

Martial Arts 541

Chapter 541 You Crossed The Boundary!

Every beast above the surface of water pledged allegiance to it!

The horrifying Windstorm Giant Ape stood a distance away, accompanied by thunder and storms, like a giant primal beast from ancient times.

The atmosphere tensed up in an instant!

The general-stage martial warriors looked extremely solemn. They subconsciously gathered together as they looked at the giant ape as if they were facing a great enemy. "What now? This sea beast is way beyond my expectations!" Governor Jiang murmured with an uncomfortable expression. Everyone shook their heads and was speechless.

"How about we just admit defeat?" A despicable voice came into their ears.

"..." Everyone looked at Wang Dapao in unison.

Wang Dapao was startled. Several pairs of eyes were on him, and he suddenly felt a chill. Embarrassed, he coughed awkwardly. "Just kidding, just kidding!"

In a situation like this, they didn't really have a better idea. They could only surrender, or... fight to the death!

But no one would be willing to surrender to the sea beasts.

This was a duel between humans and sea beasts. Besides, it was also the first time that they had clashed on such a large scale. Countless pairs of eyes around the country were watching them.

If they chose to surrender, the impact would be too great! Not only would Donghai be destroyed, but it would also be a humiliation to the entire country!

At this moment, the Windstorm Giant Ape's gaze swept over, and an unprecedented pressure seemed to press down everyone's head, making them turn stiff.

"Spiritual pressure!" Wang Teng's expression changed slightly.

The Windstorm Giant Ape was indeed a powerful foe. Just one look was enough to put the general-stage warriors into a difficult situation.

Even if it was a fight to the death, humans had a pitifully low chance of claiming victory unless they had Lady Luck on their side.

Boom!

Wang Teng's eyes flashed, and his Imperial Realm Spirit swept out, nullifying the spiritual pressure exerted by the ape. "Hmm?" There was a hint of surprise in the huge eyes of the Windstorm Giant Ape. It fixed its gaze on Wang Teng. Wang Teng remained unfazed as he stared right back at the pair of cold eyes that were high up above. He would never back down in a fight of spiritual power!

Boom!

A glint shot out from the Windstorm Giant Ape's eyes, thrusting towards Wang Teng's eyes.

"Hmph!" Wang Teng scoffed as his Imperial Realm Spirit rushed out from his forehead.

Roar!

It was like a dragon was awakened from its slumber. There was a terrifying roar as it slammed against the incoming spiritual pressure.

Boom, boom, boom!

A blast of wind swept out when the spiritual powers clashed. The impact and shock reverberated within the spiritual powers.

To the spectators, it seemed like the atmosphere had tensed up, and there was an overwhelming aura surging around, making people breathless.

Only some people who had stronger spiritual powers had an inkling of what was happening.

"This is..."

Dan Taixuan, Ye Jixin, and the other general-stage martial warriors were naturally not spiritually weak. They immediately noticed something and looked at Wang Teng.

"A contest of spiritual powers!" Wang Dapao's eyes flashed, and he cried out.

"What!" Dan Taixuan, Ye Jixin, and the others' expressions changed slightly.

Before they realized it, Wang Teng was already locked in a spiritual power confrontation with the Windstorm Giant Ape. And by the looks of it, Wang Teng's spiritual power was not weaker than the Windstorm Giant Ape.

Dan Taixuan and the others looked at each other and noticed a hint of shock in each other's eyes.

Among them, Dan Taixuan knew Wang Teng was extremely talented. However, she never imagined that Wang Teng could actually hold out against that unfathomable Windstorm Giant Ape.

This fellow's spirit talent was probably on par with his martial arts talent!

Ye Jixin and Governor Jiang didn't know that Wang Teng was talented in both martial arts and spirituality. It was unbelievable to them. What breed of monster was this guy! They had never seen a person with such outstanding talents. Wang Teng had revealed all his cards on the table. A normal martial warrior would be considered a genius if they had even one of those cards, but Wang Teng had a full deck in his possession.

Was he related to God? Could he be his foster son?

At this moment, the spiritual battle between Wang Teng and the Windstorm Giant Ape came to an end.

The Windstorm Giant Ape's spiritual power had also reached the Imperial Realm. Both of them had similar levels, but Wang Teng was slightly better.

He was cheating!

By picking up attribute bubbles, Wang Teng had a steady stream of spiritual power. Regardless of how big the Windstorm Giant Ape was, he would still win in a battle of attrition.

Boom!

Accompanied by a loud roar, both their spiritual powers came back to their bodies like a tide returning to the vast ocean.

“It’s over!” The eyes of Dan Taixuan and the others lit up. “Who won?”

The Windstorm Giant Ape’s eyes were full of rage. It had lost to the puny human in front of it in terms of spiritual power. That was unbearable.

The Windstorm Giant Ape roared and abruptly moved its huge body. It brought forth a huge tidal wave as it sped towards Donghai.

Everyone’s expression underwent a drastic change. Their bodies tensed up like taut bows, and they went on full alert.

“Little Brother Wang Teng, what did you do? You’ve enraged it!” Wang Dapao complained loudly.

“Damn, this monkey is a sore loser. It can’t defeat me using spiritual power, so it’s fighting me head-on!” Wang Teng’s face was green. He wanted to run away. His spiritual power was not inferior to the Windstorm Giant Ape. He could win by cheating, but if it came to martial arts, he would definitely be pummeled!

Now that he had ticked it off, the Windstorm Giant Ape would not let him off easily!

Wang Dapao, Dan Taixuan, and the others were all astonished. Wang Teng actually won the spiritual battle. How far had this guy’s spiritual power reached?

However, now was not the time to be thinking about trivial matters like this. The general-stage warriors looked at the charging Windstorm Giant Ape with grave expressions. They unleashed every bit of Force they had, ready for a fight to the death.

Although they understood how scary the Windstorm Giant Ape was, they had no other choice. As general-stage martial warriors, they couldn’t retreat even if everyone else did.

Roar!

The Windstorm Giant Ape roared, revealing its ferocious primal fangs. Lightning flashed, and a storm came. The horrifying presence surged towards everyone. When it stretched out its hand, the palm marks on its rough hands were clearly visible in everyone’s eyes. The huge palm cast a shadow that shrouded everyone in darkness.

The onlookers’ pupils shrank as their hearts lurched with horror. In the presence of this huge palm, they felt utterly weak and vulnerable.

However, they would not wait for death. The warriors executed their strongest skills, directing them at the giant palm. Bang, bang, bang! All the attacks landed on the palm but were instantly quashed amid

loud bangs. The palm proceeded to slam down at a faster speed. The general-stage warriors were at the brink of death...

“Hmph!” The sound of the snort was especially ear-piercing as if thunder was booming in everyone’s ears.

Clang!

It sounded as if a sword was being unsheathed. A dazzling sword glow slashed across the horizon, carrying with it an unrivaled presence. In an instant, it slammed into the body of the Windstorm Giant Ape.

The terrifying sword glow did not dissipate immediately. In fact, it forced the Windstorm Giant Ape back a few steps.

Boom!

The Windstorm Giant Ape lost its balance. It then fell backward, smashing into the sea. “You crossed the boundary!”

Chapter 542 Compromise?

“You crossed the boundary!”

The voice sounded exceptionally old, and it wasn’t loud. However, there was an unhidden firmness and resoluteness in the calm tone.

Everyone turned their heads. An old and slouching figure walked over slowly from a distance.

He didn’t hold any weapons. His hands were behind his back, and his back was bent. With his face full of wrinkles, he looked like an ordinary old man.

But he was walking in the air. He floated over the three tall mountains, went by all the sea beasts, and finally arrived in front.

No one would dare treat this old man as an ordinary person.

Especially after that astonishing blade!

Wang Teng was stunned when he saw the old man. There was astonishment in his eyes. This old man was the old guard at the gate of Huanghai Military Academy! Wang Teng was dumbfounded. He never expected the ordinary security guard to be a formidable character that could fight off the Windstorm Giant Ape. It was unbelievable!

In the past, whenever Wang Teng left the gates of Huanghai Military Academy, the guard would remind him to be careful and to take care of himself all the time. Sometimes, when he mentioned it to other students, the Huanghai students would also say that this guard advised all the students in this way. He was like a kind old man who was worried for every student who stepped out of the school gates. Hence, Wang Teng wouldn’t recognize him wrongly. The elder saw him and nodded at him, giving him an amiable smile.

“Old Han! You...” Dan Taixuan was shocked when she saw the old man too. She called out to him hurriedly.

However, before she could say anything, the old man raised his hand and stopped her.

Ye Jixin, Wang Dapao, and Governor Jiang didn’t seem to know this elder. They were confused. When was there such a formidable character in Donghai?

Then, Ye Jixin and Governor Jiang glanced at Wang Dapao. This was a hidden powerful martial warrior too!

This general-stage martial warrior hadn’t revealed himself in the past at all!

Does everyone like to keep a low profile nowadays?

A smart person hides in the city!

As these thoughts flashed past everyone’s mind, they immediately looked towards the sea.

Waves tossed and rolled. A black shadow shot out from the surface of the sea.

Roar!

Amidst the loud roar, the seawater shot straight into the sky before falling like heavy rain. In the sea, the large figure of the Windstorm Giant Ape appeared in front of everyone once again.

