

## **Martial Arts 861**

### **Chapter 861: QY-E63 Spacecraft!**

In the command room, Wang Teng and Round Ball chatted for a while before looking at the corpses of the two Saint Star Pagoda instructors. As they died, ten attribute bubbles emerged from their bodies.

Wang Teng's eyes flashed, and he picked them up straight away.

Constellation Force (Earth)\*21500

Emperor-Level Earth Talent\*260

Planetary Realm Spirit\*850

Planetary Realm Enlightenment\*885

Dark Origin\*100

Constellation Force (Fire)\*25600

Emperor-Level Fire Talent\*320

Planetary Realm Spirit\*1200

Planetary Realm Enlightenment\*1080

Sun Blaze\*220

...

Wang Teng was overjoyed when the attribute bubbles merged into his body and mind. There were more than 20,000 points of constellation earth Force and constellation fire Force.

In an instant, the pure and abundant constellation Force circulated in his body, merging into the constellation Force in the sea of nihility.

**Boom!**

The sea of nihility shook as his fire and earth Force underwent a transformation, and another constellation was gradually formed. It slowly emerged like it was undergoing cell division. In the end, two more constellations appeared in the sea of nihility, one fire constellation and one earth constellation.

Now, there were seven constellations!

Planetary Stage level two!

Moreover, the fire and earth Force had reached level two of the planetary stage!

Constellation Fire Force: 14500/20000 (planetary stage second level)

Constellation Earth Force: 13600/20000 (planetary stage second level)

It wasn't just that. With the changes, the two Forces were only a few thousand points away from the next level.

Wang Teng took a deep breath and continued looking at the other changes to his attributes.

This time, he managed to obtain 2050 Planetary Realm Spirit and 1965 Planetary Realm Enlightenment attribute points, greatly enhancing his spirit and enlightenment.

Previously when he was in the spiritual labyrinth, he had improved his spirit. Now, he was very close to hitting the celestial realm.

Enlightenment: 8715/10000 (Planetary Realm)

Spirit: 9600/10000 (Planetary Realm)

Wang Teng couldn't believe himself when he saw the changes. He had just reached the planetary realm not too long ago and was already this close to the celestial realm.

Celestial realm spirit!

Only cosmos-stage martial warriors could ever reach that stage, and Wang Teng was only a few hundred attribute points away.

However, he knew that such an opportunity was rare to come by.

A spiritual labyrinth that a cosmos-stage martial warrior left behind and the deaths of two celestial-stage martial warriors were not common encounters.

Wang Teng quickly calmed himself down. Otherwise, he might not have another chance to do so.

Next, he looked at the two scriptures!

Celestial-stage middle-rank scripture—Dark Origin!

Celestial-stage advanced-rank scripture—Sun Blaze!

Both were celestial stage scriptures!

At this time, a memory formed in his mind and enlightened Wang Teng.

This was an unexpected surprise. Although Nangong Yue had left behind many celestial-stage scriptures, no one would ignore these advanced-rank scriptures.

Now, Wang Teng knew that in the universe, inheritance was extremely important. Most people couldn't afford celestial-stage scriptures, which meant that their cultivation speed would be very slow.

Even if Wang Teng didn't use the scriptures and sold them, he would be able to make a huge windfall.

What he didn't know was that the two scriptures were actually secrets from the Saint Star Pagoda. Only celestial-stage instructors and some disciples would be eligible to obtain them. Moreover, once they got them, they were not allowed to share them with other people. Otherwise, they would be disciplined severely by the Saint Star Pagoda.

They would be stripped of their abilities and cultivation or even killed.

However, Wang Teng didn't care about any of these. He already had a feud with the Saint Star Pagoda. This wouldn't matter much.

Wang Teng only spent a short time picking up the attribute bubbles. He then looked at the two corpses and sighed. Two celestial-stage martial warriors were lying there motionless. It was heartbreaking.

However, Wang Teng didn't sympathize with them. If he didn't do that, things wouldn't have gone so smoothly. Once their talk went sideways, they would have killed him immediately and seized the inheritance.

Wang Teng had always assumed the worst of people. He was not a saint and was even a little selfish. He was just an ordinary person. If someone crossed the line, he wouldn't mind being ruthless.

If they were greedy, they shouldn't blame him for being ruthless!

Since the martial arts era, martial warriors had been fighting for resources in order to improve their abilities. They were not as friendly as they appeared to be.

Wang Teng had seen many of these things and was not surprised.

However, he was a bit conflicted on how to handle this situation now. Two celestial-stage martial warriors were now dead on Earth, and they were even from the Saint Star Pagoda. They were not just some ordinary folks that no one cared about.

Wang Teng was certain that their deaths would attract other warriors from the Saint Star Pagoda.

"Are you worried that the Saint Star Pagoda will avenge them?" Round Ball seemed to know what he was thinking and probed.

"Do you have any ideas?" asked Wang Teng.

"If you go to the Great Qian Empire and successfully inherit the title of baron, Saint Star Pagoda wouldn't be able to do anything about it even if two of their celestial-stage martial warriors were killed," Round Ball suggested.

"You might as well have kept quiet." Wang Teng rolled his eyes.

"If you go to the Great Qian Empire as the inheritor of Nangong, at the very least, they won't be able to do anything to you on the surface. They can only resort to assassinations, traps, or shady things like that." Round Ball stroked its bare chin.

Wang Teng was speechless. "You make it sound so easy. I almost thought that this was a play."

"Hehe, it depends on whether you are afraid," Round Ball replied.

"Why do I feel that you really want me to go back to Great Qian Empire to inherit the title?" Wang Teng was curious.

"Cough, that's not it. I'm just giving you suggestions. The decision is yours to make," Round Ball said again like it had nothing to do with it.

"Let me think about it again." Wang Teng shook his head.

“Yes.” Round Ball nodded and didn’t say anything else.

“Oh right, how long will it take for me to go to the Great Qian Empire?” Wang Teng suddenly thought of something and asked.

“If we use the QY-E63 spacecraft that was left behind, we can reach the capital planet of Great Qian Empire in 36 days.” A light flashed across Round Ball’s eyes.

“QY-E63 spacecraft?”

“Hehe, we’re already in the QY-E63 spacecraft.”

### **Chapter 862: Large-Sized Luxury Product!**

“Are you telling me that this entire historical site is the QY-E63 spacecraft?” Wang Teng was astounded.

“No, only the center part is the spacecraft.” Round Ball shook its head. “Our spacecraft has been on Earth for many years. To ensure that it has enough energy supply, I sent it into hibernation. I also asked the previous human civilization on this planet to build a civilization around it to provide the spacecraft with endless energy so that it can set sail again one day.”

“The entire historical site is an energy absorption device.” Wang Teng was in awe. He couldn’t speak for some time.

The previous human civilization!

And this entire historical site was an energy absorption device!

Did the spacecraft need such a frightening amount of energy?

He couldn’t imagine it!

“Don’t underestimate the energy needed to travel in the universe. Even though I’ve let the spacecraft enter hibernation mode, the energy it absorbed is only enough for you to fly to the Great Qian Galaxy. It might break down if any accidents happen along the way,” Round Ball said.

“Seriously? That’s troublesome.” Wang Teng was speechless.

“What do you think? This QY-E63 spacecraft has been on the earth for a million years. You can still use it because I maintain it well and had foresight. If I didn’t save up enough energy for this spacecraft, you won’t be able to do anything with it. Other intelligences aren’t as smart as me,” Round Ball said proudly with its hands on its hips as it glared at Wang Teng.

“Alright, alright, you’re the smartest. I have to thank you for ensuring that the spacecraft can still be used,” Wang Teng consoled it hurriedly.

Round Ball was an intelligent lifeform with incredible abilities and high intelligence but it had the temper of a kid.

“Hmph, this is better.” Round Ball snorted.

