Chapter 731 Spiritual Contract And The Spacecraft Core! (1)

As the Spiritual Shield shattered, Wang Teng finally saw the scenery in the depth of Sha Didi's mind.

There was a ball of smoke made from his spirit floating in his consciousness. It kept tossing, turning, and screaming in pain.

This was Sha Didi's spirit!

However, his spirit was being mauled cruelly at this moment, so it was very weak. One couldn't tell that it was at the Imperial Realm.

Unluckily, he met Wang Teng who was also at the Imperial Realm.

Also, Wang Teng didn't just reach the Imperial Realm. His spiritual power was almost at the intermediate level while Sha Didi's seemed to be at the beginner stage. He had probably just set foot into the Imperial Realm.

In addition, Wang Teng possessed the perfected stage Spirit Penetration. Sha Didi had no chance of resisting.

After he succeeded, his gaze landed on the area where the Spiritual Shield had cracked. A few attribute bubbles had dropped there!

That was right. Attribute bubbles!

Wang Teng was stunned. Attribute bubbles could appear in the consciousness?!

They were everywhere!

Let me give a thumbs up to the system!

Wang Teng didn't hesitate and picked up the attribute bubbles.

Spiritual Shield*30

Imperial Realm Spirit*115

When these attribute bubbles merged into Wang Teng's body, he froze for a moment. He knew that there would be Spiritual Shield and Imperial Realm Spirit attribute bubbles, but he didn't expect such a large number.

He received 73 points of Spiritual Shield attributes and 265 points of Imperial Realm Spirit.

As the Spiritual Shield entered his body, the related cultivation method also appeared in his mind. The scenes of cultivation floated into his memory too.

In these images, a Plato being who looked like Sha Didi was cultivating. He controlled his spiritual power and tried many times to assemble it into a shield.

At first, he could only form a shield the size of his palm. It was translucent and broke at a single touch. However, through his perseverance and effort, the shield got stronger and bigger.

Toward the end, the shield reached the size of the one Sha Didi formed when he was fighting with Wang Teng.

This was obviously Sha Didi's cultivation process. This knowledge and understanding had become part of Wang Teng's memory now and turned into his experience and enlightenment.

Wang Teng only had 73 points of Spiritual Shield, so he wouldn't be able to reach Sha Didi's level at once.

Spiritual Shield: 63/100 (well-versed)

However, Wang Teng was satisfied!

He received another spirit skill, and it was the defense skill he lacked. This was a great gain.

Also, he had added 265 points of Imperial Realm Spirit directly to his spirit attribute tally. He didn't need to divide them multiple times like in the past. If it had Spiritual Realm or Emperor Realm, only a fraction of the actual amount would be added to his attribute count.

Spirit: 2027/3000 (Imperial Realm)

Wang Teng looked at his Imperial Realm Spirit on his attributes panel. It had exceeded the 2000 mark. He was overjoyed.

This was a huge rise!

"Who on earth are you?"

"Why? How can you possess such powerful spiritual power?"

Sha Didi's furious voice burst out from the ball of spirit, attracting Wang Teng's attention.

The voice was filled with disbelief. He didn't think that an Earthling would possess a higher spiritual power than him.

"Me? I'm merely an Earthling, just like what you think," Wang Teng said calmly.

As they were speaking, his spiritual power swarmed towards the ball of spirit, closing in on Sha Didi gradually.

"Damn it, don't come over!" Sha Didi's ball of spirit kept retreating. He was afraid of Wang Teng and didn't dare to get too close to him.

Wang Teng didn't get impatient. He seemed calm and composed like a cat hunting a mouse. He felt that Sha Didi wouldn't be able to escape. The rat was trapped in the hole.

He kept his distance to prevent Sha Didi from pouncing on him. After all, he didn't know what other methods this alien had up his sleeves.

"Don't you want to have an exchange with me? What are you afraid of?" Wang Teng stepped closer and said with a smile.

Sha Didi felt like cursing. If he didn't still didn't understand that he was fooled, he would be an idiot.

This Earthling must have realized his intentions right at the start, but he still wasted time enticing him. How bored must he be to do such a useless thing!

Sha Didi almost went crazy. His eyes were filled with bitterness. He felt helpless and weak like a little child who got bullied.

"What do you want?" Sha Didi asked in anger.

"Give me everything you have and I might consider letting you go," Wang Teng said.

"... What a huge appetite you have." Sha Didi was astounded. The demands of this Earthling exceeded his expectation. No wonder he didn't get fooled.

What a sly fellow!

This little creature didn't seem like an Earthling. The other humans he met were ambitious, but there was a limit to it. They took the bait obediently after a few temptations.

Chapter 732 Spiritual Contract And The Spacecraft Core! (2)

Last time, that human felt deeply grateful towards him once he gave him some small benefits. He was so happy that he almost lost himself.

Yet, his methods didn't work on this young man.

This young man wanted to snatch everything from him!

"My appetite has always been good," Wang Teng smiled and replied. At this moment, Sha Didi was forced to the edge of his consciousness. Everyone's consciousness had different sizes. Sha Didi's mind was only this big.

Sha Didi's spirit started shivering. It shrunk to a corner of his consciousness. It stopped beating around the bush and told his intention directly, "Let me go, and I'll tell you how to control the spacecraft."

"Oh!" Wang Teng was stunned. "You want to give me the spacecraft?"

"Yes, if you're willing to let me go, the entire spacecraft will be yours, including everything inside. I will leave Earth and never come back," Sha Didi said hurriedly.

"How can you leave Earth without the spacecraft?" Wang Teng asked curiously.

“You don’t have to worry about that. We have our way of temporarily surviving in outer space. If you let me go, the deal will be fixed.”

“Is that so?” Wang Teng touched his chin and pretended to be in deep thought. After some time, he nodded and said, “I can let you go. Killing you doesn’t give me any benefits. However, you need to tell me how to control the spacecraft first. This is the prerequisite.”

Sha Didi was elated. “I can tell you how to control the spacecraft, but you need to sign a spiritual contract with me to ensure the fairness of this deal.”

“A spiritual contract?” Wang Teng repeated the words in surprise. He felt confused.

This spiritual contract seemed like an interesting item!

Use the spiritual contract to ensure the fairness of the deal?

Could it be that their civilization had grasped some profound rules he didn’t know?

“That’s right, a spiritual contract. Once the people who sign the spiritual contract disobey the rules, they will get punished by the power of the contract. In less serious cases, their souls will get injured, and they will become crippled. In the more serious ones, the souls will get destroyed. They will die instantly.” Wang Teng nodded in deep thought. Suddenly, he asked, “Are you trying to trick me by using the rules of the contract?”

“How is that possible?” Sha Didi was stunned. He said hurriedly, “If you don’t believe me, you can write the rules. I’ll not interfere.”

“Alright, it’s decided then.” Wang Teng pretended to be reluctant as he nodded. Then, he asked, “Where’s the spiritual contract?”

“I have a space item on my wrist. The spiritual contract is kept inside.”

Wang Teng nodded. He moved his thoughts, and his consciousness returned to his body. However, a portion of his spiritual power still remained in Sha Didi’s mind to prevent him from creating any trouble.

With his current condition, it was impossible for him to turn the tides around anyway.

Sha Didi took out an item from his space wristwatch and said, “Open my sleeping cabin and I will send this out.”

“It’s alright. I can take it,” Wang Teng said calmly.

Sha Didi was wondering how he would take the spiritual contract when he felt the weight on his hand disappear. The item was already gone.

“What is this?” Sha Didi was dumbfounded. He didn’t see how Wang Teng did it.

But with his experience, he immediately guessed the method. He was flabbergasted. This young man can control space!

“That’s right. Only space power can do this.”