“Retreat!” Old Han raised his head and looked at the Windstorm Giant Ape with a pair of turbid eyes. His voice was calm.

The general-stage martial warrior exchanged glances with one another and hesitated. In the end, they still retreated behind him.

“Old man, who are you?” The Windstorm Giant Ape’s dignified voice echoed over. It lowered its huge head.

All the seawater had fallen off its body. Everyone could finally see it clearly. There was a blade mark on the Windstorm Giant Ape’s body, and fresh blood was oozing out of the wound.

“Human!” In comparison, old Han’s voice was extremely composed. His reply was simple and direct.

Human! Old Han was right. He represented all the humans now!

Both parties remained quiet as the Windstorm Giant Ape stared coldly at Old Han. The atmosphere turned silent.

There was no change in Old Han’s gaze. He looked at the ape indifferently.

After some time, he opened his mouth, “Retreat. You shouldn’t have come out of the sea and stepped into the human world.”

“What if I don’t?” Windstorm Giant Ape retorted.

“Humans are never afraid of death!” Old Han’s gaze turned sharp. A domineering aura erupted from his body. His slouching figure suddenly appeared as huge as the giant ape. He said sternly, “Or will you like to test how sharp my blade is?”

Fear flashed in the Windstorm Giant Ape’s eyes. It felt the pain coming from the wound on its chest, but it couldn’t show its cowardice. Where would it place its dignity if others saw him cowering?

“Hmph!”

The Windstorm Giant Ape scanned his surroundings and snorted. His gaze then landed on the mountain not far away. “Release them, and I will consider retreating. If not, let’s continue this battle till death.” The moment it said this, Wang Teng and the other humans’ expressions changed.

The Windstorm Giant Ape was referring to the lord-level sea beasts that were caught. Wang Teng was angrier than the others. Damn it, they were the seafood feast he had prepared for himself. This stupid ape was trying to steal his food!

He couldn’t bear it.

Wang Dapao couldn’t accept this either. His dream of enjoying high-quality seafood was shattered. He swallowed his saliva and sighed in pity. As for the other general-stage martial warriors, their expressions turned ugly.

Asking them to release the three lord-level sea beasts was equivalent to asking them to compromise. This was a blatant threat!

The people behind were paying attention to the situation in front. Some felt helpless while others were unwilling. They felt humiliated and frustrated. However, some people also wished that they could hand over the three lord-level sea beasts to end this long battle.

To normal humans, peace was their greatest wish.

However, what mattered was the general-stage martial warriors’ opinion, not theirs.

“You and the other sea beasts, retreat ten kilometers!” Old Han opened his mouth.

The Windstorm Giant Ape didn’t waste any time. With a wave of its hand, the other sea beasts sunk into the sea, swimming into the distance.

At the same time, it also started stepping back...

“Old Han, are we really going to pass the lord-level sea beasts to them? We spent a lot of effort trying to catch them,” Wang Dapao said unwillingly.

“Why don’t you stop that Windstorm Giant Ape then?” Old Han glanced at him and replied nonchalantly.

Wang Dapao smiled in embarrassment. He didn’t dare to speak anymore.

Old Han sighed. He looked at Wang Teng and said, “Bring them over.”

Wang Teng was still hesitating. Eventually, he flew back without saying anything and lifted the three giant lord-level sea beasts. With his strength, the weight and size of these three sea beasts were nothing to him.

The three giant sea beasts were stuck in the Force web. Wang Teng lifted the large net in one hand, dangling the three lord-level sea beasts in the air.

“Release them!” The Windstorm Giant Ape’s eyes flickered. His voice shook the air.

Wang Teng wasn’t affected, though. He glanced at Old Han.

Old Han nodded at him.

Wang Dapao, Dan Taixuan, and the others opened their mouths, but they didn’t say anything in the end. Wang Teng didn’t reply to him. He lifted the three sea beasts and walked forward.

“Young human, what’s your name?” The Windstorm Giant Ape glared at Wang Teng coldly. Its voice was heard once again.

Wang Teng continued ignoring it. Instead, he suddenly ignited the Emerald Glazed Flame on the web.

Swoosh, swoosh, swoosh! The three lord-level sea beasts woke up because of the sudden pain, screaming in agony. Soon, they noticed the Windstorm Giant Ape in front and shouted happily, “My king, save us! Save us!”

“You seem happy?” An irritating voice sounded beside their ears at this moment.

Chapter 543 This Stupid Brat Is Creating Trouble For Him!

The three lord-level sea beasts shuddered instantly when they heard the cold and mocking voice. They raised their heads and stared at the cruel human above them.

This was the human that caught them and wanted to eat them.

He was a devil!

The Windstorm Giant Ape frowned when it saw Wang Teng waking up the three lord-level sea beasts but not letting them go. His voice thundered over once again. “Human, are you trying to violate the agreement? Release them!”

Its tone was stronger this time, carrying a huge pressure in it.

Old Han and the others looked at Wang Teng.

“What is Wang Teng trying to do?” Governor Jiang frowned.

Is this brat causing trouble again? Dan Taixuan raised her eyebrows as she murmured in her heart. She didn’t say this aloud, though.

The three lord-level sea beasts felt more confident after hearing the Windstorm Giant Ape’s words. They shouted, “Human, release

us!”

“Release us. If not, our king will raid your city!” the giant lobster threatened.

“Noisy!” Wang Teng’s gaze turned cold. He released his Emerald Glazed Flame again.

Boom!

The Force net was engulfed by the green flames. They burnt the three lord-level sea beasts, causing them to scream in pain.

“Ah!”

“Roar!”

The three lord-level sea beasts struggled frantically. They wanted to break through the Force net and get rid of the burning green flames. However, they knew how tough and tensile the Force net was. No matter how much they struggled, it was all in vain.

The gaze of the Windstorm Giant Ape turned chilly. “You’re seeking death!” “You want them, right?” Wang Teng replied calmly, “Since you want them, I’ll give them back to you.”

The Windstorm Giant Ape was stunned. It opened its mouth instantly, “Release that net!” Wang Teng nodded. He looked straight at the Windstorm Giant Ape and lifted the net gradually. The three lord-level sea beasts got closer and closer to him.

By now, the three lord-level sea beasts had stopped screaming. Their gazes turned malicious, and killing intent burned furiously in their hearts.

As a lord-level sea beast, they had never suffered such a treatment before. The human in front of them must die!

The moment they broke free from the net, this human would die.

Very soon, Wang Teng pulled the three sea beasts near his feet. He looked down on them and suddenly smiled, saying in a lighthearted tone, “Come, let me free y’all.”

The three lord-level sea beasts were elated. Freedom was within their reach. They would be able to kill this human in front of them very soon and take revenge for the humiliation he had caused them.

Wang Teng stretched out his hand towards the deep-sea giant python. Everyone stared at him. For some reason, they started to get nervous.

Dan Taixuan and the others were waiting for the sea beasts to retaliate. After all, no one dared to bet on the credibility of the sea beasts.

Right then, a sudden change occurred.

A sharp glow shot out of Wang Teng’s sleeve without any warning and flew into the deep-sea giant python’s eyes.

Roar!

There was no time for the happiness in the deep-sea giant python's eyes to subside. Its pupils constricted into a line, but it was too late. Excruciating pain racked its body, and it hissed in agony. Then, its voice was abruptly cut off. The deep-sea giant python wriggled violently before it stiffened.

It... was dead!

It got killed by Wang Teng!

"You! How dare you!" The giant lobster and the giant octopus widened their eyes in disbelief as they stared at the human in front of them.

This human dared to kill them right under the Windstorm Giant Ape's nose! He must be crazy!

"It's your turn!" Wang Teng suddenly turned his head and smiled at them.

The moment he finished speaking, the sharp glow came out of the deep-sea giant python's other eye and went straight for the giant octopus's eye.

"No!" The giant octopus gave a furious roar, but it was futile.

Splurt!

The ray of light pierced into its eye, and everything ended.

At the same time, Wang Teng arrived in front of the large lobster. He slapped the lobster while it was staring at him in bewilderment.

Boom!

The slap was printed straight on its head. A frightening Force surged out.

The giant lobster trembled. Its body turned stiff, and it died on the spot.

In an instant, the other two lord-level sea beasts had died in Wang Teng's hands after the deep-sea giant python was killed.

It sounded like it took a long time, but everything happened within three breaths.

The general-stage martial warriors behind were stunned.

"F**k, Little Brother Wang is crazy!" Wang Dapao stared at him with wide eyes. He couldn't help but curse.

Everyone behind them was flabbergasted. They almost bit their tongues because of the scare they had received from Wang Teng's sudden move.

"Brutal!"

Roar!

"You are tempting fate!" The Windstorm Giant Ape regained its senses. It knew that it had been fooled and flared up in anger. "Although fresh seafood is good, frozen ones are not bad either," Wang Teng muttered to himself. However, his voice was quite loud.

les

Everyone almost fainted when they heard this.

Why are you thinking about food at a time like this? Can't you be a little more reliable, you bastard!

Also, are you doing this to eat or what? He had knocked on the den of the lion when he killed the three lord-level sea beasts. Huge trouble was waiting for them now. Who could pacify the anger of the Windstorm Giant Ape?

His words had triggered the Windstorm Giant Ape. It stepped on the huge waves and charged towards him with lightning bolts and storms swirling around him.

