Chapter 231: The Chief Commander Of Crimson Tiger Troop

The alarm in the Crimson Tiger City blared till their ears hurt. The lights lit up the city, and large numbers of military martial warriors were sent out to search for the escapees.

This was an important military city. No mishaps were allowed to happen. Any problem must be killed in the cradle.

In a building in the middle of the city.

“Tap, tap, tap!”

A middle-aged man with a powerful and frightening aura strode into the office.

“Chief commander!”

“Chief commander!”

“Chief commander!”

...

Everyone in the office stood up at once and saluted the guy. When they saw the middle-aged man’s expression, they immediately got nervous.

This man was the chief commander of the Crimson Tiger Troop—Xiao Nanfeng!

Xiao Nanfeng looked around him and scanned everyone’s faces. The general cloak behind him fluttered slightly even though there wasn’t any wind. He sat on the host seat and opened his mouth to ask, “Can someone tell me how the prisoners managed to escape from prison?”

Everyone kept as silent as a cold cicada. They lowered their heads. No one dared to speak.

This was the domineering presence of a chief commander!

“Wang Yong, speak!” Xiao Nanfeng’s gaze turned to a slightly plump man standing below him.

Wang Yong was drenched in sweat, the muscles on his face trembling uncontrollably. He placed his feet together with a loud tap and saluted the chief commander. He said loudly, “I failed to fulfill my duty. Please punish me!”

Boom!

The moment he finished speaking, the commander’s force of presence, which felt like a huge mountain, bore down on him.

Wang Yong’s entire body bent over. His face was pale, and his legs kept shaking.

Yet, Xiao Nanfeng had already shown him mercy. If not, Wang Yong would have been forced to kneel on the spot. He would have been greatly embarrassed in front of his comrades.

At this moment, a man beside him stood up and said, "Chief commander, the most important thing now is to catch the escapees. Why don't you give Wang Yong another chance and let him redeem himself?"

The other officers agreed and helped to speak up for Wang Yong. Even if some of them had a bad relationship with Wang Yong, they would just keep quiet at moments like this. Framing your comrades was taboo in the military. Their actions had a strong effect on the chief commander's perception of them.

"Wang Yong, I will give you one more chance," Xiao Nanfeng said calmly. "However, if you can't catch the fugitives, you don't have to come back!"

The overwhelming aura also disappeared with that sentence. He got up, turned around, and left.

He came quickly and left quickly. He didn't stop at all.

"Yes!" Wang Yong replied loudly. He waited for Xiao Nanfeng to leave before he finally raised his head. He could feel that his back was drenched with cold sweat.

"Old Chen, thank you!"

He turned and looked at the man who had helped him just now.

"Hurry up and catch the fugitives. That's the crucial thing," the man waved his hand and replied.

"Okay. If I manage to survive this ordeal, I will treat you to some good wine." Wang Yong rushed out hurriedly after he finished speaking.

...

Run!

Wang Teng exchanged glances with his teammates. When they saw more and more military martial warriors moving towards this side of the city, they immediately made their decision.

The lights had already lit up a huge patch of the city. Their concealing skill was useful when it was dark, but there was nowhere for them to hide in such a bright environment. Also, there were a huge number of military martial warriors searching for them with a fine comb.

The only method was to run. They were already quite close to the back gate of the Crimson Tiger City. There was still a chance of survival if they forced their way through.

They dashed towards the back gate.

The elder didn't say anything. He just followed behind them in a relaxed manner. He seemed extremely carefree, as though he wasn't trying to escape.

"There they are!"

After passing through a street, a group of military martial warriors, who were patrolling around this area, saw Wang Teng and his friends. They shouted loudly.

"Catch them, don't let them run away!" A huge number of military martial warriors started surging towards the direction where Wang Teng and his teammates were escaping.

“Damn it, we got discovered so quickly.”

The group’s expressions were ugly. They had tried their best to choose the most secluded path. Yet, they still got noticed by a group of military martial warriors who suddenly appeared at the side of the street.

They ran frantically. The streets of the Crimson Tiger City were all straight and simple. There were no complicated layouts like main roads and small alleys. Thus, no matter how secluded the path was, it was still easy to get spotted.

Also, this was the headquarters of the Crimson Tiger Troop. They were at a numerical disadvantage. It only took a short moment before martial warriors started rushing over from all directions.

“What should we do? We seem to be surrounded,” Liu Yan asked as she ran with all her strength.

“We have to fight!” Lin Zhan gritted his teeth and said.

“The people in front, you have been surrounded. Surrender quickly. If not... we’ll shoot!” The people opposite them used the loudspeaker to speak to them.

Wang Teng and his teammates didn’t care about what he said. Shoot? Things had already reached this stage. Why would they be afraid of their shooting? There was no room for negotiations.

“Kill!”

The group roared in low voices before charging towards the military martial warriors in front. Force exploded from their bodies, forming airwaves in the surroundings. They seemed to have turned into rays of lights as they shot towards the military martial warriors in front.

Although their weapons had been confiscated, they still had been placed in the prison. When they escaped from their cell, they took their weapons back.

Boom!

It was a heated battle.

The military martial warriors didn’t expect Wang Teng and his teammates to be so straightforward. The fugitives charged into their group without a shred of hesitation. For a moment, the group of martial warriors was in a state of frenzy. Even though they were holding heavy machine guns, they couldn’t fire recklessly.

On the other hand, Wang Teng and the others had more room to wiggle since they had fewer people. They shuttled back and forth through the crowd and dealt powerful blows at the military martial warriors.

There were many military martial warriors, but most of them were low-ranked. Their battle experience wasn’t weak, but that depended on who they were facing.

Lin Zhan and his teammates were all 3-star soldier level and above. When they dashed into a group of 1-star and 2-star soldier-level martial warriors, they were like tigers entering a herd of sheep.

The military martial warriors got thrown out in the air, and screams of agony were heard continuously.

“Leave!”

Lin Zhan and others didn't continue fighting for long. They found their direction and charged towards their target like a sharp blade piercing through the air.

It had only been a few seconds since they managed to get rid of the first group of martial warriors. However, loud explosions could already be heard behind them.

More than ten compact SUVs raced on the streets. They were closing in on the fugitives quickly.

Bang, bang, bang!

A few gunshots rang out like loud drums.

Lin Zhan and the others hurled themselves on the ground at the side in a hurry.

Slash!

Yan Jinyue was a step slower, so she got hit on her arm. Blood splattered on the road.

“Little Yue!” Yan Jinming screamed. He dashed to her side immediately and pulled her up to evade the bullets flying towards them.

Wang Teng and Liu Yan rolled on the ground and took out their rune guns. They started firing behind them. They were extremely skilled in gun skills, especially Wang Teng. He used his spiritual power along with Gun Kungfu. Almost all his bullets hit their targets.

This brat! When the elder saw this scene, his eyes shimmered.

Wang Teng saw a military martial warrior falling after he got hit by his bullet. The compact SUV he was driving flipped sideways and was about to smash into the building at the side. At that moment, an idea flashed in his mind.

He moved his body and caught up with the SUV that was about to crash into the building. He controlled the SUV and then hurled himself over the car. He ran towards the military martial warriors on the other side.

He passed by a military martial warrior almost instantly. He grabbed the other party's throat with one hand and threw him out of the car.

The driverless SUV flipped on the ground.

“Snatch the car!” Wang Teng shouted.

His teammates' eyes lit up. Lin Zhan was closer, so he rushed towards the SUV that was lying sideways on the ground.

Liu Yan had also hit a few drivers, giving the Yan siblings an opportunity to snatch a car. They sped towards the back of the city.

Chapter 232: Force Wings, The Attack Of A 5-star Soldier Level Martial Warrior!

Wang Teng and his gang drove the compact SUV they had snatched and sped towards the back of the Crimson Tiger City.

The military martial warriors chased them closely behind.

Gunshots were heard everywhere!

The two parties were engaged in an intense battle. Many military martial warriors died in front of them, leaving attribute bubbles for Wang Teng to pick up.

Fire Force*10

Blank Attribute*8

Earth Force*8

Gun Skill*12

Water Force*6

Gun Skill*8

...

A large number of attribute bubbles entered his pocket. Wang Teng didn't have the time to look at them carefully, but in the chaos, his body trembled uncontrollably.

Fire Force: 3/2000 (4-star)

His fire Force got leveled up at this moment and went straight to 4-star!

The fire Force was his most powerful attribute, to begin with. Hence, it was reasonable that it got upgraded first.

The fourth Force nucleus on Wang Teng's spine lit up, and the scorching fiery red Force settled down in there. Wang Teng immediately felt the changes in his body... he felt stronger!

A hot breath spurted out of his mouth.

This feels amazing!

Come, let's turn this place upside down! Wang Teng's eyes were shining like bulbs. With adrenaline pumping through his veins, he roared in his heart and diverted Force into the rune mechanism in the vehicle. He accelerated once again.

Swoosh!

Swoosh!

Many figures were closing in on them quickly. Their aura was frightening. When they ran, the sound of air splitting apart could be heard.

The 4-star soldier-level martial warriors of the troop... were here!

"Leave first!" Lin Zhan's expression changed slightly. He slowed down his vehicle voluntarily.

One 4-star soldier-level martial warrior leaped high into the air and slashed the battle blade in his hand at Lin Zhan.

“Kill!”

“Come on!” Lin Zhan roared at the top of his lungs. He didn’t show any mercy. This wasn’t a time for him to hold back. He congregated his Force on his battleaxes and threw them at his opponent aggressively.

Boom!

The two of them collided. The martial warrior was forced to stop and even got thrown back.

