

Martial Arts 791

Chapter 791: I'm Not The Same As You!

Wang Teng didn't know what Shennai Tongji was thinking. Even if he did, he wouldn't care.

He had already thrown the older generation of Earth martial warriors far behind him, much less his peers. No one in this generation could catch up with him.

This was the hard truth!

This was the sorrowful truth too!

On this planet, the only people that could pique his interest were these candidates.

Shennai Tongji felt bitter. She stared at Wang Teng with a complicated gaze.

However, she had to step forward and lower her position. She said humbly, "Mister Wang Teng, my father didn't intend to offend you. If he provoked you in any way, let me apologize in his place. I hope that you won't blame him."

Wang Teng was surprised when he saw this arrogant young lady putting down her pride and speaking politely to him. He waved his hand. "Forget it. Don't interrupt me again."

"We won't, we won't!" the emperor replied hurriedly.

"I'm at fault for disturbing you." Anpei Yuansan bent his back slightly. He sighed in his heart.

Wang Teng ignored them and turned to walk towards Hadock and Jin Yuan.

Just when Zuotian Liehua thought that Wang Teng had forgotten about her, she heard his calm voice.

"Catch up!"

Zuotian Liehua's expression changed slightly. She gritted her teeth, but she didn't dare to disobey Wang Teng. She looked at Anpei Yuansan and said, "Master, I'm leaving."

Anpei Yuansan sighed. He didn't know what to say, so he could only nod.

Zuotian Liehua bowed to Anpei Yuansan and quickly caught up with Wang Teng.

"To Country Xia!" Wang Teng ordered.

Jin Yuan and Hadock raised their wristwatch and did some operations on it. In an instant, a thick ray of light shone down from the spacecraft hovering in the sky, enveloping the four of them. The next instant, they disappeared.

The spacecraft filled with patches vibrated. It turned into a ray of light and disappeared on the horizon. It moved so quickly that the people on the ground couldn't even see how it disappeared.

After the spacecraft left, the people from Country Neon felt empty in their hearts. The alien martial warriors whom they viewed as their hope were gone. They left without reluctance!

They were like heartless lovers who left their girlfriends without any hesitation!

The emperor's expression turned distorted. Wang Teng's arrogance and impudence had stabbed him in his heart. He was the emperor of a country, yet Wang Teng didn't give him any face. How could he not be furious?

He lowered his head earlier because he had no other choice. He didn't dare to provoke a powerful martial warrior like Wang Teng.

But it was still infuriating.

"Your Highness, we mustn't make him our enemy." Anpei Yuansan noticed the emperor's expression.

"I know." The emperor took a deep breath to force himself to calm down. He continued with a stern face, "I won't do stupid things. However, I feel sorry for Zuotian Liehua. I wonder what treatment she will receive after following Wang Teng."

Anpei Yuansan turned silent. He prayed that Wang Teng wasn't a sadist.

"Don't worry. Wang Teng isn't that kind of person. Senior Sister might suffer a little, but she wouldn't be tortured," Shennai Tongji comforted them.

"I hope so." Anpei Yuansan nodded.

...

On the spacecraft, Wang Teng sized up the interior in astonishment. He didn't think that the inside of this ragged spacecraft would be so extravagant and comfortable.

"Did you steal this spacecraft?" Wang Teng sat on the sofa and asked Jin Yuan and Hadock.

"How is that possible?" Jin Yuan replied loudly as if he was humiliated. "We spent much time and effort to build this spacecraft. We didn't steal it. You are our boss and you can question our character, but you can't question our skills!"

"That's right, we spent ten years building this spacecraft and used her to escape from the Abandoned Star M3," Hadock added.

Wang Teng was shocked. He didn't think that they would get so riled up.

"Alright, alright, I said the wrong thing." He shook his head and asked, "Didn't you say that you collected the information of all the candidates? Tell me about them."

"Haha, this is what we are good at." Jin Yuan chuckled. Out of the blue, he shouted, "Alice!"

"Yes, Master. I'm here!" A hologram appeared in front of them. The voice was sweet and cute.

Wang Teng's expression turned strange when he saw the hologram.

Zuotian Liehua, who was standing behind him, felt the corners of her lips trembling. She inched her way to the side to stay as far away as she could from Jin Yuan and Hadock.

This hologram was the image of a sexy maiden with cat ears. Her figure was amazing, and there was a furry tail stuck behind her. It was seductive when she waved it back and forth.

The most important thing was, this sexy maiden was scantily clad. Her clothing barely covered the important parts of her body.

This was a goddess-grade temptation to most otakus.

“You have good taste!” Wang Teng coughed softly and gave them a thumbs up.

Jin Yuan and Hadock were overjoyed, thinking that they had earned Wang Teng’s recognition. They replied in unison, “I didn’t know that you had the same taste as us. We’re indeed brothers!”

“Tsk!” Zuo Tian Liehua clicked her tongue softly, glancing at Wang Teng with contempt. This fellow was a bad guy too.

Silence.

Wang Teng was exasperated. He was screaming in his heart.

What the hell do you mean?

I’m not the same as you!

*F**k, why are you framing me? I should have beaten y’all to death.*

Jin Yuan and Hadock didn’t know what happened, but they felt a chill in their hearts. They glanced around them in confusion and noticed Wang Teng’s grim expression. Astounded, they stared at him with caution.

Did they say something wrong?

“Start the introduction already. Why are you daydreaming!” Wang Teng took a deep breath and said angrily.

“Oh, okay.” Jin Yuan nodded his head fervently. He rearranged his thoughts and said, “Alice, bring out the data.”

“Yes, Master!” Alice gave a seductive pose and obediently carried out Jin Yuan’s order.

The ray of light disappeared, replaced by rows of data.

There were numerous profile pictures displayed around the spacecraft. They looked no different from the real person. Jin Yuan cleared his throat and was about to start his speech.

Boom!

Suddenly, the spacecraft vibrated violently.

“Alice, what’s happening?” Jin Yuan frowned and asked. He was planning to give a spectacular display of his ability, but he was interrupted before he could even start.

“Master, there are sea beasts attacking our spacecraft,” Alice said.

“Which sea beast wants to die? How dare it attack us!” Jin Yuan was angered.

"There's more than one. The sea below is densely populated with sea beasts. There are countless of them," Alice continued calmly.

Chapter 792: A Strange Sea Beasts Riot

"... Alice, are you making things difficult for me?" Jin Yuan was speechless.

"No, Master. There are really many sea beasts below. They're attacking us like crazy," Alice replied.

The spacecraft shook violently as if to confirm its words.

"Show us what's happening outside," Jin Yuan frowned and ordered.

"We're not introducing the candidates anymore?" Alice asked.

"Let's take a look at the situation outside first." Wang Teng was speechless too.

Is this the right time to introduce the candidates? This intelligence system of the spacecraft seems a little stupid. Wang Teng complained to himself.

"Listen to the boss and show us what's happening outside." Jin Yuan felt guilty. This intelligence system was dismantled from another abandoned spacecraft. Although they had managed to put it into use after much effort, the technology level was still lacking.

Alice was honestly a little stupid.

Brainless with a good figure. This was probably how one would describe it.

"Alright, my master." As an AI mascot, Alice executed its master's order obediently, even though he had labeled it as brainless.

Suddenly, the pictures of the candidates disappeared, replaced by terrifying images.

The boundless sea was densely packed with sea beasts. They were fighting to emerge from the bottom of the sea and hurling powerful Force attacks into the sky.

Most of these sea beasts were below the lord level. However, there was a huge number of them, so their combined attack was still formidable. It shouldn't be underestimated.

There were also a few giant lord-level sea beasts lying flat on the surface of the sea, blocking the spacecraft's path.

A giant octopus waved its thick tentacles that were more than a hundred meters long in the air. They swung towards the spacecraft like long whips.

There was also a giant sea serpent that had a body as thick as a pillar twirling in the sky. Its large tail lashed down and landed on the top of the spacecraft, giving off a loud bang.

The commotion a second ago was caused by the attacks from these two lord-level sea beasts.

Mind you, a spacecraft that could travel through the universe was anything but ordinary. Its defense mechanism was amazing.

