

Merchant 1091

Chapter 1091 The Moon Empress's Shock

After checking on Red Thorn's condition, Lin Yuan did not immediately check on the Spirit-Mouthed Peony.

Instead, he went to the Possess Star Intelligent Dark Clouds to collect the second batch of pollen.

Gray and the Wind Speed Rapid Antelope were playing, and they brushed across Lin Yuan, scattering some of the pollen on him.

Lin Yuan hurriedly closed the box and dusted himself off.

The Possess Star Intelligent Dark Clouds pollen was minuscule, and Lin Yuan could not smell it without being afflicted by bad luck. Hence, he did not know if he had dusted himself clean.

After Lin Yuan was done collecting the pollen, he walked over to the Spirit-Mouthed Peony.

He noticed that even after half an hour, the flowers had only curled up slightly.

Lin Yuan crushed a spirit qi crystal and directed the spirit qi toward the Spirit-Mouthed Peony.

Soon, the pure spirit qi enabled the Spirit-Mouthed Peony to curl up into a flower bud.

After turning the five of the Spirit-Mouthed Peony's flowers into flower buds, there were still around 90% of spirit qi left from the spirit qi crystal.

Lin Yuan did not use the rest of the spirit qi on the remaining nine flowers.

He planned to give his Master one of the flowers first to see if it would be of help to the Moon Empress. The remaining nine flowers would be left behind to absorb the pure spirit qi in the Spirit Lock spatial zone to reduce the depletion of spirit qi crystals. Moreover, Lin Yuan wanted to try to nurture the Spirit-Mouthed Peony.

The pure spirit qi in the Spirit Lock spatial zone could become a precious resource through the Spirit-Mouthed Peony.

Lin Yuan had already thought of how he could use this resource.

Even if he could trade such a resource, he only planned on supplying it to the Moon Empress so that she could produce other types of value out of it and increase her power and influence as a Class 5 Creation Master.

Lin Yuan did not waste the remaining 90% of spirit qi from the spirit qi crystal as he used it to evolve the snake-species feys he had obtained for Wendy to Bronze X/Legend. Wendy would be able to use Snake Frontier Playground to turn these snake-species feys into its snake hair, and the venom in the snake-species feys would quickly increase Wendy's power. Suddenly, Lin Yuan remembered that he had not prepared a gift for Zong Ze.

He looked down at the various types of elemental pearls that he had yet to organize and started to look through them.

After pushing aside some Cloud Dream Lake and Defined Life heavenly-maiden-grade elemental pearls, he saw a fire-type Heavenly Maiden Sleet pearl.

He could not believe that he had another one.

Lin Yuan scoured through the rest of the heavenly-maiden-grade elemental pearls. But besides finding some Over the Rail Coral pearls, there were no more Heavenly Maiden Sleet pearls.

After pondering for a moment, Lin Yuan decided to give the Heavenly Maiden Sleet pearl to Zong Ze as a gift.

Zong Ze would definitely find a use for the fire-type heavenly-maiden-grade elemental pearl.

However, Lin Yuan was certain that Zong Ze would not be able to bear to allow his feys to absorb the Heavenly Maiden Sleet pearl.

The Heavenly Maiden Sleet pearl was so rare that Lin Yuan had only found two and both were fire-type.

As such, Lin Yuan did not plan on allowing something so precious to enter the market.

He felt that it would be best to give the Heavenly Maiden Sleet as gifts to his friends.

Lin Yuan placed the fire-type Heavenly Maiden Sleet pearl into a brocade pouch.

He picked up the Spirit-Mouthed Peony that had turned into flower buds and the box of Possess Star Intelligent Dark Clouds pollen before leaving the Spirit Lock spatial zone.

Once he was back in the breeding room, Lin Yuan immediately left.

His breeding room was situated at the back of the Radiant Moon Palace's inner palace just like the Moon Empress' breeding room was.

Thus, the moment he opened the breeding room doors, he saw the Moon Empress drinking tea as she waited for him.

Mystic Moon and Cold Moon were right behind her and looking up at Lin Yuan with rapt amazement.

They had yet to fully digest what Lin Yuan had said, and they did not believe that Lin Yuan had a way to produce spirit qi that was even purer than what was inside the Emperor Melodious Spirit Jadeite.

Even the spirit qi that was concocted by the Moon Empress was slightly less pure than the spirit qi inside the Emperor Melodious Spirit Jadeite.

The Moon Empress was a Class 5 Creation Master, but she had not advanced further only because there were no higher ranks created.

The Moon Empress, Bamboo Monarch, and Chef Supreme all had their own specialties.

The Moon Empress was the strongest at concocting pure spirit qi, and the Bamboo Monarch was slightly weaker than her.

However, the Bamboo Monarch was the strongest at creating instruments. If Lin Yuan could produce purer spirit qi than the Moon Empress, he would be the strongest in the Radiance Federation!

Lin Yuan walked up to the Moon Empress with a smile and placed the Spirit-Mouthed Peony flower buds in front of her.

“Master, what do you think of the concentration of the spirit gi in the Spirit-Mouthed Peony?”

The Moon Empress gazed at Lin Yuan’s bright smile, and she felt as though it was injecting her with warmth and contentment.

Chapter 1092 The Moon Empress’ Next Hope

The only sounds in the inner palace of the Radiant Moon Palace were the rustling of the lotus leaves.

The Moon Empress felt that Lin Yuan looked like a child that was delightedly handing a treasure they picked up to their parents. After a moment’s pause, the Moon Empress could not help but reveal a smile that matched Lin Yuan’s.

When she received the Spirit-Mouthed Peony from Lin Yuan and triggered it to release spirit qi, the shock that crossed her face was so great that it had been decades since it last surfaced.

She clenched her fist tightly.

Her current demeanor immediately attracted Cold Moon and Mystic Moon’s attention.

When they saw the expression on the Moon Empress’ face, they looked at Lin Yuan as though they were seeing him for the first time.

Cold Moon and Mystic Moon could tell from the Moon Empress’ expression that the spirit qi Lin Yuan produced truly surpassed that of the Emperor Melodious Spirit Jadeite.

After her shock passed, a strange feeling arose within the Moon Empress.

When she had decided to accept a disciple, she had set a condition.

Lin Yuan was the only one to meet the condition of immediately becoming a Class 2 Creation Master.

Later on, as she got to know his background and character, she started to adore him as her disciple.

She remembered Lin Yuan saying that the most important thing between a Master and disciple was emotions.

This had moved the Moon Empress and made her think of her own Master.

As they continued to interact, the Moon Empress and Lin Yuan’s relationship only grew deeper.

Despite not being related by blood, this passing on of skills only brought them closer.

The Moon Empress wanted to be a good Master and pave the way for Lin Yuan to receive all the best things. She wanted him to lead a blissful life.

