

Merchant 1011

Chapter 1011: Lord Azure Envoy, Do You Want to Watch?

When Liu Tong heard Lin Yuan call his name, he became so overwhelmed that he started to tremble.

He had only mentioned his name to Lin Yuan once, and he could not believe that Lin Yuan still remembered it.

Before Liu Tong could thank Lin Yuan, he heard the part about Hu Quan accepting him as a disciple.

With two blessings landing in his lap at the same time, Liu Tong suddenly felt slightly dizzy.

Regardless, Liu Tong did not lose his composure and bowed to Lin Yuan and Hu Quan as he said, "City Lord, Master, I will work even harder from now on."

Hu Quan's mouth fell open. All he had said was that he intended on accepting Liu Tong as his disciple, yet Liu Tong was already calling him 'Master'.

However, Hu Quan did not rebuke Liu Tong as he silently accepted this title.

At that moment, Listen hurriedly walked in and handed five Diamond fey storage boxes to Lin Yuan and said, "Young Master, the materials I prepared are inside the five Diamond fey storage boxes. They should be enough for the 35 Spirit Craftsmen to use for the construction of a base for some time. I will continue to gather more materials for the construction of the base."

Lin Yuan nodded and received the five fey storage boxes from Listen.

He used the Jeweled Cave Golden Toad to send the 35 Spirit Craftsmen into the marsh world in batches.

Once the 35 Spirit Craftsmen saw the marsh world, they were immediately dumbfounded.

Lin Yuan said to the 35 Spirit Craftsmen, "You're no longer in the main world. This is the marsh world. You have to be separated from society because you'll be constructing Sky City's base in the marsh world. Once the construction is done, I'll give each of you a Bronze/Legend fey that's suitable for Spirit Craftsman work as a reward."

The 35 Spirit Craftsmen were all frozen.

Class 3 Spirit Craftsmen rarely even got to interact with Bronze/Epic feys, much less Bronze/Legend feys.

The 35 Spirit Craftsmen clenched their fists and declared, "Don't worry, Young Master. We will definitely finish the construction of the base as soon as possible!"

Lin Yuan smiled at these 35 determined Spirit Craftsmen. He was not going to forget their loyalty toward Sky City and planned on nurturing them.

Since he was going to nurture them, he would not skimp on the investment of resources into them.

He could obtain Bronze/Legend feys easily now.

However, he would not waste his resources. Thus, Lin Yuan promised them a Bronze/Legend fey that would be suitable for Spirit Craftsman work.

He would not allow them to choose a Bronze/Legend fey that could be used for combat.

Lin Yuan handed the 35 Spirit Craftsmen over to the Kill Food Sky Butterfly and Marsh Ground Sphagna for protection.

A small green snake slithered up Lin Yuan's leg and changed into the Medusa Snake Demon in his arms.

Wendy whispered, "Lin Yuan, I missed you! It's been a day since I last saw you!"

Wendy clearly sounded hurt, and tears started to brim in its eyes.

Lin Yuan was surprised by how clingy Wendy was and realized that it was possible that Wendy was this way because of how it had clung to Scale Concubine all its life.

However, Scale Concubine was now extremely respectful and distant toward Wendy.

Lin Yuan decided that he would spend more time with Wendy from now on.

Wendy's green hair was continuously absorbing the poison in the Drugged Snake Eagle's heart, and it had become a Class 2 dimensional lifeform after just one day.

Soon, Wendy would finish absorbing all the poison in the Drugged Snake Eagle's heart, and its class would exceed that of Rising Lizard.

Lin Yuan took out the six snake-type feys and gave them to Wendy.

"Wendy, use Snake Frontier Playground to make these six snake-type feys into your snake-hair. It'll help you become stronger faster."

The six snake-type feys were very affectionate toward Wendy, and the latter really liked these snake-type feys that could not be found in the marsh world.

Wendy gently shook its head, and the six snake-type feys became its snake-hair. They made Wendy look beautiful in a wild way.

Lin Yuan noticed how well Wendy could control the six snake-type feys using Snake Frontier Playground. Wendy could switch them out between snake-hair form and snake-type fey form at will.

The six snake-type feys were just like new toys for Wendy.

By the time Lin Yuan finished setting up the marsh world, he had left the marsh world and immediately hit the sack.

Tomorrow was the fourth Astronomical Parliament parliamentary meeting.

...

In a garden full of bluebells, a young girl was holding a white strip of cloth as she looked up at the starry sky.

She saw the light from Andromeda, and her lips stretched into a small but beautiful smile as her eyes filled with hopefulness.

It was as though she was waiting for the light from Andromeda to descend on her.

At that moment, a lion and leopard roared.

An intimidating white lion walked up to the girl and was about to nudge her with its head when the clouds in the sky gathered together, and an elegant azure leopard shot through the clouds.

The four-meter azure leopard shrank until it was a 20-centimeter cat and landed in the young girl's arms.

It meowed innocently and rolled its eyes at the white lion before saying, "Look, I can make myself smaller! Mistress has been holding me all week!"

The Spirit White Lion lowered its head sadly.

The young girl flicked the azure cat's head and said, "Blue Gift, you're the Azure Cloud Leopard, so naturally, you're more elite than the Spirit White Lion. White Word is going to evolve to Suzerain soon. Blue Gift, the two of you will be mates in the future. You should be nicer to your husband instead of always bullying him!"

An elderly man walked into the bluebell garden.

He got down on one knee before the young girl and said respectfully, "Lordess Radiance Envoy, the Radiance Hundred Sequence selection will take place in a month. The Radiance Hundred Sequence selection is a grand event in the Radiance Federation. The Azure Federation has been on good terms with the Radiance Federation. You've just become a Radiance Envoy and haven't visited other federations.. Lord Xun wants to know if you're interested in going to spectate the Radiance Hundred Sequence."

Chapter 1012: Not Time to Name It

The young girl hurriedly put the Azure Cloud Leopard down and ran over to the elderly man, her skirt glancing past the bluebell petals.

Just as she was about to help the elderly man up, the elderly man lowered his head and said, "Lordess Azure Envoy, you must not! Your status is too high to bow just to help up an old servant like me."

The young girl looked vexed as she said, "Grandpa Butler, you never used to kneel to me! I might be an Azure Envoy now, but you're still my Grandpa Butler!"

The elderly man lowered himself even more and felt an unspeakable foreignness from this young girl that he had watched grow up.

In the short time since she had regained her sight, she also awakened the Azure Cloud Leopard and Spirit White Lion beast patterns and became the first spirit qi professional in the Azure Federation in a century that had unlocked two beast patterns.

Other people in the Azure Federation had awakened two beast patterns, but none of them were beast patterns that were so representative of the Azure Federation.

Hence, this young girl was chosen to become the fourth Azure Envoy.

The elderly man always saw the young girl as innocent and cheerful. She did not know anything about the world and was just like a pure deer.

