

Martial Arts 741

Chapter 741 Track (2)

“I’m sure everyone has a deep impression of him now, right?”

Silence.

Everyone felt speechless. The impression was as deep as it could get.

At first, they only felt that Wang Teng was an exceptionally talented martial warrior. His potential was impressive, but they didn’t know that he had such a cheeky side. No one expected it, so they spurted their drink. If it wasn’t unexpected, they would have remained unwavering.

“Alright, let me share Wang Teng’s achievements with you. I’m sure all of you know about the sea beasts’ riot in Donghai. Wang Teng is the greatest hero. But before this, he had already made many contributions!

“He contributed in the battle of Yang City and Star Maple City on the Xingwu Continent and played a crucial part in both victories...”

The Leader of martial arts listed his achievements. The people present were astounded.

Most of them had learned Wang Teng during the sea beasts’ riot. The battles on the Xingwu Continent were kept within the military, so outsiders didn’t know about them.

Although Wang Teng had joined the military recently, he had already made so many contributions.

He faced a general-stage dark apparition even though he hadn’t reached that stage. He managed to hold back the dark apparitions’ invasion and waited until reinforcements arrived.

Similarly, he hosted an array and resisted the terrifying devil lords, forcing them into a dire state. He also fell into the Darkland but managed to fight his way out. He survived the crisis and came back to Earth!

Everyone was engrossed as they listened to his stories.

Every single experience was enough for someone to boast about it for life. It was hard to believe that Wang Teng went through everything. You could say that his journey was sensational and dynamic.

How could a young man accomplish so many things?

Many important figures had brought their younger generations along. At first, these youngsters were unconvinced, but as they listened to the Leader of martial arts’ speech, their mouths turned agape.

This must be a monster!

How old was he? Could he do all these things? He wasn’t giving them any chance.

wn

They were around the same age as him, yet they were still indulged in their own pleasures and were leaving a comfortable and carefree life. They felt useless when compared with him.

Zhao Yaqin and Qian Duoduo's eyes were shimmering brightly. No lady could say no to a hero. Wang Teng struck the soft spot in both ladies' hearts. They almost wanted to pounce on him.

They weren't the only ones. Many young ladies present were looking at Wang Teng with bright eyes. They looked like a bunch of fangirls.

Wang Teng felt helpless. He admitted that he was outstanding, but he didn't like to be in the spotlight.

wa

His life was so lonely!

It's lonely to be in a high position... So cold

He could tell that the Leader of martial arts and the three great commanders wanted to push him to the front. They were paving the path for him.

He was famous. Everyone knew him, but having the Leader speaking up for him was an entirely different concept. The Leader wasn't just complimenting Wang Teng. He also wanted everyone to know that he was supporting him.

Wang Teng could guess his intention. Of course, he wasn't the only one. All the sly old foxes present understood the leader's plan.

The banquet was successful. The arrival of the Leader of martial arts pushed the atmosphere to a crescendo. It was a worthwhile trip for everyone.

When the banquet ended, many people wanted to bid farewell to Wang Teng to deepen their impression in his mind and forge a closer relationship with him. But he had already left with the Leader.

They were stunned once again. Their idea of Wang Teng's position in the Leader of martial arts' heart climbed to new heights. The rise of this young man was undeniable!

No one knew what they talked about that night. No one ever saw Wang Teng again after that either.

Most of their plans failed.

As for Wang Teng, he had already left Country Xia. He boarded his Queen Phoenix Battlecraft and headed to a dense primary forest.

Posiriah Plain!

An invisible battlecraft flew over at high speed, entering the territory of Country Boar from Country Xia. However, it didn't get detected.

It came silently like a ghost.

The aliens' invisibility technology was used on the battlecraft. Hence, even the most advanced detectors on Earth wouldn't be able to find it.

This was Wang Teng's Queen Phoenix Battlecraft. The invisibility technology was actually an anti-detection device he found on the Minos III spacecraft.

The current technology on Earth was unable to see through the invisibility cloak of the battlecraft.

The battlecraft arrived within the central region of the Posiriah Plains. It finally landed and parked on an empty white piece of land covered with snow.

as

A figure walked down the battlecraft. It was Wang Teng.

With a wave of his hand, the battlecraft on the snow disappeared.

Wang Teng didn't stop. He found his direction and walked into the dense forest. A strong gale blew behind him, throwing the snow into the air and covering any traces the battlecraft could have left.

Chapter 742: Track (3)

Translator: Henyee Translations **Editor:** Henyee Translations

The place turned peaceful again. It was as if no outsiders ever came here.

...

"I remember picking up ultimate stage wood talent here!" Wang Teng muttered to himself as he rushed into the forest.

He was out here to increase his abilities.

He had picked up many different attribute bubbles recently. Besides physique attributes, he also had scriptures and various battle techniques, including the planetary stage scriptures and battle techniques he got from the aliens. If he wanted to increase their level and transform his ordinary Force into constellation Force, he needed blank attributes.

This was his reason for coming. He was in one of the seven dangerous places of the world, the Posiriah Plains. This place was known for its vast number of star beasts.

Wang Teng had no qualms this time. He released his spiritual power instantly and swept it through the forest, searching for any signs of a powerful star beast.

After some time, he sensed a bunch of star beasts.

Yes, it wasn't one star beast; there were a bunch of them.

Wang Teng was elated. A group was great. One wasn't enough to feed his appetite.

He dashed in that direction.

Roar!

A wolf howl suddenly rang through the air.

The instant Wang Teng came close, the pack of snow wolves noticed him. The snow wolves stood up and glared in his direction, their low howls echoing in the forest.

Swoosh, swoosh, swoosh...

Thereafter, the snow wolves, which were the size of bulls, sped out. They turned into lingering shadows as they darted toward the spot where Wang Teng was.

They sensed that the invader hadn't left and was heading directly in their direction. They decided to act first.

"Good move!"

Wang Teng laughed as flying daggers appeared in the air. He controlled them with his spiritual kinesis and sent them flying. With a cold glint, they slashed the throats of the snow wolves.

Swoosh!

Swoosh!

Swoosh!

