

Martial Arts 921

Chapter 921: What Kind Of Monster Is He! (3)

Without his spiritual power, Wang Teng felt that something was lacking in the green constellations. He controlled his spirit constellation and took out three wisps of spiritual power.

The suction force immediately pulled the three wisps into the three wind constellations.

The spiritual power delved deep into the black hole in the core of the wind constellations. It gathered and spun furiously as it merged into the core.

Buzz...

The three wind constellations trembled simultaneously. The three wisps had become part of them.

Although only one wisp of spiritual power went to each constellation, this was a Celestial Realm spiritual power. It was more potent than the spiritual power that had merged with the other constellations.

The sea of nihility resumed its calm after the birth of the wind constellations.

The wind constellations gave off a faint green glow as it floated above the sea of nihility, making friends with the other Force constellations. They twirled and spun around one another like three babies frolicking under the care of a bunch of naughty kids.

At the same time, a peculiar fluctuation spread out from the wind constellations and merged with Wang Teng's limbs.

The Power of Life!

As it spread throughout his body, Wang Teng's body underwent a transformation. His blood, muscles, bones, and organs leaped in quality. Even his cells were changing. His physical body became even more perfect.

This wasn't the first time Wang Teng had experienced such a change, going through it seven times in total. The perfection of his physical body exceeded that of a celestial-stage martial warrior.

No ordinary martial warrior would dare to think about experiencing seven transformations when they reached the planetary stage.

From this point of view, you couldn't consider Wang Teng a normal person anymore. He was a monster!

After achieving his breakthrough, Wang Teng opened his eyes. A green glow flashed in the depth of his gaze while a powerful fluctuation appeared for an instant around his body.

"You..." Round Ball sensed Wang Teng's change instantly since it was just beside him. It widened its eyes in surprise.

"What about me?" Wang Teng was in a good mood. He had received a huge gain during his first trip to the virtual universe. He was lucky.

"Was it wind Force I felt just now? You advanced?" Round Ball was in disbelief.

Wang Teng looked at its expression and burst out laughing.

“What kind of monster is he?” Round Ball kept murmuring to itself.

From Wang Teng’s reaction, it could confirm that his wind Force had advanced to the planetary stage.

And it was after a single trip to the virtual universe!

Was he a bug?

Wang Teng ignored Round Ball’s astonishment and continued counting his spoils. Beside Force attributes, his emperor-level wind talent also rose by 4800 points. It was a great improvement.

Emperor-Level Wind Talent: 6400/10000

Wang Teng felt an increased sensitivity toward wind Force. They felt more amiable too as if his body was a bottle for wind Force. He was like the son of wind; he could control the wind Force with a single wave of his hand.

It felt amazing!

Then, there were 1800 points of Raging Gale Ultima.

Raging Gale Ultima: 300/3000 (fourth level)

Adding the 300 points of Raging Gale Ultima he received in the past, Wang Teng’s Raging Gale Ultima managed to reach the fourth level. It was the highest Ultima he had now.

Wang Teng’s gaze shimmered. He felt that his Raging Gale Ultima had become extremely powerful. One attack and he could kill a third-level celestial-stage martial warrior.

He also gained many blank attributes, picking up 130 thousand points. Subtracting almost 30 thousand points to raise his Raging Gale Scripture, he had 100 thousand blank attributes left. In total, his reserve had reached more than 200 thousand.

Wang Teng’s consciousness entered the virtual universe again and took control of his clone.

The other three martial warriors were tidying up the corpses of the Black Wind Vultures. They had rented a space ring to store all the materials they could find on the vultures. They would sell these materials.

The three of them were thrilled. They could get a sizable wealth from selling these Black Wind Vultures.

“Wang Teng, come quickly. There’s a star bone in the body of the Black Wind Vulture King. We can sell it for a high price! We’re rich!” Xiong Dali suddenly shouted in excitement.

“You can sell a star bone from the virtual universe?” Wang Teng was surprised.

“Of course. These items can be used in the virtual universe. Where do you think our weapons come from?” Xiong Dali explained, “However, the virtual items go for less, around one-tenth of the price in the real world.”

Wang Teng nodded. He had a better understanding of the prices in the virtual universe.

Overall, the virtual universe gave the martial warriors who entered a path of survival. However, they wouldn't grow dependent on it.

The price of items here was too low. It wasn't enough for them to become rich in the real world. That was why they needed to work hard to earn money in the real world so that they could spend and survive in the virtual universe.

Caw...

At this moment, a firm and loud screech came from the mountain range behind them.

"What's that sound?" Everyone's expressions changed.

"Woosh!"

The sound came from afar. Before it disappeared completely, a huge storm started to brew. The wind blew the martial warriors back.

Wang Teng was in no better state. If he hadn't used his spiritual power in time to hold onto the cliff in front of him, he might have been swept away by the wind.

He turned around and saw his teammates struggling to gain a footing. Frowning, he released three strings of spiritual power to pull them back.

"What's this? Where did the gale come from?" They were astounded.

"Let's not waste any time. There's a cave in front. Let's hide inside first," Wang Teng suggested. He had noticed a huge cave behind the Black Wind Vulture King's nest. The sudden change had caused a change in his expression as he pulled his teammates against the strong wind.

Chapter 922: What A Huge Bird!

The sudden strong wind caught the team off guard. Fortunately, they could rely on Wang Teng, who used his spiritual power without thinking to pull them back.

At this moment, they were hiding in the cave behind the Black Wind Vulture King's nest. They watched the storm blowing outside and felt the lingering fear.

Within seconds, the wind outside grew stronger and stronger. It soon turned into a piercing cold gale.

Swoosh!

The gale transformed into wind blades and slashed the walls of the mountain, leaving deep scars behind.

The three martial warriors were shocked. They took a few steps back.

"How dangerous!" Cold sweat dripped down Xiong Dali's head. He was scared out of his wits. A few wind blades had flown past them just now and almost cut his nose.

This gale was terrifying. They didn't dare to underestimate it even though they were planetary-stage martial warriors.

“This gale is very strong!” Brakay took a deep breath and said.

“I’ve never heard of the presence of such a powerful gale in the Black Wind Mountains. Even the Black Wind in this region isn’t as scary.” Xiong Dali wiped the cold sweat off his forehead as he nodded with a stern expression.

“What do we do now?” asked Hasten.

The three of them looked at Wang Teng. He was the strongest among them. If he hadn’t helped them, they might still be standing outside, welcoming the amazing gale with their bodies and turning into pieces of meat within a few minutes. Then, they would be forced to leave the virtual universe.

“Let’s wait,” Wang Teng replied calmly. He sat down cross-legged in the cave and frowned as he looked at the sky through the entrance.

What kind of beast made that sound just now? Was it behind this gale?

Many questions popped up in his mind.

The three martial warriors also calmed down seeing his reaction. They exchanged glances with one another and copied him, waiting silently for the gale to disappear.

However, life was always unexpected.

The gale didn’t disappear. Instead, it got more and more powerful. If one listened carefully, one could hear the ear-piercing cries of the wind.

Caw...

The same screech was heard once again. This time, it was nearer. It seemed to be right next to them.

The cry was shrill and penetrating. It stabbed into everyone’s ears. Xiong Dali and his friends covered their ears immediately with a painful expression.

Wang Teng’s expression changed. He used his Force to cover his ears to prevent his eardrums from getting injured.

The cries of star beasts were terrifying, especially powerful star beasts. Their cries were a kind of soundwave attack. Martial warriors could get injured unexpectedly if they took them lightly.

Wang Teng straightened his body and walked to the edge of the entrance. He looked up.

The gale immediately changed directions as if it had found its target. Wang Teng frowned. He activated his wind Force, but instead of fighting the wind blades head-on, he gently pushed the gale away.

The gale started to scatter and changed directions, moving away from Wang Teng.

This was his new understanding of wind Force. The wind was always in motion without a specific direction. Sometimes, he didn’t need to use brute force. He could guide the wind to achieve the results he wanted.

Of course, this was related to his talent. His emperor-level wind talent had improved tremendously, so his affinity with the wind Force also became very strong.

The other three martial warriors saw a faint green glow around Wang Teng. Then, the gale started to evade him automatically. Their eyes widened in astonishment.