But a week ago, she had insisted on choosing an island from the cluster of islands in the Azure Federation to start a private faction.

Suddenly, three Class 3 families and two Class 4 families had joined in the fight for the island that the young girl wanted.

One of the Class 4 families had had a wicked idea and decided to use underhanded means to obtain the island before the auction.

The young girl had flown into a rage when she found out.

She had issued an Azure Edict and taken care of the members of the Class 4 family that had unfairly snatched away the island.

The fourth Azure Envoy's Azure Edict stirred all the major families in the Azure Federation.

The elderly man was not alone as even the young girl's parents understood what she was thinking.

"Lordess Azure Envoy, Lord Xun suggests that you visit the Radiance Federation. He will be leading 10 new members of the Azure Hundred Sequence to the Radiance Federation so that they can spar with the new members of the Radiance Hundred Sequence. The third Azure Envoy will also participate. He will manage the event with Lord Xun, so you won't have to worry about anything if you go," said the elderly man.

The young girl fell silent as she started to ponder over the elderly man's words.

"Grandpa Butler, tell Teacher Xun that I'll think about going. I already bought the island. Send 10 Class 5 Spirit Craftsmen and 50 Class 4 Spirit Craftsmen to begin construction on the island."

While Yin Lin spoke, she massaged her temples.

She had been swamped recently, and this was the first chance that she had to admire Andromeda in the garden.

When she saw Andromeda, she felt as though she could almost see that gentle person.

Although she only knew that he was wrapped in thousands of willpowers and did not know what that person looked like, he was her ray of hope.

She had been living in darkness ever since she was young, but she had touched books countless times.

Her fingers were her eyes that helped her experience the world.

She had read at least 30 books about notable figures in the Azure Federation. Hence, she was well aware of the iron fist of power.

Since she had the power, she was going to use it to finish what was important to her, just like how she had unhesitatingly issued the Azure Edict to take care of the Class 4 family that had cheated.

Yin Lin was not a bad-tempered person, and she only boiled over because the Class 4 family had crossed her line.

Their actions had prevented her from finishing the task given to her by her ray of hope.

The elderly man anxiously replied, "Don't worry, Lordess Azure Envoy. I will see to it immediately. Can I ask what kind of business direction your private faction will follow?"

Yin Lin revealed the words in her heart and said, "The Class 6 dimensional rift that opened in the Azure Federation is a water dimensional rift that connects to the water world. There is a large amount of water-type spiritual ingredients and heavy water inside. I can use that as part of the faction's business. The area I chose is above a large coral reef, and there are many coral-species feys in the coral reef. I intend on protecting and nurturing the coral reef and use rare corals as the faction's role."

The elderly man made a mental note of what Yin Lin said and replied, "Don't worry, Lordess Azure Envoy. I will make sure to do as you say."

A thought struck him, and he abruptly asked, "Lordess Azure Envoy, your private faction will be set up soon. Do you have any plans for its name?"

Yin Lin looked up at the starry sky and was silent for a moment before she said, "It's not time to name it yet. Grandpa Butler, you can leave now. I want to admire the stars in the garden peacefully."

The elderly man bowed and left the bluebell garden.

Yin Lin turned and picked up the Azure Cloud Leopard.

She thought about how she could see her ray of hope tomorrow, and a genuine smile blossomed on her face.

In contrast to Yin Lin, the heavily injured Bei Xu was lying against a stone wall.

Blood oozed out of his body and stained the floor.

The Sharp Shadow Bat was next to Bei Xu, eating the almost lifeless Class 5 Cave Lizard Frog.

The Cave Lizard Frog was one of the stronger Class 5 dimensional lifeforms, and its skin was covered with poisonous glands.

Chapter 1013: How Am I Supposed to Shower in the Future?

The poison glands could secrete sticky fluids that the Cave Lizard Frog would coat its tongue in to use as a weapon during battle.

The Cave Lizard Frog's strong back legs and 2-ton body made it into a battering ram.

When the Cave Lizard Frog collided against a target, the poison would cause double the damage on top of the physical damage.

Bei Xu was in the bloodied, mangled state he was in because he had encountered a pinnacle Class 2 subterranean dimensional rift.

The Cave Lizard Frog had started off as a pinnacle Class 4 dimensional lifeform but evolved to Class 5 after consuming some Class 4 dimensional lifeforms.

Hence, Bei Xu was caught completely off guard and was attacked by the Sharp Shadow Bat.

Thankfully, the Sharp Shadow Bat had defended Bei Xu and kept him from dying.

Bei Xu was lucky that he had encountered a pinnacle Class 2 dimensional rift. Otherwise, he would have been attacked by more than just the Class 5 Cave Lizard Frog.

When the Cave Lizard Frog collided against the Sharp Shadow Bat and Bei Xu, the Sharp Shadow Bat used Bat Colony Sucking.

Most of the dimensional lifeforms from the pinnacle Class 2 dimensional rift were like moving blood bags that the Sharp Shadow Bat could use to heal Bei Xu's injuries.

This kept Bei Xu from losing his life and allowed the Sharp Shadow Bat to continue fighting.

During the last Astronomical Parliament parliamentary meeting, Lin Yuan knew that Bei Xu was basically a simpleton.

He did not know how to use Diamond fey storage boxes or the spirit fluids that Genius had concocted. Instead, he had carried the Diamond fey storage boxes and spirit fluids around like they were his treasures.

Lin Yuan had used law power to use Star Spirit Seat to provide Bei Xu with many books about spirit qi professional knowledge. The method of using the Diamond fey storage boxes and spirit fluids was included in the books.

Using instructions from the books, Bei Xu fed the spirit fluids to the Bronze X/Fantasy I Sharp Shadow Bat.

After a day, the Sharp Shadow Bat evolved to Platinum X/Fantasy I.

The increase in the Sharp Shadow Bat's power also gave Bei Xu the courage to explore the underground world.

He had decided to tackle the pinnacle Class 2 dimensional rift because of the two source-type items inside.

Bei Xu's plan had been solid, but it was almost ruined because of the Cave Lizard Frog.

The Class 3 Cave Lizard Frog was about as strong as a Diamond fey. The Platinum X/Fantasy I Sharp Shadow Bat had about the same amount of power as a Diamond X/Legend fey.

Hence, it was not difficult for the Platinum X/Fantasy I Sharp Shadow Bat to defeat the Cave Lizard Frog.

The Sharp Shadow Bat made short work of the wave of dimensional lifeforms. It spared the Class 5 Cave Lizard Frog to use Bat Colony Sucking to heal Bei Xu's injuries.

As the Sharp Shadow Bat drained the vitality from the Cave Lizard Frog, the vitality in Bei Xu increased.

He slowly rose to his feet but soon shifted his injured organs. Before he could even take another breath, he collapsed back to the ground.

It was only after half an hour that Bei Xu was fully healed.

Once he was recovered, he instructed the Sharp Shadow Bat to absorb the blood from the subterranean dimensional lifeforms to replenish its spirit qi.

