

Martial Arts 931

Chapter 931: Why Do I Feel Drained? (1)

The balance of the war was starting to tilt. The dark apparitions outside the protective shield were still attacking frantically, but it was impossible for them to break the shield and enter the battle fortress now.

This time, the dark apparitions had only sent one devil emperor, the Lazy Mist Devil Emperor. He was already stopped by Di Qi, so he didn't have a chance to inflict damage on the protective shield.

As for the other dark apparitions, the most powerful ones were the devil kings. They wouldn't be able to break their protective shield in a short time with their attacks.

The remaining dark apparitions in the battle fortress were soon cleaned up under the efforts of the martial warriors.

At the same time, large numbers of heavy rune weapons were activated. They started bombarding the dark apparitions outside the shield in masses.

Boom! Boom! Boom!

Colorful beams of Force glows shimmered and crashed into the army of dark apparitions, setting off frightening explosions. Numerous dark apparitions were thrown into the sky like sandbags. Then, they were torn into pieces.

Dark apparitions were getting killed in hordes. Wang Teng stood on the roof of a tall building. He released his spiritual power and picked up the attribute bubbles dropped outside the protective shield.

Dark Force*200

Dark Force*300

Imperial Realm Spirit*50

Dark Force*150

Spiritual Realm Spirit*120

Constellation Force (Dark)*600

...

Many low-class dark apparitions were thrown to the frontline, so the attribute bubbles they dropped were poor in quality. Wang Teng didn't look at them carefully. He picked them up first.

Even so, there was a large number of them, so it was a sizable gain.

...

Boom!

The fight between Di Qi and the Lazy Mist Devil Emperor got more heated in the sky. Explosions rang out without stopping.

Di Qi's green domain and the Lazy Mist Devil Emperor's black mist kept colliding, eating away at each other.

Although Di Qi had grasped a wind element domain, the Lazy Mist Devil Emperor wasn't weak either. His black mist wasn't a real domain, but it could act as one. He managed to withstand his opponent's domain attack.

This showed how difficult it was to deal with the dark apparitions, especially powerful dark apparitions. It was hard for a martial warrior to fight with a dark apparition unless he was extremely talented or of a higher stage than the dark apparition.

At this moment, after an intense collision, Di Qi and the Lazy Mist Devil Emperor parted.

"Lazy Mist Devil Emperor, you lost!" Di Qi glanced at the situation below and said calmly.

The Lazy Mist Devil Emperor snorted as killing intent rose in its crimson eyes. "Do you think this will end so easily?"

Di Qi frowned. Why was the Lazy Mist Devil Emperor still so confident?

Boom!

The black mist around it started expanding at a visible speed once they finished speaking.

"Oh shit!" Di Qi's expression changed slightly. He didn't know what the Lazy Mist Devil Emperor wanted to do, but this was definitely not an ordinary mist. He mustn't let it expand.

A green light blinked around him, giving rise to a huge gale. It rushed out and blew at the black mist.

"Hahaha, you're too naive. My Lazy Mist won't be so easily blown away." The Lazy Mist Devil Emperor laughed.

The black mist was exceptionally thick and heavy. It showed no signs of dispersing and started sinking instead. It dawned on the martial warriors below.

Di Qi's expression turned grim. He could use his green domain to corrode the Lazy Mist Devil Emperor's black mist, but he couldn't blow it away.

As the black mist sank, it started to envelop the entire battle fortress.

"What's this?" Wang Teng turned serious. He released his spiritual power and formed an invisible defense shield around him, blocking the black mist.

But when the black mist touched the spiritual shield, Wang Teng's spiritual power was eroded and started to weaken. His expression changed. He could only release spiritual power continuously to repair the withering defense shield.

The other martial warriors weren't as lucky. They also released their Forces to form a shield to block the black mist. However, their Force defense shields weren't as strong as Wang Teng's spiritual shield. It got corroded by the black mist easily.

Many martial warriors couldn't react in time. The black mist entered their bodies.

The next second, the hurt martial warriors started to lose their vitality. Their faces turned expressionless and they acted like zombies. All their energy seemed to have been sucked out of their bodies.

Wang Teng was observing their reactions closely. His heart sank when he saw this scene.

“These people got affected!”

“I know, it’s the Lazy Mist!” Round Ball exclaimed.

“What’s that?” Wang Teng asked.

“Look at my memory. I should have remembered it once I saw the black mist. There’s a Lazy Devil race in the dark apparitions. They are born with the ability to gather living creatures’ laziness and combine them into a black mist. This is their special attack. If anyone gets attacked by the black mist, they will turn lazy and have no energy,” Round Ball slapped its head and hurriedly explained.

“Lazy Devil! Lazy Mist!” Wang Teng repeated. He didn’t think that there would be such a special race among the dark apparitions. He was amazed. At the same time, his expression turned strange. “So these people will lose their energy once they come into contact with the mist, right? There doesn’t seem to be much harm done.”

“That’ll depend on the situation. Normally, it isn’t harmful. It will just affect one’s consciousness. The effects of the Lazy Mist will only last for a limited time too. If the person doesn’t come into contact with the mist again, there will be no repercussions. However, things are different on the battlefield,” Round Ball said.

Chapter 932: Why Do I Feel Drained? (2)

“These people won’t be able to move and kill their enemies. They are like a lamb to the slaughter,” Wang Teng finished the sentence for it.

“Yes!” Round Ball nodded with a stern expression.

“Fortunately, the dark apparitions outside can’t come in temporarily. But we can’t let this continue.” Wang Teng turned serious. He thought that victory was imminent when he repaired the array, but the Lazy Mist Devil Emperor changed the tides with one move.

Indeed, every powerful being possessed the ability to affect the overall situation.

Right then, Wang Teng’s expression changed slightly. He lost his focus for a moment, and the Lazy Mist almost corroded his spiritual shield and invaded his body.

Fortunately, he reacted quickly and filled up the hole in his shield.

Celestial Realm Spirit was vast and powerful. The Lazy Mist might be peculiar, but it wasn’t a powerful attacking skill. It wouldn’t be able to penetrate the defense shield immediately, so it wasn’t a threat to him for now.

However, it would be troublesome if he allowed it to deal constant damage to the protective shield.

“Oh right!” Wang Teng had a sudden thought. He released his constellation dark Force silently and covered it up with his spiritual power, hiding it within his spiritual power.

As expected, the Lazy Mist had a negligible effect on the dark Force.

Also, when the Lazy Mist came into contact with the dark Force, it would recognize it automatically and move away from it. The area Wang Teng was at immediately turned into a Lazy Mist vacuum.

“Huh? The Lazy Mist has dispersed. What’s going on?” Round Ball noticed it and was surprised.

Wang Teng had used his spiritual power to hide the dark Force, so Round Ball didn’t notice its presence.

“Maybe I’m lucky,” Wang Teng heaved a sigh of relief and made a lame excuse.

“Do you think I’ll believe you!” Round Ball rolled its eyes.

Wang Teng chuckled. Without offering any explanation, he moved and dashed below. He needed to think of a way to disperse this Lazy Mist. The consequences would be unimaginable otherwise.

Di Qi’s face turned ugly upon witnessing this scene. With a grim expression, he stared at the Lazy Mist Devil Emperor, his killing intent raging.

“Hahaha!” The Lazy Mist Devil Emperor laughed delightedly. “Attack! Anyone that destroys the array will be heavily rewarded.”

His voice spread out, igniting the ferocity of the dark apparitions outside the defense shield. They charged at the shield and attacked it like mad men.

“Gather in one location and target one spot!” a devil king shouted as he commanded the troops from behind.

They weren’t stupid. The outcome of spreading out was minimal, so they knew that they could only destroy the array if they targeted one spot.

Boom! Boom! Boom!

The array started trembling violently under the offensive of the numerous dark apparitions.

The martial warriors in the array were under the effect of the Lazy Mist, so they disregarded this commotion completely. They didn’t seem to know that a calamity was about to hit them.

Some martial warriors who had barely managed to resist the effects of the Lazy Mist started to feel hopeless when they saw their comrades turning into zombies. They seemed to have lost their souls.

