

## Merchant 1421

### Chapter 1421: The Truth Revealed

The Flesh-Mincing Blade Insects cleaved wood from the plant-type fey's body until it was reduced to a tree core.

Before the ladybug was struck to the ground by the Hurricane Owlet Moths, a Diamond X/Fantasy V Lightning Gathering Moths and a Diamond X/Fantasy V Plasma Caterpillars emerged from the spatial rift.

The Plasma Caterpillar spat out a blinding purple spurt of plasma. The purple plasma gathered together to shoot out a bright beam of plasma.

The plasma shot through the ladybug and was reduced to ashes just like the tree castle had been.

The people from the Profit Source Chamber of Commerce and two experts from the Ding family only watched silently while Liu Jie attacked the three Diamond/Fantasy feys from the Deep Freeze Chamber of Commerce. None of them made any move to help.

This battle that involved hundreds of Diamond/Fantasy feys made everyone present look at Lin Yuan's group with fear.

Lin Yuan made a beeline for the Sincere Merchant Group.

Lin Yuan said to the astonished Song Dingzhen, "I think the Deep Freeze Chamber of Commerce will probably be willing to talk to me calmly now. I wonder how much money you've made by killing merchant groups over the years?"

Song Dingzhen's expression changed abruptly when she heard what Lin Yuan said. The people watching also changed the way they looked at the Deep Freeze Chamber of Commerce.

The Deep Freeze Chamber of Commerce had the best welfare for merchant groups among all the chambers of commerce in Oak City.

They provided free food and lodging as well as a stipend of 2,000 metal coins. This earned them the gratitude of many chambers of commerce.

But recently, there had been continuous news of merchant groups disappearing in Oak City, and all the evidence suggested that the Deep Freeze Chamber of Commerce was involved.

But due to the might of the Deep Freeze Chamber of Commerce, no one dared to voice their suspicions for fear of making an enemy of the Deep Freeze Chamber of Commerce.

However, Lin Yuan's words caused all their suspicions to bubble to the surface as he clearly pointed out all of the Deep Freeze Chamber of Commerce's wicked deeds. Could this be the truth behind why the Deep Freeze Chamber of Commerce had been set on fire?

Zhuang Bei and the middle-aged woman frowned.

The Profit Source Chamber of Commerce's main location of business was Sacred Forest City.

They had only opened the branch in Oak City a little over a year ago. They had no idea what Song Dingzhen had been up to in the shadows.

However, news of the Profit Source Chamber of Commerce and Deep Freeze Chamber of Commerce's collaboration had already been made known to the public.

If the Deep Freeze Chamber of Commerce had really killed merchant groups and stolen their money, the Profit Source Chamber of Commerce would be seen as complicit even if they had not participated.

Chambers of commerce relied on merchant groups just as much as merchant groups relied on them.

If it was proven that the Deep Freeze Chamber of Commerce had indeed killed merchant groups in cold blood, the Profit Source Chamber of Commerce would also be feared and hated by the other merchant groups. This would lead to their reputation taking a hit and affect their development.

It went without saying that Song Dingzhen could not admit to Lin Yuan's accusation.

Everything became clear to Song Dingzhen when she saw Lin Yuan walk over to the Sincere Merchant Group. He had to be the person who instigated the Sincere Merchant Group to retaliate and gave them experts. These experts were the ones who killed the person the manager sent out and set fire to the tree castle.

Song Dingzhen immediately shouted, "Tell me! Which chamber of commerce are you from? You have no evidence. How dare you besmirch the Deep Freeze Chamber of Commerce's name? Do you think people will believe you? Everyone knows that merchant groups receive the best treatment from us!"

Lin Yuan ignored Song Dingzhen. Instead, he said to Mr. Zhao, "Why don't you tell us how the Deep Freeze Chamber of Commerce stole resources from merchant groups and killed them to prevent the truth from getting out?"

Mr. Zhao had been holding himself back. He had not dared to speak his mind, nor was he given the opportunity to.

But now that he had Lin Yuan's support and had seen the power of Lin Yuan's retainer, all the terror that Mr. Zhao felt toward the Deep Freeze Chamber of Commerce vanished and was replaced by endless fury.

Mr. Zhao took a step forward and looked at the manager behind Song Dingzhen as he said, "Manager Diao, I'm sure you remember me. The Sincere Merchant Group came to Oak City to trade the 10 Silver Item-Storing Walnuts and 15 Bronze Item-Storing Walnuts. It should only take half a day for a chamber of commerce to process these resources. Yet, Diao Yun did not respond to us even after a full day passed.

"So, I led the members of the Sincere Merchant Group to the Deep Freeze Chamber of Commerce to see Manager Diao. According to the regulations, the maximum number of members from a merchant group allowed to enter is two.

"However, this time, the attendants not only did not stop us but even sent a king-class expert to take us to the eighth floor to massacre us. It won't be difficult to prove my side of the story. I am fully aware of

everything that was inside the 10 Silver Item-Storing Walnuts and 15 Bronze Item-Storing Walnuts. These Item-Storing Walnuts should be with Vice President Song instead of Manager Diao. One look and the truth will be unveiled.”

Song Dingzhen and Manager Diao’s expressions fell. Song Dingzhen was rendered speechless because it was true that she had the Item-Storing Walnuts.

At that moment, the tension of the scene had reached a peak, and the sounds of discussion from the crowd climbed to a fervor.

The two experts from the Ding family shared a look before one of them stepped up and said to Song Dingzhen, “The Ding family will look into this matter and provide a report. For now, leave so you won’t affect the city’s daily life,”

Song Dingzhen let out a breath of relief.

The Ding family could be regarded as the leader of Oak City, and both entities’ development was interlinked.

The Deep Freeze Chamber of Commerce was one of the most important chambers of commerce in Oak City. It would be a significant blow to Oak City’s finances if they fell. Hence, Oak City needed the Deep Freeze Chamber of Commerce to continue existing.

As long as she could provide the Ding family with enough benefits, they should be willing to cover up this incident for her. After all, the evidence was still lacking to pin her as the culprit who murdered the merchant groups.

#### **Chapter 1422: You Have No Right to Demand an Explanation From My Young Master**

The moment the expert from the Ding family finished speaking, the clear voice spoke again. “If the Ding family wants to investigate, you can do so right now. You don’t have to wait until later to produce a report.”

The Ding family’s expert glared at Lin Yuan and sneered. “You set the Deep Freeze Chamber of Commerce’s tree castle on fire for no good reason. Your feys also killed three of the Deep Freeze Chamber of Commerce’s Diamond/Fantasy feys and injured the three king-class experts. You need to provide the Ding family with an explanation.”

Liu Jie snapped, “Provide the Ding family with an explanation? What gives you the right to demand an explanation from my Young Master? Do you think you can go around lording over everyone just because you’re from a Class 4 Creation Master family?”

The Ding family’s expert’s words had been a warning to Lin Yuan not to dwell on the matter any further.

However, Liu Jie’s words had completely smashed any hope of taking the soft approach. His words did not carry a shred of respect for the Ding family and had essentially been a slap across their faces.