However, she did not expect her disciple to help her in such a large capacity instead.

The Moon Empress had only recently broken through that level and almost lost her life in the process. She no longer dared to take another step further.

But with this pure spirit qi, she immediately saw hope that she could take that step forward.

Moreover, she would not need to take that step in the face of risk.

However, she would need more spirit qi than what was inside the Spirit-Mouthed Peony to take that step.

She had contracted numerous feys that had strong reactions to pure spirit qi.

Even if she did not use the spirit qi to take that step, she could use the spirit qi to evolve the genetic models of her feys and increase her power.

The Moon Empress felt that her power would increase by at least three times.

A little rabbit hopped up onto the table and gently smelled the Spirit-Mouthed Peony flower buds.

nas

The little rabbit no longer looked at Lin Yuan as sadly as it did before.

Zixi was no longer that annoying brat. It had turned over a new leaf.

Lin Yuan did not know that this little rabbit now felt affection for him.

The Moon Empress felt a twinge as she watched Zixi sniff the flower buds.

She had broken through that level before Zixi, yet Zixi was still stuck.

Now that she had the pure spirit qi, Zixi could break free and move forward. However, there was not enough spirit qi in the five flower buds for Zixi to safely break through that level.

The amount of pure spirit qi in the five flower buds was not little. The amount of pure spirit qi in each flower bud was equal to the amount of spirit qi in the Emperor Melodious Spirit Jadeite.

Nonetheless, the Moon Empress could not bring herself to ask her disciple for pure spirit qi.

At that moment, Lin Yuan said, "Master, this is just the first Spirit-Mouthed Peony. I will give you more Spirit-Mouthed Peonies with pure spirit qi in the future. I will prune the remaining nine Spirit-Mouthed Peony flowers and provide you with 20 Spirit-Mouthed Peonies with five flower buds on each every week. You can use them as you please."

The Moon Empress looked astonished once again, and she felt that she had been more shocked in the past hour than she had been in the past decade.

This meant that she would receive 100 Spirit-Mouthed Peony flower buds every week.

She would not have to scrimp and save when she used the pure spirit qi.

Over the next few months, the pure spirit qi would help her to take that big step forward and transform Zixi and the rest of her feys.

The Moon Empress felt that Lin Yuan had given her an opportunity that would enable her to work hard for the next 30 years.

This feeling of being given resources by her disciple was extremely strange yet sad. The Moon Empress suddenly felt as though she had become the dependent party.

Not even the Moon Empress knew how to quell feelings that she was experiencing for the first time.

She also knew why Lin Yuan told her to use it as she pleased.

She was definitely not the only person who needed pure spirit qi.

The Moon Empress could concoct pure spirit qi because she was a Class 5 Creation Master. Those who were not would not be able to do so.

Hence, she could only imagine how badly other people needed pure spirit qi.

The pure spirit qi that Lin Yuan gave her had great strategic significance.

Lin Yuan handed a box of Possess Star Intelligent Dark Clouds pollen to the Moon Empress and said, "Master, the second batch of pollen is ready. I estimate that four or five more boxes will be enough to completely remove Wang Fuxiang's bad luck."

The Moon Empress nodded.

Ever since she had brought the Possess Star Intelligent Dark Clouds over to Wang Fuxiang, the Bamboo Monarch regarded her as their savior.

One batch of the Possess Star Intelligent Dark Clouds pollen had already allowed her to gain a huge favor from the Bamboo Monarch.

The Bamboo Monarch had even been willing to give her the Golden Thearch Bamboo.

If she sent more boxes of the Possess Star Intelligent Dark Clouds pollen to the Purple Bamboo Forest, the Bamboo Monarch would owe her a debt that he would never be able to repay.

It was rare for a member of royalty, especially a Class 5 Creation Master, to owe someone a favor.

As a member of royalty and a Class 5 Creation Master herself, the Moon Empress was well-aware of this.

Chapter 1093 Invisible Demon

Soon, the Moon Empress recovered from her shock.

After mulling for a moment, she knew that it was not because Lin Yuan had become a Class 5 Creation Master that he was able to produce such pure spirit qi.

One had to forge their own path to become a Class 5 Creation Master, and this was by no means an easy feat.

He had to be able to produce such pure spirit qi because of a sacred source lifeform or some other fey.

Since this was her disciple's secret weapon, the Moon Empress did not pry.

She felt that Lin Yuan could use this secret weapon to take her place in the future.

At that time, she would be able to retire and live the rest of her days in peace just like her predecessors.

As the Moon Empress gazed at Lin Yuan, she once again felt that she was not fit to be his Master. She had been carefully observing his progress, but it was clear that her observation had been lacking.

Unbeknownst to her, her disciple had progressed far beyond her imagination.

The Moon Empress gently picked up Lin Yuan's hand and led him to her breeding room. She decided to have a question-and-answer session with him to answer any concerns he had before he left for his gathering.

When they arrived at the breeding room, the Moon Empress thought of the abyssal world and asked Lin Yuan, "Disciple, do you have any plans to venture into the abyssal world?"

Lin Yuan told her honestly about the faction he had started with Zong Ze, Gu Lang, Li Xuan, Long Tao, Sun Ningxiang, Gao Feng, and Liu

Jie.

When the Moon Empress heard that this was Long Tao's idea that Lin Yuan was supporting, she realized how strong he was at networking and leadership.

She felt that networking and leadership skills were necessary to become a Radiance Envoy. Lin Yuan had embodied these qualities without her guidance.

Liu Jie, Lin Yuan, Zong Ze, Gu Lang, and Gao Feng were all disciples of members of royalty and were vying to become Radiance Envoys.

There was even a possibility of Long Tao becoming a Radiance Knight.

If these people became acquainted in advance and had shared benefits, it was likely that they would help each other during the exam. The Moon Empress saw this as a good thing.

Since Lin Yuan had the intention and plans to venture into the abyssal world, the Moon Empress did not say anything further about it. Everyone in the abyssal world was only in the beginning stages of venturing into the abyssal world.

Lin Yuan would discover some secrets for himself as he ventured into the abyssal world, and there was no need for the Moon Empress to inform Lin Yuan of anything now.

Given that Lin Yuan was about to venture into the dangerous abyssal world, the Moon Empress shook her hand and a dark purple metal cage appeared on the ground of the breeding room.

A shadow swirled inside the metal cage, and it seemed to be thrashing about.

However, the moment the shadow saw the Moon Empress, it started to quiver as it retreated into a corner of the cage.

When Lin Yuan sensed the shadow's vitality, he immediately used True Data to check on it.

“This is the Class XI/Kalpa VIII dimensional lifeform, Invisible Demon.”