Red blood spurted out. The snow wolves were riding the wind and traveling at extremely high speed. Although they were killed, their bodies still flew out for a few meters before crashing into the ground.

In an instant, the majority of the snow wolves were killed. A snow wolf taller and larger than the rest of the pack strode out and howled at Wang Teng.

Lord-level!

This snow wolf was a mid-tier lord-level star beast!

It was the overlord of this area, the leader of the snow wolf pack!

"Human, get out of my territory!" The snow wolf howled.

"Wind element mid-tier lord-level star beast!" Wang Teng's eyes lit up. He lifted his finger and released the Shooting Star Spiral. It disappeared in mid-air.

When it appeared again, it was already in front of the snow wolf king. It split into multiple sharp rays and headed for its eyes.

"Damn it!" The snow wolf was caught off guard. It spurted out a ball of green light that collided with the Shooting Star Spiral.

Boom!

A terrifying force swept through the forest.

Wang Teng's spiritual power was powerful, so the Shooting Star Spiral didn't stop. It cut through the snow wolf's attack and penetrated its eyes.

Roar!

The snow wolf king only had time to howl in pain before its eyes exploded. The Shooting Star Spiral had stabbed through its brain, claiming the wolf's life.

Bang!

The giant body slammed onto the ground. The mid-tier lord -level star beast was dead !

Wang Teng scanned the surroundings and picked up the attribute bubbles.

Wind Force*4500

Blank Attribute* 5200

Ultimate Stage Wind Talent*150

Wind Force*300

Wind Force*500

Blank Attribute* 620

As these attribute bubbles merged into his body, Wang Teng trembled. His wind Force finally reached the breaking point!

Wind Force:120/20000 (II-star)

He had risen from the 10-star brigadier general stage to the II-star low-tier general stage.

This felt amazing. Wang Teng wasn't expecting these gains.

He should have come earlier!

Wang Teng shook his head. It was unfortunate that he was always busy with important matters. If not, his ability would have become higher.

Beside the increase in his Forces, he also gained 6850 points of blank attributes and 150 points of ultimate stage wind talent.

This was a good harvest.

Thinking about it, he had found a star beast with the ultimate stage wood talent. Was it fate that he found the ultimate stage wind talent first?

Both were gains, so Wang Teng didn't mind.

He felt invigorated by the good start and continued heading deep into the Posiriah Plains. There were more attribute bubbles waiting for him inside..

Chapter 743: Heaven Fire Meteor! (1)

Translator: Henyee Translations **Editor:** Henyee Translations

In the Posiriah Plains!

Seven days later.

Wang Teng was hiding behind a large rock at the peak of a mountain. He peeked into the valley below like a thief.

Snow covered the valley, along with corpses of numerous star beasts. Blood flowed like a stream.

Wang Teng had sent these corpses over using his spiritual kinesis. He didn't reveal himself.

The valley was silent. No noise could be heard.

By right, these corpses should attract many star beasts. However, after some time passed, there was still no sign of any star beast.

The valley was eerily silent.

This situation lasted until night. When the sky turned dark, the valley turned pitch-black. The only source of illumination was the moonlight scattered on the ground. It shone on the surroundings and allowed Wang Teng to faintly see what was happening.

Suddenly, there was a rustle.

It's here! Wang Teng, who was getting bored, immediately turned vigilant. He stared at the valley with glistening eyes.

The rustling came from all around the valley. Very soon, numerous gigantic outlines could be seen crawling out from the cracks along the cliffs.

Their bodies were long and flat, and they had many legs crawling at the same time. This was where the rustling sound came from.

Very soon, this group of star beasts covered the entire valley.

The large shadows lined up with the corpses in the center. If someone saw this scene from afar, their hair might stand up.

This was a group of centipede star beasts!

Moreover, they were poisonous.

Wang Teng had exerted a lot of effort to find this group of poison-element star beasts.

He had found many poison-element star beasts over the past few days, but most of them traveled alone. There was a limited number of attribute bubbles they dropped.

Finally, he discovered these centipedes and realized that they lived in groups. He followed them to this valley and used his Eyes of Essence to observe them. He confirmed that this valley was their nest.

This group of terrifying poisonous centipedes lived in this eerily quiet valley.

This was... amazing!

Wang Teng immediately decided to capture them. That was why he was hiding behind the rock.

The centipedes crawled around the corpses, but they didn't make any further movements. They seemed to be waiting for something.

Boom!

Suddenly, the ground trembled. A small mound pushed up from the snowy ground, and an enormous centipede covered with dark red scales appeared under the moonlight.

This centipede was huge. The other centipedes looked like children when compared with it.

Lord-level star beast! Wang Teng smiled.

He guessed that there must be a lord-level star beast here, but he was still surprised when he saw it personally.

This was a poison element lord -level star beast. It was extremely rare!

Of course, the important thing was, they would give him a large number of attribute bubbles.

When the lord-level centipede crawled out from the ground, he felt a chill. There seemed to be an evil aura surrounding this valley.

Lord-level star beasts were smart and intelligent, so when it first saw the free corpses in its territory, it was puzzled. It only dared to come out after waiting an entire day and confirming that there were no dangers.

After all, the valley was filled with corpses. It was enough for them to fill up their stomachs, so they wouldn't give them up easily.

But the instant it came out, it had a bad premonition. If it wasn't worried about losing its face in front of its subordinates, it would have shrunk back into its cave.

It was a lord-level star beast, the ruler of this territory. Other powerful mid -tier lord-level star beasts wouldn't dare to provoke it because of its poison Force. There weren't many things that it was fearful of and it didn't believe that there was anything nearby that could threaten its life.

So... it might have been an illusion!

The lord -level centipede crawled out of its cave after some consideration. It headed towards the corpses as the other centipedes cleared a path for it. Very soon, it realized that there were no dangers. It permitted the other centipedes to start eating.

Its subordinates were getting impatient. They furiously pounced on the corpses and bit the flesh and blood of these corpses.

The noise of chewing and tearing of flesh and bones sounded exceptionally frightening under the night sky.

The lord -level centipede also stopped hesitating. It pulled out a corpse and ate it alone.

