

Martial Arts 811

Chapter 811: What Could Wang Teng Do? He Was Helpless Too!

There was a chaotic region behind the vortex. Space tumbled, and an enormous dimensional rift was formed.

Three figures sat cross-legged around the dimensional rift. Black light twinkled around them, releasing powerful fluctuations into the air gradually to support the dimensional rift.

One of these figures was a beautiful lady wearing a black-feather overcoat. She had dark-purple curly hair, and her eyes gave off a pitch-black, evil glint.

This was Black Incubus Devil Lord who had some relationship with Wang Teng in the past!

She pulled a long face when she heard Wang Teng's laughter. The other two devil lords were surprised at her reaction.

"Black Incubus, do you have some grudges with this human?" The dark apparition devil lord called Phantasma was shrouded in mist, so his figure could only be seen faintly. Only his dark green eyes were visible. His gaze landed directly on Black Incubus's face.

"Hahaha, I heard that you suffered in the hands of a human the last time. Was it this one?" The other devil lord called Amalgadon was extremely weird-looking. It stared at Black Incubus contemptuously and started sniggering.

Phantasma's gaze shimmered. He seemed a little surprised.

"Amalgadon, shut your trap!" Black Incubus scoffed. She closed her eyes and decided to keep quiet.

No one knew how frustrated she felt currently. Some time ago, Wang Teng was just a nobody who hadn't even reached the general stage. Although he had managed to injure her with the help of external power, she felt that it was because she had underestimated her opponent. If given another chance, she would definitely be able to kill him easily.

However, things didn't go as planned. She couldn't find Wang Teng in time after he dropped into the Darkland and even gave him the chance to ransack a sacred city before escaping back to Earth.

She lost to Wang Teng again!

This time, she volunteered to come here because she wanted to take revenge for that arrow by killing Wang Teng.

But what on earth happened?

That bastard Wang Teng came up from behind and advanced to the planetary stage. He was at the same level as her!

How was she supposed to take revenge?

She couldn't gain any advantage before he hit the planetary stage, much less now.

Black Incubus was so exasperated that she wanted to vomit blood. She decided to close her eyes and rest, ignoring Wang Teng. Based on how shameless this brat was, he would definitely anger her to death.

Phantasma's dark green eyes submerged back into the mist. He didn't make any more movements. Amalgadon chuckled and stopped sprinkling salt on Black Incubus's wound. It wouldn't do him any good if that lady went crazy.

There was a moment of silence. The space fluctuations in the mountains got more and more violent, and the dimensional rift started expanding at an extremely fast speed.

Dark fog covered everything behind the dimensional rift. The wind blew past, revealing the countless dark apparitions packed like sardines behind the black mist.

...

Wu Gu sat cross-legged in the air below the vortex and glared at Wang Teng opposite him. Both of them were locked in a staring contest.

"Aren't you leaving?" Wu Gu said angrily.

"No," Wang Teng replied calmly.

"Come, let's fight again." Wu Gu stood up and pulled the invisible sleeve on his arm. He looked as if he wanted to have another duel with him.

"No." Wang Teng's expression remained composed. He changed his position and lay down in mid-air with one leg crossed over the other. The guy couldn't look more relaxed.

At the same time, he released his spiritual power and picked up all the attribute bubbles around him.

He had been here for around three hours and gained more than 3000 points of space attributes. He was delighted with his gains.

Wang Teng didn't want to leave because there were many attribute bubbles here. Wu Gu couldn't do anything to him anyway.

After he raised his space physique, he would be able to increase the power of his Space Tornado and deal with those dark apparitions. No matter how many opponents there were, one ultimate move was enough.

Wang Teng came up with a good plan.

Wu Gu didn't know anything about it. He thought that Wang Teng stayed behind to irritate them.

Wang Teng disregarded Wu Gu and closed his eyes. He focused on his attributes panel.

He had gained many attribute bubbles when he killed the Nether World Giant Python, but he didn't have the time to count them yet. He was swallowing dates whole. He didn't know what it tasted like.

Since he was free now, he pulled out his board to take a look.

Constellation Force (Ice)*3500

Constellation Force (Dark)*3650

Emperor-Level Ice Talent*150

Nether Frost*260

Imperial Realm Spirit*115

Blank Attribute*12600

...

Wang Teng was elated when he finished looking through his gains.

Good riddance, the harvest was not bad!

As expected of an emperor-level star beast. The attribute bubbles were huge, and there were many good items.

First, there was the ice and dark constellation Force. There were more than 3000 points for both. Mind you, none of these two Forces had reached the planetary stage. Gaining so many constellation Force attributes was a surprise for him.

He could release these two Forces with some planetary-stage power now.

Then, there was the emperor-level ice talent!

This was a higher level than the ultimate stage talent.

Emperor-level!

The Nether World Giant Python was a race with extremely high ice talent. That was why all the adults in their race could reach the emperor level. They relied heavily on this emperor-level talent.

Wang Teng's ice talent was at the ultimate stage, and it had now been upgraded to the emperor level. There were 150 points of it. This was a huge leap in his ice talent.

The emperor-level ice talent was higher than his Ice Cocoon Physique. However, the combination of these two would give greater benefits.

Emperor-Level Ice Talent: 150/10000

Wang Teng smiled. He looked at another attribute—Nether Frost!

This was a special skill.

Wang Teng remembered the black ice the python had released. That was a fierce attack made with extreme frost. Normal martial warriors wouldn't be able to resist it. He could only curb it because he possessed the Emerald Glazed Flame.

No matter what, this Nether Frost was a powerful battle technique.

Finally, he gained 115 points of the Imperial Realm Spirit.

Wang Teng's spirit was extremely close to breaking through to the next level. With an additional 115 points, his spirit attribute came close to the bottleneck.

Spirit: 2985/3000 (Imperial Realm)

15 points left!

Wang Teng's face turned black. Was he someone that needed 15 more points?

Yes!

He only needed 15 points of spirit to advance!

Wang Teng didn't know what was after the Imperial Realm. However, it would definitely make his spiritual power stronger. Torturing dark apparitions would be a piece of cake for him at that time.

But, he lacked 15 points of attributes.

What could he do? He was helpless too!

Wang Teng shook his head and sighed. He looked at the last attribute bubble that gave him 12600 blank attributes.

The Nether World Giant Python is indeed an emperor-level star beast!

Wang Teng exclaimed in his heart again!

Chapter 812: A Different Side Of Commander Hong

"Sigh... that brat is finally willing to leave!"

Wu Gu looked at the figure flying away and gave a long sigh.

When he couldn't see that figure anymore, he placed his hands behind his back. The ghost flames in his eyes flickered a few times, becoming darker.

"Why did he seem a little happy when he left?"

Wu Gu felt puzzled when he thought about this. He shook his head and said, "This fellow is a little strange. Did I shoot myself in the foot by making a bet with him... Pfft, how can I lose?"

...

Wang Teng left the snow mountain where the dimensional rift was. He crossed over Beijiang and headed straight for Capital Xia.

He left because he had already collected many space attributes.

Space Physique: 25800/100000 (first rank)

He had picked up more than ten thousand points of space attribute this time. This was a huge number. His Space Physique rose tremendously.

The dimensional rift was huge; that was why it had dropped so many attribute bubbles.

The only regret was Wang Teng had to leave even though the dimensional rift was still expanding. If not, he could collect even more attributes.

What a pity!

...

Capital Xia.

The Leader of martial arts, the three great commanders, and some other people were gathered in the imperial palace. Zhou Xuanwu had returned to Capital Xia and was standing in front of everyone.

A huge map of Country Xia was displayed in front of everyone through a projector.