They were martial warriors too, but why was Wang Teng so impressive?

While they didn't dare to get close to the entrance, Wang Teng stood there like nobody's business. It was unbelievable.

Caw...

The clear and loud cry shook the surroundings again. This time, Wang Teng felt that the sound was just above them. He squinted and looked over.

As the gale blew...

A large green bird flew above him along with a tornado.

Whenever it flapped its enormous wings, a gale would be formed that swept through the sky like a raging hurricane.

"That's one huge bird!" Wang Teng exclaimed.

Silence.

His three teammates had also noticed the giant green bird and were reeling in shock. They were stunned when they heard Wang Teng's words.

A huge bird?!

It sounded a little wrong.

Suddenly, Wang Teng's expression changed. After the appearance of this giant green bird, the wind Force around him went out of control and stopped listening to his commands. They automatically headed towards the bird.

Wang Teng grimly looked at the bird in the sky. Surprised, he released all his basic five element Forces to resist the powerful gale.

The wind Force had been snatched by the green bird, so he couldn't use it to influence the gale anymore. But he didn't want to give up. He tried to influence the wind Force in the entire area, snatching 'food' from the green bird's mouth.

Actually, he didn't need to be so serious since he was in the virtual universe, but what if it happened in real life? Should he wait to die?

Instead of putting himself in danger when that happened, why not use the virtual universe as a training ground?

Wang Teng finally detected a hint of wind Force after exerting his wind talent to the maximum. He immediately grabbed it for himself.

He didn't know that the green bird took his action as a provocation. It lowered its head and fixed its gaze on Wang Teng.

Noticing the change in the wind Force around it was a piece of cake for it.

Wang Teng immediately felt a chill zap down his spine. He had an ominous feeling. When he met the bird's sharp gaze, a glaring green light shot into his eyes.

"Damn it!" Wang Teng was appalled. He released his spiritual power to resist the invasion of the green light.

Even so, he still took a step back. Blood dripped down the edge of his eyes.

Clang!

The green bird screeched loudly. The wind Force in the area got activated and turned into a strong ball of wind as it shot towards the cave Wang Teng was in.

Boom!

Everyone was thunderstruck. In an instant, the other three martial warriors were cut into pieces and died on the spot. They left the virtual universe involuntarily.

Wang Teng had already released all his Force when the green bird launched its attack. He even released his spiritual power to form a defense shield to block the gale.

Unfortunately, his enemy was too strong. Wang Teng only lasted for three seconds before the gale engulfed him.

Then, an excruciating pain surged through his body, and he was swallowed by darkness.

"F**k!"

Wang Teng opened his eyes and panted. He couldn't help but curse aloud.

Chapter 923: You, You...

"Pant..."

Wang Teng took a few deep breaths before he overcame the pain of getting chopped into pieces.

This was the first time he had experienced death so closely. Besides, it wasn't a normal death. He didn't know if he was fortunate or not.

"Haha, it feels good, right?" Round Ball appeared in front of him and sniggered.

"It felt really... amazing!" Wang Teng rolled his eyes.

This fellow is the worst. It's gloating right now!

"Hahaha!" Round Ball saw Wang Teng's frustrated expression and burst into laughter.

Wang Teng's face wrinkled as he felt depressed. He then changed the topic. "What was that star beast? It's so powerful!"

He had never seen that green bird before and didn't know about its existence. He couldn't even sense how strong it was.

“That was the Divine Tempest Bird!” Round Ball put away its smile and answered, “It’s an extremely powerful wind-type Universe Behemoth. It is capable of traversing through space, and an adult would have the strength of the divine level.”

“Divine Tempest Bird! Divine level!” Wang Teng gasped.

For star beasts, the emperor level was equivalent to the planetary stage of martial warriors. The imperial level was further divided into three, namely low, mid and high tiers. These were equivalent to the celestial stage, heaven stage, and universe stage, respectively.

The Black Wind Vulture King was a first-level imperial-level star beast, which was equivalent to a first-level celestial-stage martial warrior.

Divine-level star beasts were stronger than universe-stage martial warriors. They were at least equivalent to an eternal-stage martial warrior in strength.

He didn’t expect that green bird to be at the eternal stage!

That was unbelievable!

No wonder it was so powerful!

“You’re lucky that you didn’t encounter it in the real world.” Round Ball joked.

“Had I encountered it in reality, I’d have run away. Why would I court death?” Wang Teng knew what Round Ball was referring to and shook his head. He then laughed again. “But Xiong Dali and the rest of them met tragic ends. They died immediately and were forced to leave the virtual universe.”

“They are unlucky to have met a reckless teammate like you.” Round Ball laughed.

“Hey, at least I helped them to hunt the Black Wind Vultures. Without me, they would have died when they faced the king.” Wang Teng grunted in dissatisfaction.

Was he tempting fate?

He was trying to determine if he had any chance of survival when facing a powerful being. Even though the answer was no, at least he knew now!

If he died without trying, he wouldn’t be any different from an anchovy.

If he didn’t tempt fate... Bah, if he wasn’t this fearless and risked his life to try, he couldn’t have gained anything.

A smile appeared on Wang Teng’s face when he thought about the attribute bubbles that dropped when the Divine Tempest Bird attacked him.

He was a professional in collecting attribute bubbles!

Even if he was on the verge of death, he would still seize the opportunity to pick more bubbles.

Constellation Force (Wind)*28000

Divine-Level Wind Talent*10

Tempest Domain*50

...

Wang Teng's eyes flashed with excitement. Although there were only three attribute bubbles, he was overjoyed when he saw the contents.

The 28000 points of constellation wind Force allowed him to advance to the fourth level of the planetary stage!

Constellation Wind Force: 600/40000 (planetary stage fourth level)

Wang Teng was caught off guard that his wind Force had advanced so fast. However, this wasn't the thing that made him the happiest. It was the other two attribute bubbles.

Divine-Level Wind Talent!

As the attribute bubble merged into Wang Teng's body, he could feel an incredible change in his talents. His wind talent advanced rapidly, leapfrogging and reaching an extremely high level.

After the emperor level was the imperial level, and after that came the divine level!

Now, Wang Teng's wind talent had jumped from the emperor level to the divine level. It was such a huge leap that even Wang Teng felt that it was unreal.

Divine-Level Wind Talent: 10/50000

Wang Teng immediately felt that he was more sensitive toward the wind Force and that his affinity with it had reached an incredible level.

He was like a divine being in the wind. As long as he stood there, boundless wind Force would flow toward him continuously.

He finally realized the talent of the Divine Tempest Bird. Although there was still a gap between them, it was no longer insurmountable.

Since they were both at the divine level, they could now be considered to be standing on the same level. If he faced it again, the situation where he could not control the wind Force would not repeat.

If they were in the same area, the wind Force would be split between them if there were no other wind-type star beasts.

Divine Tempest Bird would control around 70% of the wind Force while he would control the remaining 30%!

Wang Teng immersed himself in the thrills of the divine-level wind talent before controlling himself. He was in a crowded place, and it wasn't the right venue to display that kind of talent.

However, Round Ball had noticed this terrifying change and was dumbfounded, "You, You..."

It couldn't say anything else.

"Why are you so excited?" Wang Teng asked.

Round Ball took a deep breath and forced itself to calm down before asking, "What was that? All the wind Force was flowing towards you. It was like the wind Force was worshipping you like their king."

"Was it? Why didn't I feel it?" Wang Teng pretended to be stupid.

"Don't feign ignorance. I've only seen that happen to eternal-stage martial warriors. That phenomenon only happens with divine-level talents." Round Ball was in hysteria as he leaned toward Wang Teng and stared straight into his eyes.

It was so shocked that it could hardly believe what it had just seen. If it wasn't this close, it would have dismissed it as a hallucination.

Divine-level talent!

Anyone who had a divine-level talent had the possibility of advancing to the eternal stage, or an even higher stage!

Wang Teng actually had such a talent!

But why didn't it show up before? Had he been hiding it? Or did he, by some opportunity that it didn't know, advance his talent to the divine level!

The second scenario was almost impossible. No one had ever had such an opportunity in the virtual universe, but it was too much of a coincidence!