Wang Teng didn’t care about what Sha Didi thought. His gaze landed on the item in his hand.

This was a rectangular wooden box made from some unknown material. It was thick and sturdy and felt heavy. There were many patterns on the surface too. It looked simple and unpretentious.

"This feels ceremonial," Wang Teng muttered to himself. He used his Eyes of Essence to look at the content inside. After confirming that it was safe, he used his spiritual power to open the box. He didn't use his hands.

"Click!" The wooden box opened as per normal. Nothing amiss happened.

Wang Teng's expression didn't change. He wasn't afraid of death, but it was always good to be careful in front of this unknown alien. If not, he might die without any warning.

There was an ancient scroll made of beast skin in the box. It didn't look special, but with his stronger Origin Of Soul, he felt a special spiritual fluctuation.

There were spiritual fluctuations on the scroll!

Wang Teng was surprised.

His Eyes of Essence was still activated, but he realized that he couldn't see the essence of this scroll.

"Interesting!"

Wang Teng smiled with interest. He added blank attributes to his Eyes of Essence.

He had just received the Eyes of Essence not long ago, so it was still at the beginner stage.

Eyes of Essence: 1/10 (beginner)

If he wanted to rise to another level, he needed 10 points of attributes. However, Wang Teng knew that the Eyes of Essence was the same as the Spiritual Sight. It might look like 10 attribute points, but in reality, more blank attributes were required.

As expected, the blank attributes started decreasing dramatically. At the same time, Wang Teng's eyes started twitching uncontrollably.

He lost 10,000 blank attributes before the Eyes of Essence reached the intermediate stage.

Wang Teng's face turned green.

Damn it, this Eyes of Essence was scarier than the Spiritual Sight. This skill could empty his blank attributes instantly.

He couldn't afford to raise it!

Mind you, he had exerted a lot of time and effort to accumulate 50,000 points of blank attributes. Yet, a fifth of it was used in an instant, and more would be needed in the future. He didn't have the points to raise it anymore!

re

Eyes of Essence: 1/100 (intermediate)

enc

Wang Teng stopped immediately when he saw the Eyes of Essence rising in level. The intermediate stage was enough. If there was a need, he would continue raising its level in the future.

Wang Teng continued looking at the spiritual contract. The Eyes of Essence passed through layers of obstacles and saw the essence of the contract.

That was a ball of strange energy. It seemed like a certain power of contract. Wang Teng remembered the Strength of Ultima he had received from the Ancient God's corpse. This power was even more frightening and profound than the Strength of Ultima.

Wang Teng had never seen this energy before.

"How did you get this spiritual contract?" Wang Teng turned and asked Sha Didi with a strange gaze.

"I bought it. It's very expensive."

"How is it made? Who made it?" Wang Teng asked again.

"It's made by runemasters who have grasped the power of contract. Only they can make this amazing spiritual contract," Sha Didi replied directly.

Wang Teng nodded as he pondered. He stopped asking. He had gotten all the answers he wanted. Sha Didi wasn't a runemaster, so he wouldn't get anything else out of him.

"In that case, let's sign the contract," Wang Teng said. "How do I use this?"

"You can write the transaction rules on the contract. Then, use your Origin Of Soul to sign your name and pass me to sign," Sha Didi explained.

Wang Teng nodded. He followed the instructions and handed the spiritual contract to Sha Didi after completing everything.

Sha Didi looked at the content carefully. He reread it five times to ensure that there were no problems before signing his name.

"It's done, right?" Wang Teng asked. "Yes." Sha Didi nodded. Then, he used voice transmission to tell Wang Teng how to control the universe spacecraft without any hesitation. He also took out an ice blue cube and said, "This is the core of the spacecraft. I've already erased the spiritual marks inside. You just have to carve your spiritual mark here and you can control the spacecraft.

"Can you let me go now?"

Wang Teng used his space talent to take the core. He weighed it on his hand and nodded. "Once I have tested and confirmed that everything is fine, I'll let you go."

Chapter 733 Mick 3957!

Inside the Plato beings' spacecraft.

Wang Teng followed Sha Didi's instructions and arrived at the control room.

The control room was right in the center of the spacecraft. This was an extremely important location. Once the control room was damaged, there would be a breakdown, and the entire spacecraft would be destroyed.

Wang Teng didn't know if there were any faults in the spacecraft. After all, it was attacked when it landed. However, based on Sha Didi's attitude, the problem wasn't huge.

He would be seeking death if he used a useless spacecraft to transact with him.

Very soon, Wang Teng walked through a corridor made of metal and came in front of a silver-white metallic door.

"Is this the place?" Wang Teng recalled Sha Didi's instructions and opened a screen beside the door. He entered the code Sha Didi had told him.

The door slowly opened with a beep.

This wasn't a large room, but it looked like a scene from a science fiction movie. All the devices were turned off, and the control room was dull and silent.

The entire spacecraft was in hibernation. The core cube was needed to activate it.

Wang Teng walked over and smiled.

The pope had the spacecraft for a long time, but he didn't manage to enter the core area. Yet, Wang Teng did it.

He walked to the center of the control room as he thought about this. There was a seat there, the only seat in the control room.

Wang Teng sat down and tilted the seat to the most comfortable angle.

At this moment, the floor in front of the seat vibrated and a dark golden pillar rose up gradually. There was a square hole in the

pillar.

This was where he should place the core cube.

"I hope you didn't lie to me. If not..." Wang Teng took out the core cube and instilled his spiritual power into it.

If he wanted to leave his spiritual mark in the cube, he needed to use his spiritual power.

The process was smooth. Wang Teng successfully left his mark in the cube without any accidents.

Blue lines started glowing on the core cube. The patterns were extremely simple at the start, but they soon spread throughout the entire cube. There were countless lines on it.

Wang Teng's gaze lit up. He could clearly sense the connection between him and the cube. It looked like Sha Didi wasn't lying to him.

He seemed to trust the power of the spiritual contract entirely. If not, he wouldn't have given Wang Teng control of the spacecraft so easily.

Unfortunately... a smirk appeared on the edge of Wang Teng's lips as he thought of something

"I just need to place the cube into the pillar." Wang Teng placed the core cube into the hole in the golden pillar without any hesitation.

Once the core cube was placed into the hole, the blue lights on the cube merged into the golden pillar, and numerous blue lines started to appear on the golden pillar too. The lines covered the entire surface and stretched all the way onto the floor. It was connected to the entire spacecraft.

Wang Teng was curious. The technology used to create this spacecraft was interesting, giving people an impressive feeling.

Suddenly, the entire command room lit up. All the devices entered work mode and woke up from their slumber.

"My dear master, welcome to the Minos III Spacecraft. I'm the intelligent system-Mick 3957!"

A gentle voice sounded in the command room suddenly.

Mick 3957!

Wang Teng didn't like this name. He wanted to complain. Why don't you call yourself 9527!

"Intelligent system!" Wang Teng called.

"Yes, you can call me Mick 3957," the voice was heard again.

"Mick 3957, why is this your name?" Wang Teng asked curiously.

"That's because I'm the 3957th Minos III spacecraft made by the Mark Technology Company," Mick 3957 said.

"Your name is so random!" Wang Teng couldn't help but complain.

Mick 3957: ...

"Don't you have a hologram?" Wang Teng thought of his Queen Phoenix Battlecraft. These two spacecraft couldn't be compared in terms of technology, but the Queen Phoenix Battlecraft had a virtual image for its intelligent system. This was a humane design. Yet, this high-tech spacecraft didn't have it.

"My previous master didn't set a virtual image for me. If you like it, I can show you a sample. I can come out at any moment. It's a piece of cake." Mick 3957's voice was filled with confidence.

Yes, Wang Teng heard confidence in its voice. It looked like the intelligence system was extremely high-tech. It exceeded Wang Teng's expectations.