Wang Teng picked up the attribute bubbles left by the three lord-level sea beasts. He didn't look at them carefully. Instead, he turned back and ran away while screaming, "Old Han, help!"

Everyone: ...

Old Han: ...

Everyone thought that Wang Teng had some ultimate move that could defeat the Windstorm Giant Ape. If not, why would he have the courage to kill the three lord-level sea beasts?

But in the end, he pleaded for Old Han's help.

Old Han's face was black. He almost vomited blood because of his frustration. This stupid brat was creating trouble for him!

Wang Teng's speed was outstanding. With a Swoosh, he was already behind Old Han, saying hurriedly, "Old Han, I've followed your instructions and killed the three lord-level sea beasts. Now, it's your turn!"

"When did I ask you to kill the three lord-level sea beasts?" Old Han was stunned, the veins on his forehead popping out.

"Weren't you winking at me just now?" Wang Teng said, "I completely understood what you meant. These sea beasts aren't reliable. Hence, it's better to kill the three lord-level sea beasts instead of releasing them." "... You make so much sense!" Old Han was speechless.

"I've already killed them, so there's no point talking about this now. You should fight with it. With your ability, you shouldn't cower!" Wang Teng noticed that Old Han's expression seemed strange, so he hurriedly gifted him with compliments.

Old Han took a deep breath. "Get out of my way!"

"Sigh!" Wang Teng ran to the back obediently.

Old Han: ...

Dan Taixuan and the others had strange expressions on their faces. They looked at Wang Teng as if he were a jinx.

“Where’s your brain? How can you be so stupid?” Ye Jixin was speechless.

“Principal, I respect you, but you’re framing me. It makes me unhappy.” Wang Teng rolled his eyes and continued, “I’m doing it for everyone. If the sea beasts were reliable, the war wouldn’t have happened today. Why aren’t we killing the three lord-level sea beasts? Are we waiting for them to invade us again?”

Ye Jixin, Dan Taixuan, and the others had to admit that Wang Teng made sense, but somehow, they still found it strange. Wang Dapao heaved a sigh of relief, feeling that his seafood feast was saved. Admiration swarmed into his heart. His Little Brother Wang was a vicious man!

“In that case, tell us what we should do now? Old Han is injured. He has been suppressing it all these years, so he might not be able to stop the Windstorm Giant Ape!” Dan Taixuan took a deep breath and said seriously

“He’s injured!?” Wang Teng’s expression changed. He had never imagined such a turn of events.

At first, he thought that with Old Han’s ability, he would be able to hold back the Windstorm Giant Ape. The other martial warriors would block the remaining sea beasts, and both sides would be on par in terms of strength. They would have some chances of winning.

But after knowing that Old Han was injured, their strength wouldn’t be equal. “Why didn’t you say that earlier?” Wang Teng said helplessly.

“I wanted to fool the Windstorm Giant Ape, but I didn’t expect you to be so bold. You killed the three lord-level sea beasts instantly.” Dan Taixuan didn’t know what to do either. She knew that she couldn’t blame Windstorm Giant Ape, but she still felt anger boiling in her heart.

Boom!

While they were speaking, Old Han and the Windstorm Giant Ape had already collided. A frightening explosion occurred.

Old Han seemed to have turned into a sharp silver-white blade.

His entire body had merged with his blade conscious. He was the blade, and the blade was him. With his body engulfed in an indomitable blade aura, he charged towards the Windstorm Giant Ape with unrivaled energy.

Roar!

The Windstorm Giant Ape bellowed furiously. A gigantic long staff made from rock appeared in its hand. There was lightning and wind Force entangled on it. It crashed into the blade glow loudly.

Wang Teng’s expression turned grim. He scanned his attributes panel and muttered to himself, “It looks like I can only use that

move!”

Just now, he had picked up another round of attribute bubbles, so his blank attribute number had increased once again, reaching 15800 points.

Wang Teng added the blank attributes to his Space Tornado without any hesitation!

This skill was the only one that could turn the tides now!

After adding 15800 points of blank attributes, the proficiency of his Space Tornado increased exponentially. It crossed the foundation level, the small achievement level, and the big achievement level, stopping at the perfected stage. The requirement of each stage for the Space Tornado was exponential. Hence, more and more blank attributes were needed to reach each stage. The foundation stage required 100 points, the small achievement stage needed 1000 points, the big achievement stage needed 5000 points, and the perfected stage needed 10000 points.

Space Tornado: 9776/10000 (perfected)

His Space Tornado skill had almost reached the peak of the perfected stage. Wang Teng's understanding of the Space Tornado was almost fully completed. He felt that it wouldn't be difficult for him to execute it now.

He could even combine it with his space talent. Some unexpected chemistry might happen.

A sharp glint appeared in Wang Teng's eyes when he remembered the space tornado he saw in the dimensional rift.

His gaze turned deep. His black pupils were like an endless space with tornados spinning in them. He lifted his arms, and the space in front of him suddenly became distorted...

Chapter 544 Imminent Storm!

The space suddenly shook, and traces of the strange fluctuations spread to the surroundings.

Dan Taixuan, Ye Jixin, and the other general-stage martial warriors immediately noticed the abnormality. Their expressions suddenly changed.

"Why are there space fluctuations?"

Everyone was shocked. They were confused and anxious.

Were the dark apparitions invading now?

There was a bad feeling in everyone's hearts. After all, they had only seen space fluctuations of a similar scale when the dimensional rifts appeared.

And for dimensional rifts to appear on Earth, it would only mean the invasion of the dark apparitions!

If that was the case, it would be like adding fuel to the fire.

The battle with the sea beasts wasn't over, yet the dark apparitions were already invading them. Were they taking turns?

The general-stage martial warriors' faces turned ugly, and their heads were clouded with negative thoughts, showing a look of giving up.

"Cough, cough!" An awkward cough broke the silence. "Don't think too much. I did that!"

The person who spoke was Wang Teng. When he saw the expressions on their faces, he knew what was on their minds.

Everyone: ... Several of them were confused as they looked at Wang Teng. Suddenly, they realized that the spatial fluctuations were centered around Wang Teng

So they just... made a wrong judgment?

"You... possess space talent too?" Governor Jiang asked in surprise.

Dan Taixuan's eyes flashed as she suddenly remembered that Wang Teng seemed to have used spatial techniques to kill the Eight Arms Devil General during the Star Maple City battle.

If that was so, it wouldn't be strange.

Faced with Governor Jiang's question, Wang Teng declined to comment. "It's better for you to step back a little bit. The next one might be more difficult to control."

"What are you planning to do?" Dan Taixuan's expression changed slightly.

"Nothing much. I just want to test my newly-developed move," Wang Teng replied calmly. He shamelessly proceeded to claim the space tornado as his own achievement.

Dan Taixuan and the rest naturally didn't

when they heard Wang Teng's words. They still sensed something amiss, especially when they saw his calm face...

This brat might be causing some trouble!

No, 'might' was not the appropriate word here. This brat was causing trouble!

"Are you sure?" Dan Taixuan frowned and asked.

Even if Wang Teng had the space talent, the difference between him and the Windstorm Giant Ape was massive. Even if he managed to execute it, he might still not be a match.

"50-50!" Wang Teng said without changing his expression.

Everyone: ...

What do you mean by 50-50? They all knew that was not a serious answer. They were already in such a dire situation, he should stop fooling around!

Wang Teng didn't speak, and his expression became solemn. With him at the center, the space fluctuations became more and more intense, and the ripples started forming waves that were visible to the naked eye as they spread outwards.

Dan Taixuan and the rest were too close and could feel them firsthand. The space fluctuations made them feel unstable, and a strong sense of danger surfaced in their hearts.

Space was not something that a normal martial warrior could lay a finger on. It was extremely rare even for a general-stage martial warrior to grasp the existence of space.

As the spatial fluctuations intensified, the surroundings would suddenly crack. Even a general-stage warrior would be torn apart by the dimensional rifts. Even if they managed to escape death, they would not be spared from serious injuries.

They exchanged glances with one another before retreating. It was laughable that as a general-stage martial warrior, they couldn't offer much help and could only stand back.

The younger generations would exceed the older generation, leaving no path for them...

Boom!

The Windstorm Giant Ape and Old Han clashed, and the shockwave swept the surroundings.

impact.

The seawater started churning, forming a huge whirlpool. The flow of water was turbulent, but the Windstorm Giant Ape's giant body didn't budge at all.

The Windstorm Giant Ape swung the long rod in its hand, smashing it towards Old Han. The storm and the lightning came together, painting a devastating scene.

There was already a trace of blood on the corner of Old Han's mouth. His old injury had relapsed, and the fierce battle made it impossible for him to suppress it any longer.

However, he held on, and sword glows erupted from his body, soaring in the sky!

The next moment, though, the sword glows shot back. Although the sword conscious returned and converged into his body, it had become even sharper and terrifying than before!

Old Han's back suddenly straightened. It was like he had transformed into a peerless sword.

Slash!

A roar escaped his mouth, resounding through the heavens. In an instant, his body vanished. He turned into a sword glow and rose into the sky, slashing towards the Windstorm Giant Ape!

collided, everything seemed to have fallen into silence.

The waves stopped, while the whirlpool came to an end. The sea beasts and humans in the distance seemed to freeze at that moment.

Clang!

