Chapter 821: Planetary Stage Spirit! (1)

They lost!

An alien candidate lost so quickly!

The other candidates turned grim and started to treat the dark apparitions with more importance.

“Wow, good job!” Wu Gu chuckled.

“Hmph!” The giant devil lord glanced at Wu Gu from the corner of his eyes and snorted. Then, he disappeared again.

“Be careful!” some martial warriors shouted hurriedly. Their expressions changed slightly.

The alien candidate was appalled. He retreated immediately without much thought. But it was already too late.

The giant devil lord appeared in front of him almost immediately. The shadow of the enormous rod-shaped weapon bore down on the alien candidate.

The candidate’s pupils narrowed. He gave an angry roar involuntarily and released all the Force in his body.

Boom!

The giant devil lord was using his full power. On the other hand, the alien candidate had put up a hasty defense, which shattered almost instantly. He couldn’t even last a second.

Then, the rod-shaped weapon landed on the candidate’s head.

Splurt!

His head was smashed like a watermelon. Red blood and white matter splattered everywhere, leaving a headless body plummeting to the ground.

Silence!

There was an eerie silence.

The battle started a few moments ago, but a planetary-stage formidable warrior had already been killed!

Many people stared at the devil lord in bewilderment. Fear and dread appeared in their eyes uncontrollably.

This scene was shown to the martial warriors from the different countries through the monitors. Everyone was at a loss for words.

The powerful aliens couldn’t beat the dark apparitions either?

Their expressions were ugly, and they were in extremely low spirits.

...

“Human talents are disappointing!” The giant devil lord glanced around him indifferently while holding his weapon that was still dripping blood.

“You!”

Many alien candidates were infuriated. They glared at the giant devil lord.

The five great stars of the universe turned serious. Fierce killing intent burned in their eyes.

Dark apparitions must be killed!

“Everyone, let’s attack together.” Argus didn’t waste any time. He looked around him as he opened his mouth.

As soon as he finished his sentence, he vanished, charging toward the giant devil lord. He left a trail of dazzling golden light behind him as he shot out like a sharp arrow.

The giant devil lord squinted. His eyes glowed with the wildness of bloodlust, and the corners of his lips curled into a sinister smile.

Boom!

The next second, they collided.

Impact waves swept through the air.

Argus stood in front of the giant devil lord. His golden hair danced in the air, and his body was bathed in a golden aura. He looked like an immortal.

He didn’t use any weapon, only relying on his fist. He punched the giant devil lord.

Bang, bang, bang!

The giant devil lord was forced to move back while fresh blood trickled down the edge of his lips. Fist marks appeared on his tough body one by one. It was horrifying.

Roar!

He released an angry bellow. His eyes turned bloodshot, and he stopped moving back. Instead, he raised the huge rod-shaped weapon and swung it at Argus!

All of this happened in the blink of an eye. By the time everyone regained their senses, Argus and the giant devil lord were locked in a fierce fight.

“Hahaha, kill!” Kathu laughed when he saw Argus acting first. His voice was rough and loud.

A dense pillar of red light shot into the air, forming the shape of a ferocious crimson star beast.

Roar!

The crimson star beast roared into the sky. Then, it dashed into Kathu’s muscular body.

Boom!

In that instant, Kathu seemed to have turned into the crimson beast. He bolted towards the devil lords with gusto.

He was indeed bold.

It suited his style, fearless and invincible!

“Come, have a great time with your grandfather!” Kathu shouted. He raised his large ax and released a terrifying crimson ax glow into the air. He didn’t care who he hit. When he saw a devil lord, he would attack. He was like a beast that went berserk.

“How dare you!” The sheep-head devil lord screamed in anger. Malicious killing intent shot out of his eyes as he charged toward Kathu.

He was holding a weapon that was shaped like a sickle. When he swung it, it created a black ray of light.

Boom!

The crimson ax glow crashed into the black blade glow. The deadlock lasted for three seconds before breaking apart simultaneously.

Kathu and the sheep-head devil lord zoomed out from the residual impact and started battling with each other.

The other alien candidates didn’t hesitate either and acted at almost the same time. They chose a devil lord and started fighting.

Boom, boom, boom!

In an instant, the sky was filled with raging battles!

Explosions sounded continuously, shaking heaven and earth. Frightening Force glows erupted in all directions, and powerful attacks destroyed the mountains and the trees around them.

Some distance away, Loggins was battling with a devil lord. They smashed into a mountain, which cracked into pieces. Only half of it was left.

Pulin floated on the right. A green glow full of vitality was exuding out of his body as he fought with the devil lord called Phantasma.

With a wave of his hand, the green Force glow gathered into multiple vines. They shot toward Phantasma and attempted to bind him. However, Phantasma was extremely mysterious. He was shrouded in a mist, so no one could see his body. The vines went through his body, catching nothing.

On the other side, Biluo met Black Incubus.

Biluo’s long green hair flowed down her shoulders and her beautiful face. Black Incubus Devil Lord looked great too. She had purple curly hair, and her figure was amazing. They were both perfect.

Chapter 822: Planetary Realm Spirit! (2)

The two peerless beauties glared at each other without concealing the killing intent in their hearts.

Boom!

The next instant, both of them vanished and clashed against each other.

...

While everyone was engaged in a deadly battle, Wang Teng was staring at the area where the candidate's corpse was lying.

Several dazzling attribute bubbles were floating there.

Attributes from a planetary-stage warrior!

Good stuff!

Wang Teng hurriedly picked them up.

Constellation Force (Earth)*1800

Imperial Realm Spirit*120

Imperial Realm Enlightenment*108

Common Universal Language*300

Ultimate Stage Earth Talent*360

...

"Not bad, not bad. It's another wave of loot." Feeling a little sorry, Wang Teng proceeded to collect the attribute bubbles

His Constellation Earth Force skyrocketed in an instant.

Constellation Earth Force: 2795/10000 (planetary-stage first-level)

Next was the Imperial Realm Spirit. As the attribute bubbles merged into his body, Wang Teng's mind suddenly shook. There was a storm in his consciousness.

A breakthrough in his spiritual power!

Wang Teng's spiritual power was already close to the peak of the Imperial Realm. In addition, he had recently gained the Imperial Realm Spirit attributes multiple times. Naturally, it would improve rapidly. Before he knew it, his spiritual power stepped over the threshold.

Boom!

In Wang Teng's sea of consciousness, there were thunderous sounds, and the terrifying spiritual power rolled inside it as if it was forming a vortex.

Waves of spiritual power swirled continuously, condensing towards the center...

It seemed as if the spiritual power was undergoing training. It went through an incredible transformation, leaping from its original realm and entering a higher level.

The changes in his consciousness seemed slow, but in reality, they happened within a few minutes.

Wang Teng's spiritual power condensed into a single point in his consciousness, leaving only a small, bright light.

Then that spot suddenly burst into glaring light.

Boom!

In an instant, an indomitable spiritual power erupted, circling within Wang Teng's consciousness as if declaring ownership of this territory.

A sphere of spiritual power was suspended in his consciousness.

Planetary Realm Spirit!

Spirit: 1/10000 (Planetary Realm)

At this moment, Wang Teng was enlightened.

Spirit and martial arts were the same. Before the Imperial Realm, they were called the Planetary Disciple Realm. After that, it would be the Planetary Realm, Celestial Realm...

Wang Teng's spirit had now reached the Planetary Realm!

It was a whole new level, which was several times stronger than the Imperial Realm.

Ordinary planetary-stage warriors would not be able to achieve this feat. Only celestial-stage warriors usually attained the Planetary Realm Spirit before advancing.

In other words, Wang Teng's spirit was equivalent to a celestial-stage warrior's spirit.

If only his spirit had reached the Planetary Realm, it wouldn't mean anything. It only signified that he was better than others in certain aspects, such as spiritual perception and consciousness.