As soon as the Divine Tempest Bird with the divine-level talent appeared, Wang Teng obtained a divine-level talent. How could it not make a connection between the two?

"Oh, so I have a divine-level talent? No wonder I always thought that I'm a genius. I'm so talented!" Wang Teng began to fool around. He acted like he had this talent from the beginning and that he didn't know how high of a level it was.

Round Ball: ...

Chapter 924: Life Is About Tempting Fate!

Round Ball didn't believe Wang Teng's words at all. It had interacted with him for a while so it knew his personality.

He was full of lies and as sly as a fox.

He didn't even want to tell it, his closest companion, the truth.

Round Ball wanted to help Wang Teng. It wanted to understand him so that it could make plans for him. However, this brat was ungrateful and kept hiding things from it.

Actually, they had only met recently, so it was normal for Wang Teng to be on guard against it.

Round Ball felt a little helpless. It hoped that he would tell it the truth, but it also hoped that he would remain like this. That way, he wouldn't get tricked and die like Master Nangong.

Round Ball rolled its eyes when it saw Wang Teng's innocent expression. "Nevermind, since you don't want to say, I won't ask. Don't waste your talent."

“Hahaha, don’t be so unhappy. Isn’t it a good thing? You just have to know that I’m extremely talented!” Wang Teng laughed and winked at Round Ball shamelessly.

“Extremely talented? Don’t you feel embarrassed?” Round Ball was speechless.

However, it had to admit that Wang Teng’s potential was heaven-defying. He possessed multiple Forces, the space talent, and another divine-level talent... Anyone who had one of these traits would be considered a top genius. Yet, all of them had appeared on Wang Teng.

Wang Teng kept quiet. His gaze landed on the last attribute bubble.

50 points of Tempest Domain!

Tempest Domain!

This was a domain attribute!

Among the three attribute bubbles, the Tempest Domain must have the same importance as the divine-level wind talent.

Domain was a profound realm that only heaven-stage formidable warriors could comprehend.

Only at the heaven stage could one control a domain. In fact, the minimum criterion for becoming a heaven-stage martial warrior was to gain one domain.

If not, the heaven-stage martial warrior would only be half a step stronger than cosmos-stage martial warriors. Some talented cosmos-stage martial warriors could overcome this barrier and kill heaven-stage martial warriors.

But if they enlightened a domain, everything would be different.

A heaven-stage martial warrior with a domain was frighteningly powerful. They could fully suppress a cosmos-stage martial warrior. They reigned over their domain and could claim anyone’s life in it.

The battle between heaven-stage martial warriors relied mostly on the clash of domains. The one with a more powerful domain would have the absolute advantage.

Wang Teng managed to get a domain when he was just at the planetary stage.

This was incredible!

Since he had a domain, when he advanced to the heaven stage in the future, he would definitely be more powerful than others in the same stage. Even if he didn’t reach the heaven stage, he might have the chance to battle with heaven-stage martial warriors with the help of his domain.

This was why Wang Teng was so excited. He suddenly wanted to thank the Divine Tempest Bird. If he hadn’t met that bird, he wouldn’t have gotten all these amazing attributes.

To that bird, the domain was just an easy skill it could execute at any moment. It probably felt that Wang Teng should be proud since he had managed to get it to use its Tempest Domain. But to him, this Tempest domain was highly important!

In the planetary stage, celestial stage, and cosmos stage, the Tempest Domain could be his trump card.

Looking at it this way, meeting the Divine Tempest Bird was his fortuitous encounter.

According to Round Ball, whether it was the real world or the virtual universe, it was rare to find a star beast like the Divine Tempest Bird.

Of course, Wang Teng had to thank himself for challenging the Divine Tempest Bird. If he hadn't challenged it because he was unwilling to accept defeat, the Divine Tempest Bird wouldn't have thought that he was provoking it. It would have just flown away, and he wouldn't be able to collect these attributes.

In summary, life was about challenging death.

At this moment, the Tempest Domain attribute bubble merged into Wang Teng's mind and turned into various images. There was a huge green bird flying in the air with winds blowing all around it.

There were different intensities of wind. Some were a breeze while others were like tornados. Though their intensity might be different, they were all winds. They gathered in this region and formed a domain filled with winds and gales.

This was the Tempest Domain!

The green bird could control all the winds in this domain, turning them into its blade, sword, and any kind of weapon. It could destroy all enemies.

Wang Teng was enlightened. He quickly grasped the Tempest Domain. However, the range of his Tempest Domain was limited. It was related to his points.

Tempest Domain: 50 (5 meters)

1

Wang Teng looked at his attributes panel. 50 points of Tempest Domain only allowed his range to be at five meters.

It might seem short, but no one would be able to get within five meters of him.

Wang Teng stopped smiling. After counting his gains, he stood up and looked at the sky. It was still dark outside.

The night on the No. 4 Defense Planet was longer than the day. It was understandable why it was still nighttime.

Wang Teng was prepared to go back to his bed for cultivation when he suddenly heard a series of loud explosions.

Boom!

The room started vibrating violently. Fortunately, it was sturdy. The sudden tremor didn't cause any cracks or damage to the room.

"What's going on?" Wang Teng frowned.

He felt a little helpless. For some reason, troubles followed him everywhere as if they came to look for him personally. He just had an intimate interaction with the Divine Tempest Bird in the virtual universe, and now, something happened in real life.

“Let me take a look!” Round Ball disappeared. It was an intelligent lifeform, so it could hack into the surveillance facilities and get first-hand information quickly.

A few seconds later, Round Ball reappeared in front of Wang Teng. It had a grave expression. “Dark apparitions! Dark apparitions have invaded this battle fortress!”

1

“Dark apparitions!” Wang Teng’s expression changed slightly. “Why did they suddenly sneak into this planet? Could it be...”

He exchanged glances with Round Ball and thought of something. He exclaimed, “They want to attack and capture this battle fortress!”

Coincidentally, a high-pitched alert rang. The blaring siren spread through the battle fortress and echoed continuously in the air.

“Beep! Beep! Beep!”

“Dark apparitions invasion! Dark apparition invasion! Dark apparition invasion!”

“All martial warriors, please get into your code red positions and prepare for battle!”

“Repeat, dark apparition invasion! All martial warriors, please get into your code red positions and prepare for battle!”

...

Chapter 925: Are You Trying To Be Bigger Than Me?

Boom! Boom! Boom!

The second the alert rang, light beams shot out from various buildings. Frightening Force fluctuations scattered in the air.

The battle broke out in an instant.

Wang Teng walked out of his room and looked into the sky. Activating his Spiritual Sight, he saw a few balls of extremely thick dark Force. They were like little black suns hanging in the sky, giving off evil and chaotic aura.

The human martial warriors turned into dazzling balls of lights and crashed into the black balls of lights. Explosions occurred.

Indeed, there were dark apparitions!

There are more than ten devil lords and around five or six devil kings!

Wang Teng turned serious. He knew how powerful the invaders were.

The devil lords were like planetary-stage martial warriors while the devil kings were like celestial-stage martial warriors.

Boom!

A rumble rang through the air, shattering the space and sweeping the sky with its terrifying residual impact.

Wang Teng immediately turned and saw two thick and glaring balls of light colliding in the air. One was green while the other was pitch-black.

“That’s... a devil emperor!”

Wang Teng’s pupils constricted uncontrollably when he saw the pitch-black ball of light. It must belong to a dark apparition that was more powerful than a devil king.

The Devil emperor came after the devil king. Such a figure was equivalent to a cosmos-stage martial warrior!

The ball of green light must belong to Di Qi from the No. 4 Defense Planet. He was a cosmos-stage martial warrior who possessed wind Force.

Boom, boom, boom...

The ball of green light collided fervently with the devil emperor. Forces were released continuously as they turned into frightening attacks hurled at each other.

It was an intense fight.

Wang Teng didn’t plan to stay and watch at the side. He touched his chin with a glimmer in his eyes.

Since he wanted to become a baron of the Great Qian Empire, he should build a reputation and gain some good impressions. This was a god-send opportunity.

He flew into the air and observed his surroundings.

He noticed that the entire battle fortress was covered by a defensive array. However, cracks had appeared in three areas. Countless dark apparitions charged out from the darkness and crashed into the cracks, wanting to join the battle inside.

