Chapter 451: The General-stage Dark Apparitions Were Stunned!

Star Maple City had already turned into a battlefield!

Waves and waves of dark apparitions swarmed into the city and caused massive destruction. However, they found no signs of humans.

The humans had already left Star Maple City through the underground passageway. Only the 12 runemasters were left behind. They activated the Thousand Thunder Annihilation Array and cleared the uncountable number of dark apparitions trapped in the city.

Sabah and the other general-stage dark apparitions were trapped too. They were evading the bolts of lightning raining down from the sky continuously.

They never expected the humans to prepare this lightning element array.

As dark apparitions, there were two forces they feared the most. One was the complete opposite of the dark Force, the light Force, while the other was the lightning Force. Humans hadn't grasped the light Force yet, but they knew many ways of using the lightning Force.

This lightning element rune was one of them. Furthermore, it was extremely powerful.

Boom!

At this moment, the general-stage dark apparitions were having a hard time. Even though they were at the general stage, they didn't want to face the power of lightning.

Fortunately, they were fast enough, so they were able to dodge the attacks all the time.

But the low-level dark apparitions below weren't so lucky. A large portion of the low-level dark apparitions was chopped into pieces by the lightning and disappeared from the world.

"Damn it!"

The lycan dark apparition was in a bedraggled state. Suddenly, his nose twitched as it smelled something burning. He turned around to take a look. He was only slightly slower just now, but he got burnt by the lightning.

A drop of cold sweat dripped down his forehead. This was so scary!

"Damn it, how did you plan this? Why is there such a huge loophole? You pushed us right into humans' trap!" Sabah was burning in anger as he shouted at the vampire.

"Sir, I don't know how this happened either!" The vampire was on the brink of tears. He felt frustrated and shook his head violently.

He thought that with the general-stage dark apparitions, the humans could only die. Even if they pulled some small stunts, it would be useless and wouldn't affect the result.

He didn't expect the Sirs to get trapped as well.

This was completely different from what he thought!

Boom!

A bolt of lightning shot directly at two dark apparitions. It squirmed through the sky like a silver snake, attempting to swallow them with its huge mouth.

The vampire dark apparition was shocked. He turned fearful and wanted to dodge. Suddenly, someone grabbed his shoulder and lifted his body.

“No!”

He lowered his head and saw Sabah’s indifferent face. He screamed in despair.

Boom!

The lightning struck his body. A silver glow flashed and swallowed him entirely.

“Useless!” Sabah spat at the vampire. He looked away from the lightning above him and scanned the 12 runemasters.

The heart of the array was the runemasters. If the runemasters were killed, the array wouldn’t be a threat anymore.

“Kill them!”

Sabah shouted at the other general-stage dark apparitions.

Zurz, Cyle, and the other dark apparitions understood his intention. They immediately flew towards the runemasters.

A sickle-shaped weapon appeared in his hand. He went forward and swung his weapon at the figure sitting on the pillar in front.

That person was Gorlin!

A black glow cut through the air and fired towards Gorlin.

Gorlin’s expression didn’t change. He was extremely calm. He didn’t move, but somehow, a bolt of lightning struck down and collided with the black blade glow.

Boom!

Force exploded, and the black blade glow disappeared without a trace.

The residual force blew towards Gorlin. His hair flew messily in the wind, and the gown he was wearing fluttered loudly.

Sabah’s expression changed. He didn’t expect his attack to be blocked so easily!

Boom!

A flash of lightning attacked him again. Sabah had to abandon his advancement and evade the lightning hastily.

His expression was extremely ugly.

These human runemasters were harder to deal with than he had imagined.

At the same time, Zurz and the other dark apparitions executed their moves and furiously attacked the other runemasters.

When Zurz and Cyle saw the situation on Sabah's side, they looked at each other and attacked Master Carl together.

Zurz's weapon had landed in the hands of Wang Teng after the Yang City war. The time was too short for him to make another weapon, so he could only use a gigantic battle blade for the time being. Of course, the quality wasn't as good as the divine weapon Mo Que.

Also, his arm had grown back.

But if one observed closely, they would realize that the arm that had grown back was still a little stiff. It wasn't as agile as the other arms.

He held his battle blade in one hand and slashed it at Master Carl.

Boom!

Lightning slammed on the blade glow, rendering Zurz's attack useless.

The lycan, Cyle, appeared out of nowhere and arrived above Master Carl in an instant.

"Die!"

He gave a sinister smile and clawed at Master Carl furiously. He was wearing sharp metallic claws made from an unknown material.

"Hmph!" Master Carl snorted. He waved his hand, and a purple shield appeared above him.

Lightning flashed on the purple shield. Cyle's claw attack landed on the shield and caused an electrical sound. Then, his attack was disarmed by the lightning on the shield.

Boom!

Another bolt of lightning struck towards Cyle simultaneously.

He squinted and evaded the lightning precariously. However, the lightning bolt still brushed against his body and burnt a patch of his fur.

Cyle moved and appeared beside Zurz.

A burnt smell wafted into Zurz's nose. He turned and looked at Cyle. When he saw his appearance, Zurz's expression turned strange.

He wanted to laugh, but he tried his best to hold it in.

They were on the same side. It would be too much for him to laugh at his companion.

Although he had tried his best to suppress his laughter, the sharp Cyle still noticed Zurz's gaze. He turned angry from embarrassment and glared at Zurz.

Unfortunately, they didn't have the time to bicker.

Scorching heat suddenly rose from the ground, and burning flames appeared in thin air.

The Yi Wood Melting Fire Array was activated too!

"What's going on? Isn't this a lightning element array? Why did it change to a fire element array?" Zurz shouted at Sabah in astonishment and anger. He was flabbergasted.

He was afraid of fire element arrays.

In Yang City, he was crippled by the Eight Dragon Ablaze Dragon Array. The memory was still clear in his mind, hence his fear.

He could almost feel the pain in his recovered limbs. The pain constantly reminded him that fire element arrays were also scary!

Sabah was stunned too. Why was there fire in a lightning array? What the hell was going on?

Chapter 452: Entrance!

However, Sabah and the other dark apparitions had no time to ponder over this question. The terrifying flames surrounded them from all directions and turned into numerous flaming pythons. The pythons hissed and pounced on them.

These general-stage dark apparitions were scurrying off like frightened rats running across the streets.

Flames!

Lightning!

The dark apparitions spent all their efforts to confront the double attacks of these two elements. However, it proved too much for them. They evaded one but couldn't escape from the other.

They would either get swallowed by the flaming pythons or get struck by lightning...

Soon, burnt marks appeared on their bodies. They were in a pitiful state.

Especially the lycan, Cyle. He had thick fur, so most of it got burnt and charred under the combined attack of the lightning and fire.

He looked like he just went for outlandish hairstyling!

...

While the general-stage dark apparitions were in deep distress, the troops hiding in the dark finally started moving.

At the edge of the forest, Dan Taixuan waved her hand.

"Let's move!"

Niu Li, Yuwen Xuan, and the soldiers got invigorated. They rode their Gale Wolves and dashed towards the battlefield.

“Kill!”

“Kill!”

“Kill!”

Billowing smoke rose in all directions, and battle cries shook the sky. The troops charged towards the battlefield with an unrivaled presence.

A counter encirclement was soon finished!

There were still many dark apparitions who were unable to enter the Star Maple City. They were roaming on the outskirts.

The human troops acted like meat choppers as they dashed to the city. They ground all these dark apparitions to their death, sparing no one.

Kong Li and the other martial warriors had arrived on the battlefield. However, Wang Teng hadn't moved.

Although Ice Wind and Black Widow were puzzled, they still waited quietly behind him. A Gale Wolf was lying beside each of them. Their ears were perked up, and they were looking at Wang Teng.

All wolves had to bow down to the wolf king!

Wang Teng glanced at Dan Taixuan.

Dan Taixuan nodded and said calmly, “Don't die. It will be embarrassing.”

“I won't.” Wang Teng smiled.

The next moment, he slowly rose into the air. His subordinates quickly leaped onto their Gale Wolves when they saw this.

Awoo!

The howls of wolves echoed in the surroundings.

The Gale Wolves stood up. When Wang Teng turned into a ray of light and flew towards the battlefield, they turned into lingering shadows with strong wind flowing around them and stabbed right into the center of the battle like sharp blades.

