

Martial Arts 841

Chapter 841: F**k, I Know How To Shoot Too!

“Oh my, is everyone alright?” Wang Teng asked worriedly when he saw their plight.

Everyone’s faces turned black.

Fake!

He wasn’t worried. No, this fellow was definitely laughing at them.

“It’s all my fault. Everything happened at once, so I didn’t have the time to remind everyone. My bad,” Wang Teng continued blaming himself as if he didn’t notice their expressions.

Argus and Kathu were even more infuriated. Their faces were now as black as the bottom of a pot. Flames of anger almost shot out of their eyes as they glared at Wang Teng.

The devil lords also shot him with cold gazes.

Biluo felt awkward for him as she stood beside him. She pulled the edge of his clothes silently and winked at him.

Stop talking!

Can’t you see that they want to murder you?

Biluo was at a loss of words. She felt that this fellow loved to provoke people and was extremely enthusiastic at earning murderous gazes.

Suddenly, a devil lord who was shrouded in mist opened his mouth and said in a hoarse voice, “Wang Teng, you talk too much nonsense.”

“Huh? Mister, why are you hiding? Are you ashamed to reveal your face?” Wang Teng commented softly.

The devil lord behind the mist went silent for a moment. “You make people want to kill you!”

“Really? I don’t think so. I treasure my little life,” Wang Teng replied in confusion.

“F**k!” Phantasma Devil Lord felt that he couldn’t communicate with this fellow when he saw Wang Teng’s pretentious expression. He snorted and took the lead to walk into the passageway. He wanted to ignore Wang Teng.

“Seriously, why do you have to curse?” Wang Teng muttered. He looked at Biluo and continued, “Let’s go. There’s no time to waste.”

1

Biluo was speechless.

So you realized that you’re wasting time? You’re the one wasting the most time, you bastard!

Of course, she didn't say anything aloud. Based on Wang Teng's character, he might continue the conversation if she replied to him.

The others followed them hurriedly and explored the depth of the tunnel. They were more vigilant this time. They took each step with caution and carefully observed their surroundings.

This was a silver-white metallic passageway. It was five meters wide, and the walls were extremely smooth. There was no unnecessary structure. Dust piled on the ground. When they stepped on it, it would fly into the air.

This passageway wasn't long. It was approximately 40 meters in length, so they reached the end very soon. Nothing happened along the way.

However, when everyone stepped out of the passageway, rays of red light lit up in the dark, and shrill sounds of the air compressing were heard.

Swoosh!

Swoosh!

Swoosh!

The sounds were concentrated, and red rays of light cut through the air like lasers. Everyone was already on their guard. They reacted the instant they heard the sounds.

No one had taken off their battle armors. They didn't dare to relax. They wore their armors to prevent any other accidents from happening.

Argus and Kathu started moving. They clutched their weapons and charged toward the source of the sound.

Boom! Boom! Boom!

Airwaves crashed in this small space. Explosions sounded continuously.

Wang Teng felt a strong gust of wind behind him. He moved his thoughts and activated the constellation armor he had obtained from a dead planetary-stage alien candidate. Instantly, a red-blue battle armor appeared on his body, covering him from head to toe.

The battle armor was extremely fitting. There were no gaps anywhere, and he didn't feel any discomfort.

He only felt something cool pasted on his skin. It felt cozy.

This was a mass-produced battle armor. There was a phoenix carved on his left shoulder just like the other two alien candidates.

He turned around and released his fist.

Boom!

Powerful energy surged out and knocked the attacker away.

One of the alien candidates took out a luminous object and lit up the small space.

To their surprise, this was actually a huge room. Ice-cold metal mechanical bodies appeared around them. They stared at the invaders with their blood-red electronic eyes. Once they got knocked back, they would fly toward the invaders again.

“Metal robots!” Wang Teng frowned. He didn’t expect the ones stopping them to be robots.

The technology on Earth wasn’t advanced enough to create such powerful and agile robots. Yet, he saw them in this historical site that had been sealed for who-knew how many years. This was unbelievable.

Boom!

A metal robot charged toward Wang Teng again. Its arm changed and turned into a sharp metal blade. Force gathered on it, forming a blade glow as it struck Wang Teng.

The ground started shaking. The other robots dashed towards their target and launched their ultimate attacks.

“Metal robots!” Biluo locked her brows. She spoke quickly, “Be careful. These metal robots are hard to deal with. They’re inflexible and have no thoughts. All they do is obey the order given by the system. Their attacks are simple, but there’s one problem. The material used to create them is tough and sturdy. It’s difficult to break their bodies.”

With a sharp gaze, a blue sword appeared in Wang Teng’s hand. This was the sword he had snatched from the blue-haired young man.

Slash!

In the next second, his body disappeared as he shot toward the robot.

Boom!

A sword glow flashed and collided with the robot’s metallic sharp blade. Force shimmered around the weapons as they resisted and corroded each other.

Wang Teng’s expression didn’t change. He released a punch with his other hand. It was aimed at the robot’s head.

Boom!

The robot reacted quickly. It tilted its head and evaded Wang Teng’s attack.

However, Wang Teng was faster. He turned his wrist and changed his fist into a claw, stabbing his fingers right into the robot’s left eye.

Splat!

He pulled out the blood-red electronic eye immediately. Sparks flew everywhere.

Unexpectedly, even after receiving such damage, the robot continued moving normally. The other robotic arm turned into a black muzzle directed at Wang Teng’s head.

There were extremely close, so the muzzle was only inches away from its target.

“Damn it!” Wang Teng cursed uncontrollably. He noticed that Force glow was already gathering in the muzzle at a fast speed. A scorching heat exuded from within.

He lowered his head and evaded the aim of the muzzle without much thought.

Boom!

A beam of fire shot out. It flew past the battle armor on Wang Teng’s head with almost no space in between.

*F**K, I know how to shoot too!*

Infuriated, a rune gun appeared in Wang Teng’s hand. He pointed it up and pulled the trigger while aiming at the robot’s chin.

As Force gathered, the rune gun was charged within a split second.

A Force bullet formed from fire constellation Force shot out, leaving a trail of flames behind it.

Boom!

Half of the robot’s head was engulfed in flames. The robot paused for a moment in mid-air before crashing to the ground.

Chapter 842: We’re Adults. We Need To Be Considerate.

As the robot collapsed, Wang Teng turned to look at Biluo and blew the muzzle of his gun pretentiously. Then, he said, “What did you say just now? This robot is tough and sturdy?”

Biluo was fighting with another robot. She almost choked on her own breath when she heard Wang Teng’s words.

Boom!

The robot seized the chance and attacked furiously.

“Go away! I don’t want to see you!” She shouted as she hurriedly defended herself against the robot’s attacks. She didn’t even look at Wang Teng.

Wang Teng chuckled. He wondered if he was a little out of line here. She was fighting, but he still talked to her and distracted her. This wasn’t good.

“Cough, alright, I won’t disturb you. Please continue.” Wang Teng became a spectator. He squatted down and sized up the robot curiously.

The technology involved in making this robot was highly advanced. Although Wang Teng had destroyed it, he admitted that it was powerful. Look, the other people were having a hard time dealing with them.

One could only admit that Wang Teng was too powerful.

Yes, that was right.

“Well, I should bring this back to my country and let them study it. The technology on Earth might take a huge leap because of it,” Wang Teng touched his chin and mumbled.

He kept the robot in his space ring directly.

Then, he raised his head and glanced at the duels around him. There were many more robots compared to the human martial warriors and devil lords. He counted approximately 30 of them.

Many people were being attacked by two to three robots. Wang Teng was luckier since only one robot had charged at him.

He didn't plan to help them, though. He was perfectly happy watching them battle violently with the robots. He also took the chance to observe the robots' attacks.

Just like what Biluo said, the robots' attack pattern was simple. They either changed their arms into sharp blades or guns.

“There's nothing much to see. The robots are disappointing.” Wang Teng shook his head.

Swoosh!

At this moment, two laser beams shot out from one robot's eye.

The martial warrior opposite couldn't react in time. The armor in front of his eyes was penetrated by the laser, which then hit the martial warrior's head.

Bang!

The planetary-stage martial warrior slammed to the ground and died.