The two experts from the Ding family were enraged by what Liu Jie said and readied themselves to summon their feys.

At that moment, two balls of fire materialized in front of the two emperor-class experts from the Ding family.

The two emperor-class experts felt their limbs turn as cold as ice and cold sweat soaked through their clothes almost immediately.

The two balls of fire could burn all of them to ashes, and it would be of no help even if they summoned their feys.

This meant an unbelievably strong expert was next to the young man dressed in black. Moreover, the retainer had essentially snubbed a Class 4 Creation Master family.

This expert's strength and the attitude that Liu Jie had toward Class 4 Creation Master families made the two experts from the Ding family aware that this young man could not be crossed.

The Lu family was considered in the upper echelon of the Great Lush Federation's secret elite families.

From the way that the young man dressed in black did not hold back against the Deep Freeze Chamber of Commerce, it meant that he couldn't care less about the Lu family or their power. This indicated that he was from one of the true top elite families in the Great Lush Federation.

The two emperor-class experts immediately realized that they could only try to stay on the young man's good side and make sure they did not offend him.

Even if the retainer had already shown that he did not care about leaving any of the Ding family's pride for them, the two emperor-class experts were also unwilling to let the Ding family show their weak side during such a situation. Once the Ding family allowed themselves to act submissively, they would lose the iron grip they were holding over Oak City.

When the two emperor-class experts did not respond, Song Dingzhen became anxious and said, "Lord Ding Jian, Lu Kun came to Oak City on behalf of the Lu family. However, he went somewhere and has not returned. Once he's back, we will definitely offer you a satisfactory response. As for these people that dared to say such contemptuous words about the Ding family, you should teach them a lesson!"

After what Song Dingzhen said, Ding Jian could no longer back down.

At that moment, the young man's voice rang out again. "Is the Lu Kun you're referring to a fat man? He tried to kill me, so I killed him. Then, the Deep Freeze Chamber of Commerce tried to kill one of the merchant groups under me and is now refusing to admit to the crime. If that's the case, let's lay everything out now."

When Song Dingzhen heard what Lin Yuan said, her face changed. She would never have expected Lu Kun to be dead.

Song Dingzhen screeched, "You killed Lu Kun! The Lu family will never forgive you for this!"

Song Dingzhen's response was hysteric, but she did not refute what Lin Yuan said. In a way, she admitted to what Lin Yuan had said.

Every person present turned to look at Song Dingzhen with disdain.

At that moment, the two balls of fire turned into two flaming snails. The two snails stood on both sides of the people from the Deep Freeze Chamber of Commerce. They spewed out a river of lava that burnt the members of the Deep Freeze Chamber of Commerce to nothing.

With this river of lava, the matter was settled.

Lin Yuan preferred to be discreet, but this did not mean that he was averse to grand displays.

Currently, the crowd was looking at Lin Yuan as though he was a god. However, he ignored their gazes and said to the Sincere Merchant Group members, "Go and find a place to rest. We can talk later."

Lin Yuan led Little Flower into the crowd.

Now, the only thing he had left to do on this trip was to go and see Su Yiren. Then, he intended to return to the Prosperous Chamber of Commerce to find another source of support for the Sincere Merchant Group.

The Deep Freeze Chamber of Commerce's Oak City branch had been destroyed, and Lin Yuan needed another reliable source of resources.

The best option would be the Prosperous Chamber of Commerce.

Li Wan was both marveled and shocked by the sight of Lin Yuan's back.

Previously, she had assumed that he was just a direct descendant from one of the wealthier secret elite families. But now, it seemed that there was more to him than met the eye.

The direct descendant of a secret elite family couldn't have such powerful guards.

Li Wan had seen Little Flower before. Although Li Wan did not know who the boy that Liu Jie was holding hands with was, Lin Yuan's grandiosity could be seen from the fox fur cloaks that the children were wearing.

Before this, Li Wan had been hesitating. But now, she was certain that she wanted to establish a long-term working relationship with Lin Yuan.

However, she had no clue if he would be willing to work with her.

She decided that she would first make preparations to welcome Lin Yuan when he returned to the Prosperous Chamber of Commerce.

Zhuang Bei had already internally insulted the Deep Freeze Chamber of Commerce six ways to Sunday.

He could no longer remain in Oak City.

Zhuang Bei prepared to leave Oak City at once to report the situation to his family.

The two emperor-class experts from the Ding family drove the crowd away before returning to report to the Ding family with troubled expressions. They told the head of the Ding family in detail about what had happened.

None of the emperor-class experts could decide on their own how to proceed or address Lin Yuan.

In the Divine Wood Federation, Class 4 Creation Master families had been offending the wrong people and getting themselves killed.

The Ding family could not allow themselves to become the next one.

After Ji Feng sent the Prior Decree Sleeping Lotus to Oak City, it had been protecting Su Yiren from the shadows.

Su Yiren was in an abandoned area that was in the opposite direction from where Little Flower and Little Grass lived.

Lin Yuan did not use the Ethereal Jellyfish's Node Transportation this time. Instead, he summoned Blackie and rode off with Liu Jie, Ji Feng, Little Flower, and Little Grass on Blackie's back.

To the shock of the people on the street, Blackie took to the air and flew off in the direction of where Su Yiren was.

### **Chapter 1423: The Hopeless Su Yiren**

At the center of Oak City...

All the chambers of commerce and the native elites, including the Ding family, were startled by the way Lin Yuan had slaughtered the members of the Deep Freeze Chamber of Commerce.

The heads of the major factions immediately started discussing a plan of action. They were torn between investigating Lin Yuan's background to get acquainted with him and leaving him alone to save themselves from potential trouble.

However, anything that happened in the center of Oak City did not affect its slums.

When Su Yiren first came to the Divine Wood Federation, she had moved around the center of Oak City. However, she had been humiliated daily for being a homeless person. She had been attacked by the elites daily because they had been annoyed by the sight of her. The injuries she had sustained were so serious that she had almost lost her life.

At that moment, she had entered the Astronomical Parliament and gained Lin Yuan's help. When she woke up, all her injuries had healed. This was what gave her the will to carry on living.

The cruel treatment she received at the center of Oak City was what made her realize that she was unsuited to life there. Hence, she moved herself to the slums.

The elites of Oak City cared too much about their status to step foot in the slums.

The only people Su Yiren encountered in the slums were homeless people like her.

Technically, in a lawless place like the slums, where it was the survival of the fittest, life was much more dangerous than in the center of the city. But it was here that Su Yiren found a way to continue surviving.

The first thing that Su Yiren did when she arrived in the slums was to cover herself with dirt to the point that she was completely unrecognizable.

Su Yiren was not a short person. She was about 1.67 meters tall.

She also stuffed any fallen leaves she could find into her clothes to make her seem stockier.

This made her unappealing to any scavengers.

However, the quiet days did not last for long.

In order to survive while she waited for Lin Yuan to come and save her, she did everything she could to scavenge.

Many of the people in the slums were scavengers.

Su Yiren had managed to find many edible things over the last few days and had even found a usable phone.