Dan Taixuan moved and disappeared on the spot.

...

When he arrived in the city, Wang Teng noticed that it was littered with attribute bubbles. There were countless of them.

He landed on the ground and wanted to pick them up.

A 5-star soldier-level giant apparition saw him. He waved his heavy-weight mace and his muscular, lofty body, wanting to attack Wang Teng.

Wang Teng raised his eyebrows and glared at the giant apparition. *Who gave you the courage to seek death?*

Most importantly, he was stopping him from picking up attribute bubbles. This was a huge crime. It was unforgivable.

“Be careful!” someone beside him shouted to remind him when he saw Wang Teng’s young face.

“Human, die!” The giant apparition bellowed. He hurled the mace at Wang Teng’s head.

Suddenly, his hand stopped moving.

His expression changed slightly. A hint of disbelief appeared on his face.

This short and small human possessed such frightening strength. Not only did he block his fatal attack, but he also appeared relaxed.

He tried to pull the weapon back, but it didn’t budge a single inch.

“?”

Cold sweat dripped down his forehead. He seemed to have targeted someone he shouldn’t!

The short human grabbed the other end of the mace with his hand and smiled at the dark apparition, revealing his eerily white teeth.

The giant apparition grasped the mace with both hands and exerted more force...

“Pull harder!” Wang Teng suddenly opened his mouth. He was using the dark apparition’s universal language.

The giant dark apparition was stunned.

Was this short human stupid? Why was he encouraging him? A smirk appeared on his lips...

Suddenly, he thought of something, and his smile froze.

Wait, this human was messing with him.

The giant dark apparition was furious. He glared at Wang Teng with his big eyes and continued to pull his mace. He wanted to retrieve it and smash it violently on this puny human.

Wang Teng noticed that the giant dark apparition only understood his words after some time. His impression of the giant race’s intellect changed once again.

None of them are very smart.

The game was getting boring, so Wang Teng raised his hand abruptly. The giant dark apparition who was still holding the mace got lifted too.

The giant dark apparition was confused when he found himself in mid-air.

The audience around them felt their jaws dropping.

There was a striking difference in the body sizes of these two beings. However, the lofty giant dark apparition was being lifted by Wang Teng so easily.

This scene was astonishing!

Before the giant apparition regained his senses, Wang Teng suddenly moved. He exerted force on his arm and pushed the mace down.

Boom!

It was too late for the giant apparition to let go of his weapon. His legs were already hammered into the ground, and only the top half of his body was visible.

Excruciating pain spread through his body. He released the mace he was clasping tightly and howled in agony.

“I’ll kill you!”

The giant apparition roared in anger as he struggled to climb out of the ground.

Unfortunately, Wang Teng wasn’t going to give it any chance. He grabbed the mace and twirled it. Then, he raised his arm and hurled it down.

Bang, bang, bang!

Dull thuds shook the hearts of the listeners.

The mace slammed against the giant apparition’s head ruthlessly as if hammering him into the ground. The power caused his body to sink deeper into the ground.

The giant apparition’s body disappeared into the ground, inch by inch. Finally, only its head remained.

Wang Teng looked at his work of art and nodded in satisfaction. He threw away the mace and clapped his hands. Then, he looked at the attribute bubbles around him.

Zoom!

The dark apparitions around him thought that he was looking at them and immediately retreated ten meters.

An empty zone appeared on the battlefield with Wang Teng in the center.

Even the human martial warriors felt dry in their throats. They gulped and looked at Wang Teng as if he were a monster.

Giant apparitions were known for their strength. Yet, he got hammered into the ground forcefully by a young man.

Who would believe it?

No one would!

Ignoring everyone's gazes, Wang Teng swept the bubbles over with his spiritual power. They flew towards him.

Some large attribute bubbles formed during the formation of the dimensional rifts were also picked up by him. Not much time had passed, so the bubbles were still present. If not, Wang Teng wouldn't have waited until now.

These space attribute bubbles were the most important items!

His rewards were huge. Wang Teng didn't look at them carefully. He observed his surroundings and saw two human martial warriors fighting with a 7-star soldier-level dark apparition. He rushed over immediately.

Chapter 453: Human, You're Looking For Death!

The two martial warriors were steadily losing their grounds under the onslaught of the vampire dark apparition.

Wang Teng was surprised. He quickly flew towards the two martial warriors to reinforce them.

He could tell that these two human martial warriors weren't the dark apparition's match. If they continued fighting, they would get killed within a few moments.

He wasn't exaggerating. That vampire was seriously powerful. He was many times stronger than normal 7-star soldier-level dark apparitions.

Also, he looked very young.

No matter what race it was, there would always be one or two extremely talented individuals. This vampire dark talent was one of them.

Wang Teng had defeated many human talents, but he had never met one from another race before. At this moment, he felt a little excited, like a hunter who saw his prey. He wanted to know how powerful this talented dark apparition was.

Also, if he could kill a few talented dark apparitions, it would benefit the human race in many ways.

As Wang Teng flew towards them, the three martial warriors were in an intense battle. The vampire dark apparition might have the upper hand, but the two human martial warriors weren't weak either. They exchanged blows continuously.

The vampire held two blood-red bone blades and attacked the humans without stopping.

As for the two human martial warriors, one of them was holding a long spear with a sharp glint at the tip. The other was holding a battle sword. In an instant, the person slashed a huge blue sword glow in the air.

Boom, boom, boom!

The Forces from both parties collided in midair. One black, one green, and one blue. The three different Force glows intertwined, eroded, and melted in the air...

The two human martial warriors got thrown back for more than ten meters because of this powerful explosion. The instant they managed to stabilize themselves, their eyes widened in fear. They saw a blood-red shadow darting towards them like a flash of lightning. The two blood-red bone blades split the air into two and formed a shrill grinding sound.

Thick blade force covered the blades like blood stained by darkness. It was bloody and sinister.

The black-red sharp blade cut through the air, aiming for the throats of the martial warriors. A frightening strength came along with it.

It was too late for the two martial warriors to dodge. In a battle between high-level martial warriors, one slow move meant that it was too late. The difference was life and death.

“Die!”

Seeing the success so near, an evil smile appeared at the edge of the vampire dark apparition’s lips. A blood-thirsty glint appeared in his eyes.

The two humans turned pale. They wanted to dodge, but their bodies couldn’t react as fast as their minds.

Boom!

Suddenly, a figure forcefully cut into their battle and blocked the two blood-red blades of the vampire.

The two human martial warriors heaved a sigh of relief when they saw someone stopping the fatal blow. They had barely managed to escape. They could feel that their backs were already soaked with cold sweat.

They looked at the person who suddenly appeared and then exchanged glances with each other. They saw fear in each other’s eyes. They hurriedly said, “Thank you for saving us.”

Wang Teng tilted his head and looked at one of the figures. He said calmly, “If you die, who’s going to pay me back the money you owe?”

“?” Xie Xueya was wearing a mask. When she heard the familiar voice, she was stunned. “It’s you!” She was dumbfounded.

“You know each other?” The other human martial warrior was surprised too.

“This is not the time to talk about this. Let’s work together and kill that vampire first,” Xie Xueya said.

Within this short time, the vampire had already retreated.

He was careful in front of this young man who managed to block his attack easily with his sudden appearance. Before he grasped this human’s ability, he shouldn’t attack rashly.

“Who are you?” His accent was a little weird as he used the human language to speak to them.

“Oh, another dark apparition who knows the human language,” Wang Teng exclaimed in surprise.

The dark apparition sensed contempt in the tone of this young person. His face turned black. “Human, you are looking for death.”

Wang Teng gave a constipated expression.

When the dark apparition said that he was looking for death in that weird accent, he felt speechless. He wanted to laugh but couldn't.

He looked at the other party in exasperation and copied his accent. "I'm not looking for death, really."

"Pfft!" Xie Xueya burst out laughing.

Where did this cheeky fellow come from? Couldn't he read the situation? Why was he still teasing the enemy?

Most importantly, he didn't seem to understand what was happening at all.

How amazing!

The other human martial warrior was looking at Wang Teng strangely too. This young man allowed him to experience some fun on this tragic battlefield filled with life and death.