A metallic trill was the only sound in this world. It shook the skies and seas endlessly.

Boom!

Soon after, a terrifying roar finally broke out.

The shockwaves from the clash blasted the seawater into the sky, and the terrifying energy swept across the surroundings. The faces of Dan Taixuan and the rest changed as they stepped back.

Only Wang Teng stood in front. The terrifying shock wave bombarded his body, and the fierce winds made his clothes flap loudly. His long black hair danced wildly in the air.

Wang Teng's body was surging with Force, blocking the shockwave.

In front of him, the spatial fluctuations had reached the peak, releasing bursts of crackling sounds. At a certain moment, the space around Wang Teng suddenly cracked and formed deep, dark rifts. Inside them was a bottomless pit of the void!

A gust of wind from the void gushed out from the crack and surrounded Wang Teng as if it was manipulated by a certain force. It was gentle like a breeze in the beginning, but it gradually became faster, turning into a violent tornado.

It spun rapidly, tearing apart the surrounding space, forming a terrifying piece of the void.

It was the birth of a tornado!

Wang Teng's body finally vanished in the swirling tornado!

Dan Taixuan and the rest immediately felt a terrifying pull. Not only were they floating towards it, but even their blood and Force were also moving as if they were about to break out of their bodies. Everyone was startled as they retreated even further.

They had already retreated previously, but it was clearly not enough.

"Retreat!" At the same time, they shouted at the human soldiers behind them.

There were still many soldiers on top of the mountains. They had also felt the strong pull. The surrounding trees were all tilted over, and countless gravel was rolling in that direction...

Chapter 545 Dazzling!

"So frightening!"

The martial warriors beside him felt the frightening suction force and a strong sense of danger.

"What's Wang Teng doing?" Everyone in the country was watching this scene in front of the screens.

The terrifying emptiness gradually turned into a frightening tornado, rendering everyone speechless and shocked.

Although many people were curious, the martial warriors beside them didn't know anything either. They had never seen such a frightening battle technique.

Especially the emptiness. It seemed to be birthed from dimensional rifts!

What kind of battle technique could move
space?

Numerous martial warriors stared at the tornado in bewilderment.

Capital Xia.

The leader of martial arts suddenly took a step forward as if this was the only way to see the situation on the screen clearly. His gaze turned sharp and bright, and he let out a huge sigh after some time. "This is... space skill!"

The commander of the military and the principal of The First University had noticed it too. They were astounded. Even they couldn't maintain their composure at this moment.

"Wang Teng has grasped a space battle technique!" the commander of the military said in disbelief.

"He... how did he do it?" The minister of education's eyes were shimmering.

"From what I know, you need to possess the space talent if you want to execute a space battle technique..." the leader of martial arts said slowly.

There was no need to say things clearly. Everyone understood.

This was his talent. They could only feel jealous!

Above the Donghai sea, while everyone was in a daze, a tornado with Wang Teng in the center was spinning at a frightening speed. The shrill sound of the wind spooked the listeners. At the same time, an appalling suction swept everywhere.

The seawater was swept up into the sky. On land, the tree and broken rocks on the mountain were blown up and sucked into the tornado...

Everyone was staggered. They stopped hesitating and dashed down the mountain.

Dan Taixuan and the others flew past the mountains with stern expressions on their faces. They watched the scene from a distance.

Fortunately, the huge mountains were blocking them. Without it, the human martial warriors might have to retreat much further so that they wouldn't get implicated by the tornado.

Boom!

The battle between Old Han and the Windstorm Giant Ape finally stopped. The seawater fell back into the sea, revealing the situation behind it.

A figure flew out abruptly!

Splurt!

Old Han vomited a mouthful of blood. His old body slammed down from the sky like a broken gunny sack. Killing intent was burning in the eyes of the Windstorm Giant Ape. It wanted to throw its long rod out once again.

Old Han's body suddenly started flying backward at a fast speed as if there was an invisible force pulling him.

Dan Taixuan and the others immediately dashed out and caught Old Han. "Cough!" Old Han's face was pale. He coughed out blood again. "Old Han, are you alright?" Dan Taixuan asked worriedly.

Old Han's frail hands were trembling slightly. But he still waved them and said, "Put me down."

"Your injury..." Governor Jiang couldn't help but ask.

"I won't die anytime soon." Old Han's face had gotten whiter, but no one could stop his stubbornness. They put him down.

He wobbled in the air like a kite without its string, looking like a strong gust of wind would take him away. Everyone was worried for him.

Old Han looked in front. Astonishment flashed past his eyes as he asked, "Did Wang Teng make that?"

"Yes," Dan Taixuan nodded and replied. "Good riddance, no wonder he dared to kill the three lord-level sea beasts in front of the Windstorm Giant Ape!" Old Han smiled.

As they were talking, the Windstorm Giant Ape also looked at the space tornado in front and turned vigilant. He could sense a strong sense of threat from it.

At this moment, the space tornado started spinning furiously and gradually moved forward. An even more powerful suction force came out from within the tornado as it swept towards the sea beasts.

The sea beasts screamed in fear. They scurried around, but under the strong suction force, their bodies soared into the sky uncontrollably and flew towards the space tornado. "Roar!"

Amidst the agonizing cries, multiple sea beasts merged into the space tornado.

Pfft, pfft, pfft!

Before they could scream, they were shredded into pieces by the tornado. Blood scattered down like rain.

The remaining sea beasts ran away frantically. They swam towards the distance and the bottom of the sea, wanting to evade the powerful space tornado. However, the space tornado continued moving forward firmly. The sea beasts near it couldn't escape their fate of death.

"Roar!" The Windstorm Giant Ape bellowed when it saw the scene. "Human, stop!" A cold snort answered him. Wang Teng's voice came from within the space tornado. "It's too late. Do you think that humans are made of mud? Any invaders must pay the price. I will not let any of you return!"

His voice grew louder and louder. Toward the end, it spread over the sea and resounded everywhere.

The humans behind the mountains felt a rush of adrenaline in their bodies. They looked in front. Even though they couldn't see his figure, excitement still rose in their eyes.

Well said!

We must let the sea beasts know that we, humans, aren't easy to bully! "Roar!"

The Windstorm Giant Ape howled. Watching the sea beasts getting sucked into the space tornado one by one and finally being shredded into pieces, its eyes turned bloodshot.

"You should die!" it screamed. The storm and lightning around it increased exponentially and formed an equally frightening lightning windstorm. It engulfed its body.

wy.

At this moment, the Windstorm Giant Ape seemed to have turned into a lightning windstorm.

It was the king of storms!

It was the ruler of lightning!

Amidst the frightening aura, it roared to the sky and knocked forcefully into the space tornado.

Boom!

The space tornado and the lightning windstorm collided above the sea.

The scene was extremely frightening. It was like the dawn of a calamity. Humans couldn't stop it!

The seawater was churning while the sky was pitch-black with black clouds covering the sun. This area seemed exceptionally gloomy and depressing

The two tornados spun furiously, corroding and destroying each other.

Boom, boom, boom! The explosions in the sky never ceased. It was like the dawn of the apocalypse. The humans behind were all shocked and flabbergasted. There was no way to describe their emotions.

Suddenly, a huge wave splashed into the sky, blocking everyone's view. They could only hear continuous explosions.

The Windstorm Giant Ape won in terms of ability, while Wang Teng won in terms of the frightening level of the space tornado.

Both sides were at a standstill. They were arch-enemies, so no one was willing to admit defeat. They would either win or die trying.

"Roar!"

"Die!"

The ape and the human bellowed furiously, pressing their attacks down on their opponent.

Boom!

A dreadful explosion suddenly erupted from the point of collision between the two tornados. The world turned dead silent.

"Who won?"

The people at the back stared in front absent-mindedly. They were extremely nervous. Their hearts had risen to their throats as they waited for the result.

The sea waves subsided. Two figures faintly appeared in everyone's vision. One of them was the huge figure of the Windstorm Giant Ape. The other appeared extremely small beside it. Yet his back was straight, and he stood erect in the air. He wasn't far from the Windstorm Giant Ape.

There was a huge commotion in the ranks of the humans.

The Windstorm Giant Ape was drenched in blood, its body marred with numerous wounds. It looked tragic and miserable. It was panting heavily as it stared intently at Wang Teng, wishing to skin him alive.

Wang Teng had multiple wounds on his body too. Fresh blood stained his clothes and dripped down his body. However, there were no emotions on his face. His gaze was calm and composed as he stared at the giant ape.

The human martial warriors behind, the normal people in the underground shelter, as well as all the audience in front of the screens in the country... Everyone was focused on them with bated breaths. The fate of Donghai lay in Wang Teng's hands. "Retreat!" At this moment, a resolute voice came from Wang Teng's mouth.

Silence!

Dead silence!

The Windstorm Giant Ape glared at Wang Teng. After some time, it finally opened its mouth. "Human, tell me your name."

Its voice remained loud and dignified. However, there was a hint of tiredness and weakness hidden in it.

"Wang Teng!" he replied after a moment of silence.

"I'll remember you!" The Windstorm Giant Ape gave Wang Teng a deep look. Then, it turned around and walked towards the depth of the sea. Its huge body submerged into the seawater step by step before it finally disappeared.

The remaining sea beasts followed closely behind and disappeared entirely from the surface of the sea.

"We... won!"

