

Martial Arts 551

Chapter 551 Wang Family's Decision!

The next day, everyone's emotions got better, and the exhaustion on their bodies subsided a little.

Early in the morning, sunlight scattered on the earth. A thin mist floated above the ruins of Donghai.

Many people were already getting busy.

Governor Jiang and the higher authorities of Donghai had woken up at 4 am. They were running everywhere and organizing all the work.

General Chen and the military patrolled around Donghai to maintain order.

This was a fragile moment. It was possible that some people would snap under the pressure and commit illogical acts in this situation.

Yesterday at midnight, the reinforcements from the different cities had arrived. They included medical staff, alchemists, runemasters, and many more. They had already started working.

There were also architects, city planners, designers, railway engineers, and other top talents from various fields sent from all around the country.

It was hard to imagine that these many people had gathered in Donghai in a single night. Besides, more talents would arrive continuously to contribute their effort in rebuilding Donghai.

Wang Teng had noticed the commotion yesterday night, but it had nothing to do with him, so he cultivated in peace. He disregarded what was happening around him.

The people around him started waking up one by one.

The first thing Lin Chuhan did when she opened her eyes was to look at Wang Teng. He was sitting on a huge rock and breathing in the Force from heaven and earth as he cultivated. Thick Force had formed a faint mist around his body, making the morning glow look holy.

The other members of the Wang family woke up. Soon, they also noticed Wang Teng. They were astounded.

Was this the cultivation of a martial warrior?

Amazing!

They had a sudden thought. From the looks of it, Wang Teng had been cultivating the entire night.

He was indeed hardworking!

Li Xiumei felt her heart hurting. This was her son, so she couldn't bear to see him suffer.

What if his legs turned numb after sitting the entire night?

On the other hand, Grandpa Wang and Wang Shengguo felt relieved. Even with his achievements, Wang Teng wasn't arrogant and conceited. He continued to cultivate hard. As expected of their child...

At the same time, Wang Teng sensed that everyone was awake. He completed his last round of Force circulation before opening his eyes. A sharp glint shot out of his eyes, but it disappeared instantly.

Everyone was surprised as they evaded his gaze.

Wang Teng's gaze wasn't scary. They just couldn't stare directly at the sharp light leftover from his cultivation.

"Everyone is awake." Wang Teng smiled.

"We've been up for a long time. We were waiting for you," Lin Chuhan said.

Wang Teng was speechless. He didn't sleep the entire night, but he became the last person to wake up. Who could he complain to? In his heart, he grumbled that ladies were hard to interact with...

Then, a tinge of helplessness appeared on his face. Silence meant consent. He agreed with Lin Chuhan silently. He wasn't stupid, so he wouldn't reason with a lady.

After everyone finished their breakfast, Wang Teng and Grandpa Wang gathered together to discuss the future development of the Wang family and their future home.

"What does everyone think? Tell me your thoughts?" Grandpa Wang looked around and asked.

They all glanced at Wang Teng unconsciously.

"I feel that Donghai is very dangerous now, so we should relocate. I can bring my family along. They will definitely listen to the Wang family," Wang Teng's oldest aunt, Zhao Huili, suddenly said. Everyone looked at her with a hint of helplessness on their faces. Zhao Huili had no bad intentions, but her foresight was a little shallow. If things were that simple, they wouldn't need to gather and discuss.

"Shut up. Don't say anything if you don't know anything." Wang Shenghong glared at his wife.

Zhao Huili felt a little wronged. She wanted to refute.

Grandpa Wang opened his mouth at this moment. He waved his hand and said, "It's alright. Huili is just stating our last resort."

"See, Father says I'm right." Zhao Huili got proud in an instant.

"Alright, alright, stop talking," Wang Shenghong said impatiently. "You..." Zhao Huili was furious. She still wanted to offer a retort.

"Mom, let's listen to what Wang Teng has to say," Wang Yanan pulled her hand and said.

Zhao Huili glanced at Wang Teng and turned quiet immediately.

When they were hiding in the underground shelter, she had personally witnessed how powerful Wang Teng was. You could say that in the entire Wang family, the only person she was more fearful and had more respect for than Grandpa Wang was Wang Teng. Wang Teng smiled. "Actually, Aunt is right..."

Zhao Huili puffed up her chest when she heard Wang Teng agreeing with her viewpoint. She snorted at Wang Shenghong. Everyone was shocked. "Little Teng..." Wang Shenghong asked curiously. "Uncle, don't worry. I'm not done yet. Moving away is a good choice, but that's only for other people. I feel that

for the Wang family, staying in Donghai is the wisest option,” Wang Teng said confidently. “Oh, why do you think so?” Grandpa Wang smiled and asked.

“Grandpa, you’re testing me, aren’t you?” Wang Teng laughed. He didn’t probe further and continued, “Y’all are not martial warriors, so you don’t know some insider information...” The family was startled by his words. They glanced at one another.

“Actually, the world isn’t as safe as what everyone thinks, whichever corner you’re at. The star beasts riot is one, but there are other reasons too. These reasons are worse than the star beasts,” Wang Teng said.

“What?!” Everyone was flabbergasted, their faces turning pale. What reason was more terrifying than the sea beasts riot?

“Son, what are they? Can you tell us?” Wang Shengguo asked.

“I can talk about it, but there are many taboos...” Wang Teng hesitated. In the end, he still acted on his own accord and briefly told his family about the dark apparitions.

However, he used voice transmission to transmit his voice into their ears.

The Wang family was appalled when they heard this. Wang Teng didn’t explain in detail, but the tip of the iceberg he revealed was enough to frighten them.

How did the world become so dangerous?

They used to live in a peaceful environment, so these disasters were a bit hard to imagine. “So, staying in Donghai is the best option. My foundation is here. I can protect you to the best of my ability here. If anything happens in Donghai and I’m not around, the higher authorities of Donghai will offer protection to the Wang family immediately. In other countries, we won’t be able to receive similar treatment,” Wang Teng said slowly.

Everyone turned silent.

After some time, Grandpa Wang heaved a long sigh and said, “Little Teng is right. This is what I wanted to say to you. Rather than finding an unfamiliar place and passing our safety to unfamiliar people, we should stay in our homeland and go through thick and thin with it.”

Chapter 552 Major General Wang!

When Grandpa Wang finished speaking, Wang Teng added, “One more thing, the sea beasts have just been chased away. Unless they’re really mad, they wouldn’t dare to attack us again for a long time.”

“That is true. No one can guarantee that the star beasts won’t attack the other cities. After all, the world is not peaceful!” Wang Shengjun exclaimed.

Zhao Huili turned pale after listening to their comments. “Then... let’s stay at Donghai.”

Everyone laughed uncontrollably. The steadfast Wang Shenghong couldn’t help but roll his eyes. He was left speechless by his wife.

Wang Yanan was a little embarrassed and wanted to cover her face. However, that was her mother, and as her daughter, she couldn't just leave her alone.

"I agree with Little Teng's decision to stay in Donghai." Fang Junming spoke up.

Wang Shenghong and Wang Shengjun didn't have any doubts. They were fully convinced by Wang Teng. Whether or not this home would still be around, it all depended on Wang Teng.

Wang Shengguo naturally didn't have anything to say. That was his son. If he didn't support him, no one would.

"All of you don't have to worry so much. After this riot, Donghai will certainly build up its defenses, and it will be safer for everyone. When we rebuild the Wang family in the future, I suggest our families should live in the same place. I'll set up rune defense arrays. It would be impossible for ordinary martial warriors and star beasts to break through. Everyone will be safe." Wang Teng comforted them.

The Wang family heaved a sigh of relief and felt a lot more at ease.

"Since everyone has no objections, it's settled then." Just as Grandpa Wang finished speaking, a group of people came over from a distance.

"Hey, it's them!" Grandpa Wang smiled. "I was just thinking when they would come. Looks like they couldn't wait past the second day."

The others turned their heads and recognized them.

"In a situation like this, every family is overwrought. Besides, they are close to our Wang family. It wouldn't be weird for them to come to us." Wang Shenghong smiled. "There are a few families that are close to our Wang family. If it's possible, let's help them out. As for the other families... Hehe, before our Wang family rose in power, they didn't care about us. We can return the favor now." Grandpa Wang sneered.

Everyone knew it in their hearts. None of the Wang family heads were people you could mess around with.

While they were talking, the people from the other families came closer. "Mister... Wang Teng!" The leaders of the families greeted Wang Teng first, but they all felt weird. Wang Teng was much younger than them. In the past, he was considered as their nephew, but now, no one dared to treat him like a normal junior.

They were not related by blood, and they were not arrogant enough to be a general-stage martial warrior's senior.

"Grandpa Wang!" The leaders then greeted Grandpa Wang

Wang Shengguo, Wang Shenghong, and the rest returned the greeting, paying attention to everything, just like how family leaders would carry themselves.

Wang Teng saw Xu Jie and Bai Wei beside them and smiled in his head. They were trying to use his friends to curry favor!

But he didn't seem to mind and called them out, "Xu Hui, Bai Wei, Yu Hao, and Sister Xu Hui!"

"Brother Teng!" They cried out in embarrassment. After all, they were too young. Their families were making a fuss about their relationship, embarrassing them a little.

"Wang Teng!" Xu Hui was older and nodded at Wang Teng with a hint of restraint.

She was feeling complicated in her heart. When they were young, they had a very good relationship. But why did Wang Teng seem to have no interest in her after meeting at the auction the last time?

She really didn't understand.

And now that Wang Teng's strength had improved, she felt that they were drifting apart from each other. She wanted to find a way to stop that, but he was always gone, and there was nothing she could do about it. Now, there was a trace of sadness in her heart.

Wang Teng didn't know about Xu Hui's complicated thoughts. He looked at the family leaders and stayed silent.

Grandpa Wang got his hint and understood at once. He smiled, "Why are you here when you have family matters to deal with?"

The family leaders exchanged glances with one another and smiled awkwardly.

The leader of the Xu family was Xu Jie's uncle. He was a refined middle-aged man. He glanced at Wang Teng before turning his head and speaking to Grandpa Wang directly, "Mr. Wang, I won't beat around the bush. I do have something to ask from you today."

The moment he finished speaking, a shout was heard from the sky. A figure was floating in mid-air. It was Fu Tiandao. He went straight to the point. "Wang Teng, Governor Jiang and the president are looking for you. Please come with me quickly."

Wang Teng knew what was going on, so he nodded and said, "Everyone, I'll make a move first."

He tapped the floor lightly with his feet and turned into a ray of light, following behind Fu Tiandao.

The leaders of the other families raised their heads and looked at him in envy. This was the trump card of the Wang family!

Wang Teng followed Fu Tiandao to the center of Donghai. Some of the buildings here had a better defense, so they weren't completely destroyed. Governor Jiang, Ye Jixin, and the other important people were having a meeting here.

When Wang Teng walked into the meeting room. Governor Jiang smiled and said, "Everyone, the person you wanted to meet is here."

The people in the meeting room turned their heads and saw a young man walking in. They were astounded.

They had seen Wang Teng on the screen before so they knew that he was an extraordinary young man. He was extremely powerful. However, when they saw the real person, their feelings were different.

At first glance, he seemed like a normal and ordinary young man, but if they looked carefully, they could tell that he was suppressing his aura. His gaze was deep like a dragon hiding in the abyss.

“Major General Wang, nice to meet you!”

These people’s aura wasn’t weak either. They were all powerful people who were in high positions. If not, they wouldn’t be here. Right now, though, they all greeted him politely.

“Major general?!” Wang Teng was stunned when he heard this greeting.

When did he become a major general?

“The military awarded you this title after the Star Maple City war,” Dan Taixuan said calmly as if she had just remembered this matter.

Wang Teng was speechless. Why didn’t they tell him earlier? This was such an important piece of news. He wondered when he would have known about it if the others didn’t mention it.

This was outrageous!

He missed many chances to be arrogant because of this! Damn it!

Wang Teng was filled with bitterness.

The atmosphere turned a little strange.

The others had noticed his abnormality, so their expressions turned a bit weird. As the receiver of the title, he only knew his identity now. This was unheard of.

“Cough, since everyone is present, let’s discuss the defense array for Donghai,” Governor Jiang coughed and said.

Chapter 553 Is My Drawing Ugly?

Everyone got serious when they went back to the main topic. Wang Teng remained quiet after he sat down. He could sense that everyone present was a runemaster. Hence, they must have their own ideas of rune arrays. Since he had just arrived, he shouldn’t interrupt them. As expected, no one asked for his opinion. They started expressing their views directly.

“From what I see, we can create a Three Mountain Giant Array on the three mountains Young Master Wang carried over. No other array is better than this.”

The person who opened his mouth was a 40-year-old runemaster who was slightly scrawny.

Everyone started pondering after hearing his suggestion.

