Chapter 1051 The Star Dragonfly's Bloodline

Fan Hansheng immediately looked at Lin Yuan in shock as he did not know how Lin Yuan knew him.

As Young Leaders of top factions, neither Fan Hansheng nor Sheng Yin participated in the selection for the Radiance Hundred Sequence.

However, both of them had an Order of Radiant Light each, making them eligible to participate in the selection to become a Radiance Knight or Radiance Envoy.

Fan Hansheng kept a much lower profile than Sheng Yin, but he was in the spotlight much more often than his siblings in Cage of Brahma Insects.

He could not figure out how Lin Yuan came to know of him.

"I saw you fight at the Celestial Stairway on Star Web once. I happen to have some Golden Lotus Brocade Pearls to spare. I have no problems with trading with Cage of Brahma Insects. However, I require infant Elemental Shellfish badly. Do you have any left?"

Lin Yuan did not lie. Whenever he was free, he would go to Star Web's video library to watch fights so as to understand the power of the young generation.

Every member of the Radiance Hundred Sequence hid their power so that they would be able to unleash their full capabilities when they gained the opportunity to try out to become a Radiance Envoy.

There was no way that they would reveal their true powers at the Celestial Stairway.

After discovering this, Lin Yuan did not watch the Radiance Hundred Sequence's fights anymore. Instead, he read reviews on Star Web and found Star Web fights to watch.

Fan Hansheng's fight had left a deep impression on Lin Yuan.

Fan Hansheng had been facing a 50-year-old pinnacle king-class expert and had been able to steadily maintain the upper hand over the pinnacle king-class expert's two Diamond X/ Fantasy V feys throughout the fight.

If Liu Jie did not have any secret weapons, he would likely have lost against Fan Hansheng during the Martial Stage.

But now that Liu Jie had the important insect-species carcinoma fey, it was even more impossible that Fan Hansheng would stand a chance.

The fight between the pinnacle king-class expert and Fan Hansheng had left an impression on Lin Yuan and allowed him to gain insight into how strong the young generation was.

It could be said that Fan Hansheng's fight had motivated Lin Yuan to work even harder.

Besides Fan Hansheng's power, his main fey had also left a deep impression on Lin Yuan.

Fan Hansheng's main fey was the Star Dragonfly.

The Star Dragonfly got its name because it could contain a large amount of wind- and fire-elemental energy in its body just like stars could.

Dragonfly-species feys dominated the insect-species feys in the previous century and were also the first lifeforms that took to the sky.

They were also exceptionally sensitive to spirit

qi.

If the Flame Veined Dragonfly that Lin Yuan had nurtured was specially nurtured, it could transform into the Star Dragonfly.

The Diamond X/Fantasy V Star Dragonfly that Fan Hansheng had used during the fight at the Celestial Stairway had not awakened the Huge Veined Dragonfly bloodline.

It was probably because Fan Hansheng and Cage of Brahma Insects could not obtain the pure spirit qi that was needed to awaken the Huge Veined Dragonfly bloodline.

However, pure spirit qi was nothing to Lin Yuan.

Nonetheless, he was not a philanthropist who would reach out to help others whose feys needed to evolve their bloodlines. Hence, Lin Yuan did not lead the conversation toward the Star Dragonfly.

Fan Jianyi and Fan Hansheng were immediately shocked to hear what Lin Yuan had said.

“Of... Of course, we have some!”

Now that the goods for trade were settled, Fan Hansheng did not say much more.

With Fan Jianyi here, he could not represent Cage of Brahma Insects to discuss the trade with Lin Yuan.

Although infant Elemental Shellfish were valuable, Cage of Brahma Insects always kept some in stock.

The infant Elemental Shellfish were a precious resource, but they required high-class Creation Masters to nurture them.

Without high-class Creation Masters, the Elemental Shellfish would be nothing more than garbage.

Hence, Fan Jianyi did not think that the infant Elemental Shellfish could be compared to the Golden Lotus Brocade Pearls. “When do you plan on bringing the infant Elemental Shellfish to trade for the Golden Lotus Brocade Pearls with me?” asked Lin Yuan.

Fan Jianyi asked tentatively, “Lord Lin Yuan, do you think it’s acceptable for me to use three infant Elemental Shellfish to trade for two Golden Lotus Brocade Pearls?”

Lin Yuan’s eyebrow twitched. The price that Fan Jianyi set was much higher than Lin Yuan’s expectations.

This meant that he would be able to use six Golden Lotus Brocade Pearls to exchange for nine Elemental Shellfish!

Other people might need time to think this over, but it was a more than worthy deal to Lin Yuan.

However, Fan Jianyi did not know what was in Lin Yuan's mind.

When she saw his eyebrows twitch, her heart skipped a beat, and she wondered if she had been too greedy.

She felt that she should have offered two infant Elemental Shellfish for one Golden Lotus Brocade Pearl.

Fan Jianyi had offered three infant Elemental Shellfish for two Golden Lotus Brocade Pearls because Cage of Brahma Insects only had six infant Elemental Shellfish at the moment, and she felt that she needed four Golden Lotus Brocade Pearls at least.

As one of the top three top factions that dominated 70% of the insect-species fey market in the Radiance Federation, they depended heavily on Creation Masters.

There were four pinnacle Class 4 Creation Masters in Cage of Brahma Insects, and each of them needed a Golden Lotus Brocade Pearl.

Since Fan Hansheng was the Young Leader of Cage of Brahma Insects, Fan Jianyi wanted to provide him with one too.

Just as she was about to offer a different price bashfully, Lin Yuan said, "This price is fine. I can offer 10 Golden Lotus Brocade Pearls."

Lin Yuan's words made Fan Jianyi relax. But in spite of her happiness, she was also embarrassed as she did not have enough infant Elemental Shellfish to trade for 10 Golden Lotus Brocade Pearls.

Chapter 1052: Just 10 Golden Lotus Brocade Pearls Were Enough?

However, Fan Jianyi was determined to obtain nine infant Elemental Shellfish from other factions no matter how much resources it took.

11 Golden Lotus Brocade Pearls in total would be more than enough for Cage of Brahma Insects' Class 4 Creation Masters and pinnacle Class 4 Creation Masters.

The Golden Lotus Brocade Pearls would be able to increase Cage of Brahma Insects' high-class Creation Master resources by 20%.

Fan Jianyi decided to leave the worrying about trading for infant Elemental Shellfish with other factions to her younger brother.

Given Cage of Brahma Insects' power and position, it would not be difficult for them to obtain infant Elemental Shellfish no matter how rare they were.

Fan Jianyi hurriedly said, "Lord Lin Yuan, Fan Hansheng will go back now to prepare six infant Elemental Shellfish for you. I'll send him over to deliver the remaining nine over the next two days."

