

Martial Arts 761

Chapter 761: Blue-Haired Young Man, Defeated!

Boom!

The waves and flames enhanced each other's beauty as they lit up the entire sky.

The people below raised their heads. They were flabbergasted. Was this the power of a battle between planetary-stage martial warriors?

Every attack was like a catastrophe. It was appalling.

Even a 13-star general-stage martial warrior wouldn't be able to withstand this blow, much less a normal general-stage martial warrior.

The difference was vast!

"Can Wang Teng win?" Dan Taixuan asked in a hoarse voice. She was worried.

Ye Jixin was just beside her. He sighed and shook his head. There was astonishment in his gaze. In the past, they were formidable warriors on Earth, prominent figures of their generation, and widely acknowledged talents.

However, in front of these powerful planetary-stage martial warriors, all their pride was shattered, and their mentality almost collapsed.

The Wang family was anxious too. Grandpa Wang, Wang Shengguo, and Li Xiumei stared intently at the battle in the sky. Even if their hearts trembled at the frightening impact, they didn't shift their gazes away. They were worried that Wang Teng might get injured.

Lin Chuhan and Lin Chuxia were also staring at the violent collisions in the sky. The worry on their beautiful faces was apparent.

Zi Ling couldn't care about them anymore. She thought that this Earthling was just a small character whom her master could kill easily, but he managed to force her master to this stage.

She started to get nervous. Would her master fail miserably at this simple task?

He wouldn't, he wouldn't...

Zi Ling shook her head furiously to swing this absurd thought out of her mind.

At this moment, a change occurred to the stalemate in the sky. A terrifying energy fluctuation exploded within the roaring flames. It kept expanding...

Gold, blue, yellow, green!

Four glaring light rays shot out from the crimson flames.

Against the backdrop of the burning flames, the rays of light looked like frightening airwaves surging out of a flaming bomb on the verge of exploding.

This change occurred without any warning!

A scary explosion erupted amidst the flames before everyone could react.

Boom, boom, boom!

Exceptionally violent Force fluctuations swept towards towering waves opposite it.

The sky-high waves shattered like a piece of glass. The waves formed by water Force evaporated under high heat. They turned into water vapor and rose into the air.

“How is this possible!” Screams of fear and disbelief came from behind the waves.

Boom!

The voice was drowned by the violent blast. The terrifying residual impact swept through the sky, submerging the last wave at the back.

The impact hadn't died down. A figure was thrown out from the waves.

Bang!

The figure was thrown back a few hundred meters, smashing directly into a skyscraper at the side. A large hole in the shape of a human was left behind.

The figure disappeared immediately into the building. However, everyone still saw his figure clearly. It was the blue-haired young man!

“Young Master!” Zi Ling was flabbergasted. Her eyes widened in shock, unable to believe what was happening.

Her greatest support got defeated so easily?

And he lost to an Earthling from this underdeveloped planet! How could she accept this reality!

The other alien martial warriors were horrified too. Their expressions were the same as Zi Ling. They couldn't believe that their young master lost to an Earthling.

At this moment, a figure soared down from the sky, heading straight for the building the blue-haired young man had collided into.

It was Wang Teng!

He was going to kill the blue-haired young man!

“How dare you!”

“No!”

The other aliens gritted their teeth. They knew that Wang Teng was powerful, but they had to act now. They dashed forward and attempted to stop him.

“Go away!”

Wang Teng's gaze turned sharp. He wielded his Mo Que, and a glaring white blade glow cut through the air at the speed of lightning.

The powerful martial warriors felt their hearts shuddering when they met Wang Teng's gaze. Extreme fear overwhelmed them. They were stunned for a moment.

Swoosh!

The blade glow slashed through the air, chopping the alien martial warriors into two like vegetables. They didn't even have the time to scream. Large amounts of blood spurted out, and death came instantly. Their severed bodies plummeted to the ground.

The other martial warriors turned pale when they saw this scene. They were so frightened that they didn't dare to move forward.

Wang Teng was too lazy to look at them. He rushed into the ruins of the skyscraper. After a few seconds, he came out with someone in his hand.

The person was in a miserable state. His clothes were torn and tattered, and blood kept dripping down the edge of his lips. He seemed to be seriously injured.

However, he wasn't unconscious. He felt humiliated to be caught by Wang Teng and struggled furiously.

But he had no way of resisting Wang Teng now. He looked like a duck caught by the neck and was waiting to get slaughtered.

Wang Teng walked out of the ruins with his blade in one hand and the blue-haired young man in another. He scanned the crowd with an emotionless gaze.

There was blood shining on the blade. It dripped on the ground drop by drop.

The alien invaders were thunderstruck. They looked at the tall and lofty figure as if he were a frightening presence. No one spoke.

Silence!

Dead silence!

The next instant, cheers erupted.

It wasn't from the Wang family or from Ye Jixin and Dan Taixuan. It was from the numerous ordinary people watching around them.

Many people had started watching when the blue-haired young man began torturing the Wang family. Thus, they saw the blue-haired young man getting defeated first-hand and cheered.

"Won!"

"We won!"

"Alien invaders, get out of Capital Xia! Get out of Earth!"

...

Everyone started cheering and screaming, venting the emotions in their hearts. They were in despair, thinking that they would become the slaves of these aliens and live under their command. They didn't expect Wang Teng to come back and defeat these formidable alien invaders.

How could they not be happy! How could they control their cheers!

The Wang family regained their senses and cried in joy. No one could control their emotions after experiencing such ups and downs.

Li Xiumei covered her mouth. Tears flowed down her eyes. She had suffered much worry and fear.

Wang Shengguo clutched her hand and pulled her into his arms. He patted her back, comforting her, "It's alright, it's alright."

"We won!" Dan Taixuan heaved a long sigh of relief. She couldn't hide the happiness in her eyes.

"Yes, we won!" Ye Jixin's gaze was complicated. He was happy, but he felt the sadness of losing out.

Wang Teng had progressed too quickly!

He couldn't see his back view anymore.

A strong sense of helplessness and frustration filled up his heart. He felt that he had been forsaken by the era.

Chapter 762: Have You Thought Of How You Should Die?

Wang Teng floated down from the few hundred meters tall building. He threw the blue-haired young man on the ground as if he were throwing a dead animal away.

Bang!

The blue-haired young man rolled a few times due to inertia. His entire body was covered with dust, and he looked tragic.

No one could see any signs of arrogance in him anymore.

"You!" The blue-haired young man trembled in anger. His face turned green. He had never suffered such embarrassment.

He struggled to get up. Even though he was defeated, he wouldn't allow himself to appear miserable.

Zi Ling was standing not far away. When the blue-haired young man raised his head, he saw her standing there absentmindedly. He was furious.

"Why are you staring into space? Help me up!"

"Oh, right." Zi Ling was dumbfounded by Wang Teng's fearless actions and had just regained her composure. She quickly rushed forward, wanting to help the blue-haired young man up.

However, at this moment, Wang Teng walked over.

Zi Ling's eyes landed on his indifferent face. Her body tensed up, and she didn't dare to take another step forward.

“Do you want to die?” the blue-haired young man roared. His entire body was in pain. His expression turned distorted when he noticed Zi Ling’s hesitance.

“Did I say you can get up?”

A voice entered the blue-haired young man’s ears. His expression changed uncontrollably. However, before he could react, Wang Teng stepped on his head.

Bang!

The blue-haired young man felt a strong force, and his head banged into the ground involuntarily. It gave a dull thud.

Wang Teng stepped on the blue-haired young man’s face, allowing him to have intimate contact with the ground.

The blue-haired young man widened his eyes in astonishment. He didn’t believe that Wang Teng dared to do this to him.

Zi Ling was dumbstruck. She stared at Wang Teng in a daze as if he were a devil. Her face turned pale, and she took a few steps back unconsciously.

This man was so scary!

“Wang Teng!” The blue-haired young man squeezed these two words out of his throat in exasperation. He sounded bitter and furious like there was a deep hatred between the two of them.

Wang Teng lowered his head and met the blue-haired young man’s gaze. He remained calm. However, the edge of his lips lifted up a little. “I like your expression.

“You look like an evil dog wanting to bite a person but is unable to. After all, you’re just a dog.”

Anger shot out of the blue-haired young man’s eyes. His gaze turned cold and ruthless. He said angrily, “Do you know who I am?”

