

Merchant 1221

Chapter 1221: Completely Different

Lin Yuan could only hope that no accident took place and that Sun Ningxiang's grandmother could immediately recover after eating the Moon Dew Revival Pill.

Sun Ningxiang's emotions were out of control, and Lin Yuan could not just hang up on her.

As such, he decided to wait for Ah Neng to deliver the Moon Dew Revival Pill and see what happened to Sun Ningxiang's grandmother after consuming it.

The next half an hour flew by with Lin Yuan struggling to comfort the sobbing Sun Ningxiang.

At that moment, Sun Ningxiang received Ah Neng's delivery.

Lin Yuan said to her seriously, "When I received this Moon Dew Revival Pill, Uncle Mystic told me that it contains the tears of the Moon Crying Sacred Beast. Hence, it can't be taken with water. Moreover, once it comes into contact with a human's aura, the tears of the Moon Crying Sacred Beast will rapidly dissolve. You have to be careful not to touch it with your hands when you're retrieving it from the jade bottle."

Although Sun Ningxiang had decided to thank Lin Yuan with her actions and not speech, she still could not help but utter her thanks.

Her voice was grim and brimming with emotions.

Lin Yuan hurriedly replied, "You're welcome. Feed the Moon Dew Revival Pill to your grandmother, and let's see what happens."

Sun Ningxiang did as Lin Yuan said.

While she was feeding it to her grandmother, she noticed that her grandmother's body had gone slightly stiff, and dark red pus was oozing out of her rapidly decaying wounds.

If not for her grandmother's weak but still existent pulse, Sun Ningxiang would have assumed that her grandmother was already dead. Her grandmother was truly on her deathbed.

If Lin Yuan had not rushed the delivery or offered to send the Moon Dew Revival Pill without hesitation, her grandmother would have been gone by the time the Moon Dew Revival Pill arrived.

Sun Ningxiang's heart pounded anxiously as she fed her grandmother the Moon Dew Revival Pill.

Although the Moon Dew Revival Pill was a sacred medicine that came from the Moon Empress and had revival abilities, she could not be at ease when her family member's life was at stake.

She held her breath when the Moon Dew Revival Pill dissolved and entered her grandmother's body.

Sun Ningxiang carefully observed her grandmother.

At that moment, a warm moonbeam shone from within her grandmother's body. The moonbeams were also laced with 1,000 faint and poignant fragrances.

Slowly, color returned to her grandmother's pale face, and a healthy flush bloomed.

Sun Ningxiang carefully unwrapped the bandages that covered her grandmother's wounds.

The wounds that had been decaying moments ago were already starting to improve. The decayed portions were dissolving, and new flesh had started to grow.

In less than a minute, all the wounds that she had struggled to treat for so many years were healed.

Sun Ningxiang was over the moon.

But when the moonbeams and fragrances dissipated, Sun Ningxiang tensed up again as she realized that her grandmother had yet to awake.

Lin Yuan caught her confusion and said with a smile, "Has your grandmother's soul ever been heavily injured? From your description, it sounds like your grandmother's wounds have all healed. The Moon Dew Revival Pill has the ability to wake the spirit. Your grandmother should be waking up soon."

The moment the last word left Lin Yuan's lips, Sun Ningxiang's grandmother opened her eyes.

Sun Ningxiang had stopped crying. But when she saw that her grandmother had regained consciousness, tears started spilling from her eyes again.

This time, it was tears of joy and not sadness.

The moment Sun Ningxiang's grandmother awoke, Lin Yuan hung up the phone and let out a small breath of relief.

Her grandmother had been pulled out of Death's arms.

In Condense Fairy Orchard's residence in Flower City...

Sun Ningxiang's grandmother had awoken with a look of disbelief on her face.

As a thearch-class expert that had been living every day expecting it to be her last, Liu Yuan was well aware of her body's condition.

From the moment she spat out the first mouthful of blood, she knew that the moment she had been dreading was finally here.

Just as she had been about to explain the situation to Sun Ningxiang, her wounded soul exploded, and she fainted before she could get a single word out.

Liu Yuan's heart was full of worry and self-reproach right before fainting. She was afraid that Condense Fairy Orchard would fall into ruin without her, and the other top factions would bully Sun Ningxiang.

Liu Yuan regretted insisting on using the Legend Muscle Growth Camellia's roots to attempt to clear all the poison from her body. If she had been successful, she would be able to live for much longer than a measly three to five years.

But before she could do so, the poison had reached her brain and triggered her wounded soul that she had spent a great deal of effort subduing.

If she had still attempted to clear the poison using the roots of the Muscle Growth Camellia, the poison would have caused her soul to blow apart.

As such, she had no choice but to abandon the idea and use the Muscle Growth Camellia to treat her external wounds.

The Legend Muscle Growth Camellia's leaves were the best medicine for removing poison. However, Liu Yuan had taken a gamble by using its roots, which were several times more powerful.

Once the roots were gone, the Muscle Growth Camellia couldn't continue living.

Liu Yuan had relied on the Muscle Growth Camellia's leaves to suppress the poison.

But after losing the Muscle Growth Camellia, the poison returned even more fiercely than before.

It resulted in Liu Yuan vomiting blood and fainting every two days. The poison had also affected her heart and caused it to shrink.

When her heart pumped large amounts of poison into her brain, it aggravated her wounded soul.

The recently-conscious Liu Yuan touched Sun Ningxiang's head while wiping the tears from her face.

She sensed her body's changes in a dumbfounded state. Her body was completely different now.

Chapter 1222: If You Like It, Work Hard!

Liu Yuan noticed that not only had her wounds been healed and poison removed, but her weak roots had also been strengthened.

For an unknown reason, the remnants of impurities in her body had all been cleansed. This reminded her of the Radiant Moon Palace's Silver Stamen Gold Luster Cassia nectar.

In its prime, Condense Fairy Orchard had once been able to obtain a few drops of Silver Stamen Gold Luster Cassia nectar from the Moon Empress.

The Silver Stamen Gold Luster Cassia nectar had cleansed her body of all impurities but had been unable to heal her wounds.

Liu Yuan looked down to look at her granddaughter, who was wailing like a child.

Her eyes were full of love and pity. She knew full well how difficult the past few years had been for Sun Ningxiang.

Liu Yuan sighed to herself and lamented the hardship that her granddaughter had experienced.

Sun Ningxiang was carrying the heavy burden of Condense Fairy Orchard all on her own.

Now that Liu Yuan was not only healed, but her body was even stronger than before, her granddaughter finally did not have to bear that yoke on her own.

Finally, her granddaughter could live the kind of life she wanted.

Liu Yuan wanted to know how she had recovered.