The vampire dark apparition glared at Wang Teng. As a talented vampire, he had never been angered by a person like this before. He couldn't resist the urge to kill the young man in front of him.

"Look, he's looking at me as if he wants to suck my blood. How scary," Wang Teng pointed at the vampire dark apparition's face and said to Xie Xueya and the other human martial warrior.

Xie Xueya: ...

The other human martial warrior: ...

The vampire dark apparition: ...

Many dark apparitions were paying attention to this battle. All of them were shocked by the scene.

"This human is fearless. How dare he provoke Lesley!"

"Quick, look at Lesley's expression. He seems angry!"

"Let's move further away in case we are implicated..."

Thus, this scene appeared. The dark apparitions screamed and ran away as if they were being chased by dogs. They kept their distance from Lesley and Wang Teng.

The talented vampire, Lesley, looked at Wang Teng's irritating face and couldn't bear with the provocation anymore. He exploded in anger and roared. Then, he disappeared on the spot. In the blink of an eye, two blood-red blade glows slammed down on Wang Teng's head.

"Be careful!" Xie Xueya and the other human martial warrior shouted in unplanned unison. Their expressions changed.

However, Wang Teng didn't move.

"Slash!"

Under the astounded gaze of the two human martial warriors, Wang Teng got chopped into three parts by the two red blades.

“No, no way!” Xie Xueya was dumbfounded and furious. She didn’t manage to stop her comrade from dying. He might be a little irritating, but he was still a human who saved her just now. How could he die just like that?

“No, wait!” The other human martial warrior shouted in astonishment, “He’s not dead. How fast!”

When the blood-red blades in Lesley’s hand chopped at Wang Teng’s body, he noticed something amiss. This wasn’t the feeling of cutting a human body.

He squinted and retreated instantly.

Wang Teng’s figure slowly appeared on the other side. He patted his chest and shouted, “Wow, I almost got chopped.”

“Enough!” Xie Xueya was on the same side as him, but she felt exasperated.

He could have dodged the attack easily, yet he chose to react at the last moment. She was worried for nothing. The sadness in her heart had gone to waste.

Also, his acting skills were so exaggerated. *Could you be a little more fake, you bastard?*

Chapter 454: One Punch For Defeat, Two Punches For Death!

Lesley had no time to care about Wang Teng’s cheekiness. He felt that Wang Teng was a threat to him.

This feeling hadn’t appeared in a long time.

He was a little excited as he licked his lips and revealed his fangs.

He had never felt this excited ever since he defeated countless vampire dark apparitions and gained the honor of being called a talent.

“Memories!”

Lesley clutched the blood-red bone blades in his hand. His hands were trembling slightly. He wasn’t frightened; he was just too excited.

“I have this feeling that I’m being targeted by a pervert.” Wang Teng glanced at Lesley’s gaze and muttered to himself.

Xie Xueya couldn’t help but glare at Wang Teng from the corner of her eyes. *Why are you complaining? You’re a pervert too.*

“Feng Shan, let’s attack together. That vampire seems offended, thanks to someone,” she said to the martial warrior beside her.

The young martial warrior called Feng Shan glanced at Wang Teng and turned serious. He nodded.

“Alright.”

“You too. Stop fooling around. Let’s kill this vampire quickly. Many other dark apparitions are waiting for us. We don’t have much time to waste on that guy,” Xie Xueya spoke to Wang Teng while staring at Lesley intently, looking for an opening so that she could attack him anytime.

“You can help others. I’ll handle this vampire myself,” Wang Teng turned serious and replied calmly.

“Are you kidding? This isn’t a normal dark apparition. Don’t think that you can belittle him just because you’re fast enough,” Xie Xueya retorted and glared at him.

“I’m not kidding,” Wang Teng replied indifferently. He was indeed looking down on Lesley as he continued mercilessly, “You almost died in his hand. Even if we attack together, you will only drag me down.”

Xie Xueya’s expression turned ugly. She bellowed in anger, “Bastard, we were just careless. Don’t use that to judge us. We have our pride too.”

Feng Shan didn’t seem happy either. This young man’s mouth was seriously irritating. If they weren’t on the same side, he would have turned around and left. He didn’t want to care about him.

Lesley howled indignantly when he saw them pushing him to each other. They were completely looking down on him! He roared and charged towards them.

The blood-red bone blades slashed through the air. A thick dark Force surged through the sky along with a bloody stench. Finally, it congregated into a blood-black cross.

Ghastly Blood Cross!

The frightening attack arrived instantly within a blink of an eye. Xie Xueya and Feng Shan’s expressions underwent a huge change. They felt the strength of the attack and immediately decided to dodge.

They couldn’t face the attack face-on.

As Xie Xueya retreated, she noticed that Wang Teng was still standing in front. He didn’t move a single inch. He stood at the same spot and looked at the cross dawning on him in a daze.

Is this fellow looking for death?

The moment this thought appeared in his mind, her eyes widened in astonishment at the next scene.

“This cross is worth my punch,” Wang Teng whispered to himself. He raised his fist and punched it out.

Boom!

A powerful and fierce fist aura exploded in an instant. One could faintly hear the sound of an ape roar.

Ape King Fist!

The cross froze in mid-air before disintegrating. However, half of the fist aura was still left. It struck Lesley ruthlessly.

Lesley’s face turned pale as if he got struck by lightning. He vomited a mouthful of blood and flew back involuntarily.

“How is this possible!”

His face was filled with disbelief. As a talented vampire, he used his most powerful vampire battle technique, but he was still unable to resist a punch from this young man. What joke was this?

Lesley’s confidence suffered a severe blow. He couldn’t help but wonder if he wasn’t talented.

Wang Teng didn’t give him any chance to react. He wouldn’t show any compassion towards dark apparitions. He appeared immediately above Lesley and smashed another punch down. The fist landed on his head under his flabbergasted gaze.

Boom!

Lesley fell from the sky like a meteorite and blasted a deep hole in the ground.

This fist blew his head into pieces. Naturally, he was not able to climb out from the hole ever again.

Wang Teng: ...

Xie Xueya and Feng Shan stopped retreating in mid-air. They didn’t know whether they should move forward or back. They felt awkward.

They were filled with many mixed emotions. Disbelief, staggered, ashamed, and many other emotions. In the end, they just stared at Wang Teng blankly.

How is this fellow so strong?! Xie Xueya wondered to herself.

When Wang Teng saved her from the wolf pack, he didn’t display much ability. Hence, she didn’t know that he was so powerful.

A talented dark apparition got defeated by one punch and killed by the next.

It was crisp and clear-cut, direct and simple.

He didn’t waste any time at all.

No wonder he had the time to tease the vampire dark apparition just now. He was confident and knew that he wouldn’t need much time to kill the other party.

To think that she wanted to work with him to kill this dark apparition. In the end, they were extras and would only drag him down!

Feng Shan felt hot in his face too. He couldn’t defeat the dark apparition even with the help of Xie Xueya. Yet, the moment Wang Teng came, the dark apparition died. The difference was a little too big.

A moment ago, when Wang Teng said that he didn’t need their help, he still thought that he was overestimating himself and didn’t know the severity of the situation. Now, he understood that this fellow was a monster. He couldn’t judge him using common sense.

The dark apparitions thought that the young man would be the one getting beaten, but the result was entirely different.

Lesley was dead!

He died under the fist of that young man.

Many dark apparitions saw what happened just now. He was defeated with one punch and died from the next. Not one punch more, not one punch less. It was ruthless!

Where did this young man come from? How terrifying!

Many dark apparitions had been worried that they would get implicated, so they retreated more than ten meters away. Now, they moved back another ten meters. They obediently followed their hearts and chose to keep as far away as they could from this human.

Let the sirs deal with this powerful presence.

Wang Teng didn't have the time to care about those low-level dark apparitions. His gaze landed on the dead Lesley, where a few transparent bubbles were floating up.

...

As the attribute bubbles merged into his body, the cultivation method for the Battle Ghastly Blood Cross also appeared in his mind. This was an earth-rank high-class vampire battle technique. It used the evil aura as reinforcement and dark Force as its foundation to activate the cross attack. Its might was formidable.

It felt good to gain an earth-rank high-class battle technique for free, but this vampire battle technique didn't seem useful!