However, no matter how discreet she was trying to be, she still ended up being targeted by the other scavengers.

She had not dared to sleep recently. Even if she was on the brink of exhaustion, she only dared to close her eyes to slits. This was because she had been attacked by a male scavenger with a long dagger when she was resting a few days ago.

Luckily, she had scattered many leaves around her that would cause a din when they were met with the slightest contact. The noise had awoken Su Yiren.

Nonetheless, she was still a step too late.

Luckily, she had undergone special training and managed to use her hand to block the dagger.

During the tussle, Su Yiren's training had been a key factor. After exerting a large amount of effort, she killed the man and looted his long dagger.

After gaining the long and rusty dagger, she sharpened it on several sharp stones she had found and turned the non-lethal dagger into a weapon for killing.

At first, Su Yiren had been full of hope.

But when the Astronomical Parliament's parliamentary meeting did not occur as per schedule, Su Yiren's eyes were blurred by a layer of gray mist. Regardless of whether the sun was shining, the despairing Su Yiren could only see in gray.

After fighting for survival in the Divine Wood Federation for such a long time, Su Yiren was able to guess when she would fall unconscious from the agonizing pain in her soul.

She timed herself and attacked those who had targeted her with the long dagger. This was because she knew she would be immobilized and that even a child would be able to take her life when she was in the middle of one of her painful fits.

For the sake of self-preservation, even a high and mighty Dark Envoy like Su Yiren would have to obey the law of the jungle that presided over the slums.

She had used the last breath she had in her as she waited for the next parliamentary meeting and the long dagger to solve many of her immediate dangers.

However, there was a scuffle where she used her left shoulder to block the attack from a scavenger's hammer.

Since her soul was injured, she could not store items and could only physically carry around the items she had scavenged.

Su Yiren placed the phone that was the manifestation of all of her hopes over her heart.

However, that scavenger turned out to have decent combat skills.

When Su Yiren used her left shoulder as a shield, he changed the direction of his hammer swing and brought it down on her chest. The hammer directly hit where the phone was.

Besides feeling as though the blood in her chest was going to burst out, she had no other injuries.

The scavenger that had attacked her allowed Su Yiren to find the opportunity to plunge the dagger into him, thereby ending his life.

However, the hammer had smashed all of Su Yiren's remaining hope.

Su Yiren felt that even if the next parliamentary meeting took place as per schedule, the shining person would not be able to find her even if he had come to Oak City because he had no means of contacting her.

Ever since her phone was smashed, Su Yiren had been living a life no different from that of a walking corpse.

She spent each day using the dagger and her skills to protect herself.

During the battles, she was lucky if she could come out of them with light injuries. But if she was unlucky, it was also common for her to end up with bleeding wounds and fractures.

The new wounds overlapped with the old ones, and she felt as though the pain in her body was practically no different from the pain in her soul.

Her hand had suffered the most. The long dagger had punctured it, and she often used it for both offense and defense during battle. Hence, it had not had the chance to heal at all.

Su Yiren's left hand soon swelled to three times its original size in such a dirty environment full of flesh-biting insects.

The most arduous time in the slum was nightfall.

At that moment, Su Yiren had just overcome another fit from her soul injury, and her mind was exceptionally clear.

She saw her younger self back when the Seven States of Darkness was flourishing. She could even remember the celebration when she became a Dark Envoy.

Su Yiren felt unbelievably tired. This exhaustion was too much for her body.

She sensed her injuries and smiled bitterly as she said, "I don't think I'll be able to hold on until the next gathering of the constellations."

#### **Chapter 1424: Su Yiren's Rescue**

At this moment, Su Yiren heard the rumble of footsteps coming from afar. The sound was stable and not rushed. It resembled the sound of a prince leisurely strolling in his garden.

Su Yiren immediately became nervous.

From the footsteps, Su Yiren knew that more than one person was approaching.

It was already a struggle for her to fend off one person, much less multiple people.

She sighed to herself and stood up without picking up the dagger.

Su Yiren lowered her head. Instead of looking ahead, she quietly stared at her feet.

*Perhaps after my death, I'll turn into a pile of dirt like the ground like the Dark Federation.*

When Su Yiren reached a breaking point and decided to free herself in death, a pair of shoes with clouds embroidered on them entered her vision.

This pair of white shoes stunned Su Yiren because such shoes should never appear in the slums.

At that moment, she heard a clear voice say from above her, "If you can still pick up the long dagger, don't leave it lying on the ground."

Su Yiren's eyes widened when she heard the voice. Her eyes shone with unspeakable delight, and the gray mist was replaced with a kaleidoscope of color.

Her head snapped up, and her gaze met with a pair of kind black eyes.

She had heard Lin Yuan's voice during the Astronomical Parliament's parliamentary meeting, and the voice had occupied many of her dreams in the following days.

Now that she was hearing it again, she felt as though both her soul and body had been saved.

She once had hope, but it had been slowly chipped away until all she was left with was desperation. But now that she could see the light at the end of the tunnel again, she felt as though she had just been reborn.

Su Yiren struggled to get to her feet before Lin Yuan landed. However, every part of her body was in bad shape, and she was unable to stand.

After struggling for some time, she ascertained that she would not be able to climb to her feet. Despite her pain, Su Yiren gripped the long dagger with her right hand. It seemed she had something to say to Lin Yuan but could not muster her strength.

Little Flower and Little Grass had also lived in a slum and had encountered their fair share of injured scavengers.

After Little Flower saw Su Yiren, she instinctively wanted to tug at the leaves on her body. However, when her hand touched her clothes, she realized that she was no longer wearing clothes woven from leaves but from brocade. Moreover, her clothes had been woven by Lin Yuan.

Little Grass held Liu Jie's hand tightly as he looked between Lin Yuan and Liu Jie. It seemed that he wanted to speak but was struggling to do so.

Little Grass looked at Little Flower with pleading eyes.

Liu Jie noticed Little Flower and Little Grass' reactions.

Lin Yuan and Liu Jie were happy but shocked at the same time.

Little Flower and Little Grass had been living in a harsh environment. They were family, and it was to be expected that they cared about each other. However, they were even compassionate and empathetic toward scavengers.

This was a rare virtue of existing in such a cruel environment.

They must have received help from kind people during their time in the slum.

However, the kindness and empathy they received had already been scrubbed away by the wickedness of life.

Lin Yuan calmly gazed at Su Yiren's face. Her face was swollen and covered with dirt to the point that he could no longer make out her true features. To put it in a cruel yet truthful way, she looked pathetic.

He looked at the Prior Decree Sleeping Lotus. The Prior Decree Sleeping Lotus noticed Lin Yuan's gaze and said, "Lord, I don't have the ability to heal injuries of the flesh. When I found this place yesterday night, her injuries were already this serious. In order to make sure she made it until you arrived, I even got rid of some of the scavengers that were targeting her. Otherwise, she would have died last night."

Lin Yuan nodded and shook his hand. A green beam landed on Su Yiren's body.

With Lin Yuan's treatment, Su Yiren's injuries quickly healed. Now that she was fully healed, she literally became smaller. This proved how serious her swelling had been.