When she fainted, only Sun Ningxiang had been by her side. Her recovery had to be linked to her granddaughter in some way.

“Xiangxiang, what happened after I fainted?”

Sun Ningxiang suddenly remembered that she had been on the phone with Lin Yuan. She hastily looked at her phone, only to see that he had already hung up.

She thought,?Thank God he hung up! I wouldn't want him to hear my wailing!

She had completely forgotten that Lin Yuan had heard her cry for close to half an hour. During that time, he had tried his best to come up with a way to comfort her.

As she looked at Liu Yuan's questioning expression, Sun Ningxiang said, “Grandma, Lin Yuan was the one who saved you. After he found out what happened, he sent a Moon Dew Revival Pill to us through Ostrich Logistics.”

Liu Yuan froze, and one thought filled her mind.

I can't believe I consumed the Moon Dew Revival Pill! No wonder I was able to recover and feel like a completely different person.

Liu Yuan knew much more about the Moon Dew Revival Pill than Sun Ningxiang.

During Condense Fairy Orchard's prime, Liu Yuan's husband had offered half of all of Condense Fairy Orchard's resources but had still been unable to obtain a single Moon Dew Revival Pill.

One Moon Dew Revival Pill was more valuable than the life of a thearch-class expert because it had similar effects as offering immortality.

Recently, Lin Yuan had lost count of the number of times she heard Sun Ningxiang mention Lin Yuan's name.

Although her body had been so weak that she had been unable to go outside much, she still kept up with the news in the Radiance Federation and knew that Lin Yuan was the Moon Empress' disciple.

Sun Ningxiang had not revealed that Lin Yuan and the City Lord of Sky City were the same person.

Liu Yuan was filled with intense gratitude toward the City Lord of Sky City and Lin Yuan.

Sky City's collaboration with Condense Fairy Orchard had solved Condense Fairy Orchard's lack of Creation Masters and strengthened their plant-type fey resources. This ensured that Condense Fairy Orchard could continue their domination of the plant-type fey market.

Lin Yuan had stood behind Sun Ningxiang at the Guard Ye Banquet and told the other factions about his relationship with her. This deterred other factions from targeting Condense Fairy Orchard after the Guard Ye Banquet.

Before the Guard Ye Banquet, Sun Ningxiang mostly talked about the City Lord of Sky City.

But after the Guard Ye Banquet, Sun Ningxiang mostly talked about Lin Yuan instead.

Although Condense Fairy Orchard and Sky City had deepened their collaboration, Sun Ningxiang still did not mention the City Lord of Sky City again.

It seemed as though all the topics that used to include the City Lord of Sky City now featured Lin Yuan instead.

Lin Yuan was also being brought up more and more.

With all her experience, Liu Yuan noticed that something was off.

Liu Yuan's expression changed when she saw Sun Ningxiang's gaze as she talked about Lin Yuan.

Her granddaughter was extremely impressive at expanding the faction. Otherwise, she would not have been able to sustain Condense Fairy Orchard for so long in spite of Condense Fairy Orchard's lack of resources.

However, her granddaughter's affinity as a combat-class spirit qi professional was rather weak.

Even when Condense Fairy Orchard had no shortage of resources, she could only reach #40 of the Radiance Hundred Sequence at best.

Meanwhile, Lin Yuan was the champion of the Martial Arts Stage.

The Arts Stage, Martial Stage, and Martial Arts Stage had taken place separately during the Guard Ye Banquet.

Although the Martial Arts Stage champion could not be crowned as the member of the younger generation with the strongest Creation Master abilities or combat power, he was still considered an outstanding Creation Master and combat-class spirit qi professional.

During the fight with Zong Ze, Lin Yuan's combat style had been extremely special, and he had not summoned a single fey. Instead, he had revealed an exceptionally strong sacred source lifeform that could shapeshift.

Now that an Order of Radiant Light had fallen into the hands of such an outstanding individual, he would definitely become a Radiance Envoy, notwithstanding an unexpected accident.

Moreover, Lin Yuan had the support of the Radiant Moon Palace. Sun Ningxiang was a far cry by comparison.

This distance would only increase as Lin Yuan continued to grow.

"My body is fine now. I can handle Condense Fairy Orchard now. Xiangxiang, you should take part in the Radiance Hundred Sequence selection this year. All of Condense Fairy Orchard's resources will go to you now. You should take that antique jade piece that can increase the comprehension of willpowers that your grandfather left for your brother. Do your best to comprehend a second Willpower Rune as soon as possible," said Liu Yuan.

Sun Ningxiang's eyes widened.

Although she never mentioned it, she knew that her grandmother doted on her brother more.

The piece of antique jade her grandmother mentioned was an heirloom of Condense Fairy Orchard.

She could not believe that her grandmother would allow her to carry it around with her.

“Grandpa left that antique jade for my brother. I—”

Before Sun Ningxiang could finish speaking, Liu Yuan said gently, “If you hadn’t kept Condense Fairy Orchard afloat, your brother wouldn’t even have the chance to use this antique jade.”

Chapter 1223: The Greatly Limited Moon Empress

“There are still two years till the next Radiance Envoy and Radiance Knight selection. Xiangxiang, if you have any hopes, you should do your best to charge toward becoming a Radiance Knight. Otherwise, the gap between you and Lin Yuan will only grow larger until finally, even looking up to him will only be nothing more than a pipe dream.”

Liu Yuan did not speak to the point for fear of discouraging her granddaughter.

As such, Sun Ningxiang did not realize the meaning behind her grandmother’s words.

She did have one dream that she hoped would come true.

However, she had a more important matter to discuss with Liu Yuan.

She looked at Sun Ningxiang seriously and said, “Grandma, I want Condense Fairy Orchard to become part of Sky City. We should become one of Sky City’s branch factions.”

Liu Yuan was momentarily stunned before she started contemplating deeply.

Suddenly, she remembered that Lin Yuan had saved her with the Moon Dew Revival Pill.

Yet, Sun Ningxiang did not propose for Condense Fairy Orchard to join Lin Yuan but to become part of Condense Fairy Orchard instead.

Previously, all the gratitude that Sun Ningxiang should be showing the City Lord of Sky City had been transferred onto Lin Yuan.

When she put two and two together, Liu Yuan’s heart skipped a beat.

Even during Condense Fairy Orchard’s most difficult times, Liu Yuan would rather go down with the sinking ship than allow Condense Fairy Orchard to become a branch or another faction.

This was why Liu Yuan had been against working with Connected Beast Park.

However, if Lin Yuan were the City Lord of Sky City, the circumstances would be different.