A patch of dark clouds had started to spread out from the top of the map where Beijiang was. It had covered a large area and was moving towards the other area of Beijiang at a fast speed.

Everyone's expression turned grim.

"Sigh, this is a troubled era!" Commander Yong sighed.

No one spoke. A tense atmosphere filled up the entire room.

First, there was the star beast invasion, then the dark apparitions. Everyone sunk into negative thoughts.

Was there a way for the humans to survive?

The Leader opened his mouth. "Xuanwu, you said that Wang Teng remained there and didn't come back?"

"Yes, he asked me to return to inform everyone, but he... stayed behind." Zhou Xuanwu was filled with sorrow. He nodded his head solemnly and continued, "I'm afraid Wang Teng..."

"I don't think so." Commander Hong frowned. "Based on his personality and ability, he won't put himself in danger. I believe that he has a way to escape."

"I believe him too. Wang Teng won't die so easily." The Leader of martial arts smiled and nodded.

Zhou Xuanwu was surprised. He didn't expect the commanders and the Leader to have so much confidence in Wang Teng. How could he survive in that situation?

"Alright, let's discuss how we should deal with the dark apparitions. Since Wang Teng asked you to bring this piece of news back, we need to make preparations and not disappoint him," the Leader waved his hands and said.

The others started a heated discussion. There were many generals who specialized in battle formations, so they gave their suggestions and made arrangements for the troops.

This discussion lasted for more than an hour. When everyone was prepared to leave, Commander Yong suddenly asked, "I wonder if we can ask those two people to act?"

"Those two?"

The Leader's eyes flickered. He obviously knew who Commander Yong was referring to.

"It's hard to say. If Wang Teng was around, it wouldn't be a problem. But he isn't..." the Leader of martial arts hesitated.

Even though he had trailed off, everyone knew what he meant.

Two planetary stage martial warriors!

It would be a pity if they couldn't use them.

The main issue was still Wang Teng. If he came back, everything could be solved easily, and they wouldn't be in this such a difficult position.

Everyone sighed uncontrollably.

"Why are y'all sighing?" A burst of soft laughter suddenly interrupted them.

Everyone was elated when they heard the familiar voice.

"Wang Teng!"

They turned and saw a figure strolling in.

Although this was a special time, the imperial palace still wasn't a place where everyone could come. Except for Wang Teng, who else could enter so easily?

"Hahaha, Wang Teng, I know that you wouldn't die." Commander Hong came forward to welcome him.

"Oh, you thought that I was dead?" Wang Teng asked angrily.

"Cough, that was what Zhou Xuanwu said. He said that there were countless dark apparitions and many devil lords, so you would never be able to make it back alive." Commander Hong laughed and pushed Zhou Xuanwu out mercilessly.

"Pfft!" Zhou Xuanwu's face turned black. He didn't expect Commander Hong to be so evil!

He was framing him!

This was slander!

How ruthless.

He saw a different side of Commander Hong today.

"No, it wasn't me. That wasn't what I meant." Zhou Xuanwu felt wronged. He shook his head and denied it fervently.

When did he ever say that Wang Teng wouldn't come back alive? He just mentioned that the chances were extremely small.

Having a small chance was still a chance.

If he knew Wang Teng was so tough, he wouldn't have said anything. He had wasted his sorrow.

"Alright, alright. Look at how frightened you are." Wang Teng waved his hand. "You should have more faith in me. How can a few dark apparitions stop me?"

“That’s right, you’re right. It’s just a few dark apparitions. They won’t be able to hold you back.” Zhou Xuanwu nodded his head firmly.

Everyone: ...

Wang Teng felt speechless. “I never knew that you were quite shameless too.”

Zhou Xuanwu smiled in embarrassment. He realized that he went a little overboard. He was given a scare when he saw Wang Teng arriving suddenly.

He wasn’t afraid of what Wang Teng would do to him. He was just scared that he would remember him. Getting remembered by someone as evil as Wang Teng wasn’t a good thing. You wouldn’t be able to sleep properly at night.

“Alright, stop wasting time, and let’s talk business.” The Leader shook his head with a smile and said, “Wang Teng, how’s the situation?”

“Not good. The dark apparitions are going to launch a huge invasion. From the size of the dimensional rift, there must be at least a few million dark apparitions and numerous devil lords.” Wang Teng shook his head with a grave expression.

Everyone gasped involuntarily. A few million dark apparitions!

Numerous devil lords!

This magnitude was a little frightening!

Where was the humans’ hope?

Everyone went silent. They were still discussing a moment ago, but the stimulation was too great. They lost all desire to resist.

“But we do have a chance. I made a bet with the dark apparitions. We will choose a battlefield to have a duel. The winner will be the king, and the loser will submit to the winner,” Wang Teng said hurriedly. He saw everyone’s dejected expression, so he decided not to hide the truth any longer.

“Bet?!” Everyone was astounded when they heard this.

Chapter 813: Central Continent! (1)

Everyone was attracted by his words.

A bet with the dark apparitions?!

Only Wang Teng could come up with such a bold idea. If he didn’t say it, no one would have thought of this method. Also, would the dark apparitions agree?

Everyone found it unbelievable. Even the Leader of martial arts frowned. He was filled with astonishment.

They didn’t know that Wang Teng wasn’t the one who came up with this gamble. There was another happy-go-lucky fellow among the dark apparitions who suggested this idea voluntarily. Wang Teng just went with the flow.

“You can do that?” Commander Hong hesitated before asking.

“Do you have a better way?” Wang Teng found a chair and sat down. He randomly picked up a piece of pastry and ate it lightheartedly as if he wasn’t worried at all.

“This is a good idea.” The Leader’s gaze turned sharp. He nodded in deep thought and continued, “The dark apparitions won’t attack us suddenly, and we will have room to breathe.”

“That’s right. That was what I thought.” Wang Teng nodded. “If we can’t solve it, other people will only make unnecessary sacrifices by participating in the battle. It will be useless. However, if we can solve the issue, they won’t have to die.”

“However, the people here are not the dark apparitions’ match either,” Commander Yong lamented.

“Including the other two martial warriors, we have three planetary-stage martial warriors on our side. How many devil lords does our opponent have?” the Leader asked.

“I saw four dark apparitions at the devil lord level,” Wang Teng replied calmly.

“Four!”

Everyone took a deep breath. They started to get more hopeful.

The difference was only one!

They still had some chances!

“That’s on the surface. Who knows if there are other devil lords hiding behind?” Wang Teng continued.

Silence.

Everyone’s expression froze. They looked at Wang Teng bitterly.

He shattered their hope a second after he bestowed it to them. He must have done it on purpose.

“Of course, there’s a way out.” Wang Teng chuckled.

“Tell us quickly!”

They were like ants on a hot pan. They almost couldn’t control their anger towards Wang Teng.

Why couldn’t he say everything at once?

Why did he have to make them ride an emotional rollercoaster? Would he be responsible if they had a heart attack?

“We are not the only planetary-stage martial warriors on Earth. Since the dark apparitions are determined to destroy this planet, no one can stay out of this matter.” There seemed to be another meaning behind Wang Teng’s words as he spoke with an evil smile.

“You mean?” The Leader’s expression changed slightly.

The other people weren’t stupid either. They understood who Wang Teng was referring to. Their gazes flickered, and they put on a sinister smile.

Their expression was exactly the same as Wang Teng's.

"That's right, them." Wang Teng nodded. He touched his chin and asked, "What's the situation like in the other continents?"

"The Afel Continent, North Sea Continent, South Sea Continent, and Central Continent have suffered the most from the star beast raids, especially the center of the Central Continent. This area is completely cut off from the other mainlands and contains the largest primary forest in the world. Before Force dawned on Earth, it had the greatest biodiversity. Naturally, it has the largest number of star beasts with terrifying and unpredictable abilities. The Central Continent is heavily affected by the beast tide."

