

Martial Arts 531

Chapter 531: Martial Warriors Protect Peace!

The frightening roar came from the depth of the sea and resounded in the entire Donghai City. Only the voice was heard. The owner of the voice was nowhere to be seen.

They could only see the shadows of the sea beasts packed like sardines in a can on the surface of the sea. Along with the malicious statement, it allowed the humans to understand that it wasn't a joke. That sea beast meant it.

Whether it was the martial warriors on the ground or the normal people in the underground shelters, everyone's expression changed. A feeling of despair appeared in their hearts.

Was Donghai really going to fall?

"How dare you!" At this moment, a cold voice filled with anger burst in the city.

This voice wasn't as loud as the roar of the sea beast, but it still landed in everyone's ear clearly, even covering up the bellows of all the other sea beasts.

Multiple figures floated into the air, staring coldly at the sea beasts in the sea. A domineering and overpowering aura surged out of them.

These were... general-stage martial warriors!

Their auras merged together and pressed down on the sea beasts like a huge net.

Boom!

The waves tossed, turned, and splashed high up into the air.

Roar!

The lord-level sea beasts in the sea roared. They welcomed the attack with their ferocious auras.

Boom, boom, boom!

The collision of the two auras was extremely frightening. An ear-shattering explosion sounded, creating deep whirlpools on the surface of the sea.

Roar! Roar! Roar!

All the sea beasts were roaring. They merged their auras into the aura of the lord-level sea beasts.

Suddenly, the aura of the sea beasts sky-rocketed and suppressed the human martial warriors.

The expressions of the human martial warriors changed slightly. They took a step forward and resisted the retaliation resolutely.

They were at a standstill.

The humans started to get nervous. They fixed their gazes on the general-stage martial warriors in front.

Although the normal people couldn't understand what was happening, they could still feel the tense atmosphere in front. They could also sense that the general-stage formidable warriors were slightly at a disadvantage.

Everyone knew that a life-or-death battle would ensue soon.

The appearance of the lord-level sea beasts would raise the intensity of the battle to a frightening level.

If the human martial warriors lost in this battle of the auras, it would affect the morale of all the martial warriors. This would be another misfortune.

...

The moment the invasion of the sea beasts occurred, Capital Xia, which was in the north, received the information.

Capital Xia.

There was a magnificent and ancient building in the middle of the city. This was the imperial palace.

All the leaders of the country were gathered here, including the leaders of martial arts, the minister of education, the generals of the military, and many others. They were all important figures in the country.

The situation of the Donghai battle was being played out in front of them.

Everyone was grim. Then, a heated meeting started. Very soon, news flew out of the imperial palace and got passed down level by level.

The military was activated. A large number of martial warriors went to reinforce Donghai.

At the same time, the higher authorities made an astonishing decision. They decided to broadcast the battle in Donghai live to the whole country.

The speed of the country's technology was unimaginable. Within twenty minutes, the battle was displayed all over the country.

Jinlin, Guanghai, Longjiang, Xiangdao, Beijiang, Nanhai... no city was forgotten.

The battle was being broadcasted on television, on the internet, and even on the wide screens outside large shopping malls.

Countless passers-by stopped in their tracks and looked at the screens beside them in astonishment.

On the screens, the prosperous city had turned into ruins. Flames of war raged everywhere. The waves in the sea splashed into the sky, and terrifying sea beasts stormed through the city. Fresh blood stained the ground red. The never-ending explosions thundered in everyone's ears.

These tragic images shocked everyone.

Instantly, commotions erupted all over the country.

"Oh my god, what happened?"

"It's Donghai!"

"I see the Donghai Pearl Tower. This is Donghai!"

"Monsters have invaded Donghai! What is going on?"

"This is so scary. Are those star beasts from the sea? They look ferocious and are huge. This is frightening!"

"Aren't we at peace with the star beasts? Why did they suddenly attack our city? Is Doomsday coming?"

...

The entire country was in a panic. Ladies and children were crying while the men went pale...

But at this moment, the martial warriors stood up, and some formidable warriors even soared into the sky in front of everyone. They shouted, "Everyone, just like what you've seen, Donghai is experiencing an unprecedented calamity. Star beasts have emerged from the sea, and our city is in ruins.

"But I need to tell you that this is the truth behind the martial arts era. We have an opportunity to become stronger, but at the same time, we are facing terrifying dangers.

"In the past, martial warriors protected our cities and stopped all the dangers outside. We even cleared unknown areas so that you can enjoy peace. However, the truth always comes out. Now, it's time for you to know the truth.

"What you see is the cruel reality. The martial warriors in Donghai are fighting with the sea beasts.

"This is the first battle between humans and sea beasts.

"If we win, Donghai will continue existing. If we lose, Donghai will be destroyed.

"Everyone, it's time to open your eyes and see the truth of the martial arts era!"

...

Similar scenes were occurring in all the cities around the country.

The governors of the cities, the president of the martial arts association, the minister of education, the principles of martial arts academies, and many other formidable martial warriors stepped out. They didn't leave after finishing their speech. Instead, they accompanied the people in watching the broadcast of the battle.

Those that should leave had already left. They needed to guard their cities to prevent any accidents.

The ordinary people were silent. As memories flashed through their minds, they felt absent-minded.

No wonder the country promoted martial arts fervently. No wonder they broadcasted the National Number One Martial Arts Competition countrywide.

Actually, there were many signs in the past, but the information got cleared almost immediately after it was put on the internet. Hence, most people thought that they were just rumors.

Now that the brutal truth was laid out in front of them, everyone woke up.

The images of the Donghai battle slammed right into their hearts and astounded them. They wished that this was a dream, but they had to force themselves to accept it.

Many people wanted to blame the martial warriors for keeping the secret for so long. However, before their anger could rise, they felt a sense of helplessness and even embarrassment.

So what if they knew?

Could normal people stop this?

If everyone knew the danger, how many people would still be willing to become martial warriors?

The martial warriors protected the normal people from all dangers so that they could enjoy peace. What right did they have to blame them?

At this moment, on the screen, numerous martial warriors fell into the mouths of the sea beasts. This scene was a true display of that sentence.

Chapter 532: The Blade Of Slaughter!

While the entire country was watching the tragic fight, the battle of the auras between the general-stage martial warriors in Donghai and the sea beasts had reached a crucial moment.

The numbers were on the sea beasts' side. Hence, their combined aura was enormous.

The general-stage martial warriors had grim expressions on their faces. They stepped back continuously because of their aura.

One step, two steps, three steps...

They took a total of three steps back. It seemed like a short distance, but the difference in strength was vast.

"Humans, die!" The lord-level sea beast's voice vibrated from afar, shaking the earth.

Many low-rank martial warriors retreated unconsciously. They couldn't bear the violent force of presence. Their faces turned pale.

The despair in their hearts grew stronger and stronger.

Were the humans unable to stop the sea beasts?

Should they run away? If they ran, they could at least remain alive!

Where there was life, there was hope!

As long as they were alive, they had hope!

They just had to retreat 300 kilometers. The human land was vast, and there were many powerful martial warriors closer to the mainland. They could protect their lives and take revenge in the future. They would get Donghai back again!

This thought appeared in many people's minds.

It was normal to think this way in the face of death!

At this moment, a clear and loud voice broke the silence. It came from afar and was getting closer.

At the start, the sound was vague, but it arrived near the shore in an instant. The lightning Force in the voice pressed down from the sky forcefully.

"They're just a bunch of animals. Why should we be afraid of them!"

"Humans would rather die fighting than retreat!"

"Kill!"

An icy voice erupted in the sky. At the same time, an aura that exceeded the power of a normal general-stage martial warrior merged with the auras of the other human martial warriors.

Boom!

The aura of the sea beasts was pushed back a few meters directly.

The general-stage martial warriors shuddered, and a sharp glint appeared in their eyes.

"Wang Teng!"

A few general-stage martial warriors turned to look at the person. They were shocked.

This young man was back!

And this aura... No wonder they found it familiar. It looked like he was the one who had just advanced to the general stage.

He was so young but already at the general stage!

Even though this was an emergency and there was no time for them to think too much, they were still flabbergasted.

"Hahaha, good! You didn't die!" Dan Taixuan laughed happily.

"Master!" Wang Teng felt touched by Dan Taixuan's concern. He greeted her respectfully.

"You advanced to the general stage?" Governor Jiang couldn't help but ask.

"I was lucky," Wang Teng nodded and said.

The edge of their lips twitched. Luck wasn't enough to describe someone who managed to advance to the general stage at such a young age.

Why didn't they have this luck when they were young?

But this was a piece of good news for the humans. One more general-stage martial warrior was equal to a martial warrior team. It was extremely useful.

At the same time, when the other martial warriors saw a turn of tides because of Wang Teng's appearance, they were motivated.

"It's Wang Teng!"

Everyone exclaimed in surprise.

Fu Tiandao, Qin Hanxuan, and many others recognized Wang Teng. They were even more shocked when they sensed the general-stage aura around him.

Good riddance, this fellow had become a general-stage formidable warrior!

He had gone ahead of them!

To think that when they first saw Wang Teng, he had just become a martial warrior. Now, he had surpassed them.

Fu Tiandao and the others felt that they were getting old.

The other martial warriors were overjoyed when they knew that Wang Teng had advanced to the general stage.

"Wang Teng has reached the general stage!"

"We have another general-stage formidable warrior. This is great!"

"There's still hope. Wang Teng is right. What's so scary about a bunch of animals!"

"Humans should never retreat. We must move forward fearlessly. Even if we die, we mustn't be scared."

Looking at the young figure in the sky, they remembered what he said just now. They couldn't help but get influenced by his confidence.

"Continue fighting no matter what!"

"Kill!"

Someone shouted furiously.

Then, more and more people got ignited and started shouting at the sky.

"Continue fighting! Kill!"

"Continue fighting! Kill!"

"Continue fighting! Kill!"

...

Malicious intent burst from the human martial warriors' bodies. This was the will of all the martial warriors. They gathered together and merged into an aura that shot right into the sky.

Wang Teng had a sudden thought and released his massacre conscious.