Wang Teng smiled lovingly at them when he saw this scene. Have a nice meal. After you finish it, I'll send you to hell.

There were many centipedes, so they finished the corpses quickly. Afterward, they sprawled on the ground in satisfaction and basked in the moonlight. They started cultivating.

This scene seemed harmonious and beautiful!

Wang Teng almost couldn't bear to attack them. Fortunately, he had a strong mentality. If he said that he would kill them, he would.

At this moment, there was a commotion among the originally quiet centipedes. They started hissing in fear.

Especially the lord-level star beast. It started talking in human language. "Who is it? Who poisoned us!" Its voice was filled with anger.

Bingo! Wang Teng gave a sly smile. He popped his head out and looked down.

How could he not add some extra seasonings to this free feast?

Bingo! Wang Teng gave a sly smile. He popped his head out and looked down.

How could he not add some extra seasonings to this free feast?

Chapter 745 Heaven Fire Meteor! (3)

Poison Force: 5230/20000 (11-star)

His poison Force increased once again and stabilized at a new level. He had more than 60 thousand blank attributes currently. It was a sizable amount.

"Let's go. Continue!" Wang Teng's eyes were glowing. He ordered the metal armor flaming scorpion and Little White to clear up the scene before leaving.

...

Wang Teng didn't leave the Posiriah Plains. He continued killing star beasts here. From the south to the north, from the west to the east. Day after day, more and more lord-level star beasts died in his hands.

One day, a team of martial warriors from Country Boar arrived in the west of the Posiriah Plains. They were discussing in low voices.

“I think there was a lord-level snow wolf nearby. Why aren’t there any movements today?”

“That’s right. There are fewer star beasts around. Did they migrate?”

“I heard others complaining that the number of star beasts in other regions has decreased sharply. Did something happen here that we don’t know about?”

“Who knows? This is not our business. The higher authorities should have received the news. They will investigate this matter and arrive at a conclusion soon. Let’s act accordingly. Once something isn’t right, we’ll leave.”

“Yes.”

Their footsteps went further along with their voices.

All the martial warriors from Country Boar noticed that there were lesser star beasts when they came to the Posiriah Plains to hunt.

Fortunately, ordinary martial warriors didn’t dare to offend lord-level star beasts. Hence, they didn’t realize that many lord-level star beasts had disappeared without a trace.

One month later.

At night.

Wang Teng sat cross-legged on the crown of a tree and counted his gains. Scanning his attributes panel, a smile appeared at the edge of his lips.

After more than a month of constant killing, all of his Forces had reached the 13-star general stage. This included the mutated elements: wind, lightning, poison, and ice.

All the nine elements had reached the 13-star general stage. No one might believe him if he told them.

But the truth was, he did it.

Metal, wood, water, fire, earth, wind, lightning, poison, and ice. Wang Teng pushed all these elements to the 13-star general stage by killing star beasts. His light Force and dark Force didn’t increase since none of the star beasts possessed these two Forces.

At this moment, even if he didn’t mobilize his Forces, his body naturally gave off a frightening aura. He was like a terrifying beast, powerful beyond imagination. Currently, he was at the peak of Earth’s martial warriors. He could even challenge the Leader of martial arts.

Wang Teng slowly stood up on the crown of the tree. He gazed at the night sky and felt emotional for some reason.

He had finally reached this step!

It seemed like yesterday when he stepped onto the martial arts path. However, he was already at the peak of Earth’s martial warriors. An even higher level was waiting for

him.

The night breeze blew against his black hair, revealing his young face and that pair of bright and deep eyes. "It's time to practice the planetary stage scriptures and convert the normal Forces into constellation Forces!" Wang Teng muttered to himself. His eyes were shining.

Other than killing star beasts, he also farmed attribute bubbles from the Plato beings.

He had received all five basic element planetary stage scriptures. True to his guess, they were the Star Fire Scripture, the Star Wood Scripture, the Star Metal Scripture, the Star Earth Scripture, and the Star Water Scripture.

They shared some similarities, so Wang Teng decided to cultivate them together to see what effects he could achieve.

His blank attributes had also reached an unprecedented number.

Blank Attribute: 123780

He had more than 120 thousand attributes. He had never accumulated such a huge sum. Unfortunately, he was going to use them soon...

Wang Teng got ready to start his cultivation session. Suddenly, a frightening explosion came from the distant sky. It sounded far away.

"What was that?" Wang Teng was astounded. He raised his head and looked in the direction of the noise.

Two large balls of fire shot down from the sky like two shooting stars, leaving a trail of flames behind them. One landed in the direction of Country Boar while the other landed in Country Xia.

Heaven fire meteor!

"This is..." Wang Teng's expression turned grave, his heart pounding furiously in his chest. An ominous feeling wafted into his heart.

He didn't know that many other shooting stars had landed on Earth at the same time. Some fell into the sea while others landed in the White Eagle Nation, Country Bat, Country Inka, and Country Star... Gales blew throughout Earth...

Chapter 746 Capital Xia Had Fallen!

"What is going on?"

"What's that shooting star?"

Wang Teng was jittery. He looked in Country Boar's direction before turning to Country Xia.

He could ignore the other places, but his friends and family were in Country Xia. If anything happened to them...

A few seconds later, his gaze turned firm. He took out the Queen Phoenix Battlecraft from the space fragment and decided to stop his cultivation temporarily. He wanted to go back and take a look.

However, just when he was about to step into his battlecraft, his wristwatch vibrated.

There were messages.

It wasn't just one message.

The Leader of martial arts: Don't come back!!!

Commander Hong: Alien invasion. Extremely powerful. Don't come back!

The messages appeared on Wang Teng's wristwatch almost at the same time. His expression underwent a huge change. He was thunderstruck.

Alien invasion!

What he was afraid of the most still happened in the end!

What a coincidence. He got to know of aliens only recently, and there was suddenly an alien invasion.

He didn't think that they would come so quickly. He even felt that it might not happen at all. The universe was huge, and Earth was just an inconspicuous planet situated in a remote planetary sector far away from the central region of the alien civilization.

Thus, the chances of the aliens discovering Earth were extremely small.