Wang Teng touched his chin and felt a little disdain towards this technique.

Chapter 455: Spiritual Power—Crowd Control!

The Ghastly Blood Cross wasn't like the Eight Level Devil Scripture. Once he used this offensive attack, the fact that he had dark Force would be exposed.

The Eight Level Devil Scripture was a physical scripture and was used to heighten his strength and physique, so most people wouldn't detect the problem if he didn't release its true power and reveal the devil pattern special trait of this scripture. Also, Wang Teng had the system covering up for him. Even the dark apparitions might not notice what was amiss.

At this moment, Wang Teng remembered the activation theory of the Ghastly Blood Cross. If he removed the dark Force and only used the evil aura with one of the five element Forces, would he be able to execute this earth-rank technique?

He could give it a try in the future.

Wang Teng and Lesley's battle seemed long, but it only lasted for a few seconds. After he killed the talented vampire dark apparition, he didn't waste any time and immediately entered the battlefield again.

Xie Xueya felt terrible when she saw Wang Teng flying away without even looking or talking to her.

This bastard never looked her in the eye, not even once. Was she so ugly?

Oh right, she was still wearing a mask. This fellow hadn't seen her true face.

Hmph, she must let him see her beautiful face and astound him next time.

Then, he would bootlick her shamelessly like all the other men. At that time, she could heartlessly give him the cold shoulder.

What a perfect plan!

Speaking about it, that irritating bastard didn't wear his mask today and looked quite handsome.

She thought that this petty and stingy man with a bad character must be ugly, but he was quite dashing.

Pfft, I'm on the battlefield. Why am I thinking of such stupid things?

Xie Xueya shook her head and felt guilty for some reason. Fortunately, she was wearing a mask, so no one laughed at her.

Feng Shan, who was not far away, didn't notice her abnormal actions in that short moment. He was focused on Wang Teng's back view. They were both 7-star soldier-level martial warriors, but why was their difference so huge? It made him unhappy!

However, he heaved a sigh of relief when he saw Wang Teng ignoring them.

If Wang Teng came over and reprimanded them, he would feel embarrassed.

Wang Teng didn't know his complicated thoughts. If he did, he would laugh at Feng Shan for thinking too much. He didn't have the time to care about someone he didn't know.

Feng Shan and Xie Xueya didn't waste any more time and rushed to help other people. They found some 7-star soldier-level dark apparitions and started fighting with them.

...

Wang Teng flew in the air and scanned the battlefield around him. He picked up the attribute bubbles that were dropping continuously from the fights. His ability increased unknowingly.

Battlefield Awareness*15

...

There were all kinds of Force attribute bubbles present. Similarly, there were spirit, enlightenment, battlefield awareness, and many other special attributes.

They were one of the best ways for Wang Teng to increase his ability.

Wang Teng didn't stay idle either. There were no other powerful dark apparitions around him, so his attention landed on the weaker dark apparitions below.

In front of the dark apparitions, the human martial warriors were still at a disadvantage. Even though they had discovered the dark apparitions' plan ahead of time and made ample preparations, once they went on the battlefield and fought with the dark apparitions, the humans continued to suffer more losses than wins.

Wang Teng also noticed this. Besides the stronger human martial warriors, the ordinary human martial warriors didn't have much advantage when facing the dark apparitions. Many times, it was a life for a life. The vicious one would win.

There were many fearless human martial warriors who were unafraid of death. Thus, the scene was extremely tragic!

Wang Teng scanned the battle below and frowned uncontrollably.

He wanted to do something, but he couldn't save all the human martial warriors facing death threats simultaneously, no matter how powerful or fast he was.

If he used some wide-range attacks, it was unrealistic too. He would accidentally injure a large number of human martial warriors.

This was why they only activated the Thousand Thunder Annihilation Array and Yi Wood Melting Fire Array after everyone in Star Maple City had been evacuated.

One of these two huge arrays was enough to injure and kill a large number of human martial warriors with its terrifying power, much less both of them.

The human race couldn't afford to suffer this loss.

Wang Teng's mind worked furiously. He took out his attributes panel and quickly scanned all his abilities. He hoped to find a skill he could use in this situation.

Very soon, he looked through everything but didn't notice anything useful.

He shook his head and wanted to give up. Suddenly, his gaze landed on the second column of his attributes panel.

Spiritual power!

Damn it, he was so stupid! He had forgotten his trump card!

Spiritual power was an invisible force. He could use it along with his runes to form a Force attack. At the same time, he could use it for simple physical attacks too!

Moreover, he was in the Emperor realm now. The amount of spiritual power he could use was sizable, and the effective range was also wide. He had no problem tackling the dark apparitions in one huge patch.

When he thought of this method, Wang Teng felt a little excited for some reason. He felt as if he had found something fun.

His gaze shimmered as he searched for an area densely populated with dark apparitions. His spiritual power surged out of his forehead like a flood. He formed an effective circular range with him in the center.

Silently and secretly, an invisible force spread out like transparent tentacles, twirling themselves around the dark apparitions.

The attacking power of the spiritual power depended solely on its user. When Wang Teng only used it for picking up attributes, it was harmless and undetectable by others.

However, when Wang Teng wanted to kill someone, his spiritual power became his best companion. It started to bare its fangs.

On the battlefield, numerous dark apparitions were fighting with the humans. Suddenly, they paused in their attacks.

“?”

The dark apparitions were puzzled and shocked. They didn't know what had happened.

However, to the experienced human martial warriors, this moment of delay was enough to end the battle.

The human martial warriors didn't know what happened to the dark apparitions either. They were about to get killed by them, but the dark apparition suddenly went mad and froze as if their CPU had crashed. But since the opportunity was in front of them, they wouldn't let it go. They grabbed this chance and waved their weapons, chopping the dark apparition to death.

That chop was accurate and decisive!

Up and down. One blade was enough to take the life of the dark apparition.

However, some dark apparitions that were more powerful and had stronger battle awareness released all their Force when they got locked by Wang Teng's spiritual power. Before the attack of the human martial warriors landed on them, they struggled and got away forcefully.

They were all flabbergasted. They could still feel the lingering fears in their hearts.

Chapter 456: The Bosses Fooled Us!

The dark apparitions that managed to escape by a fluke were terrified. They retreated instantly. That moment was too scary. Before understanding what had happened just now, they should flee as far as they could.

The human martial warriors who were fighting with them were stunned. Then, a hint of regret and frustration appeared on their faces.

Why didn't they move a little faster!

If they were faster, they could have killed the dark apparitions. It was a pity to miss that opportunity due to a moment of hesitation.

Look at the others. They grabbed the chance and killed their opponent. Every dark apparition killed was a military exploit. They felt as though they had lost a few million.

However, the dark apparitions who were retreating suddenly froze again.

"What the f**k!"

The human martial warriors cursed in their excitement. This time, they didn't hesitate. The instant the curse came out of their mouth, they had caught up with their enemy and slashed them with their weapons.

"Die!"

Slash!

The weapons landed on their bodies, and the dark apparitions died.

It was so simple that the experienced human martial warriors found it unbelievable. They managed to kill their opponents so easily?

They were stunned. For a moment, they didn't know what expression they should wear.

Wang Teng couldn't help but give an evil smile when he saw this scene from the sky. Let them be puzzled.

He was starting to enjoy this feeling. It felt as if he was controlling the entire situation.

Feeling restless, he turned and rushed towards another area.

There were still many other dark apparitions waiting for his love.

After some time, the dark apparitions in another area suffered the same thing. They paused for no reason and got killed on the spot. Their ending was gruesome.

Next, Wang Teng continued his journey. Every time he went to a certain area, a large number of dark apparitions would die. It was paranormal.

He used too much spiritual power, so his face turned a little pale. However, he was picking up attributes without stopping. The spirit attributes he picked up helped him replenish his spiritual power. Gradually, he regained his spent spiritual power.

At this moment, the humans were in a confused state of winning. Although They didn't know what was happening, they all noticed a common point.

Every time the dark apparitions lost their senses, Wang Teng would be nearby. Whenever he moved, the situation would move with him.

Anyone with a brain could tell that this was related to him.

Wang Teng didn't plan to hide either. He wouldn't be able to keep it from the smart ones anyway. The instant he used his spiritual power, he never thought of hiding.