Lin Yuan was delighted that the trade was settled.

He had offered 10 Golden Lotus Brocade Pearls after careful calculation.

He expected that 15 Bronze/Legend Elemental Shellfish would be just enough to use up the spirit qi produced by the spirit pond.

“Okay! No problem! Hansheng, sorry to inconvenience you to deliver the infant Elemental Shellfish.”

Fan Hansheng froze as he felt the kindness from Lin Yuan’s words. He now knew that there was a chance for him and Lin Yuan to become friends.

Fan Hansheng decided to proceed with their budding friendship properly.

After Fan Hansheng left, Fan Jianyi continued to chat idly with Lin Yuan but did not mention the Golden Lotus Brocade Pearls.

Lin Yuan could not help but be frustrated.

How could Fan Jianyi have so little ambition? Just 10 Golden Lotus Brocade Pearls were enough?

But Lin Yuan did not know that 10 Golden Lotus Brocade Pearls were more than enough to delight Fan Jianyi.

Lin Yuan had this train of thought because he had the Spirit Lock spatial zone and was able to evolve feys to Bronze/Legend on his own. Hence, his eyes had been opened to the value of Golden Lotus Brocade Pearls and high-class Creation Master resources.

Fan Jianyi was satisfied, but Lin Yuan was not.

Lin Yuan even wanted to obtain Law Source Crystals and the Polar Night Blue Sky Scorpions from Fan Jianyi.

‘When he was sure that Fan Jianyi was not going to mention the Golden Lotus Brocade Pearls again, Lin Yuan coughed and said, “Senior, since you require Golden Lotus Brocade Pearls and there are about 20 to 30 Class 4 Creation Masters in Cage of Brahma Insects, do you plan on trading for more Golden Lotus Brocade Pearls?”

Fan Jianyi, who was already elated that she had been forgiven and was able to gain 10 Golden Lotus Brocade Pearls, was astonished.

She looked at Lin Yuan in shock as she did not understand his intentions.

Did he mean that all the Class 4 Creation Masters could have a Golden Lotus Brocade Pearl each?

An unspeakable sense of happiness surged within her. She felt like she had become rich in the blink of an eye.

However, it would be a struggle for even Cage of Brahma Insects to obtain more than nine infant Elemental Shellfish from other factions given their current scarcity.

Such trades were based on goodwill, and Cage of Brahma Insects could not use favors so casually.

Fan Jianyi asked carefully, "15 infant Elemental Shellfish are Cage of Brahma Insects' limit. Is there anything else you need?"

'When he saw how desperate Fan Jianyi was for more Golden Lotus Brocade Pearls, Lin Yuan's lips curled.

"Cage of Brahma Insects had probably already come up with a plan to venture into the abyssal world through the Class 6 abyss dimensional rift."

Fan Jianyi guessed Lin Yuan's intentions and asked, "Lord Lin Yuan, are you after part ownership of the faction that Cage of Brahma Insects will start in the abyssal world?"

While she spoke, Fan Jianyi started to balance the gains and losses.

Eventually, she felt that anything was worth it as long as they could obtain more Golden Lotus Brocade Pearls.

However, it would also depend on how much ownership of the faction that Cage of Brahma Insects was going to give up.

Cage of Brahma Insects' Elders had already decided that they would solely focus on dominating the insect-species fey market in the Radiance Federation and expanding into the abyssal world.

This meant that even 1% ownership of the faction in the abyssal world represented a large number of resources.

Thus, Fan Jianyi decided to explain the structure of investment to Lin Yuan first so that he would have a clearer understanding before making his decision.

If anyone else wanted to use Golden Lotus Brocade Pearls to trade for part ownership of the faction in the abyssal world, Fan Jianyi would not have agreed so readily.

But since Lin Yuan was the Young Lord of the Radiant Moon Palace, Fan Jianyi was more than willing as it would form a link between him and Cage of Brahma Insects.

'When Cage of Brahma Insects encountered any problems in the future, they could mention their working relationship with Lin Yuan even if they did not approach him directly. This would solve a lot of obstacles for them.

Previously, Lin Yuan might have considered accepting part ownership of Cage of Brahma Insects' faction in the abyssal world, but he had already started a faction with Gu Lang, Zong Ze, Long Tao, and the rest in the abyssal world.

With his faction from which he could obtain resources, there was no need for Lin Yuan to yearn for Cage of Brahma Insects' resources...

Chapter 1053: 800 Golden Lotus Brocade Pearls

Just as Fan Jianyi's imagination was running wild, Lin Yuan said, "If Cage of Brahma Insects plans on expanding into the abyssal world, you'll probably gain more and more Law Source Crystals. Cage of Brahma Insects might not have any use for Law Source Crystals, but I'm interested in them."

Lin Yuan's hand trembled as he took out the string of Law Source Crystals that Hu Quan had made using completely jade-textured thread and started to play with it.

1

Fan Jianyi's eyebrow twitched when she saw what Lin Yuan was doing, and she suddenly felt that Lin Yuan was not the champion of the Martial Arts Stage but just a dandy disciple who fancied luxury items.

The string of Law Source Crystals represented his desire for Law Source Crystals and showed that the Law Source Crystals were just toys to him.

Fan Jianyi thought of the mountain of Law Source Crystals in Cage of Brahma Insects' storage room and said, "Lord Lin Yuan, do you think 100 Law Source Crystals is worth one Golden Lotus Brocade Pearl?"

Lin Yuan coughed lightly as he was utterly taken aback.

Fan Jianyi was offering more than three times the price that Coiling Dragon's Valley and Dark Clouds Bird Shrine offered.

However, he had also stipulated that Coiling Dragon's Valley and Dark Clouds Bird Shrine could only use the Golden Lotus Brocade Pearls themselves and not trade any away.

Lin Yuan did not want to state any conditions now, but if Cage of Brahma Insects traded the Golden Lotus Brocade Pearls with other factions, the other factions would affect Lin Yuan's plan to use the Golden Lotus Brocade Pearls to profit off the major factions.

"100 Law Source Crystals are too many. I only need 50 to trade for one Golden Lotus Brocade Pearl. However, I have one condition. You can only use the Golden Lotus Brocade Pearls yourselves and not trade or lend any of them to the other factions. This includes the 11 Golden Lotus Brocade Pearls that we

already settled on."

Fan Jianyi agreed without hesitation.

"No problem. Cage of Brahma Insects will never trade or lend the Golden Lotus Brocade Pearls to other factions."

"How many more Golden Lotus Brocade Pearls does Cage of Brahma Insects require?" asked Lin Yuan.

From the way that Lin Yuan did not seem to place much value on the Golden Lotus Brocade Pearls, Fan Jianyi asked tentatively, "Lord Lin Yuan, can we trade for 50 Golden Lotus Brocade Pearls with you?"