However, Wang Teng was a divine spirit master and possessed spiritual power. Spirit encompassed spiritual power and consciousness. As one's spirit realm moved up a level, one's spiritual power would naturally increase.

An ordinary planetary-stage martial warrior would not be able to fend against planetary realm spiritual power.

Wang Teng felt that if he used his spiritual power to maneuver weapons now, he could instantly kill almost everyone below the planetary stage five stars.

As for warriors stronger than that, he could put up a fight with them.

Wang Teng was overjoyed. Originally, he thought that he would have to rely on his Space Physique to fight against the dark apparitions. He didn't expect to have another trump card.

Just as he was about to withdraw his gaze from the attributes panel, his gaze suddenly stopped.

There was a change in Origin Of Soul. It had increased from 1256 points to 5030 points!

Wang Teng was in deep thought.

Spirit, Soul!

Both seemed to be the same thing. Did Origin Of Soul attributes increase along with the spirit attribute?

He suddenly remembered that when the Origin Of Soul attribute was increased in the past, his spirit attribute had followed suit.

Apparently so.

Wang Teng's gaze stayed on the first and second columns of the attributes panel.

Origin Of Life and Origin Of Soul.

These were the most important things of the body. One represented the flesh, while the other represented the soul, and both would constitute a complete living body.

As Wang Teng improved his martial arts and spirit, these two Origins grew as well.

He seemed to understand something. These two Origins must progress together. He mustn't tilt the scale to one side too much!

Somehow, he felt the importance of these two Origins.

Thoughts flashed through his mind. Wang Teng looked at the changes in his other three attributes.

He had gained 108 points of Imperial Realm Enlightenment, raising it to the peak of the Imperial Realm. He was not far away from breaking through.

The concept of enlightenment was a little hard to grasp, but one must have it. If not, they would be an idiot.

Wang Teng would be entering the universe and fighting with the other universe talents. He mustn't let his enlightenment fall behind.

Besides this, he also gained the ultimate stage earth talent and the Common Universal Language attributes.

Honestly, ever since his ice talent reached the emperor level, Wang Teng didn't like ultimate stage talents anymore.

It was easier to get rich and harder to go back to poverty.

However, if he wanted to reach the emperor level, he needed to max out his ultimate stage talents or wait for emperor-level attribute bubbles to drop.

The Common Universal Language was quite useful. It was prevalent in the universe, so he would be able to converse with other people normally.

As he collected more and more attribute bubbles, his grasp of the Common Universal Language got better.

Common Universal Language: 12/1000 (small achievement)

...

Wang Teng pulled his attention away from the attributes panel and looked at the duels around him.

“I should do some exercise too!”

He scanned his surroundings and finally fixed his gaze on a heated battle.

The talent of the Emerald Abyss Galaxy, Biluo, was fighting with Black Incubus.

Wang Teng swore that his intention wasn't to gaze at beauties. He just wanted to settle some accounts with this old acquaintance of his.

Black Incubus had created a few clones and surrounded Biluo. Eight similar Black Incubuses circled Biluo, making it hard for her to find her true form.

Biluo's brows were locked in a tight frown. She held her sword, and multiple glows erupted from the blade. It twirled around her like a whirlpool.

But she was still unable to hit the true form of Black Incubus.

Damn it, why does this devil lord possess such a strange cloning skill? I can't figure out which is the real one. I need to find it soon. There was no expression on her face, but her mind was running in sixth gear.

“Do you need my help?” Wang Teng asked with a smile, appearing outside the battle circle.

“Can you find her true form?” Biluo's gaze flickered.

“I will only know after I try,” Wang Teng said casually.

“Why are you standing there then?” Biluo rolled her eyes.

“Why don't you ask me nicely? If not, I have no reason to help you,” Wang Teng shrugged and said helplessly.

Biluo felt her head throbbing.

Why do such weirdos exist?

This fellow is an idiot!

What on earth is he thinking? Even in this critical situation, he still has the heart to make a joke.

Damn it, I feel like beating him...

“Quick, don't waste any time.” Biluo frowned.

“There's no relationship between us, and you're the invaders. If you don't do it nicely, I can't convince myself to help you.” Wang Teng wasn't moved. His tone remained calm as he spoke righteously.

Silence.

Biluo was helpless. Wang Teng was right, but she had a hunch something was missing.

Black Incubus felt a little anxious as she looked at Wang Teng. Could he really find her true form?

No, she must defeat her opponent soon. She couldn't let that fellow act.

Recalling Wang Teng's history, a bad feeling swarmed into Black Incubus's heart. She stopped wasting time and controlled all her clones to move forward. A thick black glow exploded from their bodies and merged into sharp black blades, slashing at Biluo.

Chapter 823: Stubbornness!

Biluo's expression changed slightly. She didn't dare to be careless. Her sword conscious billowed out, forming an impenetrable defense around her.

She was the renowned martial arts talent of the Emerald Abyss Galaxy!

Ask for help? That would never happen!

She might treat Wang Teng politely, but in her heart, she more or less looked down on this martial warrior from Earth.

Some things couldn't be erased with a few sentences.

Foundation!

The foundation of Earth couldn't be compared to the Olant Federation's at all. The difference was wide as a chasm.

It was like a noble lady from the upper-class society meeting a beggar from the slums. No matter how outstanding the beggar was, the noble lady would never place him at the same level as her.

This was impossible!

Wang Teng didn't get impatient even though Biluo didn't beg him for help. He just smiled and watched them from the side.

He understood what these alien candidates were thinking. They were a bunch of arrogant and conceited fellows.

Their arrogance made them look down on martial warriors from Earth. They thought they were high and mighty and above all beings on this underdeveloped planet.

So what?

Wang Teng would step on the dignity of these talents and rub it on the ground.

They looked down on Earthlings, right?

Well, he would crumble and destroy their pride. If the dark apparitions hadn't invaded them, Wang Teng would have looked for the alien candidates and defeated them one by one.

Since these talents placed so much importance on this trial, he would turn their trial into nothing.

This was the real revenge.

Wang Teng was a true-blue Earthling. He had deep feelings toward his homeland.

These alien candidates descended on his planet as invaders and treated this place as their trial ground as if it was a hunting ground for opportunities. As an Earthling, he couldn't accept this.

He mustn't accept it!

He would take revenge!

At this moment, Black Incubus's eight clones surrounded Biluo in all directions and slashed a black blade glow in the air.

"Die!" An angry scream came out of her mouth. It was filled with ruthless killing intent.

She knew better than Biluo how scary Wang Teng was. Before he reached the general stage, he could already force her into a miserable state, much less now.

No one should underestimate this fellow!

Biluo's expression turned grim. She realized that all the eight blade attacks were real. They weren't illusions.

How was this possible?

She was in disbelief. Since not all the eight clones were real, how could they release eight real attacks at the same time?

This didn't make sense!

Biluo turned serious. Even as an outstanding talent, she had to remain cautious in front of eight mighty blows from a devil lord.

The constellation Force in her body churned violently. It turned into numerous sword glows and merged into the defense shield around her, protecting her from all corners.

Boom!

Just as she completed her move, the eight black glows fell on her.

The black Force glow and the green Force glow exploded when they met, engulfing Biluo completely. No one could see what was happening inside.

Powerful Force impact echoed in their surroundings. A large patch of sky-towering trees collapsed, throwing dust and soil into the sky.

Black Incubus stared intently at the center of the explosion. Suddenly, her expression changed.

A figure shot out from the center. Her long green hair was a little messy, and her clothes were torn and tattered. Blood dripped down from the corner of her lips.

Many alien candidates turned pale when they saw this scene.

Biluo was one of the five great stars, who were the most powerful and famous candidates in this trial. Yet she was at a disadvantage when she fought with a devil lord!

"You're not dead." A sharp glint flashed in Black Incubus's eyes. She was shocked.

“You don’t have the power to kill me.” Biluo might look a little disheveled, but her expression didn’t change. She had her pride as a top talent of her generation.