Lin Zhan was in no better state. His entire body, along with his vehicle, flew out and collapsed on the ground.

“Hurry up and leave!” Wang Teng shouted. He swung the battle sword in his hand, and a ray of fiery red glow was marked on the ground.

Boom!

In an instant, raging flames lit up the sky!

A fire wall laid horizontally between the military martial warriors and Wang Teng’s teammates.

Lin Zhan shook his head and crawled up from the ground. He hurriedly got into his vehicle and caught up with Liu Yan and the others.

The 4-star soldier-level martial warrior was blocked by the fire wall for some time. Their expressions turned ugly as they chased after the escapees again.

“Chase!”

“We must stop those people today. If not, the Crimson Tiger Troop will be greatly humiliated!”

The martial warriors yelled, and their speed increased exponentially. It was like they were given nitrous injections.

You’re really not giving up! Wang Teng frowned. His face was icy and grave. A sword presence was brewing on his battle sword.

He added all the blank attributes he had accumulated so far on the sword presence of his Fire Kirin Sword Skill!

Half-formed... First-level... Second-level...

The sword presence kept increasing until it stopped at the third level!

The sword presence had reached the height of its power. When the 4-star soldier-level military martial warriors were less than 30 meters away from him, the sword presence was released in an instant!

Fire Kirin Sword Skill!

Third-level sword presence!

Boom!

The fire spread everywhere. A huge fiery red sword light shot straight into the sky and almost lit up the entire night sky.

“Go!”

When this attack came, the five 4-star soldier-level martial warriors were dumbfounded. Their expressions changed entirely.

The sword light came down on them within a split second. They had no path of escape. Force poured out of their bodies as they executed their battle techniques to resist the sword light.

But...

Splurt!

Blood spurted out of their mouths as they were forced to retreat. They were all seriously injured.

One sword attack against five 4-star soldier-level martial warriors. Wang Teng had just become a 4-star soldier-level martial warrior not long ago, so this battle power was already astonishing.

“Who is he? He’s definitely a genius to have such abilities at this young age!”

“This genius should be the honor of our race. Why was he locked up in prison?”

...

The few of them exchanged glances with one another. Suddenly, the sound of air splitting apart was heard behind them. A ray of light shot toward them from afar and landed in front of everyone.

The pair of shimmering wings unfolded and flapped gently behind the person who arrived.

“You didn’t manage to stop them?”

“No. The other party... is very strong!” The few of them shook their heads.

“Do they have a 5-star soldier-level martial warrior among them?” The person who came frowned and asked.

“No. The strongest person should be at the 4-star soldier level. However, he is very powerful. As for the one that injured us... he is just a young man!” the few of them replied.

“What?!” The person was shocked.

...

The back gate of the Crimson Tiger City was right in front of them. Lin Zhan and his teammates started beaming with delight.

“We’re almost there. Everyone, just a bit more, and we’ll be free!” Lin Zhan was elated.

The other team members felt invigorated.

Wang Teng was at the back, trying to catch up with them. When he held back the 4-star soldier-level martial warriors just now, he had picked up another round of attribute bubbles.

Earth Force: 2/2000 (4-star)

His earth Force was next to advance after his fire Force.

Within a short span of one hour, two of the Force limits that he had trouble breaking through were broken consecutively. But, this happened under such dire circumstances. Wang Teng didn't know whether he should laugh or cry.

However, it was a good thing for him. The stronger his ability, the higher the chances of them escaping!

“Stay!”

At this moment, a loud roar rang out from the sky.

A figure was flying towards them in the middle of the sky.

The Force wings were exceptionally eye-catching!

Everyone's expression changed, and the hope in their hearts hit rock bottom.

Force wings!

5-star soldier level!

“It's him!” Wang Teng immediately recognized the man. It was the man with a crew cut who gave the order to lock them in prison.

Boom!

The man with a crew cut threw a violent punch at them. The strong and frightening earth Force gathered in one spot like a meteorite smashing down.

The elder was prepared to act, but when he saw Wang Teng from the corner of his eyes, his face twitched a little. He stopped what he was doing.

The elder saw a huge cannon suddenly appearing in Wang Teng's hand. He poured his fire Force into the cannon frantically.

Fire God Cannon!

At this moment, a complicated fiery red pattern lit up on the surface of the Fire God Cannon. As more and more fire Force got injected into the cannon, the scarlet glow got thicker and thicker.

A few moments later, the Fire God Cannon finished charging!

The man with a crew cut was less than ten meters away on top of everyone. Wang Teng activated the firing runes without any hesitation.

An extremely thick blood-red glow spurted out of the Fire God Cannon, leaving behind a red trail. It shot right up into the air and collided with the other party's attack.

Boom!

The violent explosion echoed throughout the entire city.

“Oh my, we’re saved!” Lin Zhan and the others were blown away. They couldn’t describe the astonishment they felt in their hearts.

On the other side, Wang Teng didn’t waste any time. He fired another shot at the gate and started his engine. He took the lead in charging towards the gate.

“Stop daydreaming! Hurry and leave!”

Boom!

The Fire God Cannon blew the gate away. The military martial warriors standing around the gate didn’t have time to evade, so many of them got injured and killed. Under Wang Teng’s lead, everyone fled into the smoke and dust.

The explosion in the air finally dissipated, revealing the disheveled figure of the man with a crew cut. He had lost a huge chunk of his Force wings from the explosion. Many parts of his body were burnt too. His head was covered with dust, and ashes and traces of blood could be seen at the edge of his lips.

The military martial warriors that were a little late to arrive at the scene were flabbergasted when they saw this. Their jaws almost dropped to the floor, and they felt their throats turning dry. They couldn’t say a single word.

This powerful 5-star soldier-level martial warrior got injured so seriously?

This... was incredible!

“Chase after them!” The man’s gaze was cold. There were no emotions on his face as he gave his order sternly.

Chapter 233: Escape

At this moment, Wang Teng and his teammates had already arrived outside the Crimson Tiger City.

Gunshots were heard continuously, and all forms of Force rays rained down on them from every direction.

Wang Teng and his teammates drove their vehicles and sped through the bullet rain and Force explosions. Fortunately, the reaction speed of martial warriors was swift, so they managed to evade the dangers, albeit from a hair’s breadth.

However, the impact of the Force explosions formed many airwaves that cut their skin like flying daggers.

In an instant, they were covered with blood.

Just like what they expected, there weren’t many garrisons and sentry posts at the back of the city. Also, the military martial warriors from other places couldn’t rush over in time.

Their best hope was to stop Wang Teng and his teammates in the city. Unfortunately, they had underestimated Wang Teng's ability.

The fugitives had escaped outside the city, so the difficulty of catching them now increased tremendously.

Wang Teng and the others' bodies were covered with blood, but they finally managed to leave the Crimson Tiger City far behind.

Not long after they escaped, many heavy armor vehicles and compact SUVs shot out of the Crimson Tiger City to chase after Wang Teng.

In the city.

"Fire God Cannon!" The man with a crew cut had an eerie expression. He was still recovering from his injuries at the same spot. He admitted that he had underestimated Wang Teng and his teammates, resulting in some losses from the Fire God Cannon.

A few rays of light fell from the sky at this moment.

There were no wings on the person. He was walking in the air.

"Only a few prisoners managed to escape. How can we trouble senior officers like you!" The expression of the man with a crew cut changed slightly, and he saluted the newcomers immediately.

"Li Tonghai from cell 99 has escaped!" one of the senior officers said.

"Let's not waste any time. Li Gang, which direction did they go?" The other senior officer was more impatient. He asked the man with a crew cut directly.

"Northwest!" the man with a crew cut, called Li Gang, replied hurriedly.

"We'll leave first. Catch up with us quickly."

The moment he finished speaking, they turned into a flash of light and soared into the sky, disappearing into the distance.

Li Gang looked in the direction where they vanished. A hint of envy flashed past his eyes.

Drop your wings and walk in the air!

This was the mark of a 7-star soldier-level martial warrior and above. He was only at 5-star soldier level. There was still a considerable distance between him and that stage.

He refocused on healing his wounds. Then, a few more military martial warriors flapped their wings and flew over.

"Hahaha, Li Gang, why are you in such a bedraggled state!" A laughter was heard from above him. Someone was gloating over his plight.

"Go away!"

Li Gang was already frustrated. When he heard his comrades teasing him, He glared at them and shouted.

“Hahaha...”

“Li Gang, be quick. Stop dawdling.”

The people went away quickly.

Li Gang’s expression changed a few times. He spread out his wings behind his back. They had been repaired completely. He chased after his comrades.

...

There was a vast chain of mountains behind the Crimson Tiger City. Wang Teng and his teammates had charged in that direction.

“Where are we going now?” Lin Zhan’s face was a little pale as he asked.

“After crossing this chain of mountains, we will head west and return to Yong City.” Wang Teng confirmed the direction before continuing in a low voice, “The Crimson Tiger Troop is very powerful. We might not be able to return to Earth if we go to other places. However, I had the pleasure of meeting General Shen from Yong City once. We will only have a chance if we go to Yong City.”

The others nodded when they heard this. They had no objections.

“Little brat, let’s part here,” the elder who had been sitting behind Lin Zhan all this while said abruptly.

“Elder, where are you going?” Wang Teng couldn’t help but ask.

“Anywhere. We will meet again if we are fated.”

The elder’s body slowly floated into the air. Then, he glanced behind him as a force of presence exploded from his body. He found his direction and turned into a flash of light.

“Remember, my name is Li Tonghai!”

His voice echoed beside Wang Teng’s ears.