However, this small chance still got realized. Aliens had invaded Earth. From the messages sent by the Leader of martial arts and the other commanders, it wasn't hard to tell that these aliens were a mighty force.

They were unharmed by the overlapped space on Earth. They didn't get injured and caught like the Plato beings. What was happening there?

Wang Teng sent messages back to confirm the situation, but no one replied to him. They were like pebbles dropped in the sea; there was no response.

"Something bad has happened!" Wang Teng's expression turned grim. His eyes flickered, and the forbidding feeling in his heart grew stronger.

He had never been so serious in his life.

Everything happened too quickly. Only half an hour had passed since the meteors fell on Earth to the time the Leader of martial arts sent him the message. Yet, he couldn't get any response from them.

Something bad had already happened.

This was proof that the aliens were extremely powerful and terrifying. Even the Leader of martial arts got caught by them. His life might even be in danger.

Wang Teng took a deep breath and gritted his teeth. He pushed down the urge to return. If the Leader of martial arts couldn't defeat the invaders, he would just be sending himself to death.

He hadn't converted this Forces into constellation Force, so he wasn't the aliens' match.

Nonetheless, he wouldn't feel at ease unless he knew what happened.

Wang Teng felt that he should do something. The gears in his mind turned, and he thought of a plan.

Clones!

He could use his clones as scouts to find out the latest situation!

Wang Teng's concealing skills were exceptional, but he wasn't certain if he could hide from the aliens. If he couldn't, it would be dangerous for him to go personally. However, this wasn't a concern if he sent his clones.

Clones could send information back even if they were killed. It wouldn't harm his life either.

Wang Teng sat down cross-legged. The spiritual power and Forces in his body moved according to the Darkness Clone Technique.

Outside, a ball of black mist started gathering. Soon, it turned into another Wang Teng. But he didn't stop there. He pondered for a moment and added earth and wood Force into the clone's body.

Just now, he only gave fire Force to the clone. Considering how powerful the aliens might be, Wang Teng felt that he should instill more Forces into him.

He didn't need to be very strong, but he mustn't be weak.

He needed to be appropriately powerful. That way, he could fool the opponent and make it easier for him to sneak attack in the future.

After putting earth and wood Force into the clone, Wang Teng stopped and looked at him. He said, "Thanks for your hard work this time."

"Master, this is too much. You're sending me to death!" the clone said bitterly.

Wang Teng specially changed his appearance to Yao Ji's, the person whom he disguised as when he was in the Zhenli Clan. He looked funny.

What a poor clone. He was being sent on a suicide mission!

"Cough, you'll get used to dying. It's nothing," Wang Teng coughed awkwardly and said.

The clone: ...

¥%#%¥%...

F**k, is this what you should say?

Although Wang Teng was the true form, the clone wanted to curse and swear at him.

"Don't sweat the details. You can come to life again after you die. Isn't that good?" Wang Teng comforted him.

"This doesn't sound good either." The clone rolled his eyes. He waved his hand and said, "I'm leaving. If I stay a second longer, I'll die from anger before I get killed by the aliens."

"All the best!" Wang Teng clenched his fist and cheered for his clone loudly.

The clone stumbled. He felt so frustrated that he wanted to vomit blood. He felt tired.

It was a tragedy for him to have such a master!

The clone quickened his pace and entered the battlecraft. The cabin door closed behind him.

Wang Teng watched the Queen Phoenix Battlecraft as it rose into the air. It turned into a ray of black light and shot towards the horizon, disappearing in the blink of an eye.

“I can only wait now.” Wang Teng closed his eyes and tried his best to remain calm.

Things had already happened, so he could only wait patiently.

One hour later, the battlecraft reached Country Xia. Before it could get closer, it was forced to stop.

The clone walked out of the battlecraft and looked at the huge flying object hovering over Capital Xia. He was dumbfounded.

“Is this the alien’s spacecraft?” The clone muttered to himself in astonishment.

The spacecraft almost covered the entire central district of the capital, casting its shadow on the city below. Many skyscrapers got destroyed by it. The spacecraft gave off a bright and mysterious glow in the night sky. It lit up the entire Capital Xia, clear and dazzling.

Wang Teng saw this scene through the clone’s eyes. He was flabbergasted and solemn.

This spacecraft was many times bigger than the Minos III spacecraft he had obtained from the Plato beings.

If this spacecraft was a luxurious mansion, the Minos III spacecraft would be a small single-story house in the village.

These two were incomparable!

Wang Teng’s attention was quickly attracted by the situation in Capital Xia.

Runes were seen everywhere in Capital Xia. It had suffered a huge wave of destruction. Flames and smoke could still be seen in certain areas. Explosions kept resounding from all over the city.

Capital Xia, the heart of Country Xia, had suffered such a frightening calamity. The streets were filled with the blaring sirens and terrified howls of civilians.

People were running everywhere while glancing at the huge spacecraft above them in fear. Some of them even knelt down to pray and plead. The scene was chaotic.

It seemed as if the apocalypse had come.

Capital Xia had fallen!

Chapter 747 Blue-Haired Young Man

Capital Xia had fallen!

This astonishing thought appeared in Wang Teng's mind unconsciously as he looked at the situation in the city through his clone.

He didn't know where the leader of martial arts and the three great commanders were or whether they were alive. The alien spacecraft hovered over Capital Xiaa fearlessly, and the city was plunged into chaos. Wasn't it obvious that it had fallen?

What kind of presence had landed on Earth? How were they able to occupy the entire Capital Xia within two short hours?

Mind you, there were many powerful martial warriors in Capital Xia, including a bunch of general-stage martial warriors. However, at one glance, there were no signs of general-stage marital warriors. They were either captured or killed by the aliens or were hiding because they feared the invaders.

No matter what it was, it meant that the aliens were extremely powerful!

The clone received Wang Teng's order and prepared to sneak into Capital Xia. Suddenly, a ray of light shone down from the huge spacecraft in front, landing directly on the Queen Phoenix Battlecraft where the clone was at.

"Oh shit!" The clone was appalled. He jumped out of the spacecraft and escaped without any hesitation.

The next instant, the light hit the Queen Phoenix Battlecraft and turned it into a ball of light amidst an explosion.