Everyone was stunned for a moment before they regained their senses. A loud cheer suddenly erupted.

"Hahaha, we won!"

"We really won!"

"Wang Teng, Wang Teng..."

"Wang Teng!"

Someone took the lead and shouted Wang Teng's name. His name echoed above the Donghai ruins for a long time.

The dark clouds were swept away, and a ray of sunlight scattered down, lighting up the young figure in front.

He was dazzling!

Chapter 546 It Was Worth The Hard Fight!

As the last sea beast disappeared into the deep sea, the water resumed its calmness.

The cheers of the humans resounded in the sky above the Donghai ruins.

Wang Teng stood erected on the surface of the sea. Under the golden sunlight, his slender body seemed exceptionally tall and lofty at this moment. It was even a little holy!

Respect appeared in everyone's eyes. It came from their hearts. The brutal sea beast riot had been quashed with Wang Teng's help!

Without him, many Donghai martial warriors, as well as the ordinary people, wouldn't be able to survive the sea beasts' slaughtering. He had helped the human martial warriors kill a large number of sea beasts.

He also carried two mountains and built an almost indestructible defense on their coastline, blocking the majority of the sea beasts outside. He fought to let the human martial warriors have a higher chance of survival.

It was also him who defeated the frightening Windstorm Giant Ape and forced it to retreat, protecting the homes of the Donghai citizens.

Who else had the ability to do this?

In the underground shelter, the Wang family felt extremely proud when they heard the cheers around them and the people calling out Wang Teng's name.

They looked at the young figure on the screen. There was only astonishment in their mind.

"It's our family's luck to have such a child!" Grandpa Wang clenched his cane tightly as he stuttered.

Wang Teng's uncles and aunts felt the same way. How fortunate they were to have such a formidable presence in their family.

Many families were unable to groom a martial warrior even after pumping in huge amounts of resources. On the other hand, the Wang family didn't do anything, yet Wang Teng had risen to such an astonishing level. It was like a pie dropping from the sky. Whenever the other families mentioned them, their eyes turned red in jealousy.

At the same time, the other citizens of the country finally heaved a sigh of relief.

Donghai was saved!

This was the best result.

Although the city itself was in ruins, the people had survived. They could rebuild the city as long as the will was there. Then, everyone's gaze landed on Wang Teng unconsciously. They couldn't hide the amazement on their faces.

This young man was so outstanding!

Through this sea beasts riot, he allowed everyone to see what an unsurpassed talent in his generation meant.

Indeed, to everyone, Wang Teng was worth such a high appraisal. He was the first in his generation!

He had surpassed all the talents of his generation. Although no one specially mentioned this glory, they still placed this honor in their hearts in unplanned unison.

Capital Xia, imperial palace!

The leader of martial arts sternly gave an order. "Immediately dispatch medical staff and alchemists to Donghai. We must save every single life we can.

"Prepare all the resources needed. We'll do our best to help rebuild Donghai. All the departments must cooperate. If anyone slacks or makes a profit out of this... they will be punished with due severity.

"Also, send some runemasters to Donghai and build the strongest defense on the coastline of Donghai to prevent another invasion of sea beasts."

After he finished speaking, he left instantly. When he reached the door, he stopped and said, "Order the entire nation to keep a close watch of our surroundings, especially the grasslands, the forests, the mountain ranges, and the seas. I don't want to see another similar event happening."

Then, he disappeared from everyone's vision.

"Yes!" the minister of education and the various leaders replied hurriedly.

The impact of this sea beast riot was huge. It had gained great attention from the higher authorities.

Donghai had already suffered heavy losses. Their country couldn't afford another turmoil like this.

The orders were sent out from the imperial palace and spread to all corners of the country. The entire nation went on full alert, and the atmosphere turned tense.

Donghai.

Wang Teng stood on the surface of the sea until all the sea beasts had disappeared. Next, he heaved a sigh of relief. A wave of overwhelming exhaustion was spreading throughout his body.

His body and mind had reached their limits. He had never felt so empty and helpless. It was as if his body didn't belong to him.

He wasn't standing there because he wanted to put on a show. It was because he couldn't move a muscle. His whole body would scream in protest if he made even a small movement. All he could do was use the last morsel of Force to maintain his body floating in mid-air. Fortunately, the Windstorm Giant Ape didn't notice that he was at his wits' end. Or rather, it didn't matter if it discovered anything. It was faring not any better. Wang Teng was confident in the power of his Space Tornado.

The Windstorm Giant Ape wasn't stupid. It knew that if it continued fighting, it wouldn't gain any benefits. Because of Wang Teng's appearance, most of the general-stage human martial warriors had kept their lives. This was a huge threat to the sea beasts. They had no other chances of winning.

At this moment, Dan Taixuan and the others finally noticed Wang Teng's abnormality. They flew over quickly.

"Are you alright?" Dan Taixuan asked worriedly.

"Hold me. I can't move," Wang Teng opened his mouth and said in a hoarse tone. Dan Taixuan's expression changed slightly as she hurriedly held onto him.

Everyone returned to the back. Others crowded around them, including Peng Yuanshan and Tong Hu from Huanghai Military Academy. There were also Qin Hanxuan, Fu Tiandao, and some other people close to Wang Teng. Of course, there were some unfamiliar faces too.

They looked tired and were covered with blood, but at this moment, they were all worried. They started talking at once. "How are you?" "Are you alright?"

"Is your injury serious?"

Wang Teng felt a little weird that a bunch of old men was surrounding him and showing him concern, but he was touched. At the same time, he felt fortunate that everyone had lived.

It was worth the hard fight! "Make way, are y'all trying to block the path?" Dan Taixuan frowned and shouted as she carried Wang Teng.

The crowd was stunned before they hurriedly cleared a path.

Dan Taixuan snorted, carrying Wang Teng to an empty patch not far away.

Donghai had already turned into ruins. Also, Wang Teng had to form the rock giant, so he forcefully pulled out all the rocks below the ground. Hence, it was empty everywhere. They could only find a leveled ground to let Wang Teng rest.

Dan Taixuan placed Wang Teng down and took out some healing pills for him to consume. Wang Teng didn't waste any time. After swallowing the pills, he closed his eyes and started recuperating.

Despite everything, he didn't forget to leave a string of spiritual power to pick up the remaining attribute bubbles around him. No matter how serious his injury was, he must not waste his attribute bubbles.

Very soon, all the attribute bubbles were picked up by Wang Teng. He finally recalled his spiritual power and focused on recuperating.

After some time, Wang Teng opened his eyes and heaved a long sigh.

The sky was getting dark. It was evening now. The night was dawning soon.

Suddenly, Wang Teng noticed a group of people beside him. He was stunned.

"Dad, Mom, Grandpa... Why are you here?"

The people in front of him were his family members. When they came out from the underground shelter, they heard that Wang Teng was injured, so they stood around him and never left.

"Son, you're finally awake!" Li Xiumei heaved a sigh of relief. At the same time, she cried in happiness.

Chapter 547 Just Worried Of Wild Cats And Dogs!

As his mother, Li Xiumei was the most anxious for Wang Teng. Thus, when she saw him waking up, there was no need to explain her happiness. She hugged Wang Teng tightly as if afraid that he would suddenly disappear. "Mom, I'm fine. I'm good." Wang Teng was touched. He patted Li Xiumei's back and consoled her.

Li Xiumei wiped her tears and said, "Don't fight so hard next time. How am I supposed to live if something happens to you?" "Alright, I'll listen to you. I'll escape far away next time," Wang Teng agreed without thinking

"I know you're just comforting me." Li Xiumei rolled her eyes angrily. He had agreed so quickly that it must be fake.

"Alright, alright, our son is doing this for everyone in Donghai. He's a hero." Wang Shengguo's eyes were red, but he didn't cry. He patted Li Xiumei's face as he spoke in a proud tone.

"To hell with being a hero. I just want my son. I don't want a hero," Li Xiumei glared at Wang Shengguo and scolded him.

Speechless, Wang Shengguo felt embarrassed. The people around them didn't know what to say. Some martial warriors who passed by opened their mouths and wanted to refute. However, when they remembered that she was Wang Teng's mother, they gave up. To a mother, nothing was more important than her son.

Grandpa Wang coughed awkwardly and said, "Xiumei, it's good that he's fine. Let's stop talking about this."

Since Grandpa Wang had spoken, it wasn't appropriate for Li Xiumei to continue on this topic.

Moreover, she knew the old saying, 'with greater strength came greater responsibility.' If a powerful warrior like Wang Teng didn't step up to the challenge, no other humans might be able to step out and fight with the sea beasts.

She sighed in her heart. Then, she spoke to Wang Teng in a gentle tone, "Are you hungry? Let me make some food for you." When she said this, everyone's stomach started growling

They hadn't eaten for a whole day. When they came out from the underground shelter, they received some dried goods, but they didn't have any appetite. They just drank some water and didn't eat anything.

Now, after seeing that Wang Teng was fine, their worry was gone, and naturally, they felt hungry. "Our house is gone, so there's nowhere we can cook. We can only make do with some dried rations," Wang Teng's aunt, Zhao Huili, said dejectedly.

Li Xiumei finally reacted, frowning uncontrollably.

Her son was injured, so he should have some nourishment. But everyone was homeless, so she couldn't make food without the ingredients.