“Huh? They can shoot lasers out of their eyes?” Wang Teng was shocked. It looked like the eyes were a weak spot of this armor. It would get easily damaged by external forces. He wondered to himself.

Everyone was astounded when they saw this scene. They became vigilant of the robots' eyes.

Wang Teng released his spiritual power and picked up the attribute bubbles dropped by the planetary-stage martial warrior.

Constellation Force (Water)*1800

Imperial Realm Enlightenment*600

Imperial Realm Enlightenment*540

Tenth-Level Water Sword Conscious*400

...

Tenth-level water sword conscious! Wang Teng was elated. This was another tenth-level conscious. What a great gain for him.

Swoosh!

A sonic boom shot through the air.

Wang Teng raised his head and saw the robot who had killed that planetary-stage martial warrior dashing toward him.

“Be careful!” Biluo called out spontaneously. Her expression changed when she saw Wang Teng still squatting there.

“F**k, do you think I’m easy to bully!” Wang Teng frowned and scoffed.

This time, he had the experience of fighting with a robot and had been observing it for some time. He knew how the robots attacked. Getting rid of one was just a piece of cake.

In the next instant, a few rays of light flew out from his body and headed for the robot.

He used his spiritual power to control numerous flying daggers, targeting the robot’s weak points: joints, eyes, etc.

Wang Teng’s spirit had reached the Planetary Realm, so the flying daggers became even more powerful under his control. They moved as fast as lightning.

Boom!

The flying daggers crashed into the robot’s knee. It staggered and fell forward. However, its outer layer was extremely tough, so the flying daggers couldn’t penetrate it, even with Wang Teng’s spiritual power.

The quality of these flying daggers is not good enough! Wang Teng frowned and wondered to himself.

Boom!

Boom!

Along with two explosions, two of the flying daggers hit the robot’s eyes.

After seeing the laser attack, it only made sense for Wang Teng to destroy its eyes first in case the robot gave him a death glare.

Once its eyes were destroyed, the robot turned sluggish. It couldn’t lock onto Wang Teng’s position and started attacking frantically in all directions.

Boom, boom, boom!

The martial warriors around it were in trouble. The robot’s random attacks didn’t hit Wang Teng but them.

“Damn it!”

“Wang Teng!”

“Get rid of it quickly!”

...

The martial warriors bellowed in anger. Their resentment towards Wang Teng was extremely strong.

“Erm...” Wang Teng felt awkward. He shrunk his neck and complained to himself. *It's not my fault. The robot is the culprit.*

However, he didn't dawdle. He took a step out, appearing behind the robot instantly. He wanted to use his fist to smash the robot's head, but he remembered that he had to bring it back for research. So he kept his fist and twisted the robot's head by 180°.

Crack!

The robot froze on the spot. Then, it started jerking as if there was an error in its circuit.

Wang Teng kept it in his space ring. One robot was taken care of quickly.

The other people were stunned. They suddenly wondered if the robot attacking Wang Teng was of the same kind as the one they were fighting against.

Why did it seem so simple for him!

Argus, Kathu, and the five great stars were the first to realize the issue. They stopped using brute force and copied Wang Teng silently. Very soon, they destroyed the robots too.

Biluo dragged a robot over and threw it at Wang Teng. “This is for you! You seem interested in it.”

“Thank you.” Wang Teng kept it instantly.

“You don't even pretend to be polite,” Biluo complained.

“There's no need to be polite with someone you're close to,” Wang Teng said in an intimate tone.

“How am I close with you?” Biluo was speechless.

“I know you don't mean what you say.” Wang Teng shook his head.

Ignoring his reply, she asked, “Are you planning to study the robots?”

“I'm just going to dismantle them for fun.”

“You don't have to hide your plans.” Biluo rolled her eyes and continued, “Studying them will be a waste of time, manpower, and resources. Y'all might not be able to get results in the end. The technology on this planet is too backward. A better option will be to buy some technology patents from the Olant Federation directly to raise the level of your civilization first.”

“Sigh, you don't understand because you're not in our shoes. Earth doesn't have the money to buy patents from the Olant Federation. They must be expensive.”

“Well, not that much. Basic patents are easy to get. Earth's technology is too far behind, so you just need to get some basic ones. It won't cost much.”

“Is it cheap? Why don't you donate some?” Wang Teng's eyes lit up.

“In your dreams!” Biluo glared at him. This fellow was thinking too much.

Wang Teng noticed that the other people had gotten rid of their robots too, so he flew over quickly to recycle the 'trash.'

“Do you want this?”

“Do you want the robot?”

“Can you give me this robot?”

...

Wang Teng asked everyone he met. The alien martial warriors were arrogant and couldn't be bothered about the robots. They were lazy to reply to Wang Teng too, so they flew away directly.

Without minding it, Wang Teng kept the robots happily.

“Hey, do you want this robot?” Wang Teng came beside Kathu and asked. He was already planning to keep it.

“I'm sorry, I actually like this robot.” Kathu pressed the robot down and stared at him bitterly.

Wang Teng looked back at him. When their eyes met, sparks flew in the air.

“You can keep it then. I thought you didn't want it since you left it on the ground. You need to throw your own rubbish away. We're adults. We need to be considerate,” Wang Teng pulled his hand back and said seriously.

The edge of Kathu's eyes started trembling. He had cursed multiple times in his heart.

Wang Teng was shameless!

He had never seen someone as thick-skinned as him!

Kathu kept the robot with an angry snort. He moved away from Wang Teng and stood at the side. What he couldn't see wouldn't hurt him

Wang Teng turned and looked at Argus.

Argus immediately kept the robot. He didn't give Wang Teng a chance to speak.

“Tsk, keep it all you want. It's nothing,” Wang Teng murmured. He didn't stay on the issue.

After clearing up, everyone's gaze landed on the huge door in front.

Chapter 843: It's Best To Be Prudent!

It was an exquisite golden gate with peculiar carvings. They were not of any rare plants or animals and just seemed to be patterns.

No one paid much attention to it and came to the gate.

“There won't be any traps here, right?” Kathu frowned.

No one replied to him as they were unsure what would happen after they went past the gate.

A deep light flashed in Wang Teng's eyes as he used Eyes of Essence. He stared right through the golden gates.

At the beginning, the Eyes of Essence worked well. He could see through the internal structure of the golden gates, layer by layer. However, he soon realized that the gates had a strange quality. They actually had a hindering effect on the Eyes of Essence. The further he went, the more difficult it was to continue.

Just as he was about to see through the gates completely, a golden flash suddenly appeared and blinded him.

“Huh?” Wang Teng frowned. A hint of astonishment appeared in his heart.

His Eyes of Essence had been upgraded to the intermediate stage and could even see through the essence of spiritual contracts. But now, he couldn't look past the gates?

Was there something strange about them?

“Should I upgrade it?” Wang Teng was hesitant.

He had spent a full 10,000 blank attribute points upgrading the Eyes of Essence from the beginner stage to the intermediate stage previously. To take it to the next level, it would cost him ten times more... that was 100,000 points!

100,000 points!

Wang Teng's vision went dark, and he almost fainted.

He spent so long saving up more than 300,000 blank attributes. They were from the star beast riot and the battle in the Central Continent. He could only collect so many blank attributes when large numbers of star beasts died. Otherwise, he didn't know how he could save over 300,000 blank attributes.

And now, he was going to spend 100,000 points like this.

His heart was bleeding!

Wang Teng took a deep breath and finally decided to spend the blank attributes on the Eyes of Essence. There wouldn't be any gains without losses.

The more imperceptible the gates were, the more it meant that there was something special in them.

Spending 100,000 blank attributes was akin to buying insurance!

It was best to be prudent!

In an instant, 100,000 blank attribute points were cleared, and there was a change in Eyes of Essence. It had upgraded to the advanced stage.

Eyes of Essence: 1/1000 (advanced stage)

At this moment, Wang Teng was full of self-confidence. He felt that he had the eyes of a hawk!

A bright light flashed across his eyes, and he looked at the gates again.

Now, the gate seemed like tofu. His gaze penetrated it easily, and even the golden flash couldn't stop him.

It's the power of runes. Wang Teng got a surprise as he saw through the essence of the golden flash.