It was not just that Condense Fairy Orchard owed debts of gratitude to both Lin Yuan and the City Lord of Sky City. Solely based on Lin Yuan’s status and future, as well as Sky City’s Creation Master resources, Condense Fairy Orchard’s future would be secured.

Moreover, Condense Fairy Orchard would have a real chance of surpassing other top factions.

Moreover, the resolution in Sun Ningxiang's eyes and her feelings for Lin Yuan were important factors that persuaded Liu Yuan.

Just as Liu Yuan was about to give in, she asked Sun Ningxiang, "Xiangxiang, be honest with me. Are Liu Yuan and the City Lord of Sky City the same person?"

Due to Liu Yuan's tone of certainty, Sun Ningxiang hesitated for a moment before nodding.

Liu Yuan affectionately touched Sun Ningxiang's hair and said, "I'm old now. All of Condense Fairy Orchard's decisions lie in your hands. If I'm able to support you for a few more years, I'll consider that I've made good use of something as precious as the Moon Dew Revival Pill."

Liu Yuan smiled warmly at Sun Ningxiang's surprised expression.

...

Unknowingly, spring had arrived. The spring sun was warm and blinding.

The sun was currently slowly climbing towards its apex.

Within the imperial court, an elderly man was currently seated on a seemingly normal recliner that was brimming with life force.

He stared at the sun as he was lost in his thoughts.

The blinding sunlight not only did not force the elderly man to avert his eyes, but it even highlighted the gold in his mostly-black eyes.

A smiling man walked in and said hurriedly to the elderly man, "Did you call me over in such a hurry because your old problem has relapsed?"

The elderly man turned his eyes away from the sun and said to the grinning man, "My body is still very sturdy. That problem hasn't affected me in over five years. Cicada Song, I notice that you've been staying at the imperial court with your disciple of late. How does it feel to have a disciple?"

Cicada Song rubbed his temples in frustration and replied, "Gao Feng is great in every way. The only issue is that he's set on competing in next year's S Tournament. He can't stop the moment he gets excited. I would rather adjust his mental state before we start increasing his power."

The elderly man was surprised to hear what Cicada Song said.

Cicada Song was always smiling and appeared to be extremely gentle. However, he was actually exceedingly rational and composed.

The elderly man could not believe how much Cicada Song cared about his disciple.

Initially, he had been concerned that Cicada Song would not be able to take up the mantle of being a Master.

But now, it seemed that he had been worried for nothing.

Rather than Cicada Song training Gao Feng's character, it seemed that Gao Feng was the one training Cicada Song's character now.

The elderly man flipped his hand over and a blaze-yellow wooden box appeared in his hand.

Cicada Song hurriedly reached out his hand to receive the blaze yellow wooden box.

"There is a drop of Earth Center Fine Milk inside the box. Deliver it to the Moon Empress. It should extend her life for a year."

A look of obvious repressed pain appeared on the elderly man's face.

The fight from a decade ago had caused the three federations around the Radiance Federation to sink to the bottom of the sea.

During that fight, the four immortal experts from the Freedom Federation had been killed. However, the Moon Empress' attack had resulted in her losing a large portion of her lifespan.

Given her personality, she would not lock herself away to train for more than a decade after that incident.

Ever since she accepted a disciple, she had been paving the way for him.

This indicated that her lifespan was coming to an end soon. Otherwise, the old her would never have chosen to pave the way for her disciple.

She would only be fulfilled when she saw her disciple make a name for himself.

At the Moon Empress' level, any further breakthrough would be accompanied by huge risk and the danger of losing her life.

An expert's lifespan was the most precious thing in the world to them. Constant training could prolong their lifespan but not extend it endlessly.

Hence, any expert of the Moon Empress' level would first have to weigh the cost of their possible failure.

Yet, the Moon Empress had charged forward without any qualms in recent years. This was her way of putting up a last-ditch effort against her lifespan.

When the look of intense pain appeared on the elderly man's face, Cicada Song left the imperial court with the box.

Cicada Song had also experienced the incident himself.

If two people who had experienced the incident together reflected on it at the same time, they would only increase each other's sorrow.

As Cicada Song headed to the Radiant Moon Palace, he muttered, "My old friend put down his sword. I did everything, but he still couldn't return. Yet, you who are as arrogant and cold as the moon still have 15 years of brilliance left to do whatever your heart desires."

Lin Yuan, who was currently playing with the tangerine and red Lifespan Mouse, was completely oblivious to all of this.

Chapter 1224: Su Yiren's Gains

Lin Yuan did not have any important business to attend to in the Divine Wood Federation, and the Moon Empress was still in the midst of her training.

Lin Yuan also needed to handle the blood pact ultimate fight between the Sea Bliss Clan and the Miao family.

As such, he intended to finish everything he had on hand in the Radiance Federation before returning to the Divine Wood Federation to focus on training.

As he looked at the Lifespan Mouse scamper energetically, he felt that it would definitely become fat and good friends with the Moon Empress' white rabbit.

Naturally, this would only happen if the Lifespan Mouse knew to stay away from the rabbit's carrots. Otherwise, the rabbit would start hiding its carrots behind its tail again.

Lin Yuan had been so busy with setting up his establishment in the Divine Wood Federation that he had not rested properly.

As the agarwood wafted into his nose, Lin Yuan felt sleep creeping up on him.

He summoned Genius out and instructed it to wake him up at 1:00 p.m. before he snuggled up on the water rhinoceros leather sofa and started napping.

While Lin Yuan was napping, four other figures from different parts of the main world with different states of mind entered dreamland together.

Bei Xu had spent a fruitful last few days and was elated.

After sweeping through the working area of a rock insect, he finally managed to obtain subordinates. With these subordinates, Bei Xu could officially start building his own faction.

It was tough for normal people to survive in the subterranean world.

Hence, Bei Xu was extremely picky with his subordinates.

There happened to be some people who had awakened a Willpower Rune, but they had no use for it in their manual labor work.

These people who had the curse of the rock insect on them dared not reveal anything special about themselves for fear that they would be treated as pariahs or threats that needed to be killed.

After Bei Xu obtained their consent, he used the Sharp Shadow Bat's Bat's Fangs Blood Seed to change his two subordinates into blood zombies.

Next, Bei Xu just needed to sweep through more subterranean dimensional rifts to search for suitable source-type items for his two subordinates.

This would greatly increase the overall power of Bei Xu's faction, and he would not need to attend to every matter anymore personally.

This was a huge step up for Bei Xu's development.

Yin Lin was currently seated on the Island Whale along with the rest of the convoy from the Azure Federation and was headed toward the Radiance Federation.

She spent her days lazily atop the Island Whale. All she did was increase her power while looking forward to the next Astronomical Parliament.

Compared to the carefree Yin Lin, Ta Lei was in the middle of the biggest change of his life.