"Nevermind, it's fine." Wang Teng felt embarrassed to create the virtual image. Its previous master was most likely Sha Didi. If he didn't do it, he wouldn't either.

"Okay."

“3975, what’s the condition of this spacecraft?” Wang Teng finally asked the crucial question.

The instant he threw this question out, a screen appeared in front of Wang Teng, with blue-colored data floating on it.

“My dear master, this spacecraft is 15% damaged. The main Force engine isn’t damaged, but two out of the six auxiliary engines are unfunctional. 30% of the reserve energy is still available...” Mick 3957 started introducing

“Force engine!” Wang Teng started pondering

“Yes, the spacecraft uses a Force compression unit to compress mass reserves of constellation Force into energy to sustain the sailing of the spacecraft,” Mick 3957 said. “Constellation Force!” Wang Teng nodded. He asked, “Can we set sail right now?”

“No problem!” Mick 3957 replied.

“No hurry. We’ll have a chance to try it in the future.” Wang Teng shook his head. “Continue to hibernate.”

“Yes, my dear master.” Mick 3957 obeyed Wang Teng’s order and went silent. The entire command room dimmed.

Wang Teng took out the core cube and closed the command room. He went back to the room where the aliens were sleeping.

“How is it? You should have controlled the spacecraft already, right? Can you let me go now?” Sha Didi asked as soon as he saw Wang Teng coming back.

“Don’t be impatient!” Wang Teng smiled.

“Don’t forget that we have signed the spiritual contract. If you renege, there will be serious consequences,” Sha Didi’s expression changed as he threatened him.

“Ah, that will be so scary!” Wang Teng pretended to be scared, patting his chest. Sha Didi was rendered speechless.

Could you be a little more fake?

He suddenly had a bad feeling.

This fellow didn’t seem scared. Was he honestly not afraid of the power of the spiritual contract?

That was impossible!

Chapter 734 An Astonishing Piece Of News

Sha Didi was stunned by his own thoughts. But the instant this thought appeared, he shook his head and denied it.

No one could disregard the power of the contract, not even formidable martial warriors in the universe. This Earthling wouldn’t be able to do it.

“Are you sure you signed the spiritual contract?” Two items suddenly appeared in Wang Teng’s hands. One was a spiritual contract while the other was an ordinary beast scroll.

Sha Didi’s bad feeling got stronger.

Wang Teng smiled as he opened the two scrolls, placing them in front of Sha Didi. The Spiritual contract was empty. Their previous transaction was written on an ordinary scroll.

“How is this possible!” Sha Didi squinted. His expression changed entirely, and he started screaming in disbelief.

“Nothing is impossible. You got tricked!” Wang Teng gave an evil smile.

He had used Spiritual Illusion while signing the contract. Sha Didi’s spiritual power was injured, so he failed to detect it.

“You’re... despicable!” Sha Didi was indignant. He had no choice but to accept fate. The truth was laid out in front of him. He had to believe it.

However, he didn’t understand how Wang Teng swapped the two scrolls.

“You know why you came to Earth.” Wang Teng sneered.

Sha Didi’s gaze flickered. He admitted that they had evil intentions when they discovered this planet outside of the Olant Federation. Thrilled and exhilarated, they lost their cool.

Before they landed, they realized that this planet was extremely backward. The strongest warrior hadn’t even reached the planetary stage.

They could easily take over this remote and underdeveloped planet even though they were almost the weakest in the universe.

Thus, they let down their guards. This caused an accident when they landed on this planet.

They didn’t realize that there was a space overlap on this planet. They only noticed it when they got closer and their spacecraft got affected by the power of space.

They reacted in time, but all of them got grievously injured by the frightening power of space. A human found them coincidentally and captured them.

Thinking back about it, it was a sorrowful event.

This was a great chance for them to get wealthy. Mind you, in the universe, a planet with life was an important resource. This planet was enough to generate real wealth. If they did it properly, they might obtain part of the operations and earn for the rest of their lives.

The mission of Universe Explorers like them was to find planets. That was why they traveled thousands of miles in space.

Also, this might not be a bad thing for the locals on this planet. They could get advanced technologies and higher martial arts paths. It was better than living in stupidity for the rest of their lives.

Of course, this was their own wishful thinking

Which planet would want to sell itself?

Wang Teng didn't know any of the details, but he could guess from Sha Didi's expression. These aliens had no good intentions.

"What do you want?" Sha Didi snorted.

He knew that he wouldn't be able to escape from Wang Teng. Thus, he stopped hoping. Explorers like them fought their way through the universe. The universe was a mysterious place with countless dangers. None of the explorers were easy to deal with.

Cough, even if he was afraid of death, he wouldn't show it.

"Why don't I suggest an exchange with you?" Wang Teng smiled. "An exchange?" Sha Didi felt exasperated.

He said this to Wang Teng some time ago, but now, their roles were switched. He knew that the other party had his own intentions. But he wouldn't give up easily when there was a chance.

If he didn't have to die, he wouldn't want to.

"What exchange?" Sha Didi asked in frustration.

"It's very simple..." Wang Teng opened his mouth and looked into Sha Didi's serious gaze.

Before he finished his sentence, a crimson glow appeared.

Bewitch!

"Damn it, this move again!" Sha Didi was stunned. His expression changed, but this time, he had no chance of resisting. His mind trembled, and he lost his consciousness.

"Hmph, an exchange? Only an idiot will make a deal with you." Wang Teng smirked. He confirmed that Sha Didi had lost consciousness before questioning him.

Under the Bewitch skill, Sha Didi told him everything he knew. Very soon, Wang Teng dug out all the secrets of these aliens. The more Sha Didi said, the more serious Wang Teng's expression got. He could see a large universe map gradually opening in front of him. The world was vast, and there were numerous complicated races in it. They were also formidable presences that could rule the universe... All these things were a huge stimulation to him.

This was beyond comprehension!

There was a large world outside Earth!

In this universe, there were also powerful martial arts civilizations many times stronger than Earth.

Mind you, if the Xingwu Continent didn't get connected to Earth, it might still be an ordinary planet with no martial arts. Earth was an underdeveloped planet!

Wang Teng took a deep breath after some time. There was a strange glint in his eyes as he muttered to himself.

“The Olant Federation!

“Planetary stage! “Universe Explorers! “Selling planets with life on it!”

All these astonishing pieces of news jumped out of Wang Teng’s mouth. If there were other people present, they would be dumbfounded.

This was too much information. Even Wang Teng was at a loss.

He wanted to report this information to the higher authorities of Country Xia and the world. After all, this was important news for Earth.

But the impact was too huge. He wouldn’t know what to say even if he wanted to.

Wang Teng thought for a moment and gave up on this idea.

Some people might lay their eyes on his spacecraft if he revealed the information. At that time, things would become troublesome.

Although he didn’t plan to hide it, he wanted to wait until he was strong enough. At that time, no one would dare to touch his things.

It wouldn’t take long!

At that moment, Sha Didi woke up and looked at Wang Teng in astonishment. His heart was filled with despair.

This fellow was a devil!

Everything he said was fake. An exchange? He was lying to him again!

Sha Didi recalled what happened and realized that he had been tricked all the way. His bluffing skills were nothing in front of Wang

Teng.

O(T_T)

He felt hopeless.

Wang Teng started self-reflecting when he saw his expression. Was he a little too outrageous?

Even an alien was doubting himself. He couldn’t bear to see him in agony.

Ashamed!

Ashamed!

Wang Teng self-reflected for three seconds before he looked at Sha Didi. “Any last words? If you have nothing to say, I’ll release you from your predicament. You seem to be in pain.”

Sha Didi was astounded.

This was the first time he had heard someone using such a refreshing way to tell him he wanted to kill him.