She was about to stand up when her soul injury sent her into another fit. She let out a grunt of pain, curled up, and started trembling.

Lin Yuan said to Ji Feng, "Ji Feng, tell the Prior Decree Sleeping Lotus to try and heal her soul injury. Her soul injury is linked to her almost-dead sacred source lifeform, so it might be difficult to heal her."

When Ji Feng heard what Lin Yuan said, he immediately ordered the Prior Decree Sleeping Lotus to plant a soul seed in Su Yiren's soul.

Once the soul seed entered Su Yiren's soul, Ji Feng and the Prior Decree Sleeping Lotus' expressions turned into ones of shock.

They realized that Su Yiren's soul was cracked all over. An unknown and slightly withered plant was at the center of her soul.

The soul power from the soul seed activated the plant and caused its roots to move away gently.

The Prior Decree Sleeping Lotus immediately exploded the soul seed and used the energy from the soul seed to nourish Su Yiren's soul. It completely ignored how much soul energy was being used up.

This nourishment caused Su Yiren to slowly stop trembling. However, the pain was still causing her to sweat profusely. Nonetheless, she could endure this level of pain.

It was not difficult for the Myth III Prior Decree Sleeping Lotus to use one soul seed.

The Prior Decree Sleeping Lotus planted and exploded six consecutive soul seeds in Su Yiren.

Soon, Su Yiren's injury became mostly healed. Alas, the plant did not show any signs of recovery.

The Prior Decree Sleeping Lotus used energy from its soul, not true soul power. The plant needed a large amount of vitality and soul power to heal. The Prior Decree Sleeping Lotus did not have these.

Hence, it said to Lin Yuan, "Lord, her soul is 80% healed. But in order to fully heal it, we need to heal her sacred source lifeform. This will require a large amount of vitality and soul power. What do you think we should do?"

#### **Chapter 1425: Revived Absolute Love Poppy**

By now, Su Yiren had managed to stand up.

She looked at Lin Yuan silently for a moment before bowing to him with determination and said, "Lord, from now on, I'm one of your subordinates. Feel free to let me know if you need me to do anything. My name is Su Yiren."

Su Yiren's words took Lin Yuan by surprise. He had assumed that it would be difficult for her to change her attitude immediately and would need to be straightened out after joining the Astronomical Parliament, given her status as a Dark Envoy.

Yet, she surprised him and even addressed him as 'Lord'.

But since she had prostrated herself, Lin Yuan did not hold back.

Since Lin Yuan had obtained the Island Whales' brain oil, he had no lack of items that contained soul energy.

When it came to items that contained vitality, Lin Yuan had the Lifeform Sacrificial Fire and the Jasmine Lily that could produce vitality.

The Lifeform Sacrificial Fire was a fire-type precious good and could be used as a plant-type fey's tree core. It could be used to revive plant-type feys.

Using the Lifeform Sacrificial Fire to heal Su Yiren's plant-type sacred source lifeform was possible. However, he was unwilling to use his only Lifeform Sacrificial Fire.

The Jasmine Lily was only Platinum/Fantasy. The vitality it produced would not be sufficient to heal Su Yiren's sacred source lifeform.

However, Lin Yuan preferred to use the vitality inside the Vitality Imprint than use the Lifeform Sacrificial Fire.

The last time Lin Yuan used the Jasmine Lily's Vitality Imprint was when he saved the Mother of Bloodbath.

A week had passed since the Mother of Bloodbath had become a Heavenly Family Fey.

During the past week, a significant amount of vitality had been stored up in the Vitality Imprint.

Lin Yuan opened the Vitality Imprint, and a large green lotus appeared on his forehead. A wave of vitality flowed over his entire body and turned his skin light green.

He took out the smallest piece of Island Whale's brain oil and tossed it to the Prior Decree Sleeping Lotus.

Next, he placed his palm on Su Yiren's head and injected warm vitality into her.

The Prior Decree Sleeping Lotus hurriedly directed the Island Whale's brain oil into Su Yiren. Then, it continued to explode soul seeds and used the power of its soul to increase the plant-type sacred source lifeform's rate of absorbing the soul power.

Su Yiren's sacred source lifeform absorbed the soul power from the Island Whale's brain oil while absorbing the vitality that Lin Yuan was injecting into Su Yiren.

After exploding more than ten soul seeds, a red and green leaf grew out of the roots of the plant in Su Yiren's soul.

More leaves started growing, and they extended until the color changed from green to bright purple.

There was also a small green bud nestled amongst the leaves. The bulb grew until it was about the size of a palm and turned pretty pink.

The large pink bud slowly bloomed into a beautiful flower.

The Prior Decree Sleeping Lotus and Ji Feng had been closely watching Su Yiren's soul, and both looked mesmerized. It was as though both the male Prior Decree Sleeping Lotus and Ji Feng, who was a spirit qi professional had suddenly fallen head over heels for Su Yiren.

When Su Yiren realized this, she hurriedly took control of the beautiful blooming flower. Ji Feng and the Prior Decree Sleeping Lotus snapped out of their trance.

Since Lin Yuan had only injected vitality into Su Yiren and had not checked on her soul, he was unaffected by the Absolute Love Poppy.

This was the reason he could not help but be shocked by the strength of Su Yiren's sacred source lifeform when he saw the expressions on Ji Feng and the Prior Decree Sleeping Lotus' faces.

When the Jasmine Lily was healing Su Yiren, the vitality had entered her bone marrow. As such, Lin Yuan knew that Su Yiren was around 26 years old. She was only around 2 years older than Zong Ze, Gu Lang, and An He.

Given her age, Su Yiren's sacred source lifeform could only be 4 to 6 Stars.

Su Yiren's sacred source lifeform was able to affect the pinnacle emperor-class expert Ji Feng and the pinnacle Myth Breed Prior Decree Sleeping Lotus unknowingly. This showed how strong the sacred source lifeform was.

This was the first time that Lin Yuan had encountered an ability that could produce love. It could be considered a powerful controlling ability that was similar to Fei Qianqiong's Mind-Controlling Silkworm Gu.

However, this controlling method that utilized love was much stronger than that of the Mind-Controlling Silkworm Gu.

Lin Yuan felt that the Absolute Love Poppy's ability was very suitable for the job he was going to assign to Su Yiren.

Ji Feng instructed the Prior Decree Sleeping Lotus to heal Su Yiren while he stared at Su Yiren warily. He was afraid that she would use the plant-type sacred source lifeform to control or endanger Lin Yuan.

However, there was no need for him to be worried.

After Su Yiren was healed, she immediately swore on a Willpower Rune to become loyal to Lin Yuan.

Su Yiren's thought process was clear. Lin Yuan had saved her, and she had already promised to become loyal to him during the last Astronomical Parliament's parliamentary meeting.

As a Dark Envoy, Su Yiren was very discerning. She knew that Lin Yuan had used the Island Whale's brain oil to heal her.

From this, she could tell that Lin Yuan was not a stingy person. Hence, she felt that the best way she would become useful in Lin Yuan's eyes would be to use her attitude.