He could finally see the situation behind the gates.

It was actually a spacious command room surrounded by various instruments. However, they were all desolate. It had been years since they were last used.

The astonishing thing was, the command room was spotless and immaculate.

“Are these remains of a huge spacecraft?” Wang Teng almost scared himself with his own conjecture.

The remains covered the entire Central Continent. If it was a spacecraft, how huge would it be?

Wang Teng shook his head and continued to scan the command room. Suddenly, his pupils shrank abruptly.

What did he see?

There were people!

Wang Teng was bewildered. There were people behind the gates?

No, that's not right... He couldn't detect any life in them. They were already dead!

Wang Teng looked at the bodies and found no aura of life. All six bodies were dead.

These were corpses!

He finally heaved a sigh of relief.

The remains had been here for a long time. If there were still living beings inside, it would have been absurd!

Wang Teng finally had the mood to study the bodies after calming down.

He didn't know how long the bodies had been dead, but they maintained their appearance. Otherwise, Wang Teng wouldn't have mistaken them for living people.

Three of the corpses looked like regular humans, but they had different hair colors and were wearing damaged battle armor. There were several fatal scars, without any signs of decay at all. He could even see a trace of red blood.

As for the other three corpses, one was fully clad in scales and looked like a lizard. It even had a horn and a long tail covered in scales.

“Lizard?” Wang Teng was curious.

He had seen enough aliens, including one with tentacles like Hadock. A lizard wasn't something he couldn't accept.

Speaking of Hadock, Wang Teng was wondering where he and that fatty had gone.

When fighting against the dark apparitions, they lured a devil lord away and hadn't appeared since the continent collapsed.

Wang Teng wasn't worried about their safety. They were cunning and wouldn't die so easily.

The second corpse had a dark-blue body with snake-like skin. Its arms were like scythes and were flashing with a cold metallic light. It was leaning to its side, and its chest had collapsed in with three clear and large fist marks.

The last corpse was the most intact. He was sitting on the seat at the center of the command room, with his hands clasped under his chin. He was looking at the screen in front of him as if he was deep in thought.

And the appearance of the corpse was very peculiar. He was huge and was more than six meters tall. His muscles were bulging and seemed to be full of strength. He had a huge head, and there were several tentacle-like organs growing on his chin.

1

The most bizarre thing was that there was a vertical eye on his bald forehead!

Wang Teng inadvertently looked into the eye and felt a creepy feeling in his heart. He trembled all over, and his back was immediately soaked with cold sweat!

Frightening!

Extremely terrifying!

Wang Teng took a breath of cold air. He couldn't calm down for a long time. He actually felt an uncontrollable fear, which was unbelievable.

It was an overbearing pressure from a greater lifeform. No matter how strong his will was, there was no use.

"What level of power is this?" Wang Teng forced himself to calm down and averted his eyes quickly, muttering to himself.

It was really unimaginable that a corpse could exude such pressure. If he was alive, how horrifying would he be?

Chapter 844: A Million Years!

Wang Teng calmed down and observed the last corpse carefully.

"Huh? There are no wounds on this body. How did he die?"

After watching for some time, Wang Teng noticed something strange. He was puzzled. He activated his Eyes of Essence and looked at the body, hoping to find the reason for his death at the microscopic level.

He scanned the inside of the corpse but didn't discover anything. When he reached the neck, he hesitated.

He would have to face the eyes if he moved further up!

Wang Teng was in a dilemma. In the end, he gritted his teeth and moved up.

The pressure given off by this corpse was frightening, but it was still a corpse. He mustn't be a coward.

Boom!

When Wang Teng saw the vertical eye, his mind trembled. He felt an immense pressure dawning on him.

His face turned white, and large drops of cold sweat dripped down his forehead. Spiritual power tossed and turned involuntarily in his consciousness, churning as it tried to resist the pressure.

"Sigh!"

Wang Teng let out a huge sigh.

Fortunately, the Planetary Realm Spirit was powerful, so he was barely able to withstand the pressure.

This was only the residual pressure. If this formidable warrior released his entire force of presence on him when he was alive, Wang Teng wouldn't be able to resist it.

After blocking the pressure, Wang Teng finally had the time to observe the brain. He didn't expect to see a faint ball of soul glowing through his Eyes of Essence.

He was stunned.

His spirit hasn't disappeared completely! This was mind-boggling.

Biluo noticed Wang Teng's strange expression and asked, "What's the matter?"

Her voice pulled Wang Teng back to reality. He shook his head and replied, "I'm fine."

Biluo stared at him in confusion. She didn't believe him.

Wang Teng's face was white, and his forehead was filled with perspiration. He even gave a look of disbelief. How could he be alright?

But she couldn't probe further if he didn't want to speak.

"Be careful when you go in later," Wang Teng spoke to her using voice transmission.

Biluo's eyes shimmered. She stared at Wang Teng in surprise. He did know something.

"Crack!"

Wang Teng looked away and walked forward. He pushed the huge golden door open.

The thick and heavy door opened gradually under Wang Teng's huge strength...

Everyone was dumbfounded when they saw Wang Teng using brute force to open the door. They were still thinking about how to open it.

"So simple?" Kathu looked at Wang Teng and asked.

"What do you think?" Wang Teng threw the question back.

"F**K!" Kathu cursed instantly.

The others were speechless too. They felt stupid in front of Wang Teng.

Smart people liked to think too much, so this simple solution didn't occur to them. They kept lingering around the door, searching for a way to open it. They even took out the crystal skulls to see how they could help.

In the end, all it needed was a simple push. They felt as if someone gave them a tight slap on their faces. It hurt so much!

"Why are you standing there? Are you not entering?" Wang Teng turned to look at the crowd.

Silence.

No one replied to him. Argus, Kathu, and the others were staring at the command room with serious expressions.

As the door opened, a patch of bright light lit up the command room, illuminating the entire space.

They scanned the room and immediately noticed the six corpses. Their pupils narrowed, and their expressions turned terrified.

"Oh my god!"

"Six corpses!"

"Gasp... what a frightening gaze!"

"They're so scary! How powerful must they be when they were alive?"

...

There was a huge commotion. Someone noticed the intact corpse's eyes and gasped in fear like Wang Teng. His face turned pale, and there was only astonishment left in his heart.

None of the talents from outer space were able to escape from the impact of the corpse's pressure. All of them were staggered. Fear crept up to their hearts, and they started trembling.

Biluo's face was pale too. She turned to look at Wang Teng with bewilderment in her eyes.

Did this fellow know about the corpse already?

Wang Teng didn't notice her gaze, but his expression changed slightly.

A ray of light suddenly shot out of the single eye of the corpse. Then, the hologram of a figure appeared in mid-air.

The figure was exactly the same as the corpse!

Everyone was appalled. They instantly turned vigilant.

The figure glanced around him and suddenly sighed in a weather-beaten and distant voice.

"It has been a million years!"

The figure was speaking in the common universal language. Thus, Wang Teng and the alien candidates understood what he was saying.

Their mind went black for a second!

A million years!

What did that mean?

Was he saying that he had been around for a million years?

The alien martial warriors knew that indomitable martial warriors had extremely long lifespans, but they were still at a loss for words when they heard one million years.

A million years... What concept was that?

Their lifespan was a thousand years since they had reached the planetary stage, but currently, they were only around 30 years old. It was almost negligible when you compared it with the long and unimaginable million years.

To be able to have a lifespan of more than a million years, this figure must be an unbelievably powerful martial warrior.

Wang Teng tried his best to calm down, but no matter how much he controlled his emotions, they were still forming waves in his heart.

A million years!

How incredibly long was that! Was an indomitable martial warrior able to survive for so long?

At first, Wang Teng didn't have a clear grasp of the different powerful martial warriors in the universe. Now, he understood a bit better. The lifespan was enough to prove everything.

A normal person was said to have a long life if he lived for a hundred years. But eventually, he would still decompose into a part of the soil.

Since ancient times, our ancestors had been lamenting the passing of time. Time flew in the blink of an eye. It was impossible to grab it.

The emperors sought the path of longevity. Now, the rich and powerful searched for this path too. However, it was all in vain.

Only martial warriors were able to escape the normal route. As long as they continued to become stronger, they could experience a rise in their level of life and possess unimaginably long lifespans.