Numerous runes blinked on the surface of the spacecraft, forming an oval light shield. The attacks only caused a slight tremor when they landed on it. They didn't hurt the main body of the spacecraft at all.

Wang Teng stood up and frowned slightly.

"Boss, don't worry. They are just lord-level sea beasts. We can destroy them easily." Jin Yuan patted his chest confidently.

"Fatty, leave the octopus to me. I need to nourish my body." Hadock was staring straight at the octopus on the screen. His eyes were shimmering.

"Why don't we have barbecued octopus tonight?" Jin Yuan suggested with glistening eyes.

"Holding all my hands up in agreement." Hadock nodded.

"Cough, let's take care of these sea beasts first." Wang Teng swallowed his saliva secretly and coughed.

Zuotian Liehua was speechless.

He just swallowed his saliva!

She saw it clearly!

Why was this fellow still thinking of food at this time?

What a foodie!

Zuotian Liehua was extremely worried about the situation of Country Neon. As an island, the emergence of these sea beasts would be a huge threat to it.

However, no one noticed her expression. She had no right to speak in front of three planetary-stage martial warriors.

The three martial warriors left the spacecraft and flew out. These sea beasts were nothing to mighty fighters like them.

"Kill!" Wang Teng scanned the sea below with a sharp glint. He didn't forget what had happened during the sea beasts' riot in Donghai.

But he wasn't who he used to be. Since these sea beasts came to find him, he would kill them.

At this moment, the lord-level sea beasts in the sky noticed the trio. They ignored the spacecraft and charged toward them instead.

The octopus was a 12-star lord-level sea beast. It lashed its tentacles out, bringing along a strong gale with it.

Wang Teng held his sword and gave it a simple slash. A glaring golden light flashed past. Eight tentacles were thrown into the air and landed on the surface of the sea.

"Roar!"

The lord-level octopus bellowed in pain. It looked extremely funny without its tentacles.

“Oh my, it’s almost wasted.” Hadock had nimble fingers. He quickly swept the eight tentacles into his space ring and smiled at Wang Teng. “Boss, these tentacles are delicious.”

Wang Teng glanced at Hadock’s tentacles and suddenly felt respect for this fellow.

An octopus monster eating another octopus monster~

Didn’t he feel weird?

Wang Teng shook his head. He had no time to care about him. With a stab of his sword, he ended the octopus’s life. He allowed Hadock to keep it.

“Kill all the sea beasts and return to Country Xia at once,” Wang Teng ordered Jin Yuan and Hadock.

He was worried that something bad had happened in Country Xia. The appearance of these lord-level sea beasts was too sudden and strange.

The surface of the sea was packed with sea beasts. Even though he had killed a lord-level sea beast easily, the other sea beasts showed no signs of retreating. They continued attacking them crazily.

This wasn’t normal!

“Yes!” Jin Yuan and Hadock didn’t dare to laze around when they saw his serious expression. They acted immediately.

To planetary-stage martial warriors, killing these sea beasts was a piece of cake. Soon, the majority of the sea beasts were dead. They had cleared an empty space a hundred meters in diameter around them.

The corpses of the sea beasts sunk into the bottom of the sea. The bloodstained surface of the sea was the only evidence of the terrifying massacre.

Wang Teng glanced around him. He released his spiritual power and pulled over all the attribute bubbles in a split second.

Water Force*150

Water Force*185

Blank Attribute*110

Blank Attribute*140

Poison Force*210

Deep Sea Breathing*10

Lightning Force*160

Blank Attribute*200

Deep Sea Breathing*10

Ice Force*420

Water Force*240

Constellation Force (Water)*125

Constellation Force (Earth)*140

...

A huge amount of Force started flowing through Wang Teng's body. The two constellation Force sunk into the sea of nihility and merged with his earth and water stars.

The other Forces, including the lightning Force, ice Force, and poison Force were all common Force attributes in sea beasts. They remained in Wang Teng's Force nucleus.

These Forces hadn't reached the planetary stage, so they hadn't formed the Force bridge to reach the sea of nihility.

Since his water Force had turned into constellation water Force, even the ordinary water Force was stored in the water star, waiting to be converted into constellation Force.

It couldn't be helped. The star beasts on Earth didn't possess constellation Force. Wang Teng had to convert them personally.

Fortunately, all his planetary-stage scriptures were at the perfected level. He could complete the conversion quickly.

Although it was an ordinary Force, the Force he absorbed through the attribute bubbles was the purest and most concentrated. It could save him half of his cultivation time.

Chapter 793: Whale Fall!

Wang Teng's ice Force, lightning Force, and poison Force rose by a large amount. Both the ice Force and lightning Force, which were at the peak of the 10-star brigadier-general stage, advanced to the 11-star general stage.

Ice Force: 3650/20000 (11-star)

Lightning Force: 4260/20000 (11-star)

His poison Force was still stuck at the 11-star general stage, but there was an increase too. It wasn't far from hitting the 12-star general stage.

Poison Force: 16800/20000 (11-star)

These three Forces had seen sharp improvements. You could imagine how many sea beasts there were. It was terrifying.

Unfortunately, no other elements appeared. Wang Teng was still a little greedy.

Besides the Force attributes, he also gained a sizable number of blank attributes.

Blank attributes were a good thing. He relied on his pile of blank attributes to raise his cultivation to the planetary stage.

Blank Attribute: 36500

This time, he had gained more than 30 thousand blank attributes at once. Adding his past tally, he had a total of 36500 points.

Having a huge reserve of blank attributes made him feel at ease!

Finally, there was a special skill—Deep Sea Breathing!

Just as its name suggested, it was a skill that would allow you to breathe in the sea.

Wang Teng had collected this skill during the sea beasts' riot in Donghai. This was the second time it had appeared.

Deep Sea Breathing: 30/1000 (first rank)

First rank! Wang Teng wondered to himself. He found this interesting.

This first-rank Deep Sea Breathing skill allowed him to breathe underwater without any external help. It was a useful technique.

What if he raised it to the second rank, third rank, or even higher?

Wang Teng smiled and dropped the matter.

After taking care of the sea beasts around them, no other sea beasts appeared again. They might have been scared by their ruthless slaughter.

The three martial warriors boarded the spacecraft and headed for Country Xia.

...

At this moment, in Country Xia, Nanhai, as well as the coastline of Donghai, were all suffering from the attacks of numerous sea beasts.

That wasn't all.

In all the mountain ranges, forests, lakes, and rivers, countless star beasts started to get restless and rushed towards the nearest human city.

Villagers, cities, highways... all the places with human presence were targeted by the star beasts.

Frightening beast tides swept through every inch of the country.

All the martial warriors in the country were activated. They rushed to the places with star beasts and started fighting with them.

Ample heavy weapons were set up and battlecrafts were launched. They bombed large areas of land to resist the beast tide.

Jingmen was the largest port city in Country Xia and was linked to various grand canals and the mouth of the sea. It was the hub of the river and sea.

However, this geographical location was the most advantageous for the advancement of the sea beasts.

Boom, boom, boom!

Violent explosions came from afar. The sea beasts bellowed and attacked Jingmen City using the grand canal, starting their massacre.

Force attacks destroyed countless buildings. Humans cried in despair as they fell into the debris. Their voices were soon overpowered by the roars of the star beasts.

This scene looked like an apocalypse!

The Leader of martial arts and his men hurried over with the military martial warriors. They were doing their best to resist the sea beasts while organizing manpower to rescue the ordinary people.

This star beasts' riot came without any warning. Their numbers were astonishing, and they covered the entire country, catching everyone off guard.

The Leader and his subordinates had to make arrangements hastily. They sent martial warriors to reinforce all the cities that were suffering the star beasts' assault.

Boom!

In the skies of Jingmen, the Leader of martial arts was fighting with an enormous giant whale.

This giant whale exceeded the size of the biggest whale that had ever been found on Earth. It was a few hundred meters in length and looked like a large aircraft carrier.

The waves rose in the sea, pushing the giant whale up and allowing it to stay in mid-air.

The Leader of martial arts was holding a long spear. His expression was indifferent as he soared through the sky. Force erupted and struck the sea horizontally as he collided with the giant whale.

The giant whale didn't back down. It flapped its tail and released a colossal wave.

Bang, bang, bang!

The wave erupted while an indomitable spear glow pierced through the air. It was aimed straight at the giant whale's body.