Some people were unwilling to give up and tried to shake their comrades awake. They yelled at the top of their lungs as they attempted to pull them out of their stupor.

“Wake up, wake up! The dark apparitions are coming!”

“Damn it, what are you doing? Wake up!”

“F**k, the black mist is strange and mysterious. They’re all affected. They can’t wake up.”

...

Wang Teng stood in the air and activated his Spiritual Sight and Eyes of Essence. Scanning below, he looked into the martial warriors’ bodies with these two skills.

Force light shone within the martial warriors' bodies. However, there were thin black lines mingled in these Force lights.

These black lines were stuck firmly to the Forces, affecting everyone's body. Some martial warriors had breathed in too much Lazy Mist. It had invaded their mind.

Wang Teng frowned. His mind worked furiously. Suddenly, an idea struck him. A wisp of holy white flame burned on his hand, floating silently above his palm.

"I wonder if the Holy Flame can curb the Lazy Mist?"

"Nevermind, let's try it first."

He scanned the crowd and finally fixed his gaze on one person.

Clive!

This is it!

This fellow wasn't friendly towards him, so it would be okay to experiment on him, right? It wouldn't matter if he crippled or killed him accidentally, right?

Wang Teng released his spiritual power and controlled a tongue of Holy Flame. He pushed it into Clive's head.

All he relied on was brute force.

Controlling the tongue of Holy Flame, he spun it around Clive's consciousness to disperse the Lazy Mist. Then, he toured it around his body and burned his Force to get rid of the Lazy Mist.

It was a simple and crude method, but the speed made up for it. Also, the effects were great. The Lazy Mist was completely cleared.

"What's wrong with me?" Clive shuddered and regained his consciousness. His lips were pale as he muttered to himself, "Why do I feel drained?"

Wang Teng smiled to himself and ignored him. Since he had proved that this method was effective, he would mass produce his antidote.

He executed his 18 Tasks Multitasking skill. With the help of his firm grasp of Spiritual Kinesis Control, he managed to disperse the Lazy Mist in different people simultaneously. It was a little tough, but he could manage.

However, before this, he needed to push back the Lazy Mist around them. If it invaded the martial warriors' bodies again, they would get affected once more, wasting his time and effort.

Wang Teng did both the tasks at once. He released his Holy Flame to blow away the Lazy Mist around them.

His Holy Flame wasn't complete. By right, it shouldn't be able to cover such a wide range. However, Wang Teng possessed the light Force, which could act as fuel for the Holy Flame.

Swoosh~

Roaring white flames filled up the sky. The Lazy Mist started melting as soon as it met the white flames. The white flame seemed to be its nemesis.

This scene immediately attracted the Lazy Mist Devil Emperor's attention. His expression changed, and he was appalled.

"Holy Flame!

"Damn it, why does he have the Holy Flame?!" The Lazy Mist Devil Emperor was filled with disbelief. As a devil emperor, he rarely lost his composure.

But he had met the Holy Flame, the nemesis of the dark apparitions. Its appearance was a huge blow to him.

Di Qi looked at Wang Teng strangely too. He suddenly felt that he couldn't understand this fellow.

Where did this young man come from?

Why did he have so many surprises?

Wang Teng didn't know about their reactions.

After dispersing the Lazy Mist, he split tongues of Holy Flame and pushed them into the martial warriors' bodies. The Lazy Mist in their bodies was quickly dispersed.

Wang Teng was gentler towards the other martial warriors. He wasn't as forceful as he had been to Clive.

He used the Holy Flame to burn the stained segments of their Force with his Light Force. That way, only a small portion of their Force would be exhausted.

The martial warriors soon regained their consciousness. Although they had lost their bearings due to the Lazy Mist, they still knew what had happened. They were shocked and furious.

They had lost their ability to fight because of the influence of the mist!

When they recalled their strange attitude just now, they shuddered in fear.

Extremely terrifying!

They would rather die if they had to maintain this state for the rest of their lives.

Everyone had a new understanding of the skills of a powerful dark apparition... as well as fear.

"Why are you standing there? Retaliate!" Wang Teng shouted. His voice echoed in the air.

Everyone regained their composure and looked up.

Wang Teng's face was a little pale because he had used too much of his spiritual power. However, he was still destroying the black mist with his spiritual power and Holy Flame so that more people could wake up.

"He saved us!" Olivia's expression changed. There was a complicated look in her eyes.

Clive gritted his teeth when he saw this scene. Everyone had woken up, but he was the only one who felt drained.

Was this fellow using this chance for his own revenge?

But he couldn't find any evidence to prove it. He was frustrated and furious.

After a moment of hesitation, everyone finally reacted. They were like wild beasts who got angered. Bolts of powerful attacks slammed out violently as they vented their anger on the dark apparitions outside the array.

You will bear the consequences of the Lazy Mist Devil Emperor's actions!

Boom!

Chapter 933: Lazy Mist Devil Emperor, Perished! (1)

Wang Teng knew that he wasn't needed down below since everyone was acting so fierce. He found a roof and sat there cross-legged, picking up attribute bubbles while recuperating.

The Lazy Mist Devil Emperor's eyes were filled with hatred as he glared at Wang Teng.

It's all because of him!

This little brat!

He ruined all my plans!

This brat easily repaired the array we took so much effort to destroy.

He also nullified my talent, the Lazy Mist, easily.

The Lazy Mist Devil Emperor was exasperated. After terribly failing in his raid, he felt immense hatred toward Wang Teng.

Wang Teng felt his angry gaze and raised his head to stare at the Lazy Mist Devil Emperor. Then, he threw him a smile.

"Kill the Lazy Mist Devil Emperor!" A loud bellow came from his throat.

The people below were stunned for a moment. Then surprisingly, they joined him, emptying the air in their lungs.

"Kill the Lazy Mist Devil Emperor!"

"Kill the Lazy Mist Devil Emperor!"

"Kill the Lazy Mist Devil Emperor!"

Their shouts drowned out all other noises. Even the Force explosions weren't as loud as the resonant war cries.

The martial warriors' morale skyrocketed amid their shouting. Their fear of the Lazy Mist Devil Emperor also dissipated a little.

Especially after the influence of the Lazy Mist, the humans below seemed enraged. They turned even more ferocious than before and started attacking the dark apparition troop with bloodshot eyes. Their destructive ability was astonishing.

“Pfft!” The Lazy Mist Devil Emperor wanted to vomit blood in anger.

This was a provocation!

This mere planetary-stage martial warrior dared to provoke him!

Bastard!

Damn it!

The Lazy Mist Devil Emperor hated Wang Teng to the core. He had always been calm and indifferent. No human was able to ignite his hatred.

However, Wang Teng had earned this honor. He was the man the Lazy Mist Devil Emperor hated the most!

Di Qi looked at them strangely. He wanted to laugh, but he tried his best to suppress it.

He mustn't laugh in this serious situation... unless he couldn't bear with it... Hahahaha!

The Lazy Mist Devil Emperor was so angry that the black mist around him started tossing and turning. The crimson glow in his eyes shone brightly. “This is too much!”

“Lazy Mist Devil Emperor, die!” Di Qi clutched his battle sword and released an extremely sharp green sword conscious.

The Lazy Mist Devil Emperor roared in anger. The black mist around it started retracting until it compressed to a ball around one meter in diameter.

Di Qi squinted and released the green blade conscious.

Swoosh!

The speed of the ball skyrocketed after it became small. It easily evaded Di Qi's blade attack with a single dodge.

Bang! Bang! Bang...

In the next second, the sound of a heart pounding could be heard within the ball of black mist. However, the palpitation was deafening. It shook the earth and made people's hearts shudder.

Di Qi turned grave.

Wang Teng's expression changed involuntarily too. He blurted two words, “Devil transformation!”

Without a doubt, the Lazy Mist Devil Emperor was undergoing the frightening devil transformation.

It was impossible to stop a devil transformation. During the process, the dark apparition would become extremely powerful. Normal attacks wouldn't harm them.

As the palpitations boomed continuously, the ball of black mist started changing too.

Splurt!