“I don’t want to know the identity of a dead person,” Wang Teng replied calmly. He increased the strength of his leg and pushed the blue-haired young man’s face against the ground, rubbing it violently. Bloody wounds appeared on his face due to the abrasion. More blood flowed out of his mouth.

“Haha, ignorance is bliss!” The blue-haired young man snorted even though he was being tortured. “The entire Country Xia—no, the entire planet will pay a terrible price for your actions. All the humans on this planet will die because of your arrogance and ignorance.

“You can kill me but none of you can stay alive either!

“Remember, none of you! Your parents, your woman, your friends, everyone will suffer horrendous torture before dying and it’s all because of you.

“Do you think you can rest in peace after defeating me?

“Naive, ridiculous, ignorant!”

The blue-haired young man's gaze was filled with bitterness and contempt. He seemed to be mocking Wang Teng for overestimating his ability and his ignorance.

"That's right, our young master is the direct descendant of the Lan family from the Olant Federation. Do you know what kind of status the Lan family has? It controls three life planets. The martial arts progression and technology on them are many times stronger than your planet. If you touch him, the entire Earth will die."

/ please keep reading on MYBOXNOVEL(dot)COM.

Zi Ling seemed to have found her confidence again. Pride reappeared on her pretty face. She looked at Wang Teng with disdain and said, "Release Young Master and kneel to beg for mercy. Young Master might act benevolent and spare the lives of the other humans on this Earth."

Dan Taixuan and the Wang family walked over at this moment. Their expressions turned ugly when they heard Zi Ling.

Olant Federation!

Lan family!

Control three life planets!

They didn't dare to believe that there was such a frightening huge figure. If they got targeted, Earth would be done for.

No one expected another terrifying presence to come out after they finally defeated the alien invaders.

There seemed to be dark clouds hovering above them, pressing down on them until they couldn't breathe.

Wang Teng was stunned too. He wasn't frightened, but he didn't expect this blue-haired young man to have such a powerful background.

Three life planets? This power was amazing!

"Are you scared? If you are, release Young Master. When the martial warrior troop from Lan family descends on Earth, you will regret your decision." Zi Ling thought that Wang Teng was afraid when she saw his expression and looked at him proudly.

"Noisy!" Wang Teng frowned. He waved his hand, and his Force gathered into a large hand. He slapped Zi Ling violently.

"Pfft!"

Zi Ling spat out a mouth of blood along with two teeth. She was thrown a few meters away. She covered her face in disbelief.

This Earthling dared to hit her?

"I never hit ladies, but you're too evil, so you're not a lady." Wang Teng glanced at her.

Zi Ling: ...

What do you mean by I'm not a lady!

This fellow said that she wasn't a lady because he wanted to find an excuse to hit her!

How vicious was he!

Dan Taixuan's expression turned strange. She stared at Zi Ling as if she was an idiot.

This lady wasn't powerful and was just a servant. Where did she get her sense of superiority from? How dare she order Wang Teng as if she had control over him.

She deserved to be beaten. She didn't understand her own ability!

"Good job!" Lin Chuxia shouted. She complained to Wang Teng, "Brother-in-law, she bullied us just now and even wanted to groom us so that we could serve her young master."

Wang Teng looked at the Lin sisters apologetically when he heard her. Then, he squinted slightly, shooting out an ice-cold dangerous glare at Zi Ling. "Have you decided how you should die?"

This lady dared to lay her hands on Lin Chuhan and Lin Chuxia. She must die!

Zi Ling shivered. She could feel the killing intent from Wang Teng and quivered in fear. Her beautiful face turned extremely pale. She stuttered, "I, I didn't."

"I'm asking if you have decided how you should die?" Wang Teng frowned and asked again.

"No, don't kill me. Young Master, save me!" Zi Ling felt Wang Teng's desire to kill her. She trembled like a leaf in the wind in fear and started pleading for help from the blue-haired young man below Wang Teng's feet.

... What an idiot! The blue-haired young man cursed in his heart. He couldn't even save himself. How could he help him?

Wang Teng looked at her in disdain when he saw her acting like a bitch. He raised his hand and pointed.

Swoosh!

A blood rose blossomed on Zi Ling's forehead. It was beautiful!

Chapter 763: Don't Be Afraid, It Doesn't Hurt

The blood-red flower blossomed on her forehead. It was gorgeous.

This was a lethal flower!

It took away a beautiful life.

Zi Ling's big eyes were wide open as the glimmer in them disappeared gradually, replaced by stillness.

The fear and disbelief remained on her face.

She didn't think that Wang Teng would really kill her without any hesitation after he said he would. He didn't even give her a chance to beg for mercy.

Her life was taken away in a split second.

Weak and fragile.

How pitiful!

How sorrowful!

The blue-haired young man wasn't saddened by her death. However, his heart palpitated, and he had an ominous feeling. It sent chills down his spine and caused goosebumps on his body.

This Earthling was so scary!

He killed without batting an eye!

His expression didn't change from the moment he murdered Zi Ling. He remained extremely indifferent.

How many people had he killed to gain this ruthless personality?

Many talents he knew in the universe couldn't reach this stage.

He suddenly regretted provoking this Earthling!

Clone skill?

The Land of Wakening?

They were nothing compared to his life. They could all be forsaken.

He was afraid that Wang Teng would kill him immediately.

It was possible based on the decisiveness and cruelty he had just displayed. The power of the Lan family might not be able to scare a ruthless man like him.

Wang Teng didn't know what the blue-haired young man was thinking. However, he would kill anyone that hurt Lin Chuhan and his family. There was no room for negotiation.

He didn't care who it was!

This was his bottom line!

He didn't just frighten the blue-haired young man. Even Lin Chuhan and Lin Chuxia were stunned. They were touched. Their gaze turned soft and gentle as they looked at him.

This young man was able to do this for them! It was worth it!

Dan Taixuan, Ye Jixin, and the others didn't interrupt him. They had seen too many deaths and knew that you mustn't show mercy to your enemy. They might have been shocked by the blue-haired young man's background a moment ago, but after thinking about it carefully, they understood that there was no room for discussion.

Would the blue-haired young man let them go if they begged for mercy?

They weren't naive!

Hence, everyone looked at Wang Teng to see his decision. The atmosphere turned tense.

The blue-haired young man felt the palpable tension too. His gaze flickered. However, his arrogance didn't allow him to plead for his life. He could only force himself to remain calm.

"You can't kill me. The entire planet will have to take responsibility for your actions. You can't bear the consequences.

"Think about your parents, your companions. They won't remember your good deeds. They will only know that you were the one to get them killed. You will be condemned by everyone!

"If you let me go, I promise I'll pretend nothing had happened. All of our grudges will be thrown away, and we'll stay in our own lanes from now onwards.

"Based on your talent, the universe will be a huge stage for you. You will gain greater strength and see a broader future. You don't have to struggle with me. You're a smart person. You should understand the ways of the world."

1

The blue-haired young man guided him systematically to remove Wang Teng's thought of killing him. He was smarter than Zi Ling. He didn't force Wang Teng too much, but he still remained a little tough.

Although his face was being stepped on, he was still able to remain calm and negotiate his survival.

He was the direct line descendant of a large family, so he wouldn't give up easily.

Wang Teng lowered his head. There was an ambiguous smile on his face as he said with interest, "Do you think I care about what others think of me?"

"... What do you mean?" The blue-haired young man was stunned.

"What do I need to care about other people's death?" Wang Teng asked.

The blue-haired young man looked at Wang Teng's nonchalant expression and felt his blood running cold. He realized that he had made a huge blunder... he overestimated Wang Teng's bottom line!

"How cruel. You don't care about their lives." The blue-haired young man felt a bitter taste in his throat.

"You're the vicious one. After all, you killed them, not me. Even if we went to hell, you will get punished. It has nothing to do with me. When I have the ability, I'll take revenge for them," Wang Teng said righteously.

The blue-haired young man was speechless.

Damn it, he felt that Wang Teng made so much sense. He didn't know what to say.

"Anyway, if I bring my family and friends away from Earth, will your Lan family be able to find us?" Wang Teng smiled and asked.

"You!" The blue-haired young man was astounded. He guessed what Wang Teng wanted to do.

The universe was huge. If Wang Teng brought his family and friends with him, the Lan family would be looking for a needle in a haystack. It would be almost impossible to find them.

Besides, if Wang Teng killed him, he didn't know if the Lan family would create a fuss over a dead descendant.

After all, the Lan family was just a normal elite family in the Olant Federation. It wouldn't be hard for Wang Teng to find a more powerful family to support him with his amazing talent.

