Lin Zhan and the others said enviously.

The difference between people was enormous.

Self-taught martial warriors like them didn't have any background or resources. They had to rely on themselves, but it was different for a talented student like Wang Teng. The school and the martial arts

academy would automatically provide him with resources. When he entered university, a boss accepted him as the disciple. This treatment was amazing!

They didn't question him anymore. The hiding skill taught by a boss was definitely good enough. There wouldn't be any problem.

Anyway, they hadn't seen any hiding skills before. There were some sold on the internal web of the martial arts academy, but their price was sky-high. They couldn't afford them at all.

Real-Jealous.JPG

The boss just revealed something little, and it was already so high-class. Jealousy caused them to lose their mind!