It started to expand, but it was no longer in mist form. It had solidified. The black mist turned solid and started growing like a ball of flesh.

Poof! Poof! Poof!

Along with a chilling sound, it sounded as if something had pushed out from one's flesh.

The Lazy Mist Devil Emperor's devil transformation occurred at a fast rate. Within a few breaths, he had turned into a huge and irregular ball of flesh, almost covering half the sky.

A black mist still shrouded the surface of the ball of flesh. However, it had grown fainter.

Behind the black mist, one could faintly see expressionless faces densely populated on the surface of the ball of flesh. It covered the entire body and looked extremely blood-curdling.

"This is?" The people below widened their eyes in terror when they saw this scene. Fear swarmed into their hearts again.

Roar!

The cry didn't sound like a human or a beast.

The eyes of the different faces on the surface of the flesh suddenly opened, their color crimson. The gaze was filled with evil, chaos, disorder...

"Ah!"

The people below clutched their heads and screamed in agony when they saw the eyes. Then, their minds grew chaotic, and they started attacking their companions around them like a maniac.

Boom!

Boom!

Boom!

The people in the battle fortress were in absolute chaos. They started cutting one another's throats as if they had lost their humanity.

Only some powerful martial warriors managed to resist the evil gaze of the Lazy Mist Devil Emperor. They weren't overpowered by violence and chaos.

"Damn it!"

Di Qi furrowed his brows. He released all his Force, and the wind domain gave off a glaring green glimmer as it charged towards the Lazy Mist Devil Emperor.

The Lazy Mist Devil Emperor glared at him coldly. There were no emotions in his eyes, only endless chaos.

Boom!

The two of them collided and gave rise to a terrifying explosion.

Wang Teng looked at the battle in the sky and stood up abruptly. Void mayflies flew out of his forehead and turned into numerous spots of light. These dots of light dashed towards the Lazy Mist Devil Emperor.

He knew that if he wanted to stop everyone from fighting with one another, he had to kill the source of this chaos.

In terms of the realm, the Lazy Mist Devil Emperor's spirit was in the Celestial Realm too. Hence, Wang Teng wasn't afraid of this devil emperor.

Chapter 934: Lazy Mist Devil Emperor, Perished! (2)

Besides, Di Qi was at the frontline. He wouldn't be in any danger even if he released some sneak attacks from the rear.

The void mayflies flew toward the Lazy Mist Devil Emperor with Wang Teng's spiritual skills. They silently crept onto the expressionless faces while he was busy fighting with Di Qi.

The mayflies stabbed the eyes.

Boom!

All the void mayflies were etched with the Spiritual Spike and the Spiritual Missile skills. These two skills had greater offensive power. Wang Teng had spent much time imprinting them in the void mayflies, but he didn't hesitate and released them all on the Lazy Mist Devil Emperor.

Some of the dots turned into Spiritual Spikes and stabbed into the eyes. Others exploded directly.

Roar!

The Lazy Mist Devil Emperor let out a furious cry when he suddenly got attacked.

In an instant, more than half of the frightening faces were injured. There were dents on the flesh, and it looked horrendous and disgusting.

"Yes!"

Di Qi was elated. He followed up the victory with hot pursuit and fired his sword auras at the Lazy Mist Devil Emperor.

Hiss, hiss, hiss!

The sword glows intertwined in the air and landed on the Lazy Mist Devil Emperor, forcing parts of his body to turn into black mist. The ball of flesh shrunk to two-thirds of its original size.

However, they had infuriated the Lazy Mist Devil Emperor too. The faces opened their mouths and black lights shimmered within.

Boom!

Beams of black light shot out. Most of them were aimed at Di Qi, with a small portion targeting Wang Teng.

“F**k!”

Wang Teng got a fright. He hurriedly used his space talent and disappeared on the spot.

Boom!

A black beam of light landed on the building he was at a second ago. The metal structure melted into black liquid instantly, giving off a pungent stench.

Wang Teng’s figure appeared in another place. His gaze landed on the destroyed building, and he frowned. “What a terrifying attack!”

“You’re tempting fate! Why did you attack the devil emperor?” Round Ball shouted in Wang Teng’s mind.

In its view, Wang Teng’s action was unwise. He should have used this opportunity to hide. The Lazy Mist Devil Emperor was a devil emperor and had undergone devil transformation. His ability had reached a frightening level, so charging forward was extremely dangerous.

“Shut up!” Wang Teng disregarded it completely. His gaze turned cold, and the Golden Crescent Blade appeared beside him. It spun around him at high speed.

“It’s just a devil emperor. Why are you so afraid?” Wang Teng scoffed and pointed at the Lazy Mist Devil Emperor in the sky.

Some grudges didn’t need to wait. Revenge should be taken on the spot.

Under Wang Teng’s order, the Golden Crescent Blade turned into a beam of golden light and dashed toward the Lazy Mist Devil Emperor’s gigantic body.

Boom!

The Golden Crescent Blade cut through the air and left a clear white mark in the sky.

A few of the faces on the flesh ball turned to look at the Golden Crescent Blade. Their gazes cold, their mouths opened at an exaggerated angle. Beams of black light shot out to resist the golden beam.

Boom!

Suddenly, the golden beam disappeared in front of them, and the black beams missed their target.

Swoosh!

The next instant, the golden beam appeared in another direction as if it had traveled through space. It slammed into the Lazy Mist Devil Emperor’s body while spinning at high speed.

Bang!

A part of his body exploded and turned into black mist. The Lazy Mist Devil Emperor roared in anger.

He got hit by a planetary-stage martial warrior! This was a humiliation!

The Lazy Mist Devil Emperor wanted to push Di Qi back and kill Wang Teng first, but Di Qi didn't allow him to. He tied up the devil emperor.

The green blade glow wreaked havoc in the domain, and all the attacks landed on the Lazy Mist Devil Emperor's body.

Wang Teng didn't sit idle either. He controlled the Golden Crescent Blade and lay prone in the surroundings, hunting for an opening. His intimidation effect was as powerful as Di Qi.

Round Ball was stunned. It didn't know that Wang Teng could do this.

Wang Teng was a bold and thorough fellow, more daring and stronger than it. Could it even help him?

Round Ball started to feel dejected. There was a depressing aura around it. It felt miserable.

Olivia, Clive, and the other youngsters had regained their senses by now. They stared at the battle in the sky in disbelief.

Wang Teng was able to join the battle between Di Qi and the Lazy Mist Devil Emperor?!

This was astonishing.

Wang Teng didn't know what strange thoughts Round Ball was having. He was in full focus mode. He flew around the Lazy Mist Devil Emperor while controlling the Golden Crescent Blade, waiting for opportunities to strike.

Celestial Realm Spirit was very powerful, and the Golden Crescent Blade was the weapon of a divine spirit master too. The combination of these two inflicted painful wounds on the devil emperor.

But he had to rely on his Spiritual Kinesis Control too!

Without the Spiritual Kinesis Control, he would be like a martial warrior without any battle techniques. He had all the Forces but no way of executing them.

Even though his Spiritual Kinesis Control had reached the well-versed level, Wang Teng still added blank attributes to it so that he could use it against the Lazy Mist Devil Emperor.

His Spiritual Kinesis Control went from the well-versed stage to the small achievement stage. He wanted to continue, but this single level cost him 50 thousand blank attributes.

Spiritual Kinesis Control: 45000/50000 (small achievement)

Wang Teng didn't imagine that raising Spiritual Kinesis Control would be so difficult. The well-versed level required 5000 points, but the small achievement level required ten times more.

Fortunately, the effects were immediate!

His eyes lit up. His control of the Golden Crescent Blade had reached an extremely high level.

Ring!

Under the control of his spiritual power, the Golden Crescent Blade suddenly started spinning at high speed. The amplitude was ten times more. Even if a celestial-stage martial warrior got brushed by the Golden Crescent Blade, his body would disintegrate from the vibration.

At the same time, the path of the Golden Crescent Blade became harder to predict. It started moving irregularly. Ordinary martial warriors wouldn't be able to catch its real position even if Wang Teng didn't use his space talent.