An advanced-stage runemaster said, “Once this array is formed, the three mountains will be like three giant deities guarding the Donghai coastline. It can resist another invasion of sea beasts, and the defense isn’t bad.”

“No, it isn’t appropriate. The scope of the Three Mountain Giant Array is limited. It will only cover the area where the three mountains are. The sea beasts can still go around the three mountains to attack Donghai.

“They didn’t succeed this time because Major General Wang’s actions were too unexpected. Those sea beasts couldn’t come up with a countermeasure in time.” Another runemaster shook his head.

“Based on their intelligence, the sea beasts might not be able to think of a strategy. Hence, I feel that defending the area around the three mountains is enough. We can just send more people to guard the other areas,” the runemaster that spoke before voiced out again.

“There will always be careless omissions if we use humans. Chu Yongnian, you’re too naive. Didn’t you learn any lesson from the sea beasts riot?” Situ Yun refuted without any mercy.

He was the head of the rune faculty in Huanghai Military Academy. Hence, his rune mastery wasn’t low. He was participating in this discussion too.

“Based on your words, it will only be safe if we encase the entire Donghai in a rune array, right? But... Can we do it?” Chu Yongnian snorted.

He paused for a moment. When he noticed everyone keeping quiet, he continued, “A normal array won’t be able to withstand a lord-level sea beast’s attack. Even if we create it, it’s useless. However, we don’t have the ability to create advanced arrays. In that case, why don’t we gather everyone’s strength and form an array that’s able to block lord-level sea beasts’ attacks?”

Everyone was in a dilemma. They had to admit that Chu Yongnian was right. The coastline was the most important defense of Donghai. Protecting that area was equivalent to protecting Donghai.

The problem wasn’t which idea was better. It was whether they had the ability to do it.

They felt helpless, but that was the undeniable truth.

Earth’s foundation in runes was still too weak. They could form an array to cover the entire city since there were a few master-level runemasters here, but the arrays had different levels too. Their understanding of the more advanced arrays was still shallow.

“Why don’t we ask the runemasters from the Xingwu Continent to help?” Someone hesitated before suggesting.

Everyone was shocked. Then, they seriously started considering it. “That’s a good idea. Earth’s relationship with the Xingwu Continent is getting closer. I don’t think they will reject us if we ask them for some help.”

“Who knows? They hide their powerful rune arrays quite well. Only the direct descendants of the runemasters will be able to get these powerful arrays. Other than that, it’s impossible to get them. They won’t show it to us easily.”

“We have helped them so much, but they’re still guarding against us,” someone complained. “Hmph, we’ll do the same too.”

After a round of discussion, no results were obtained.

Wang Teng's expression turned a little weird. These people kept complaining about the difficulty. Well, he did learn some rune knowledge from Gorlin, so...

He felt that it wasn't that difficult.

Could it be that the powerful arrays they were talking about were a different thing?

Also, he would be able to create the rune arrays without any help from Xingwu Continent too. After all, his rune mastery had already reached a certain profound stage. However, if he said it himself, he would be suspected of boasting. They might not believe him at all!

Wang Teng was in deep thought. How could he say it so that his boasting would seem logical?

"You have been discussing it for a long time, but there's no result. In that case, why don't you ask the relevant party? Wang Teng moved the three mountains, so he might have a plan already." Dan Taixuan's impatient voice sounded at this moment.

She thought that the runemasters would be able to achieve some progress, but in the end, no conclusions were formed. She felt speechless. The runemasters were stunned, feeling a little embarrassed. Then, they quickly looked at Wang Teng. Was Dan Taixuan saying that Wang Teng had an idea?

Situ Yun's expression changed slightly. He knew that Wang Teng's rune talent was good, but that was it. Wang Teng hadn't spent much time in school. He would find it unbelievable if he knew that Wang Teng's rune mastery had surpassed him in a blink of an eye.

But he knew that Dan Taixuan wouldn't speak without a reason. It seemed like Wang Teng was hiding something.

The other runemasters didn't know anything about Wang Teng's rune mastery. They didn't even know that he was a runemaster, so they were a little hesitant.

However, someone still asked in the end, "Major General Wang, do you have any ideas?" "Please give me a map of Donghai's surroundings," Wang Teng said to Governor Jiang. He didn't put forward his thoughts immediately.

Governor Jiang was surprised before he ordered someone to get a map and laid it out in front of everyone.

"What is he going to do?" Curious, everyone gathered in front.

Wang Teng drew three huge mountains on the coastline first. Then, he crossed them out and started outlining Donghai.

"Can you see anything?" Wang Teng said with a smile and a confident expression. He threw the pen casually on the table after he finished drawing.

Speechless, they all looked at Wang Teng absent-mindedly.

What was he drawing? Their eyesight was a little bad, so they couldn't tell what it was.

Wang Teng's smile froze when he saw their expressions. He lowered his head and glanced at the map, asking in a soft voice, "Is my drawing ugly?"

"Hmph!"

"Hahaha!"

"Hahaha..."

Everyone laughed awkwardly. If Wang Teng was just a younger generation, they would have reprimanded him furiously. What on earth was he drawing?

Unfortunately, they couldn't.

Wang Teng was too powerful and could kill them with a pinch. They couldn't afford to offend him.

On the other hand, Dan Taixuan didn't have such a concern. She pouted and said, "What the hell is this? Don't you know what your standard is?"

Wang Teng: ...

"Why don't Major General Wang just explain it to us?" Chu Yongnian said.

"Don't you think that this looks like a life-like black tortoise?" Wang Teng took a deep breath and replied helplessly.

Chapter 554 Thank Master Wang For Enlightening Us!

As everyone looked at the drawing on the map, they almost had a breakdown.

You call this life-like?!

They glanced at Wang Teng weirdly. There were many emotions in their gaze.

Where did he get his confidence from?

If they had to describe the drawing, it looked more like a pig's head or an elephant...

"You must have learned abstract art," Dan Taixuan mocked him mercilessly. "Well, it's indeed a little abstract." Ye Jixin touched his chin and nodded. He didn't bother about the discussion before, but he couldn't help himself anymore. He walked over to take a look.

Wang Teng was speechless when he saw them poking fun at his "life-like" drawing blatantly.

"Enough!" He grabbed the map, crushed it into a ball, and threw it into the rubbish bin. He said angrily, "Give me another map!"

Governor Jiang controlled his laughter and asked his man to take out another map. Wang Teng lifted the pen, took a deep breath, and started drawing freely... After some time, a black tortoise appeared on the paper under his confident gaze. Wang Teng looked at the people around him hopefully. Their answer? Suppressed smiles! This was hurtful!

Wang Teng looked at his drawing again, feeling hopeless. "Laugh all you want. I'm not helping with the array anymore. He was furious. He didn't care how abstract his drawing was anymore and leaned back on his chair angrily. The situation was already so bad that making it worse made no real difference.

"Cough, this drawing is not bad." Governor Jiang clenched his fist and placed it in front of his mouth as he coughed. "Why don't you tell us what it represents?"

"I don't want to. I'm not in the mood." Wang Teng pouted.

First, they teased him, and then, they wanted him to give them ideas. How could that happen? Did they think he had no ego?

"Alright, I know you're capable. Tell us quickly," Dan Taixuan glanced at him and said.

Wang Teng wasn't honestly going to keep it from them, so he went along with Dan Taixuan.

"Actually, I wanted to make a joke to liven up the atmosphere. My drawing skills aren't at this level," Wang Teng started spouting nonsense.

Everyone glanced sideways at him. Do you think we'll believe you?

Wang Teng ignored their gazes. Who cared if they believed him or not? He just had to believe himself. He turned serious and continued, "I know an array called the Black Tortoise Sky-Lock Array!"

"Black Tortoise Sky-Lock Array?!" Everyone was stunned. They were filled with curiosity as they had never heard of this array before.

Are you sure you didn't come up with the name to surprise us?

"Major General Wang, this array—" Wang Teng interrupted Chu Yongnian before he could finish his sentence. "I know what you want to ask. However, I don't want to explain anything. All you need to know is that I understand it and can make it. That is enough."

"Really?" Situ Yun glanced at everyone before confirming with Wang Teng.

"Is there a need to lie? My family and friends are in Donghai too. Will I take their lives as a joke?" Wang Teng said.

"Is there anything special regarding this array?" The other runemasters asked. They nodded and agreed with Wang Teng's logic.

"The Black Tortoise Sky-Lock Array is just a normal array. Its defense ability is well-known in the Xingwu Continent, and it's said to be able to guard the sky, so guarding a city is a piece of cake," Wang Teng replied.

"Guard the sky! How arrogant. I wonder if it's truly so powerful?" Chu Yongnian questioned.

He wasn't targeting Wang Teng. He just felt that it was a little exaggerated, so he wasn't sure of its credibility.

"Major General Wang, are you a runemaster too?" someone finally reacted and asked.

“Wang Teng is the disciple of a runemaster in Xingwu Continent. Also, he has reached the master level.” Dan Taixuan noticed their disbelief, so she spoke up.

“Master level!” Everyone looked at Wang Teng in astonishment.

“Master level at such a young age? Principal Dan, are you sure you’re not lying to us?” Chu Yongnian questioned.

“During the Star Maple City war, Wang Teng commanded a group of talented runemasters from the Xingwu Continent and completed a large-sized offensive array. Then, he helped the master-level runemasters to complete another more difficult array. Do you think I will lie to you about this?” Dan Taixuan replied angrily.

“This is... unbelievable!” They all finally believed her. There was no need for her to lie about this. Also, many people had participated in the Star Maple City war, so they could check the facts easily from others. Dan Taixuan wouldn’t be so stupid and lie to them when it was so easy for their lie to be caught. Situ Yun was even more dumbfounded. This fellow was a monster. Not only was he talented in martial arts, but his rune mastery was profound too. It was hard to imagine.

“How confident are you regarding this array?” Chu Yongnian took a deep breath and asked.

“More than 80%,” Wang Teng replied confidently. “80%!” Everyone was thunderstruck once again. This probability was a little too high.

Mind you, this was a large-sized array, and the rune construction was extremely complicated. A 50% confidence was high enough, much less 80%.

“What do you think of this Black Tortoise Sky-Lock Array?” Governor Jiang was appalled too. However, he didn’t understand runes, so he left it to the professionals.

“If Major General Wang is 80% confident and the defense ability of the array is really outstanding, there’s no reason for us to reject the idea,” Chu Yongnian glanced at everyone and said.

“Wang Teng will be in charge of this matter. We’ll start laying the array immediately.” Governor Jiang was decisive, giving his order right away. “Okay.” Wang Teng nodded. Since he was going to stay in Donghai, he wouldn’t let others lead the formation of this defense array. He would only feel at ease if he did it himself.

The other runemasters had no objections either.

Wang Teng didn’t waste any time. He immediately started explaining the structure of the Black Tortoise Sky-Lock Array to everyone.

It would be a waste not to use all this free labor.

This array might be precious, but he didn’t plan to keep it to himself. He wanted to disseminate it. It was a contribution to the human race. After all, he had many similar arrays, and they were all free. Hence, he had no pressure.

If he had spent a huge sum of money to buy them, he wouldn’t be so generous. Wang Teng’s rune mastery was many levels higher than everyone, so they all benefited a lot from his words. The

runemasters were enchanted by his speech. They were confused for one moment and surprised for another. They were like students listening to a teacher.

After some time, Wang Teng felt thirsty, so he stopped and drank some water.

The runemasters were yearning for more, staring at him hopefully. Chu Yongnian suddenly stood up and bowed at Wang Teng. He said with respect, "Thank Master Wang for enlightening us!"

Even his greeting of Wang Teng had changed. He was calling him Major General Wang some time ago because he acknowledged his martial arts ability. Now, he respected his rune mastery. It was indeed profound.

"Thank Master Wang for enlightening us!" The other runemaster reacted in time and stood up, giving him a deep bow.

Chapter 555 Little Yun, Are You Satisfied with Him?

Wang Teng didn't care that they called him master. He was already a master-level runemaster, so he didn't need their acknowledgment. His spirit was at the Imperial Realm, exceeding all the runemasters present. He believed that it wouldn't take too long for him to become the one and only grandmaster-level runemaster on Earth.

Even in the Xingwu Continent, there were only a few grandmaster-level runemasters. This was the accumulation of many years of history. Earth's development was too short, so they couldn't compare with the other side. Once Wang Teng took one step forward, he would become the top runemaster on Earth. After a round of discussion, everyone was finally convinced by Wang Teng. They started deploying the Black Tortoise Sky-Lock Array. The blacksmiths worked on the materials needed for the array and used them to make vessels that could carry runes on them.

The large-sized array would be hosted by Wang Teng, so he took the leading role and started commanding the advanced-stage and master-level runemasters without any hesitation.