Roar!

A thunderous bellow shook the eardrums of the listeners. It didn't sound like the song of a whale any more. The appalling soundwaves echoed in the air. At the same time, a powerful blue pillar of light shot up and smashed into the spear glow.

Boom!

The two of them crashed and released a violent explosion. The powerful impact swept throughout the sea.

The giant whale slammed its giant body forward.

The Leader's expression changed. He released his fist, and a huge golden palm print landed on the whale, forcefully stopping it in its path.

The giant whale's ability was between the peak of the general stage and the planetary stage. Although it hadn't reached the planetary stage, it was extremely powerful. Yet, it was stopped by the Leader of martial arts and couldn't take another step closer to land.

The human and the beast collided brutally at the junction between the sea and the land. It was a scary sight.

In other areas, countless sea beasts were charging toward the human martial warriors' defense line. The other martial warriors weren't as powerful as the Leader, so they kept retreating under the sea beasts' offensive. The sea beasts won in numbers. The human martial warriors were only able to withstand until now with the help of all kinds of rune weapons.

If not, Jingmen City would already have fallen.

Boom, boom, boom!

On the other side, Dan Taixuan was fighting with a lord-level sea beast.

This sea beast was a hideous-looking monster. It didn't look like any animal that could be found on Earth, and it was frighteningly powerful to boot. From the aura it exuded, one could tell that it was a 12-star lord-level sea beast.

Wang Teng would never forget how Dan Taixuan took care of him, so she was one of the first to receive the planetary stage scripture from him.

Dan Taixuan was a double-element martial warrior, possessing wind and fire Force. Wang Teng didn't have a wind Force scripture on him. He could only pass her the fire Force planetary stage scripture, the Star Fire Scripture.

Her ability rose exponentially after practicing the Star Fire Scripture. She had already reached the 12-star general stage, and most of the Force in her body had been converted to constellation Force.

She had the upper hand against the sea beast. The sea beast was retreating continuously under her onslaught. Flames burned on her fists as she hurled them at the sea beast. It cried in pain continuously.

Right then, roaring waves suddenly shot up in the sea below. A large and thick tentacle came out like a javelin, aiming straight for Dan Taixuan.

Dan Taixuan had her back toward the tentacle, so she only felt a strong gale blowing against her back. Without any time to think, she instinctively shifted to the side.

Bang!

The tentacle changed from a stab to a sweep when it failed its first attack. It hit Dan Taixuan's body, throwing her off her feet.

Splurt!

She suffered a heavy blow and vomited a mouthful of blood. Her face turned pale.

Boom, boom, boom!

The surface of the sea erupted again and numerous tentacles shot toward her, attempting to crush her to death.

Dan Taixuan's expression changed. Force gushed out of her body as she got ready to fight for her life.

"Go away!"

At this moment, she heard an angry shout.

A figure appeared in front of her and punched towards the sea below.

The water parted, and a giant deep sea squid was thrown out of the sea forcefully. It was more than ten meters long and was almost as huge as the whale. However, its body had exploded from the fist and turned into a flesh rain.

Dan Taixuan was stunned. As she calmed down, all she saw was the familiar and tall figure in front of her.

"Are you alright?" Wang Teng turned and looked at her. There was concern on his face.

This brat!

For some reason, Dan Taixuan's eyes turned slightly red.

She shook her head hurriedly to hide her emotions. She said agitatedly, "I'm fine. Go and help the Leader. There are too many sea beasts. A large part of the city has fallen in less than half an hour. Many people are dead."

"Don't worry. I'll send these bastards to hell now." Wang Teng nodded and went silent. Intense killing intent burned in his eyes.

The next instant, he disappeared.

Boom!

The Leader was battling with the giant whale when Wang Teng appeared out of the blue. He released a terrifying sword glow that slit the air into two.

The giant whale was thunderstruck. It could sense danger and the threat of death inching toward it. It roared, and Force erupted from its body.

Large waves crashed into the sky. Layers and layers of waves rose behind it, reaching a hundred feet in height. It was trying to block the sword attack.

However, the giant wave was like a piece of paper in front of the menacing sword glow. It got torn into two, revealing the body of the giant whale behind.

Swoosh!

Within a split second, the sword glow slashed down, and a sword mark appeared on the enormous body of the whale.

The sword mark cut through the whale's entire body, from the head to the tail. Fresh blood turned the surrounding water red.

Boom!

The giant whale's eyes were filled with disbelief and unwillingness. They gradually lost their vitality.

The gigantic body was chopped into two, and it plummeted into the sea, forming large waves like a tsunami. It was terrifying.

Then, its body sunk into the bottom of the sea and disappeared...

Whale fall!

The Leader had retreated some distance away. He held his long spear and stood there with astonishment in his eyes.

Was this the power of the planetary stage?!

He was sincerely dumbfounded.

He had seen Wang Teng attacking before but never so directly and at this close range. He finally understood how vast the difference was between the general stage and the planetary stage.

"Sigh!"

Not far away, Dan Taixuan was in awe too. She thought that Wang Teng would need some time and effort to deal with that giant whale, but all he required was one sword attack. One slash and the giant whale died.

How frightening was that sword move!

The sea beasts around him, including the human martial warriors, were stunned. They stared at the corpse of the giant whale as it sank into the sea. All voices were lost for a moment.

1

"Wang Teng!"

"It's Wang Teng!"

"He killed the giant whale! We have hope!"

"Hahaha, this is great! We are saved!"

Everyone regained their senses, and an earth-shattering cheer erupted.

"God of Martial Arts!"

"God of Martial Arts!"

...

Someone started shouting this nickname. Within a few seconds, the cheers turned into resonant chants, reverberating in every corner of the city ruins.

Chapter 794: Don't Panic, Put On A Stern Face First!

God of Martial Arts!

As the human martial warriors shouted, their morale shot up. They startled the sea beasts with their spirit.

They needed moral support in this devastating situation. They need mental support, a pillar that could prop up their hope so that they wouldn't drown in despair.

When Wang Teng killed the terrifying whale, he gave these people the greatest hope.

Even that formidable sea beast was nothing in front of him. What could the other sea beasts do?

This was their ray of hope!

Everyone was invigorated, and they cheered for him and themselves.

The Leader of martial arts looked at Wang Teng in satisfaction. He seemed to have found his successor and felt emotional.

Wang Teng was back-facing the human martial warriors, so they couldn't see his face. No one knew what his expression was like.

They only saw him raising his sword again and throwing another sword attack at the boundless horizon.

Boom!

A scary sword light gathered and wreaked havoc in the sky. Sea waves tossed and churned. They were even more appalling than the waves made by the giant whale.

The entire coastline seemed to be boiling. The seawater fell back into the sea, and all the sea beasts started struggling frantically amidst the powerful waves. They roared in fear.

Everyone was flabbergasted when they saw this scene.

The sea beasts on land stopped their attack and stared at the water absentmindedly. Fear started creeping up their hearts.

Slash!

Suddenly, a soft slash echoed in the water. It wasn't loud, but it entered every human and sea beast's ear clearly.

Boom!

Sword of Ultima-Thousand Crashing Ripples!

The terrifying sword glow cut through the sea, forcing the waves to wind back. A water wall was formed. It stretched for over a thousand meters and was pressing forward into the sea.

Countless sword glows danced in the sea waves, chopping numerous sea beasts into pieces. They turned into minced meat and stained the seawater with their blood.

The water wall turned red at a visible speed.

Blood waves bellowed and rose into the air like an upside-down waterfall.

The God of the sea was angry!

Many sea beasts were killed by this attack. They were washed to who-knew-where by the seawater, but no matter what, they would still end up at the bottom of the sea, becoming a fertilizer for this planet.

This was the true 'Whale Fall'!

Born in the sea, die in the sea.

Gradually, the sea waves subsided, and the thousand-meter-tall waterfall died down. No sea beasts could be seen within a few thousand meters radius.

Silence!

Dead silence!

The entire Jingmen City was eerily silent.

All the sea beasts woke up from their stupor and shuddered in fear. They charged towards the sea and the rivers in unison.

They were afraid!

They were fearful!

They were hopeless!

This human was too scary. He was like a devil. One attack and he killed the whale lord. One more attack and he annihilated the entire sea beast tide.