Due to Lin Yuan, Ta Lei was no longer a young man from a small tribe but a Class 1 Creation Master recognized by the Iron Hammer imperial court.

As such, the Horseshoe Tribe had also become a Class 1 tribe.

Ta Lei had caused a significant stir in the Iron Hammer imperial court by becoming a Class 1 Creation Master at a young age.

In order to show how much they valued Ta Lei, the imperial court dispatched a powerful soldier to protect Ta Lei.

When the Cuprite Tribe found out that Ta Lei had become a Class 1 Creation Master and was being favored by the imperial court, they decided to reach out a friendly hand to them instead.

They promised the Horseshoe Tribe that they would share ownership of the high-grade energy ore and Gold Frost Silver mines in order to form an alliance with them.

These events had deeply stunned Ta Lei, and he could not help but reflect on all the benefits he had gained after the Astronomical Parliament's parliamentary meeting.

It was because of this that Ta Lei did not lose sight of what he needed to do.

He resolutely convinced his grandparents, parents, and brother to do as Lin Yuan asked and take the Horseshoe Tribe to the boundary toward where the Divine Wood Federation was.

Ta Lei's decision would result in the loss of the high-grade energy ore and Gold Frost Silver mines.

The Horseshoe Tribe had never known what it was like to be wealthy and refused to give up on this chance.

Eventually, Ta Lei told them about the Master that he could see once every week, which had turned him into a Class 1 Creation Master.

Hence, the Horseshoe Tribe began their day-long journey to the boundary that separated the Iron Hammer Federation from the Divine Wood Federation.

Su Yiren was currently stooped in an alley in the Divine Wood Federation. She was a drifter and considered worthless in the Divine Wood Federation. Thus, she even had to be careful with every breath she drew.

During the last Astronomical Parliament parliamentary meeting, Lin Yuan had healed Su Yiren's injuries.

But now, she was covered in fresh wounds.

In order to survive, she had no choice but to set aside her pride as a Dark Envoy and rummage through trash cans for food scraps.

The struggles of her current reality made Su Yiren all the more determined to survive.

The man's voice amongst the constellations reverberated within Su Yiren's mind.

"As long as you're alive, there's always hope."

Albeit, this hope came with the cost of losing her freedom.

However, Su Yiren did not come away with nothing after spending the last few days foraging through the trash.

She found a usable phone with a broken screen.

During the last Astronomical Parliament parliamentary meeting, Su Yiren remembered that the figure wrapped in countless willpowers had instructed the person next to her who only had one willpower to travel from the Iron Hammer Federation toward the Divine Wood Federation.

This meant that there was a high chance that that figure wrapped in countless willpowers was currently at the Divine Wood Federation's boundary.

After a full month of surveillance, Su Yiren knew that Oak City, where she was in, was the city that was the closest to the Divine Wood Federation.

As such, the phone she found was vital to her.

She wanted to try to ask the figure for his number at the next Astronomical Parliament parliamentary meeting and contact him through this damaged phone.

She would not always be so lucky to continue living as strongly as she was doing after every beating she received. After all, her soul was injured, and her sacred source lifeform was in a near-death state.

While crouching in the alley, Su Yiren's skinny body curled up like a feeble kitten. In such a circumstance, she could not sleep soundly.

In order to provide herself with the deepest sleep possible, she had gone hungry for two days and traded for a cup of inferior quality alcohol from a homeless man.

She never drank alcohol, so this one cup was enough to induce sleep. She even started snoring, and it was likely that she would sleep for at least half a day.

Genius used to be a housekeeping beast and was used to performing wake-up calls.

Once the clock struck 1:00 p.m., Genius used its eight long tails to tickle Lin Yuan's neck.

Lin Yuan was very susceptible to being tickled. When Genius' tail brushed across his neck, he immediately woke up while chortling with laughter.

Chapter 1226: Lay Down the Terms

This fortune had descended on Lin Yuan and the rest of the people who were part of the Return from Faraway Mansion's family.

Ji Feng had watched his family die a decade ago and had been alone when he met Lin Yuan.

After interacting with the rest of the people from the Return from Faraway Mansion, Ji Feng naturally came to see the Return from Faraway Mansion as his home.

Lin Yuan gazed at Ji Feng silently as Ji Feng had just given him too much information at once.

Since Ji Feng was willing to ignore the risks of injuring his soul in order to express his kinship, Lin Yuan would not treat his intentions lightly.

Moreover, Ji Feng used to be the Young Leader of Whale Ocean Commerce and knew where to draw the line when he conducted himself.

Lin Yuan intended to be on full alert from now on in preparation to receive the fortune and ensure that the fortune did not slip away.

Ji Feng immediately returned to the Listening Heron Chamber of Commerce after he reported his news to Lin Yuan.

As the expert that was assigned to the Listening Heron Chamber of Commerce, Ji Feng could not leave it unguarded for too long.

Lin Yuan returned Genius to the Spirit Lock spatial zone so it could divide the Soldier Ration Radishes. Next, he walked to the third floor and knocked on Wen Yu's door.

Wen Yu was a light sleeper, so her eyes snapped open when Lin Yuan knocked on her door twice.

After she opened the door, Lin Yuan noticed that she was sporting an intense bedhead. However, her eyes were clear and energetic.

Wen Yu opened the door wider and said, "Young Master, come in and wait. I will start the parliamentary meeting once I wash up."

Lin Yuan strode into Wen Yu's room.

The Return from Faraway's construction had been completed some time ago, and Wen Yu often sent clothes to Lin Yuan's room as well as discussed the events of the Astronomical Parliament parliamentary meeting there together.

However, this was the first time that Lin Yuan entered Wen Yu's room. In fact, this was the first time he was entering the room of a girl that was not Chu Ci's room.

He sat down on a chair, and Wen Yu entered the washroom to clean herself up.

As Lin Yuan listened to the sounds of water, he took in the interior design of Wen Yu's room.

He noticed that her room was decorated in a style that vastly differed from her fashion designs.

The spirit qi clothes she designed were elegant, and she used the elaborate palace-style cut on all her pieces.

As such, the spirit qi clothes that Lin Yuan wore on a day-to-day basis appeared simple, but the embroidery on them carried an opulent air.

In contrast, Wen Yu's room was minimalistic as there were no other decorations in it besides a bed, two chairs, and a large table.

Even Lin Yuan had placed some jade-textured wooden carvings that Hu Quan made in his room.

From the moment he entered the room, Lin Yuan could smell a faint sweetness. This sweetness was of different flora and fauna and had a soft freshness about it.

If Lin Yuan had not gained peak smelling abilities after all the impurities in his body were cleansed, he might have missed this almost non-existent fragrance.