The clone appeared some distance away. Staring at the Queen Phoenix Battlecraft that was about to disappear, a drop of cold sweat fell down his forehead.

What a close call!

He almost died before he saw any aliens!

But the Queen Phoenix Battlecraft was destroyed. His master must be furious. After all, he had received the plane not long ago and only used it a few times before it went out of commission. What a pity.

The clone felt a little awkward. He thought that he could avoid the detection of the alien spacecraft using the anti-detection device from Minos III, but he was too naive.

He got discovered almost instantly and paid the price.

That anti-detection device was rubbish!

Indeed, Sha Didi and his companions were a bunch of poor fellows.

Sha Didi received another grudge in his deep sleep.

The explosion in the sky attracted the attention of the people below. Many of them raised their heads. They didn't know what had happened.

The clone executed the Shadow Merging Secret Skill and disappeared into the dark, hoping to evade detection of the alien's spacecraft.

Fortunately, the ray of light stopped shooting after it destroyed the battlecraft.

The clone felt its way toward the alien spacecraft. There was no need to visit other places. He headed directly towards the enemy. If he could find one or two aliens and get some information out of them, it would give his master an advantage for his plans in the future.

Soon, he came close to the spacecraft and found the entrance.

The entrance was extremely eye-catching. The aliens might be exceptionally confident in themselves, so they left it wide open.

The clone hid in the dark and flew deep into the spacecraft.

There was a long corridor behind the cabin door. The entire passageway was dim, so he was able to sneak in without any issue.

The clone proceeded quickly and met a bunch of aliens when it turned around a corner.

To his surprise, these aliens looked almost the same as humans. The only difference was their long hair, which came in different and strange colors.

Their hair color wasn't the unconventional hair colors youngsters liked to dye. Instead, the colors were pure and natural.

These aliens laughed and chatted happily as they walked out. They seemed to be heading outside.

The clone leaned close to the wall and merged into the darkness. He remained silent.

Wang Teng understood these aliens' abilities through the clone.

Compared to Sha Didi, these aliens hadn't reached the planetary stage. But, they were all at the general stage, and none of them was below the 12-star general stage.

The most important thing was, the Force they had wasn't the ordinary Force. It was constellation Force!

Wang Teng didn't understand their language, so he could only watch them leaving the spacecraft.

With a heavy heart, the clone continued walking in.

He didn't understand the internal structure of the spacecraft, so he could only search the paths one by one. This spacecraft was huge with many passageways. He didn't know where to go. The clone only knew that he must head towards the central region to get to the control room of this spacecraft.

That was the core of the spacecraft.

After walking for more than ten minutes, he finally came to the control room. But when he reached his destination, he squinted his eyes.

The control room was enormous, and its infrastructure was strange. There were devices everywhere. Many aliens were operating them, looking busy. In the center, there was a spacious and comfortable resting area.

A young man was sitting on the sofa there. A few beautiful ladies stood beside him, feeding him crystal-clear fruits and massaging his limbs and back...

He must be enjoying himself!

There was a huge cage placed in front of him. The Leader of martial arts and the other martial warriors were locked in it.

“Pfft!” The young man had long blue hair, and his pupils were azure blue. He wore an unruly smile on his face as he spat out some seeds. “This Earth is quite interesting. It’s so underdeveloped, yet it’s a Land of Wakening.”

The clone’s gaze turned sharp. This young man was speaking in their language.

“Land of Wakening!” Wang Teng was shocked. He repeated the words in his heart.

The martial warriors in the cage remained quiet. They waited for the blue-haired young man to continue speaking.

The blue-haired young man took the glass of red wine that a beautiful lady had passed him and stood up. He stroll towards the martial warriors and continued, “There are many benefits in the Land of Wakening, enough to attract us. If not, I wouldn’t really want to come to his remote and backward planet.”

He took a sip of wine and opened his mouth again. “You guys are the leaders of this Country Xia. No one is more familiar with the Earth than you. I need you to cooperate with me.

“Of course, I’ll give you some benefits too. As long as you help me get what I want and make me happy, I can bring you along as my subordinates when I leave this planet. I will bring you out to a bigger world.”

The blue-haired young man was calm and composed the whole way. The arrogance in his voice couldn’t be clearer. It looked down on the Earth.

He felt normal to treat the Leader of martial arts and the others as his subordinates. He even felt that this was charity, a gift for them.

“The universe is huge. You might be formidable warriors on Earth, but out there, you’re nothing. Your survival is tied with me. You will only be able to break the barrier that has been stopping you and become a true warrior like me if you leave with me.

“So, you should consider this properly.” The blue-haired young man smiled confidently and sat back on the sofa. However, the scene he imagined didn’t happen. The people didn’t surrender.

“In your dreams!”

“Our Earth might be underdeveloped, but we will never be slaves!”

“That’s right, we’ll never be slaves!”

Angry shouts came from the cages. The martial warriors from Earth were infuriated. They stood up and glared at the blue-haired young man.

“Seriously... you’re tempting fate!” The blue-haired young man’s face became black as a pot, and his gaze turned cold.

Swoosh!

He raised his hand and pointed at the cage. A sharp ray of light penetrated one of the martial warrior's head, leaving behind a glaring bloody hole. The martial warrior fell to the ground.

"Old Chen!"

The martial warriors around him were flabbergasted. As they stared at the corpse in astonishment, a chill surged into their hearts.

This 12-star general-stage martial warrior got killed so easily.

Although the three great commanders were furious, they didn't make any sound. This blue-haired young man had a short fuse. Provoking him wasn't a good idea.

The Leader of martial arts closed his eyes as if he was asleep.

"Who is it?" the blue-haired young man suddenly yelled. He acted at the same time and pointed at the entrance of the control room.

Swoosh!

A sharp ray of light shot out, and the clone was forced to reveal himself from the Shadow Merging Secret Skill.

"How bold of you. How dare you infiltrate my spacecraft!" The blue-haired young man snorted. He disappeared on the spot.

The clone turned serious. He retreated when a figure appeared behind him and grabbed his throat.

Chapter 748 Nicholas. I'm Your Dad. Wang

Wang Teng didn't expect his clone to get discovered so quickly.