The Leader of martial arts paused before continuing, "As for the North Sea Continent and the South Sea Continent, the alien invaders there are more powerful, so they managed to suppress the star beasts quickly."

"But dimensional rifts linking to the Darkland have appeared in these two continents. We detected large amounts of dark Force in there."

"Dimensional rifts have appeared in the North Sea Continent and the South Sea Continent?" Wang Teng was surprised.

"That's right. After Xuanwu came back with the piece of news, I asked my men to pay close attention to the world situation. Actually, before this, we had already noticed the abnormality in these two continents. That was how we locked down these two dimensional rifts rapidly," the Leader of martial arts explained.

"Are there other dimensional rifts linking to the Darkland in the other continents?" Wang Teng asked grimly.

"We didn't discover any unusual movements in the other three continents. There are many countries in the Aroba Continent. The factions there are complicated, so it's harder to get information from there. Few people tread the North and South Poles which makes it hard for us to detect anything. On the other hand, the Afel continent seems peaceful. I haven't heard of any dimensional rifts appearing there." The Leader shook his head.

"That means that there must be other devil lords in the North Sea Continent and the South Sea Continent." Wang Teng frowned and snorted, "Hmph, Wu Gu came up with a good plan. The other devil lords didn't sign the spiritual contract, so this duel is only limited to our land."

"In that case..." The Leader hesitated.

Thinking about it, the other alien invaders might be busy with their own affairs so they wouldn't have the time to care about their duel.

"No." Wang Teng smiled and shook his head. A sharp glint flashed in his eyes. "In fact, they will be excited to participate in this duel. The alien invaders might be powerful, but they won't be 100% confident that they can defeat the dark apparitions. If the dark apparitions invaded Earth and destroyed this planet, they will fail in their trial."

Chapter 814: Central Continent! (2)

“Oh? The Leader of martial arts’ expression changed. He mumbled, “Do we need to send out some signals?”

“Of course. Spread the news of the duel. I believe they will start moving soon.” Wang Teng smirked.

The Leader nodded.

Silence.

The other people were stunned. They felt that the Leader and Wang Teng were like two sly foxes, one old and one young. How evil of them!

...

Country Xia acted right away, releasing the news to the world.

Country Xia was going to have a duel with the dark apparitions as a gamble!

All the different countries learned of it. The various countries were controlled by the alien invaders, so this information naturally landed in their hands.

North Sea Continent, White Eagle Nation.

The golden-haired alien martial warrior’s eyes were moving back and forth. You could tell that his mind was in a whirl. He glanced at the martial warriors below him and asked, “Is this information reliable?”

“It came from Country Xia. I’ve sent many people to confirm it. It’s from the imperial palace, so it’s highly reliable,” a martial warrior half-kneeled on the ground and replied respectfully.

“Country Xia.” The golden-haired young man’s eyes shone brightly. A smile appeared at the edge of his lips. “Hmph, looks like it’s true. However, Country Xia is playing a great game of chess. Have you heard which candidate is situated there?”

“I heard that it’s a blue-haired young man. Based on my judgment, he should be from the Lan family. However... he seems to have been defeated by a martial warrior from Earth,” the alien martial warrior contemplated for a second before he finished the sentence.

“Defeated by a martial warrior from Earth?!” The golden-haired young man squinted. His interest was piqued. “So this martial warrior from Earth is the one who seized the areas around Country Xia?”

“Most likely,” the alien martial warrior replied.

“Great, this is getting more and more interesting. I didn’t think such a character would appear on Earth.” The golden-haired young man smiled. “have you figured out who this person is?”

“It’s most likely a talent from Country Xia called Wang Teng.” The alien martial warrior tapped his wristwatch lightly. A hologram appeared in the middle of the room.

It was the figure of a black-haired young man who seemed younger than 20. His face was angular and exceptionally handsome, and his aura was extraordinary.

This was none other than Wang Teng!

“This person does have some talent...” The alien martial warrior immediately listed out Wang Teng’s deeds one by one.

It wasn’t hard for them to investigate his past achievements. However, they didn’t know much about what had happened after he advanced to the planetary stage. They didn’t know his current strength either.

The alien martial warriors didn’t think much about it. They even felt that Wang Teng’s achievements were mediocre.

“Based on what you said, Wang Teng is indeed a talent.” The golden-haired young man smiled gently as he praised Wang Teng, but his tone sounded as if he was just speaking about a normal martial warrior. He didn’t place much importance on him.

“He can’t be compared with Young Master,” the martial warriors below replied.

“Earth is just an underdeveloped planet. It’s not easy to have a planetary-stage martial warrior here. We mustn’t ask too much from him,” the golden-haired young man said. Suddenly, he turned and looked to the left of the hall.

1

Another bunch of people was standing there. They were a different group from the alien martial warriors.

These were the ex-bosses of the White Eagle Nation. After the alien invaders conquered and took over the White Eagle Nation, they chose to bow down to the aliens and were now the golden-haired young man’s subordinates.

“Do you have anything to say about Wang Teng?” The golden-haired young man asked.

“Yoke, Shuen, Fortes, you interacted with him during the Global Exchange Conference. Tell him your thoughts.” General Cromwell looked toward the people at the end.

“Shuen.” Yoke nudged Shuen who was standing at the side silently.

“He’s an unparalleled talent.” Shuen didn’t speak much. After saying his piece, he retreated to the back and resumed his silence.

Yoke, Fortes, and the others were shocked.

Shuen was too insensible. How could he call Wang Teng an unparalleled talent in front of these powerful alien martial warriors? He should learn to be flexible.

The people from the White Eagle Nation were worried. They were afraid of offending the golden-haired young man.

“An unparalleled talent?” The alien martial warrior’s expression turned strange when he heard these three words. Then, he started chuckling.

There was a hint of contempt in his laughter.

“Cough, he can be considered an unparalleled talent on your planet.” The golden-haired young man didn’t embarrass him. He just smirked.

“You’re right, Wang Teng is a talent from Earth. To you, he’s merely a martial warrior from the outskirts. He’s nothing in front of you,” Yoke kneeled down hurriedly as he curried favor with the golden-haired young man.

“Alright, you don’t have to fawn upon me.” The golden-haired young man waved his hand and stood up from his seat. “Since he sent out the word that he’s having a duel with the dark apparitions, he wants us to participate. Let me fulfill his wish.

“Send my words out. Humans are scarce in the Central Continent. It’s a perfect ground for a duel. I’ll be waiting for him there.

“Let’s head to the Central Continent!”

“Yes!”

The martial warriors below bowed and replied in unison.

...

The alien martial warriors from the North Sea Continent were the first to head to the Central Continent. The information he asked his men to send spread throughout Earth.

The South Sea Continent was the closest to the North Sea Continent. Hence, the candidate controlling the South Sea Continent received this news first. This was a muscular young man who looked rough and lofty. He was more than three meters tall, and there were two fangs protruding from his mouth. He was a human, but it was hard to tell which race from the universe he was from.

He held a large battleax in his hand with blood dripping down from it. There was a gigantic star beast lying below the ax. It was killed recently.

The muscular young man was half-naked. A blood-red symbol of a hideous mutated beast was carved on his body. There was a red rune on its face. The crimson mutated beast and the rune were sparkling and giving off a red glow. It seemed devilish.

The blood in the star beast below got lesser and lesser as time went by. Soon, everything disappeared, and the star beast dried up instantly.

The bulky young man stepped down from the star beast and said to the alien martial warriors around him, “Come, let’s join in the fun at the Central Continent.”