The blue-haired young man's face turned ugly.

He thought that this Earthling was inexperienced, so he would listen obediently to him after scaring him a little. Yet, he wasn't affected by his words at all.

Wang Teng squatted down and smiled. "So, don't think about threatening me. I don't mind threats."

A golden brick suddenly appeared in his hand. He aimed it at the blue-haired young man's head.

"What do you want to do?" The blue-haired young man jumped in fright. He had a bad feeling.

"It's alright, don't be afraid. It won't hurt. It will be fine after a while," Wang Teng comforted him softly.

... *Do you think I'll believe you!* The blue-haired young man screamed in his heart.

Wang Teng didn't give him any chance to react. He raised his brick and smashed it down.

"No..."

The blue-haired young man squinted. The remainder of his sentence was pushed back into his throat by the brick.

Bang, bang, bang...

Dull thuds resounded in the area.

Everyone saw Wang Teng holding a brick and hurling it at the blue-haired young man's face. His arm turned into lingering shadows because of his speed. The muscles on their faces started twitching.

Ruthless!

This young man was heartless!

He was a brick maniac!

Couldn't he give him a fast death? Every time he used the brick, the person would turn into a pig's head.

This wasn't humane!

Wang Teng didn't think too much. He picked up some attribute bubbles dropped by the blue-haired young man, but he felt that it wasn't enough. There weren't many spirit and enlightenment attributes, so he continued beating him.

That was it. He had no other intention. He didn't like torturing people!

Chapter 764: Cleaning Up And Rescue

"Sob..."

The blue-haired young man opened his mouth and wanted to say something, but Wang Teng would shut him up with a brick every time. He could only groan in pain in the end.

Bang, bang, bang...

The dull thuds from the brick echoed in the air.

This was a ghastly scene!

Everyone turned their heads away. They couldn't bear to look at it even though he was their enemy. He was honestly miserable. His head had swollen to twice its size and looked like a pig's head.

None of the alien martial warriors dared to make a peep. They were afraid of following Zi Ling's path. If they offended Wang Teng, they would be killed with a point of his finger.

They felt terrified when they saw the blue-haired young man being beaten personally. This Earthling was a monster!

They couldn't afford to provoke him.

The alien martial warriors silently took a few steps back. They wanted to stay as far away from Wang Teng as possible.

After some time, Wang Teng finally stopped. The brick disappeared as if it had never appeared.

"Sigh!"

Wang Teng let out a long sigh. He looked at the attribute bubbles around him and nodded in satisfaction.

Get it!

Imperial Realm Spirit*12

Imperial Realm Spirit*15

Imperial Realm Enlightenment*15

Imperial Realm Enlightenment*14

Imperial Realm Spirit*10

...

Wang Teng gained 128 points of Imperial Realm Spirit and 142 points of Imperial Realm Enlightenment. His efforts didn't go to waste.

The blue-haired young man lay on the ground, staring at the sky absentmindedly. He seemed to have lost his soul.

Wang Teng patted his face and chuckled. "Not bad. I'll keep you alive for now. We can slowly play in the future."

The blue-haired young man's mind was in a mess. He was furious and appalled when he heard Wang Teng's words. After vomiting a mouth of blood, he fainted.

"Huh? Why did you faint so easily? Your mentality is so weak." Wang Teng shook his head. He was slightly surprised.

Everyone: ...

What do you mean by his mentality is weak?

Is this a mentality issue? You hit him brutally. It would be a miracle if he didn't faint.

Wang Teng locked the blue-haired young man with Force sealing chains and threw him in a cage. Seeing everyone's confused expression, he explained, "Keep him alive and question him later. There must be a reason why the aliens suddenly invaded Earth. From what I know, we aren't the only country controlled by aliens. There are aliens in other countries too. We need to make preparations."

Dan Taixuan and the others were enlightened. They almost got blinded by hatred and killed this blue-haired young man directly. It was fortunate that Wang Teng had reminded them.

Wang Teng turned and looked at the other alien martial warriors.

"What do we do with them?" Ye Jixin asked.

"Lock them up." Wang Teng wished to kill them, but he had to get more information from them, so he could only wait.

"Kneel down and surrender. Anyone that doesn't will be killed!"

"Live or die. It's your choice," Wang Teng glanced at them and said coldly.

The alien martial warriors' expressions turned distorted. They felt humiliated.

This Earthling was ordering them to kneel down and surrender. This was too much. However, their hearts shuddered when they remembered the situation of the blue-haired young man.

Even their young master got stepped on and beaten by Wang Teng. His ending was miserable. Did they think that they would be better than him?

If they resisted, their ending might be worse...

Boom!

Boom!

The alien martial warriors kneeled down cowardly. They didn't dare to resist at all. No matter how proud they were, they had to submit in front of absolute power!

The martial warriors around them felt great satisfaction when they saw this scene. Their gazes were filled with admiration upon looking at Wang Teng again.

"Organize your men and lock these people up. Let's save the Leader of martial arts," Wang Teng said to Dan Taixuan and Ye Jixin.

The two of them nodded and started acting.

Wang Teng had already surpassed them in terms of ability. Thus, when they heard his order, they obeyed unconsciously.

Wang Teng turned to his family members and scanned their faces. He felt guilty. "I'm sorry that I pulled you down."

"This isn't your fault." Grandpa Wang patted his shoulder and said, "You have already done your best." He felt his heart hurting for Wang Teng.

"Son, are you injured?" Li Xiumei came forward and sized him up carefully. Tears started welling in her eyes when she saw the injuries on his body.

"Mom, I'm fine. These are just scratches," Wang Teng said.

"Really? Don't lie to me," Li Xiumei asked worriedly.

"Don't worry, your son is amazing. He won't get hurt." Wang Teng laughed and patted his chest.

"Alright, alright, stop patting yourself with so much force." Li Xiumei stopped him quickly.

"That's great. Your life is the most important," Wang Shengguo said. His eyes turned a little red. He was worried about Wang Teng too.

"Oh right, take a look at your classmates. They seem to be heavily injured," Grandpa Wang suddenly said.

"Yes!" Wang Teng nodded and went to check on his classmates.

After some time, he heaved a sigh of relief.

"It's alright, they have just fainted from the electrocution. They are not injured."

He took out a few dan pills and fed them to the unconscious guys. Their breathing got more stable.

"That's good. These children got hurt because of you. You should treasure these friends." Grandpa Wang felt emotional.

None of his friends, be his university classmates or childhood friends, gave in to the blue-haired young man's threats. They were sincere in making friends with Wang Teng. This was precious.

A friend in need was a friend indeed!

Grandpa Wang felt that they were all people worth befriending.

Wang Teng nodded. There was a hint of gentleness as he glanced at them.

"Wang Teng, all the alien martial warriors have been apprehended. None of them ran away. There are a few other alien invaders in the other big cities, but they are too far away, so we can't get rid of them yet. We can only catch them after we settle the things here," Dan Taixuan said as she floated in the sky.

Wang Teng nodded and said, "Grandpa, Mom, Dad, find a safe place to hide. I'll go and save the Leader of martial arts first."

“Go ahead. Don’t worry about us,” Grandpa Wang said.

Wang Teng left with Dan Taixuan. They stared at the alien spacecraft above them.

“The spacecraft is huge. I wonder where the Leader of martial arts is at,” Dan Taixuan frowned and said.

“I came here before. I know where he is,” Wang Teng replied.

“You came here before?” Dan Taixuan was shocked.

“I have to understand the aliens’ ability if I want to fight with them. When they descended on the planet, I came to scout,” Wang Teng replied indifferently.

He said it casually, but Dan Taixuan could imagine how tough and dangerous it was.

This fellow was really daring!

Dan Taixuan felt complicated. She couldn’t be compared with him.

The two of them met up with Ye Jixin and entered the spacecraft. Under Wang Teng’s lead, they headed directly to the room where the Leader of martial arts was locked up.

The room looked like a cell. The space was enclosed, and there was a martial warrior guarding outside. When he saw them, he was surprised. He shouted, “Who are you?!”

The voice alerted the martial warriors locked up inside. They opened their eyes one after another and looked out.

They were stunned when they saw Wang Teng. Then, they felt astonishment.

Why were they here?

The three of them couldn’t understand what the alien martial warrior was saying. He was speaking in a language they had never heard before.

The alien martial warrior charged toward them directly when he didn’t get a reply. His expression changed, and he raised his fist at them.

13-star general-stage power exploded!