In the end, he was the free one. All he did was be an evil supervisor.

Boom!

While everyone was working hard to build the array, explosions were suddenly heard in the distance.

Wang Teng looked into the sky and frowned slightly. "Master Chu, please take a look over there. I've told those people many times, but they must have made a mistake in the rune array again. Their proficiency is so low," Wang Teng said.

"Alright, I'll go immediately!" Chu Yongnian was busy carving a rune, but when he heard Wang Teng's words, he agreed and put down his work. He hurriedly rushed in the direction of the explosion.

Wang Teng looked at his work and nodded silently. Among all the runemasters, Chu Yongnian's enlightenment was the highest. He understood what he was saying instantly and was detailed in his work too. He was indeed much better than the rest.

Talent was extremely important in both martial arts and runes. Hard work could compensate a little, but without talent, the journey would be tiring.

Chu Yongnian had brought two disciples along this time. They stayed beside him to assist him. When they saw a young man ordering their master to do his bidding, they were infuriated.

One of them said, "Master, Wang Teng's martial arts ability might be strong, but your rune mastery must be better than his. Yet, he threw all the tiring work to you and is just resting over there. This is a little outrageous." "That's right, he's also a young man, but he doesn't know how to respect his elders," Chu Yongnian's other disciple echoed.

Chu Yongnian stopped in his tracks. He glanced at them and snorted. "We have all seen his level of rune mastery and are convinced by him. In any field, the best takes the lead. If you're weaker than him, you should accept it humbly and learn.

"What's more, you don't understand the worth of this array. Rune studies have reached this level after many years of development. However, some high-level rune arrays are still kept a secret by the Xingwu Continent. We can't get them at all. However, Wang Teng passed it down to us without any reservation and didn't ask for anything in return. Why are you thinking that he's boasting?" Chu Yongnian glanced at the two disciples. They didn't know what to reply to him, so he continued, "He's the most familiar with this array. If he did it personally, he'd be able to complete it within five days. How much can we learn then? The best way to learn is through a combination of theory and experience. You think he's ordering me around?"

"Rather than having such useless thoughts, why don't you immerse yourself in the array. I'm sure you'll benefit greatly."

His tone sounded a little disappointed. After he finished speaking, he ignored the two youngsters and rushed to the area of the explosion.

Chu Yongnian's disciples turned red and white in embarrassment. At the same time, they were worried that Chu Yongnian would regard them as unpromising. Their futures would be destroyed.

At the same time, a runemaster was sitting on the ground absent-mindedly with a dirty face. There was a deep hole in front of him.

"Old Fang, what's wrong?" Chu Yongnian went straight to the point without wasting any time. "This isn't right. I followed his instructions clearly. Why did it explode?" The runemaster called Old Fang muttered to himself, ignoring Chu Yongnian completely. "Old Fang, Old Fang." Chu Yongnian shook his head helplessly. "Ah, what? Old Chu, aren't you in charge of the center section? Why are you here?" Old Fang regained his senses. He was puzzled. "You caused an explosion. Shouldn't I come to take a look?" Chu Yongnian scolded. "Alright, tell me what happened. I don't have time to waste on you." Old Fang gave a bitter smile and explained his rune-carving process. Chu Yongnian furrowed his brows tightly after hearing him. "Based on what you said, there shouldn't be a problem. Why did it explode?" He leaned over and observed the rune Old Fang had carved. He tried to guess the problem using the remains of the rune. But the rune was damaged and incomplete, so he couldn't see anything.

"Old Fang, did you hide some details because you're embarrassed?" Chu Yongnian asked curiously.

Runemasters were egoistic people. They would rather investigate their mistakes alone than say them out loud and ask for help. This was why Chu Yongnian was suspicious.

“Bullshit, wrong means wrong. What’s there to hide? Why would I do that?” Old Fang was infuriated.

Chu Yongnian smiled in embarrassment. They had known each other for many years, so he knew that Old Fang wasn’t that kind of person.

The two of them could only carve the rune again at the same spot. Half an hour later...

Boom!

Another explosion resounded. This time, Chu Yongnian’s face was injured too, but their strength wasn’t that weak. A small rune explosion wouldn’t hurt them. “So, what do you have to say now?” Old Fang smiled at this plight. He found an avenue to vent his frustration. Look, it’s not my fault. You made a mistake too.

“What’s going on? I honestly don’t understand.” Chu Yongnian touched his head in confusion. He frowned and racked his brain.

Old Fang didn’t laugh at him again. He came over and joined him in studying the problem. Occasionally, he would offer his suggestion. They looked like two researchers.

Chu Yongnian and Old Fang’s disciples could only stay at the side silently. They couldn’t offer any help. After some time, they still couldn’t get it. Old Fang said helplessly, “Why don’t we ask Wang Teng to take a look?”

“Alright, that’s the only option left.” Chu Yongnian gave up struggling and nodded.

“Let’s go together.” Old Fang got up.

“There’s no need to find me. I’ve been waiting for you for a long time.”

A voice came from above their heads. It was Wang Teng. “Master Wang, please take a look. What’s the problem here?” Chu Yongnian asked quickly. He was elated.

Wang Teng floated in mid-air. With a single glance, he noticed their problem. He replied calmly, “Your perception is wrong. These runes shouldn’t be carved from the first to the last. Instead, you should start from the outside and slowly carved inwards to form an enclosed formation. The core runes should be carved last and linked with the rest.”

The two people were enlightened. Their eyes lit up with joy as they shouted, “I see. So that was it.”

“Alright, continue your carving.” Wang Teng left after solving their concern.

The two runemasters were full of compliments. “Master Wang’s rune mastery is much higher than ours.”

“This is probably a rune construction method from the Xingwu Continent. We have never seen this on Earth,” Old Fang said. “This rune construction method is their core. There’s nothing wrong in admitting it; if we were to do the research ourselves, we wouldn’t be able to realize it for many years. Rune studies are too profound and complicated,” Chu Yongnian said.

Old Fang nodded in agreement.

Their disciples stared at them with their mouths agape before glancing in the direction where Wang Teng had left. They had to admit that even though their age was around the same, they couldn't hold a candle to him.

Wang Teng seemed free, and he really was. Other people had similar problems like Chu Yongnian. These were all secrets of the Xingwu Continent. They had never encountered them before, so they were confused.

Wang Teng's job was to solve their problems and enlighten them. These people were the best batch of runemasters. Their understanding of rune studies was no weaker than others, so they could grasp what Wang Teng was trying to say immediately. He didn't need to waste too much saliva.

As time passed, the Black Tortoise Sky-Lock Array was almost completed. It was at the last stages now. Today, Wang Teng went back to have breakfast with his family before teaching Doudou martial arts on an empty ground.

The little fellow practiced the basic fist skill very well. She even made sounds when she punched out her fists as if this would increase her aura.

But to others, no matter how hard she screamed, her voice and appearance were always cute.

Grandpa Wang and everyone in the Wang family was looking at her with smiles on their faces. They doted on this young girl and didn't discriminate against her just because she didn't have their blood.

This little girl had gradually merged into the Wang family.

The Xu family, the Bai family, and some other families made some cooperating deals with the Wang family. In summary, they would rely on the Wang family for survival, and the Wang family would provide them with some protection Wang Teng had no qualms. He was friends with Xu Jie and Bai Wei, so he would offer them help if they needed it.

Xu Jie, Bai Wei, and Yu Hao came to look for him too. Wang Teng knew what they were thinking. He didn't say much and asked them not to read into it. They should go back and cultivate properly. He wasn't that narrow-minded. He wouldn't object to some of the ways of the world.

Xu Jie and his friends felt relieved when they knew that he wasn't angry. They chatted with one another happily before leaving.

The elders of their families had placed high hopes on them. They hoped that they could have some success on this path of martial arts. Of course, they couldn't be compared with Wang Teng, but they must become a martial warrior and play their part for the family.

They weren't the only ones. The other younger generations of the other families were in the same boat. As long as they had talent, the families would spend all their resources on the youth to learn martial arts. The sea beasts' riot this time had stimulated everyone.

They finally understood that this era would be a martial warriors' era. If they weren't martial warriors, they were nobodies. They couldn't even save themselves.

All the other families were thinking of ways to let their younger generation step on the martial arts path. Unfortunately, they weren't as lucky as the Xu or Bai families. They were the top-tier families in Donghai and had a good relationship with the Wang family. They were ahead of many other elite families.

Many top-tier families knew that Wang Teng was from the Wang family, so they wanted to ride on this big boat. However, they had no avenues.

The Wang family weren't charitable people either. If they didn't know them, they wouldn't meet the families.

The Zhou family was one of the most powerful families in Donghai. At this moment, they were having a family meeting. The higher authorities of the Zhou family and some recognized young people were all present.

The third daughter of the Zhou family, Zhou Baiyun, who was at the gathering on Mount Bao'an, was sitting in the first seat on the right-hand side of the family head. The atmosphere was stern. The Zhou family had suffered many losses in this sea beasts' riot. All their fixed assets were destroyed. Fortunately, they had many businesses in the country, so their foundation was still there.

Even so, the assets of the Zhou family had shrunk by a third. This was a huge blow to them.

The grandfather of the Zhou family was sitting in the host seat. He said with a stern face, "Martial warriors are the root of the martial arts era. Although we have groomed some martial warriors over the years, we were still helpless during this sea beasts' riot. These younger generations are used to living in peace."

Everyone felt awkward. They didn't know what to do either. They had never experienced such a frightening sea beasts' riot before. The purpose of them practicing martial arts was to gain status and special benefits. They weren't going to fight for their lives.

By right, they weren't wrong. In the peaceful era, these family martial warriors wouldn't need to risk their lives. However, no one expected the riot to happen.

The current family head was Zhou Baiyun's father, Zhou Weiqiang. Grandpa Zhou had gone behind the scenes many years ago. Zhou Weiqiang opened his mouth and said, "The martial warriors we groomed have never seen any blood. It's normal that they would get overpowered by the sea beasts." "Hmph, don't seek excuses for your incompetence. If your foresight was far enough, the Zhou family wouldn't be in this awkward situation." Grandpa Zhou snorted.

Zhou Weiqiang: ...

You didn't think about this too, right?

Zhou Weiqiang felt frustrated. He glanced at Grandpa Zhou, but he didn't dare to voice out his thoughts. "Look at the Wang family. They have groomed a top-class martial warrior, a general stage! How many general-stage martial warriors are there in the country or the world? During normal times, we don't see their advantage, but their capabilities were displayed during the sea beasts' riot. The Wang family is going to rise above all," Grandpa Zhou said in envy.

The Wang family didn't groom him; Wang Teng's talent is just too powerful. That's why he had his achievements. The Wang family is extremely fortunate to give birth to a phoenix in their chicken nest. Zhou Weiqiang complained in his heart, but he didn't speak out.

Grandpa Zhou was in a fit of anger, so he would calm down after venting a bit. If anyone dared to refute, they would be dead. Zhou Weiqiang had realized this over the years. "Grandpa, don't scold Dad. Wang Teng's talent is too high. There's only one Wang Teng in the country-no, the world. The other nations might not have anyone who's able to reach the general stage at his age. The youngest general-stage martial warrior I've heard of is 30 years old. There's no point in comparing," Zhou Baiyun opened her mouth and said. Grandpa Zhou noticed that his favorite granddaughter had spoken, so his expression softened a little. He sighed and nodded. "I understand what you're saying, but the Wang family is in the same city as us. How can I not get jealous? All the elite families in Donghai will be envious when they talk of the Wang family."

He paused for a moment to regain his composure. Then, he suddenly thought of something and asked, "Oh right, Little Yun, I remember that you have had some interaction with Wang Teng before. What do you know about him?"

Before Zhou Baiyun could speak, the young man sitting opposite her said, "Grandpa, Little Yun isn't familiar with him. She invited some peers for a gathering when she came back from overseas and Wang Teng happened to be in the group. That's all." "Oh, is that it?" Grandpa Zhou looked at Zhou Baiyun and asked.

Zhou Baiyun glanced at the young man opposite before replying, "Second Brother is right. We're not close. However, I asked someone to investigate Wang Teng during that gathering, so I know a little about him."

"Tell me," Grandpa Zhou urged.

Zhou Shaohui pouted. Zhou Baiyun nodded and continued, "There was an explosion on Mount Bao'an and the City Protection Bureau was activated. Do you remember that incident?" "Are you saying...?" A glint flashed past Zhou Weiqiang's eyes.

"That's right, I suspect that this matter is related to him," Zhou Baiyun said.

"What's the link? Grandpa is asking you about Wang Teng. You're not answering the question," Zhou Shaohui scoffed. Zhou Baiyun ignored him and said, "From some evidence, I can conclude that there were martial warriors on the mountain, and they had a fight. Wang Teng participated in the fight, so I think he was a martial warrior already at that time." "He hadn't taken his university entrance exam then," Zhou Weiqiang exclaimed. "That's right. His talent is scary," Zhou Baiyun said.