A glaring beam of light shot out of Wang Teng's eyes. This was a sign that he was using his spiritual power to its maximum.

The Golden Crescent Blade spun toward the Lazy Mist Devil Emperor at a tricky angle.

The Lazy Mist Devil Emperor had already been ruined, so this angle was his blind spot. Hence, he didn't notice anything.

Boom!

The Golden Crescent Blade slashed his body directly.

The gigantic ball of flesh was chopped into two, leaving a deep wound in the center. A ball of thick black light twinkled below the wound.

"Attack that ball of black light. That's his core!" Wang Teng suddenly shouted at Di Qi.

Another emotion appeared on the Lazy Mist Devil Emperor's numb face. Besides anger and bitterness, there was also a tinge of panic.

The black mist on the surface of its body started moving. The wound Wang Teng had created was healing at a speed visible to the naked eye.

Di Qi turned serious. A dazzling sword glow burst from his sword, and he hurled it at the ball of black light before the wound could close up.

"No!" The Lazy Mist Devil Emperor gave a terrifying howl. There was unwillingness and bitterness in his voice.

The faces on his surface scowled in pain as thin cracks started to appear on his flesh. A green glow penetrated from within.

Di Qi furrowed his brows as he glared at the Lazy Mist Devil Emperor.

The cracks on the Lazy Mist Devil Emperor's body grew wider and wider. Soon, they covered the entire body, and the green glow started to get thicker until it burst out.

"No!"

Boom!

The huge ball of flesh couldn't withstand the force anymore and blew up.

The Lazy Mist Devil Emperor gave one last unhappy roar before his enormous body disintegrated into mist and disappeared.

Lazy Mist Devil Emperor, perished!

There was dead silence. All the martial warriors and the dark apparitions seemed to have lost their voices. They stared at the sky with wide eyes and couldn't regain their senses for some time.

Did the Lazy Mist Devil Emperor just die?

Did Wang Teng and Master Di Qi kill him together?!

This was unbelievable!

They weren't surprised by Master Di Qi because he was a cosmos-stage martial warrior and was at the same level as the Lazy Mist Devil Emperor. Yet, even though Wang Teng was just at the planetary stage, he was still a crucial factor in this battle.

No one could deny his contributions!

Chapter 935: This Is Manual Labor! (1)

Gasp!

After a moment of silence, everyone regained their senses. Cheers echoed in the sky.

"We won!"

"We won!"

"Hahaha, Kill these dark apparitions!"

...

The other dark apparitions outside the array offered no threat once the Lazy Mist Devil Emperor was out of the equation. The rune weapons breathed again, conducting a large-scale bombing. Many dark apparitions were exterminated in the blink of an eye.

The remaining devil lords and devil kings wanted to retreat, but the human martial warriors wouldn't grant them their wishes. How could they come and leave whenever they wanted?

Di Qi also intervened and slashed the devil kings as if he was cutting vegetables. The devil lords were even easier to tackle.

Wang Teng had nothing to do now. He had exhausted much of his spiritual power, so he decided to take a break. Scanning the sky, searched carefully for the attribute bubbles dropped by the Lazy Mist Devil Emperor.

He mustn't miss any attribute bubbles dropped by this devil emperor.

The Lazy Mist Devil Emperor had exploded into many pieces. Thus, the attribute bubbles were scattered everywhere. Fortunately, Wang Teng had some spiritual power remaining, so he could just sweep them over and collect them.

The bubbles dropped by the Lazy Mist Devil Emperor were different from the normal dark apparitions. They were bigger and darker.

Constellation Force (Dark)*65000

Imperial-Level Dark Talent*3000

Celestial Realm Spirit*3500

Celestial Realm Enlightenment*3200

Devil Transformation*1000

Lazy Mist Devil Scripture*800

Lazy Mist Physique*2000

...

(๑•≡•๑)๑✧

This was unexpected!

This was a great surprise!

Wang Teng knew that the Lazy Mist Devil Emperor would give him many attributes, but he didn't expect such a large number.

65000 points of constellation dark Force allowed his dark Force to rise two levels. it advanced from the fourth level to the sixth level.

Constellation Dark Force: 3000/60000 (planetary stage sixth level)

The other dark apparitions had contributed to this level-up too. They dropped many points of dark Force, allowing Wang Teng to progress by two levels smoothly.

Next was the imperial-level dark talent.

Imperial-level talents were weaker than divine-level talents but stronger than the emperor level. After absorbing this attribute bubble, Wang Teng felt his dark talent becoming more powerful.

With this imperial-level dark talent, Wang Teng would be able to reach the cosmos stage just through cultivation. He didn't need to rely on picking up attributes. If he worked harder, he might even touch the heaven stage or the universe stage.

In summary, he would be a devil emperor among the dark apparitions.

Devil emperors had different levels too, split into the bottom, middle, and top. This corresponded to the cosmos stage, heaven stage, and universe stage, respectively.

The Lazy Mist Devil Emperor was a bottom-level devil emperor... wait!

If Wang Teng managed to raise his dark Force to the cosmos stage, he would become a devil emperor, right?

That was a devil emperor!

He would be like a boss among the dark apparitions.

Would he become the boss of the dark apparitions one day? Wang Teng shuddered at the thought of it. For some reason, it felt a little exhilarating!

Imperial-Level Dark Talent: 3000/25000

There were 3500 points of Celestial Realm Spirit. This was the largest Celestial Realm Spirit attribute bubble he had received so far.

He also got 3200 points of Celestial Realm Enlightenment. This was another huge harvest.

Spirit: 8150/50000 (Celestial Realm)

Enlightenment: 4280/50000 (Celestial Realm)

This was followed by 1000 points of devil transformation. It was more than all the devil transformation attributes he had accumulated in the past.

Another devil transformation attribute bubble. It looked like he couldn't avoid this attribute.

Wang Teng felt a little helpless.

But it was understandable. All of the powerful dark apparitions would possess the devil transformation skill. If he wanted to kill them, he would need to face their devil transformation. It was impossible not to drop this attribute.

1

Devil Transformation: 230/10000 (big achievement)

1000 points of devil transformation allowed his devil transformation skill to rise from small achievement to big achievement stage.

However, when Wang Teng noticed that the next stage required 10000 points, he was shocked. The small achievement stage only needed 1000 points whereas the big achievement stage was ten times more.

Fortunately, Wang Teng didn't care about this skill, so he didn't dawdle over it. He allowed it to rise freely.

The last two attribute bubbles astounded him.

Lazy Mist Devil Scripture!

Lazy Mist Physique!

These two attribute bubbles were unique to the Lazy Mist Devil Emperor. The Lazy Mist Devil Scripture was unique to the Lazy Devil race. Only devil emperors and above could practice it.

This was a devil emperor level scripture!

To devil lords and devil kings, the Lazy Mist Devil Scripture was like an ultimate martial arts scripture.

Of course, if dark apparitions from other races practiced this skill, the effects would be greatly reduced. This was because they didn't possess the special physique of the Lazy Devil race, the Lazy Mist Physique.

By right, Wang Teng couldn't practice it. However, he had gained the Lazy Mist Physique too. It formed a set with the Lazy Mist Devil Scripture.

Mind you, the system's service was incredible.

(The system: Please give a thumbs up if you like my service ~(づ3)づ r ~)

3

"Lazy Mist Physique!" Wang Teng's eyes shimmered as he felt the changes in his body.

It felt strange!

He realized that he could sense the laziness in living creatures and absorb them.

Wang Teng's interest was piqued. He silently activated his Lazy Mist Devil Scripture, and an unnoticeable black mist floated over and merged into his body.

Chapter 936: This Is Manual Labor! (2)

This black mist was the Lazy Mist!

Everyone had laziness, more or less. Thus, it was easy to absorb the Lazy Mist. If Wang Teng wanted to absorb everyone's Lazy Mist, the scene might be quite majestic.

However, he was afraid that someone would notice it. Hence, he was extremely careful and only absorbed a small strand of it. Then, he stopped to prevent anyone from detecting it.