Just like Wang Teng had guessed, the dark apparitions wanted to capture this battle fortress!

He immediately chose the most damaged crack. It had the largest number of dark apparitions, and the martial warriors from the Great Qian Empire couldn’t resist them. They were retreating while the powerful dark apparitions were increasing the damage.

Wang Teng decided to act.

He took out his sword and slashed a scorching sword glow out. More than ten dark generals were beheaded at once. It was instant death. The dark apparitions below the rank of the devil general were slaughtered like patches of grass.

To the martial warriors in this battle fortress, any dark apparitions below the devil lord rank were nothing to them. However, they won in numbers. It was troublesome when they charged at the martial warriors like a huge wave.

Most martial warriors didn't have the time to bother about these low-class dark apparitions while they were fighting with similar level dark apparitions. Sometimes, they would get pounced on and injured by the dark apparitions. They would be in a terrible state if the dark Force invaded their bodies.

The human race was always fearful of the dark Force.

"Wang Teng!"

After entering the battle, he heard someone calling his name in surprise.

Wang Teng glanced in the direction of the sound, noticing Olivia and her friends. They were fighting dark apparitions together.

"You're here too!" Wang Teng killed a few dark apparitions and replied to her calmly.

"It's not strange for us to be here. However, I'm quite surprised that you're not hiding," Clive pouted and said.

Wang Teng ignored him and asked Olivia, "Why are the dark apparitions here? Do you get attacked by them frequently?"

"Not really. Dark apparition invasions are rare. They must have a strong motive this time," Olivia said grimly.

There was a blast in the sky. A ball of light suddenly plummeted to the ground not far away from them.

A celestial-stage human martial warrior had died!

Olivia and her friends were appalled when they saw the scene. A martial warrior was killed so quickly. The dark apparitions were surprisingly strong!

"How did the dark apparitions manage to sneak in? Is our patrol that weak?" Wang Teng glanced at the ball of light before speaking.

Olivia and her friends were rendered speechless when they saw how calm he was. He even had the heart to complain.

What a heartless fellow.

"Despite the strict patrol and inspection, they still managed to sneak in," Olivia frowned and replied.

"That means you guys didn't do it properly," Wang Teng continued complaining.

Olivia and her friends wanted to offer a retort. Suddenly, their expressions changed, and they screamed in shock, "Be careful!"

"Haha, how dare you let down your guard in front of me. Are you that eager to die?" A peal of cold and evil laughter rang behind Wang Teng.

Swoosh!

Along with it came a sharp and black claw slashing through Wang Teng's body.

Olivia and her friends were shocked. There was fear in their eyes. It must be terrifying to watch someone dying in front of their eyes when they were conversing.

"No, wait."

But soon, they noticed a problem.

No blood came out from Wang Teng's chopped-up body. Instead, it distorted and slowly dissipated.

A devil king had appeared behind Wang Teng silently. He was the one who had attacked him. But seeing Wang Teng's disappearing figure, he was stunned.

"Where are you looking at?" Wang Teng's calm voice sounded behind the devil king.

"When?!" The devil king was bewildered. He immediately dashed forward.

Boom!

A terrifying fist aura exploded and slammed directly onto the devil king's back. He howled in pain and flew back like a sandbag.

Wang Teng turned his wrist and said, "Are you a giant apparition? Indeed, you have thick skin. My hand is hurting a little from punching you."

1

Olivia and the others stared at him in a daze. They didn't know what they should say.

Swoosh!

Wang Teng glanced at them and threw his sword out with his other hand. He harvested the lives of all the dark apparitions that had gathered around them.

"Why are you standing there? Do you want to die?"

Olivia and the others regained their senses. They suppressed the astonishment in their hearts and started fighting with the dark apparitions.

"Roar!"

The giant devil king didn't die. He gave an angry roar and started expanding rapidly, growing to six meters. There were pitch-black patterns covering his body. After the transformation, he dashed toward Wang Teng.

"Are you trying to compete with me in size?" A contemptuous smile appeared at the edge of Wang Teng's lips.

Heart Of Magnetic Essence!

There were many metals stored in Wang Teng's space fragment. When he took them out, they started gathering around his body. His figure expanded, turning into a metallic giant around ten meters tall.

The Heart Of Magnetic Essence was a combination of the Sand Control Talent, Heart Of Zhongyan, and the Magnetic Physique. The Magnetic Physique could attract metals. Thus, the Heart Of Magnetic Essence also possessed the ability to attract metals.

The six-meter-tall giant devil king was flustered when it arrived in front of Wang Teng.

The ten-meter-tall metallic giant hammered its huge fist down with terrifying force. It hurled down like a meteorite.

Roar!

The giant devil king howled furiously to show that he wasn't afraid. He raised his own fist and welcomed the metallic giant's punch.

Strength of Ultima!

The giant devil king possessed the Strength of Ultima too. Sensing the same Strength of Ultima on Wang Teng's fist, he deployed his skills without any hesitation and welcomed the punch with full force.

Boom!

The two fists collided, one up and one down.

The third level of Strength of Ultima! Wang Teng squinted. He felt the pressure from his opponent's Force and took a few steps back.

The giant devil king sneered. He stepped on the ground and chased after Wang Teng, raising his fist again to give another punch.

"You're forcing me!" Wang Teng glared at him. He added blank attributes to his Strength of Ultima.

The second-level Strength of Ultima skyrocketed instantly. After spending 17000 blank attributes, he managed to reach the fourth level.

Strength of Ultima: 1000/3000 (fourth level)

Boom!

Wang Teng received the giant devil king's punch without any hesitation.

Boom!

When the two fists collided, cracks like spiderwebs started appearing on the devil king's body. The cracks then shattered, and the giant devil king shrunk in the next second.

"How is this possible?" The giant devil king's expression underwent a huge change. He didn't expect Wang Teng's strength to become this frightening all of a sudden.

He raised his head and saw a cold smirk on the metallic face of this giant.

Boom, boom, boom!

Wang Teng swung his fist again and released punches at the speed of lightning. They shot down like a cannon.

Every punch was infused with the Strength of Ultima.

The giant devil king executed his Strength of Ultima to the maximum and resisted Wang Teng's attack.

His face gradually turned ugly. Soon, he was at a disadvantage. He couldn't withstand the onslaught of the punches. Wang Teng's punches broke his defense and landed on his huge body.

Roar!

The giant apparitions had strong and tough bodies. Their muscles were firm and bulging as if they were made of steel. Yet, under Wang Teng's violent punches, ghastly cracks started to appear on his skin. Blood seeped out from the cracks and soaked his entire body.

He gave a loud roar, filled with unwillingness and panic.

This human martial warrior had exceeded his expectations.

"Die!" Wang Teng said calmly. His voice was filled with ruthlessness.

The giant devil king was flabbergasted. He wanted to retreat. He had no intention to fight anymore and started backing away in an attempt to escape.

Boom!

Wang Teng moved his body like lightning. The giant devil king almost lost his soul in fright.

Wang Teng caught up with him and threw his fist out. The fourth-level Strength of Ultima burst out like water out of a broken dam, congregating into a beam of fist glow as he threw it out.

The giant devil king screamed in pain and exploded on the spot.

Some distance away, Olivia and her friends were dumbstruck.

Chapter 926: That's Quite Sudden~ (1)

How... violent!

Olivia, Clive, and the young people gulped, their goosebumps standing on end.

A giant dark apparition, who was known for his strong and tough body, was beaten to death by Wang Teng.

This fellow was scary!

He was a violent man!

If they remembered correctly, Wang Teng was a planetary-stage martial warrior. Yet he killed a devil king. This was amazing.

Clive felt fortunate that he hadn't offended Wang Teng. The consequences would have been unbearable.

The fourth level Strength of Ultima is indeed powerful. Wang Teng looked at his fist and gave a bright smile.

Clive shuddered when he saw his pearly white teeth. He looked scary!

He wouldn't provoke him in the future.

Wang Teng collected the attribute bubbles dropped by the dead giant devil king.

Constellation Force (Dark)*11500

Emperor-Level Dark Talent*350

Planetary Realm Spirit*300

Strength of Ultima*500

Devil Transformation*100

...