The killing intent of all the martial warriors got attracted by his massacre conscious. Mixing together, they gradually formed an invisible blade of annihilation.

The general-stage martial warriors couldn't help but turn around. There was a strange gaze in their eyes.

What a frightening killing intent!

They were all general-stage martial warriors, so they had many experiences. Hence, they could tell that Wang Teng already possessed the massacre conscious.

But they found it even more unbelievable.

How many people did he kill to possess this frightening massacre conscious?

Mind you, even those experienced soldiers who lived on the battlefield all the time might not be able to possess such a powerful massacre presence, much less massacre conscious.

Yet Wang Teng did it.

The general-stage martial warriors didn't have the time to think too much, though. The massacre conscious above Wang Teng's head was too terrifying, exuding a frightening aura.

The massacre blade conscious seemed to be stained with countless lives. Killing intent swept through the sky like a pile of corpses and a sea of blood.

Governor Jiang and the general-stage martial warriors were close to Wang Teng, so they could still feel the terrifying massacre conscious dawning on them even though it wasn't directed at them. They were impacted by it in an instant.

Their expressions changed slightly, and they retreated some distance away. Then, they glanced at each other and let out loud shouts.

"Kill!"

"Kill!"

"Kill!"

As they yelled, their massacre presence also surged out, merging into Wang Teng's massacre conscious.

After some time, Wang Teng felt that the massacre conscious above him had reached its limit. He opened his eyes wide, and a sharp gaze shot towards the horizon.

"Go!"

Following his cold shout, the massacre blade above his head slashed out.

Boom, boom, boom!

The sea beasts' aura collapsed in an instant.

The surface of the sea exploded. The sea was split into two as numerous sea beasts struggled and cried in pain.

“Roar!”

“Humans, you are seeking death!”

The lord-level sea beasts in the sea were infuriated. They released an earth-shattering roar. Suddenly, large shadows broke through the surface of the water and appeared some distance away in the sea.

Some of these large sea beasts had scale armors and hooks around their bodies. They looked like strange fishes, extremely hideous. Their bodies were wriggling, and they were more than ten meters long. These were the giant pythons of the sea. Some had a fishtail and alligator body. All of them looked weird...

1

If there was anything similar about them, it was the formidable aura they gave off.

“Kill!”

These lord-level sea beasts bellowed and charged towards the human martial warriors furiously.

The sea beasts in the sea turned crazy. They swarmed towards the shore relentlessly and climbed onto the land. Then, they pounced on the human martial warriors around them.

Dan Taixuan and the others were shocked. They immediately hollered, “Stop them!”

The next instant, the general-stage martial warriors split into two teams. Some flew towards the lord-level sea beasts while others soared down towards the sea beasts below.

Boom, boom, boom!

A frightening battle erupted instantly.

Governor Jiang and Ye Jixin, along with some others, stopped the lord-level star beast and started fighting with them.

Explosions resounded in the air. The impact of the Force energy spurted out and crashed into the sea, setting off violent waves.

On the other side, Wang Teng and Dan Taixuan shot towards the sea beasts below.

A large number of sea beasts wanted to climb onto the shore. Dan Taixuan held her battle sword in one hand and slashed a ten meters sword glow horizontally in the air.

Wang Teng clutched his Mo Que. Flames bloomed, and a blade glow shot out. The sea was slashed in half, killing multiple sea beasts.

The high-rank martial warriors hurried over to stop the sea beasts from climbing onto the land.

The scene became chaotic and disorderly. There were too many sea beasts. Even with the general-stage martial warriors, the situation seemed a little helpless.

“Humans, your opponent is me!”

An angry shout rang through the sea. A general-stage sea beast charged towards them and attacked Dan Taixuan and Wang Teng.

This was a giant octopus. It was as large as a ferry and had more than ten tentacles covered with suction cups. It swept its tentacles at the general-stage martial warriors.

“Move!” Dan Taixuan’s expression changed as she dodged.

Boom!

The tentacles slammed onto the shore, leaving a ten meters long trench on the ground.

The sea beasts that couldn’t evade in time had turned into lumps of meat. Fresh blood spurted everywhere. However, the giant octopus didn’t care.

It lifted its bloodstained tentacle and swept it towards Dan Taixuan and Wang Teng again.

Chapter 533: Five Elements – General Stage!

The body of the giant octopus was lurking on the sea surface. Its tentacles were swiping wildly, attacking anything in its path.

Even though Wang Teng and Dan Taixuan were in the range of the tentacles’ attacks, neither of them flinched. They executed their skills and advanced towards the giant octopus.

Bang!

When the tentacles swept over, Wang Teng raised his Mo Que to block the attacks. The giant octopus was very powerful and was at the low-tier lord-level, equivalent to an 11-star low-tier general-stage human!

That was why every strike of the giant octopus contained extremely terrifying power. Whenever its tentacles swiped across, you could hear the air crackle and burst.

Wang Teng’s eyes flashed as he scoffed.

Eight Level Devil Scripture, activate!

Leiting Physique, activate!

Underneath his clothes, countless black patterns started spreading out on his skin. Streaks of lightning force burst out of Wang Teng’s body and enveloped it, exuding a majestic aura.

The black patterns were also covered under the lightning force, so no one could see them.

Boom!

A huge force erupted from Wang Teng’s body. Although his body did not change in any way, he suddenly became extremely powerful, containing horrifying strength.

Dan Taixuan looked at him with surprise. It felt like Wang Teng was emitting a ferocious and ruthless aura of a star beast.

“Scram!” Wang Teng roared. He swung the Mo Que violently, slashing away the thick tentacles.

On the other side, Dan Taixuan was also being attacked. Three tentacles armed with suction cups swept towards her, completely blocking off her escape route.

However, Dan Taixuan was not afraid at all. She was at the 11-star low-tier general-stage level and was not inferior to the giant octopus at all. In fact, among those at the general-stage level, her combat power was unmatched.

Facing the giant octopus in front of her, her eyes lit up with a fighting spirit. Razor-sharp metal sword conscious shot out from the sword in her hand, and the sky rang with the metallic sound of swords clanging.

Golden sword rays erupted, emerging from the surrounding void and slashing towards the giant octopus tentacles.

Sword wounds immediately appeared on the tentacles. Fresh blood spurted out as the giant octopus roared in pain.

Dan Taixuan’s attack had successfully triggered it, causing it to send several of its tentacles sweeping towards Dan Taixuan.

The eight tentacles formed a large net as they twirled and soared down at Dan Taixuan, leaving no space for the wind to weave through them.

With her expression unchanged, strands of wind Force emerged around Dan Taixuan. Her body fluttered and managed to evade the tentacles with great agility. It was as if she had transformed into the wind.

Wang Teng raised his eyebrows. He already knew that Dan Taixuan had wind Force and did not find it unusual.

However, her wind Force proficiency was much higher than his. She had reached the general stage, and her speed was unbelievable.

The tentacles were swarming all over the sky. Moreover, there was a terrifying pulling force from the suction cups.

“Oh my god, this tentacle monster has maxed out its tentacle skills!” Wang Teng couldn’t help but mutter to himself.

Dan Taixuan heard what Wang Teng said even though she was in the midst of a fight, and her face turned dark.

What do you mean by tentacle monster!

This young man was on the right track for a while, but his true self was now revealed.

“Go and help other people. Don’t get in the way here,” Dan Taixuan shouted angrily.

Wang Teng was a little embarrassed. He saw that Dan Taixuan could handle the giant octopus alone and rushed down without any more nonsense.

Multiple sea beasts sped towards him. Judging from their auras, they were 8-star and 9-star star beasts.

Wang Teng's face turned cold. He slashed with the Mo Que in his hand, sending forth blade rays. The sea beasts were like chickens in front of him and were instantly beheaded.

At the same time, he threw his other hand forward, sending out a terrifying punch.

Bang! Bang! Bang!

One punch, one monster... Oops, one punch, one sea beast, and their bodies were wrecked.

His stance was simply devastating.

Fu Tiandao, Qin Hanxuan, and the other advanced-rank martial warriors were stunned. They were all fighting the sea beasts one-on-one, and they might not even be able to kill them after the day was over.

But to Wang Teng, it was a piece of cake. Killing these advanced-rank sea beasts was like chopping carrots!

...

One after another, the sea beasts landed on the coast and charged towards Donghai City, launching an attack on the surrounding martial warriors.

The number of human martial warriors was limited, and there were many more sea beasts. There were often two or three of them or even more sea beasts ganging up on a human martial warrior.

In such a situation, there were simply not enough human martial warriors.

Ah!

Devastated screams could be heard everywhere. The human martial warriors were being taken down by the sea beasts one by one. Then, multiple sea beasts swarmed together and bit them.

Wang Teng's gaze swept downwards. His expression clouded over as he flew and charged towards the center of Donghai City.

Boom!

In an instant, the Imperial Realm spirit power erupted from his body, sweeping towards the surroundings and enveloping the entire Donghai City.

Crowd Control!

Spiritual power—Crowd Control!

All the sea beasts froze immediately as if time had stopped around them. The surrounding martial warriors couldn't help but be taken aback. No one knew what was happening.

The people in the underground shelters were also stunned when they saw this scene.

"Kill!"

At this time, a roar filled with killing intent came from the sky.

“It’s Wang Teng!”

“What did he do?”

The martial warriors finally reacted. Although their hearts were filled with doubts, this was not the time to dwell on it, especially when they saw Wang Teng’s solemn expression. They knew that it was not easy for him to do something like that.

The martial warriors immediately charged at the sea beasts in front of them and poured all their anger on them with their blades.

The human martial warriors climbed on the sea beasts’ huge bodies and plunged their weapons into their bodies, splattering blood all around.

A large number of low-rank sea beasts died in the hands of these human martial warriors, and it seemed like the tables had turned.

The advanced-rank martial warriors saw this and were overjoyed.

The people in the underground shelter couldn’t help but cheer, raising each other’s morale.

“There’s hope!”

“There’s still hope for us!”

“Wang Teng! Wang Teng!”

“It’s him. He did something just now to stop all the sea beasts.”

...

In the underground shelter, there were many who saw Wang Teng taking action. They started chattering loudly with excitement.