Wang Teng discovered a ball of black mist appearing within the dark constellation above the sea of nihility. This was the Lazy Mist.

Dark apparitions were strange creatures. Their Force and spirit were all stored in a core. This core was known as the dark Force nucleus.

The Lazy Mist of the Lazy Devil race was stored in the dark Force nucleus too.

However, it was different for Wang Teng. He was a human. He might have received the dark talent and could absorb dark Force and cultivate with it, but he didn't have a dark Force nucleus. However, he managed to form a dark constellation similar to the other human Forces.

Hence, the Lazy Mist he absorbed could only be stored in the core of the dark constellation.

At this moment, he had already grasped the use of the Lazy Mist. It was similar to what Round Ball said.

The Lazy Mist was able to make a person lazy. Both the consciousness and body would be invaded, and they wouldn't have any motivation to do anything.

If someone came into contact with the Lazy Mist during a fight, they would be at a great disadvantage. Anyone could attack them.

This ball of Lazy Mist floated in the core of the dark constellation. It didn't affect Wang Teng. It was like an obedient little child who would follow his order completely.

This is good stuff. Wang Teng touched his chin and decided to practice the Lazy Mist Devil Scripture when he had the time.

He looked at his attributes panel.

Lazy Mist Devil Scripture: 800/1000 (foundation)

Lazy Mist Physique: 2000/30000

Wang Teng was stunned. 800 points of Lazy Mist Devil Scripture couldn't even get him past the foundation level. It looked like the Lazy Mist Devil Scripture was quite powerful.

Normally, 800 points were enough to raise a celestial-stage scripture to the well-versed level.

But Wang Teng didn't mind. More attributes meant that this scripture was more powerful. It was worth cultivating.

As for the Lazy Mist Physique, the limit was 30 thousand. This proved that it was an amazing physique.

Actually, the Lazy Mist Physique of every lazy devil was different. Some of them had greater talent, so the limit of their Lazy Mist Physique was higher. Others with weaker talent would have lower limits.

Since the Lazy Mist Devil Emperor was able to become a devil emperor, his talent mustn't be low. Thus, the limit of his Lazy Mist Physique was higher.

Wang Teng was satisfied with these two attribute bubbles.

With the Lazy Mist Physique, practicing the Lazy Mist Devil Scripture would allow him to gather more Lazy Mist. This was a good battle ability and would be of great help to him.

After picking up all the attribute bubbles dropped by the Lazy Mist Devil Emperor, Wang Teng's gaze finally landed on the attribute bubbles dropped by the other human martial warriors and dark apparitions. He started collecting them in heaps.

Looking at it from another point of view, Wang Teng was a war profiteer. Every time there was a battle, there would be a large number of attribute bubbles dropped. This was all profit for him.

He helped when he should, so it was alright for him to collect the attribute bubbles. It made sense, right?

As his spiritual power swept through the fortress, the attribute bubbles flew over to him. He smiled brightly. He was in a great mood!

Constellation Force (Earth)*500

Constellation Force (Fire)*650

Imperial Realm Spirit*250

Water Force*1300

Star Water Scripture*100

Planetary Realm Spirit*700

Constellation Force (Dark)*400

Planetary Realm Spirit*350

Planetary Realm Enlightenment*400

Emperor-Level Wood Talent*450

Star Wood Scripture*100

...

The battle hadn't ended, so the attribute bubbles continued dropping. There was no stopping them.

But the quality of these attribute bubbles was uneven. Though not a bad thing, it was a hassle to count them.

Wang Teng didn't count them one by one. He inspected the result directly.

His ability rose exponentially as he absorbed these attribute bubbles. His five Forces increased the most.

His constellation metal Force was still at the eighth level, but it had reached 67000 points. He wasn't far away from hitting the 80 thousand points limit.

The other four basic Forces had a greater increase. Some increased by a level while others increased by two. All of them had reached the eighth level.

Happiness came suddenly. Wang Teng was caught off guard.

His spirit and enlightenment increased by a few hundred points. This helped his ability to increase a little.

Next were the talent attributes. The highest were the emperor-level talents.

Ever since he received the imperial-level and divine-level talents, Wang Teng couldn't bother about the emperor-level talents anymore.

It was easier to get rich and harder to go back to poverty.

Sigh!

Wang Teng sighed. This wasn't his true intention.

But he didn't have a choice. Besides his wind and dark talents, others were all at the emperor level. He could only accept it reluctantly.

There was one talent Wang Teng didn't possess in the past.

Emperor-Level Arrow Talent*500

His arrow talent used to be at the ultimate stage. Now, after collecting this attribute bubble, it jumped to the emperor level.

Emperor-Level Arrow Talent: 500/10000

1

Wang Teng liked the arrow talent.

It could be used as a long-range attack like the rune guns. The arrow talent could come in handy sometimes, and it might even be more useful than the rune guns.

Chapter 937: This Is Manual Labor! (3)

After his arrow talent reached the emperor level, Wang Teng's understanding of arrow skills increased. It became easier for him to grasp a relevant skill now.

Besides the emperor-level arrow talent, he also gained an arrow battle technique—Blazing Phantom Arrow!

This name sounded... incredible!

Enlightenment of the Blazing Phantom Arrow appeared in Wang Teng's mind. This arrow skill was quite cool.

It was a fire-element arrow skill. But besides possessing the powerful offensive ability of the fire element, it also had a 'phantom' ability. It was able to make use of the light and shadow effect to hide traces of the arrow. The arrows were like phantoms, unpredictable and hard to find.

Wang Teng had once received an arrow skill known as the Aurora Holy Arrow. Compared to this, the Aurora Holy Arrow was more direct and forceful.

On the other hand, the Blazing Phantom Arrow possessed two traits, the power of a fire attack and the unpredictability of the arrows. This was a rare arrow skill.

Moreover, it was a celestial-stage arrow skill. It could give a lethal blow to celestial-stage martial warriors.

One arrow, one-celestial stage martial warrior. It felt exciting just thinking about it.

There were other scripture attribute bubbles, but they were all at the planetary stage. They were useless for Wang Teng. Most of his scriptures were at the celestial stage.

Wang Teng continued picking up attribute bubbles. Suddenly, his eyes widened in astonishment.

Constellation Force (Wind)*26000

Imperial-Level Wind Talent*1000

Tempest Domain*250

Celestial Realm Spirit*450

Celestial Realm Enlightenment*400

Wind Hell Ultima*500

...

These belong to Di Qi! Wang Teng immediately reacted.

There was the Tempest Domain and the Wind Hell Ultima. Besides Di Qi, no one was able to reach this stage of enlightenment.

This was another round of harvest for Wang Teng.

Although 26000 points of constellation wind Force didn't allow him to achieve a breakthrough, his wind Force took a huge leap.

The only regret was the imperial-level talent. It was a little useless. He already had the divine-level wind talent, so he didn't need this lower-level wind talent.

Wang Teng shook his head and sighed. He found it a waste. After all, it was an imperial-level talent. Other people would definitely fight for their lives over it.

It was a pity he couldn't give it away!

He received 450 points of Celestial Realm Spirit and 400 points of Celestial Realm Enlightenment. This was a sizable gain. Wang Teng's spirit and enlightenment saw some improvements.

More Tempest Domain attribute was dropped by Di Qi compared to the Divine Tempest Bird.

But it was understandable. The Divine Tempest Bird existed in the virtual universe. Based on his guess, the attribute bubbles dropped in the virtual universe were many times smaller than in real life.

Tempest Domain: 300 (30 meters)

The additional 250 points of Tempest Domain allowed his attribute to reach 300 points in total. This gave him a 30 meters radius.

Wang Teng's Tempest Domain expanded from 5 meters to 30 meters. It was worth a celebration.

Lastly, there were 500 points of Wind Hell Ultima. Wang Teng's Wind Hell Ultima jumped from second to third level.

Wind Hell Ultima: 300/1000 (third-level)

The third-level Ultima was at least three times more powerful than the second-level.

Wang Teng chuckled. He didn't expect Di Qi to give him so many wind-element attributes. He felt that helping him kill the Lazy Mist Devil Emperor was a good deal.

...