"Isn't that bullshit? How can he become a general-stage martial warrior at such a young age if he didn't have talent?" Zhou Shaohui opened his mouth again. Zhou Baiyun looked at him in disdain. Her second brother was still as stupid as ever.

"Shut up." Grandpa Zhou glared at him. Everyone looked at him as if he was an idiot. Zhou Shaohui felt wronged. He didn't think he had made any mistakes. Why were they looking at him like this?

“Not only does this show that he’s exceptionally talented, but we can also tell that he’s good at concealing his ability and is very thoughtful and detailed. Even the City Protection Bureau couldn’t find proof that he was related to that case. It’s hard for someone like him not to succeed. However, I didn’t expect him to rise so quickly,” Zhou Baiyun exclaimed with a strange look in her eyes. Grandpa Zhou nodded thoughtfully. “One more thing.” Zhou Baiyun opened her mouth once again and attracted everyone’s attention. “There was a gang of robbers who robbed a bank in the past. They got killed by a secretive martial warrior.” “Are you saying that he did that too?” Zhou Shaohui clicked his tongue. “That’s right, it was him.” Zhou Baiyun nodded firmly. “I asked someone to look for information in the police station. Do you know how the robbers died?”

She left them hanging. “How did they die?” Zhou Shaohui frowned and hurried her.

Grandpa Zhou and the others looked at Zhou Baiyun with curiosity in their eyes. “Someone broke their heads with brute force.” Zhou Baiyun’s words startled them.

“Broke their heads!” Gasps were heard in the hall.

“So, he’s a vicious fellow too. Don’t provoke him for no reason,” Zhou Baiyun said. She specially looked at Zhou Shaohui with a smile.

Zhou Shaohui shrunk his neck and replied hurriedly, “Why are you looking at me? He’s a general-stage martial warrior. I still want to live. I’m not that stupid to offend him.”

“This is unbelievable. How old was he? 17? I’m convinced. Without his temperament, he wouldn’t have walked this far.” Grandpa Zhou shook his head in astonishment. A sharp glint flashed in his eyes, and he said with a smile, “Little Yun, are you satisfied with him?” “Huh?” Zhou Baiyun was shocked.

Chapter 556 The Biggest Landlord In Donghai...

“Satisfied?”

“Satisfied of what?”

Zhou Baiyun was stunned. It was a little hard to answer the question Grandpa Zhou had thrown at her abruptly.

However, she was a smart person, so she knew what he meant. It was a lie to say that she wasn’t satisfied with Wang Teng.

This fellow had so many achievements at such a young age. Even more, he was handsome and dashing. Any lady would have thoughts about him. But Zhou Baiyun never thought of using her marriage to strengthen her family.

Her aim was the family head’s position. She wanted to command the Zhou family and lead them to a brighter future. This was her original plan.

Yes, original!

Now, she had seen a bigger world. The Zhou family in the past would be constricted in this small and narrow land no matter how smart she was. They couldn’t come out of this well.

Hence, when Grandpa Zhou asked that question, she was moved.

Wang Teng could bring her into a bigger world.

The other members of the Zhou family understood Grandpa Zhou's intention too. They were caught a bit unawares. At the same time, some young ladies in the family started to have other thoughts.

Their status would soar instantly if they married into the Wang family.

But after glancing at Zhou Baiyun, they lost their confidence. The other young ladies in the family weren't as smart as her. Not only that, she was more beautiful than them too. It would be tough to fight with her.

Zhou Baiyun was undeniably the most outstanding younger generation in the Zhou family. Even her two elder brothers who were fighting with her for the family head position were weaker than her.

If she were a man, her elder brothers wouldn't even have a chance.

Still, some people wanted to try their luck. Everyone had different preferences. What if Wang Teng didn't like ladies like Zhou Baiyun? They still had a chance.

Once they hooked onto Wang Teng, they would surpass the family head's line. It felt good just thinking about it.

All of them belonged to the Zhou family, but everyone had their little thoughts. Who had never thought of making a counterattack?

Zhou Weiqiang's eyes lit up. He felt that his daughter had a good chance of succeeding. How amazing it would be to be the father-in-law of a general-stage martial warrior!

He glanced at Zhou Baiyun and kept winking at her. Daughter, go!

Zhou Shaohui and Zhou Baiyun's eldest brother, Zhou Shaoan, who had remained quiet all this while, frowned. If she really married Wang Teng and gained such powerful backing, they wouldn't have any chances of being the family head.

Wait!

They weren't stupid. After some thought, they understood how things would work out.

If Zhou Baiyun married Wang Teng, she wouldn't care about this small Zhou family anymore. Hence, the family head's position would definitely be theirs. Also, she was still part of the Zhou family, so they would gain many benefits because of her.

Zhou Shaohui smiled. "Younger sister, you should consider this carefully. Wang Teng is already a general-stage martial warrior at his age and has a good relationship with the other formidable warriors like Governor Jiang and the president of Jixin Martial House. Ordinary people can't see them at all, much less know them. His connections are amazing and full of potential."

"Second Brother, you seem eager to see me getting married," Zhou Baiyun glanced at him and said calmly.

“I’m just thinking about your happiness in life. It’s hard to find another young, handsome, and talented youth like Wang Teng in the country. You will regret it if you don’t grasp the chance,” Zhou Shaohui shrugged and said.

“Shaohui is right. Younger sister, you won’t find another Wang Teng if you give up this chance,” Zhou Shaoan smiled and said. “Alright, let Little Yun consider this matter herself. No one will interfere in this. If not, I won’t show you mercy,” Grandpa Zhou waved his hands and said.

Everyone rolled their eyes. Aren’t you the one who brought it up in the first place? Why are you blaming us for talking too much now?

But they didn’t say anything in the end. They looked at Zhou Baiyun and wondered how she would decide.

Zhou Baiyun hesitated for a moment. Her gaze flickered before she took a deep breath and shook her head. “He... has a girlfriend.”

“A girlfriend!” Grandpa Zhou frowned. “Do you know who she is?”

“His high school friend. I heard that their relationship is very good.” Zhou Baiyun had indeed investigated Wang Teng before. She knew him clearly.

She had also investigated Lin Chuhan’s background, so she told everyone about her.

“He’s a young man who isn’t married, so anything is possible. With your charisma, do you think you will lose to others?” Grandpa Zhou smiled. “What’s more, this lady has no background. We can use some other methods to make her give up. “If you want, do it. The Zhou family will be your strongest shield.”

Zhou Baiyun contemplated for a moment before nodding. She remained quiet.

The Black Tortoise Sky-Lock Array had reached the final stages. Wang Teng and the other runemasters gathered in the center of Donghai to complete the core of the rune array.

The core was the foundation. They would carve the core runes of the Black Tortoise Sky-Lock Array here for it to be the backbone of the array. In the future, they would build a Force tower here to supply endless energy to the array. That way, the defense array would protect the city round the clock.

This was the most crucial step. A small mistake would trigger a chain reaction, and all the efforts they had made over the past few days would go to waste.

Everyone’s expression turned stern.

The core section would be done by Wang Teng personally. The other runemasters had no experience, so they weren’t confident.

Governor Jiang, Dan Taixuan, Ye Jixin, and the other formidable warriors were also present at the scene. They stood around the base and looked at Wang Teng.

Wang Teng circled the base on foot before finally stopping in the middle.

“How is it?” Governor Jiang asked agitatedly.

“No problem. I’ll start carving the final core runes now.”

He disregarded everyone after he finished speaking and took out his rune pen. He started carving on the base.

The other runemasters opened their eyes wide as they looked at his movements. They were afraid of missing a single second.

“What a fast speed!”

Everyone was astounded. Wang Teng didn’t stop at all. The runes appeared smoothly with no mistakes made. They were filled with deep respect for him.

So powerful!

Was this his true ability?

They felt that all the rune knowledge they had learned was useless. Compared to Wang Teng, they had no face to display their knowledge.

All of them were extremely careful when they carved the runes, afraid of making any mistakes. They were like primary school students doing math questions. On the other hand, Wang Teng had already jumped out of the student level and became a teacher. He was at a different stage.

Comparisons were infuriating!

Governor Jiang, Ye Jixin, and the other general-stage martial warriors were outsiders, so they couldn’t understand anything. However, when they saw the other runemasters’ expressions, they knew that Wang Teng’s rune mastery was definitely outstanding. Did this fellow start cultivating when he was in his mother’s womb?

His martial arts were powerful, and his rune mastery was profound. Others had to work hard half their lives or their entire lives to achieve all the things he did in any field. They glanced at one another and were astounded.

At the same time, they decided firmly that they would tighten their relationships with Wang Teng. Their relationships were already not bad. With their foundations, many things would be easier for them.

With his talent, it wouldn’t be easy to pull him over, especially now that he had already matured.

Looks like I need to give him some benefits. Force stones? Weapons? Or dan pills? Hmm... I don’t think he lacks anything! Governor Jiang thought to himself.

This fellow has just snatched a huge fortune from the Darkland. I’m envious that he got this opportunity, but he has the ability too. Others might have died after landing in the Darkland. Not only did he escape alive, but he also stole their treasures. Who else has the balls to do this?

He has those treasures, so he won’t lack resources. What a headache!

Governor Jiang glanced at Wang Teng and revealed a helpless expression uncontrollably. Suddenly, he thought of something, and his eyes lit up. I can focus on the Wang family! He won’t be able to run away once I tie the Wang family here.

se v

He wasn't the only one thinking about this. Ye Jixin had a similar thought too. Wang Teng was a member of Jixin Martial House, so he wouldn't give up this amazing opportunity. He must keep Wang Teng in Jixin. That way, Jixin would have a general-stage martial warrior who was also a master-level runemaster, killing two birds with one stone! It was said that Jixin Martial House was one of the top three martial arts academies, but he wanted to surpass the other two competitors. Who didn't want to be the leader? Wang Teng was getting more and more well-known. Everyone in the country had witnessed his astonishing ability during the sea beasts' riot. A few days later, his name had spread throughout the country, and everyone was treating him like a hero.

If Jixin Martial House could keep him there, there would be many benefits. At least they could confirm that many people who wanted to learn martial arts would rush to Jixin Martial House.

The sea beasts' riot had ignited a martial arts craze. He received a report from his subordinates, telling him that the number of people signing up in his martial arts academy had increased tremendously these few days.

This was a chance!

Dan Taixuan's gaze flickered, her mind similarly filled with many thoughts. Wang Teng's growth gave her a strong sense of danger. It was embarrassing for her disciple to surpass her. She was thinking of leaving her position as the chief commander of the Black Sparrow Troop and having a closed-door cultivation session. If she didn't increase her skills to a satisfying level, she wouldn't appear in front of Wang Teng again. It was too embarrassing!

Time passed. Half an hour later, the entire city vibrated.

Boom!

Everyone was startled.

Wang Teng was floating in mid-air, while the runes on the ground seemed to have turned alive. They shimmered brightly and started wriggling. Then, the light spread from the center of the ground and expanded to its surroundings. An invisible force swept past them, raising a gentle gust of wind. No one detected anything, but in the runemasters' eyes, the runes carved around Donghai were alive.

Almost instantly, an invisible shield rose into the sky and formed an inverted bowl, enclosing Donghai in it.

The Black Tortoise Sky-Lock Array was a success!

With this huge array protecting Donghai, they would be able to resist the attacks of general-stage martial warriors. The citizens of Donghai wouldn't need to be in a constant state of anxiety when they lived here in the future.

Wang Teng looked at his work of art. Erm... it should be everyone's work of art. He heaved a small sigh of relief.

"Wang Teng, you're helping all the citizens of Donghai. Let me represent everyone to thank you." Governor Jiang bowed to Wang Teng with a stern expression.

Wang Teng was a little surprised. As the governor of a city, this bow meant a lot. He said instantly, "Governor Jiang, you're too polite. My family is in Donghai, so this isn't just a public affair. I have my personal reasons too. I can't accept this bow."

"Everyone has their own intentions. It's not easy for you to do this much," Governor Jiang replied.

Wang Teng might be thick-skinned, but even he felt a little shy now.

Was he honestly so great? He didn't even know.

"Master Wang, you're too humble. We have been interacting for a few days, so we know who you are. Although you didn't do much over the past few days, we know you're trying to train us. You have always been paying attention to the array. It's to your credit that we can finish this array so quickly. We know everything you've done for us," Chu Yongnian said.

Wang Teng was stunned. Was he referring to him?

He gave them all the troublesome matters, but they thought he was training them?

These people were really kind! Wang Teng didn't say anything. Since this was a beautiful misunderstanding, he would keep it that way.