When the Sharp Shadow Bat's spiritual power reached its peak again, Bei Xu led the Sharp Shadow Bat into the pinnacle Class 2 dimensional rift.

The wounded Bei Xu stumbled out of the dimensional rift with the Sharp Shadow Bat a few hours later.

As he looked at the source-type items in his hand, a radiant smile stretched across his face.

He sighed to himself. "I finally have things of my own!"

Although he could not form contracts with the two source-type items, he was not dispirited.

After the Sharp Shadow Bat cleansed his body of the curse, he was now a free agent that did not have to be commanded by anyone.

Moreover, he now had a Platinum X/Fantasy I Sharp Shadow Bat, which was considered to be powerful for where he lived.

Now that he had two source-type items, Bei Xu would be able to find suitable spirit qi professionals and use the Sharp Shadow Bat's Bat's Fangs Blood Seed to control the spirit qi professionals. He would instruct the spirit qi professionals to form contracts with the source-type items to increase their power.

This would allow Bei Xu to gain subordinates and begin his establishment of a faction.

Owning resources in the Grotto Continent was just like an impoverished person owning a diamond. He had to use the resources to reap the benefits.

Bei Xu led the Sharp Shadow Bat to an underground river. He jumped in and happily washed off all the grime on his body.

Once he was clean, he shook his hand and took out something wrapped in cloth. The item looks like the stomach lining of an insect-species fey.

Inside the stomach lining were dimly glowing rocks that Bei Xu had obtained from the bodies of other insect-species feys to create a simple lamp.

Under this lamp light, Bei Xu started to wash his tattered clothes.

Suddenly, Bei Xu sensed a pressure, and all the hair on his body stood on end.

Bei Xu hurriedly picked up his lamp and ran over without even storing his clothes.

Bei Xu saw a red scaly tail disappear under the river.

He stood rooted to the ground, his heart pounding in his chest.

Despite having lived in the underground world for so long, this was the first time he discovered that there was life in the river.

Bei Xu did not have any intention of fighting back against the pressure.

He stood on the shore and murmured, "Wow, how am I supposed to shower from now on?"

Chapter 1014: The Bloodline that the Mother of Bloodbath had Never Seen Before

The naked Bei Xu looked at his body and suddenly felt bashful.

He led the Sharp Shadow Bat into a cave and instructed it to kill several Armored Rock Insects for dinner.

Bei Xu rubbed stones together and started a bonfire before he used insect wings to sew himself new clothes.

When he put on his new clothes, Bei Xu nodded in satisfaction and pulled the unwilling Sharp Shadow Bat over.

He took a book out of a Diamond Fey storage box and started to read aloud so that the Sharp Shadow Bat could learn alongside him, regardless if the Sharp Shadow Bat could understand him.

Bei Xu only closed the book when dim light penetrated the underground world once again.

He told the Sharp Shadow Bat to guard the entrance and fell asleep.

Bei Xu had burned the midnight oil so that he would be able to be guided by Perseus to the Astronomical Parliament successfully.

He had been working day and night so that he would be able to tell Lin Yuan about his achievements the next time he saw him.

...

The next day, Lin Yuan instinctively touched Chimey and Genius when he woke up.

He immediately sat up wide awake.

He remembered Genius saying that it wanted to teach the Hundred Questions Beasts in the Spirit Lock spatial zone when he pulled them to bed.

Meanwhile, Chimey had been live streaming all night on Star Web to gather more funds for the Warm Sun Fund.

Both of them were busy while only Lin Yuan seemed to be free.

Since Genius and Chimey were full of passion in their individual endeavors, Lin Yuan did not stop them.

When they were tired during the day, they could rest in the Spirit Lock spatial zone.

Lin Yuan walked downstairs and saw that Liu Jie was making pancakes with maple syrup, apple pie, and other sweet treats.

Wen Yu was flipping through a document at the table and looked like she was going to laugh at any moment.

Lin Yuan looked at her warily. He assumed that she was reading jokes and had printed them out for fun.

The Mother of Bloodbath was seated at the water rhinoceros leather sofa and sucking blood energy from a Mist Blood Baby Rose.

It hurriedly opened its eyes when it saw Lin Yuan approaching.

When Lin Yuan saw the Mist Blood Baby Rose in the Mother of Bloodbath's hand, he knew that it had already absorbed all the Blood Brew Grapes and old vines of the Blood Brew Grapevine.

The Mother of Bloodbath was anxious to increase its power and had started searching for spiritual ingredients with blood energy.

Lin Yuan handed the Mother of Bloodbath a Silver fey storage box and said, "The Blood Brew Grapevine has given a new batch of Blood Brew Grapes. There is much more blood energy in Blood Brew Grapes, and it's also purer. There are also a fair number of old vines inside. This should be able to last you for some time.

"When you reach pinnacle Myth II, use the power inside Law Crystals to consume the entire Blood Brew Grapevine and use the pure blood energy inside it to temper your bloodline. This might help improve your bloodline. After absorbing a large amount of essence blood for a long time, the Blood Brew Grapevine has reached Diamond X/Legend. Even if it can't improve your bloodline, it'll be able to evolve your three Red Water Blood Snakes. There's even a possibility that the hornless dragon bloodline in the Red Water Blood Snakes will be unlocked and transform them into the Red Blood Hornless Dragons."

The Mother of Bloodbath's eyes lit up.

If what Lin Yuan said was true, it was very likely that its bloodline would become purer after it absorbed the pure blood energy in the Blood Brew Grapevine.

No fey could resist the allure of evolution, and the Mother of Bloodbath was no exception.

However, the Blood Brew Grapevine was a treasure that could produce blood energy. It was just as precious as the Elemental Shellfish as both feys produced resources.

Lin Yuan was giving this treasure to the Mother of Bloodbath so that it would be able to improve its bloodline.

Regardless of how many times the Mother of Bloodbath had been touched by Lin Yuan, it was once again deeply touched.

The Mother of Bloodbath was immediately shocked when it saw the eight strings of Blood Brew Grapes in the fey storage box and asked in disbelief, "Lin Yuan, don't tell me that you don't prune the Blood Brew Grapevine at all. Do you allow it to grow freely?"

Lin Yuan nodded and replied, "You're right. I decided to cultivate it this way to increase the number and quality of Blood Brew Grapes produced. I never controlled the way it grew, nor have I cut off any branches. Every string of Blood Brew Grapes is produced in conjunction with the main vine and two supporting vines."

The Mother of Bloodbath was astonished by how much essence blood Lin Yuan had poured on the Blood Brew Grapevine, and it started to tremble in excitement when it thought of its bloodline.

"Lin Yuan, if your Diamond X/Legend Blood Brew Grapevine grows freely, even its supporting vines must contain pure blood energy. All that blood energy might be able to unlock the hidden bloodline in my genetic model."