[Alien Beast Name]: Invisible Demon (Lifeform State): Dimensional lifeform

[Alien Beast Class]: Class XI/Kalpa XIII

Natural Skill:

[Hidden Shadow/Killer Shadow]: Inhibit any item through its shadow. In the hidden shadow state, only a target two levels above the Invisible Demon will be able to sense its presence. It can attack other targets' shadows. The target can have a tangible body or not have one. Once the target's shadow is attacked, the damage will be reflected on its body.

Lin Yuan inhaled sharply because he never expected the thing inside the cage to be a Class XI/Kalpa VIII abyss demon.

A Class XI/Kalpa VIII dimensional lifeform was equivalent to Class 18. However, this method of ranking was overly complicated, and it was not convenient to test dimensional lifeforms' and feys' combat power.

Creation Breed feys were about the equivalent of Class 11 dimensional lifeforms.

The eight kalpas of Creation Breed feys were also ranked to the equivalence of dimensional lifeforms' eight kalpas.

The Invisible Demon was about as strong as a Sovereign X/Creation VIII fey.

Additionally, abyss demons were the strongest of the dimensional lifeforms.

It was likely that the Invisible Demon was stronger than a pinnacle thearch-class fey.

The Drugged Snake Eagle that Lin Yuan had encountered was a Class XI/Kalpa Apostle.

However, the Invisible Demon was just an ordinary dimensional lifeform.

Hidden Shadow/Killer Shadow enabled the Invisible Demon to become an assassin as it could hide in a target's shadow to either protect it or secretly hunt an enemy. The Moon Empress looked at the Invisible Demon and said, “Invisible Demon, I originally planned on using you as an ingredient to concoct spirit fluids. But now, I'm giving you an opportunity to live. Use your soul as the paper and your faith as the ink to swear your loyalty to my disciple. I will only allow you to live if you become my disciple's servant.” The Invisible Demon shivered when it heard the Moon Empress' cold voice.

Although Lin Yuan did not know what the Moon Empress had done to the Invisible Demon in the past, it was clear that the Invisible Demon was terrified.

This slightly confused Lin Yuan as abyss demons were usually fearless.

Moreover, this was a Class XI/Kalpa VIII demon.

Chapter 1094 The Moon Empress in Action for the Second Time

Despite the Invisible Demon's deep-set fear of the Moon Empress, an evil current arose from it.

Normally, people would see dimensional lifeforms as losing their freedom when they became an Apostle's believer. But to a dimensional lifeform, becoming a believer was a goal that they were willing to work their entire lives for.

To them, it was an unimaginable honor to be able to become an Apostle's Favored Believer.

Both believers and Favored Believers needed to supply faith power to their Apostle.

If the Invisible Demon used its soul as the paper and its faith as the ink to swear its loyalty to Lin Yuan, it could no longer become a believer of an Apostle, much less a Favored Believer.

As such, the Invisible Demon would object to this regardless of how much fear it was in.

The evil current emanating from the Invisible Demon seeped out of the dark purple metal cage and gave Lin Yuan a familiar feeling.

It was similar to Mystic Moon's aura and the aura that Red Thorn released after consuming the strange plant seed.

However, the Invisible Demon's aura was much fainter. It was practically just a wisp.

Upon comparison, Lin Yuan became certain that this was the aura of a Creation Breed fey.

He inhaled sharply as this meant that the Whale Ocean Commerce had Creation Breed power and above.

Just as Lin Yuan was feeling pressured by the Invisible Demon's aura, he heard a scoff and all the pressure immediately lifted.

The Invisible Demon howled in anguish, and the shadow in the cage vanished.

Finally, Lin Yuan saw the true appearance of the Class XI/Kalpa VIII Invisible Demon. It stood on two legs and was only about a meter tall. Its body was skinny, and its skin was grayish-purple. Long black purple fingernails grew out of both its hands. As Lin Yuan looked at the sharpness of the fingernails, he felt that it would easily be able to slice radium apart.

The evil current emanating from the Invisible Demon had vanished, and it seemed extremely feeble.

Purple black blood oozed from its seven orifices. Clearly, it had been seriously injured.

This was the second time that Lin Yuan saw the Moon Empress in action.

The first time was at the outskirts of the Royal Capital when they were facing Cheng Wu.

At that time, she had only used emperor-class power. However, emperor-class power seemed unbelievable to Lin Yuan at that time.

Now, emperor-class power seemed like nothing much to him. Even the Sacred Sword form's sword skill would be able to hold off emperor-class power. As Lin Yuan continued to grow, Genius continued to gain more knowledge.

Lin Yuan had learned from the information in the Hidden Moon Pavilion that the members of royalty had signed an agreement a decade ago. It stated that they could not use power above emperor-class when they were facing people from the same territory.

This had to be the reason the Moon Empress had only used emperor-class power at that time.

Now that he was seeing the Moon Empress in action for the second time, he could not but be floored as one scoff was enough to grievously injure the Invisible Demon with pinnacle thearch-class power.

Lin Yuan felt slightly overwhelmed. He knew that his Master was powerful but did not expect it to surpass his imagination so greatly.

Lin Yuan sighed in amazement.

My Master is way too powerful! The Moon Empress glared murderously at the Invisible Demon and sneered. "I gave you a chance. But since you're too stupid to make the right decision, I shall—". Before the Moon Empress could finish speaking, the Invisible Demon fell to its knees with its head lowered.

Lin Yuan immediately sensed faith power rushing forth from the Invisible Demon toward him.

He had a feeling that he would be in total control of the Invisible Demon's life the moment he accepted its faith power.

He could use the Invisible Demon's faith power to crush its soul.

After hesitating for a moment, Lin Yuan accepted the Invisible Demon's loyalty.

The moment he accepted it, the Invisible Demon's faith power was stored into the shrine in his soul.

Lin Yuan could sense the Invisible Demon's hesitation in supplying him with faith power, and its eyes flashed continuously.

The Invisible Demon could sense that its faith power was being controlled by Lin Yuan when it entered his body.

In the abyssal world, only Apostles could control faith power.

How could this human control faith power? Could he be an Apostle?

Neither Lin Yuan nor the Moon Empress knew what the Invisible Demon was thinking.

The Moon Empress said, "Little Yuan, go and open the metal cage. You'll have an added level of protection with the Invisible Demon around."

While she was speaking, the Mother of Bloodbath came to her mind. She had chosen the Mother of Bloodbath to be Lin Yuan's Path Protector because of its background and bloodline.

However, she did not expect Lin Yuan to grow so rapidly.

The Mother of Bloodbath was rendered useless as his Path Protector because of his astronomical growth.

The Mother of Bloodbath only had emperor-class power and was insufficient to protect Lin Yuan. Hence, the Moon Empress decided to give the rare Invisible Demon to Lin Yuan.

Lin Yuan walked up and opened the cage door.

Soon, the Invisible Demon turned into a ball of shadows and fused with his own shadow.