The actions of the blue-haired young man angered the clone. He accidentally released some aura and got detected by the other party. His ability and senses were frightening.

Wang Teng felt helpless. He couldn't control the clone's thoughts. There was still some difference between him and the clone.

Unfortunately, he was far away, so he couldn't do anything no matter how agitated he was. Anyway, he had expected this to happen. The clone would definitely die on this journey.

If he could figure out the opponent's ability, it would be a worthy loss.

Wang Teng's gaze turned cold. He looked into the spacecraft through the clone's vision.

The clone retreated the moment he got discovered. The blue-haired young man chased after him with a smirk. He clawed at the clone's neck.

This opponent might be a formidable warrior on this planet, but to him, he was just a nobody that he could kill with a pinch of his fingers.

The martial warriors in the cage got attracted by the commotion and looked over. When they saw the clone's face, they were stunned. It was an unfamiliar face!

"Die!"

While everyone was guessing his identity, the blue-haired young man became impatient. He stomped out and dashed towards the clone at the speed of lightning. A claw formed from blue light appeared on his hand. He wanted to grab the clone's neck.

The clone remained calm. Despite being in peril, it reacted instantly. Forces erupted from his body, and he punched at the blue claw.

Boom!

Crimson red Force enveloped the fist as it slammed onto the blue claw. The two martial warriors paused for a split second before an explosion occurred.

The clone made use of the impact to retreat ten meters. The blue-haired young man only flew back for three meters.

The difference in ability was vast!

"Very strong!" To the other martial warriors, the clone was already very powerful.

"Where did this martial warrior come from?" The spectators were stunned when they saw the clone remaining unscathed after taking a claw from the blue-haired young man.

They were puzzled too. They started guessing his identity.

By right, the other formidable martial warriors in Country Xia wouldn't be able to arrive so quickly. They had never seen this person around either.

It was impossible that they hadn't heard of his name.

Did he grow out from the soil?

The blue-haired young man stopped in his tracks. With a gloomy expression, he placed his hands behind his back and squinted at the clone. "Not bad. What's your name? You look a little ugly, but I have decided to give you a chance to be my subordinate."

His tone was full of conceit, and his expression was proud. He was the perfect display of a man who was born with arrogance.

"Oh my, I guess I have to thank you," the clone said in a mocking tone. "I don't mind telling you my name. Listen carefully, I'm the most handsome man in the universe, the one who charms thousands of ladies, women's best friend and the ruler of the red light district, Nicholas. I'm Your Dad Wang!"

The blue-haired young man was stunned. To hell with being the most handsome man in the universe and charming thousands of ladies.

Women's best friend and the ruler of the red light district?

Why don't you look at yourself?

Please forgive him for being inexperienced, but he had never seen such a shameless person!

“Nicholas.I’m Your Dad Wang, right? Damn it, what kind of name is this?” the blue-haired young man said helplessly.

He didn’t notice anything wrong with the name.

The Leader of martial arts and the three great commanders looked at him strangely. They had a familiar feeling.

Especially the three great commanders. They had seen how despicable someone was. This young man’s style was exactly the same as that fellow’s.

In addition, that name... Nicholas.I’m Your Dad.Wang!

Wang!

He must be Wang Teng!

I’m your dad? Wasn’t he scolding the blue-haired young man directly?

Only that fellow could think of such strange ways to tease a person.

As for his current appearance, they didn’t think that it was a problem. There were many ways for someone to change their faces.

The Leader of martial arts hadn’t witnessed Wang Teng’s shamelessness personally, but he had heard the rumors. Hence, he arrived at the same conclusion. He exchanged glances with the three great commanders and confirmed his thoughts.

It was that fellow!

They turned serious. Didn’t they tell him not to come? This fellow was too stubborn. He didn’t listen to them at all.

They were furious and agitated.

Despite knowing that he wasn’t the young man’s match, he still came. Wasn’t he walking right into the trap?

Wang Teng shouldn’t have done such a stupid thing!

They didn’t understand.

“Think carefully. Are you willing to be my subordinate?” The blue-haired young man asked again. He didn’t mind Wang Teng’s diss just now.

“Where are you from?” The clone asked a question of his own. He took out a blade and held it in his hand.

“It looks like you want to tempt fate!” The blue-haired young man didn’t want to tell his background. His gaze turned sharp when he saw the clone taking out his weapon.

“In that case, let’s fight. My fated enemy, this is a battle between two men. The winner will get the woman,” the clone said in a serious tone.

It sounded extremely stupid and strange.

The three great commanders: ...

The Leader of martial arts: ...

Everyone: ...

The blue-haired young man: ...

Damn it, where did this weirdo come from? Why was he so strange? How frightening.

What did he mean by the winner would get the woman?

Where did that woman come from?

The blue-haired young man felt goosebumps rising on his skin. He shivered uncontrollably.

“Have a taste of my blade!” The clone stepped forward and shot toward the blue-haired young man like an arrow. He slashed the sword down.

Crimson red light exploded in the air.

Flaming blade conscious!

Boom!

The roaring flames swarmed toward the blue-haired young man along with their scorching heat.

“You’re overestimating yourself.” The blue-haired young man snorted. A blue long sword appeared in his hand.

The long sword was as clear as crystal and gave off a glistening glow. It looked extraordinary.

The long sword trembled and turned into lingering shadows as it headed towards the crimson blade glow.

Boom!

An explosion rang through the air.

The clone squinted. His blade was chopped into two like a piece of tofu by the blue sword. Then, he felt a pain in his chest.

He lowered his head and noticed that the long sword had penetrated his heart.

The Leader of martial arts and the three great commanders closed their eyes in despair.

They didn’t want Wang Teng to come back because he was their last hope. However...

The clone raised his head and looked at the blue-haired young man, who was staring at him with a mocking smile. He cried in a strange tone, “Ah... you’re so strong! I’m going to die...”

Chapter 749 Greed

The smirk on the blue-haired young man's face froze. Why did he sound so fake and exaggerated?

He didn't seem like someone who was about to die!

Did he have a trump card?