The Mother of Bloodbath sighed faintly and said, "However, the hidden bloodline won't be able to be evolved with just pure blood energy. Pure spirit qi is also needed. The pure spirit qi must be very concentrated, and not even the spirit fluids concocted by Class 5 Creation Master are sufficient."

Lin Yuan was slightly surprised but looked pleased as well.

From the way the Mother of Bloodbath's External Blood Bone allowed it to fight four enemies at once, Lin Yuan knew that its bloodline was special.

However, he never expected there to be a hidden bloodline in its genetic model.

If the Mother of Bloodbath's bloodline could be fully unlocked, its bloodline would reach an unimaginable level.

Chapter 1015: Sky Sundial Jade Spider

Lin Yuan could not imagine what the Mother of Bloodbath's bloodline would become.

It was no wonder that the Moon Empress had chosen the Mother of Bloodbath to be his Path Protector.

When he saw how hopeful and worried the Mother of Bloodbath was, Lin Yuan said, "Mother of Bloodbath, all you need to do is focus on your power and absorb these Blood Brew Grapes and old vines. I'll prepare the concentrated spirit qi, and I promise that it'll meet the requirements."

The Mother of Bloodbath was sure that no one in the world would treat it better than Lin Yuan, including its own parents.

Ever since the Mother of Bloodbath had become Lin Yuan's Path Protector, it felt like it had not carried out its duties well.

Instead, Lin Yuan had been silently helping it ever since he bought the Deep Sea Blood Mosquito for it at the auction.

When he was helping it evolve to Myth II, Lin Yuan remained as solid as a mountain in spite of the dangers.

The Mother of Bloodbath had not forgotten the determination and worry in Lin Yuan's eyes.

It did not know where Lin Yuan planned on obtaining such a large amount of pure spirit qi from, but it knew that he would definitely make good on his words.

The touched Mother of Bloodbath's expression became solemn, and it suddenly wanted to spill the secret that it had never told anyone before.

The Mother of Bloodbath looked at Wen Yu and Liu Jie and thought about all the warmth it had experienced in the Return from Faraway Mansion before saying, "Lin Yuan, do you know why I need pure spirit qi on top of pure blood energy when I'm improving my bloodline?"

Lin Yuan raised an eyebrow.

Feys always needed pure spirit qi to evolve their bloodlines.

For example, the Green Gold Snake that Lin Yuan had evolved last night was very sensitive to pure spirit qi.

The Green Gold Snake's bloodline had evolved in the midst of pure spirit qi and transformed into the Green-Eyed Gold Scales Snake.

Just as Lin Yuan was about to say that the Mother of Bloodbath was also sensitive to spirit qi and needed pure spirit qi to evolve its bloodline, he was immediately frozen.

The Mother of Bloodbath used to always be by his side.

Although he had noticed that he rarely needed to circulate his spiritual power when the Mother of Bloodbath was with him, spiritual power always became purer when it passed through him.

Lin Yuan could hide this occurrence from others but not the Mother of Bloodbath.

If the Mother of Bloodbath was truly sensitive to spirit qi, its bloodline should have evolved long ago when it was by Lin Yuan's side.

Lin Yuan suddenly realized that the Mother of Bloodbath had a secret, and he made a bold guess and said, "Can it be that you need pure spirit qi to break through the confines of your own bloodline, or is there a hidden secret inside you like Endless Summer?"

The Mother of Bloodbath shook its head before nodding.

"It's not for me to break through the confines of my bloodline. I was originally the Blood Red Bird-Catching Spider and was lucky enough to have tempered a large amount of blood energy. The blood energy allowed my bloodline to evolve to the top of the blood-type spider-species fey bloodlines. However, this road is short, and I won't have far to go. I won't be able to have triple tree cores and transform into the Endless Mystical Dream Summer like Sister Summer. However, the thing in my body is even more incredible than Sister Summer's triple tree cores."

Lin Yuan's eyes flew open in shock.

When he used True Data to check on the Mother of Bloodbath, he had not seen anything special about the Mother of Bloodbath.

This meant that the thing inside the Mother of Bloodbath did not spawn from a miracle like it had in Endless Summer because True Data would have revealed it.

Apparently, something was suppressing the Mother of Bloodbath's gift in its body. This thing could only come from its genetic model.

This was similar to the Sky Clouded Crane that was evolving in the Spirit Lock spatial zone.

When the Sky Clouded Crane's genetic model had been lacking, Lin Yuan could not tell what it was.

"Mother of Bloodbath, is there something special about your genetic model?"

The Mother of Bloodbath was shocked that Lin Yuan was able to guess its situation from what it just said.

When Liu Jie saw that the Mother of Bloodbath was about to tell Lin Yuan a secret, he wanted to go to the kitchen to avoid them.

The Mother of Bloodbath said to Liu Jie and Wen Yu, who were about to leave, "If you two want to listen, come over. I'm going to tell my secret, but I don't need to hide anything from you two."

Liu Jie and Wen Yu smiled warmly.

As a fey, the Mother of Bloodbath was distrusting of feys, and it was always cold and closed off.

But after spending so much time together, the Mother of Bloodbath now regarded Wen Yu and Liu Jie as its family.

Wen Yu and Liu Jie sat on the water rhinoceros leather sofa and looked at the Mother of Bloodbath seriously as they waited for it to tell its secret.

The Mother of Bloodbath looked at Liu Jie, Lin Yuan, and Wen Yu and asked, "Have you heard of the Sky Sundial Jade Spider?"

Lin Yuan, Liu Jie, and Wen Yu started to think.

Lin Yuan's spiritual energy was connected to Genius, and Genius had learned almost all the information that was available on Star Web.

However, Lin Yuan was sure that there was no information about the Sky Sundial Jade Spider in Genius' bank of knowledge.

Liu Jie looked equally clueless. He was not a Creation Master or Fey Observer. Hence, he did not know much about spider-species feys.

Thus, there was no way he knew about the Sky Sundial Jade Spider.

Wen Yu looked like she was thinking when she exclaimed, "I think I've heard of the Sky Sundial Jade Spider, but I can't remember it clearly!"

"Fly! Elemental Paper, Hear Heaven's Secrets!" cried Wen Yu.

Wen Yu changed into a large tome, and the pages started to flip rapidly.

Each page was imbued with faintly glowing spiritual energy, and it looked like a controlled paper storm.

Chapter 1016: Are There Multiple Mates?

A piece of paper flew out of the center paper storm.

Wen Yu changed back into human form with the paper clutched in her hand and said in amazement, "So the legend is true! I always thought that the secrets written in the books in the Hidden Moon Pavilion about the time before the Spirit Qi Awakening were all myths. But if the Sundial Sky Jade Spider is real, is it connected to the lava zone in the south pole? In the legend, the Sky Sundial Jade Spider will consume—"

Suddenly, Wen Yu stopped and looked at the Mother of Bloodbath awkwardly.

The Mother of Bloodbath picked up from where Wen Yu stopped and said, "I don't know if the legend you're talking about is real, but if a pinnacle Creation VIII or recently turned Immortal Sky Sundial Jade Spider dies, it's possible to create a volcanic zone in the south pole."