The constellation dark Force surged into Wang Teng's body and ended up in the dark constellation. The points of his dark Force rose again.

Constellation Dark Force: 17500/30000 (planetary stage third level)

The emperor-level dark talent points merged into Wang Teng's dark talent, increasing his dark talent.

Emperor-Level Dark Talent: 2290/10000

The 300 points of Planetary Realm Spirit got converted to 30 points of Celestial Realm Spirit. It was negligible when compared with the 50-thousand upper limit of the Celestial Realm Spirit.

He also collected 500 points of Strength of Ultima. He was surprised that a giant apparition managed to grasp the Strength of Ultima. The other party was just unlucky to have met him.

1

Wang Teng raised his Strength of Ultima to the fourth level and beat the giant apparition's third-level Ultima.

The 500 points of Strength of Ultima the giant apparition left behind became Wang Teng's Strength of Ultima's building block.

Strength of Ultima: 1500/3000 (fourth level)

He received some new enlightenment regarding the Strength of Ultima. He digested them quickly and made them his own.

Finally, there were 100 points of devil transformation. Wang Teng didn't know what to feel about it. This attribute made its appearance again after he left Earth.

However, he still accepted it. He might need it in the future.

Devil Transformation: 150/300 (well-versed)

...

Boom!

The martial warriors around Wang Teng got invigorated upon seeing him kill a devil king. Right then, a violent explosion came from a corner of the defensive array.

Roar!

The howls of the dark apparitions swept over continuously. Everyone turned around and was appalled.

The defensive array was broken!

A huge hole had appeared in a corner of the array where numerous dark apparitions crawled in like ants. It was a chilling sight. There seemed no end to them.

“Quick!”

“Stop them! Don’t let them enter the array!” A celestial-stage martial warrior from the Great Qian Empire gave a thunderous roar as he glared at this scene in anger.

Martial warriors bolted toward the hole to stop the dark apparitions.

“Kill!”

The martial warriors’ eyes were bloodshot. Battle cries shot through the sky. Everyone knew what would happen if the dark apparitions entered the fortress. They had no choice but to guard the breach with their lives.

“Move back!”

The heavy weapons within the battle fortress were finally put to use. Force congregated into balls of light and shot toward the hole. The weapons had a large area of effect, clearing an entire patch of dark apparitions.

Boom!

Boom!

The Force ball exploded among the dark apparitions. These low-class dark apparitions couldn’t withstand such an attack. Their bodies torn to shreds, black blood and broken limbs scattered across the ground.

“Guard it”

“Guard it”

The martial warriors screamed at the top of their lungs as they charged toward the injured dark apparitions.

These low-class dark apparitions had no mind of their own. Even after a group of them died, they continued swarming forward fearlessly.

“Let’s go and help!” Olivia furrowed her brows as she called her friends over.

Wang Teng was faster than them, rushing ahead of the group and arriving above the hole. He pointed his blade at the sky. Waves tossed and turned in the air.

“Move!” Wang Teng bellowed.

The martial warriors below saw the towering waves behind him and stepped back in astonishment.

Wang Teng slashed his sword down.

Ultima·Thousand Crashing Ripples!

Boom!

The multiple layers of waves formed from Force crashed into the ground, sweeping the majority of dark apparitions and mincing them to death on the spot.

Olivia and her friends lost their voices when they saw this scene.

This fierce attack suited Wang Teng’s style!

Changing their direction, they flew toward the other dark apparitions and continued fighting with them. All of them had reached the planetary stage, so they weren’t weak. They were like killing machines when they entered the pool of dark apparitions. Numerous heads were chopped instantly.

Of course, the dark apparitions wouldn’t sit and let this happen again. A few devil lords zoomed out and attacked Olivia and her friends.

Boom! Boom! Boom!

This was an intense battle. Both parties were on par in strength.

Wang Teng didn’t waste any time. He kept killing dark apparitions and the dark Force in his body shot up without stopping.

This felt refreshing!

Some powerful dark apparitions were hitting the defense array outside. They wanted to destroy it entirely and enter the fortress.

Chapter 927: That’s Quite Sudden~ (2)

The array trembled under their attacks, and the situation worsened.

“Runemasters, where are the runemasters? Hurry up and repair the arrays!”

“Martial warriors, protect the runemasters!”

The roars spread throughout the battle fortress.

The runemasters had already left for the damaged areas, beginning the repair. Many martial warriors surrounded them in a protective circle.

Wang Teng looked over and noticed that although the runemasters were anxious, they were unable to repair the arrays. On the other hand, the dark apparitions' rate of destruction was going up.

"If this goes on, the array would be destroyed!" Wang Teng frowned.

"Wang Teng, go and help them stabilize the array first!" Round Ball's voice rang in his head.

That was his plan as well. He stopped hesitating and went to where the array was the most damaged.

The surrounding martial warriors became vigilant when they saw a newcomer and almost attacked him.

"I'm on your side!" Wang Teng said.

"Who are you?" The surrounding martial warriors were the guards of the battle fortress. They didn't recognize Wang Teng and naturally looked at him with caution.

It was common for the dark apparitions to disguise themselves as people in wars. That was the reason why the dark apparitions could invade the battle fortress so easily this time. There were dark apparitions who excelled at disguising, infiltrating the battle fortress without catching attention.

That was why the guards were very cautious.

"Please show us your identity." A guard who looked like a leader stared at Wang Teng coldly.

"Ugh... I have no identity!" Wang Teng waved his hand.

In an instant, all the guards raised their weapons and pointed them at Wang Teng. They were going to shoot him if he showed any hints of resistance.

Most of them had rune guns, and the runes were beginning to gather energy, ready to fire any time.

"Wait!" This time, an anxious voice rang out from the side.

Everyone immediately looked over.

"Yin Hai!"

Wang Teng recognized him and was a little surprised. After all, the guy had been abused by him for so many days. It would be bad if he didn't recognize him.

He was also a martial warrior who was protecting the runemasters. He was originally resisting the dark apparitions on the frontlines but came over hurriedly to stop the guards when he saw that they were about to shoot him.

He knew that Di Qi had personally brought Wang Teng here. It was impossible for him to have anything to do with the dark apparitions.

"You know him?" the guard leader asked.

Yin Hai stepped forward and whispered a few words in his ear. The guard leader immediately eased up and waved his hand. The surrounding guards then dispersed, covering them with firepower as they continued to fend off the dark apparitions.

"You are Master Di Qi's guest!" He was surprised, "But what are you doing here?"

"I'm a runemaster," Wang Teng answered.

"A runemaster?" Yin Hai and the guard leader were surprised.

"Is there a problem?" Wang Teng walked toward the group of runemasters who were trying to repair the rune array.

"No, there's no problem. If you're really a runemaster, please help to repair the defense array. Please!" The leader was overjoyed. His attitude changed as he beseeched Wang Teng.

Even in a battle fortress like this, there were only twelve runemasters. They were all scattered around the defense array. For every area that was damaged, it would be good if there were two or three runemasters there. They were lacking in manpower.

This area was the most damaged, and dispatching four runemasters here wasn't even enough. If Wang Teng was really a runemaster, he would definitely relieve the pressure on the other runemasters.

Wang Teng didn't say much and went towards the runemasters. Scanning the area, he realized that attribute bubbles were scattered all around. Without thinking about it, he used his spiritual power and collected them.

Rune Knowledge*100

Rune Knowledge*50

Planetary Realm Spirit*60

Rune Knowledge*80

Planetary Realm Spirit*120

Imperial Realm Spirit*150

...

Wang Teng couldn't help but be overjoyed. It was a pleasant surprise!

Sure enough, good deeds were rewarded. He was already given a small reward before he even started!

There were 1150 points of rune knowledge, 850 points of Planetary Realm Spirit, and 1200 points of Imperial Realm Spirit.

The spirit attributes were not as important as the rune knowledge attributes in playing a big role here.

As the attribute bubbles merged, scripts of rune knowledge appeared in his mind, and they formed insights that were absorbed by him.

Wang Teng was originally a runemaster. But now, he had advanced into a... grandmaster!

That's quite sudden~

1

He didn't even have the slightest preparation and just advanced like this into a real grandmaster.