How could they fight against this monster?

"We won!"

"We won!"

...

There was a huge uproar when the sea beasts started retreating. The cheers rang through the sky and echoed on the surface of the sea. No words could describe their joy and relief now.

"Everyone, kill all the sea beasts!" Wang Teng's cold voice resounded in the city.

"Yes!"

"Kill!"

"Kill!"

All the martial warriors replied in unison. Their bellows soared through the sky, and their intense killing intent surged towards the sea beasts scurrying away.

The Leader of martial arts, Dan Taixuan, and the other general-stage martial warriors didn't waste any time. They killed the last few lord-level sea beasts immediately.

Jin Yuan and Hadock followed Wang Teng closely and arrived at the scene. However, they didn't get the chance to act. Wang Teng solved the crisis alone.

Nevertheless, they were amazed when they saw Wang Teng in action. He was more powerful than they had imagined!

Although they had guessed about his identity, when they confirmed that he was a martial warrior from Earth, their astonishment didn't subside. Instead, it grew stronger.

A martial warrior from this underdeveloped planet managed to reach such a high level in his cultivation without any help. This fellow was a monster!

They were dumbstruck and felt more fearful of Wang Teng.

...

The remaining sea beasts posed no threat. They were cleared quickly.

But Jingmen City was already in ruins.

The survivors sat among the debris in tears. They were covered with blood. Some of them were digging the soil with their bare hands, searching for their partner, family, and friends...

Scenes of desolation met the eye on every side.

Sadness welled up in his heart. Wang Teng stood in the air and looked at the situation below with a heavy heart. It reminded him of Donghai.

"I'm sorry I came late." A sigh escaped his mouth.

Everyone looked up. The people kneeling on the ground raised their tear-stained faces and stared at the figure in the sky.

In everyone's eyes, that figure was as mighty and formidable as a God!

"Everyone, my condolences. The dead are gone forever, but we have to move on," Wang Teng sighed again as he spoke.

Everyone remained quiet. Then, they stood up.

God of Martial Arts!

God of Martial Arts!

...

Sparse voices were heard once again. Gradually, they merged together. At this moment, Wang Teng's position in everyone's heart exceeded that of the Leader of martial arts.

To them, Wang Teng was the new pillar of support.

Many humans started to stand up in the distance and looked at Wang Teng while shouting the nickname.

The Leader of martial arts had a faint smile on his face. He didn't get angry because someone had taken his position. Instead, he felt relaxed. He was relieved that he could finally put down this huge burden.

Dan Taixuan's eyes were glowing. She was probably the happiest person to see Wang Teng reach this level. After all, she had witnessed his growth. She had seen him transform from a cheeky greenhorn into this fine fellow standing right before her.

In everyone's heart, Wang Teng's image was high and mighty. He was their hero, the new God of Martial Arts of his era. He was the epitome of invincibility.

On the other hand, Wang Teng, who was the center of attention, felt a little agitated and confused. For some reason, he felt that this wasn't right.

This wasn't the result he hoped for.

He just wanted to cheer these people up. He had experienced Donghai's sea beasts' riot personally, so he understood the pain and sorrow of these people. That was why he comforted them.

He didn't want to cause such a scene. He had never thought of being a hero.

Being a hero was tiring. You needed to be at your best all the time. It wasn't fun!

This wasn't what he desired!

Wang Teng regretted speaking too much and causing a misunderstanding among the crowd. What should he do? Was it too late to take back his words?

Many thoughts went through Wang Teng's mind, but his expression remained unchanged.

Don't panic, put on a stern face and no one can tell what you're thinking!

The Leader of martial arts flew over from afar and spoke to him in a grim tone, "Wang Teng, this isn't the only city that suffered a riot. Beast tides are occurring in every part of the country. Beijiang, Nanhai, the various mountain ranges, and primary forests... terrifying beast tides are everywhere. This is an extremely serious disaster."

"What?!" Wang Teng was astounded. "There're beast tides breaking out all over the country?"

"Yes, the whole country is under attack. I'm not sure why these star beasts went crazy and started running out of their territories," the Leader of martial arts nodded gravely.

1

Chapter 795: Special Skill—Whale Swallow!

"Why did this happen?" Wang Teng asked solemnly.

"We just received the news too. We have yet to find the reason." The Leader of martial arts shook his head. "If my guess is correct, we are not the only country suffering. The other nations might be facing this ordeal too."

Wang Teng nodded in deep thought. "No matter what, let's solve the star beast riots in our country first."

"Yes!" The Leader of martial arts nodded grimly. "However, there are too many cities facing this calamity. We might not be able to help all of them at once. By the time we go over, it might be too late."

"We can only reinforce the areas with the worse star beast tides." Wang Teng contemplated before turning his head. "Jin Yuan, Hadock."

"Yes, boss!" Jin Yuan and Hadock replied with smiles plastered on their faces.

The Leader and Dan Taixuan finally noticed these two figures. They immediately thought of aliens when they saw Hadock's tentacles. They were shocked.

"They are?" the Leader asked.

"That's right, they're alien martial warriors. But they're on our side." Wang Teng glanced at the two aliens intently as he spoke.

"Boss is right. We have abandoned the candidates' side and joined the Earth's faction. We are honored Earthlings now," Jin Yuan immediately stated his stand without any dignity.

"I'm born an Earthling and will die as the Earth's ghost," Hadock added on firmly.

The Leader of martial arts: ...

Dan Taixuan: ...

These two aliens seemed a little shameless!

"Alright, stop fooling around. One of you will head north and the other will go to the west. I don't care what method you use, but you must suppress the riots. I'll give you half an hour. Is it enough?" Wang Teng said angrily. The muscles on his face twitched uncontrollably.

"No problem! Half an hour is enough!" Jin Yuan said with ease.

"A piece of cake. Fatty, let's see who can end it faster," Hadock said.

"Sure, you said it. The one who loses will give up half his serving of barbecued octopus tonight." Jin Yuan sniggered. He said to Wang Teng, "Boss, we'll leave now and meet again half an hour later at the capital of this country!"

They turned into rays of light and disappeared into the horizon, one heading north and the other west. Their speed was incredible!

"Planetary stage!" Bewilderment flashed passed the Leader's eyes. His voice was a little hoarse as he exclaimed.

These two happy-go-lucky aliens were planetary-stage martial warriors!

He didn't expect this.

Where did Wang Teng find these two planetary-stage martial warriors? This was as surprising as Wang Teng becoming a planetary-stage martial warrior himself.

They were planetary-stage martial warriors, not some vegetables in the market!

Seriously...

The Leader of martial arts didn't know what to say.

"Yes, they're planetary-stage martial warriors. With them around, the star beast riot will be suppressed quickly," Wang Teng said.

"It shouldn't be a problem since there are planetary-stage martial warriors reinforcing us." The Leader nodded in agreement when he remembered how Wang Teng had defeated the star beasts.

"I'll be paying a visit to Beijiang," Wang Teng said.

"Good. I'll arrange people to take care of the other small star beast riots," the Leader of martial arts replied.

Wang Teng nodded. He didn't waste any time and disappeared into the north.

His destination was Beijiang!

The Leader of martial arts looked at his disappearing back view with a complicated and emotional gaze.

"I'll leave everything to you, Wang Teng!"

...

A figure dashed past the sky, breaking the sound barrier and reaching an impossible speed. He couldn't be seen with the naked eye.

Wang Teng flew towards Beijiang at the maximum speed he could for a planetary-stage martial warrior. At the same time, he counted his gains.

He had to admit that the harvest this time was greater than the previous batch. He had received another round of attribute bubbles.

His ice Force, lightning Force, and poison Force had risen recently, but they shot up again.

Ice Force: 17900/20000 (11-star)

Lightning Force: 18600/20000 (11-star)

Poison Force: 12500/35000 (12-star)

Both his ice Force and lightning Force were still at the 11-star general stage, but they were not far from achieving a breakthrough. His poison Force hit the limit and reached the 12-star general stage.

In just a few hours, Wang Teng's ability had improved tremendously. The speed of progression was a little appalling.

He also gained many wind Force attribute bubbles, so his wind Force jumped to the 12-star general stage too.