Even if she couldn’t win, she mustn’t lose her dignity.

Constellation Force (Wood)*800

Constellation Force (Dark)*950

Darkness Clone Technique*360

...

Wang Teng happily picked up the attribute bubbles at the side. Then, he looked at Biluo and gloated in her misery. “Are you alright? If you can’t handle it, you can seek my help. Don’t be so stubborn!”

Silence.

To hell with being so stubborn!

The corners of Biluo’s eyes twitched slightly, and she almost couldn’t maintain her expression.

This stupid bastard!

How could he make such irresponsible and sarcastic remarks?

She glared at him from the corner of her eyes.

Go and die!

“How heartless. We’re old friends, but you’re helping this lady to kill me.” Black Incubus winked seductively at Wang Teng, pretending to be heartbroken.

o(≧□≦)o

Wang Teng was stunned. He stared at Black Incubus in astonishment.

Black Incubus might look beautiful, but Wang Teng still remembered her devil transformation. It was etched deep in his mind.

Whenever he recalled the assembly of decayed flesh, his hair would stand on ends.

It was so disgusting! Sob.

However, Biluo didn’t know anything. She turned and looked at Wang Teng in astonishment.

This fellow had a relationship with this dark apparition?

Although love between different races was touching, she had to admit that Wang Teng had a unique taste.

You can never judge a book by its cover.

(Γ Γ)~→

“F**k, what does that expression mean?” Wang Teng was infuriated.

This lady thought that he had some weird relationship with this female dark apparition?! He couldn't bear it.

Are all ladies so dirty?

Boom!

Right then, Black Incubus vanished. She took the chance when Wang Teng and Biluo were distracted to launch her attack.

She wanted to kill Biluo as soon as possible. She felt helpless even though she was a devil lord. This was too difficult!

She felt ill at ease because Wang Teng was eyeing her as if she was his prey. Fortunately, Wang Teng never went by the script. If the two humans worked together, she could only run away.

She needed to finish this lady before he decided to act.

Boom!

Biluo had been vigilant of Black Incubus all this while. Seeing her attack, she moved too.

The human and the dark apparition turned into two lingering shadows as they collided fervently in the air.

“Tsk, women are so brutal when they're fighting,” Wang Teng clicked his tongue as he exclaimed. He raised his head, touching his chin as he watched them.

Biluo was one of the most outstanding geniuses of the Emerald Abyss Galaxy. She was extremely powerful. When she got serious, she was on par with Black Incubus and even inflicted some serious injuries on her.

Boom!

Splurt!

Splurt!

They crashed into each other again and got thrown back. Their hair was in a mess, and they were vomiting blood. They looked like two lunatics.

Roar!

Black Incubus suddenly gave an ear-piercing roar. A thick black glow erupted from her body and started expanding like a black heart palpitating furiously.

Chapter 824: What Are You Looking At? If You Continue Looking, I'll Eat... pfft!

Black Incubus's body puffed up like a balloon, emitting intense black light. It looked like a black sun.

This sudden change attracted everyone's attention!

Devil transformation!

A devil lord had executed the terrifying devil transformation!

Mind you, devil transformation was a special skill that devil lords possessed. The devil transformation of every devil lord was different.

But there was one similarity. They were all powerful and frightening!

Of course, devil transformation wasn't something they could execute whenever they felt like it. Not many dark apparitions were willing to use this skill unless they were forced into a tight corner.

The devil lords in the area were astounded. All of them turned and looked at Black Incubus.

"Wow, Black Incubus executed her devil transformation." The green ghost flames in Wu Gu's eye sockets jumped violently. He moved his jaws and made a weird sound.

"What is she doing? That human lady didn't have the power to force her to this stage." A vampire devil lord frowned.

"Idiot!" The sheep-head devil lord scoffed.

The other devil lords wore different expressions on their faces. Some sneered, some frowned... these dark apparitions weren't as harmonious as they seemed.

They didn't know that Wang Teng was the reason why Black Incubus executed her devil transformation so quickly.

Yes, it was that simple. There were no other reasons!

They didn't understand Black Incubus's plight. Wang Teng stood at the side without doing anything, but it gave her immense mental pressure. Hence, she decided to unleash her devil transformation.

Of course, another reason was that Biluo's ability was on par with her. She couldn't take her down easily, so she had to do this.

"Oh my, devil transformation!" Wang Teng looked up and exclaimed in surprise.

This was the third devil transformation he saw. The first time was this Black Incubus Devil Lord and the second time was Devil Lord Chi Yan.

That fellow was still in Wang Teng's space fragment. He had to suffer the burn from three divine fires continuously. This pain was worse than being imprisoned under Mount Saint.

At that time, he was only tormented by one divine fire. Now, there was the flame of light, the Emerald Glazed Flame, and the dark Flame.

One could imagine how painful it was.

The third time also belonged to Black Incubus.

However, Wang Teng wasn't who he was in the past anymore. He wasn't a newbie who hadn't even reached the general stage. He was already a planetary-stage martial warrior!

No matter how powerful Black Incubus's devil transformation was, she wouldn't exceed the fifth-level planetary stage.

Hence... Wang Teng could still wreck her!

Biluo saw this scene, and her face turned grim.

These aliens were extremely familiar with the dark apparitions. They didn't just exist on Earth. There were signs of dark apparitions everywhere in the universe.

It seemed that there were records of dark apparitions ever since the birth of the universe and the existence of civilizations.

Naturally, there were many records of battle experiences with the dark apparitions over the centuries. Hence, there was detailed data on the devil transformation.

Biluo understood how scary it was.

At this moment, the glaring black light retracted, revealing the current appearance of Black Incubus.

Her body had expanded greatly. She looked like a mashed-up ball of rotten flesh, which was squirming with flesh whiskers hanging down and flying in the air.

The thin purple long hair turned as thick as a giant python. It danced wildly. A pair of sharp horns grew out from it. It gave off an eerie and sharp glint.

Numerous blood-red eyeballs were etched in the flesh. They looked evil and ghastly.

Roar!

She opened her giant mouth, revealing her sharp teeth that looked like a sawtooth. Saliva dripped down uncontrollably as she gave a loud roar that sounded neither human nor beastly.

Wang Teng realized that Black Incubus's appearance was a little different from before. She didn't have so many eyeballs in the past.

These eyeballs were scattered around Black Incubus's body. Anyone with trypophobia would probably shudder in fear and pee on the spot if they saw her.

*What the f**k, she transformed?*

Wang Teng was startled as he muttered to himself.

Black Incubus twirled her pupils as if she had noticed Wang Teng's gaze. Her numerous eyeballs stopped on him in unison.

Her eyeballs were bloodshot and filled with chaos, evil, distortion, indifference, bitterness... and various negative emotions.

Boom!

As the eyeballs turned, a savage spiritual fluctuation surged out and penetrated right into Wang Teng's mind.

“Hmph!”

Wang Teng snorted. A look of disdain flashed in his eyes.

His spirit was at the Planetary Realm. This spiritual fluctuation might be chaotic, but it was only at the Imperial Realm.

Black Incubus was embarrassing herself when she tried to use her Imperial Realm Spirit to affect him!

Boom!

Instantly, in Wang Teng’s consciousness, his vast and terrifying spiritual power turned into numerous bolts of lightning and struck down. It was like the punishment from heaven.

The chaotic spiritual power was destroyed in an instant and turned into pure attribute bubbles. Wang Teng absorbed them all.

Imperial Realm Spirit*360

Unfortunately, he was already at the Planetary Realm, so these 360 points of Imperial Realm Spirit were only 36 points of Planetary Realm Spirit to him. But it was still the first spirit attribute bubble he received after his advancement. It was worth mentioning.

Not bad, Black Incubus did make some contributions!

He should kill her quickly later and prevent her from suffering too much. Of course, he would get all he could out of her first.

Wang Teng squinted. Many thoughts went through his mind.

Black Incubus shuddered for some reason.