Lin Yuan and Liu Jie were completely bewildered.

They did not know why Wen Yu had suddenly stopped talking or what legend the Mother of Bloodbath and Wen Yu were referring to.

Neither of them could believe that the volcanoes in the south pole of the Radiance Federation were linked to a fey.

"You don't have to be awkward. The Sky Sundial Jade Spider will eat its mate when it's pregnant. In fact, it'll eat more than one. The Sky Sundial Jade Spider will absorb energy by eating its mates before choosing one of the mate's bloodline to fuse with its egg. My mother is the Sky Sundial Jade Spider."

Numerous questions popped into Lin Yuan's head.

What did it mean by eating more than one mate? Could the Sky Sundial Jade Spider have more than one mate?

Wen Yu handed the confused Lin Yuan the piece of paper in her hand.

The moment he read the contents of the paper, Lin Yuan felt as though his world had turned upside down.

If the Sky Sundial Jade Spider was truly like how the information on the paper described it to be, it had to be the strangest fey that Lin Yuan had ever encountered.

The Sky Sundial Jade Spider was both male and female and could carry one egg at its peak period.

It was at its strongest when it was pregnant and would release powerful pheromones.

The Sky Sundial Jade Spider's pheromones were deathly seductive to any male spider-species fey that the Sky Sundial Jade Spider deemed acceptable.

The male spider-species fey would do its best to be near the pregnant Sky Sundial Jade Spider and regard the Sky Sundial Jade Spider as its mate.

However, the spider-species fey would have no idea that there was already an egg in the Sky Sundial Jade Spider's body and that it would only end up as the Sky Sundial Jade Spider's energy source.

According to legend, the appearance of one Sky Sundial Jade Spider would result in the population of spider-species feys in the main world dropping by at least 10%.

Nonetheless, the male spider-species feys would not die in vain, and the Sky Sundial Jade Spider would choose one lucky spider-species fey to have its bloodline injected into its egg.

This strange gestation process allowed the Sky Sundial Jade Spider to be one of the rare feys that could comprehend two Law Runes using its two bloodlines. Moreover, the laws comprehended by the Sky Sundial Jade Spider were set.

Once the Sky Sundial Jade Spider bloodline was awakened, it would comprehend a law from the sun that it could use to manipulate the power of the sun.

Lin Yuan stared at the Mother of Bloodbath dazedly for a while. It seemed that the lucky male spider-species fey that the Mother of Bloodbath's mother had chosen was the Blood-Red Bird Catching Spider.

It also seemed that the Mother of Bloodbath had been suppressing its Sky Sundial Jade Spider bloodline while displaying its Blood-Red Bird Catching Spider bloodline.

Lin Yuan needed to absorb this information. But he had also discovered just how much potential the Mother of Bloodbath possessed.

He had once heard the Moon Empress say that there was a fey in the main world called the heavenly family fey that had the potential to gain unimaginable power.

The Sky Sundial Jade Spider was probably a heavenly family fey.

The Mother of Bloodbath noticed that Wen Yu, Liu Jie, and Lin Yuan all looked confused, and a smile stretched across its cold face.

"Just ask all your questions. Since I'm going to tell you my secret, I'm ready to answer all questions."

Lin Yuan softly asked, "Mother of Bloodbath, why haven't you chosen to awaken your Sky Sundial Jade Spider bloodline? Is it because you need pure spirit qi?"

The Mother of Bloodbath assumed that Lin Yuan would be extremely curious after it told its secret, but it did not expect Lin Yuan to want to know what it needed.

Just how thoughtful was Lin Yuan?

The Mother of Bloodbath coughed and said, "I only found out when I reached Suzerain that I have the Sky Sundial Jade Spider bloodline inside me. Ever since then, I've wanted to unlock it. However, I didn't expect that awakening the Sky Sundial Jade Spider's bloodline would result in the power of the sun descending and changing my body. It was because I was damaged by the sun's power that I almost died during my World Cleansing to become Myth Breed. At that time, I used my Blood-Red Bird Catching Spider bloodline to suppress the Sky Sundial Jade Spider bloodline. I thought that I would have to suppress the Sky Sundial Jade Spider bloodline forever.

"But if I have the pure blood energy from the Diamond X/Legend Blood Brew Grapevine that was allowed to grow freely, I can use it to activate the Sky Sundial Jade Spider bloodline. This'll allow my body to be able to sustain the sun's power and the transformation that comes with it. Spirit qi is the basic building block of all feys. With the aid of pure spirit qi, my body will be able to absorb the sun's power quicker.

"This is the only way I'll have the courage to challenge taking on the sun's power to see if I'll be able to transform into the Sky Sundial Jade Spider to comprehend another law or if I'll be reduced into a pile of ash."

Lin Yuan no longer had any more questions.

He looked into the Mother of Bloodbath's eyes seriously and said, "Don't worry about the pure spirit qi. Leave it to me. I just hope that you'll be fully ready to unlock the Sky Sundial Jade Spider bloodline."

The Mother of Bloodbath could see how sincere Lin Yuan was about his promise. It nodded and replied, "Don't worry! I won't unlock the Sky Sundial Jade Spider bloodline unless I'm completely prepared."

It thought to itself,?I would much rather be with you and everyone in the Return from Faraway Mansion than become stronger.

While they ate breakfast, Lin Yuan thought about what else he would need to prepare to help the Mother of Bloodbath successfully unlock its Sky Sundial Jade Spider bloodline.

However, he could not come up with anything.

Chapter 1017: The Astronomical Parliament's New Member

This was connected to the Mother of Bloodbath's survival and future success. Lin Yuan planned on consulting the Moon Empress when she returned.

After breakfast, Lin Yuan sat on the sofa, thinking. Wen Yu walked over to him and shook the paper in her hand as she said with muffled laughter, "Young Master, this is too hilarious! The Sea Bliss Clan truly lives up to its name. It's like they're living in a dream!"

Lin Yuan took the paper from Wen Yu and almost spat out the Three Treasures Tea he had just taken a sip of.

By now, even normal people knew that the Aurora pollen was no longer available on the market.

However, the Sea Bliss Clan, which depended on Aurora pollen, only found out that there was no longer any Aurora pollen to buy when it was too late.

Previously, Lin Yuan thought that the Sea Bliss Clan had not been paying attention to the change in the price of the Aurora pollen because they were too focused on developing their offshore fish farms.

Lin Yuan had thought this assumption to be rather silly because a veteran faction should not be so stupid.

However, he did not expect his guess to be accurate.

Once the Sea Bliss Clan found out about the unavailability of Aurora pollen, they started to panic and somehow placed the blame on Connected Beast Park.

The Sea Bliss Clan was desperate now and was trying to come up with a way to take their revenge on Connected Beast Park.