Surprisingly, Lin Yuan could not sense the Invisible Demon's presence at all.

Suddenly, Lin Yuan had the idea of using the source-type power that the Sacred Sword Wielding Queen extracted from Law Source Crystals to cleanse the Invisible Demon and nurture it into an Apostle.

However, he could not use the same method of calculating the amount of source-type power needed for Rising Lizard and Wendy's Source-Type Cleansings to calculate the amount required for the Invisible Demon's Source-Type Cleansing.

Chapter 1095 Immortal Nine Forge

It was only after communicating with the Sacred Sword Wielding Queen that Lin Yuan found out that Class 9 and below dimensional lifeforms required 100 additional units of source-type power for Source-Type Cleansing, while Class 10 and above dimensional lifeforms with World Crystals inside their body required 1,000 additional units of source-type power for each higher class.

This meant that Lin Yuan needed 9,900 units of source-type power for the Invisible Demon's Source-Type Cleansing, which was equal to the Sacred Sword Wielding Queen absorbing 9,900 Law Source Crystals.

Lin Yuan's heart ached at the high expenditure.

9,900 units of source-type power could allow him to gain a second sword skill.

Lin Yuan decided to have a proper chat with the Invisible Demon at night to judge its value.

He thought of the aura that radiated from Mystic Moon, the Invisible Demon, the strange plant, and the other immortal lifeforms above Creation Breed that Endless Summer had mentioned.

Lin Yuan asked, "Master, is the power above Creation Breed Immortal Breed?"

The Moon Empress nodded. She was not surprised that Lin Yuan knew of the Immortal Breed because she had heard from Mystic Moon that Lin Yuan had a plant-type fey that had passed the Trial of World Creation and evolved into Creation Breed.

"After the world created by a Creation Breed fey combines its eight Creation World Ley Lines, it will form a singular complete law world. In order to become immortal, it will need to fuse with its law world and undergo the Immortal Nine Forge to advance a step further."

Lin Yuan now understood what the Immortal Breed was all about.

Since Red Thorn had absorbed the strange plant seed, Lin Yuan did not have any tangible items to show the Moon Empress and ask her about it.

Hence, Lin Yuan asked instead, "Master, do top factions possess immortal power?"

The Moon Empress raised an eyebrow and was silent for a moment before she said, "Currently, the strongest power that the top factions have is thearch-class. But the top three top factions already had pinnacle thearch-class experts a decade ago. It's not impossible for those pinnacle thearch-class experts to gain immortal power during this time. Frankly, I wouldn't find it strange even if the top ten top factions suddenly come out and announce that they have immortal power."

Lin Yuan nodded to himself.

This meant it was not shocking that the strange plant seed that came from the Whale Ocean Commerce had immortal aura.

Fights between factions were always vicious, and both parties were always willing to pull out all the stops.

As such, Lin Yuan did not mention the seed.

After a two-hour question-and-answer session with the Moon Empress, Lin Yuan had most of his previous questions answered, and his horizons were also broadened.

The Moon Empress was able to use a few statements to answer all the questions that had confuddled Lin Yuan.

Since time was almost up, the Moon Empress stopped the question-and-answer session and said, "Little Yuan, it's almost time for your gathering. Don't make your friends wait. Also, since you have the ability to concoct pure spirit qi, you probably don't have any need for the Golden Thearch Bamboo. You can decide how to use the Golden Thearch Bamboo."

Lin Yuan hurriedly checked the time and saw that it was already 11:00 a.m. There was only half an hour left until the time he was supposed to meet Zong Ze and the rest.

He scratched his head as he marveled at how fast the time slipped away.

As for the Golden Thearch Bamboo, he already had a plan for it.

He previously felt that since the Golden Thearch Bamboo was a present from his Master, he could not use it flippantly.

But now that he heard what the Moon Empress said, he was no longer worried about how cautious he had to be when he used the Golden Thearch Bamboo.

Before he left, he took out the Diamond fey storage box with the information about Seventh Page War, Tower Canon, and the Dark Federation and gave it to the Moon Empress.

"Master, here is the information I collected with Wen Yu. Take a look at it when you have time."

Lin Yuan bade goodbye to the Moon Empress and left Leaning Moon Mountain.

He used the Ethereal Jellyfish's Node Transportation and arrived at the entrance of Bronze Crane Lane.

The Moon Empress looked inside the Diamond fey storage box to see what the information was. She would definitely take anything that came from Lin Yuan seriously.

She took out a portion of the stack of papers and frowned.

The longer she looked at the information, the more shocked she felt.

She was not shocked that Seventh Page War had conquered the Dark Federation as she had known about it for some time.

After traces of the Dark Federation had been discovered in the Class 3 abyss dimensional rift, the imperial court sent people to investigate.

During that time, the imperial court had gathered information regarding the Dark Federation.

However, the sets of information collected by the imperial court and the sets of information provided by Lin Yuan were very different.

The information collected by the imperial court only gave a general description of the situation in the Dark Continent.

In contrast, the information provided by Lin Yuan had a detailed report from the standpoint of the Seven States of Darkness, including some of the Seven States of Darkness' main secrets.

The information from the imperial court also partially included these secrets and both accounts matched perfectly.

This proved that this set of information was true.

At first, the Moon Empress intended on closing herself off to evolve her power due to Lin Yuan's pure spirit qi.

But now that she had this detailed information about the Seven States of Darkness, she felt she needed to call for an imperial meeting to analyze the information.

The Moon Empress' expression turned strange.

There had been three imperial meetings in the past few months, and they were all connected to Lin Yuan!

Chapter 1096 Secretly Recorded

Once Lin Yuan arrived at Bronze Crane Lane, he immediately sensed the charm and feelings left behind by time.

It was currently early spring, and the tung trees were in the midst of blooming.

The vestiges of winter were still present, but the lane looked exceedingly beautiful.

The smaller houses in the lane were around 300 square meters while the larger ones were around 800 square meters. None were larger than 1,000 square meters. But every house had its own unique design.

As one walked through Bronze Crane Lane, he never stopped looking around and admiring the view around.

Lin Yuan attracted attention from everyone in the lane as he walked by. He was wearing spirit qi clothes with ginkgo leaves embroidery and had moonstones embedded into them. The spirit qi clothes were made of soft yellow material that matched well to accentuate the gentleness and peace of the ginkgo leaves and moonstones.

However, these seemingly elegant spirit qi clothes came together in a prominent way. This made their wearer appear especially full of life.

The spirit qi clothes made Lin Yuan stand out even more and gave him a younger countenance.

It had not been long since this spirit qi clothes were made, and Wen Yu had put a lot of effort into their design.

It was also one of the products of Pinru's

Home.

Lin Yuan did not notice that many people had secretly taken pictures of him as he walked by, and a chubby young girl immediately posted the pictures she took onto Star Web.