Moreover, he was able to save many people and deal a massive blow to the dark apparitions. Hence, even if he was exposed, he felt that it was nothing.

Mind you, not everyone could tell that he had spiritual power. Spiritual power was a rare talent. Most people didn't know about it.

With Wang Teng's help, the Black Sparrow Troop enjoyed a relaxed massacre. At this moment, Niu Li and the others looked at each other and then glanced at Wang Teng, who was in the sky.

Kong Li couldn't control herself and asked, "What did this fellow do? How did he manage to make these dark apparitions depressed?"

"Who knows? He's always full of surprises." Niu Li shook his head and gave a bitter smile.

Yuwen Xuan felt mixed emotions. He was exasperated.

At the start, when Wang Teng entered the military, he was unhappy and wanted to find an opportunity to have a duel with him, but Wang Teng never gave him a chance. He used a different method to suppress him every time.

This event was one such example. He would never be able to do it.

However, Wang Teng did it. He even helped everyone kill a considerable portion of the dark apparitions.

Comparisons were frustrating. The more outstanding Wang Teng was, the more frustrated he felt.

On the other side, Xie Xueya and Feng Shan noticed the situation too. They were dumbstruck. They stared at Wang Teng in disbelief.

He affected the war situation in an entire area with his own effort. It didn't make sense.

They were in awe and bewilderment. But no matter how they thought about it, they couldn't figure out how Wang Teng did it.

...

Since the human martial warriors could sense Wang Teng's doings, the dark apparitions could find him too.

The high-level dark apparitions possessed intelligence, be it they were vampires, giants, or sheep-heads... When they saw Wang Teng, they couldn't care about their high and mighty demeanor anymore and started retreating frantically in the opposite direction.

This human was more of a devil than them!

Wherever he went, there would be dark apparitions dying.

Who could handle this!

However, Wang Teng's spiritual power ran faster than them. Before they could leave his effective range, they were bound by their feet.

He pulled his spiritual power, and their legs were forcefully shut tight. Their bodies fell forward due to the inertia...

They fell flat on the ground!

They looked cute when they did that.

Especially the giant apparitions. They were all tall and lofty, so their fall was exceptionally miserable. The ground vibrated from their fall.

The human martial warriors wore weird expressions on their faces, but they didn't hesitate to grab the chance. They quickly dashed towards the dark apparitions and used their sharp weapons to stab their heads brutally.

Red, white, and green blood splattered everywhere.

"Run!"

"Run, that's a devil!"

The dark apparitions in the distance started yelling. They scurried away before Wang Teng got near them.

Some dark apparitions that were more powerful howled angrily at Wang Teng.

"Stop him!"

"Kill that human!"

"Anyone that dares to run away will be killed!"

The hierarchy of the dark apparitions was obvious. The low-level dark apparitions didn't dare to disobey the orders of their superiors. However, they were terrified of Wang Teng's power, so they fell into a dilemma.

The 9-star and 8-star soldier-level dark apparitions were fighting with the human martial warriors, so they couldn't spare any hands to attack Wang Teng. They could only open their mouths once again.

"His face is pale. He must have exhausted himself after using some secret skills. He's just an arrow at the end of its flight. This is the best time to kill him."

"Kill that human, and you'll rise three ranks. You'll be rewarded with dark energy stones!"

Wang Teng raised his eyebrows. These dark apparitions were skilled at handling their subordinates. After threatening them, they enticed them with rewards.

At first, he wanted to replenish his spiritual power, but he suddenly felt that he should stop for a moment.

Many dark apparitions looked at Wang Teng when they heard this. They noticed that his face was indeed pale, and he looked weak. They were moved.

In addition, the temptation of the rise in ranks and the dark energy stones gave them the courage to charge at Wang Teng.

The expressions of the other human martial warriors changed tremendously. Wang Teng did seem injured. Hence, he would probably be unable to withstand the attacks of the dark apparitions. They immediately rushed towards Wang Teng and wanted to help him block the attacks of the enemies.

At the same time, the other human martial warriors were furious.

Wang Teng had helped the humans kill many dark apparitions and made such an outstanding contribution. If they let this hero get killed by the dark apparitions, they would be disappointing him.

They wouldn't allow this to happen.

Thus, many human martial warriors shot towards Wang Teng indignantly.

Many dark apparitions came to kill Wang Teng. However, most of them were caught up by Kong Li and the other human martial warriors. After a round of ferocious attacks, they were smashed into pieces.

However, two dark apparitions still managed to reach Wang Teng. They weren't far from him, and their speed was fast, so they managed to break through the human defense wall.

The two sheep-head devil race dark apparitions flapped their wings and flew at a fast speed.

They were holding sickle-shaped weapons in their hands. When they flung their weapons, dark Force could be seen hovering around them. Before they reached Wang Teng, the frightening blade attack had already arrived above his head.

Kong Li and the others were furious. They wanted to grab those two dark apparitions and tear them into pieces.

Suddenly, Wang Teng raised his head and punched out. A frightening fist aura surged out from his body and exploded in the air. The two black blade auras disintegrated immediately.

The dark apparitions: ...

The two sheep-head dark apparitions were thunderstruck. They stopped their wings forcefully and froze in mid-air.

What is this!

Is this an arrow at the end of its flight?

He destroyed our attacks with a single punch. Exhausted? Are you kidding me?

Wang Teng's gaze landed on the two dark apparitions. 6-star soldier level!

Good, courageous!

A cold smile appeared at the edge of his lips. He hooked his fingers at the two dark apparitions.

Come!

The two sheep-head dark apparitions felt as if they were looking at a smiling devil. Their heads turned numb, and their blood ran cold.

The next second, they turned around and ran away. There was no pause in their actions.

Wang Teng: ...

The corners of Wang Teng's lips twitched. He appeared behind the two dark apparitions with a brick in his hand and smashed it at them.

Bang! Bang!

He slammed the brick ruthlessly on the two dark apparitions' heads.

The two dark apparitions felt a formidable force travel down from their heads. The pain was excruciating. They couldn't stop their bodies from dropping to the ground.

Boom!

They hit the ground. Before they blacked out, there was only one thought in their minds. *The bosses fooled us!*

The two dark apparitions were filled with hidden bitterness as they fell into the embrace of darkness.

Wang Teng looked below, where the two dark apparitions were hammered into the ground. Only their heads remained outside.

They didn't have much hair on their heads. As a result, they looked like two devil plants growing on the ground.

Finally, everyone regained their senses and stared at the dark apparitions buried in the ground with strange expressions. Then, they looked at Wang Teng's pale face.

Who on earth was the one getting bullied?

Kong Li and the others sized up his face curiously. Was this fellow really at the end of his strength? Was he fooling them?

Wang Teng coughed. His face turned whiter as if he had used his last ounce of strength just now. He appeared extremely weak.

The dark apparitions: ...

Kong Li and the others: ...

"Quick, he must be at his worst now. Kill him!" the dark apparition fighting in the sky urged once again.

The gazes of the dark apparitions below flickered. This time, they didn't advance. Instead, they retreated in unplanned unison.

The powerful dark apparition: ...

His subordinates didn't listen to him. They were so hard to command!

Wang Teng sighed when he saw this scene. It looked like those stupid dark apparitions weren't that stupid. His face regained its color at a visible speed.

The muscles on the powerful dark apparition's face shivered. So his subordinates weren't stupid. It was him who was too naive?!

Chapter 457: Come! Come! Come!

The dark apparition fighting with humans in the sky turned green with anger. He glared at Wang Teng viciously.

His subordinates fled in disorder while he got tricked by Wang Teng. This 9-star soldier-level sheep-head dark apparition wished that he could skin Wang Teng alive and swallow him whole.

However, he was entangled by a 9-star soldier-level human martial warrior, so he couldn't escape.

"Get off!"

He bellowed in anger. The sickle-shaped weapon in his hand tore the air and created a shrill sound as it spiraled towards the human martial warrior opposite him.

The 9-star soldier-level human martial warrior's expression changed. In his haste, he couldn't block the attack, so he had to evade it.

The sheep-head dark apparition took the chance and broke free from his opponent. He moved his body and darted towards Wang Teng.