Wind Force: 8560/35000 (12-star)

These four Forces were getting closer and closer to the 13-star general stage.

If he found the relevant planetary stage scriptures in the future, he would be able to raise these four Forces to the planetary stage. Everything would be perfect then.

Of course, Wang Teng also gained a large number of water Force as well as the other four basic element Forces attributes. After all, there were sea beasts that possessed the other basic elements. Water Force wasn't the only one.

The sea beasts also dropped many attribute bubbles containing weird skills. Though they were useless to Wang Teng.

There was only one exception—Whale Swallow!

This was a special skill dropped by the whale lord. Wang Teng's eyes lit up as he went through the traits of the skill in his mind.

Whale Swallow!

In essence, this was a special skill that could allow him to swallow large amounts of food or Force like a whale.

This skill would be of great help in increasing a martial warrior's cultivation speed. Once they used it, they could absorb a large amount of Force at once or swallow much food and extract energy from them...

In summary, the application of this skill exceeded Wang Teng's expectations.

Whale Swallow: 265/10000 (1-star)

"Only 1-star?" Wang Teng retracted his gaze from the attributes panel. He realized that all the skills he received came in different ranks. The perfected stage was no longer the highest level.

Having ranks meant that a rise in rank would result in a jump in the strength of a skill.

This was a piece of good news for Wang Teng.

As his ability got stronger, some battle techniques would be useless if they couldn't catch up with his progress.

Wang Teng also discovered that these ranks only appeared on the techniques had had greater potential. For instance, the Space Physique and the Deep Sea Breathing skills had space for improvement, so they were segregated into different ranks. For other normal skills, the perfected stage was the limit.

The system divided the skills clearly.

Wang Teng could also understand the potential of his skills. The Space Physique and Whale Swallow required ten thousand points to advance. On the other hand, Deep Sea Breathing only needed a thousand points. This was the difference.

Chapter 796: They're Just Star Beasts. Kill Them Directly!

Beijiang!

A huge mountain ridge lay horizontally on the vast piece of land like a gigantic dragon that fell from the sky. Its body turned into the boundless mountain ranges linking the east to the west, segregating the land into two parts.

Beijiang was situated at the north of this mountain range.

The land was covered with snow all year round, and mist floated around the peak of the mountain. It felt like heaven.

However, a frightening disaster was happening in this extremely peaceful region.

Danger lurked everywhere. The situation was uncertain.

Occasional loud roars were heard from the endless mountain ranges, one after another. They seemed to be announcing their right over this patch of land.

"Pfft, these beasts are getting arrogant."

There was a steep valley within the mountains that was enveloped with blood. Corpses of humans and star beasts were littered everywhere. It was ghastly.

The beast tide had retreated, and the humans were treating the survivors and recovering the corpses of their fellow companions.

A military martial warrior heard the roar and raised his head abruptly. He spat in the direction of the sound. The other martial warriors gave the same expression. They felt immense hatred toward the star beasts.

The entrance of the valley was heavily guarded. All kinds of heavy weapons were set up, their bores aiming at the valley. Once they discovered any signs of star beasts, they would launch spit fire at them.

There was also a tent behind the entrance. The general-stage martial warriors guarding Beijiang were all gathered inside. They were staring solemnly at a large map in front of them.

"This valley is an important gate for the star beasts to enter the human territory. Once they breach this defensive line, the vast piece of land behind us will welcome a massacre," Zhou Xuanwu said grimly as he stood in front of the host seat.

After annihilating the Zhenli Clan, he was sent to guard Beijiang.

There were hordes of star beasts here, and this was the first known dimensional rift linking to the Darkland on Earth. It was an important location.

This place required powerful martial warriors like him.

Not only that, but he had brought a majority of the Xuanwu Troop over too. If not, they wouldn't have been able to withstand the first round of beast tide.

The general-stage martial warriors turned grim when they heard this.

"This was just the first round of beast tide. Their abilities are not the strongest. These bastards are testing us. You can imagine how terrifying the future beast tides will be," a 12-star general-stage martial warrior said.

"General Lin is right. We mustn't put down our guards. There's a tough battle waiting for us." Another middle-aged man nodded and agreed. His expression was stern and his back straight. Sporting a general cloak, he was a 12-star general-stage martial warrior too.

"Why did these star beasts suddenly attack us like they have gone crazy? Also, the majority of them seem to have gotten stronger. This has never happened in the past. I can't figure out what happened," a refined-looking 11-star general-stage martial warrior spoke up.

"Do you think it has anything to do with the alien invaders?" Someone suggested.

"Erm..."

"It's possible. It's too much of a coincidence!"

The other people started pondering over this possibility. Some nodded while others went into deep thought.

"We haven't found the reason. There's no use thinking about it now." Zhou Xuanwu opened his mouth. "I'm worried about one thing. Besides star beasts, there's a dimensional rift linking to the Darkland here. If we are forced to move further down the valley, the dimensional rift will make use of this chance to expand. If..."

He didn't complete his sentence but everyone knew what he wanted to express.

If the dark apparitions seized the opportunity and broke through the dimensional rift, they would finally be able to land on Earth. That was the worst calamity that could happen.

The entire tent turned silent.

The Xingwu Continent suffered from the invasion of the dark apparitions. Whenever the dark apparitions landed in a city, the people would be plunged into hellish misery and suffering. It was a tragic event.

They knew it better than anyone!

If this situation occurred on Earth, more than 80% of humans would be killed.

Most of the people in the Xingwu Continent practiced martial arts, and their foundation was stronger. Hence, they were still able to hold on under the dark apparitions' repeated invasions. They required help from the Earth to resist the dark apparitions.

The martial arts era on the Earth had only started recently. Most of the human martial warriors were ordinary people. No matter how strong they were, they weren't the star beasts' or the dark apparitions' match.

If the dimensional rift expanded, the human race could only move toward extinction.

The brutal result appeared in everyone's mind. Their faces turned stern, and cold sweat started dripping down their foreheads.

"Sigh!"

At this moment, a strong gale blew in from outside. The green screen used as a makeshift door was blown up.

Everyone was caught off guard. They turned to take a look.

A figure strode in and said in a loud and clear voice, "They're just star beasts. Kill them directly. What are you afraid of?"

"Who are you?!"

The expressions on many people's faces changed as they glared at the outsider.

Some of these people had been guarding Beijiang for many years. They had never seen this person before. Hence, when they heard him boasting shamelessly, they were infuriated.

"Wang Teng!" Zhou Xuanwu recognized this person. He was elated.

"What? Wang Teng?"

"That Wang Teng!"

"He's Wang Teng!"

"The Wang Teng who overpowered the alien martial warrior? Why is he here?"

After a moment of astonishment, the people regained their senses and stared at the young man in bewilderment.

"General Zhou, how have you been?" Wang Teng smiled and greeted Zhou Xuanwu.

"Not good at all. My hair is turning white because of the star beast riot," Zhou Xuanwu said with a forced smile.

"Hahaha." Wang Teng burst out laughing. "You have your moments of helplessness too."

"It's good that you're here." Zhou Xuanwu didn't mind Wang Teng's teasing. "I heard that you've already reached that stage. I think you will be able to handle the star beasts easily, right?"

Although Zhou Xuanwu was guarding the country's borders, he knew that Wang Teng had reached the planetary stage. He was one of the few stationed martial warriors who knew about this.

He was a 13-star general-stage martial warrior, so he had the right to know. Besides, he was gifted with the skill of converting Force into constellation Force and was already on the path to reaching the planetary stage.

“That stage!”

Everyone was shocked when they listened to their conversation.

They knew what that stage meant. As martial warriors, everyone wanted to break the current bottleneck and ascend to a higher level.

However, they were too far away. They hadn’t even reached the 13-star general stage, so that stage was just a wild wish.

Yet this young man who hadn’t reached 20 had reached that stage. If they didn’t hear it from Zhou Xuanwu, none of them would dare to believe it.

This was utterly unbelievable!

It didn’t make sense!

None at all!

What had they been cultivating their entire life?

Chapter 797: Wang Teng Is Still Too Young!

Wang Teng didn’t bother about what they were thinking. He nodded at Zhou Xuanwu and said, “Actually, that stage isn’t hard to break through. Don’t think too much about it.”

Silence.