The ground below him exploded, leaving a deep, huge hole. Cracks formed around it like a spiderweb. The young man had already shot into the sky like a cannonball.

All the martial warriors behind him were muscular and lofty too. They were from the same race as the young man. Laughing loudly, they dashed into the sky, following the young man.

...

Country Star, Mount Saint.

“Interesting, interesting!” The green-haired young lady suddenly laughed sweetly. She seemed extremely interested.

After laughing for some time, she turned to Alais behind her and smiled. “My lovely sister, why don’t I bring you to your Wang Teng? You have been thinking about him all this time, right?”

“You can go if you want,” Alais replied indifferently without any change in her expression.

“Oh my, you’re so boring. My plan will be disrupted if I do that.” The green-haired lady seemed a little frustrated. “But I need to pay a visit due to the appearance of the dark apparitions.

“Come with me. I want to meet Wang Teng personally and see what kind of person he is.”

The green-haired lady flew towards a universe spacecraft in the sky. This universe spacecraft was exquisite. It had a sleek body, and it was light pink in color. Comparing it to the other spacecraft, one could tell that this was owned by a young lady.

Alais stood on the ground and hesitated for a moment. In the end, she gritted her teeth and followed the young lady into the spacecraft.

Very soon, the spacecraft flew towards the Central Continent.

At the same time, the other alien candidates scattered across Earth chose to move when they received this piece of news. All of them headed towards the Central Continent.

In an instant, all the powerful martial warriors on this planet gathered in one area!

Chapter 815: You Will Get Whacked To Death Because Of Your Cheekiness! (1)

Central Continent!

A lonely patch of land floated in the ocean, surrounded by islands of many different sizes.

This place was under-populated by humans, but it was a heaven for star beasts. It had a tropical subtropical climate, and massive areas of the mainland were covered with tropical rain forests.

Before the martial arts era, this area was rich in plant biodiversity. The trees were luxuriant, and you could find many species here.

After Force entered Earth, the plants started growing like crazy. Trees pillared right into the sky. There were countless trees close to a hundred meters tall and some higher than a hundred meters. Thick vines hung above the ground like giant pythons. This place had already turned into a primary forest.

There were many unknown star beasts hidden here, high in both quantity and variety.

Because of the large quantity, many lord-level star beasts were born. They were extremely powerful, and all of them were overlords of their areas.

Also, there were unimaginable star beasts hiding in the lakes or below the ground. These were popular resting areas for star beasts, even regarded as forbidden zones.

Normal martial warriors might end up walking into the den of a star beast if they entered this area. The chance of surviving was slim.

Even general-stage martial warriors didn't dare to enter this place recklessly.

Fortunately, in the past, the star beasts and the humans maintained a delicate balance, so there were never any large-scale beast tides.

In addition, the Central Continent was situated in the middle of the ocean, isolated from the rest of the mainland. It wasn't as terrifying as it was now.

Of course, this region was dangerous, but it was a heaven for martial warriors too. Star beasts, spiritual herbs, and even rare metal ores could be found here. These were all valuable goods.

Seeking wealth in risk.

Many martial warriors chose to form small teams and enter this continent. They would fight with star beasts, take their star cores and star bones, and find spiritual herbs.

Besides the Xingwu Continent, the human martial warriors also visited such primary forests or the depth of the mountains.

Recently, a piece of news spread around the world. The martial warriors hunting for star beasts in the Central Continent retreated out of the area one after another. No one dared to stay any longer.

Alien invaders!

Dark apparitions!

News after news ignited commotions in the world. People in every country felt uneasy and anxious.

Everyone was aware of the presence of the alien invaders. All the martial warriors also knew that the alien invaders exceeded the 13-star general stage and had greater combat power.

Yet, these alien invaders wanted to have a decisive battle with the dark apparition on the Central Continent.

This was a catastrophe!

What was the ability of these planetary-stage martial warriors? Earth human martial warriors didn't know, but they knew how strong the general-stage martial warriors were. It was easy to imagine the prowess of the planetary-stage martial warriors from that.

The Central Continent was the battlefield. There would definitely be immense impact waves. Who dared to stay there?

...

Before the human martial warriors came, the Central Continent remained peaceful. Everything was normal.

Roar!

Occasionally, you could hear beasts roaring in the quiet primary forest or flying in the sky above to display their status as the overlords of their territory.

Suddenly, the ground trembled. A loud explosion came from the primary forest below.

Boom!

Two large figures appeared in a part of this forest. It was a giant python and an enormous ape. Both of them were more than a hundred feet tall and gave off a terrifying aura. They were both at the lord level.

They were fighting with each other and wreaking havoc in the forest. Trees fell by the hundreds, sparking an earthquake.

The small and weak star beasts around them escaped in a flurry. They were afraid of getting implicated.

Just when these two lord-level star beasts were getting immersed in their battle, a shadow appeared on the horizon. Traveling at a fast speed, it was a gigantic spacecraft.

The spacecraft didn't do anything after it got close to the forest. It just hovered over the woods.

However, the two lord-level star beasts stopped their battle unconsciously and raised their heads stiffly as they looked at the large spacecraft in the air.

Before they could think further, another black dot appeared on the horizon in another direction.

The black dot arrived above the forest in a split second. It was another huge spacecraft. After noticing the other spacecraft, it didn't get closer, stopping some distance away.

The people in the spacecraft didn't appear. They seemed to be waiting for something as if they had a plan.

The two lord-level star beasts glanced at each other and felt a chill shooting up their spines. They lowered their bodies in unplanned unison and hid among the tall trees and plants as they crawled away slowly, not daring to make a peep. They were afraid that the two spacecraft above them would notice them.

But they were thinking too much. The people in the two spacecraft didn't have the time to care about lord-level star beasts.

As time went by, more spacecraft started arriving on the Central Continent. One, two, three, four...

The entire Central Continent was shrouded in a tense atmosphere. All the lord-level star beasts detected the unusual vibe and moved out. They wanted to get more information but didn't know where to start.

All the star beasts panicked. They were exceptionally frustrated.

However, they didn't dare to touch the people in the spacecraft. The aura exuding from them made the star beasts tremble in fear.

An agonizing day passed as everyone waited in anxiety.

More and more universe spacecraft came. The next morning, there were already 18 spacecraft hanging above the sky of the Central Continent.

This meant that there were 18 alien candidates present!

Chapter 816: You Will Get Whacked To Death Because Of Your Cheekiness! (2)

Dawn arrived. The candidates were starting to lose their patience after waiting for an entire night. Just then, a person appeared on the top of a spacecraft. A powerful aura erupted from his body.

Boom!

The formidable aura of a planetary-stage martial warrior swept through the forest.

The numerous star beasts below were terrified. They lay on the ground and shivered in fear.

This is so scary!

Too scary!

When did such a powerful presence appear among the humans?

All the star beasts started sobbing and trembling. Some weaker ones even peed on the ground.

You couldn't blame them. Planetary-stage martial warriors were indeed scary. Star beasts who hadn't reached the lord level could never resist them.

At the same time, the planetary-stage martial warriors in the other spacecraft were alerted and flew out. They released their aura simultaneously, unwilling to back down.

Boom!

Boom!

Boom!

...

The sky above the forest turned into a restricted battleground for the planetary-stage martial warriors. Petrifying Forces intertwined and collided in the air, creating a ringing sound.

These alien candidates glared at one another. There was an obvious rivalry between them, so the atmosphere was heated when they gathered together. The only reason why they didn't fight was because of the upcoming duel with the dark apparitions.

However, some spacecraft remained silent. They didn't care about what was happening outside.

Time passed again.

Another half a day passed. No other spaceships arrived.