What a huge temptation this was!

Wang Teng felt that he couldn't resist it either.

The ability to live forever and freely was the ultimate aspiration for everyone.

Just when everyone was reeling in astonishment, the figure opened his mouth again. "Someone finally came before me after a million years."

Everyone regained their senses and looked at the figure again. They were on their guard, but they wanted to listen to what he had to say.

The figure sized up the martial warriors and nodded. "It looks like heaven treats me well. It sent a bunch of talented young people to me just before my soul dispersed."

There was too much information in this sentence. Everyone's eyes shimmered as they tried to guess what he meant.

"Let me introduce myself. I'm a baron from the Great Qian Empire..." the figure started introducing his background.

The instant he started speaking, he was interrupted by Argus's surprised exclamation.

"Great Qian Empire!"

Chapter 845: Senior, Do You Need Any Sidekicks?

All the alien candidates' expressions changed entirely. They were filled with shock and disbelief.

"Great Qian Empire!"

"Is it that Great Qian Empire?"

"Yes. There's only one Great Qian Empire in the vast universe." The figure smiled gently when he saw everyone's expression.

"How is that possible? A baron from the Great Qian Empire enjoys a noble and high status. Why will you come to this remote and underdeveloped planet?" Argus took a deep breath and asked. He still couldn't believe it.

"It's not impossible. A million years ago, I was ordered to chase an escaped convict. I pursued him through multiple galaxies for three hundred years and finally killed him on this planet. However, I suffered heavy injuries and couldn't leave. In the end, I died here," the figure spoke slowly. There was no emotion in his voice as if he wasn't talking about his death.

"Chased him through multiple galaxies!"

"Three hundred years!"

Everyone was dumbstruck at the figure's words. They could imagine how terrifying and intense this multi-galaxy battle was.

All the talents were mindblown. They couldn't find their voices for a long time.

The devil lords exchanged glances with one another at the side. They couldn't hide the bewilderment on their faces.

Even the powerful devil lords felt jittery in front of this indomitable presence. They felt a tinge of fear creeping up their hearts.

This figure was a formidable human martial warrior. Would he kill them when he saw them?

He might be just a floating soul in the air, but they didn't know if he possessed any incredible skills or methods.

"Erm, excuse me..." While everyone was lost in awe, a voice broke their chain of thoughts.

Everyone, including the figure, turned to look in the direction of the voice.

Wang Teng was raising his hand like a primary school student wanting to make a statement. His eyes were filled with the innocent desire for more knowledge.

Argus: ...

Kathu: ...

Biluo: ...

The devil lords: ...

The figure: ...

"I'm sorry. I want to ask what the Great Qian Empire is. You all seem really astounded," Wang Teng asked cautiously.

Silence.

An unnoticeable hint of frustration flashed past the figure's face.

So who did he put on a show for just now?

Fortunately, the others knew how powerful the Great Qian Empire was. If they didn't, he would have felt awkward.

Extremely awkward!

Loggins frowned and said with contempt, "An Earthling is indeed an Earthling. The Great Qian Empire is a dominant presence in the universe. How can you not know about it?"

Wang Teng glanced at him from the corner of his eyes. "Are you asking for a beating?"

"What!" Loggins glared at him.

Argus opened his mouth and interrupted them, explaining calmly, "The Great Qian Empire is one of the few oldest high-tier civilizations in the universe.

"Do you understand what a high-tier civilization means?"

"It rules countless galaxies, including a thousand middle-tier civilizations in the universe. A middle-tier civilization rules a few thousand galaxies and a few hundred low-tier civilizations.

"The Olant Federation is just a low-tier civilization. Yet, it controls the nine main galaxies. Every single galaxy has hundreds of thousands of life planets with different cultures and living beings on them.

“The Milky Way your planet is in is one of the nine main galaxies controlled by the Olant Federation. Earth is just one of the most inconspicuous planets among the few hundred thousands of life planets in the Milky Way.

“Now, do you know what the Great Qian Empire is?”

“Earth is worse than a speck of dust when compared to it!”

Argus’s voice was calm, but the disdain and contempt in it were apparent.

Calm and scornful!

Everyone’s gaze gathered on Wang Teng’s face. They were looking at him with ridicule and waiting for a good show.

Wang Teng’s question showed how stupid and ignorant he was.

This guy from an underdeveloped planet was an idiot!

Biluo glanced at Wang Teng worriedly. This piece of news might be a huge blow to a normal person. Their perspective of the world might shatter, and it could leave an indelible mark on his heart.

After all, his birth planet was insignificant in front of the Great Qian Empire.

Not talking about a normal person, even the alien candidates couldn’t accept it calmly.

They were fortunate to be born in the Olant Federation, so they had heard of this concept before. If they had received this piece of information suddenly, they might not be able to accept it either.

Argus’s intention wasn’t pure. He was using this opportunity to cast a shadow on Wang Teng’s mind and create an obstacle on his martial arts path.

Maintaining a fearless attitude was essential for a martial warrior, especially one who was striving to reach a higher level. If they suffered psychological trauma, even if it was just a small one, it would be amplified in the future when they progressed further and become their Achilles heel.

Argus was attacking his mind!

However, after a moment of astonishment, Biluo saw Wang Teng giving a small smile. The expression on his face reverted to normal.

It was a composed expression!

At this moment, composure meant confidence!

This fellow is able to regain his composure so quickly. He didn’t seem affected at all. It looks like I underestimated him. Biluo wondered to herself in surprise.

The other people noticed Wang Teng’s expression too. They were shocked and found it a pity.

Many alien candidates were fearful of Wang Teng’s talent. They were happy to use this chance to stimulate him. Unfortunately, he didn’t fulfill their wish.

“Wow, this Great Qian Empire is such a powerful presence!” Wang Teng suddenly exclaimed in surprise.

Silence.

Everyone was speechless. They found his performance a little exaggerated.

Fake!

Did he think that they were all stupid? Who would believe such a fake performance?

Wang Teng disregarded everyone's gaze and looked at the figure excitedly. "Senior, do you need a sidekick?"

"What does that mean?" the figure asked in confusion.

"Take me under your wings." Wang Teng rubbed his hands and sniggered.

Everyone was shocked by Wang Teng's shamelessness.

How could there be someone as shameless as him?

The figure glanced at Wang Teng helplessly. He had never seen someone with such thick skin. Coughing awkwardly, he replied, "I'm dead. I can't keep you under my wings."

"You're dead?" Wang Teng appeared astounded. "But you're still here."

"This is just an image I left behind. I left a legacy in hopes that my successor will appear one day," the figure explained.

Chapter 846: Boss, I'm Willing To. Please Bestow Me The Legacy!

"Successor?!"

Everyone was stunned when they heard the figure's words. Then, their gazes burned with excitement.

The successor of a baron from the Great Qian Empire!

What did this mean?

They didn't need to think to know the implications.

Although the baron was just the lowest title of nobility, the Great Qian Empire was a high-tier civilization. The baron of a high-tier civilization must at least be a cosmos-stage martial warrior.

The alien candidates knew what the cosmos stage meant.

Planetary stage, celestial stage, cosmos stage.

There was only one cosmos-stage martial warrior in one galaxy. They could rule over an entire galaxy.

For instance, there were nine galaxies in the Olant Federation, so there were nine cosmos stage martial warriors. Each of them guarded their galaxy and acted as a governor.

The figure in front of them was a baron from a high-tier civilization. His position was even higher than a cosmos-stage martial warrior from a low-tier civilization.

Hence, his legacy... must be incredible!

Wang Teng's eyes shimmered.

Honestly, he didn't understand the stages of the martial warriors in the universe, but from the expressions on the alien candidates' faces, he could guess how much weight this successor position held.

Also, based on their description of the high-tier civilization, it wasn't hard to imagine how high a baron's status was.

In summary, the bait given by this figure was extremely tempting.

At this moment, Biluo spoke to Wang Teng using voice transmission. She seemed afraid that he didn't understand what this baron position meant.

"Aren't you afraid that I'm a strong contender?" Wang Teng asked in surprise.

"He will choose between us. We will fight fairly," Biluo replied calmly.

"Arrogant lady." Wang Teng smiled in his heart.