Lin Yuan was once again frustrated with Fan Jianyi.

I let you set the number, but you only want 50? How small is your ambition? Coiling Dragon's Valley and Dark Clouds Bird Shrine traded for 600 Golden Lotus Brocade Pearls.

Lin Yuan and Coiling Dragon's Valley and Dark Clouds Bird Shrine had decided that they would each deliver the goods in a month's time.

Since Lin Yuan had decided to work with Cage of Brahma Insects, there was no harm in letting them know that he was working with Coiling Dragon's Valley and Dark Clouds Bird Shrine.

Fan Jianyi might have already heard the news herself.

However, there was no way she knew how many Golden Lotus Brocade Pearls he had traded with Coiling Dragon's Valley and Dark Clouds Bird Shrine.

Otherwise, she would not have only asked for 50.

"50 Golden Lotus Brocade Pearls isn't a lot. I also traded for Golden Lotus Brocade Pearls with Coiling Dragon's Valley and Dark Clouds Bird Shrine. Since there has to be a proper system and you aren't asking for many Golden Lotus Brocade Pearls, you'll have to wait till I'm done trading with Coiling

Dragon's Valley and Dark Clouds Bird Shrine."

Fan Jianyi immediately looked surprised. She had mustered up all her courage to ask for 50 Golden Lotus Brocade Pearls.

"Lord Lin Yuan, can I ask how many Golden Lotus Brocade Pearls you traded for with Coiling Dragon's Valley and Dark Clouds Bird Shrine?"

Lin Yuan gently rapped the table six times and replied, "Coiling Dragon's Valley and Dark Clouds Bird Shrine were not shy. They're taking 600 Golden Lotus Brocade Pearls. They might come back to trade with me soon."

Fan Jianyi's jaw dropped.

'What were Coiling Dragon's Valley and Dark Clouds Bird Shrine trying to do? Were they trying to provide one Golden Lotus Brocade Pearl for each of their Class 3 Creation Masters!?'

Dark Clouds Bird Shrine could not hold a candle to Cage of Brahma Insects!

But given the rate at which Coiling Dragon's Valley had been developing in recent years, they might even be able to surpass Cage of Brahma Insects eventually.

Fan Jianyi said resolutely, "Lord Lin Yuan, can I get 800 Golden Lotus Brocade Pearls?"

She immediately scanned Lin Yuan's face anxiously in anticipation of his reply.

But she felt that since he could give Coiling Dragon's Valley and Dark Clouds Bird Shrine 600 Golden Lotus Brocade Pearls, he should be able to produce 800 Golden Lotus Brocade Pearls too.

Lin Yuan promptly stuck out his hand and said, "I look forward to working together! I will deliver the Golden Lotus Brocade Pearls to Cage of Brahma Insects in batches in a month's time."

Fan Jianyi gently placed her hand in Lin Yuan's.

She was slightly shellshocked as she did not expect to gain 800 Golden Lotus Brocade Pearls in a moment.

Fan Jianyi never would have imagined being able to settle such a trade.

Fan Jianyi felt that Cage of Brahma Insects would be able to become the number one top faction in less than three years with the 800 Golden Lotus Brocade Pearls.

This was Fan Jianyi's lifelong dream..

Chapter 1054: Win-Win Choice

Lin Yuan had done his own careful calculations before he decided to trade 800 Golden Lotus Brocade Pearls with Fan Jianyi.

After trading with Coiling Dragon's Valley and Dark Clouds Bird Shrine, Lin Yuan did not need as many Law Source Crystals.

The Sacred Sword Wielding Queen still needed some time before it finished absorbing the 20,000 Law Source Crystals.

Lin Yuan wanted to trade such a large number of Law Source Crystals with Cage of Brahma Insects because Mystic Moon had told him that Cage of Brahma Insects had the Moon Empress's support.

This meant that his trade with Cage of Brahma Insects would also benefit his Master and increase her power.

Additionally, Lin Yuan did not plan on allowing any more Golden Lotus Brocade Pearls to fall into the hands of other factions for the time being.

The Golden Lotus Brocade Pearls' influence had to be cultivated to be effective.

Cage of Brahma Insects represented the peak tier of top factions while Coiling Dragon's Valley represented the middle-upper tier top factions, and Dark Clouds Bird Shrine represented the lower tier of top factions.

The three of them together represented all the top factions in the Radiance Federation.

After obtaining the Golden Lotus Brocade Pearls, they would be able to progress rapidly, and the other factions would only be able to clearly witness the value of the Golden Lotus Brocade Pearls.

This would enable the Golden Lotus Brocade Pearls to become more valuable, and Lin Yuan would be able to better profit off the other factions.

In total, Lin Yuan had traded 1,400 Golden Lotus Brocade Pearls.

As hard as Brocade Zither worked, it would take at least two months to produce 1,400 Golden Lotus Brocade Pearls.

While the effects of the existing trade were being cultivated, Lin Yuan wanted to stock up on Golden Lotus Brocade Pearls.

Lin Yuan wanted to focus on providing Coiling Dragon's Valley, Dark Clouds Bird Shrine, and Cage of Brahma Insects with Golden Lotus Brocade Pearls during the next two months as he would not be able to produce more Golden Lotus Brocade Pearls even if he wanted to.

After he produced the first batch of Golden Lotus Brocade Pearls, he would not need to expend effort into them and could leave the market to generate the intended effect.

Lin Yuan had many more things to attend to afterward.

The 800 Golden Lotus Brocade Pearls he traded with Cage of Brahma Insects would allow him to gain 40,000 Law Source Crystals.

He would not have to worry about the Sacred Sword Wielding Queen going hungry for the next three months, and it would also allow Lin Yuan to gain four more law worlds.

Now that they were done discussing the Golden Lotus Brocade Pearls, Lin Yuan had other matters to discuss with Fan Jianyi.

"Senior, Cage of Brahma Insects possesses a large number of insect-species feys. I happen to be in need of two special insect-species feys."

Fan Jianyi's expression immediately turned solemn.

Lin Yuan did not lack wealth and could buy any insect-species fey he needed from Star Web. Since he resorted to asking her, it meant that the insect-species feys were so precious that they were not available on the market.

Hence, Fan Jianyi asked carefully, "Lord Lin Yuan, what insect-species feys do you need? If Cage of Brahma Insects has them, I'll definitely hand them over to you."

Fan Jianyi thought, I even gave you something as valuable as the Kill Food Worm. Is there anything more valuable? As long as you want it and Cage of Brahma Insects has it, I won't hesitate to give it to you.

"Senior, have you heard of the Polar Night Blue Sky Scorpion?"

Fan Jianyi immediately looked at Lin Yuan strangely and wondered if he knew more than he was letting on.

The Polar Night Blue Sky Scorpion was one of Fan Linglong's main feys.