The golden-haired young man from the White Eagle Nation finally walked out of his spacecraft. He possessed a powerful force of presence and attracted everyone's attention like a huge magnet.

"It's him!"

"Argus!"

“He’s recognized as the youth below 30 with the greatest potential from the Olant Federation’s Blue Wolf Galaxy!”

“Why is he participating in this trial? There are rumors that he left the Olant Federation and went out to gain more experience.”

“Damn it, with him around, we won’t have many chances.”

...

Argus remained calm after hearing everyone’s words. However, the arrogance in his eyes couldn’t be concealed.

There were seven large galaxies in the Olant Federation. The Blue Wolf Galaxy was one of them, and he was the most powerful talent in this galaxy. He didn’t give himself this title. It was bestowed by the public.

He had the right to be proud!

“Why isn’t Wang Teng here yet?” Argus glanced around him and frowned slightly. His emotionless voice resounded in the forest.

No one answered him. Although the other candidates were afraid of him, they wouldn’t curry favor with him. They had their pride as candidates.

“Hahaha, Argus, aren’t you embarrassed? No one’s replying to you.” Someone laughed in a rough and loud voice.

“Kathu!” The golden-haired young man’s eyes shimmered. He turned his head and looked over with a slightly grim expression.

A bulky and muscular figure had appeared on a similarly rough-looking spacecraft. There was a blood-red symbol of a mutated beast on his chest. It looked ferocious and ruthless.

“Kathu!”

“Damn it, it’s Kathu, the talent from Crimson Moon Galaxy!”

“Another gifted martial warrior of the universe! Our chances are getting slimmer!”

“I heard that the symbol on his body is carved using the famous Blood-moon beast on the Crimson Moon Galaxy. What’s more, they used the blood of adult giant beasts that are at the peak of the ninth-level planetary stage. They were killed personally by Kathu.”

“I heard that he’s at the fifth-level of the planetary stage, but he possesses ninth-level planetary-stage combat prowess. It’s scary.”

...

The alien candidates started discussing among themselves again. They didn’t look good. They seemed frightened of this Kathu.

“Argus, I didn’t know that you’re participating in this trial.” Kathu chuckled.

“Same.” Argus’s expression became normal. He refuted calmly.

“Looks like we might become classmates,” Kathu laughed as he replied. He might be arrogant, but he didn’t dare to underestimate Argus’s ability.

“Hmph!” Argus snorted and kept quiet.

“Hahaha, y’all seem to be having a good time. How can you bicker at a time like this?” Two ladies appeared from the pink spacecraft at the side. The green-haired lady standing in front covered her mouth and laughed sweetly.

“Emerald Abyss Galaxy, Biluo!”

Argus and Kathu were surprised when they saw the green-haired lady.

“You’re here too!”

“The Saint Star Pagoda is indeed a huge temptation. No one can resist it.”

“Of course. The Saint Star Pagoda is the number one academy in the Olant Federation. I have to view it with great importance,” Biluo smiled and replied.

“Three of the talented stars from the seven major stars have arrived. I wonder if there are any others?” Kathu crossed his arms in front of his chest and glanced around him with interest.

“Include me!” A voice was heard.

A man with long brown hair flew out of his spacecraft. He looked like a human except his ears were slightly sharp. He was exceptionally handsome.

“Pulin!” The three martial warriors recognized this man immediately. They turned serious.

“Haha, since everyone is here, I shall not hide anymore.” Peals of laughter resounded in the air.

A short and small human appeared in front of everyone. Compared to the other alien candidates, this human was a dwarf.

He was strange-looking. He had pitch-black scales on his face, but they were tiny and only grew on near his neck, making them not so obvious.

“Loggins!”

1

“The genius of the Black Scale Tribe from the Uros Galaxy... Loggins!”

“The number one talent and beauty of the Emerald Abyss Galaxy... Biluo!”

“And the ultimate talent of the Wood Fairy Race from Silver-Blue Galaxy... Pulin!”

Cries of astonishment spurted out from the mouths of the alien candidates around them. There was a huge commotion.

These alien candidates were extremely familiar with these three youngsters and recognized them instantly. They even knew their achievements and deeds like the back of their hands. As they spoke, they revealed the background of these three.

“The five great stars! This trial will be a fierce and intense one. I wonder who will win and enter the Saint Star Pagoda?”

“Though they are powerful, we still have a chance. We should fight for it no matter what.”

“That’s right. The appearance of the dark apparitions is unexpected. No one knows the result.”

...

The atmosphere above the primary forest was extremely tense after the arrival of the five great stars.

Some distance away, three sneaky-looking figures hid behind layers of space obstacles and paid close attention to the situation on this side.

“I didn’t expect so many formidable warriors to come,” the octopus monster exclaimed.

“Boss, should we reveal ourselves? We have heard enough,” the other fatty figure asked.

“These talents are so impatient. They got irritated after waiting for just a day.” The last person touched his chin and shook his head. He expected better from them.

These three people were Wang Teng, Jin Yuan, and Hadock. They had arrived a long time ago, but Wang Teng wanted to confirm everyone’s identity, so he hid and observed them in the dark. He used his special Space Physique to hide the three of them in a space pocket, spying on the ability and reactions of these alien candidates.

The gains were not bad.

At least he had a good gauge of their abilities and identities. He also asked his two subordinates for more information to be on the safe side.

When Jin Yuan and Hadock heard his words, they felt speechless and contemptuous.

Their new boss was seriously shameless. He ignored those people for a day and was still complaining about them.

You’ll get whacked to death because of your cheekiness!

They silently complained in their hearts.

“Alright, it’s time for us to appear.” Wang Teng tidied his clothes and disappeared. A second later, he made an abrupt appearance in front of all the alien candidates and waved his hands innocently.

“Hello, everyone’s here!”

Chapter 817: Your Subordinate’s Mouth Is Too Filthy, Let Me Send Him Back For Reformation

“Hello, everyone’s here!”

Just as when everyone's eyes were fixed on Argus and the other geniuses from Olant Federation, a peal of laughter broke their concentration.

The voice appeared out of the blue. Even the group of planetary-stage martial warriors didn't notice it beforehand.

The alien candidates were all startled and turned toward the source of the sound. They saw a young man on a black crow in the sky, looking at them with a smile.

Two more people appeared behind the young man: a fatty and an octopus with dozens of tentacles. This was quite an odd and peculiar combination!

The expressions of the alien candidates turned grave, and no one dared to underestimate this strange group. That was because everyone knew that the fat man and the octopus were planetary-stage martial warriors.

And no one could see through the strength of the young man, which made him seem like an enigma.

What was even more surprising was that no one noticed when the three of them had appeared.

The young and golden-haired Argus had a calm expression, but there was a sharp glint in his eyes.

Kathu folded his arms and grinned slightly as he looked at Wang Teng with interest.

Biluo was full of smiles. She glanced at Alais, and the smile on her face became brighter. She looked at Wang Teng with glimmering eyes. After Biluo looked away, Alais's eyes flickered slightly.

"It's really him!" She felt uneasy. It hadn't been that long, yet he had already come this far. It was truly unbelievable that he could compete with alien martial warriors now.

Meanwhile, Loggins and Pulin were looking at Wang Teng with different expressions. No one knew what they were thinking.

"Who are you?" Loggins from the Uros Galaxy asked with a dull expression.

"I'm Wang Teng from Earth. Please take good care of me!" Wang Teng smiled.

"A martial warrior from Earth!" Everyone's eyes flashed, and the corners of their mouths showed a meaningful arc.

That was quite an introduction!

The alien martial warriors were all present there, and Wang Teng had introduced himself as an Earth martial warrior. It was like he was trying to oppose them.

"Were you the one who released the news that there was going to be a duel with the dark apparitions?" Argus questioned.