If the leader of the Sea Bliss Clan had a shred of intelligence, he would realize that Connected Beast Park did not have the ability to control the supply of plant-type feys in the market.

Only Condense Fairy Orchard had that ability.

Instead of collaborating with Connected Beast Park to come up with a way to take down Condense Fairy Orchard together, they decided to attack Connected Beast Park under the illusion that they were exacting revenge.

Connected Beast Park had been humiliated at the Guard Ye Banquet and had been trying their best to remain out of the spotlight.

But the Sea Bliss Clan's desperate clamoring had pushed Connected Beast Park to the brink.

There was already existing enmity between Connected Beast Park and the Sea Bliss Clan. Now, they hated the Sea Bliss Clan even more!

However, Connected Beast Park was still not out of the woods and could not fight back against the Sea Bliss Clan.

Lin Yuan planned on sitting back to enjoy the show as he awaited for the Sea Bliss Clan to bleed out.

The Sea Bliss Clan was so established that there was no way they were going to sit and wait for their doom. As misguided as they were, they were definitely going to find a way to get themselves out of this sticky situation.

As long as Sun Ningxiang remained uninvolved, the Sea Bliss Clan would eventually have to turn to Lin Yuan.

At that time, Lin Yuan would be able to swallow the Sea Bliss Clan whole.

Moreover, Lin Yuan had placed a trap in the Bronze/Epic Angelfish of Bliss that he had evolved for the Sea Bliss Clan. This would serve as an aftershock of the effects of his Aurora pollen scheme.

Currently, Lin Yuan was waiting for Zheng Kaiyuan to challenge Sky City to a blood pact ultimate fight.

Then, Sky City would not only be able to show off their power but also obtain the Zheng family's resources.

Once the Sea Bliss Clan weakened to a certain extent, they would be at Sky City's mercy.

Lin Yuan returned the paper to Wen Yu and said, "Keep a close eye on the Sea Bliss Clan."

He paused for a moment before adding, "Pay attention to the Zheng family's movements too."

Lin Yuan turned and said to Liu Jie, who was combing the Insect Queen's hair, "Big Brother Liu, according to regulation, any gathering of factions' experts needs the approval of the Spirit Guards. When the Zheng family seeks approval from the Spirit Guards, inform me immediately. We'll have to start making preparations then."

A cold glint streaked across Liu Jie's gaze.

During last night's dinner, Lin Yuan had already said that Zheng Kaiyuan was going to issue Sky City a blood pact ultimate fight challenge on behalf of the Zheng family.

Liu Jie found it hard to believe that Zheng Kaiyuan would lie to Lin Yuan after discovering that he was the Moon Empress' disciple. Hence, Zheng Kaiyuan had to be telling the truth.

Liu Jie knew that Endless Summer had evolved to Creation Breed. If the Zheng family had gained a thearch-class expert, the news would have spread throughout Indigo Azure City.

Thus, Zheng Kaiyuan would only be able to send out emperor-class experts during the blood pact ultimate fight.

The only variable would be Connected Beast Park. It was likely that Connected Beast Park would provide the Zheng family with a thearch-class expert because they thought Zheng Kaiyuan and Lin Yuan were close.

Liu Jie felt that it was time for him to step into action.

He needed to ensure that Connected Beast Park would not participate, no matter how badly they wanted to curry favor with Lin Yuan.

Liu Jie started to grin. He felt that he should place the blame for the commotion during the Guard Ye Banquet on the Miao family.

"Lin Yuan, I'll inform you immediately if the Zheng family approaches the Spirit Guards. You mentioned that you wanted to wait for Connected Beast Park to offer up resources. Why don't you play good cop while I play bad cop so that Connected Beast Park will dig out all the sincerity they can muster before coming to us?"

Lin Yuan immediately smiled when he heard what Liu Jie said.

He had always assumed Liu Jie to be uncreative when it came to a faction's expansion, unlike Wen Yu and Listen.

But now, it seemed that he was able to come up with more ideas.

At that moment, the Insect Queen flapped its wings and kissed Liu Jie's cheek before flying off to the Submerged Flood Dragon Lake.

No creature in the mansion loved Submerged Flood Dragon Lake more than the Insect Queen.

Recently, it had taken to making Liu Jie accompany it as it quietly reclined on one of the Sunlight King Lotus' leaves.

After bidding goodbye to Lin Yuan and Wen Yu, Liu Jie followed the Insect Queen to Submerged Flood Dragon Lake.

Just as Lin Yuan was about to start discussing with Wen Yu how they would address the Zheng family problem, Wen Yu said, "Young Master, I've been eating at least 20 Angelfish of Bliss fish coats every day. Thankfully it's not fattening. Otherwise, I would be a ball by now!"

Wen Yu stopped to wink before going on to say, "But, I didn't eat all those fish coats for nothing because I now have enough spiritual power to accept two new members in the Astronomical Parliament."

Chapter 1018: Ta Lei

It was currently early morning in the Radiance Federation but not in other areas of the main world.

Different federations had different geographic locations and different time zones.

The Startling Lines Continent, which was right next to the Radiance Federation, was seven hours ahead.

When Lin Yuan and Wen Yu finished breakfast, it was only 7:30 a.m., but it was still pitch dark in the Starting Lines Continent.

The darkness swirled and coagulated, obscuring any wisp of light.

"Big Brother, everyone is staying home. I can't bring myself to be a coward!"

The person who spoke was a young boy with a buzz cut that looked around 14 years old.

Tears were flowing freely down his cheeks, and his fists were clenched tightly. He looked just like a panicked and forlorn animal.

A determined-looking young man in leather spirit qi clothes stood in front of the young boy.

The young man's roughly tailored leather and fur spirit qi clothes made him look rustic and wild.

However, the determined young man's eyes were also brimming with tears that he was trying his hardest to hold back.

He lovingly caressed the young boy and said, "Little Lei, you're the hope of our entire clan. You're the only one who has Creation Master talent. If you let your emotions win out and stay here, our clan will lose all hope."

The young boy started to sob uncontrollably.

“Big Brother, it’s fine that our parents and grandparents care only about our clan. I can’t believe you’re the same as them. What’s the point in me becoming a Creation Master if my family is gone?”

The young boy was so emotional that his shrill voice started to crack.

The young man sighed and gently stroked the young boy’s forehead as he said, “Little Lei, you’re going to be 15 years old tomorrow. You’re not a child anymore. By the time I was 15, I was already venturing into the subterranean dimensional rift with our family’s team. You should try to grow up as quickly as you can.”

He ignored the young boy’s emotional state and said sternly, “Little Lei, the Horseshoe Tribe, and Cuprite Tribe have both discovered a mining vein with high-grade energy ores and another mine with Gold Frost Silver. Although we discovered it at the same time, the reason we don’t have the right to make use of it alongside the Cuprite Tribe and are now on the brink of our clan’s annihilation is that the Cuprite Clan has a Class 2 Creation Master.