Gradually, the battle came to an end. The dark apparitions outside the array were all annihilated. The ground was littered with corpses. Even the soil got stained by the black blood and turned pitch-black. It was ghastly.

There were some patches of red mixed in the black blood. It was the blood of humans. Many martial warriors from the Great Qian Empire had died.

But overall, this was the biggest victory the Great Qian Empire ever had.

It was an unprecedented victory.

You could count the number of wins the Great Qian Empire had over the dark apparitions with one hand. There were too few of them.

Furthermore, all of these victories occurred when humans took the initiative.

This time, it was different. The dark apparitions had initiated the attack, and they didn't have any time to prepare. Normally, the human side would suffer heavy losses.

But in reality, humans only had a few deaths while all of the dark apparitions were exterminated.

Victory!

A huge victory!

Even though the humans were in sorrow, the overall atmosphere was invigorating.

The martial warriors from the Great Qian Empire started clearing up the battleground in an orderly manner. They cleaned up the corpses of the dark apparitions.

The most effective method was to burn them and leave no remnants. It would be troublesome if a human got infected by the dark Force.

The martial warriors from the military had memorized the procedure by heart. They fought with dark apparitions all year round, so they were familiar with the steps.

Wang Teng stood on the roof of a building and stretched his back. Honestly, it was tiring to pick up so many attribute bubbles. It was manual labor.

"What? Did you twist your back?" A burst of gentle laughter came from behind him. The person seemed to be teasing him.

"Me? No way, I have a strong waist." Wang Teng tilted his head and glanced at Di Qi who had appeared beside him. He rolled his eyes.

"Hahaha, we'll know how strong your waist is after testing it. There are many nice places on the Great Qian Planet. Let me bring you around when you go there." Di Qi raised his eyebrows. His lewd expression didn't match his handsome face.

Wang Teng was stunned for a moment. Then, he laughed.

A man would understand what he meant!

"Your treat!" He laughed.

"You're looking down on me. Of course, it'll be my treat." Di Qi crossed his arms and pretended to be angry.

The two of them exchanged glances and broke into laughter. By right, Di Qi wouldn't treat Wang Teng like this. He regarded him like a peer.

However, after the battle, Di Qi recognized Wang Teng's potential as well as his ability.

He was able to join the battle between cosmos-stage martial warriors and played a crucial part in it. He was worth this treatment.

Chapter 938: Too Expensive!

After a serious incident like the invasion of the dark apparitions, Wang Teng's trip to Great Qian Planet was postponed without exception.

Di Qi also had a lot of things to deal with, especially the casualties of the martial warriors and the damage to the battle fortress. All of these had to be accounted for, and he would have to travel to Great Qian Planet personally and give a report.

Wang Teng had no choice but to wait. He locked himself up in the room where he had previously stayed in.

The battle fortress's residential area was located in the rear, which was relatively safe. The region the dark apparitions had damaged was at the front where the military areas were. That was why the residential area was not greatly affected. Only some buildings were harmed by Force attacks.

Wang Teng's residence was fortunate to not have been included among them.

He sat cross-legged on his bed while a strange power entwined in his hands. It was the power of time!

Wang Teng cut a wound on his finger and wrapped it with the power of time. Very soon, a miraculous scene appeared!

The wound healed quickly and was back to normal in the blink of an eye.

He had cut the wound from the left to the right, but it healed in the opposite way. On top of that, the blood that oozed out flowed back into the wound and nothing was left behind.

Everything seemed like it had turned back.

If you compared it carefully, you would realize that after healing, the area where the wound appeared was exactly the same as before. There was not one bit of a difference.

This wasn't just healing!

If this was, even if no scars were left behind, it wouldn't be exactly the same as before. It was as if there was never a wound to begin with.

"Time reversal!" Wang Teng's eyes flashed as he smiled.

After obtaining time talent for such a long time, this was the first time he was studying it.

When facing the Lazy Mist Devil Emperor, he discovered that he was still struggling to deal with a cosmos-stage martial warrior. If he didn't work with Di Qi, he wouldn't be Lazy Mist Devil Emperor's match.

That was why he started studying his moves as soon as he came back.

The time ability had immense potential. It would be a waste not to focus on it. In order to study his time ability, he even chased Round Ball away and locked himself up.

Round Ball knew that Wang Teng had something to hide from him. However, it had no intention of digging into his secrets. It didn't probe further and went out for a walk alone.

Giving each other space would help them to get along better!

Round Ball understood that.

It took this opportunity to learn about the major events that had happened in Great Qian Empire in recent years via the battle fortress's network. It was also good for it to plan the journey to Great Qian Planet. Otherwise, if it messed up, he would be treated as a laughing stock.

...

Wang Teng looked at his attributes panel. Round Ball once told him that those who had mastered time talents met tragic ends. That was why he didn't dare to be careless.

He saw that there was indeed a change in his attributes panel. His Origin Of Soul and Life had dropped by 10 points after he had rewound time.

Origin Of Life: 10800

Origin Of Soul: 12100

Wang Teng had a lot of Force attributes. Every time he advanced to a new level, there would be a change. The Origin Of Soul and Origin Of Life would follow suit as well, undergoing numerous enhancements.

That was why Wang Teng's Origin Of Soul and Origin Of Life were extremely high compared to his peers. They were even comparable to a seventh-level celestial-stage martial warrior.

It didn't affect him when he expended 10 attribute points, and he decided to continue researching it.

"I used it for a second just now. Let's try ten seconds!" Wang Teng cut his finger again.

He waited for ten seconds before using the power of time to recover!

Wang Teng's finger returned to normal, and he looked at the attributes panel again. Both the Origin Of Soul and Origin Of Life had lost 100 attribute points at the same time.

"100 points!" Wang Teng stared at his finger and started hesitating. His eyebrows twitched. "Should I try a hundred seconds?"

"10 points per second. Ten seconds would mean 100 points. A hundred seconds would mean 1000 points!"

Wang Teng didn't dare to do it. 100 points were still acceptable, but 1000 points of Origin Of Soul and Origin Of Life were too much for him. It was almost a tenth of what he currently had.

It would take less than two minutes for him to use up a tenth of his attributes.

Wang Teng took a breath of cold air.

F**k, he couldn't afford to do it!

It was too expensive!

The power of time was simply a luxury. It cost life, not money!

However, if one was in a dire situation, the power of time could be used to save lives. Wang Teng thought about it and decided to try again. This time, he wasn't adjusting the amount of time but the size of the wound.

A larger wound might consume more Origin Of Soul and Origin Of Life. However, he still wanted to try it.

He proceeded to create a wound that was twice as large and used the power of time to heal himself after a second had passed.

He used up 20 attribute points of Origin Of Soul and Origin Of Life!

"20 points, that's twice as much!" Wang Teng touched his chin and wondered to himself.

However, he knew that this was just a small wound. If he had an extremely serious injury, he would consume more attribute points. It might even reach a horrifying amount.

"Well, I can't possibly hurt myself badly to test this." Wang Teng shook his head and gave up the idea.

Having said that, the power of time might not necessarily be used for restoration. It could be used to reverse the tide of battle!

When unforeseen circumstances arose in battle, the power of time could play a decisive role. It was a huge bug!

If used well, it would be a weapon that ensured his victory and success!

However, it was a double-edged sword. It could very well harm him as well. In fact, he wouldn't be able to avoid that!

It was impossible that those who mastered the power of time didn't understand that. Yet, they were all devoured by that power.

Wang Teng had to be careful. He would never use it easily unless it was his last resort.

After studying the power of time for a while, Wang Teng had used up a total of 400 points of Origin Of Soul and Origin Of Life.

Origin Of Life: 10400

Origin Of Soul: 11700

Wang Teng immediately stopped researching it. 400 points were already enough for him to feel pain in his heart. Origin Of Soul and Origin Of Life were related to his own vitality. He couldn't just waste them like that.

Afterward, he turned his attention to the Lazy Mist Devil Scripture.

He was lacking 200 attribute points to advance the Lazy Mist Devil Scripture. Wang Teng wasn't stingy and spent 200 blank attributes on it.