He just felt a little embarrassed!

"Cough, I suddenly remember that I have something to attend to. I'll leave now." He coughed awkwardly and flew into the sky. Then, he turned and dashed away.

Everyone glanced at one another and laughed involuntarily. He was still a young man.

The next day, Governor Jiang arrived at the temporary lodging of the Wang family.

"I came because we didn't arrive at a conclusion last time." He went straight to the point when he saw Wang Teng.

Wang Teng was stunned for a second before he reacted and rolled his eyes. "Governor Jiang, if you want me to take out my treasures, you don't have to speak anymore. If I say there isn't, there isn't. How can I give you anything if I don't have it?"

"Don't be impatient. Listen to my conditions first before you make your decision," Governor Jiang said.

Wang Teng glanced at him without replying. But he gave him the chance to continue speaking

"Although the government has allocated us the funds, they aren't enough to rebuild Donghai. Hence, I need your help." Governor Jiang stared into Wang Teng's eyes. "I won't talk about intangible things. We'll speak of tangible ones."

Wang Teng was moved. He remained quiet and waited for the governor to continue.

Sly little fox! Governor Jiang complained in his heart. He wouldn't respond unless he saw the benefits. This personality made him helpless. He had no choice but to continue saying, "How about this? I will give you an equivalent amount of land for whatever money you give me. You will have the right to use these lands. If you're willing, your family can be the greatest real estate developer in Donghai."

“Governor Jiang, you’re trying to fool me. The right to use can’t be given so easily,” Wang Teng shook his head and said.

“After the sea beasts’ riot, everything is destroyed. Many real estate companies have moved out of Donghai, so we have taken the lands back,” Governor Jiang said.

Wang Teng went into deep thought. He touched his chin and said, “In that case, we’ll have to bear a huge risk.”

“There’s always a risk if you want to make money,” Governor Jiang replied. “You will give me an equivalent amount of land no matter how much I give?” Wang Teng confirmed again.

“That’s right. As long as you can give, I will agree,” Governor Jiang said.

“Right to use them forever?” Wang Teng continued.

“Forever!” Governor Jiang raised his eyebrows. This brat was daring. He hesitated before saying, “I can’t make the decision. Also, freehold land is not cheap.”

“I can wait,” Wang Teng said.

“Alright, I will go back and ask before giving you a reply.” Governor Jiang smiled. “I know you’re not being honest. You’re still trying to fool me.”

“Haha!” Wang Teng laughed as he started contemplating. Being the biggest landlord in Donghai seemed like a good idea. In the future, his descendants wouldn’t have to die from hunger even if there were no outstanding figures among them. They could live off rent...

Chapter 557 Dead End Of The Formidable Warrior

After Governor Jiang left, Wang Teng told Grandpa Wang and his father about the offer.

“Governor Jiang said that?” Wang Shengguo asked in disbelief.

“Yes.” Wang Teng nodded. “It looks like the government didn’t give many funds this time. If not, he wouldn’t keep pestering you.” Wang Shengguo frowned.

“Yes, that is understandable. The implications of the sea beasts’ riot are huge. We can foresee the entire nation moving. That will require many human resources and material resources, all of which require a large amount of money to support them. The government won’t be able to take care of everything, so Donghai’s situation will rely heavily on Governor Jiang alone,” Grandpa Wang sat on his chair and spoke slowly as he drank some tea.

“There must be many star cores and star bones in the corpses of the sea beasts. They can get a sum of money by selling these items. I’m already doing my part by not touching them,” Wang Teng said. Grandpa Wang and his father glanced at him with weird expressions. If others had said this, they would believe them. But when Wang Teng said it, they felt that he was a little sly.

The three lord-level sea beasts were the biggest catch of the day. He took them, but he still had the face to say these words? What a bad person.

“Tell me honestly how many treasures did you snatch?” Wang Shengguo asked uncontrollably.

He felt helpless too. Although his son was outstanding, he had many tricks up his sleeve. Why didn't he realize that he was a money lover in the past? He wondered who he took after.

"Not much." Wang Teng sniggered. "How much is not much?" Wang Shengguo rolled his eyes.

"I haven't calculated the exact value, but it should be a few thousand trillion," Wang Teng roughly counted his treasures and replied.

"How much did you say?!" Wang Shengguo widened his eyes in disbelief. He wondered if he had heard wrong.

Grandpa Wang almost pulled his beard, staring at Wang Teng in a daze. The other members of the Wang family around them had the same expression. They looked as though they had seen a ghost. A few thousand trillion!

Seriously?

"I didn't calculate it, so it's approximately... this much." Wang Teng said carefully. He didn't dare to say the number again in case everyone got another fright.

Especially Grandpa Wang. He was getting old. If he ended up in the hospital from the shock, he would be a sinner.

"A few thousand trillions?" Wang Shengguo was unwilling to accept this ambiguous answer, so he asked again.

"About there! About there!" Wang Teng replied.

Everyone knew that he didn't make a mistake since he was still certain of what he said. They looked at one another and saw only astonishment in their eyes.

"This... is too much!" Wang Shengguo took a deep breath and gave a bitter smile. "Let me digest this. My heart isn't able to handle it."

"So, our family is the richest family in the nation?" Grandpa Wang felt as if this was a dream. He was old and experienced and always composed no matter what happened, but he was still shocked out of his wits at this moment.

The top companies in the world were worth a few trillion, but the Wang family had left them in the dust in an instant. How could he not be astounded?

Even if the Leader of martial arts came, he would be dumbfounded too.

"Erm, we might not be the richest family. There are several secret families in the world. They might be living in seclusion, but their assets are worth over a few thousand trillion." Wang Teng shook his head.

He didn't get arrogant. The more powerful he became, the greater his outlook was.

"That's right. This is the martial arts era. There are many things outside our expectations." Grandpa Wang smiled at himself mockingly.

"Are you going to fork out the money?" Wang Shengguo asked.

"I'll definitely give the money. In the past, I've said that we might be helping Governor Jiang solve his problem, but simultaneously, this is our chance. However, we need to see what benefits he can provide us. I want to gain connections with the higher authorities using this chance and create a dan, weapons, and rune vessels industrial chain for the Wang family. We need Governor Jiang's support if we want to do this," Wang Teng said slowly. A sharp glint flashed past his eyes.

"Also, Donghai's geographical location is strategic. It's linked to all the ports in the nation and is the hub of communication of the country. This is a resource distribution center. Without the sea beasts' riot, we wouldn't have been able to get hold of the land here so easily."

Wang Teng paused for a moment and looked at everyone digesting his words. He smiled and continued, "Many families and companies are moving out of Donghai, while some others are still contemplating. They're playing the waiting game. Once this period is over and they grasp the situation, many real business giants will enter Donghai.

"At that time, our advantage will be gone. Why don't we be more decisive now and strike first? The first one to act will have the largest piece of cake."

Everyone finally understood what Wang Teng wanted to do. Astonishment filled up their eyes.

They didn't know that Wang Teng's ambition was this huge. Grandpa Wang and Wang Shenghong were experienced businessmen, so they understood Wang Teng's intention at once.

With Donghai as their base, he wanted to create a business empire that would influence the entire nation!

Wang Shengguo, Wang Shenghong, and many others could foresee the amazing future. They started to get excited.

Grandpa Wang looked at Wang Teng in satisfaction. Although his grandson was a little too outstanding, he was still his grandson. Hence, it was a good thing. He said, "Since you have a plan, do it. The entire family will help you."

Wang Shenghong, Wang Shengguo, Wang Shengjun, and Fang Junming were the backbone of the Wang family. They all felt restless and excited now. They looked at Wang Teng with an intense gaze, hoping that he would agree to Governor Jiang immediately and give them a chance to display their capabilities.

Wang Teng was caught between laughter and tears. All these were just words. It would take a long time if they wanted to execute it. He didn't expect Grandpa Wang to be so excited.

"Don't be impatient. What will come will come. If Governor Jiang wants to get a large sum of funds, I'm the best choice. The other families might be wealthy, but they won't be able to provide so many liquid assets immediately," Wang Teng smiled confidently.

Grandpa Wang nodded. After pondering for a moment, he knew that Wang Teng was speaking the truth. This was quite certain.

After they finished discussing, they planned to leave. At this moment, Dan Taixuan came.

Wang Teng was surprised. "I wonder why she came to look for me now?"

“Don’t make her wait too long,” Grandpa Wang urged.

“Okay.” Wang Teng nodded and left.

Seeing Dan Taixuan, who was standing not far away, Wang Teng greeted her instantly, “Master.”

“Come with me. Someone wants to see you,” Dan Taixuan said after she turned and nodded at him.

“See me? Who?” Wang Teng asked curiously.

“You’ll know once you go.” Dan Taixuan rose into the air.

Wang Teng shook his head and followed her.

The two of them came to Huanghai Military Academy in the blink of an eye. They went straight to the instructor dormitory.

He was extremely familiar with Huanghai Military Academy, but Dan Taixuan brought him to a place he had never been to before.

This was a simple and crude wood house situated in the depth of the instructor dormitory. There were trees all around covering the wooden house. It was secluded and quiet.

“This place is?” Wang Teng looked at Dan Taixuan curiously.

Dan Taixuan didn’t reply to him. She brought him to the door and knocked on it lightly.

“Cough... come in!” After a cough, a familiar voice came out.

“Old Han!” Wang Teng remembered the voice. He finally knew who Dan Taixuan brought him to visit.

Speaking about it, this was a boss-level character. He held back the Windstorm Giant Ape alone during the sea beasts’ riot. He might have lost in the end, but he was injured, to begin with. If he wasn’t, he might have won.

Wang Teng listened to his coughing and frowned uncontrollably. This old man’s injury seemed quite serious!

Dan Taixuan pushed the door and enter.

Wang Teng entered the wooden house after her. The interior was a little dim. He scanned the surroundings and felt a little dumbfounded.

This house was too simple and crude. Besides some simple furniture and appliances, there was nothing. It was hard to believe that a formidable warrior lived here.

Wang Teng didn’t place much attention on the decor. His gaze quickly landed on the old man lying on the bed in the corner. He squinted when he noticed the old man’s state.

It had only been a few days, but there was a great change in his appearance. His hair had turned white, and his face was full of wrinkles. Moreover, his body had gotten thinner, with his back bending lower. Using his Spiritual Sight, Wang Teng could see an extremely thick death aura around him.

“How did he become like this?” Wang Teng was shocked.

Even he couldn't accept it when he saw a formidable warrior deteriorating to a normal old man.

"You're here," Id Han said in a hoarse voice. His muddy eyes lit up a little.

Dan Taixuan and Wang Teng remained quiet. They walked closer and silently stared at the old man on the bed. They didn't know what to say.

"Accept the situation. I'm getting old and should have returned to the earth a long time ago. There's nothing I can't accept." Old Han smiled slightly. He seemed to be recalling the past. "30 years ago, I was in the first batch of people to become martial warriors. I was lucky. I stepped on this path when I was 43 years old. Many people looked down on me, but I got all the way here. Haha, to think that most of the old fellows are buried in the ground now... "They probably didn't expect me to walk the furthest. They said that I was too old and that talent will decide one's achievements, but I destroyed all these beliefs. My life is worth it!"

Old Han wasn't speaking to the two people in front of him. His gaze had floated away into the depth of his memory. He seemed to be speaking to himself and his peers who had passed away. Wang Teng didn't know that this old man had a legendary life. Times would create a hero. He was the hero of his time, the pioneer of all martial warriors.

Based on his ability, he should be enjoying his old age in peace. He would continue being an ordinary guard of Huanghai Military Academy and watch the students grow. Then, he would slowly finish the last of his journey.

He shouldn't be lying on the bed and waiting to die while reminiscing the past.

But when Donghai was in a crisis, he still stood out without fear. Even though he knew that he wouldn't be able to suppress his old injuries anymore if he acted, even though he knew that he would end up in this state, he didn't hesitate.

Wang Teng respected him. However, he could detect a hint of regret in Old Han's voice. He said that his life was worth it, but he had paid a huge price to reach this stage only to stop here. Anyone would feel regret.

Wang Teng didn't want this old man to die like this. He didn't say anything and sat down beside the bed. Stretching out his hand, he placed his fingers on Old Han's wrist.

Dan Taixuan and Old Han were slightly stunned.

"Don't waste your effort. Many doctors and alchemists have come to take a look. My time is here. There's nothing you can do," Old Han shook his head and said with a calm smile.

His voice was composed as if he wasn't talking about himself.

"No harm taking a look," Wang Teng replied ambiguously.

He pushed his spiritual power into Old Han's body and inspected his condition slowly.

Old Han didn't stop him. He didn't have the power to stop him anyway. He was really at the end of his life.