"That's right. It seems that you are interested in participating as well?" Wang Teng pretended to be clueless and replied.

Silence.

Everyone was speechless.

He released the news to attract them here, but he was putting on a pretense. He must think that all of them were idiots.

“Do you think that you can do it alone?” Loggins said with a little contempt.

“I’ll only know after I fight them.” Wang Teng didn’t care and smiled. “But I was the one who decided on this duel. If you want to participate, you can either talk to the dark apparitions yourself or shut up.”

Loggins’s expression changed.

“How dare you!” behind him, an alien martial warrior shouted.

Wang Teng’s expression remained unchanged. His gaze landed on the alien martial warrior behind Loggins, and a sinister smile appeared on his face.

“Since when was it your turn to speak, planetary disciple?” Jin Yuan, who was behind, seemed to understand Wang Teng well. He glared back and shouted coldly before Wang Teng could speak.

The planetary-stage martial warriors’ aura instantly surged towards them.

In the universe, planetary disciples were martial warriors who had yet to reach the planetary stage. They couldn’t do anything to the planetary-stage martial warriors.

The alien martial warrior’s face went pale, and he couldn’t help but take a few steps back.

“Hmph!” Loggins snorted. His powerful aura surged out, clashing against Jin Yuan’s aura.

Boom!

Although auras weren’t visible, they still made a violent roar when they clashed against each other.

Jin Yuan’s aura was instantly overpowered.

“You have no right to teach my disciple a lesson.” Loggins’s face had a cold expression as his aura rushed forward. It wasn’t just directed at Jin Yuan but the whole group.

Jin Yuan’s expression was grim as though he was facing a great enemy. As a talent from the Uros Galaxy meant that Loggins’s strength had to be extraordinary.

To be able to stand out in a vast galaxy, Loggins was definitely the cream of the crop.

Boom!

The aura came in an instant and pressed down on the heads of Wang Teng’s group.

Loggins’s sudden move was not only to protect his own people but also to test Wang Teng, the Earth martial warrior who had suddenly appeared.

The alien talents didn’t think too much of the martial warriors on Earth. Even if Wang Teng had reached the planetary stage, in their eyes, humans were much worse off than them. There was no point in comparing them.

Wang Teng's expression remained unchanged. Just as when the aura was about to engulf them, he waved his hand gently.

Bang!

With a muffled sound, the overwhelming aura evaporated.

There was a slight change in Loggins's expression as he stared at Wang Teng. He was quite surprised.

The other alien martial warriors were taken aback as well. Even Argus and the others were no exception. They all had different expressions on their faces.

Jin Yuan and Hadock's hearts were filled with amazement as their eyes flashed. It hadn't been that long, and they could feel that their boss had become much stronger.

The two of them exchanged glances, making sure that there wasn't anything wrong. Their hearts pumped even faster.

However, Wang Teng wouldn't let it go like this. A bright light flashed in his eyes, and his spiritual power condensed into a formless sword before stabbing forward.

"Oh shit!" Loggins's expression changed slightly. He wanted to stop it, but it was too late.

The sword of spiritual power was too fast. It had already pierced into the eyes of the planetary disciple.

So silent!

The planetary disciple's body shook. Blood was flowing out of his seven orifices. His body lost its support and tumbled backward.

Bang!

His body fell on the top of the spacecraft. His consciousness was gone, and he had completely lost his vitality.

"You!" Loggins's eyes were filled with rage.

"Your subordinate's mouth is too filthy. Let me send him back for reformation. You don't have to thank me." Wang Teng ignored his gaze.

"Bastard!" Loggins was furious. He had never been ignored like this!

And he had never been offended like this!

This Earthling had killed his most capable subordinate in front of him. It was like he was trampling on his face. There was no way he could bear with it.

"If you can't accept this, let's fight. I'll be your opponent." Wang Teng finally stopped smiling and looked at him emotionlessly.

He only had one principle when facing enemies. If they couldn't accept it, he'd hit them till they could!

If they still couldn't accept it, he'd hit them till they died!

He would kill them, even if they were talents.

In an instant, the surrounding atmosphere tensed up. Everyone's eyes were focused on Wang Teng and Loggins. They were either shocked, mocking, or gloating...

Chapter 818: Born With Mocking Ability

The gazes of the alien candidates went back and forth between Wang Teng and Loggins.

"You can't tell Wang Teng's strength!"

"He's definitely at the planetary stage. Otherwise, he couldn't have been able to withstand Loggins's aura."

"But that looked too easy for him!"

"That was spiritual power, right?"

"An attack that's hard to defend against, that's definitely spiritual power. This Wang Teng is an extremely rare divine spirit master!"

"However, Loggins is a renowned talent of the Uros Galaxy. How can Wang Teng be compared with him? What he did just now is tantamount to courting death!"

...

Discussions echoed in the surroundings, and everyone was stunned. They all marveled at the fact that Wang Teng was a divine spirit master.

There was a divine spirit master on such a backward planet!

Even so, they were not optimistic about Wang Teng's chances. They felt that he couldn't match up to Loggins. Angering him was like asking for his own death.

Loggins's face was ashen, and his heart was seething with rage, almost to the point where he was about to explode. However, he took a deep breath and calmed down before looking at Wang Teng silently.

The crowd was disappointed.

They thought that Loggins wouldn't be able to stomach this and would definitely kill Wang Teng on the spot. No one expected the end to be so anticlimactic.

He didn't say a word, choosing to avoid any conflict for now.

The alien candidates were not idiots and naturally knew the reason why. Their gazes swept over Argus and the others, and they couldn't help but shake their heads.

With them around, Loggins wouldn't reveal his strength just because of an Earthling.

"How boring!" Wang Teng muttered when he saw that Loggins had no intention to do anything.

"..." A throbbing vein popped up on Loggins's head, and the muscles on his face twitched.

Everyone was speechless.

This brat just loves to stir trouble!

He's literally asking for death!

The phrase appeared in the crowd's mind.

"Everyone is here for the dark apparitions. There is no need to do anything for a trivial matter." Pulin, the talent of the Wood Fairy Race from the Silver-Blue Galaxy, opened his mouth.

A planetary disciple's life and death were just a trivial matter in their eyes.

"That's right. Let's talk about how we are going to deal with the dark apparitions. Wang Teng, you probably know about the trial. Although you are a martial warrior from Earth, you are eligible to participate since you have obtained the personal terminal. Olant Federation's top academy, Saint Star Pagoda, will be admitting students from the participants of the trial. It is undoubtedly a great opportunity for you," Biluo, the talent from Emerald Abyss Galaxy, said with a smile.

"I don't really care about the trial. I'll play with you guys since I think it's fun." Wang Teng responded indifferently.

Biluo's expression froze slightly.

Such a great opportunity was disregarded by Wang Teng just like that?

Biluo couldn't believe it.

She could only say that Wang Teng was putting on an act!

Wang Teng knew that it was a great opportunity for him to be able to participate in this trial to enter the Saint Star Pagoda. He wasn't as casual about it as he showed.

Biluo and the others all thought so and felt that Wang Teng was just bluffing.

Wang Teng didn't intend to explain anything to these people and found a comfortable spot on Little White's back. He sat down with his legs crossed. "Oh, I'm exhausted from running around. Since you want to talk, let's talk."

Silence.

The spectators' were left speechless when they saw Wang Teng's passiveness.

Was this guy really the talent of this entire planet?

Something didn't feel right.

He didn't look like one with that attitude of his!

"Don't just stand there. Feel free to speak if you have anything to say. Come, let's talk." Wang Teng prompted everyone as if he was the host.

Silence.

The corners of their eyes twitched involuntarily, and a sense of helplessness emerged in their hearts.