Grandmasters were respected figures wherever they went, and masters would cozy up to them.

Runemaster: 310/10000 (grandmaster)

Wang Teng saw the change in the attributes panel and couldn't contain his smile. Now, he was even more confident in repairing the defense arrays.

He strode up in front of a runemaster. It wasn't difficult to recognize this person's status.

He was frowning and was grabbing his gray hair, seemingly in a great predicament. However, the problem was that he was balding. He wasn't going to let off the few strands of hair he had left. How brutal.

It pained Wang Teng to see him like this.

"Runemasters need a lot of hair!" He couldn't help but touch his thick black hair as he exclaimed.

The leader of the guards glanced at Wang Teng and then at the runemaster. His mouth twitched as if he knew what Wang Teng was thinking about. He cleared his throat and asked, "Cough, shouldn't you hurry up?"

Wang Teng glanced at him from the corner of his eyes. Despite knowing that he was anxious, he patted the runemaster's shoulder and said, "This... brother, excuse me!"

The bald runemaster was taken aback. He turned around and was about to lose his temper. "Don't disturb me. Why is a kiddo here? Get him away."

He didn't even look at Wang Teng and continued to think hard.

The rune array was severely damaged, with many runes incomplete. He wanted to take a shortcut and repair them quickly, but he feared that the formation would get unstable and be damaged again after a short time. If he followed his usual practice, he would spend too much time. He couldn't afford to do that.

"Kiddo?" Wang Teng raised his eyebrows. It was the first time anyone had dared to call him that.

He released his spiritual power. It formed an invisible hand and grabbed the bald runemaster by his collar and lifted him up in the air.

"Who's that? What are you doing? Which bastard dares to fool around with me? Let me down..." The bald runemaster was startled as he struggled mid-air. He even used Force, but he could not break free from the invisible hand.

Wang Teng was a Celestial Realm divine spirit master. The bald runemaster was at most at the Planetary Realm. If he could break free, Wang Teng should just die of shame.

The leader of the guards saw this and was stunned. He then looked at Wang Teng in surprise, wanting to laugh.

The bald runemaster looked like a dog who was being leashed. So fierce!

However, it didn't look too good for a runemaster to be hanged in the air like this. He wanted to persuade Wang Teng but realized that he was already squatting at the bald runemaster's spot. An emerald flame was smeared across the damaged runes.

The damaged area was uneven, but it became smooth under the high temperature of the emerald flame.

And the remaining runes were also erased.

A gleaming light exuded from Wang Teng's other hand as he weaved and formed the runes quickly...

In just a few moments, the damaged array was fully repaired. It was almost as if it had never been damaged.

The leader of the guards widened his eyes in surprise.

The bald runemaster also stopped moving. He stared blankly at the repaired runes and at Wang Teng, who was already heading to another area. Failing to notice that the invisible hand holding him had disappeared, he fell hard onto the ground.

"Ah!" The bald runemaster cried as he touched his butt.

Chapter 928: Lazy Mist Devil Emperor!

The bald runemaster disregarded the pain on his butt and crawled over to the area Wang Teng had patched. He stared at the mended array and gasped in astonishment.

"This..." The bald runemaster couldn't believe his eyes. He kept repeating the same word over and over again but couldn't complete a sentence.

Perfect!

The repair was perfect!

It was as if the array had never been damaged. No difference could be seen between before and after. The most important thing was, how long did he take? He almost couldn't see his actions!

It only lasted around 5 seconds!

Even he couldn't complete it so quickly and accurately. For god's sake, the other party was just a young man!

Where did this monster come from?

Wait, that green ball of flame...

"Master Fan, are you alright?" The leader of the guards came forward.

"I'm good." The bald runemaster, Fan Taining, regained his senses and grabbed the leader's collar. He asked agitatedly, "Who's that? Where did you find this master-level runemaster? No, he might be at the grandmaster level."

“Ah... grandmaster!” The leader didn’t mind Fan Taining’s impolite gesture. Rather, he was stunned by his words.

Wang Teng was a grandmaster-level runemaster?!

That was impossible!

“Who’s he? Tell me!” Fan Taining repeated his question impatiently.

“He’s Master Di Qi’s guest. His name is Wang Teng, and he says he’s a runemaster. I don’t know his real identity,” the leader answered.

Fan Taining threw the leader down and chased after Wang Teng.

By now, Wang Teng had kicked a tall and skinny runemaster away and started repairing the array. The kicked runemaster wanted to show his might, but Fan Taining stopped him. Placing his finger on his lips, he said, “Shh, watch him.”

The tall and skinny runemaster got confused. However, he still suppressed his anger and stared at Wang Teng.

Once he saw what Wang Teng was doing, he was stunned. Astonishment filled up his face.

“Oh my god!”

“Shhh!” Fan Taining immediately stopped him.

Even without his reminder, the tall and skinny runemaster had already covered his mouth. He continued to stare at Wang Teng intently.

By then, Wang Teng had completed the repair and proceeded to another point. The runemasters walked forward and gasped. They were filled with disbelief.

The repair was perfect!

“Old Fan, who’s he?” the tall and skinny runemaster asked.

“I don’t know. However, his rune mastery is definitely above ours.” Fan Taining shook his head and chased after Wang Teng. “Come, let’s follow him.”

The tall and skinny runemaster nodded fervently and chased after Wang Teng.

After some time, another runemaster joined the party. The size of Wang Teng’s followers started to grow.

This resulted in a funny scene appearing on the damaged parts of the rune array. A bunch of old runemasters followed behind a young man. They were all extremely careful as if afraid of disturbing him almost behaving like thieves.

Approximately ten minutes later, Wang Teng had completed the repair. All the holes in the rune arrays were repaired perfectly, locking the dark apparitions outside.

The martial warriors from the Great Qian Empire were invigorated. They charged toward the remaining dark apparitions within the array and started hunting them.

Without the external reinforcements, these dark apparitions were destroyed quickly.

The crowd cheered.

“Erm... mister...” Fan Taining walked towards Wang Teng with the other runemasters behind him. They stared at Wang Teng eagerly.

“Let’s talk after we win this battle. There are other areas that have been damaged. Don’t waste time and help the martial warriors.” Wang Teng dashed towards another area that had been damaged.

This was just a partial victory. The dark apparitions had invaded other parts of this battle fortress. They shouldn’t let down their guards at this crucial moment.

The runemasters turned serious. They hurriedly followed Wang Teng’s instructions and darted toward the damaged areas.

These runemasters were at least at the planetary stage, so they could all fly. They might not be as fast as Wang Teng, but the distance was short, so they didn’t lag too much.

“Go to another array to help. I’ll handle this part,” Wang Teng said.

“Yes!”

Fan Taining and the other runemasters found it a pity. They wanted to follow Wang Teng and witness his repairing process. His rune mastery was much higher than theirs. Watching him at work was a great help to them. However, they knew that they were in an emergency and it wasn’t the right time to watch and learn.

Hence, they nodded and rushed toward another region.

“Other people might not know Master Wang Teng. Let me introduce him to them to prevent any misunderstanding.” Fan Taining suddenly took a turn and went back to find Wang Teng.

“F**k, Fan Taining, you’re despicable!”

The runemasters were furious. They were angry at themselves for not thinking about this matter and letting Fan Taining one-up them.

However, Fan Taining did save much trouble. Wang Teng didn’t need to take care of those runemasters with bad tempers. As he repaired more and more arrays, the defense shield around the battle fortress grew stronger. The dark apparitions couldn’t find any loopholes.

The defensive shield of the battle fortress was indeed powerful. It could resist an attack from a cosmos-stage martial warrior. If the dark apparitions hadn’t sneaked in and attacked the fortress, they wouldn’t have been able to break their defense.

In the sky, Di Qi, who was fighting with the devil emperor, smiled when he saw the change in the situation.

“Hahaha, you guys have no chance!”

“Hmph!”

The devil emperor opposite him was shrouded in a ball of black mist. Only a pair of crimson and evil eyes were visible. He snorted as he looked down below and quickly noticed Wang Teng, who was shuttling back and forth in the array, repairing the damaged parts. His cold voice echoed in the air, “Useless, kill that human and stop him from repairing the array!”