Damn it, he was inhumane!

Sha Didi wanted to curse, but he didn't dare. He looked at Wang Teng's indifferent gaze and felt a chill run down his spine.

"I don't want to die. Don't kill me. I'm still useful," Sha Didi swallowed his saliva and cried in a hurry.

"Oh?" Wang Teng was surprised. Then, he asked with interest, "I can't think of how you might be useful."

"I know that someone like you won't want to stay on this undeveloped planet for the rest of your life. One day, you will step into the vast universe. I might not be the strongest, but I've been to many places. I can be your guide. It will save you much trouble when you enter the universe in the future," Sha Didi explained quickly.

"You seem quite useful." Wang Teng touched his chin and nodded in agreement.

Sha Didi was elated. He felt that he had managed to save himself. But this still wasn't enough. He struck when the iron was hot and said, "There are many factions in the universe. You are born on an undeveloped planet, so your starting point is behind others. You will definitely meet many obstacles if you don't have someone guiding you. You might even provoke someone you shouldn't. I can help you evade all these."

"You're good at promoting yourself." Wang Teng looked at Sha Didi strangely.

He was prepared to kill him, but this alien had managed to convince him. He had to admit that he made sense.

"Nevermind, I'll spare your life for now. This is my territory, so you won't be able to cause much trouble anyway," Wang Teng said nonchalantly.

He was in control of this spacecraft, and they were in his space fragment. It was impossible for him to escape. Hence, Wang Teng wasn't worried.

In the future, when he got stronger, these Plato beings wouldn't be his match. He wouldn't need to be afraid of them backstabbing him.

Other people wouldn't dare to lower their vigilance in front of an alien even if it was heavily injured. Moreover, this was their first time hearing about the presence of planetary stage formidable warriors. They didn't know if they could beat them.

However, Wang Teng was a bug. He was extremely confident in himself.

Knowing one's limitation was wisdom. He had it.

Sha Didi heaved a sigh of relief when he heard Wang Teng's words. This is too difficult!

He was a planetary stage warrior, but he fell in the hands of an Earthling who hadn't even reached his level. He even had to promote himself and beg him to show mercy.

This was the most arduous moment in his life.

Sha Didi felt that he was probably the most unlucky planetary stage formidable warrior in the universe!

“Oh right, let me take a look at your cultivation scriptures and battle techniques,” Wang Teng suddenly said. “Erm...” Sha Didi was shocked. He hesitated.

“Why? You can’t do it?” Wang Teng’s expression turned cold.

“No, you misunderstood me. I can’t take out these scriptures or battle techniques!” Sha Didi explained hurriedly.

Chapter 735 The Taste Of Freedom

“What do you mean by you can’t take them out?” Wang Teng frowned. “In the federation, all the scriptures and battle techniques above the planetary stage are monopolized. You need to sign a spiritual contract when you buy them. If you reveal it to others, you will die immediately,” Sha Didi said fearfully.

“Why is it the spiritual contract again?” Wang Teng furrowed his brows. He was puzzled. “Don’t lie to me. Based on what you said, there are many races in the Olant Federation and the population must be a few trillion. How can everyone sign the spiritual contract? It doesn’t make sense.”

“No, you don’t understand how scary the federation is. No one can escape unless it’s your personal battle technique or scripture. You can teach other people if it’s yours. However, these scriptures and battle techniques are in the hands of the powerful factions. Nobodies like us don’t have the chance to possess them,” Sha Didi said seriously.

Are planetary stage formidable warriors nobodies? Wang Teng suddenly realized how small he was.

Sha Didi didn’t look like he was lying, but to be safe, he used his Bewitch to confirm his words.

Wang Teng then turned grim. Sha Didi was telling the truth. The Olant Federation had a strong understanding of copyrights!

It wasn’t hard to understand. The Olant Federation used a system similar to the copyright system on Earth. All the martial warriors could only learn scriptures and battle techniques by purchasing them or coming up with their own. Anyone who broke the rules wouldn’t be punished by law. They would die instantly instead.

This was a good and domineering plan.

If he managed to create his own scripture and battle technique in the future, he might be able to earn a large sum of money. It would be a continuous source of income.

This was an opportunity!

But he was in a difficult situation now.

Wang Teng wondered how he could obtain the planetary stage scripture and battle technique from Sha Didi.

Sha Didi had already woken up from the Bewitch skill. His face was pale. Using the Bewitch skill two times on him strained his spiritual power greatly. He wouldn't be able to recover anytime soon.

He looked at Wang Teng in fear. Suddenly, he felt that his future might be miserable. It was bleak.

"Oh right, I must be an idiot!" Wang Teng suddenly clapped his hands, his eyes lighting up like bulbs. He thought of a plan.

He had forgotten about the system.

Although the chance was lower, he would be able to get the scripture and battle technique attribute bubbles from Sha Didi without killing him.

Wang Teng's gaze turned dangerous.

Sha Didi shuddered. He felt a chill running through his body. He had a bad premonition again.

"I will let you out now," Wang Teng suddenly said with a smile.

Silence.

Sha Didi was stunned.

Why did he want to let him out suddenly? What was this?

But he was overjoyed. If he was released, he would have a chance to escape. After all, he was a planetary stage warrior!

He was confident in himself.

"But before you come out, you must start cultivating first," Wang Teng said. Sha Didi was puzzled again. What did letting him out have to do with cultivating?

He couldn't understand this guy. He was confused.

Wang Teng didn't care what he was thinking. He opened the handcuffs and legcuffs that were binding him.

Sha Didi immediately sensed the presence of Force. He felt invigorated. Never mind, coming out is good anyway!

I will teach this Earthling a lesson once I recover!

He made his decision and started sucking the Force outside using his Force skill scripture. At the same time, Wang Teng opened the sleeping cabin. Sha Didi sat up instantly. He wanted to laugh.

It was so difficult!

It was tough!

He had been locked up for such a long time. Finally, he could taste freedom...

Bang!

However, besides the taste of freedom, he also felt a sharp pain in his head.

as

Wang Teng was holding his brick. He was worried that the alien's head was harder, so he used his strongest Strength of Ultima. He did his best for this attack!

Fortunately, the effects were good.

Sha Didi went in a daze after this brick attack. His vision turned black, and his ears were ringing. He was at a loss.

Where am I?

What just happened?

Who am I? Wang Teng's eyes lit up. He saw an attribute bubble falling.

It worked! He started hammering the alien even more violently.

Bang, bang, bang...

Wang Teng started beating him like a drum. Sha Didi's face was badly bruised, and he was in a state of confusion. He didn't know why he had landed in this terrible state.

After some time, Wang Teng finally stopped. He wanted to continue, but this was the limit. Sha Didi couldn't drop any more attribute bubbles.

However, he was already satisfied with the floor of attribute bubbles.

Get it!

Star Wood Scripture*3

Star Wood Scripture*5

Star Wood Scripture*3

Constellation Force (Wood)*10

Constellation Force (Wood)*8

Indeed, it worked!

Sensing the content of the attribute bubbles, Wang Teng was elated.

As these bubbles merged into his body, an outline of a figure appeared in his mind. The figure sat in mid-air as if he was cultivating.

The figure was transparent. When it started cultivating, Wang Teng could clearly see the situation in his body. Spots of light lit up and scattered across his entire body...

At the same time, some profound memory fragments appeared in his mind. It turned into his experience and enlightenment. The process didn't last for long. Wang Teng finished absorbing the knowledge quickly.

He opened his eyes and let out a long breath. A sharp glint flashed across his eyes.

Star Wood Scripture!

This was a planetary stage scripture!