"Wang Teng is awake!"

At this moment, a bunch of people came from afar. They were Dan Taixuan, Peng Yuanshan, Fu Tiandao, and many others.

At the same time, there was a group of medical workers. When they saw Wang Teng, their gazes turned intense and were filled with respect. A beautiful female doctor around 30 years old said, "Mr. Wang

Teng, nice to meet you. I'm your personal doctor sent by the higher authorities. I'll be in charge of your body condition for the next few days."

Wang Teng was a little stunned by the female doctor's beauty. Normally, he didn't mind creating some secret stories between a patient and the doctor. However, he couldn't act on his fantasies because his parents were around!

"Cough, there's no need for that. I'm fine," Wang Teng said. He didn't mean it at all.

"No way, your body is extremely important. We must be careful with it. We'll be monitoring all the indexes of your health now. Please cooperate with us," the female doctor said.

"Son, listen to the doctor and accept the check-up." Li Xiumei immediately agreed.

Wang Teng felt helpless. Closing his eyes, he nodded. "Okay, I will hand my body to you now."

The female doctor waved her hand, and the staff around her immediately started erecting a simple tent. Then, they started a body inspection for Wang Teng.

The checkup was quite simple, just a body inspection. After some time, the procedure ended, and the female doctor walked out of the tent.

Li Xiumei and the others crowded around her and asked, "Doctor, how's my son?"

The female doctor was a little stunned. She regained her senses when she heard the question and replied, "Oh, Mr. Wang Teng's body has almost recovered completely. He's fine. This is astonishing. It's my first time seeing a body with such amazing healing power..."

As she spoke, she saw Wang Teng coming out. Her eyes lit up, and she asked shyly, "If possible, can you give me some blood so that I can research it?"

Wang Teng stumbled, looking at the other party weirdly.

This lady just saw him naked a moment ago, and now, she wanted to study his body. This was too much!

"Doctor, you can't do research on a martial warrior's blood for no reason," Dan Taixuan opened her mouth and said.

"Alright." The female doctor shook her head sadly and left.

Although she was Wang Teng's personal doctor, he asked them to treat the other patients and not waste time here. After all, he understood his body the best. With his recovery ability, his injury would soon heal. There was no need to waste any medical resources.

"Have a good rest. We'll see if there are others who need help." Dan Taixuan and the others noticed that Wang Teng was fine, so they also left. There was still a pile of matters waiting for them to resolve.

Everyone went to do their things, leaving only the Wang family and Lin Chuhan's family. The Lin family had always been there, resting close to the Wang family. They only came when they noticed that Wang Teng was awake.

Wang Teng met Lin Chuhan's eyes and read the complicated emotions in them. There was worry, relief, respect, and love...

Both of them remained silent.

Li Xiumei gave an amiable smile when she saw this scene. She waved her hand silently to ask the people around to leave. Then, she pulled Mother Lin's hand and started chatting happily with her at the side. If others didn't know them, they might think that they had known each other for more than ten years.

This was the first time Wang Teng's family had met Lin Chuhan's family. No one expected it to be in this situation.

"I'm very strong. I'll be fine," Wang Teng broke the silence and said with a smile.

"Act according to your ability next time. Don't push yourself too hard. We're all worried for you." Lin Chuhan's throat was dry, and her voice was hoarse.

"How worried are you?" Wang Teng looked at her pretty face and suddenly felt like teasing her.

Lin Chuhan took a deep breath when she saw his cheeky look. She glared at him and said stubbornly, "Not too much. Just like how I'm worried for wild cats and dogs."

Wang Teng was rendered speechless. He felt that he was so miserable. He was on the same level as wild cats and dogs.

Chapter 548 Bullshit!

Lin Chuhan had only spoken a few words with Wang Teng before Lin Chuxia came over impatiently.

Lin Chuhan rolled her eyes involuntarily.

Lin Chuxia didn't have any idea that she was the third wheel. She chuckled and said, "Brother Wang Teng, where have you been for so long?"

Once Lin Chuxia took the lead, Xu Wantong, Tian Xiaoxiao, and Wang Teng's classmates from afar walked over too. Lu Shu, Hou Pingliang, and some others were among them.

Wang Teng smiled at them. They were all martial arts students, so there was no need to hide anything. He replied, "I accidentally went to the Darkland." "Darkland!" They were shocked. "Are you sure you went to the Darkland?" Hou Pingliang asked curiously. "Why would I lie to you?" Wang Teng rolled his eyes at him.

"Haha, that's not it. We just find it unbelievable." Hou Pingliang smiled awkwardly. Then, he followed up, "What is it like there?"

"The whole place is filled with high-level dark apparitions. What do you think?" Wang Teng asked.

Hou Pingliang and the others felt their head turning numb when they heard this. Think about it. Alone in the Darkland, surrounded by numerous dark apparitions...

Goodness, just imagining the scene gave them goosebumps. It was too scary!

Everyone looked at Wang Teng in astonishment and bewilderment.

How did Wang Teng manage to escape in that situation?

“How did you escape and come back?” Xu Wantong asked the question on everyone’s minds.

“Escape?” Wang Teng gave a look of contempt. “I slaughtered my way back. You should have seen that scene. I lifted my sword, again and again, chopping my way from the south of the dark apparition’s holy city to the north. It was a magnificent moment. So, escape isn’t the right word for it!”

“Look at you boasting.” Lin Chuhan rolled her eyes. He was so exaggerating. If he wanted to fool them, he should do it properly. Did he think that they were stupid?

“I never knew that you were so good at boasting!” Xu Wantong was speechless. She turned and said to Lin Chuhan, “Chuhan, you must be careful in the future. This fellow is full of bullshit. He might be a scumbag!”

“F**k, you’re framing me.” Wang Teng was furious. He glared at her. “You have to believe me. Before I left, I bombed the holy city of the dark apparitions and even took their treasu-“

Wang Teng caught himself in time. Damn it, he almost spilled the beans.

“Took what?” A burst of laughter came from the distance.

Governor Jiang, Ye Jixin, and some others accompanied Dan Taixuan over. They weren’t here just now, so they came to take a look after they heard that Wang Teng was awake.

The speaker was Governor Jiang. His eyes were shining like a hungry wolf who saw its prey.

“Nothing, nothing. What treasure? Governor, you heard wrong.” Wang Teng shook his head and denied it firmly. Then, he looked innocently at Dan Taixuan and asked, “Master, you just left. Why are you back again?”

“Are you saying I can’t come back?” Dan Taixuan looked at him calmly and asked.

Wang Teng’s heart dropped. He hurriedly laughed and said, “Of course not. Who dares to stop you?”

Dan Taixuan heaved a sigh of relief. Wang Teng was stronger than her now. It would be embarrassing if she couldn’t suppress him.

Fortunately, this fellow still respected his master.

Governor Jiang opened his mouth impatiently and asked, “Wang Teng, did you take the dark apparitions’ treasures?”

Everyone looked at Wang Teng strangely when they heard this.

Did this fellow honestly do that?!

“How’s that possible? I don’t have that ability. I was just boasting!” Wang Teng shook his head hurriedly.

Hmph, I don’t believe you. Dan Taixuan scoffed in her heart, but she didn’t say anything.

Wang Teng was her disciple. She couldn’t help outsiders!

Governor Jiang continued, "Based on your personality, it's not out of the picture. You got the treasures based on your ability. No one will snatch them from you. There's no need for you to hide anything."

Hmph, why will I believe you! Wang Teng snorted in his heart. His reaction was the same as Dan Taixuan, but it was directed at a different person.

Did Governor Jiang think that he was as easy to fool as a three-year-old child? If he showed his treasures to them, it would be inappropriate for him not to donate them.

eri

"I really didn't. I saw them, but I didn't have the time to take them!" Wang Teng spoke in a regretful tone, putting on a professional performance. Governor Jiang didn't care if he took it or not. He pointed around him and said, "Look at Donghai now. It's in ruins. Many people have lost their homes. The old had no food, and the young can't go to school... Do you have any feelings when you see this?" Wang Teng's face turned black. He was guilt-tripping him!

As expected, a righteous clause was slammed on him. Should he help or not?

"Governor, let's get straight to the point. Our Wang family is in Donghai too, and we also suffered losses. Look at our house. We don't even have a home now. We are a bunch of homeless people." Wang Teng didn't respond to the question, complaining about his plight instead.

He wouldn't fork out anything. He was just a normal person, not a saint. He was already sacrificing his interest when he stepped out and risked his life to win the war. There was no reason for him to empty his pockets too, right?

Furthermore, he wasn't the governor of Donghai, so it wasn't his responsibility to give the money.

In these circumstances, he needed to think for the Wang family. What would their future be like? How could they build their business again? Money was a necessity, so his treasures could be put to use there.

Anyway, besides some special items, most of the treasures were useless to him. He would rather use them to develop the Wang family. It would benefit him if the Wang family grew stronger.

Grandpa Wang and Wang Shengguo heard their conversation and understood the situation somewhat. At the start, they were worried that Wang Teng couldn't withstand the guilt trip and would cave.

From the looks of it, this fellow wasn't that naive. His acting was on par with sly old foxes like them who had been in the business world for a long time.

Governor Jiang felt a little awkward when he heard Wang Teng's reply. He now looked like a bad guy trying to snatch the other person's treasures. Dodging Wang Teng's gaze, he looked at Grandpa Wang. "Mr. Wang, what do you say?"