"Who are you calling arrogant?" Biluo snorted.

Wang Teng chuckled.

"Are you choosing your successor among us?" Argus controlled his excitement and asked carefully.

"Yes. I've waited for a long time before I finally met talented youngsters like you. If I miss this chance, I don't know when I will be given another one." The figure nodded. "I scattered some Constellation Elixirs outside to attract martial warriors over. Did you all get it?"

Everyone turned to look at Wang Teng.

"Why are you guys looking at me? It's just a few Constellation Elixirs. You come from the universe. Why are you fighting with an Earthling over them?" Wang Teng raised his eyebrows and said with disdain.

Everyone glared at Wang Teng.

Just a few Constellation Elixirs?

That was a pile of it!

You make it sound so simple. Why don't you take them out and share them with everyone!

They might have wealthy backgrounds, but they hadn't reached the stage where they would look down on such a treasure!

"Huh? You got all the Constellation Elixirs?" the figure asked in astonishment.

"No, how is that possible? I left a few for them." Wang Teng shook his head hurriedly.

"Yes, it was just a few," Kathu said bitterly.

"I see. So you did snatch all of them." The figure was even more surprised. He sized up Wang Teng and asked, "You said that you're an Earthling, right?"

“Yes. Do you need a sidekick? My potential is not bad.” Wang Teng nodded.

The figure: ...

Can we end this topic!

He was too lazy to complain, so he changed the topic quickly. “It looks like the Earth gave birth to a rare talent.

“In the past million years, a few people managed to get into this room, but they weren’t talents. Hence, they couldn’t inherit my legacy.

“This planet is too underdeveloped. There are no gifted martial warriors here!”

The figure sighed. He seemed to be releasing his emotions after wasting a million years of his life.

The others looked at Wang Teng. *Look, even the big boss says that your planet is underdeveloped.*

Wang Teng’s expression didn’t change. He remained composed.

What do other people have to do with me?

What a joke!

I, Wang Teng, am a rare talent!

“I don’t have much time. Let’s go straight to the point. I have one question for you. Are you willing to accept my legacy test?” the figure turned serious and asked.

The alien candidates got excited. The gazes of the five great stars burned with enthusiasm as they nodded fervently.

“Yes!”

“We are!”

Wang Teng’s eyes lit up. He shouted along with them, “Boss, I’m willing to. Please bestow me the legacy!”

The formation was broken at once. His voice stood out among all the others.

Everyone glared at him furiously. This fellow loved to be in the limelight. Could he have some shame?

The figure nodded in satisfaction. He turned to the devil lords and said with a cold gaze. “My legacy is not for dark apparitions. Please leave.”

“Hmph, you’re just a dead person. You don’t have the right to decide if we can earn your legacy.” Phantasma Devil Lord scoffed with a sharp gaze.

The other devil lords stood behind him vigilantly.

They sounded fearless, but they weren’t sure if this dead formidable warrior had any powerful attacks hiding up his sleeve.

“Haha, even a devil lord dares to look down on me. I’ve been dead for too long.” The figure mocked himself.

Everyone felt the sorrow of his helplessness. This was a cosmos-stage formidable warrior, yet he was getting trampled upon after his death.

Just when everyone thought that he couldn’t do anything to the devil lords, the single eye on the corpse behind the figure released a glaring beam of golden light.

The devil lords’ expressions changed. Before they could react, they were enveloped by the golden brilliance.

Boom!

They felt their minds trembling violently. The spiritual power in their consciousness had no way of resisting the invasion. They collapsed instantly and fainted.

Bang! Bang! Bang...

The devil lords fell one by one. None of them escaped!

“Oh my god!” Everyone was terrified. They stared at the scene in disbelief.

“I might be dead, but I can still deal with you devil lords. What a waste of my remaining spirit,” the figure shook his head.

“Senior, you’re amazing! Long live senior!” Wang Teng shouted.

The figure: ...

Everyone: ...

They didn’t know how to express their speechlessness as they stared at the weirdo.

“Senior, are they dead?” Argus hesitated and asked.

“No, they’re just unconscious. However, they won’t be able to wake up for half a month,” the figure replied.

“What are we waiting for? Let’s kill them quickly. We mustn’t miss such a good chance.” Wang Teng was about to make his move.

“Don’t waste time. I wasted a bit of my sealed spiritual power, so I can’t last for long. Accept my legacy test first.” The figure seemed a little urgent.

Wang Teng stopped and turned to look at the figure. No one knew what he was thinking.

He smiled and said, “In that case, why don’t we take the test first?”

“How is this test going to proceed?” Kathu asked carefully.

No one dared to underestimate the figure anymore. The attack he used to knock the devil lords unconscious was enough to prove that they wouldn’t be able to resist him even though he was just left with a fragment of his soul.

“It’s simple. I’ll bring out the spiritual maze I created before I die. You just need to release your spirit and find the maze’s exit. If you find it, you will pass the test,” the figure said.

“Release our spirit!” Argus and the others hesitated.

“Don’t worry. If I want to do anything to you, do I have to beat around the bush?” The figure smiled. He knew what they were thinking.

Everyone was enlightened.

“Any more questions?” The figure asked. “If not, cross your legs and sit down. Release your spirit.”

The martial warriors stopped hesitating and sat cross-legged on the ground.

The figure nodded in satisfaction.

A golden glow shot out from the single eye on the corpse. It was many times thicker than before, covering the martial warriors completely.

In the next instant, everyone closed their eyes and sank into their consciousness. Suddenly, they appeared in a huge, magical maze.

At this moment, the figure gave a sinister smile and disappeared into the air.

Chapter 847: Spiritual Labyrinth

After a moment of weightlessness, Wang Teng realized that his feet were on the ground, and he was surrounded by stone walls that were over five meters tall.

The stone walls were covered with unknown vines and blooming gorgeous flowers...

It looked like a magnificent garden entrance!

However, Wang Teng knew that this was the labyrinth that the figure spoke of.

A labyrinth constructed by the spirit!

“Is this a cosmos-stage technique?” Wang Teng was a little surprised. There was a glint in his eyes. He yearned for such power.

He looked around and saw no signs of Biluo, Argus, and the others. It was clear that they were all separated.

It was within his expectations. There was no need to panic!

Wang Teng thought for a moment and flew up into the sky. He was planning to see if he could just fly to his final destination.

Unfortunately, no!

When he neared the top of the stone walls, he couldn’t ascend anymore.

That was also within his estimations.

However, Wang Teng was still disappointed. It seemed that there was no shortcut available.

He landed on the ground and walked towards the entrance of the labyrinth. A fork in the road then appeared in front of him.

There were three paths!

“Which one is better?” Wang Teng muttered. A coin suddenly appeared in his hand. In the spiritual world, he could do simple materialization. It was an ordinary spiritual power technique.

“Heads means right, tails means left. If it lands upright, it will be the middle!

“Alright, let’s do it this way!”

Wang Teng muttered to himself and tossed the coin into the air.

A crisp sound was heard!

The coin landed on his hand. It was standing right on the edge. It couldn’t be more stable!

“Very well, since you are as steady as I am, let’s walk in the middle.” Wang Teng nodded solemnly and slapped his right hand. The coin vanished, and he headed for the path in the middle.

Silence.

The individual monitoring the entire labyrinth was dismayed.

Was he seriously so hasty?

...

Simultaneously, the other alien candidates were also entering the labyrinth from the other entrances.

This was a great opportunity for them, so they would try their best to pass this assessment.

At a certain entrance, Argus rushed towards the labyrinth at an extreme speed, leaving behind afterimages of himself. When he encountered the fork, he didn’t hesitate and picked a path immediately without caring about whether it was right or wrong.

Without a doubt, he chose to clear the labyrinth with speed.

As long as he was fast enough, no matter how complicated the labyrinth was, he would be able to find the correct path among the countless wrong ones.

Kathu’s method was simple as well. When he encountered the fork, he didn’t hesitate either. All he did was bombard the stone wall in front of him with his fists as he tried to create a shortcut by destroying his obstacles.

However, things weren’t as simple as he thought. Normal attacks could not break through the stone walls that were constructed by spiritual power.

No matter how hard he hit them, the stone walls wouldn’t budge!