“Wait, the alien candidates have their own spacecraft too. There are many spacecraft here now. They should have reserve energy, right?” Wang Teng suddenly remembered the aliens’ spacecraft.

“Yes, quick, bring me there instantly.” Round Ball’s eyes lit up. It said excitedly, “The QY-E63 has many spoiled parts. We can use the materials on the other spacecraft to repair it, making the journey safer.”

“Huh? The QY-E63 spacecraft is damaged? Why didn’t you say that earlier?” Wang Teng’s face turned black.

For some reason, he felt that Round Ball wasn’t reliable.

What if an accident happened when he was traveling in the universe? He wouldn’t even have a place to cry!

This fellow was making things difficult for him!

“Haha, I didn’t have the time to mention it,” Round Ball touched its round head and said in embarrassment.

“You!” Wang Teng almost vomited blood out of frustration. He said angrily, “Why don’t we use the other aliens’ spacecraft? Why must we repair this QY-E63? It’s a million-year-old antique. I feel scared to travel in it.”

“What do you know?” Round Ball shouted, “I dare to promise that none of the alien candidates’ spacecraft can be compared to this one.”

“Why is that so?” Wang Teng asked curiously. He had to admit that Round Ball knew more than him.

Round Ball thought for a moment before showing off the spacecraft. “In the universe, based on the level of importance to a formidable martial warrior, we have scriptures, battle techniques, weapons, battle armors... and finally universe spacecraft.”

“I’ll share the first four with you when we see them. Let’s talk about spacecraft first. It might be the last on the list, but it’s extremely important since it can be listed along with the first four items.

“The universe is vast. If you want to travel across it, you need the help of a universe spacecraft. Even universe stage or eternal stage martial warriors need it.

“If not, you will need to spend a few hundred years traveling. No one is willing to waste this time.”

Wang Teng nodded as he listened.

Round Ball continued, “Now, we can talk about the different classes of spacecraft.”

“The higher the class, the faster the speed. A good spacecraft might need ten days to travel tens of light years, but an ordinary spacecraft would need tens of years to do that.

“High-quality materials and high-level craftsmanship are required to build a high-class spacecraft. This QY-E63 is an extremely high-class universe spacecraft in many galaxies. Only a small portion of cosmos-stage martial warriors or people with powerful backgrounds can afford it. Coincidentally, Master Nangong has both the ability and the background.

“The material used to make this spacecraft is a rare ore called star-sand metal. A cosmos-stage martial warrior will need to use much force if he wants to damage the body of this spacecraft.

"This ore is also extremely expensive. A ton of it cost 3000 GQC. An entire QY-E63 weighs 2.56 million tons. Just the ore will cost more than 7.68 billion GQC.

"That's GQC, not some coins of low-tier civilizations like the Olant Federation.

"Based on the official exchange rate, the currency of a high-level civilization is a thousand times that of a middle-tier civilization. A middle-tier civilization's currency is a thousand times more than that of a low-tier civilization.

"Think about it. How much does this QY-E63 cost?"

"This is a luxury product!"

Round Ball stared at Wang Teng intently after it finished speaking. It was anticipating his astounded reaction after he heard the astronomical figure. After all, he came from an underdeveloped planet.

It wasn't looking down on Wang Teng. It just wanted to tease him.

However, Wang Teng remained composed. "Are you telling me that this spacecraft is expensive?"

"What else?" Round Ball widened its eyes in surprise when it saw his reaction.

"That's all?"

"That's all!" Round Ball jumped up. "Shouldn't you give a reaction after knowing how amazing this spacecraft is?"

"What reaction do you want from me?" Wang Teng felt speechless.

"Astonishment, excitement. Don't you feel anything after hearing that you own such an impressive spacecraft?" Round Ball went mad.

"Well, a little." Wang Teng nodded indifferently.

"A little?" Round Ball was disappointed. It felt like a deflated balloon as it spoke dejectedly, "I feel no sense of achievement at all."

Wang Teng chuckled in his heart. Honestly, he was shocked. However, he didn't want to see Round Ball gloating, so he maintained a calm expression on his face.

"Alright, since you need to repair the spacecraft, let's quickly bring the other spacecraft back and dismantle them. We'll use their parts to fix this QY-E63." Wang Teng waved his hand and made the decision.

"That sounds good." Round Ball gathered his thoughts and nodded in satisfaction.

Wang Teng touched his chin. He kept the two corpses on the ground and executed the Darkness Clone Technique. Two balls of black light flew out from his body and gradually transformed into two figures. They looked exactly like the two instructors from the Saint Star Pagoda.

"F\*\*k, you possess a clone technique? Even Master Nangong didn't have it." Round Ball was thunderstruck.

## Chapter 863: Are You The Son Of A Secret Boss?

Wang Teng smiled at Round Ball's astonishment. He didn't explain himself. This fellow was so proud and arrogant right from the start. If he didn't show it his power, it might think that he was a weakling.

Wang Teng looked at Round Ball and asked, "Will you stay on the spacecraft or come with me?"

"I'll come with you of course. I need to see what parts the spacecraft have. Do you think you can do it without me?" Round Ball found his confidence again and said proudly.

Round Ball flipped its hand. A crystal-clear white diamond-shaped gem appeared on its palm.

"This is a life energy stone. It's extremely rare. It can allow me to stay in it for a long time. I'll be able to leave with you when you bring it along," Round Ball explained.

"Life energy stone!" Wang Teng was surprised. He felt that the universe was full of surprises. Even an amazing stone like this existed.

"Oh right, I think this crystal skull can store souls too." Wang Teng took out the crystal skull in his space.

"Yes, I made this specially and released it to the outside world to grab people's attention. I mixed some life energy stone powder in it, so it can store souls temporarily. However, the soul will dissipate after some time," Round Ball glanced at the crystal skull in Wang Teng's hand and replied nonchalantly.

"What about the map inside?" Wang Teng asked.

"I drew it casually. It's the map showing the way to the Great Qian Empire." Round Ball sniggered.

Wang Teng suddenly felt as if he was tricked.

F\*\*k, he thought that it was a treasure map, but in the end, it was just a map showing the way to the Great Qian Empire.

Damn it!

"You can collect all the crystal skulls and sell them. They should be able to fetch a good price. They have life energy stone powder mixed in them, so they possess some traits of the life energy stone. For instance, they can increase low-rank spiritual power to a certain extent. Of course, they are useless to you," Round Ball said.

Wang Teng immediately looked at the alien candidates sitting around them. He remembered that the crystal skulls were on them.

Taking off their space items, he turned his spiritual power into spiritual thorns and destroyed the spiritual mark inside. At the same time, the alien candidates in the labyrinth suffered serious injuries. All their expressions changed.

"Who touched my space ring?" Argus's expression turned ugly. He was infuriated.

The other three alien candidates' faces were as black as charcoal too.

They were being chased by the star beast souls around the labyrinth. After escaping here and there, they were already very weak. This huge stimulation almost crumbled their spirits.

“If this continues, our soul will enter hibernation,” Argus said grimly.

“It must be Wang Teng. He must have inherited the legacy and gained control of the labyrinth. We’re all stuck inside,” Pulin said hurriedly. His gaze flickered.

“Damn it, what an evil fellow,” Kathu cursed. Anger shot out of his eyes.

Argus and Pulin felt exasperated. They were the talents from the Olant Federation. They still remembered how much they looked down on Wang Teng in the past.

Yet now, Wang Teng had inherited the legacy of the baron from the Great Qian Empire while they were being chased around like disowned dogs.

This was a huge stimulation to them. Their hearts were burning with envy. Mind you, this was the legacy of a baron from a high-tier civilization!

To think that Earthling got it!

They couldn’t wait to replace him.

“What do we do now?” another martial warrior broke the silence and asked them with a pale face.

Roar!

Along with a bellow was heard, loud explosions occurred behind them. The star beast souls had caught up.