Wen Yu had walked out of the washroom with her eyebrows tightly furrowed. It was clear that she had a question she was struggling with.

She took two steps forward and asked Lin Yuan seriously, "Young Master, what are your plans for recruiting Su Yiren during this parliamentary meeting?"

Lin Yuan did not find this question strange.

After the last Astronomical Parliament parliamentary meeting, Wen Yu had done a thorough investigation on Su Yiren and was well aware of Su Yiren's value.

However, Lin Yuan felt that Wen Yu was being overly worried and that she was thinking about Su Yiren's recruitment more than Lin Yuan was.

After seven days of grappling with her excruciating reality, Su Yiren should have been racking her brains to come up with a way to join the Astronomical Parliament.

A moment of silence later, Lin Yuan told Wen Yu about his plans for recruiting Su Yiren.

"We don't need to make any preparations for Su Yiren. If she joins this Astronomical Parliament parliamentary meeting, we'll need to lay down the terms with her. She's currently in the Divine Wood Federation, and I'm bound to meet her when I'm training in the Divine Wood Federation. Once I meet with her, I'll have to heal her soul injury and her near-dead sacred source lifeform. She'll be of no use to us if she can't even summon feys.

"But now, her head is filled with thoughts of revenge. We'll need to change her mindset during this Astronomical Parliament's parliamentary meeting. The parliamentary meeting requires both parties to be agreeable to collaborate. One side can't be bent on revenge."

Wen Yu immediately understood what Lin Yuan meant and what his plans were for Su Yiren.

It seemed that Lin Yuan was going to devour Su Yiren.

After listening to what Lin Yuan said, Wen Yu's misunderstanding had been cleared.

Upon finding out that Su Yiren was a Dark Envoy, she had placed a high value on Su Yiren. But what she valued was Su Yiren's identity and not her abilities.

Now, Wen Yu realized that Su Yiren's abilities were far more important than her identity as a Dark Envoy.

Lin Yuan also valued Su Yiren's abilities, which was why he wanted to lay down the terms with her.

From this, Wen Yu could tell that Lin Yuan had far more foresight than her.

Wen Yu truly enjoyed this feeling of constantly progressing that she experienced at Lin Yuan's side.

Lin Yuan and Wen Yu entered the training room and used the ritual to activate the Astronomical Parliament.

A banquet of stars erupted once again.

When Lin Yuan and Wen Yu sat down on the Leo throne and Libra throne, he realized that four figures were already neatly seated on the north-south constellation seats.

Yin Lin was seated on the Andromeda seat, Bei Xu on the Perseus seat, Ta Lei on the Leo Minor seat, and Su Yiren on the Corona Australis seat.

Ta Lei had formed a contract with the Leo Minor seat without hesitation during the last Astronomical Parliament parliamentary meeting and was now an official member.

However, Su Yiren had hesitated and had doubts about the Astronomical Parliament. As such, she had not formed a contract with the Corona Australis seat.

When Su Yiren saw Lin Yuan and Wen Yu, she immediately readied herself to form a contract with the Corona Australis seat.

Chapter 1227: Want to Join the Astronomical Parliament? Prove Your Worth First!

However, the moment she reached out her hand to touch the Corona Australis seat, the woman on the Libra throne said calmly, "Wait. If you want to join the Astronomical Parliament, you have to prove your worth first."

Wen Yu's words stunned Su Yiren.

She did not remember Ta Lei being asked to prove his worth before he formed a contract with the Leo Minor seat.

This made Su Yiren feel as though she was receiving special treatment.

Although she was living a life worse than death in the Divine Wood Federation, she was in a dream-like meeting where her figure was formed from willpowers.

She could puff up with the pride of being a Dark Envoy here.

She would have backed out of the Astronomical Parliament without hesitation if she had received such special treatment the last time.

Ever since the last Astronomical Parliament parliamentary meeting ended, Lin Yuan had used Star Spirit Seat to transfer the Jasmine Lily's vitality to Su Yiren to heal her injuries.

This had allowed Su Yiren to see how powerful the Astronomical Parliament was. She also knew that being in the Divine Wood Federation did not affect how much help she could receive from the Astronomical Parliament.

Moreover, Lin Yuan had mentioned hope that enabled Su Yiren to plan out her future path over the last week.

This was why Su Yiren could not wait to form a contract with the Corona Australis seat the moment she entered the Astronomical Parliament.

She had decided to join the Astronomical Parliament and was determined to survive—she would not abandon this chance just because she was receiving unfair treatment.

Su Yiren looked at Wen Yu and asked, "How do you want me to prove my worth?"

While Su Yiren was speaking with Wen Yu, Lin Yuan looked through Su Yiren's memories again to see how she had spent the last seven days.

When he saw that Su Yiren wanted to form a contract with the Corona Australis seat, he was about to stop her, but Wen Yu beat him to it.

Since Wen Yu had spoken first, Lin Yuan left the rest of the interaction to her. He wanted to see how Wen Yu would act and what she said.

Wen Yu said, "Proving one's worth does not depend on what the person has but what they can do. Can you work with the Astronomical Parliament wholeheartedly without a single thought of scheming?"

Su Yiren fell silent.

Instead of replying to Wen Yu, Su Yiren pointed at Ta Lei, Yin Lin, and Bei Xu and said, "Can they wholeheartedly work with the Astronomical Parliament without a single thought of scheming? How are others supposed to know what a person is thinking? This promise seems childish to me. If I say I'll do it, will you believe me?"

Yin Lin cut her off and snapped, "Don't forget how you entered the Astronomical Parliament in the first place! What did you swear before entering the Astronomical Parliament? Libra is already being kind by using the term 'working together'. After the Astronomical Parliament fulfills your wish, you should do whatever you can to repay them."

Bei Xu and Ta Lei frowned as well.

Su Yiren could clearly sense the other three's distaste for her.

Yin Lin's words were a reminder to Su Yiren. She had been so set on entering the Astronomical Parliament again because she wanted to lead a better life and fulfill her goal. It was true that she had completely forgotten how she entered the Astronomical Parliament in the first place.

At that moment, the woman on the Libra throne said calmly, "You're currently thinking of ways to receive more benefits from the Astronomical Parliament. Once you're able, you'll return to the Dark Continent and use your identity as one of the seven Dark Envoys to enjoy the benefits of your status. Am I right?"

Su Yiren's eyes widened as Wen Yu had hit the nail right on its head.

It was like Su Yiren was an open book to Wen Yu.

Last time, Su Yiren had wondered how the two people seated on the throne knew so much about her.

Something was off about this meeting. Could the woman seated on the Libra throne have the ability to read everything in another person's mind?