All over the country, many more martial warriors saw this scene, and their eyes flashed as if they had seen something incredible.

This young man was so powerful that he could execute Crowd Control!

Even though he only used it on low-rank sea beasts, it was already very remarkable. Such an ability was enough to flip the situation on the battlefield upside down!

Capital Xia, The First University.

Ji Xiuming and his classmates were paying close attention to the situation at Donghai. When he saw Wang Teng dashing about on the battlefield, a complex expression appeared on his face.

General stage!

This guy had reached the general stage!

The fact made him extremely frustrated. He was only at the 8-star soldier level now, yet Wang Teng had already overcome the huge obstacle holding countless martial warriors back.

The gap was growing bigger and bigger!

He was still unconvinced when he lost to Wang Teng in the martial arts competition back then. There wasn't much difference between them. Losing once didn't mean much.

A single match was not everything. He had the confidence that he could catch up quickly and would definitely be able to defeat Wang Teng during their next encounter and regain his glory.

But now, he no longer had that confidence.

His opponent was a monster. He didn't feel wronged losing to him!

In the Ren family, a proud young man was also paying attention to Donghai. He was... Ren Qingcang!
Beside him was the elder of the Ren family.

They looked at Wang Teng on the screen with ugly expressions.

Ren Qingcang's face was dark and gloomy as he slammed his fist on the wall. Cracks immediately spread around, and a deep pit emerged.

"What kind of luck does the Wang family have? How is there such a genius?" Grandpa Ren had an uncomfortable expression as he muttered to himself. He had suffered a huge blow.

When he had sent martial warriors to Donghai to eradicate the Wang family, Wang Teng appeared all of a sudden and foiled his plans.

Then came the martial arts competition. Wang Teng defeated his grandson, Ren Qingcang, who he had always been proud of. With his talents, Wang Teng had smashed his confidence into pieces.

No one could ever understand how devastated and broken his heart was.

During that martial arts competition, he had vomited blood and fainted. Now, he had the urge to vomit blood again upon seeing Wang Teng rising to the general stage.

This bastard was too infuriating!

Besides Ji Xiuming and Ren Qingcang, Capital Military Academy's Luo Cheng, Qianyuan Sect's Zhao Yuanwu, and other talented people from all over the country were also paying attention. There were complicated feelings in their hearts as well.

Wang Teng was the first person of their generation to reach the general stage. He had already walked in front of everyone!

...

In Donghai, after Wang Teng had executed his Crowd Control to cut up a bunch of leeks, another wave of sea beasts emerged from the bottom of the sea.

The people hadn't had the time to feel happy for long when they were shocked again.

"Damn it!" Wang Teng couldn't help but curse seeing the sea beasts pouring out from the sea.

These sea beasts must be cheating!

How many times did they multiply over the past years? Why were there so many of them now?

How was he supposed to fight?

There were so many sea beasts. He couldn't possibly kill every single one of them.

The other human martial warriors were overwhelmed with despair once again. The general-stage martial warriors at the front all had grave expressions. They felt powerless.

Occupied by the lord-level sea beasts, they were anxious, yet they didn't have the luxury of handling the low-rank sea beasts below. Otherwise, they could resist the wave with their strength.

Wang Teng could only grit his teeth and sweep out his Imperial Realm spiritual power once again, assisting the surrounding martial warriors to kill the sea beasts in the same way.

However, this method consumed too much spiritual power. He could only control the battlefield while picking up the surrounding attribute bubbles to replenish his energy consumption.

Blank Attribute*23

...

As various attribute bubbles merged into Wang Teng's body, his Force was replenished, and his spiritual power recovered again...

His slightly pale complexion was also getting better. However, he knew that continuing like this was not going to work. There were too many sea beasts, and Crowd Control was only a temporary solution. It did not solve the root of the problem. When his spiritual power was completely depleted and the attribute bubbles were no longer sufficient for him, it would be catastrophic for humans.

Donghai and all the martial warriors might perhaps be completely overrun by sea beasts by the time reinforcements arrived.

"What can I do? What can I do..."

Wang Teng's thoughts flashed in his head, and his eyes swept across the attributes panel.

Suddenly, his heart shook as if he had thought of something. He immediately raised his head and glanced at the coastline.

His gaze then swept across the entire Donghai City, his eyes flickering with a sharp glint. Finally, he peered out of the city...

Then, a fantastic idea surfaced in his mind.

“This... might work!”

Wang Teng was thinking and analyzing at the same time. His eyes became brighter as his resolution cemented.

He was a decisive person. Since he had made up his mind, even if there was only an incredibly small chance, he would not hesitate to execute it.

Moreover, Donghai was already in a bad shape. So what if he failed? It couldn't be worse than it already was.

However, before that, he would still need a lot of attribute bubbles to raise his strength. With his current power, he would still need quite a lot in order to execute that plan.

Wang Teng gritted his teeth and retracted his spiritual power, stopping the Crowd Control to pick up the attribute bubbles.

...

The martial warriors below no longer had Wang Teng's help and had to face the sea beasts' counterattack. The situation worsened.

They were stunned, wondering why Wang Teng had suddenly stopped helping.

The martial warriors around the country were puzzled as well. The situation in Donghai affected everyone. Many people frowned when Wang Teng suddenly stopped and let the situation in Donghai take a turn for the worse.

“What is happening?”

“Did he expend too much energy?”

“Sure enough, this method is not something you can keep using. Donghai is in trouble!”

...

Many people were sighing, clenching their fists nervously, and sweating hard for Donghai!

...

Boom!

Suddenly, Wang Teng’s body shook, and a strong Force flashed across his body.

Crimson Force shot up into the sky like an enraged dragon. Monstrous flames spread around his body, making him appear like the Lord of Flames!

He had a breakthrough in his fire Force and had reached the general stage!

Everyone was in shock when they glanced over!

Wang Teng broke through again?

Didn’t he just break through to reach the general stage?

“I understand, Wang Teng is a multi-element martial warrior. Just now, his second element Force had a breakthrough!” someone suddenly exclaimed.

As soon as he finished speaking, another roar sounded.

Boom!

Yellow Force erupted this time, not much weaker than the fire Force.

The two Forces formed two beams of light, rising into the sky.

Wang Teng broke through again!

The thought had just emerged in the spectators’ minds when two roars followed closely.

Boom!

Boom!

A gold Force and a green Force rushed up into the sky, forming beams of light that complemented the previous two.

Wang Teng broke through again!

Wang Teng broke through again!!

As if it was triggered by the four elements, the general-stage water Force in Wang Teng’s body broke out of his body, forming a blue beam of light.

The five beams of light ran through the heavens and the earth like they were protecting their king!

At this moment, whether it was a Donghai martial warrior or someone across the country watching from their screens, they all gasped in disbelief. They stared at the young man whose body was enveloped in the five element Forces.

All his five elements had advanced to the general stage!

This guy, is he cheating?

Chapter 534: Grandpa Ren Vomited Blood, Please Save Him!

The light pillars of the five elements shot into the air and circled around the young figure. Suddenly, the figure stood up, stepped on the air, and walked towards the sky.

As seconds ticked by, the aura around him got stronger and stronger...

His power increased with each step.

Boom!

Boom!

Boom!

Explosions resounded in the air.

With his aura rising a level with every step he took, endless Force surged out. The violent movement made his clothes and hair flutter in the air.

His thick and black hair, which he hadn't cut in a long time, danced wildly in the strong wind. His young face was as sharp as a blade while his expression was calm and icy. His eyes shone brightly with a glaring light in them.

Numerous sea beasts were shocked by his aura. They looked at the figure in the sky with fear in their eyes.

Especially the low-rank sea beasts. They shivered uncontrollably under the powerful aura.

Although the high-rank sea beasts weren't as disturbed, they were still frightened. They growled at Wang Teng in low voices.

The lord-level sea beasts above the sea also felt the huge threat coming from them. Cold glints shimmered in the eyes of these large beasts. They didn't hide their overpowering killing intent.

This human must die!

On the human side, many of them raised their heads, including the people in the underground shelters, the martial warriors battling on the ground, and the spectators from all around the country...

The martial warriors fighting on the ground had the most direct impact. They were staggered and flabbergasted.

Peng Yuanshan, Tong Hu, and the other heads from Huanghai Military Academy looked as if they had seen a ghost. They knew that this fellow was a rare talent, but they didn't know that he was so monstrous.

Fu Tiandao, Qin Hanxuan, and the others had the same feeling. They looked at each other with bewilderment in their eyes.

Even Dan Taixuan, Ye Jixin, Governor Jiang, and the other general-stage martial warriors couldn't maintain their composure. Astonishment surged into their hearts.

This was incredible!

A normal person would be considered a rare talent if he possessed two or three of the five basic elements. Yet Wang Teng possessed all five.

Even more, all five elements had reached the general stage!

The general stage!

It was like ascending to heaven for a normal person to enter the general stage. Many people struggled desperately to enter the doors of the general stage.

That was why there were so few general-stage martial warriors.

But to Wang Teng, it seemed as easy as eating and drinking. In the blink of an eye, one of his Force elements reached the general stage. In another blink, another element entered the general stage. Another blink and the other element stepped into the general stage...

It was so fast the eyes almost got a spasm!

How could a normal person do this?

This fellow was a monster. He didn't belong to this world!

His talent, his merits, they were unprecedented in history... He would remain unparalleled in the future.

Wait, Wang Teng still possessed ice Force, wind Force, and lightning Force...

Goodness!

Peng Yuanshan, Tong Hu, Dan Taixuan, and the people who knew Wang Teng's secrets were dumbfounded. They widened their eyes in astonishment.

What the f**k!

Was this fellow an all-element martial warrior?

They were stunned by their thoughts!

"Dan Taixuan, what breed is your disciple?" Ye Jixin couldn't help but shout at Dan Taixuan while he was fighting.

"How do I know? I didn't give birth to him!" Dan Taixuan shouted in anger. She felt speechless.

“Hahaha!” Ye Jixin laughed loudly. “Either way, it’s a good thing. Wang Teng might have just reached 10-star brigadier-general stage, but his ability is on par with an 11-star low-tier general.”