“This duel was decided by you and the dark apparitions. What are the rules? Tell us about it,” Biluo took a deep breath and asked helplessly.

“There aren’t any rules. It’s just like what you’ve heard. There’s nothing else.” Wang Teng spread his hands.

“... You decided on a duel with the dark apparitions without setting any rules?!” Biluo’s emotions went out of control again.

This brat was too infuriating!

“That’s right. Just like that.” Wang Teng nodded.

“You!” Throbbing veins appeared on Biluo’s head.

“It looks like there’s nothing else to talk about. Let’s wait for the dark apparitions to come.” Argus looked at Wang Teng and shook his head. He then sat down on his spacecraft, closing his eyes.

“Hahaha, I like you. There’s no need for a plan; we’ll just fight.” Kathu laughed as he looked at Wang Teng with bright eyes.

“I’m sorry, I don’t like guys. Thank you.”

Biluo and the others cast strange glances at Kathu.

“...” Kathu choked suddenly as the corner of his mouth twitched. An urge to kill Wang Teng birthed inside him out of nowhere.

He finally understood how helpless Loggins, Biluo, and the others felt. As long as you spoke to Wang Teng, you would definitely experience it.

Wang Teng was born with the ability to mock others!

And he was especially annoying!

Kathu obediently closed his mouth, expressing that he didn’t want to talk to him anymore.

Biluo and Pulin were waiting on top of their respective spacecraft, but they were extra relaxed. They ordered their men to put out tables and chairs, even enjoying afternoon tea under their parasols.

Seeing that, Wang Teng’s eyes lit up slightly. He asked Little White to land on Biluo’s spacecraft.

Wang Teng jumped off Little White’s back and smiled at Alais, who was sitting next to Biluo. “Your Highness, it’s been a long time!”

While speaking, he took out a chair from his space ring and sat down naturally.

Alais: “Σ(⊙▽⊙)”

Everyone: ...

Wang Teng picked up a rather delicate-looking pastry from the table and popped it in his mouth after looking at it carefully. While chewing, he said, “Is this a signature pastry from your universe? Let me see how the taste compares to the ones on my planet.”

... Has anyone ever told you that you're really shameless?" Biluo was dumbfounded.

"Yes, quite a few actually. But I ignored them." Wang Teng thought about it and shook his head.

"Are you here to meet your acquaintance or for my afternoon tea?" Biluo squinted.

"Neither. I'm actually here to get to know you, the talent and beauty of the Emerald Abyss Galaxy," Wang Teng replied shamelessly.

"Oh, you know me?" Biluo was a little surprised. Wang Teng actually knew her name and that she was from the Emerald Abyss Galaxy. How did he learn that?

"It's not just you. I know all the talents that are here." Wang Teng smiled mysteriously.

Chapter 819: Earth's Apocalypse!

"Oh?" Biluo was stunned. She shifted her gaze away from the cup of tea in her hand and placed it on Wang Teng.

They were from outer space. How did Wang Teng know their identity?

Was he trying to bluff them?

Or did he have other methods?

Many thoughts flashed through her mind.

She blinked and saw the two aliens standing behind Wang Teng, feeling astonished in her heart. "You guys seem a little unfamiliar. May I know which universe you came from?"

Jin Yuan and Hadock stood behind Wang Teng obediently the entire time as if he was their Leader. These two alien martial warriors were willing to bow down to a martial warrior from Earth?

This provided much food for thought.

Jin Yuan and Hadock glanced at Wang Teng. Noticing his lack of response, they chuckled and replied, "We don't dare to compare ourselves with you. We're just ordinary talents who hail from small families."

Jin Yuan and Hadock were sly old foxes. They would never tell Biluo that they had escaped from an abandoned star.

"Anyone that has the right to participate in this trial is the cream of the crop," Biluo smiled and said some words of compliment. No one knew if she truly believed their words.

They hadn't lowered their voices. The other alien candidates were all at the planetary stage, so they naturally heard everything. Everyone was guessing the relationship between Wang Teng, Hadock, and Jin Yuan.

Many people were surprised when they saw two candidates following Wang Teng.

It wasn't a unique case. Some candidates in the past chose to follow other powerful candidates when they felt that they had no hope of passing the trial.

However, it was a rare occurrence. These candidates were all gifted martial warriors. They were prideful and arrogant and would never submit to others easily.

Hence, at this moment, besides the five famous talents, the other candidates grew more fearful of Wang Teng.

...

Beijiang, Country Xia.

A group of war correspondents risked their lives and came to the military camp stationed in this place by Country Xia. The leader was a handsome young lady around 30 wearing a military uniform. She was a reputable news reporter from Country Xia.

A general-stage martial warrior from the Beijiang military camp came to welcome these war correspondents personally.

"Reporter Zhen, I didn't know you were coming." The general-stage martial warrior seemed a little tired as he shook hands with the reporter.

"The Leader asked me to come. He wants me to represent the government and reveal the situation here to the public," Zhen Pin replied with a grave expression.

"Are we really going to do this? If the situation here is made known to everyone, it will cause a huge panic." Chief Commander Chen frowned.

"There's no better way. It's impossible to conceal this matter now. Everyone has the right to know."

"Alright, my thoughts were too simple. I'm still stuck in the past. Go ahead... and report it." Chief Commander Chen sighed and shook his head sadly.

"Chief Commander Chen, don't blame yourself. No one expected things to turn out this way. The change was sudden and caught us all off guard," Zhen Pin consoled him.

She asked the camera crew behind her to aim their lens at the sky.

The entire sky was enveloped with dark clouds, forming a terrifying vortex. Thick silver-white bolts of lightning flashed occasionally. It was like a scene from the end of the world.

Ferocious and hideous faces of dark apparitions could be seen faintly amidst the dark clouds. They screamed and roared in a shrill and bitter voice. It was bone-chilling.

This image was sent to the entire nation through the internet. Many people knew about this live broadcast, so they were waiting for it in front of their computers and televisions.

When the images appeared, the viewers' breaths got stuck.

Despair!

Fear!

Panic!

...

Multiple emotions crashed into everyone's hearts.

Dark apparitions!

Were these the dark apparitions?!

Such a frightening presence had appeared on Earth.

Was this the doom of their planet?

Country Xia wasn't the only one. The dimensional rifts in the North Sea Continent and the South Sea Continent were being broadcasted by the governments simultaneously.

None of the higher authorities of any country planned to contain this information.

The world was already in a mess after the star beast riot. Some things couldn't be kept a secret anymore.

Thus, in this instant, everyone on this planet knew about the invasion of the dark apparitions.

There was a large-scale uproar.

Countless humans sunk into despair and trepidation. The star beast riots had only ended recently. Some areas were still suffering from the impact and were fighting with the remnant star beasts. Yet, an even more frightening crisis awaited them. How were the humans supposed to resist?

At the same time, what happened in the Central Continent gradually spread around the world.

A gamble!

The humans were having a gamble with the dark apparitions!

This battle would affect the survival of Earth. If the humans succeeded, there would be hope. If they failed, they would become part of history.

This chapter of history might be dug up by a new civilization thousands of years later and they might study it.

What a sorrowful ending!

Time passed slowly.

The dark apparitions did not appear on the Central Continent. But many general-stage martial warriors from various countries had arrived after receiving the news.

The higher authorities of the various nations only dared to act after the alien candidates left.

General-stage martial warriors from Country Inka, Country Star, the White Eagle Nation, Country Boar, and many other countries reached the scene.

Intelligence battlecraft developed by the different nations floated in mid-air, looking at the Central Continent from a distance. They didn't dare to go closer, so they could only watch from afar.

The Leader of martial arts and other generals were gathered in a round hall in their battlecraft. The screen in the middle was showing a bird's eye view of the Central Continent.