They seemed to be walking their pets. They would run for a moment and rest for some time. They weren’t really chasing after the martial warriors.

“Oh my, what else can we do? Run!” Kathu’s expression changed, and he dashed forward.

The others could only follow after him and start running wildly.

...

In the real world, Wang Teng kept the alien candidates’ space items without any hesitation. There were many good items inside. He kept them happily.

He didn’t kill them because they had fought the dark apparitions with him.

Sigh, he couldn’t help it. He was too kind.

But Wang Teng wasn’t as kind toward the dark apparitions. He turned around and saw the unconscious devil lords. A cold glint flashed past his eyes.

This was a great opportunity. It would be a pity if he didn’t kill them.

Spiritual power surged out of Wang Teng’s forehead. A few flying daggers flew out of his space ring and turned into sharp beams of light. They slit across the throats of the devil lords.

With the help of the Planetary Realm spiritual power, the flying daggers shot across the air at the speed of lightning and chopped off the heads of the devil lords.

However, the flying daggers cracked and shattered too. They turned into scrap.

“Tsk, tsk, your control is too rough. You should practice the spiritual power scriptures Master Nangong left behind.” Round Ball shook his head and said, “Also your weapon is lousy. You were at the planetary disciple stage in the past, so you can still use them. However, your opponents are all at the planetary stage and above now. Their physical body is extremely strong, so normal weapons can’t injure them. You should use weapons used by planetary-realm divine spirit masters.

“I remember that Master Nangong left behind some weapons. You can take a look.”

“Where are they?” Wang Teng asked. His eyes lit up.

“Huh? I didn’t pass your Master Nangong’s space bracelet?” Round Ball asked in a strange tone.

“When did you give it to me?” Wang Teng felt speechless.

“Oh, I forgot.” Round Ball patted its head and took out a bracelet, throwing it at Wang Teng. “Some of the items Master used in the past are inside. Take a look when you’re free.”

Wang Teng was elated. He nodded and kept the bracelet.

This was a space item of a cosmos-stage martial warrior. There must be many good things inside.

But this wasn’t a good time to inspect it.

Wang Teng stared at the corpses of the devil lords and pondered for some time. He was still a little worried, so he took out his Emerald Glazed Flame and burned the corpses into ashes.

“Is this... a divine fire?” Round Ball widened his eyes in surprise when he saw the emerald flame. He felt more astounded than when he saw Wang Teng’s cloning technique.

“You know many things,” Wang Teng said.

“Cloning technique, divine fire. You have many good things! Are you the son of a secret boss?” Round Ball twirled around Wang Teng and sized him up carefully with a strange gaze.

### **Chapter 864: Dark Force—Planetary Stage!**

Wang Teng almost spat in Round Ball’s face.

What did it mean by the son of some hidden boss?

Its imagination was running a little too wild.

If he was the son of some boss, he wouldn’t need to work so hard to collect attributes to raise his ability.

1

“Seriously!” Wang Teng glared at Round Ball.

“Come on, don’t be angry. I’m just shocked that a native of this underdeveloped planet possesses so many good things. Even cosmos-stage martial warriors will be tempted by these things. You can’t blame

me for being surprised.” Round Ball chuckled. It knew that Wang Teng didn’t have a powerful background, but it just wanted to tease him because it was caught off guard.

Wang Teng was too lazy to explain. Maintaining a level of secrecy would ensure that this little fellow wouldn’t look down on him. He was sure that there would be more shocking moments for Round Ball in the future.

Round Ball would never think that he was a bug.

The devil lords turned into ashes as they got burned by the flames. Attribute bubbles floated down.

Wang Teng suddenly felt thankful toward the fake baron. If he hadn’t taken care of these devil lords, he wouldn’t be able to kill them so easily.

What a kind man!

After a moment of gratefulness, Wang Teng picked up the attribute bubbles around him.

Constellation Force (Dark)\*3000

Imperial Realm Spirit\*650

Emperor-Level Dark Talent\*350

Devil Transformation\*30

Constellation Force (Dark)\*2800

Imperial Realm Spirit\*620

Emperor-Level Dark Talent\*330

Devil Transformation\*25

...

There were three devil lords, so they dropped a sizable amount of attribute bubbles after they died. Wang Teng felt as if he was struck with a great fortune.

He accumulated more than 20 thousand points of constellation dark Force. They turned into a stream of pure constellation dark Force and gathered in his body.

Boom!

The stream of constellation dark Force surged through Wang Teng’s limbs and meridians, giving off a buzzing sound. The reserve of Force was huge, so the Force nucleus in his body was unable to contain it anymore.

The constellation dark Force in his body had exceeded the limit of the 13-star general stage.

It overflowed!

All the constellation dark Force spurted out of the Force nucleus and spun around Wang Teng’s body violently.

Wang Teng's expression changed slightly. He didn't expect this to happen. He immediately added blank attributes to the Dark Devil Scripture he had received in the past.

This dark scripture came from a devil lord. Wang Teng planned to practice it properly after this battle, but accidents happened without any warning.

He had no choice but to use the blank attributes to raise his Dark Devil Scripture first.

Dark Devil Scripture: 10000/10000 (perfected)

He spent more than 30 thousand blank attributes before raising this scripture from the well-versed to the perfected stage.

Fortunately, he had gained many blank attributes during this battle or he wouldn't know what to do.

He was also lucky that a planetary-stage dark scripture had dropped from a devil lord. After all, he couldn't make bricks without straws.

Wang Teng immediately activated the Dark Devil Scripture after it reached the perfected stage.

The perfected-stage Dark Devil Scripture started working furiously. The restless constellation dark Force in his body calmed down. The normal dark Force in his body was being converted into constellation Force.

This was an unexpected gain.

If he went by the book and cultivated step by step, he would need a long time to convert the normal dark Force into constellation dark Force.

But the vast amount of constellation dark Force scattered the normal dark Force and merged it into the constellation dark Force.

The normal dark Force was diluted. It was like a small stream merging into a roaring river. It became part of the river!

The conversion speed was increased by more than ten times.

"Oh my god!"

Just when Wang Teng was converting the dark Force in his body, Round Ball noticed the fluctuation. It stared at Wang Teng in astonishment.

"What a strange fluctuation. It seems to be suppressed. What is it?" Round Ball muttered to himself curiously. "He seems to be on the verge of a breakthrough!"

"This fellow has many secrets!" Round Ball stroked its chin and squinted slightly. It was extremely interested.

Then, it waved its hand and created a layer of spiritual shield around them.

It didn't tell Wang Teng that it was a divine spirit master too. It was able to use its spiritual kinesis.

But its situation was different from a human divine spirit master. The person who created it probably never imagined that it could grow to such a stage.

It formed the shield to prevent outsiders from interrupting Wang Teng.

Wang Teng was its master now. They were on the same boat, so it didn't want anything bad to happen to him.

Boom!

Wang Teng was at a crucial moment. Boundless constellation dark Force formed a black bridge and crossed over the sea of nihility. The remaining dark Force merged into the sea of nihility continuously.

The silent sea of nihility started churning until all the constellation dark Force sunk into the bottom and got compressed and hammered.

Thud! Thud! Thud!

Dull thuds rang continuously like the palpitations of the heart.

It was hard to tell how much time had passed. The sound suddenly disappeared and the surface of the sea started to toss and turn. A pure black star rose gradually, seemingly formed by numerous black crystals. It was magnificent.

Dark Force—first-level planetary stage!

His dark Force finally reached the planetary stage!

Wang Teng opened his eyes slowly. His gaze was profound. He let out a long sigh.

“Breakthrough?” A voice sounded beside him.

Wang Teng was stunned. He turned hurriedly and stared at Round Ball.

“Don't look at me like that. It's just a breakthrough. You're just an ordinary talent. I've seen someone advancing to another stage while eating. Yours is nothing,” Round Ball said nonchalantly.