A few devil kings who were fighting other human martial warriors charged in his direction. There were as many as three devil kings.

Di Qi frowned. He was a little worried at first, but he felt more at ease when he remembered his strength.

The devil emperor noticed Di Qi’s expression. His brows locked beneath the layer of black mist. “You seem confident in him.”

“Stop the bullshit. Lazy Mist Devil Emperor, I’ll kill you here to pay tribute to my dead clansmen!” Di Qi shouted in anger. A green aura raged around him, and a terrifying sword aura erupted from his sword.

Swoosh!

The wind turned violent. The area around Di Qi was filled with a tumultuous gale. It kept expanding and started to give off a ringing sound. If one looked carefully, one would notice countless green sword glows roaring inside.

The gale gradually expanded to a few hundred meters. The entire region was engulfed by the green sword conscious.

“Domain!

“You’ve enlightened a domain!”

This was the first time the Lazy Mist Devil Emperor’s expression had changed. He retreated frantically.

“It’s too late to leave!” Di Qi’s voice was heard clearly. The Lazy Mist Devil Emperor was submerged entirely in the green domain.

“Even if you have a domain, you can’t stop me from leaving.” The Lazy Mist Devil Emperor sneered. The black mist around him scattered and expanded, pushing against the green domain.

There was black light shimmering in the mist. When it collided with the sword aura in the green domain, loud explosions would shake the surroundings.

“Domain! Di Qi has a domain!” Wang Teng was flabbergasted as he raised his head and looked at the battle in the sky.

Di Qi was a tough opponent!

Normally, only heaven-stage martial warriors would have a domain. You could say that Di Qi’s talent was extremely high.

However, Wang Teng managed to get a domain when he was just at the planetary stage. He was even more impressive than Di Qi.

He had stopped his repairing work and slowly rose into the air.

Wang Teng knew that the devil emperor had looked at him just now. At the same time, he also saw the three devil kings dashing over on the devil emperor's order.

But he wasn't afraid.

"Master Wang Teng, let the other celestial-stage martial warriors stop them for you." Fan Taining was worried. He wanted to stop Wang Teng.

To him, Wang Teng was an exceptionally talented grandmaster-level runemaster. How could he be at the forefront? Most runemasters were focused on their rune mastery. Hence, their battle power wasn't strong, and they couldn't fight the dark apparitions.

"It's alright. It's just three devil kings. I can kill them easily." Wang Teng's voice was calm as he rose into the air.

Fan Taining and the other runemasters were so shocked they didn't know what to say. Somehow, they felt that Wang Teng was boasting.

"Impudent!"

"How dare you!"

"You're just a planetary-stage martial warrior. How dare you say such things!"

The three devil kings were infuriated. They executed their dark Force attacks and pounced on him like wolves.

Wang Teng remained silent. Killing intent shot out of his eyes as he scoffed. "Planetary stage."

Swoosh!

There was an unnoticeable sound of something piercing through the air.

A ray of golden light flew out of Wang Teng's body at the speed of light, shooting toward the three devil kings.

The trio was already very close to him. They were dumbstruck when they saw the golden light.

"Oh shit!"

The three devil kings gave up on Wang Teng. They directed their attacks towards the beam of golden light instead.

Boom!

Boom!

Boom!

Explosions rang. Thick black light engulfed the golden light. The three devil kings heaved a sigh of relief involuntarily.

Swoosh!

At this moment, the golden light reappeared. It seemed to have traveled through space.

The three devil kings lost their cool.

Swoosh!

The golden light slashed through the air, chopping two devil kings into pieces on the spot. Black blood spurted into the sky. The remaining devil king managed to evade the golden light precariously. His large eyes widened in terror, and he scurried to the side without thinking.

“Where are you going?” A huge figure suddenly blocked his path. The giant shadow engulfed him.

The devil king gradually raised his head. He saw a metallic giant more than ten meters tall in front of him, smiling maliciously.

Chapter 929: Isn't It Normal For A Runemaster To Be Stronger In Martial Arts? (1)

The devil king was confused. His mind decided to stop working.

When did this metallic giant appear?

Why didn't he realize anything?

Boom!

While he was in a daze, the metallic giant had already started moving. Wang Teng raised his giant fists and punched them down. Fist aura congregated around his hands.

They were like two huge meteors slamming on the devil king's head violently.

“Roar!”

The devil king wasn't willing to die so easily. He let out an angry roar and released all his dark Force. His body expanded quickly, turning into a huge bat. He tried his best to resist the powerful punches.

This was the devil transformation of the vampire race. They could turn into a bat, and their speed and strength would increase by a few levels.

Most importantly, their bodies would turn gigantic. He was even bigger than Wang Teng's metallic giant. There was a black light glistening around him, making him look like a black sun in the sky. A powerful aura exuded from his body.

Boom! Boom! Boom!

Wang Teng's fists crashed into the bat like cannonballs.

The vampire dark apparition bellowed at the top of his lungs. The black light around him shone brightly as he withstood the power of the frightening punches.

However, the black light was soon destroyed by the fist aura, revealing the true form of the bat beneath.

The vampire dark apparition flapped his fleshy wings in a bid to dodge Wang Teng's attack. Even after executing the devil transformation, he didn't have the confidence to win against this human.

This guy was just too terrifying!

They just came, yet two of his fellow devil kings had already been killed.

Although he couldn't see the golden ray of light, he knew that it must be hiding in the space around him. If he didn't escape, he would be killed sooner or later.

However, Wang Teng wouldn't fulfill his wish. His body expanded, and numerous metals started gathering around him. In an instant, his body became as large as the big bat. Both exceeded ten meters in height.

He reached out and grabbed the big bat's leg.

The big bat turned in astonishment. He flapped his wings frantically.

"Thinking of running away?" Wang Teng snorted. Exerting strength in his arms, he released great strength and managed to swing the giant body of the big bat in the air.

Swoosh...

The bat swirled in the air, creating a strong wind. Then, Wang Teng slammed him to the ground. The martial warriors around him had scattered already.

Boom!

The ground trembled under the might of the slam. Cracks started to split into the horizon.

Wang Teng didn't let him go so easily. He raised his arm and smashed the gigantic body of the vampire dark apparition on the ground again and again.

Boom, boom, boom...

1

The vampire dark apparition was injured time and again. The bones on his back fractured loudly, and his entire body was badly twisted. He raised his head, crying in agony.

The sound waves swept out in circles, attacking people's minds and making them lose their consciousness.

The martial warriors around him immediately used Force to seal their ears. However, they still got affected and started to get dizzy.

"How dare you try to harm them!" Wang Teng used his spiritual power to resist the sound wave attack.

As a divine spirit master, this sound wave attack was nothing but a trick to him.

Wang Teng's face turned cold when he noticed that the vampire dark apparition still dared to resist. He threw punches at the big bat's head.

Boom, boom, boom!

Explosions rang once again.

Wang Teng didn't show any mercy. He released his fourth-level Strength of Ultima and vented all his anger on the big bat's head.

The vampire dark apparition roared in fear. He struggled frantically, but he was pinned firmly to the ground.

Boom!

After some time, the vampire dark apparition's head burst like a watermelon. Black blood sprayed everywhere.

"Useless, you got killed by a planetary-stage martial warrior!" A voice came from the metal giant's mouth. It seemed exceptionally loud and clear after Wang Teng became a giant, even sounding a little robotic.

"Hahaha!"

Di Qi's laughter was heard within the green domain. He seemed delighted.

"Arrogant fellow!" The Lazy Mist Devil Emperor's voice was filled with anger.

A black beam of light shot out from the black mist, aimed at Wang Teng.

"Lazy Mist Devil Emperor, you're shameless. Why are you attacking a planetary-stage martial warrior?" Di Qi scoffed. He threw a green sword glow out and shattered the black beam of light.

Wang Teng raised his head and pointed his middle finger at the black mist.

1

"Hmph!"

The Lazy Mist Devil Emperor was seething with fury. But he didn't have the time to care about Wang Teng. He was already at a disadvantage in front of Di Qi's attacks. He had no choice but to focus on his fight.

When Fan Taining, Yin Hai, and the others below saw Di Qi destroying the Lazy Mist Devil Emperor's attack, they heaved a sigh of relief. They were really worried for Wang Teng just now.