After giving him a checkup, Wang Teng locked his brows in a tight frown. Old Han was like a candle flickering in the wind, old and ailing. All the old injuries accumulated in his body had relapsed at once. His body was like a sieve, full of holes.

Old Han saw his expression and smiled once again. "You don't have to feel sad. Many master alchemists looked at my body and couldn't do anything about it, much less you. Cough..."

Before he could finish, he started coughing violently. Blood dripped down the edge of his lips.

"Don't speak. I haven't even opened my mouth. Why are you so impatient?" Wang Teng replied in frustration. He didn't care about being polite.

"Wang Teng!" Dan Taixuan scolded him when she noticed how rude he was.

"It's alright. I like this fellow's personality. This is the personality an unrivaled talent should have." Old Han didn't mind.

Wang Teng rolled his eyes. Who wants you to like me. Why would an old man like you like me? So scary.

He hesitated for a moment before finally saying, "Actually, you might still have some hope."

"What!" Dan Taixuan was astounded. She frowned. "Wang Teng, this isn't a joke. Don't talk nonsense."

"When did you see me spouting nonsense?" Wang Teng looked at her and asked.

Dan Taixuan was stunned. She thought about it and realized that he was telling the truth. This fellow might be a little unreliable at times, but at the crucial moment, he would never disappoint.

Did he really have a way?

"You have a cure?" Old Han asked unconsciously. He was stunned for a moment after hearing Wang Teng's resolute tone.

"I can only help you control your injury for the moment. If you want to heal completely, you'll need some time," Wang Teng nodded and replied.

"Have you learned medicine before?" Old Han hesitated before asking.

"No, I'm a master alchemist." Wang Teng glanced at him and smiled.

"Master alchemist?!"

Dan Taixuan and Old Han were flabbergasted. Wang Teng was an alchemist and a master level at that!

Chapter 558 A Huge Gift!

Master alchemist!

It could be said that it was the highest alchemist rank here on Earth, equivalent to a saint in the medical world. These saints would study medicine for their whole lives before they could gradually attain perfection and be at the pinnacle of the medical world. By then, they would be at least fifty years old.

It was the same for alchemists. Even though the Force had entered Earth for thirty years, only around a dozen master alchemists had emerged, but they were not young. Subsequently, there were no other

alchemists that had reached the ranks of a master. Even the prodigies who were well-known throughout the country could only become advanced-stage alchemists. If they wanted to be a master, they would require much more experience.

A master alchemist was still much inferior to the master alchemists in the Xingwu Continent. It was the same for a runemaster. That was the gap between the two worlds!

And now Wang Teng claimed that he was a master alchemist. Would anyone believe that he was a twenty-year-old master alchemist?

But Dan Taixuan knew that Wang Teng would not be fooling around. He might be cheeky, but he knew his priorities.

All sorts of complicated thoughts were flowing through Dan Taixuan's mind. Wasn't he a runemaster? Why was he now a master alchemist? Who taught him that?

She couldn't help asking, "Did you get an alchemist grandmaster in the Xingwu Continent to teach you?"

"Why would you think that?" Wang Teng gave her a strange look and asked.

"Otherwise, how did you reach the master stage? Don't tell me you learned it on your own." Dan Taixuan didn't believe he was that talented.

"Honestly speaking, I learned it on my own," Wang Teng replied.

Dan Taixuan looked at Wang Teng as if he was teasing her.

Old Han heard their conversation and became anxious. Could these two youngsters consider this old man's feelings?

Was it the time to discuss how Wang Teng became an alchemist master?

His life and death was the most important thing now.

He cleared his throat and asked weakly, "Wang Teng, can you heal internal injuries?"

"Old Han, weren't you reminiscing and preparing to die just now?" Wang Teng was amused.

"What do you young people know? No one would want to die if they had the choice. I haven't lived long enough!" Old Han's pale face became red as he grunted in anger.

Wang Teng laughed out loud. Old Han was an interesting person. He didn't have the attitude of a formidable warrior and was extremely easygoing. Dan Taixuan wanted to laugh too but managed to hold it back. She still had to have some respect for him. After all, Wang Teng and she were different.

Wang Teng also got serious and nodded. "Everything I said is true!"

"Alright, I will hand my life over to you then." Old Han was decisive and didn't question Wang Teng's ability. As long as he had something, he would let Wang Teng try it. He was already in such a condition; he had to make a Hail Mary effort.

Wang Teng looked at his attributes panel with a calm face.

Alchemist: 888/1000 (advanced stage)

Without a doubt, he was just a bit away from reaching the master stage. But he didn't back down and steeled his resolve!

He knew that there was some rare healing medicine that would have great healing effects when paired together. It would be enough to stabilize Old Han's injury.

As for solving Old Han's problem from the roots, that would have to wait till he reached the grandmaster stage. Only then could he cultivate better healing medicine and spiritual dan that could boost his vitality.

Even in the Xingwu Continent, not many people knew about a spiritual dan like that, and it would only be in the hands of a few people. The alchemists on Earth would not have been able to obtain these healing medicine, but he could get them by picking up attribute bubbles.

He would have to wait till he reached the grandmaster stage and head to the Xingwu Continent to 'learn' from the alchemist grandmasters when in fact, he would be 'farming' them. That was why Wang Teng wasn't afraid.

As these thoughts flashed past his mind, he said calmly, "I need some ingredients."

"Say it. I'll get someone to prepare them," Dan Taixuan said with a serious expression. "Purple figwort, silver leaf grass, nine-section worm embryos, black gastrodia..." Wang Teng didn't hold back and listed all the ingredients for the 'Primary Blood Recovery Dan' and 'Purple Jade Spirit Bone Cream.'

One for the internal injuries, while one for the outer. With both of them working together, although there wouldn't be instant results, it would at least be enough to control Old Han's condition.

Dan Taixuan noted them down with a calm expression. She didn't know anything about these herbs, but it didn't matter as she could just get someone else to buy them. Both of them didn't stay any longer and left.

Before leaving, Wang Teng glanced at Old Han's residence and became a little emotional... He really was a hidden master!

Back at the temporary residence of the Wang family, Wang Teng thought about it and planned to find Lin Chuhan.

Lin Chuhan's house was also wrecked by the sea beasts, and they were living in the temporary residences. Furthermore, they were living just beside the Wang family. Li Xiumei really treated Lin Chuhan as her daughter-in-law. She also knew that her family situation wasn't very good and took good care of her.

Many people knew that Wang Teng was from the Wang family, and they were very respectful in trivial matters. Everyone would accommodate the Wang family even without his presence. That was why having Lin Chuhan's family arranged next to the Wang family was just a matter of saying one sentence.

Of course, it was different for other people. For them to get better treatment, they might not even get it even if they went around begging for help.

e

CO

Just as Wang Teng had reached Lin family's place, he saw Lin Chuhan sending off a woman. He showed a surprised face.

Why did she look familiar?

The woman also saw Wang Teng and turned to glance at him. She then left after saying something to Lin Chuhan. Wang Teng couldn't remember who she was. He never cared to remember people who he didn't care too much about.

However, someone he wasn't quite familiar with had suddenly appeared beside Lin Chuhan. He walked up and asked her, "Who was that?"

"A new friend. She helped me a lot," Lin Chuhan explained.

Wang Teng didn't probe further. If she were a guy, he would have cared a lot more.

"Why is a busy man like you here?" Lin Chuhan asked.

"I think I hear some resentment from you." Wang Teng chuckled.

"What resentment? No, not from me." Lin Chuhan rolled her eyes. Her pretty face still had a cold expression as she turned around and walked into the house.

Wang Teng smiled. "Actually, I didn't come here to see you. I came here to see someone's cultivation progress and give some pointers. After all, someone's too weak!"

Lin Chuhan's face immediately turned black.

Too weak?

You're the one who's a monster. You should blame yourself for leaving everyone else in the dust.

She stopped abruptly and turned to glare at Wang Teng. However, in an instant, his face was in front of hers, and his breath puffed directly on her face. The warm air heated her face rapidly, her cheeks turning red.

Lin Chuhan suddenly retreated like a frightened little rabbit. However, she was too hasty and tripped and fell backward.

Such a familiar scene!

In the past, Wang Teng almost made her stumble along the corridor when she was in high school. Wait, she did fall at that time. The same thing was happening again.

This bastard!

These thoughts flashed past Lin Chuhan's mind in an instant. However, she wasn't the helpless young lady anymore. Her movements were faster and more agile. This small accident wasn't a problem at all.

She reacted quickly and tapped her feet on the ground, stabilizing herself.

However, someone was faster than her...

How could Wang Teng give up this great chance? The next instant, he stepped forward and hugged Lin Chuhan's waist. He leaned close to her and smiled. "Why are you so clumsy? Fortunately, you have me, or you would have fallen to the ground.

"Of course, with our relationship, there's no need to thank me."

Lin Chuhan couldn't stand his shamelessness. She pushed him away and glared at him in anger and embarrassment. "Can you be more decent?"

Wang Teng chuckled and stop teasing her. He turned serious and said, "Come, let's go to your room."

"What do you want to do?" Lin Chuhan stared at him vigilantly.

Wang Teng: ...

He swore that he wasn't thinking about anything.

"To guide you in your cultivation," Wang Teng said helplessly. He stepped past her and walked into the room.

Lin Chuhan was a little puzzled, but she still followed him.

Mother Lin greeted him enthusiastically when she saw him. "Wang Teng is here. Have your lunch here. I will make some delicious food for you."

"Okay. It has been a while since I have had your cooking," Wang Teng smiled and said.

The temporary lodging wasn't big, so Lin Chuxia heard the commotion too. She ran out of her room. "Brother Wang Teng." "Chuxia, how's your cultivation recently?" Wang Teng rubbed her black hair and asked.

"I'm already at the 3-star soldier level. I'm stronger than my older sister, haha." Lin Chuxia smiled proudly. "Also, my Gun Kungfu is better than before. I heard my sister's instructor saying that I'm already at the small achievement stage."

"I noticed it from your performance during the war. Your Gun Kungfu is indeed at the small achievement stage." Wang Teng nodded. He smiled and continued, "It looks like your talent is not bad."

"Am I better than my sister?" Lin Chuxia asked happily.

"That's right, you're more powerful than your sister," Wang Teng replied. "Enough with you two. Why are you talking to each other as if I'm not present?" Lin Chuhan was speechless. She didn't mind it when Wang Teng teased her, but even her younger sister had joined him now. Who could bear this frustration?

Mother Lin was happy to see the three of them fooling around with one another. She smiled and said, "You youngsters can chat among yourselves. I'll start cooking."

She walked into the kitchen and left the space to these three kids.

“Let’s go. I’ll talk to you about cultivation. Chuxia, you can come along,” Wang Teng said.

“Alright, I have many questions too.” Lin Chuxia grabbed Wang Teng’s arm happily and pulled him into her room. “Come to my room, come to my room.”

Lin Chuhan didn’t think that Lin Chuxia would be so direct. However, when she saw them entering the room, she could only grit her teeth and follow them.

Wang Teng sat down cross-legged on the ground. The two sisters sat down opposite him. He contemplated for a moment before opening his mouth. “Your situations are different, so I will explain one by one. Chuhan, you’re a wood element martial warrior and cultivate wood Force. What scripture are you learning now?”

“I used my school credits to exchange for a yellow-rank high-class scripture, the Green Spiritual Scripture.” Lin Chuhan didn’t hide it. “Yellow-rank high-class!” Wang Teng was surprised. “A normal student will at most be able to get a yellow-rank middle-class scripture. How did you manage to exchange for a high-class one?”

Lin Chuhan stretched her fair neck and snorted. “I have some talent in alchemy, and my memory is not bad. When I go on missions, I help the instructors from the dan faculty to get some herbs and earn many school credits from this. Those instructors from the dan faculty are rich, so they are more generous.”

“So you got a side hustle.” Wang Teng smiled. At the same time, he was a little surprised. Lin Chuhan was talented in alchemy. This wasn’t something he was expecting.

Having a talent was a good thing. He would see how strong her talent was before deciding how to groom her.

“I’m not stupid. School credits are easier to earn. It’s a benefit given to martial arts students by the country. Once we go out of school, there won’t be another chance like this. I have to grab it,” Lin Chuhan said.

Wang Teng agreed with her entirely. She was right. However, many people didn’t have this enlightenment.

Some students only knew how to cultivate in school and rarely spent time thinking about how to earn more school credits. By the time they remembered that they had to do it, they were at a disadvantage. Compared to the students who were already earning school credits, they needed to work extra hard. Some of them might not even have realized this.

“Yellow-rank high-class is better than most ordinary students, but there are still people practicing dark-level and earth-level scriptures,” Wang Teng said. “You make it sound so easy. Dark-level! Earth-level! I might not be able to accumulate enough school credits to buy those scriptures in my four years in university,” Lin Chuhan replied angrily. “This is what I wanted to tell you.” Wang Teng gave a mysterious smile. He waved his hand and said, “Come closer.” “What?” Lin Chuhan looked at him in frustration.