Wang Teng: ...

This little thing was so conceited. Just a breakthrough? Do you think it's something as simple as eating and sleeping?

It even said that his talent was ordinary.

Wang Teng didn't believe that there were many such talents in the universe. Most of the people were probably normal talents.

He finally realized that Round Ball liked to boast.

Wang Teng rolled his eyes. He didn't want to argue with Round Ball.

He looked at his attributes panel and saw that his dark Force had indeed reached the planetary stage. He was elated.

He achieved a breakthrough after killing these devil lords. How simple!

If Round Ball knew how he achieved his breakthrough, it wouldn't have said those words.

How could a genius be compared to a bug? What a joke.

### **Chapter 865: Your Thinking Is Too Simple!**

After ascertaining that his condition had stabilized, Wang Teng took a look at the other attribute bubbles.

2250 points of Imperial Realm Spirit!

This could be converted to 225 points of Planetary Realm Spirit.

Wang Teng's spirit attribute increased a little again. It was getting close to the upper limit.

Spirit: 9825/10000 (Planetary Realm)

*Damn it, system, are you doing this on purpose? Why can't you push it up a little more? It's almost touching the breakthrough point!* Wang Teng screamed in his heart. He almost went mad when he saw the small gap.

After complaining for a few seconds, he sighed helplessly and gave up the idea of using his blank attributes to fill up the tiny gap left.

Blank attributes were extremely important. The implications might be unthinkable if he didn't have enough blank attributes to raise his Dark Devil Scripture to the perfected stage just now. Thus, he didn't want to touch his blank attributes if he didn't need to. He would only use them at crucial moments.

He glanced at his attributes panel.

Blank Attribute: 87655

After a few rounds of usage, he only had 87655 blank attributes left. It wasn't a small number, but Wang Teng still felt insecure.

He was getting stronger and stronger. This number of blank attributes wasn't even enough for him to push a scripture to the perfected stage.

This was too difficult!

Wang Teng was keenly aware of how poor and helpless he was.

This was an evil world.

He shifted his gaze away and placed it on his talents. 1680 points of emperor-level dark talent were added this time.

Emperor-Level Dark Talent: 1940/10000

Wang Teng nodded in satisfaction. A matured talent must be an all-rounder. His dark talent mustn't lag behind the others.

The last attribute bubble he received was devil transformation. There were 125 points of it. With the previous 35 points, it crossed the foundation stage and reached the well-versed stage.

Devil Transformation: 50/300 (well-versed)

Wang Teng didn't know what to think about this attribute. It rose to the well-versed stage without much effort, but he didn't want to use it at all!

The devil lords' devil transformations were all hideous. He couldn't accept it.

He was a handsome young man. Devil transformation wasn't suitable for him.

Wang Teng shook his head and threw the devil transformation to the back of his mind.

*It's time to leave!*

He glanced at the two clones of the instructors and thought for a moment before giving them his order.

The two clones understood Wang Teng's intention instantly. They walked out of the command room and left right before Biluo.

Fortunately, the two instructors from Saint Star Pagoda were smart enough to build a soundproof wall. She didn't know what happened inside. She would never imagine that the two instructors had died silently.

Afterward, Wang Teng walked out of the command room while Round Ball hid in the life energy stone.

"What did the two instructors talk to you about?" Biluo leaned forward and asked softly.

"Nothing. They promised me various benefits like three years of access to the library and 50 billion OFC worth of cultivation resources. I said that I don't want to go, but they insisted and persuaded me for a long time," Wang Teng spouted nonsense.

"Three years of access to the library? 50 billion OFC worth of cultivation resources? Oh my god!" Biluo's eyes turned red. She looked at Wang Teng as if he was a piece of treasure. Her eyes were shimmering as she said, "Wang Teng, we're friends, right? We worked together before, so do remember me after we get into the Saint Star Pagoda!"

She was blinded by the benefits that Wang Teng told her and automatically disregarded the brutal truth that he had rejected Saint Star Pagoda's offer.

Wang Teng stared at her strangely.

*Beautiful lady, your image changed suddenly!*

*You were a cold and distant beauty a moment ago. How did you become greedy and funny in the next moment?*

Indeed, no beauties could reject the money.

*I'm such an amiable and handsome young man. Even a pretty lady like her can't reject me.* Wang Teng touched his chin and thought to himself happily.

"Wait, did you say that you rejected the instructors' offer?" Biluo suddenly regained her senses and widened her eyes in surprise.

"Yes, you're right!" Wang Teng nodded indifferently.

"Are you kidding me?" Biluo was in disbelief. "How can you reject such a good offer? You must be lying. You agreed, right?" She went berserk.

"Your thinking is too simple!" Wang Teng looked at her with a meaningful gaze.

Biluo almost choked on her own breath. She pointed at herself and asked, "My thinking is too simple?"

"Yes, I'm talking about you." Wang Teng started walking away.

Biluo was stunned for a moment. Then, she caught up with him hurriedly and asked, "Are you going to the Great Qian Empire?"

"What do you think?" Wang Teng chuckled. He didn't explain it to her.

Biluo's expression turned complicated. She felt inferior.

Wang Teng must have rejected Saint Star Pagoda's offer because he got a better choice.

Was there a need to guess?

He must be heading to the Great Qian Empire!

That was a high-tier civilization many times more powerful than the Olant Federation. Within a few seconds, Wang Teng had climbed to a height where she needed to look up at him.

A few moments ago, she was the one with a higher status. Now, their positions swapped, and he was above her.

Things changed over time.

She thought that the baron's legacy consisted of an identity for Wang Teng in the Great Qian Empire so that he could study in an academy there. The thought that Wang Teng would become a baron of the Great Qian Empire never crossed her mind.

The two of them walked out of the historical site. Due to Round Ball's presence, they left the building successfully without suffering any attacks.

On the outskirts of the Central Continent.

The battlecraft from the various nations were still present. All the important figures were waiting impatiently. They yearned to explore the relics below, but no one dared to. They were getting grumpy.

When Wang Teng and Biluo walked out, everyone saw them.

Boom!

At this moment, the huge building in the middle of the historical site sunk below the ground gradually. The ground closed up and the building disappeared. An empty patch of land was left in the center.

This building was the shell of the QY-E63 spacecraft. Round Ball kept it using a special method after it sunk down.

No one knew where the spacecraft went.

However, the other historical buildings weren't connected to the spacecraft, so they remained behind. Based on what Round Ball said, there was nothing especially worthy here. Wang Teng shouldn't waste his time exploring this place.

Wang Teng contacted the Leader of martial arts and asked them to arrange for manpower to explore the historical site.

### **Chapter 866: Let's Put An End To Them Once And For All!**

Country Xia's battlecraft landed nearby. The Leader of martial arts and the other martial warriors came out to welcome Wang Teng.

The other countries noticed Country Xia's movement. After some hesitation, they ordered their battlecraft to land too.

"Wang Teng!" The Leader of martial arts came forward.

"You're here!" Wang Teng nodded.

"Why are there only two of you? Where are the others?" the Leader of martial arts pondered before asking.

"They can't come out," Wang Teng replied lightheartedly.

"Can't come out?!"

They were shocked and elated.

The important figures from the other nations glanced at one another in astonishment when they heard his reply.

"The devil lords..." someone asked agitatedly.

"Not a speck of them is left," Wang Teng said indifferently. His gaze turned sharp.

"Gasp!"

Everyone was dumbfounded.

All the important figures of the various countries stared at Wang Teng in awe and disbelief. He came out, yet the alien candidates and the dark apparitions didn't. This meant something.

They had to believe it even if it seemed impossible.

Also, the attitude of the only alien candidate who came out with him was worth contemplating. She didn't stand beside Wang Teng. Instead, she stood half a step behind him.

Oh right, this was the only female alien candidate, right?