Wang Teng felt emotional. He had finally obtained a planetary stage scripture. It contained the method to convert Force into constellation Force. After receiving this scripture, he understood the parts that baffled him when he was trying to create his own scripture to convert Force. Besides the Star Wood Scripture, he also picked up constellation wood Force attribute bubbles. Unfortunately, Wang Teng stopped Sha Didi the moment he started cultivating, so he only received 35 points of it.

Never mind, he could accumulate them in the future!

Wang Teng shook his head and looked at Sha Didi, who had fallen back into the sleeping cabin. He helped him wear the handcuffs and leg cuffs again before sealing the sleeping cabin.

Sha Didi tried his best to open his swollen eyes. He wanted to cry.

He was locked up the second he smelled the air of freedom. He even got beaten up for no reason.

He felt wronged...

Chapter 736 Planetary Stage Scriptures And Battle Techniques

When Wang Teng came down from the spacecraft, he had two new planetary stage scriptures and one planetary stage battle technique in his hands.

He woke up Sha Didi's companions from their hibernation and had a good interaction with them regarding brick and freedom. None of them understood what the link was between them, but it didn't matter.

Wang Teng treated all the Plato beings gently, including Sha Didi.

Yes, gently!

This word was used correctly.

These Plato beings experienced Wang Teng's tender and loving care before they went back to sleep obediently.

The two scriptures were Star Wood Scripture and Star Fire Scripture. The battle technique was Star Fire Sword Slash.

Wang Teng felt that the names were too perfunctory. He highly suspected that these star scriptures and battle techniques were the most ordinary and lowest level of scriptures and battle techniques. Did this mean that this seven-alien team was poor?

Wang Teng's expression turned strange. He felt that he had discovered their secret.

Shaking his head, he stopped thinking about it. His gaze landed on the two scriptures.

These two felt like a set. Would there be a Star Earth Scripture, a Star Metal Scripture, and a Star Water Scripture?

After grasping the content, Wang Teng realized that the Star Wood Scripture and the Star Fire Scripture had many similarities. He was more certain of his guess.

But he still needed the other three scriptures to confirm his hypothesis.

He decided that he would spend his free time with the other Plato beings in the future and teach them the art of the brick. They possessed all five main elements, but only two scriptures were dropped. They hadn't given him everything!

This was a probability question. He would be able to get the other scriptures after a few more tries. When all else failed, he didn't mind killing one or two for a bigger chance. Wang Teng stepped out of the spacecraft. He scanned his surroundings and saw the metal armor flaming scorpion and Little White standing outside a metal cage. He wondered what they were doing.

He walked over and looked at the star beast in the cage.

"Master!" The metal armor flaming scorpion smiled obediently at Wang Teng when it saw him. Nothing could be seen from his expression, but you could hear the fawning in his tone.

Wang Teng nodded. "How is it? Is there a problem?"

Before this, he found out that the metal armor flaming scorpion was able to converse with Little White, who couldn't speak. After asking it, he learned that the lord-level star beasts could talk to star beasts who couldn't speak.

This black sand magnetic lizard couldn't speak, but Wang Teng wanted to know its background. Hence, he passed this responsibility to the metal armor flaming scorpion. "I got the answer, I got the answer!" The metal armor flaming scorpion nodded fervently. "This beast got tortured badly, so its vigilance is high. It doesn't like speaking to others. I had to spend so much effort to get it to open its mouth."

Wang Teng nodded. It was understandable. The lizard wouldn't have had a great time since it was part of an experiment.

"Where was it caught? Is its talent a species talent or a personal trait?" Wang Teng asked the two questions he was the most curious about.

"It said that it came from the Sahara Desert, and it's the only one with this talent. Its other companions possessed sand talent, a mutated form of the earth element," the metal armor flaming scorpion explained.

"The Sahara desert!" Wang Teng nodded.

The metal armor flaming scorpion was a star beast from the Xingwu Continent, so it didn't recognize the Sahara Desert. However, Wang Teng was from the Earth, so he knew. He would be a frog in the well if he didn't.

After getting the information he wanted, he left the space fragment.

The troops were still cleaning up the base of the Zhenli Clan. Wang Teng didn't have to manage them. Song Wanjiang and the others would take care of it.

The next day, they finished clearing up the base of the Zhenli Clan. The three troops prepared to leave.

In the early morning, the three battlecraft rose into the air and soared into the mountains.

Based on their plan, the majority of the martial warriors would return to their troops, and the remaining would be in charge of escorting the surrendered martial warriors from the Zhenli Clan. These people would follow Wang Teng, Zhou Xuanwu, and Xiao Nanfeng back to Earth and to Capital Xia.

Wang Teng and Zhou Xuanwu returned to Donghai through the dimensional rift in Yong City. They boarded a Force floating airship and headed to Capital Xia.

Capital Xia, military!

The people here had been waiting for a long time. All the military martial warriors were armed with rune guns and standing at attention. They had received the order that the martial warriors from the Zhenli Clan would be arriving on an airship today. They would be locked up in the military cell.

None of them dared to look down on these surrendered martial warriors. These horrendous criminals had been wreaking havoc for a long time, but they always escaped their clutches. They were sly and hard to deal with.

However, the Zhenli Clan was finally annihilated!

They also heard that the martial warriors from three troops were sent out for this mission. General Zhou Xuanwu, Lieutenant General Xiao Nanfeng, and the famous Major General Wang Teng went personally to destroy the Zhenli Clan.

This was an amazing feat.

Many innocent people had been harmed by the Zhenli Clan. To them, these people who exterminated the Zhenli Clan were heroes!

Everyone was over the moon. They could witness the return of their heroes soon!

The three great commanders and the leaders of the military were all present. They waited in anticipation while brimming with joy.

The leaders behind them started discussing.

“I didn’t think that we would succeed!”

“That’s right. The Zhenli Clan has been around for too long. We failed every time, so people started to lose confidence. I didn’t think that they would be exterminated this time!”

“Sigh, what a pity. Wang Teng was sent to head this mission. The three commanders take great care of him.”

“I wonder if they caught the pope of the Zhenli Clan. After years of research, we know that the pope is the core of the clan. If he isn’t caught, the clan might revive one day.”

“Who knows? The pope has always been a crafty old fox. He never reveals himself, so it must be hard to catch him.”

While they were discussing, a Force floating airship appeared on the horizon.

There were many powerful martial warriors present, so they noticed it even though it was far away.

They're here!

Everyone was invigorated and looked in the same direction.

The airship traveled quickly. It appeared above everyone within a few seconds and gradually floated down.

Chapter 737 The Spotlight Of The Banquet

After the Force floating airship landed in the military airport, Zhou Xuanwu, Wang Teng, and the martial warriors alighted the airship under everyone's gaze.

The three of them were walking side by side, but when the three great commanders came to welcome them, Zhou Xuanwu and Xiao Nanfeng took a step back in unplanned unison, allowing Wang Teng to take the lead.

Wang Teng was stunned when he noticed their actions.

He wasn't the only one. The three great commanders and the martial warriors behind them were surprised too. They found it unbelievable.

Seriously?

Wang Teng might not understand their gesture, but they did. Zhou Xuanwu and Xiao Nanfeng were silently telling them that the first-class merit of this mission belonged to Wang Teng.

The lieutenant colonel and the colonel lost to a young man who just became a major!

And they seemed to acknowledge him wholeheartedly.

This was astonishing!

The three great commanders quickly regained their composure and patted Wang Teng's shoulder. Smiling in satisfaction, they said, "You did well. You didn't disappoint us!"

"It's the result of everyone's hard work. I couldn't have done it alone," Wang Teng said with guilt.

Mind you, he stole a large portion of the Zhenli Clan's treasures. He felt ashamed to accept their compliments.

If they knew what he had done, they wouldn't be all smiles. They might take the lead and beat him up. But in this situation, they felt that Wang Teng was being humble.