Roar!

At the same time, she felt that wisp of spiritual power disintegrating. Her countless pupils narrowed as they stared at Wang Teng simultaneously.

Wang Teng wasn’t afraid, but the eyeballs were horrifying!

He glared at them. “What are you looking at? If you continue looking, I’ll eat—pfft, I mean, I’ll beat you up!”

F**k, he almost said the wrong thing!

Black Incubus looked disgusting. He felt nauseous just looking at her.

Eat her? That was too challenging!

Black Incubus: ...

Silence.

Biluo stared at Wang Teng in bewilderment.

You almost exposed yourself! Are you still saying that you have no relationship with her?!

2

“Go away!” Wang Teng glared at her, feeling irritated by her gaze.

Roar!

Black Incubus knew that Wang Teng wasn't easy to deal with. She stopped testing him and rushed towards Biluo instead.

The horrendous body was like a ball of flesh. It opened its sharp teeth and wanted to swallow Biluo.

“F**k!” Biluo cursed uncontrollably.

This Black Incubus Devil Lord was the perfect example of bullying the weak and fearing the strong. She couldn't beat Wang Teng, so she attacked her. Shameless.

“Do you think I'm easy to bully!” Biluo was infuriated too. Her face turned cold, and a dazzling ball of white light erupted from her body.

Light Force!

1

She possessed the light Force!

Chapter 825: Goddess Of Light Mode!

Light Force!

The sudden appearance of light Force astounded everyone. Especially the dark apparitions. Light Force was their nemesis as it could restrain their dark Force.

They were like the day and night, complete opposites.

No one expected light Force to appear here. Moreover, it came from a talent from the universe.

All the devil lords' gazes landed on Biluo.

What kind of gaze was that?

They wanted to skin her alive and tear her into pieces!

All along, the dark apparitions had only one rule towards the possessors of light Force.

Kill them!

They would kill them before these martial warriors could grow up.

Every martial warrior who possessed light Force was a huge threat to the dark apparitions. They would never allow them to grow powerful.

Argus, Kathu, and the other alien candidates turned their heads too. They were also astounded by the fact that Biluo possessed light Force.

Light Force was rare. Not many people had it.

Biluo's light Force was more powerful than the wood Force she had been using all this while. That meant that her true power was many times greater than what she displayed.

Biluo expected this reaction from the dark apparitions, but she was still shocked. She felt a little scared when so many devil lords glared at her. Her hair stood on ends.

It was frightening!

However, she didn't have the time to care about this. Defeating Black Incubus in front of her was the top priority.

Biluo turned into a ray of white light and charged toward Black Incubus.

Boom!

A battle ensued. Biluo seemed to have turned into a goddess of light. She soared through the sky, releasing powerful light Force in her every attack as she hurled it at Black Incubus.

Boom, boom, boom!

Black Incubus kept moving back her hideous body. The flesh on her body hissed as it got stained with light Force. It started melting at a visible speed and turned into wisps of black smoke dispersing in the air.

"This lady is quite powerful." Wang Teng was stunned. He almost swallowed his tongue when he saw Biluo's transformation.

He thought that Biluo was just a wood-element martial warrior. He didn't know that she was hiding her light Force, which seemed more powerful than her wood Force. It was at least at the fourth level of the planetary stage.

She was bathing in white light like a goddess descending from heaven.

She switched on her goddess of light mode!

1

However, very soon, Wang Teng's gaze was attracted by the attribute bubbles dropping on the ground without stopping.

Constellation Force (Dark)*130

Constellation Force (Dark)*120

Imperial Realm Spirit*30

Imperial Realm Spirit*45

Constellation Force (Light)*180

Constellation Force (Light)*220

...

This is good stuff. This is the attribute I'm lacking the most. I must pick it up quickly. Wang Teng smiled brightly. He hurriedly released his spiritual power and collected the attribute bubbles diligently.

Seems like I'm not needed. I didn't know Biluo had this trump card. It should be a piece of cake for her to finish Black Incubus.

Wang Teng collected the attribute bubbles and wondered to himself as he rubbed his chin.

Boom!

While he was deep in thought, the situation in the sky changed. Glaring light Force exploded from Biluo's body, piercing Black Incubus like a large light Force sword.

Roar!

Black Incubus gave a scream of agony. Her voice was shrill and ear-piercing. Everyone felt their eardrums hurting.

Black smoke wafted out of her mass of flesh. She was getting purified by the light Force at a fast rate. Parts of her body disappeared, and the large ball of rotten flesh disintegrated quickly.

"Die!"

"Let's die together!" A crazy and furious yell escaped Black Incubus's throat. Her countless eyeballs swelled, and veins covered her flesh as if she had eaten a blood bomb.

"Oh shit!"

Biluo's expression changed slightly. Force swarmed out of her body and turned into a defense shield. At the same time, she retreated hurriedly, wanting to escape from the vicinity of Black Incubus.

The other devil lords squinted as they looked in this direction.

Self-destruction!

Black Incubus was forced into such a tight corner!

Boom!

The next second, a terrifying explosion occurred at the spot where Black Incubus's body was. It resounded in the entire sky while violent Force fluctuations swept through the area.

Bang...

With the explosion as the center point, the trees in a circular radius started to tumble and were destroyed by the strong residual forces.

The ground quaked. Huge cracks appeared on the land, spreading out like spiderwebs. Next, the entire ground collapsed.

The black explosion in the sky blossomed like a mushroom, releasing its beauty in the sky.

The residual impact traveled for more than a thousand miles. It was exceptionally frightening.

The formidable martial warriors retreated involuntarily.

Biluo wasn't able to escape in time and got swallowed by the explosion. There was no sign of her.

Argus, Kathu, and the other alien candidates stared in the direction and furrowed their brows. Unfortunately, they were held back by their opponents, so they couldn't reinforce her.

After some time, the dark Force glow scattered in the air. A white figure was finally revealed.

The white glow was a little weak and faint. It was on the verge of collapsing.

It was Biluo.

She was in a bad state. Her breathing was weak, and her face was pale. Blood was dripping down the corners of her lips. She had suffered grievous injuries.

Fortunately, she had managed to stay alive.

Black Incubus's large body had already disappeared. She seemed to have vanished from the world.

Many people heaved a sigh of relief. The human side had gained a small victory in this battle.

If Biluo was killed, it would be a huge blow to humans. After all, she was one of the five great stars in the universe. If she got defeated, the other people wouldn't have the morale to continue fighting with the dark apparitions.

However, at this moment, a change occurred.

"Be careful!" Argus warned Biluo in a loud voice.

Biluo's expression changed. She felt a chill behind her, aimed directly at her back.

I'm dead!

Her face turned white as despair overwhelmed her. With her current state and injury, she couldn't evade the attack, much less resist.

Bang!

But the expected pain didn't come. Instead, a dull thud was heard.

Biluo turned around hurriedly. To her surprise, she saw a familiar figure blocking her back.

"Wang Teng!"

It's that bastard!

Biluo was filled with disbelief. She didn't expect Wang Teng to act. Mind you, he had been standing at the side and watching her indifferently. Yet, he still saved her.

What did this young man have up his sleeve?

"Don't misunderstand me. I just want to finish the duel I had with that skeleton," Wang Teng replied in a calm voice without turning his head. He seemed to know what she was thinking.

Chapter 826: My Lady, I Don't Want To Work Hard Anymore!

In the sky, Wang Teng appeared behind Biluo and grabbed Wu Gu's bony palm.

There was a cold and sharp glint on the bones like a sharp bone knife.

Biluo looked at the figure standing not far away. Her expression changed slightly. She didn't know if she should laugh or cry.

He saved her, but he had to find an excuse.

What an egoistic fellow!

The alien martial warriors and the devil lords were all attracted by Wang Teng. They didn't notice when this fellow appeared behind Biluo in time and saved her.

Argus, Kathu, and the others squinted slightly. They carefully sized up Wang Teng.