She was beautiful too!

All the leaders seemed to realize the crux of the problem. Their ambiguous gazes went back and forth between Wang Teng and Biluo. However, they didn't dare to stare too long. They were planetary-stage martial warriors, so they couldn't afford to offend them.

They thought that they found something Wang Teng was interested in and decided to flatter him so as to build a closer relationship with him. After the invasion of the dark apparitions, he had undeniably become the most powerful martial warrior on Earth!

Their policy decisions changed when it came to how they should treat Wang Teng and Country Xia.

"What about those dark apparitions?" someone looked up at the pitch-black sky and finally asked the question everyone had in mind.

This was the head of state of Country Star. He was a middle-aged man around 50 years old.

Biluo looked up and frowned slightly. "These dark apparitions won't pose any threat. However, there are too many of them, so it will be hard to finish them off quickly. It will be devastating if they land on the planet."

She was speaking using her consciousness, so Earthlings couldn't understand. But Wang Teng could. He nodded, and a sharp glint flashed in his eyes. "Let's put an end to them once and for all!"

To him, these dark apparitions didn't just represent a disaster. There were countless attribute bubbles too. He would never let them go.

Without the devil lords, the dark apparitions were like an army without a general. It wouldn't be hard for Wang Teng to take care of them.

"What are you planning to do?" Biluo asked.

Wang Teng didn't reply to her. His body rose into the air slowly. His black hair danced even when there wasn't any wind. An invisible and strange fluctuation spread out from his body, sweeping through the sky above the Central Continent like circles of airwaves.

"Space fluctuation!" Biluo exclaimed in shock.

She never expected Wang Teng to possess space talent.

He had never used his space talent when they were fighting. This fellow concealed himself well.

Biluo felt bitter. She finally understood that they, the talents from the Olant Federation, were nothing in front of Wang Teng. To think that they felt superior to him in the past. In reality, Wang Teng's talent was much higher than theirs.

At the same time, Round Ball, who was inside the life energy stone, exclaimed, "Wang Teng, you possess space talent!"

“This is an extremely rare talent in the universe! Only one in a hundred million talents will be born with it, yet you have it!

“Oh my god, I’m going crazy. How is this possible!

“Is this really an underdeveloped planet that just welcomed the martial arts era? Why are you here?”

Round Ball started to question its life. Wang Teng gave it too many surprises. It never thought that he had such a rare talent.

At first, it felt grateful if Wang Teng could become a cosmos-stage martial warrior like Nangong Yue. Now, it believed that his accomplishments would be even higher.

He could advance to the heaven stage or the universe stage...

It was possible!

“What’s Wang Teng doing?”

“Is he going to destroy the dark apparitions?”

“What will he do?”

The commander from the White Eagle Nation and the other leaders of the various countries raised their heads and stared at Wang Teng. They had witnessed how powerful he was, but they still wondered if he could get rid of the numerous dark apparitions.

Many powerful martial warriors felt the sudden space fluctuation. They were dumbstruck. They didn’t know what Wang Teng’s move was.

Some people suddenly remembered the Space Tornado technique Wang Teng used during Donghai’s sea beasts’ riot.

“Is he going to use that move?” The Leader of martial arts wondered in disbelief.

“Quick, this is the last battle. We must send the images back to Country Xia and let everyone see the battle!” He suddenly remembered the live broadcast and gave his order immediately.

The other leaders glanced at each other silently and chose to follow Country Xia. Everyone was panicking because of this calamity. Earth needed a hero.

Their battle with the dark apparitions some time ago was broadcasted to the rest of the world. Wang Teng’s performance was extremely eye-catching. He had killed several devil lords, and everyone was heartened. If they saw him annihilating all the dark apparitions alone, it would definitely ignite everyone’s desire and belief to live.

In an instant, all the cameras in the battlecraft turned to Wang Teng and the endless dark clouds in the sky. This image was displayed to the rest of the world through the internet.

Many 13-star general-stage dark apparitions lowered their heads and looked down at Wang Teng from the clouds.

He appeared exceptionally small amid the huge patch of dark clouds like an ant.

However, none of these 13-star general-stage dark apparitions dared to underestimate him. They couldn't forget the moment when Wang Teng turned into a rock giant and beat up the devil lords.

He was merciless and powerful. They could only see his face, but they already felt fearful.

"What's he doing?"

"Why didn't the lords come out? Why are there only two humans?"

"What happened inside? Have all the lords died?"

"That's impossible..."

...

The 13-star general-stage dark apparitions frowned. They glared at Wang Teng in anger and astonishment.

Boom!

Suddenly, the air trembled violently. A loud buzzing sound resounded in the sky. Visible airwaves spread out continuously.

### **Chapter 867: The Final Storm!**

Central Continent!

At this moment, the continent was the focus of everyone's attention.

The continent was scarred and devastated. There were sword marks everywhere and ravines were carved on the ground.

An ancient ruin appeared in the ravines.

It proved that a terrifying war had happened there.

And right above the mainland, a dark cloud shrouded and obscured the sky as if the end of the world was imminent. People trembled in fear.

This meant that the war was not over yet.

However, a figure stood there in the air just under the dark cloud. Just one person was facing the sky that was covered by dark apparitions.

The scene was shown all over the world and was witnessed by the eyes of ordinary people.

Everyone knew who Wang Teng was. He had killed several devil lords alone in the previous battle, inspiring everyone.

Many youths regarded him as their idol, and even more people viewed him as a hero of the humans!

Now, Wang Teng was standing under the dark cloud and facing the dark apparitions alone. As they were seeing it via screens, no one knew what he was going to do.

Country Xia.

Grandpa Wang, Wang Shengguo, and other members of the Wang family were all clustered around the screen. They were all worried and anxious as they looked at the figure.

Although Wang Teng had already killed multiple devil lords, he was facing so many dark apparitions alone now. Was he really going to make it?

The dark apparitions were clustered so densely that it made people's scalp tingle just by looking at them, let alone dealing with them.

Li Xiumei's whole body was tense as she clutched Wang Shengguo's arm tightly. Her face was pale, but she didn't make a sound. She knew that her son was saving the planet and that he was a hero. She couldn't say anything. She could only hope that he would return safely.

Wang Shengguo patted Li Xiumei's hand and consoled her. Although he was worried as well, he had to stay strong as a man to support his wife.

Over at the side, Lin Chuhan and Lin Chuxia were holding their hands tightly together as they stared at Wang Teng on the screen with worry.

...

At The First University, Ji Xiuming, Ren Qingcang, and the others were watching as well. Their faces were filled with complicated emotions—worry, nervousness, envy, and jealousy.

They used to stand on the same starting line as Wang Teng, but now he had already left them far behind.

The planetary stage!

They already knew about that!

That was a stage beyond the boundaries of a planet. Wang Teng was already at that stage while they had only just reached the general stage. They were still so far away from the planetary stage.

A gap like this made them feel powerless!

They were called prodigies since young. When faced with such a huge gap, they felt extremely bitter, doubting if they were even talented, to begin with.

...

Over at Donghai, Xu Jie and Bai Wei were also staring at the screen.

"Brother Wang Teng... You will be fine," Bai Wei bit her lip and muttered to herself.

"Come on, Brother Teng!" Xu Jie and Yu Hao's eyes were red as they clenched their fists.

...

At the White Eagle Nation, Shuen and the others had already returned from the Central Continent. They were fighting against the star beasts that were ravaging the human cities. In the cities that were full of ruins, there were still undamaged screens that were showing what was happening over on the Central Continent.

While fighting, they looked up and watched, feeling complicated inside. Their former opponent had grown so much, yet they were still struggling at the general stage. They didn't know when they would catch up again.

"Kill!" Shuen's heart trembled, and his eyes were focused. He fought the star beasts even more ferociously.

...