"Damn it!" The 9-star soldier-level martial warrior immediately reacted. His expression turned ugly as he chased after the dark apparition.

At this moment, a figure landed right in front and blocked his path.

"Move!"

The 9-star soldier-level human martial warrior yelled when he saw a dark apparition blocking his way. He launched a furious attack. The battle blade slashed a frightening green glow in the air. He wanted to kill his enemy in a single move.

After all, the dark apparition in front was already heading towards Wang Teng. If he was a step late, Wang Teng would be in danger.

"Hehehe, are you trying to kill me?"

The vampire who blocked this human martial warrior sniggered. He didn't evade the attack and instead welcomed it with his weapon that looked like a thorn.

Boom!

The two figures collided, and a heated battle ensued.

The 9-star soldier-level human martial warrior was in a hurry to leave, so his attack was ferocious and vicious. He wanted to end the battle quickly.

However, the dark apparition just scoffed and held him back. His main aim was to waste his time, so he appeared calm and relaxed.

As he fought with the human martial warrior, he laughed and shouted at the sheep-head dark apparition.

“Fergus, I’ll take care of this man. Go and kill that young human!”

“Leave it to me. I will kill him!” The sheep-head dark apparition dashed towards Wang Teng without turning his head. There was strong killing intent in his gaze.

“Bastard!” The 9-star soldier-level human martial warrior burst in anger when he noticed the dark apparition ignoring him. A resplendent glow erupted from his battle blade as he hurled it at the dark apparition. Sharp blade auras enveloped his blade.

“Haha, are you angry? It’s still early. Once Fergus kills that talented young man from your race, you will only get angrier.” The vampire laughed rampantly. He seemed to be intentionally provoking the martial warrior.

“Kill!”

At a moment like this, the human martial warrior calmed down. His expression turned cold, and his blade glow gushed towards his enemy.

...

On the other end, when Wang Teng saw the powerful dark apparition rushing towards him, he turned serious.

“9-star soldier level. The dark apparitions view him with such high importance!”

Kong Li and the others noticed the situation on this side too. Their faces turned slightly pale.

That was a 9-star soldier-level dark apparition, two levels above them. They might not be his match even if they attacked him together.

They knew that the dark apparition targeted Wang Teng because his performance was too outstanding and had an overwhelming impact on the result of the battle.

“Wang Teng, run!” Kong Li shouted.

Yuwen Xuan and Xie Xueya were frantically looking for powerful warriors around them for help, but all of them were held back by other dark apparitions. No one was able to reinforce them immediately.

The vampire dark apparition had killed a human martial warrior before he could help Fergus to stop his opponent from chasing him. If not, this situation wouldn’t have occurred.

“Damn it, it’s all that fellow’s fault. Why did he perform so well? He gained the attention of the 9-star soldier-level dark apparition.” Xie Xueya was agitated. She secretly reprimanded Wang Teng for causing trouble.

However, she also knew that if she was in his position, she would do the same thing, even if it meant attracting the attention of powerful enemies.

Although Wang Teng heard Kong Li’s warning, he didn’t choose to run.

He stood in mid-air and kept his brick, switching it with the divine weapon, Mo Que. Then, he stared at the 9-star soldier-level dark apparition that was furiously closing in on him.

Come on, it’s just at 9-star soldier level. I’ve killed one before.

I’m not afraid!

With his current abilities, if he was unable to kill someone at a higher level, it would be a humiliation to the system.

Those dark apparitions thought that he was easy to bully. In that case, he would show them what an indomitable warrior was like.

Dan Taixuan said that he needed to groom his formidable presence.

How was he supposed to groom it? Defeating same-level talents wasn’t enough. He needed to defeat enemies at a higher level than him!

Thus, even if his opponent was at the 9-star soldier level, he would kill them too!

He looked up abruptly.

Boom!

Leiting Physique!

Eight Level Devil Scripture!

A formidable presence erupted from his body. His black hair flew in the wind, revealing his sparkling eyes below his forehead. They were giving off a blood-curdling glint.

At this moment, he was fearless. An indomitable and formidable warrior!

All the enemies blocking his way would be annihilated.

Come!

Come!

Come!

Wang Teng screamed in his heart as the Force in his body surged into Mo Que. After the three howls of anger, the aura around him reached its peak.

Fergus was rushing towards him at the speed of light. His speed was so fast the air around him started exploding from the compression. He plunged down from the sky like a meteor, but suddenly, his pupils constricted. Sensing Wang Teng's menacing presence, he hesitated for a moment.

Then, he flared up in anger. How could he be afraid of a young human martial warrior?

Furthermore, this human martial warrior was two levels lower than him. What a joke!

He would be able to kill him easily using half his strength.

Fergus's cruel and cold eyes suddenly widened. There was dark Force in the depth of his gaze. The sickle-like weapon in his hand seemed to have turned into the scythe of the Grim Reaper. It slashed towards Wang Teng with a pitch-black glow around it.

"Die!"

A glaring beam finally shot out from Mo Que. Force congregated into a frightening blade glow as it struck towards the dark apparition, top to bottom.

Big Dipper Flaming Blade!

Blade conscious erupted

Boom!

A flaming fire glow a few meters long shot right up the sky, splitting the sky into two.

It was a crusade against heaven, led by a nobody from the ground.

Fergus was the first to bear the brunt. The moment the blade glow exploded, disbelief covered his entire face. There was astonishment, exasperation, and regret in his eyes.

Unfortunately, everything was too late. The next second, he was swallowed by the blade glow.

The flaming glow enveloped the sky and cut Fergus's body into two. His corpse dropped from the air.

An eerie silence appeared on the battlefield for a moment. Everyone was confused.

Chapter 458: Couldn't Last More Than Three Seconds!

Fergus's body smashed on the ground and gave a dull thud. Everyone finally regained their senses.

"How is that possible?"

Many people started muttering to themselves unconsciously.

A 7-star soldier-level martial warrior killed a 9-star soldier-level dark apparition. Were they dreaming?

They found it unbelievable. Some people even rubbed their eyes and looked at the burnt corpse of the powerful dark apparition, Fergus. He was chopped into half and died an unwilling death...

This reminded them once again that this was reality!

"This fellow is a pervert!" Kong Li swallowed her saliva. Once again, her understanding of Wang Teng was refreshed.

Her junior brother was brutal!

Even though she knew that Wang Teng was unexpected at times, she never thought that he could jump levels and kill a 9-star soldier-level dark apparition!

It seemed impossible no matter how she looked at it.

Yuwen Xuan was also shocked. He finally understood how big the gap was between him and Wang Teng.

Many people in the military called him a talent but compared to that fellow, his title seemed like a joke.

On the other side, Xie Xueya's expression behind her mask was filled with stupefaction. Her jaws dropped, and she couldn't stick them back for a long time.

What breed of monster was this guy?!

...

Everyone looked at the young man holding a strange and huge weapon with flames circling his body. Many words flew into their minds.

God's child!

Monster!

Devil!

They felt as if they were looking at the rise of an indomitable warrior!

They did not doubt that if this young talent continued on his path, he would become a general-stage martial warrior.

Wang Teng had the potential to become a formidable general-stage warrior!

The vampire who came to hold back the human martial warrior so that Fergus could kill Wang Teng was dumbfounded. He felt that he was going crazy.

Fergus was killed by a 7-star soldier-level young man. What a useless thing!

Feeling indignant, his gaze turned towards Wang Teng, bringing along his malicious intent with it.

No matter what, this young man was too outstanding. He mustn't stay alive!

"How dare you get distracted when fighting with me!" A voice shouted beside his ear.

"Oh shit!"

The dark apparition's expression changed. He was genuinely shocked just now. That was why he got distracted during a life-or-death battle.

And that moment had decided his loss.

The human martial warrior's blade arrived. The vampire didn't have the time to dodge.

But he wasn't a weakling. His gaze turned vicious, and he hurled himself at the human martial warrior instead of evading the move.

At the same time, he stabbed his thorn-like weapon at the human martial warrior's throat at the speed of lightning.

A life for a life!

The human martial warrior's expression changed. He tilted his body to evade the dark apparition's attack. The move that was supposed to kill the dark apparition diverged from its original path and slit the arm of the dark apparition instead.

"Roar!"