Kathu’s face was grim. He could only choose a path and find a way out.

Biluo was standing at another entrance. There was a thoughtful look in her eyes as she looked at the fork.

The labyrinth would have its clues or maybe some kind of law. As long as she knew what they were, it wouldn't be difficult to reach the end.

While thinking, she entered the labyrinth and tried to find a way forward...

Every alien candidate had their own method of clearing the labyrinth and moving towards the end.

Once sealed for many years, the labyrinth now welcomed its guests, like a sleeping behemoth that was slowly awakening.

...

After half an hour of walking around in the labyrinth, Wang Teng had to stop.

A stone wall blocked his path, and there was no road ahead for him.

He had hit a dead end.

Wang Teng frowned and pondered. He didn't plan to take a detour again. He condensed his spiritual power into several thorns, which floated in front of him.

Spirit Penetration!

Wang Teng had a clear idea. Since this was a spiritual labyrinth, the most effective method would be using spiritual attacks.

Fortunately, Wang Teng had one up his sleeves!

"Go!" In the next moment, Wang Teng's eyes flashed as he added some sound effects.

Swoosh!

Swoosh!

Swoosh!

The thorns turned into cold lights and shot out.

Boom!

Along with an explosion, a hole was blasted in the stone wall. A path appeared for Wang Teng.

"I'm so smart. I actually thought of a perfect solution!" Wang Teng smiled and gave himself a pat on the back.

Huh?

Just as he was about to pass through the big hole and head deeper into the labyrinth, several attribute bubbles caught his attention.

"There are attribute bubbles!" Wang Teng was surprised and overjoyed. This was not what he had expected.

Pick them all!

Planetary Realm Spirit*120

Planetary Realm Spirit*100

Spiritual Labyrinth Fragments*10

...

As the three attribute bubbles entered his body, Wang Teng's eye flashed with joy.

220 points of spirit attributes!

And these were Planetary Realm Spirit attributes!

As expected of a spiritual labyrinth constructed by a cosmos-stage warrior, there were Planetary Realm Spirit attributes.

Wang Teng didn't expect to have such a harvest.

Of course, the last attribute bubble was the one that made him the happiest... Spiritual Labyrinth Fragments!

When the attribute bubble merged into his mind, Wang Teng understood how to construct the spiritual labyrinth a little.

This was an extremely rare spirit technique!

Feeling the enlightenment in his mind, Wang Teng took a deep breath and looked around him. There was a flame in his eyes.

This labyrinth must be destroyed!

If it was not destroyed, there wouldn't be any attribute bubbles!

Wang Teng was eager to try, but his face suddenly darkened, and he sighed. He thought of something.

It was impossible to destroy it completely. That figure wouldn't allow him to do so.

Based on his calculations, the entire labyrinth was probably under his control. If he went too far, the figure would definitely get him.

After pondering for a moment, Wang Teng smiled again. He didn't tarry any longer and continued walking in front.

Several spikes appeared in front of him again.

Boom!

This time, he didn't wait for a dead end to appear. He aimed directly at the center of the maze and drilled in that direction.

Planetary Realm Spirit*80

Spiritual Labyrinth Fragments*10

A big hole appeared, and Wang Teng walked toward the heart of the labyrinth while picking up the attribute bubbles.

...

At the same time, a figure was sitting leisurely on a reclining chair at the heart of the labyrinth and watching the progress of the alien candidates.

When he saw what was happening over at Wang Teng's side, he jumped out of his chair, and his eyes almost popped out of his sockets, "Damn, this kid can actually destroy the spiritual labyrinth!"

Chapter 848: Wang Teng, I Hate You...

The baron from the Great Qian Empire felt unhappy, very unhappy.

The spiritual labyrinth was his way of testing this bunch of talents and weakening their spiritual power. Anyone who wanted to reach the end of the labyrinth would have to exhaust a large amount of their spiritual power. This was his real aim.

Yet, Wang Teng destroyed the labyrinth and took the shortcut.

He was cheating!

However, he also realized that Wang Teng best matched his requirements. His spiritual power was powerful enough, and he hadn't reached his 20th birthday. He was still very young.

He seemed to be the perfect candidate sent from heaven.

Squinting slightly, he muttered to himself, "I mustn't let him reach here easily. Let's give him more trouble!"

The labyrinth started changing silently.

The stone walls on the original dead ends moved. They turned into opened paths while the opened paths became dead ends.

Some unconnected roads got linked up.

Based on the figure's arrangement, Argus, Kathu, Loggins, and many other people's path overlapped with the paths Wang Teng had to pass.

That meant that they would definitely meet!

Wang Teng didn't know what was happening. He was still immersed in his attributes picking work. He destroyed the labyrinth wherever he went and turned everything into ruins.

Boom!

Boom!

Boom!

...

This labyrinth wasn't soundproof. When he destroyed the stone walls, the noise echoed in the air and landed in the ears of the people who were getting closer to him.

"What is going on?"

"Who's bombing the labyrinth?"

"Idiot, this labyrinth can't be destroyed using brute force."

...

Everyone was appalled. They turned in the direction of the sound as they guessed which idiot was smashing the labyrinth.

After pausing for a second, they continued dashing towards the center of the labyrinth.

The voice sounded close. This meant that the other martial warrior was just nearby. They didn't dare to waste any time in case someone beat them to the draw.

Only one person didn't move. This person felt that the explosion was extremely close. It was just a wall away.

He stopped in his tracks and turned around, staring intently at the stone wall behind him.

Boom!

The next instant, the loud bang was heard again. It couldn't be any nearer.

The stone wall collapsed violently, and a figure strolled out amid the dust.

"Hey, it seems like I can't avoid my enemy." A cynical voice rang in the air.

"Wang Teng!" Loggins squinted. He said each word with great emphasis.

He recognized the voice. At the same time, he was astounded that this fellow was able to destroy the walls of this labyrinth. He couldn't maintain his composure.

"Don't be nervous. I'm not going to eat you." The dust dispersed, and Wang Teng's figure appeared before him. There was a faint smile on his face.

"Don't put on an act. Since we met, we should have a duel," Loggins said with a cold expression.

"You're straightforward!" Wang Teng nodded. He hooked his fingers and continued, "Come, I have an advantage in this place, so you can make three moves first."

"You're tempting fate!" Loggins felt humiliated. Anger burned in his heart as he stomped his feet on the ground.

Boom!

He dashed towards Wang Teng, leaving a trail of shadows behind. There were no weapons here, so they could only attack in the most basic manner.

He released his fist ferociously and hurled it at Wang Teng's head.

Wang Teng seemed relaxed. Tilting his head, he evaded the attack and counted calmly, "One."

Loggins was fuming. He turned his body and swept his leg at Wang Teng's head. No one could use their Force attacks in this spiritual labyrinth, but they knew the basic fighting skills. As a talented martial warrior, Loggins was skilled in this area too.

His attack was violent and fast.

Unfortunately, his opponent was Wang Teng, whose basic combat skills were all at the peak level. He could evade Loggins's attack without any effort.

"Two!" Wang Teng counted again.

"Bastard!" Loggins's face turned as black as an ink bottle. He wanted to catch Wang Teng off guard, so he flung his head towards Wang Teng's head when he attacked.

Wang Teng moved his body and disappeared on the spot.

Loggins's attack failed again.

"Three!" Wang Teng suddenly appeared behind Loggins and said calmly, "You have a hard head."

Loggins's expression changed, and he panicked. He took a step forward without much thought and spurted out.

A gust of strong wind followed him, striking him at the speed of lightning.

Bang!

A dull thud was heard. Loggins felt a sharp pain on the back of his head, sending him into a daze. He stumbled and almost fell flat on the ground.

What was that?

Why was it so hard?

Numerous questions popped into his mind. He could tell distinctively that it wasn't a fist. It felt like a huge metal brick.

Before he could think further, another gust of wind struck him.

Bang!

Loggins didn't have any time to react. The object smashed the back of his head again.

Boom!

This time, he couldn't withstand it and collapsed to the ground.

"Don't you have a tough head? Why are you collapsing after just two blows?" Wang Teng's calm voice entered his ears.

Loggins turned hurriedly and saw a golden brick in Wang Teng's hand. He was shocked. "You..."