Everyone was elated when they heard this.

...

Among the crowd, Lin Chuhan, Xu Wantong, and the other ladies looked at the figure in the sky with their mouths agape. They couldn’t close it.

“Chuhan, is that really your boyfriend?” Xu Wantong asked absent-mindedly.

“I don’t know!” Lin Chuhan’s mind was in a mess. She had no energy to think about their relationship anymore. She just shook her head in a daze.

She didn’t expect Wang Teng to have reached this stage.

He was a five-element general-stage martial warrior. What kind of concept was that? She didn’t dare to think further.

“Chuhan, I’m going green with envy,” Tian Xiaoxiao suddenly said softly.

Lin Chuhan felt proud when she heard this. Although their relationship wasn’t confirmed yet, she still felt happy.

The next moment, a sense of urgency wafted into her heart.

Wang Teng was moving too fast, and the distance between them was widening constantly. Was she still able to stand beside him?

On the other hand, Lin Chuxia, who was beside her, didn’t say anything, staring intently at Wang Teng instead. The emotions of this young lady were fully visible in her eyes.

...

Capital Xia, The First University.

Ji Xiuming was dumbstruck, and his face was pale. He felt as if there was a mountain in front of him that he was unable to cross.

Yu Tao, Mao Na, and the other students from The First University looked at Ji Xiuming. They could understand his complicated emotions.

Ever since he lost during the national competition, Ji Xiuming had been practicing with all his heart. He hoped that he would be able to defeat Wang Teng the next time he met him and regain his glory.

They knew how hard he had worked.

However, Wang Teng, whom he had always viewed as his opponent, was far ahead of him. The distance was unreachable.

It was a joke to treat him as an opponent now.

Wang Teng’s vision was much wider than theirs. Yet, Ji Xiuming was still chasing after him.

“Xiuming, you need to find your own position. You can view him as your goal, but you mustn’t compare yourself with him. You can’t judge this young man normally,” the principal of The First University patted Ji Xiuming’s shoulder and consoled him. He sighed in his heart as he retracted his astounded gaze.

“Yes, I understand.” Ji Xiuming felt bitter in his heart. He nodded with a pale face.

In the past, his principal would always tell him that he was the most powerful person among the younger generation. In the future, he would enter the general stage and be the leader of his generation.

But now, even the principal had to admit that they couldn’t catch up with Wang Teng’s footsteps.

Ji Xiuming was unwilling to accept this. It was a huge blow to him.

...

The Ren family. Ren Qingcang was trembling violently. He wanted to control his body, but he couldn’t.

He wasn’t shivering because he was afraid. Rather, it was a deep sense of helplessness.

Huge pressure was pressing down on his head. His body tensed up, and he couldn’t break free from this pressure no matter how hard he tried.

He gritted his teeth furiously. He wanted to compare himself to Wang Teng, but he didn’t have the heart to do it anymore.

Frustration, helplessness, bitterness, anger... many emotions flashed past his face.

At this moment, Ren Qingcang’s mind was in chaos. He was even more emotional than his Grandpa Ren.

Grandpa Ren, who was beside him, suddenly turned red in the face and vomited a mouthful of blood. His weak and old body fell on his wheelchair lifelessly.

“Grandpa has fainted!”

“Quick! Call the ambulance!”

The family members around him were shocked. They were in a mess.

Sometimes, the most devastating thing you could do to your enemy wasn’t to kill them. It was to destroy their mindset little by little and make them live in agony..

Chapter 535: Land Reclamation!

Wang Teng didn’t know what was happening in the Ren family. Even if he knew, he wouldn’t be bothered by it. A defeated failure was not worthy of his attention.

He went up to the sky and stopped, overlooking Donghai City. His aura had already reached its peak, and the five beams of Force had completely merged into his body.

The five elements Forces in his body were circulating slowly, penetrating his spine. His power had undergone a tremendous change.

Now, his battle power exceeded the 10-star brigadier-general stage and was comparable to an 11-star low-tier general-stage martial warrior.

After his five element Forces reached the general stage, the element Forces seemed to have gone through some unusual changes. It was just that Wang Teng had no time to pay attention to it.

After the sea beasts were stunned for a moment, they roared and lunged towards the human martial warriors again as if they were trying to get rid of the cowardice and shame that they had shown.

“It’s time!”

Wang Teng knew he couldn’t delay any longer. He pulled out his attributes panel.

His gaze swept across all the attribute columns and landed on the blank attributes at the end.

Blank Attribute: 35600

Countless blank attribute bubbles had appeared in the entire Donghai City as scores of sea beasts were killed. It was so much so that Wang Teng had managed to pick up a terrifying 35600 points!

These blank attributes were integral and the key to Wang Teng’s plan.

He immediately allocated all of his blank attributes without any hesitation. Increase Heart Of Zhongyan talent!

Previously, his Heart Of Zhongyan talent was at 35 points, which was far from reaching the perfected stage. Now, after using nearly ten thousand blank attributes, he perfected his Heart Of Zhongyan talent.

Heart Of Zhongyan: 10000/10000 (perfected)

In an instant, Wang Teng felt a mysterious change happening to his body, and his understanding of the Zhongyan clan’s talent increased to the maximum.

At this time, not even the top genius of the Zhongyan clan would have as much talent as him.

Wang Teng then added the remaining twenty-thousand something blank attributes to Ancient God’s Body.

This special scripture was of an unknown grade. Wang Teng had already realized its strength when he obtained it from the Ancient God’s corpse.

Now, over twenty thousand blank attributes were added to Ancient God’s Body.

Boom!

There was a terrifying sound erupting from Wang Teng’s body as it shook, like a supernova. It was so loud that everyone could hear it.

“What is happening?”

“What’s going on?”

“What’s Wang Teng up to again?”

Questions were popping up in everyone's mind. It had only been a while, and something was happening to Wang Teng again.

When they saw Wang Teng's solemn expression, everyone thought that he was executing his ultimate move.

Yes, definitely!

Ever since Wang Teng came back and entered the battlefield, he had not disappointed anyone with anything he did. He was always working hard to help everyone survive.

A sense of trust started emerging from everyone's hearts!

...

Ancient God's Body: 25635/50000 (1-star)

A strange golden symbol was outlined between Wang Teng's eyebrows. It was only made up of one stroke, but it had an indescribable sense of mystery.

Although Wang Teng couldn't see the symbol, he felt something strange between his eyebrows. He couldn't help but recall the time when he first saw the Ancient God's corpse. It had a complicated symbol between its eyebrows as well.

At the same time, there was a change in Wang Teng's body.

His heart was beating fast like a drum, and his muscles tightened. His bones became more solid as golden patterns started appearing on them, making them indestructible. His bone marrow was like mercury, flowing and gushing, while a trace of gold appeared in his blood...

A powerful force emerged from his body, and it immediately surpassed the maximum potential of Eight Level Devil Scripture and Leiting Physique, which made Wang Teng feel unpleasant.

"Just 1-star?" Wang Teng clenched his fist and looked at the attributes panel.

"I'm not going to care anymore." His eyes narrowed, and a glint of light burst out.

By this time, it was too late to regret anything. He had no choice but to do it.

Heart Of Zhongyan!

There was a roar in his heart.

In an instant, the surrounding rocks seemed to be attracted by some kind of force and flew up into the sky, gathering towards Wang Teng,

In Donghai City, the collapsed buildings turned to rocks. Mixed with steel bars, they soared up into the sky. The sea beasts, which were stepping on the rocks, were flipped over and were in a state of confusion as they didn't know what was happening.

Donghai City was a huge and prosperous city with countless high-rise buildings. Most of these buildings had now turned into rubble after being destroyed by the sea beasts. After flying towards Wang Teng, they immediately engulfed him, slowly forming a huge rock body.

At the same time, the seawater was churning. The sediment in the seabed broke out of the water, forming a torrent towards the rock body.

...

The scene left everyone puzzled with questions all over their heads.

Even though the general-stage warriors were well-experienced, they couldn't tell what he was trying to achieve and frowned.

"What is he doing?"

Across the screen, martial warriors from all around the country saw this, but no one understood anything and were all perplexed.

"Do any of you know what he's going to do?"

"I have trained for so many years, but I have never seen anything like this."

"Donghai's hope might be all on this kid's shoulders," the leader of Martial Arts Association said. His gray hair, tall stature, and extremely deep gaze were unshaken.

Everyone was shocked when they heard this.

Coming out from the leader's mouth, that sentence meant something extraordinary. From another perspective, it was his acknowledgment and praise for Wang Teng.

...

In Donghai, more and more rocks and sediments were accumulating. It was obvious that the rock body centered around Wang Teng was getting bigger.

The lord-level sea beasts roared one after another as if they had felt a strong threat.

"Roar!"

"Stop him!"

"Destroy that rock body. Don't let him succeed!"

...

"Let me!"

A roar came from beneath the sea, and a sea beast broke out of the water surface and rushed towards the rock body in the air.

It was a colorful giant lobster with a well-developed, durable shell. Its antennas were several meters long, and its giant claws were massive and horrifying.

Its aura had reached the lord level!

Indeed, this was a delicious lord-level lobster!

It soared high into the sky, and its antenna stabbed towards the sky like a pair of spears.

The expressions of Dan Taixuan and the others changed drastically. They wanted to stop it, but they couldn't because they were fighting other lord-level sea beasts.

Just as the lord-level lobster's antenna was about to pierce through the rock body, a terrifying blade glow swept across from a distance.

Boom!

A dozen-meter-long Force blade glow clashed with the lobster's antenna, setting off bright sparks. The antenna was parried away by the blade glow.

"Who's that?" The lord-level lobster roared.

"Hmph!"

A cold scoff came from afar. A man was stepping on the air, walking over with a blade in his hand. His aura was boundless, and there was a strong presence around him.

But when everyone looked at him, their expressions turned a little strange.

The middle-aged man who suddenly appeared had his hair combed back and was dressed in beach shorts and sandals. He even had a bathrobe on his body that was flapping around in the wind.

He had a cigarette butt in his mouth as he walked over without a care. The lobster's strong image was destroyed in an instant because of the stunning blade ray just now.