This fellow dared to provoke the Lazy Mist Devil Emperor. He was extremely bold.

But he was powerful too!

He was able to kill three devil kings alone. Not everyone could have such an achievement under their belt. Also, he was only at the planetary stage. This was even more incredible.

Fighting with opponents at a higher stage than him and even defeating three of them simultaneously was unbelievable.

Wang Teng lowered his head and scoffed when he saw the dark apparition's crushed head. Then, he picked up the attribute bubbles scattered around him.

Constellation Force (Dark)*13000

Planetary Realm Spirit*500

Supersonic Boom*800

Devil Transformation*120

Bloodseeker Scripture*100

Constellation Force (Dark)*12000

Planetary Realm Spirit*450

Chapter 930: Isn't It Normal For A Runemaster To Be Stronger In Martial Arts? (2)

Devil Transformation*120

Constellation Force (Dark)*14500

Planetary Realm Spirit*600

Devil Transformation*140

...

There was an abundance of attribute bubbles from the three devil kings. Those included 39500 points of constellation dark Force.

Wang Teng's constellation dark Force immediately advanced to a new level.

Constellation Dark Force: 22000/40000 (planetary stage fourth level)

He had also obtained 1550 points of Planetary Realm Spirit, which could be converted into 155 points of Celestial Realm Spirit.

There were also 380 points of Devil Transformation, which allowed Wang Teng to advance from the well-versed stage to the small achievement stage.

Devil Transformation: 240/1000 (small achievement)

Next, there were two special attribute bubbles. One was 800 points of Supersonic Boom attribute, while the other was 100 points of Bloodseeker Scripture attribute!

Supersonic Boom was a special battle technique and Bloodseeker Scripture was a special scripture. After absorbing the two attribute bubbles, Wang Teng's mind was enlightened.

The way of using Supersonic Boom was a bit unique. It required the use of Force and spirit to emit sound waves to affect the brain. It had decent offensive power.

Most importantly, this battle technique had an unexpected effect.

The reason why Wang Teng could defend himself against the devil king's sound attack was because of his Celestial Realm Spirit. If it was someone else with an ordinary spiritual realm, the dark apparitions would have been able to find an opportunity to kill him.

However, this didn't mean that the battle technique was useless. On the contrary, it was very useful.

Wang Teng realized that he had underestimated the potential of the Supersonic Boom. With his spirit, the power would be extraordinary.

As for Bloodseeker Scripture, you could tell it was a scripture from the dark apparitions just by its name. It was developed by absorbing the Force and life from blood, providing the user with a great cultivation speed.

"So sinister!" Wang Teng rubbed his chin and couldn't really accept it.

Absorbing blood to cultivate was apt for vampire dark apparitions. However, Wang Teng felt that this wasn't in line with his cool and handsome demeanor.

Sucking blood was too disgusting!

Even if the Bloodseeker Scripture was a celestial-stage scripture.

He found it a pity that only the vampire dark apparition had dropped attribute bubbles for a battle technique and scripture. The other two devil kings didn't drop any of that.

Was it because he had killed them too soon and didn't hit them hard enough?

Wang Teng shook his head helplessly. Sure enough, he had to put in the work to reap greater rewards!

His body gradually shrank. The metal disappeared and returned to his space fragment. He then quickly returned to his original size.

Heart Of Magnetic Essence was very useful, especially in dealing with the dark apparitions' Devil Transformation. He could take them out one by one.

It was just a matter of size. He wasn't afraid of them!

And he only needed to stack large amounts of metal, stone, or sand in his space fragment, which was very convenient.

This was especially so if he used extremely sturdy metal or rocks to construct the giant's body. It would be tough as well, and his opponents wouldn't be able to break it.

It was the best weapon to deal with enemies who were stronger than him.

The dark apparition just now was at most a third or fourth-level devil king, which was equivalent to a similar level celestial-stage martial warrior. There was no need to use strong metals. He was already undefeatable with ordinary metals.

Wang Teng landed on the ground. There were still many damaged areas in the array that required repairs.

Fan Taining and the other runemasters gathered around with hellish expressions on their faces.

Is this guy really a runemaster?

He was aggressive and wild, completely different from the person who was repairing the arrays.

They felt unreal as they had never seen a runemaster like Wang Teng!

Yes, indeed, like Wang Teng!

“Why are you looking at me like that?” Wang Teng couldn’t stand their gazes and frowned.

“Cough, are you really a runemaster?” Fan Taining cleared his throat.

“Of course. Is the array that I repaired fake?” Wang Teng was speechless.

“Not at all. It’s just that you’re so strong in martial arts that you don’t look like a runemaster at all.” Fan Taining said.

“Isn’t it normal for a runemaster to be stronger in martial arts?”

“Normal?” Fan Taining looked confused. The other runemasters behind him were also filled with questions.

How was this normal?

“Yes, that’s right. So you can protect yourselves better. Old brother, you’re a little narrow-minded,” Wang Teng patted Fan Taining’s shoulder and said earnestly.

“Is... that so?” Fan Taining thought that he made sense and stood there questioning himself.

“...” The surrounding runemasters.

“Oh right, what’s your name?” Wang Teng asked as he started repairing the array.

“Fan Taining. You can call me Old Fan,” Fan Taining came back to his senses and replied quickly.

“Oh, Old Fan, are you all free now? Hurry up and repair the arrays. We should repair them as fast as possible and repel the dark apparitions. We can still go back and sleep!” Wang Teng exclaimed.

“... Sleep, go back and sleep?” Fan Taining got flustered. He didn’t know whether to laugh or cry.

Wang Teng was repairing the arrays so quickly. Was he actually trying to rush back to sleep?

This wasn’t what a normal person would say!

At such an important time, he still had the thought of going back to sleep...

But he repaired the arrays so quickly that it played a crucial role in the battle, which was a good thing.

There was nothing wrong with that, right?

After his internal conflict, Fan Taining proceeded to repair the array near Wang Teng while seizing the opportunity to observe his live demonstration for free.

The other runemasters saw that and thought that this was a brilliant idea.

However, there were too many runemasters vying for a spot near Wang Teng. Those who were late could only go somewhere else to repair the array.

Under Wang Teng's lead, everyone's efficiency went up a notch, and the repair speed increased rapidly. What would have taken them half an hour originally was done in ten minutes. It might only be a difference of twenty minutes, but that was enough to save several martial warriors.

After the defense array was completely repaired, a seamless shield shrouded them and completely blocked the dark apparitions outside.

The martial warriors in the battle fortress were inspired as if they had seen the hope for victory.

"Kill!"

"Kill!"

"Kill all the dark apparitions!"

Roars and shouts filled the sky, and all the martial warriors charged toward the surrounding dark apparitions and started slaughtering them.

Now that the dark apparitions had lost their reinforcements from outside of the array, it was a one-sided battle. Under the fierce attack of the Great Qian Empire's martial warriors, many of the dark apparitions were killed.

Up in the sky, the Lazy Mist Devil Emperor had a grim expression. He didn't expect the array they had tried so hard to destroy would be repaired by that human so quickly. They didn't even have the time to break into the battle fortress.

The devil emperor's heart was filled with hatred. He personally wanted to kill Wang Teng for disrupting his plan. But he was being held up by Di Qi and didn't have the luxury of dealing with Wang Teng.

"Nice, you really helped me!" Di Qi was elated when he saw that the array had been repaired. He threw a smile at him, "Wang Teng, I'll remember this favor!"

Wang Teng raised his head while his gaze flickered slightly.

"Hahaha, Wang Teng, that's a huge favor." Round Ball laughed excitedly in Wang Teng's mind.

They only wanted to earn some fame but obtained a pleasant surprise instead. A cosmos-stage martial warrior's favor was a great blessing for them.

Moreover, it was clear that Di Qi was a talented martial warrior from a great family. His status would be much higher than an ordinary cosmos-stage martial warrior. His words were definitely enough.

Wang Teng had gained such a valuable thing before even heading to Great Qian Planet. He had great luck by his side.

“Calm down. It’s just a favor,” Wang Teng replied.

Round Ball choked for a moment and suddenly felt that it wasn’t as calm as Wang Teng.

How infuriating~