Look, he was young and powerful, but he remained humble and calm. What a rare character!

If they could, they wanted to award Wang Teng with the title of the model of his generation.

Zhou Xuanwu smiled. "Don't be modest. If not for you, we wouldn't have been able to deal with the Zhenli Clan so smoothly. We couldn't have killed the pope either."

“What?!”

“The pope of the Zhenli Clan is dead!”

Everyone was astounded. They stared at Zhou Xuanwu and Wang Teng with wide eyes.

“Y’all... killed the pope of the Zhenli Clan!” the bulky Commander Long said in amazement.

Commander Yong and Commander Hong looked at them too. The pope had always been a thorn in their hearts. They wouldn’t feel at ease unless this person was gone.

“Yes. I saw him self-destructing personally,” Zhou Xuanwu replied.

“Self-destruct!” The three great commanders and the other officials were dumbfounded.

The pope of the Zhenli Clan self-destructed!

This sly old fox who was afraid of death chose to self-destruct?

They were in disbelief. They looked at one another, unable to accept this truth for a moment.

“Are you sure?” Commander Hong hesitated before asking “Yes. If there are any questions, you can ask the surrendered Zhenli Clan members. They saw it personally. That person was the pope of the Zhenli Clan.”

“This is the space ring he left behind after he self-destructed. You can bring it back to confirm,” Wang Teng took out a space ring and passed it to Commander Hong.

After hearing their words, most people started to believe them. The pope of the Zhenli Clan had indeed self-destructed himself!

How pitiful!

How sorrowful!

Such a powerful character chose to self-destruct in the end.

“Come, let’s go back. All of you are the heroes of this mission. We have prepared a banquet for you guys. The Leader of martial arts will also attend,” Commander Yong smiled and said.

“The Leader of martial arts!” Zhou Xuanwu and Xiao Nanfeng’s eyes lit up.

The other officers were surprised too. They didn’t think that the Leader of martial arts would personally come to welcome the martial warriors back. They were envious.

Wang Teng was surprised too. He had only seen the Leader once. After that time, he never made an appearance. It was surprising that he decided to appear in public because of the Zhenli Clan.

They didn’t waste any time and escorted the martial warriors from the Zhenli Clan to their cells.

After everyone left, what happened here spread to all the martial warriors from the different factions.

The Zhenli Clan was exterminated!

The pope of the Zhenli Clan was killed!

At night, the Leader of martial arts would be holding a banquet for Wang Teng, Zhou Xuanwu, and the other martial warriors.

Every piece of news was more astonishing than the last.

Tonight, many other important figures would be present since the Leader of martial arts was coming. The different factions started working and fighting for a chance to take part in this banquet.

This was an opportunity for them to see the Leader of martial arts and get to know many important figures in Country Xia. Everyone wanted to seize this chance.

It would be unwise to underestimate the influence of these powerful factions. They were able to settle everything within half a day.

6 pm.

In a banquet hall somewhere in the military zone.

The hall was extremely lively. Light shone brightly, and many important figures from various factions gathered in the hall, conversing with one another.

They would occasionally glance at the entrance.

“Old Zhao, you’re here too!” A voice came from a corner of the hall. A muscular old man walked over with a few youngsters behind him.

There were a few people sitting in that corner. The old man among them smiled when he raised his head and saw who it was. He stood up. “Qian Boyu, your family is in Nanhai, but you received the news too and hurried all the way here?”

“Haha, how can I not come? This is such an important event!” The muscular old man called Qian Boyu chuckled.

“You’re right. The Donghai crisis had caught everyone’s attention, and now, the Zhenli Clan is annihilated. I’m sure everyone knows about it.” Zhao Fuhong nodded in agreement.

“Major Wang Teng is rising in the military like a shooting star!” Qian Boyu lamented.

“I heard that he’s not even 20 years old. Our younger generations can’t be compared with him.” Zhao Fuhong nodded, taking the chance to reprimand the younger generations in his family.

The youngsters behind them appeared frustrated. They had heard Wang Teng’s name so many times that they wanted to vomit.

They were all young people and were highly talented. Hence, they had their pride. They hadn’t seen Wang Teng in action, so they felt that everyone was exaggerating.

In addition, the elders kept using Wang Teng to scold them, so they didn’t feel good.

The two elders didn’t notice their expressions. They started chatting again. “I heard that Major Wang Teng isn’t married. I should have the young ladies from my family interact with him.” Zhao Fuhong’s eyes were small, but they gave off a sharp and bright glint as he smiled.

“Haha, Old Zhao, is that your plan? My granddaughter, Qian Duoduo, is a renowned beauty with many admirers. Major Wang Teng will be interested in her if he sees her.” Qian Boyu sniggered.

“Hmph, my Zhao Yaqin is not bad either. Let’s have a bet. Let’s see who will win Wang Teng’s heart first.” Zhao Fuhong snorted. “Sure. I’m not afraid of you!”

These two old men started quarreling over this matter like two young kids.

There was a pretty young lady standing behind each of them. They started blushing when they heard their words, looking a little shy.

They were all young ladies who hadn’t experienced love. It was impossible for them to remain calm when their elders were sorting their love life. However, when their eyes met, they sensed enmity in each other’s gaze.

Sparks flew everywhere!

They didn’t have any bad feelings towards Wang Teng. They had seen his pictures. He was handsome, powerful, and had a bright future ahead. No woman could reject a man like him.

In that case, all opponents were their enemies.

A handsome young man standing beside Qian Duoduo noticed their expressions, his face turning black. He opened his mouth uncontrollably and said, “I heard that Wang Teng has relationships with many ladies. You must be careful. Don’t get tricked by him!”

The atmosphere turned silent instantly. Qian Duoduo and Zhao Yaqin stopped glaring at each other while Zhao Hongfu and Qian Boyu looked at him sternly.

“Qian Yushu, have you forgotten what I told you before we came?” Qian Boyu asked angrily.

“Grandpa, I...” Qian Yushu’s face turned pale.

“Colonel Zhou Xuanwu, Lieutenant Colonel Xiao Nanfeng, and Major Wang Teng have arrived!” someone shouted.

Chapter 738 An Old Man-Yu Xiuxian!

A group of people walked in a few seconds after the announcement. The three people in the lead were all wearing military uniforms. They sparkled under the lights in the hall.

These three would be a powerful presence no matter where they went.

Both Xiao Nanfeng and Zhou Xuanwu were important figures. They guarded the dimensional rifts and prevented dark apparitions from landing in their world. They had many merits on them.

They were worth respecting!

Yet, they were overshadowed by the young man between them. He caught everyone’s attention.

The young man remained calm and composed as he stepped on the red carpet. He exuded a powerful aura silently and stepped forward with his shoulders wide. He scanned the surroundings with his deep gaze. All the martial warriors felt their hearts trembling. They couldn’t control their astonishment.

Even some general-stage martial warriors felt the same way. They were appalled. This young man was indeed exceptional and powerful!

This young man was none other than Wang Teng. He was attending this banquet with Zhou Xuanwu and the others.

“Chief Commander Zhou, Chief Commander Xiao, Chief Commander Wang!” The military officers in charge of tonight’s banquet hurriedly came forward to greet them.

“Thank you for your hard work.” Zhou Xuanwu and Xiao Nanfeng were used to this situation, so they nodded at him.

Wang Teng was familiar too. He nodded at the officers.

“You’re welcome!” The officers felt honored as they led the way.

“Bring Wang Teng around. You don’t have to care about us.” Zhou Xuanwu waved his hand and left with Xiao Nanfeng.

Soon after, they were already happily chatting with the crowd. The people closed to them came over and struck up conversations.

Wang Teng was speechless when he saw the two of them abandoning him.

Did you have to do that?

Where’s your compassion? You forsake your comrade on the battlefield and went to enjoy yourselves!