Everyone gasped with their mouths wide open. No one knew what expression they should have.

"When was there another general-stage warrior in Donghai?" Dan Taixuan and the others were puzzled. At the same time, they were astounded by his attire, their faces covered with weird expressions.

"Are you sure he's a general-stage warrior and not a weirdo?" Ye Jixin was speechless.

"I have not seen this person before. I'm afraid he's a civilian warrior who wanted to have a low profile," Governor Jiang said.

...

The middle-aged man didn't care about the attention he was receiving. He took in a puff of his cigarette and exhaled. "Woah, such a huge lobster!"

"Old Brother Wang, it's you!" Wang Teng's surprised voice came out from the rock body.

This was the man who had rented a house to Wang Teng, the one who possessed eighteen demolished houses—Wang Dapao!

Wang Teng was in a daze inside the rock body.

Is this general-stage man really Old Brother Wang? The one who carries a small electric stove while collecting rent? The henpecked man who couldn't care less about anything? The middle-aged man who brings along Goji berry tea where he goes?

Seeing the newcomer's attire, Wang Teng became sure. Besides Wang Dapao, who else could be this eccentric?

Wang Dapao smiled and didn't explain anything. "Little Brother Wang, I'll kill this lobster. Let us have a good drink and have your wife cook a lobster feast after the battle is over."

"Alright!" Wang Teng laughed boldly.

"Bastard!" The lord-level lobster was enraged.

He was a lord-level star beast, but these two humans were actually discussing eating it right in front of it?

A crab could stand this, but not this lobster!

"Kill!"

The lord-level lobster roared and swung its antenna towards Wang Dapao.

"Little Brother Wang, continue executing your ultimate move." Wang Dapao raised his eyebrows and slashed his blade towards the lord-level lobster.

Boom!

A terrifying Force wave swept the surroundings from the center of their collision. In the rock body, Wang Teng couldn't help but shake his head.

But what he said wasn't wrong. He was indeed executing his ultimate move!

Wang Teng refocused his attention as rubble started flying over and merging into the rock body, increasing its size and strength. It gradually became a giant sphere of rock.

In the middle of Donghai, the tragic slaughter continued. Some martial warriors rushed back from the Xingwu Continent, while some martial warriors came from nearby cities, joining the battle.

However, there were just too many sea beasts. Humans were still at a disadvantage.

"Kill!"

One by one, martial warriors came forward to fight with the sea beasts, only to fall in a pool of blood...

There was blood everywhere!

A tragic atmosphere filled the sky above Donghai, and everyone could feel the depressing atmosphere.

Countless people in front of the screens watching this scene clenched their fists and prayed for Donghai, hoping that the city could survive this catastrophe.

...

Boom!

Suddenly, there was a loud boom in the sky. A humongous sphere of rock resembling a miniature planet was finally formed!

It covered the sky and blocked out the Sun!

An immense shadow was cast on the ground. Occasional pieces of rock would fall down, smacking the hearts of the spectators.

The rubble on the ground was all swept away, leaving only building foundations and a bare piece of land behind. It was impossible to imagine that this place was once a prosperous city.

Everyone looked up and was astounded beyond measure.

Was this the ultimate move that Wang Teng had been preparing?

Would he use this huge rock to crush the sea beasts to death?

Everyone couldn't help but think so when they saw the sphere of rock.

"An attack like this would hit the human martial warriors as well," Governor Jiang's expression changed slightly, and he shouted.

A lord-level sea beast saw the huge body of rock, and its eyes were filled with horror. "Stop him! Stop him!"

Boom!

Just as it had finished speaking, there was a loud bang from within the giant sphere of rock.

The giant sphere of rock started quaking. A pair of rock arms penetrated from its body with a loud bang. It clenched its fist and then stretched out, becoming a pair of huge palms.

Then came the legs as it stepped down. The body began to undergo a transformation according to human proportions. The head popped out last, and the empty eye sockets were lit up with two fiery rays of light.

This was an impressive rock giant!

Countless people witnessed the formation of the hundred-foot-tall rock giant as it stood in the sky with its head touching the clouds.

They were overwhelmed and speechless!

They even forgot to breathe as they stared at the rock giant in astonishment.

The pupils of the lord-level sea beast shrank, and there was a storm surging in its heart. Its roar was stuck at its throat, causing it to lose its voice completely.

Slurp!

Suddenly, the sound of swallowing saliva could be heard in the silent air. It was exceptionally abrupt.

Someone murmured in bewilderment, "It's... Wang Teng! Am I dreaming?"

"This guy, when did he get such a shocking technique!" Dan Taixuan took a deep breath and muttered to herself.

“Is this something a martial warrior can do?” Ye Jixin showed a rare instance of shock and exclaimed.

...

There was a ray of light in the calm eyes of the Martial Arts Association leader as he said with surging emotions, “I feel like I can see the future of Earth’s martial arts in him!”

The future of Earth’s martial arts!

...

Crack!

In Donghai’s sky, the rock giant gradually lowered its head and looked down. A booming voice came from its throat. “Everyone, please fight for a while more!”

Wang Teng turned the body of the rock giant and moved out of Donghai.

Boom!

The air shook. With every step the giant took, the air made bursts of booming sounds, which was extremely terrifying.

“What are you doing?” Dan Taixuan and the others asked loudly.

The rock giant didn’t turn its head and continued heading outwards. Only the thunderous rumbling could be heard.

“Filling up the land!”

Chapter 536: The Power That Can Pull Mountains!

“Fill the land!”

Everyone was in a stupor when they heard this. They thought that it was an illusion.

Wang Teng wanted to move the mountains to fill up the land!

What a mad thought!

Normal people wouldn’t even dare to think of such an idea, but Wang Teng was already putting it into action.

They were all filled with disbelief and shock. However, when they saw the frightening rock giant, they suddenly realized that this crazy idea might be possible.

“Okay!” A sudden loud shout was heard.

“Fill the land!” Governor Jiang laughed heartily. His laughter echoed through the entire Donghai.

“Everyone, since Wang Teng is so bold, why should we be scared?”

A burst of courage and valor appeared in everyone’s heart instantly.

“Kill!”

“Kill!”

“Kill!”

Angry howls escaped the martial warriors’ mouths. The morale of the humans increased exponentially.

By right, such a morale boost would never happen in this tragic situation. However, Wang Teng’s daring and crazy actions ignited the courage in every martial warrior’s heart.

When they had first stepped on this martial arts path, everyone wanted to be a hero. They imagined moving the mountains and plucking the stars. But the further they walked on this path, the more they realized that it was impossible. There was a limit to what they could do, including the general-stage martial warriors.

Plucking the stars was an exaggeration!

However, when they saw the rock giant, they saw a glimmer of hope.

This rock giant might not be able to pluck the stars, but what it was about to do exceeded the scope of a martial warrior.

Everyone saw a wider martial warrior’s path on Wang Teng!

...

The lord-level sea beasts roared. Their hearts were trembling, and they felt a tinge of fear involuntarily. Was this how powerful humans could be?

Governor Jiang and the others attacked with renewed vigor and forced the lord-level sea beasts back into the sea.

Dan Taixuan slashed her battle sword, her sword glows filling up the sky. Two huge tentacles of the large octopus were chopped off. It screamed in pain as fresh blood stained the seawater red.

Wang Dapao chopped his battle blade furiously. A blade glow shot towards the tough shell of the lord-level lobster, leaving cracks on it. One of its long antennas was cut in half. It was terrified and wanted to escape back into the sea.

“Don’t run! I need you for my lobster feast!” Wang Dapao hollered. He chased after the lobster relentlessly.

I treated you as my opponent but you want to eat me!

“Pervert!” The lord-level lobster’s face turned green. It ran away in fright and wanted to rush into the sea.

...

Some distance away, Wang Teng maneuvered his rock body and scanned his surroundings. He locked in on two mountains.

When he stepped on the ground, it quaked.

He strode towards the mountains. These two mountains were empty and had no one living on them. There were no signs of any villagers beside them, so he didn't have to worry about hurting ordinary people.

Wang Teng's gaze turned sharp. He took a deep breath and stretched his arms out, circling the two mountains, one in each hand. He hugged the two mountains together.

He was moving the two mountains at the same time!

Ancient God's Body!

He roared in his heart and activated his Ancient God's Body.

Boom!

In an instant, the two mountains trembled with loud rumbles. Huge rocks fell, and the trees on the mountain collapsed.

Move!

Move!

Move!

This time, Wang Teng wasn't screaming in his heart. He was screaming towards the sky!

He used this method to bolster his spirit to the maximum, releasing every last shred of strength in his muscles.

At this moment, the people in Donghai heard his earth-shattering roar. All of them looked at the enormous rock giant in the distance in astonishment.

In the underground shelter, when the Wang family witnessed this scene through the screen, they turned dead silent, especially after seeing the rock giant.

Was this something that could be done by a human?

However, hearing his scream, they could feel how hard Wang Teng was trying. For everyone, for all the humans in Donghai, he was giving it his all!

"All the best!" Wang Teng's cousin, Tian Xinyu, clenched her fists uncontrollably and said in a soft voice.

Wang Hao and Fang Qianwen heard her whisper and called out too. "Brother Wang Teng, all the best!"

"All the best!" Wang Yanan said in a low voice.

...

The Wang family's emotions influenced the others around them. Some people started shouting.

"All the best!"

"All the best!"

...

Emotions were contagious. More and more people joined in wishing Wang Teng, and the voices grew louder, shaking the entire underground shelter. All emotions were condensed into these three words: All the best!

The collective shout was so loud that it seemed as if it wanted to break through the underground shelter to find Wang Teng.

In mysterious ways, these emotions might have their impact. The two huge mountains in Wang Teng's arms trembled violently and started to loosen.

Wang Teng was elated. He exerted more strength as if he wanted to release all the potential he had in his body.

Get up!

His angry roar shook the earth. Amidst a loud explosion, the two mountains finally left the ground.

Everyone turned silent as they stared at the huge figure who had managed to move the two mountains. An old story appeared in their minds.

In the past, our ancestors could lift the bronze cauldron!

Now, we have an unrivaled human hero who can pull mountains to fill up the sea. He's formidable!