At the same time, in Country Bat, Country Boar, and the other countries, everyone who was familiar with Wang Teng was paying attention to the battle.

In the sky above the Central Continent.

"Crack..."

As the spatial fluctuations continued to spread, the space around Wang Teng suddenly made a crisp noise like the sound of glass shattering.

He heard the sound and suddenly increased the output of his Force.

The space shook violently...

At a certain moment, the space around Wang Teng suddenly split into deep and dark rifts, into a bottomless abyss.

These rifts were not the same as the Space Tornado that Wang Teng used at Donghai. Every rift that appeared was as thick as an arm.

Even 13-star general-stage martial warriors would be ripped apart if they approached them.

After the rifts appeared, a gust of wind from the void gushed out and surrounded Wang Teng as if it was manipulated by a certain force.

The speed of the wind changed from slow to fast and instantly turned into a violent wind, making a piercing sound like an eagle's cry.

It spun rapidly, tearing apart the surrounding space, forming a terrifying piece of the void.

The storm was coming!

The expressions of the dark apparitions changed as they looked down in horror.

"Run! Run!" a 13-star general-stage dark apparition shouted.

"Don't wait for the devil lords. If we wait any longer, we will all die here!" another 13-star general-stage vampire dark apparition yelled frantically.

The 13-star general-stage dark apparitions were commanders of the dark apparitions and could take the lead and control the dark apparitions. With the order, there was a commotion. All the dark apparitions wanted to escape far away.

"Thinking of running away?" Wang Teng's cold voice resounded throughout the sky.

His figure had vanished in the eye of the tornado. However, everyone stared at the storm that enveloped the sky and was terrified.

Boom!

As the tornado swept over ferociously, a devastating suction force broke out. The dark apparitions who were trying to escape lost control of their bodies and flew towards the tornado.

Countless dark apparitions were thrown into the Space Tornado and had their bodies twisted and crushed into powder. They were then sent into the abyss.

Roar!

The dark apparitions screamed and roared as they tried to break free from the suction of the Space Tornado. But it was all in vain. With Wang Teng's current strength and at such a distance, the dark apparitions had no chance of escaping the Space Tornado.

Even the 13-star general-stage dark apparitions couldn't escape from the Space Tornado. They struggled desperately, using up every ounce of their dark Force as their bodies were shrouded in black light. However, they were still slowly dragged into the Space Tornado.

At this moment, the sky was a spectacular sight.

A terrible tornado hovered over the Central Continent as countless deep and dark rifts appeared in its surroundings, casting darkness over the sky. The endless dark clouds poured downwards, like water flowing down a funnel, into the tornado.

One minute, two minutes, three minutes... The dark apparitions that seemed unending disappeared from the world!

The leaders of the countries were all shocked and speechless as they looked up at the sky. They even forgot to blink.

People all over the world who saw this scene also fell into silence.

### **Chapter 868: Up And Rising Donghai!**

He defeated an entire army of dark apparitions alone!

In the past, no one would believe that this was possible. But everyone in the world saw it personally.

Countless dark apparitions wailed in despair. They were sucked into the space tornado like ants. Then, they were mutilated before they died...

The terrifying dark apparitions army disappeared before everyone's eyes little by little.

Time passed slowly. The dark clouds draping over the Central Continent dissipated gradually, and sunlight finally shone down.

Peace seemed to have been restored.

The end!

The battle that would decide the fate of the human race had ended on this note!

The dark apparitions were annihilated and the humans gained the victory!

1

This was all thanks to the figure floating above the Central Continent!

Wang Teng!

The hero of humans!

The humans started cheering from around the globe. Some kneeled on the ground and cried tears of joy. They shouted Wang Teng's name with all their might...

Ji Xiuming, Ren Qingcang, Shuen, Yoke, Valeria, Gerald...

All these martial warriors that had interacted with Wang Teng before watched his rise and growth. They were witnesses of him becoming the humans' hero.

Country Xia, Wang family.

The Wang family finally heaved a sigh of relief. Li Xiumei cried in joy. They were all staring at the figure on the screen proudly. The younger children even started cheering.

Donghai!

"We won! We won!" Xu Jie, Bai Wei, and their friends exchanged glances with one another and screamed with happiness.

The same scene was occurring everywhere.

...

Central Continent.

Wang Teng floated down slowly from the sky. His face was a little pale.

"Pervert, you're a pervert!"

"How can you possess such a terrifying space technique? How did you come up with it?"

Round Ball's voice sounded in Wang Teng's mind. It kept muttering to itself without stopping. One could tell how thunderstruck it was.

Wang Teng ignored it and automatically filtered out its voice. But when he glanced around him, he realized that everyone was looking at him as if he were a monster.

He had destroyed the entire army of dark apparitions alone!

This was such an incredible feat. Frightening!

All the leaders of the various nations were dumbfounded. Wang Teng's position in their hearts rose again. They must never become enemies with this scary monster!

“Are you a monster?” Biluo looked at Wang Teng and asked, voicing everyone’s thoughts.

“You’ll get used to it,” Wang Teng replied calmly.

Biluo was stunned. Then, she gave him a speechless look.

*What do you mean by that!*

*This fellow isn’t humble at all. Praise him and he will accept it readily.*

Wang Teng turned away and looked at the leaders of the different nations. “Although the dark apparitions have been annihilated, dimensional rifts leading to the Darkland have appeared in many parts of the world. We must find them quickly and seal them up to prevent them from invading us again.”

“Okay, I will send my men to inspect every area thoroughly,” Commander Cromwell from the White Eagle Nation nodded and agreed immediately.

The other leaders cursed at him in their hearts when they heard him replying so quickly. What a sly old fox with no dignity. They hurriedly replied to Wang Teng too.

“No problem. I’ll give my order immediately.”

“Yes, we must inspect our country carefully and find all the dimensional rifts linking to the Darkland.”

...

At first, the leaders were all afraid of the dark apparitions, so they would speak about them with care. But after seeing Wang Teng’s ability, they found their confidence and agreed almost instantly.

The Leader of martial arts’ expression turned weird. He didn’t know what to say when he glanced at the other leaders. He felt that they were students fighting to get praised by their teacher.

Wang Teng was that teacher.

This scene seemed a little funny.

But the Leader of martial arts didn’t laugh. He was a mature and professional guy. He must maintain his composure at a time like this.

Wang Teng felt the change in the way everyone treated him and shook his head. He opened his mouth again. “I suggest holding a Global Union Conference. A new era is dawning. We need to build a community to face the universe.”

The leaders’ expressions changed when they heard this. Then, they nodded one after another.

They knew that building a global union was a must.

This would happen sooner or later. Going by the original timeline, the different countries would build a global union after going through a certain period of development. The alien invasion had hastened this entire process.

“We’ll hold it in Donghai five days later. Is there any problem with that?” Wang Teng glanced around him.

“Okay!”

“No problem!”

...

The leaders of the various countries nodded and left quickly.

But all of them sent some martial warriors to stay in the Central Continent. Since they were going to form a global union, everyone would naturally have a share of exploring this historical site.

...

Donghai.

The next day, the Wang family had returned to Donghai.

Donghai had finished its reconstruction. High-rise buildings stood in great numbers, and the streets were back to their bustling state. The city seemed more prosperous than before.

Wang Teng had created a rune array around the city, so Donghai didn’t suffer much from the sea beasts’ riot. It was one of the few cities that remained intact.

After the reconstruction, Donghai became more beautiful and advanced. After all, with Wang Teng’s support, the city had ample funds for its rebuilding project. Hence, the quantity and quality of buildings increased.

You could say that Donghai was one of the top three most advanced cities in the country now. It was on par with Capital Xia, Jinlin, and the other cities in the south.

The cities in the north weren’t as lucky as Donghai. They were the first to bear the brunt of the sea beasts’ riot and suffered catastrophic damage.