"Greetings." Grandpa Wang was polite. He bowed before he opened his mouth. "To be honest, the Wang family has suffered heavy losses this time. The majority of our business is destroyed, and we don't know if we can stand up again. We can't offer any help. Also, Capital Xia will definitely do something about the Donghai crisis. Reinforcements will arrive soon, so there's no need to hurry."

Chapter 549 The Ending Of The Three Lord-level Sea Beasts!

Grandpa Wang was more artistic in his words. He wasn't as direct as Wang Teng. Instead, he mentioned the country. No matter what, the country had to take the lead in this.

It didn't make sense if Wang Teng was to act before the country.

Governor Jiang was forced into a corner by Grandpa Wang's words. He gave a bitter smile and said, "That makes sense, but relying on the country isn't enough if we want Donghai to regain its glory. We need help from everyone!"

"We can discuss that later. You can gather people from all walks of life and hold a meeting to discuss this issue. I think that everyone will be happy to help Donghai," Grandpa Wang said calmly, pushing the responsibility away. Governor Jiang felt his head hurt. Both the old and young from the Wang family weren't easy to deal with. In the past, he hated talking to businessmen the most. If he couldn't win them in speech, he would force them to agree with his authority.

But the Wang family was different. Wang Teng belonged to the military. He had a military title and was powerful. Governor Jiang felt that he couldn't win against Wang Teng. He was a monster!

He was a rock that was hard to bite—no, he was a diamond. He would only break his teeth if he tried to bite him.

Wang Teng sniggered in his heart when he saw Governor Jiang's helpless expression. He secretly gave Grandpa Wang a thumbs up.

The older, the wiser.

Grandpa Wang raised his eyebrows. However, his expression remained the same, not giving himself away.

"Alright, let's put this on hold. We'll come up with a plan in the future." Governor Jiang gave Wang Teng a meaningful look. The brat must have taken countless treasures from the Darkland. He had to get some from him.

In the end, Governor Jiang left unwillingly.

He would be back, though.

"Seriously." Dan Taixuan pointed at Wang Teng and smiled as she shook her head.

Although she didn't say anything just now, she had already shown her stand. If possible, she hoped that Wang Teng would offer a helping hand.

Wang Teng smiled and didn't reply to her.

"They won't ask you to give the money for nothing. You will be able to get some benefits too. You can decide how you want to grasp the chance," Dan Taixuan continued. Wang Teng started considering it seriously. He nodded.

He hadn't thought of that possibility. If there was an exchange, he might be able to accept it.

"I wonder how many people are still willing to stay in Donghai after this riot." Ye Jixin sighed.

His words stunned everyone. The sea beast riot had destroyed Donghai completely. The consequences were too terrifying. Despite the positive result, everyone probably still had lingering fears, so the normal citizens might leave the city and not stay here anymore.

“Inland might not be safe either. Although the coast has sea beasts, the inland has star beasts,” Dan Taixuan said.

“To strengthen the defense of Donghai, we can carve rune arrays on the three mountains and make them our first line of defense. Normal sea beasts won’t be able to pass through them,” Wang Teng said with a glint in his eyes.

“I forgot that you’re a runemaster too.” Dan Taixuan glanced at him and nodded. “There will be runemasters coming to reinforce us very soon. You can discuss it with them. This is your forte.”

Wang Teng nodded.

Xu Wantong, Hou Pingliang, and the others were dumbfounded when they saw Wang Teng talking to all these important characters on equal footing. They looked like they had seen a ghost.

We went through 9 years of compulsory education too. Why are you able to calmly talk to the bosses while we are shivering at the side?

The difference was a bit too much.

Night arrived. Everyone sat on the ground and took out dried goods. They started eating their food.

Stars shone brightly in the night sky, casting a dim light on the wreck. The people looked at the ruins in front with a heavy heart.

They were still alive, but many people had lost their families and friends. After this sea beast riot, many people were unable to come back anymore.

Wang Teng’s eyes flickered. He said, “Stop eating dried goods. We have so much seafood. What a waste if we don’t eat them!”

His words were accompanied by a loud bang. The corpses of three huge sea beasts appeared on the empty ground in front.

Everyone was dumbstruck.

These were lord-level sea beasts. Were they really going to eat them?

This was a little extravagant!

Hearing the commotion, Wang Dapao and Dan Taixuan hurried over. They gathered in front and looked at Wang Teng with an intense gaze. They seemed to be saying...

Hurry up and start cooking!

Lin Chuhan, Xu Wantong, Hou Pingliang, and the others went speechless when they saw this scene.

They were general-stage martial warriors. Shouldn’t they take care of their images?

But they could finally confirm that they really planned to eat the lord-level sea beasts. They were astounded, and their eyes also started shining

These sea beasts were huge. A few more servings shouldn't matter, right? They wouldn't eat much; just a little was enough! After all, these were lord-level sea beasts. They didn't know if they would ever have the chance to taste such a delicacy again if they missed this chance.

The Wang family exchanged glances with one another and swallowed their saliva unconsciously.

Wang Teng smiled. He immediately waved his hand, and a green flame emerged.

The three sea beasts were immediately engulfed by the flames. Wang Teng controlled his spiritual power and lifted them in mid-air. He started barbecuing them from all corners.

It was time for the Force chef master to come out again!

Wang Teng immediately started his amazing show. There was no way he could do it normally. The sea beasts were huge, so he had to fly up and down to scatter the seasonings evenly on them.

Keeping their size in mind, a large amount of seasoning was needed. Wang Teng's stash wasn't enough, but fortunately, he received some from the other martial warriors.

After some time, a strong fragrance wafted out. The three lord-level sea beasts had turned golden-brown. One look was enough to whet one's appetite.

The Windstorm Giant Ape would never have thought of this ending.

Even the people further away noticed the situation here. They looked over and swallowed their saliva.

"Alright, free for all. Eat as much as you can!"

Wang Teng waved his hand and cut a few pieces of meat. He distributed them to the Wang family and Lin Chuhan's family.

This was an obvious bias. Everyone rolled their eyes uncontrollably.

However, Wang Teng caught these sea beasts. Back then, everyone thought he would hand the three sea beasts over. Yet, he killed them right in front of the Windstorm Giant Ape.

He was a little bold and reckless, but he managed to keep the three sea beasts. If it was another person, they would have handed them over. It was impossible for them to taste this lord-level seafood.

Lin Chuhan blushed slightly when she noticed everyone's gaze. This fellow favored her in front of everyone, making her a little shy.

Xu Wantong and Tian Xiaoxiao winked at her and teased her silently. However, they were a little jealous too.

Hou Pingliang, Lu Shu, and the others chuckled and looked at them ambiguously.

Although they had injuries on their bodies, it was nothing serious. They would recover after some rest.

With his thick skin, Wang Teng didn't mind the attention. He didn't feel embarrassed at all.

Mother Lin smiled when she saw his reaction. She was starting to like Wang Teng more and more.

Lin Chuxia didn't care about any of it. She grabbed the seafood and took a huge bite. It was freshly barbecued, so she got scalded, crying embarrassedly in pain. The others were getting impatient. They pounced on the seafood as if they hadn't eaten for many days.

"Oh my god, as expected of lord-level sea beasts. This lobster meat is tender and delicious. It's amazing!" Wang Dapao exclaimed.

"Look at you!" Sister Han slapped him on the shoulder. She felt that he was embarrassing her.

Wang Dapao shrunk his neck and chuckled. He was known for listening to his wife. There was no chance of him getting rid of this title. Sister Han was too lazy to bother about him. She took a bite of the seafood, and her eyes lit up. "This tastes good!"

"It's delicious, right? See, I was right," Wang Dapao said proudly.

"Why are you taking the credit? Without Little Brother Wang, we wouldn't be able to eat this." Sister Han glared at him from the corner of her eyes.

"It's the same. I did my part too," Wang Dapao said softly.

Everyone laughed as they watched the couple quarreling as usual.

The Wang family didn't get much. A normal person wouldn't be able to withstand the energy within. But even with the small piece of meat, they savored it happily. They were afraid of finishing it too quickly.

"I'm fortunate to be able to taste lord-level star beast meat at this age," Grandpa Wang said with a smile.

"Grandpa, what are you saying? With me around, I promise that you will get to eat it in the future," Wang Teng replied. "Hahaha, good." Grandpa Wang laughed heartily.

The Wang family looked at Wang Teng and smiled involuntarily.

"Little Brother Wang, have some liquor." Wang Dapao took out a bottle of white liquor and threw it at him. "How can you have seafood without alcohol?"

"Let's drink mine." Wang Teng took out the high-quality wine he received from the dwarves. He poured the white liquor away and filled the bottle with the wine. Then, he tossed it back to Wang Dapao. Wang Dapao caught it and took a huge gulp. He gave a satisfied burp. His eyes were shining as he sighed and said, "Good wine! Why didn't you take it out earlier?"

Wang Teng couldn't be bothered with him.

Ye Jixin's nose moved. He seemed to have smelled the fragrance of the wine, and a smile formed on his lips. "Pour me some."

Dan Taixuan glanced at Wang Teng. She didn't say anything, but she signaled with her eyes.

Wang Teng acted instantly. He distributed some wine for everyone. It wasn't much since there wasn't much wine left. He needed to save

it.