They had to admit that they were astounded by his swift movements. He was could react promptly in that dangerous situation. They might not be able to do that.

The group of devil lords was flabbergasted. The dark apparition who ambushed the young lady was Wu Gu, a devil lord known for being treacherous and crafty. It was surprising that this human had managed to block his attack.

This was a little unexpected!

Wang Teng didn't care what the others were thinking. He released his spiritual power and picked up all the attribute bubbles dropped during the battle.

Constellation Force (Light)*1860

Light Physique*1200

Holy Sword Slash*450

Constellation Force (Wood)*1450

Constellation Force (Wood)*300

Constellation Force (Dark)*2530

Imperial Realm Spirit*540

Dark Devil Scripture*100

Devil Transformation*10

...

Amazing! This is amazing! Wang Teng's eyes were glowing with happiness. He almost burst out laughing.

Besides the light attributes Biluo had dropped, there were also wood attributes and dark attributes by Black Incubus.

Wang Teng received 1860 points of constellation light Force. This was a sizable income.

After all, this wasn't an ordinary Force. It was constellation Force, which was many times more powerful than the normal Force.

He also gained 1200 points of Light Physique.

Light Physique: 3350/10000

Wang Teng received the Light Physique from Alais. With this additional 1200 points, his Light Physique rose from more than 2000 points to 3350 points.

Wang Teng's body started transforming. His grasp and understanding of the Light Physique rose to another level.

Then, there was the... Holy Sword Slash!

This was the skill Biluo used to kill Black Incubus. The dazzling light glow appeared in his mind as he went through the skill.

The blade formed from light turned into an invincible long sword. When the sword was wielded, light shone brightly, tearing the endless darkness into pieces.

Wang Teng's eyes were shimmering with the light from that sword. He was bewildered.

Celestial stage!

This was a celestial stage light element battle technique!

Wang Teng was dumbfounded. At the same time, he found it reasonable.

Biluo had relied on this attack to kill Black Incubus. This wasn't something a normal planetary stage battle technique could do.

As expected of a talent from the universe.

She had planetary stage ability yet possessed a celestial stage battle technique. Moreover, it was a rare light element celestial stage battle technique!

Rich!

Wealthy!

Wang Teng suddenly wanted to rush over and hug Biluo's leg.

My lady, I don't want to work hard anymore! He forcefully pushed this thought out of his mind with his remaining consciousness and crushed it with his feet.

Pfft!

Was he a person with no dignity?

I have the system. Cozying up to the system is the correct choice.

System, I love you!

As long as I have my system, I will not lack battle techniques. It will give it to me.

For instance, an ordinary martial warrior would never be able to get the Holy Sword Slash skill if they didn't come from the same family or faction. But he had it now.

Holy Sword Slash: 450/1000 (well-versed)

The 450 points of Holy Sword Slash attributes allowed this battle technique to rise from the foundation to the well-versed stage.

If he wanted to advance to another level, he needed 1000 points.

Wang Teng glanced at Biluo secretly from the corner of his eyes. He must get more attributes out of her.

Biluo felt an evil intention swimming toward her. She frowned slightly, but she didn't know where it originated from.

There were also 1450 points of constellation wood Force and 300 points of emperor-level wood talent.

Constellation Wood Force: 1680/10000

Emperor-Level Wood Talent: 300/10000

This was the second emperor-level talent he had received after his emperor-level ice talent.

Biluo was indeed full of potential. Not only did she have emperor-level wood talent, but she also possessed the rare Light Physique.

Wang Teng had more respect for these alien talents. At the same time, he felt some anticipation. He wondered if the other talents would drop any more powerful attributes.

After counting the attribute bubbles Biluo had dropped, Wang Teng moved on to Black Incubus.

2530 points of constellation dark Force!

540 points of the Imperial Realm Spirit!

Wang Teng's dark Force rose to another level. As long as he reached the planetary stage, his ability would exceed that of a normal first-level planetary stage.

Also...

This was the first scripture he had received!

A planetary stage dark element scripture—Dark Devil Scripture!

The outline of a figure entered his mind. Its body was covered with black meridians and acupuncture points, with dark Force flowing through them. Then, they gathered into a black star above the sea of nihility.

The planetary stage!

This was the method to advance his dark Force to the planetary stage.

It sounded simple, but it was actually quite complicated. Without the relevant planetary stage scripture, one could forget about breaking through.

Dark Devil Scripture: 1/500 (well-versed)

100 points of Dark Devil Scripture were barely enough for him to cross the foundation stage and reach the well-versed stage.

If Wang Teng wanted to, he could raise his dark Force to the planetary stage.

He had many blank attributes, so raising his dark Force to the peak of the 13-star general stage was a piece of cake.

However, his dark Force wouldn't be of much help now. He wasn't in a hurry.

Then, there was the last attribute bubble... devil transformation!

Devil transformation had attribute bubbles too?

Wang Teng was honestly shocked when he saw this attribute bubble.

Devil transformation was a special skill only for the devil lords. This was their greatest secret, yet it still got dropped.

Wang Teng picked up the attribute bubble. There were only 10 points of it, but the relevant information about the skill floated into his mind.

The outline of a figure appeared in his consciousness. It absorbed various negative emotions and stored them in the special Force stars in a planetary-stage martial warrior's body. When needed, these negative emotions would explode and merge with the dark Force, forming an incredible mutation that would ignite the potential in one's body and raise one's power a few times.

This was the devil transformation!

Devil transformation: 10/100 (foundation)

A faint black glow flashed in Wang Teng's eyes.

He was in a dilemma. The devil transformation skill was powerful, but the appearance of the person after the transformation was horrifying.

That was a real monster!

1

Unless he was in a dire situation, Wang Teng felt that he wouldn't need to use the devil transformation.

Chapter 827: How Do You Know That I Didn't Put On A Show For You?

While Wang Teng was in the mid of his enlightenment, Wu Gu, who was opposite him, sensed something. He was confused. But carefully studying this brat again, he didn't find anything amiss.

Did I see wrong?! Devil Lord Wu Gu was bewildered.

It sounded like a long time, but Wang Teng only took a few seconds to pick up all the attribute bubbles.

Wang Teng and Devil Lord Wu Gu were still standing opposite each other. They were in the spotlight.

The human and the dark apparition glared at each other. Sparks flew in the air as their gazes collided.

“Oh, I didn’t think you’d notice me.” Devil Lord Wu Gu chuckled as he exclaimed in an exaggerated tone.

“Is it strange that I noticed you?” Wang Teng asked calmly.

“Yes. I hid perfectly and almost succeeded in my sneak attack,” Devil Lord Wu Gu said with regret.

“Almost succeeded? You must be daydreaming!” Wang Teng scoffed.

“Hmph, since you want to finish our past duel, I’ll fulfill your wish and play with you.” The two balls of flames in his eye sockets flickered a little.

The instant he finished speaking, he twisted his wrist, and his bones shrunk. He pulled his hand out from Wang Teng’s grip with a swoosh.

“Huh?” Wang Teng was surprised, but he didn’t chase after Wu Gu. Instead, he looked calmly at the devil lord who had retreated more than ten meters back.

“You are an interesting skeleton,” he said indifferently.

“Hahaha, the real show hasn’t started yet.” Devil Lord Wu Gu sniggered.

Wang Teng turned and glanced at Biluo. “Hey, why don’t you ask me? If you do it nicely, I can take revenge for you along the way and beat this skeleton up.”

Biluo looked at Wang Teng helplessly. He refused to let go of that despite the circumstances. His willpower was amazing.

“Alright, alright. Please, can you take revenge for me?” she replied in a weak tone.

She could still feel her heart palpitating from the sneak attack just now. If Wang Teng could deal with that devil lord and take revenge for her, she didn’t mind pleading with him.

In the past, she would never have begged anyone. But for some reason, she felt no pressure saying such words now.