The blue-haired young man was puzzled. At the same time, he was infuriated. He pulled out his long sword with a swoosh. Blood splattered out like a crimson flower.

"Ah!" The clone screamed in pain. He clutched his chest and shouted, "Pain, pain..."

Veins popped out on the blue-haired young man's forehead. He was in a bad mood.

Even the other martial warriors were speechless. The grim atmosphere was destroyed instantly. Everyone felt that something was strange.

They stared at Wang Teng curiously. Did he have a way of saving his own life?

"So noisy!" The blue-haired young man snorted. He wanted to kill Wang Teng once and for all with a slash of his sword.

"There's no need to trouble you. I'll do it myself!" the clone suddenly shouted, giving the blue-haired young man an evil smile.

The instant he finished speaking, a loud explosion came from within his body.

"Damn it!" The blue-haired young man was furious. He tapped his feet on the ground and flew back.

Boom!

The Force inside the clone's body exploded and swept out. He chose to self-destruct.

The impact of the self-destruction of a 13-star general-stage martial warrior was terrifying. The residual forces gushed out, destroying everything in their way.

After some time, the control room finally resumed calmness. The items in the center resting area were mostly in ruins. The sofa, the delicious wine, and the expensive pieces of furniture were all burning.

However, the devices weren't affected. Circular shields had appeared around them, blocking the impact of the explosion just now.

The explosion didn't hurt the shield at all.

The martial warriors in the cage weren't injured that seriously, but they looked miserable. Although they didn't bear the brunt of the explosion, this was still the self-destruction of a 13-star general-stage martial warrior. Ordinary people wouldn't be able to handle it.

Fortunately, the cage had a certain level of defense. If it didn't, some of the 12-star martial warriors might have been injured.

The blue-haired young man was furious. He wasn't angry because of the loss, but he felt that he got fooled. That Earthling made him unhappy even at his moment of death. This was a provocation. As someone who lived comfortably and enjoyed praises and flattery all the time, he couldn't accept it.

However, he had already noticed something amiss. That Earthling wasn't the true form. It was something like a clone.

It meant that the person behind this clone possessed this battle technique!

Earthlings might not recognize it, but he did at one glance.

The blue-haired young man's eyes shimmered, burning with greed. He turned to look at the Leader of martial arts and asked, "Do you guys know who that man is?"

Everyone remained quiet. No one replied to him.

"Do you think I don't dare to kill you? If no one replies, you're not of any use to me anymore," the blue-haired young man said coldly. His icy words made people's hearts jump. No one doubted him. The martial warrior who died a few moments ago was the best proof.

Some people started to waver. They couldn't beat this blue-haired young man. Worth it worth resisting for nothing? "We don't know him." The Leader of martial arts suddenly opened his mouth. "You'll get the same reply if you ask them. We have never seen this person before."

"Oh? No one knows him?" The blue-haired young man stared at the Leader of martial arts and sneered. "Do you think I'm an idiot?"

"We have never seen him before."

"Yes, that's right!" Since the Leader of martial arts had spoken, the others agreed readily.

They didn't know who the clone was, so they sounded extremely confident and certain when they spoke. They seemed to be telling the truth.

The blue-haired young man was confused. Were they really speaking the truth?

"This is a lie detector. Repeat your answers. If anyone is lying to me, you know the consequences," the blue-haired young man took out a device from his space ring and said.

The Leader of martial arts and the three great commanders felt their hearts skipping a beat.

They knew that it wasn't the same lie detector as the one they had on Earth. The alien civilization was much more advanced. It wouldn't be easy to fool this machine.

However, their expressions remained calm. There was no need to be anxious. They would just wait and see what would happen.

'You first.' The blue-haired young man pointed at the Leader of martial arts.

"I have never seen that person," the Leader of martial arts said without any hesitation. His expression didn't change and he was extremely composed.

Not recognizing him was different from never seeing this person's face. The Leader of martial arts had indeed never seen this clone's face before.

The lie detector gave its verdict. He wasn't lying!

The Leader of martial arts heaved a sigh of relief. Fortunately, Wang Teng didn't use his real appearance. Otherwise, he wouldn't be able to play around with words and escape the test.

The blue-haired young man frowned. He pointed at the three great commanders and ordered them to take the test. The result was the same.

The three great commanders had never seen Wang Teng's clone before either.

As the other martial warriors took the test one after the other, the blue-haired young man furrowed his brows. He was exasperated.

He wasn't stupid. He had guessed the crux of the issue.

The person who possessed this skill hid well. He didn't show his true face, so these people didn't know his identity.

It wasn't hard to guess the reason. He knew many people in the universe who possessed this cloning skill. All of them acted the same way. This wasn't a unique case.

Clones could become an important trump card. They mustn't expose themselves easily.

The blue-haired young man waved his hand and asked his men to bring these martial warriors down and lock them up. He was preparing to take control of the entire Country Xia.

In the Posiriah Plains.

Wang Teng opened his eyes and went through all the information he had received from his clone. After some time, he muttered to himself, "Capital Xia has fallen. The Leader of martial arts and the other martial warriors are captured. These aliens have a big plan.

"The blue-haired young man called Earth the Land of Wakening. Does this mean Force will undergo some changes when it comes to Earth? The opportunities here have attracted even them.

"If I'm right, those meteors formed when they were landing. That means that Country Boar has probably fallen too.

"What about the other countries?"

Wang Teng was worried. These aliens were too powerful. One person was enough to make a country lose all resistance.

Fortunately, he had used his clone to hide his identity. Based on their technology and ability, he wouldn't be able to escape if he was discovered.

Even so, it wouldn't be difficult for them to find him. His reputation in Country Xia was huge. They would be able to locate him after some investigation. Even if it was just a slight suspicion, the blue-haired young man wouldn't let go of this suspect.

Before that happened, he needed to raise his ability quickly to welcome the upcoming dangers.

Wang Teng's gaze turned sharp. He closed his eyes and looked at his attributes panel. His clone had picked up some attributes from the blue-haired young man...

Chapter 750 Sahara

Constellation Force (Water)*120

Imperial Realm Spirit*55

Imperial Realm Enlightenment*46

There were only three attribute bubbles, but Wang Teng was able to get some information out of them.