The dark apparition howled in pain as one of his arms was chopped off forcefully. Blood splattered into the sky like a fountain.

However, he gritted his teeth and continued retreating at the speed of lightning.

"Human, I'll remember you for severing my arm. You'll suffer my revenge in the future."

A voice filled with hatred and bitterness seeped out of his mouth. He glared coldly at the human martial warrior.

"You want to leave?" Naturally, the human martial warrior wouldn't allow it to escape easily. He chased after him.

"You can't keep me here."

The vampire soared towards the dimensional rift in the sky. The human martial warrior chased him for a distance but had to stop in the end.

He glanced at the dimensional rift in fear.

In the past, some formidable human martial warriors attempted to get close to the dimensional rifts, but the result was obvious. Their endings were terrible.

The closer they went, the more dangerous it was. The result was unpredictable.

Hence, he could only watch the vampire flying higher and higher with a furious expression. He was full of unwillingness.

"Hahaha, I said that you can't keep me!" The vampire laughed arrogantly.

Splurt!

At this moment, his body trembled, and his laughter stopped abruptly.

Huh, whose body is this? Why doesn't it have a head?

He felt his vision spinning. Then, he saw a body without a head.

"I'm sorry. He can't stop you, but I can."

“Also, I’m a narrow-minded person. If I can take revenge now, I won’t leave it for tomorrow.”

Just when he was about to lose consciousness, two calm sentences sounded beside his ear.

The vampire didn’t even have the time to retract his conceited smile. He was flabbergasted. *It’s him! How is that possible!*

Then, he lost his consciousness forever.

Everyone once again stared absent-mindedly at Wang Teng in the air. They turned and looked at the spot where he was standing a second ago. His lingering shadow was still dissipating.

“His speed is amazing!”

The human martial warrior was stunned and staggered.

Not only did Wang Teng kill the sheep-head dark apparition who attempted to kill him, but he also helped him kill this formidable vampire dark apparition!

Double kill!

This fellow was terrifying!

Wang Teng was indeed a revengeful person. This vampire was an accomplice. Hence, he must kill him and leave no future trouble.

Even if it might be dangerous to get too close to the dimensional rift, he still acted.

How many people could be so decisive?

The 9-star soldier-level martial warrior was convinced by Wang Teng. He wasn’t his match.

“Leave that place. It’s dangerous.” The human martial warrior remembered the unpredictable dangers of the dimensional rift, so he immediately shouted to remind Wang Teng.

The moment he finished speaking, a peal of soft laughter was heard.

“I didn’t know that I’d see such an interesting scene the instant I arrive.

“A rare talent is born in the human race!”

The human martial warrior’s expression changed tremendously when he heard the voice. “Run!”

Actually, he didn’t need to remind Wang Teng again. The alarm in Wang Teng’s heart was ringing frantically. He wanted to leave without hesitation.

However, the next moment, he froze.

His entire body seemed to have been pinned to the spot by an invisible force. He couldn’t move at all. Wang Teng was astounded.

This must be a general-stage dark apparition!

Damn it, do you have to do this to me?

I only killed two 9-star soldier-level dark apparitions. Do you have to send someone so frightening to kill me?

I took so much effort to groom my indomitable presence. I didn't even have the chance to get arrogant before you poured a bucket of cold water on me.

Why can't you let me be proud for a few more seconds, bastard!

Wang Teng was on the brink of tears. He felt that his idea was a little bad. If he knew this was going to happen, he wouldn't have taken his revenge. It was alright to leave his revenge for tomorrow.

Suddenly, he felt someone brushing his face. Then, a soft body hugged him from behind and blew into his ear...

Chapter 459: Black Incubus Devil Lord!

Wang Teng's body tensed up when he felt the texture on his back and the faint breath beside his ear. His vision moved down slowly.

A beautiful and fair hand was stretching from behind and caressing his face gently.

However, Wang Teng didn't feel the gentleness at all. Instead, his head turned numb, and his heart felt bitter. Tears almost rolled down his eyes.

Oh my god, this is so scary!

He hadn't seen the face and couldn't sense the aura of the person behind him, but this was definitely an extremely powerful dark apparition.

The human martial warrior below managed to see the face behind Wang Teng. Horror appeared in his eyes as he exclaimed in fright, "Black Incubus Devil Lord!"

As a 9-star soldier-level formidable warrior who was extremely close to hitting the general stage, he knew some inside information.

One of them was this Black Incubus Devil Lord.

This was one of the few powerful presences that had come to the current world. Hence, the human race had a record of their appearance.

This was why he immediately recognized the other party.

He wouldn't be wrong. It must be that lord!

The 9-star soldier-level human martial warrior was flabbergasted. Recalling all the legends he had read of this lord, fear crept right into the depth of his heart.

At the same time, Kong Li and the others noticed the situation on this side. When they heard the human martial warrior shouting 'Black Incubus Devil Lord,' they shuddered as if they had heard something terrifying. Terror appeared on their faces uncontrollably.

They had never seen the true face of the Black Incubus Devil Lord, but they had heard of her stories. Now, she had her attention on Wang Teng, and he was also in her hands.

It was the same as the Monkey King landing in the hand of Buddha!

He was dead!

No one dared to save him. They wanted to, but they couldn't!

Anyone that attempted would die. There was no other ending.

Fortunately, that presence didn't plan to kill Wang Teng instantly, so he was temporarily saved. They didn't need to send themselves to their death.

They weren't being timid. They were just judging the hour and sizing up the situation!

"Black Incubus Devil Lord!" Wang Teng's heart trembled. A drop of cold sweat dripped down his forehead.

He had never heard of this name before but based on the words alone, he could tell that the other party was incredible.

Yes, this was a name he couldn't provoke!

He looked at the expressions of the people around him and felt even worse. What a difficult situation!

Why would someone as kind as him get targeted by this frightening presence? Wang Teng screamed in his heart. He didn't understand at all!

"Are you afraid of me?" Suddenly, a gentle but stern voice sounded beside his ear.

"Hahaha!" Wang Teng swallowed his saliva and laughed awkwardly. "Beautiful lady, I'm not afraid. I'm just a little nervous. You're too close!"

"Hahaha... As a man, you're afraid of a woman getting too close to you!" The being behind started giggling as if she had heard a joke.

You're just a female dark apparition. Why are you calling yourself a woman? Wang Teng complained in his heart. However, he wouldn't say it directly. He continued, "Well, I'm a pure-hearted little virgin."

The Black Incubus Devil Lord's expression turned weird. No one had ever dared to be so impudent in front of her.

She could feel that this young human was extremely nervous, but he was still so irritating.

This young fellow is interesting!

Kong Li and the others almost fainted when they heard him.

What do you mean by pure-hearted little virgin?!

Can you have some face!

Your life is the most important now. Who cares if you're a pure-hearted little virgin?!

"Aren't you afraid that I will kill you now?" the Black Incubus Devil Lord asked.

"I am. I'm so afraid that I'm going to pee in my pants." Wang Teng nodded fervently. He was afraid that the other party would pinch him to death if he replied a little slower. To show that he was sincerely afraid, he turned his face pale and shuddered as he spoke. All he needed to do was pee in his pants now.

The Black Incubus Devil Lord: ...

She suddenly felt a sense of helplessness as she looked at the young human in front of her speechlessly. This fellow didn't have the demeanor of a rare talent at all.

He threw away his face without any hesitation.

This must be a fake talent.

"I think that there's some misunderstanding between us. Why don't you let me go, and we can discuss this matter properly when we have the time?" Wang Teng's heart skipped a beat when he realized that the other party wasn't speaking.

"You killed my men. The truth is right there. What misunderstanding can there be?" The Black Incubus Devil Lord sniggered.

"Cough, erm..." Wang Teng coughed awkwardly. His mind worked furiously, and cold sweat flowed down his forehead once again.

*F**k, help me!*

He had a glib tongue, but he couldn't think of an excuse now. Besides, the Black Incubus Devil Lord didn't need any reason if she wanted to kill him.

Wang Teng had many ideas on how to save himself, but none of them was useful. He couldn't even use his space talent.

He tried it secretly only to realize that the space elements around him were all frozen. Furthermore, the Black Incubus Devil Lord was much stronger than him. In front of the huge difference in power, all schemes were useless.