After the reconstruction of Donghai, many other wealthy and powerful families came to buy properties here.

Everyone knew how powerful Wang Teng was. This was the safest city in the country.

Within three days, Donghai’s housing prices skyrocketed to a frightening height. Despite that, most of the properties were snatched almost instantly.

If Donghai didn’t impose property-purchasing limitations immediately, the situation could have gotten worse.

This would never have happened during peaceful times. The housing prices were regulated, so they would never soar up like a rocket. People who were not registered in a city wouldn’t be able to buy too many properties in that city.

But it still happened. These wealthy people and elite families had ways to buy the properties. No one could stop them.

This proved Wang Teng's status in the country and the rise of Donghai.

When the news of Donghai holding the Global Union Conference spread, Donghai's position climbed even higher.

### **Chapter 869: Power Of The Wang Family!**

Donghai!

Wang residence.

The Wang residence was no doubt the most extravagant residential building in the entire Donghai.

Donghai was able to rebuild itself quickly due to Wang Teng's sponsorship. Hence, the Wang family was given a large piece of land. They hired a renowned architect to design their home with an antique flavor. It gave off a classic and elegant beauty.

There was a symphony of pavilions and terraces as the modern and ancient styles merged harmoniously. A landscape of lakes and greenery added radiance and beauty to each other. It was mesmerizing.

There were also villas constructed around their residence. They were properly distributed like the myriad of stars surrounding the moon. They created stunning scenery.

The Wang family didn't build these villas. Rather, they were constructed by the other powerful and wealthy families and figures. They didn't come for the Wang family. They built their villas here because of Wang Teng, the most powerful martial warrior on Earth.

What was safer than being neighbors with the most powerful martial warrior on the planet?

...

There were two days left until the Global Union Conference, but many people had already arrived in Donghai. Foreign faces could be roaming the streets every day.

Country Xia sent a large troop to Donghai to guard and enforce the order.

Suddenly, a beam of light rose from a certain area in Donghai. This thick and dense pillar of yellow light shot into the sky.

Both the citizens of Donghai and the visitors were attracted by the pillar of light.

"That's the Wang residence!"

"Look, that's Wang Teng in the air."

"He's laying down an array!"

...

A few sharp-eyed martial warriors saw the figure above the Wang residence and recognized the person immediately. Hence, they guessed what he was doing.

The figure disappeared quickly after the momentary appearance.

Everyone was in awe.

Wang Teng made an array for the Wang residence personally!

Ever since he got crowned the title of the strongest martial warrior on Earth, Wang Teng got famous. His past achievements were dug out too. Now, many people knew that he was an array master and a runemaster.

Thus, no one was surprised that he formed an array for the Wang residence. Instead, they were envious.

Wang Teng had guided the runemasters in creating the defense array for Donghai. The sea beasts' riot proved the powerful defense ability of the array. They were astounded by Wang Teng's array mastery and started exaggerating his skills.

After seeing him in action, some people started to have other thoughts.

If they could invite Wang Teng to form an array for them around their house, they would be able to rest in peace even when there was a star beasts' riot.

This thought appeared in many people's minds. Within two hours, the doors of the Wang residence almost cracked because of the number of visitors.

Wang Teng was welcoming an ordinary-looking middle-aged man into his residence.

The sofa in the living room was made using precious wood from the Xingwu Continent, the Purple Essence Wood. Wang Teng was sitting opposite the middle-aged man.

Very soon, a robot dressed as a servant served them Longjing tea<sup>1</sup>.

The robot looked almost like a real human. The outer shell was made using the most advanced simulated biochemical skin, so it looked similar to a human.

This was Round Ball's work of art. These robots came from the QY-E63 spacecraft. Many of them were damaged by Wang Teng, so Round Ball used its advanced technology to repair them and dressed them up in simulated skin. They became the security guards of the Wang residence and could even serve drinks and cook meals. They were extremely useful.

However, Wang Teng still allowed them to preserve some traits of a robot to differentiate them from the real humans.

"Mr. Wang Teng, these robots are not from the Earth, right?" The middle-aged man was surprised.

"Hahaha, Mr. Ma, you have good eyesight. I got these robots from the historical site." Wang Teng smiled.

This ordinary-looking middle-aged man was an extremely renowned entrepreneur of Country Xia. He was also widely known internationally, so Wang Teng came to welcome him personally.

Of course, Mr. Ma was flattered when Wang Teng came to see him personally. Mind you, he had a high status now. He was giving him ample respect by meeting him in person.

Wang Teng felt emotional as he looked at the excited middle-aged man in front of him. When he just came to this world, he wanted to use this famous person's business idea and earn himself a reputation too. However, the world had changed, so Mr. Ma had already started his business journey. He didn't give him any chance.

Wang Teng had no choice but to take the martial arts path, walking grudgingly to this position.

The world was unpredictable. No one knew what would happen in the future.

"Is it the historical site found on the Central Continent?" Mr. Ma exclaimed.

"That's right." Wang Teng nodded.

"As expected, there are many good things in the historical site. If we study these robots, the technology of our planet will rise to an all-new height." Mr. Ma was a smart guy. He immediately thought of many possibilities. His eyes lit up, and he asked in a cautious tone, "How many robots do you have? Can you spare one for me?"

"I have sent some robots to the military, and they're studying them. They will probably release their findings soon." Wang Teng smiled. "As for the ones in my house, I kept them to protect my family. I don't mind gifting one to you."

1

"I thought so too, but I just had to ask." Mr. Ma shook his head with a dejected smile.

"Mr. Ma, what brought you here today?" Wang Teng asked.

"Mr. Wang Teng, your name has spread all over the world as a master of runes. Many people want to seek your help in forming rune arrays for them. I'm no exception. I have bought a property near the Wang residence and plan to stay here in the future and be your neighbor. I wanted to ask for your help to arrange an array for me." Mr. Ma rubbed his hands and gave an embarrassed smile.

"Hahaha, I won't have agreed to others, but since Mr. Ma came to ask me personally, I guess I'll have to lend a hand." Wang Teng smiled.

"Really? Thank you so much!" Mr. Ma felt extremely content when he heard Wang Teng's reply. He beamed with happiness. "But there's no hurry. You can come over when you're free."

Wang Teng nodded in agreement and they set a time for him to go over to create the array.

"I'll not disturb you anymore." Mr. Ma bade farewell.

After Mr. Ma left, Wang Teng shook his head and walked into the room. He saw Grandpa Wang and Wang Shengguo coming out. "Grandpa Wang, Dad, if anyone else comes to find me, tell them I'm cultivating and can't be disturbed," he said in a helpless tone.

"Haha. Other people yearn to meet them, but you seem reluctant to even see them," Grandpa Wang teased him.

"It's too troublesome. I'm leaving." Wang Teng shook his head and ran away.

## Chapter 870: I'll Kill You Today!

Visitors like Mr. Ma were not few and rare. Most of them were big shots who had great influence around the world.

Wang Teng wasn't afraid of offending them, but humans were social animals. Favors were inevitable. Furthermore, the Wang family could not be separated from society. They would need to rely on society to survive.

Therefore, he had no choice but to leave and let Grandpa Wang and Wang Shengguo greet them. He secretly told them to agree to those who were more important and always have been friends with the Wang family. They could ignore the rest.

There were still two days before the Global Union Conference. Wang Teng was bored and left Donghai for Beijiang.

"Where are we going?" Biluo asked as she followed him.

"There's a dimensional rift at Beijiang. I'm going to destroy it," Wang Teng replied.

He knew that once there were dimensional rifts on Earth, it meant that the dark apparitions knew the space coordinates of Earth. It would be much easier for them to relocate here. However, the existing dimensional rifts could not be left untouched.

Otherwise, the dark apparitions would invade directly. With Earth's current defenses, it wouldn't stand a chance.

Biluo's gaze flickered, but she didn't probe further. She was very curious about his space talent, which was why she tagged along.