“What about me?” Wang Teng played with the brick in his hand with a smile. “Are you surprised? How’s the hardness of my brick? Is it harder than your head?”

“Why do you have a weapon?” Loggins asked in disbelief.

“Oh, I took one from the wall.” Wang Teng came up with a random excuse.

Silence.

From the wall?!

Do you think I’m stupid?

Loggins almost went mad. His expression turned ugly, and he said, “You’re cheating. You won’t be able to prove that you’re stronger than me even if you win!”

“Idiot, who cares?” Wang Teng rolled his eyes, deciding not to waste any more time. He raised the brick and brought it down on Loggins’s head.

Loggins’s pupils constricted. He kept retreating to dodge the brick, but it was all in vain.

Bang! Bang! Bang...

The emotionless brick landed on Loggins’s head several times.

Damn it!

Where did he get the courage from?

Loggins was infuriated, but this emotion was soon overpowered by the pain in his head. He started screaming uncontrollably.

“Ah!”

Bang, bang, bang...

“Stop! Stop!”

Bang, bang, bang...

“Bastard, you shouldn’t hit a person’s face!”

Bang, bang, bang...

“Stop hitting!”

Bang, bang, bang...

“Ah, Wang Teng, I hate you...”

Bang, bang, bang...

After some time, Loggins’s voice died down. He wasn’t able to scream anymore.

"I'm getting out of practice since I haven't been using this brick lately. Not bad, I can practice it on you," Wang Teng said slowly. He finally stopped and let out a long sigh.

Loggins hadn't fainted yet. He felt like vomiting blood out of frustration. This brat was using him as practice.

Wang Teng stared at Loggins's badly bruised face and touched his chin. He said guiltily, "Look, why do you have to use your head when fighting with me? You got me excited. I wanted to know which one is harder, the brick or your head. You can't blame me. It's your fault."

"Pfft!" Loggins spat out a mouth of blood as boiled in anger.

*F**k, you beat me up badly only to tell me that it's my fault?*

This devil!

Loggins detested Wang Teng, but at the same time, fear crept into his heart involuntarily. He finally understood that the bastard in front of him never went by the book! Any reason was a valid reason for him to attack.

He felt regret!

Why did he provoke this fellow in the past!

Why did he have to step out first? No one else did!

He also regretted using his head!

His head wouldn't have been beaten up so badly otherwise!

Tears of regret flowed down Loggins's face.

The top talent from the Uros Galaxy cried after getting beaten up by Wang Teng. No one might believe this news if they heard it.

"Hey, why are you crying so easily? You're acting like a lady." Wang Teng felt speechless when he saw the tear at the edge of Loggins's eye.

Loggins couldn't speak, but his heart's exasperation flowed endlessly like the water in a river. He couldn't beat him in a fight or contest of words, so he decided to close his eyes and pretend to be dead.

"Alright, I shall send you out." Wang Teng shook his head and raised his feet. Before Loggins could react, he had already smashed his head.

Loggins's spirit dissipated gradually.

As a universe talent, his head was crushed by Wang Teng's single step.

In the final moments, Loggins felt extremely humiliated.

Killing the spirit might not kill the person directly, but it would still cause great damage to the physical body.

Loggins' main body would be unconscious after suffering such a heavy blow. He wouldn't be able to wake up anytime soon.

At the same time, he had failed the assessment.

Wang Teng remained indifferent. He continued moving forward.

...

The baron at the center of the labyrinth was astounded. "He killed one of them. As expected of the person I chose. It's rare that such a talent got born on Earth."

Then, he sighed. "If he had appeared earlier, I wouldn't have been stuck here for a million years!

"Fortunately, heaven treats me well. They gave me hope when I'm almost at the end of my life. This is the silver lining.

"However, this fellow is a little strange. What an odd way to kill his talented opponent. I have never seen anyone like him in the universe for as long as I've lived."

The figure shook his head. He was caught between laughter and tears. Rocking his chair, he looked at the screen lightheartedly.

"This fellow isn't easy to deal with. My current state is too weak. Alright, let's release the souls of the star beasts. Let it be a waste if it must be."

The figure waved his hand and numerous star beast souls appeared in the labyrinth. They darted in Wang Teng's direction.

Chapter 849: Soul of Star Beast!

If anyone looked at the labyrinth from a bird's eye view, they would see a complicated and magical maze situated in a space shrouded in mist.

There was a faint golden mist hovering around the labyrinth, making it look like a heavenly palace. Only the people inside knew how dangerous this labyrinth was.

Half a day had passed since they entered the labyrinth. They could already feel the tiredness on the spiritual level.

Finding a way out of the labyrinth exhausted much of their spiritual power. Moreover, other life forms had appeared in the labyrinth. No one knew when they came.

They were powerful star beasts that attacked them ruthlessly the instant they met them.

In the spiritual labyrinth, no one could use their Force, so there was a lack of battle techniques they could use. They realized that they were in an extremely dangerous position when they faced the star beasts. One mistake and they would be brutally mutilated to death.

These star beasts were different. They possessed attacking skills. However, they didn't use Force attacks either. It was a pure light sphere attack.

These light spheres would explode when they got near and cause serious injuries to the martial warriors' spirit.

It was a spiritual attack!

The labyrinth suddenly became even more dangerous. Everyone shuttled back and forth frantically as they rushed towards the center.

The star beasts must be part of the assessment too. Once they reached the end of the labyrinth, they could escape from these star beasts.

Boom!

A loud explosion suddenly rang through the labyrinth.

A gigantic beast that looked like a lizard pasted itself on the stone wall as it spurted a light sphere out of its mouth.

Wang Teng's expression turned grim. He moved his body like a cat and dodged the light sphere. It crashed into the ground and exploded. A powerful spiritual impact swept through the path.

Wang Teng felt the strength of the explosion and understood the power of the attack. A sharp gaze flashed across his eyes, and his lips lifted at a sinister angle. He stared at the lizard star beast.

The lizard shuddered for some reason. It felt a chill running through its body.

"Little lizard, it's my turn now!" Wang Teng smirked and stepped on the ground, which cracked as he shot out like an arrow leaving the bow.

The lizard wasn't afraid. It hissed and leaped up from the stone wall, pouncing on Wang Teng.

Boom!

Wang Teng punched forward. His spirit was much more powerful than the other alien martial warriors.

Contempt appeared in the lizard's eyes. It seemed to be mocking Wang Teng for overestimating his strength. It opened its wide mouth and wanted to bite him.

In terms of size, it was many times bigger than Wang Teng. It would be able to munch him into two with its mouth.

But when it closed its maw, there was nothing inside.

Wang Teng had disappeared without a trace directly in front of it!

The lizard was stunned. It widened its eyes in confusion and glanced around it.

What did it bite just now?

"I'm here." Wang Teng's voice came from above it.

The lizard looked up, and its pupils constricted. Countless sharp spikes were reflected in its pupils. It started to feel a little frightened.

Boom!

Wang Teng waved his hand. His spiritual power turned into sharp beams and rained down.

Spirit Penetration!

Swoosh! Swoosh! Swoosh!

Boom!

Multiple spiritual spikes pierced through the lizard's gigantic body, pinning it firmly on the ground.

The lizard roared in pain. It struggled frantically, but it soon started to lose its vitality.

A few moments later, its body turned into countless dots of light and dispersed in the air.

"As expected, it's a soul!" Wang Teng landed on the ground. His gaze was sharp.

This lizard reminded him of the holy knight called Margus from Mount Saint. There were similar souls in his death space.

However, this lizard star beast was stronger than those souls. If Wang Teng didn't possess spiritual skills, he wouldn't be able to kill this star beast easily.

Earlier, Wang Teng had executed the Spiritual Illusion skill and created an illusion of himself to fool the lizard. This was how he was able to catch it off guard.

Wang Teng looked at the area where the lizard disappeared. There were a few attribute bubbles floating there.

Origin Of Soul*50

Planetary Realm Spirit*100

Spiritual Missile*10

...

Three attribute bubbles merged into Wang Teng's body. He was stunned for a moment before happiness overtook him.

50 points of Origin Of Soul!

The lizard had dropped 50 points of Origin Of Soul!