Thunderous cheers erupted in Donghai City.

Wang Teng did it!

He really did it!

...

Boom!

Wang Teng carried the two mountains towards the shore with his giant rock body, one step at a time.

He didn't step on the ground. Instead, he was stepping on the air. However, due to the monstrous strength, the air was erupting. With every step he took, there would be a loud explosion.

"Everyone, retreat!"

As he got closer, Wang Teng's voice bellowed out.

The human martial warriors around him were overjoyed. They scattered hurriedly. The martial warriors on the shore also retreated...

"Stop him!" The lord-level sea beasts roared! They shuddered in fear as they stared at the huge body coming closer, feeling flabbergasted.

"Hahaha, this is the end of your arrogance!" Governor Jiang laughed. He charged towards the lord-level sea beasts and stopped them from reaching the shore.

Dan Taixuan and the other general-stage martial warriors acted at the same time. They would never allow the lord-level sea beasts to block Wang Teng's path.

Boom!

The huge rock body came closer. Wherever it went, everyone would look up and stare at this lofty figure in bewilderment.

Boom! Boom! Boom!

Wang Teng slammed the two large mountains outside the coastline. Numerous sea beasts were crushed to death. The seawater flowed backward, creating huge waves that looked like a tsunami. It was terrifying.

The rock giant stood between the two mountains. With a loud bang, it slowly bent its body and turned into a third mountain under everyone's gaze.

After some time, the sea calmed down. The two mountains stood erected along the coastline, separating the land and the sea.

Wang Teng's figure appeared above the three mountains. He was panting heavily, and his face was pale. However, his gaze was intimidating. It shot right towards the sea beasts. His cold voice resounded in the sea.

"Anyone that passes this mountain shall die!"

For a moment, none of the sea beasts made a sound!

Chapter 537 How Sorrowful It Was To Be Born In The Same Era As Him!

The three mountains stood erected along the coastline of Donghai, crushing many sea beasts under it. Fresh blood stained the surface of the sea red. The color was so thick that it couldn't be dispersed. Many more sea beasts were stopped outside the mountains. If they wanted to invade Donghai, they needed to climb over these three mountains first.

What did this mean? In this short moment, Wang Teng had forcefully turned Donghai into an easy to defend but hard to attack city!

Although the lord-level sea beasts could destroy these three mountains, they first had to obtain permission from the general-stage human martial warriors!

Most importantly, most of the sea beasts were shaken by Wang Teng. They were trembling in fear.

Any living creature would have fear. These sea beasts were extremely ferocious, but they had developed fear towards Wang Teng.

Even the lord-level sea beasts' gazes were trembling slightly when they looked at Wang Teng. On this young man, they saw something that didn't exist on the other human martial warriors.

It was hard to explain this feeling, but they honestly felt their hearts trembling.

This young man was a huge threat to the sea beasts!

At the same time, the humans turned silent. Their astonishment was unprecedented. "So powerful!" some martial warriors started muttering to themselves.

Using three mountains to fill up the sea!

Wang Teng had managed to achieve such a crazy feat. It was unbelievable!

Very soon, they started cheering.

The Wang family was over the moon, especially the younger generation. They hugged one another and jumped around as they cheered.

"Good!" Grandpa Wang knocked the ground heavily with his walking stick. His face was glowing with pride and excitement. "As expected of my grandson!" Grandpa Li was present too. He pulled Wang Teng's grandmother and shouted happily.

Wang Shengguo and Li Xiumei couldn't hide how proud they were. That handsome and formidable young man was their son! They never imagined that one day, their child would reach this stage!

Every parent hoped that their child could become a successful person!

Wang Teng's immaturity had already faded, and he had turned into a real dragon. He was standing at the peak of the younger generation. He was more outstanding than any other young man.

As his parents, they felt proud! However, when they saw Wang Teng's pale face, they felt concerned for him. This child had suffered so much!

Wang Teng's uncles and aunties' families were shocked. Soon, their astonishment turned into envy.

Wang Sengguo had a good son!

They couldn't deny that they were jealous!

They wished that they could have an outstanding son like Wang Teng too!

Capital Xia.

In the imperial palace, even the composed martial arts leader seemed staggered. He sighed and exclaimed, "What an amazing feat to shift the mountains and fill up the sea."

"There is no one in the younger generation at the same level as Wang Teng," the minister of education said firmly.

"We're fortunate to have this talent in our country!" The commanders of the military took a deep breath.

Everyone nodded, agreeing with each other's words. At this moment, their evaluation of Wang Teng was at an all-time high.

Mind you, these were the highest authorities in the country. If their evaluation spread to the outside world, it would astound everyone.

Of course, after the war in Donghai, even without their evaluations, Wang Teng's name had already spread to every corner of the country! The whole population was watching the live broadcast of the Donghai battle. The attention generated was unprecedented. Everyone young and old, male or female, knew his name.

He was the first in his generation!

Without a doubt!

"I regret not persuading him to join The First University personally." The old principal of The First University shook his head bitterly.

"It's too late to regret now." The commander of the military sniggered at his plight. He wasn't worried. Wang Teng was part of the military, and this relationship wouldn't disappear.

Moreover, the military had taken care of Wang Teng. Even when he was stranded in the Darkland, the military still awarded him a Major General title. This special honor was enough to show how much importance the military placed on Wang Teng.

The commander felt fortunate that he had made this decision. If he had hesitated slightly longer, this decision might have been suppressed.

After all, Wang Teng was too young. It wasn't appropriate for him to get the Major General title so quickly. Fortunately, he wasn't so old that his vision had blurred.

"After this battle, ask him to come to Capital Xia. I want to meet him," the martial arts leader finally opened his mouth. "What!" The commander, the minister of education, and the other higher authorities were shocked. The leader wanted to meet Wang Teng.

Thinking about it, though, it was understandable. After this battle, Wang Teng's reputation would reach its peak. He was outstanding enough for the leader to view him with importance.

They should have a meeting!

The commander felt the same way.

At The First University, Ji Xiuming, Mao Na, and the other students were dead silent. They were dumbfounded.

Ji Xiuming was already so beaten up that he had lost all his confidence. His face was pale, and all his arrogance and unwillingness were beaten into pieces. "How sorrowful it is to be born in the same era as him!" Yu Tao muttered to himself with a bitter expression.

Ji Xiuming shuddered. In the past, he would snort in disdain. After all, he was different from Yu Tao and the other students. His talent was much higher than theirs.

But now...

Looking at the figure on the screen, he felt grief.

Yes, it was a sorrow to be born in the same era as him!

As for the Ren family, Ren Qingcang had gone mad. He smashed everything he could like an injured wild beast.

Grandpa Ren vomited blood and was sent to the ICU. The Ren family was in a mess, and it was all because of this person, even though he didn't appear in front of them.

He lost!

For some reason, he remembered that sentence

-it was a sorrow to be born in the same era as him!

Ren Qingcang and Ji Xiuming weren't the only ones who felt this way. All the young people in the nation had the same thought.

The three mountains weren't just blocking the sea beasts. They were also blocking the paths of all the younger generations. It was a height they could never reach!

In Donghai, Dan Taixuan and the other martial warriors regained their senses and gathered around Wang Teng to face the lord-level sea beasts together. "Are you alright?" Dan Taixuan looked at Wang Teng's pale face and asked in concern.

"I'm fine!" Wang Teng shook his head. He had used too much strength, but he would be able to recover quickly after collecting a few rounds of attribute bubbles. The sea beasts noticed Wang Teng's weakness, and malicious intent shot out of the lord-level sea beasts' eyes. They wanted to get rid of him quickly. "He must die!" The leader of the lord-level sea beasts was a large sea python. It had reached 12-star lord-level. Its huge body circled in the air as it looked down on Wang Teng from afar. Its cold and ruthless voice echoed above the **sea**.

"Kill!"

The sea beasts didn't give up. They had been gathering strength for many years before deciding to initiate a war today. They wanted to take down this human city and expand the land of the sea race. Hence, they were unwilling to retreat.

Chapter 538 Seafood Is Best Eaten Fresh

"Kill!"

The lord-level sea beasts screamed and slammed their huge bodies on the sea. The commotion set off tall waves towards the front.

"Kill!"

Ye Jixin and the martial warriors also turned serious. They charged towards the lord-level sea beasts with no signs of backing down.

"Take a rest first," Dan Taixuan said to Wang Teng. Before he could reply, she had dashed out.

At this moment, with the three large mountains blocking the coastline, the chaos in Donghai had calmed down a bit. The human martial warriors only had to clear the remaining sea beasts in the city.

Normal soldiers rode up the mountains in aircraft. Each of them was carrying a heavy machine gun. They erected them on the mountain peaks and started firing at the sea.

The instant these three mountains were erected, the support department had already made the arrangements. They used heavy machine guns to cover an area and stopped the sea beasts from landing on the shore.

Boom, boom, boom!

Loud gunshots never stopped. Rune bullets rained down on the sea beasts. They possessed enough strength to break through shells, so they claimed the lives of a large number of sea beasts.

There weren't just rune bullets. There were large-sized rune cannons too, their power on par with a hit from a high-rank martial warrior. Those 5-star and above sea beasts would explode into pieces once they tasted these cannons. There was no way they could survive the attack.

Roar!

Some high-rank sea beasts that were able to fly wanted to fly up the mountain and destroy the heavy machine guns. However, the high-rank human martial warriors weren't easy to deal with. They stopped these sea beasts in front of the mountains.

Wang Teng frowned as he looked at the sea dotted with countless sea beasts. Although he had moved three mountains to block Donghai, there were still too many sea beasts. Also, they showed no signs of retreating. This tough battle might continue for some time.

"Hey, lobster, don't run!"

Suddenly, a loud shout came to his ears. Wang Teng's expression turned weird.

Some distance away, Wang Dapao was chasing after the lord-level lobster, which was scurrying away like a goose being chased.

The lord-level lobster's dignity was all gone. At that moment, it was running away frantically.

"You're bullying me!

"You're bullying me!"

It screamed loudly. It wanted to turn and retaliate, but it couldn't beat the human behind it.

