

MEDICAL GOD CHAPTER 726

Qin Jun's expression was very cold for he thought there was no need to be polite to a doctor like him.

"If you don't tell the truth, and the patient dies because of that; you'll be considered a murderer."

Qin Jun's words made Mr. Joel's face looked uneasy. He really thought that no one would have noticed. But who knew Qin Jun found out the issue just after he took her pulse.

Mr. Joel didn't dare to hide further, "After she went into a coma, I injected her with a shot of glucose and benzoic acid."

Lin Yueyao frowned, "Didn't you know that the patient is allergic to antibiotics? Why did you give her benzoic acid?"

Mr. Joel stubbornly replied, "Benzoic acid isn't even an antibiotic. She was already in a coma, my priority was of course to rescue her. I don't see a problem in using benzoic acid!"

Lin Yueyao felt extremely angry because Mr. Joel had no medical ethics. His decision to prescribe benzoic acid had caused the patient to go into a coma. But he went on to transfer the patient here as if he were in the right. He even blamed Lin Yueyao for medical malpractice.

When Qin Jun heard that it was benzoic acid, he felt a little relieved. It was just allergic symptoms from taking antibiotics so it wasn't a complicated issue.

Even though benzoic acid wasn't an antibiotic, it had similar effects as one; which was the reason why Lei Hong fell unconscious.

Qin Jun took out the silver needle and said to Lin Yueyao, "Prepare a stool bucket."

Lin Yueyao was stunned, "Ok."

Even though she didn't know what it was for, she followed his instruction and quickly brought over a stool bucket.

Qin Jun said, "I have written in the book for you, if colon disease doesn't get cured after a long time; it will cause low blood sugar. That is why low blood sugar is only a symptom on the surface while colon disease is the core issue."

"The patient hasn't been defecating for a long time, so there is a lot of gas in her stomach. This has caused everything to choke up and formed gas reflux. Hence, the body weakens, trembles, and shows signs of low blood sugar."

"In cases like this, we need to treat from the core issue. Defecating is all she needs to do."

As he finished his words, Qin Jun took out three silver needles. He rolled up Lei Hong's top, and moved her pants down a little. Lei Hong's flat stomach was exposed.

Lei Hong had very fair skin. Even just by an occasional touch, one could have felt how smooth her skin was.

The bald man frowned and grabbed his gun tightly. Hong was a goddess to all of them. Any profanity was strictly prohibited. The bald man would have struck them if they were not treating her.

Fortunately, Qin Jun did not do anything else besides treating Hong. He inserted the needles on three pressure points on Lei Hong's stomach.

There was a slight change on Lei Hong's face. She frowned and seemed to have signs of waking up.

Qin Jun said, "She will defecate in a moment. We will leave the room now. I think you should be able to handle this on your own."

"No problem!"

As he finished speaking, Qin Jun walked out of the emergency room.

The bald man pointed his gun at Mr. Joel and said coldly, "You get out too."

Mr. Joel was frightened as he walked out carefully.

After the men had left, Lei Hong suddenly opened her eyes and sat up in shock.

"I, I..."

Lei Hong had the urge to pass motion. This sudden feeling made her feel very uncomfortable.

Lin Yueyao quickly said, "Don't be nervous. I have prepared a stool bucket for you. I'm the only person here, so you can just do as you please."

...

About ten minutes later, Lin Yueyao pushed out a wheelchair with Lei Hong. She was fully awake at this point, her face was slightly rosy. Her body felt a little weak, but she didn't look ill.

The bald man was overjoyed, “Hong, you’re awake!”

Lei Hong nodded. She took a look at the people who stood in front of her, “Who is Doctor Qin?”

Qin Jun walked over, crouched down, and answered, “I am.”

At the same time, he took Lei Hong’s hand and took her pulse.