While Su Yiren was thinking, Wen Yu went on to say, "I always assumed that people who have the capabilities to become a Dark Envoy are able to judge matters clearly. If you want revenge, you have to be more powerful than Seventh Page War at the very least. If you charge ahead without this power, it will only result in the deaths of those closest to you. You should know this well.

"I'm giving you a final chance. Tell me what you can do for the Astronomical Parliament. Otherwise, you can continue to live a life of struggle by drifting around the Divine Wood Federation and scrounging for food in trash cans.

"There is a Class 4 family in Oak City, some Class 3 families, and many Class 2 families. In such a huge city full of wealthy families, the death of a drifter will be less than insignificant. No one will know that the once-great Dark Envoy has died in a dirty corner of one of Oak City's alleys.

"You know I'm not saying this to scare you, and you shouldn't think of forming a contract with the Astronomical Parliament as a simple matter. Once you form a contract with the Astronomical Parliament, you'll have to make good on your promises to the Astronomical Parliament. Otherwise, you'll have a much higher price to pay."

Everything Wen Yu said was like arrows shot directly through Su Yiren's heart as they were all the struggles that Su Yiren was being tortured by.

Su Yiren was terrified by Wen Yu's ability to read a person's mind.

She gnashed her teeth and replied, "There are many things I can do. If you hand me a federation, I can guarantee that it'll be organized and prosperous. If you want me to do anything else, you'll have to heal my wounds first. Moreover, my sacred source lifeform is special. Its abilities are tied together with the rest of my feys. If my sacred source lifeforms doesn't recover from its near-death state, I won't be able to summon my feys even if my soul injury is healed."

Although Su Yiren spoke pompously, Wen Yu knew that she was telling the truth.

There were seven federations in the Dark Continent, and one of the tests to become a Dark Envoy was to manage a federation for a year to prove that they had the ability to plan with the big picture in mind.

Chapter 1228: All-Knowing All-Powerful and Su Yiren's Fear

Lin Yuan took over the conversation from Wen Yu. "If you choose to become a member of the Astronomical Parliament, the Astronomical Parliament will make sure your needs are met. Your soul injury can be healed very easily, so you don't have to worry about that. Now, we should discuss ways to treat your sacred source lifeform."

Su Yiren's eyes lit up.

She now knew that the Astronomical Parliament had the ability to heal her soul injury and was willing to attempt to heal her near-dead sacred source lifeform.

Frankly, Su Yiren was not certain about the exact circumstance of the Absolute Love Poppy's injury as its flowers and leaves had all been crushed by Seventh Page War.

Immediately after, the Absolute Love Poppy had fallen unconscious in the depths of Su Yiren's soul.

If she wanted to communicate with the sacred source lifeform and check on it, she would have to use her soul power.

However, she could not do so due to her injured soul.

Nonetheless, she was certain that it was still alive.

Under normal circumstances, plants would continue to absorb nutrients to heal themselves as long as they still had their roots.

The Absolute Love Poppy was just too weak now. It dared not absorb nutrients in its near-dead state as it would start to awake from its dormant state.

Once it woke up from its dormant state, the Absolute Love Poppy's vitality would rapidly deplete.

If it could not absorb nutrients to replenish its vitality at the same rate that its vitality depleted, the Absolute Love Poppy would truly die.

The last thing that Su Yiren wanted was for its near-dead Absolute Love Poppy to take on any risk.

As such, Su Yiren said boldly, "It'll be very difficult to treat my Absolute Love Poppy. I have only managed to come up with two ways. Either plant my Absolute Love Poppy in the top-grade marsh soil Eternal Life Soil or use the Lifeform Sacrificial Fire to burn it. There might be other methods to heal my Absolute Love Poppy, but these two are the safest ways. If we try anything else and it fails, my Absolute Love Poppy might die. I don't want to put it at any risk."

Lin Yuan frowned when he heard Su Yiren mention the top-grade Eternal Life Soil.

Not many Class 5 marsh dimensional rifts had opened in the Radiance Federation, and the amount of top-grade marsh soil produced was even more limited.

The Moon Empress had told him about top-grade marsh soil before, but there was no mention of Eternal Life Soil. This meant that he would not be able to obtain Eternal Life Soil in the Radiance Federation.

Although Lin Yuan had a territory in the marsh world, and it would be easy for him to search for marsh soil, it would be like looking for a needle in a haystack to search for a specific type of marsh soil.

Moreover, there were always powerful dimensional lifeforms in the vicinity of top-grade marsh soil.

Given Lin Yuan's current strength, he could not afford to take on those powerful dimensional lifeforms.

But, Lin Yuan's brow relaxed when he heard Su Yiren mention the Lifeform Sacrificial Fire because he already had that within the Spirit Lock spatial zone.

The Twin Red Pagoda had been absorbing the pure spirit qi in the Spirit Lock spatial zone as well as fire-type heavenly-maiden-grade elemental pearls. Due to this, the Lifeform Sacrificial Fire had grown exponentially.

The Lifeform Sacrificial Fire had reached half maturity.

Although Endless Summer could not eat it yet, it was more than able to burn and trigger plant-type sacred source lifeforms.

Since Su Yiren only needed the Lifeform Sacrificial Fire to burn the Absolute Love Poppy and not consume any of it, Lin Yuan did not need to hold back.

After Su Yiren spoke, she immediately felt that she had misspoken.

The Seven States of Darkness had once obtained one piece of Eternal Life Soil, and it had been treated as an extremely precious treasure by the entire Seven States of Darkness.

Meanwhile, the Lifeform Sacrificial Fire was something Su Yiren had only heard of but never seen.

She felt that her requests were rather outrageous.

She was no longer in the Seven States of Darkness, and the Dark Continent had been conquered.

She could not use her experience as a Dark Envoy to communicate with others.

Yet, she did not expect the man seated on the Leo throne to reply casually, "If so, you can go ahead and form a contract with the Corona Australis seat, and I'll heal the Absolute Love Poppy."

Su Yiren was taken aback by this unexpected piece of good news and amazed by Lin Yuan's resources.

She enthusiastically formed a contract with the Corona Australis seat.

She felt that the more resources Lin Yuan possessed, the more benefits she would receive in the future.

When she formed a contract with the Corona Australis seat, the Corona Australis constellation above her lit up, and she remembered the phone she had found amongst the trash.

She was about to ask Lin Yuan for his number when he announced a string of numbers.

“Call this number five days later, and it’ll tell you what to do next.”

Lin Yuan had given Su Yiren the number of one of the two phones he had taken from the five adventurers from the Withered Cliff Thief Death Corps.

The members of Withered Cliff Thief Death Corps were all small fry in the Divine Wood Federation and did not have many ties to others.