Lazy Mist Devil Scripture immediately advanced to the well-versed stage.

After that, Wang Teng began cultivating. The Lazy Mist Devil Scripture circulated in his body. Although he was not that proficient in it, his current level was much better than the foundation stage, and the circulation was quite smooth.

As the Lazy Mist Devil Scripture circulated his body, Wang Teng immediately sensed the laziness of the living creatures outside.

The laziness could not be touched nor seen. Others could only feel their own laziness, but they wouldn't be able to locate it. However, with Lazy Mist Physique, he could see the laziness in their bodies and pull it toward him.

The traces of laziness turned into black mist as they penetrated the ground and then gathered toward Wang Teng...

Chapter 939: This is... Light Force Treatment!

In the room, wisps of black mist seeped out of the ground and swarmed toward Wang Teng's body. The room was instantly filled with black mist. It looked eerie.

Fortunately, Wang Teng had used his spiritual power to form blockage arrays around the room so that people outside wouldn't detect anything. The only person Wang Teng was worried about was Di Qi.

He was the only one that could threaten him.

However, his mastery of runes had reached the grandmaster level. He was confident that he could escape Di Qi's detection.

Wang Teng used the Lazy Mist Devil Scripture and absorbed the black mist into his body. After flowing around his veins, the black mist gathered in the core of the dark constellation.

Time passed slowly. Approximately an hour later, all the laziness in the battle fortress had been absorbed by Wang Teng.

There was a huge ball of Lazy Mist in his body now. It had been condensed. Once it was released, it could envelop a large area. This was what happened when the Lazy Mist Devil Emperor released his Lazy Mist. The mist ball wasn't big, but it could cover a wide area.

Wang Teng smiled. He stopped practicing the Lazy Mist Devil Scripture. At the same time, the tired martial warriors outside were suddenly full of vigor again.

"Strange, my body is tired, but I don't feel like resting," some martial warriors muttered to themselves in a confused tone.

Then, they started working hard again. Many buildings were damaged in the battle fortress. There weren't enough engineering robots, so the martial warriors had to fill up the gaps to ensure that the battle fortress could be repaired quickly.

This was the scene Wang Teng saw when he walked out of his lodging. He gave a strange expression.

"Should Di Qi thank me?" Wang Teng touched his chin and wondered to himself.

He stopped cultivating and started touring around the battle fortress.

The martial warriors on the way stopped what they were doing and bowed to him with respect. Some celestial-stage martial warriors even greeted him enthusiastically.

All the martial warriors in the battle fortress had witnessed Wang Teng's ability during this battle. As someone who was able to fight alongside Master Di Qi, this young man was definitely a formidable warrior!

Powerful people would gain respect no matter where they went.

Also, Wang Teng did them a huge favor. Without him, many people would have died in this dark apparitions' invasion, suffering grievous losses. Thus, these martial warriors felt grateful toward Wang Teng.

Along the way, Wang Teng saw Olivia and Clive. They stood behind Di Qi and checked on the injured martial warriors. When he walked over, Di Qi nodded at him and asked, "Why are you here?"

"I have nothing to do, so I came out to take a look." Wang Teng glanced around him and noticed many injured. There were a few hundred of them. The serious ones had lost a limb. Even the ones with light injuries were covered with wounds. It was a tragic sight.

Most importantly, Wang Teng saw dark Force on their wounds, with black patterns around the wounds. It was hard to remove the dark Force from the wounds.

Di Qi noticed his gaze and sighed. "We need light Force to dispel the dark Force. We don't have light element martial warriors here and our light potion reserve is empty. There aren't enough potions!"

"Light potion?" Wang Teng was confused.

"Light potion is made by extracting light Force from light element martial warriors. The extracted light Force will be made into potions using a special method by alchemists. It has a good effect in eradicating dark Force from the body," Olivia rushed to answer.

Wang Teng glanced at her and nodded. "I didn't know you could do this."

"I remember that you used a Holy Flame during the battle. Can you expel the dark Force from these injured martial warriors? The longer it stays in their bodies, the more harm it will cause. Even if it's eradicated in the end, there will still be implications," Olivia hesitated before asking.

"Oh right, I almost forgot. You have the Holy Flame!" Di Qi was stunned for a moment. Then, he slapped his forehead and pulled Wang Teng inside. "Quick, help me with this and I'll owe you another favor."

"Your favors seem a bit worthless. You're giving them out randomly." Wang Teng felt speechless.

“Hahaha, other people won’t be able to get my favor even if they want to. Are you saying it’s too much?” Di Qi didn’t mind, laughing loudly.

“Alright, alright, I agree. Let me go so that I can do it properly.” Wang Teng felt helpless.

Too many favors wasn’t a bad thing.

“I’ll leave it to you!” Di Qi released him and patted his shoulder.

Olivia and Clive were puzzled when they saw the two of them acting intimately. When did they become so close?

The duo found it unbelievable.

Di Qi might seem amiable and friendly, but he had an aloof personality. He wouldn’t interact with just anyone.

He had many peers that wanted to befriend him. There were cosmos-stage martial warriors among these people, but Di Qi disregarded them. He didn’t even want to lay his eyes on them.

Once, Olivia had asked him why he didn’t want to befriend them even though they had high positions.

Di Qi’s reply was simple—I don’t like them!

Thus, one could see that Di Qi was an aloof and indifferent person. Even someone with the same status couldn’t enter his eyes.

However, he was acting like old friends with Wang Teng. This was unbelievable.

Wang Teng didn’t know any of this. He walked forward confidently.

All the injured martial warriors were inside a large medical facility. The beds were lined up in a clean and orderly manner. Some martial warriors with more serious injuries were lying in medical cabins. Expensive potions were used to keep them on their last breaths.

“What’s he doing? Shouldn’t he treat them one by one?” Olivia whispered.

“I don’t know. Let’s wait and see.” Di Qi shook his head.

“Ask them to open the cabins,” Wang Teng turned and said.

“Open the cabins?” Di Qi was stunned.

“Yes!” Wang Teng nodded without giving an explanation.

“Alright, I trust you.” Since Di Qi had asked Wang Teng for help, he chose not to suspect him. He ordered the doctors to open the cabins.

“Master, this... isn’t a good idea. The injured can’t suffer any more stimulations.” A doctor around 50 years old glanced at Wang Teng. He was a little hesitant.

Di Qi understood the situation and looked at Wang Teng.

“Ten seconds is enough. If it doesn’t help, you can close the cabin,” Wang Teng said.

“Okay!” The doctor immediately agreed.

The cabin doors opened, and the martial warriors inside woke up, frowning in pain. The doctor stared at the time intently. Once ten seconds were up, he would close the cabin instantly.

To the doctors, the lives of these injured martial warriors were more important than anything else. It wasn't because they didn't believe Wang Teng.

At this moment, a dazzling white light lit up the room. Numerous holy points of white light dropped from the sky and landed on the injured martial warriors.

The wounds on their bodies started healing at a visible speed. Dark Force was excreted out of their bodies and turned into wisps of black smoke. They disappeared in the air.

“This is... light Force treatment!” The doctors widened their eyes and exclaimed in surprise.

Chapter 940: Secondary Career Alliance

The doctors were astounded.

They didn't think that they would be able to witness the rare light treatment skill in this place.

Only martial warriors with light talent could execute this skill. It was extremely uncommon. Even in their alliance, there were only a few people who grasped this skill.

In summary, this was a rare skill!

Any light element martial warrior who knew the light Force treatment was a precious nanny!

This was why the doctors were dumbstruck!

They weren't the only ones. Di Qi and the others were flabbergasted too.

At first, they hoped that Wang Teng could use the Holy Flame to remove the dark Force from the injured martial warriors. However, in the end, besides expelling all the dark Force, he also healed most of the martial warriors' injuries. A huge burden was lifted off their shoulders.

This was a great surprise!

Wang Teng ignored their reactions and continued executing the Bestow Of The Goddess. He had to admit that this light Force treatment skill he received from Alais was excellent.

Look at the effect! It was amazing!

Also, he didn't need to use much energy. He just needed to sprinkle some water and the treatment would be complete.