If it didn't run, it would turn into a lobster feast.

This was too scary!

So scary!

Suddenly, the lord-level lobster saw Wang Teng looking at him with a mocking smile. Its two small eyes lit up.

This human looked weak and seemed to have expended his energy. He must be exhausted.

If it could catch him, it would be a huge contribution. Also, with this hostage, the human behind him wouldn't chase him anymore.

Its thoughts turned cruel, and killing intent shot out of its eyes.

"Be careful!" Wang Dapao realized the lord-level lobster's intention and shouted to remind Wang Teng. "It's too late!" The lord-level lobster laughed delightedly. It appeared above Wang Teng in an instant and attacked him with its antennas.

The strange look in Wang Teng's eyes got stronger. He didn't do anything and just sized up the lobster.

It was huge. It must be delicious... right? He felt a little hungry.

"I caught you, hahaha-ahh!"

The lord-level lobster pounced on Wang Teng and tied him up with its antennas. However, the next instant, its laughter stopped abruptly.

Its antennas went right through Wang Teng's body. This wasn't his true body. It was just a lingering shadow.

"You didn't catch me; I caught you!" A calm voice appeared beside the lord-level lobster's ear.

Feeling astounded, it wanted to turn and run away, but it felt a huge strength falling on its body.

Boom!

The lord-level lobster's eyes went wide open as it fell towards the ground.

It finally understood why this young human was able to move two mountains. Who could withstand his frightening strength!

The thought flashed past its mind. It regretted provoking this human.

Exhausted? It was all a show, a show!

Boom!

The lord-level lobster crashed onto the mountain. The human martial warriors around it scattered instantly.

"Hahaha, Little Brother Wang, I still had to rely on you. This lobster is extremely sly. I couldn't catch it even after chasing it for a long time. But you got it in one move." Wang Dapao laughed.

"Old Brother Wang, this lobster looks delicious," Wang Teng laughed and said.

"Of course. I felt the same at first glance!" Wang Dapao swallowed his saliva.

Everyone around them: ...

These two people were a bit too relaxed. They were discussing if that lord-level lobster was delicious!

But honestly, that was a lord-level lobster. If they could have a taste of it, they could boast about it for their entire life!

Slurp... many people swallowed their salivas unconsciously.

“Ah!” The lord-level lobster screamed. It shivered in anger when it heard their conversation. It struggled furiously and flung its huge pincers around frantically. However, it couldn’t break free from the huge strength weighing down on its body.

“Stay quiet!” Wang Teng stepped on the lobster’s back furiously.

Bang!

The lord-level lobster’s body sunk into the rock. Cracks formed around it like spiderwebs and spread outwards.

“Let me go! Have a duel with me if you dare. What’s with the sneak attack? I’m not convinced!” the lord-level lobster rolled its eyes and shouted continuously.

“This lobster seems a little stupid. We should just eat it,” Wang Teng said.

“Yes, that’s right.” Wang Dapao touched his chin and sized up the lobster again meaningfully.

The lord-level lobster’s face turned green.

Are they devils?

Can you discuss something more meaningful besides eating?

They kept saying they wanted to eat it. What did it do wrong?

Boom!

Wang Teng stopped wasting time with the lobster. He slapped its forehead and knocked it unconscious. Then, he said to the soldier beside him. “Tie it up and watch it carefully. Don’t let it die. It won’t be fresh.”

The soldiers around them were speechless. But they knew that this young man was a powerful martial warrior who could move mountains to fill up the sea. He had made great contributions to Donghai, so they could satisfy his request. The two soldiers agreed and moved forward, tying the huge lobster up. Wang Teng nodded. He flew into the half-air and scanned the ground. Then, he picked up attribute bubbles to replenish his consumption.

Wang Dapao clicked his tongue. “Brother Wang, you’re not only strong, but your stamina is also amazing!”

Wang Teng: ...

It seemed like a compliment, but it sounded strange for some reason.

“Old Brother Wang, I feel that the octopus is not bad. That huge octopus leg will be delicious when barbecued.” He coughed and pointed at Dan Taixuan and the giant octopus with his chin.

“Oh, right!” Wang Dapao gulped unconsciously. His eyes were shimmering. “What are we waiting for? Hurry up and take care of it. We’re not doing a lobster feast. We will have a seafood feast along with some wine. Amazing!”

“You can go first. I’ll come immediately,” Wang Teng said.

“Alright. Be quick!” Wang Dapao didn’t ask further. He charged towards the large-sized octopus excitedly. Wang Teng shook his head with a smile. In the past, he didn’t realize that Old Brother Wang was such an interesting person!

He stopped thinking about it and released his spiritual power. All the attribute bubbles flew in and merged into his body.

Blank Attribute*210

Water Force*150

Spirit* 45

Fire Force*120

Metal Force*80

Blank Attribute*145

After some time, Wang Teng stood up and stretched his back.

Comfortable!

A large number of attribute bubbles had flowed into his body. His tiredness disappeared, and the Force in his body was replenished entirely.

In an instant, he was the lively and energetic handsome young man again!

Wang Teng looked ahead of him. With Wang Dapao’s addition, Dan Taixuan’s pressure had lessened considerably. They worked together and suppressed the giant octopus. Wang Teng didn’t hesitate. He stepped on the ground and turned into lingering shadows. He shot out.

He was always serious about delicious food. He mustn’t let go of this giant octopus. After all, it looked tasty.

The next instant, he arrived in front of the giant octopus. The other party noticed Wang Teng’s arrival too. It squinted and swept its tentacle at him.

Bang!

Wang Teng didn’t evade. He stretched out his hand and exerted force, grabbing the tentacle. “Move!” Wang Teng shouted in anger. He lifted the giant octopus and swung it towards the sea.

Boom, boom, boom!

The giant octopus had turned into a weapon. It smashed all the sea beasts below the sea into meat patties. Some flew out and turned into black dots, disappearing into the sea.

The giant octopus was dizzy from the smash. Its vision turned black.

Dan Taixuan and Wang Dapao were bewildered.

This fellow was too violent!

This was the first time they had seen such a simple and brutal method. For some reason, they found it... refreshing!

“Human...” The giant octopus was infuriated. It bellowed angrily. “Stop shouting!” Wang Teng snorted. The frightening power of the Ancient God’s Body surged out.

Boom!

The giant octopus was slammed heavily on the surface of the sea, forming huge waves and causing loud explosions.

In an instant, the giant octopus’s eyes rolled back, and it fainted.

It was knocked unconscious!

The remaining lord-level sea beasts glanced in their direction. They couldn’t control their expression anymore. Their eyes almost popped out of their sockets.

A lord-level sea beast got knocked unconscious so easily. This human was a pervert.

Dan Taixuan wanted to follow up with a move and kill the lord-level giant octopus.

“Master, don’t.” Wang Teng stopped her.

Dan Taixuan looked at him in confusion.

“Cough, seafood tastes best fresh.” Wang Teng felt pressurized by her gaze. He coughed awkwardly as he spoke.

“That’s right, that’s right. Lady, seafood isn’t tasty if it’s dead.” Wang Dapao helped Wang Teng from the side.

Dan Taixuan felt her eyebrows jumping. She was about to burst into anger.

I’m doing my best fighting and trying to kill this octopus, but you two are thinking about eating seafood? Ridiculous!

Dan Taixuan took a deep breath before replying, “Count me in!”

Chapter 539 How Can You Call A Smart Person’s Move Sinister?

Wang Dapao and Wang Teng were stunned when they heard Dan Taixuan’s words. They looked at her in surprise. But she had already left. She was fighting the remaining lord-level sea beasts along with Ye Jixin and the other martial warriors.

The two people smiled at each other knowingly.

“Little Brother Wang, are we going to hunt more seafood?” Wang Dapao bit a cigarette in his mouth and sniggered.

“Of course!” Wang Teng scanned the sea beasts and said in a teasing tone, “We can cook soup with that giant sea python. It should be a good tonic. Old Brother Wang, one should have more tonic when one reaches middle-ages. Sister Han will be elated.”

Wang Dapao was stunned for a moment. Then, he understood and blushed. “Come on, what’s going on in your mind at such a young age? I’m healthy and strong. I can swing my blade and slash the sea beasts. Why will I need the tonic?”

He spoke sternly as he straightened his back and lifted his chest to show that he wasn’t weak. However, he kept glancing at the deep-sea giant python secretly from the corners of his eyes. His gaze shone like stars as he swallowed his saliva.

The corners of Wang Teng’s mouth twitched. He glanced sideways at this double-faced middle-aged man.

Hmph, hypocritical!

Not wasting any more time, he moved and dashed ahead.

“Hey, wait for me!” Wang Dapao shouted. He grabbed his large blade and chased after Wang Teng. Boom, boom, boom!

In front, the general-stage human martial warriors were locked in an intense battle with the lord-level sea beasts, especially when there was a 12-star lord-level sea beast among them that was extremely frightening. On the human side, the president of the Jixin Martial House, Ye Jixin, was a legendary figure. When Force first had entered Earth, he foresaw the trend and grabbed the chance to rise in this generation. He even founded one of the top three martial arts academies in the country, Jixin Martial House. Also, his ability had reached the 12-star general stage!

If it wasn’t for him, the humans would have a harder time stopping the deep-sea giant python.

Boom!

He held a silver long spear in his hand and wielded it like a dragon. The silver light shimmered, giving a sharp glow. It stabbed towards the giant python circling in the air with an unstoppable aura.

Roar!

The deep-sea giant python roared in anger. The glow of the spear reflected in its blue and cold eyes as it swung its tail out.

A series of spear glows landed on the python’s tail. The palm-sized scales gave off loud clunks as if two metals had collided.

This was how hard the scales of the giant python were. Ye Jixin’s attack was unable to break its defense.

Star beasts were always known for their hard armor, especially star beasts with scales. Their defense ability was astonishing.

But this deep sea giant python’s defense ability was even more frightening.

Ye Jixin’s expression turned grim. He felt a little helpless in front of this deep-sea giant python.

This python was exceptionally sly. It protected its vital spots and only revealed its tough scale armor to its enemy. He didn't know where he should attack.