In the past, Wang Teng might need some time to take care of them. But now, it was nothing to him.

“Go away!”

A shout escaped his mouth while a ray of white light flew out of his eyes.

Spirit Penetration!

The alien martial warrior froze on the spot. His fist was still raised in the air, but his gaze had turned muddy. It had lost its glimmer.

Wang Teng walked past him as the alien martial warrior fell to the ground. He was dead.

Dan Taixuan and Ye Jixin were flabbergasted.

This...

The 13-star general-stage martial warrior died from the shout alone. Was the planetary stage so scary?

The Leader of martial arts was in a daze too. He knew how powerful these alien martial warriors were since they were guarding them.

This was a 13-star general-stage martial warrior who possessed a special Force. The Leader of martial arts couldn't promise that he could defeat him.

Yet, he died because of Wang Teng's shout!

When did Wang Teng possess such ability?

Everyone was full of questions.

Dan Taixuan and Ye Jixin went forward and wanted to open the door to release the Leader of martial arts and the others. However, they realized that this door was built with advanced technology, and they didn't know how to open it. They felt awkward.

Wang Teng had experience. He picked up the alien martial warrior from the ground and pushed his face against the wall beside the door.

Beep! The door opened.

"That's it?" Dan Taixuan and Ye Jixin were confused.

Bang!

"That's it!" Wang Teng threw the corpse of the alien martial warrior to the side and entered the room.

Everyone: ...

"Why are you guys here? What's the situation outside?" the Leader of martial arts asked hurriedly.

He might appear calm, but he was agitated too. He was worried about the status of their country.

"Don't worry, Wang Teng has solved the alien invasion problem. We have taken over this spacecraft," Dan Taixuan smiled and replied while unlocking their chains.

"Solved!"

The Leader and the three great commanders found it unbelievable. They stared at Wang Teng in disbelief.

This terrifying alien invasion was resolved?

Seriously?

"I've already advanced to the planetary stage!" Wang Teng nodded and replied.

Chapter 765: This Is The Land I Conquered! (1)

The planetary stage!

The Leader of martial arts' eyes shone brightly. His gaze turned sharp.

"Did you say that you have reached the planetary stage? Is it the stage above the general stage?" He stared at Wang Teng with an intense gaze.

"That's right. It's the level above the general stage!" Wang Teng nodded and said.

The Leader of martial arts couldn't explain his bewilderment. This was the stage every country on this planet was looking to advance to. Yet no one had exceeded.

However, Wang Teng was telling him that he had achieved the breakthrough and reached a higher stage.

He displayed great composure by not showing any exaggerated expressions or actions on the spot.

"The planetary stage! When you reach that level, you can escape from the boundaries of Earth." The Leader took a deep breath and asked, "Did you form a Force star in your body?"

"It looks like you have already guessed it. Once you advance to the planetary stage, you can roam the universe with your body, and you will have a Force star in your body too." Wang Teng was surprised. He couldn't help but respect the Leader's sensitivity. He only mentioned it, but the other party already knew what this stage represented and guessed the secret of the advancement.

"This isn't hard to guess. We have studied the planetary stage for a long time, so there must be some results." The Leader shook his head when he saw Wang Teng's expression. "Anyway, it's a good thing that you managed to reach the planetary stage."

The three great commanders and the other family heads finally regained their senses.

The planetary stage!

Wang Teng had reached that stage!

Everyone stared at Wang Teng intently, especially the family heads. They wished that they could cozy up to him now.

He must have found a scripture that helped him to break through to the planetary stage. If they could get some advice from him, the planetary-stage martial warriors might appear in their family after a few years.

This was a huge opportunity!

They must keep close to him and not let him get away!

No one asked him how he managed to reach the planetary stage. Scriptures were a secret, no matter what situation it was. No one would share their scriptures with others.

Even the Leader didn't dare to force Wang Teng to give them his planetary stage scriptures for the nation's sake.

Also, even if he gave them the planetary stage scripture now, only the Leader might have the chance of advancing within a short time. The others wouldn't be able to achieve their breakthrough without long hours of practice.

Talent wasn't something you could learn.

Not everyone was a genius like Wang Teng.

You mustn't be impatient sometimes.

Fortunately, everyone at the scene was smart. They wouldn't be so insensitive and ask such stupid questions.

After some time, they walked out of the spacecraft.

The Leader stood at the entrance of the spacecraft and looked down. The entire place was in ruins. The center of Capital Xia was destroyed. There was sorrow in his eyes. "It's been many years. I watched the city progress step by step only to get destroyed by the alien invaders today."

"There's no construction without destruction. This might be a good thing for Capital Xia or the Earth in general," Wang Teng said.

The Leader nodded. He knew that this wasn't the time to grieve. He quickly gathered his emotions and said, "We need to be prepared to tackle the alien invasion. Gather all the martial warriors for a meeting two hours later; we have to come up with a plan. What do you think?"

The Leader placed Wang Teng in the same or a higher position than him. He stopped treating him like a younger generation with huge potential. He asked for his opinion about the meeting. Without Wang Teng, this meeting would lose its purpose.

In the martial arts era, the ability was the main thing. Country Xia could only rely on Wang Teng now.

"I'm fine with it. You can arrange the meeting and inform me when it's decided." Wang Teng clapped his hands and threw the responsibility away. He didn't want to care about these troublesome matters. Let the Leader and the others get busy over them.

He turned and ran away without any hesitation.

The Leader and the three great commanders were stunned. Then, they shook their heads and laughed.

"This fellow!" The Leader was caught between laughter and tears.

"Looks like we still have to continue working. This young lad doesn't like to deal with work," Commander Hong shook his head and said.

"He can reach this stage because he has cultivated single-mindedly without any distractions," Commander Yong commented.

"Let's go, there are many things we have to settle," the Leader said. He then turned to Dan Taixuan.

"Tidy up the city. Find the number of casualties, the power of the alien invaders, and write up a report for discussion at the meeting. I'll have to trouble you these few days."

Dan Taixuan felt frustrated. She cursed Wang Teng in her heart. This fellow ran away and all the work landed on her. She couldn't even reject it.

"Yes!" She nodded and received the order.

...

Capital Xia, residential district.

Wang Teng brought his family and friends here and settled them down. "This is my military lodging. Safety isn't a concern, so don't worry about it. Have a good rest here. I have other things to attend to, so I won't be accompanying you."

Wang Teng went to the cultivation room below the ground.

The cultivation room was spacious. The walls were made of durable material, and there were runes on them, so they could bear heavy blows by martial warriors without getting damaged.

Chapter 766: This Is The Land I Conquered! (2)

Of course, these features were useless for Wang Teng. The room wouldn't be able to withstand a blow from him. But he didn't come here to cultivate. He just wanted to count his gains.

Wang Teng sat down cross-legged in the middle of the cultivation room and closed his eyes. He focused his attention on the attributes panel.

He came back in a hurry, so he didn't look through the changes on his attributes panel when he advanced to the planetary stage.

The change this time was different from before.

His entire attributes panel was refreshed.

Origin Of Life: 5016

Origin Of Soul: 1256

Enlightenment: 2352/3000 (Imperial Realm)

Spirit: 2585/3000 (Imperial Realm)

Luck: 36 (Limit of a normal person: 10)

Handsome: 98 (Limit of an ordinary person: 100)

Battlefield Awareness: 7560/9000 (9-star)

Space Fragment: 1250/100000 (??)