Now, all of her wounds were gone.

Previously, she had been unable to summon her feys because all her four feys were linked to the Absolute Love Poppy. When the Absolute Love Poppy was in a near-dead state, she could not summon her other feys either.

But now, she was finally able to summon her own feys to protect herself. She could now regain all the confidence she had lost.

Lin Yuan expected but also did not expect Lin Yuan to swear her loyalty immediately to him after she recovered.

Nonetheless, he could tell that Su Yiren was a smart person, and it did not require much effort to communicate with a smart person.

### **Chapter 1426: The Ubiquitous Flower Branch Mouse**

Although Su Yiren's flesh and soul, as well as the Absolute Love Poppy, had been completely healed, she was still covered with dirt and dried blood.

When the vitality healed all her injuries, the infected cells quickly died and were discharged as pus. Thus, she was sticky all over, and her clothes seemed to be stuck to her body.

Moreover, the sticky substances had a foul smell that even caused Su Yiren to wrinkle her nose in disgust.

She instinctively took a few steps back to put space between her and Lin Yuan as she was afraid that Lin Yuan would get a whiff of her odor.

Lin Yuan raised an eyebrow and said, "You probably want a shower badly now. Coincidentally, we're going to the capital to find a tree castle. You can help to bathe these two children as well. Once you're all clean, we can have a chat."

Su Yiren hurriedly nodded.

She did not swear her loyalty to Lin Yuan because she had lost all her pride after struggling to survive in the Divine Wood Federation but because she was resigned to her circumstance and decided to make the best choice for her future.

It would be too unreasonable to expect her to talk to Lin Yuan while she was still covered with dirt.

Su Yiren was touched that Lin Yuan was able to interpret her body language to learn how she was thinking and offer gestures that were for her benefit.

She would not find it torturous to work under such a person.

Just as Su Yiren was about to thank him, she heard a chattering noise.

A small mouse popped out of the pile of leaves near Su Yiren. It looked around furtively.

Once it was certain that it was far enough from Lin Yuan and the rest, it raised the broken twig it had just picked up.

Lin Yuan's eyes lit up when he saw the mouse. It looked exactly like the one he had seen when he first arrived at the Divine Wood Federation.

The amber-button-shaped Source Sand fell from Lin Yuan's sleeve and dove into the ground. Soon, threads of gravel wrapped around and trapped the Flower Branch Mouse.

Lin Yuan brought the Flower Branch Mouse over to him, and it immediately went into hysterics.

He circulated his spiritual power and used an almost undetectable thread of spirit qi to calm the panicking Flower Branch Mouse. It did not take long for the Flower Branch Mouse to calm down.

Even when Lin Yuan instructed the Source Sand to release the Flower Branch Mouse, it obediently rested in his hand.

Lin Yuan was in no rush to evolve the Flower Branch Mouse.

Although Su Yiren had already sworn her loyalty to Lin Yuan and became someone that Lin Yuan could trust, there were still some things that she did not need to know.

When Su Yiren saw Lin Yuan's interest in the Flower Branch Mouse, she said, "Lord, there are many types of mice that appear in the slums. This type of mouse with brown fur prefers independence. It often picks leaves and fruits by itself. In the slums, it also doesn't transmit diseases. During the time that I've been here, I've seen this type of mouse at least 20 times."

Su Yiren found it slightly strange as she did not understand why this mouse that was not even a fey would interest Lin Yuan.

In Su Yiren's eyes, this type of mouse was worthless.

If it were valuable, the native elites of the Divine Wood Federation would not allow it to roam around the slums.

Lin Yuan's eyes lit up when he heard what Su Yiren said.

He had guessed from the robbers' reactions that the Flower Branch Mouse was very common. However, he did not expect to find it roaming in a slum.

Now he knew why the scout had looked at the Flower Branch Mouse on his shoulder with disdain.

However, the Flower Branch Mouse was a blessing to Lin Yuan.

Lin Yuan summoned Blackie and rode off to the capital with Liu Jie, Ji Feng, Little Flower, Little Grass, and Su Yiren.

Ji Feng booked an entire tree castle.

Lin Yuan had chosen a luxurious and family-style tree castle. There was only one level in the entire tree castle. There were numerous bedrooms around the large living room. This tree castle was mostly rented out to native elites who wanted to host banquets.

Su Yiren entered the tree castle. Before she even took a sip of water, she led Little Flower and Little Grass into the bathroom to shower.

At this moment, Lin Yuan called out to Su Yiren, "Su Yiren, do you have clothes to change into? If not, I have some fabric that you can sew into simple garments."

Su Yiren raised her wrist, and Lin Yuan saw that there was a round orange-golden disk.

Lin Yuan was very familiar with this round orange-golden disk. It was exactly the same as the one he had obtained inside the Class 3 abyss dimensional rift that had appeared in the Royal Capital.

However, the one hanging off Su Yiren's wrist was much smaller and more intricate than the one that Lin Yuan had obtained.

At first, Lin Yuan thought that people from the Dark Continent had targeted the Radiance Federation.

But later, he discovered from the evolving water world dimensional rift at the shores of Indigo Azure City that everything had been caused by Seventh Page War's scheme.

From her life experience that he had seen during the Astronomical Parliament's parliamentary meeting, Lin Yuan knew that the Seven States of Darkness had been destroyed, and the Dark Continent was under Seventh Page War's control.

This was why so many people from the Dark Continent had appeared at the evolving water world dimensional rift.

Seventh Page War's subordinates could order the spirit qi professionals from the Dark Continent around.

It was likely that the fall of the Seven States of Darkness and the Dark Continent was not solely due to Seventh Page War's actions.

Lin Yuan still did not have any plans to enter the Dark Continent. Hence, there was no need to tell Su Yiren about the news he had regarding Tower Canon and the Dark Continent.

Su Yiren noticed Lin Yuan had been looking at the round orange-gold disk on her wrist and said, "This is spatial equipment from where I'm from. It can store both living and nonliving things. It's about the size of four training fields. Since my spirit and soul had been injured, I couldn't make use of it. But now I can. I have many of my daily clothes stored in the spatial disk."

Lin Yuan did not say anything after he heard what Su Yiren said.

### **Chapter 1427: Stunning Appearance**

Lin Yuan picked up a red fruit with soft skin from the platter of fruit and bit into it before he started to explain who Su Yiren was to the confused Liu Jie.

Liu Jie had not joined the Astronomical Parliament, so he was unaware of Su Yiren's situation. Moreover, he spent most of his time in the Radiance Federation at the Spirit Guards' land so that the Insect Queen could control carcinoma feys.

He only spent a small amount of his time at the Return from Faraway Mansion. As such, neither Wen Yu nor Lin Yuan had the opportunity to tell him about Su Yiren.

Liu Jie felt that someone with a sacred source lifeform should not be struggling to survive in Oak City's slums.

There were no Class 5 Creation Masters in the Divine Wood Federation, and their best experts were thearch-class.