Cage of Brahma Insects had even held a special banquet to celebrate the birth of Fan Linglong's Polar Night Blue Sky Scorpion's two children not long ago.

However, only the main members of Cage of Brahma Insects knew about this, and it was impossible that the news had been leaked.

Frankly, the Polar Night Blue Sky Scorpion's bloodline could not be compared to the Kill Food Sky Butterfly, and the Polar Night Blue Sky Scorpion could change into human form once it reached Myth Breed.

Fan Linglong's Polar Night Blue Sky Scorpion had reached Creation Breed.

Since this concerned the offspring of a Creation Breed fey, the opinion of Fan Linglong and his Polar Night Blue Sky Scorpion had to be sought.

Even if it was for the Moon Empress' disciple, Fan Jianyi could not promise away the children of others.

Although she could not make the decision herself, she was honest with Lin Yuan about the circumstances.

Lin Yuan paused to think for a moment before saying, "Senior, I need the two Polar Night Blue Sky Scorpions because two young men under me have unlocked the Polar Night Blue Sky Scorpion totems. It'll be too much of a waste of their talent if they don't contract the Polar Night Blue Sky Scorpions.

"The Polar Night Blue Sky Scorpions will not only be able to evolve their bloodlines but will be able to evolve quickly as well. Personally, I think this is a win-win choice. I hope that you'll be able to think this over carefully when you return. If there are any worries, the mother can come to visit the two

young men and the Polar Night Blue Sky Scorpions."

Fan Jianyi hurriedly replied, "Lord Lin Yuan, I will immediately call for a meeting about this matter when I return and give you a reply within three days."

Lin Yuan nodded. The Golden Lotus Brocade Pearls came to mind, and he said, "The Golden Lotus Brocade Pearls' effects are not set. In the future, I will nurture even stronger Golden Lotus Brocade Pearls.

"since I'm asking for your help with regards to the Polar Night Blue Sky Scorpions, I promise you that you'll be able to receive the first batch of stronger Golden Lotus Brocade Pearls after this matter is settled."

Chapter 1055: Lin Yuan's Character

Fan Jianyi looked both determined and ecstatic.

She was going to negotiate with Fan Linglong and his Polar Night Blue Sky Scorpion to the best of her ability.

Fan Jianyi felt that there was no intelligent reason for the Polar Night Blue Sky Scorpion to prevent its children from forming a contract with two young men who also had the Polar Night Blue Sky Scorpion bloodlines.

Moreover, the two young men were the Moon Empress' disciple's people, and Lin Yuan had made a promise that would ensure a bright future for the entire Cage of Brahma Insects.

As one of the people with authority in Cage of Brahma Insects, Fan Jianyi was determined to seize the opportunity.

"You're promising me something way too valuable! If you need Cage of Brahma Insects' help in any way in the future, we'll definitely do our best!"

Lin Yuan was momentarily stunned as he did need to ask for Cage of Brahma Insects for help regarding Chimey's Warm Sun Fund.

If he could establish a collaboration between Cage of Brahma Insects and the Warm Sun Fund, the spirit qi professionals that the Warm Sun Fund helped would not have to worry about obtaining insect-species feys.

Hence, Lin Yuan summarized the Warm Sun Fund's plan and goals for Fan Jianyi.

After he was done with his explanation, Fan Jianyi was looking at him completely differently. She no longer just saw his status and power, but his kind character as well.

Fan Jianyi immediately replied, "I will personally see to this matter myself. Cage of Brahma Insects will definitely help the Warm Sun Fund in any way we can."

Lin Yuan smiled brightly, and his line of pearly teeth momentarily blinded Fan Jianyi.

"Senior, thank you for your help."

At that moment, Fan Hansheng walked in.

'When he was outside the mansion, he heard Lin Yuan and Fan Jianyi discussing the Warm Sun Fund. He felt unbelievably moved by the burning passion in Lin Yuan's words.

Fan Hansheng had wanted to participate in the Radiance Hundred Sequence selection because he wanted to help others and do good deeds.

Unfortunately, Fan Hansheng had no choice but to keep a low profile due to his position as the Young Leader of Cage of Brahma Insects. He could never be a member of the Radiance Hundred Sequence.

Fan Hansheng felt that fervent passion being reignited by Lin Yuan's words and felt the utmost respect for Lin Yuan.

He did not even admire Lin Yuan to this extent after discovering Lin Yuan's Creation Master and spirit qi professional prowess.

Lin Yuan was doing something unprecedented in the Radiance Federation, which was to help every person with combat-class spirit qi professional potential in the Radiance Federation to obtain a suitable fey and to heal all feys with wounded roots so that they would be able to become part of a spirit qi professional's team.

This way, he would help both sides of the coin.

This was too monumental of an endeavor!

'When Condense Fairy Orchard had started Condense Healing, they had done all they could to help the people and combat-class spirit qi professionals that did not have the ability to heal themselves.

However, Condense Healing's resources were stretched too thinly across the entire Radiance Federation.

There were thousands of large cities and numerous smaller towns as well.

They continued to deplete resources but did not earn any profits.

From what Cage of Brahma Insects had heard, Condense Fairy Orchard's three pinnacle Class 4, Creation Masters constantly criticized Condense Healing.

This was why there had been such major changes after Condense Fairy Orchard's previous leader died.

But just because Condense Fairy Orchard had failed did not mean that Lin Yuan would fail as well.

Given Lin Yuan's status and influence, it was likely that the Warm Sun Fund would be able to spread warmth to every nook and cranny of the Radiance Federation and bring light to the lives of every being that had been beaten down by life.

Fan Hansheng felt that Lin Yuan's Warm Sun Fund was a smarter idea than Condense Healing as Condense Healing prioritized normal people and would only be able to provide them with temporary aid whereas Lin Yuan targeted normal people who had spirit qi professional potential.

This was the group of people that would be able to go on to help others once they themselves were helped to their feet.

All his bubbling passion made Fan Hansheng rather impulsive.

"Auntie, let me be in charge of the Warm Sun Fund matters! I will do my best to help Lord Lin Yuan."

Fan Jianyi pursed her lips ruefully.

She did not expect Fan Hansheng to be so emotional.

Nonetheless, letting Fan Hansheng be in charge of this matter would also allow him to interact with Lin Yuan even more.

A happy gleam crossed Lin Yuan's eyes when he heard what Fan Hansheng said.

Fan Hansheng's impulsivity and passion were evidence of his character.

Lin Yuan commended Fan Hansheng!

"Big Brother Hansheng, I shall come to you with all matters regarding the Warm Sun Fund's insect-species fey needs in the future. Don't worry about payment as the Warm Sun Fund will handle it. However, the Warm Sun Fund hasn't established a stable offline presence. I hope you'll be able to help with that."