Force Talents:

Ultimate Stage Metal Talent: 2056/5000; Ultimate Stage Wood Talent: 1635/5000; Ultimate Stage Water Talent: 1560/5000; Ultimate Stage Fire Talent: 1080/5000; Ultimate Stage Earth Talent:

1280/5000; Ultimate Stage Wind Talent: 1305/5000; Ultimate Stage Ice Talent: 530/5000; Ultimate Stage Dark Talent: 1330/5000; Ultimate Stage Lightning Talent: 1460/5000

1

Physique:

Space Physique: 10000/100000 (first-rank)

Heart Of Magnetic Essence: 1000/100000

Demon Lotus Poison Body: 3360/10000

Light Physique: 2150/10000

Eight Arms Devil Physique: 6000/6000 (perfected)

Ice Cocoon Physique: 848/5000

Sight:

Spiritual Sight: 1/100 (intermediate stage)

Eyes of Essence: 1/100 (intermediate stage)

Special Talent:

Ultimate Stage Sword Talent: 1250/5000; Ultimate Stage Blade Talent: 1480/5000; Ultimate Stage Arrow Talent: 430/5000

Realm:

Constellation Metal Force: 1/10000 (planetary stage first level)

Constellation Wood Force: 1/10000 (planetary stage first level)

Constellation Water Force: 150/10000 (planetary stage first level)

Constellation Fire Force: 1/10000 (planetary stage first level)

Constellation Earth Force: 1/10000 (planetary stage first level)

Scripture:

Ancient God's Body: 14505/100000 (2-star)

Star Metal Scripture: 10000/10000 (perfected)

Star Wood Scripture: 10000/10000 (perfected)

Star Water Scripture: 10000/10000 (perfected)

Star Fire Scripture: 10000/10000 (perfected)

Star Earth Scripture: 10000/10000 (perfected)

Battle Techniques:

Space Tornado: 9776/10000 (perfected)

Star Fire Sword Slash: 1/1000 (big achievement)

Abyss Burial: 26/100 (well-versed)

Bestow Of The Goddess: 360/1000 (big achievement)

Darkness Clone Technique: 5000/5000 (perfected)

Amalgamate Blade Scripture: 74/100 (well-versed)

Spiritual Battle Techniques:

Spirit Penetration: 125/300 (specialized)

Spiritual Illusion: 335/500 (small achievement)

Spiritual Shield: 63/100 (well-versed)

Ultima:

Strength of Ultima: 56/100 (first level)

Thousand Crashing Ripples (water element sword ultima): 35/100 (first level)

Knowledge:

Xingwu Continent Common Language: 460/1000 (small achievement)

Dark Language: 860/1000 (small achievement)

Medical Knowledge: 750/1000 (small achievement)

Secondary Professions:

Runemaster: 2160/3000 (master)

Blacksmith: 2380/3000 (master)

Alchemist: 2160/3000 (master)

Poison Master: 870/1000 (advanced stage)

Force Chef Master: 2165/3000 (master)

Musician: 735/1000 (advanced stage)

Spiritual Pets:

Spirit Flame Ghost Crow: 3560/10000 (10-star); Talent: Spiritual Sight, Ghost Fire.

Metal Armor Flaming Scorpion: 17880/20000 (11-star); Talent: Flaming Poison, Emerald Flame.

Blank Attribute: 350

...

Wang Teng went through his attributes line by line. After some time, he let out a long sigh. He didn't know that he had already gained so many achievements. What a shock it was.

Also, he could tell that the attributes panel had filtered away many useless talents, scriptures, and battle techniques. These attributes weren't displayed. If not, there would be even more rows on his attributes panel.

The entire attributes panel had been simplified greatly... bullshit!

There were three entire pages of attributes, scriptures, and battle techniques. Wang Teng wondered how many words the author wasted on describing them.

1

However, his eyes were still glistening. He almost placed his hands on his waist and laughed loudly.

This is the land I conquered!

All his five main Forces had reached the planetary stage while his five special Forces had entered the general stage. There were also talents that others wouldn't dare to think of.

Force talents, physique talents, and even the rare sight talents. He had two sight talents.

The thing that stood out the most was his space talent. He had already reached the perfected stage at ten thousand points but now, the limit was increased to a hundred thousand points. Ten thousand was just the first rank.

His space talent was only at the first rank?

Wang Teng almost cursed when he saw this. The system was increasing the difficulty of his cultivation!

Wang Teng felt helpless, but he had to accept this reality.

Then, there were the scriptures and battle techniques. The system only mentioned the sky-rank ones and above. It was too lazy to list the weaker ones.

The main items were the planetary-stage scriptures and battle techniques. The others were scriptures and battle techniques the system felt had great potential.

There was no need to explain the Ancient God's Body. It was easy to tell that this skill was above the planetary stage. How high was it? Wang Teng didn't know, and he couldn't guess either.

When he went up the Mount Saint in the past, he had raised his Ancient God's Body to the 2-star beginner stage. His physical body was already very powerful. He couldn't imagine how powerful he would get if he raised it further.

However, he would need a hundred thousand points to leap passed the 2-star level. Who knew how many attributes he would need in the future.

This felt... hopeless!

He looked at the battle techniques the system listed. Darkness Clone Technique, Amalgamate Blade Scripture, Space Tornado, Bestow Of The Goddess, Abyss Burial, etc. They were either useful or had great potential.

The other lower-tier scriptures and battle techniques didn't disappear. They were still ingrained in his mind. He could pull them out if he wanted to know their progress.

There were also three spiritual battle techniques. All of them were on the attributes panel. The system probably felt that there was huge growth to be made in these three techniques.

Moving down, there was Ultima. Wang Teng possessed two Ultimas, the Strength of Ultima from the ancient god's corpse and the Thousand Crashing Ripples from the blue-haired young man when they were fighting.

The system didn't list his other 'consciousnesses' but Wang Teng knew that they would appear on the attributes panel if they reached the Ultima level.

There was nothing much to say about his knowledge and secondary professions. These might seem useless, but they provided him convenience during crucial times.

He knew what others didn't and what they knew.

This feeling was amazing.

Other people wouldn't even dare to imagine having such skills. These achievements and reserves were enough for Wang Teng to feel proud for a moment.

After some time, Wang Teng regained his composure. He was extremely calm and composed.

These achievements were nothing. He would have more in the future.

He decided that he would focus on a few scriptures and battle techniques moving forward. He didn't have to raise every single one to a high level.

Knowing was enough. He didn't need to specialize in everything. That would require too many blank attributes. He couldn't afford to use them.

Wang Teng thought about this sadly.

Scanning his attributes panel, his gaze landed at the top.

Origin Of Life!

After reaching the planetary stage, his Origin Of Life rose from a thousand plus to 5016.

No wonder the planetary stage was so different from the general stage. From the Origin Of Life, he could tell that these two stages weren't on the same level at all.

This was a jump in the very nature of life.

Then, there was the luck and handsomeness index. It was rare for him to see these two attributes normally.

He only managed to get luck attributes from Little Zi Ye. Other people didn't have it.

Speaking about her, he kind of missed her. He wondered how she was in the Darkland.

1

Fortunately, he left a clone there, who hadn't disappeared. It looked like he hadn't been discovered yet.

Little Zi Ye must be safe.

He had gained the handsomeness attribute from vampire dark apparitions. Other races wouldn't drop this attribute.

Well, it made sense. Were the giants, the sheep-heads, or the Eight Arms Devils supposed to give him handsomeness attributes? Honestly, they looked very strange.

It was impossible!

The system only acknowledged the appearance of the vampires. The rest were all ugly.

Wang Teng looked at his luck index. It had exceeded that of a normal human. His handsomeness index was also better than an ordinary person's. He touched his chin and nodded in satisfaction.

He was handsome and lucky!

Indeed, he was the son of Lady Luck~

(" '▽' "

At this moment, his wristwatch sounded. There was a notification. The Leader of martial arts was informing him to attend the meeting.

Wang Teng stood up and walked out of the cultivation room. After informing Grandpa Wang, he headed to the military command building.

Chapter 767: A Joke!

On the top floor of the command building.

In the central control room.

The rows of seats were all filled with renowned figures from the various fields. Some were important figures from Country Xia while others were top-class martial warriors who had rushed over from other big cities in the country.

Within two hours, all the alien martial warriors in the major cities were caught and brought back to Capital Xia.

No matter how strong the alien invaders were, they were limited by their numbers. They had to spread out to the major cities in the country to keep watch for the blue-haired young man. Hence, there were only one or two alien martial warriors in each city.

The martial warriors from Country Xia attacked them and caught them off guard, defeating them one by one. Not much effort was used.

In summary, the main battle power of the alien invaders came from the blue-haired young man. Once he was caught by Wang Teng, the other martial warriors posed little threat.

For some reason, there was only one planetary stage formidable warrior among the alien invaders.

Were they too confident?

Or was it a restriction for them to land on Earth?

No one knew for sure.

“Is Wang Teng here yet?” a general-stage martial warrior guarding Nanhai asked.

“He’s almost here. I’ve already informed him,” Commander Yong replied. He was sitting at the front.

“Commander Guardian Sun, we have only been waiting for a while. Why are you getting so impatient?” Qian Boyu, who had met Wang Teng once, asked.

Commander Guardian was a position. The status was higher than a governor. However, only the border cities, cities with a large number of star beasts, or cities with dimensional rifts linking to the Darkland would need a powerful martial warrior to be their commander guardian.