Sacred source lifeforms came from Class 5 dimensional rifts. It would not be easy for the Divine Wood Federation to clear out the dimensional lifeforms from Class 5 dimensional rifts to obtain the sacred source lifeforms. Thus, there should be very few sacred source lifeforms in the Divine Wood Federation.

Su Yiren's presence in the slums just did not make sense.

Additionally, Lin Yuan seemed already aware that Su Yiren would be here and had gone to the slums specifically for her.

Liu Jie recognized the spatial equipment hanging off her wrist as the spatial disk used by the elites of the Dark Federation.

It was not like the fey storage box, as others could use the fey storage box once the spirit imprint on it was removed. Once its contractor died, the spatial disk would become useless, and it would be almost impossible to retrieve the items within.

This instrument of secrecy was only owned by the elites of the Dark Federation. With this, Liu Jie could guess that Su Yiren came from the Dark Federation and was of considerable status.

"Big Brother Liu, Su Yiren was one of the Dark Envoys chosen by the Seven States of Darkness. I'm sure you're aware of the Dark Continent's situation. She fled from the Dark Continent to the Divine Wood Federation," said Lin Yuan.

Although Liu Jie had guessed that Su Yiren had to be of considerable status, he did not expect her to be a Dark Envoy chosen by the Seven States of Darkness. Her title allowed her to represent the entire Seven States of Darkness to engage the Radiance Federation. The individual Seven States of Darkness was not strong. They could not even defeat the Divine Wood Federation on their own. But when they joined forces, they could stand toe to toe with the Great Lush Federation, Divine Wood Federation, or the Iron Hammer Federation.

More importantly, there was a Class 5 Creation Master in the Seven States of Darkness. This Class 5 Creation Master was what linked the Seven States of Darkness. The Class 5 Creation Master's presence meant that the Seven States of Darkness were capable of producing top experts.

Su Yiren could be considered the cream of the crop in the Dark Federation. But now, she had become one of Lin Yuan's subordinates.

Liu Jie was a member of the Radiance Hundred Sequence and Night Leaning Moon's disciple. However, he knew that Lin Yuan was no ordinary young man. Hence, he understood the benefits that Su Yiren would enjoy by becoming Lin Yuan's subordinate.

If Lin Yuan wanted to enter the Dark Continent in the future, he would be able to do so with his head held high as long as Su Yiren was by his side.

Liu Jie's shock soon faded away, but Ji Feng could not overcome his astonishment.

Although Ji Feng was aware that Lin Yuan was the City Lord of Sky City and the Moon Empress' disciple, he still found it hard to believe that he had a Dark Envoy as one of his subordinates.

While Lin Yuan, Liu Jie, and Ji Feng were talking, Su Yiren had finished bathing herself and the two children.

After Little Flower and Little Grass were done showering, Little Flower picked up the white clothes Lin Yuan had made and started to wash them with care.

Su Yiren tried to help, but Little Flower thanked her before shaking her head. Instead, Little Flower picked up Su Yiren's torn clothes and prepared to wash them as well.

Su Yiren pinched Little Flower's cheek and said, "I won't be wearing these anymore."

In the bathroom, Su Yiren looked at her reflection in the mirror. She felt almost strangely sentimental.

A moment later, she took out a dark purple set of spirit qi clothes from the spatial disk. Purple Chestnut Crystals were embedded all over the spirit qi clothes, and it looked as though there was armor covering them. However, the spirit qi clothes were not heavy or bulky at all.

When Su Yiren put on the purple spirit qi clothes, she exuded a strange beauty.

She was already famous in the Seven States of Darkness before becoming a Dark Envoy. No man nor woman dared to say that they had fairer looks than her.

The men also admitted their loss in appearance because Su Yiren had an overwhelming spirit of valiance. She also had short hair, giving her a hero's aura.

Su Yiren's aura was largely related to the Absolute Love Poppy. She had a beauty that could immediately capture the gaze of living creatures and cause them to fall in love with her.

After she was dressed, Su Yiren pondered for a moment before she took a black fruit out of the spatial disk. She squeezed out the black fruit's juices and coated her hair with the juice. Once she was done, her purple hair was dyed black.

She was now one of Lin Yuan's subordinates and had observed that both Liu Jie and Ji Feng had black hair and eyes. Hence, it would be best for her to change her eyes and black as well in order to look like she was part of the group.

Next, she took out a pair of earrings and wore them. The dangling earrings would draw eyes to them as they gently swayed.

Su Yiren took a deep breath and pushed the bathroom door open. She walked out and made a beeline for Lin Yuan.

Lin Yuan, Liu Jie, and Ji Feng looked over when they heard her footsteps. All of them were stupefied when their eyes landed on the clean Su Yiren.

At that moment, Morbius used Calm Mind on Lin Yuan.

## **Chapter 1428: Test and Guess**

Calm Mind was a triggered ability. Whenever Lin Yuan experienced any negative spiritual or soul effects, or any external influences on his spirit and soul, Calm Mind would be triggered.

Su Yiren had already sworn her loyalty to Lin Yuan on a Willpower Rune. Thus, she would not dare to use the Absolute Love Poppy to seduce Lin Yuan.

Calm Mind had been triggered because of Su Yiren's natural, exceptional features, and the Absolute Love Poppy's abilities had combined with Su Yiren's aura.

Lin Yuan recovered from his stupor after an instant. It could be said that she had the most outstanding features of any woman he had ever seen.

However, a woman's appeal did not only come from one's countenance.

The Moon Empress, Night Leaning Moon, and Wang Fuxiang had stunning features, formidable personalities, and auras that had taken shape after their years of experience. Su Yiren could not replicate these.

Moreover, Su Yiren's short hair gave her an overly masculine aura which greatly reduced her appeal to the opposite sex.

Liu Jie soon regained his senses after Lin Yuan. He continued to be shocked by Su Yiren's looks, but he felt that it would be difficult to say whether she or Lin Yuan was better looking.

Ever since Lin Yuan had gone to the Radiant Moon Palace after returning from the Divine Wood Federation, Liu Jie had noticed that Lin Yuan's features had become more pleasing, and his bone structure had become straighter. His changed bone structure made every single bone in his body exude a natural and exquisite beauty.

Lin Yuan's aura had also become purer. The eliteness that radiated from him was even more mesmerizing than that of those who had been born with a silver spoon in their mouths.

As gorgeous as Su Yiren was, her features were not as remarkable as Lin Yuan's after the Earth Center Fine Milk had transformed him.

Throughout a person's life, any bad posture or bad habit would affect one's bone structure.

No matter how much Su Yiren tried to pay attention to her actions, her bone structure could not compare with Lin Yuan's.

After becoming used to looking at Lin Yuan, Liu Jie became immune to Su Yiren once he was over the initial shock.

Meanwhile, Ji Feng's gaze remained locked on Su Yiren, and he only managed to tear his eyes away after a full minute.

However, this was not because he lacked self-discipline. As an emperor-class expert, he had much more self-discipline than Liu Jie and Lin Yuan.

Lin Yuan and Liu Jie were able to recover quicker than Ji Feng because of their trained perspectives and because they had contracted sacred source lifeforms.