“Chief Commander Wang, please follow us. Let us introduce some important guests to you,” the officers said.

Wang Teng felt his head hurt.

There were many people present, and he was in the limelight tonight. By right, he should converse with everyone.

Wang Teng found it boring, but he couldn’t leave directly. He could only go with the flow.

“I just need one person to accompany me. The rest can continue your work,” Wang Teng said helplessly. He submitted to fate.

The officers didn’t object. A 20 years old female officer was left to guide Wang Teng.

She brought Wang Teng to an elder who was nearby and introduced him, “This is Mr. Sun Tianhua, the family head of the Sun family in Capital Xia. The Sun family is a renowned martial arts family. They have groomed many general-stage martial warriors.”

The other family heads got envious when Sun Tianhua was the first to be introduced.

Wang Teng was prepared to be a tool. He nodded at the other party and exchanged some greetings with him. Then, he wanted to leave.

However, the other party didn’t give him the chance.

“Chief Commander Wang, your reputation precedes you, but seeing you in person makes me think that your reputation is too humble. You’re indeed young and outstanding. As expected of the leader of your generation...” Sun Tianhua was brimming with joy. He was extremely enthusiastic. He wanted to grab Wang Teng’s hand and have a long conversation with him.

“You’re too polite.” Wang Teng felt that this old man was exceptionally good with words.

Your reputation precedes you but seeing you in person makes me think that your reputation is too humble. Listen, this is how you should praise a person with class and elegance.

He loved people who were polite and sweet-tongued. It looked like the banquet wouldn’t be so boring after all.

The female officer introduced the next guest.

“This is Governor Li from Jinlin. He came to congratulate you personally.” “Thank you, Governor Li!” Wang Teng nodded.

“Old Jiang is lucky to have a powerful young man like you in Donghai. I can’t compare myself with him anymore!” Governor Li shook his head and smiled. He was a tall and lofty man with an exceptional aura.

“This is the deputy minister of education, Qu Liangyong.” The female officer brought him to a slightly short and plump middle-aged man.

“Deputy Minister Qu!” Wang Teng was surprised. He thanked him hurriedly.

This was an important figure in the ministry of education. All the martial arts university students were under him.

“Good, good! You’re indeed the leader of your generation!” Qu Liangyong was elated. He patted Wang Teng’s hand intimately. “You’re flattering me,” Wang Teng smiled and said.

“You’re too humble. No one has the same talent as you in this world,” Qu Liangyong complimented.

“If you continue praising me, the world might be too small for me,” Wang Teng joked.

“Hahaha...” Qu Liangyong laughed and waved his hand. “Go ahead. There are many people waiting for you. Don’t waste your time on

me.”

“I guess I’ll have to listen to you.” Wang Teng smiled and followed the female officer to greet the next person.

Soon, they arrived in front of an old man. He was sitting alone in a corner. Many people wanted to speak with him, but they noticed his empty surroundings and understood the situation. They didn’t dare to disturb him.

The female officer was extremely respectful towards this elder. She bowed at him before introducing him earnestly, “This is the principal of The First University, Mr. Yu Xiuxian.”

Wang Teng was slightly surprised. He looked at the amiable old man who seemed like an elder next door. He couldn't tell that this was a formidable character in the education world from his appearance.

He couldn't help but remember the scene when he was applying to universities.

At that time, the recruiter from The First University told him that their principal wanted to see him dearly, even instructing the recruiter that he must bring Wang Teng back.

He wondered if that was true.

However, Wang Teng did have a strong impression of this elder.

Yu Xiuxian looked at Wang Teng kindly like an elder looking at his grandchild. He smiled and said, "I knew that you were exceptional. It's a pity that you chose Huanghai Military Academy in the end, but I'm happy that you're able to come this far.

"Talent is important, but you must have been through many obstacles to reach this stage. I feel at ease that Country Xia has you."

Wang Teng was stunned. He sensed a different emotion in the elder's words. There was deep and great love in his heart.

The powerful bear the world in their mind!

This elder cared about the world!

He treated the younger generation with love and expectations.

Wang Teng didn't think that there was such a person in this era. In the past, this elder would be called a saint.

He was deeply touched. He lowered his head slightly and bowed at the elder.

Yu Xiuxian nodded and smiled. He turned to walk straight to the entrance, disappearing from the door. It felt as if he came today just to see Wang Teng, to see this outstanding young man who was the future of the country...

Wang Teng watched him silently as he left. Many people stopped their conversations and stared at the elder too. For an instant, there was total silence in the hall.

Chapter 739 Alright, This Is An Idiot!

After Elder Yu left, the hall resumed its liveliness and noise.

Gentle music floated in the air. The attendants served delicious food and wine to the guests. The atmosphere was amazing.

The female officer led Wang Teng around the hall, introducing all the important people to him. If the Zhou family saw the scene tonight, they might give up their thoughts about Wang Teng.

There was a hierarchy in every society. Wang Teng didn't think much about this, but when he reached a certain height, the things surrounding him would change naturally.

Currently, the people around him were all boss-level people in Country Xia. Any one of them could cause a commotion in the country with a stomp of their feet.

This was power!

“This is the principal of Leiting Martial House, Lei Zhenting.”

“This is the principal of Jinlin University, Mr. Liang Jinwu.”

“This is the sect leader of the Liehuo Sect in Dongbei.”

“This is the principal of Bailian Martial House, Qin Lianqin.”

“This is Mr. Qian Boyu, the family head of the elite family, the Qian family.”

“This is Mr. Zhao Hongfu, the family head of the Zhao family, one of the top three families in Capital Xia.”

The female officer was very responsible. She introduced Wang Teng to all the important figures present. Wang Teng received many praises, but the muscles on his face were getting tense.

Damn it, networking isn't something everyone can do. Wang Teng complained in his heart as he left with the female officer.

The Zhao family and the Qian family were the last to be introduced. After Wang Teng left, Qian Boyu turned to Qian Yushu and said, “Did you see that? That's the difference between you and him. He's able to chat calmly in front of all the general-stage martial warriors. They even had to butter him up. Can you do that?”

“When he stood in front of you, you don't even dare to make a peep.”

Qian Yushu's face turned pale. This was a huge blow to his dignity. He took two steps back unconsciously.

“He has no family supporting him. He relied on himself. Look at you. How much support did the Qian family give you? How many resources did we pour on you? Yet, you can't even reach 1% of his achievements.

“With the difference in your abilities, what right do you have to talk behind his back?” Grandpa Qian felt angrier as he spoke. He disregarded the other people at the scene and scolded Qian Yushu furiously.

“Look at yourself. Don't you know your level? If I hear you saying such offensive words outside, don't blame me for being merciless.”

“Grandpa!” Qian Yushu was stunned. His voice trembled.

Without the Qian family, he would be nothing. He couldn't advance on the cultivation path without resources or support. He might even be sent to fight with star beasts or thrown into a dimensional rift to battle with dark apparitions for survival.

He didn't dare to think about that kind of lifestyle. He shuddered uncontrollably.

Qian Yushu didn't think that his grandpa would reprimand him just because he talked bad about Wang Teng.

"Alright, alright. Stop scaring him. He's a young man. It's normal for him to be competitive." Zhao Hongfu stepped out to mediate the situation.

"Hmph, if we were at home, I'd have taken out my stick and hit him. I want him to be competitive, but he has to choose the right opponent. Is Wang Teng someone he can touch? All he did was talk behind his back. Why don't you do something in front of him instead? So infuriating!" Grandpa Qian said indignantly.

Qian Yushu didn't dare to speak anymore. He hid at the side and trembled in fear.

Qian Duoduo silently shifted away from him. She felt that her cousin was embarrassing.