She wrote the words at the top of the picture she posted.

'Met a handsome boy on the street. I'm too much of a lady to take a picture of his face, so I only have a picture of his back. I'm not only after his looks. I also want to know which Weaver made his clothes and whether it's from a particular brand. I want to buy one for my ex-boyfriend to ask him to get back together with me!'

Unbeknownst to Lin Yuan, he had become the view that people were enjoying.

This young girl had a steady group of fangirls as she often posted pictures of handsome boys.

The picture of Lin Yuan's back soon attracted the attention of all the fangirls. They felt that once they printed the photo out, the handsome boy would be theirs. Lin Yuan's picture had spread like wildfire within a short period.

Some of the fangirls were well-acquainted with spirit qi clothes, and they were equally as interested in the spirit qi clothes that Lin Yuan was wearing. After walking for ten minutes, Lin Yuan checked the address that Zong Ze had sent. He was certain that he would soon arrive at unit 18.

At that moment, he suddenly heard a familiar voice shout his name from behind. "Hahaha, Lin Yuan! I thought I would be the last. Let's hurry. If you're here, it means I'm not late."

Lin Yuan turned his head to see Gao Feng running toward him with a basket in hand.

When he reached Lin Yuan, Gao Feng opened the basket as though it was a treasure chest.

Lin Yuan saw eight small gray and brown fish the size of thumbs.

The fish looked ordinary and had dark gray heart-shaped patterns.

A thought struck Lin Yuan, and he immediately used True Data to check on the eight fish.

Once he was done, he could not help but exclaim, "They're eight Heart Sound Fish!"

Lin Yuan was shocked as the Heart Sound Fish was very rare. There were even a few Creation Masters that had not heard of it.

Moreover, the Heart Sound Fish did not look much different from other wild fish found in ponds.

Gao Feng did not expect Lin Yuan to recognize them with one look.

Lin Yuan's eyes were too sharp!

Gao Feng thought about Lin Yuan's performance at the Martial Arts Stage, and everything seemed to click.

Lin Yuan looked at Gao Feng and wondered where he had obtained something as precious as the Heart Sound Fish.

The Heart Sound Fish was a fish-species fey that could increase spiritual power and strengthen the mind. It could also be used as a spiritual ingredient. After eating the Heart Sound Fish, the person's mind would be resistant to negative temptation.

Although Lin Yuan had Morbius' Calm Mind and did not have much use for the Heart Sound Fish, he could not deny the Heart Sound Fish's value.

Gao Feng chuckled and said, "My father sent this to me from Wind Mist City through Owl Logistics. I was on such a tight schedule because of the Heart Sound Fish. Let's eat one each. When we venture into the abyssal world in the future, we won't be affected by a demon's temptation and allow our minds to become controlled."

Lin Yuan could sense Gao Feng's bighearted sincerity from his words.

Gao Feng had brought over the Heart Sound Fish because it was beneficial to the group.

Previously, Gao Feng would have brought the Heart Sound Fish to strike up a relationship with Gu Lang and Zong Ze.

But now that he was the disciple of a member of royalty, he did not have to bootlick anyone.

This meant that everything that Gao Feng did was purely out of the goodness of his heart.

Lin Yuan smiled back at Gao Feng and said, "We aren't late. There's still ten minutes. That's more than enough time for us to rush over."

When Lin Yan arrived at unit 18, he realized it was not the largest house in the lane, nor did it have the most exquisite decorations. Gourds, bamboo, and grapes were growing in the yard but not tended too well. Some of the leaves had withered and fallen to the ground.

However, the way Zong Ze's yard was designed had a cozy feeling.

This cozy feeling would make anyone that stepped inside lower their guards.

Gu Lang, Long Tao, Li Xuan, and Sun Ningxiang were sitting around a long jade table in the house.

Gu Lang rushed up to help Zong Ze greet Gao Feng and Lin Yuan.

Zong Ze was the host and chef. As such, he was cooking the Kitchen Fragrance Palace's 300 dishes non-stop and did not have any time to greet his guests.

Chapter 1097 The Feeling of Captivation

Gu Lang had grown up with Zong Ze and naturally took on the role of greeting guests.

While on the way to Zong Ze's house, Gu Lang had sorted out his thoughts. As reluctant as he was to part with the Golden Thearch Bamboo, it was no longer his. It now belonged to Lin Yuan, who was his friend. He should not desire something that belonged to Lin Yuan.

But regardless, he felt a twinge of reluctance the moment he saw Lin Yuan.

Gu Lang pushed down the ugly feelings and said to Lin Yuan and Gao Feng, "Come! Try the Bamboo Leaf Wine I brought. I used 70 different types of bamboo-species feys to make this wine. I didn't do much to it so as to preserve the natural bamboo taste. This Bamboo Leaf Wine has only been fermenting for a few months, so it isn't very alcoholic. You won't get drunk no matter how much you drink."

Despite Gu Lang's cheerful smile, Lin Yuan could tell that something was off.

Lin Yuan thought, Gu Lang must be feeling really sore on the inside!

Lin Yuan had already decided to return the Golden Thearch Bamboo to its rightful owner so that Gu Lang would be able to continue following the Bamboo Monarch's path.

Thus, Lin Yuan did not use the Golden Thearch Bamboo as leverage to obtain anything from Gu Lang.

Since they had become friends, Lin Yuan opened the box with the Golden Thearch Bamboo and gave it to Gu Lang.

"Here you go. I'm returning this!"

Gu Lang was stunned, and all his feelings of reluctance were as plain as day on his expression.

He suddenly felt his eyes well up, and his throat became choked as he was overwhelmed with emotions.

Gu Lang never expected the Golden Thearch Bamboo to return to him.

He wondered whether he would do the same thing if he were in Lin Yuan's place.

The word 'return' did not seem too appropriate because this belonged to Lin Yuan.

Lin Yuan had only said that he was returning the Golden Thearch Bamboo to its owner to be polite. Lin Yuan was just looking out for Gu Lang's feelings.

Gu Lang looked deep into Lin Yuan's eyes as though he wanted to burn the memory of what Lin Yuan did into his mind forever.

Gu Lang had always been an introvert, but he could not help but forcefully pat Lin Yuan's shoulder and say, "My good Brother, I can't thank you enough!"

Lin Yuan smiled toothily and replied, "If I didn't return it to you, not only would you be unable to eat comfortably, but I would too!"

He patted Gu Lang's shoulder and poured a cup of the Bamboo Leaf Wine.

At that moment, Liu Jie walked out of the kitchen holding a tray.

When he saw Lin Yuan, Liu Jie hurriedly placed the tray on the table and said, "Lin Yuan, Zong Ze is actually decent at cooking!"

Lin Yuan raised an eyebrow. He remembered Liu Jie saying that he wanted to put his cooking skills against Zong Ze's.