Both Fan Jianyi and Fan Hansheng were shocked to hear Lin Yuan address Fan Hansheng as 'Big Brother Hansheng'.

Fan Jianyi looked at the Golden Lotus Brocade Pearl in her hand as she thought back to Lin Yuan's promise.

But none of it mattered as much as the words 'Big Brother Hansheng' as they cemented Lin Yuan and Fan Hansheng's relationship.

Cage of Brahma Insects would be able to use Lin Yuan and Fan Hansheng's relationship to become even closer to the Moon Empress.

Fan Hansheng was overwhelmed by Lin Yuan's words, and he immediately called Lin Yuan 'Little Brother Lin Yuan'.

Fan Jianyi's eyebrow twitched, and she wondered if this had crossed a line.

But soon, Lin Yuan and Fan Hansheng dove into a lively conversation about the Warm Sun Fund..

Chapter 1056: The Elemental Shellfish's Organization and Ji Feng

Fan Jianyi only relaxed when she noticed that Lin Yuan did not mind Fan Hansheng addressing him like that.

After seeing Fan Hansheng and Fan Jianyi off, Lin Yuan opened the fey storage box that Fan Hansheng had given him.

Since Fan Hansheng had left to fetch the items, he did not know that Fan Jianyi had traded 50 Law Source Crystals for one Golden Lotus Brocade Pearl with Lin Yuan.

Hence, there were only six fresh infant Elemental Shellfish in the Diamond fey storage box.

Lin Yuan immediately brought the six infant Elemental Shellfish to the Spirit Lock spatial zone to evolve them.

Lin Yuan currently had one Scorching Elemental Shellfish, two Celestine Elemental Shellfish, two Aquamarine Elemental Shellfish, and two Thick Earth Elemental Shellfish.

'There were only four types of Elemental Shellfish, and Lin Yuan had all four of them.

The Elemental Shellfish could not produce light-type, dark-type, thunder-type, gold-type, and other types of elemental pearls.

These other types of elemental pearls could only be found with special feys or Heaven and Earth Feys.

It was similar to how the Blood Brew Grapevine could produce Blood Brew Grapes with pure blood energy.

Hence, Lin Yuan needed to make a choice between the four elements for the six new infant Elemental Shellfish.

Lin Yuan would be receiving nine more Elemental Shellfish in the future and did not overly concern himself with the organization of these six infant Elemental Shellfish.

He decided that one of them would be the Celestine Elemental Shellfish, two would be the Scorching Elemental Shellfish, and the remaining three would be the Aquamarine Elemental Shellfish.

Lin Yuan had made this decision intentionally.

He currently needed earth-type elemental pearls the least as the Kill Food Sky Butterfly had used many elemental pearls to recover its bloodline, but Source Sand did not need many.

As such, two Thick Earth Elemental Shellfish were enough.

The majority type of spiritual ingredients in the abyssal world that required elemental energy to temper them would be fire-type spiritual ingredients.

Thus, fire-type heavenly-maiden-grade elemental pearls were a necessity.

However, Lin Yuan currently only had one Scorching Elemental Shellfish. Hence, he decided to add two more Scorching Elemental Shellfish to increase production.

Lin Yuan did not have much need for the Celestine Elemental Shellfish as only the Wind Speed Rapid Antelope and the Floating Island Whale required wind-type elemental pearls.

2

As such, two Celestine Elemental Shellfish were more than enough.

Although water-type heavenly-maiden-grade elemental pearls were the cheapest, Lin Yuan needed them the most

The Floating Island Whale, Dark Blue, and Yin Lin all needed water-type elemental pearls.

The Azure Federation was an enormous federation formed from countless islands and various resources were produced in the sea.

Hence, they used the highest number of water-type elemental pearls.

Moreover, a Class 6 water world dimensional rift had opened in the Azure Federation, and the precious spiritual ingredients found in the water world all needed pure water-element elemental energy to temper them.

Lin Yuan also wanted to increase Dark Blue's power as soon as possible.

Thus, Lin Yuan decided on such an organization.

He quickly nurtured the various Elemental Shellfish and all six of them were evolved to Bronze/Legend in a few hours,

He had sat on a chair for the entirety of the previous night and just finished discussing trades with Cage of Brahma Insects, as well as spent eight hours evolving feys.

Lin Yuan was beyond exhausted, and he was even slightly dizzy.

But when he saw his three Scorching Elemental Shellfish, three Celestine Elemental Shellfish, five Aquamarine Elemental Shellfish, and two Thick Earth Elemental Shellfish, he felt satisfied.

Fan Hansheng would even deliver nine more infant Elemental Shellfish in three days.

Even without the nine infant Elemental Shellfish, the 13 Bronze/Legend Elemental Shellfish he had were already enough to supply Lin Yuan's heavenly-maiden-grade elemental pearl needs.

Just as he was about to leave the Spirit Lock spatial zone to rest, his phone started to ring.

When he picked it up, he heard a strange raspy, and hoarse voice on the other end.

Lin Yuan could tell that the voice was also strained.

"He... Hello, my name is Ji Feng, You told me to call you when I arrive at the Royal Capital."

Lin Yuan was stunned by the name as this was the first that he had heard it.

However, he managed to guess who Ji Feng was.

At that moment, Ji Feng said with sincere hopefulness, "By the way, my name on Star Web is Floating World Complains of Calamity, but my real name is Ji Feng. When will you be free?"

Lin Yuan raised an eyebrow as his guess was confirmed.

Just as he was about to speak, he heard Ji Feng grunt followed by the sound of something heavy hitting the ground and Ji Feng's strained noises of agony.

Lin Yuan immediately furrowed his brow.

It seemed that Floating World Complains of Calamity had many secrets.

Awhile later, Lin Yuan heard the sound of someone slowly getting to his feet and Floating World Complains of Calamity spoke again.

But this time, his voice was even more croaky than before.

It was clear that Floating World Complains of Calamity was just coming out of a painful episode as his voice was even trembling.

Floating World Complains of Calamity's voice was so guttural because he was forcefully silent during his painful episodes, and his vocal cords had been permanently damaged due to exertion.

"Is your soul injured?"

Floating World Complains of Calamity looked at his scar-covered body and laughed bitterly as he replied, "It's not just a soul injury. Frankly, it's a long story."

Lin Yuan raised an eyebrow and instantly replied, "Okay, then head to the Royal Capital's Creation Master Association and wait for me there!"

Chapter 1057: Lin Yuan's Hope

Lin Yuan had wanted to go to sleep before visiting the Radiant Moon Palace to see his Master, who had just returned from the Purple Bamboo Forest.

But since Floating World Complains of Calamity had called, Lin Yuan decided to give up his sleep.

By helping Floating World Complains of Calamity's feys overcome their World Cleansings, Lin Yuan would gain a large amount of spirit qi crystals that would be able to evolve his feys to a great extent.