“You could have said this earlier.” Wang Teng laughed. When he turned around, his expression had become stern. He stared coldly at Devil Lord Wu Gu as he opened his mouth. “I’m starting!”

Boom!

Suddenly, the ground below him exploded, creating invisible fluctuations in the air. Wang Teng vanished without a trace.

In the blink of an eye, Wang Teng reappeared in front of Devil Lord Wu Gu. He didn’t use any weapon. He just hurled his fist at him.

“Oh my, you’re too naive. Have you forgotten your lesson the previous time? This fist skill can’t injure me.”

Devil Lord Wu Gu's bones increased in size. They seemed entirely inconsistent with his tiny and frail skeletal body.

The bones on his fist were pitch-black. They gave off a metallic glimmer as they welcomed Wang Teng's fist.

Boom!

The two fists collided, creating a huge explosion and releasing a buzzing sound as if two metals had crashed into each other.

Clang~

Devil Lord Wu Gu's frail and tiny skeleton flew out. He flipped a few times in the air before stopping himself. There was astonishment in his eyes as he half-kneeled in mid-air.

Numerous cracks had already appeared on his fist. There were balls of emerald flames burning in those cracks too. They couldn't be extinguished.

During the collision just now, an extremely fierce tremor conscious had burrowed right into his fist. There was even a sharp sword conscious hidden in it.

Not only did Wang Teng use the Strength of Ultima in this fist attack, but he also used the tenth-level Golden Ray Earth-Shattering Sword Conscious and instilled the Emerald Glazed Flame in it.

Even Devil Lord Wu Gu's tough bones couldn't withstand such a mixture of attacks.

I was too careless!

For the first time, Devil Lord Wu Gu turned serious.

Wang Teng's attack was powerful enough to hurt him. If he didn't treat him seriously, all his bones might break. At that time, death would be his only ending.

Wang Teng floated high in the air and looked down on Devil Lord Wu Gu. "Do you think I displayed my true ability the previous time? How do you know that I didn't put on a show for you?"

"You!" Devil Lord Wu Gu was dumbstruck.

If he wasn't a skeleton, if he were a normal person with flesh and blood, his expression would have turned really ugly. It was rare to see the happy-go-lucky Devil Lord Wu Gu get frustrated to this extent.

Wang Teng was the first person to force him to such a stage!

The other devil lords were shocked. At the same time, they became more serious.

This human wasn't easy to deal with!

The emerald flame was a divine fire, right?

To think that he possessed such a rare item!

“Hahaha, I almost got fooled by you. Do you think you can frighten me with your tricks? So what if you hide your skills? I have killed many conceited human talents like you.” Devil Lord Wu Gu suddenly laughed.

“Ignorants have no fear.” Wang Teng shook his head in a composed manner. He looked at Devil Lord Wu Gu as if he were a dead skeleton.

From his gaze, one could tell that he didn't care about Wu Gu at all. After all, who would care about someone that was about to die?

Devil Lord Wu Gu was infuriated. He gave a furious roar as he stood up. His body started expanding abruptly.

Boom!

Black light shot out of his body.

He was just a skeleton, but his body seemed to be hiding another space inside it. This space was filled with terrifying dark Force.

At this moment, the roaring dark Force exploded.

Devil Lord Wu Gu's body kept expanding under the nourishment of the dark Force. Within a few breaths, it turned from a scrawny skeleton into a towering skeleton giant.

“What's that?!” Many alien candidates were appalled. Their jaws dropped as they stared at this giant skeleton.

“Devil transformation!”

“Another devil transformation!”

“This is the devil transformation of Devil Lord Wu Gu!”

Some people guessed what it was and exclaimed in astonishment.

The other devil lords looked over too. Their gazes were flickering. No one knew what they were thinking.

At this moment, the black light around Devil Lord Wu Gu was blossoming. The two balls of green light in his eye sockets twirled as he looked down at Wang Teng.

The two balls of ghost fire were filled with ruthlessness, chaos, and corrosiveness. Anyone looking at it would feel a chill running up their spine as if all their vitality was frozen and replaced with a thick and dense aura of death.

“Hmph!” Wang Teng snorted. He activated the constellation Force in his body and awakened his Origin Of Life. At the same time, his Planetary Realm Spirit also kicked off, igniting the power of his Origin Of Soul.

The two balls containing the foundational energy of one's life dispersed the coldness and the aura of death.

“Not bad!” An oppressive and strange voice came out of the skull’s giant mouth. Suddenly, he stretched out his arm; a large bone blade appeared in his hand along with a dazzling black glow.

“What is this?” Wang Teng squinted.

“Die!” The answer was a cold shout.

Devil Lord Wu Gu swung his enormous blade, which gave off a glaring black light and turned into a powerful blade glow.

Boom!

The blade glow slashed toward Wang Teng. A violent explosion occurred, and the brilliant rays of black light swallowed him entirely.

Chapter 828: Heart Of Magnetic Essence... Activate!

The giant black skeleton stood erect between the sky and the ground, wielding his bone blade and swinging it down on Wang Teng.

The blade glow engulfed Wang Teng!

Bang...

The ground was chopped into two as a deep, dark crack scarred the land. There seemed to be no end to it as if it was linked to hell.

The earth was shaking violently. The vibrations caused the crack to spread further and further until it reached the peak of a mountain.

Boom!

The mountain split open, forming an antenna running straight into the sky.

The entire mountain was split into two. Many alien martial warriors were shocked.

How frightening was this attack!

And it was just a single move!

Devil Lord Wu Gu’s ability rose by a level after the devil transformation. He was an entirely different skeleton from before.

Even Argus, Kathu, and the other five great stars were shocked. They couldn’t remain calm anymore.

“Wang Teng!” Biluo’s expression changed when she saw Wang Teng disappearing under the black blade glow.

Did he die so easily?

She bit her lips. It was hard to tell what she was thinking.

The battlecraft from the various countries floating above the skies of the ocean around the Central Continent broadcasted the scene. The martial warriors' expressions changed, and they gasped uncontrollably.

Frightening!

Extremely terrifying!

One attack was enough to create a bottomless crack on land. Even the tall mountain in the distance was chopped into two.

How powerful was this attack?

How could a human resist this mighty dark apparition!

The important figures from the various nations were appalled. They couldn't find their voices for a long time as they stared absentmindedly at the giant skeleton displayed on their screens through the projectors.

In Country Xia's battlecraft, the Leader of martial arts, the three great commanders, and the other martial warriors were shocked. They stared intently at the spot below the bone blade, trying to find signs of Wang Teng.

Wang Teng was the hope of their country!

If he was killed, Country Xia would be annihilated.

The entire Earth might even be destroyed!

Above the Central Continent, Devil Lord Wu Gu raised his giant blade and laughed in a strange tone. "Hahaha, this is the result of putting on an act in front of me."

Before he could finish his victorious declaration, a calm voice sounded beside his ear. "It's too early for you to be happy!"

"Yes." Devil Lord Wu Gu's expression changed. He turned his head abruptly and saw a figure stepping out from the space to his left. The person stared at him coldly.

"Do you think you are undefeatable after turning bigger?" Wang Teng opened his mouth and spoke slowly.

"How dare you!" Devil Lord Wu Gu's gaze turned vicious. He snorted angrily.

"Do you think you're the only one who can increase in size?" Suddenly, Wang Teng hurled a punch at the mountain in the distance.

A yellow ray of light shot out.

Boom!

The frightening Force impact slammed onto the mountain, turning the tall mountain into countless broken rocks and stones that were thrown into the air.

1

“What’s this young man doing?” Devil Lord Wu Gu was puzzled.

Wang Teng didn’t hit him but went to punch the mountain instead.

The mountain must be crying!

The other devil lords and the alien martial warriors were confused too. They didn’t understand Wang Teng’s intention.

However, Wang Teng wasn’t affected. He shouted in his mind.

“Heart Of Magnetic Essence... Activate!”