These martial warriors were at least 13-star general-stage and above!

“There’s an alien invasion, and time is tight. There’s no time to waste.” Sun Yuanju frowned. “I heard that he has reached a higher realm. I wonder if it’s true.”

Many important figures around him turned and looked in his direction. They paid high attention to this question too, but they didn’t voice it.

“Of course it’s true. If not, who solved the alien invasion problem?” Commander Hong glanced at him and continued, “Commander Guardian Sun, don’t say such things when Wang Teng is here.”

“Commander Hong, I’m asking for a reason. I guard Nanhai, and I’ve detected abnormal movements from all the other nations. The White Eagle Nation, Country Inka, and Country Bat, who are on the opposite side of the ocean, have been taken over by aliens too. They don’t plan to sit and wait for death. They want to attack the other nations beside them. If Wang Teng has a higher-level scripture, he should share it with everyone. When our ability increases, we will be able to resist invasions,” Sun Yuanju said with a smart glimmer in his eyes.

Commander Hong’s face turned black. He stared intently at Sun Yuanju.

Was he doing it for Country Xia or for himself? No one knew.

All the important figures started to get interested. Their eyes sparkled. Many people had the same thought as him. They just didn’t say it aloud.

Who would reject a higher realm scripture!

if they could get Wang Teng’s scriptures, they could advance to a higher level too!

That was a level above the general stage. Once they broke through, they could leave Earth and seek a wider world in the universe.

To be able to reach their position, they naturally had their ambitions.

“Commander Guardian Sun, I hope you can stop saying such things. We have to tide over the difficulty together, but peeping at other’s scriptures is taboo. You’ve crossed the line.” The Leader of martial arts opened his eyes and glanced at Sun Yuanju.

Sun Yuanju’s expression changed. He thought that he could ignite everyone’s sense of urgency by talking about the aliens’ movement. That way, they would support his motive.

They might be unable to defeat Wang Teng, but there were many of them. If they spoke to him simultaneously and pressured him with a righteous cause, he would eventually give in.

1

He didn’t expect the Leader of martial arts to be the first to step out and reject him.

The Leader was the closest to reaching that realm. Yet, he had managed to control his greed. What right did others have to force Wang Teng?

“Leader, you don’t understand the gravity of the situation. The alien invasion has destroyed the current structure of the world. We need to prepare early. If not, Country Xia might be buried in the annals of history. I won’t do such an unscrupulous thing during ordinary times. However, we can only gain an advantage if we forsake Wang Teng’s personal interest. We have no other choice,” Sun Yuanju still wanted to speak up for himself. He persuaded the Leader of martial arts earnestly in a righteous tone.

“Enough!” Commander Hong was furious. He shouted instantly, “Without Wang Teng, Country Xia would have been taken over by the alien invaders. We’d not be sitting here. Are you trying to disappoint him with your actions?”

Many people started to feel awkward. They knew that Commander Hong wasn’t just speaking to Sun Yuanju. He was warning anyone that had the same thought.

They felt embarrassed. Wang Teng had saved them, but they wanted to get benefits out of him. If other people knew about this, they would be condemned as unscrupulous fellows.

“Of course, I’m extremely grateful for Wang Teng’s contribution—” Sun Yuanju wanted to refute, but he was interrupted by a voice before he could finish his sentence.

“Wow, what a lively atmosphere!” Wang Teng’s voice was heard before he appeared at the scene.

Everyone’s expression changed.

Sun Yuanju’s expression became unnatural. He looked towards the door guiltily.

A young figure walked in slowly from outside. It was Wang Teng.

When he appeared, all the noises disappeared.

Wang Teng glanced around him, scanning everyone present with his intense gaze. His eyes didn’t pause on Sun Yuanju. He didn’t seem to care about him.

Sun Yuanju's expression turned ugly. He sensed that he was being disregarded and felt frustrated. But when he saw Wang Teng's mysterious gaze, he didn't dare to say a word.

"You're here. Have a seat." The Leader opened his mouth and pointed to a seat beside him.

This seat was just beside the Leader of martial arts, and it was at the same level. To him, Wang Teng had the same status as him.

When the others saw this scene, their gazes flickered. Many thoughts went through their minds.

Wang Teng didn't reject the offer. He walked over directly and sat down.

"What were you guys discussing just now? It seemed heated. Don't mind me, I'm just here to show my presence. Please go ahead." Wang Teng raised his hand to signal them to continue. Coincidentally, his hand pointed in Sun Yuanju's direction.

Everyone looked over involuntarily.

Sun Yuanju's face turned green. Wang Teng didn't do anything, but he felt an invisible pressure pressing down on him. It made it hard for him to breathe.

Sun Yuanju's expression kept changing. He felt exasperated. He finally understood that in front of absolute power, every other effort was futile.

Everything he had done was a joke.

Chapter 768: If I Don't Give, Who Dares To Snatch From Me?

There was pin drop silence in the control room.

No one spoke up for Sun Yuanju. No one dared to say anything about Wang Teng donating his scriptures.

They finally understood the difference between them and Wang Teng.

A wisp of his aura made it hard for them to look him in the eye. How powerful was he?

They had no chance of showing off their little tricks due to the vast difference in ability.

The Leader of martial arts didn't say anything and just watched them quietly from the side. He allowed Wang Teng to solve this matter himself. To him, Wang Teng's ability was the best way to convince and frighten them.

Punish someone as a warning to others. Since Sun Yuanju had jumped out, he would be the one getting punished.

Wang Teng glanced around him calmly. "Weren't you speaking just now? Why are you silent? Commander Guardian Sun, don't you want to continue talking?"

Sun Yuanju's expression changed slightly. He felt unlucky. He raised his head and met Wang Teng's composed gaze. He stammered, "It's a misunderstanding. I was just..."

He stuttered and was incoherent.

“Just?” Wang Teng gave him an ambiguous smile.

Sun Yuanju couldn't answer him. He knew that Wang Teng had heard his words. There was no use speaking up for himself. If Wang Teng wanted to take revenge, he wouldn't give up because of his excuses.

Wang Teng stopped wasting time. An indomitable aura erupted from his body and bore down on Sun Yuanju.

Boom!

Sun Yuanju was dumbfounded. He didn't expect Wang Teng to act without any scruples. Without any time to react, he got enveloped by his aura.

Bang!

The chair below him shattered into pieces, and he fell to the ground.

Splurt!

He spurted a mouthful of blood.

Sun Yuanju became dispirited. His face was pale as he stared at Wang Teng in astonishment. He moved his lips but didn't dare to say a word.

He climbed up from the ground miserably and stumbled a little.

Everyone was shocked as they stared at this scene in bewilderment, not knowing what to say for a second.

Especially the people sitting beside Sun Yuanju. When Wang Teng's aura surged over, they felt it too. Their hearts were still pounding in fear.

Imagine if they were the target of the attack. They might be in a worse state than Sun Yuanju.

No one expected Wang Teng to be so domineering. He suppressed a 13-star general-stage commander guardian without any hesitation.

This was a tight slap to Sun Yuanju's face!

Many people felt lucky that they didn't speak. If not, they might be in the same tragic state.

Qian Boyu, Zhao Fuhong, and the other important figures who had met Wang Teng before glanced at one another. They felt as if they just knew him. The polite young man they knew must be a fake, right?

These important figures finally realized that Wang Teng wasn't someone they could control easily.

Wang Teng resumed his indifference and spoke in a calm tone, “If you have anything to say, say it directly to me. If you talk behind my back, don't blame me for being merciless.

“You can only take the things I want to give. If I don't give, who dares to snatch from me?”

He scanned everyone, but no one replied to him. No one even dared to look him in the eye.

Wang Teng was satisfied with this result. Suddenly, a smile blossomed on his face, and he continued, "Alright, I've finished my speech. Don't be so serious. You look as if I'll eat you up."

Silence.

Everyone was speechless.

Didn't you look like you'll really eat us up just now?

Stop pretending like you don't know.

They complained as they looked at Wang Teng's smiley face.

Continue acting!

Go on!

Despite being young, this fellow was a good actor. Which one was the real him?

"Oh right, if you want the higher-level scripture, you can tell me directly. If you don't say, how will I know you want it? Look, everyone is unhappy at your little cheap tricks. Was it necessary?" Wang Teng suddenly said.

Everyone was honestly stunned this time.

It seemed like Wang Teng was willing to take out his higher-level scripture?!

What did he mean by telling him directly!

Who would have thought that he would say it himself!