Everyone was speechless. *Are you sure you’re consoling us?*

Why does it sound so infuriating instead?

Zhou Xuanwu felt helpless too. He practiced the conversion skill, so he knew that it wasn’t simple. Did this fellow think that everyone was as gifted as him?

“Alright, I won’t waste any more time. I came to end the star beast riot,” Wang Teng declared.

The listeners immediately turned serious. Ending the star beast riot was the top priority now. Everything else could be pushed back.

“Let’s discuss the future plan.” Zhou Xuanwu nodded in agreement.

The others started contemplating. It wasn’t easy to find a suitable counterattack in this situation.

However, Wang Teng exclaimed in surprise. “What plans do we need? We can just attack them!”

Silence.

Everyone was stunned. They turned their heads in unplanned unison and stared at Wang Teng in confusion.

“Why are you looking at me?” Wang Teng felt helpless. “Did I say anything wrong? I don’t have time to waste here. Let’s end this battle quickly. I have to take care of the other alien invaders. I’m busy.”

No one knew what to say. To Wang Teng, this thorny star beast riot could be solved with a wave of his hands.

Was something not right?

Wang Teng saw their expressions and finally realized that his words had stimulated them.

“Cough, why don’t you continue what you’re doing and I will enter the mountains alone to take a look?” he coughed awkwardly and said.

Silence.

It would be better if he hadn’t spoken. The martial warriors felt even more ashamed of themselves.

Honestly, were they useless?

He must be thinking that they would hinder his plans. That was why he wanted to enter the mountains alone!

This must be what he was thinking!

It must be!

Everyone stared at Wang Teng with hidden bitterness.

Zhou Xuanwu wiped the cold sweat off his forehead. He hurriedly spoke up to ease the atmosphere.

“How about this? Wang Teng and I will enter the mountains to take a look. You guys will guard the camp to ensure its safety and wait for us.”

The other general-stage martial warriors had no objections. They nodded.

They were afraid of entering the mountains now!

The mountains were filled with dangers. Powerful star beasts were everywhere. They had sent many martial warriors to act as scouts in the past, but none of them came back.

They were general-stage martial warriors, so staying alive wasn’t a problem for them. However, if they entered the mountains, they might have to face an intense battle. It wouldn’t give them any benefits.

You could say that they felt entering the mountains alone was a bad idea. Wang Teng dared to do it because he was strong enough. Zhou Xuanwu was a 13-star general-stage martial warrior, so it wasn’t a problem for him either.

When Wang Teng suffered a setback, he would naturally come back and follow their plan obediently. He wouldn’t act rashly anymore.

Since no one had any objections, Zhou Xuanwu and Wang Teng went to prepare themselves. They would enter the mountains without delay.

The two of them walked out of the tent, accompanied by the other general-stage martial warriors. They arrived at the valley's entrance. The military martial warriors clearing up the scene stopped what they were doing when they saw the general-stage martial warriors. They stared at them.

"Who's that young man? He's walking in front of all the generals."

"I don't know. I have never seen him before."

"I know who he is! It's him!"

"Who is it? Tell us quickly!"

"It's Wang Teng! Major General Wang!"

"What? Major General Wang? Why is he here?"

...

Low discussions were heard all around them. They were on the battlefield, so the discipline wasn't as strict. No one reprimanded them because of their noise.

When Wang Teng walked past the military martial warriors, they dropped everything and saluted. They were extremely respectful towards him.

They had already recognized Wang Teng!

Amidst their gazes, Wang Teng and Zhou Xuanwu stopped at the end of the valley.

"What are they planning to do?"

"Are they going to launch a counterattack?"

...

The military martial warriors started guessing. There was anticipation in their eyes.

During the previous star beast attack, they had relied mainly on defense. It was frustrating. Thus, when they saw the general-stage martial warriors taking action, they felt invigorated and excited.

However, soon, they realized that only two figures rose into the air among all the martial warriors. The rest of them remained on the ground.

"General Zhou!"

"Major General Wang!"

They stared at the two figures in the sky in astonishment.

"Everyone, we'll be leaving the camp to you guys. Please ensure that nothing happens to the camp," Zhou Xuanwu said.

"Don't worry, General Zhou. With us around, nothing will happen," the martial warriors below replied in unison.

Wang Teng and Zhou Xuanwu stopped talking and disappeared into the depths of the mountains.

The other general-stage martial warriors stood on the spot for some time, staring in the direction Wang Teng and Zhou Xuanwu had left. They shook their heads.

“I hope they can come back safely. We can’t afford to lose any one of them.”

“Yes, General Zhou is the most powerful martial warrior in the camp. He must be safe.”

“Wang Teng is still too young!”

...

Everyone chatted on their way back to the tent. They continued to discuss the future plan. In their hearts, Wang Teng and Zhou Xuanwu’s trip would be futile.

On the other side, Wang Teng and Zhou Xuanwu were now deep in the mountains. They had worked together once, so they were familiar with each other’s abilities. There was no need to be doubtful of each other.

Besides, after attempting the conversion skill, Zhou Xuanwu could sense that his ability had risen by a huge level. This allowed him to understand how powerful the planetary stage was.

Other people might not believe Wang Teng when he said that he could solve the star beast problem alone, but he had trust in him.

The only worry he had came from his fear of the star beast tide.

Roar!

Just as they were heading deeper, a loud bellow came from below.

A giant ape stood up on the ground under them. It was more than ten feet tall. It leaped up and slapped its large palm at Wang Teng and Zhou Xuanwu.

Boom!

The air around the hand was compressed due to the force, creating a sonic boom. The commotion created was appalling.

The enormous palm pressed down on Wang Teng and Zhou Xuanwu like a mountain.

“12-star lord-level!” Zhou Xuanwu’s expression changed slightly. He didn’t think that the first star beast he met would be such a formidable foe.

He wasn’t afraid of this star beast, but he didn’t want to receive this palm forcefully. As a human martial warrior, its strength was enough to hurt his body.

Chapter 798: Fire Disaster!

Zhou Xuanwu’s expression turned grave. He was prepared to dodge the palm.

He wasn’t worried about Wang Teng. This was just a 12-star lord-level star beast. How could it hurt a planetary-stage martial warrior?

However, Wang Teng surprised him. His method was more direct than he had imagined. He pushed his palm out and welcomed the attack of the giant ape head-on.

The disparity in the size of the two palms was vast.

Boom!

The next instant, the palms collided. The weaker and smaller palm managed to stop the enormous palm of the giant ape.

That wasn't the end!

Crack!

The ape's eyes were filled with disbelief. It didn't understand how this fragile and puny little human could possess such a powerful ability. It didn't have the time to think though. A sharp pain came from its arm, and the sound of its bone cracking was loud and clear. It howled in pain uncontrollably.

"Why are you screaming!"

After the palm attack, Wang Teng vanished and appeared above the ape's head.

"Get down!" He stomped his feet right on the ape's crown.

The giant ape shuddered. It felt a formidable strength pouring down from its head. Its gigantic body went out of control and started plummeting.

It felt as if a meteorite had smashed on its head!

Boom!

The giant ape slammed into the mountain, creating a large tremor on the ground. Numerous trees fell. It was like an earthquake.

The noise alerted the star beasts hiding in the mountains. They all bellowed in anger.

Zhou Xuanwu felt his heart trembling when he heard the roars. If he was surrounded by all these lord-level star beasts, he could forget about escaping.

Yet Wang Teng was still calm and composed. He didn't seem bothered at all.

Zhou Xuanwu suddenly felt inferior. Why was the difference between them so huge?

"What a large monkey!" Wang Teng lamented. He didn't see Zhou Xuanwu's dejected expression. He flew down from the sky and stopped in mid-air to look at the giant ape.

"Human, how dare you barge into my territory." The giant ape bore with the excruciating pain and climbed up from the ground, causing another round of rumble. It raised its head and glared at Wang Teng.

"Wow, I'm so afraid." Wang Teng took a step back and patted his chest.

The ape: ...

Zhou Xuanwu: ...

His acting was truly exaggerated!

Zhou Xuanwu felt the corners of his eyes twitching as he stared at Wang Teng in amazement.

As expected of Wang Teng!

The ape could tell that Wang Teng was teasing it. It bellowed at the sky. "Everyone, what you are waiting for? Kill this—argh!"