The elder is indeed a powerful warrior. Lin Zhan’s eyes widened in surprise. He looked at the elder who suddenly flew away and felt a little fortunate.

Had he really provoked the other party, he wouldn’t have been able to withstand a single slap from him with his current ability.

Wang Teng raised his head and looked up. He saw multiple streams of light shooting out of the Crimson Tiger City. At first, they were heading in their direction, but now, they changed their target and flew towards the direction where the elder left.

Li Tonghai! Wang Teng’s eyes flickered. He repeated the name in his heart.

“He attracted the attention of the powerful warriors in Crimson Tiger City!” Liu Yan said joyfully.

However, their expressions changed almost immediately. After the first few streams of light, multiple streams of light leaped out of the Crimson Tiger City again and flew in their direction.

“More powerful warriors are coming. Let’s leave quickly!”

They dived into the forest and traveled through it quickly.

After some time, Wang Teng frowned uncontrollably and said, “We can’t continue like this. It’s too slow, and the target is too obvious.”

The pursuing troops were getting closer and closer. 5-star soldier-level martial warriors were able to fly in the air. Hence, they were extremely quick.

“What should we do?” asked Lin Zhan.

“Abandon the vehicle!” Wang Teng hesitated before saying.

“Abandon the vehicle? Are you sure?” Lin Zhan’s expression changed slightly. Based on their current state, abandoning the vehicle wasn’t a good option.

“Little Yue is injured. We have exhausted our stamina and Force, so if we abandon the car, there’s a high chance that we might get caught,” Yan Jinming said.

“Trust me!” Wang Teng said seriously.

“Okay!”

The others hesitated for a few seconds before they decided to leave the car.

“Take your weapons out and stand on them. I will let you experience the awesome feeling of riding on your weapons,” Wang Teng said.

After some time, they stood on their respective weapons and flew through the forest.

“Spiritual power is seriously an amazing thing!” Liu Yan exclaimed uncontrollably.

“If not, how can someone with spiritual power be considered a one-in-a-million talent,” Lin Zhan said with jealousy.

Mind you, they were traveling at a much faster speed than before using this method. Also, Wang Teng repeated the same thing and executed his concealing skill. They were engulfed in the darkness once again.

A few figures landed at the spot where they had abandoned their cars.

“They have disappeared!”

“The Force detection device can’t sense their Force fluctuations.”

“They must have used a concealing skill. If not, they wouldn’t be able to escape from prison successfully.”

“This is getting troublesome. Concealing skill and the complex topography in this area will make it very hard for us to find them again.”

“Let’s split up!”

They quickly conversed before splitting up instantly and searching the surroundings.

...

In the depth of the forest, a figure landed beside a pool. He scanned his surroundings, but he didn’t notice anything.

Roar!

Suddenly, an angry roar came from the bushes beside him. A black shadow pounced on the figure.

“Go away!” the person shouted furiously. He smashed the black shadow to death with a single punch. Then, he cursed and turned around to leave.

At the bottom of the pool, Wang Teng and his teammates held their breaths and hid in the dark water.

“That guy is gone!” Lin Zhan spoke using voice transmission.

“There’s no hurry. Let’s wait first,” Wang Teng shook his head and said.

His face was a little pale. His spiritual power and Force were seriously depleted.

Fortunately, there was an increase in his spiritual power and dark Force recently. If not, he wouldn’t be able to bring his teammates along.

After a few minutes, the figure who left came back to the side of the pool again. He muttered in a low voice, “It looks like they are really not here.”

This time, he didn’t come back anymore. However, Wang Teng and his teammates still waited for a long time.

More than ten minutes later, they slowly floated up from the bottom of the pool. Wang Teng and Liu Yan used their fire Force to dry the clothes on their bodies.

However, Lin Zhan and the Yan siblings were still drenched. They said with hidden bitterness, “Don’t just take care of yourself. Dry our clothes too.”

“Hehe.” Wang Teng and Liu Yan sniggered. Then, they helped them in drying their clothes.

Moments later, they merged into the darkness once again...

Chapter 234: Dominance Blade Li Hei!

Two days later, they finally saw the Yong City some distance away.

During these two days, Wang Teng and his teammates remained hidden to evade the military martial warriors. They took a long detour before they finally came back to Yong City.

“They know where we came from, so they might try to intercept us outside the city gates,” Lin Zhan said.

“That is highly possible.” Wang Teng nodded.

“Is the Crimson Tiger Troop able to cover the sky with one hand?” Liu Yan said furiously.

“Let’s contact Jixin Martial House first and ask them to come out and fetch us,” Wang Teng contemplated before replying.

Lin Zhan nodded. He opened the communication function on his wristwatch and sent a signal.

The wristwatch was a rune item and could be used as a communication device in the Xingwu Continent. However, there was one con when using it here. If the distance was too much, the other party wouldn’t be able to receive the signal.

This was why they couldn’t contact Jixin Martial House in the past two days.

Sometime later, Lin Zhan smiled brightly. “I’ve contacted them. They will come out and fetch us very soon!”

“That’s great. I don’t believe that the Crimson Tiger troop can disregard our Jixin Martial House,” Yan Jinming said.

“We can’t rely solely on Jixin Martial House to solve this matter.” Wang Teng shook his head.

Lin Zhan and the others had grave expressions on their faces. They also knew that this matter was a little troublesome. After all, the military had sent a large number of advanced-rank martial warriors to chase them.

Also, they had released Li Tonghai!

That old fellow was locked in cell 99. He was not an ordinary prisoner.

Although they were forced to make the decision because they had no other choice, the Crimson Tiger Troop wouldn’t care about their reason.

In summary, if their support wasn’t strong enough, they wouldn’t be able to escape this ordeal.

Half an hour later, a large group of martial warriors from Jixin Martial House walked out of the city. The passers-by around them hurriedly parted to the sides to make way for them.

“What’s going on? Is the Jixin Martial House having an excursion?”

“Are you blind? Can’t you see how fierce they looked? Do they look like they are going for an excursion?”

“It looks like something big is about to go down!”

...

Everyone started gossiping in low voices.

A few martial warriors from the Crimson Tiger Troop also saw this scene. They were hiding in the shadows. They asked Li Gang uncontrollably, “Lieutenant Li, what should we do?”

“It looks like they are back!” Li Gang’s expression was extremely ugly. He said in a low voice, “Let’s go. Let’s see if the Jixin Martial House dares to hinder the Crimson Tiger’s operation.”

Li Gang walked out with many martial warriors from the Crimson Tiger Troop. They walked towards the people from Jixin Martial House without backing down.

A muscular man from the Jixin Martial House's side walked forward and asked Li Gang, "How do I address you?"

"Li Gang, Crimson Tiger Troop, lieutenant!" Lieutenant Li said coldly.

"Chen Tian, guardian of Jixin Martial House." The muscular man continued, "May I know what crime my Jixin Martial House martial warriors have committed that caused you to mobilize so many people?"

"Complying on the surface but opposing in heart, delaying the battle and causing the death of many of my military martial warriors, escaping from prison thereafter and releasing a major criminal, are these crimes enough?" Li Gang replied coldly.

The people around them went into an uproar.

"The martial warriors from Jixin Martial House committed such huge crimes?!"

"This is big news!"

"If they don't take care of this matter properly, the reputation of Jixin Martial House will be greatly affected."

...

Chen Tian's expression changed slightly. However, he still braced himself and said, "This is just your side of the story. I will have to confirm if this is the truth."

"Why will I lie to you?" Li Gang flew into a rage. His aura erupted and surged towards Chen Tian.

Chen Tian wasn't one to take it lying down. His aura exploded too. It was as powerful as Li Gang. He said, "Lieutenant Li, hold your horses. Let's call the people concerned and talk things out."

"Alright, call them over," Li Gang's gaze flickered as he answered.

Chen Tian sent a message through his wristwatch. Then, he waited.

...

"Let's go. Guardian Chen Tian asked us to go over," Lin Zhan said after he received the message.

Wang Teng and the others nodded. They ran towards the city gate.

"They are here." Chen Tian smiled slightly as he saw the figures rushing towards them quickly.

When Wang Teng and the others got closer, Chen Tian frowned as he looked at them. "Why are you in this state? Never mind. Please explain what happened—"

"Take them down!"

Before he could finish speaking, Li Gang gave his order.

The martial warriors under him raised their rune guns immediately and aimed at Wang Teng and his teammates.

Lin Zhan and the others turned pale in shock. They didn't expect Li Gang to act so recklessly.

"Lieutenant Li, what is the meaning of this?" Chen Tian shouted as his expression changed.

"Nothing. If they have anything to say, they can say it back at the Crimson Tiger Troop's headquarters," Li Gang said expressionlessly.

"Is the Crimson Tiger Troop always so overbearing?" Chen Tian's face was black. He said coldly, "They are our Jixin Martial House's martial warriors. Don't even think of taking them away before things get clear."

"Take them! If anyone dares to resist, kill them!" Li Gang ignored him and gave his order once again.

The military martial warriors surrounded Wang Teng and his teammates. Their rune guns were aimed at the vital points of their bodies. At such a close distance, it was very hard to evade the bullets.

"This is too much!"

Chen Tian glared at them indignantly. The aura around him exploded, and he charged towards the military martial warriors who were surrounding Wang Teng and his friends.

Boom!

Li Gang blocked his path. When their fists collided, it was like bombs were going off in the air.

Wang Teng and the others saw them start their fight, so they dashed towards the military martial warriors too.

"Pfft!"

However, the instant they took a step forward, they were seriously injured. Blood spurted out of their mouths, and they flew back.