Lin Yuan had been extremely looking forward to this.

He was most excited for Genius to evolve its grade.

The 50 Hundred Questions Beasts proved that Genius could indeed use Connected Tails to transfer knowledge to other Hundred Questions Beasts.

After the other beasts absorbed pure spirit qi, they would evolve just like Genius.

Thanks to Genius, Lin Yuan now had an army of Hundred Questions Beast Creation Masters.

1

However, the army of Hundred Questions Beasts had their drawback, which was that all of them could only use their spiritual energy to concoct spirit fluids and not their souls.

Hence, they were all stuck at pinnacle Class 3 Creation Master.

Nonetheless, this was enough for Lin Yuan's needs as they could already make up for where Lin Yuan lacked by evolving fey grades.

Moreover, they were also able to concoct most spirit fluids.

Once a Creation Master reached Class 4, they would be able to evolve feys to Epic quality, use their souls to concoct pure spirit qi that would be able to evolve fey bloodlines, and gain precious resources such as heavenly-maiden-grade elemental pearls and spotted coral jades.

All these resources were easily accessible to Lin Yuan in the Spirit Lock spatial zone.

However, he still hoped that Genius or the other Hundred Questions Beasts would be able to use their soul to concoct spirit fluids as it would allow Lin Yuan to gain greater power for when he went to the Divine Wood Federation.

In fact, his true hope was that the army of Hundred Questions Beasts would be able to reach Class 5.

It was impossible for Lin Yuan to become a traditional Class 5 Creation Master, and he could only pin all his hopes on Genius.

5

At Silver I/Fantasy I, Genius had already gained a well of spiritual energy.

'When Genius reached Diamond X, its spiritual energy would be multiplied, and it would gain three new abilities.

This could be the key to enabling Genius to use its soul power.

Even if the other Hundred Questions Beasts could not use their soul power, it would be enough if Genius could.

'When Genius became a Class 5 Creation Master, it was even possible that it would be able to turn the corpses of sacred source lifeforms into a precious instrument.¹

It was because of this that Lin Yuan chose to meet with Ji Feng instead of resting.

Lin Yuan could not help Ji Feng's feys evolve from pinnacle Myth II to Myth III himself.

Moreover, Ji Feng's two pinnacle Myth II feys were special in that they could not suffer any damage during the world cleansing.

Hence, Lin Yuan needed to seek someone's help.

Either the Kill Food Sky Butterfly or Endless Summer seemed like good choices as both could easily protect Ji Feng's feys during the World Cleansings.

However, the Kill Food Sky Butterfly was protecting Lin Yuan's base in the marsh world.

If another enemy like the Drugged Snake Eagle appeared and the Kill Food Sky Butterfly was not there, Lin Yuan's new base would be destroyed.

As such, Endless Summer was the only choice.

Since the Zheng family was going to issue a blood pact ultimate fight challenge to Sky City, this meant that they were going to leave the Listening Heron Chamber of Commerce alone.

It would also be stupid to send out experts to attack part of the Royal Capital in broad daylight as the consequence would likely be punishment by the Sin-Cleansing Weeping Willow's whipping.

Since Duan He had not left, Purple Demon could also participate in the fight.

If there really was a thearch-class expert, Duan He would also be able to hold his ground.

Hence, Lin Yuan called Endless Summer and told it about the situation. He also arranged to meet Endless Summer at the entrance of the Royal Capital's Creation Master Association.

He left the room and saw that it was already 3:00 p.m.

Liu Jie was making dinner and currently shredding bamboo to make bamboo soup.

'When he saw Lin Yuan walking down, Liu Jie said, "Lin Yuan, do you think sausage or matsutake will taste better in the bamboo soup?"

Lin Yuan decided on sausage without hesitation. He naturally preferred meat and did not like fungi.

Liu Jie said with a chuckle, "I used lean Drought Land Spirit Pig meat to make sausages last autumn. They've been drying for four to five months. I'll add them to the soup."

Lin Yuan immediately felt his saliva start to pool.

Wen Yu, who had been organizing information on the Dark Federation, saw that Lin Yuan was going out. She stretched and said, "Young Master, are you going to the Radiant Moon Palace? I made a copy of the Dark Federation information."

Lin Yuan shook his head and said, "I'll go to the Radiant Moon Palace tomorrow."

He proceeded to tell Wen Yu about where he was going and why.

Wen Yu's eyes lit up, and she replied, "Young Master, why don't I go with you? I'm the only one in the entire Sky City who hasn't gone out on a mission yet.."

Chapter 1058 Wind Crystal Precious Bottle

Wen Yu shook her hand and took out the special mask that represented Sky City.

From Wen Yu's excitement, it seemed that she had become tired from organizing information for the past few days.

Naturally, Lin Yuan would not reject her.

Lin Yuan also put on his mask with the majestic sky city patterns.

He had intended on using the Ethereal Jellyfish's tentacles to transport him directly to the Royal Capital's Creation Master Association. But since Wen Yu wanted to come along, he used his phone to call a Platinum Divine Travel Black Sparrow and rode off with Wen Yu toward the Royal Capital's Creation Master Association.

Frankly, it had been long since Lin Yuan last sat on a Divine Travel Black Swallow, and he missed the feeling.

As she breathed in the fresh air, Wen Yu stretched contentedly.

Just as Lin Yuan was about to tell Wen Yu that she would not have to be bored anymore when they went to the Divine Wood Federation through the Space Tunnel tomorrow, he sensed that Wen Yu had entered a special state.

He hastily swallowed his words. He was familiar with this state because he had entered it himself countless times.

After three minutes, Wen Yu finally came out of her state of comprehension. She said to Lin Yuan excitedly, "Young Master, I comprehended a Willpower Rune from the chaotic air in the sky."

She was extremely excited and enthusiastic.

Now, she finally had a second Willpower Rune and could contract a second Fantasy Breed.

Lin Yuan sensed the Willpower Rune that Wen Yu summoned into her palm and said, "Wen Yu, you're affiliated with avian-type support-type feys. Many of these feys are suitable for your Willpower Rune. However, I don't think that avian-type support-type feys are suitable for the current direction you're progressing in. I suggest that you use this Willpower Rune on a suitable source-type lifeform again."

Wen Yu nodded in agreement. She was currently going in the direction of a pure support-type spirit qi professional, which was different from Gao Feng's.

Gao Feng provided support during combat while Wen Yu provided support in management areas.

Hence, source-type lifeforms which had many abilities were more suitable for her.

She was smart enough to have self-assessed long ago.

Hence, she immediately knew what kind of source-type lifeform she needed to increase and accentuate her power.