Now that the Withered Cliff Thief Death Corps had been ruined, there would be no one left to call these two phones.

Su Yiren’s question had been right on the top of her tongue when Lin Yuan made his announcement.

Her eyes widened to the size of saucers at his prophetic abilities.

As a person of considerable status, Su Yiren was well aware of how terrifying the ability to read another person was.

Lin Yuan and Wen Yu’s all-knowing and all-powerful abilities cast a deep impression on Su Yiren.

She now knew that she could never lie to Lin Yuan because it would be futile.

If Lin Yuan knew what Su Yiren was thinking, he would be patting himself on the back for giving out his phone number.

In actuality, when Su Yiren formed a contract with the Corona Australis seat, Lin Yuan and Wen Yu had lost their access to Su Yiren’s memories.

Chapter 1229: Four Units of Top-Grade Strange Water

Lin Yuan had announced his phone number because he had seen from Su Yiren’s memories that she found a phone and wanted to ask for his number.

Additionally, he had already wasted too much time on Su Yiren.

The Astronomical Parliament could only be held for a limited time, and he could not dedicate it all to Su Yiren. He had to tend to Yin Lin, Ta Lei, and Bei Xu as well.

Lin Yuan turned back to Wen Yu.

Wen Yu’s lips moved slightly when she saw Lin Yuan looking at her.

From the shape of Wen Yu’s lips, Lin Yuan knew that there were only ten minutes left to the Astronomical Parliament.

Hence, he asked Yin Lin, “Yin Lin, let me know in advance about all the types of heavenly-maiden-grade elemental pearls you need so that I can prepare them.”

Yin Lin was in the Azure Federation and was going to enter the business of rare coral resources. She would need a mammoth number of heavenly-maiden-grade elemental pearls for this endeavor.

Dark Blue and the Island Whale were still growing in the Spirit Lock spatial zone and needed to continuously consume water-type heavenly-maiden-grade elemental pearls.

Thus, Lin Yuan needed to properly plan for Yin Lin's needs.

It would not do for Dark Blue's consumption of water-type heavenly-maiden-grade elemental pearls to affect Lin Yuan's trading.

When the last Astronomical Parliament parliamentary meeting ended, Yin Lin had calculated how many heavenly-maiden-grade elemental pearls she would need, and she planned on discussing it with Lin Yuan during this parliamentary meeting.

"Leo, the more water-type heavenly-maiden-grade elemental pearls I have, the better. I would like to stock up on 300 elemental pearls of each of the other types."

Lin Yuan was astonished by how many resources Yin Lin possessed.

There were four types of Elemental Shellfish. Yin Lin did not even know how much one water-type elemental pearl was worth, yet she was ready to trade for 900 elemental pearls with Lin Yuan.

In order to comprehend Willpower Runes, Dark Blue needed strange water the most.

Once Lin Yuan completed the trade with Yin Lin, he would be able to obtain a large amount of strange water that would enable Dark Blue's power to skyrocket.

However, Lin Yuan was not satisfied with the number 'as many as possible'.

There was still some time before Yin Lin arrived at the Radiance Federation.

If Lin Yuan stopped Dark Blue from consuming any more water-type elemental pearls, he would have more than enough time to collect 5,000 water-type heavenly-maiden-grade elemental pearls, given the Aquamarine Elemental Shellfish's current rate of production.

Would Yin Lin be able to transport all 5,000 water-type heavenly-maiden-grade elemental pearls?

"I have a considerable number of water-type heavenly-maiden-grade elemental pearls. State a number, and I'll set it aside for you. This way, I'll be able to use the rest of the water-type heavenly-maiden-grade elemental pearls as I need instead of leaving them all aside while waiting to trade with you."

Yin Lin immediately understood what Lin Yuan meant.

She carefully estimated the number of resources she had brought to the Radiance Federation and replied, "Leo, I would like to trade for 2,000 water-type heavenly-maiden-grade elemental pearls. I only brought four types of top-grade strange water with me on this trip, but I have a lot of high-grade and mid-grade strange water. According to my calculations and given the price at the Radiance Federation, I should be able to trade for a premium rate of an additional 12%, bringing the number to 2,900 heavenly-maiden-grade elemental pearls."

Lin Yuan's eyebrow twitched wildly.

The Azure Federation truly lived up to its position as one of the three great federations, and Yin Lin was truly an Azure Envoy!

The Yin family also lived up to their title as one of the 12 great Azure families. They had so many resources that they could even offer four types of top-grade strange water at once!

Even if Lin Yuan used all his means, it would be difficult for him to obtain resources such as top-grade strange water and strange flames without asking the Moon Empress for help.

Once a faction obtained resources such as strange flames, strange water, and marsh soil, they would never let it out of their hands unless it was absolutely necessary.

If Yin Lin could offer four types of top-grade strange water at once, it also proved her rank within the family.

It could also be said that this trade with Lin Yuan was exceedingly important to Yin Lin.

Although Lin Yuan was uncomfortable with trading at a premium like Yin Lin said, he was not obligated to provide the additional 12% of heavenly-maiden-grade elemental pearls either.

If he did so, Yin Lin would feel awkward as well.

However, Yin Lin assumed that she would be trading for regular heavenly-maiden-grade elemental pearls when actually, all the elemental pearls that Lin Yuan was going to give her would either be Cloud Dream Lake or Defined Life elemental pearls.

As such, their price would be far beyond the market premium rate.

The thought that in a few days, the Spirit Lock spatial zone would be filled with piles of elemental pearls made Lin Yuan feel extremely satisfied. He reveled in this feeling of owning a stock of resources.

Ta Lei and Bei Xu had no idea what the top-grade strange water and heavenly-maiden-grade elemental pearls were.

They were in no position, nor did they have the ability to come in contact with such resources.

However, Su Yiren was different. She was utterly dumbfounded by this trade of four sets of top-grade strange water and 2,900 heavenly-maiden-grade elemental pearls.

There were very few trades of such magnitudes even amongst the seven federations of the Dark Continent.

One thought filled Su Yiren's mind.

Where did the people in the Astronomical Parliament come from?

During her last visit, she had realized that this meeting was an effect of a sacred source lifeform's ability.

The person who conducted the meeting had to be outstanding to own a sacred source lifeform in the first place. However, everyone who entered the Astronomical Parliament should be pathetic creatures who needed to sell themselves to the Astronomical Parliament in order to save themselves.

So how could one of these people be able to offer four sets of top-grade strange water?

Su Yiren's heart pounded wildly.

The trade between Lin Yuan and Yin Lin allowed her to see hope for the Seven States of Darkness' futures.

Lin Yuan turned to Ta Lei and asked, "Ta Lei, how is the situation in your tribe?"