5-star soldier level! Wang Teng's pupils froze. He saw the man who had pushed them back easily.

A 5-star soldier-level martial warrior was hiding among the military martial warriors!

"Are you going to surrender, or do you need me to capture you personally??" The 5-star soldier-level martial warrior looked at Wang Teng with a mocking smile.

Wang Teng didn't say anything. His Shooting Star Spiral was getting restless. It was on the verge of flying out.

He didn't mind killing a 5-star soldier-level martial warrior today!

"It looks like I have to do it personally. Sigh, youngsters refuse to be convinced unless they are faced with grim reality." The 5-star soldier-level martial warrior shook his head. Suddenly, he disappeared on the spot.

Bang!

The next moment, he appeared again, but he didn't manage to catch Wang Teng. Instead, he was sent flying backward at an even faster speed.

"Young man, didn't your chief commander tell you that your blade should be facing the other races, not one of your kind?" An old voice sounded behind Wang Teng.

"Uncle Hei!" Wang Teng's expression changed.

"Uncle Hei!"

Chen Tian, Lin Zhan, and the others called out in pleasant surprise.

The elder who suddenly appeared was Uncle Hei from Jixin Martial House.

"How do I address you?" Li Gang asked sternly when he saw the elder.

"Li Hei, the Xingwu Continent commanding guardian of Jixin Martial House," Uncle Hei smiled and replied calmly.

"Commanding guardian!" Li Gang's expression changed.

He knew that the Xingwu Continent commanding guardians of the top three martial arts academies were at least 6-star soldier-level martial warriors.

If so, this ordinary-looking old man was actually a 6-star soldier-level martial warrior? Maybe... he was stronger than that!

"Wait, Li Hei? You are that Li Hei!!" Li Gang seemed to have thought of something, and his expression changed entirely.

"Oh, it has been so many years, yet someone still remembers an old fellow like me?" Li Hei said in astonishment.

"In the past, on the Guangtong battlefield, the 9-star soldier-level Dominance Blade Li Hei executed a general-stage martial warrior from the devil race!" Li Gang emphasized every single word.

"Old memories are nothing worth mentioning," Li Hei placed his hands behind his hunched back and replied calmly.

The jaws of Lin Zhan and his teammates almost touched the floor.

Wang Teng was stunned for a long time. He was flabbergasted.

Oh my god.

Dominance Blade!

A 9-star soldier-level martial warrior who killed a general-stage martial warrior from the devil race!

Uncle Hei had such a glorious achievement!

Who would think that this ordinary-looking Uncle Hei would be such a formidable martial warrior? It was unimaginable.

“It has been ten years, but the aura of Dominance Blade hasn’t changed.” A voice rang out from far away in the sky. It seemed to be echoing beside everyone’s ear.

Three black dots appeared on the horizon. Within a few breaths, they appeared in front of everyone and landed gently.

“Walking in the air. 7-star soldier level!” The crowd was dumbfounded and exclaimed uncontrollably.

“You’re speaking too highly of me. Why do you need to make a trip here? It’s just a small quibble between the younger generations,” Li Hei said.

“We don’t have a choice. This isn’t a small matter. Our chief commander personally asked about this, so we have to make a trip personally,” one of the men smiled and replied.

At this moment, a military martial warrior from Yong City ran out and said, “I’ve just received this news. Our General Shen invites everyone to the military camp. He says that we are all on the same side, so we should sit down and talk things out. There’s no need to fight.”

“I didn’t think that we would alert General Shen. Lead the way. It’s indeed not appropriate to talk about this outside,” the man gave a bitter smile as he replied.

Chapter 235: Interrogation!

In the military department of Yong City.

Everyone was brought to a meeting room.

“Please wait for a moment. General Shen will be here momentarily.” The military officer went out of the room.

The atmosphere in the meeting room was a little tense. The members of Jixin Martial House sat on one side while the martial warriors of the Crimson Tiger Troop sat on the other. The segregation was clear. There was no nonsense spoken.

Not long after, footsteps were heard outside the door. The person who came in first was General Shen, whom Wang Teng had met once before.

“General Shen!”

The 7-star martial warriors from the Crimson Tiger troop stood up quickly and greeted him respectfully.

“Have a seat, have a seat!” General Shen smiled and pressed his hand down.

“General Shen!” On the Jixin Martial House’s side, Li Hei got up and greeted the general too.

“Old Li, it has been a while since we met. We are both in Yong City, but you’ve never visited me,” General Shen smiled and said.

“I don’t dare to disturb you. You are busy with military affairs,” Li Hei replied.

“Seriously!” General Shen looked at the lethargic Li Hei and felt pity in his heart.

He sat on the host seat and glanced around him. He then said, "Sit down. Since everyone is here, we can lay everything on the table and talk things out."

"Li Gang, you can do the explanation," a 7-star martial warrior from the Crimson Tiger Troop said.

"Yes." Li Gang immediately stood up and said, "A few days ago, my men found signs of a dark apparition on a mountain. We sent people to investigate and noticed that there was an ore mine there. I didn't want to alert the Xingwu Continent, so I only sent my subordinate, Liu Huaixin, and a small team under him to execute this mission.

"They might have noticed that there were many dark apparitions in that place. There was a lack of manpower on their end, so they temporarily enlisted the Wolf Fang Team and the Tiger Warrior Team, who were around the area.

"But, the Tiger Warrior team disobeyed my subordinate's commands. They didn't follow Liu Huaixin's order to attack the dark apparition. Instead, they led the dark apparition to my military martial warriors and the Wolf Fang Team. When both sides got heavily wounded, they grabbed the opportunity and killed the dark apparition. My men and the Wolf Fang Team suffered huge losses. On the other hand, the Tiger Warrior Team remained intact. They are all standing here properly in front of us."

At this point, General Shen looked at Wang Teng and his teammates uncontrollably. He frowned slightly.

If this was true, the Tiger Warrior Team did commit a huge crime. Their actions were loathing, so what the Crimson Tiger Troop did was reasonable.

On the other hand, Li Hei's expression remained the same. He didn't seem worried at all.

Li Gang continued, "In a fit of anger, I locked them up and waited for the higher authorities to confirm their crimes before giving them their punishment. Yet, they chose to escape from prison. If they weren't guilty, why did they need to escape? The Crimson Tiger Troop suffered heavy losses when we chased them and tried to capture them back. They even released a major criminal.

"General Shen, don't you think that they deserve to die after hearing all their crimes?"

"Li Gang, mind your words!" The 7-star martial warrior from the Crimson Tiger Troop shouted.

"I'm sorry, I was too agitated," Li Gang said hurriedly. He knew that he had made an indiscreet remark.

General Shen waved his hand. He said to the Tiger Warrior Team, "Is he telling the truth?"

Lin Zhan and his teammates were infuriated when they heard Li Gang twisting the facts.

"Wang Teng, Lin Zhan, if you have anything to say, say it. If you are framed, our Jixin Martial House won't let it slide. Even if I can't handle it, the president will stand up for you," Li Hei said calmly.

"Bullshit, how can I frame them?" Li Gang was boiling in anger. Even though the person in front of him was the once-famous Dominance Blade Li Hei, he still glared straight at him.

"Enough, let them speak," the 7-star martial warrior said.

Wang Teng sneered. He took a step forward and said, "General Shen, Uncle Hei, you will know whether he's speaking the truth after you listen to this recording."

He tapped his wristwatch, and a conversation started playing from it.

“I have already sent someone to investigate the three paths. High-level dark apparitions are guarding the hole on the left. The Tiger Warrior Team’s fate is grim. We will go and kill the dark apparitions after they exhaust the dark apparitions’ power.”

“Haha, the Tiger Warrior Team will become history after today.”

“Squad leader Liu, I will remember your favor.”

...

“There’s no news from the Tiger Warrior Team until now. It looks like they have met some trouble. The high-level dark apparition didn’t charge out, so this means they didn’t fail completely. It’s time for us to enter.”

“Why don’t we wait a while longer? Let’s wait until the dark apparition kills them before we act.”

“Let’s go in first. We will decide if we should act based on the situation.”

...

“You and Liu Huaixin are the ones behind this, right?”

“So what if we are?”

“Don’t look as though you aren’t afraid of death. I hate this kind of person. You are going to die, yet you’re still acting.”

“Despicable!”

“Sigh, Leader Lin, you’re right. I am despicable. In your next life, remember not to offend a despicable person, especially one that has wealth and power.”

...

After he played the recording, Wang Teng retreated to Lin Zhan’s side without saying another word.

The three 7-star soldier-level martial warriors from the Crimson Tiger Troop frowned slightly.

“Impressive!” Li Hei scoffed. He was seething with anger.

General Shen was indignant too. He scolded loudly, “What are you doing! Huh? What is this!”

Li Gang’s expression underwent a huge change. His color turned extremely pale, and he felt the blood in his body rushing into his head. He staggered uncontrollably and shouted in disbelief, “This is impossible!”

“How is it impossible?” Wang Teng asked coldly, “Did you see it personally? Or did you hear it personally?”

“If you weren’t so opinionated and didn’t even give us a chance to explain, would things have reached this state?”

“If you hadn’t believed the one-sided story, if you didn’t give us the death penalty because of what Liu Huaixin said, would we have to escape from prison?”

“If we don’t escape, are we supposed to wait for our deaths in the cell?”

The series of questions forced Li Gang back. His face gradually changed from white to red and then to purple-black. He felt a strong sense of humiliation.

“How dare you!” when the 7-star martial warrior from the Crimson Tiger Troop saw this scene, he shouted. His aura exploded at the same time.