The sacred source lifeforms in Lin Yuan and Liu Jie's souls could resist the Absolute Love Poppy's abilities.

Although Su Yiren was not releasing the seductive aura on purpose, she could tell from the three men's reactions that Lin Yuan and Liu Jie had contracted sacred source lifeforms.

This only made her even more curious about Lin Yuan's identity.

Both Lin Yuan and Liu Jie were younger than her.

Liu Jie addressed Lin Yuan as his better and acted like a retainer.

If even Lin Yuan's retainer had a sacred source lifeform, Su Yiren could not imagine what kind of status Lin Yuan had.

Su Yiren was silent for a moment before she asked Lin Yuan, "Lord, I am now your subordinate. You already know my status, and I would like to know yours. Knowing your status will also make it easier for me to decide on the best methods when carrying out my assigned tasks."

Lin Yuan had wanted to chat with Su Yiren about the job he would give her and his goal of being in the Startling Lines Continent.

Since Su Yiren had spoken before he could broach the topic, it would save him the effort. However, he was not going to tell her about his identity.

Instead, he wanted to see if she would be able to guess his identity through his demeanor and other clues. This was so Lin Yuan could test her analytical skills.

"You might not be certain about our identities, but I'm sure you already have your guesses," said Lin Yuan.

Su Yiren immediately understood that Lin Yuan was testing her. She was more than happy to accept the challenge. The more Lin Yuan challenged her, the more she would be able to show off her abilities and become useful in his eyes.

Since she had sworn her loyalty to him on a Willpower Rune and had formed a contract with a north-south constellation seat, her life now lay in Lin Yuan's hands.

"Lord, both your eyes and hair are black, and you are here in the Startling Lines Continent. This should indicate that you're a member of one of the secret elite families in the Great Lush Federation. However, the secret elite families in the Great Lush Federation have the tradition of nurturing their young direct descendants to a certain age before sending them out to train. It is impossible for any disciple of a secret elite family to gain three sacred source lifeforms using such a method of nurturing. Moreover, you and your two companions are much more charismatic than the members of the secret elite families from the Great Lush Federations.

"Although I'm unable to pick up anything from your gaze, your companion, who's around the same age as you, looked calm while your companion, who's older than you, looked scornful when they were

discussing the Divine Wood Federation. This means that your older companion doesn't think much of the Divine Wood Federation and even looks down on it.

"Following this logic and given your hair and eye color, only the Radiance Federation, Sand Island Federation, and Spirit Mother Federation fit the bill because they're the only places with Class 5 Creation Masters.

"However, the Sand Island Federation is a desert. The people who live there are exposed to the desert winds, and this environment will definitely be evidenced by their skin regardless of how often they shower.

"From the moment that the people from the Spirit Mother Federation are born, they use fey blood to paint their bodies with patterns that depict their growth and life experiences. None of you have these markings. Thus, only the Radiance Federation, which has three Class 5 Creation Masters, can produce someone like you."

### **Chapter 1429: Trapped Love Poppy and Odd Method of Fey Contraction**

Su Yiren paused before adding, "I also guessed that you could be a member of a powerful group like Tower Canon. However, you wouldn't ask me to guess your background if you're truly from a secret group. Suppose you're from Tower Canon, that would mean you aren't here to save me but to kill me so as to tie up loose ends."

Lin Yuan nodded in satisfaction and asked the second question, "How do you think I should go about gaining control of all the resources in the Divine Wood Federation and Iron Hammer Federation?"

Su Yiren inhaled sharply. She did not expect Lin Yuan's plan to be on such a large scale.

After talking to Little Flower and Little Grass, she found out that Lin Yuan was not evil. Thus, she purposely pondered for some time before she gave her suggestion.

"I think that you can use the Divine Wood Federation's old method by making use of the chambers of commerce to absorb the Divine Wood Federation and Iron Hammer Federation's resources. Moreover, this method will be more acceptable to the people from the Divine Wood Federation and Iron Hammer Federation. There might even be some who come to thank you.

"However, it will take a large amount of effort to start a chamber of commerce, recruit merchant groups, and open branches in the various cities. If you don't have the time for all this work, you can start by supporting a small chamber of commerce from the Great Lush Federation. Alternatively, you can leave the matter to me. I will definitely be able to perform with flying colors."

Su Yiren's idea coincided with Lin Yuan's own plan. However, Lin Yuan had not planned as far as she had.

Nonetheless, her idea of supporting a small chamber of commerce was feasible.

The Deep Freeze Chamber of Commerce's attitude made Lin Yuan aware that relying on and drawing limitless resources from merchant groups would be impossible.

He had happened across the Deep Freeze Chamber of Commerce's devouring of merchant groups, but this did not mean that there were no other chambers of commerce who were doing the same thing.

Thus, it was a good idea to support a chamber of commerce.

The Prosperous Chamber of Commerce immediately came to Lin Yuan's mind. They were not small and did not need to be built up from the ground. Moreover, they already had problems, so it would not be impossible to start supporting them.

Lin Yuan had never thought about allowing Su Yiren to set up a chamber of commerce. He felt that he would be underusing her talents by letting a Dark Envoy open a chamber of commerce.

He was going to start developing the marsh world.

Lin Yuan could not stay at the underground palace in the Divine Wood Federation and handle everything personally. He needed someone who could carry out tasks on his behalf.

Su Yiren was just the right person for this job. With her capabilities, she could also help Ta Lei set up a new city in the Horseshoe Tribe's territory.

So far, Lin Yuan had only instructed Genius to transfer Class 1 Creation Master knowledge into Ta Lei's mind. He had not thoroughly investigated Ta Lei's innate talent.

If Ta Lei was talented enough, Lin Yuan would be able to nurture Ta Lei into a member of the Iron Hammer Hundred Sequence. He might even be able to push Ta Lei into becoming an Iron Hammer Envoy.

However, whether this future was possible depended on Ta Lei's talent and power.

There were only four people in the Astronomical Parliament besides Lin Yuan and Wen Yu.

Lin Yuan had already met up with Su Yiren and Ta Lei in real life.

Yin Lin was an Azure Envoy and was headed to the Radiance Federation as a representative of the Azure Federation. Hence, Lin Yuan would eventually be able to meet up with her if he wanted to.

As for Bei Xu, Lin Yuan was still unsure where the Grotto Continent was. This place was not recorded in any of the books in the Radiance Federation, which meant that it either did not exist in a federation or the federation it belonged to had never participated in the Major Federation Meeting.

Thus, Bei Xu would need to leave the Grotto Continent in order for Lin Yuan to meet with him.

Alternatively, Lin Yuan could use the Ethereal Jellyfish's center tentacle to open a Space Tunnel from the Divine Wood Federation to the Grotto Continent once he stocked up on enough Item-Storing walnuts.

Lin Yuan was still unsure about which choice he would make.

Su Yiren had been waiting for Lin Yuan's response.

She had just become Lin Yuan's subordinate and badly wanted to prove herself. However, she expected him to be in a hurry to assign tasks to her.

Instead, he said with amusement, "I'm interested in your sacred source lifeform. If you're willing, I would like you to summon your sacred source lifeform and main feys."