1

Instantly, Wang Teng’s body turned into a magnet. A terrifying magnetic field was created, and numerous stones and rocks flew toward him.

Boom!

The rocks and stones started to piece around Wang Teng, forming a huge round ball of stones.

The ball kept getting thicker and bigger. Within a few seconds, it was the size of a small meteorite. Even the giant skeleton felt pressurized.

“This brat...” Devil Lord Wu Gu squeezed the words out from the gaps of his teeth as he stared at the giant meteorite. One could tell that his mind was in a whirl.

At this moment, changes occurred to the giant meteorite.

Boom!

A pair of arms and legs grew out from the round ball.

Boom!

Then, a large stone head popped out.

The head was round, with two holes on it. Suddenly, two balls of yellow light lit up in the holes. Then, a formidable aura exuded from this pile of stones.

The rock giant had entered the arena!

The devil lords’ expressions changed slightly. They were obviously astounded by the rock giant.

Argus, Kathu, Pulin, and the other alien talents were startled too. They stared straight at the rock giant.

A special physique talent!

They could tell what this was. Hence, they were even more mind-blown. The surprise in their hearts grew stronger.

This Earthling’s talent was extraordinary!

He possessed such a powerful physique talent.

Biluo's gaze flickered slightly. She was as bewildered as everyone when she saw Wang Teng transforming into a rock giant.

Boom!

The rock giant jumped down from the sky and landed in front of Devil Lord Wu Gu.

The ground shook violently. Dust flew into the air. The rock giant stood in front of the skeleton like a towering mountain. It was even a few heads taller than the giant skeleton.

Devil Lord Wu Gu: ...

"Come, let's continue our fight." Wang Teng's voice came from within the rock giant. He controlled the rock giant and raised his arms, displaying his chest muscles to Devil Lord Wu Gu.

Devil Lord Wu Gu looked at his arm and wanted to cry.

Why did he feel like a shortie who was going to be bullied by this muscular giant?

Something didn't seem right.

"Die!" Wang Teng didn't give him any time to ponder. Shouting loudly, he swung his giant stone arms at Devil Lord Wu Gu fiercely.

The scene was majestic.

Every move of this giant caused a huge commotion, much less a ferocious attack. The impact it caused was many times more frightening.

The enormous fist swung through the air, compressing the air around it and creating a sonic boom. White airwaves were visible to everyone.

Strength of Ultima!

Suddenly, a dense golden ray of light shone around the fist while it was being hurled through the air. It turned into an outline of a huge golden blade.

Tenth-level Golden Ray Earth-Shattering Sword Conscious!

Devil Lord Wu Gu's expression changed tremendously. His black bones started squirming as if they were melting and quickly formed a large bone shield in front of him.

Boom!

The enormous arm carrying the golden sword outline slammed into the bone shield. A thunderous boom shook the skies and the ground.

Crack!

Next, a crisp and clear cracking sound was heard.

The golden sword cut through the bone shield and went straight for Devil Lord Wu Gu's face.

Devil Lord Wu Gu was terrified. He didn't have the time to evade, so he hurriedly tilted his head to the side.

Boom!

The momentum of the huge giant sword didn't slow down, ramming violently into the right eye socket of Devil Lord Wu Gu.

The sturdy and tough bones shattered. The green ghost fire in the socket was extinguished immediately as if it had suffered a destructive blow.

"Ah!" A shrill and painful cry escaped Wu Gu's throat.

1

He stumbled back with only half of his skull left. The green ghost fire in his left eye flickered as if displaying its agony.

Chapter 829: These Bone Fragments Are Hurting My Feet!

Silence!

There was dead silence.

The devil lords and alien candidates were powerful beings, yet they were all staring blankly at the changes on the battlefield. Although they had witnessed stronger attacks, it wasn't often that they would see such an impactful scene.

It was too violent!

Wang Teng didn't look strong, but they didn't expect him to be a violent maniac!

Many alien candidates started fearing him. They wouldn't have been able to withstand a strike like that!

The eyes of several devil lords twitched faintly, and some of them even sympathized with him.

That punch, it probably... hurt!

But would bones hurt?

Well, it looked like it would. Otherwise, why would he scream so miserably?

Strange thoughts were wandering in the heads of the devil lords.

"Hahaha, that was a good punch!" Kathu laughed. Seemingly driven by Wang Teng, his body was filled with bloodlust as he charged toward the sheep-head devil lord.

They had stopped their fight because of Wu Gu, and now, their battle continued.

"Hmph!" The sheep-head devil lord was fearless. There was a glimmer in his eyes as he clashed with Kathu with black streaks of light.

On the other side, the giant devil lord attacked suddenly, swinging his huge weapon at Argus. "Die!"

With his expression unchanged, golden light erupted from Argus's body. The sword in his hand produced dozens of golden sword consciences that enveloped the giant devil lord. They resumed their fight instantly as well.

The other devil lords and alien candidates also resumed their own clashes. The tragic war started again. In an instant, the entire Central Continent was embroiled in a heated battle.

Planetary-stage warriors were so fast that a single leap could cover a thousand miles. Their attacks were even more terrifying. Every strike of theirs was devastating.

To think that back then, Wang Teng yearned for such strength. Now, he had set foot in this realm.

The future was unpredictable. No one knew what could possibly happen in the future.

The entire Central Continent was shaking as explosions engulfed the land, drowning several star beasts. It was a horrifying scene.

Wu Gu's bones started rattling and squirming again, filling the void on his face. Very soon, a complete skull appeared in front of Wang Teng. Simultaneously, the ghost fire in his left eye socket split into two, filling up the one on his right.

However, the ghost fires in his eyes had dwindled.

With a sneer, Wang Teng strode forward. He waved the rock arms again and bombarded Wu Gu's skeletal body with punches.

Boom!

Boom!

Boom!

Devil Lord Wu Gu kept retreating, but he was unable to avoid Wang Teng's strikes.

Wang Teng's rock body was agile and flexible. It didn't seem slow at all. Punches landed one after another on Wu Gu's body as he roared.

Devil Lord Wu Gu's body was battered. He couldn't withstand Wang Teng's fierce punches, and there were holes all over his body.

Wu Gu let out an angry bellow. He had never been so aggrieved before. He was forced by a human into a situation where he couldn't do anything at all.

Boom!

"I thought you were impressive!" Wang Teng snorted and broke three of his ribs with a punch.

Boom!

"What happened to our duel? Why are you not fighting back!" Wang Teng sneered and broke his arm.

Boom!

“Weren’t you going to kill me? Why are you hesitating?” Wang Teng shouted as he smashed his right thigh.

Boom!

“Come on, kill me. Stop retreating. Why are you running?”

Wang Teng continued provoking him with every hit. The rock giant suddenly rushed in front of Wu Gu and grabbed his shoulders.

Crack~ Crack~ Crack...

He then exerted strength, causing his body to make a scraping sound.

Boom!

The huge force acted on Wu Gu’s body, and in an instant, it was torn apart by Wang Teng. The skeleton shattered into pieces, the bones flying everywhere.

The huge skull of Devil Lord Wu Gu rolled high up in the sky. His eyes were full of confusion.

He was defeated just like that?

Devil Lord Wu Gu couldn’t believe it. He couldn’t accept what was happening.

Bang!

In the end, his skull landed on the ground and rolled over.

“No, I will not be defeated. How could I be defeated!” Wu Gu let out an unwilling roar. The ghost flames in his eyes shone brightly.

The scattered bones flew in the direction of the skull as if they were pulled by an invisible force.

“You’re still struggling!” Just then, a contemptuous voice came from above.

A shadow loomed over the skull before the rock giant appeared in the devil lord’s eyes.

Boom!

Wang Teng controlled the rock giant and stamped on Wu Gu’s skull, ramming it into the ground.

“Ah, you are going too far, human!” Wu Gu let a roar in devastation.

“Who are you to bargain with me?” Wang Teng scoffed and slowly stepped on his feet with force.