The ape's shout suddenly got stuck in its throat. It made a retching sound, and its sentence ended abruptly.

Zhou Xuanwu's expression turned strange. What did he see?

Just when the ape was shouting with its mouth facing the sky, Wang Teng found a large rock from who knew where and threw it directly into the ape's mouth.

As to why this simple attack could succeed? It was simply because the ape's mouth was huge!

The ape felt extremely uncomfortable. It opened its mouth and straightened its neck. The large rock was stuck in its throat. It couldn't swallow it or spit it out.

It was stuck in the weakest part of its throat, so it could only break it with brute force.

Zhou Xuanwu couldn't help but swallow his saliva when he saw its expression. His Adam's apple moved up and down, and he felt as if there was something stuck in his throat. It felt dry and uncomfortable.

This was a sinister move!

Zhou Xuanwu felt that only Wang Teng could think of such a dirty trick. It suited his style!

The star beasts closing in paused in unison. The atmosphere turned strange.

This human seemed a little scary!

Was it alright for them to charge forward?

Wasn't it better to stay at home and have a nice sleep? Why did they have to come out and fight for their lives? Why?

"Crack~ Crack... Pfft..."

The giant ape finally remembered that he could shatter the rock with force. It moved its throat and spat out the broken pieces of rocks.

"Roar..."

It bellowed in anger and shouted at the star beasts around it. "Have you forgotten our purpose? Kill this human!"

The ape's words ignited the ferociousness in the star beasts. They screeched in anger and charged in that direction.

Boom!

The forest trembled, and the ground shook violently. The commotion was petrifying.

Very soon, a sea of star beasts could be seen crashing towards them from the woods below. The entire forest seemed to have turned black from their numbers.

Zhou Xuanwu looked down from the sky and swallowed a gulp of his saliva. He said in a hoarse voice, "Wang Teng, you've poked the hornet's nest."

"Haha, what are you afraid of? It's good that they're here. I wish all the star beasts would come. I can catch them all at once." Wang Teng laughed without any worry.

Zhou Xuanwu didn't know what to say. This man had a big heart!

He was still thinking of trapping all the star beasts in one go when facing such a frightening beast tide.

Was this the confidence of a planetary-stage martial warrior?

"Roar!"

"Kill!"

"Humans, die!"

The howls of the star beasts merged together, and a ferocious aura gathered into the air. It surged towards Wang Teng and Zhou Xuanwu.

Normal martial warriors would be filled with terror when they saw this scene. Even Zhou Xuanwu, who was a 13-star general-stage martial warrior, started to panic. His face turned slightly pale.

He wasn't being a coward!

Honestly!

He was just getting a little nervous.

"Why don't we go back and discuss the plan first?" Zhou Xuanwu gulped silently and asked.

"Are you afraid?" Wang Teng asked with a smile.

"How is that possible? I never knew what fear feels like," Zhou Xuanwu said confidently.

— _ — ✧

Wang Teng glanced at Zhou Xuanwu, but he didn't expose him. He turned and scanned the star beasts below with a cold expression.

Boom!

A loud explosion erupted.

A terrifying flame burst out of Wang Teng's body. The emerald flame spread out and swept through the sky like a fire dragon. Scorching heat covered heaven and earth. The temperature in the region rose tremendously within a split second.

Emerald Glazed Flame!

Ever since Wang Teng advanced to the planetary stage, the power of the divine fires he controlled rose multiple times compared to the past.

With a wave of his hand, the flames in the sky merged to form numerous fierce green dragons. The dragons bellowed at the sky.

The star beasts stopped in their tracks and looked up. Their eyes were filled with emerald flames. They were dumbstruck.

“What is this?”

“What a scary flame!”

The lord-level star beasts started howling in fright. They were unnerved.

“Go!” An angry shout echoed in the air. The green dragons shot out, and countless emerald flames fell from the sky.

This felt like a scene from the end of the world.

Chapter 799: Space Distortion Area

This mountain range was an extremely chilly place. It was covered with snow all year round and bred many ice element star beasts.

When the rain of emerald flame fell on the ground, a flock of ice vultures opened their beaks and sprayed ice and snow into the sky.

In an instant, there seemed to be heavy snowfall. Coldness spread through the air and turned into a gale, aiming straight for the flames.

Pant!

The snow danced wildly in the sky, wanting to extinguish the emerald flames.

However, these ice vultures had underestimated the Emerald Glazed Flame. The instant the snow touched the flames, it melted and evaporated.

The ice vultures screeched angrily and circled in the air. Large patches of snow dawned on earth, turning this place into a world of ice and snow.

“Naive!” Wang Teng sneered. He allowed the snow to fall with an indifferent expression.

Boom!

Suddenly, the emerald flame exploded and swallowed all the snow and ice. The temperature in this area rose multiple times. Not only that, but the giant dragon formed from the Emerald Glazed Flame also shot into the air and soared towards the ice vultures.

“Screech!”

The ice vultures gave a shrill cry of fear. They flapped their wings frantically and wanted to escape. But after flying for about ten meters, the emerald flame caught up and swallowed them.

“Screech!”

“Screech!”

...

Screeches of despair resounded in the sky. Within a split second, the green flames disappeared entirely. Pitch-black objects plummeted down the sky.

They had truly become burnt birds!

The star beasts below were flabbergasted when they saw this scene.

Wang Teng squinted. He waved his hand, and the emerald flames swept down again, engulfing numerous star beasts.

Roar!

Roar!

Howl!

...

Cries of fear reverberated in the woods continuously. There was no end to it. The star beasts had no chance of resisting the onslaught of the Emerald Glazed Flame. They got burned into ashes instantly.

The star beasts behind were terrified. They didn't dare to rush forward anymore and started escaping in all directions.

“Thinking of running away?” Wang Teng wouldn't give them a chance to leave. After spending so much effort to lure them out, he must kill to his heart's content.

Spiritual power gushed out of his forehead. He controlled the Emerald Glazed Flame and threw it at the star beasts that were escaping. The star beasts got submerged by the flames one by one.

Fortunately, the mountain range was full of rocks and accumulated snow. If not, the entire mountain range might have turned into a sea of fire.

Even so, the flames continued burning in the forest. The Emerald Glazed Flame was a divine fire. It could burn anything that it came in touch with. Nothing could escape its wrath. Even the stones. You could see small stones burning everywhere.

Zhou Xuanwu was stunned. He couldn't believe his eyes. He felt that he was in a dream.

Wang Teng used a single flame to destroy the frightening beast tide. The star beasts scurried away miserably.

This beast tide was their greatest worry. There were numerous powerful star beasts in every beast tide. The damage and impact of this large and strong group of beasts were terrifying.

They weren't some random dogs and cats lying on the street.

Yet they were burned to death like ants now.

This was unbelievable!

Zhou Xuanwu suddenly felt appalled. He had a feeling that he was just here to watch the show.

The chief commander of the Xuanwu Troop had become a spectator!

This...

For a moment, tears of inferiority dripped down Zhou Xuanwu's heart.

This was too difficult!

It was too difficult for him!

Wang Teng didn't know what Zhou Xuanwu was thinking. The army of star beasts had collapsed. He decided to release Little White and the metal armor flaming scorpion.

Zhou Xuanwu was astounded when he saw these two star beasts.

Lord-level!

They were lord-level star beasts!

"Go and hunt the star beasts. The one who kills the most will receive more rewards at the end," Wang Teng told his two spiritual pets.

He was using this chance to train his spiritual pets. He was progressing quickly. If his spiritual pets didn't increase their cultivation speed, they wouldn't be able to catch up with him.

Wang Teng didn't expect them to follow his pace, but he hoped that they wouldn't fall too far behind. After all, as his spiritual pets, it wouldn't be presentable if their abilities were too low.

The amazement in Zhou Xuanwu's eyes got stronger. Wang Teng was probably the only person who dared to release his spiritual pets at a time like this to train them.

Little White and the metal armor flaming scorpion were excited. They immediately charged toward the star beasts below and started their crazy massacre.

The experiences of a spiritual pet depended on its master.

If Little White and the metal armor flaming scorpion grew up normally, they would just be ordinary star beasts. However, under his guidance, their ability exceeded other star beasts at the same level and they loved battles. They showed no mercy when they killed other star beasts.