"By the way, when will you be willing to let me go?" Biluo asked indifferently while flying.

"When I'm done dealing with the matters on Earth, I'll naturally let you go."

Soon, they arrived at the dimensional rift in Beijiang.

"Young Master Wang!" The military generals stationed there welcomed him immediately.

The leaders of the military and martial arts didn't give him a higher rank since such ranks were meaningless to Wang Teng. All the military generals simply called him "Young Master Wang" when they saw him.

Wang Teng nodded. "I'm here to destroy the dimensional rift. There will be spatial fluctuations. To avoid any friendly fire, get the martial warriors over there to come back."

"Yes!" The military generals were all elated and quickly responded.

In less than fifteen minutes, all the martial warriors who received the order rushed back. Wang Teng said no more and headed straight to the dimensional rift.

Boom!

Not long after, a deafening noise came from the dimensional rift, which sounded like thunder.

Everyone witnessed the dimensional rift collapsing inward and forming a void. It then seemed to shrink until it became the size of a pinhole and vanished.

“It’s gone!”

“Hahaha, the dimensional rift has vanished!”

The martial warriors were full of joy and cheered. Wang Teng looked down and smiled. He didn’t stop and left the area.

He then traveled all over the world to destroy the dimensional rifts. He also managed to accumulate blank attributes by quelling a wave of star beasts.

In two days, Wang Teng managed to destroy all the dimensional rifts. This way, Earth would not be invaded by dark apparitions for a short period. After all, it wasn’t easy to come up with a space tunnel. Even if the dark apparitions had obtained the space coordinates for Earth, they would need some time and resources to open another space tunnel.

“It would be great if you knew the secret space technique of covering up space coordinates. Once you enter the Dark Universe and cover up the space coordinates of Earth, the dark apparitions would no longer be able to lock onto this planet by using the current coordinates,” Round Ball said.

“A secret space technique that covers up the space coordinates?!” There was dazzling light in Wang Teng’s eyes. He then said quickly, “You must know where I can obtain it. Tell me quick!”

“The Great Qian Empire has it. However, you will need a huge amount of wealth to get your hands on it. Secret techniques are very valuable. Even more so for secret space techniques. They are rare as well. A secret space technique would demand at least a hundred billion Great Qian coins,” Round Ball explained nonchalantly.

“A hundred billion Great Qian coins!” Wang Teng’s eyes widened as he cursed, “F\*\*k, that’s daylight robbery!”

“Of course.” Round Ball snickered. “Let me tell you, the most profitable industry in this world is not the slave trade nor spacecraft technology. It’s scriptures and secret techniques!”

Wang Teng was stunned for a moment before he suddenly thought of something.

Scriptures and secret techniques!

He had loads of them!

In the future, when he traveled in the universe, he could obtain other people’s scriptures and secret techniques by collecting attribute bubbles and then reselling them.

Wasn’t this perfect!

“Especially for advanced-rank scriptures and rare secret techniques, they are all worth tens or hundreds of billions. In fact, a single scripture or secret technique can be sold to multiple people. Those who create or master these scriptures and secret techniques are simply sitting on a treasure trove. They can

have a steady stream of wealth. The inheritors of scriptures and secret techniques are all rich magnates in the universe,” Round Ball added enviously.

“However, many of these scriptures and secret techniques are well guarded by people, and they wouldn’t be easily sold.” Round Ball cautioned.

Round Ball looked at Wang Teng with contempt. “That’s why the inheritance is so important in the universe. For a martial warrior like you who comes from a backward planet, you are extremely fortunate to obtain the inheritance of a cosmos-stage martial warrior.”

Wang Teng didn’t bother to argue with it. If it knew that he could generate scriptures and secret techniques continuously, an intelligent lifeform like it might just shut down in horror.

He started harboring evil thoughts.

“It looks like I will have to make a trip to the Great Qian Empire,” Wang Teng said thoughtfully.

“That’s for sure. Don’t think about it anymore. If you want to become stronger, you will have to take risks. Be more decisive. I’ll finish repairing the spacecraft soon, and we’ll be able to head to the Great Qian Empire.”

Wang Teng shook his head and changed the subject, “Have you found that guy?”

“Yes, I did. He’s just in the sea below you.” Round Ball pouted and nodded.

“Why didn’t you say so earlier? We almost flew past it.” Wang Teng snarled.

Couldn’t this Round Ball be more reliable?

It was late at night, and Wang Teng was in the depths of the ocean, finding the Windstorm Giant Ape from back then.

With Round Ball’s help, Wang Teng would be able to locate it even in the vast ocean. Of course, he was going to kill it once he found him!

It was best to not have any powerful star beasts on Earth. They were like time bombs, and no one would know when they would become set off.

Moreover, the Windstorm Giant Ape was a huge attribute bubble generator. Wang Teng was not going to let him off.

Without any hesitation, he headed straight into the depths of the ocean and rushed towards the seabed. There wasn’t a difference between being on land or at sea when he activated Deep Sea Breathing.

Even without Deep Sea Breathing, with his current strength, entering the ocean was not a challenge for him.

However, Deep Sea Breathing was a convenient skill. It would be a waste if he didn’t use it.

Round Ball noticed it and was in admiration. "That's a good skill. If you sell it, it could fetch a good price on the planets with more seawater. I don't know how you managed to have so many weird skills. I couldn't find any similar skills when I hacked into the Earth's network."

It was a little confused and was wondering if Wang Teng had inherited other things. Otherwise, it couldn't explain how he got these techniques.

Wang Teng ignored him and continued to dive deeper. The pressure around him increased and pressed from all directions. His body was strong, and the pressure was just like raindrops to him. It was nothing.

However, the deeper he went, the more sea beasts there were.

The star beasts were very powerful. According to Earth's standards, they would all be above the 8-star level.

The star beasts couldn't feel how strong Wang Teng was as he hid his presence. When they saw him, they all rushed towards him with a roar.

"You're looking for death!" He scoffed, and a cold light shot out of his space ring. It turned into a golden blade shaped like a crescent moon, spinning at high speed.

Swoosh!

The golden blade protected Wang Teng, forming a vacuum around him. The star beasts that surrounded him were all smashed into smithereens and were blocked by the golden blade, making it impossible to approach him.

Golden Crescent Blade!

This weapon was called Golden Crescent Blade!

It worked with spiritual power. Only cosmos-stage divine spirit masters were worthy to use a weapon like this. It was Nangong Yue's item but was acquired by Wang Teng. It suited him very well.

He found out that a weapon like this was worthy of being used by a cosmos-stage warrior. It was indeed extremely powerful.

Round Ball saw Wang Teng using the Golden Crescent Blade to slaughter the star beasts and cursed in his mind. It felt that he was destroying nature!

Suddenly, the surroundings went silent. The sea beasts had all disappeared, and a huge ocean trench appeared in front of Wang Teng.

Wang Teng stopped and squinted as he looked down. He saw that there was a huge black shadow crawling and resting in the trench.

Windstorm Giant Ape!

This bastard was hiding here!

Wang Teng sneered and stretched out his hand. The Golden Crescent Blade left behind an afterimage and vanished in front of Wang Teng.

The Windstorm Giant Ape suddenly felt danger and woke up. He let out a roar and swung the long rod in its hand.

Swoosh!

The sturdy long rod was actually sliced by the Golden Crescent Blade and a third of its length was gone. The cut surface was as smooth as a mirror.

Boom!

However, the Windstorm Giant Ape also took this opportunity to avoid a blow. It saw Wang Teng, and a piece of memory emerged in its head. It then roared, "Human, it's you!"

"Looks like you remember me!" Wang Teng smiled faintly. "I'll kill you today!"

The Golden Crescent Blade's speed skyrocketed, turning into a streak of bright golden light across the ocean, striking the Windstorm Giant Ape!