“Me?” Wang Teng didn’t back down. He glared at the other party coldly. “Am I being impudent, or did you go overboard?”

A fierce and powerful aura surged behind Wang Teng. The force slashed towards the 7-star soldier-level martial warrior like a sharp blade with killing intent.

“Do you think that I won’t dare to harm you?” Li Hei said gravely.

The 7-star martial warrior’s face turned pale. But, he immediately got angry from embarrassment. “Li Hei, how dare you oppose our Crimson Tiger Troop!”

“So what if I do? I’ve fought on the battlefield with death all around me. When have I ever been afraid?” There seemed to be an overpowering dominance hiding in Li Hei’s aged body. He wasn’t afraid of anything. The colors of the military martial warriors’ faces changed again and again. His overwhelming aura was starting to scare them.

Chapter 236: I Will Get Justice For You!

“Enough!” General Shen bellowed, “Where do you think this is? How old are you? Why do you still speak without thinking?”

The 7-star martial warrior from the Crimson Tiger Troop snorted and kept quiet. He sat down.

“General Shen, you be the judge. Who’s right and who’s wrong?” Li Hei asked.

“The matter is obvious. Liu Huaixin from the Crimson Tiger Troop and the Wolf Fang Team framed the Tiger Warrior Team. Li Gang neglected his duties and believed his subordinate without evidence. This was the cause of all the grave consequences that followed,” General Shen said.

“That’s impossible. Liu Huaixin will not lie to me. He doesn’t have the guts to lie to me. The Tiger Warrior Team must have forged the recording,” Liu Huaixin suddenly cried.

General Shen frowned unconsciously.

“Shut up!” The 7-star martial warrior from the Crimson Tiger Troop yelled, “Is it already not embarrassing enough for you?”

He turned his head immediately and said to General Shen, “This matter implicates our officers, so I will need to go back and confirm the truth. I’ll let our chief commander make the final decision.”

“Are you planning to walk away now that you’re in the wrong?” Li Hei mocked.

“Li Hei, don’t go overboard.” The 7-star martial warrior flared up instantly.

“Alright, Old Li, let it go. The Crimson Tiger Troop might be in the wrong, but you don’t have to fight to the death. This isn’t a small matter, so it should be investigated thoroughly. I believe that the Crimson Tiger Troop will give you a satisfying answer.” General Shen felt helpless too. This wasn’t an issue that could be explained with a few sentences. He could only gloss over the conflict.

“Hmph, your Tiger Warrior Team released a major criminal, so you will have to give us an answer for that.”

The 7-star martial warrior from the Crimson Tiger Troop scoffed and flicked his sleeve. He left with his comrades and Li Gang, who seemed to have lost his wits.

“Sigh, look at how complicated things got.” General Shen sighed and shook his head.

“General Shen, thank you. We will leave first,” Li Hei got up and said.

General Shen replied, “You don’t have to be so polite. I didn’t do anything.”

“Without you, the Crimson Tiger Troop wouldn’t have spoken to us so politely.”

Li Hei thanked the general once again. Then, he left with Wang Teng and his teammates.

...

On the way back, Li Hei said to Lin Zhan and the others, “You don’t have to worry. The Jixin Martial House will not take things lying down.”

“Thank you, Uncle Hei,” Lin Zhan said gratefully.

Honestly, in front of a powerful organization like the Crimson Tiger Troop, Lin Zhan and his team members had no confidence at all. They were fortunate enough to remain alive this time.

Thus, when Li Hei promised to give them justice, they had nothing to feel unsatisfied about.

Li Hei waved his hand and smiled. “How did you escape and come back? I’m extremely curious.”

Lin Zhan told him about their daring escape. However, he hid the fact that Wang Teng had spiritual power. After all, he had reminded him beforehand regarding this matter. He didn’t want too many people to know.

This time, Lin Zhan and his friends had relied on Wang Teng to stay alive. They weren’t just grateful towards him. Instead, they treated him as one of their own. Thus, they wouldn’t reveal this secret to anyone.

After hearing Lin Zhan and the others explaining what happened, Li Hei was astounded. “It’s surprising that you possess such ability at this young age.”

Wang Teng remained humble.

Li Hei smiled. He didn’t probe further. As someone who had experienced mountains of corpses and seas of blood, he had seen too many geniuses. He had even killed many of these geniuses. Wang Teng’s ability had indeed surprised him, but it wasn’t enough for him to kick up a fuss.

Also, grooming talents wasn't in his job description. He was too lazy to care about it either. Someone from the Jixin Martial House would take care of it.

Everyone went back to the Yong City Jixin Martial House branch to hand over their mission. Then, they prepared to go back to Earth and recuperate.

All of them had suffered many injuries while they were on the run. They would need at least half a month to get back in tip-top condition.

After passing through the dimensional rift, everyone felt as if a century had passed.

"Every time I come back from the Xingwu Continent, I will feel fortunate to be alive. This time, the feeling is exceptionally strong," Lin Zhan exclaimed.

Wang Teng felt emotional too. His understanding of the martial warriors' world was getting deeper with every one of his trips.

"Leader, let's part here. I will go back to school," Wang Teng said.

His body was riddled with injuries. If he went home like this, his parents would worry.

In school, he could use his school credits to buy all sorts of healing medicine. It was much more convenient. There were three more days of holiday, so many students hadn't returned to school yet. No one would disturb him there. Going back to school was the best choice.

"Alright. Keep in touch," Lin Zhan said.

Wang Teng nodded. He sat in his car and left.

"He has great potential. Our team will not be able to keep him for long," Yan Jinming said.

"Yeah!" Lin Zhan and the others sighed.

...

Wang Teng went back to school. When he entered the main gate, he greeted the guard.

"You're back. Huh? Why are you injured so badly?" the guard frowned and asked.

"It's nothing. An accident happened, but it's already solved." Wang Teng shook his head. He didn't explain to the guard. "Uncle, I'm a little dirty, so I will go and take a bath first. I'll chat with you another time."

"Alright, go quickly." The guard shook his head as he watched Wang Teng walking away.

Wang Teng went to the logistics department and exchanged his school credits for two bottles of healing medicine, one for internal and one for external usage. He spent 300 credits in total. His heart ached for the loss of points.

Then, he went back to his dormitory.

He had defeated a few top 100 students, but he didn't change dormitories with them. He continued to stay in Section Three room no. 1.

After all, he was going to challenge all of them one by one. It would be troublesome for him to change dormitories every time he defeated someone. Thus, he decided to wait until he challenged the no. 1 senior.

Wang Teng took his clothes and headed to the bathroom. After undressing, he opened the shower. Cold water splashed down from his head.

The wounds on his body hurt slightly as the cold water flowed past them. The muscles on his face twitched in pain.

The blood and dirt flowed down along with the water.

Ten minutes later, he finished his bath. He dried his hair and walked out of the bathroom.

He took out the medicine and applied it to his wounds. Then, he bandaged them up. A few moments later, a bandage monster appeared freshly out of the oven.

Will people think I'm a pervert? Wang Teng smiled bitterly as he looked in the mirror.

It was getting late, and he was also exhausted. When he finally got to relax, he laid on the bed and slept soundly.

The next day, it was already past 11 am when he woke up. His stomach was growling in protest.

I shall go to the cafeteria to eat first.

Just when he was about to leave his room, he noticed a few messages on his wristwatch. They were all sent by Dan Taixuan.

She already knew that he was back.

However, Wang Teng was curious. Why didn't she go out during the national day holiday? Did she stay in her room all the time?

The first message was sent at 8 am: Come to my place.

9 am: Why aren't you here?

10 am: My stupid disciple, if you don't come soon, you are dead.

...

At this point, cold sweat was starting to appear on his forehead. He had a bad premonition!

He hurriedly jumped down from the bed and changed his clothes. He then dashed out of his room.

I wonder if I can get a free meal today? Wang Teng touched his stomach as he ran towards Dan Taixuan's house.

Honestly, he had been eyeing Dan Taixuan's Force dishes for a long time. They were made by a Force chef master, so normal people wouldn't be able to taste them.

Pfft, shouldn't he think of how to protect his life first? Why was he still thinking of food?

When he reached Dan Taixuan's place, Wang Teng paused to catch his breath. He placed a fawning but reserved smile on his face and pressed the doorbell.

As the door opened, Dan Taixuan's lazy and playful voice floated out.

"My stupid disciple, you've only been out for a few days, yet you dare to ignore my message already..."

However, when she saw Wang Teng's appearance, she couldn't help but chuckle. "How did you end up in this state?"

"Don't mention it. I was unlucky!" Wang Teng changed into his slippers and closed the door. He explained what happened briefly, but suddenly, he noticed that there was no sound behind him.

He turned around and saw Dan Taixuan squinting at him. She was giving off a frightening aura.

"Erm, I'm hungry. Do you have anything to eat?" Wang Teng felt that something huge was about to happen, so he hurriedly changed the topic.

At first, he wanted to use Dan Taixuan to seek justice for himself. However, since General Shen and Uncle Hei had spoken up for him and solved the matter, there was no need to bring out his powerful support anymore.

"Stop playing dumb. This is an important matter. How dare you keep me in the dark? Do you still regard me as your master?" Dan Taixuan said with a stern face.

Although Wang Teng explained light-heartedly, she clearly knew what a military troop was like. She could imagine the dangers he had experienced there.

"Don't get angry, don't get angry. The Jixin Martial House has already helped me. There's no need for you to show your face." Wang Teng smiled in embarrassment.

"Go away! I am different from the Jixin Martial House. They might have helped you to solve the matter, but that doesn't mean that I should remain silent and let them bully my disciple," Dan Taixuan said furiously.