"I didn't know there were so many alien candidates." The Leader's eyes were glowing. He said with a stern face, "If it wasn't for the dark apparitions, they wouldn't have gathered together."

"They are all planetary-stage martial warriors. They can destroy Earth if they want to," Commander Hong said gravely.

"Will the Central Continent sink if we let them hold the duel here?" Commander Yong gave a forced smile.

Silence.

Everyone was shocked. Their expressions changed slightly.

This... was possible!

These planetary-stage martial warriors had the ability to do it. They could decide if they wanted to sink this land.

"Send the image here back to the country too," the Leader of martial arts gave his order.

"Erm..." Everyone hesitated.

"This is Earth's catastrophe. Everyone should witness it with their own eyes," the Leader explained.

"Yes!" the martial warriors replied in unison. They stopped hesitating and sent the image back to Country Xia.

Almost at the same second, the general-stage martial warriors from the other countries made the same decision. The situation here was revealed to the rest of the world.

Time passed again.

Amidst many people's anxiousness, three days passed.

At noon, the sky more than ten kilometers away from the Central Continent suddenly darkened.

Darkness dawned from three directions. It appeared at the same time and swarmed down from the sky as if swallowing them. It quickly flowed towards the Central Continent.

They're here!

These two words appeared in everyone's mind.

Alien candidates stood on top of their spacecraft one by one. They stared at the darkness in the distance with grim expressions.

Chapter 820: A Friend From Afar Must Be Killed Regardless Of The Distance!

Dark clouds tumbled and spread out in the sky, covering the sun and every inch of light available.

The light had been swallowed entirely!

Wherever the dark clouds went, the light was completely cut off. Only darkness remained.

After some time, the dark clouds arrived above the Central Continent at a visible speed, covering the area where Wang Teng was at first.

Within a few seconds, the darkness shrouded the entire Central Continent.

All the star beasts in the Central Continent lost their voice. They hid in their caves or lay prone on the ground, shivering in extreme fear.

“Oh my, so many people came.”

Frivolous peals of laughter shot out from the dark clouds.

All the alien candidates looked up. They saw a figure appearing below the dark clouds out of thin air.

It was a black skeleton with green flames jumping around in its eye sockets. It was smiling brightly at the people below.

That’s right, it was smiling brightly.

It was a skeleton, so there wasn’t any expression on its skull but for some reason, everyone could sense that this was an indecent skeleton.

“Hey, you brought many little sidekicks too!” While everyone was sizing up this black skeleton, a cynical voice rang out and disrupted the tranquility.

Silence.

The crowd turned in the direction of the voice. Their gazes landed on Wang Teng in the end.

For some reason, this fellow gave off the same vibe as the skeleton. They would have thought that they were brothers if they weren’t a human and a skeleton.

Wait... did he say ‘too’?

Little sidekicks?

Putting two and two together...

F**k, what did he mean?

Was he treating them as little sidekicks?

The alien candidates were infuriated!

If looks could kill, Wang Teng would have been mutilated by these alien martial warriors.

Wu Gu looked at Wang Teng. This was the human he recognized as his arch enemy. The flames in his eyes started flickering. “Haha, we are the same.”

“There are so many people, so we need to resign the spiritual contract.” Wang Teng went straight to the point without any bullshit.

“No problem.” Wu Gu glanced around him. He was exceptionally easy to talk to today. He waved his hand and said, “Little ones, time to greet our guests~”

The dark clouds tossed and turned, revealing the figures inside.

These figures were all exceptionally powerful. They seemed even more tall and majestic as they stood among the dark clouds like Gods from hell. A terrifying aura exuded from their bodies.

“Wu Gu, do you want to die?” A cold voice came out from one of the devil lords.

He looked like a devil that had stepped out from the mythology. He was lofty and bulky. The muscles on his body bulged out like pitch-black rocks. He was a long-toothed man with a livid face. His expression was hideous, and he had a pair of sharp horns on his head. They looked like ram’s horns with a little curl at the edge. A pair of flesh wings stuck on his back. He didn’t spread them out, yet they were still huge.

This devil lord looked like the sheep-head dark apparition Wang Teng saw in the past.

But this devil lord had better configurations!

“Haha, don’t get mad. I’m just joking.” Wu Gu shrunk his neck and smiled at the devil lord in embarrassment.

“Alright, stop the nonsense and take out the contract. You can start the duel after signing it. I’m already getting impatient. I want to get a taste of these talents’ blood!” Another devil lord spoke up. His face was white, but he was extremely handsome. He had long black hair, looking like a noble of the dark apparitions.

“Alright, here it is.” Wu Gu took out the spiritual contract they had signed the previous time and threw it to the devil lords.

The spiritual contract opened automatically in mid-air. The devil lords slit their fingers casually and signed their names on the scroll with a wave of their hands.

The scroll flew down to the alien candidates.

The alien candidates, including the top talents like Argus, Kathu, and Biluo signed their names without any hesitation.

They were similar in their attitudes towards the dark apparitions. They would fight for their lives!

Wang Teng’s gaze shimmered when he saw this scene.

It looked like dark apparitions existed in other parts of the universe too. This was why the alien martial warriors weren’t surprised when they saw them and even chose to face them together.

This was good. He didn’t have to worry about anyone creating trouble.

In the current circumstances, he needed to rely on the strength of these alien candidates if he wanted to save Earth.

Wang Teng opened his mouth excitedly after everyone had signed the contract. “Come, let’s start. I can’t wait.”

Silence.

Everyone glared at Wang Teng as if he were an idiot. They had countless complaints pent up in their hearts that they didn't know how to express.

Was this guy mad?

These were dark apparitions!

It wasn't hard to guess how tragic and intense the battle would be.

However, this brat was getting all excited like it wasn't even a huge thing!

"Hehe, let's get started." Wu Gu let out a weird laugh and looked at the devil lords behind him. "Who wants to play first?"

"I'll go." An enormous giant apparition who was almost five meters tall came out, speaking with a thick, thunderous voice.

"Wow, what a huge one." Wang Teng took a step back and looked at the alien candidates with a frightened expression. "This guy seems so strong. One look and I know that I can't beat him. Does anyone want to go?"

Silence.

It was so easy and natural for him to utter those words. How shameless was he?

Furthermore, this duel was decided by him and the dark apparitions. If he couldn't beat them, why did he even do that?

Coward!

All the alien candidates couldn't wait to kill Wang Teng right now.

"Don't just stand there! A friend from afar must be killed regardless of the distance!" Wang Teng saw that no one was reacting and continued to talk.

Everyone: ... O__O"

What was he even saying!

The alien candidates were stunned and speechless. But when they heard those words, they felt that it made a bit of sense. However, they didn't dare to let Wang Teng continue embarrassing them.

"Hmph!" An impatient alien candidate snorted and glanced at Wang Teng contemptuously. He stepped out with a sword in his hand, pointing it directly at the giant apparition devil lord.

"I'll fight you!" Without another word, the candidate and the dark apparition charged toward one another.

"Kill!" The giant apparition devil lord was armed with a huge pole. With a black streak of light, he slammed it forward.

The alien candidate was fearless. He condensed a terrifying glow on his sword and slashed straight out.

Boom!

Boom!

Boom!

The battle broke out in the sky. There were streaks of black and yellow clashing against each other, producing a violent roar that resounded in all directions.

The terrifying aftermath of the Force swept across the surroundings, destroying the trees and peaks in the forest below. The land quaked as if the doomsday was here.

Boom!

After a few minutes, the yellow ball of light suddenly shattered, and the alien candidate flew out while vomiting blood. He looked pale as he almost slammed onto the ground.