“Any Creation Master in the tribes of the Iron Hammer Federation will become part of the imperial court’s tribe. The Creation Master’s class in the imperial tribe is also ranked from one to five. The Class 2 Creation Master in the Cuprite Tribe has been part of the imperial court’s Class 2 Tribe for some time. It’s more than easy for the Class 2 Tribe to wipe out a tribe like us that doesn’t have a Creation Master.

“Little Lei, if you could become a Class 1 Creation Master, they wouldn’t dare to attack us even if they fear that we’ll reveal the discovery about the mines. Little Lei, this is the law of survival. As long as you’re around, the Horseshoe Tribe will be able to survive. Even if the Horseshoe Tribe is gone, you’ll be able to carry on its glorious legacy!”

Ta Lei had never heard his brother speak in such a stern tone.

He also never imagined that the day would come when he would have to sit by and watch helplessly as his tribe was vanquished.

At that moment, Ta Lei finally saw the truth of life, and he stepped out of his childish ignorance. He calmly composed himself and pushed all his roiling emotions down.

Ta Lei forced his voice to remain steady as he asked, “Brother, when do you plan on sending me away?”

The young man reached out his calloused hand and wiped Ta Lei’s tears away as he replied, “Father, Mother, Grandfather, Grandmother, and I will make preparations for you tonight. Get some rest, and Grandfather will soon use his Silver Tunneling Mole to dig hidden tunnels underground. The Tunneling Mole will destroy the tunnels once you’ve passed through them. I can’t tell you what to do once you get to the other side. All you have to do is continue living as the Horseshoe Tribe’s only hope.”

After the young man walked away, Ta Lei tried to suppress his despair and fear as he lay on the bed with his eyes closed.

Since he had decided to escape, he would have to conserve his strength and spiritual power.

The best thing to do now was sleep.

Hence, Ta Lei tried to hypnotize himself to temporarily forget about reality and started to count sheep just like his mother had taught him.

As he counted sheep, Ta Lei felt as though he had entered a state of introspection, and he seemed to comprehend something.

However, he ignored everything and focused on willing himself to sleep.

Right before he fell asleep, he thought to himself, *If there's a way to keep my family alive, I'm willing to sacrifice everything.*

...

The night was still reigning, and stars dotted the sky.

A short-haired woman staggered along a street.

Despite it being night, there were still people on the street.

Boxes of various fruits lined the street.

A seller manned every street store in strange garb who would hum softly and sway their body in an almost eerie manner.

It was clear that the locals liked song and dance to the point that it was a fabric of their lives.

The short-haired woman's face was covered in dirt, and she walked with a hunch.

Every once in a while, she would receive looks of disdain from the sellers.

She met their gazes directly with steadfast resolve. It was as though she was an elite, and these people were the peasants that did not have the right to be at the same table as her.

Suddenly, the short-haired woman fell to the floor and cradled her head as she started to tremble.

Chapter 1019: Su Yiren

Su Yiren bit her lip forcefully. Ever since she had arrived at the Divine Wood Federation, her Absolute Love Poppy's injury had resulted in her soul becoming grievously wounded as well. This also caused all her other feys to become unusable.

Previously, its soul injury used to flare up five times daily. But now, it was once every hour.

Although Su Yiren used to be one of the Seven States of Darkness' Dark Envoys, she could not help but yearn for death during each of the flare-ups.

But when she thought about all the people that had risked their lives for hers and how she was the hope of the Dark Federation, she gnashed her teeth and pushed on.

Unless she was left with no choice besides death, she would continue living as she tried to come up with a way to restore the Dark Federation and retrieve it from the clutches of the damned Seventh Page War.

Suddenly, helplessness overwhelmed her.

She was living like a beggar in the Divine Wood Federation as her soul injury prevented her from taking on any job.

All she could do was wait until all the night market stores closed so that she could scrounge for fruit scraps.

At that moment, Su Yiren suddenly heard the clattering noises of an approaching fey carriage.

Plant-type and insect-species feys were abundant in the Divine Wood Federation, while beast-type feys were rare.

As such, the elite of the Divine Wood Federation all sought after spirit qi clothes made of animal skin.

This was the exact opposite situation from the Iron Hammer Federation.

The Divine Wood Federation and Iron Hammer Federation had been tangled in a war and were always clashing against each other.

Both federations continued to assassinate the other's Creation Masters.

After all the bloodshed, there was almost no import and export of resources between the two federations.

Su Yiren knew that it was probably a member of the Divine Wood Federation's elite that was passing.

However, she was in too much pain to move out of the way.

Given her previous status, she would have regarded these low-level elites as mere insects.

Previously, even the arch-class experts only had the right to become her guards.

Unfortunately, she was a completely different person now and felt as though she had just received two serious blows.

Su Yiren did not know if the driver of the fey carriage had whipped her or if she had been kicked by the feys pulling the fey carriage.

The excruciating pain from her soul made all other kinds of pain pale in comparison.

It was only when blood started to rise out of her throat that she realized that her body was injured. Regardless, she did not know if her organs were damaged or crushed.

In her dizzied state of agony, she saw a young version of herself that could conquer the world using just her looks.

Su Yiren felt her consciousness dim, and a smile of bitter indignance spread across her face.

With both her physical and soul injuries, Su Yiren was sure that she would not be able to live past that night.

It was likely that her cold corpse would be cleaned up by some disdainful person the next morning.

The ever-confident Su Yiren seemed to hear Death calling her, and she thought to herself, *If I can take back the Dark Continent... No, if I can survive, I'll give anything in return.*

...

Lin Yuan beamed when he heard Wen Yu say that she could take two more members in the Astronomical Parliament.

He was happy that her spiritual energy had increased and because the Astronomical Parliament's reach would extend further.

The Astronomical Parliament allowed Lin Yuan, Wen Yu, or any other person seated on one of the 12 zodiac constellation seats to be able to become a system.

Meanwhile, those seated on the north-south constellation seats were the MCs in the system.

The Astronomical Parliament would be able to form contracts of loyalty with the people seated on the north-south constellation seats.

The people seated on the 12 zodiac constellation seats needed to have the ability to fulfill the one wish of those that were willing to give up everything.

Yin Lin and Bei Xu had established branches of Sky City in the Azure Federation and Grotto Continent because Lin Yuan had instructed them to do so.

Hence, Lin Yuan was looking forward to the two new members of the Astronomical Parliament.

"Young Master, I didn't have any experience the first time I used the Astronomical Parliament to choose members. Actually, many people in the world were willing to give up everything for their one wish. All of them are eligible to be called to the Astronomical Parliament's parliamentary meeting. Thus, this time, if you deem anyone unsuitable, we can kick them out immediately and swap someone else in."

Lin Yuan blinked. Somehow, the Astronomical Parliament's member selection sounded like an interview.

However, Lin Yuan felt that the Astronomical Parliament's ability was amazing.

Otherwise, they might end up stuck with people with shallow wishes that Lin Yuan did not want to fulfill even if he could.