A hint of contempt appeared in the deep sea giant python's eyes. It opened its large mouth abruptly, and an icy blue ray of light shot out from within. It came down on Ye Jixin like a net of rain.

Ye Jixin's expression changed. He retreated furiously.

Boom!

The dense icy blue light crashed onto the surface of the sea and formed a thick layer of ice on the surface.

Although Ye Jixin had evaded the attack with many risks, a little icy rain still landed on his arm. A layer of ice spread over his arm and covered it at a fast speed.

Ye Jixin shivered. He released the Force in his body and wanted to shatter the layer of ice.

However, he realized that this layer of ice was extremely sturdy. It seemed stuck to his bones and was also invading his body. A bitter cold entered his bones, making him shiver uncontrollably.

"I fell into the trap!" Ye Jixin's face turned black. He tried everything he could think of, but he could only stop the coldness from spreading temporarily. His arm was crippled, and he couldn't move it.

"Hahaha!" The deep-sea giant python laughed. "Humans, let's see how much longer you can hold on!"

The moment it finished speaking, malicious intent exploded from its eyes. It moved its large body as fast as lightning and twirled around Ye Jixin. With its terrifying presence, even a general-stage martial warrior would be in danger if he got crushed by it.

Ye Jixin was startled. He tapped his feet and shot into the sky.

Roar!

The deep-sea giant python bellowed and coiled its body. It chased after Ye Jixin furiously and soared into the sky behind him.

Boom!

However, at this moment, a large Force net suddenly fell from the sky.

The deep-sea giant python was astounded. It couldn't dodge in time, so it fell into the net directly.

It was a spider web!

This was the Force net Wang Teng had created using the spiderweb skill he received from the six-eye poison spiders.

What was the best method to catch a snake?

A net of course!

When Wang Teng saw this deep-sea giant python, this thought had already appeared in his mind. Hence, before he entered the battle, he spoke to Ye Jixin using voice transmission and told him his plan,

asking him to play along Wang Dapao and Wang Teng flew high into the air when the deep-sea giant python wasn't paying attention and hid themselves. There, he silently weaved the Force net.

With his spiritual power, controlling his Force to weave this huge net was a piece of cake. He didn't need much time.

Roar!

The deep-sea giant python hissed and thrashed around. It thought that success was with its reach, and it could kill this human martial warrior in minutes. However, it fell into the humans' trap instead. It struggled frantically, smashing its body against the Force net as it tried to break free.

However, the Force net was too sturdy. There were many green flames scattered all over the net. Once its body touched the green flames, a hissing sound escaped the point of contact. It felt excruciating pain. Astonishment appeared in its eyes.

"Damn it, what is this flame?"

"A flame to barbecue you." A burst of soft laughter was heard.

The deep-sea giant python turned its large python head in the direction of the voice. It stared at Wang Teng with its narrow pupils filled with killing intent and howled. "It's you!"

"Hahaha, what do you think of this trapping-the-snake-in-the-net move? You might be as sly as a fox, but you can't beat my Little Brother Wang's small tricks!" Wang Dapao laughed proudly.

Wang Teng nodded. He liked the compliment.

"If you talk about being sinister, he's a professional," Wang Dapao continued.

Wang Teng: ...

Damn it, I'm going to break ties with him.

What do you mean by being sinister?

Am I that kind of person?

This is called a plan. What do you mean by sinister? How can you call a smart person's move sinister?

Unreasonable!

Wang Teng glanced at Wang Dapao from the corner of his eyes, his gaze turning dangerous. Wang Dapao didn't notice it, but he suddenly shuddered. He felt a menacing intent engulfing him. When he turned, Wang Teng had already retracted his gaze calmly.

Ye Jixin's expression was weird. He felt that Wang Dapao's words made sense.

This young fellow was quite sinister!

"Despicable!" the deep-sea giant python shouted furiously. It was unwilling to admit defeat so it bore with the pain and continued hitting the huge net, trying to break free.

Chapter 540: Windstorm King! Our King!

“Old Brother Wang, President Ye, pull the net. It’s time to catch the haul!” Wang Teng shouted at Wang Dapao and Ye Jixin when he saw the deep-sea giant python struggling more and more violently.

“Alright!” Wang Dapao chuckled and pulled the net in his hand tightly.

Ye Jixin didn’t reply to Wang Teng. Although one of his arms was frozen, his other arm was fine. He pulled violently and tightened the net.

The three corners of the Force net were in their hands. As the three of them exerted force together, the net tightened.

The deep-sea giant python was still unwilling to give up. It struggled furiously. The huge force knocked against the net, causing lumps to appear in all corners. It wanted to squeeze out through the gaps of the net, but the three martial warriors weren’t easy to deal with either.

Especially Wang Teng. With the powerful Ancient God’s Body, his strength exceeded that of a 12-star general-stage martial warrior.

He shouted, and the energy in his body erupted. The Force net was tightened to its limit.

The deep-sea giant python screamed in pain. Its entire body was twisted awkwardly. It was trapped in the Force net and couldn’t move at all.

Its head was stuck in one of the gaps, so it appeared extremely funny.

The Emerald Glazed Flame scattered around the net continued to burn the python’s body and Force without stopping. As a result, the python never stopped screaming.

Ye Jixin and Wang Dapao were astounded.

“This is it?”

The two of them were in disbelief. This powerful 12-star lord-level star beast seemed like an ordinary python in Wang Teng’s hands.

Ye Jixin took a deep breath. He had been fighting with the deep-sea giant python for a long time, but he couldn’t do anything to it. In the end, Wang Teng ended the battle the moment he acted.

Did being more sinister make you stronger?

He suddenly felt that having a brain was a good thing. However, some people lacked the smarts. For instance, this person...

He glanced at Wang Dapao.

At this moment, Wang Dapao was staring at Wang Teng with his mouth agape like an idiot.

Dan Taixuan and Governor Jiang noticed the situation on this side too. They widened their eyes in surprise. It all felt like a dream.

No one was able to take down any lord-level sea beast after fighting for so long. Yet, when it came to Wang Teng, he caught the lord-level sea beasts one after another as if he were finding seafood.

This was... too much of a blow to them!

Wang Teng disregarded these people. He dragged the large net to the back and knocked the deep-sea giant python unconscious. He threw it together with the lord-level lobster and the lord-level octopus.

“Watch them carefully!” He threw these words at the soldiers around him before returning to the battlefield.

The soldiers: ...

This is the third one!

Are you really planning a seafood feast!

The expressions of all the citizens watching this scene turned strange. This tragic war had suddenly turned into a seafood catching session!

The image changed all of a sudden!

In Capital Xia, the leader of martial arts, the commander, and the other higher authorities couldn't control their expressions. They looked at the hardworking figure carrying all the seafood and shook their heads.

Wait, they aren't seafood. Those are lord-level sea beasts!

...

Wang Teng didn't know what everyone was thinking. He finished transporting the seafood quickly and went back to the surface of the sea.

Dan Taixuan and the others surrounded the remaining lord-level sea beasts.

Hahaha...

These lord-level sea beasts were frightened. In a blink of an eye, there were only three lord-level sea beasts left. They looked around them and suddenly felt a little lonely.

What should they do? They were anxious.

They looked at the human martial warriors closing in on them and shuddered involuntarily. Despair wafted into their hearts.

Boom!

At this moment, some distance away, the surface of the sea exploded, and a huge black shadow rose from the depth of the sea.

As the gigantic body floated above the sea, a terrifying aura spread out.

“Useless!”

A deafening voice came out of its mouth, shaking the sky and the sea.

Dan Taixuan, Ye Jixin, Governor Jiang, and the other martial warriors were thunderstruck. The victorious situation suddenly turned around.

Everyone squinted as they looked at the huge shadow that had suddenly appeared in the distance.

Wang Teng's expression changed too. He looked in the direction.

He saw an enormous ape with purplish-blue fur emerging from the surface of the sea. Water fell off its body and gave rise to huge waves. Its eyes were dark purple, and its face was hideous. The domineering aura it gave off made them unable to look at it directly.

Suddenly, lightning flashed in the sky and thunder roared. Purple bolts of lightning struck down beside the giant ape.

At the same time, tornados started forming on the sea. They circled above the giant ape's head, making it look like the son of heaven and earth.

A strange phenomenon!

The appearance of the giant ape had stirred up many natural strange phenomenons.

Everyone's expression was grave. Their gazes were flickering as many emotions ran through their hearts.

The people around the country were gradually starting to relax, but with the appearance of the giant ape, their hearts were lifted to their throats once again.

The leaders in Capital Xia were staggered. They stared at the appalling beast on the screen.

"How is this possible?" The minister of education was dumbstruck. "How can there be such a powerful presence among the star beasts!"

"Variable! Variable!" The leader of martial arts sighed loudly as he muttered to himself.

"What should we do? With this powerful appearance, Donghai..." The commander didn't continue.

But everyone was thinking about the same thing. This time, Donghai might... not survive!

...

Donghai.

The people in the underground shelter lost their voices when they saw the sudden giant figure.

Despair submerged everyone's hearts.

Things were taking a turn for the better, and everyone thought that the battle was about to end. Yet in the blink of an eye, the situation reversed again. Who could stand this rollercoaster of emotions?

Normal people were unable to tell how powerful this giant ape was, but they saw the general-stage human martial warriors on their guards as though they were confronted by a formidable enemy. Hence, they knew that the giant ape was terrifying.

The human martial warriors on the ground felt the most direct impact. The frightening aura surged over from the sea and made them deeply alarmed.

This giant ape was so terrifying that it surpassed the power of all the other lord-level sea beasts combined. Could any human stop it?

Everyone felt hopeless!

If heaven wanted Donghai to be doomed, Donghai was doomed.

This seemed like a joke from heaven. It saw them struggling and gave them hope. Then, it threw them into the abyss of despair so that they were unable to climb out again.

“Windstorm King! Our king!”

A voice broke the silence.

The three remaining lord-level sea beasts lowered themselves in the direction of the giant ape. They were inferior and respectful.

Numerous sea beasts kneeled and gave a low howl. Although they couldn't speak, they used their own ways to show their respect and submission.

Windstorm King!