Wang Teng didn't expect such a big reaction from her. He didn't know what to say.

"Follow me!" Dan Taixuan got up directly without any hesitation.

"Where are we going?" Wang Teng asked curiously.

"I will get justice for you!"

Dan Taixuan grabbed Wang Teng's shoulder, and they appeared at the door in a split second. The next second, they changed into a rainbow and shot up into the sky.

"I will let everyone know that no one can bully my disciple!"

...

Dan Taixuan passed through the dimensional rift with Wang Teng and arrived at the Xingwu Continent. They changed into a rainbow again and shot towards the horizon.

“This aura... it’s her!” In the Yong City’s military camp, General Shen’s face turned pale from fear. He flew into the air and looked at the rainbow in the distance. He was flabbergasted. “There’s another person with her. It looks like Wang Teng. That direction... the Crimson Tiger Troop is in trouble!”

In the Yong City branch of Jixin Martial House, Li Hei stood on the roof of the central building and sniggered as he looked into the sky. “I didn’t know that fellow had such powerful support. Interesting, this is so interesting!”

...

Crimson Tiger City!

Two hours later, Wang Teng returned to this place!

But, this time, it was different.

A roar echoed through the air above the Crimson Tiger City. It spread throughout the city.

“Xiao Nanfeng, get out here!”

Chapter 237: Crazy Woman!

“Xiao Nanfeng, get out here!”

Dan Taixuan’s voice reverberated throughout the entire Crimson Tiger City. Everyone was appalled as they looked up.

Who is this?

How dare she come to the Crimson Tiger Troop and call their chief commander’s name directly!

She even asked him to get out there!

Who on earth is so audacious?

Many figures shot into the air from the military camp below, accompanied with angry howls.

“How dare you!”

“Impudent!”

“How dare you cause trouble here!”

These figures either had wings on their backs or were walking in the air. They were 5-star soldier-level and above martial warriors.

Their auras pervaded the air and surged towards the offender.

“Go away!”

Dan Taixuan furrowed her beautiful brows. Her red lips moved slightly, and sound waves bombarded the air.

Boom!

Boundless pressure crashed into the powerful martial warriors from the Crimson Tiger Troop like a vast sea. Their faces turned pale as they retreated uncontrollably.

“So powerful!”

“Who on earth is she?”

Some people tumbled to the ground like shooting stars before they could see Dan Taixuan’s face clearly.

Only a few 7-star and 8-star soldier-level martial warriors managed to stabilize their bodies forcefully after plunging a few meters down.

“Why is she here?!” They finally recognized Dan Taixuan. They were dumbfounded, and their faces turned white in fear.

Suddenly, another domineering aura erupted on the ground. It rapidly neared them.

“Dan Taixuan, why are you running wild in my military camp?” The chief commander of the Crimson Tiger Troop appeared instantly in front of everyone with a grim expression.

“What am I doing here?” Dan Taixuan replied fiercely, “You injured my disciple, yet you’re asking me what I’m doing here?”

Everyone finally saw Wang Teng, who was standing beside Dan Taixuan.

Wang Teng was at a loss. Dan Taixuan did tell him that she was going to seek justice for him, but he felt a little extra currently. He didn’t have the power to speak in front of these bosses.

They seemed to have ignored his presence altogether.

Undeniably, Dan Taixuan was too eye-catching. Everyone’s gaze was attracted to her. However, it still felt a little irritating to be treated as a backdrop.

Xiao Nanfeng didn’t expect Dan Taixuan to have a disciple. After all, she never planned to have one. He was a little astounded, but he felt confused too. He frowned and asked, “Your disciple is injured, but what does that have to do with me?”

He didn’t recognize Wang Teng.

The three 7-star soldier-level martial warriors standing behind Xiao Nanfeng were the ones who appeared in Yong City. They recognized Wang Teng, so they hurriedly flew towards Xiao Nanfeng and whispered into his ears.

Xiao Nanfeng turned unhappy when he heard their explanation. He said, “I’ve already understood what happened. My subordinates did make mistakes, but your disciple isn’t entirely innocent. I will take care of my two subordinates myself. As for your disciple, I will forget about what he did. Let’s put an end to this.”

“Bullshit!” Dan Taixuan cursed immediately. “If your subordinates didn’t frame my disciple, nothing would have happened. How can my disciple get injured by your men for no reason?”

Xiao Nanfeng couldn't control his emotions when he heard Dan Taixuan humiliating him in front of so many subordinates. He bellowed angrily, "Dan Taixuan, don't go overboard. Do you think that I'm afraid of you?"

"Come, come. Let's cut the nonsense and have a battle. Let's see if I cripple you first, or will you kill me first!" While speaking, her entire body had already disappeared. The next second, she appeared above Xiao Nanfeng's head with a long sword in her hands. The blade gave off a sharp and glaring sword glow as it shot towards Xiao Nanfeng.

"You crazy woman!"

Xiao Nanfeng's expression changed slightly. He didn't think that Dan Taixuan would attack him without any considerations. At their level, every single move they made was frighteningly powerful. The consequences of a battle were horrifying.

But, there was no time for him to make any considerations. Dan Taixuan's attack was right in front of his eyes. The sword glow was so glaring that it hurt his eyes. Xiao Nanfeng didn't dare to underestimate her attack. A pair of black eight-sided maces appeared on his palms. The two started fighting without any more fanfare.

At the side, Wang Teng was sent to the ground by a gentle force. He raised his head and felt a little worried.

The other party was the chief commander of the Crimson Tiger Troop. His ability must be top-notch.

He wondered if Dan Taixuan could beat him.

In the air, the two parties collided a few hundred times within a few seconds. The people at the scene could only see the lingering shadows of the two martial warriors intertwining continuously.

Massive explosions rang through the air, and every single attack caused the air around them to erupt. It was exceptionally petrifying.

Xiao Nanfeng was afraid of damaging the Crimson Tiger City, so he purposely shifted the battleground away from the city. Hence, the poor mountains and forest were the ones to suffer the wrath of their battle.

Wang Teng saw a large and deep pit appearing in the wilderness from afar. Even worse, a single strike from them caused an entire mountain to explode.

Boom!

Sometime later, a figure flew out at a fast speed and smashed into the body of a mountain.

"Chief commander!"

The martial warriors from the Crimson Tiger Troop cried out in alarm. Their expressions changed.

On the other hand, Wang Teng heaved a sigh of relief.

Good, good!

Dan Taixuan might be a little unreasonable and fierce, but she was powerful enough. Even the chief commander of the Crimson Tiger Troop wasn't her match.

At this moment, he had a clearer understanding of his master's ability.

Powerful! She was indeed very powerful!

The main thing was...

When these two formidable warriors were fighting, Wang Teng saw many large attribute bubbles dropping and floating in the distance.

Oh my god, these are attribute bubbles from general-stage martial warriors! Wang Teng was a little excited.

He immediately used his spiritual power to pull those attribute bubbles over.

He picked them up.

Wind Force*485

Metal Force*360

Fire Force*620

...

This was an astonishing number of Force attributes!

Wang Teng was dazzled.

All he could say was, as expected of general-stage martial warriors. They dropped so many Force attributes during a casual bout.

In the battle just now, Dan Taixuan used two Forces, one green and one gold. Thus, without a doubt, the wind Force and the metal Force came from her.

Thinking about it, when Dan Taixuan tested his ability back then, she had used the same two Forces. Wang Teng already knew that Dan Taixuan was a wind and metal double-element martial warrior, so he wasn't shocked.

But, this was a huge surprise for him.

Especially the wind Force, which was much rarer. He had only managed to get to 2-star soldier-level after killing the Gale Mantis in the past. He didn't expect to advance another level so quickly.

Wind Force: 6/1000 (3-star)

After adding the 360 points of metal Force, his metal Force finally advanced from 3-star to 4-star.

Metal Force: 80/2000 (4-star)

The fire Force came from Xiao Nanfeng. This chief commander from the Crimson Tiger Troop might have suffered in the hands of Dan Taixuan, but he wasn't someone a nobody like Wang Teng could underestimate. The fire Force he dropped allowed Wang Teng's fire Force to rise exponentially.

Fire Force: 625/2000 (4-star)

His ability skyrocketed, dissipating the frustration in Wang Teng's heart a little.

Chapter 238: Daylight Robbery!

Xiao Nanfeng flew out from the sunken pit on the mountain. His clothes were torn and tattered, and his hair was in a mess. He looked a little disheveled.

"Xiao Nanfeng, do you still want to fight?" Dan Taixuan was itching to have a go. She hadn't fought to her heart's content yet.

Actually, none of them were seriously fighting. They were the top-notch battle power of the country. If they really fought to the death, it would be the country's loss, no matter who died.

Dan Taixuan might be unreasonable and rash, but as someone who had reached this status, she wasn't brainless. She wouldn't kill Xiao Nanfeng.

She only threatened him because she wanted to take revenge for Wang Teng.

Xiao Nanfeng almost cursed out loud. His face was black as he said gravely, "What on earth do you want?"

"I've already said that I'm seeking justice for my disciple." Dan Taixuan pouted her lips unwillingly.

"You can be direct and tell me what compensation you want." Xiao Nanfeng took a deep breath.

"First, hand over the two culprits. I will lock them in the cells of my Black Sparrow military camp. Next time, when another war breaks out, they can atone for their crime by gaining merits." Dan Taixuan was straightforward.

"Okay!" Xiao Nanfeng nodded expressionlessly.

"Oh right, there's another person called Yao something, right?" Dan Taixuan pondered for a while, but she couldn't remember Yao Jun's name.