“Young Master, I think that I need to increase my spiritual energy as it’ll allow me to wield the Astronomical Parliament better, as well as learn more when I use Hear Heaven’s Secrets. The Willpower Rune I comprehended is suitable for almost all wind-related feys and source-type lifeforms.”

Lin Yuan could tell that Wen Yu already had a source-type lifeform in mind.

Frankly, he felt that she could even contract the Hundred Questions Beast. But, her Willpower Rune would not suit the Hundred Questions Beast.

Lin Yuan had observed that besides their Normal abilities, all the other Hundred Questions Beasts’ abilities differed vastly.

All 50 of the Hundred Questions Beasts had evolved to Platinum and none of their abilities were the same as Genius’.

Thus, it was a big risk for Wen Yu to contract a Hundred Questions Beast.

Moreover, Hundred Questions Beasts could not increase the spiritual energy of their contractor.

“What source-type lifeform do you have in mind?” asked Lin Yuan.

Wen Yu paused to think for a moment and said, “Young Master, the Whale Ocean Commerce has the most Island Whales in the entire Radiance Federation. They often trade with the federations around the Radiance Federation. “The Whale Ocean Commerce’s second role is source-type items. Their Ten Thousand Source Hall has collected a mountain of source-type items. Anyone who visits them can obtain a source-type item suitable to their Willpower Rune. There’s a list of the top ten source-type items in Ten Thousand Source Hall. Every source-type item on the list is not for sale.

“I’m interested in the Wind Crystal Precious Bottle that’s both wind-type and spiritual-type on the list. The Wind Crystal Precious Bottle is an instrument-type source-type lifeform that’s even rarer than elemental-type source-type lifeforms. It can turn wind-element in the air into energy that’s extremely nourishing for spiritual energy. This energy can not only increase spiritual energy but also increase the potential of spiritual energy. “Hence, I’ll be able to use spiritual energy and wind-element. One of the conditions for contracting the Wind Crystal Precious Bottle is to have an unused wind-type Willpower Rune. I fulfill this condition perfectly.”

Lin Yuan’s eyebrow twitched. He knew of the Whale Ocean Commerce and Ten Thousand Source Hall but did not have any ties with them.

Just like how Cage of Brahma Insects had the support of the Moon Empress, Rhine Lifeform and the Whale Ocean Commerce had Class 5 Creation Masters supporting them. Rhine Lifeform was supported by the Bamboo Monarch while the Whale Ocean Commerce was supported by Chef Supreme.

The Wind Crystal Precious Bottle was part of the Ten Thousand Source Hall's list of top ten source-type lifeforms because it could strengthen a person's spiritual energy and allow its contractor to contract an army of feys if they pleased.

Lin Yuan knew that as cool as this sounded, it was not feasible as nurturing the current number of feys he had was already a full-time job.

Chapter 1059 Enemies Were Bound to Meet!

In order for a fey to evolve to the greatest extent, a fey needed to make sure that each step along the way was the best.

In order to become the best, the resources required were unimaginable.

This was why even experts with the most spiritual power only nurtured a few signature feys instead of contracting a sea of feys.

Nonetheless, the Wind Crystal Precious Bottle's value was difficult to define.

Moreover, the Wind Crystal Precious Bottle's condition for contracting it was extremely easy as wind-type Willpower Runes was also the most suitable for it.

Since the condition for contracting the Wind Crystal Precious Bottle was that the contractor had to have comprehended a wind-type Willpower Rune, this condition might as well not exist.

There were many source-type items in the world. It was for these reasons that the Wind Crystal Precious Bottle had a place on the list of the top ten source-type items in the Ten Thousand Source Hall.

Although the items on the list were not for sale, nothing was truly not for sale when a high enough price was offered.

Naturally, Lin Yuan would not take advantage of his position to force the Whale Ocean Commerce.

He planned on asking Zong Ze to help him when they met up with Gu Lang, Gao Feng, Long Tao, and the rest tomorrow.

He would obtain the Wind Crystal Precious Bottle by trading with the Whale Ocean Commerce.

Suddenly, Lin Yuan realized that his Master's Cold Moon Lone Disk was also an instrument-type source-type item.

"Wen Yu, leave the Wind Crystal Precious Bottle to me. After we get it, you can use my wind-type heavenly-maiden-grade elemental pearls to help the Wind Crystal Precious Bottle increase your spiritual energy even more." Wen Yu smiled as she knew that Lin Yuan would also help her. She always felt at ease when she was with Lin Yuan. Although she was Lin Yuan's attendant, she was also Mystic Moon's disciple.

If she displayed her status as Mystic Moon's disciple, her position would be above that of other young disciples of top factions.

But even if she was only a spirit attendant, other disciples of top factions would have to greet her respectfully.

By this time, the Divine Travel Black Swallow had brought Lin Yuan and Wen Yu to the entrance of the Royal Capital's Creation Master Association.

Lin Yuan noticed that the usually quiet Creation Master Association was abuzz with commotion.

He looked down and immediately frowned.

Enemies truly were bound to meet!

He could not believe that he would run into Zheng Kaiyuan here.

In the span of a week, he had come across Zheng Kaiyuan three times. And each time was accompanied by a racket. During the previous two times, Lin Yuan had used his identity as the Moon Empress' disciple.

But now, he was going to face Zheng Kaiyuan as the City Lord of Sky City.

At that moment, Zheng Kaiyuan turned to face Lin Yuan with fury written all over his face.

Zheng Kaiyuan seemed to have a subordinate with him, but the subordinate was dressed in expensive clothes. Transparent peridots adorned the man's light green clothes. The peridots had to be worth at least 500,000 Radiance dollars when they were auctioned off on Star Web's Rare Lifeform Pavilion.

Lin Yuan could tell that there was something special about this subordinate.

So why did he look like he was trying to curry favor with Zheng Kaiyuan?

Zheng Kaiyuan was just a disciple of a veteran faction in Indigo Azure City and handled miscellaneous tasks in the faction.

Something must have happened for him to have attracted someone so elite.

Lin Yuan did not think that it was due to the Miao family as he had intended for the Miao family to take notice of Zheng Kaiyuan.

He had purposely left his number with Zheng Kaiyuan at the Guard Ye Banquet so that Zheng Kaiyuan would be able to leverage it to the rest of the Miao family.

Now, people who wanted to gain favor with the Miao family could support Miao He instead of turning to Zheng Kaiyuan.

Lin Yuan felt that Zheng Kaiyuan must have gone around waving his relationship with Lin Yuan around to have attracted such a subordinate.

The man in green clothes was helping Zheng Kaiyuan to kick a large man that was spasming and groaning in pain on the ground.

The man was wearing an enormous black robe that could fit three people.

Although the entrance of the Creation Master Association was cleaned often, there would always be dust there.

He was a sorry sight as he thrashed about on the ground with at least 20 footprints covering his black robe.