Zhao Yaqin was even more direct. She looked at Qian Yushu with contempt and rolled her eyes at him.

Compared to Wang Teng, Qian Yushu was nothing!

"Grandpa, I'll go over and take a look," she got up and said to Zhao Hongfu.

"Go ahead." Zhao Hongfu nodded happily.

"Grandpa, I'll go too." Qian Duoduo didn't want to lose out. She stood up and told Qian Boyu.

"Sure." Qian Boyu glanced at Zhao Hongfu and nodded. There was a sharp glint in his eyes.

"Hmph!"

"Hmph!"

Zhao Yaqin and Qian Duoduo glanced at one another. They looked like two chicks preparing for a fight. They raised their fair necks and snorted, then walked in Wang Teng's direction fiercely.

Wang Teng didn't know what was happening over there. He had finally found a place to sit. He told the female officer that she could leave while he picked some wine and delicious food for himself. He started eating happily.

"This is not bad!

"There're Force dishes! They must be made by Force chef masters.

"The wine is not bad either. Oh my, this is 1982 Moutai!"

Just as he was enjoying his drink, two pairs of slender and beautiful legs appeared in front of him. Wang Teng looked up and saw two pretty faces. Their figures were top-notch. He was stunned.

He was even more surprised when he saw the burning competitiveness in their eyes! O((O_0))

He had a bad feeling.

Why did they seem as if they were going to eat him alive? This was scary.

“Hi, nice to meet you. I’m Qian Duoduo from the Qian family.” One of the young ladies had two ponytails and was wearing a beautiful pleated skirt. She sat down beside Wang Teng and spoke to him enthusiastically.

“Oh, you are from the Qian family of Nanhai!” Wang Teng remembered.

“Yes, that one. Why don’t we be friends?” Qian Duoduo was straightforward.

“Erm... are you always so direct?” Wang Teng asked. He was stunned once again.

“Not really. However, my mom told me that if I meet someone I like, I should go forward without any hesitation,” Qian Duoduo replied.

Alright, this is an idiot. Wang Teng formed his conclusion.

Zhao Yaqin couldn’t stand still anymore. She would lose her chance if she allowed Qian Duoduo to continue speaking. Hence, she hurriedly sat down opposite Wang Teng and introduced herself, “I’m Zhao Yaqin from the Zhao family. Nice to meet you.”

“Hello.” Wang Teng greeted her politely too. He sized up both of them.

Zhao Yaqin had her hair tied up in a ponytail. She was wearing a white dress and looked more mature and reserved. Her style was different from Qian Duoduo’s.

However, when she looked at Qian Duoduo, her eyes were burning. This meant that this pretty young lady wasn’t a demure and easy to bully little sheep.

ev

Wang Teng knew why they were here when he saw their expressions. He felt helpless. “Don’t waste your time. I have a girlfriend.”

“It’s alright. You’re not married yet,” both of them replied in unplanned unison. They didn’t mind

They glared at one another when they realized that they said the same thing. Then, they looked away simultaneously and snorted.

“Hmph!”

“Hmph!”

Wang Teng: ...

Chapter 740 Track (1)

Wang Teng didn’t think that these two ladies would be so fierce. He shook his head and lifted his glass to take a sip of his wine, allowing them to argue among themselves.

Zhao Yaqin and Qian Duoduo were born into large and powerful families, so they knew when to stop. Even though they were arguing, they didn’t irritate Wang Teng. Instead, he felt a sense of achievement. Two beauties were fighting for him.

Of course, with his temperament, he wouldn't take this matter to heart. He just shook his head and smiled. Honestly, there were many ladies chasing him. He didn't lack one or two.

Zhao Yaqin and Qian Duoduo argued and chatted with Wang Teng simultaneously to strengthen their relationships. Wang Teng was also bored, so he accompanied them and joined their conversation.

Time would fly when you had beauties attending to you.

At this moment, there was a commotion at the entrance.

"The Leader of martial arts is here!" someone shouted. Thereafter, the hall turned silent. Everyone looked in the direction of the entrance.

This was the second time this situation had happened tonight. The first time was when Wang Teng arrived. Now, it was because of the Leader of martial arts.

Three elders stood beside a middle-aged man under the night sky and walked into the hall.

The man was lofty. His eyes were as dark as the night sky, and he had short white hair. His face was angular and sharp, and his aura was exceptional.

His force of presence was overpowering. When he walked, he gave off a domineering aura that suppressed everyone present.

The three great commanders accompanied him. They walked slightly behind, allowing the Leader of martial arts to appear even more noble and mighty.

"Everyone is here!" The Leader of martial arts walked into the hall and smiled as he looked around him.

Everyone bowed respectfully.

"Sit down. This is a fun night. We won't be talking about business today." The Leader of martial arts nodded and continued walking forward.

The crowd cleared a path for him. No one sat down. They continued standing with respect. Everyone's gaze was focused on him.

Wang Teng, Zhou Xuanwu, and Xiao Nanfeng came forward to welcome him. They continued bowing until the Leader of martial arts arrived in front of them.

The Leader of martial arts stopped and sized up the three martial warriors. He nodded. "Y'all did well."

"Thank you!" Zhou Xuanwu and Xiao Nanfeng were excited.

The Leader of martial arts held a highly respectable position in Country Xia. Even formidable warriors like them couldn't help but feel honored and elated.

Wang Teng wasn't that impressed, but he still kept his respect and admiration for the Leader of martial arts. After all, this was the person who had brought Country Xia to its current status. It wasn't an easy job.

Due to the rise of the martial arts era, any mistakes might cause the world situation to change. They might be doomed eternally.

Country Xia kept progressing and developing, advancing carefully and vigilantly. Finally, they became one of the strongest in the world.

His contribution could not be left unrecognized. He was destined to leave a page in the book of history.

At this moment, the Leader of martial arts walked towards the podium in the hall. Everyone's gaze followed him. It was obvious that the Leader wanted to speak.

On the stage, the Leader of martial arts scanned everyone below and smiled. He opened his mouth, "Actually, I didn't want to come. Every time I appear, there will be a huge scene. I can only hide in my imperial palace!"

They all chuckled when the Leader of martial arts teased himself. The atmosphere relaxed instantly.

"Have a seat. This is just a normal banquet. There's no need to be so serious," the Leader of martial arts waved his hands and said casually.

Everyone finally listened to him and sat down. However, the hall remained quiet. The atmosphere just turned a little lively.

"I came today to see the three meritorious martial warriors!"

"The Zhenli Clan has always been a pain in our neck. This time, we finally exterminated them."

"The credit goes to Zhou Xuanwu, Xiao Nanfeng... and Wang Teng!"

"I'm sure everyone is familiar with the first two names. The last person is extremely young. Many people probably know him, but you might not have heard of his achievements. Let me introduce him to everyone today."

The Leader of martial arts smiled as he looked at Wang Teng below the stage. Zhou Xuanwu and Xiao Nanfeng moved sideways automatically, revealing his figure to the crowd.

The three great commanders smiled and looked at him in satisfaction.

On the other hand, Wang Teng was feeling helpless. Everyone present was looking at him. He might have been through many important situations, but this was the first time he was pulled out and complimented in front of the crowd.

It felt a little embarrassing!

"Cough, please be lowkey. I know that I'm handsome, but can y'all stop staring at me like this? People might misunderstand if they see a bunch of men ogling me," Wang Teng coughed awkwardly and said.

"Pfft..."

The majority of the people were drinking. When they heard Wang Teng's words, they spilled their drinks on the spot. It was a tragic sight.

Everyone looked at him with bitterness.

Wang Teng didn't think that their sense of humor was so low. He looked at them innocently. "Hahaha..."
The Leader of martial arts burst out laughing. He pointed at Wang Teng and said, "You're a cheeky fellow."