Su Yiren waved her hand without hesitation and summoned her four main feys.

When he saw the four main feys that Su Yiren summoned, Lin Yuan was taken aback. He did not expect them to be the exact same red flower plant-type feys.

Judging from their appearance, they were probably from the poppy genus.

When Su Yiren saw Lin Yuan looking at her feys curiously, she said, "All four of my main feys are the Trapped Love Poppy."

At that moment, a thought seemed to strike Su Yiren, and a wounded expression spread across her face before she went on to say candidly, "My situation is special. People usually contract feys before they contract their sacred source lifeform. However, it was the other way around for me. I contracted the four Trapped Love Poppies to improve the Absolute Love Poppy's power.

"My grandmother is the only Class 5 Creation Master in the Seven States of Darkness. She has been feeding me Ice River Essence ever since I was young to boost the strength of my soul. When I was five, I consumed three units of the Ice River Essence. Three years later, Grandma told me to try and form a marrow contract with a sacred source lifeform, and I succeeded by accident. From then on, I centered my combat style around my sacred source lifeform. The feys I contracted are also meant to support my sacred source lifeform."

Lin Yuan, Liu Jie, and Ji Feng were all silently shocked by what they had just heard.

Su Yiren truly lived up to her status as being the top Dark Envoy from the Seven States of Darkness. However, her method of contracting feys was too odd.

But this did not mean that her method was weak. Rather, it allowed someone as young as her to have influence over a pinnacle emperor-class expert like Ji Feng without purposely triggering her sacred source lifeform's ability. This was proof that her method of contracting feys was successful.

Lin Yuan thought about what he had seen in Su Yiren's memories.

It was no wonder that she had the courage to take on Seventh Page War.

### **Chapter 1430: Thoughts of Love**

This was not the first time Lin Yuan encountered someone who had contracted only the same type of feys.

Before Lin Yuan had established a link with the Cage of Brahma Insects, Lu Pinru had already used her spiritual energy to contract almost 20 Glowing Silkworm Weavers.

Now, she could produce one set of clothes inside the closet she carried on her back almost every second during battle. The more Glowing Silkworm Weavers she contracted, the larger the closet would become.

Now, besides continuing to contract more of the Glowing Silkworm Weaver and designing spirit qi clothes with Wen Yu, Lu Pinru also had a plan to become fitter. Otherwise, she might not be able to carry the enormous closet.

Moreover, if Lin Yuan had not accidentally mutated the Spirit Spring Lily into the Yellow Spring Lily, Gao Feng would have contracted three of the Spirit Spring Lilies. If this had happened, Gao Feng might not have been able to become a disciple of a member of royalty.

Lin Yuan used True Data to check on the four Trapped Love Poppies that Su Yiren had summoned. He noticed that they had the same Bronze exclusive skill, Thoughts of Love.

[Thoughts of Love]: Allow other targets to unknowingly feel love. Once the love reaches a certain level, a love imprint will be left on their mind, spirit, and soul. The love imprint can be used to control the target.

It was evident that the four Trapped Love Poppies had been carefully chosen before they were contracted.

Since the four Trapped Love Poppies were contracted to aid the Absolute Love Poppy, they did not have impressive abilities.

Su Yiren's true power could only be gauged from the Absolute Love Poppy's abilities.

After summoning the Trapped Love Poppies, Su Yiren raised her hand, and the pink Absolute Love Poppy appeared in her palm.

At that moment, Su Yiren's eyes turned pink, and they shot out dense streamers that turned the area around her pink. The feeling of love in his area started to rise rapidly.

The Sacred Sword Wielding Queen in Lin Yuan's soul and the sacred source lifeform in Liu Jie's soul released their sacred source lifeform aura to block out the intensifying feelings of love in the area.

But Ji Feng's mind had been completely lost to the Absolute Love Poppy.

Su Yiren hurriedly hit Ji Feng's head forcefully and snapped him out of his stupor.

Ji Feng immediately felt fearful and awkward when he came to his senses. He knew that if he continued to be affected by the Absolute Love Poppy, he would be unable to hold back and become a puppet that was fully at Su Yiren's mercy.

After Su Yiren hit Ji Feng, she did her best to control the Absolute Love Poppy's power to prevent it from affecting Ji Feng.

Lin Yuan and Liu Jie shared a look of incredulity because the sacred source lifeforms in their souls could feel the pressure from the Absolute Love Poppy.

This meant that the Absolute Love Poppy's Stars had to be high.

Lin Yuan used True Data to check on the Absolute Love Poppy, and his eyes widened.

[Sacred Source Name]: Absolute Love Poppy

[Sacred Source Species]: Source genus/Sacred Source species

[Sacred Source Star Grade]: 6 Stars

[Sacred Source Type]: Spiritual-type/soul-type/mind-type

Abilities:

[Love Desire Glass]: By using the mind, spirit, and soul, the target will feel enormous love that will strike the target's most important parts. A piece of glass that contains love will be formed. When the glass is broken, the target will give up its energy core, and its combat power will be triggered. Once the energy core is used up, the target will die.

[14 Poppy Fruits]: Contract 14 lifeforms of the same gender as the contractor, and the Absolute Love Poppy will plant a small poppy fruit inside the 14 lifeforms. The targets will gain a small amount of the Absolute Love Poppy's power, and their appearances will change as well. The poppy fruits inside the targets will absorb the love from the target and transfer it into the Absolute Love Poppy to increase its Stars.

Lin Yuan did not expect the Absolute Love Poppy to be 6 Stars. This meant that it was in its adolescent stage and only needed one more Star to reach 7 Stars and its adult stage. It would also gain its third ability.

Besides the number of Stars, Lin Yuan also saw that the Absolute Love Poppy was a spiritual, soul, and mind type.

The spirit governed thoughts, the soul governed consciousness, and the mind commanded the body. Controlling any of them will be a powerful influence over the target.

Since the Absolute Love Poppy could control all three, it meant that it was the strongest sacred source lifeform Lin Yuan had ever encountered.

The Absolute Love Poppy's two abilities were both centered on control.

Love Desire Glass could use love to control a target and even set the target on fire by smashing the glass. This would enable the target to use combat power beyond their usual capabilities.

If Su Yiren was powerful enough, she would be able to control every spirit qi professional on earth and turn them into her personal shield or weapons.

If the situation called for it, she could even destroy her weapons to make her attack or defense stronger.

Love Desire Glass was enough for Su Yiren to live up to her status as a Dark Envoy.

As for 14 Poppy Fruits, it seemed like an ability that would help the Absolute Love Poppy to increase its Stars quickly. It explained why the Absolute Love Poppy was able to increase its Stars so quickly.

However, Lin Yuan felt that there was more to 14 Poppy Fruits than met the eye. In fact, it was even more terrifying than Love Desire Glass.

Su Yiren could choose 14 spirit qi professionals and plant poppy fruits into them. This would essentially give her 14 clones that she could spread around to collect love on her behalf.

Using love to control targets was similar to dimensional lifeforms using faith to control their targets.