Lin Yuan and Wen Yu climbed down from the Divine Travel Black Swallow. Endless Summer was standing in the middle of the crowd and watching the scene when it noticed Lin Yuan and Wen Yu.

When it saw the masks on their faces, Endless Summer was stunned. It did not expect Lin Yuan to wear Sky City's mask when he helped others' feys to overcome World Cleansings.

Thus, Endless Summer had not put on Sky City's mask.

Besides, Zheng Kaiyuan had already seen its face, and there would be no point in putting on a mask now.

Endless Summer confidently walked toward Lin Yuan.

Lin Yuan did not want to clash with Zheng Kaiyuan at the entrance of the Royal Capital's Creation Master Association because the Zheng family would crumble after the blood pact ultimate fight.

That would be the best time to deal with Zheng Kaiyuan.

Just as Lin Yuan was about to call Floating World Complains of Calamity, Zheng Kaiyuan stomped on the black-robed man's face.

The black-robed man cried out in pain.

Lin Yuan immediately recognized the voice as belonging to Floating World Complains of Calamity.

He rushed up and pushed both the green-robed man away before slamming into Zheng Kaiyuan's side.

Chapter 1060: You Owe Me an Explanation

Ji Feng was in the same state as when he was on the phone with Lin Yuan.

Less than half an hour had passed since the phone call with Lin Yuan.

An episode every half an hour seemed too short!

Lin Yuan ignored the dust on Ji Feng's clothes and helped him up.

The moment he gripped Ji Feng's arm, Lin Yuan froze. He felt as though there were thorns in the arm he was holding and that the thorns even seemed to be moving.

Zheng Kaiyuan's expression darkened when he saw Lin Yuan helping Ji Feng up, and he looked at Lin Yuan with ruthless ferocity.

He had come to the Royal Capital's Creation Master Association because his mother was going to arrive at the Royal Capital.

Zheng Kaiyuan wanted to find a Creation Master to trade with for gems to give to Miao Zhi.

However, he happened across a black-robed man in the middle of an episode at the entrance of the Royal Capital's Creation Master Association.

The black-robed man had even fallen on Zheng Kaiyuan and almost knocked Zheng Kaiyuan over.

Luckily, Zheng Kaiyuan had been supported by his acquaintance in the nick of time.

Just as he was about to teach the black-robed man a good lesson, he was stopped.

After being knocked all over, Zheng Kaiyuan felt half of his body go numb with pain.

‘When he turned to see who had butted in, he saw that the man was wearing a majestic sky city mask.

Zheng Kaiyuan was all too familiar with this mask, and a wave of rage rose within him.

If this was not the Royal Capital, Zheng Kaiyuan would have attacked Lin Yuan without hesitation.

The green-robed man beside Lin Yuan also had a sour expression, but he did not blow up immediately.

Instead, he turned to look at Zheng Kaiyuan to see how he wanted to handle the situation so that he could do things the way Zheng Kaiyuan wanted.

He soon noticed with surprise that Zheng Kaiyuan did not immediately blow his top.

The green-robed man studied Zheng Kaiyuan’s expression carefully and realized that Zheng Kaiyuan knew this masked young man.

Zheng Kaiyuan gnashed his teeth and growled, “I didn’t expect the City Lord of Sky City to assault someone in the Royal Capital. What are you trying to do? You owe me an explanation.”

His grandfather had not arrived at the Royal Capital yet. Although the Zheng family had already held a meeting and agreed to the blood pact ultimate fight, his grandfather was still the leader of the Zheng family and they could not apply for the blood pact ultimate fight without him.

Since they were going to engage in a blood pact ultimate fight, they should wait to settle all their scores on the battleground.

But after being slammed into, Zheng Kaiyuan could not just let the matter go.

“You were hitting one of my people. You’re the one that owes me an explanation,” replied Lin Yuan.

Ji Feng trembled as though Lin Yuan’s words had touched him.

Zheng Kaiyuan laughed in anger.

Just as he was about to launch into a tirade, the green-robed man said, “Your person bumped into Young Master Zheng first and almost caused Young Master Zheng to fall over. Take my suggestion and leave this matter be. Let me apologize for kicking him on Young Master Zheng’s behalf. I’m willing to offer appropriate compensation.”

Sky City had become a hot topic of discussion on Star Web.

‘The green-robed man had heard of Sky City, and his family had sent someone to buy Sky City’s Fate Letters in the hopes of obtaining a Bronze/Legend fey suitable to their Willpower Rune.

The green-robed man was called Song Fei, and his family’s faction was called Molten Farm.

'Molten Farm nurtured a large amount of fire-type spiritual ingredients and fire-type feys.

It was also one of the lowest-ranked top factions and had been neck in neck with the Gao family.

However, the Gao family had been reaping huge harvests from expanding into deep-sea resources while Gao Feng had been accepted to become Cicada Song's disciple at the Guard Ye Banquet. As such, the entire Gao family was basking in glory.

'The abyss dimensional rift had opened, and there were an endless amount of fire-type spiritual ingredients in the abyssal world.

The increase in the availability of fire-type spiritual ingredients would be a serious blow to Molten Farm as the price of fire-type spiritual ingredients would fall precipitously. This would result in Molten Farm's profits falling as well.

Currently, Molten Farm was in a state of crisis.

Hence, as a main member of Molten Farm, Song Fei went to curry favor with Zheng Kaiyuan in the hopes of being able to speak with the Moon Empress' disciple.

After interacting for a few days, Song Fei found Zheng Kaiyuan exceedingly detestable.

Rather than praying for the faintest of opportunities of being put in touch with the Moon Empress' disciple through Zheng Kaiyuan, Sky City's mountain of Creation Master resources seemed more reliable.

After thinking the situation through carefully, Song Fei had decided to speak on behalf of Sky City despite being Zheng Kaiyuan's acquaintance.

Song Fei had spoken so humbly in the hopes of alleviating the situation.

He felt that all conflicts could be settled privately and that it was not a good idea to fight openly at the entrance of the Royal Capital's Creation Master Association.

Lin Yuan glanced at Song Fei.

Zheng Kaiyuan sneered before Lin Yuan could speak. "Leave this matter be? How? Sky City is so bull-headed. Aren't they afraid that they'll attract calamity?"

Song Fei's expression immediately became stormy. He did not expect Zheng Kaiyuan to completely ignore what he had said.

Since Zheng Kaiyuan was hell-bent on starting trouble regardless of the consequences, Song Fei decided to help Zheng Kaiyuan add fuel to the flame.

He wanted to see how far Zheng Kaiyuan was willing to take it, as well as test Sky City's powers.

"Yes, Young Master Zheng knows the Moon Empress' disciple. I heard that he even had a meal with Lord Lin Yuan at the Spirit Food Pavilion not long ago.."1