Liu Jie must have said this because Zong Ze's cooking skills slightly surpassed Liu Jie's.

Each plate on the tray was piled with beautiful dishes, and every plate was small enough that one person could finish off the dish with a few bites.

Lin Yuan had seen some of the dishes at Spirit Food Pavilion before, but he had not ordered any of them.

Now, he could try them all.

Liu Jie returned to the kitchen, and Zong Ze soon walked out with another tray.

After walking in and out a few times, Liu Jie and Zong Ze finally finished serving all 300 dishes.

At that moment, a gust of wind kicked up and billowed Lin Yuan's clothes in Zong Ze's direction.

Zong Ze immediately picked up the scent that enraptured his entire soul.

The smell had Zong Ze absolutely captivated.

Every time he got a whiff of the scent, he could not help but breathe in deeply.

Instead of sitting at the head of the table, Zong Ze planted himself right next to Lin Yuan, where Liu Jie was supposed to sit.

Liu Jie was completely confused by Zong Ze's actions.

But since Zong Ze did not seem to have any intention of getting up, Liu Jie shook his head vexedly and sat at the head of the table.

Lin Yuan realized that Zong Ze kept stealing glances at him during the meal.

Lin Yuan's eyebrow twitched, and he instinctively touched the corner of his mouth several times in case there was something stuck there.

After a few cups of Bamboo Leaf Wine, the group started to discuss the faction.

They could not conduct a proper discussion over a video call, but now they were meeting in real life, the discussion went smoothly and quickly.

They had already separated their roles and ownership portions. All they were doing now was going into the details of their individual roles.

A thought struck Long Tao, and he asked, "Lin Yuan, when will you be able to bring over the high-class Creation Master resources? It should be extremely easy to obtain fire-type spiritual ingredients when we venture into the abyssal world."

Lin Yuan knew that Long Tao was afraid they would not be able to temper the fire-type spiritual ingredients in time.

There was still some time before the Class 6 abyss dimensional rift officially opened. During this time, Lin Yuan's team of 50 Hundred Questions Beasts would have been successfully nurtured into pinnacle Class 3 Creation Masters.

Now that Genius had eight Connected Tails, it could even nurture another 50 Hundred Questions Beasts.

As such, Lin Yuan replied, "I will be able to prepare the first month's worth of high-class Creation Master resources before entering the abyssal world. However, you will need to provide a list of high-class resources you'll need. I'll prepare potions, heavenly-maiden-grade elemental pearls, Bronze/Epic feys, and other high-class Creation Master resources according to the list."

Long Tao was shocked by the amount of high-class Creation Master resources that Lin Yuan possessed.

But at the same time, he was also set at ease.

Zong Ze gazed at Gu Lang with increasing suspicion throughout the meal.

Previously, it was Gu Lang who was suspicious of why Zong Ze was being so friendly with Lin Yuan.

But now, Zong Ze was confused why Gu Lang and Lin Yuan were so close all of a sudden.

They completely settled their collaboration during the meal, and all of them expressed that their own portions would be ready soon.

Chapter 1098 Accidental Connection

Liu Jie was the freest person because his contribution had been bundled up with Lin Yuan's.

During the meal, Zong Ze brought the eight Heart Sound Fishes into the kitchen to make them into dessert for the group. Lin Yuan, Liu Jie, Gao Feng, Long Tao, Li Xuan, and Sun Ningxiang all gobbled up the 300 dishes without restraint.

Even the picky Liu Jie could not find any issues with the 300 dishes.

Although Liu Jie had admitted that Zong Ze's cooking skill was decent, it did not mean that he was admitting defeat.

Liu Jie felt that Zong Ze also could not recreate the unique flavor of Liu Jie's dishes.

After Zong Ze walked out of the kitchen with the desserts, Liu Jie's phone started to ring.

Liu Jie's face darkened when he checked the screen, and he whispered to Lin Yuan, "The other side is making their move."

Lin Yuan's eyes narrowed.

The Zheng family sure was eager to start the blood pact ultimate fight with Sky City!

The Zheng family's family head had to have just reached Indigo Azure City yesterday night!

Lin Yuan shook his head at Liu Jie to signal to him not to mention this matter.

However, it was clear that Liu Jie had heard some urgent news in the call.

Liu Jie forced himself to hold the news in.

Zong Ze and Gu Lang had noticed the changes in Liu Jie's expression. However, Liu Jie did not seem to want to talk about it, and Zong Ze and Gu Lang did not ask either.

Liu Jie's call was just a small interlude. After everyone's bellies were full, every plate was empty.

Before they left, everyone gave their gifts to Zong Ze.

Lin Yuan summoned Blackie and dragged Liu Jie onto Blackie's back before they headed back to the Return from Faraway Mansion.

Zong Ze did not immediately open the gifts. Instead, he summoned the Fiery Sky Hou to feed it.

The moment the Fiery Sky Hou was summoned, it grabbed the brocade box that Lin Yuan had given Zong Ze.

Normally, Zong Ze would have given the Fiery Sky Hou anything it was interested in to play with.

But since this item came from Lin Yuan, Zong Ze ordered the Fiery Sky Hou to bring the brocade box over.

The moment he emptied the box, Zong Ze froze.

He could not believe that Lin Yuan had given him a Heavenly Maiden Sleet pearl.

Not even Chef Supreme could nurture an elemental pearl with this outer layer.

The Fiery Sky Hou had the ability to use the fire elements it had come into contact with to increase the purity of the fire element in its own body.

The fire element in the Heavenly Maiden Sleet pearl was 100%.

With the fire-type Heavenly Maiden Sleet pearl, the fire-element in the Fiery Sky Hou's body could be increased from its current 96% purity to 100%.

This would allow the Fiery Sky Hou's power to skyrocket.

Once the fire-element in the Fiery Sky Hou's body reached 100%, it would even be able to use Eight Fire Refinement to absorb top-grade strange flames.

Lin Yuan, who was currently riding on Blackie's back, did not know that the fire-type Heavenly Maiden Sleet pearl had such significance to Zong Ze. If he knew, he would be happy for Zong Ze. In the past, Lin Yuan would have been worried that leaving the Heavenly Maiden Sleet pearl in Zong Ze's hands would attract Chef Supreme's attention.

But now, there was no need for Lin Yuan to worry about this.

The Moon Empress now had pure spirit qi that he had fed the Spirit-Mouthed Peonies. In the future, the pure spirit qi in the Spirit-Mouthed Peonies would become another resource to strengthen the Moon Empress. The Heavenly Maiden Sleet pearl could be a form of advertisement that he was making on behalf of the Moon Empress. Zong Ze placed the Heavenly Maiden Sleet pearl into a bell and hung it around the Fiery Sky Hou's neck.