Wen Yu returned to her room to eat Angelfish of Bliss fish coats and make some preparations for the next Astronomical Parliament parliamentary meeting.

Lin Yuan was bored and walked to the mountain at the back to check on the construction of the basement.

Under Hu Quan's leadership, the 400 Class 3 and 4 Spirit Craftsmen were almost done with the general construction of the basement, and they were moving on to the detailed portions.

If Hu Quan wanted to make the basement into an underground palace, all the drawings on the carvings had to undergo bluing.

This would take at least six months to complete.

Nonetheless, the basement was already usable in its current state.

When Lin Yuan walked out of the basement after checking on its construction, he happened to spot Hu Quan.

Chapter 1020: Life Knot Rock Crystal

“Uncle Hu, work on the back of the basement first. I’ll need that area in a few days, and I’ll seal it off once I’m done.”

Hu Quan patted his chest and said, “Don’t worry, Lin Yuan. The end of the basement is its strongest portion. As per your instructions, I asked Listen to bring Diamond radium that I used to fortify the walls of the inner area of the basement. I don’t plan on carving anything into the walls of that area as it’ll just be asking for trouble. Instead, I’m going to layer suet jade pieces over the radium. The reflection of the Sunlight King Lotus’ light will make the basement as bright as if it was on the surface.”

Lin Yuan could tell how much effort Hu Quan put into the basement, and he hurriedly said, “Uncle Hu, you’ve worked hard.”

Hu Quan waved his hand dismissively and replied, “It’s not hard work at all! I enjoyed it! You’re not a Spirit Craftsman, so you can’t understand the satisfaction that comes from completing a satisfactory project. The basement and Submerged Flood Dragon Lake are basically done. All that’s left is the wall carvings and the pavilions on the Submerged Flood Dragon Lake, which the other Spirit Craftsmen can handle. Frankly, the Over the Rail Coral and Heavenly Maiden Sleet elemental pearls you gave me have been calling to me the past two days! Now, I can finally go off by myself in peace and think about how I should string the 107 Over the Rail Coral and one Heavenly Maiden Sleet heavenly-maiden-grade elemental pearls together for you.

Lin Yuan chuckled and said, “No one in the mansion will dispute your skills.

You’ll definitely be able to bring out the most radiant side of the heavenly-maiden-grade elemental pearls.”

Hu Quan suddenly felt as though he had been living in a dream for the past six months.

Six months ago, he had been just a common Class 4 Spirit Craftsman. But now, he was the rising star of the Class 5 Spirit Craftsmen and had been given access to spiritual materials that he had never dared to dream of.

All of these blessings came from this young man standing before him.

Hu Quan raised his fist and said resolutely, "Young Master, my horizons broadened after I became a Class 5 Spirit Craftsman. Although there aren't any higher classes, my ambition to become better will endure forever."

Lin Yuan raised an eyebrow as he did not know why Hu Quan was suddenly declaring his resolution.

"Uncle Hu, have you heard of the Class 6 abyss dimensional rift that opened in the Radiance Federation? The veteran and top factions are all readying themselves to venture in. The world is expanding, and nothing is impossible.

All of us are pioneers. There might even be a Class 6 Spirit Craftsman in the future. Creation Masters and other lifestyle-class spirit qi professionals all have the same class rankings. Uncle Hu, let's forge forward together!

Hu Quan suddenly felt youthful vigor surging up within him.

After talking to Hu Quan, Lin Yuan suddenly thought of Yin Lin and Bei Xu.

Yin Lin was now an Azure Envoy and was living a better life than Lin Yuan.

There was no need for Lin Yuan to look out or help her anymore.

However, Bei Xu was different.

Lin Yuan was afraid that an accident would befall Bei Xu in the Grotto Continent and prevent him from attending the Astronomical Parliament.

Lin Yuan felt that it was time to equip Bei Xu.

Bei Xu had just comprehended a Willpower Rune. If he gave Bei Xu a fey that was not suitable with his Willpower Rune, it still would not be of any help to Bei Xu

Lin Yuan took out all the source-type items he had accumulated to see if there

was one that Bei Xu could contract without using too much of his spiritual power.

He now had over 500 source-type items even though he had not intended on collecting so many.

After searching through the source-type items for some time, Lin Yuan's eyebrow twitched.

Although some of them had strict conditions and had unorthodox powers, they would become very strong in the hands of the right person.

Lin Yuan sorted these source-type items out and stored them separately.

There were two source-type items amongst the 500 that Bei Xu could contract.

However, their contraction method was opposing

One of them was the Possessed Dark Vine. Its contraction conditions stipulated that it needed to be implanted within a spirit qi professional's flesh just like the Gold Ring Spine Gu.

However, the Gold Ring Spine Gu was implanted in the spirit qi professional's spine and would harm its spirit qi professional.

Meanwhile, the Possessed Dark Vine would not do this as it just needed to

absorb the energy inside a spirit qi professional.

If the Possessed Dark Vine could absorb enough of the spirit qi professional's energy, the spirit qi professional's body would not be affected

However, the Possessed Dark Vine could only be used in an environment without light

In a bright environment, the Possessed Dark Vine's leaves would curl up, and it would enter a state of hibernation. e

It was suitable for Bei Xu to contract the Possessed Dark Vine as it was mostly dark in the underground world, even at noon.

However, this would also limit Bei Xu's power when he reached the surface.

The other source-type item was the Life Knot Rock Crystal. It was extremely

similar to the Insect Queen in that the spirit qi professional would not be able to contract any other source-type item or fey with his physical body once the Life Knot Rock Crystal was contracted.

This meant that Bei Xu would not be able to use a blood contract or his body to contract any other source-type item and fey in the future.

Nonetheless, Bei Xu would still be able to contract feys with his spiritual power.

In this aspect, the Life Knot Rock Crystal's contraction condition was more relaxed than that of the Insect Queen.

After Bei Xu contracted the Life Knot Rock Crystal, it would grow a layer of crystal skin that would increase Bei Xu's defensive abilities and provide him with more protection in the Grotto Continent.

The Life Knot Rock Crystal was also very easy to maintain as it did not require pure spirit qi to evolve. Instead, it evolved through continuous consumption. But while Red Thorn consumed flesh, the Life Knot Rock Crystal consumed soil. It needed to consume rocks and metal-type spiritual ingredients to grow continuously.

The Life Knot Rock Crystal also did not need Bei Xu to comprehend any Willpower Runes.

Just like the Acid Corrosion Queen Bee, the Legend could comprehend a willpower Rune on its own once it reached Diamond X/Legend.

Lin Yuan felt that the Life Knot Rock Crystal was more suitable for Bei Xu as the Grotto Continent was full of rocks and metal-type spiritual ingredients that would be able to help the Life Knot Rock Crystal evolve.

Now that he had chosen a source-type item for Bei Xu, Lin Yuan entered the training room to see Wen Yu. He sat down on a chair and entered the Astronomical Parliament alongside her.