Sun Yuanju's face turned green. If he knew that Wang Teng wanted to share his scripture, he wouldn't have made that speech and be the bad guy.

Now, he had provoked Wang Teng for nothing. The loss outweighed the gains!

He was filled with bitterness. Why didn't Wang Teng say it earlier? Why? If he did, he wouldn't have stepped out and be the first to speak.

The Leader of martial arts and the three great commanders looked at Wang Teng in surprise.

They didn't think that Wang Teng would give out his scriptures so easily. Moreover, he was the one to bring it up. He was the one who wanted to reveal it.

Erm... did he have such a high sense of responsibility?

"When the meeting ends, the Leader will evaluate everyone's qualifications. After that, you can get the scripture from me." Wang Teng sniggered in his heart when he saw everyone's expression.

"We need to go through an evaluation?"

Everyone was stunned.

"Of course. If I give my planetary stage scripture to someone with an unknown or evil motive, I will be holding a candle to the devil," Wang Teng replied.

“Planetary stage scripture?” Their eyes lit up.

“That’s right. The next level after the general stage is the planetary stage. If you want to reach that level, you need to have a planetary stage scripture,” Wang Teng explained briefly.

“Planetary stage!” Excitement burned in everyone’s eyes. They looked at him enthusiastically.

“You have witnessed the power of the planetary stage. One planetary stage martial warrior is powerful enough. This is a special moment. We need to be extra careful. I don’t want to create an enemy,” Wang Teng continued.

Everyone’s expression changed slightly. They felt fortunate that they weren’t Wang Teng’s enemy. If not, they would lose this amazing opportunity.

They immediately agreed to Wang Teng’s idea.

“Yes, you’re right!”

“Yes, I second the idea!”

“It makes so much sense. Yes, we should do it like this. I’ll be the first to support you.”

“The Ministry of Education supports you too!”

...

Everyone felt that the matter should be resolved this way. They had no grudges against Wang Teng, so they weren’t worried.

Only one person’s face was black. He looked as though he fell into a drain.

Many people noticed his emotions and looked at Sun Yuanju strangely.

If there was an evaluation, Commander Guardian Sun would be the first to fail.

Tsk!

At this moment, they finally understood Wang Teng’s intention.

Stick and candy!

His scheme was amazing!

He punished Sun Yuanju to warn the rest of them, letting them fear him. Then, he took out his scripture, which made everyone grateful. He captured their hearts instantly.

Was this willy fox a young man who hadn’t reached 20?

Chapter 769: Trial Ground!

The atmosphere in the room changed because of Wang Teng’s words, going from tense to lively.

“I’ve already said what I wanted. Let’s start the meeting officially.” Wang Teng glanced at everyone. There was joy in his eyes.

He was already planning to reveal his planetary stage scriptures. All his five basic elements had advanced to the planetary stage. The blue-haired young man, who was at the third level of the planetary stage, wasn't his match, so he didn't need to worry about anyone surpassing him.

Besides, it wasn't easy to advance to the planetary stage. Converting their Forces to constellation Force would consume most of their time, much less the most crucial part of the advancement process.

Many people wouldn't be able to overcome that barrier.

Wang Teng was certain that most of the people in this room wouldn't be able to reach the planetary stage. Some of them were too old. They had exhausted their potential, and there was a limit to how far they could go.

Of course, the most important thing was, Wang Teng would only give them the conversion method in the planetary stage scripture. After they finished converting their Forces, he would consider giving them the advancement method.

He hadn't finished his sentence.

Do you want the advancement method?

Sure.

Give me money!

These words weren't suitable for this situation. When they came to look for him to get the scripture in the future, he would discuss the price with them properly.

In summary, he wouldn't give his scriptures out easily.

No one knew what Wang Teng was planning. They were still immersed in their excitement and couldn't calm down. They were daydreaming about advancing quickly after receiving the scripture.

They didn't know that their assets would be gone...

"Cough!" The Leader of martial arts finally regained his composure. He coughed and attracted everyone's attention. Then, he said, "Let's have Dan Taixuan report the status of the alien invasion."

"Yes!" Dan Taixuan let out a long sigh. Even she felt nervous a moment ago. She was afraid that Wang Teng would vent his anger on all the important figures present, but luckily, he only targeted one. It wasn't outrageous. She hurriedly stood up when she heard the Leader calling for her and turned on the projector. A world map shone on the wall opposite.

"Based on the information we have received, there are signs of aliens in every big country on Earth, including the White Eagle Nation, Country Inka, Country Star, and Country Bat. They have all been conquered by aliens..."

The participants started to turn serious. They stared at the red spots marked on the map. Besides Country Xia, all the other areas were red. This meant that they were all invaded and taken over by aliens.

It was a terrifying sight!

Everyone was solemn. The situation was worse than expected.

Not much information could be found, so Dan Taixuan finished her report soon. The control room turned silent.

“All of you understand the situation now. Every large country has been invaded by aliens. I have a reason to believe that they have a special purpose. If not, they wouldn’t take over all the countries at the same time,” the Leader said.

“What do they want?” someone asked.

Everyone went into deep thought. They couldn’t guess the aliens’ motive.

They knew that the aliens came to Earth for an opportunity, but them landing in different parts of Earth made them a little confused.

“Stop wasting your time. We’ll know the answer by asking the blue-haired alien,” Wang Teng suddenly spoke up.

Everyone was stunned. Someone hesitated before asking, “Will he say the truth?”

“Don’t worry. I have a way to make him speak the truth,” Wang Teng said confidently.

“Bring the person over.” The Leader ordered his men to bring the blue-haired young man.

The swelling on the blue-haired young man’s face had subsided. It was hard to tell that he was once beaten like a dog. His recovery rate was astonishing.

But he was still unconscious and hadn’t woken up.

“His face healed quite quickly. It looks like he can withstand another round of the brick’s caress,” Wang Teng touched his chin and muttered to himself.

Everyone: ...

Caress your head!

This fellow called brick smashing the caress of the brick? How shameless!

“Huh? Where am I?” The blue-haired young man woke up right then and rubbed his head. He glanced around him absentmindedly.

“Stop pretending. You’re exaggerating,” Wang Teng smirked.

Everyone: ...

This alien was acting?

They didn’t realize a thing. They were surprised.

... *How did this guy discover it?* The blue-haired young man was puzzled. However, he still pretended to be lost and continued, “What are you saying? I don’t understand. What do you want?”

"I don't want to waste any time. I'll ask questions, and you'll answer. If you dare lie, my brick won't show any mercy." Wang Teng took out his golden brick and waved it in front of the blue-haired young man.

The young man felt the corners of his eyes twitching. He immediately recalled the unpleasant memory. He wished he could snatch the brick and smash it on Wang Teng's face.

But he knew that he was in Wang Teng's hands and couldn't escape. Thus, he wouldn't have the power to snatch the brick over and repay the favor.

"What do you want to know?" He forcefully suppressed the humiliation in his heart.

"Why did you all come to Earth?" Wang Teng asked.

"There's nothing to hide. We came to find an opportunity on this planet," the blue-haired young man replied with a flicker in his eyes.

"What else?"

"What else can there be? That's it."

"You're not being honest!" Wang Teng squinted. He tossed the brick in his hand and got ready to smash it on the blue-haired young man's head, scaring the poor fellow. He almost charged forward and fought for his life.

This brat was a monster. How dare he still want to smash his head with the brick. He couldn't bear it anymore!

Damn it, if you do it again, I'll fight with you!

The blue-haired young man glared at Wang Teng, unwilling to back down.

I was waiting for you, idiot! A smirk appeared at the edge of Wang Teng's lips. His eyes flashed with crimson light.

Bewitch!

Wang Teng had already raised his Bewitch skill to the perfected stage. With the help of his Imperial Realm Spirit, he never failed.

The blue-haired young man's expression changed. Before he could react, he went into a daze, and his gaze turned blurry.

I succeeded? Wang Teng was stunned.

He was prepared to have a spiritual battle. After all, when he used the Bewitch skill on Sha Didi the previous time, he struggled for a long time before he succumbed.

This blue-haired young man's ability was above Sha Didi's, so he thought that it would be harder.

Yet the blue-haired young man lost his consciousness almost instantly.

Is it related to one's mentality? Wang Teng touched his chin and pondered.

Sha Didi was a sly old fox while this blue-haired young man was a greenhorn who had just entered the society. He lacked vigilance, so he fell into Wang Teng's trap easily.