“Come and you will know,” Wang Teng said.

Lin Chuhan rolled her eyes at him and leaned over.

Wang Teng lifted his forefinger and tapped the middle of her forehead.

“This is?” Lin Chuhan was shocked. “Focus and receive it!” Wang Teng ordered softly.

Lin Chuhan understood and hurriedly followed his instructions. She felt a memory surging into her mind.

After some time, Wang Teng retracted his finger, and Lin Chuhan opened her eyes. “Sky-rank scripture?!” She stared at Wang Teng in bewilderment.

“That’s right, I just passed a sky-rank wood element scripture to you,” Wang Teng replied calmly.

“It’s too valuable!” Lin Chuhan took a deep breath. She never expected Wang Teng to pass her such an invaluable sky-rank scripture.

“It might be valuable to you, but it’s just something I can obtain easily. You don’t have to worry about taking it,” Wang Teng smiled gently and said.

Lin Chuhan didn’t believe him at all.

Was a sky-rank scripture something you could obtain easily? Wang Teng must be boasting again!

But she understood he was saying this to make her feel at ease about taking it.

Suddenly, Lin Chuhan felt a little touched. He gave her such a precious item. Who else would do this?

Her gaze turned extremely gentle as she looked at Wang Teng.

“Cough, don’t look at me like that. It’s scary.” Wang Teng felt his hair standing because of her gaze. Why did she suddenly look at him so gently for no reason?

The gentleness in Lin Chuhan’s eyes disappeared without a trace. She took a deep breath, feeling as if she was ogling at a blind man.

No... she wasn’t ogling.

Wang Teng heaved a sigh of relief when she resumed her cold aura. He nodded and said, “That’s the right way.”

Lin Chuhan rolled her eyes.

“Don’t think too much. Take it as a present. This is my first present to you, so it can’t be too lousy, right?” Wang Teng smiled.

Lin Chuhan gritted her teeth. She didn’t reject him anymore.

“Practice this scripture and raise your ability quickly.” Wang Teng turned serious. “Also, don’t tell others. It will put you in danger. You should understand that wealth can cause disasters.”

Lin Chuhan nodded firmly.

She knew that if others found out she possessed a sky-rank scripture, it would cause her unnecessary troubles.

“Brother Wang Teng, my older sister has a gift, so where’s mine?” Lin Chuxia asked. She refused to be left out.

“Okay, okay, you have one too.” Wang Teng hesitated for a moment and took out an item from his space ring. “This Black Snake Poisonous Ginseng is a rare poison element spiritual herb. After refining, it will help in your cultivation and your poison Force. However, it’s still better to make dans with it. I’ll pass them to you after I make them, okay?”

Lin Chuxia had no objections. She just wanted a present and didn’t care what it was. She nodded happily and said, “Okay!” Then, Wang Teng pointed out the problems in their battle techniques and cultivation.

These two ladies were talented people, so they understood what Wang Teng was saying at once. Not much time was needed to explain the details to them.

“As for your alchemy talent, I think there’s no need to hurry. We’ll take it one step at a time. Once we lay the foundations right, you will have an easy time afterward,” Wang Teng said to Lin Chuhan at the end.

Lin Chuhan nodded. The instructors of the dan faculty said this frequently too. But when Wang Teng said it, she found it a little strange. Wang Teng also taught Lin Chuhan some ways to study alchemy. She was still in the accumulating knowledge stage, so there was nothing much to say.

“Strength is the main thing. We are in troubled times. You need to raise your combat prowess quickly. I can’t be with you all the time,” Wang Teng lamented. “Don’t treat us like kids.” Lin Chuhan glanced at him. “We might not be as outstanding as you, but we’re not bad either.” “Yes, yes, not bad.” Wang Teng smiled. In the afternoon, Mother Lin called them for lunch. Wang Teng left the Lin family afterward.

Chapter 559 That Person Wants To See You

After leaving the Lin family, Wang Teng went back to the Wang family’s base.

Li Xiumei wasn’t angry that he didn’t eat lunch at home. On the other hand, she was elated. He didn’t hide his whereabouts, so she knew that he was at Lin Chuhan’s.

“Son, all the best!” Li Xiumei gave him a meaningful gaze and walked away

Wang Teng shook his head. Since last year, Li Xiumei had been urging him to get married earlier. When he didn’t have a girlfriend, she would rush him to find one. Now that he had one, she might hurry him to get married and have children.

He would just pretend to listen and agree. He didn’t plan to get married so early or become an emotionless child creator.

These adults were atrocious!

Hmph, he would wait until he reached the highest level before having a child.

Wang Teng raised his head and puffed up his chest. He walked into the house and started cultivating

Governor Jiang finally came for him again. Of course, it was regarding the same matter. When they met, the other members of the Wang family were present too.

After serving tea, Wang Teng asked Governor Jiang to have some first. Then, he smiled and said, "Governor Jiang, if you had come a few days later, I might have gone to the Xingwu Continent. How is it? Do you have an answer now?"

Governor Jiang tensed up. He cursed Wang Teng for being too sly. He didn't know if his words were true, but since he needed Wang Teng's help, he couldn't disregard him. If he really ran away, all he could do was cry.

He glanced at Wang Teng and said calmly, "I can represent the higher authorities to accept your freehold criteria."

The other members of the Wang family were elated. If the higher authorities agreed on giving them freehold land, it was equivalent to bestowing it to them. With this foundation, it was hard for the Wang family not to prosper. "But..." Governor Jiang scanned everyone's expression and noticed Wang Teng's calm face. He raised his eyebrows uncontrollably. This fellow was good at keeping his composure. "But what? Governor Jiang, you can be direct. Cooperation is built on trust. There's no point for you to keep beating around the bush to find our bottom line," Wang Teng replied calmly.

Grandpa Wang and the others regained their composure and turned serious. They scolded themselves for getting blinded by this huge surprise. "Based on current city planning for the new Donghai, we will simplify the regional division and segregate the city into nine sections, three sections in the center, three in the inner circle, and three in the outer circle. According to the higher authorities, your family can have a limit of 50 square kilometers of freehold land, but it can't be all in the center. You can only have a total of 10 square kilometers in the center. Of course, this will depend on how much funds you have," Governor Jiang said slowly.

The calm emotions of the Wang family were ignited once again. The entire Donghai was more than 600 square kilometers. In the past, 50 square kilometers was the size of a small administrative district. The higher authorities were so generous! But in the end, it was still up to Wang Teng. Everyone's gaze landed on him. They were stunned.

Wang Teng was still calm. There were no emotions in his eyes.

The Wang family smiled bitterly. Strength decided your horizon. At Wang Teng's level, he wasn't looking at this small Donghai anymore. No wonder he could treat it so calmly.

Governor Jiang noticed this too and was a little shocked. He gave up his thought of trying to play dumb. This fellow wasn't easy to fool. He was afraid that he would come up empty-handed if he continued with his tricks. That wouldn't be worth it.

Wang Teng took a sip of the tea and smiled slowly. "That's not enough. I want 80 square kilometers of land, with 20 in the center region."

The Wang family gasped. They were astounded by Wang Teng's words.

He asked for 30 more square kilometers! Wang Teng was indeed daring. If it was them, they wouldn't dare to do this.

“That’s impossible!” Governor Jiang’s expression changed. He shook his head fervently and said, “This is daylight robbery. It’s already an exception for us to give you freehold land, but you still want to bargain for more!”

“That’s not right. You’re the one asking me to buy. I don’t have to buy anything,” Wang Teng replied calmly. Governor Jiang had nothing to say. He felt extremely frustrated. The one asking for help was always at a disadvantage. He was the governor of a city, yet he couldn’t do anything to this young lad. Who could he complain to? “Alright!” He looked at Wang Teng’s expression and knew that he had to take a step back. He sighed in his heart and continued, “80 is impossible. 65 is the limit with 15 in the city. Nothing more than that.”

“Deal!” Wang Teng’s expression changed, and he stretched out his hand with a smile.

Governor Jiang felt that he got fooled. Was his calm expression fake? Why did he agree so readily? This young fellow was a cunning one. He should have pushed down the numbers more, but it was too late now. He couldn’t take back his words.

“Do you even have enough money?” Governor Jiang retorted, not raising his hand.

“You don’t have to worry about that. Just give me the right to use the land based on how much I have,” Wang Teng said. “Also, we should sign the contract as soon as possible. I’ll let the Wang family be in charge of this in the future.”

Governor Jiang was exasperated. He didn’t want to talk to Wang Teng anymore and took out the contract. The area of freehold land he promised was written on it. He pushed it in front of Wang Teng and said, “Sign it.”

Wang Teng took the contract. After giving it a quick scan, he signed his name without any hesitation.

There were two copies of the contract, one for each party. Governor Jiang kept the one for him and said, “Prepare the money quickly. I’m in a rush to use it.”

Wang Teng nodded. He asked, “Will the government buy gems and Force stones?”

“As many as you have,” Governor Jiang glanced at him and said confidently. “Let’s go. I need to convert what I have into cash. If not, I don’t have the money,” Wang Teng said. “Go where? Do you think Donghai has money to give you now? If you want to get cash, go to other cities. If you need a large sum, I suggest you head to Capital Xia. They can give you everything at once,” Governor Jiang said.

“You’re right. I’ll go to Capital Xia then,” Wang Teng contemplated and replied.

“Take care of this yourself. I just want to see money as soon as possible.” Governor Jiang paused for a moment before adding, “Recently, there’s news that the one from Capital Xia wants to see you. Prepare yourself.”

“The one from Capital Xia wants to see me?!” Wang Teng was dumbstruck. This piece of news was a mega bomb. Even he found it unbelievable. He asked, “Why does he want to see me?”

“How will I know?” Governor Jiang left after throwing this sentence down. The Wang family was shaken as they stared at Wang Teng speechlessly. This piece of news astounded them too.

It wasn't hard to guess what that person was.

Wang Teng had already reached that level. This was unbelievable.

"If that person really calls for you, you have to be vigilant. Don't say the wrong things," Grandpa Wang reminded him with a forced smile.

Wang Teng didn't know what to say.

Did they think that he was that kind of person?

He glanced around him. Everyone had the same expression. He felt that his mature and prudent image had crumbled.

Wang Teng wasn't certain if this piece of news was real, but when Dan Taixuan brought it to him again, he had to believe it.

"Follow me to Capital Xia tomorrow. The leader of martial arts wants to see you," Dan Taixuan said.

"He really wants to see me? Why?" Wang Teng asked.

"I don't know." Dan Taixuan shook her head. "It's not a bad thing. Do you think someone with that position will harm you?"

"You might have caught his attention because of your outstanding performance this time. It's not strange that he wanted to meet you."

Wang Teng nodded. He kept quiet.

"I've brought all the spiritual herbs you need. Let's make the healing medicine for Old Han first." Dan Taixuan changed the topic.

"Okay."

The two of them went straight to the furnace room in Huanghai Military Academy.

The dan faculty was Cui Heng's territory. Hence, when they arrived, he was alerted. "Principal, Wang Teng, why are you here?" Cui Heng hurried up and asked.

"Old Cui, prepare a furnace room. Wang Teng is going to make Old Han's medicine," Dan Taixuan said directly.

Recently, many alchemists had gathered in Donghai to make dans for the martial warriors who got hurt during the sea beasts' riot.

The constructions in Donghai were mostly destroyed, but some of the buildings in martial arts universities were standing because their defensive ability was a bit better.

However, there was a limited number of furnace rooms, and the alchemists from all over the nation were occupying them.

"Didn't everyone who saw Old Han say there's no way to treat him?" Cui Heng was stunned. He exclaimed, "Wait, did you say that Wang Teng is going to make medicine?"

He looked at Wang Teng curiously.

“Wang Teng has already reached the master level,” Dan Taixuan glanced at Wang Teng and said.

“Master level?!” Cui Heng staggered, laughing awkwardly in disbelief. “Principal, are you joking with me?”

“I’m not. He said that he’s at the master level unless he lied to me.” Dan Taixuan gave an unconcerned look.

Wang Teng was speechless, staring at her in frustration.

“Wang Teng, this isn’t a joke. I know that your alchemy talent isn’t bad, but...” Although Cui Heng didn’t say it explicitly, he obviously didn’t believe that Wang Teng was a master alchemist.

This was too hard to believe!

He knew from Situ Yun that Wang Teng’s rune mastery was very high. It had reached the master level. But this made it harder for him to believe that Wang Teng’s alchemy mastery had reached a similar level.

No human could be so talented!

“Head Cui, you have to let me try before you can know,” Wang Teng smiled and said nonchalantly.