Ta Lei hurriedly knelt and raised both hands up toward Lin Yuan and said, "Teacher, thank you for teaching me and enabling me to become a Class 1 Creation Master. Everything is fine with the Horseshoe Tribe. As per your suggestion, we've started traveling toward the boundary between the Iron Hammer Federation and Divine Wood Federation."

A strange look came over Lin Yuan when he heard Ta Lei address him as 'Teacher'.

It was not he who had taught Ta Lei but Genius. Thus, Genius should be the one Ta Lei should be calling Teacher

Chapter 1230: Plan to Request for Territory

Now that they were on a clock, Lin Yuan did not correct Ta Lei. He was very happy that the Horseshoe Tribe had listened to his suggestion.

Once they arrived at the boundary between the Iron Hammer Federation and Divine Wood Federation, it would be much easier for him to communicate with them. After all, he had hopes of establishing himself in the Iron Hammer Federation through the Horseshoe Tribe.

Just as he was about to ask Bei Xu about how he had been of late, Ta Lei suddenly said, "Master, now that I'm a Class 1 Creation Master, I can request territory for my tribe from the imperial court. If you have any piece of land to your liking, let me know, and I will request it. The area at the boundary is considered unimportant by the royal capital. I'll be able to request for a larger piece of land there."

Lin Yuan immediately became excited.

He was building the underground base at the boundary between the Divine Wood Federation and Iron Hammer Federation. The area was remote, but it still experienced footfall.

If Ta Lei could truly obtain a territory at the boundary between the Iron Hammer Federation and Divine Wood Federation, the Horseshoe Tribe would become the first line of defense for his underground palace.

Lin Yuan wanted the sea of bone lotus flowers to form a restricted area that would attract adventurers from all over the Startling Lines Continent.

Once he put his plan into action, it would progress quickly due to the gathering of many adventurers.

As he continued thinking, Lin Yuan asked Ta Lei, "How likely do you think that the Horseshoe Tribe will be allowed to take over all the land at the border of the Iron Hammer Federation and Divine Wood Federation?"

Ta Lei's jaw dropped in shock. Such a scenario had never crossed his mind.

The border between the Iron Hammer Federation and Divine Wood Federation was a huge area where there was even more than enough space to build a city.

However, this area was also extremely dangerous.

The Divine Wood Federation and Iron Hammer Federation were always at odds. There were also many occurrences of deadly fights between warring merchant groups from the Great Lush Federation.

This was why no tribe from the Iron Hammer Federation had settled in that area.

Ta Lei had dauntlessly led the entire Horseshoe Tribe to the border because Lin Yuan had suggested he do so but also because he considered Lin Yuan as his teacher and trusted Lin Yuan explicitly. As long as Lin Yuan ordered him to move, Ta Lei would advance fearlessly.

As a Class 1 Creation Master, it might be possible for him to obtain a territory with a radius of 10 kilometers. But in order to request for the entire border, he would have to be a Class 4 Creation Master at the very least because every major city in the Iron Hammer Federation was built around Class 4 tribes.

In the major cities of the Iron Hammer Federation, Class 4 tribes held absolute power.

Ta Lei could not fulfill Lin Yuan's interest. He pouted in self-disappointment.

"Teacher, if you want the entire border between the Iron Hammer Federation and Divine Wood Federation, you might have to wait a long time. My grandfather says that Class 4 Creation Masters are all a bunch of old men."

Now, Lin Yuan knew the requirement for owning the entire border between the Divine Wood Federation and Iron Hammer Federation.

When Liu Jie had used the Hurricane Owlet Moths to survey the area, they flew up into the sky to get a bird's eye view of the area. They had discovered that the Iron Hammer Federation's area cut into the Divine Wood Federation's area like a needle.

Lin Yuan's underground palace was situated within the needle. Essentially, his territory was at the crux of the link between the Divine Wood Federation and Iron Wood Federation.

If this crux could be recognized by an official that it belonged to Ta Lei, Lin Yuan would definitely seize the opportunity. This would save a significant amount of trouble for Lin Yuan.

Naturally, Lin Yuan could not place his hopes on Ta Lei to become a Class 4 Creation Master.

It was not that Lin Yuan did not have the ability to turn Ta Lei into a Class 4 Creation Master but that he would not do so.

If a 9-year-old Class 4 Creation Master appeared, it would shock the entire Startling Lines Continent. It was likely that the Divine Wood Federation would send many experts to kill Ta Lei.

This would put Ta Lei in danger.

Lin Yuan's Class 4 Creation Masters consisted of Master Hong Shen, Hu Tian, Elder He, and Feng Shuang.

Any of these Class 4 Creation Masters could contract a fey that would take on a human form and announce itself as Ta Lei's teacher. This would be enough for the imperial court to grant the territory.

Creation Masters' skills lay in their abilities to nurture feys, evolve fey qualities, and heal feys and wounded roots. As such, it was difficult to identify a Creation Master based on appearances.

Frankly, if Lin Yuan stepped in personally and brought Genius along with him, the imperial court would likely also believe that he was a Class 4 Creation Master.

There were many Scholars in the Great Lush Federation. Hence, there were many more Creation Masters in the Great Lush Federation than there were in the Iron Hammer Federation.

There were many high-class Creation Masters from the Great Lush Federation who traveled to the Iron Hammer Federation and Divine Wood Federation to expand their influence.

Although the Divine Wood Federation and Great Lush Federation often attacked and stole from the merchants from the Great Lush Federation, they always welcomed the Creation Masters with open arms.

Due to the lack of Creation Masters in the Divine Wood Federation and Great Lush Federation, the value of Creation Masters was a widely-accepted fact.

A high-class Creation Master's family or tribe would be able to take on the expansion of their family and lead in increasing their powers.

A plan took shape in Lin Yuan's mind. However, he felt no need to tell Ta Lei of his plan yet.

"Ta Lei, let's discuss the territory again once you reach the boundary between the Iron Hammer Federation and Divine Wood Federation."

Wen Yu motioned to Lin Yuan that there were only two minutes left till the Astronomical Parliament parliamentary meeting ended.

Lin Yuan hurriedly turned to Bei Xu.

Bei Xu had just started putting his plan into action in the subterranean world and had many things to tell Lin Yuan.

Yet, now was the only chance he had to speak with Lin Yuan.

Unfortunately, Lin Yuan denied Bei Xu that chance and used the remaining two minutes to use Star Spirit Seat to transfer a resource that he felt Bei Xu would need in the subterranean world.

This resource was the Sunlight King Lotus.

Bei Xu's spirit qi professional rank was stuck at its current level, and Lin Yuan could not transfer any more spirit fluid to him to increase his fey's power.