Other people didn't know what Wang Teng was doing, but they were stunned when they saw the blue-haired young man's confused look.

"Now, answer me. What's your real purpose?" Wang Teng didn't explain to them. He started questioning the man right away.

"Many months ago, the Olant Federation detected this planet where Force had awakened. At the same time, the top academy in the Olant Federation, Saint Star Pagoda, is recruiting new students. Hence, they decided to use this planet as a trial ground. We can only enter the Saint Star Pagoda if we pass this trial," the blue-haired young man said with no emotions in his eyes.

"Trial ground!"

"Saint Star Pagoda!"

Everyone was astounded. Then, they started to get furious.

"They are using our planet as a trial ground!" Commander Long was indignant. He slammed the table heavily, causing a long bang.

"So this is their real motive. The opportunity isn't the main thing. Passing the test is their final mission," Commander Yong said.

"Snatching the opportunity might be part of their trial." Someone snorted.

"Our planet is extremely underdeveloped, so we'll obviously get beaten. We're just a remote planet. We have no chance of resisting," the Minister of Education said as he shook his head.

"Is the trial only for you?" Wang Teng asked a question that surprised many people.

"No. The trial doesn't only include the talents from Olant Federation. It's also applicable to all the martial warriors on this planet. Any gifted martial warriors 30 years old and below that have reached the planetary stage have the chance to participate.

"It's difficult to get the chance, but as the trial ground, Olant Federation gave three spots to this Earth. However, Earthlings don't know about it. They must be dreaming if they want to get a spot.

"There are a limited number of spots. If Earth gets three spots, the martial warriors from other planets will have three lesser spots. Hence, no one told the Earthlings this piece of news," the blue-haired young man continued.

"What!" Everyone exchanged glances with one another. They were dumbstruck and furious.

"What a good plan they have. As long as no one on Earth gets a slot, those three slots will be theirs," Commander Hong said angrily.

"It looks like this isn't just a simple school enrollment," Commander Yong said with a glint in his eyes.

“Trial! Spots!” The eyes of the Leader of martial arts lit up. He opened his mouth and said, “Unfortunately, only those 30 years old and below have the right. We don’t even have to think about it.”

Everyone shook their heads. They couldn’t hide their disappointment.

They would be lying if they said that they didn’t have hope. However, based on what the blue-haired young man said, only a planetary stage martial warrior 30 years old and below had the chance.

30 years old!

The planetary stage!

No one here fulfilled these two criteria.

No, there was one person!

Everyone looked at Wang Teng with envy. They didn’t have the chance, but he did!

Chapter 770: Monitor The Entire Planet

Wang Teng was contemplating the blue-haired young man’s words when he noticed everyone staring at him. There was strong envy in their eyes.

He was stunned for a moment. Then, he understood why.

The blue-haired young man’s words must have been a huge stimulation to everyone.

The Saint Star Pagoda was the top academy in the Olant Federation. If they could study there, there would definitely be ample benefits. But they had lost this precious opportunity.

Well, it was more appropriate to say that they had never gotten it, so they couldn’t lose it. From the beginning, they didn’t meet the requirements.

“Don’t act as if you lost a billion. Who knows what the Saint Star Pagoda is like. I might not want to go,” Wang Teng comforted them with a nonchalant expression.

Silence.

This consolation didn’t have any effects. Instead, they wanted to beat him up even more.

He didn’t want to go?!

Look at what he was saying!

Indeed, talk was cheap.

Get out of this place, bastard.

Everyone stared at him with hidden bitterness. They didn’t want to speak to him anymore.

“Cough, Wang Teng, question him and see if you can get any other useful information,” the Leader of martial arts coughed and said.

Wang Teng nodded. He thought for a moment before asking, “How many candidates are there?”

“No one knows which factions will get the right to participate in this trial. My Lan family was extremely fortunate to get one slot after spending much manpower and wealth,” the blue-haired young man replied. His gaze was rigid and stiff.

Wang Teng frowned. Things were getting complicated.

He exchanged glances with the Leader. They thought of the same thing.

From the blue-haired young man’s explanation, they inferred that this trial was targeted at the gifted disciples groomed by powerful factions. Normal martial warriors wouldn’t be able to get the right to participate. Even if they did, they would only make up a small fraction.

They could imagine how hard these talents groomed by powerful factions would be to deal with.

One’s background was a strong factor.

Wang Teng wanted to ask about the strength of the aliens that had landed on Earth, but from the looks of it, he wouldn’t be able to get any answers from the blue-haired young man.

He didn’t even know who they were or how many people there were. How would he know their abilities?

Wait...

Wang Teng thought of something. He couldn’t get a specific answer, but he might be able to guess a range. He asked quickly, “Are there any strength requirements for the trial?”

“By right, there isn’t. However, reaching the planetary stage before 30 years old is the limit for most martial warriors. In history, only a handful of gifted martial warriors have reached the celestial stage before 30. In my generation, less than three martial warriors have gained this achievement. They have already been specially admitted into different famous academies in the universe and don’t need to participate in this trial,” the blue-haired young man said.

“The celestial stage!”

Everyone started pondering.

The planetary stage, the celestial stage...

These two names sounded high and mighty just like the universe.

No one had experienced the power of these two stages, but just listening to the name was enough to get them excited. They wanted to go home and start cultivating immediately.

As the top-tier martial warriors on Earth, they had their own extravagant hopes for the powerful realms. All of them wished that they could climb to the peak and look at the scenery from a higher mountain.

Wang Teng’s eyes were shining too. He saw a wider world opening up in front of him. It was attractive.

After some time, he sighed secretly, and a sharp glint flashed past his eyes. Based on the blue-haired young man’s words, it wasn’t hard to tell that none of the invaders had surpassed the planetary stage.

Wang Teng had the confidence to deal with a planetary stage formidable warrior, but asking him to fight against a celestial stage martial warrior was akin to gifting his life on a silver platter.

Fortunately, there weren't any martial warriors at this stage on Earth.

Since they were all at the planetary stage, it would be easier for them to have duels.

A smile appeared on Wang Teng's face. There must be many planetary-stage formidable warriors among the aliens. He would definitely be able to get some attributes from them.

Everyone looked at his face and felt that his smile was a little evil.

Was he conjuring some evil plan?

Wang Teng asked a few more questions. They were mostly about the Olant Federation, the Saint Star Pagoda, and information about the Lan family.

The blue-haired young man answered without reservation.

Very soon, everyone had a better understanding of the Olant Federation. In summary, the Olant Federation was a universe alliance formed by many factions. It was one of the top five powerful factions in the universe.

Yes, top five!

Olant Federation wasn't the only major power in the universe.

The blue-haired young man didn't know about the other powerful factions, so Wang Teng didn't ask for the details. One Olant Federation was strong enough to destroy them, much less the other factions or the entire universe.

The Saint Star Pagoda was the biggest and most powerful academy in the Olant Federation. It had groomed numerous formidable warriors in the universe.

You could say that this was a holy location in the Olant Federation!

The Saint Star Pagoda would open for enrollment every three years. The criteria would be planetary stage martial warriors 30 years old and below. They would need to participate in a trial. Only qualified people would be admitted into the academy.

This time, Earth was chosen as the trial ground.

Who would assess their scores at the end of the trial?

Wang Teng knew the answer through the blue-haired young man.

It was better if he didn't. After hearing the answer, everyone in the control room turned eerily silent. They realized that someone was monitoring and watching over the entire planet!

That meant that someone was watching all their actions. They might have clearly seen everything that they had done.

No one doubted the young man's words. After all, the technological advancement of the alien civilization had exceeded their imagination. It was possible they could monitor the entire planet.

They felt uncomfortable after learning that they were under surveillance. Their expressions turned awkward.

Who wanted to be watched all the time!

What if the person was a pervert?

What if the person was a peeping Tom?

What if the person had some weird fetish?

Everyone shuddered in their hearts. They raised their heads and looked at the ceiling, trying to find the eye that was watching them.

"Can the Saint Star Pagoda see everyone's actions?" Wang Teng took a deep breath to force himself to calm down.

"Not everyone, mainly the candidates. They wouldn't see everything since there are only a few surveillants. They can only focus on a few events. But they know what's happening around the personal terminal of the candidate," the blue-haired young man explained.

"Personal terminal?!" Wang Teng relaxed a little. "That's good. That's more acceptable."

The other people heaved a sigh of relief too. They felt much better.

"Where's your personal terminal?" Wang Teng's gaze turned sharp.