This blue-haired young man possessed water Force. Of course, he might also have other Forces. Furthermore, his spirit had reached the Imperial Realm too.

This blue-haired young man was probably at the same level as Sha Didi. They were both at the planetary stage, but there was a stark difference in their abilities.

His sword was also an exceptional weapon!

The blade his clone used was a 9-star rune blade he stole from the base of the Zhenli Clan. Yet, it got easily cut into two by that sword.

Wang Teng analyzed the blue-haired young man's ability using these details and compared it with himself. No matter what, he needed to raise his realm to the planetary stage. That way, he had a chance to fight with that young man.

Before that, he must convert all his five basic element Forces into constellation Force.

Many thoughts flashed through Wang Teng's mind. Finally, he made his decision. He added the blank attributes to the five planetary stage scriptures.

The higher his grasp of the scriptures, the faster his cultivation speed would be. Hence, Wang Teng decided to invest the blank attribute into the planetary stage scriptures.

Foundation, well-versed, specialized, small achievement, big achievement, perfected...

Wang Teng raised the levels gradually before stopping. He realized that a large number of blank attributes were needed to raise these scriptures from the foundation to the perfected stage.

The foundation stage required 500 points. The well-versed stage required 1000 points, then 3000 for the specialized stage, 5000 for the small achievement stage, and 8000 for the big achievement stage. Finally, the perfected stage required 10000 points.

In summary, he needed 27500 points to reach the perfected stage for one scripture. If he wanted to max out all five scriptures, he would need 137500 points.

Wang Teng's face turned green.

Damn it, he had worked so hard to accumulate 123780 points of blank attributes. Only to find out that they weren't enough!

F**k!

Wang Teng couldn't help but curse.

What's so great about these planetary stage scriptures? Why do they need so many blank attributes?

Wang Teng almost had a breakdown.

He felt like a villager who came into a second-tier city hoping to buy a house with 500,000 RMB, only to realize that this was the deposit of a small studio. He could buy a mansion with the same amount of money in the countryside. That was not the end. After paying the deposit, he still had to work hard to pay off the loan.

"Add it. These five scriptures are nothing to me. I believe I can handle them!" Wang Teng was a decisive person. The need of the hour was to increase his ability. He gritted his teeth and added all the blank attributes to the scriptures.

This was an investment. Once his ability increased, he could gain more attribute bubbles.

Also, he wanted to see what would happen if he raised these five seemingly-connected planetary stage scriptures to the perfected stage.

After adding the blank attributes, the levels of the five scriptures shot up instantly.

Star Fire Scripture: 10000/1000 (perfected)

Star Water Scripture: 10000/10000 (perfected)

Star Metal Scripture: 10000/10000 (perfected)

Star Earth Scripture: 10000/10000 (perfected)

Star Water Scripture: 4280/8000 (big achievement)

All the blank attributes were used. Besides the Star Water Scripture, the other four had reached the perfected stage.

Wang Teng didn't waste any time and began cultivating. Instantly, the Forces in his body started boiling as if there was a heater below him.

Swoosh!

Force swarmed around his body in waves. It spread to his limbs and meridians following the path of the scriptures. Every time a circulation was completed, a part of his ordinary Force got converted into constellation Force...

The conversion speed was incredible. Other people might need half an hour to complete one cycle after reaching the big achievement stage for the scripture, but he only needed 10 minutes.

This was thrice as fast.

No wonder the difference between a normal person and a genius was so huge.

One day later, a small portion of his five basic Forces had been converted into constellation Force. He stopped this cultivation session and got up. After stretching, he took out the Minos III spacecraft from his space fragment and boarded it.

Wang Teng gave the order when he reached the control room. "3957, let's head to the Sahara!"

"Yes, master." Mick 3957's voice was heard.

Minos III spacecraft rose into the sky. Fluctuations appeared in the air before it disappeared on the spot.

The Sahara used to be the largest desert on Earth. It was still an insurmountable presence to humans because of its vastness and the mysterious and powerful star beasts living inside.

There were almost no signs of humans here, so it naturally became a heaven for star beasts that used to live in deserts.

The star beasts moved around all the time. Few people knew about them. Only the martial warriors who had entered deep into the Sahara would know the secrets hidden here.

Wang Teng drove the Minos III spacecraft and landed on a random oasis in the desert. Walking down the spacecraft, he looked around him and got surprised. The oases situated in the vast desert were miracles of life. They were like pearls in this sea of sand. They were etched in the desert, giving off a magical glow.

After the invasion of Force, the plants in the oasis appeared even denser. The trees climbed high up, acting like pillars of the sky.

Wang Teng kept the Minos III spacecraft and strode forward. He saw a clear lake in the middle of this oasis. It was so deep that he couldn't see the bottom.

Wang Teng stood at the edge of the lake and activated his Eyes of Essence and Spiritual Sight. His gaze went through the surface and reached deep into the lake.

A large ball of Force light entered his vision.

Roar!

The 11-star lord-level star beast at the bottom of the lake seemed to have sensed his presence. It gave an angry roar as a warning.

Bang!

The surface of the water exploded from the frightening soundwaves, and a huge beast rose up.

This was a hideous and strange-looking fish. It flapped towards Wang Teng and opened its wide mouth, revealing two rows of sharp teeth that looked like a sawtooth. They gave off a sharp glint like metal.

"How welcoming. You gave me a gift the instant I came." Wang Teng shook his head and raised his finger.

Blood Moon Thorns!

Numerous blood-red needles were fired at the strange-looking fish amidst a red glow.

Hiss, hiss, hiss!

The strange-looking fish didn't expect Wang Teng to be so powerful. Its body was in mid-air. so it couldn't dodge in time. It got stabbed by the needles directly.

All the light needles penetrated the fish's body. It froze in the air before plummeting towards the ground.

Boom!

It slammed right in front of Wang Teng and died immediately. A few attribute bubbles dropped.

Get it!

Water Force*680

Water Force*350

Blank Attribute*1250

Wang Teng didn't care about this strange-looking fish. His expression remained indifferent as he turned and walked out of the oasis, entering the desert.

His massacre journey had begun again!