Zhou Xuanwu was shocked. He almost bit his own lip.

Wang Teng was already a monster, but his spiritual pets were perverts too. Could he give other people some chance!

This was a huge stimulation for Zhou Xuanwu. With his cultivation and ability, he wouldn't have had this mentality in the past. Now, he kept promising himself that he would cultivate with utmost effort after he went back. He must raise his strength quickly.

He never wanted to experience the frustration of being a spectator again.

Under the torture of the Emerald Glazed Flame, the majority of the star beasts had turned into ashes and floated away with the win. They disappeared without a trace as if they had never been in this world.

The other star beasts knew that death was inevitable, so they kneeled down and started howling in despair in the direction of the mountain range.

There was a sky-high snow mountain in that direction. Clouds covered the peak, making it impossible to see it.

Roar!

All the star beasts started howling as if they were paying their last respect. Their voices merged together and the soundwaves shook the mountains.

"What are they doing?" Wang Teng was stunned. He frowned slightly.

He activated his Spiritual Sight and looked at the snow mountain, wishing to see the secret behind their actions.

There was a distorted force blocking his Spiritual Sight. He was unable to see through it.

"Space distortion!"

Wang Teng possessed space talent, so he knew right away that this was an obstacle caused by space distortion. It must be extremely powerful since his Spiritual Sight couldn't even see through it.

"What's the matter?" Zhou Xuanwu also noticed something amiss. He flew beside Wang Teng and asked him.

"There's something strange over there." Wang Teng smiled. "My luck is not bad. I made a random choice to come to Beijiang, and I met the big boss."

Zhou Xuanwu suddenly thought of something. His expression changed. "Wait, that is where the dimensional rift is!"

"Dimensional rift! I'm right!" Wang Teng nodded. He hesitated for a moment before continuing, "If that is the dimensional rift that connects to the Darkland, why are the star beasts paying their respects in that direction? Did they throw themselves into the laps of the dark apparitions?"

Chapter 800: Zhou Xuanwu Felt A Stab In His Heart

"That star beasts are collaborating with the dark apparitions?!" Zhou Xuanwu was shocked by Wang Teng's guess. It was absurd.

The star beasts had joined forces with the dark apparitions!

How could this happen?

Powerful star beasts possessed intelligence and were as smart as humans. If humans could cooperate with the dark apparitions, why couldn't they?

Zhou Xuanwu wasn't stupid or naive. He knew that the star beasts weren't inflexible. He analyzed it in his heart and felt that there was around a 70% chance of this happening. His expression turned grim.

If the star beasts cooperated with the dark apparitions, it would be difficult to handle.

"It's useless to think too much. Since the star beasts are paying their respect in that direction, let's see if anything will appear to save them," Wang Teng scoffed. He waved his hand, and flames shot out toward the remaining survivors mercilessly.

The star beasts screamed in agony and died under the Emerald Glazed Flame.

"Humans, you will die a terrible death!"

"Roar, Beastmaster will take revenge for us!"

"Beastmaster, Beastmaster!"

...

"Beastmaster? Let me see if this Beastmaster will appear after I kill all these star beasts." The smile on Wang Teng's face grew wider. He didn't plan to hide it and turned even more vicious instead. He started killing the remaining star beasts cruelly.

Since they chose to invade, they should be prepared for annihilation. Survival of the fittest was the crux of the martial arts era. This would never change.

Star beasts started falling one by one, including powerful lord-level star beasts. They weren't willing to die just like this, so they continued escaping into the depth of the mountains with the Emerald Glazed Flame pursuing them relentlessly. However, their efforts were useless. They could only die with regret and bitterness.

After the last star beast died, the area turned silent. Only the burning flames and the charred marks on the ground proved that a frightening massacre had taken place here a second ago.

Wang Teng released his spiritual power and kept his Emerald Glazed Flame. Little White and the metal armor flaming scorpion also flew back.

"Master, I killed 138 star beasts, 133 of them were below lord level and five were at the lord level," the metal armor flaming scorpion said in a fawning tone.

"Not bad," Wang Teng nodded.

Little White cawed. It didn't want to lose out.

"Little White says it killed 145 star beasts. Eight of them were at the lord level." Wang Teng smiled.
"Little scorpion, it looks like you lost."

Wang Teng knew how many star beasts they had killed. He possessed the 18 Tasks Multitasking skill, so he could split two thoughts out to watch over his spiritual pets. That was how he knew their result.

“Huh? How is that possible? How can the little crow kill more than me?” the metal armor flaming scorpion said in disbelief.

“It’s smarter than you. It choose the star beasts I injured, so it was more efficient than you,” Wang Teng smiled and replied.

“What the hell, you can do that?” The metal armor flaming scorpion knocked its head with its pincers and scolded itself for its stupidity. It couldn’t think of such a simple idea.

“Alright, I’ll distribute star cores to you based on the number of lord-level star beasts you have killed. Little White will get eight and you’ll get five. Any problem with that?” Wang Teng took out a few fire element star cores and distributed them to his spiritual pets.

“Alright, I lost this time.” The metal armor flaming scorpion swallowed his star cores dejectedly. Then, its eyes lit up, and it glanced at Little White.

“Caw!” Little White immediately gave it a look of disdain and swallowed its star cores. It didn’t give the scorpion a chance to speak.

“Do you have to guard against me so much? Seriously!” the metal armor flaming scorpion muttered.

Wang Teng ignored his bickering spiritual pets. His eyes shone brightly.

A large number of attribute bubbles were floating in the forest. There were many of them.

Get it!

He released his spiritual power and collected all the attribute bubbles without any hesitation.

Earth Force*150

Ice Force*210

Ice Force*180

Blank Attribute*165

Blank Attribute*140

Fire Force*120

Metal Force*300

Blank Attribute*240

Poison Force*220

Wind Force*310

Blank Attribute*430

...

A line of attribute bubbles flew over like sugarcoated haws on a stick. They merged into Wang Teng’s body.

His body trembled again and again. It never stopped.

A large amount of Force flowed throughout his meridians. Besides the basic five element Forces, the other mutated Forces rose tremendously too, especially his ice Force. It went from the 11-star low-tier general stage to the 13-star high-tier general stage.

Ice Force: 15050/50000 (13-star)

The wind Force and poison Force increased greatly too. They broke through from the 12-star general stage to the 13-star high-tier general stage.

Wind Force: 8500/50000 (13-star)

Poison Force: 11200/50000 (13-star)

All three mutated Forces had reached the 13-star level. This advancement was amazing.

Lightning Force also jumped from the 11-star low-tier general stage to the 12-star general stage.

Lightning Force: 13600/35000 (12-star)

Wang Teng suddenly felt that this beast tide wasn't a bad thing. It allowed his cultivation to increase. In the past, he would require much effort and time to reach a similar effect.

The only unfortunate thing was, the star beasts didn't possess dark Force or light Force. Thus, no matter how many star beasts he killed, there was no increase in these two attributes.

"Do I have to use my blank attributes to raise them?" Wang Teng mumbled to himself. He glanced at his blank attributes.

He had gained many blank attributes this time. On his attributes panel, his tally had reached 138500.

Since the last time he used up all his blank attributes, he had collected more than a hundred thousand attributes again.

What an arduous process.

However, his heart started aching when he thought of using up all his blank attributes again.

"Forget it, let's wait a bit. Dark Force and light Force might appear!" Wang Teng consoled himself.

He turned and looked at Zhou Xuanwu only to notice his doubtful expression and inferior aura. He shook his head and started self-reflecting. Should he take better care of the people beside him?

He didn't want to be responsible if they did anything stupid because of the stimulation they received.

Wang Teng opened his mouth and said, "Brother Zhou, do you want to go back? I plan to take a look up that mountain."

Zhou Xuanwu felt a stab in his heart. He took a deep breath and said, "Let me accompany you. I'm familiar with this area, so I might be of some help."

He sounded extremely unconfident though.

Would he be helpful?

Maybe not. But since he had already said it, he couldn't take back his words and admit that he was here just as an audience. He still had his dignity.

"Let's go. I want to see what that scaredy cat looks like." Wang Teng didn't hesitate and nodded instantly. He flew towards the snow mountain.