At that moment, Liu Jie said in a low voice, "Lin Yuan, the call was from the Spirit Guards. They said that there's a thearch-class expert amongst the experts that the Zheng family is sending out for the blood pact ultimate fight. They looked into it and found out that the thearch-class expert has been by Miao Zhenshan's side since they were young. His name is Han Tianhe. Han Tianhe's main fey has reached Creation IV."

Lin Yuan remained expressionless, but his mind was abuzz with activity.

He did not expect the Miao family to provide the Zheng family with a thearch-class expert for the blood pact ultimate fight.

This piece of news would have left Lin Yuan at a complete loss in the past.

But now that he had the Invisible Demon, which had the power of a Sovereign X/Creation VIII fey, he was not worried as long as the Zheng family did not send out an immortal-class expert. "Lin Yuan, why don't I use my identity as the Midnight Palace's Young Liege and pay a visit to the Miao family on the day of the blood pact ultimate fight? All the Miao family's experts will definitely be there to receive me. This way, Han Tianhe will have to stay at home even if he has already registered his participation," said Liu Jie.

Liu Jie's brow remained tightly knit while he spoke as this was not a foolproof plan.

If the Miao family decided not to make Han Tianhe stay at home and allowed him to help the Zheng family, they would be doomed!

Lin Yuan shook his head.

"Big Brother Liu, you don't have to worry. I actually hope that the Miao family will be able to send more thearch-class experts to help with the Zheng family's blood pact ultimate fight."

At Liu Jie's look of confusion, Lin Yuan looked down at his shadow and said, "Invisible Demon, we'll be depending on you for this blood pact ultimate fight."

The moment Lin Yuan spoke, a raspy voice said from his shadow, "Whatever pleases you, Master."

The Invisible Demon also released its aura.

When Liu Jie sensed the Invisible Demon's aura, he immediately knew that he had nothing to worry about.

Lin Yuan could not help but look forward to facing off against Han Tianhe's Sovereign V/ Creation IV fey.

Once the Sacred Sword Wielding Queen absorbed the World Source Crystal in the Creation Breed fey, it might instantly result in a new sword skill!

After Liu Jie and Lin Yuan returned to the mansion, Lin Yuan told Wen Yu to accept the Zheng family's blood pact ultimate fight invitation on behalf of Sky City.

Chapter 1099 Crazy Fate Letters

Other people would see it as the Zheng family not taking Sky City seriously during the blood pact ultimate fight.

At that moment, Sky City needed to respond

gly to prove they were not submitting to the Zheng family.

ere

This was the first time that a faction was publicly targeting Sky City and the best time for Sky City to bare its fangs.

It was only by providing a strong response to the Zheng family and displaying terrifying power during the blood pact ultimate fight that Sky City would be able to crush the hopes of all those that were thinking of targeting them. Condense Fairy Orchard's circumstance was a good example. As a top faction, Condense Fairy Orchard was not lacking in power. However, they always kept their heads low around the Miao family, resulting in some veteran factions harboring thoughts to attack them.

Sky City had only ever displayed its Creation Master resources. However, it was not enough for a faction to only display high-class Creation Master resources without any martial force.

This was a good chance for Sky City to gain solid footing

Moreover, Lin Yuan had assigned Wen Yu to represent Sky City to agitate Zheng Kaiyuan.

He wanted Zheng Kaiyuan to be concerned by Sky City's quick reply and beg the Miao family for more experts.

The thearch-class experts from the Miao family were all just shiny World Source Crystals to Lin Yuan.

This was the best way for Lin Yuan to gain more World Source Crystals, and he wanted to gain as many as he could in one shot.

News spread quickly after Wen Yu represented Sky City to accept the Zheng family's blood pact ultimate fight.

This was the first blood pact ultimate fight in the Royal Capital of the year.

There were usually only a few blood pact ultimate fights each year.

In the past century, the factions had gained a mutual understanding, and they all knew of each other to some extent.

Hence, in order for the weak ones to protect themselves, they would take the initiative to resolve the situation to prevent the matter from escalating to a blood pact ultimate fight.

This was the reason the three veteran factions in Indigo Azure City had yet to fight at the ultimate fighting ground despite having been feuding for years. Usually, the blood pact ultimate fights were between rising factions that had recently made a name for themselves and were anxious to expand. They were the only ones who would take such a risk.

The S Tournament had reached its final stage, and this was the most exciting time of year in the Radiance Federation.

Nonetheless, it was considered big news that a veteran faction that did not come from the Royal Capital and a faction that had not been ranked yet were engaging in a blood pact ultimate fight.

There were very few blood pact ultimate fights that involved veteran factions, especially a faction like the Zheng family, which had a source of support and a solid foundation.

The Zheng family was not enough to draw so much attention away from the S Tournament. The key factor was Sky City.

Sky City had been quiet in recent months, and Lin Yuan had not bothered with Sky City's Star Web private faction territory.

Wen Yu managed Sky City's private faction territory as per Lin Yuan's instructions.

Sky City's collaborations with the Sea Bliss Clan, Condense Fairy Orchard, and the guards of the various cities were all done discreetly.

Although Sky City's main members had not made any moves, Sky City remained in the top 10 positions in the Popularity Ranking.

Sky City's private faction territory was a common topic. Moreover, Sky City's beginnings had been extremely humble, and they only made a splash after Lin Yuan carefully molded it.

Now, Sky City had become a faction that was decorated with hundreds of Bronze/Epic feys. There was also the Bronze/Legend Oath Lily on the table.

This had resulted in Sky City's bursting popularity. The offer of custom producing a Bronze/Epic fey every day only added to the popularity.

Lin Yuan was very serious about evolving feys. Thus, he was even willing to help evolve fey bloodlines as long as it was not overly tedious. He even chose from one of the three exclusive skills when the fey evolved to Bronze grade. This resulted in 90% of the customers being delighted with Sky City's services and becoming crazy fans of Sky City. They promoted Sky City whenever they could all over Star Web.

They also proudly showed off their custom-produced feys to display how rich and lucky they were.

This resulted in many people joining the queue to grab Fate Letters. The 100 Fate Letters given out every day were a hot commodity. There were even some merchants who resold the unsuccessful Fate Letters.

Lin Yuan only charged 10,000 Radiance dollars for an unsuccessful Fate Letter, but it could be resold for 50,000 Radiance dollars.

These unsuccessful Fate Letters were extremely popular.

Additionally, Sky City would not collect the unsuccessful Fate Letters and allowed them to be sold independently.

It could be said that grabbing one of Sky City's Fate Letters was the road to striking it rich.

Everyone on Star Web was going crazy for the Fate Letters.

Most of the people grabbing for one of the Fate Letters were in Sky City's Visitor's Ranking. As various factors contributed to Sky City's popularity, Sky City became a hot topic on Star Web.