"Hmph!"

At this moment, the Black Incubus Devil Lord suddenly snorted.

Boom!

A huge explosion sounded behind Wang Teng. Then, his body got pushed out by a great force.

"Run!" Dan Taixuan's voice sounded beside him.

"Master!"

Wang Teng was extremely touched. At the crucial moment, his beloved master was still the most reliable person. She came to save him despite the Black Incubus Devil Lord's dominance.

Wang Teng didn't waste any time. As the thought flashed through his mind, he immediately activated his space talent and disappeared on the spot. When he reappeared again, he had left the control range of the Black Incubus Devil Lord.

He turned around and saw Dan Taixuan getting thrown off her feet after exchanging blows with the Black Incubus Devil Lord. She vomited a mouth of blood uncontrollably.

Wang Teng's expression changed. Even Dan Taixuan wasn't the Black Incubus Devil Lord's match?

The strength of the Black Incubus Devil Lord rose another few levels in his heart.

At this moment, Wang Teng finally saw the appearance of the Black Incubus Devil Lord clearly. This was a beautiful lady wearing a black-feather overcoat. She looked no different from a human, but her long hair was dark purple and slightly curled. Her eyes gave off a pitch-black and evil glint.

She frowned when she noticed that her prey had been rescued. She glanced at Wang Teng before taking a step out.

Her target was Dan Taixuan!

Dan Taixuan retreated after feeling the Black Incubus Devil Lord. However, she had underestimated the Black Incubus Devil Lord's fury.

The next instant, the Black Incubus Devil Lord appeared in front of her and stretched out a hand from beneath the black-feather overcoat. She lightly pushed her palm at Dan Taixuan.

Dan Taixuan's expression changed, but she wasn't a delicate and weak girl. As a lady who aimed to be indomitable at her level, how could she be an easy person? She furrowed her brows as she looked at the Black Incubus Devil Lord's attack and activated all the Forces in her body. She retaliated with a punch.

Chapter 460: The Destruction Of The Array

"Bang!"

Both their attacks seemed normal. One punch and one fist. It couldn't be any simpler.

However, when their attacks collided, an appalling explosion spread out from the center.

The powerful force swept the entire sky. Some martial warriors and dark apparitions around them couldn't run away in time, so they were thrown back a few hundred meters.

A figure flew out of the center of the explosion.

It was Dan Taixuan.

Wang Teng's expression turned grave. This was the second round of attack, and Dan Taixuan was at the losing end. It was expected.

The Black Incubus Devil Lord hadn't used all her strength. The difference was a little wide!

As he thought about this, he activated his space talent without hesitation and appeared behind Dan Taixuan in a split second. He caught her in his arms.

"Leave!" Dan Taixuan said in a low and grim voice.

Wang Teng activated his space talent again. The air behind him got distorted, and their figures disappeared.

The Black Incubus Devil Lord frowned. She smiled gently and said, "Amazing, you guys again managed to escape from me."

The moment she finished speaking, Wang Teng and Dan Taixuan appeared in the distance.

They stared at the Black Incubus Devil Lord intently. They were extremely fearful of her.

Lord Yang and the other martial warriors hurriedly arrived behind them. All of them were eyeing the Black Incubus Devil Lord vigilantly. At the same time, they asked, "How are you?"

"I won't be dying soon." Dan Taixuan shook her head.

Lord Yang nodded. Then, he gave a forced smile. "We're in trouble. I didn't expect the Black Incubus Devil Lord to appear!"

"There's no Divine Executor Cannon in Star Maple City. We're unable to inflict any harm to her. To think that we spent so much time and effort preparing for this war. Are we unable to escape from annihilation?" A hint of despair appeared in Yin Tongfang's eyes.

In the past, the appearance of this Black Incubus Devil Lord represented destruction. No one could escape from that fate.

Wherever she went, only death, suffering, and agony remained.

Until today, she had flattened seven cities in the Xingwu Continent. The Black Incubus Devil Lord was the epitome of destruction.

This was why everyone was so terrified and shocked when they heard her name and saw her face. The Black Incubus Devil Lord had come to Star Maple City. Did they have any chance of survival remaining?

"Wow, how crowded." At this moment, the Black Incubus Devil Lord looked at them and raised her eyebrows. She smiled gently. "Let's play a game before I destroy this city!"

As she spoke, black feathers started gliding out from her overcoat, congregating and forming a black throne.

It was almost impossible to tell that the throne was made from feathers once it was formed. Instead, it seemed to be constructed using black metal. It gave off a cold glint.

On the back of the chair, there were a few black feathers that were larger than the others. They stuck themselves on the throne like sharp swords, exuding a menacing vibe.

The Black Incubus Devil Lord slowly sat on the throne and glanced at the general-stage martial warriors mockingly.

"Game!" Lord Yang and the others were furious. The Black Incubus Devil Lord wanted to play with them!

The Black Incubus Devil Lord smiled when she saw the angry expressions on the faces of the humans. She was delighted. She looked down on Star Maple City and shook her head. "These fellows are useless. They got stuck down there for so long. I should barbecue and eat them when we go back."

Although she was muttering to herself, her words landed in everyone's ears clearly.

The muscles on their faces started twitching. She wanted to barbecue these general-stage dark apparitions?

The Black Incubus Devil Lord was as cold-blooded as what the rumors said.

At the same time, they saw the Black Incubus Devil Lord stretching out her hand and pressing it down on Star Maple City that was covered by the array.

"Damn it!" Lord Yang and the other martial warriors were shocked. They wanted to stop her, but it was too late.

The array started cracking under the intense pressure of the invisible force.

The runemasters hosting the array were flabbergasted. They frantically activated the two massive arrays and attempted to block the Black Incubus Devil Lord's attack.

In the array, three general-stage dark apparitions died due to the double damage of the Thousand Thunder Annihilation Array and the Yi Wood Melting Fire Array. The rest were in a bad state too. They had burnt marks all over their bodies and suffered many injuries.

The Eight Arms Devil General was still surviving tenaciously. However, its arms were once again broken due to the lightning attacks from the Thousand Thunder Annihilation Array. He had lost three arms.

He was in excruciating pain, and his heart was bleeding.

He had paid an enormous price to regrow his arms. In the end, before he could put them to good use and atone for his past mistakes, he lost them again, immediately after he landed on the Xingwu Continent.

His face was as black as the bottom of a pot.

The general-stage dark apparitions struggled desperately, but they were unable to break the array. If the runemasters were given enough time, the dark apparitions would all get killed in the arrays.

They were in despair, but the sudden dawn of the Black Incubus Devil Lord gave them hope.

Sabah noticed the abnormality of the array and laughed. "Humans, you're dead. Once I get out, I'll tear you into pieces!"

The other dark apparitions were elated too. They looked towards the top of the array in unplanned unison.

Crack!

A loud cracking sound entered their ears. Then, large pieces of Force fragments fell to the ground.

The next moment, an explosion came from above the array. The entire array had disintegrated. Multiple Force fragments turned into spots of light and disappeared in the air.

Master Gorlin and the other runemasters were dumbstruck. The backlash from the array caused them to vomit a mouth of blood, and their auras dwindled.

The 12 runemasters got seriously injured in an instant.

Amidst peals of crazy laughter, the dark apparitions rushed towards the runemasters.

“How dare you!”

Yin Tongfang and the martial warriors were afraid of the Black Incubus Devil Lord, but they weren’t scared of these general-stage dark apparitions.

Hence, when they noticed that they actually wanted to kill the 12 runemasters, they stopped them indignantly.

The runemasters were like the general-stage martial warriors in the rune world. In certain situations, they would be of greater use than general-stage martial warriors. Hence, all of them were treasures of the human race. The martial warriors wouldn’t allow the dark apparitions to harm them.

“The game has started!” The Black Incubus Devil Lord sniggered. She placed her hand on her chin and watched the collision of the two races. A huge battle exploded instantly.

The situation was in a mess as a bunch of general-stage martial warriors attacked at the same time. The destruction they caused was frightening. The buildings in Star Maple City were all in ruins.

The runemasters took the chance to retreat. They weren’t general-stage martial warriors, so their battle abilities weren’t comparable with Yin Tongfang and the others.. If they remained here, they would be a burden.