He knew how difficult it was to drop the Origin Of Soul attribute. This was the energy stored in the depth of one's soul. It was extremely precious!

50 points of Origin Of Soul merged into Wang Teng's Origin Of Soul. It felt so comfortable that he almost moaned.

The tremble came from his very soul... It felt incredible!

His spirit and enlightenment attributes rose slightly too.

There were 100 points of Planetary Realm Spirit attributes too. It caused a rise in his spirit attribute.

Two consecutive increases. Amazing!

Lastly, there was a spiritual skill... Spiritual Missile!

This was the light sphere the lizard used a moment ago. It was a powerful move.

Most importantly, it could cover a wide range. Once it exploded, anything within a certain area would be affected.

Perfect!

10 points of Spiritual Missile!

Wang Teng looked at his attributes panel. A new line had appeared in the spiritual techniques portion.

Spiritual Missile: 1/100 (well-versed)

10 points of Spiritual Missile were enough for him to advance from the foundation to the well-versed stage.

Wang Teng's eyes shone brightly. At first, he felt that he was a little unlucky to meet the lizard, but now, he realized that his luck was not bad.

He received a rare spiritual battle technique so easily without spending a single cent. Others couldn't experience this amazing feeling.

"There must be other star beast souls. Let me find all of them and kill them!" Wang Teng's eyes lit up. He moved his feet and started running.

The stone wall in front collapsed as Wang Teng rushed out. He pushed forward with brute force all the way until the end.

Very soon, he saw another star beast soul.

This was a hideous dog with two heads. Before Wang Teng came, it was staring at another alien martial warrior.

The alien martial warrior was in a poor state. His forehead was covered with cold sweat, and his clothes were a mess. He must have suffered greatly because of this double-headed dog.

When Wang Teng appeared, both parties turned and looked at him.

The alien martial warrior was elated. It ran towards him while the double-headed dog was focused on Wang Teng.

The instant the alien martial warrior moved, the double-headed dog started charging toward Wang Teng too. Both of its heads barked simultaneously.

Chapter 850: You're More Like A Beast Than I Am!

One man and one beast.

One in front and one at the back.

Both rushed towards Wang Teng.

A cold glint flashed in his eyes. It was laughable how the alien candidate wanted Wang Teng to contribute his strength.

“Wang Teng, this double-headed star beast is very strong. Quick, help me, or we’ll both be eliminated.”
The alien candidate sped over.

“How strong?” Wang Teng stood still and asked.

The alien candidate was stunned and confused for a moment.

Why are you asking me that question when I’ve already told you it’s very strong!

There must be something wrong with his brain!

However, he still replied quickly, “Very strong. Even if we team up, we might not be able to beat it!”

“If that’s the case, I’ll retreat. Bye!” Wang Teng turned and ran, leaving him behind.

“...What!” The alien candidate was stunned again.

Director, this script isn’t right!

He went crazy the moment Wang Teng ran away.

Just at that moment, a couple of barks sounded behind him, and a foul wind swept over.

“Damn it!” The alien candidate didn’t think much and rolled to the left to avoid getting bitten.

Crack!

Crack!

Two crisp sounds could be heard when the double-headed dog closed its mouth.

Its gaze turned even more ferocious when it missed. It stopped in its tracks and twisted its body. It kicked its hind legs, pouncing toward the alien candidate from a height.

The alien candidate couldn’t care more about his status. He continued rolling around on the ground to avoid the star beast. There was no way better than this.

He felt helpless and aggrieved. He was cursing Wang Teng in his heart.

But it was all in vain!

Woof!

The double-headed dog barked. It was too agile and fast. Even though the alien candidate was rolling and dodging, he was clearly in its grasp.

The two heads attacked at the same time and caught the alien candidate's arms with their fangs!

Ah!

The alien candidate screamed in pain!

Hiss!

His arm was bitten off immediately. However, there was no blood. His arm just turned into light rays and dissipated in the air.

The other head of the dog then bit the alien candidate's thigh and yanked again.

Hiss!

In the midst of all the screaming, the thigh was tossed into the air and was swallowed by the double-headed dog.

"Howl!" The double-headed dog raised its heads high and let out a contented and satisfied howl.

Having lost an arm and a leg, the alien candidate lay on the ground. He was on the verge of death and had completely given up.

"Damn, how miserable!" A voice sounded amid his despair.

The alien candidate turned and looked up and saw Wang Teng squatting there. He was looking at him with sympathy.

"You!" The alien candidate's eyes widened. He was about to burst into anger!

Didn't this bastard run away? Why is he still here?

"I'm sorry. While I was escaping, I suddenly felt that it was not very nice to leave you alone. That's why I came back. But I didn't think you would be defeated so quickly. This puppy has really taken care of you," Wang Teng scratched his head and said.

"Pfft!" The alien candidate wanted to vomit blood.

Look at what he was saying.

Defeated so quickly!

You can try it yourself, bastard!

The double-headed dog noticed Wang Teng and turned its heads to look at him. It grunted and exposed its fangs, looking ferocious.

"Wow, what a fierce puppy!" Wang Teng patted his chest and took a few steps back.

Bark!

The double-headed dog was an intelligent star beast. When it heard Wang Teng calling it a puppy, it felt offended. It barked and threw down the alien candidate before it bolted towards Wang Teng.

“Woah, so fierce. I’m so scared!” Wang Teng jumped back, but he didn’t dodge. He stared at the double-headed dog as it charged over.

The double-headed dog opened its enormous mouths and bit Wang Teng.

Bang!

It missed, only managing to bite the air. Wang Teng’s body had disappeared.

The double-headed dog was confused. It glanced around, trying to search for any signs of Wang Teng. Suddenly, it felt something heavy on its body. The human’s voice floated into its ear. “Not bad, little puppy. Your broad shoulders are comfortable. You can be a mount!”

Woof!

The double-headed dog was outraged. It swung its body violently as if trying to throw Wang Teng down.

“Don’t be nervous. Let’s have some fun first.” Wang Teng sniggered.

The double-headed dog ignored him and continued swinging its body. Its heads twisted at an exaggerated angle as it tried to tear at Wang Teng.

“Haha, you can’t bite me!” Wang Teng leaned back and dodged the double-headed dog’s mouths.

The alien martial warrior was stunned.

Was it this simple to deal with the double-headed dog?

He didn’t dare to believe his eyes. It felt unreal.

Wang Teng didn’t do much. He just sat on the shoulders of the dog and the beast couldn’t do anything to him.

He should have done it if he knew how effective this method was!

“Alright, stop spinning. I’m getting dizzy,” Wang Teng said after some time.

The double-headed dog bellowed. It wanted to bite Wang Teng to death, so it didn’t listen to him.

“Looks like I have to do it the hard way.” Wang Teng sighed. A golden brick appeared in his hand. He didn’t waste any time and slammed it on the double-headed dog’s heads.

His hand speed was amazing!

Bang, bang, bang...

The double-headed dog’s mind went blank from the beating. Its heads throbbed violently, and it could see stars in all its four eyes.

“How can you be so fierce as a little puppy?” Wang Teng mumbled as he hurled the brick down ruthlessly. He seemed extremely skilled at it.

“Woof, woof...” The double-headed dog yelped in pain. Anyone who heard its cries would tear up.

Bang, bang, bang...

However, Wang Teng showed no signs of stopping. He continued smashing until its heads swelled up like balloons.

“Are you going to listen to me?” Wang Teng asked

“Howl~” The double-headed dog lay on the ground and growled weakly.

“What? You’re not going to?”

Bang, bang, bang...

“Are you going to listen?”

“Howl~” The double-headed dog groaned in a low and flatter tone. It didn’t dare to resist anymore.

“I didn’t know a little puppy like you could be so stubborn.” Wang Teng sighed and shook his head.

Bang, bang, bang...

The double-headed dog: o(π_π)o

It cried because it felt misunderstood. Burying its two heads on the ground, it wailed pitifully. Then, it used its claw and carved a huge word on the ground: Yes!

“Huh? You can write?” Wang Teng stopped and exclaimed in surprise. “You could have done it sooner. I wouldn’t have beaten you up so badly. My hands feel sore too.”

The double-headed dog: ...

You’re more like a beast than I am!