Also, Sky City was very open and did not have as many rules as other private faction territories did.

Many people knew that even if they could not obtain a Fate Letter, they still wanted to go to Sky City's private faction territory to admire the view.

Countless people were worried for Sky City in the impending blood pact ultimate fight.

They had grown feelings for Sky City after such a long time of grabbing for Fate Letters, and there was no way that a veteran faction like the Zheng family would be willing to continue custom-making Bronze/Epic feys if they took over Sky City's resources.

This meant that there would be no more Fate Letters!

Chapter 1100 Blue Night's Visit

This would crush the hopes of all those that wanted to get rich by obtaining one of Sky City's Fate Letters.

As such, posts attacking the Zheng family and expressing concern for Sky City surged on Star Web.

Lin Yuan, Liu Jie, and Wen Yu were completely oblivious to this. After Wen Yu accepted the Zheng family's blood pact ultimate fight on Sky City's behalf, a meeting regarding the blood pact ultimate fight was held in the mansion.

The meeting was extremely simple. Lin Yuan decided to let Endless Summer and Zhou Luo participate. During the fight, the Invisible Demon would remain hidden in Zhou Luo's shadow.

Initially, he intended to send the Kill Food Sky Butterfly to participate. However, when he thought about the unpredictable dangers of the marsh world, he eventually decided not to send the Kill Food Sky Butterfly.

Lin Yuan had not intended on sending out Zhou Luo, but he had asked for volunteers, and Zhou Luo had unexpectedly suggested that he wanted to search for excitement by fighting.

Lin Yuan found this surprising. Was Zhou Luo such an adrenaline junkie?

He agreed to Zhou Luo's request. After Lin Yuan finished with their plans, everything returned to normal. The group just needed to show up the day after tomorrow for the blood pact ultimate fight.

Before the meeting ended, Lin Yuan said to Liu Jie, "Big Brother Liu, you don't need to go to the Miao family yourself. But I want you to put some pressure on them to make them nervous."

Liu Jie immediately knew what Lin Yuan meant.

Although Liu Jie was not adept at managing a faction, he was not dumb.

Lin Yuan had already started setting up the trap for Zheng Kaiyuan the moment he added Zheng Kaiyuan to their group at the Guard Ye Banquet and gave his contact details.

By placing pressure on the Miao family, he would prove that there was no hope of salvaging their relationship.

Without Liu Jie, the anxious Miao family would naturally turn to Lin Yuan.

In order to get Lin Yuan on their side, they would need to depend on Zheng Kaiyuan.

This would give Zheng Kaiyuan greater influence within the Miao family.

Zheng Kaiyuan was undoubtedly triggered by Sky City's quick acceptance of the blood pact ultimate fight.

After Liu Jie placed pressure on the Miao family, Zheng Kaiyuan might even be able to gain more help in the form of another thearch-class expert from the Miao family!

The loss of one thearch-class expert would be a serious blow to the Miao family.

If they lost two thearch-class experts, the Miao family would have to retreat for 20 years before they could rise again.

"Lin Yuan, leave it to me! I'll see to it immediately!"

Lin Yuan nodded and replied, "Thank you for going to the trouble, Big Brother Liu."

Soon after Liu Jie left, Lin Yuan was about to call Listen to tell him to send Qin Lun and Qin Yu over.

But at that moment, Fan Jianyi called.

Lin Yuan raised an eyebrow.

He had exchanged contact details with Fan Hansheng as he would be handling the Golden Lotus Brocade Pearl trade and their partnership with regards to the Warm Sun Fund.

It should be Fan Hansheng who was calling him.

But since the call was coming from Fan Jianyi, it meant that the matter was beyond Fan Hansheng's authority.

The only matters that would be beyond Fan Hansheng's authority would be the Polar Night Blue Sky Scorpions.

Lin Yuan picked up the call and thought to himself that he had been right. “Lord Lin Yuan, can I bring Blue Night over to visit you? Blue Night wants to talk to you face-to-face and meet the two young boys with the Polar Night Blue Sky beast patterns. I’ve also prepared all the items for you. I can bring them over during the visit as well.”

Lin Yuan happily agreed. The Polar Night Blue Sky Scorpion was one of the rare scorpion-species feys that looked after their young

This meant that both the father and mother of the Polar Night Blue Sky Scorpions cared deeply for their young.

This love was encoded in their bloodline and would only become stronger.

The Polar Night Blue Sky Scorpion treated its young just like how humans cared for their children.

Since this matter concerned their children, the Polar Night Blue Sky Scorpion parents were extremely worried.

Although Qin Lun and Qin Yu were not skilled, they did have the Polar Night Blue Sky Scorpion beast patterns.

Thus, it was fine for Blue Night to come and visit for itself.

After ending the call with Fan Linglong, Lin Yuan called Listen and told him to bring Qin Lun and Qin Yu over.

Qin Yu had yet to awaken his Polar Night Blue Sky Scorpion beast pattern officially. Shortly after, Listen personally brought Qin Lun and Qin Yu to Lin Yuan.

Lin Yuan noticed that Qin Lun had become much stronger than before. Although he still had the same appearance, the darkness in his eyes had disappeared.

Rather, Qin Yu had deep dark eye circles. It seemed that Listen had already found someone to tutor Qin Yu.

Qin Yu immediately delightedly pounced on Lin Yuan and said, “Big brother, thank you for helping my brother recover.”

Qin Yu spoke with sincere gratitude.

After Qin Yu had returned from buying medicine for Qin Lun, he realized that Qin Lun had fully recovered.

This had filled Qin Yu with unadulterated joy.

Although Qin Yu was young, he had experienced enough of life’s obstacles to understand many things.

As he had been watching his brother’s body become frailer with each passing day, he was constantly terrified that his brother would pass away.

Hence, he treasured every day that he was with his brother.

When Qin Lun suddenly recovered, Qin Yu knew that he could continue sharing his life with his brother and would not have to be lonely.

Ever since then, he had wanted to thank Lin Yuan properly.

Although he could not do much, he still wanted to express his gratitude.

Lin Yuan gently tousled Qin Yu's hair and gazed down at Qin Yu. He bent down and took out some candies made from the Cinnabar Sweet Osmanthus nectar and placed them in Qin Yu's hand.

"Young Master, I helped Qin Lun become familiar with the Listening Heron Chamber of Commerce and brought him to meet many people. However, Qin Yu seems to have a very adverse reaction to light, so I haven't brought him out much. Instead, I hired a few teachers to tutor him. Qin Yu is very smart and hardworking. He's learning very quickly. He should have a chance of passing the Redbud Beginner Spirit Qi Academy Year 2 entrance exam this year. There's no need to wait for next year," said Listen.

Lin Yuan was surprised to hear that Qin Yu was smart and hardworking.

Usually, children that had not been exposed to education found it difficult to focus on learning.