The devil lord was horrified as if he had sensed something. “What are you trying to do? Stop... No, stop, stop!”

“Do you accept defeat?” Wang Teng asked indifferently as he ignored the devil lord.

“... Yes, I admit defeat!” Wu Gu was silent only for a moment before throwing the towel. Though inside his heart, he was full of resentment and wanted to crush Wang Teng into pieces.

“That’s good!” Wang Teng nodded and slowly lifted his foot.

The devil lord was overjoyed. The skull rolled away, trying to get away from Wang Teng's clutches.

Boom!

However, after just two rolls, the shadow reappeared over him, and the skull was stepped on again. This time, overwhelming force crushed him.

Crack!

The skull shattered.

"No!" Wu Gu let out a shrill scream. The entire skull was smashed into pieces, and the ghost fire in the eye sockets was extinguished, disappearing into the sky.

"Since you admit defeat, I can send you on your way." Just as he was about to lose consciousness, he heard Wang Teng's voice.

Why did I provoke this brat? With regret, Wu Gu's consciousness plunged into the darkness.

The other devil lords in the distance saw what had happened and fell into silence.

Wu Gu's strength was in the top ranks amongst the devil lords. Yet someone of his caliber still fell into the hands of that human.

The alien candidates were also stunned by Wang Teng's strength and found it incredible. A talent like this had appeared on such a backward planet?!

Wang Teng's strength might probably be on the same level as the five great stars!

This was unbelievable!

Just when everyone's heads were flooded with thoughts, an irritating voice boomed in the surroundings. "Hmm, these bone fragments are hurting my feet!"

Everyone: ...

Chapter 830: A Real Stoneman With Eight Arms!

To hell with hurting his feet!

Everyone stared at Wang Teng speechlessly.

The rock giant raised its leg and looked at its sole. It was pierced by many bone fragments.

The bones of Devil Lord Wu Gu were as hard as diamonds, and they were capable of expanding and contracting. They were very special.

Yet Wang Teng stomped on them and crushed them into pieces.

After a moment of speechlessness, the emotions of the formidable warriors were overtaken by disbelief.

The death of another devil lord!

The dark apparitions had already lost two devil lords, including Black Incubus. On the other hand, only one planetary-stage martial warrior was sacrificed from the human side.

Moreover, Devil Lord Wu Gu was stomped to death. What an easy and brutal method! How frustrating!
How lowly!

This shouldn't be how a formidable devil lord should die!

But this was the result!

All of this was caused by this easy-going human martial warrior.

The other devil lords found it unbelievable. However, they had to grit their teeth and accept it.

"This human must die!" Killing intent blinked in their eyes.

Wang Teng didn't seem to care that he was the must-kill target of devil lords now. He remained entirely composed and stood there like a tall mountain with his giant rock body.

No one knew that Wang Teng had released his spiritual power to collect the attribute bubbles around him.

Planetary Realm spiritual power was indomitable. As long as he evaded the other martial warriors, no one would discover him.

It felt amazing to silently pick up the attribute bubbles!

Large attribute bubbles had dropped along with the death of Devil Lord Wu Gu. All of them were picked up by Wang Teng.

Constellation Force (Dark)*2550

Black Bone*600

Emperor-Level Dark Talent*260

Imperial Realm Spirit*580

Devil Transformation*25

...

Wang Teng was surprised. A hint of astonishment flashed past his heart.

There were a few good things!

He had gained 2550 points of constellation dark Force. Wang Teng's constellation dark Force made another leap.

The 580 points of Imperial Realm Spirit were converted into 58 points of Planetary Realm Spirit. This was a sizable gain.

There were another 260 points of emperor-level dark talent!

This was the third emperor-level dark talent Wang Teng had received. His ultimate stage dark talent rose to the emperor level instantly.

Emperor-Level Dark Talent: 260/10000

He immediately felt his love for his talents!

He wasn't a dark apparition yet possessed the purest form of dark talent. What a luxury it was.

He turned to look at the 25 points of devil transformation attributes.

Devil transformation again!

After receiving 10 points of devil transformation from Black Incubus, he received another 25 from Wu Gu.

Devil Transformation: 35/100 (foundation)

What is this? Are they trying to let me grasp the devil transformation skill?

Wang Teng muttered to himself. His expression turned a little strange.

But the transformation was too ugly!

He refused to be ugly!

Then, there was one last attribute bubble... Black Bone!

600 points of Black Bone attribute.

What was Black Bone?

Once this attribute bubble merged into his body, Wang Teng felt the changes, or more accurately, the changes to his bones.

Wang Teng lowered his head and activated his Eyes of Essence. His gaze penetrated his flesh and stared right at his bones.

His bones were turning black at a visible speed. Within a few breaths, his bones had turned entirely pitch-black.

There were also golden patterns etched on the pitch-black bones as a result of the Ancient God's Body. They looked mysterious.

At the same time, Wang Teng also felt the difference in his bones. They had turned special.

He felt that he was able to control his bones and change their shapes according to his thoughts.

Flexibility!

That was right. Just like how Devil Lord Wu Gu was able to turn his bones into bone blades and bone shields, now, Wang Teng had the same feature.

Furthermore, the toughness and tenacity of his bones had reached an extraordinary level.

Wang Teng possessed many physiques and practiced the Ancient God's Body, which was an extremely powerful physique training scripture. Hence, his bones were already as tough as steel. After this recent change, his bones became even more powerful than Devil Lord Wu Gu.

Wang Teng's expression turned ambiguous. Suddenly, he took pity on Devil Lord Wu Gu.

The devil lord had fought with him for quite a long time, but in the end, before he died, he contributed his strongest talent.

How pitiful!

Wang Teng didn't know that the five great stars were looking at him with complicated expressions when he was picking up the attribute bubbles.

These talents had no choice but to admit that this Earthling was formidable!

They would not be able to kill a devil lord dark apparition as easily as him.

But they had their pride. Their competitiveness and arrogance were ignited when they saw Wang Teng killing a devil lord before them.

“Kill!”

Kathu from the Crimson Moon Galaxy released all his potential. The crimson beast on his body turned into a blood-red shadow circling his body. Then, he charged towards the sheep-head devil lord ferociously.

Boom!

The sheep-head devil lord retreated, but he was unable to catch up with Kathu's current speed. He was hit instantly, and his entire body was thrown back like a sandbag.

Boom!

Another mountain collapsed and shattered into countless rocks amid the dust.

“Roar!”

The sheep-head devil lord flew out from a pile of rocks and flapped the flesh wings on his back. He bellowed in anger and the muscles on his body buffed up instantly. He grew more than a hundred feet in height.

Not only that, two balls of flesh started growing on his neck. Along with the sound of two bubbles bursting, two heads popped out underneath the skin. They grew beside the original head and had sharp teeth and fangs. They were equally hideous and terrifying.

The three heads were facing in three different directions. They looked weird and frightening.

A few fleshy balls also bulged out on his back. Accompanied by some more pops, four arms grew out.

Three heads and six arms!

Wang Teng was attracted by the situation on this side. He looked over in bewilderment.

If he remembered correctly, the Eight Arms Devil General had eight arms. Wang Teng had never used the Eight Arms Devil Physique ever since he got it from the devil lord.

If he beat this sheep-head devil lord, would he drop a three heads six arms physique or something related?

A strange thought popped up into Wang Teng's mind.

Would he become Nezha¹?

Wait, I might have stumbled on a secret...

Wang Teng had a smart idea. He activated his Heart Of Magnetic Essence and attracted the broken rocks from the collapsed mountain.

Boom, boom, boom!

Numerous broken rocks merged into his giant rock body and gathered behind his back.

Instantly, six rock arms grew out behind the rock giant.

Wang Teng controlled the rock giant and activated his 18 Tasks Multitasking skill. He clenched all his eight arms simultaneously.

This felt... amazing!

A real stoneman with eight arms!