2

...

The dots of light scattered in the infirmary like a light rain. The injured martial warriors who bathed in this rain healed quickly. Even if their injuries were too serious and couldn't heal completely, they were put under control.

Especially the heavily injured people in the cabins. When the cabin was first opened, all of them frowned in pain. Now, the frowns had disappeared, and they were sleeping peacefully.

Many wounds had been stained by the dark Force for some time, making it hard to get rid of them. However, Wang Teng released the Bestow Of The Goddess without stopping and helped them remove the dark Force completely. Not an ounce of it was left in their bodies.

As the last strand of dark Force turned into black smoke and disappeared, Wang Teng sighed.

“Done!” He clapped his hands and turned to look at Di Qi and the others.

They were still in a daze. They felt that the pace was a little fast and the solution seemed a little simple. But when they looked at the wounded, they were indeed recuperating well. There were no issues.

“Why? Are you unsatisfied? Should I do it again? Actually, this is enough. The effects will be minimal if I execute the skill one more time,” Wang Teng said when he saw their expressions.

“No, this is enough!” Di Qi said hurriedly, “You’ve worked hard!”

“I didn’t. It’s not a big deal,” Wang Teng replied calmly.

Di Qi: ...

Olivia: ...

Clive: ...

The doctors: ...

To them, this was an extremely difficult issue, but to Wang Teng, it was nothing. Were they useless?

The doctors especially felt as if someone had slapped their faces. They didn’t trust Wang Teng at first, but he solved the issue with a wave of his hand. They were a little embarrassed.

“This fellow is putting on an act,” Clive moved closer to Olivia and said using voice transmission.

“You can do it too if you have the skill.” Olivia rolled her eyes.

Clive was speechless. *Olivia, you have changed. In the past, you hated people who liked to put on an act.*

“If there’s nothing, I’ll be leaving. I came out for a break, but here I am working again,” Wang Teng said.

“Hahaha, an able man is always busy. I hope you don’t mind.” Di Qi laughed and placed his arms around Wang Teng’s shoulder. They walked out together. “Come, I’ll treat you to a meal and let you have a taste of my wine collection.”

“Wait!” a doctor shouted.

“What’s the matter, Dr. Leonardo?” Di Qi turned and asked curiously.

“Mister Di Qi, may I speak to Mr. Wang Teng?” Dr. Leonardo asked.

“Me? What is it?”

“What else can it be? If I’m right, Dr. Leonardo must have laid his eyes on your light talent and want you to join the Secondary Career Alliance,” Di Qi smiled and said.

“Mister Di Qi, you’ve guessed correctly.” Leonardo gave a forced smile.

“It’s not hard to guess. Runemaster Fan Taining also wanted to pull Wang Teng in, but he didn’t get the chance because Wang Teng never left his lodging,” Di Qi said.

“What? That old fellow wanted to pull Mister Wang Teng into the alliance?” Leonardo exclaimed.

“Of course. My brother here has high mastery in runes too. He’s at least at the master level. You might not know why we were able to repair our array promptly during the battle. It’s all because of Wang Teng. Without him, the implications would have been terrible,” Di Qi explained.

“I see!” Leonardo’s expression had changed entirely. He was dumbstruck. There were sparkles in his eyes as if Wang Teng was a treasure chest. His desire to pull him into the Secondary Career Alliance grew stronger.

He would get struck by lightning if he couldn’t put him under his wings!

“First come first served. You can discuss with Runemaster Fan Taining first before speaking to Wang Teng.” Di Qi pulled Wang Teng away.

Leonardo was stunned, freezing on the spot. He wanted to stop them, but he couldn’t. He didn’t dare to either.

Olivia and Clive exchanged glances with one other before leaving. Before they left, they turned to look at Leonardo. If he wanted to pull Wang Teng to his side, it wouldn’t be an easy feat.

...

Along the way, Wang Teng asked curiously, “Why didn’t you give him a chance to speak?”

“Whether it’s Runemaster Fan Taining or Dr. Leonardo, they have their motives for pulling you into the Secondary Career Alliance. They have benefits to gain.” Before Di Qi could reply, Round Ball’s voice sounded in Wang Teng’s mind. It seemed to be showing off its knowledge.

“You’re back!” Wang Teng raised his eyebrows.

“Sigh, I got chased away by someone, but I had nowhere to go after seeing this place, so I came back shamelessly,” Round Ball said bitterly.

Wang Teng: ...

“Although they want to pull you into the Secondary Career Alliance, they should give you some benefits first,” Di Qi smiled and said. His words pulled Wang Teng’s thoughts back.

“Benefits?” Wang Teng’s eyes shimmered.

“Of course. They would be making a huge contribution to the alliance if they recruited you. You have great potential and ability, ensuring their benefits too,” Di Qi explained. Then, he gave Wang Teng a meaningful look. His intention was clear.

“Since they will be getting benefits, I can’t let them go for free.” Wang Teng chuckled.

“Glad that you understand.” Di Qi laughed too.

“What’s this Secondary Career Alliance?”

“I know, I know.” Round Ball shouted in Wang Teng’s mind.

However, Wang Teng ignored it. Round Ball was exasperated.

“Do you know the giants in the universe?” Di Qi asked.

“I only know the Universe Bank and the virtual universe,” Wang Teng replied.

Di Qi nodded and continued, “The Universe Bank is the biggest bank in the universe. Their power and wealth are immeasurable. The virtual universe is actually an ancient faction. It’s even more old and mysterious than the Universe Bank. No one knows the person behind the virtual universe. Some say that it’s a formidable martial warrior that has reached the peak of the universe. Others say that it’s created by a bunch of martial warriors living in seclusion. There’s no conclusion.

“The Secondary Career Alliance is also a giant. Secondary careers include alchemists, runemasters, doctors, poison masters, etc. Every profession is included. It has a huge influence.

“There are many people who have reached the grandmaster level in the Secondary Career Alliance. There are even elders with a higher level of mastery. They are the guests of formidable martial warriors, and their connections spread throughout the universe.

“Almost everyone will choose to enter the Secondary Career Alliance; there are rarely any exceptions. The Secondary Career Alliance is a carefree organization. There isn’t any fixed mission requirement, and it has limited rules for its members. Its members are relatively free, but they can still enjoy the resources and connections of the alliance. They will also be protected by the alliance. After all, most people in these professions aren’t very strong in terms of martial arts.

“After entering the Secondary Career Alliance, no one will dare to bully the martial warriors, especially members with higher status. No one knows what connections they might have, so they won’t want to offend them.”

“That means that I must join this Secondary Career Alliance.” Wang Teng’s eyes glowed slightly.

“With your potential and ability, you will rise in rank quickly and enjoy a high status and position. At that time, many powerful martial warriors will seek your help. I’m investing in you first.” Di Qi laughed heartily.

“You should curry favor with me more, or I’ll give you the cold shoulder in the future.” Wang Teng sniggered.

Di Qi laughed and pointed at him. “I’ve already given you the initiative. You will have to depend on yourself to get more benefits from Runemaster Fan Taining and Dr. Leonardo.”

“Don’t worry. I won’t give up my own interests so easily.” Wang Teng smiled like an evil merchant.

Di Qi knew that he had underestimated Wang Teng after seeing his expression. This fellow wasn't a newbie who knew nothing.

They laughed as they walked away. Olivia and Clive, who had rushed to catch up with them, stared at each other in surprise.

These two people seemed as close as brothers!

If they hadn't witnessed it personally, Olivia might think that she saw the wrong person. Was this her arrogant and aloof cousin?

"Olivia, why is Master Di Qi so close to Wang Teng?" Clive asked in confusion.

"How would I know?" Olivia rolled her eyes. Then, she gave him an earnest look. "You shouldn't think about creating trouble for Wang Teng anymore. I promise that if you dare to do anything to him, my cousin won't let you go. You know his temper."

"Why would I do that?" Clive felt wronged. "Wang Teng saved us. How can I return kindness with ingratitude? You're belittling me."

"If you really think that way, I'll have to look at you in a different light." Olivia smiled.