The next time he visited Xingwu Continent, he felt that he should visit the dwarves again. His stock was running low.

“You’re having a comfortable time here eating good food.”

Governor Jiang and General Chen from the Donghai military walked over from afar. They had been working the entire day and were famished. They started eating without any invitation.

Then, Peng Yuanshan, Tong Hu, Fu Tiandao, and other general-stage martial warriors rushed over. No one could resist the temptation of delicious food!

As more people gathered, with the accompaniment of good food and wine, the atmosphere turned lively.

Wang Teng didn’t plan to keep the food to himself. He asked the soldiers beside him to distribute the seafood. There was enough for everyone to eat.

Governor Jiang ordered the Force chefs of Donghai to cook some edible seafood and distribute it to everyone.

A strong fragrance floated over the entire Donghai. With the help of delicious food, more smiles appeared on everyone’s faces.

Chapter 550 Ultimate Stage Talent!

The night was dark and starry.

The seafood feast had ended, and many people were physically and mentally exhausted. A majority of them were already in deep sleep. However, many of them were frowning. They might not even find peace while dreaming. He just hoped that time could heal all those wounds. Wang Teng gazed at the night sky and sighed.

When he turned and saw everyone in deep sleep, there was an inexplicable calmness in his heart. At least his family and friends didn’t have to go through all of this. At this moment, he finally understood the benefits of being powerful.

It was not only for himself but also for those around him.

“Why are you not asleep?” A soft voice woke him up from his thoughts.

Wang Teng looked at Lin Chuhan, who was lying nearby with Mother Lin, and smiled. “I’ll cultivate for a while more. Go to sleep.” Looking at his face, Lin Chuhan was filled with emotions. Others only saw his unmatched talent, but not how he was still cultivating late at night. It was no wonder that he was so strong at such a young age. That was what he deserved.

If Wang Teng knew what she was thinking, would he be ashamed of himself?

Probably not. He was too thick-skinned!

Lin Chuhan was lost in her thoughts. She felt that his face had a different kind of charm. This guy... was actually good-looking! Ah, such a beautiful misunderstanding! "What's wrong? Is there something on my face?" Wang Teng asked curiously. "It's nothing. You, you should get some sleep." Lin Chuhan blushed slightly and was a little flustered. She wrapped herself in the sleeping bag and hurriedly closed her eyes.

Wang Teng shook his head with a smile and sat with his legs crossed before closing his eyes.

After a while, Lin Chuhan sneaked a glance at Wang Teng. She saw that he had already entered the state of cultivation and was slightly relieved.

Smiling, she closed her eyes. After a while, there was a regular breathing sound escaping from her nose.

Wang Teng focused on his attributes panel. He had gained a lot during the sea beast riot.

First off were the Spirit and Enlightenment attributes. These two attributes had improved by a small amount.

Spirit: 103/3000 (Imperial Realm)

Enlightenment: 125/3000 (Imperial Realm)

After all, the sea beasts were not as spiritually chaotic as the dark apparitions and would not drop as many Spirit attributes. That was why his Spirit attribute did not increase much this time.

It was the same for the Enlightenment. Since the sea beasts didn't seem to be very intelligent, they would naturally drop fewer Enlightenment attributes. The source of these Enlightenment attributes was basically from humans.

Then came Battlefield Awareness. It remained at the 9-star level ever since the battle at Star Maple City, even after increasing by two thousand points.

Battlefield Awareness: 3530/9000 (9-star)

However, at his current level, it was enough to crush ordinary general-stage martial warriors.

Next was the Talent column.

Wang Teng's gaze swept through the board and saw a few changes in the talent attributes.

Among those, the water talent had improved a lot. After all, it was the most common amongst sea beasts. Furthermore, he had killed three lord-level sea beasts and had obtained a huge number of advanced-stage water talent attributes.

Ultimate Stage Water Talent: 560/5000

Without a doubt, the water talent had reached another level, from the advanced stage to the ultimate stage!

Ultimate stage!

Wang Teng could feel his body changing, and his affinity with the water Force had increased multiple times.

He could feel the abundance of water Force in the faraway ocean. It felt as though he could draw out the water Force from its depths and use it as his own.

On top of that, there were also two other talents that had reached the ultimate stage!

Ultimate Stage Lightning Talent: 1050/5000

Ultimate Stage Wind Talent: 305/5000

These two talents attributes were from the Windstorm Giant Ape, a terrifying sea beast with the attributes of water, wind, and lightning

Wang Teng was impressed. It was his first time seeing an ultimate stage talent, but he had managed to obtain three of them from the Windstorm Giant Ape. No wonder it was able to reach such a powerful stage.

Now that he was thinking about it, Wang Teng had a lingering fear.

The rest of his talents had also improved, but not as much as those three.

Wang Teng then looked at the Force column and smiled with satisfaction. The five elements had all reached the 10-star general stage. There was probably no one who could compare to him.

Metal Force: 3200/10000 (10-star)

Wood Force: 2560/10000 (10-star)

Water Force: 7630/10000 (10-star)

Fire Force: 1530/10000 (10-star)

Earth Force: 1710/10000 (10-star)

Among them, the water Force was undoubtedly the attribute that had increased the most. It had reached the 10-star advanced stage and was not far from a breakthrough.

It was mostly because there were too many sea beasts. The amount of water Force they provided was simply staggering.

In fact, many of the water Force attribute bubbles had vanished automatically. Wang Teng didn't have the luxury to collect them at any given time. Otherwise, his water Force might have reached the 11-star low-tier general stage.

It was such a pity!

What a huge waste! Wang Teng shook his head and didn't want to dwell on it. If he thought about it any longer, he might die in regret.

He looked at the other elements and became happy again. This time around, even his ice, wind, and lightning Force had improved a lot.

Ice Force: 320/4000 (6-star)

Wind Force: 1150/4000 (6-star) Lightning Force: 5350/9000 (9-star)

There were quite a few mutated beasts with the ice attribute. Even the deep-sea giant python had the ice attribute. As a result, Wang Teng's ice Force had increased by a huge margin, reaching the 6-star soldier level.

The wind Force was from the Windstorm Giant Ape, and it had increased a lot as well, similarly reaching the 6-star soldier level.

The lightning Force was also from the ape. Although it was at the 9-star soldier level, it had improved by thousands of attribute points.

Well, the Windstorm Giant Ape had really provided him with a whole lot of attributes.

Thanks!

If there was a chance, Wang Teng would still want to kill it. He would definitely gain more.

But the Windstorm Giant Ape was too strong. It might have reached the 13-star lord-level. This time, he had to use the Space Tornado and cheat his way through in order to scare it away and make it retreat.

Besides, there were many human martial warriors at the back, which was one of the reasons why the Windstorm Giant Ape was afraid. Otherwise, if it was Wang Teng alone, the Windstorm Giant Ape would have pushed on till the very end.

Therefore, before he reached the 12-star general stage, Wang Teng would not dare to provoke it. He still wanted to live longer.

Wang Teng turned to the section of scripture and battle techniques.

It was a pity that there weren't any advanced-stage scripture and battle techniques. After all, there were no casualties among the strong ones.

Ahem... that was a good thing!

Wang Teng suppressed the evil thoughts in his heart. He should never have such thoughts...

Suddenly, Wang Teng's eyes stopped. He had noticed a special kind of skill—Deep Sea Breathing! This skill must have come from some kind of sea beast!

Wang Teng was certain. When he saw the skill, the relevant information immediately appeared in his mind. It was a skill that could allow him to breathe in the deep sea. It might not seem like a powerful skill, but it was very useful.

"I can actually use my nostrils and breathe. That's amazing," Wang Teng said to himself with excitement.

General-stage martial warriors could hold their breaths underwater, but there was still a limit. Furthermore, it consumed their Force. It was not as good as deep-sea breathing.

Wang Teng really wanted to try it right away, but he gave up in the end.

In a situation like this, it was best not to walk around. If someone woke up and couldn't find him, they would worry needlessly.

Lastly, it was the blank attributes. They were the ones that Wang Teng picked up the most this time. He had used them on Heart Of Zhongyan, Ancient God's Body, and Space Tornado. As a result, there was not much left.

Fortunately, these three skills were powerful, and the blank attributes were not wasted.

Blank Attribute: 4600

At this point, he had 4600 blank attributes remaining. It seemed like a lot, but as he got stronger, these blank attributes were naturally not enough for him.

He needed to employ limited resources where they were needed most!

Wang Teng decided to stay put for the time being. He would consider how to use them once he picked up more blank attributes in the future.

After counting his gains, Wang Teng let out a sigh of relief. Every time there was a huge battle, he would reap huge benefits, and his strength would skyrocket. It was supposed to be something to be happy about, but he felt burdened.

In every battle, death was inevitable!

The attributes he had were all exchanged with the deaths of martial warriors.

Wang Teng shook his head. It wasn't because he was sentimental but because he felt that these attributes were stained with blood. It would be fine if it was only the blood of the dark apparitions and star beasts. However, lots of human blood was also spilled, making the attribute bubbles seem heavy. He suddenly felt that when God gave him this attribute system, he didn't mean well. That was right. That must be it!

He didn't understand it before, but the more he thought about it, the more he felt that way. He felt rage in his heart and pointed his middle finger to the sky.