“Why don’t you understand?” Cui Heng was agitated.

Wang Teng was famous and young. Many people admired him, but many were jealous too.

In the past, many master alchemists had already seen Old Han’s injury and opined that it couldn’t be cured. If Wang Teng came out and said that he could treat it, he was indirectly saying that they were all useless.

It was alright if he treated Old Han. He could shut people’s mouths with that. However, if he failed, those envious people would use it against him and say that he was too full of himself.

Wang Teng saw through his thoughts and said. “Head Cui, don’t worry. I’m confident.”

“Oh, did you say you’re confident that you can treat Old Han?” A voice was heard suddenly.

Chapter 560 He... Healed Him!

Everyone looked over and saw a group of people walking towards them. Amongst them was an old man who had just left a furnace room and had heard their conversation. His gaze landed on Wang Teng.

“Master Chen,” Cui Heng greeted him. “Young people are always more confident in themselves. Wang Teng has the best of intentions.”

“Intentions are intentions but don’t fool around. Old Han’s situation is not optimistic. A little carelessness will aggravate his injury and might even shorten his remaining lifespan.” Master Chen said, “Besides, we have not given up. We’ve been looking through books and records, trying to find a way to heal him. He is just causing trouble by interfering now!”

Cui Heng looked a little uncomfortable. Chen Ruifan's words were too harsh. Trouble? He didn't even know whether Wang Teng would be able to heal him and decided to throw the baby out with the bathwater while chastising him.

Wang Teng sneered. "Master Chen, you sound as though I can't heal Old Han."

"You're young. Have you memorized the thousands of medicinal herbs? How far is your progress in alchemy? You dare say you can heal Old Han? Didn't your teacher tell you that alchemy requires the utmost caution?" Master Chen frowned and rebuked.

"Since when was alchemy based on age?" Wang Teng looked at him and responded indifferently. "Forget about being a master alchemist, of all the alchemists in the country, not one has managed to reach the advanced stage without ten or twenty years of experience. You sure talk big for someone your age." Master Chen reprimanded him again.

"People like you haven't learned enough, yet you blame others for being too good. I think you have wasted your years of learning alchemy. If you can't heal him, then that's it. What's your motive for coming up with a bunch of excuses and trying to obstruct someone when he says he can do it?" Wang Teng wasn't going to back down either.

It wasn't that he was looking down on the alchemists on Earth. There was nothing to say about the disparity in abilities, but this Master Chen was just flaunting his seniority, acting as though he might be bullied and pushed around if he didn't speak.

"You!" Chen Ruifan was so angry that his face turned green.

A young man standing beside him saw that his teacher was being humiliated and stood up for him after some hesitation. "Wang Teng, I know that your strength has reached the general stage and that no one in the younger generation can match up to you. But alchemy-wise, my teacher has spent many years reaching the master level and is already amongst the best on Earth. He is still considered your senior. You're going too far by insulting him like this."

"Your teacher ran over to scold me for no reason. Is that what a senior should do?" Wang Teng glanced at him and questioned disdainfully.

"There's no need to say more. I do want to see what kind of healing medicine you can come up with." Chen Ruifan's expression was uncomfortable as he scoffed.

"You don't know what you're saying." Wang Teng glanced at him calmly and stopped caring about him anymore. He looked at Cui Heng. "Head Cui, I can use the furnace room, right?"

There was nothing else Cui Heng could say now that things had turned out this way. Sighing, he nodded his head.

Wang Teng then walked straight into the furnace room.

Chen Ruifan and the others didn't leave and started waiting on one side.

Cui Heng approached Dan Taixuan and asked softly, "Principal, is Wang Teng really confident?"

“Do you think he is the kind of person who speaks without thinking?” Dan Taixuan was calm as she glanced at him and responded with a question.

“Well...” Cui Heng understood what Dan Taixuan meant, but he still felt incredible. He couldn’t help but keep looking at the furnace room.

Inside the furnace room, Wang Teng didn’t take that Master Chen to heart. His gaze swept across the room, and he murmured under his breath.

His spiritual power swept across the room, and a few attribute bubbles that were scattered in the furnace room flew towards him.

These attribute bubbles were dropped when Master Chen was making medicine. That was going to help him.

Alchemy*20

After picking up the attribute bubbles in the furnace room, there was a gleam in Wang Teng’s eyes. His spiritual power swept through the surrounding furnace rooms.

Sure enough, a bunch of attribute bubbles passed through the walls and gathered in the furnace room where Wang Teng was at.

Wang Teng smiled widely, the number of attribute bubbles in this wave was not small. It was fortunate that he wasn’t in a hurry to use his blank attributes to increase his alchemy.

As the attribute bubbles merged into his body, many related memories emerged in his mind, increasing his knowledge of alchemy and making up for his experience... His alchemy skills smoothly advanced to the next level.

Alchemist: 360/3000 (Master)

At this moment, his alchemy skills had truly reached the master level.

In just a short while, he had become a master alchemist from an advanced-stage alchemist. If Master Chen knew about it, he would probably vomit blood in anger.

That was also why Wang Teng dared to challenge the master alchemist when he was just an advanced-stage alchemist.

Although he was young, he had a bug on his side!

You can hit me if you're not satisfied!

Sneering, Wang Teng stepped forward, picked the furnace up, and threw it aside. He then took out his Black Meteorite furnace and prepared to make the medicine.

With a thought in his mind, Emerald Glazed Flame erupted, wrapping the black meteorite furnace and raising the temperature inside the furnace room...

He took out the ingredients that Dan Taixuan had prepared, which started floating into the furnace under his spiritual power's control. Some turned into liquid, while others turned into powder...

Outside the furnace room, Cui Heng, Chen Ruifan, and the others suddenly felt a scorching heat from Wang Teng's furnace room. There was a look of surprise on their faces.

"Why is the temperature so high? The material and the runes of the furnace room should be able to withstand the heat." Cui Heng muttered. Suddenly, his body shuddered and he exclaimed. "Is that flame made from the essence of the world?"

Chen Ruifan naturally thought about this possibility, and there was a vivid expression on his face. Did that Wang Teng really get his hands on such a flame?"

At this time, many alchemists walked out of their furnace room and lambasted.

"Damn, what's going on? I was at a critical stage of making dan. Now it's all ruined by the sudden rise in temperature!"

"What? You too?"

"That's right. Me too. What's going on?"

"I don't know!"

"Master Xu, Master Ji!" As the head, Cui Heng naturally had to go up and explain, "Masters, please be patient. This is probably caused by an alchemist in Donghai. I didn't expect him to disturb everyone. Please excuse him!" "Oh, who's able to disturb us when he's making dan?" the two master alchemists asked curiously.

"It's..." Cui Heng wasn't sure how he should introduce Wang Teng. He gave a forced smile and said, "Why don't you wait for him to come out and take a look yourselves?" His words made the two master alchemists even more curious. But they didn't probe further. They decided to wait outside.

“Huh, this temperature doesn’t feel like a normal flame,” Master Xu couldn’t help but say.

“If I’m right, it should be a special flame,” Master Ji touched his beard and said. He wasn’t very young.

Master Xu looked at Chen Ruifan, who was beside him, and asked, “Master Chen, you came out first. Do you know which Donghai master alchemist is making dan inside?”

Chen Ruifan’s face was a little black, and he had a bad feeling in his heart. Hence, when he heard Master Xu’s question, he didn’t give him any good response. “I don’t know.”

Master Xu was confused. He pouted and stopped asking.

In the end, Chen Ruifan was the one who couldn’t control himself and opened his mouth. “The person inside said he can treat Old Han.”

“Oh!” Master Xu and Master Ji were stunned. “Are you sure?”

“He said it. I don’t know.” Chen Ruifan gave a look of disbelief.

“Let’s wait and see,” Master Ji smiled and said in a nonchalant tone.

Time flew. They had been waiting for half an hour. A strange scene appeared outside the furnace room. A group of people was standing outside the closed furnace room as if there was a stunning beauty inside.

“It has ended!” Master Ji suddenly said.

“Oh!” Master Xu was excited. Smiling, he said, “I smell a dan fragrance. It looks like this master had succeeded!”

Wang Teng had made the Primary Blood Recovery Dan and the Purple Jade Spirit Bone Cream in a single try. A satisfied smile appeared at the edge of his lips. He kept his Black Meteorite furnace and opened the door of the furnace room.

The next instant, he was stunned.

Why were there so many people surrounding the room?

What were these people doing? Gathering outside a market?

Master Xu, Master Ji, and many others were dumbfounded. They stared at Wang Teng’s unbelievably young face for a long time as if trying to find some abnormality on it.

They were in disbelief. Could this master be an old fellow who was good at retaining his youthful looks?

They had heard that in the Xingwu Continent, there was a way to maintain one’s youthful appearance. There were even spiritual dans that could renew one’s youth. Did he use such methods?

If there was a chance, they wanted to ask if he was willing to make an exchange. They wanted to get dans to maintain their youths too.

“What are y’all doing?” Wang Teng glanced around him. Seeing Cui Heng, he shot him the question.

“When you were making dan, the temperature went too high and affected everyone,” Cui Heng explained. “Oh, I see. I’m sorry about that. I was being inconsiderate.” Wang Teng understood and cupped his fists at everyone. “It’s alright. We were affected even though we were a distance away so that means our alchemy mastery isn’t good enough. You’re not to be blamed.” Master Ji chuckled.

“That’s right, we are not skilled enough.” Master Xu laughed too. He showed no intention of blaming Wang Teng.

Chen Ruifan pouted. His face was black.

It was inappropriate for the other master alchemists to say anything after hearing Master Xu and Master Ji. They decided to act generous and let it slide. That way, they could still gain the favor of these two masters.

“Wait, why do I find this master a little familiar?” Master Xu suddenly got puzzled.

“Let me introduce him.” Cui Heng secretly laughed. He went forward and said, “This is Master Xu Heyu and Master Ji Xinchui.”

“And this is Wang Teng, a student from my Huanghai Military Academy. But he’s already a general-stage martial warrior.”

“General-stage!” Xu Heyu and Ji Xinchui were shocked. They immediately thought of something and cried in alarm, “You’re that Wang Teng!”

They knew Wang Teng, but they had never seen him in real life, so they didn’t recognize him at first.

“If there’s no other Wang Teng, I should be the one that you’re thinking of,” Wang Teng smiled and replied.

“What a promising young man!” Ji Xinchui sized up Wang Teng and exclaimed.

“May I know what level your alchemy is at?” Xu Heyu asked.

“Master level,” Wang Teng said calmly. He didn’t hide.

Ji Xinchui and Xu Heyu gasped involuntarily.

“I didn’t smell wrong. The dan fragrance just now came from high-class dans. Only master-level alchemists can make high-class dans,” Xu Heyu said.

Cui Heng was stunned too. Wang Teng had indeed reached the master level. How did he practice?

“Hmph.” A cold snort came from the side. Then, a sarcastic voice was heard. “Although he made the dan, we don’t know if it can heal Old Han. It might just look good on the surface without any effects. Don’t make a joke of yourself later.”

Xu Heyu and Ji Xinchui noticed something amiss. This Master Chen had some grudges against this Young Master Wang

They glanced at each other but didn’t say anything. They wanted to watch a good show

Chen Ruifan’s wasn’t popular among them. They wanted to see if Master Wang could shut him up.

Wang Teng didn't care about the dog barking at the side. He said to Dan Taixuan, "Let's find Old Han now."

"You succeeded?" Dan Taixuan asked.

"Yes." Wang Teng nodded.

The two of them headed to Old Han's house. Xu Heyu and Ji Xinshui looked at each other before hurrying after them.

"I want to see how capable you are." Chen Ruifan scoffed and followed them.

"Watch over this place. I'll go and take a look," Cui Heng said to the other alchemists around him before rushing over.

After they left, the alchemists started chatting among themselves.

Deep in the instructor dormitory, in a little wooden house.

Wang Teng and Dan Taixuan knocked on the door and walked in.

"You're here!" Old Han's eyes lit up.

"Your spiritual dan is here." Wang Teng lifted the two jade bottles in his hand and smiled at Old Han.

"Quick, I still want to live. This body is frustrating me," Old Han urged.

Wang Teng smiled and passed him the two jade bottles. "One for internal consumption and one for external usage. Give it a try yourself."

Then, he walked out of the house with Dan Taixuan.

They waited outside for more than an hour before the door opened with a creak. Old Han walked out slowly.

His back was still bent, but the color had returned to his face. He wasn't as weak as before where he looked as if he was on the brink of death.

"Old Han, how do you feel?" Wang Teng smiled and said.

"Hahaha, I can finally catch a breath," Old Han laughed and said.

"He... healed him!" Chen Ruifan muttered to himself. He was dumbstruck.
