

## MEDICAL GOD CHAPTER 749

The request piqued Mr. Fang's interest. "Really? I can help."

Xie Huaqiang smiled at Qin Jun. "Mr. Qin, why don't you show Mr. Fang your watch? Who knows, it might be real?"

Wang Yun stepped in and grinned. "I don't think it's necessary, Young Master Xie, haha..."

Xie Huaqiang insisted, "Why not? Let's have a look. Though the watch comes from a roadside stall, it could be a genuine Rolex too!"

Qin Jun then removed his watch and handed over.

Mr. Fang took it and his eyes lit up.

It was quite heavy.

A watch that had a certain weight could indicate that it was made of high-quality materials and had a high gold content. This also showed that the quality of the luxury watch was top notch.

Mr. Fang looked at the dial plate, and his brows furrowed.

Xie Huaqiang laughed, "What do you think? I bet you've never seen a Blue Submariner before, right? Hahaha."

Xie Huaqiang thought everyone would appreciate his humor, but Mr. Fang's expression turned serious.

He took out a magnifying glass from his pocket and started examining the watch.

Xie Huaqiang said, "There's no need for all these, right? I believe you should be able to tell if it's fake at one glance."

The restaurant owner did not answer him but paid close attention to the details of the watch. He flipped the watch over and found a series of numbers on a worn out corner.

1763!

Mr. Fang's eyes sparkled, and he was pleasantly surprised. "It really is a Blue Submariner!"

Xie Huaqiang frowned. "Mr. Fang, what are you talking about? What Blue Submariner? There isn't such a thing!"

The restaurant owner replied, "Yes, there is."

"Rolex manufactured a piece of Blue Submariner in 1763, but the factory closed down soon after. A group of investors only revived Rolex after pumping money into the company."

"When the factory resumed its operations, they started producing new products and forgot about the Blue Submariner. They manufactured this watch, but it's not available in the market."

"This watch is not only priceless, but it is also a valuable collectible. I heard a collector bought it. If the owner sells this luxury item, he can easily sell it for at least forty million!"

Upon hearing what Mr. Fang said, Xie Huaqiang looked confused.

Wang Yun was also dumbfounded. Forty million?

They never knew a watch could be as expensive as this. It was even a valuable collectible!

A frown appeared between Xie Huaqiang's brows. "You must have made a mistake. How can this watch be so expensive? I've never heard of a Blue Submariner either!"

"Young Master Xie, you shouldn't question my ability. I've been a watch enthusiast for a big part of my life. I'm very sure I'm right about this. If you don't believe me, compare your watch and his. The materials used to make Blue Submariner and its craftsmanship are far more superior to yours. After all, the watch was handcrafted some 300 years ago. Pardon me for being blunt, but it's clear that you either know little about this watch or are not that knowledgeable."

The color drained out of Xie Huaqiang's face.

He wanted to humiliate Qin Jun to show superiority, but he failed. Instead, he embarrassed himself in front of so many people.

Yes, a watch called Blue Submariner existed. He had not heard of it because he was not a qualified watch enthusiast!