"Yao Jun." Wang Teng was speechless. He had no choice but to remind her.

"Yes, pass that Yao Jun to me too," Dan Taixuan continued.

"I'm not able to do that. He has already left. If you catch him, help me punish him too." The moment Yao Jun was mentioned, Xiao Nanfeng felt hatred rising in his heart. If that Yao Jun hadn't caused trouble, all this wouldn't have happened. He even caused him to suffer such great humiliation.

"Nonsense, if you want to catch him, catch him yourself. I won't run errands for you," Dan Taixuan rebutted without giving him any face at all. "If he's not around, it's fine. I heard that you found an ore mine this time. My disciple contributed greatly to this mission and even killed a high-level dark

apparition. My Black Sparrow Troop will take half of the ore mine. Also, you have to pass us the corpse of the high-level dark apparition.”

“Dan Taixuan, this is daylight robbery!” Xiao Nanfeng wanted to vomit blood. The veins on his face kept bulging.

“Sigh, you managed to see right through me. This is indeed daylight robbery. I won’t leave until you agree. I will beat you up in front of your subordinates every day,” Dan Taixuan threatened him directly.

“You!” Xiao Nanfeng felt extremely frustrated. He glared at Dan Taixuan and took a deep breath. Then, he growled, “Alright, I admit defeat this time. You can have half of the ore mine, and the corpse of the high-level dark apparition will be yours too.”

Xiao Nanfeng didn’t want to see Dan Taixuan again. He immediately asked someone to bring Liu Huaixin and Li Gang over.

The two of them were wearing rune handcuffs. They were prisoners now.

“Disciple, I will hand these two over to you. You can do whatever you want to them.” Dan Taixuan didn’t even look at the duo. Instead, she waved her hand and asked Wang Teng to take care of them himself.

Liu Huaixin and Li Gang felt extremely embarrassed. They had always been in a high position. With the Crimson Tiger Troop supporting them, they had been smug and haughty. They could frame and lock others up without a reason. However, they were prisoners now. Their future was destroyed, and they couldn’t control their lives anymore.

Wang Teng glanced at them, then ignored them. The two of them didn’t possess any more threats to him. After losing the protection of the Crimson Tiger Troop, they were nothing.

Even if Li Gang was a 5-star soldier-level martial warrior, Wang Teng didn’t care.

Was a 5 soldier-level martial warrior very powerful?

With his overall battle power, he might be able to kill a 5-star soldier-level martial warrior.

Liu Huaixin regretted his actions wholeheartedly. Had he known this would happen, he wouldn’t have cooperated with Yao Jun and tricked Wang Teng. But, there was no medicine for regrets in the world.

If there was, please give him an entire bottle.

This was what Liu Huaixin was thinking now.

After some time, the corpse of the high-level dark apparition was also brought over. Dan Taixuan’s gaze landed on it as she sized it up with interest.

It’s a high-level dark apparition from the blood tribe. I shall send it back and let those men in white coats examine this fellow. High-level dark apparition corpses are very hard to get. I have never seen one so intact. There is great value in studying this corpse. It will be good if we can find its weakness. Dan Taixuan thought to herself.

“This is the joint mining contract I’ve just come up with. After you sign it, you can disappear from my sight,” Xiao Nanfeng said with disdain as he threw a contract at Dan Taixuan.

Dan Taixuan didn't mind. She signed the contract without reading it carefully. She believed that Xiao Nanfeng wouldn't dare to play any tricks.

"Send someone to bring these two people and the corpse of the high-level dark apparition to the Black Sparrow Troop. I will make a move first," Dan Taixuan said. After she finished, she pulled Wang Teng and soared into the sky. She disappeared on the horizon in a blink of an eye.

Xiao Nanfeng stood on the spot with a black face. The martial warriors around him didn't dare to move any closer. They felt that if they went to provoke their chief commander now, they would most likely die a terrible death.

...

General-stage martial warriors' speed was incredible. Wang Teng even felt that he had broken through the sound barrier. However, Dan Taixuan protected his body with Force, so he didn't feel the pressure.

After some time, Wang Teng and Dan Taixuan returned to school.

"Stay for dinner," Dan Taixuan said to Wang Teng after she called someone to prepare her dinner. She lazily laid on the sofa as though nothing had happened.

Wang Teng had been busy the entire afternoon, so he didn't eat or drink anything. He was already famished. Only an idiot wouldn't accept a ready-made meal.

He sat down on the sofa without any worry and swallowed a mouth of saliva secretly. He was waiting for dinner to start.

"What did you learn from the trip today?" Dan Taixuan asked abruptly.

Wang Teng's heart shuddered. He said sternly, "I... am too weak!"

"It's good that you have such enlightenment. The trip wasn't in vain." Dan Taixuan nodded and continued, "You're indeed talented, but there are many talented people in the world. However, not many of them became truly formidable warriors. If you are strong enough to look down on everything, such things should never happen. Even if it did, you would be able to seek justice for yourself without relying on other people. Hence, all in all, you're too weak!"

Wang Teng nodded. He agreed with Dan Taixuan. She was powerful enough, so the chief commander of the Crimson Tiger Troop and other strong warriors couldn't do anything to her. Even if they were infuriated, they had to swallow their anger. He felt envious and wanted to be like her.

"Do you want to know why I'm so powerful?" Dan Taixuan smiled and asked.

Wang Teng looked at her curiously. Was she asking him to compliment her? He hesitated for a moment and decided to go with the flow. He coughed awkwardly and said, "Master, you're beautiful, talented..."

"Bullshit!"

Wang Teng: ...

Chapter 239: Sweet-talk And Counting His Gains

“Why are you so strong then?” asked Wang Teng speechlessly.

“That’s because, from the moment I started my martial warrior career, I chose the formidable path,” Dan Taixuan glanced at him from the corner of his eyes and replied calmly.

“The formidable path!”

Wang Teng almost choked on his own saliva.

Oh my god, is my master spouting nonsense?

“You don’t believe me?” Dan Taixuan asked.

“How is that possible? Master, you’re so magnificent and talented. I can tell that your talent is invincible in the universe.” Wang Teng laughed awkwardly.

Dan Taixuan enjoyed Wang Teng’s flattery. She accepted his praises readily before continuing, “I know you don’t believe me, but I have to tell you that I have never suffered a defeat ever since I became a martial warrior. I’m not just invincible; I can even kill enemies at a higher level than me. You might be able to do that too. There are numerous talents in the world, and some of them can indeed do this. However, I have never heard of anyone that can kill opponents with a higher level at any stage of their journey.”

Wang Teng turned serious. At first, he thought that Dan Taixuan was just boasting, but gradually, he noticed that Dan Taixuan’s tone was too composed. She seemed to be stating the truth, not persuading someone to believe it.

This mentality proved that she wasn’t making a casual remark. She was honestly invincible at her level and could even kill martial warriors at a higher stage compared to her.

No wonder!

No wonder the tough Xiao Nanfeng wasn’t her match.

“How did I manage to remain invincible?” Dan Taixuan answered her own question, “First, you need to integrate your spirit, Qi, and essence to form the force of invincibility.

“With this force of invincibility, you will then be able to blaze your way through all manners of obstacles and defeat countless talents in the field. You will become the real unbeatable warrior and progress to the top level quickly.”

Wang Teng immediately registered profound respect for his master. The image of his master was becoming better and mightier in his heart.

“What do you think? My stupid disciple, do you want to try your master’s formidable path?” Dan Taixuan asked with a smile. She felt a little proud when she saw Wang Teng’s reverent expression.

“Yes! I want to walk the formidable path too,” Wang Teng nodded and replied.

“Good, I have high hopes for you.” Dan Taixuan nodded in satisfaction. But, in her heart, she heaved a sigh of relief. Talking nonsense with a straight face was so difficult!

At this moment, the doorbell rang, breaking their conversation.

“The food should be here. Open the door.”

“Alright!” Wang Teng ran to open the door when he learned that the Force dishes were here.

The person outside the door was the fatty he saw last time.

Wang Teng knew from Dan Taixuan that this fatty was a Force chef master. Thus, he immediately gave an amiable and gentle smile. “Hello, did you come to send food to my master?”

“Erm... yes.” The fatty outside the door was stunned.

“You can pass it to me. Thank you so much. The Force dishes you make are delicious,” Wang Teng praised him sincerely.

“Oh, thank you... wait, the principal is your master?” The fatty asked curiously after he realized what Wang Teng had said and felt astounded.

“Is there a problem?” Wang Teng asked.

“No... I didn’t expect the principal to have a disciple. You are really young and promising,” the fatty commented.

“Thank you, thank you. Brother, you are a Force chef master. You are even more amazing...”

The two of them started complimenting each other just like that. A Roland for an Oliver, a well-matched contest. The atmosphere was harmonious.

The fatty only realized what he was doing after the door closed. Why did he talk to someone he didn’t know for so long?

“What are you up to now?” Dan Taixuan felt puzzled when she saw Wang Teng chatting with the fatty for a long time.

“Nothing, nothing. I just want to keep an amicable relationship with him so that I will have good food in the future,” Wang Teng said.

“Tsk, as long as you’re powerful enough, you will be able to eat all kinds of good food,” Dan Taixuan said with contempt.

“Time to eat, time to eat.”

Wang Teng laughed. He didn’t mind her master’s comment. He rubbed his hands and opened the lunchboxes. When he placed the dishes on the table, the fragrant smell wafted into his nose.

This time, Dan Taixuan had ordered two servings of food. It was enough for them to fill up their stomach.

...

“Delicious!”

More than ten minutes later, Wang Teng laid on the sofa and gave a satisfied burp.

“Look at you!” Dan Taixuan rolled her eyes and kicked him. “Go back to your room after you’ve finished eating. Don’t run around for the next few days. Heal your body properly and wait for the lessons to start.”

“Sure. I will leave immediately!” Wang Teng got up.

“Oh right, the benefits that we asked for from the Crimson Tiger troop... it’s useless for you to take the high-level dark apparition’s corpse, so I will pass it to the Black Sparrow troop for research. As for the ore mine, you can’t swallow it either. I can give you other benefits in exchange. Is there anything you want?” Dan Taixuan asked.

Wang Teng had never thought about this. Dan Taixuan was the one who asked for all these things from the Crimson Tiger troop. It had nothing to do with him.

But, since Dan Taixuan mentioned it, Wang Teng thought of something.

“My family is preparing to enter the military dan medicine and weapons industry. We need to get a license,” Wang Teng smiled and said.

“That’s simple. I will inform the related parties when needed,” Dan Taixuan replied.

Wang Teng thanked her hurriedly. It might be a simple task for Dan Taixuan, but it wasn’t easy for them.

After bidding farewell to Dan Taixuan, Wang Teng went back to his dormitory. The moment he stepped into the house, a black shadow swooped down from the roof.

“What the f**k!”

He hurriedly stretched out his hand to catch it. It was the little crow. This little creature had just learned how to fly, or more accurately, it was halfway through learning.

Now that he thought about it, the little crow had suffered so much when it followed him to the Xingwu Continent this time, especially when he was escaping from prison and the pursuit of the Crimson Tiger martial warriors. It was stuffed in his bag most of the time and almost got claustrophobia because of this; that was if birds could get this illness.

Wang Teng placed the little crow on the ground and fed it some star beast meat. Then, he allowed it to stumble and flap its wings in the room. It kept bumping into the furniture.

He walked into his bedroom and laid on the bed. He silently counted the gains for this trip.

The greatest benefit was undoubtedly the increase in his levels.

Currently, his fire Force, metal Force, and earth Force had reached 4-star soldier level. Overall, he wasn’t much weaker than a 5-star soldier-level martial warrior.

Also, his dark Force and wind Force had reached 3-star soldier level too. They had jumped two levels, from 1-star to 3-star. Mind you, these two Forces were rare, so it was harder to increase their levels. He was lucky enough to be able to climb two stages up in one leap.

Besides these, Wang Teng also received three battle techniques: Wave Invisibility, Berserk, and Bewitch.

Wave Invisibility was a concealment skill. Berserk was an amplification skill, while bewitch was a support skill. All of them had their pros and uniqueness. They were all exceptional battle techniques. It was hard to find ways to get one of them, but Wang Teng got his hands on all three at once.

He could only clap his hands and applaud the system!

His spirit had also increased tremendously. He was halfway through his spiritual realm state, so his spiritual power had increased many times. If not, he wouldn't have been able to kill that high-level dark apparition.

These were all his personal gains in terms of ability. Besides, the dwarves gave them rewards and offered their friendship. Overall, the harvest was amazing.

Chapter 240: The Yao Family Wants To Reconcile

Wang Teng led a peaceful life for a few days. He spent most of his time recovering from his injury. If he had nothing to do, he would go to the actual combat training building to pick up attributes.

Although it was the holiday, some students didn't go home. They continued to work hard in their cultivation.

What was one thing that could make you fall into despair?

When you thought that the more talented people were having fun and enjoying themselves but, then you realized that they were working harder than you.

Wang Teng, who was strolling in the gravity room, saw a familiar figure.

"Baili!"

"Brother Teng." When Baili Qingfeng heard the voice, he turned around. He was startled upon seeing Wang Teng. He said in surprise, "You... why are you in this state?"

"Oh, I accidentally injured myself during my mission." Wang Teng lowered his head and looked at the bandages on his body. He didn't explain in detail and just answered the question casually.

Actually, the injuries on his body were mostly healed. The medicine provided by the school was very effective. Scabs had already formed on his wounds. After applying the medication one more time, his injuries would probably heal completely.

Besides, they were just external injuries. It was nothing serious.

Even if he suffered a serious injury, he would heal quickly with the help of high-quality spiritual dans.

This was why alchemy had a higher status than modern medicine in the current society.

Normally, bone injuries would require at least three months to heal completely. But, to an alchemist, one spiritual dan down your throat and he guaranteed that you would be alive and kicking in five days.

Force injuries could only be treated by spiritual dans. Modern medicine was helpless in front of it.

However, never look down on the intelligence of human beings. After integrating alchemy and rune skills, modern medicine had been progressing rapidly. In the future, there might be cross-generation

high-quality medical equipment like the ones in science fiction movies. At that time, the advanced medical industry would start blossoming.

“The world outside is indeed full of danger.” Baili Qingfeng squinted slightly when he heard Wang Teng’s reply. The muscles on his body also tensed up.

Wang Teng had interacted with Baili Qingfeng for a long time, so he understood him quite well. When he saw his reaction, he immediately knew what he was thinking. Wang Teng felt a little speechless.

But, after pondering about it, there was nothing wrong with being cautious. The world outside was indeed dangerous. Look, he almost couldn’t come back alive.

Thus, being a cautious and brave warrior was a good choice.

“Brother Teng, you are able to execute missions already. I’m envious of you,” Baili Qingfeng said.

“You should be able to become a martial warrior soon. At that time, you can claim missions too,” Wang Teng said.

“Just a little bit more,” Baili Qingfeng nodded and said.

“All the best. I will make a move first. I won’t disturb your training anymore,” Wang Teng said.

“Okay!”

...

Besides picking up attributes in the actual combat training building, Wang Teng would go to the stadium and walk his dog—sorry, his little crow.

A bandaged monster walking with a fat little crow in the stadium, it became a beautiful scenery of the school.

On the last day of the holiday.

Wang Teng woke up in the morning and realized that the scabs on his body had dropped. He didn’t need to bandage his wounds anymore.

I should go back home in case my parents worry about me.

Wang Teng finished his breakfast and left the school.

A black sedan was parked outside the school gates. When Wang Teng stepped out, the eyes of the man who kept watching the entrance of the school lit up. He immediately walked over.

“Are you Wang Teng?”

Wang Teng was shocked when he saw a stranger rushing towards him. That guy even knew his name. He frowned and asked, “Who are you? Why are you looking for me?”

“My family head is looking for you. Oh right, my family head’s surname is Yao,” the man in the black suit said.

Wang Teng raised his eyebrows. “Yao.”

“You should know what’s happening. Please follow me.” The man was a little proud. He thought that he had scared Wang Teng.

After all, based on their family head’s status, it was an honor for this low-rank martial warrior student that their family head was looking for him.

However...

“Get out!” Wang Teng replied unhappily.

The family head of the Yao family? He must be Yao Jun’s father. Based on the grudge between him and Yao Jun, Wang Teng didn’t want to bother about this person no matter what motive he had. He didn’t want to have any interactions with the other party either.

The man’s expression froze immediately. He said in disbelief, “Do you know what you are saying?”

“I asked you to get out. Don’t you understand human language?” Wang Teng said expressionlessly.

“Do you know what our family head’s status...”

Before the man could finish speaking, Wang Teng walked past him.

“Stop right there!”

The man turned angry from embarrassment. He hooked his right hand into a claw and attacked Wang Teng’s shoulder.

Bang!

The next moment, the man felt his vision turning black. He felt excruciating pain on his face, and his entire body flew out sideways.

How is he so strong?!

The man slammed on the ground. This was the only thought that flashed through his mind before he fainted.

The middle-aged man in the black sedan was finally alerted. He walked out of the car.

He looked at the unconscious man on the ground and Wang Teng, who was at the side. A frown appeared on his face as he walked over slowly. He said, “Young man, it’s bad to be too violent.”

“How is Yao Jun related to you?” Wang Teng asked him instead of replying to him.

Anger flashed past the middle-aged man’s face. However, he forcefully suppressed his rage and explained, “I’m Yao Jun’s father, Yao Guancheng.”

“Yao Jun is more violent than me. Indeed, this is a bad thing. You need to educate him properly,” Wang Teng said.

“You!” Yao Guancheng was so infuriated that he wanted to slap Wang Teng to death. But he couldn’t do it, even if he had an extra pair of balls. He took a deep breath and said, “I will not argue with you. I came today because I want to reconcile.”

“Reconcile?” Wang Teng seemed to have heard a hilarious joke. He sneered. “Your son wants to kill me, yet you want me to reconcile with you?”

“All hatred can be put down. If it can’t, it must be because the compensation isn’t high enough,” Yao Guancheng said.

“Hmph.” Wang Teng snorted. He was disgusted by Yao Guancheng’s actions.

Yao Guancheng said confidently, “Tell me, what do you need to reconcile with us? I can satisfy you as long as you don’t ask for too much.”

“I’m sorry. I’m not interested in reconciling with someone who wanted to kill me,” Wang Teng replied.

Then, he walked past him and continued going forward without giving Yao Guancheng a chance to reply.

“Do you know the consequences of rejecting my good intentions?” Yao Guancheng shouted behind him. His expression was sinister.

Wang Teng stopped in his tracks.

Yao Guancheng gave a mocking smile. He thought that Wang Teng was afraid of him.

“Are you threatening me?” Wang Teng smiled for some reason. “Before you touch me, you should consider whether the Yao family can bear the implications.”

Yao Guancheng stared at Wang Teng as he left. His face was black, and he was puzzled. *Does this fellow have some background I don’t know?*
